HARDEST FIGHT IN THE HISTORY OF THE PARTY

Senator Quay's Last Message to President Roosevelt Was One of Caution

SAW A BITTER CONTEST

Tells President Through Don Cameron That He Is Making a Mistake

BEAVER, Pa., June 2.—Senator Quay took a keen interest in the approaching presidential election up to the day before his death. It was told at his house today that he sent a dying message to President Roosevelt through Don Cameron, with whom he conversed last Friday.

Quay is quoted as saying: "I want you to tell the president as soon as possible, of of course, that probably I should have no voice in the selection, but tell the president that he is surely making a mistake.

"Don, the coming campaign will be a hard one. It will be one of the hardest fights in the history of the republican party. The opposition is strong and it may grow stronger, and on this account the new chairman should be a man who has had the greatest political experience that it is possible to obtain."

SHUT-DOWN THROWS 600 OUT OF EMPLOYMENT

CHICAGO, June 2.—The Iroquois furnace at South Chicago has shut down, throwing more than 600 men out of employment. The closing of the plant is the direct result of the tieup of the Boats-of-the-Lake Carriers' association. The company manufactures pig iron and for some time has been unable to get any raw iron ore. As soon as the stock on hand was exhausted the plant was forced to stop operations.

SULLY CLAIMED PEW WAS EXEMPT

NEW YORK, June 2.—An unexpected echo has been heard of the Sully failure. It arose over a pew in St. Bartholomew's church, which was bought by Mr. Sully some time before the collapse of his firm. The deed for the pew reached his office after the receivers took charge and fell into their hands. Finally Mr. Sully made inquiry and demanded the document, which he said was exempt. The receivers retained it, however, until advice could be secured as to whether the pew was an asset of the cotton merchant. Upon the advice of their counsel the deed has been held among the assets pending the appointment of a trustee in bankruptcy. Mr. Sully complained bitterly over the action.

AN AMERICAN CITIZEN SENT FROM PRUSSIA

NEW YORK, June 2.—Emil Herz of Cleveland, Ohio, a naturalized American citizen, has been expelled from Prussia, according to a Times dispatch from Berlin. No details are given.

UNION PACIFIC TO HAVE TRAIN GUARD

RAWLINS, Wyo., June 2.—It is reported here that armed guards will again be placed on all of the express and mail trains of the Union Pacific. The road kept a force of armed men on its trains all last summer, laying them off as the trails and mountain passes became filled with snow, but now that they are open and avenues of escape for train robbers made easy, the guards will be returned.

In addition to the armed force on the trains a number of fast horses are kept in Cheyenne, ready for instant use. The stable is close to a sidetrack, where a car is always kept standing into which the horses can be loaded in a few moments' notice. Another car, well equipped with arms, saddles and other necessities, is also at hand and, with the horses, can be hurried to any point on the line.

With this system kept at the highest efficiency it is believed by the railroad officials that the possibility of loss by robbers is reduced to a minimum.

NINE YEARS FOR TAKING 30 CENTS

NEW YORK, June 2.—Recorder Goff has sentenced John Crane and Arthur Nagle to nine years and six months in prison for stealing thirty cents. The men are ex-convicts, it is said, and were found guilty of holding up a woman in Thirty-third street. The fact that her purse, which they snatched, was almost empty did not lessen their crime in eyes of the court.

JAMES R. GARFIELD

Said to Be Slated to Succeed Secretary Cortelyou, of the Department of Commerce and Labor

ANOTHER ATTEMPTED LYNCHING IN OHIO

SPRINGFIELD, Ohio, June 2.—There was another lynching attempted here last night. A crowd of negroes surrounded the jail at midnight to lynch Walter Fisher, colored, under arrest for killing Edward Boone, colored.

Sheriff Routzahn had just returned from Dayton, where he took Fisher for safe keeping, and so advised the crowd, which yelled back that they would get Fisher when he was brought back for trial.

ANOTHER INJUNCTION AGAINST MACHINISTS

ALBUQUERQUE, N. M., June 2.—Judge Baker, in the district court, made permanent the injunction restraining the striking Santa Fe machinists from molesting the company's property or interfering with non-union employes. A motion by thme machinists to modify the injunction so as to permit them to converse with non-union men was denied.

CONDIAIONS OF CONTRACT.

When the machinists walked out on the Santa Fe the officials agreed to sign contracts with men who would take the places of the strikers. This was done all over the system and hundreds of machinists signed the contracts. The union machinists contend that the contract is a farce and that a strike-breaker who signs it signs away even his rights as a citizen for a period of sixty days.

They also state that in case the machinists wish to quit work the company can hold back every cent that is coming to them on the ground that they have not worked sixty days. That at the end of the sixty days they say the company can say that the machinist is not first class and can pay him just what it wishes. The company says the contract is all right and that it is not its purpose to beat the new men.

SENSATIONAL BREAK JULY COTTON TODAY

NEW YORK, June 2.—There was a sensational break in July cotton today. The change for better in the weather conditions recently and the continued light spot demand in connection with the persistent hammering by the bears seemed to have demoralized the bulls.

Since the market opened on last Tuesday there has been a steady and increasingly heavy outpour of long cotton. On last Friday July closed at 12.80c. It reached 11.50c during this morning, a decline for a little over two business days of 125 points, or 1¼c a pound.

July opened today at 11.90c, sold to 11.85c on call, then broke 3 to 4 points at a clip until it reached 11.55c. Following this the offerings subsided somewhat and the bears started to covering, causing a rally. The undertone of the market remained very nervous and excited.

URGES CHILDREN FOR PREACHERS

ST. LOUIS, June 2.—In an address before Missouri State Congregational Association on "Religious Opportunity and Obligation of the Home," Rev. Cyrus F. Stimson, of Kansas City, impressed on the ministers their duty to have large families. The modern five-room flat he declared to be an enemy to family life, and emphasized this remark by stating that owners of such property placed a premium on small families and accordingly upon infanticide.

One of the great evils of modern society he declared to be due to the fact that the people put off marital obligations until too late in life. "Parents are greatly to be blamed for this. They exact of a suitor for their daughter's hand conditions that most young men cannot comply with. It is the duty of ministers of the gospel to preach to the members of their flocks, urging early marriages and large families."

HIGH WATER COVERS 1000 FEET OF TRACK

STERLING, Colo., June 2.—One thousand feet of Union Pacific Railroad track near Pawnee Creek in this county, is entirely covered by water as the result of a water spout. No lives have been reported lost so far, nor any ranchmen reported loss of stock, but many valuable fields of hay are completely ruined.

CANDIDATES WILL FREE DELEGATES

SPRINGFIELD, Ill., June 2.—Before the republican state convention met today an agreement was reached by the adherents of Governor Yates and Charles H. Deneen not to oppose the pending resolution releasing delegates from instructions. It is generally assumed the result will be the adoption of the resolution by the convention.

The Yates' men held a meeting before the convention this morning, and Governor Yates released all the delegates. On motion of Lieutenant Governor Northcote, a Yates' lieutenant, the delegates refused to be released.

Governor Yates then addressed the convention, releasing his delegates. Mr. Lowden also addressed the convention, releasing his delegates.

On the sixty-eighth ballot the result was as follows: Yates, 464; Lowden, 400½; Deneen, 370½; Hamlin, 107; Warner, 42; Sherman, 80; Pierce, 38. The convention took a recess after the sixty-eighth ballot until 3 o'clock.

150 DIVORCE CASES ARE DISPOSED OF

MUSKOGEE, I. T., June 2.—In the district court here one hundred and fifty divorce cases were disposed of. Of this number, twenty-three decrees were granted, decision held in about twenty-five and the balance of them were dismssed.

In the clerk's office during the day, just seven marriage licenses were issued.

UNCLE RUSSELL NEVER TOOK A VACATION

Sage Says the Habit Is Outgrowth of Abnormal or Distorted Business Method

UNFITS ONE FOR WORK

Veteran Financier Has Taken Enjoyment for 85 Years in Application to Duties

NEW YORK, June 2.—In an article under the caption, "The Injustice of Vacations," the Independent quotes Russell Sage to the effect that he has never taken a vacation in his life; that the "vacation habit is the outgrowth of abnormal or distorted business methods," and that a man is less fitted to do good work for his employer after two weeks' rest each year than he was before.

"When I was a boy," said the veteran financier, "the practice was not in vogue. During the eighty-three years of my career I have not once taken a vacation. As a matter of fact I was so glad to get a chance to learn business that the idea of asking my employer to make me a present of two weeks' time that belonged to him would have been preposterous. Besides, I was eager to to advance in business. It is not absurd to suppose that a man can in two weeks recuperate from the wear and tear of a year's work? On the contrary I have too often observed that men will while on their vacations make inroads upon their vitality and purses that cannot be repaired in the following eleven months and two weeks.

"A man should work 'easy,' be economical of his time, conserve his force and not worry. It is worry and not work that makes the hair gray. If I had a thousand tongues I would preach 'save time' with them all. It is infinitely more valuable than money."

WILL LEAVE COTTON BELT FOR LIBERIA

NEW YORK, June 2.—Colored residents of Newark, N. J., have formed an association through which they are planning the emigration of a number of families to Liberia. They have selected two of their number to start this month to look for a proper place for a setlement and to obtain some sort of concession from the authorities of Liberia. It is expected that the Liberian government will take care of the emigrants until they can get their farms in shape.

President Tinsley, who heads the association, says he believes more than 20,000 colored people are ready to leave the cotton belt and make their homes in Liberia if transportation facilities can be obtained for them. The Liberian government offers each immigrant 25 acres of land free of charge besides furnishing rations until the farms are going. "Our plan," he said, "is to get as many colored people as possible from this neighborhood and then go to Savannah, where we are sure we can get a large southern contingent."

BREAK UP BAND OF CAR THIEVES

CHICAGO, June 2.—In the arrest of Michael Donovan, the police believe they have begun the disruption of an organized band of car thieves whose depredations in recent years have cost the railroads nearly $1,000,000.

The police say that while questioning the man's wife she told them that her husband, who is a property owner, and is considered wealthy by his neighbors, was stilling only stolen goods in a big store which he has been operating for a number of years.

When Donovan was arrested and held for investigation of his wife's story, the police say that in the presence of railroad detectives he confessed to having received stolen goods from the car thieves during the last fifteen years.

99 YEARS FOR EL PASO MURDER

EL PASO, Texas, June 2.—Arthur A. Eddy of Los Angeles, convicted of the murder of Daniel Mitchell of Cincinnati, which occurred in this city April 1, has been given a sentence of ninety-nine years. Eddy accused Mitchell of estranging the affections of a woman and followed him up here from California to recover, he said, $600 which the woman is said to have given him. Eddy was a bartender and Mitchell the son of wealthy parents.

AGREEMENT BETWEEN RUSSIA AND ENGLAND PROMISES NO GOOD TO INTERESTS OF UNITED STATES IN COMMERCE FOREIGN COUNTRIES

INCREASING PROBABILITY OF AN ANGLO-RUSSIAN ALLIANCE DELIGHTS LATTER COUNTRY

America Has Already Lost Heavily in Differential Duties Levied Against Her and Great Britain, Alive to Possibilities Before Her, Is Thought to Be Playing a Shrewd Game for Big Stakes Commercially as Well as Politically

ST. PETERSBURG, June 2.—Comment here on the settlement of the Russo-Canadian fishery dispute is very significant. The agreement is welcomed by the Russian press as an evidence of the increasing probability of an Anglo-Russian alliance, the papers pointing out that public opinian in Great Britain, France and Russia is becoming more favorable, the war instead of proving an obstacle to the alliance is serving as one of the arguments in its favor.

More significant still is the strong intimation of Novosti Vosti foreshadowing that a commercial treaty between the two countries may pave a way to a purely commercial reapproachment. The Novosti adds: "Realization of this is easier, as both Russia and Great Britain are bound by enormous commercial dealings. It is true Russia is further from Great Britain than France, but she is nearer India, whose railroads could be joined with Russia." The paper makes the further point that without such commercial treaty any political agreement would be very frail. Although it is impossible to ascertain at this time whether the question of such a commercial treaty has actually been taken up, the possibility of its being the next step in the program towards political agreement arouses the keenest interest in diplomatic circles, where it is considered fraught with the most far reaching importance.

The United States would probably be the chief loser by such a treaty. America has already suffered from differential duties levied against her in retaliation for imposition of a countervailing duty on Russian sugar, imports of American agricultural machinery, etc., which, a few years ago, were very large, have now fallen to almost nothing. With this tariff Great Britain is bound to succeed to all this trade, with big potentialities for the future.

The impression is growing that Great Britain is playing a shrewd game for big stakes commercially as well as politically, and that while a complete agreement mutually would be advantageous to both Russia and Great Britain, it would be at the expense of the United States in both of these directions.

The Chinese legation denies an uprising in Mongolia, saying that recent advices show the people are calm.

THE WEATHER

Arkansas—Tonight and Friday showers; cooler in north portion tonight.

Oklahoma and Indian Territory—Tonight and Friday showers and cooler tonight.

Texas—Tonight and Friday showers; cooler in west portion tonight.

RETURNS TO TEXAS WITHOUT HIS BRIDE

OTTUMWA, Iowa, June 1.—Albert G. Greenwood of Palestine, Texas, will return tomorrow without his Ottumwa bride. He was to have been married tonight at 8 o'clock to Miss Maude Utecht, a popular and most estimable young woman of this city. The license was issued today at the court house.

At almost the last minute the young lady flatly refused to allow the marriage to take place, and the invitations were recalled and an indeterminate posponement announced.

Greenwood says that he will return home tomorrow. Miss Utrecht is a teacher in the primary department of the public schools. Her courtship by Mr. Greenwood began several years ago.

CHIEFS UNITE IN AN APPEAL TO RAISULI

Ask Him to Release the American Citizen and British Subject Held by Him

FOR MOSLEM RELIGION

Fear That Foreign Ships Mean Warfare Against the Sacred Faith Impels Action

TANGIER, Morocco, June 2.—The Italian third-class cruiser Dogali arrived here today. A delegation of chiefs of the Angerra tribe left here today to make a personal appeal to Raisuli, the bandit chief, to release Messrs. Perdicaris and Varley, in order to precent the debarkment and permanent occupation of Morocco by the foreigners opposing the Moslem faith and the expulsion of native Mohammedans.

This mission is considered important, as the Mohammedan chiefs will unite in appealing to Raisuli not to endanger their religious supremacy in Morocco.

