

THE JUNCTION EAGLE

Junction, Kimble County, Texas, Thursday, January 31, 1929

Number 42

Volume 45

COMMISSIONERS COURT SECURE ROAD MARKERS FOR KIMBLE HIGHWAYS

Kimble County is going to be advertised to tourists by means of large sign boards, according to Judge J. B. Randolph. The Commissioners' Court composed of Judge J. B. Randolph, A. B. Hodges, J. P. Ragsdale, G. W. Hardesty and H. W. Bierschwale, voted to put up these signs upon recommendation by Judge Randolph.

The script on the signs was written by Judge Randolph. The idea of placing these signs was first brought to Judge Randolph's mind when he was making a trip a year or so ago and could never tell the county which he was in. He decided then to accomplish this work for Junction as soon as possible and now the signs are a reality for they are already painted and ready to be placed. They will be placed on the county line on every highway entering Kimble County. Signs will be placed on the Sonora, Kerrville, Mason, Rocksprings, Brady and Menard highways where the county line is located. The commissioners will place the signs and will thus cut down the expenses of getting someone to place them. According to Judge Randolph the signs will be attached to cedar posts over eight feet high. These posts will be placed three feet in the ground and the bottom of the signs will be over three feet from the ground. Large bolts will be used to attach the signs to the posts, in order to assure the secureness of the signs. On the side of the sign which will be seen by the incoming tourist are painted these words: "Kimble County Welcomes You, Junction (7) miles. On the reverse side are painted these words: "Good Bye, Good Luck, Come Again, Kimble County." They are attractive signs, well colored and unique enough to attract the attention of the motorist.

In addition to these county line markers, a number of school signs have been painted which will be placed on the highway on each side of the school buildings, and also some signs which will be placed at danger spots on the highways in Kimble County. Some of these signs read as follows: "Slow! Don't be a Road Hog." "Slow! You may meet another fool." "Look Out! Two fools may meet." "Slow! You may kill a child." The signs are effective and to the point.

The Commissioners' Court of Kimble County deserve much credit for preparing these signs in order that tourists may be informed, and school children protected from the careless driver.

Local Bakery Equipped With Modern Machines

One of the most complete bakery plants in this section is the City Bakery in Junction owned by Mr. J. O. Wright. The entire plant is equipped with modern electrical machinery.

A large oven with a capacity of 250 loaves of bread is one of the main features of the bakery. All the dough is mixed by an electrical mixer, and the finished loaf is wrapped and sealed in an air tight wrapper by means of an electrical wrapping machine. Everything in the bakery line is prepared in this shop.

PRESBYTERIAN SERVICES

The Rev. L. E. Selfridge has written that he will preach at the Methodist Church in Junction Sunday morning, February 3. All Presbyterians are urged to be present, and a cordial invitation is extended everyone to attend the services.

W. P. Riley spent the first of the week in San Antonio.

SOME SALESMAN!

A firm in Brady sold a buggy; one of these one horse affairs with shafts, and everything. The order for this buggy came from an old timer around Brady who decided that his old buggy had gotten too old and had begun to rattle.

But here's the hitch to the story. The Brady merchant did not have a buggy, but being a good business man he started scouting around for one. He looked far and wide; he scoured the land until finally a merchant over in Dublin, Texas, was frank enough to admit he had two. One was promptly obtained and it lay in state for a day in Brady to let the children see what a real buggy looked like.

W. L. Roe of Junction Dies Thursday, Jan. 24

Mr. William Lafayette Roe, aged 80, died in Ingram last Thursday, January 24, after an illness of three weeks. The funeral was conducted by the Rev. Milton F. Hill at the First Methodist Church in Junction. The body was interred in the Junction Cemetery.

Mr. Roe was born in Polk County, Texas, April 8, 1848. In December 1862 he moved to Bastrop County and remained there until 1904 when he moved to Kimble County. In 1870 he was married to Miss Della Turner. To this union twelve children were born, nine of whom are living today. The children living are: J. S. Roe, Junction; G. F. Roe, Uvalde; W. C. Roe, Austin; D. T. Roe, Ingram; Mrs. Edna Williams and Mrs. F. J. Kessler, Austin; Mrs. Jim Smith, Ingram; Miss Sallie Roe, Junction and Miss Emma Roe, Harlingen.

Until his death, Mr. Roe was alert and active, both mentally and physically despite his four-score years. He was one of the old time pioneers of the western range.

Big Department Store To Open in Junction

In 1911 Mr. Phillip Joseph opened a dry goods store in Junction. After years of growth and development, Mr. Joseph now announces that he will open a large department store which will have over five thousand feet of floor space, and will include a department especially for men.

The new store is expected to open on or about February 15, according to Mr. Joseph. The exact date of the formal opening has not been announced.

The building which the Men's Furnishing Department will occupy is in the process of being remodeled and the display windows will extend eight feet into the interior of the building. New fixtures have been bought for the entire store.

Mrs. Mattie Patterson and daughter, Patricia, and niece, Miss Vivian Livingston, visited Mrs. Frank Patterson, who is ill in the Secor hospital in Kerrville last week. They were accompanied home by Frank Patterson, who reports that his wife is much better and will leave the hospital this week. She will visit friends in San Antonio before returning home.

Mr. and Mrs. H. O. Denman attended a Chamber of Commerce banquet in Ballinger Tuesday evening. They visited in the home of Mr. and Mrs. J. D. Motley while there.

Mr. and Mrs. L. D. Borden of Austin arrived in Junction the first of the week. Mr. Borden will be connected with the Borden Ice Plant. They will rent rooms from Mr. and Mrs. H. G. Hubert.

W. M. S. OF METHODIST CHURCH WILL SPONSOR ZONE MEETING HERE

The Zone Meeting of the Woman's Missionary Society of the Methodist Church will be held in Junction on February 7, according to Mrs. Joe Bissett. Representatives from the Methodist Churches of Brady, Menard, Melvin and other churches will attend the Officers' Training Program which is to be held here. The public is invited to attend the program.

The officers will meet in groups for the study. Corresponding Secretaries, Recording Secretaries and Treasurers will meet together and the representatives from the Menard Methodist Church will have charge of this meeting. Superintendents of Young People's Work, Children's work and study will meet together and representatives from Brady will have charge of this meeting. Mrs. Joe Bissett of Junction will have charge of the Superintendents of Publicity, Social Service and Supplies.

The meeting will open at 10 o'clock when Miss Pearl Smith will deliver the devotional. The program for the day is:

10:30 Group meeting of officers.

12:00 Special music, Mrs. C. W. McCarroll.

Agents of Missionary Voice—Brady.

General discussion.

12:30 Luncheon.

2:00 Prayer.

Report from Missionary Conference.

Reading, Mrs. Renfro, Menard.

Plans for the year's work—Miss Pearl Smith.

Talk on Leadership—Rev. W. H. Marshall.

Conservation Service.

Dismissal.

Medina River Session Meets in Kerrville

The Monthly Workers' Conference of the Medina River Association will be held at the Kerrville Baptist Church February 5, 1929. The meeting last month was held at the Hunt Baptist Church. Last time the meeting was held two days were set aside for the meet, but this meeting will last only throughout Tuesday.

The program of the meeting is:

9:30 a. m.—Devotional service, led by Rev. A. T. Nixon, Ingram.

10:00 a. m.—The Principle of Christian Stewardship, 1 Peter 4:10. Rev. G. W. Crabbs, Junction.

10:40 a. m.—Fitting, Malachi, 3:8-12. Rev. J. A. Dekle, Kerrville.

11:20 a. m.—Sermon, Rev. Jno. F. Peachey, San Antonio.

12:00 Noon. Dinner on the ground for all.

1:30 p. m.—Devotional, led by Rev. Smith of Bandera.

2:00 p. m.—Stewardship and Budgeting, J. W. Storms and W. H. Price.

3:00 p. m.—Women's Program, led by Mrs. M. S. Osborne.

LAST DAY

This is the last day to pay taxes without a penalty being attached. The collectors' office reports heavy receipts the past few days. Thirty days grace has been given automobile owners to secure new numbers for their cars, but that period of grace expires today. The office is very busy today and will remain open later than usual to take care of those who wait until the last minute.

BEAUTY SHOPPE OPENS

The Southern Beauty Shoppe No. 2 was opened in Junction last week and is situated in the Model Shop. Mrs. Ruth Halladay, who has had seven years experience in this line of work, is in charge of the shoppe.

COMMUNITY SERVICE IS PROGRAM OF VOCATIONAL AGRICULTURE MEMBERS

The Vocational Agriculture Class of the Junction High School under the direction of Mr. A. J. Bierschwale has been doing some community service during the past few days. This service is a part of the program, and Mr. Bierschwale stated that the class was willing to do all that is possible within the limited time which they have.

Many calls have been received by the class to prune fruit trees, cull poultry and top work trees. Some of these calls have been answered and the work has been accomplished, and the class is anxious to accomplish more.