The French government relies much upon the appeal to the Mohammedan sentiment. The natives are greatly excited by the arrival of so many foreign warships. They call all foreigners "Roumis," meaning infidels, and they fear "Roumis" are about to make an effort to drive out those who are of the Mohammedan faith.

DALLAS PROPERTY SELLS FOR $70,000

DALLAS, June 2.—A real estate deal involving a consideration of $70,000 was consummated in Dallas yesterday morning. The property fronting on Elm street and extending back to Pacific avenue, including the three-story brick and stone building now occupied by the J. F. Zang Furniture Company, was disposed of for that sum. The lot fronts seventy-five feet on Elm street and fifty feet on Pacific avenue, and the building thereon is one of the substantial structures of Elm street.

RUSSIAN LOSSES BUT 800 AND NOT 15,000

ST. PETERSBURG, June 2.—A semi-official telegram from Mukden, dated today, says that the Russian losses at the battle of Kin Chou on May 26 were thirty officers and 800 men killed or wounded. The guns abandoned by the Russians were rendered useless.

JAPANESE OUTPOSTS CREEPING NEARER

DASHICHAO, Wednesday, June 1.—The Japanese outposts are now three miles from Vafangow. There is no news from Port Arthur. The Japanese are stopping the Chinese runners and are searching their junks.

QUESTION OF PLACING MINES NEAR HARBOR

LONDON, June 2.—Earl Percy, under secretary of state for foreign affairs, in replying to questions in the house of commons today, said that no representations had yet been made to Russia or Japan regarding the placing of naval mines in the far east outside of territorial limits. The subject, he added was engaging the careful attention of his department. Asked if in view of the increased range of modern projectiles, the government was prepared to recognize any extension of the three-mile limit, Earl Percy answered in the negative.

AUSTRIA WILL BUILD CRUISERS FOR RUSSIA

NEW YORK, June 2.—Commenting on the report that the Stablimento Tecnico of Trieste will shortly be commissioned by the Russian government to build five armored cruisers, each of 8,000 tons displacement and having a speed of twenty-one knots, the Vienna correspondent of the London Times says it is argued that the building of the cruisers will not constitute a breach of neutrality on the part of Austria, since their guns and ammunition will be shipped in Russian ports. If the contract for the building of the vessels is signed it will involve the sum of $12,500,000.

CONSTRUCTION OF THE WIJU RAILROAD

SEOUL, Korea, June 1, 9:30 a. m.—General Yamane, head of the construction department of the Wiju railroad, has removed his main office to Chemulpo for convenience in the superintendence of the disembarkation and reshipment of materials to the various northern points where the work is progressing.

Grading has been finished for a distance of twenty-five miles from Seoul, with all necessary bridges constructed for fifteen miles out. Tracks will be laid along this stretch of the road upon the completion of a long cutting near Yon Han, which will enable the transport by rail of heavy timber and materials instead of the present difficult method of carrying them in by bullock carts over rough roads.

Work on the branch now under construction, north from Song Do, is progressing in a satisfactory manner, and it is expected that Ping Yang will be reached by the beginning of December. The majority of the railway battalions heretofore stationed in temporary barracks at Yung San near Seoul will shortly be sent farther north.

DESTROY REFUSE OF CITIES BY CREMATION

CHICAGO, June 2.—Destruction of the refuse of cities by cremation has been urged at the meeting of American and British engineers held here.

The discussion was brought up by criticism of papers read by C. Newton Russell of London and George Watson of Leeds.

"It is possible to burn green, crude refuse without any perceptible odor," said E. C. Dennell, a London engineer. "You must not put the refuse in the lakes, as it makes the water impure. You must not put it in the sea, for it kills the fish. In England we have had a great deal of experience with this problem and cremation is the only solution."

REMAINS OF CHILD FOUND

SAN ANTONIO, Texas, June 2.—The remains of a child were found under a house in West Commerce street this morning. An investigation is on.

KANSAS TORNADO WRECKS PROPERTY

PRINCETON, Kan., June 2.—A tornado at Cold Water, a small town near here, wrecked many barns and destroyed much farm property.

Mrs. H. Pritchard was struck on the head by flying timbers and was badly injured. The tornado struck ten miles southeast of Dodge City, doing heavy damage to farm property and crops, but so far no casualties are reported.

DAMAGE IN THE TERRITORY

ARDMORE, I. T., June 2.—A heavy wind storm at White Head, Paoli and Roff caused much damage, especially at White Head, where a number of buildings were blown down and crops almost ruined. No casualties are reported.

SOCIETY OF FRIENDS PLAN GREAT SESSION

TORONTO, Ont., June 2.—Members of the Society of Friends throughout the United States and Canada are looking forward with much interest to the great biennial general conference of the seven yearly meetings to be held in this city in August. The session will continue for one week. Among the prominent persons who will participate in the proceedings are Premier G. W. Ross of Ontario, John William Graham of Manchester, England; Professor Goldwin Smith of Toronto University, Professor Adam Shortt of Queen University, Dr. J. Holmes of Swarthmore College, Henry W. Wilbur of New York and Dr. O. Edward Janney of Baltimore.

RACES BY ELECTRIC LIGHT

CHARLESTON, S. C., June 2.—Horse racing by electric light is to begin at the old exposition grounds track here tonight, all arrangements having been completed for the opening. Many fast horses are here and the management predicts a successful meeting.

THE PRESIDENT DOESN'T CHEW TOBACCO

BUT IT IS NOT THAT HE CAN'T

DOCTOR ADVOCATED OPERATION— PE-RU-NA MADE KNIFE UNNECESSARY.

MRS. EVA BARTHO.

MRS. EVA BARTHO, 133 East 12th St., New York City, N. Y., writes: "I suffered for three years with leucorrhea and ulceration of the womb. The doctor advocated an operation which I dreaded very much, and strongly objected to go under it. Now I am a changed woman. Peruna cured me; it took nine bottles, but I felt so much improved I kept taking it, as I dreaded an operation so much. I am to-day in perfect health and have not felt so well for fifteen years."—Mrs. Eva Bartho.

Mrs. Senator Roach, of Larimore, N. Dak.; Mrs. Senator Warren, of Cheyenne, Wyo.; Belva Lockwood and Mrs. General Longstreet, of Washington, D. C., are among the prominent ladies who indorse Peruna.

Miss Helen Rolof, Kaukauna, Wis., writes:

"Several times during the past two years or more my system has been greatly in need of a tonic, and at those times Peruna has been of great help in building up the system, restoring my appetite and securing restful sleep."—Helen Rolof.

Miss Muriel Armitage, 36 Greenwood Ave., Detroit, Mich., District Organizer of the Royal Templars of Temperance, writes as follows:

"I suffered for five years with uterine irregularities, which brought on hysteria and made me a physical wreck. I tried doctors from the different schools of medicine, but without any perceptible change in my condition. In my despair I called on an old nurse, who advised me to try Peruna, and promised good results if I would persist and take it regularly. I kept this up for six months, and steadily gained strength and health, and when I had used fifteen bottles I considered myself entirely cured. I am a grateful, happy woman to-day."—Miss Muriel Armitage.

Miss Lucy M. Riley, 33 Davenport St., Cleveland, Ohio, writes:

"I wish to add my indorsement to thousands of other women who have been cured through the use of Peruna. I suffered for five years with severe backache, and when weary or worried in the least I had prolonged headache. I am now in perfect health, enjoy life and have neither an ache or pain, thanks to Peruna."—Lucy M. Riley.

It is no longer a question as to whether Peruna can be relied on to cure all such cases. During the many years in which Peruna has been put to test in all forms and stages of acute and chronic catarrh no one year has put this remedy to greater test than the past year.

If all the women who are suffering with any form of female weakness would write to Dr. Hartman, Columbus, Ohio, and give him a complete description of their symptoms and the peculiarities of their troubles, he will immediately reply with complete directions for treatment, free of charge.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

CREAMERY BUSINESS ON BETTER BASIS

WACO, Texas, June 2.—There is considerable talk of a creamery for Waco, and some of the young business men are investigating this subject. It is stated that the creameries now operating in Texas are on a much better basis than the first plans which were established some years ago and which were largely experimental, some of them failing to justify the expectations of promoters. At present, however, conditions are very much different, and creameries generally are paying nice dividends. Waco is now shipping out a great deal of cream, but local dairymen and others say this is not a natural condition and are urging that one or more creameries be established here. Fort Worth has three creameries, it is said, and the output in the way of cream is being bought for two hundred miles, while Dallas is also in the market. The question appears likely to be solved by action soon.

COTTON RECOVERING FAST FROM BACKSET

WACO, Texas, June 2.—Cotton is fast recovering from its torpor incident to the cool weather which prevailed so long and has been quickened into life by the hot rays of the sun and the recent rains. It is now growing fast, and looks well, but the dread boll weevil is here and has shown himself in some of the squares which have formed on the larger cotton. The extent of ravages indicates that the weevil will be a potent and dread factor in this section, but this had been expected, and with only a moderate cotton crop the country will be in very good condition.

73 GRADUATE FROM UNIVERSITY AT WACO

WACO, Texas, June 2.—The final exercises of Texas Christian University will take place today, when the class exercises occur. The grand concert took place last night. The session has been one of the most successful in the history of the institution. There are seventy-three graduates in all, twenty of these coming from the literary department, twenty-five from the preparatory department, sixteen from the business department, five from the school of art, nine from the school of oratory and three graduates in music. In the military contests the following won: Gold medal for the best drilled company went to company A, of which B. W. Proctor is captain; officers' sword to Douglass A. Shirley of Melissa, Texas; corporal's medal to John A. Garrard of Cooper, Texas; medal for the best drilled officer in the Scott rifles, to Harry H. Scales of Waco; medal for the best drilled private, Lawrence White of Gainesville; sergeant's medal, to B. H. Bloor of Manor, Texas.

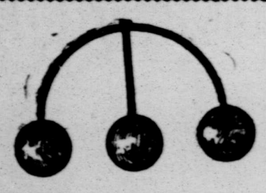

The board of trustees will spend $10,000 more at once in improving the main building, putting on towers and finishing the interior.

DENTON WILL HAVE GOOD GOLF COURSE

DENTON, Texas, June 2.—A meeting of the golfers will be held this afternoon to go into the permanent organization of a club. Grounds have been secured west of town and it is thought that the game will prove popular among the sport loving people of the town of Denton.

Fewer Gallons; Wears Longer.

Clear Skin You have doubtless heard a great deal about Ayer's Sarsaparilla—how it makes the blood pure and rich, tones up the nervous system, clears the skin, reddens the cheeks. Ask your doctor. J. C. Ayer Co., Lowell, Mass.

MYSTERY IN THE BALTIMORE SUICIDE

Ostracism of Wife by Relatives of McLane's Ascribed as the Cause of the Tragedy

WAS OLDER THAN MAYOR

Honeymoon of Two Weeks on This Account Said to Have Been Unhappy

BALTIMORE, Md., June 2.—Following the shocking suicide of Mayor McLane there are many solutions advanced for the act. There are some here who say that he had a hurt deeper than the harsh criticism of partisans who opposed him in politics. A burden heavier than the guidance of his home city in her great distress of fire, and the wound came, it is said, within the family circle, where, until his marriage to Mrs. Mary Van Bibber two weeks ago, there had always been mutual love and affection.

ELOPED WITH WIDOW

When Mayor McLane eloped to Washington and married the widow of the late Dr. Van Bibber, he said nothing to his parents and relatives that he intended to wed. The bride was a few years older than he, but she had a fixed social position with the best families in Baltimore and the south. She had for years moved in the same circle with the McLanes, the most exclusive family here. She has a splendid fortune and a beautiful home, and all their friends congratulated them and prophesied a long, happy life for the pair. But there was a lack of warmth on the part of his family toward the new Mrs. McLane. No fault was found with her family or with her position. Robert McLane had been courting her for six or seven years, and his intimate friends frequently teased him about his dilatory courtship, his laggardness in taking the handsome, rich widow to the altar, and it was generally understood that Robert McLane and Mrs. Van Bibber would be married when they wished to. But after the romantic wedding came an estrangement betwen the young man's bride and his parents.

DISPLEASED BY MARRIAGE

People who know the families declare that the elder McLanes were displeased with the young man's marriage, that they assumed a well bred but icy indifference toward the bride, and that unhappiness found lodgement in two homes as a result.

Contrary to the expectations of the society people of Baltimore, there were no receptions to the bride or to the groom, and it is a matter of comment that since the return of the newly married couple the groom's parents have not once visited his home.

Coroner Hayden has been to the house of death, interviewed the widow and made an official report—suicide—and an inquest is unnecessary. He says nothing, but Mrs. McLane said she knew nothing of the motive which lurked in the heart of her husband when he chatted gaily with her, and then in another instant blew out his brains.

Edgar Allen Poe, Mayor McLane's lifelong and closest friend, also declares that he is mystified by the tragedy. Some of Mayor McLane's friends offer an explanation for his suicide. They say his pride had been hurt by unjust criticism of his official acts in the rebuilding of the city. The young mayor had a heavy load to carry. His critics sharply arraigned him for delay, and there were many severe objections to his appointments. Young McLane was an aristocrat, high-strung and proud. Nearly all his appointees have been members of aristocratic families, and, though he never complained or showed annoyance at the criticism, his friends assert that he was sorely pained by the dissatisfaction unkindly expressed of his official conduct. Whatever the cause, the mayor told no one.

STATEMENT OF THE BRIDE

The following statement is made by the coroner for Mrs. McLane:

"She said that a few minutes before the shooting she and the mayor were in her apartment talking. He appeared to be in very good spirits and they were laughing together over a package which he was tying. The mayor remarked to Mrs. McLane that he wished to arrange certain articles in a bureau drawer in another room (the same in which the shooting occurred) and left the apartment in which they had been chatting.

"Shortly after his departure Mrs. McLane heard a noise which she thought was a shutter banging. She went down one flight of stairs and called the maid, Lizzie Redchurch, asking her about the noise. The maid went upstairs, rapped on the door and, receiving no response, entered. The mayor was lying on the floor in front of a wardrobe mirror. Lizzie Redchurch exclaimed to Mrs. McLane, who had followed her into the room:

"'Mr. McLane has fallen and hurt himself.'

"As Mrs. McLane approached her husband she saw what had occurred. The pistol was lying on the floor by him. The mayor was breathing heavily, but was unconscious. She lifted his head and put a pillow under it and immediately sent for medical assistance. Mrs. McLane could throw no light on the mayor's death and told the coroner she did not know her husband had a revolver, and, of course, did not know where he kept it."