The Parent-Teachers' Association has asked the Vocational Agriculture class to lay two hundred and twenty-five running feet of concrete walk around the school building. This job will be done by the class soon. They began Tuesday by laying some of the forms. This walk will be especially beneficial to the children in the lower grades who have in the past been forced to march into the school through mud and water when a rain came.

Sixteen young fruit trees were pruned for Mr. Frank Randolph last week. There were sixteen members in the class and each member was given a tree to prune, while Mr. Bierschwale supervised all the work.

Mr. Randolph was so pleased with the work of the members of the V. A. Class that he promised to share with them the first fruits which were gathered from the orchard.

Junction Quintet to Play Menard Friday

The Junction High School basketball team will meet the Menard Quintet in a match game tomorrow on the local High School court at 4 o'clock p. m. Junction played Menard last Friday and was defeated by the count of 20 to 11. The game to be played here tomorrow is a return engagement.

The starting line-up of the game last week was: Leonard Dunbar and "Buckshot" James, forwards; Lofton Little, center; and Sherman Hendricks and Russell Lavelle, guards. Those making the trip to Menard were: Dunbar, Newman, James, Hendricks, Little, Lavelle, Jeter, Jones and Wright.

Some of the Junction men are still ineligible, according to information received from Coach Earl Bowers. This has proved a handicap to the team in the previous games, and it is hoped that all the men will become eligible before many more games are played.

Mason and Rocksprings have written to Coach Bowers wanting to arrange for games, but to date no matches have been agreed upon with these two schools.

The local court has been placed in excellent condition by the members of the squad who have helped in painting the goal posts and preparing the court.

About eleven men are working out regularly now, and the team is improving rapidly. The business men of the town are urged to attend the game Friday and see the team in action.

WEATHER REPORT

A norther last Thursday, January 24, brought a considerable drop in the temperature. There was considerable ice Saturday morning. The temperature rose until Wednesday morning when there was no ice. It continued warm until last night when a new norther made its appearance. It is cloudy and cold this (Thursday) morning with prospects of snow. A good snow or rain is needed to put moisture in the ground.

GROUND-HOG, BE KIND

The Ground-Hog or Woodchuck, North America's most common marauder, is going to awake from its hibernation Saturday, venture forth into a cold wintry day and prophesy a little as to just what kind of weather will prevail for the next six weeks. If he sees his shadow, he will make a dive for his hibernation den and remain for six long weeks of bad weather. If he does not see his shadow, then according to the popular myth, there will be an early spring.

If this little weather prophet knows what he is about, it is hoped that he prophesies an early spring.

C. of C. Plans For Membership Drive

The growth and development of Junction have increased until the present budget is inadequate to take care of the work now being sponsored by the Kimble County Chamber of Commerce. At a meeting of the executive committee this week, it was decided to make an effort to enlist the business and professional men of Junction and Kimble County who are not now contributing to the Chamber of Commerce. Several new firms have opened and there are new professional men who have not been given an opportunity to contribute to the work being sponsored by the organization. Some will be asked to increase the amount now being given each month.

A general meeting of the organization will be held on the third Tuesday evening in each month, so that the executive committee may have the advice and counsel of the entire organization. There is much work to be done by the Kimble County Chamber of Commerce this year and the hearty co-operation of every member is needed to accomplish the work outlined.

Fire Causes Damage To Local Music Shop

Last Monday morning about 10:30 o'clock a fire alarm was turned in from the B-C Music Shop where some trash had become ignited. The Junction Fire Department answered the call, and extinguished the flames before much damage was done.

According to City Fire Marshal John M. Hankins, the damage to the rear of the music shop amounted to around \$200. Most of the damage resulted from the heat which damaged the window frames and ruined the glass in the windows. The origin of the fire is unknown.

This incident more forcibly brings to the minds of the people the absolute necessity of keeping all trash and rubbish cleaned up. Not only will the danger of fire be eliminated, but also the streets and alleys will look better, thus improving the appearance of our city. Nothing is more unsightly to tourists than conspicuous trash piles in the heart of a city.

Schreiner-Hodges Co. Ships 5 Cars Pecans

This week five carloads of pecans were shipped out of Junction by the Schreiner-Hodges Co., according to Mr. J. N. Hodges. A previous shipment totaled twenty-one carloads, and with these this week, the total is brought to 26 carloads. Two carloads are still in the warehouse on Holekamp Street awaiting shipment.

Mr. Hodges said that he believed that over 250,000 pounds of pecans were left ungathered in Kimble County this season because of the low prices prevailing for pecans.

NATIONAL THRIFT WEEK IS OBSERVED AT LOCAL MEET OF P. T. A. MONDAY

Thrift was the keynote of the program given at the Parent-Teachers' Association meeting held last Monday afternoon in the Schreiner High School auditorium. The meeting opened at 4:15 o'clock when the Rev. Milton F. Hill led the assembly in prayer. In union the assembly sang "Onward Christian Soldiers." After the song, Mrs. W. P. Riley, who presided over the meeting, turned the meeting over to Mrs. George Pepper who was the chairman of the program committee.

Mrs. Pepper called upon the Rev. J. S. Newman to give the scripture reading.

Since this meeting was the first one of the new year, Miss Mabel Hodges gave a reading entitled "The New Year." The combined girl students of the eighth grade sang "Thrill for a Rainy Day." Little Bill Barnes presented to the audience an article entitled, "The Habit of Thrift." Following this reading, Miss Mary Hubert presented an interesting essay covering the subject, "Benjamin Franklin as the Father of Thrift." Miss Hubert gave a brief account of the career of this great American statesman, inventor and scientist. She discussed Franklin as a Journalist and as an educator and showed the audience just why Franklin deserves the title as Father of Thrift.

At the conclusion of this program the meeting was turned over to Mrs. Riley who introduced to the audience Mrs. S. T. Gilmore of Sonora who is president of the sixth district of the P. T. A. of Texas.

Mrs. Robt. Loeffler, secretary read the minutes of the previous meeting, which were accepted by the membership. Mrs. Roy Blackburn, treasurer, gave a brief report of the financial condition of the association.

One of the most interesting moments of the program was when Mrs. Blackburn arose to enumerate the list of achievements accomplished by the P. T. A. during the year closed. Such accomplishments as the repair of the playground equipment, books purchased for the library, placing of safety zones about the school building, new sidewalks and new transoms for the class rooms of the school, were enumerated.

After discussing other routine matters and after an address delivered by Mrs. Gilmore, the meeting adjourned.

The next meeting of the P. T. A. will be held February 17 in the school auditorium and the theme of the program will be Child Welfare. Mrs. E. R. Borden was appointed to take charge of the arrangements for the program.

The book which is donated at each meeting to the class who has more parents at the meeting was given to the fifth and eleventh grades this time since these two classes tied. In addition the association voted to appoint a committee to study the needs of the school library and to purchase new books for it.

EPISCOPAL CHURCH NEWS

Services will be held at the Trinity Episcopal Church Sunday, February 10, according to the Rev. F. M. Brazier, pastor. At the morning service Holy Communion will be held. The Rev. Mr. Brazier stated that he would be in Junction Saturday, February 9, for a day of visiting.

The public is invited to attend the services. The Rev. Mr. Brazier stated that he had been very ill with the influenza for a month, but he expects to be in Junction on February 9 and 10.

Mr. K. Hibdon is spending the week on the Will Allison ranch.

School Notes

The old students of Schreiner High School welcome the following new pupils, who have joined us during the last two weeks: Lorraine Wilson of Weslaco, who is a junior; Vera Mae Wilson of Weslaco, Emma Hensley of London, and Mary Lou Roberson of Raymondville, all of whom are freshmen. As you see the eighth grade is still increasing, they will reach the fifty mark. Other new pupils are: fifth grade, Willie Bell Roberson of Raymondville, Martha Hensley of London, Leo Wimberly of Breckenridge, and Hugh Lee of Duel; third grade, Robert Summers of London; second grade, Pauline Roberson of Raymondville and Pura Ramos of Breckenridge; first grade Edith Gay of Graphite Mines, Helen Little of Houston, Doris Wimberly of Breckenridge, Annie Ruth Hoover, Ida Lou Williams of Paint Rock, Theresa Balks of Teacup, Paul and Baldimar Romas of Bracketville.

As it is seen from the list above the first grade is still increasing, and Miss Durst says she lacks at least eight desks.

Mrs. Felps: "Othal, correct this sentence and give your reason for the correction. 'The horse and the cow was in the pasture'."

Othal: "The cow and the horse was in the pasture. Ladies come first."

The basket ball girls are planning to begin practicing their play, "Lighthouse Nan," which they intend to present sometime in the near future for the purpose of raising funds for sweaters and other expenses.

Louise Turner has been absent from school since Christmas on account of serious illness, but we hope she will be with us again soon. Frank Hubbell was also absent part of last week on account of illness, but we are glad to see him back today.

Herbert: "Russell, you know I used to have a beard like yours, but when I found out how I looked I cut it off."

Russell: "Yes, I used to have a face like yours, but when I realized how I looked and that I couldn't cut it off, I let a beard grow."

We are glad to see that Mrs. Hardeman is back teaching her expression class this week after last week's absence on account of illness.

Notice: Anyone who wishes to take fishing lessons, please see Miss Lorena Couey. Mr. and Mrs. H. B. Cowles spent the week-end in Melvin, visiting Mr. and Mrs. Sutton, Mrs. Dutton's parents.

Well, mid-terms are over and weeping, wailing, gnashing of teeth and scolding of teachers could be heard throughout the school building when the pupils got their grades. You can imagine the result when they received their report cards Monday. We hope none of them will go blind from swollen eyes resulting from weeping.

The K. E. Billings Furniture Co. has donated the school 18 yard sticks for which we thank them very much.

Mrs. Grady Kindrick is back in school after absence last week on account of illness. We are glad to see her back.

Mr. Clyde Skeine was a visitor of Schreiner High School last Monday week; we were glad to have him.

Miss Marjorie Montgomery is planning to visit Tubb Valley some time in the near future.

The seniors had a picnic last Friday night, chaperoned by Mr. and Mrs. Earl Bowers. Several seniors were absent on account of the weather but those present invited a guest. Those present were: Ruth Sandherr, Virginia Strong, Elsie St. Clair, Lola Mae Goben, Othal Ivy, Nevada Blackburn, Mildred Hodges, Willie Mae Schneider, Herbert Newman, Max Riley, Fred Beasley, Lofton Little, Jack King, Leonard Dunbar, Russell Lavelle, Ted Rowe, Warren Braley, Cloma Murrah, Elsie Bessent. All reported an enjoyable time.

Mr. Cowles says there are still more people eating candy than there are drinking soup. Loree to dress clerk: "I want a dress to wear around the house."

Dress clerk: "How large is your house, ma'am?"

Miss Mary Ellis Blackburn has her left hand bandaged because of torn ligaments. She says it was caused by scuffling with her brother, Johnnie.

We wonder why M. C. is so happy this week, and why he is so contented to be in the tenth grade?

All the high school was very excited Monday at noon. Mr. Cowles was playing base ball and he made a home run, and yet said he wasn't tired.

The ninth and eleventh grades are now studying Literature, but our sympathy goes out to the tenth and eighth grades, who are having to ponder over Grammar and Composition.

The seniors have been keeping their hands clean and well in view the last few days; their class rings have arrived.

The juniors are planning to order their class pins soon. We think they are rather late, but it is better late than never.

Mrs. Dutton to the seniors: "I suppose you all know that there will be an eclipse of the moon in a few nights. I hope you will all see it."

Columbus: "I wonder what the admission will be?"

The basket ball boys played London last Thursday week; the score was 13-12 in favor of London. They played Menard last Friday; the score was 22-11 in favor of Menard. We were sorry to hear of these defeats, but we hope their luck will change when they play Menard on the home courts next Friday.

P. T. A. meeting was held in the school building Monday afternoon. It is customary for the class having the most parents present to receive a book. The fifth and eleventh grades received the books.

Mr. Cowles to Max as he comes in late: "Max, you've been tardy every day for a week; hereafter I want you to get here earlier."

Max: "Yes, sir."

Mr. Cowles to Max as he came in late again the next morning: "Max, did you hear me yesterday when I told you to come earlier?"

Max: "Yes, sir, yesterday morning I was fifteen minutes late, and today I was only thirteen minutes late."

Miss Ruby Johnson has withdrawn from school and is now working in the telephone office. We were sorry to lose her.

Miss Bennett: "Beatrice, have you done any outside reading?"

Beatrice: "No, ma'am, it has been too cold."

Mrs. Dutton seems to be very happy. She says that she is going to begin house keeping next week.

Lost: A vest on the school ground. If found please return to Virginia Strong and receive a reward.

Miss Newman handed us the following note from her pupils: We, the pupils of Miss Newman's room wish to thank Mr. Bierschwale and the boys of the agriculture class for the useful hat rack which they presented to our room. It greatly improves the appearance of the room, and we appreciate it very much.

Prof. Albert Einstein has submitted to the Prussian Academy of Sciences a manuscript of five pages which it took him ten years to complete and which he considers of more importance than his widely discussed theory of relativity. The manuscript contains mathematical and physical formulae amplifying the theory. It is a treatise in abstract mathematics dealing with the problem of merging mechanics and electrodynamics. The Prussian Academy of Sciences will release it in about two weeks.

DAN MOODY, JR., BREAKS HABIT FOR GOVERNOR

Austin, Jan. 19.—Secretaries and visitors to the Governor's reception room formerly always knew when Gov. Dan Moody arrived at his private office. There was a slam of the door which notified them that he had entered. The door to the private office is not visible from the reception room.

But a complete change has come over the Governor the last few days. It keeps his secretaries on the alert to detect the Governor's presence, for no more does he slam any doors.

Another Austin father has diagnosed the reason for this sudden change. It is that Governor Moody, like many another father, has been abjured at home "not to wake the baby."

W. L. Aldwell, president of the First National Bank of Sonora, assuming that position upon the death of his brother-in-law, E. R. Jackson, on January 31, 1912, has had much to do with building up the financial condition of Sutton County, as well as being the one to whom credit may be given for the bank's moving into its new \$75,000 home and office building Monday, January 7.

The farm flock should not be a "pin money" proposition. Poultry and egg prices for the coming year indicate a good profit for the farmer who has the proper stock and gives it care. Put good laying stock on the farm, and realize a profit.

"Hatchery Chicks For Greater Profits" is the slogan of a national organization of hatcherymen who have united in the interest of better farm flocks through better breeding of chicks coming from the incubators.

HUNTING SEASON'S DEATH TOLL FORTY-TWO

Austin, Jan. 28.—The number of persons killed or injured by accidents during the last hunting season broke all records, according to newspaper reports culled by the Game, Fish and Oyster Department. The total number so far reported is eighty, and forty-two were fatal. Accidental discharge of firearms, reckless shooting and drowning mainly were responsible for the long list of unfortunate occurrences.

Twenty-nine of those hurt were boys of an average age of 15. Sixteen of them were killed and thirteen were hurt more or less seriously. The average age of the fifty-one men killed or injured was 34. No accidental shooting is reported of men 45 and over, though two over that age lost their lives by drowning and one by a serious fall.

Sixteen of the boys were shot by their hunting companions and four by their own guns. Twelve adults were shot by their companions, some of whom were boys, and fourteen by accidental discharge of their own guns, counting two that were hurt by bursting of their own gun barrels. Twelve persons were drowned and several narrowly escaped when boats capsized. Two were killed by a tree which was felled to get game and a third died of heart failure while trying to rescue them. One was killed by lightning, two were killed by being mistaken for game and others were variously hurt or killed.

BOTTLED WATER

The world was thrilled when Major Herbert A. Dargue with a fleet of five airplanes made a goodwill flight of 20,000 miles over the countries of South America.

It was not published so widely that the commander and his crew consistently though courteously declined the wines set before them by their Latin hosts. Of course, their refusal was respected when the explanation was made that "only pure water keeps the head as clear as it should be when one is to pilot an aircraft."

It was, moreover, stated that the aviators carried bottled water with them in order to make sure of having at hand when needed the only drink that men should have when soaring through the upper air.

BUFFALO TO ROAM IN SAN SABA COUNTY

The W. F. and J. F. Barnes last week received 12 head of buffalo from the famous Goodnight Ranch. The animals arrived Monday, and were taken out to their ranch in the southeastern part of the county. These animals will be perfectly at home in this county, as this was one of the first buffalo ranges in the south some 75 years or 100 years ago, when the Indians made the San Saba Valley their winter headquarters, and hunted buffalo, deer and antelope and wild turkeys. —San Saba Star.

The Spanish land measure was adopted by the Constitution of the Republic of Texas (1836) and has been a legal standard ever since.

A SHOW HERE FEB. 8

Honest Bill and Moon Bros. shows are coming. There is always something about a tented exhibition that is attractive and this show is well spoken of as being far above the average in pleasing its patrons. No other show has such perfectly trained wild animals and they are well worth seeing; two performances daily at 2 and 7:30 p. m.

ROSE CUTTINGS

Any one wanting good rose cuttings have an opportunity of getting some of the very best by calling at the court house. County Judge J. B. Randolph has had the rose bushes in the court yard pruned and had the cuttings bedded near the bushes from which they were cut. He has taken great interest in the up-keep of the yard and has some of the best roses that can be found. He suggests that people interested get these cuttings now and put them in a good bed where they can be cared for until the following spring when they should be put out where wanted. By bedding all the cuttings in one bed properly prepared and cared for, a greater percent of the cuttings will live than if placed out singly.

With the water system nearing completion, the people of Junction should take a greater interest in flowers and shrubbery this year than ever before. Make Junction more beautiful.