GAINER LEAVES FIVE CHILDREN AT BEAUMONT

WACO, Texas, June 2.—J. L. Gainer, who was killed in Beaumont yesterday about noon by his brother-in-law, Vestenburg, left Waco only Tuesday night for Beaumont, where he has five children with their grandmother. Gainer's first wife has been dead some little time and the children were with their grandmother. He was secretary of the Hook and Ladder Company of this city, and a well known fireman. He married Miss Davis, a daughter of Tom Davis, not very long ago. Miss Davis belonged to an excellent family and is esteemed here.

HAS STOOD THE TEST 25 YEARS.

NEW PROCESS IS PERFECTED FOR MAKING STEEL

James Gayley's Invention Will, It Is Said, Greatly Reduce Cost of Manufacture

IS A PRACTICAL SUCCESS

Process Is a Modification of That of Bessemer That Revolutionized Iron World

NEW YORK, June 2.—Steel and Iron men throughout the world will be interested to learn, according to the Herald, that James Gayley, vice president of the United States steel corporation, after a long series of experiments, has practically perfected a new process for making steel which he believes will greatly reduce the cost of manufacture.

For years Mr. Gayley has been working upon the process and has now informed his friends that his experiments conducted at the Isabella furnaces in the Pittsburg district have indicated that the new method will prove a practical success. It is understood that they have resulted in reducing the moisture of the air applied in the converting of the ore to pig iron and steel. Other new features have also been introduced.

Briefly stated, the Gayley process is a modification of the Bessemer process, which revolutionized the iron and steel industry. The process will be applied in the manufacture of pig iron as well as steel. It is understood the process will greatly cheapen the cost of production.

MAY SHOWING IS FIFTEEN MILLION

AUSTIN, Texas, June 2.—During the month of May 105 charters, with capital stock, were filed in the state department, twenty without capital and fifteen amendments to charters, increasing the capital stock, a total of 140. The aggregate capital stock of the 105 companies is $14,900,000, and the increase in the capital of fifteen companies is $560,000, making a grand total of new capital invested in Texas during the month $15,400,000.

There 140 charters covered every variety of purposes, churches, schools, lodges, orders, insurance, development, mercantile and trust.

The American Rice Cereal Company of San Antonio has a capital of $5,000,000, the largest of any company chartered, and the Texas City Transportation Company of Texas City $2,500,000, which was the second largest. This last named company proposes to do a transfer business covering the waters of the entire globe, and first named to operate in all or any of the states in the union and foreign countries.

EQUIPMENT FOR CORPS OF THE TEXAS GUARDS

AUSTIN, Texas, June 2.—The adjutant general has received a lot of heliographs as additional equipment for the signal corps of the Texas National Guard. The appliances and methods of transmitting communications and messages by signal corps is very complete and interesting and provides for almost every possible emergency.

The flash lantern is used at night with success however dark.

The heliograph is used during the day, when the sun is bright. When the weather is cloudy and the heliograph can not be used, then the banners are called into requisition and communications transmitted by a system of "wigwagging."

In addition to the flash lanterns, heliographs and banners, these corps are provided with a complete telegraph outfit, the whole of which can be packed and carried on one horse with ease.

The Texas corps is now provided with all these facilities.

FORT WORTH BELT LINE MAY MAKE BOND ISSUE

AUSTIN, Texas, June 2.—Judge William Capps of Fort Worth, attorney of the Fort Worth Belt Railway, had a conference with the railway commission yesterday. The Belt Line proposes to issue bonds later on for the purpose of extending and improving the system and Judge Capps wants the commission's engineer to value the line so as to determine the amount they can authorize.

IT'S A PLEASURE

To eat when your appetite is good and the stomach in a normal condition, but when conditions are reversed, you suffer so much that you would rather not eat at all. In such cases you will find a dose of

Hostetter's Stomach Bitters

before meals will aid the stomach wonderfully in its work of digestion and when taken regularly cures

Nausea, Dizziness, Flatulency, Poor Appetite, Indigestion, Dyspepsia and Liver Troubles.

Sickly Women will also find relief in the Bitters. We urge every sick man or woman to try it.

SEC'Y HAY TAKES HAND IN CASE

State Department Machinery Set Going to Free Engineer in Mexican Prison Who Once Run on a Texas Railroad

DENVER, Colo., June 2.—The state department at Washington has taken up the case of Timothy J. Lee, brother of Police Captain Frank Lee, who is in prison at Zacatecas, Mexico, on account of a railroad wreck, which occurred while he was running a locomotive. The following correspondence is self-explanatory:

DENVER, Colo., May 20, 1904.—Hon. John Hay, Secretary of State, Washington: Dear Mr. Secretary—I write you in behalf of a former citizen of Colorado, who is now in prison at Zacatecas, Mexico—Mr. T. J. Lee. He is a locomotive engineer and a member of the Brotherhood of Locomotive Engineers. He ran for a number of years on the railroads of this state, and about a year ago went to Texas to pursue his calling. From there he went to Mexico, whence he became an engineer on the Mexican Central. Somewhere about the first of the present month the train which his engine was pulling was derailed. He did not have time to jump, and was very badly injured. His brother is a captain on the police force of Denver and has lately received a letter, of which I inclose you a copy. The letter explains itself. You would naturally know the action I would like to see taken and what should be done. Will you kindly read Mr. Lee's letter carefully and have done whatever can be done to mitigate the burdens he is compelled to bear and secure for him the relief to which he is fully entitled? I am very truly yours,

T. M. PATTERSON.

DEPARTMENT OF STATE, WASHINGTON, May 27, 1904.—The Hon. T. M. Patterson, Denver, Colo.: Sir—I have the honor to acknowledge the receipt of your letter of the 20th inst. calling the department's attention to the case of Mr. T. J. Lee, an American citizen, who is held as a prisoned in a hospital at Zacatecas, Mexico, to answer for an accident to a railway train of which he was the engineer.

In reply I have the honor to say that copies of your letter and of its inclosure have been sent to the United States charge d'affaires at the City of Mexico, for his information, with instructions to investigate the case and to take appropriate action in Mr. Lee's behalf, both to secure humane treatment for him while he is recovering from his injuries and to see that he has an early and fair trial. I have the honor to be, sir, your obedient servant, JOHN HAY.

The language of the Republic of Haiti is French, while the language of the Republic of Santo Domingo, on the the island of Haiti, is Spanish.

Headache

Biliousness, sour stomach, constipation and all liver ills are cured by

Hood's Pills

The non-irritating cathartic. Price 25 cents of all druggists or by mail of C. I. Hood & Co., Lowell, Mass.

ANARCHIST IS MERELY CRAZY

CHICAGO, June 2.—Abel Gabaniska who is under arrest as an anarchistic plotter with design on the lives of Mayor Harrison, Honore Palmer and other notables, was declared today by Police Inspector Shippey as merely a half crazed junk dealer from St. Louis. The prisoner unkempt, undersized and apparently half witted, was given a searching examination by the inspector and as a result the inspector said that Gabaniska would be sent to the detention hospital for medical examination.

"He is no anarchist," said the inspector. "He's probably a degenerate. I am satisfied he was not sent by any society or order to kill the mayor or any one else. The fellow acts like an idiot."

U. S. CAVALRY MAY CHASE BANDITS

WASHINGTON, June 2.—High administration officials are considering the question of sending a force of cavalry across the Atlantic to co-operate with the Moorish sultan's troops in hunting down the bandits if France declines to exercise the pressure which Secretary Hay thinks she should and if the negotiations for the release of the captives fail. They are convinced that it would be useless and foolish to try to capture the bandits with anything but mounted troops familiar with mountain campaigns, and if an American force is sent to Morocco to attempt to rescue Mr. Perdicaris and his son-in-law and to punish the brigands, it will be a detachment of cavalry.

RAILROADS ASK CHANGE IN LIVE STOCK WEIGHTS

AUSTIN, Texas, June 1.—The railroads of Texas have inaugurated a campaign before the railroad commission for an advance in the minimum weights on shipments of live stock. The commission has decided to hear the application argued in open hearing and set it for June 14.

The commission is asked to adopt the following:

1. For shipments of horses, mules, beef cattle, etc., 31 feet and under, 19,000 pounds; 36½ feet and over 34, 22,000; 34 feet and over 31, 20,500; over 36½ feet, 24,500.

2. For shipments of cattle, all kinds, etc., 31 feet and under, 18,000; 36½ feet and over 34, 20,000; 34 feet and over 31, 19,000; over 36½ feet, 21,000.

3. For shipments of calves, goats, etc., 31 feet and under, 15,000; 36½ feet and over 34, 16,000; 34 feet and over 31, 15,500; over 36½ feet, 16,500.

It is also asked in said application that the minimum weight on cars exceeding 40 feet in length shall be on the basis of 3 per cent of the 40-foot minimum for each foot or fraction thereof in excess of 40 feet.

GOVERNOR LANHAM NAMES TRIPLETS

AUSTIN, Texas, June 2.—Governor Lanham received a gushing, joyful letter yesterday from a proud and excited father in Limestone county, saying his good wife had just presented him with triplets, all girls, and requesting him to name them.

The governor answered the letter, and after tendering his hearty congratulations and warm compliments, suggested the names of Ruth, Rena and Rebecca.

Judge N. A. Cravens, associate member of the executive court, filed a dissenting suggestion, in which he held, and cited both law and scripture to prove, that this trio of fine little girls should be christened Kate, Duplicate and Triplicate.

TAKES FIRST PRIZE

WACO, Texas, June 2.—Miss Annie Wolfe of Waco took first prize at St. Louis for the handsomest and most original floral design sent the Texas Woman's Press Club. Many florists competed and sent designs.

THE TRYING TIME

In a young girl's life is reached when Nature leads her uncertain steps across the line which divides girlhood from womanhood. Ignorance and neglect at this critical period are largely responsible for much of the after misery of womanhood. Not only does Nature often need help in the regular establishment of the womanly function, but there is almost always need of some safe, strengthening tonic, to overcome the languor, nervousness and weakness, commonly experienced at this time.

Dr. Pierce's Favorite Prescription establishes regularity. It is a strengthening tonic, soothing the nerves, encouraging the appetite and inducing restful sleep. It contains no alcohol neither opium, cocaine or other narcotic.

"I wish to tell you the benefit we have received from using your remedies," writes Mrs. Dan Hall, of Brodhead, Green Co., Wis. "Two years ago my daughter's health began to fail. Everything that could be thought of was done to help her but it was of no use. When she began to complain she was quite stout; weighed 170, the picture of good health, until about the age of fourteen, then in six months she was so run down her weight was but 130. She kept failing and I gave up, thinking there was no use, she must die. Friends all said, 'You will lose your daughter.' I said I fear I shall. I must say, doctor, that only for your 'Favorite Prescription' my daughter would have been in her grave to-day. When she had taken one-half bottle the natural function was established and we bought another one, making only two bottles in all, and she completely recovered. Since then she is as well as can be."

Dr. Pierce's Common Sense Medical Adviser, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

"All Done Out"

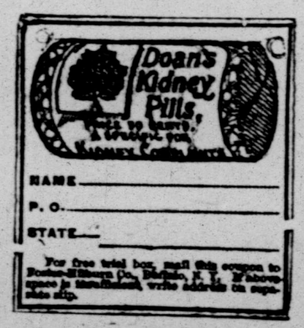

Never know what it is to be restful with a constant aching back. You are "all done out" all the time—morning, noon and night the back bothers you—sometimes with sharp, shooting pains, sometimes with slow exhaustive aches.

Why don't you rid yourself of that "bad back?" The sure way is to reach the cause—the kidneys. Doan's Kidney Pills cure every form of kidney ill from backache to diabetes, dropsy, all urinary and bladder disorders down to that dread destroyer, Bright's disease. The best of proof that this is so.

FORT WORTH PROOF:

J. A. Thornton, the well known real estate dealer, with headquarters at Fourth and Rusk streets, and who lives at 302 Adams street, says: "Some time in the spring of 1902, I believe it was in the month of April, a gentleman called on me and asked me to state my opinions of Doan's Kidney Pills. At that time I told him they had proved of incalculable benefit to me. Some time previous to his visit I had purchased a box at Weaver's Pharmacy on Main street, and had continued using the pills until cured of a very aggravating attack of backache and kidney complaint. It is fully a year since I made this statement and told the people of Fort Worth therein that Doan's Kidney Pills could be depended on to act exactly as claimed. Now, all that I can add to my original statement is that threatened some time ago with a recurrence, a few doses of the pills warded off the attack before it got any further than an incipient stage, and I have always found this to be the case. If I have been asked by one person during the past year I have been asked by a hundred to state my opinion of Doan's Kidney Pills in private. I always have the same story to tell, and reply that it is the best kidney remedy in the world today. Only last week three different persons drove up to my office and asked me about them. I will always speak in the strongest terms possible for them, for I have given them a thorough test and I know what I am talking about."

OUR STORE WILL BE CLOSED TOMORROW

FRIDAY, JUNE 3RD

WE ARE PREPARING FOR THE MOST REMARKABLE SACRIFICE SALE IN THE HISTORY OF FORT WORTH. WE HAVE PURCHASED THE ENTIRE STOCK OF GARY, THE MAIN STREET MERCHANT

50c on the Dollar! This Bankrupt Stock, Consisting of $5,000 Worth of Gents' Furnishing Goods, Clothing, Footwear, Etc.

L. G. GILBERT, 1410-1412 Main Street

Market Quotations

NORTH FORT WORTH, June 2.—On a spirited, active market, the cattle supply with a good general quality offered sold early, steers of the well finished class selling at a small advance over Wednesday with all other grades strong at current prices. The slight weakness shown yesterday was fully regained today and buyers were kept busy closing out the run, the big end of which sold on the forenoon market.

One load of prime finished steers of home production sold at $4.50, the top price of the season. The bulk of well finished stuff landed around $3.75@4.15 with a few sales of good finished steers at $4.15@4.35.

Good fat butcher cows were steady on an active market with the sales varying between $2.75@3.25, good medium butchers $2.25@2.75, and good usual odd ends in ordinary killing cows and canners at $1.50@2.10.

Calves have advanced 25 cents since Monday's opening market and with today's trading prices on the best light veal calves were around $3.50@3.75. Bulls show no change in values and the scattered receipts yarded are at unchanged prices.

Hogs to the number of 650 arrived for the local market today and although there was no sensational change in conditions elsewhere local trading ruled strong and active.

Top hogs of exceptionally good weight and quality sold at a top of $4.70, 5 cents above Kansas City's best sale and within 5 cents of Chicago's top. Local hog men are exhuberant over the outlook for the Texas shipper and think that with proper judgment in handling the market situation here this market can be made almost independent of other points and salesmen can maintain a governing control through the extent of the demand by the packers at this place.

—●—

Charles E. Hicks of Hicks' Meadows marketed one load of choice heavy steers of 1,300 pounds and better today, at $4.50, the highest price of the season. Mr. Hicks, while heavily interested in the horse and mule business here, is also a big feeder and takes especial pride in finishing up strictly prime cattle, which are always market toppers whenever sold.

—●—

Best cattle at Chicago have reached the $6 mark, while the best native cattle at St. Louis are selling at $5.90, and at Kansas City at $5.75. Texas and western cattle at the World's Fair city are quoted at $3@5.50.

—●—

The local hog market today ruled strong and active, with a top on best heavy hogs of $4.70, which was within 5c of Chicago's best sale and 5c above top values at Kansas City. Will shippers continue to question the superiority of the Fort Worth market for territory and southwestern hogs?

HEAVY FINE FOR LOOSE TONGUE

WAXAHACHIE, Texas, June 2.—For making alleged uncomplimentary remarks about a young lady the heavy fine of $150 was imposed against a boy named Gaydes in the county court this morning. The defendant was arrested yesterday evening and entered a plea of guilty this morning.

WILL INVESTIGATE FEDERAL OFFICERS

WASHINGTON, June 2.—President Roosevelt appointed James S. Young, United States district attorney of Pittsburg, a special assistant attorney to investigate the charges against a number of federal officers in Alaska. These charges were discussed and final instructions given Mr. Young at a conference at the White House, at which Attorney General Knox was present. The principal investigation will be into matters affecting Judge M. C. Brown, of the first division, Judge James Wickersham of the third division, and John G. Brady, governor of the territory.

LARGEST FEEDER IN THE WORLD

David Rankin Raises More Corn and Feeds and Finishes More Cattle Every Year Than Any Other Man

While cattle feeding has been an unprofitable business the past year and feeders as a rule have been counting their losses according to the number of steers they fed—the more steers, the bigger the loss—it is of interest to know how David Rankin, reputed to be the biggest cattle feeder and corn grower in the world, has succeeded. His bookkeeper, Mr. Wilson, who keeps a very systematic account of all of Mr. Rankin's vast farming operations, lately furnished data for the following statements, which, while not a detailed account of Mr. Rankin's entire business, shows the result of his feeding operations for the last year.

During the year 8,000 cattle were fed and 8,000 hogs, which is neither the largest nor yet the smallest number he has fed in one year. Our readers, and most cattle feeders, drawing their conclusions from their own unsuccessful year's experience in feeding will admit that Mr. Rankin was in the business pretty strong for last year. He raises most of the corn he feeds and last year he raised in round numbers 500,000 bushels. In addition to this he bought about 200,000 bushels of corn, for which over $96,000 was paid. After deducting this and all other expenses his books show a net profit of $90,000 for the year. What he would have made had it been a better year for feeders can be surmised. No matter what the condition of the market is, however, Mr. Rankin always feeds, and the end of the year has always found him with a net profit that for years has annually amounted to a good sized fortune, as last year's business indicates, but which may not always represent a big interest on the capital invested, or, rather, on the gross value of the plant.

Mr. Rankin now owns some 23,000 acres around Tarkio. He commenced buying this land about twenty years ago as low as $6 per acre, and, although he is a buyer and not a seller of land, it is estimated that most of this land could be sold at from $75 to $100 per acre. It is very strong corn land, and, although successful corn growing requires a higher order of skill than is usually obtained from hired help, yet Mr. Rankin can show some spendid average yields from his farms. An average yield of seventy-five bushels is not an uncommon thing for whole sections, and one of his foremen makes affidavit that fifty acres made an average yield of 118 bushels per acre. These records are from the yield of 1902, but last year's crop was good, aggregating 500,000 bushels, as above stated. Some may wonder if Mr. Rankin would not have made more money to have sold his corn on the market instead of feeding it to cattle and hogs. The statement that has been sent the writer from the bookkeeper does not demonstrate this point as it was only aimed to given general results but considering Mr. Rankin's methods, it is very doubtful if he would have done as well to have sold his corn, even at the prevailing good price for corn instead of feeding cattle and hogs for what proved to be a declining market. Even if it would occasionally pay him to sell his corn rather than feed it he would hardly do so. He has found feeding as a business to be profitable. It enables him to keep much of his help employed the year around, which is about the only way farmers can expect to keep good hands. The help question is often a vexatious one even for the man who farms but 160 acres. What must it be for the man who farms 23,000 acres, mostly in corn? Good men do not want to be idle part of the year, and it is evident that by employing most of his men the year around Mr. Rankin is able to secure better men and with less trouble than if he only hired for part of the year and was obliged to very largely secure a new set of men each year. He employs about 250 men the wages as a rule being $25 per month and board for those working the year around and $35 per month and board for those working during the busy season only.

While he pays good wages, Mr. Rankin has his men accomplish more work than most farmers get out of their help. He does this not by making his men work any harder than other men, but by having them as much as possible use improved machinery that very often enables one man to do two men's work, and herein is one of the secrets of this millionaire farmer's success. Most of his 23,000 acres are farmed in corn, and he is constantly on the lookout for machines with which he can take care of the crop to the best advantage and at the least cost per bushel. Mr. Rankin was the first to make use of two-row listers, this being the method of planting in northwest Missouri, instead of surface planting, as is done farther east. When he ordered his two-row listers no factory was making anything but single-row listers and considerable experimenting was done before a satisfactory two-row lister was completed. Another machine that Mr. Rankin takes a great deal of satisfaction in using is a two-row cultivator, a machine that enables one man, or a boy, and three horses to cultivate from fifteen to eighteen acres a day. Mr. Rankin now has 150 of these cultivators, and it might be added that his favorite of two-row cultivators is the Midland, made in his home town and known to the readers of our advertising columns. So satisfactory is this machine that Mr. Rankin says that his men not only do twice as much work, but also better work than they did with the single-row cultivators.

With the use of all this labor-saving machinery Mr. Rankin has reduced the cost of growing corn to $5 per acre, or even less, according to the season. Labor-saving machinery for harvesting the crop has not kept pace with the improved machinery for putting in and tending it, consequently Mr. Rankin claims he can put in and tend the crop cheaper than he can harvest it. His son, William F., who was present when this statement was made, was inclined to doubt it, but for proof C. A. Christian was referred to as having farmed about 540 acres of corn for Mr. Rankin that made a yield of seventy-five bushels per acre. This crop was put in with two double-row listers and cultivated with three two-row cultivators, the corn having first been gone over when young with three two-row sled machines, commonly called "go devils." This makes an average of 180 acres to the man. Whether this could be done every season or not would of course depend on the season. Mr. Rankin has had his land divided into fourteen ranches, with a foreman in charge of each ranch. It would equal about 144 ordinary sized farms, and, taking his net profits of last year, it would make $625 net profit to the quarter section, or over 5 per cent interst net on 23,000 acres at a valuation of $75 per acre.

Mr. Rankin does not raise the steers he feeds, but buys them on the markets of Kansas City, St. Joseph or South Omaha—wherever he can buy to the best advantage. He used to buy in the country from farmers considerable, but has quit that. His methods of feeding are those of the ordinary feeder. He feeds ear corn, neither grinding or shelling. Neither does he feed any condimental feeds, such as stock food. He, however, feeds considerable oil meal and cotton seed meal. For roughage he feeds corn fodder, mostly shredded. Such are some of the methods of this man who has become a millionaire growing corn and feeding cattle and hogs, and whose far-seeing business sagacity and ability for hard work would have made him a captain of industry in any other line he might have chosen.

While Mr. Rankin is widely known as a millionaire farmer, it is not so generally known that he started poor. He was born in Indiana, but started to do for himself in Illinois. He had less than $200 when he got married, and his only team was a very cheap ox team. In making this statement to the writer Mr. Rankin did not stop to tell how he managed to get a wife when he only had an ox team to take his girl buggy riding. He early commenced to buy land and consequently became a heavy borrower. He had great faith in his investments, so much so that he paid a very high rate of interest. He lived for forty-nine years in Illinois and when he came to Missouri he was worth between two and three hundred thousand dollars. Most men would have been contented to retire on that, but Mr. Rankin invested all this and much more that he borrowed. At one time he had $60,000 borrowed at one place, on which he was paying the enormous rate of 10 per cent, and beside this he had money borrowed at another place on which he was paying 18 per cent. That he could pay such an interest and succeed shows that he exercised unerring judgment in his business. He used to buy and ship stock in an early day and for a time he shipped to the New York market, but he did not continue this long.

Mr. Rankin is now 79 years old, but looks twenty years younger and is as active as most men at 50. He has always been one of the most progressive and enterprising citizens of his community and has done much toward building up the United Presbyterian College at Tarkio, as well as being interested in promoting other business enterprises that have built up Tarkio.

BEN BENNETT CASE REVERSED BY COURT

HILLSBORO, Texas, June 2.—News was received here today that the Ben Bennett murder case was reversed yesterday. Bennett is the negro who killed his wife and a negro man at Mt. Calm in a jealous rage in 1902. In 1903 he was tried and given forty-five years in the penitentiary. The case was reversed and at the spring term of court he was given eighteen years. The case was appealed with the above result.

In the fine mineral cabinet of John W. Campbell of Sellwood, Ore., is an agate in which is printed the face of an Indian woman. The face and part of the figure are so clear cut and distinct that there is no question about them. The agate was a very common appearing specimen when picked up on the Siletz Indian reservation. He saw that there was something below the rude surface, and he had that side polished, when the face made its appearance. Mr. Campbell says that the face is nature's photograph. "The sun caught the face and figure of the Indian woman as she was walking along the beach and fastened it on the agate."

COURTS CAN STOP IT

A few days ago in the county court in this city the party defendant in a civil suit made an assault upon one of the attorneys in the case while the attorney was addressing the jury. The statement is that the attorney in his argument made the statement that the party defendant to the suit had stated an untruth.

In ordinary affairs of business or pleasure when the lie is passed the man to whom the epithet is applied will always resent it if there is in him any spark of manhood. A lie and a blow is the custom, and because the blow follows the epithet men are careful how, when and where such an epithet is used. It often happens that under a supposed protection provided by the presence of the judge on the bench, attorneys in making an argument say unkind things about litigants and witnesses. This happens in civil and criminal cases as well, and it suggests that there should be some limit to the language used.

There should be some restriction upon attorneys to the end that men who are witnesses in cases or who are defendants or litigants, should be protected. No attorney is justified in charging that men tell untruths, that men are guilty of high crimes and misdemeanors, yet it is often the case that persons who are on trial are forced to hear these things said about them by the attorneys pleading to the jury, or witnesses are "hauled over the coals." The lawyers are allowed to go too far, and if the person so mistreated dare but raise his hand in protest or resentment, there is the court to impose a fine for contempt. A newspaper would not be allowed to say things about a man which attorneys in argument say, and yet there is the judge prepared to protect the attorney from assault. Let there be some protection to the silent person who is berated by hard words, and let the courts of the state put a stop to the class of argument which is but villification.

The Telegram in this does not refer to this especial case, but the happening in the county court here a few days ago suggests that this class of "speech making" before juries is the custom, and it ought to be stopped. This does not have reference to this county, but is the condition all over Texas. Not long ago the Tyler Courier called attention to just such a condition in the court there, and the editor of the paper was fined for contempt because he called attention to the fact that attorneys said what they pleased about people and the court did not interfere. Before a well organized jury, villification will not be an argument, and the attorney who resorts to that class of speech-making will always lose his case. Men say things about people in an argument in court they would not dare express in the open street where all men are equal.

THE ROSEBUD RESERVATION

This newspaper is in receipt of many inquiries concerning the Rosebud reservation in South Dakota, which reservation is to be opened to settlement, and the ways and means of acquiring the lands.

If one desires full information the best way is to send a letter to W. A. Richards, the commissioner of the general land office at Washington.

Briefly epitomized, the procedure is this:

Registration at Chamberlain, Bonesteel, Yankton or Fairfax, South Dakota, must be made in person, except ex-soldiers, who may make application through an agent. Soldiers of the Spanish-American war are included in this privilege.

Having obtained a certificate of registration, one may examine the lands, but make no settlement in advance of the opening day, August 8, 1904. The drawing, which is by lot, takes place July 8, 1904. The applicant must be personally present at the drawing.

The price of the lands is $4 per acre. Of this sum $1 must be paid when the entry is made and 75 cents per acre after two, three, four and five years. Besides this there are the usual fees of the land office.

As much of the land is worth as it lies $15 to $20 per acre, the rush to possess it is easily understood.

Your chance?

One in twenty-five or thirty. It is now estimated that at least 60,000 persons will appear in line for the drawing. However, you are on a footing with the best of them and may draw a prize.

The Fort Worth Fencibles is one of the twelve companies selected to comprise a regiment of the Texas Volunteer Guard to go to the St. Louis Exposition and take part in a grand military display by the National Guard from all the states in the Union. The Volunteer Guard of Texas is composed of some of the best young men in the state, and principally from among the intelligent wage earners. They are always ready to respond to any and every case, sometimes dangerous and arduous, and to the performance of a duty in which they have no personal interest. The trip will cost the boys from $10 to $15 each, and they should not be allowed to bear this expense. It would be a graceful act on the part of the generous, public spirited citizens of Fort Worth if a number of them would "chip in" a few dollars each, and give these gallant boys an outing without expense to them.

Railway managers are credited with being as astute as any class of men on earth, and there is good reason for the assumption. The fact that many of them are using the Texas building at the St. Louis Exposition in their advertising, and proclaim it as one of the most attractive features of the great show must be very gratifying to the small band of patriotic citizens who have devoted of their time and money so lavishly to erect the building and gather the exhibit. It should also move some less patriotic people to a small contribution to maintain the building and exhibit during the months that are to follow. Several thousand dollars are still needed for this purpose.

The employes of the Houston and Texas Central railway have presented Jeff N. Miller, the retiring general manager, with a handsome automibile. Mr. Miller is one of the most popular executive officers of a railroad in Texas. He has a genial disposition toward every one that has endeared him to them all, and the handsome present was merited by his good ability and his clever treatment. The auto given him is so constructed that the dirt road wheels can be removed and wheels suitable to following a track can be substituted, so the owner can make an inspection car out of it for use on the new road of which he is the head.

The Dallas man who spent a few hours in Fort Worth and went home to tell his friends and neighbors that he saw no evidences of improvement must have skipped the corner of Houston and Eighth, where the Reynolds Brothers and M. P. Bewley are each erecting handsome business houses. He did not see the intersection of Ninth and Harding where the Medlin Milling Company is putting up two million brick in one structure. He could hardly have escaped the first interlocking plant in the Southwest on the T. & P. reservation—but maybe there was a beam in his eye.