CLOSE POLO GROUNDS

Having had occasion to learn that there has been some gambling on the polo grounds the past season, I have decided to close the ground this year. I enjoy a good game of polo and think it good sport, but do not care to encourage any form of gambling. I am not making any charge against any individual but am merely voicing my objection to gambling in any form. I regret to take this action and assure everyone that I believe in the game when the law is not violated. This is no indictment against those playing the game, but against those who violate the law by taking advantage of the game to gamble.

N. H. Skaggs.

BIG DANCE

Friday night, February 8, Dismuke Hall, Rocksprings, Texas. Music by Al Clark's six piece orchestra of Del Rio. 42c

COMING TO TOWN

Honest Bill and Moon Bros. shows have so many great high class features that no other show can now compare with them in giving such general satisfaction. The great success attained by Honest Bill and Moon Bros. shows is due to the fact that they are always first to secure novelties of merit. The trained wild animals of this show have been selected with great care and are the best in the world showing such wonderful intelligence in their different acts that they seem almost human. Honest Bill and Moon Bros. are spoken of by the press and public as being clean, moral, and of the highest class; remember you will make no mistake by going. Two performances daily; afternoon and night—rain or shine.

CARD OF THANKS

We wish to thank those, who in loving sympathy, have remembered us in the hours of our deepest sorrow, over the loss of our dear son, Geo. Durst Farmer.

Beneath a glass plate on his desk was a few kodak scenes from the county of his birth, a photograph of his sweetheart and a type written copy of the following poem:

"For When the One Great Scorer comes To Write Against Your Name, He writes— Not what you won or Lost—But How You Played the game." He lost his life in the path of duty, true to his trust, and when the Just One shall write against his name, we feel that it can only be, "Well done." To know him was to love him, and our loss can be but heaven's gain. In our remaining years we can only cherish him in memory; live for those that love us and the good that we can do; looking ever to Our Heavenly Father to temper the sorrows that come at such parting.

Mr. and Mrs. A. G. Farmer, and Family.

BUILDING CONTRACTOR

If you have any building to do see J. A. Archer, contractor. All kinds of construction work: Cobblestone, Brick, Tile, Cement finishing, Chimney and Flue work. Headquarters at Mrs. T. M. Hodges, phone No. 44. Also build stone and concrete reservoirs. See me first.

J. A. Archer, Building Contractor. 42-4c

NOTICE, SCHOOL TRUSTEES

Your attention is called to the fact that the scholastic census shall be taken during the month of March. Your attention is especially called to the law that provides that you shall take the census or appoint someone to do same. In obedience to this notice I trust that you will call at my office for instructions and blanks on March 1. In the event that you are not able to take the census, you shall notify me of some suitable person selected by you to do the work. 41-3c J. B. Randolph, County Judge.

Limbering-Up Exercises

They had just met at Atlantic City and were sitting on the beach:

She: "What a wonderfully developed arm you have." He: "Yes, I got that playing basketball. By the way, were you ever on a track team?"

Every husband trembles when his wife looks at him closely and says, "I want to talk to you about something."

YOUR HEALTH

Young's Stomach Powder quickly relieves sour stomach, dyspepsia, gas bloating, heartburn, sick headaches and nervousness. Cannot fail to benefit you. Druggists return money if it fails.

Awbrey-Bell Drug Co.

For colds, grip and flu take

Relieves the congestion, prevents complications, and hastens recovery.

When pullets are housed and set to their winter task of egg laying, care must be taken to see that they get plenty of green feed. Rape, green clover, and alfalfa are satisfactory for this purpose.

The passions of the mind should be neither overelated nor abjectly depressed.—Cicero.

Men would be great criminals if they need as many laws as they make.—Darling.

All cards of thanks, resolutions of respect,
funeral or club notices, where there is a
money consideration, will be run only at
paid matter at regular rates.

Any erroneous reflection upon
the character of any person
or firm appearing in these col-
umns will be gladly and
promptly corrected upon call-
ing the attention of the man-
agement to the article in ques-
tion.

Love life
Fear God
Aid friends
Live nobly
And demand respect.

When a person exclaims that
he has an idea, you know he
has been thinking.

If you live to learn, you will
become broader; if you live to
avoid learning, your vision will
narrow as the years roll by.

If you have no sympathy for
those who are unfortunate, then
there is something wrong in
your make-up. You need to
get into closer touch with God.

Whenever you get to believ-
ing you are a mental giant,
reflect on the minds of those
who invented the radio, pho-
nograph, steam engine, auto-
mobile, airplane, etc. Your
knowledge will not affect you
quite so much when you find
out that these men admit that
they know practically nothing.

It's getting to be a curiosity
to see a buggy. In a few more
years daily papers will be print-
ing pictures of men who ride in
buggies and labeling them as
curiosity snapshots. An aero-
plane passenger won't have a
chance to break into print; it
will be too common. The auto-
mobile holds that position now.

Winter works its hardships
on old people. January and
February take the largest toll
of old-timers and pioneers. Dur-
ing the past two weeks some
of our oldest citizens succumbed
indirectly because of the rav-
ages of old man Winter. With
the passing of these sturdy old
pioneers a sort of sadness like
a veil of black descends over us.
But it is incorporated in the
cycle of life. "From dust thou
art, to dust returnest." Death
is just a period of metamorph-

About one of the most neces-
sary things to have in this
country is a wardrobe which
will suit all occasions. Freezing
one day, and "like a day in
June" the next makes it diffi-
cult to know just what to wear.
But still that's better than wad-
ing in snow up to your neck and
having to bury your water pipes
like you were digging a well
to keep them from bursting.
Even if Texas' weather is cap-
ricious at times, it's about the
most desirable to be found
anywhere, and the weather
around here is the best of all.
osis.

When we look out towards
the Llano Rivers and see how
bare and dead-like the trees,
grass and shrubbery are it
makes us reflect that tomorrow
is the first day of February
and after that spring will slowly
slip upon us. Flu will have all
gone, and fishing time will be
here. Tourists will arrive. The
sap will rise in the trees and a
magic carpet of green will si-
lently spread itself over the
valleys, even up to the river
banks. Everybody will feel
better, stock in life will rise,
and everyone who lives in this
Elysian nook of the world will
have something to be thankful
for. When Spring comes, this
winter of sickness and death
will remain only as a bad mem-
ory. Welcome! first signs of
spring.

Out at Fort McKavett, the
citizens will point out a room
in the old rock hotel where
General Robert E. Lee stayed
when he was stationed there a
part of the time during the war
which made Texas a republic.
Then they will show you the
magnificent base hospital, the
old barracks that are tumbling
into decay, and they will tell
you strange, interesting stories
of adventures and demonst-
rations of bravery. Yes, Fort
McKavett is one of the old re-
maining outposts of civilization
that served a sparsely settled
country during the nineteenth
century when Indians roamed
and preyed on the defenseless
white pioneers. The old build-
ings and rock barrack houses
still hint of a military air and
discipline. It is easy to visualize
the soldiers responding to the
signal that Indians were ap-
proaching. To most of us it
sounds like a fairy tale, but
to those old fellows who lived
through it, there is nothing
more real.

PRAISE TO P. T. A.

Of times much lavish praise
and high sounding words of
commendation are bestowed on
organizations where such open
commendation is not deserved.
But not so with words of praise
that are bestowed on the Par-
ent-Teachers' Association of
Junction. In fact not enough
recognition has been given to
this organization and the work
which it is doing.

There are P. T. A. organiza-
tions all over the United States.
It is a proven benefit to both
parents and the school. No
experimenting is attached to
the functioning of this group.

And the Junction P. T. A.
has built up a reputation for
progressiveness, work and ac-
complishments. It would be a
futile task to enumerate the
number of improvements which
the P. T. A. has sponsored even
about the High School building.
They have built sidewalks, trans-
foms, bought books for the
school library, encouraged mu-
sic by providing additional fac-
ilities, made awards to the dif-
ferent classes in the school, etc.

Just this week the organiza-
tion met and celebrated the
National Thrift Week. The pro-
gram was based upon thrift and
its advantages.

A closer bond of friendship
and a more complete under-
standing between parent and
teacher is a result of this or-
ganization. It points always
towards something better, and
the P. T. A. is worthy of the
support of Junction.

A PUBLIC LIBRARY

Where is the source of all
knowledge to be found? When
we wish to read the accounts
of the historical happenings
of the early years of our Unit-
ed States or the history of Eu-
rope or of some great painter,
sculptor, scientist or what not,
where do we go? We turn to
a book and on these pages of
record we find what we are
seeking. Before paper was in-
vented papyrus was used, and
even before this, crude symbols
were carved on stone slabs. But
the principle was the same—
that of preserving knowledge.

Homer once said that man is
an animal that writes. He
should have added that man is
an animal that reads. Everyone
reads or at least has a desire
to. It is the best method of
keeping up with current news
as well as what has passed
before.