Fort Worth is the city in the Southwest that sets the pace and blazes the way. All others are imitators. The Medlin Milling Company is erecting the largest circular elevator ever put up in the world. It is ninety feet in diameter and will be fifty feet high, made of boiler plate steel. The bins will radiate from the center like spokes from the hub of a wheel. It is a new design and will attract attention when completed. Great is Fort Worth and it will be greater.

The St. Louis papers are devoting column after column of rot to stories of how Miss Roosevelt sees the fair, and judging from the importance being given her visit, she is the greatest attraction there.

The indications are there will be no drouth. The Fort Worth brewery has signed up with the employes and business continues.

Good Stories of The Day

DEPEW SEES THE POINT

Speaker Cannon anticipated the point of a joke which Senator Depew was contributing at a recent dinner, and the victim, in good nature, threatened retaliation.

"I will give you a chance," observed the speaker, accepting the spirit of the jest. "Perhaps you have heard how the curative properties of the hot springs in Arkansas were discovered?"

"I will guess it before you finish," challenged the senator.

"That is just what I thought at the time I heard the story," nodded Mr. Cannon. "I obtained it from a native of the district. It seems that the advance guard of civilization in the Arkansas wilderness was a trapper with the usual dog. One day a bear gave chase to the dog and the fugitive lost his trail. In his flight the dog chanced to dash through a pool of hot water formed by an adjacent spring and"——

"My cue!" laughed Senator Depew, interrupting. "The next day a new tail grew on the dog and the springs were discovered."

"No," replied the speaker, solemnly. "The owner of the dog killed it by poor aim while shooting at the bear. The dog's tail dropped from the jaws of the bear into the spring and"——

"A dog grew on the tail?" suggested Mr. Depew.

"You win," admitted the speaker.

HIS DOUBLE CREDENTIALS

Professor E. E. Slosson, literary editor of the Independent, has a more than common interest in the discussion going on in current magazines about food adulteration. When he began his literary work in the far west he was a professor in the University of Wyoming, as well as a newspaper writer and state chemist. In the latter capacity he made a certain report concerning a brand of baking powder which he did not think up to the standard, and as a journalist he handed it over for publication. The manufacturers were much incensed to think that any newspaper would print the article, and denied some of the statements made. The professor stood the criticism up to a certain point. Then he asked the proprietor of the newspaper on which he was employed to accompany him to the office of the company that had been offended by his analyses.

"Take these cards to the representative," said the professor, sending in two pasteboards, one as representative of the paper and the other as state chemist.

Very soon the agent appeared and blandly remarked:

"Well, there isn't much to be said, professor. Being as you are both chemist and newspaper man I guess you have us on the hip. You're the sort of a fellow that fixes your jury before you plead your case."

A "THOUGHTFUL THISTLE"

An English journal has related the amusing experience of the sculptor, F. W. Pomeroy, with a Scotch committee which came to his studio to inspect his model of a statue of Robert Burns, executed for the town of Paisley, famous for Paisley shawls, Paisley thread, Paisley pinks, and Paisley snuff.

One of the committeemen was a rich and influential merchant in whose gift lay the site most desirable for the erection of the statue, and the artist naturally was desirous that it should please him. The poet was represented as a plowman, standing with his hands to the plow. In order to fill a gap at the back of the composition the national emblem of Scotland had been introduced.

The worthy Paisleyan surveyed the work for some time in silence, and then in broad Scots requested the sculptor to "Tur-rn it roond, mon." Mr. Pomeroy did so, and expressed a hope that he was pleased.

"Tur-rn it roond, mon," said the merchant again.

Again Mr. Pomeroy complied, and again tried to elicit an opinion. Meanwhile the critic, quite ignoring Burns, stood with his eyes riveted upon the emblematic detail.

"The Scoatch thustle!" he broke out at last. "Mon, but ye've put an awfu' lot o' thocht intae it!"

The "thughtful thistle," as the artist afterward termed it, won the day and the site.

SOMETHING JUST AS GOOD

Dyspeptic Customer—Have you any lime water?

Drug Store Boy (rummaging among the shelves and producing bottle)—Yes, sir. Here it is.

Dyspeptic Customer (looking at label)—But this isn't lime water at all. It's lime juice.

Drug Store Boy—Yes, sir. It's the same thing in a more concentrated form. Some people prefer it that way.—Chicago Tribune.

APPALLING

Our sufferings were appalling.

For two days food and water had failed us.

And now the road was become so rough that at times our touring car, stanch and powerful though it was, could not keep ahead of its smell.

We had all faced death before, but never a death like this.—Puck.

EXPERIENCED

Before the Russian spy was shot the officer who had captured him insisted on a heart-to-heart talk. "You say you have swallowed a number of plans rather than be caught with them in your possession," he remarked; "isn't eating paper in such quantities rather hard on the stomach?"

"Oh, no," replied the Russian; "I used to be the official tester in a breakfast food factory."—Cincinnati Times-Star.

AFTER MIDNIGHT

Wife—I'm sorry to see you come home in such a state as this, Charles.

Husband—I knew you'd be sorry, Carrie, and that's why I told you not to sit up.—Boston Transcript.

A SHADY TREE

Patience—Does she ever speak of her family tree?

Patrice—No, I think it was one of the shady sort of trees.—Yonkers Statesman.

The Prussian state railway system contains 21,104 miles of track and its net earnings last year was $140,000,000, being 10 to 12 per cent on the investment.

Herbine will assist nature to throw off headaches, rheumatism and ailments akin to nervousness and restore the energies and vitality of sound and perfect health. J. J. Hubbard, Temple, Texas, writes, March 22, 1902: "I have used Herbine for the past two years. It has done me more good than all the doctors. When I feel bad and have that tired feeling. I take a dose of Herbine. It is the best medicine ever made for chills and fever." 50c at bottle. Sold by H. T. Pangburn & Co.

WHAT THEY THINK OF THE TELEGRAM'S BIG EDITION

Expressions From Prominent Citizens of the City on the "House Warmer" of Last Sunday—A Credit to a City Twice as Big

The "House Warming Edition" of The Telegram, issued last Sunday, has attracted a great deal of attention from various citizens. The Telegram did not intend to be boastful and say more about the issue, sending it forth as a specimen of up-to-date newspaper work, but so much has been said of it by the people that the compliments can not be overlooked.

Yesterday a telegram was received from St. Louis, making an order for fifty copies of the paper, and many Fort Worthites have procured copies from the office to send abroad to their friends.

Mayor Powell said: "The Sunday Telegram was a very handsome issue, and one which reflects credit upon the growing city. It was neat typographically and the matter published therein was selected with such care as to attract attention."

Alderman J. F. Henderson—The Sunday Telegram was a magnificent issue, and one which will do Fort Worth good wherever it is circulated. Its statements about Fort Worth are based on such good facts that it will attract attention to the city wherever it is shown.

H. L. Calhoun, Secretary City Water Works—The Sunday Telegram was a beauty. It was just a little bit ahead of 46,000 population. I am glad to see The Telegram grow.

M. D. Watson, Manager of the Delaware Hotel—Such a paper as that issued Sunday by The Telegram will be a credit to any town in the south. The people who pick up that issue will not fail to be impressed with the importance of Fort Worth, because an unimportant town could not get out such a creditable publication.

Ben Deering, City Editor of the Record—The Sunday Telegram was one of the handsomest papers ever gotten out in Texas, and is a credit to this city. I certainly want to congratulate The Telegram on that issue.

Dr. R. E. L. Miller—I thought the Sunday Telegram was a very creditable issue. If the city streets were as metropolitan as The Telegram, we would make rapid advancement.

W. M. Austin, Grocer—Best paper ever printed in Fort Worth by long odds.

N. E. Grammer, Druggist—Finest kind. The merchants of Fort Worth showed their interest by handsomely supporting it. The Telegram is certainly one of the best afternoon papers in the south.

S. M. Fry, Real Estate—The issue was a creditable one and exhibited a spirit of commendable enterprise. The Telegram is one of the best daily papers I know of anywhere.

T. T. McDonald, City Ticket Agent of the Missouri, Kansas and Texas—The issue leads all other similar efforts in Fort Worth in the way of a big paper. The Telegram is among the very best newspapers in the state.

John L. Pennington, Live Stock Agent of the Frisco—Sunday's Telegram was a hummer. It will be the means of doing much good for Fort Worth.

E. W. Tempel—I think last Sunday's issue of The Telegram was fine. It does justice to the city of Fort Worth and to the paper itself. I have heard several say that as advertisers they were highly pleased.

John Harrison—I consider the House Warming edition of The Telegram an honor to the city of Fort Worth. The publishers of the paper deserve much praise for the excellent number that they gave the public.

A. J. Anderson—Last Sunday's number of your paper was a beauty—complete in every way. I was highly pleased both as an advertiser and as a subscriber.

D. O. Modlin—The Telegram certainly gave us a fine paper last Sunday. I read it with a great deal of interest and was more than satisfied.

A. B. Wharton—Your paper last Sunday was an edition to boast of. I did not think that Texas publishers could turn out such an elegant edition.

H. H. Pitman—I never saw such a complete paper issued in the state of Texas before. I congratulate the publishers on their success.

L. August—We think last Sunday's issue of The Telegram an honor to the city of Fort Worth. The edition was complete and comprehensive—a good paper.

Dr. J. H. McLean—I read last Sunday's number of The Telegram with interest. I congratulate you.

A. Gernsbacher—Your last Sunday's edition was a marvel of newspaper work; every department of your paper deserves credit for giving us such a complete number.

A. S. Dingee—The Telegram surprised us all last Sunday; we were all both pleased and satisfied.

"Your Sunday issue of The Telegram was the best production of black and white I have seen in Fort Worth," said Rochester Haddaway, president of the Haddaway Drug Company of North Fort Worth. "The reading matter was exceptionally good and the advertising was attractive and well distributed. Citizens who are interested in the further development of Fort Worth and who are ever devising ways to advertise the resources and possibilities of the city should not fail to send their friends and acquaintances out of the city copies of the paper."

"Fort Worth is rapidly forging to the front, and especially so in her newspapers," said Mayor Pritchard of North Fort Worth yesterday. "Good newspapers are largely instrumental in the making of a town and until two years ago this was one of Fort Worth's greatest deficiences. Now that we have good papers, and especially a good afternoon paper, there is no reason why our city, which has already attracted a great deal of attention throughout the southwest, should not be the best advertised city in Texas."

Mr. Pritchard has been a resident of Fort Worth for twenty years, and has been in a position to note the growth and advance of the city, and thinks that nothing is more instrumental in pushing a town than good newspapers.

"A great paper," was the comment of Assistant Chief of Police Allen upon Sunday's housewarming edition of The Telegram. "The picture work was exceptionally fine, showing the enterprise of the firm which is endeavoring to give Fort Worth the sort of a paper it deserves. The sketches of its business houses and manufacturies will make even we who live here appreciate better the city's marvelous growth."

"A valuable edition, containing an immense fund of valuable information of the city combined with interesting illustrations is my verdict on the house-warming edition of The Telegram," said Captain A. J. Black.

L. P. Robertson, the undertaker, said of the special edition of The Telegram: "It's as sharp and keen a paper as I ever saw."

Assistant Superintendent Cate of the railway mail service characterized the house-warming edition of The Telegram as a valuable one to keep for reference, and was impressed with the pictures of The Telegram force, showing the large number of families connected with the publishing of an enterprising paper.

A. B. Parkey, special examiner of pensions, said of the special edition of The Telegram that it was indeed a big paper, both in size and amount of information contained. "To a comparative stranger in the city, as I am, it proved a revelation of the large number of business houses and enterprises centered here."

Stuart Harrison, a prominent insurance agent, says: "The issue of a great effort. Just fine. A man must need be a millionaire to devote enough time to read such a mammoth paper."

Frank Jensen, chief clerk in the passenger department of the Rock Island, says: "It was exquisite. It reflected credit upon those who compiled the matter and those who printed it. The issue would be hard to excel, even in the large cities."

R. F. Milam, county judge, says: "I think it one of the best papers issued in Fort Worth, and reflected credit upon those who made such a stroke of enterprise possible."

W. A. Coutant, attorney at law, says: "It was truly a production hard to excel in any of the larger cities or the north and east. All the matter was well written and highly instructive. The Telegram certainly gets the news and prints it the same day it happens. Success will truly follow the conduct of such a paper.

Dr. R. B. West, said: "The Telegram was a fine paper."

FEWER AGRICULTURAL IMMIGRANTS

Each year sees a decrease in the number of agriculturists that reach the United States and a marked increase in the less desirable classes from southern Europe, who settle in the large cities, adding to the troubles of those already there. The officials are powerless to prevent this practice, which is rapidly assuming proportions, but the time is not far distant when steps will have to be taken to regulate the traffic. Whether this will be through the medium of uniform citizenship laws in the various states and a mutual agreement as to supervision of aliens remains to be seen.—Detroit Free Press.

A VITAL POINT OF DIFFERENCE

T. F. Baer, president of the Reading railroad, told the interstate commerce commission the other day that the price of anthracite coal was not fixed so much by the cost of mining and transportation as by the willingness of the consumer to pay what was asked. And to an attorney who was questioning him he added: "You sell your legal services in the same way, I presume." The important difference between the two cases is that the size of the attorney's fees is regulated by competition, while there is practically a monopoly in the anthracite coal business. Apparently Mr. Baer doesn't realize that the failure of competition to regulate certain monopolistic holdups is one reason why there is a trust problem in the United States.—Kansas City Star.

CLEAN OUT Your System

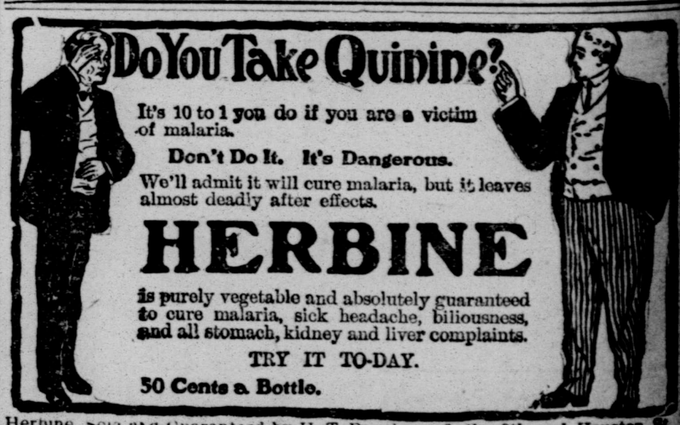

If a frog gets in your spring, you clean out the spring. If your cistern gets foul, you clean it out. If your horse goes lame, you apply immediate relief. If your engine breaks down, you repair it at once. Delay in any of these cases is disastrous. Ninety-seven per cent of the people suffer from some form of stomach or bowel trouble. All sorts of complications result from the delay in treating these organs. Keep your bowels clean and regular; then your stomach will perform its natural functions, your complexion will be clear, your breath sweet, your digestion perfect and your whole system rejoice in a delightful state of health.