But the purpose of all these
words is to stress the point that
Junction is a city without a
public library. The man with-
out a country was not in a more
serious plight than the city
without a good public library.
It is true that there is a library
at the high school but it is
far from being well stocked
with books.

A good public library stocked
with wholesome books would be
a stimulus to children as well
as older folk to read more.
It would increase their store of
knowledge. A suggestion when
unaccompanied by a plan is
worth little except to create
thought on the subject. But
when a plan is offered then
there becomes something tangi-
ble to work towards.
Junction could start a public
library with little expense. No
library is complete at the be-
ginning. That is one thing
that must grow. Additions from
time to time cause the rows of
books to extend and before you
are quite aware of it, and with

Little Gems

Use the temporal; desire the
eternal.—Kempis.

A small leak will sink a great
ship.—Franklin.

The heart ought to give char-
ity when the hand cannot.—In-
esnel.

Earn all you can; save all
you can; give all you can.—
John Wesley.

We can do more good by be-
ing good than in any other
way.—Rowland Hill.

Men are born with two eyes,
but with one tongue, that they
may see twice as much as they
say.—Cotton.

Look upon the bright side of
your condition; then your dis-
contents will disperse. Pore not
over your losses, but recount
your mercies.—Watson.

If wrinkles must be written
upon our brows, let them not be
written on the heart. The spirit
should never grow old.—James
A. Garfield.

Conquer thyself. Till thou
hast done that, thou art a
slave; for it is almost as well
to be in subjection to another's
appetite as thine own.—Burton.

Be good, get good, and do
good. Do all the good you can;
to all the people you can; in
all the ways you can.—Spur-
geon.

little work a good library could
soon be secured for Junction.
Just get some organization,
preferably a woman's organiza-
tion to handle the matter. Make
an appeal for donations for
books from citizens of the town.
They will respond. Civic pride
will prompt them to respond.

One of the most profitable
investments that Junction could
make would be in the establish-
ment and perpetuation of a good
public library. It would be one
of the most popular places in
town. And it would be well
deserving of the popularity that
it would receive.

The Junction Eagle is always
eager to sponsor a movement
such as this one just discussed.
The columns are ever open to
movements of merit which will
improve the city. This move-
ment is worthy and you will
hear more from this suggestion.

WHY A PROPHET?

Where does a little brownish
gray animal with coarse fur; a
little animal that lives a soli-
tary life; where does this little
animal get the prophetic sense?
Coming down through the years
this well-known rural myth that
a ground-hog breaks his winter
sleep on February 2nd and pro-
phesies the weather for a period
of six weeks has become firmly
established as a national myth.
No doubt there are those who
truthfully believe that the little
animal does have a gift of
prophecy.

The ground-hog, commonly
known as the woodchuck, is a
very destructive little animal
and in many states rewards are
paid to hunters for killing them.

But even if we do not believe
in the myth, everyone will no-
tice to see whether the ground-
hog did see his shadow, and
then make it a topic of dis-
cussion for a few days.

Sheriff Frank Patterson is
able to assume the duties of
his office this week for the first
time since he took the oath of
office at his home on January
1. He was ill with flu for some

Great Scott

The professor had just finish-
ed an evening talking on Sir
Walter Scott and his works
when a lady said, "Oh, Profes-
sor, I have so enjoyed your talk.
Scott is a great favorite of
mine."

"Indeed," said the professor.
"Which one of his books do
you like best?"

"Oh," answered the lady, "I
haven't read any of his books,
but I am so fond of his Emul-
sion—I've used a lot of that."

Telephone operators in Bom-
bay, the great seaport of the
west coast of India, must be
able to speak six languages:
English, French, Arabic, Chi-
nese, Japanese and the native
tongue. It is the most cosmo-
politan city of the whole Indian
Empire.

JESSE T. EVANS BUYS
ANOTHER GOOD RANCH

Jesse T. Evans reports that
he has purchased another ranch,
the latest acquisition being the
W. J. Blackmon tract of 3,760
acres, eighteen miles southeast
of Junction in Kimble County.
Mr. Evans paid \$12.50 per acre
for the tract.

Mr. Evans is among the most
prominent of our ranchmen and
is ever alive to the improve-
ment of the ranching business
in this section, and we are
glad to record Mr. Evans' ad-
vancement in that he is gradu-
ally acquiring more land and
stock in the enlargement of his
ranching business.—Rock Springs
Record.

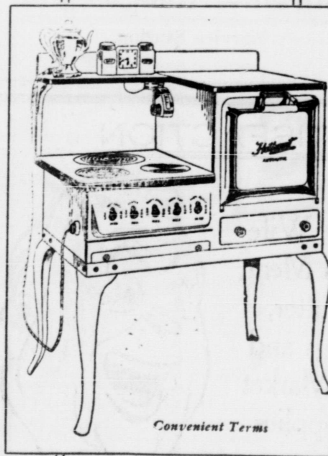

The first German colony was
founded at the present site of
Industry, Austin County, 1842.

The largest percentage of for-
eign white population in Texas
is Mexican. Next come the
Germans.

The "Hotpoint" Electric Range
Will Cook Your Meals As
You Want Them, Not
ONCE In A While
But~

~ALWAYS~

Convenient Terms

YES, without exception, every
meal tastes better and is
cooked as you want it to be
if you prepare it on one of our
famous "HOTPOINT" Electric
Ranges. . . . It is easier than you
can imagine to prepare your daily
meals on a "HOTPOINT," for
everything is conveniently ar-
ranged to save time, labor and
extra steps.

Let us tell you about this new way
of cooking. . . . Let us show you
how the automatic temperature
control and automatic electric
timer takes the place of a cook. . . .
You'll be amazed when you learn
that all you have to do is to place
your food on the stove and "HOT-
POINT" does the rest automati-
cally! . . . You'll most certainly
appreciate its many advantages as
do its many users.

West Texas Utilities
Company

LOCAL HAPPENINGS

Mr. C. L. Rankin of Ballinger was a Junction visitor last week.

Mr. Leon Powell was a visitor in San Antonio this week.

Mr. G. W. Curtis and Mrs. Ray, were business visitors in Brady Wednesday.

Mrs. Conde Hardeman is able to meet her classes after an illness of several weeks.

Mr. and Mrs. J. F. Horton of Eden were week-end visitors in Junction.

Miss Sudie Curtis left Wednesday for a visit with relatives and friends in San Antonio and Uvalde.

Mr. A. F. Moursand, District Engineer of the highway department, was a Junction visitor this week.

Mr. Lester Hodges is in the market this week buying goods for the Schreiner-Hodges Company.

Buy your candy and cakes from the Baptist ladies at the Awbrey-Bell Drug Co. every Saturday.

Mr. and Mrs. W. T. Carpenter and mother, Mrs. J. D. Wood, attended the funeral of an uncle in San Angelo last Sunday.

Mr. Brohier Riley of Hope, N. Mex., came in last week for a visit with his sister, Mrs. Fletcher Gardner.

Mr. and Mrs. Fletcher Gardner and little daughter were business visitors in Junction Monday.

Mr. and Mrs. Arthur Thompson arrived in Junction Tuesday from Chicago. They are at the Fritz Hotel.

Mr. Pat Cox, field man for the Roxana Company, was here this week in the interest of his company.

Mrs. Chas. Lucke and Mrs. William Murrah and son, Cloma, all of Del Rio visited with Mr. and Mrs. J. A. Browning last week.

For Gas, Oil, Tire Service, Battery Service, Quick Repair Work, go to Powell Motor Company.

Mr. A. O. Edmundson of Cisco has accepted a position as prescription clerk with the Heyman Drug Company. Junction welcomes Mr. Edmundson as a citizen.

Mr. A. L. Phelps of Segovia was a visitor in Junction last Friday. Mr. Phelps states that grass is very poor on ranges in that section, and rain is needed badly.

Mr. and Mrs. Philip Joseph returned Monday night from eastern markets where they purchased a large stock of merchandise for the new department store which is to be opened soon.

Mr. R. L. Hall and son, Turney, of Blackwell, were in Junction this week. Mr. Hall was formerly in the newspaper business at Blackwell, but has sold out and is now taking a little vacation.

Powell Motor Company has the right kind of anti-freeze for your radiator. Let them service your radiator during the winter months.

Representative and Mrs. Coke R. Stevenson and son, Junior, of Austin spent the week-end here. They are well pleased with their temporary sojourn in Austin. Our representative still maintains that he is keeping good company in Austin. Mrs. Stevenson will see to that for him.

MISCELLANEOUS

Excellent irrigated citrus or farm land in the Valley near Mercedes to exchange for ranch land in the hills. Box 206, Kerrville, Texas.

THE METHODIST CHURCH

"The Week's Golden Hour!" When and where? Sunday night, 7:30 o'clock at the Methodist Church. It is yours, accept it. A fine duet, a reading by Miss Audrey Blackburn, inspiring song service, a message brief, practical, to the point—these are some of the things the "Golden Hour" holds for you.