DALLAS HOTEL IS TO CHANGE HANDS

M. D. Watson of This City and T. H. Glancy of Waco May Buy the McLeod

For some time there has been a deal pending for the purchase of the McLeod hotel property in Dallas, but it has not yet been closed. The probable purchasers are M. D. Watson, proprietor of the Delaware in this city, and T. H. Glancy, proprietor of the Metropole in Waco. The purchase of the new house will not in any way interfere with the operation of the two hotels of which these gentlemen are now the owners, and Mr. Watson will remain in Fort Worth in charge of the Delaware.

The Dallas News this morning has this reference to the deal:

"What seems to be a general desire to get hold of a good site for the location of another first-class hotel in Dallas has cropped out in a new place, and yesterday afternoon it was reliably reported that a deal was under way for the conveyance of the McLeod hotel from its present owners to a firm of experiencer hotel men from other Texas cities.

"The deal had not been closed up last night, but parties who are on the inside stated that it would in all probability be closed today. It is claimed to be the intention of the parties who contemplate buying the property to renovate the whole establishment and convert it into a thoroughly first-class hotel.

"The probable purchasers hail from Fort Worth and Waco, where they are identified with similar businesses."

The McLeod hotel was built in Dallas nearly twenty years ago, and at one time it was the popular hotel of that city. N. B. Sligh at one time managed the house, and it is remembered by many of the older traveling men. Mr. Glancy, who is to be associated with Mr. Watson in this purchase, if the deal is closed, is one of the best known hotel men in the south, and Mr. Watson has been successful in the conduct of hotels in Waco, Houston and Fort Worth. Mr. Watson stated today that the deal had not been closed and that the announcement in the News is premature.

MISS VARNER BEALL WINS FIRST HONOR

She Is to Represent Texas on the Cover Page of the Bohemian's Big Edition

Since February, a number of young ladies, one from each city, have been contesting for the honor of representing "Texas Above the World" on the cover page of "Historical Texas," the special edition of The Bohemian.

Three awards were offered:

To the one gaining the greatest number of votes, the honor of representing "Texas" on cover page and a round trip ticket to the World's Fair, St. Louis.

The second award, a round trip ticket to the World's Fair or to Colorado Springs.

To the third in the race at close of contest the remaining round trip ticket.

On the 1st of April a young lady of Fort Worth was placed upon the list, and Tuesday night, May 31, the contest closed with the following result:

Miss Varner Beall, Fort Worth.....5,000
Miss Blanche Hadden, San Antonio..2,415
Miss Amedia Williams, Houston....2,330

Arrangements will be made by the editor of The Boheman whereby the three young ladies can visit the World's Fair at their pleasure.

Miss Varner Beall is one of the pretty and popular young ladies of this city and her picture on the cover page of the big edition will be one of the attractive features of that edition. She is well known in this city and the honor she has won is worthily bestowed.

NO STREETS FOR SOUTH SIDE FOLK

Property on Hemphill Was Sold Without Provision for Thoroughfares

The city is up against a question of street openings which is rather serious and which may cost a great deal before it is finally disposed of.

Some years ago persons owning property on Hemphill street, south of Morphy street and running south 1,500 feet at least, sold the property as city blocks. Having no desire to lose the revenue from 100-foot lots which could be sold if no provision was made for streets, the property was cut up into city lots and no platting for streets was made. It is called Armstrong's subdivision, and is now settled up and persons living east and west of that section can not get through the property to Hemphill street to take a car without walking around the subdivision. It requires a walk of four or five blocks in either direction. They are complaining to the city they have no streets. They want streets opened on Hemphill and running through this city lot property. There is no way for the city to provide the streets without condemning the property and opening the streets, which will be rather expensive. The matter has been brought up to the aldermen.

DR. JOHN M. STEELE.

An investigation is being made by the police department to discover the whereabouts of Dr. John M. Steele, who has not been heard of since May 23.

Upon that date he left Galveston for this city, complaining at the time that he felt ill. A telegram sent to his wife in Worcester, Mass., at that time is the last that has been heard of him. This morning she telegraphed to the police department to search for him, suggesting hospitals or No. 620 East Weatherford street as possible places where he might be found.

The house on Weatherford street, however, proved to be a vacant one, and no trace of Steele has yet been found in the hospitals.

AN IMPROVEMENT.

An improvement in the conditions of the woman's department of the city calaboose will be made within a few days, Police Clerk Zimmerman having secured two mattresses and also the promise of some lumber with which to construct cots. With the arrival of the lumber he announces he will roll up his sleeves and get busy at once.

A report from the police committee is expected to be made to the council tomorrow night in regard to the proposed improvements. Arrangements with the county for the care of city prisoners cannot be made, it is understood.

THIRD WARDERS WANT A PIANO

Free Kindergarten Will Give an Ice Cream Social Friday Night

The ladies of the Third Ward Kindergarten, a free institution, which has a large number of pupils in attendance, want a piano for the school, and have set about to get one either by voluntary subscription or by money earned.

This is one of the successful kindergartens in the city. Miss Elizabeth Hammers, who is in charge of it, has worked hard to make success, although the conditions were not of the best. The building in which the school is held is not at all suitable, and it is in bad repair. It is because of that condition that the ladies at the last meeting of the council asked that two of the rooms of the temporary Fifth ward school building be given them for a school for next year. To obtain the piano a series of entertainments will be given, the first to be tomorrow night, which will be in the nature of an ice cream social, to which all are invited. The affair will be from 6 to 10 p. m., and they expect a large attendance. The kindergarten building, where the affair is to be held, is located near the Third ward school, on the southeast corner of East Nineteenth and Gay streets.

HARVESTING IS PROGRESSING

Farmers Are Starting in All Right to Gather the Small Grain of Texas

E. G. Rall, grain dealer, said this morning that the farmers over North Texas and the territories are progressing nicely in the work of harvesting wheat, and that the movement of new wheat will commence in about ten days. At present there is little wheat going to market. If the weather continues favorable it is expected that wheat will be moving in considerable quantities.

It has been generally understood that the crop this year is very much smaller than last season, but from present indications there will be quite a good movement of wheat, despite this fact.

Mr. Rall said this morning that he had received very favorable reports from over the country regarding the crop.

CHILDREN SWIM IN WHITE HOUSE FOUNT

WASHINGTON, June 2.—James Rudolph Garfield, commissioner of corporations, is a warm personal friend of President Roosevelt. A few evenings ago Mr. Garfield was at the White House to dinner. The younger Roosevelt children were at the table.

When dinner was over Mr. Garfield recounted boyhood pranks he and his brothers played when his father was president. He told how he and his brother Abe stole downstairs one night and enjoyed a swim in the fountain in the rear of the executive mansion. Little Ethel Roosevelt and her younger brother Kermit were attentive listeners. The following night President and Mrs. Roosevelt were invited to a dinner and the children were left in the cars of Mrs. Cowles. She saw them tucked away in bed. When Mrs. Cowles left them the youngsters stole from the house and paddled in the water at the fountain to their heart's content. The following morning a servant found, carefully tucked away, two pairs of wee pajamas, wet and discolored with mud. Mrs. Roosevelt instituted an investigation.

"Where were you last night?" she asked Ethel.

"Why, brother and I were in swimming,' she replied, innocently.

"Well, didn't you know it was wrong?"

Ethel hung her head for a minute and then answered:

"Mr. Garfield did it when he was little."

BRYN MAWR COMMENCEMENT

BRYN MAWR, Pa., June 2.—The commencement week exercise sat Bryn Mawr College culminated today in the conferring of degrees upon the graduates. The commencement address was delivered by Carroll D. Wright, president of Clark University, who took as his subject "A Problem in Social Economics."

W. A. TERRELL IS SERIOUSLY INJURED

Fort Worth Man Who Was in Frisco Wreck Is in a Critical Condition

Information comes from Denison that W. A. Terrell, who lives in Fort Worth, and who was injured a few days ago in a wreck on the Frisco, is in a critical condition.

Mr. Terrell is a postal clerk on the line of the Frisco, and was on the ill-fated train which run into a wash out in the territory Monday night. His home is in this city, and as soon as information was received of his injury his brother-in-law, W. P. Lane, and members of his immediate family went to his bedside. He is at the home of his father-in-law, N. E. Lane in Denison. The flesh was literally torn from his arm, and it is feared that blood poison will set in.

POLICE NEWS

In the corporation court this morning four new cases were docketed. Two were fined on pleas of guilty and no order was made in the other two. Twenty-five old cases were called. Of these twenty-two were passed, one was fined on a plea of guilty, one was transferred to the county and a bond forfeiture was entered in the other.

CHIEF REA GOES

Chief of Police Rea left this morning for St. Louis to attend the annual meeting of the Association of Chiefs of Police, which convenes in that city June 6. The executive committee of the organization, of which Chief Rea is a member, will begin its sessions on June 4 in order to facilitate the business of the association.

Assistant Chief Allen will be in charge of the local force during Chief Rea's absence of about two weeks.

ELOPERS UNDER ARREST

With the impetuosity of his race in a love affair, a Mexican fell in love with a girl at Bridgeport, who was married to another man, and induced her to leave with him and walk to the Mexican border, a distance of several hundred miles. In pursuance of this purpose the couple started on their journey and walked about fifty miles of the distance, being arrested in this city at the request of the Bridgeport officers, who arrived last night and identified the pair. By a strange coincidence another Mexican couple was taken into custody on the same information, answering perfectly to the description received by telegraph, which stated the woman had a patch of plaster on her forehead and that the couple would probably arrive upon a Rock Island train. A Mexican couple did arrive on a Rock Island train, the woman having a patch on her forehead, which resulted in her spending a night in jail. They were released, however, upon the arrival of the right couple.

BOYS ARE FOUND

Word was received this morning by the police department that the two little Skinner boys whose disappearance was reported in The Telegram, have been found twelve miles from the city on the White Settlement road. The little fellows were recognized by Mr. Mimmo from the description of them in The Telegram, and at once notified the officers. The news was at once sent to their mother, who lives on East Eighth street.

Detectives Thomason and Maddox returned this morning from Beard, where they were summoned as witnesses in a robbery case.

CLEAN UP CAMPAIGN

While the city council is preparing to make more sanitary the condition of the city calaboose the prisoners confined there yesterday afternoon took matters into their own hands, and after a brief session of the kangaroo court, added considerably to its cleanliness.

A Dallas negro, charged with drunkenness, was placed under arrest in the morning and a few hours after his incarceration the prisoners learned that he was inhabited by insects. A council of war was called, the negro stripped of his clothing and given a thorough bath, while his clothing was touched off with a match.

This morning the city stood good for a supply of clothes and the negro was shipped back to his native town.

COMPLAINT OF NUISANCE

Sanitary Officer McMichael this morning filed a complaint in the corporation court against George Marlow, charging a nuisance. There has been considerable complaint about the water wrich runs on Rusk street from the buggy rack where vehicles are washed in the livery stables, and this is the first complaint to be made the sanitary officers. Officer McMichael was recently instructed to warn all persons of violations of the health ordinance and failure to comply therewith was to be followed by prosecution. This is the start and it is understood there will be other complaints filed very soon.

CHANGES METHOD OF SALARY PAYING

Postoffice Employes Will Be Given Equitable Arrangement Hereafter

A communication has been received in this city from Third Assistant Postmaster General Madden, announcing a change in the manner of paying employes in the postal service after this month. Up until the present time the employes, although receiving a yearly salary, have been paid monthly, the money being so divided that a man receiving a $1,200 annual salary would receive ninety-odd dollars in a short month like February and over $100 for months of thirty-one days.

To correctly adjust the salaries under this system a series of tables of various numbers of days at various salaries has been employed, entailing a great amount of work.

The communication received announces that after June 30 each month will be considered to have thirty days, irrespective of the actual number of days, and the pay for each month will be one-twelfth of the annual salary. The number of days salary due where a full month's service is not performed will be reckoned hereafter also on a basis of thirty days to each month.

MORMONS SCHEME TO GET MORE LAND

They Want to Increase Their Holdings in the State of Chihuahua, Mexico

A private letter received in Fort Worth from Mexico tells of a scheme being planned by the Mormons in the northern part of Chihuahua to increase their holdings in that part of the republic.

The intention is to purchase 10,000 acres more land adjoining the 300,000 acres already under cultivation by the colonists, who are quite prosperous, with a population of about 4,000. These people are scattered about in eight different towns or villages, as they call them.

These villages are liberally provided with educational facilities, and it is said that no place in the republic is provided with better school facilities than these colonies.

The letter states that the season has been pretty dry, so that crops have generally not done as well as usual. The crop of grain is unusually short, but the fruit crop will be abundant.

The colonists have outgrown their limits and it has been found necessary to acquire more territory in order to accommodate the people who have settled there.

There are about 400 Mexicans in the colonies, all of whom are said to be contented and happy.

One peculiar statement is made in the letter to the effect that not a cigarette is to be found among the colonists and intoxication and immorality are unknown among the members of these colonies.

LABOR NOTES

Nomination of delegates to the Trades Assembly was made at the regular meeting of the Carpenters' Union held last night, the names of George Lydle, A. C. Palmer and T. E. Moore being put up.

A communication was received from the carpenters of Los Angeles, advising all members of the craft to remain away from that city, and stating that thirty-six carpenters' tool boxes had been sold within a week to pay express charges due.

The report of the financial secretary was read, showing the payment of $700 in initiation fees since last July.

HAVE YOU A COUGH?

A dose of Ballard's Horehound Syrup will relieve it. Have you a cold? A dose of Herbine at bed time and frequent small doses of Horehound Syrup during the day will remove it. Try it for whooping cough, for asthma, for consumption, for bronchitis. Mrs. Joe McGrath, 327 E. 1st street, Hutchinson, Kan., writes: "I have used Ballard's Horehound Syrup in my family for five years, and find it the best and most palatable medicine I ever used." 25c, 50c, $1. Sold by H. T. Pangburn & Co.