Sunday School, 10 a. m. Classes for all ages. The pastor preaches in the morning at the Copperas church.

Midweek meeting, Wednesday night, 7:30. On Wednesday afternoon after school the children and young people are asked to come for a short time for song practice. Junior and Intermediate Choirs will be organized.

A cordial welcome awaits you at all services of the church.

Kimble County Pecans Boosted by V. A. Class

Kimble County is being advertised to the world through various forms. The Junction High School, under the direction of Superintendent H. B. Cowles and Principal A. J. Bierschwaile, is doing its part in telling Texas about Kimble County and its resources.

In the February issue of the Progressive Farmer which has a circulation of 135,000 in Texas, appears the following article quoted by Mr. C. L. Davis, Texas State Supervisor of Agricultural Education.

"I consider the outstanding work of the month the preparation of a Kimble County Pecan Exhibit and the winning of a \$50 prize at the West Texas Pecan Show held in Brownwood on November 15-16, 1928. The vocational agriculture class with the assistance of their teacher, made a sort of folding show case in which the pecans were exhibited. This was a double case two feet square, and contained fifty lots of pecans. The pecans were furnished by about fifteen of the leading pecan growers of the county. There were twelve prizes awarded on six different classes of exhibits. They ranged from \$50 down to \$10. We are proud to say that ours won the highest prize. Our exhibit is now in the Junction State Bank building where it will probably be left permanently."

The above clipping from this magazine shows that Mr. Bierschwaile is interested in the community and believes in advertising it. Although this is Mr. Bierschwaile's first year as teacher at Junction, he has an active class, and is progressing rapidly in the vocational agriculture work.

HERD OF DEER EAT FINE FRUIT TREES

A herd of deer on the estate of C. H. Thordarson of Chicago, on Rock Island, Lake Michigan, may soon be dispossessed. The State Conservation Commission is deliberating plans to relieve Thordarson of his unwelcome neighbors.

In a complaint sent to the commission Thordarson declared the herd has eaten everything within reach, including fruit trees in an orchard valued at

\$10,000, shrubbery and other foliage. The animals jumped an eight foot fence to spoil his landscaping, Thordarson complained.

W. B. Grange, superintendent of game, has recommended the commission deport the deer, leaving between eight and 12 on the island, or kill most of them as a last resort.

Mrs. Ernest Wilkinson of Menard spent the first of the week with Mr. and Mrs. Miller Oliver.

8-Inch Size Hedge Shears
Durable and Heavy—with the best quality of tempered steel Knives—Cuts heavy twigs with ease—

Junction Hardware Co.

FARM RADIO PROGRAM
WEEK OF FEBRUARY 4-8

Since February is the month of preparation before the spring farm work gets fully underway, speakers in the United States Department of Agriculture's noon-hour network program, sent through a chain of 16 stations associated with the National Broadcasting Co. this week will stress preparations in various lines of farming.

For tenants and land owners who are making new leases Dr. L. C. Gray of the division of land economics will tell what the department economists have found in their studies as to proper lease forms and terms.

Two members of the Bureau of Agricultural Economics—H. M. Dixon, farm management extension specialist, and W. F. Callender, chairman of the Federal Crop Reporting Board—will explain how the individual farmer may best make use of the agricultural outlook reports and of crop and livestock reports, respectively.

Further information will come to listeners during the week on the need for permanent pastures and methods of seeding them, on the methods and results of the Canadian wheat pools, on the past fortnight's weather and the general reliability of weather lore, on preparing horses for spring work, on the Federal waterfowl censuses, and on preparing to get a lawn started this spring.

The complete program for the week follows:

Monday, Feb. 4—"The County Extension Service and the Agricultural Outlook," H. M. Dixon, farm management specialist, Office of Co-operative Extension Work; and "Pasture for Profits and Cutting Down Surpluses," Dr. H. N. Vinall, senior agronomist, in charge of pasture research, Bureau of Plant Industry.

Tuesday, Feb. 5—"Customary Practices in Renting Land," Dr. L. C. Gray, in charge of division of land economics, Bureau of Agricultural Economics.

Wednesday, Feb. 6—"The Canadian Wheat Pools," J. F. Booth, senior agricultural economist, division of co-operative marketing, Bureau of Agricultural Economics; and "The Fortnight's Weather," J. B. Kincer, agricultural meteorologist, United States Weather Bureau.

Thursday, Feb. 7—"Practical Suggestions for the Vegetable Garden," W. R. Beattie, extension horticulturist, Bureau of Plant Industry; and "Preparing Horses for Spring Work," S. R. Speelman, assistant animal husbandman, Bureau of Animal Industry.

Friday, Feb. 8—"How to Use Crop and Livestock Reports," W. F. Callender, chairman, Federal Crop Reporting Board; and "The How and Why of Waterfowl Censuses," Dr. W. B. Bell, in charge of biological investigations, Bureau of Biological Survey.

These talks are broadcast at 12:15 to 12:30 p. m., Central Standard Time, by the following stations associated with the National Broadcasting Company: WRC, Washington; KFKX, Chicago; KDKA, Pittsburgh; KSTP, St. Paul-Minneapolis; WOW, Omaha; WOC, Davenport; WDAF, Kansas City; KVOO, Tulsa; KWK, St. Louis; WFAA, Dallas; WOAI, San Antonio; WSB, Atlanta; WMC, Memphis; WSM, Nashville; WLW, Cincinnati; and KOA, Denver.

Junction, year-round playground

A BUSINESS MAN'S
TEN COMMANDMENTS

1. Thou shalt not knock thy competitor's business, nor say disparaging things about his goods.
2. Thou shalt not lie in thy advertising, nor paint fanciful pictures in thy sales arguments.
3. Thou shalt not fail to be interested in thy customer's welfare, nor shalt thou neglect to see that he gets proper value for the money expended.
4. Thou shalt not take advantage of thy brother's misfortune or his ignorance to drive a sharp bargain.
5. Thou shalt not use the Church merely to achieve thy commercial ambitions.
6. Thou shalt not sell thy goods for more than a fair profit.
7. Thou shalt not let thy business go to seed because thou art not alert, industrious and progressive.
8. Thou shalt not neglect to see that thy employees get a fair wage and proper chance in life.
9. Thou shalt not put thy nose to the business grindstone so constantly that thou canst not find time to fellowship with thy family and thy God.
10. Thou shalt not consider money, but service, the chief end of thy efforts.

—The Epworth Era.

CARD OF THANKS

Through the columns of the Junction Eagle we desire to return our warmest thanks to our friends and neighbors who assisted us in any way during the illness and death of our father, J. T. Hull, who died last week, having passed his four-score years. May the day be far distant when those friends who gathered around us will need similar attention, but when the time come may they receive the same full measure of generous aid and tender sympathy they brought to us in our sorrow.

Jim, Taylor, Melvin and Ophelia Hull and families.

BIG DANCE

Friday night, February 8, Dismuke Hall, Rocksprings, Texas. Music by Al Clark's six piece orchestra of Del Rio. 42c

COMPANY

CHRYSLER STOLEN FROM
KAY FOUND AT JUNCTION

A Chrysler sedan belonging to W. A. Kay, which was stolen from in front of the Ozona Telephone Company office Saturday night, was found Sunday abandoned on the highway a short distance from Junction.

Sheriff W. S. Willis, who notified officers in all nearby towns when the theft was reported, was notified Sunday morning by the Kimble County sheriff of the recovery of the automobile and he and Mr. Kay left for Junction shortly after noon to bring the car back to Ozona. The light fuzee on the car had been broken and it is believed that the thieves were frustrated in their attempt to make a get-away with the car by not knowing how to repair the lights.—Ozona Stockman.

CARD OF THANKS

To the friends who came to us in our hour of sorrow and sadness, and contributed all that human kindness could suggest, to help and comfort, we return our heartfelt thanks, and although such devoted friendship cannot remove the sad memories that linger around our vacant chair, caused by the home-going of little Richard, it brings into view the brightest side of humanity, and throws the pure light of an unselfish friendship into our darkened home. May God's blessings abide upon each and every one who assisted us in any way during this sad dispensation. Mr. and Mrs. Jim Hull and daughters.

HOOVER INVITES OLD
COUPLE TO INAUGURAL

Winchester, Ind., Jan. 19.—The seventieth wedding anniversary of Mr. and Mrs. John W. Pickett was a happy occasion, for they were also celebrating the arrival of a letter from Herbert Hoover inviting them to the White House on March 4.

Both husband and wife are members of the Friends Church and are admirers of the president-elect. Mr. Pickett is 93 and his wife is 86.

People who are always talking about what they are going to do never do much.

SOME CALVES

A sale of 3,000 calves for a consideration of over \$100,000 was made recently by J. D. McGregor of El Paso to L. W. Anderson of Pecos and A. B. Tinnin, Toyah. The price per head ranged around \$40. The delivery of the cattle will be made from the McGregor ranches in Culberson County, Texas, and Dona Ana County, New Mexico.