CANTALOUPES ARE BEING SHIPPED IN

South Texas Is Sending the First Melons of the Season to Fort Worth

The first cantaloupes of the season are being enjoyed in Fort Worth, coming from Southern Texas.

Local Agent McGinnis of the Wells-Fargo & Co.'s express says the Panhandle and the Roswell melons will not commence to move until some time in July, and those being received now are from Corpus Christi, Aransas Pass, Victoria and Beeville. In addition to cantaloupes there are many peaches and tomatoes being brought from that section of the state. The shipments do not stop in Fort Worth, but a part of the large number being located here, the biggest part going to northern points.

"The cantaloupe trade will be big when the west commences to ship," said Mr. McGinnis. "Every year we get a big lot from out there, and this year will be no exception. The few coming now are from Southern Texas."

A PERFECT MILK FOOD

is Borden's Peerless Brand Evaporated Cream. It has a delightful, natural flavor and is superior to the richest raw cream, with the added insurance of being sterile. Always carried by soldiers, sailors, hunters, campers and explorers. It has become a household necessity.

Ask your dealer for Texas Star Dairy Food.

VALUABLE MAP IS LOST FROM OFFICE

City Engineer Hawley Worries Because It Was Borrowed and Never Returned

City Engineer Hawley has lost one of the most valuable maps in his office and he believes some person who has been looking old records over has merely borrowed it for a time and has forgotten to return it.

The old original map of the city of Fort Worth was made by Daniel O'Flaherty back in 1876 or 1877. The map is out of print and copies of it are not to be had. The city owned one, but the constant using year after year has worn it until it is now but a lot of pieces—say about a thousand. Not long ago Mr. Hawley was in Kansas City and there met Mr. O'Flaherty. The city attorney explained his dilemma on the original map and Mr. O'Flaherty remembered that he had a tracing of it. Mr. Hawley negotiated at once for its purchase and out of his private funds made the trade. The map has been used in his office and all who cared to consult it were allowed to do so. Now it has disappeared and the city engineer is distressed in body and in mind.

DEAFNESS CAN NOT BE CURED

by local applications, as they can not reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

ABE MULKEY IS TO HOLD REVIVAL

Well Known Evangelist Coming to Fort Worth for a Meeting This Month

Beginning June 10 Abe Mulkey, the evangelist who is so well known all over the south, especially in Texas, will commence a protracted meeting in Fort Worth, which will last until the 20th instant. Mr. Mulkey comes here from Waco.

The meetings will be held under a tent that will be pitched on the grounds of the Glenwood district school, and local church people of that suburb are making elaborate preparations for the protracted services.

Evangelist Mulkey is too well known in Fort Worth to need any reference from The Telegram as to his ability to successfully conduct a protracted meeting.

Special music will be arranged for the meetings.

J. A. Ingram et al. to Mrs. E. Coppage, lot 100¼47 feet 4 inches off north side lot 2, Daggett's second addition, $1.

Fifty per cent better and cheaper than bran—Texas Star Dairy Food.

STUART HARRISON GOES TO CITY YARD

Good Service Performed in Days Gone by, But Usefulness Is No More

"Stuart Harrison," having outlived the days of usefulness, has been carted to the city yard and takes a place in the junk pile.

This has reference, not to the well known promoter of fat stock shows, whose prominence in Fort Worth affairs is not lessened because he lives at Arlington Heights, but to the fire engine which was purchased during the days of the volunteer department and which was named for Mr. Harrison because of his prominence in the fire department. This steamer has been the property of the city for about twenty years. It is one of the Silsby type, and for a long time has been stored in the central fire station on the south side of the building. Chief Maddox has use for that apartment and yesterday he hooked a team of horses to the old machine and put it in the scrap pile. The old steamer has done good service in Fort Worth in days gone by. Chief Maddox says:

"It is a good old wagon, but out of business now. I named it 'Cutey' a long time ago because it was such a small, cute little affair, and I remember when the steamer was doing good work."

The Watkins Hay and Grain Company, manufacturers of Texas Star Dairy Food.

MR. COMER GOES TO THE KATY ROAD

Former Superintendent of the Frisco Is to Be Live Stock Agent

L. B. Comer, who was until recently vice president and general superintendent of the Fort Worth and Rio Grande division of the Frisco Railroad, has accepted the position of assistant live stock agent of the Missouri, Kansas and Texas, headquarters in Fort Worth, under General Live Stock Agent W. V. Galbreath. He succeeds E. L. Hunter, who recently resigned to accept the position of freight traffic manager for the Downman Lumber Company of New Orleans.

Mr. Comer's abilities as a freight traffic man are acknowledged and it is extremely doubtful if there is another man in the state who is as well versed in the duties devolving upon a railroad official whose business it is to secure "tonnage" for a railroad company. He is universally acquainted and his familiarity with traffic matters in Texas will make him a valuable acquisition to the Katy, not only in this state, but elsewhere. Mr. Comer enjoys the distinction of being acquainted with most if not all the leading stockmen in Texas because of his long connection with the Rio Grande as its head in this state. Because of this fact he has been thrown in close touch with the very best men in Texas, with whom he will naturally wield a large influence in favor of the Katy.

When Mr. Comer resigned from the Frisco it was with the intention of engaging in private business affairs. Strong inducements, however, by the Katy were necessary to compel him to alter his mind. But he did, and will from this date on use his best endeavors to corral the bulk of the cattle shipments in this state, particularly along the Rio Grande in the Brownwood and San Angelo country, for the Katy.

RAILROAD NEWS

LOW RATES FOR THE EAGLES

The Houston Eagles have arranged for a great union picnic to be held at Dickinson, June 26. Round trip rates have been secured by the roads, which will insure a large attendance from over the state. The round trip rate from San Antonio will be $3 and from Fort Worth $4.25. From other points a proportionately low rate will prevail. A special train will be run from Beaumont. It is more than likely that quite a number of Fort Worth Eagles will attend the picnic.

FRISCO WANTS AN OUTLET

From Alabama comes the report that the Frisco Railroad Company is about to take over another railroad property. A Mobile dispatch says:

"There is a strong belief that has taken hold of the minds of many well-posted railroad men that the Frisco people have in some way arranged to secure control of the Mobile, Jackson and Kansas City Railroad, and that it will be operated as a through system from Memphis to Mobile over the Kansas City, Memphis and Birmingham Railroad and the line from New Albany north will be maintained as a local feeder. According to this view the visit of the Frisco people to Pascagoula simply contemplated the extension of a line from some point on the Mobile, Jackson and Kansas City Railroad to Pascagoula, in order to reap the future advantages of the harbor and port that must sooner or later be built at that place.

KATY'S OKLAHOMA LINES

The New York stock exchange has listed $7,200,000 additional common stock of the Missouri, Kansas and Texas, making the total amount listed to date $63,300,300. The additional stock was issued in exchange for the entire $5,000,000 capital stock of the Missouri, Kansas and Oklahoma Railroad Company, dollar for dollar, and the entire $3,500,000 capital stock of the Texas and Oklahoma Railroad Company, viz: Missouri Kansas and Oklahoma Railroad (guaranteed bonds outstanding, $5,468,000), from Stevens Junction, I. T., to Oklahoma City, Okla., 173.98 miles; from Fallis Junction, Lincoln county, Okla., to Guthrie, Okla., 23.50 miles; from Osage Junction, Osage reservation, Okla., to Wybark, I. T., 79.60 miles; Texas and Oklahoma Railroad (guaranteed bonds outstanding, $2,347,000), from Oklahoma City, Okla., to Coalgate, I. T., 117.35 miles. Total, 394.43 miles. The entire mileage of these companies has been completed and is now operated as an integral part of the system. The legal department has been instructed to efect the merger of the Missouri, Kansas and Oklahoma Railroad Company with the Missouri, Kansas and Texas Railroad Company, which is now being done.

ROCK ISLAND MAY EXTEND

An extension of the Rock Island from Coolrado Springs, its Colorado terminus, to San Diego, Cal., has been determined upon according to a rumor that reaches here from Denver.

From Colorado Springs the road will follow a survey that was made seventeen years ago. It will run east of the Green Horn range to Walsenburg and cross the Sangre de Cristo range west of Walsenburg. Running southwest it will enter New Mexico south and west of Durango, and crossing the San Francisco Pacific at Thoreau, the line will enter Arizona about seventy-five miles south of the Santa Fe Pacific. The road will pass through Prescott and then cross the desert to San Diego. The Rock Island, it is said, owns 920 acres of water front there for wharfage purposes. The new line will be 1,150 miles long. A branch line from Dawson, N. M., to the new road to connect with it near Alamosa, Colo., is under consideration.

NEW ROCK ISLAND SERVICE

The Pullman buffet sleeping car service, which was discontinued by the Rock Island between Memphis and Colorado points the latter part of last season, will be inaugurated again June 5, according to an official notice by the Rock Island Company. The cars will be operated on trains Nos. 3 and 4 in connection with the Fort Worth and Denver City and the Colorado Southern roads, connection with the former being made at Amarillo.

The Rock Island anticipates a very large patronage from the southeastern states to Colorado summer resorts this season, as the trip can be made at no greater cost than last year, with the advantage of a round trip via the World's Fair. This attraction, which will not be an additional cost, will have a tendency to induce many people to visit Colorado points this season who did not go to the mountains last year.

The Rock Island has made all necessary preparation for a first-class service from Memphis to Colorado.

WICHITA VALLEY EXTENSION

Yesterday was a memorable one for the Wichita Valley Railroad Company, of which Colonel Morgan Jones is president. It marked the completion of the extension from Wichita Falls to Byers, a distance of twenty-three miles. The first passenger and freight trains passed over the road yesterday morning.

The completion of this extension gives the Wichita Valley a mileage of seventy-five, extending from Seymour to Byers, and the road is considered a valuable feeder for the Fort Worth and Denver City line.

While no definite announcement has been made by President Jones as to the future of the Wichita Valley, it is generally understood that the road will, in the near future, be extended on from Byers, which is situated one mile this side of Red river, into Oklahoma territory, with Oklahoma City as the objective point.

In connection with this extension it is rumored that the line will eventually be built beyond Oklahoma City, but to what point or connection is known only to the officials of the road.

Bright's Disease

Caused the death of Doctor Bright. Bright's Disease is simply slow congestion of the Kidneys. In the last stage the congestion becomes acute and the victim lives a few hours or a few days, but is past saving. This insidious Kidney trouble is caused by sluggish, torpid, congested liver and slow, constipated bowels, whereby the kidneys are involved and ruined.

Drake's Palmetto Wine is a foe to congestion of Liver, Kidneys and tissues. It promptly relieves the congestion and carries it out of the Liver, Kidneys, tissues and blood. Drake's Palmetto Wine restores the mucous membranes to healthy condition, relieves the membranes throughout the body from inflammation and Catarrh and cures Catarrh, Constipation and Liver and Kidney disease to stay cured. It gives relief immediately, builds up vigor and health, prolongs life and makes it enjoyable. A trial bottle always gives relief and often cures. A trial bottle will be sent to every reader of this paper who will write for it to Drake Formula Company, Drake Building, Chicago, Ill. A postal card will bring this wonderful tonic Palmetto medicine to you absolutely free. It is a boon to disease-ladened, pain-ridden men and women.

LONDON PAYS HONOR TO EX-MAYOR LOW

LONDON, June 2.—Ex-Mayor Seth Low of New York, who has been the recipient of much social attention during his visit to London, is to be the guest of honor at a dinner to be given by the Pilgrims' Society tonight. Mr. James Bryce is to preside and the speakers will include Ambassador Choate and other persons of foremost prominence.

There are but 90 daily papers in Russia.

BALTIMORE MAN GETS POSITION

Y. VandenBerg to Be Assistant General Freight Agent of the Santa Fe

Y. VanderBerg of Baltimore, Md., has been appointed to suceed J. S. Hershey, assitant general freight agent of the Santa Fe, the change taking effect yesterday. Mr. Hershey succeeds P. H. Goodyn, who recently resigned on account of ill health.

Mr. VanderBerg is an old railroad man and his connection with the Santa Fe will proven a valuable acquisition to that road's interests in Texas. Mr. VanderBerg began his railroad career in a subordinate position with the Louisville and Nashville and rose rapidly until he reached the position of vice president in charge of the traffic department of that road. He severed his connection with this road to engage in the wholesale manufacture of a patent medicine, with headquarters in Baltimore, where he successfully conducted his business until the great fire, which completely destroyed his property there. The insurance companies in which he carried heavy fire insurance failed and he was left practically stranded and with the offer from the Santa Fe people he accepted.

NO OFFICIAL RANK

J. W. Adams, who was designated by General W. L. McGaughey of the Fifth brigade, Texas division, United Confederate Veterans, to look after the best possible rates to the reunion at Nashville, has made a report to General McGaughey, which in effect is that no special rates will be offered by the different railroads, as they will maintain a universal rate.

Regarding sleeping car rates, the report of Mr. Adams is that this matter is to be controlled by the Pullman Company, and that owing to the rates in force tickets can only be procured at competitive points to read via any other point. For example, a party living at Stephenville can not buy a ticket to Nashville via another road, but must go over the Frisco and its connections. Mr. Adams deems it folly to recommend any official route for the Fifth brigade. Again, a party living at Jacksboro, in order to go via the Texas and Pacific, can not buy a through ticket to Nashville at the reunion rates, but must pay full fare to Fort Worth and then purchase his ticket to Nashville. The rate to Nashville and return has been fixed at 2 cents per mile, round trip, or $15.60 from Fort Worth. The rate to Nashville via St. Louis is now $25 for the round trip.

From present indications, says Mr. Adams, the greatest number of camps will go to the reunion via the Texas and Pacific.

SPORTING NOTES

PARIS, Texas, June 2.—The Fort Worth Panthers defeated the locals in yesterday's game by a score of 5 to 2. A decision in the fourth at the home plate gave Fort Worth two runs. After that the Paris team seemed to lose heart, which took all the life out of the game. The score:

GALVESTON DEFEATS BEAUMONT

GALVESTON, Texas, June 2.—After three innings of guess work the Sand Crabs got on to Seay, the Beaumont pitcher, and landed on him with effect. Luitich for the locals was steady and pitched a good game. The features were two sensational catches by Cermack and Morris. The score:

	R.	H.	E.
Beaumont .....1 0 0 0 0 1 0 0 0—2	8	1	
Galveston .....0 0 0 1 0 1 1 *—4	11	1	

HOUSTON 4, SAN ANTONIO 2

SAN ANTONIO, Texas, June 2.—Houston took the third straight game from the locals yesterday. The story was 4 and 2. Not only were the locals unable to hit Burns, but they were like wooden men on the bases, using no judgment whatever. The feature of the game was a star catch by Barret for Houston. He stopped a liner of Balkburn, saving the game for Houston, for the bases were full and if the liner had gone by San Antonio would have won the game. The score:

	R.	H.	E.
San Antonio ....0 0 0 2 0 0 0 0 0—2	4	2	
Houston .....1 0 1 0 0 2 0 0 *—4	7	8

THOMAS RELEASED

It has been learned here that Manager Johnson of the Galveston team has released Pitcher Thomas. The grounds for the release are not exactly known, but it is understood that Thomas had a misunderstanding with the captain of the Galveston team.