Some fellows can get good jobs but they can't keep them.

If it could speak, how the unborn generation would encourage us to save our money.

BOY, 10, SIX FEET
TEN INCHES TALL.
WEARS NO. 25 SHOE

Racine, Wis., Jan. 19.—A pair of size 25 shoes has just been made for a 10-year-old schoolboy at a Racine shoe manufacturing shop.

The boy is Robert Waidlow, an elementary school student of Alton, Miss. The boy is 6 feet 10 inches tall and weighs 250 pounds.

Five square feet of leather was used to manufacture the pair of shoes.

Physicians say if the boy continues to grow he will be 9 feet tall when he reaches maturity.

LONDON LOCALS

Mr. Marvin Hunter of Bandera was visiting his son and family here Friday, and incidentally looking over some real estate with a view of buying and improving. Mr. Hunter has an eye to the future. London is destined to become a good town not long hence. We have the soil around it to make it such; besides we have quite an oil interest now with a prospect of drilling operations in the next few months.

Mr. Geo. W. Pearl and his mother were in town on business the 24th.

Mr. W. V. DeSpain and his brother, Dock, have just returned from South Texas where they had been attending the bedside of their invalid brother, Jim DeSpain. They report their brother's condition as being serious.

We attended the meeting of the Chamber of Commerce the 24th and glad to note considerable interest on the part of the few present on a number of matters of interest, but we will have to get more of our people interested if we expect to accomplish much.

Brother Forester, pastor of the Baptist church filled his regular appointment at the Baptist church Saturday night and Sunday.

We are glad to note the fact that R. L. McKinney is now preparing to build another concrete building just north and adjoining his present business home. He believes in development and progress and we will state just here that spirit is required in the building of any town. Rah! for Bob.

Mr. and Mrs. Frank Hodges were shopping in town Monday. Miss Louise Price happened to a serious accident Monday while playing ball at school. She fell and broke both bones of her arm. This was bad and we are sure sorry for Babe.

It is a pleasure to inform the local readers that Miss Louise Goodman has returned home from Brownwood sanitarium much improved and says she is feeling fine.

O. D. Price was a busy man in town Monday evening.

R. T. Amberson, R. B. Furr, J. F. Thurber and others went to Mason Monday on business for themselves and others relative to their interest in the Stroud Motor Mfg. Co., but I did not see any of them driving a new Stroud car back, but my agent brought back my original certificate and told me I could keep it, that on investigation he decided there wasn't enough to go around. Good, I had kissed that goodbye with other disappointments long since.

Mr. C. M. Massey from five miles south of town informs the writer that he intends to increase his melon and truck crop the coming year. That he will keep an itemized account of labor and sales or of cost and income. This we encouraged, because if he will do so it will be a source of pleasure to himself and will be a source of valuable information for the county. If he will do this he will be performing a service that cannot be estimated in dollars and cents. By just such unselfish labor we gather our statistics that has become so useful in all lines. Mr. Massey should be given every encouragement possible by the citizens of Kimble County because he is demonstrating in his line the possibilities of our lands, and if he will keep an itemized record, it will be beneficial to him as well as others and will later be the cause of further development in his line and along other lines by other citizens. What he is doing in the truck business can be done with the same degree of success with fruits if the same care given to its growth. Pecans are a native growth in Kimble County and the demand for the better varieties is increasing year by year. Suppose one puts out a pecan orchard and should give it attention according to its merits. The income in a few years would be almost unbelievable. As a section we are moving forward and we are going to continue to move forward. If our present citizenship does not avail themselves of the opportunities this section offers, others will, so if you want a home here you had better secure it now.

WILLIAM LAFAYETTE ROE

William Lafayette Roe was born in Polk County, Texas, April 8, 1848. In December, 1862 he moved to Bastrop County and remained there until November, 1904, when he moved to Kimble County. He was married in 1870 to Miss Della Turner at McDade, Texas. To this union were born twelve children, nine of whom survive. The children living are: G. F. Roe, Uvalde; W. C. Roe, Austin; D. T. Roe, Ingram; J. S. Roe, Junction; Mrs. Edna Williams and Mrs. F. J. Kesler, Austin; Mrs. Jim Smith, Ingram; Miss Sallie Roe, Junction, and Miss Emma Roe, Harlingen.

Brother Roe had made his home in Junction, where he had a home, but spent much of his time with his children in other places. He had been for some time with his son, G. F. Roe, at Ingram. Despite his advanced age he was active and vigorous and engaged always in some form of useful activity. Both mentally and physically he was alert and active, his square, erect frame, clear eye, and gentle bearing reminding one of the fine type of Texas pioneer that he represented, and gave evidence of a life of good habits and clean living.

In 1875 he was converted and joined the Methodist Church and has lived a consistent and active Christian and church member. All who knew him can bear witness to his fine Christian character and influence. He was faithful in his attendance to all the services of the church, active as a member of the Men's Bible Class, and interested in all forms of Christian activity.

Brother Roe fell sick about three weeks before the end, which came January 24, 1929, his age being 80 years, 9 months and 16 days. The funeral services were held in the Methodist Church which he loved and served with faithfulness. His departure deprives those who

knew him of a real friend, and our community of one whose fine spirit, open mind, and splendid Christian character make his influence an abiding power among us.

MILTON FLY HILL,
Pastor, Methodist Church,
Junction, Texas.

CARD OF THANKS

Words cannot express my appreciation of those friends and neighbors who extended kindness and sympathy during the illness and death of my husband, T. M. Jones. While there is a vacant chair in my home, yet as I reflect upon the many words of sympathy and deeds of kindness it gives a silver lining to the dark cloud that hangs over my home. I desire through the Junction Eagle to thank everyone who rendered assistance during this dark hour.

Mrs. Dora Jones.

GUESTS COULDN'T REST: TALKIE THEATER SUEDE

The "talkies," the motion picture world's latest attraction, have talked too much near the hotel of W. G. Howard, so today he filed a suit in Superior Court claiming that the projected conversations in a nearby theater were ruining his business.

Howard claimed that while the silent drama reigned he had many guests and a peaceful clientele. The adjoining movie house put in the talkies, he said, and since then his guests have not been able to sleep and many of them have left for other accommodations.

The hotel owner says he wants \$3,500 for "lost" guests.

Abstracts for your lands can be secured on short notice from E. Holekamp; 25 years in business; we know how. (adv)

NOTICE TO BIDDERS

The Commissioners' Court of Kimble County, Texas, will receive bids at Junction, Texas, on February 11, 1929, for the purchase of one or more 5 or 10 ton road tractors, and one or more road graders, 12 feet.

Bidders will have to consider in trade 1-4-40 Monarch tractor and one 10-foot Adams grader in deal.

The county reserves the right to reject or accept any or all bids.

R. W. FISHER,
County Judge, Pro Tem,
Kimble County, Texas.
At Junction, Texas, January 2, 1929. 40-4c

DUEL IS ARRANGED FOR 2 WOMEN IN BUDAPEST

An example of advanced feminism, combined with mediaevalism comes from Budapest where Monday a duel was arranged between two women whose names are suppressed. The wife of a prominent merchant at the Carlton Hotel for tea catching sight of a girl music teacher, accused her of an affair with her husband, using insulting language. A few minutes later a third woman brought to the merchant's wife the teacher's challenge to a duel. The wife accepted and appointed her second also to arrange details.

Though duelling is tolerated in Hungary the public demands prohibition of the latest attempt to exercise the male privilege.

Snyder will soon become owner of a 200-acre airport ultimately designed to be the equal of any in the country.

If the buyer shows eagerness give him plenty of line.

Junction Trade Notes

G. R. McClure, a Coleman County farmer, says his terraced land planted to cotton in 1928 produced \$14.50 more per acre than his unterraced land. On terraced land he gathered a half bale cotton to the acre, while the unterraced land produced approximately one-third of a bale. The cost of terracing, he said, was approximately \$1 per acre.

The Sheep and Goat Raisers' Protective Association recently organized in Sutton County for the purpose of curbing thefts, has employed J. E. Vickers as inspector.

Jimmie Beddingfield, popular salesman for U. S. & K., wholesale grocers, visited the local trade Monday and brought his family along so they could participate in the good family meal, for which the Fritz Hotel has become famous.

H. H. Farmer was in from the ranch Tuesday and loaded out with chewing gum, which he has been using as a substitute for Star Navy since the first of the year.

Onion Plants: Crystal Wax and Yellow Bermudas, in stock. Gann Grocery Company.

Potato Chips fresh every week, in 5c and 10c packages. Gann Grocery Company.

President Coolidge, delivering his valedictory to the Government's business organization, called for continued economy in Federal expenditures. Which reminds us that the last words of Fred Harvey, lamented restaurateur, were: "Slice the ham thin."

Fresh hams received weekly, sold whole or by the half. Gann Grocery Company.

Spinach growers in Lee and San Patricio counties are said to be plowing under their spinach crops rather than harvest them at prevailing prices, around 40c a basket. The price f. o. b. Junction at the moment is around \$1.00, not taking into account the usual wastage.

It is stated that Alfred Welch of Rocksprings, who recently acquired a 23,000-acre ranch 75 miles south of Alpine, is preparing to move 11,000 mutton goats from Edwards to the Brewster county ranch. The distance is more than 125 miles and 15 to 20 days will be required to make the move.

J. W. Golsen, real estate broker of Coleman and ex-mayor of the town, was a visitor to Kimble County during the week on business.

Mr. Edmondson, recently of Cisco, is the new pharmacist at Heyman's drug store. His family will join him here after close of the school year at Cisco.

AUTO AND IMPLEMENT SHOW FEBRUARY 8TH

College Station.—Modern motorized farm implements as well as other improved types and a representative number of well known makes of automobiles will be exhibited at the second annual Automobile and Farm Implement Show to be held at the A. & M. College of Texas Feb. 8 under the auspices of the student branch of the American Society of Agricultural Engineers. The show will be held on Kyle Field at the College and will be of an instructional nature. A feature of the farm implement section will be a special showing of several types of mechanical cotton pickers.

For Gas, Oil, Tire Service, Battery Service, Quick Repair Work, go to Powell Motor Company.

County News

NOXVILLE NOTES

There was a party at the school house Saturday night. All the young people who attended report a most enjoyable time.

The Texas Oil Co. are progressing nicely with their pipeline work. The welding crew is within about three miles of the post office while the pipe laying crew is within six miles of the post office.

Mr. and Mrs. A. T. Whetstone and daughter, Miss Allyne, were guests of Ollie Cobb and family Sunday afternoon.

W. H. Whitworth and family are driving a brand new Ford sedan.

Mr. and Mrs. Bill Bishop and Mr. and Mrs. A. T. Whetstone were Sunday afternoon callers at the J. R. Hull home.

John Fish and family who ranch in the western part of the county were week-end guests of Silas Self and family.

Ed Cowser and daughter, Miss Jessie, attended the carnival at Kerrville Saturday night.

Mr. and Mrs. C. A. Stapp, Sr., were called to the home of their son, Shannon Stapp, who ranches near Langtry on account of the death of a son of the latter.

Noxville people were saddened to hear of the serious illness of Mr. Sydney Steward at the Secor hospital at Kerrville. He formerly ranches on James River but has resided at Harper for several years. We wish for him a speedy recovery.

Seth Whetstone killed a hog last week that weighed 740 pounds before being dressed.

Mrs. Pete Whitworth and little Miss Ruby Whitworth were guests at the Ollie Cobb home Sunday afternoon.

Bob Bissett bought a bunch of mixed kids last week for a consideration of \$5.20 per head.

Mr. J. H. Hull of the Sycamore community died last Wednesday, Jan. 23, at the ripe age of 82 years and four days. Mr. Hull was born in Pennsylvania Jan. 19, 1847. He was one of the pioneer citizens of Kimble County, having come here in an early day. He leaves four sons and a daughter, namely, Marshall Hull of New Mexico, James, Melvin and Taylor Hull and Mrs. Allen Hull of Sycamore, besides a number of grandchildren. Mr. Hull was a member of the Methodist church but was a loyal church worker with any denomination with whom it was his privilege to worship. We will miss him at the revivals, as he was ready at all times to raise his eloquent voice in prayer and testimony to his Maker. He served with distinction in the Union army during the Civil War. It is superfluous to enumerate the many attributes that endeared him to his multitude of friends. Suffice it to say that each one admiring in itself, formed an integral part of God's greatest and best creation—a real man. He has passed into a glorious immortality but his love and influence are imperishable and will not cease. He will still be an inspiration that calls his dear ones to a higher moral and spiritual life. He knew God and was known of God, for above all things he was a godly man. He always admonished the young people to hold fast to the things that tend toward the highest ideals of Christian manhood and womanhood. He was always respected and trusted. His long, ripe experience made him a most valuable counselor. He wronged no man. He coveted no man's riches; he envied no man's success; he walked through all his years without guilt; the broad and open highway of a noble, generous and useful life and the world is richer and happier and better for his having lived in it. We may reverently and devoutly thank God for such a man. One life like his is worth more than all the speculations of philosophers over the mystery of life and death. More than all the learned dogmas and mysticism of scientific treatises. It is an interpretation for all of us of the uses of life, and a revelation of the triumph of a clean and noble spirit over the common doom of death. This modest tribute will do him no good now and he will not care what is said of him. I am glad that it has been my

privilege and pleasure to strew some flowers in his path while he lived. He is now called to his God to have kept whose faith he counted the best thing in his manhood.

ROOSEVELT ROUNDUP

The health of the community is back to normal again. School is progressing nicely. All the pupils are back again and working hard.

An order for twenty dollars worth of shrubbery was sent off this week. The new grounds will soon be beautified with shrubbery and flowers. One hundred and twenty-one dollars worth of playground apparatus will be put up in a few days. Of course interest of school will increase.

A playground working will be given Friday of this week. Refreshments will be served. Everybody invited.

Mrs. Thelma Thiers' father of London visited her Sunday.

Miss Ethel Roberts spent the week-end in Junction visiting friends.

Population of Roosevelt is increasing since the pipeline is being put through.

Mrs. Ruth Halladay of San Antonio visited her parents, Mr. and Mrs. Surber, this week. She is running a beauty parlor in Junction.

SEGOVIA SIFTINGS

Our school had to be closed a few days on account of the illness of Miss Knowles and the absence of Mrs. Gilliam.

Mrs. Nolan Gilliam was called away from school Thursday on account of the illness of her father-in-law. She is back at school today and we are glad to report that her relative is better. Mrs. Jean Lightfoot, a sister of Mrs. Gilliam, taught during her absence yesterday.

Mr. and Mrs. J. M. Keithley and son, John, are visiting relatives at Dripping Springs and San Marcos this week.

A barn belonging to J. M. Keithley and Lewis McDonald caught fire from some unknown source Monday afternoon and burned to the ground. Several hundred bales of hay and other feed were destroyed.

Mrs. W. N. Hatch accompanied by her niece, Miss Odesa Conn, made a trip to Kerrville Saturday.

Mr. and Mrs. Alton Fleming of Austin are spending the week with Mr. and Mrs. Bill Bishop.

Mr. Frank Leifeste was a visitor of Mr. and Mrs. Allen Phelps.

CARD OF THANKS

We desire to thank the good people of Junction for their words of consolation, deeds of kindness and floral offering last week when our father, W. L. Roe, was buried here. We shall always remember kindly the people who administered to us in any way during this hour of sorrow and sadness.

The Family.

WATERFOWL HUNTING TO CLOSE ON JANUARY 31

The open season for the shooting of wild ducks, wild geese, brant, coots and Wilson snipe or jacksnipe, closes at sunset on January 31, on Long Island, N. Y., and in New Jersey, Delaware, Maryland, District of Columbia, Virginia, Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Arkansas, Texas, New Mexico and Arizona.

This information has been supplied by the Biological Survey of the United States Department of Agriculture, which administers the Federal law for the protection of birds migrating between the United States and Canada.

The Federal law and regulations permit migratory birds that have been legally killed to be possessed in any State during the period constituting the open season in the State where killed and for the additional ten days immediately following the close of the open season. Thus, waterfowl and other birds mentioned may not be possessed in any State after February 10. The Biological Survey calls attention to the fact that the carcasses of migratory game birds found in storage or elsewhere after the close of these possession seasons not only will be seized, but the owners of such birds will be rendered liable to prosecution in Federal courts.

The New Ford

The modern automobile is a finely built piece of machinery and it will stand a lot of abuse. Considering the work it does, it gives surprisingly little trouble. But there isn't a car made that will not run better and longer if given PROPER CARE.

The first few thousand miles are especially important because that is when the mechanism of your car is being broken in. Proper attention during this period will lengthen its life and prevent unnecessary trouble later on.

We are particularly interested in this matter because we believe that it is our duty not only to sell a good automobile, but to help the purchaser get the greatest possible use over the LONGEST period of time at a MINIMUM trouble and expense.

The new Ford is a remarkably fine car for one that costs so little. It is simple in design, constructed of the finest material and manufactured with unusual accuracy. Many of the close limits of measurement are similar to those used in the making of a watch.

Just stop and think what all this means. Consider the service you will get from the new Ford. Not a change of models every few months but continued service for years. You do not have to spend all your money trying to keep up with models, and when you need any parts you can get them in a hurry.

In comparing prices remember the new Ford comes equipped with hoodlaid shock absorbers and non-shatter windshield glass which you do not get on any other low priced car.

Think it over. Buy a Ford and SAVE the DIFFERENCE.

Can make deliveries now on any model within from two weeks to thirty days.

Call and see us when in town. You are always welcome whether you want to buy or not and a demonstration costs you nothing.