GREAT ATHLETIC GAMES AT ST. LOUIS

ST. LOUIS, Mo., June 2.—Beginning today and continuing through Friday and Saturday, visitors to the World's Fair are to have an oportunity of seeing the greatest amateur athletes of America at their best. The three days have been set aside for the Amateur Athletic Union championships, which form the first big feature of the Olympic games. Nothing has been left undone by Chief Sullivan and his assistants in the department of physical culture of the exposition to make the tournament one of the greatest ever held under A. A. U. auspices.

This is handicap day, while tomorrow and Saturday will be devoted respectively to the junior and senior championships. Prominent among the entries in the various events are Walz, the Columbia University sprinter; Joyce, the present five-mile champion; Myer Prinstein, the broad jump holder; John Flanagan, the shot and hammer record holder, and Sheridan, who holds the record for the discus throw.

AMERICAN WOMEN ARE TO TAKE PART

International Council of Women at Berlin Next Week Will Be Attended by Delegation of 40 From This Country

BERLIN, June 2.—American women are to have a prominent part in the quinquennial meeting of the International Council of Women, to be held in Berlin next week and the week following. In addition to Mrs. May Wright Sewall of Indiana, who will preside over the sessions, there will be present a delegation of nearly two-score representative women of the United States and Canada.

The first week of the gathering is to be devoted to executive sessions of the council proper, which will occupy the mornings. Three public meetings will be held in the evenings on the general subject of "The New Internationalism," its object being both a demonstration and a propaganda. As a part of this plan reports of the nineteen national councils will be given. The special subject of the third evening, "Peace and Arbitration," will be discussed in three formal addresses by Lady Aberdeen in English, by Baroness Von Suttner in German and by a French speaker in her own language.

The second week will be given over to the popular gathering. It will be divided into four sections for discussions, under the heads of women's education and higher culture, women in social aims and institutions, women's professions and industries and the legal and political position of women.

WEATHER FORECAST

Little rain fell yesterday in the state, Henrietta and Temple being the only government stations to report any precipitation. At the former the rainfall was .26 inches and at the latter .02 inches. Weather conditions this morning however make it probable that tonight or late this evening good showers will fall in many sections.

Hot weather generally prevailed yesterday. Abilene being the first city in the country to reach the century mark this year. Other points in the state also reported high temperatures the thermometer at the local station registering 94 degrees. A good breeze, however, prevailed throughout the day making it fairly comfortable. Showers and cooler weather are predicted locally for tonight and Friday.

J. R. Cole of this city has been appointed acting assistant in the weather bureau pending the arrival of the regular assistant, whose appointment has not yet been announced.

WEATHER CONDITIONS

Forecaster D. S. Landis issued the following statement of weather conditions this morning:

Low pressure dominates the conditions in Texas and the south middle states, west of the Mississippi river, the center of disturbance being over West Texas. Thunderstorms are reported from Arkansas and Kansas, with light precipitation.

Cloudy conditions prevail east of the Rocky Mountain slope to the Atlantic, tnd south to the gulf, except along the southeast coasts of the guly and the Atlantic, where clear, hot weather prevails.

Abilene, Texas, was the hottest meter in the country, the temperature reaching 100 degrees.

D. S. LANDIS,
Official in Charge.

WEATHER RECORD

Following is the weather record for the last twenty-four hours—minimum and maximum temperature, wind in miles per hour at 8 a. m. and rain in inches:

San Anaonio	72	92	22	.00
San Diego	58	68	lt.	.00

WEEKLY CROP BULLETIN

Report for the Week Ending May 30, 1904.
General Summary

Weather Conditions—The week was a showery one throughout and nearly all localities received beneficial rainfall. Many localities in the northern, central and southwestern portions received over an inch of precipitation. The nights were much warmer, but the average temperature was just about normal.

Cotton—The week was a very favorable one for cotton and the plants have begun to make rapid growth, but are still small for the season. Chopping is still in progress, but is nearly completed in many localities. The fields have been well cultivated and are in good condition. Lice are still doing some damage in several counties of the central portion, but the warm weather is causing them to disappear. Boll weevils continue to increase in numbers in the southwestern and central counties, but the cotton crop is not yet far enough advanced for them to do much, if any damage.

Corn—Corn continues in good condition. It is tasseling in the middle and northern portions and in roasting ears in the southern portion.

Small Grain—The harvesting of wheat and oats continues in the middle portion and has begun in the northern counties of the state. The yields are generally very light in the western counties, but fair to good in the eastern half of the state.

Rice—Rice is doing well and some fields are being flooded.

Sugar Cane—Sugar cane continues to make good growth.

Miscellaneous—Ranges and pastures are in good condition. Forage crops are making good growth. Some hay has been cut and good yields secured. Fruit is doing well.

Six former slaves of Richard Bullock Seawell served as pall-bearers at his funeral the other day at Raleigh, N. C.

First Aid to the Fatigued

HOME AT THE INSIDE INN INSIDE THE FAIR GROUNDS INSURES PLEASANT VISIT TO THE WORLD'S FAIR

No Extortion Here—The Rates Are Fixed by the Authorities

So much is there to be seen at the World's Fair that one might start at the beginning, eat and sleep on the way and still not see everything were a month's time consumed in the tour of Exposition streets and aisles.

Frail humanity would not be equal to such a task, but there has been a way provided by which the visitor may see the exposition in its fullness and to the best advantage with as little loss of time and energy as possible.

The Inside Inn is situated on the exposition grounds, where the visitor who wishes to spend his time profitably may secure accommodations that will enable him to arise with the awakening of the exposition, just outside his windows, and begin a tour of inspection that can continue until long after the mantle of night spreads over the spectacle. Then a refuge will be afforded him right at hand.

No struggling with the crowds, waiting for street cars or pushing a way to the ticket booths for guests of the Inside Inn. All of these discomforts have been saved him by an arrangement with the exposition by which he may stay inside the grounds as long as he is guest at the hotel. He will have not only the comforts of the spacious hotel, on one of the coolest and most beautiful spots of the exposition, but the privileges of the parlors, reception rooms, offices and verandas, where he may rest at intervals during the day and mingle with agreeable company.

The Inside Inn is on the intramural railway, which penetrates every part of the grounds, and it is near the Plateau of States, overlooking the main picture of the fair. It is reached from Union Station by three car lines. The Inside Inn has 500 rooms at $1.50 per person; 500 at $2 and 500 at $2.50. The total number of rooms is 2,257.

CURES OLD SORES

Westmoreland, Kan., May 5, 1902. Ballard Snow Liniment Co.: Your Snow Liniment cured an old sore on the side of my chin that was supposed to be a cancer. The sore was stubborn and would not yield to treatment, until I tried Snow Liniment, which did the work in short order. My sister, Mrs. Sophia J. Carson, Allensville, Miffin county, Pa., has a sore and mistrusts that it is a cancer. Please send her a 50c bottle.

Sold by H. T. Pangburn & Co.

EXCURSION RATES TO NORTHERN RESORTS

Excursion tickets at unusually low rates, good for the season, on sale daily beginning June 1 to Milkaukee, Madison, Waukesha, Green Lake, Devil's Lake, Gogebic, Ashland, Marquette, Superior, Duluth, St. Paul, Minneapolis and many other cool and delightful lake resorts reached by the Northwestern line.

Information and tickets can be secured from your home agent. Booklet entitled "The Lakes and Summer Resorts of the Northwest" mailed upon receipt of 4 cents in stamps. W. B. Kniskern, P. T. M., C. and N. W. Ry., Chicago, Ill.

CENTRAL'S REUNION RATE

ORDINANCE NO 903

An Ordinance regulating the use of Automobiles in the city of Fort Worth.

Be it Ordained by the City Council of the City of Fort Worth:

Section 1. It shall hereafter be unlawful for any person, firm or corporation to drive, propel or to use or to cause to be driven, propelled or used in, upon, along or across any public square, street, alley or public place in the city of Fort Worth any vehicle or vehicles of the kind commonly known and styled as automobiles, unless the owner of such vehicle or vehicles shall have complied with the provisions of Section 2 of this ordinance.

Section 2. The owner of any automobile shall register the said vehicle with the city secretary and procure from the said city secretary a certificate thereof, which said certificate shall state that the owner, giving his name, has registered his said vehicle giving a general description thereof, and that a number has been given the same, which number shall be certified in the face of the certificate.

The city secretary shall keep a register in which he shall note the name of the owner of the vehicle registered, together with a general description of the vehicle registered, together with its number, and he shall in no event give the same number to any two of said vehicles, but they shall be numbered in the order of their registration.

The owner of any such vehicle shall, after registration as aforesaid, cause to be painted, placed or affixed on and to the back of the said vehicle in a conspicuous place its number as certified in the certificate of registration in figures not less than six inches in height and proportionately broad.

In case any vehicle which has been registered as aforesaid shall be sold, the purchaser thereof may obtain new certificate or registration or at the request of the said purchaser the city secretary shall indorse on the certificate of registration of the former owner the fact of its transfer, and the said city secretary shall note the fact of said transfer in his book required herein to be kept, and the certificate so indorsed shall be in all respects as valid and shall protect the purchaser of the said vehicle to the same extent as would an original certificate of registration.

Section 3. It shall hereafter be unlawful for any person, firm or corporation to drive, propel or to use or to cause to be driven, propelled or use in, along or across any public square, street, alley or public place in the city of Fort Worth any vehicle or vehicles of the kind commonly known and styled as automobiles, even though the same be duly registered and numbered as provided in section 2 of this ordinance, unless the said vehicle shall be provided with at least two lights, which, during the hours of darkness shall be kept continually burning and which shall be of such character, size and strength as to be plainly visible for a distance of one-fourth of a mile in front of the said vehicle, and it shall also be unlawful unless the said vehicle be provided with a good and sufficient gong or horn capable of giving such warning as can be plainly heard for a distance of at least six hundred feet. And it shall also be unlawful if the said vehicle or vehicles shall proceed at a rate of speed greater than ten miles an hour.

Section 4. It shall hereafter be unlawful for any person, firm or corporation to drive, propel or to use or cause to be driven, propelled or used in, upon, along or across any public square, street, alley or public place in the city of Fort Worth any vehicle or vehicles of the kind commonly known and styled as automobiles, unless such person, firm or corporation shall sound the gong or blow the horn hereinbefore provided for as each street crossing is approached and at a distance of one hundred feet therefrom and continue the said sounding of the gong or blowing of the horn until the said street crossing shall have been passed.

Section 4. Any person, firm or corporation driving, propelling or using or caused to be driven, propelled or used in, upon, along or across any public square, street, alley or public place in the city of Fort Worth any vehicle or vehicles of the kind commonly known and styled as automobiles, unless such person, firm or corporation shall be deemed guilty of a misdemeanor and on conviction thereof shall be fined not less than twenty-five dollars nor more than two hundred dollars.

Section 6. That this ordinance take effect and be in force from and after its passage and publication as required by law.

Filed May 6, 1904.
JNO. T. MONTGOMERY,
City Secretary.

Passed May 20, 1904.
JNO. T. MONTGOMERY,
City Secretary.

Recorded in Ordinance Book E, page 91, 1904.
May 25, 1904.
JNO. T. MONTGOMERY,
City Secretary.

This ordinance not having been approved nor disapproved by the mayor within three days after its passage, as required by the charter, takes effect the same as if approved.
JNO. T. MONTGOMERY,
City Secretary.

TWO AUTO OWNERS WANT NUMBER 1 ON REGISTER

City Secretary Will Open the Book Saturday Morning—Prospects for a Race

Two automobilists of the city, Dr. R. E. L. Miller and A. E. Want, have requested City Secretary Montgomery to issue No. 1 to them for their machines under the automobile ordinance.

The law will not be effective until Saturday. City Secretary Montgomery says that he has no authority to issue numbers until the law is effective, and he is now provided with a registration book and will register owners in the order of their appearance, commencing Saturday morning. The first come Saturday morning will be the first served. It remains to be seen who will lose his beauty sleep and will apply at the secretary's office early and get No. 1. This may result in a race between two fine machines. Dr. Miller has a Ford, and he will put it against any machine in the city for speed, but with the speed limit against them, the one who has the shortest distance to travel, if they start at the same time, will make the city hall first. These gentlemen live very near each other. Dr. Miller is at 417 Fifth avenue and Mr. Want at 605 Fifth avenue. If they are sincere in their desire for the first number issued, the chances are the race will be from Fifth avenue to the city hall, the route lying across the viaduct. City Secretary Montgomery will be there bright and early to receive the first comer.

Alderman J. F. Henderson has come to the conclusion the ordinance is a little on extreme in prescribing the character of number. Yesterday he took a foot rule and measured a six-inch number and stood off a few steps to see just how big a thing it is. He says such a number could be read across town, and he believes it is unreasonable to expect a man to hang that much paint on his machine. Mr. Henderson says he believes a three-inch number will be large enough, and Mayor Powell agrees with him. While the ordinance prescribes six inches, it is believed that if a three-inch letter is used there will be no objection.

There was an incident last night on Houston street, which is complained of showing just why there is so much agitation against the autos. An auto driver was out for a spin on the asphalt paving of the street. He was slipping along at the rate of about thirty miles an hour, tooting his horn now and then. A negro on a bicycle was trying to race with the auto and was tooting a tin whistle as he pushed his way along the wearing surface of the thoroughfare. At the corner of Ninth street a lady was crossing. She got into the middle of the street before she saw or heard the almost noiseless vehicles, and when they were almost upon her, she stopped in absolute fright, one passing to one side and one to the other, leaving her standing there in fear, the space between the auto and the bicycle being barely enough to allow her standing room.

Another incident is related regarding Main street. A young man was running his machine back and forth. Guests of the Worth were sitting outside the edge of the sidewalk on the brick paving, enjoying the cool breeze of the evening, when this fellow would run his machine at a fast rate along the street, having it steered directly to where the gentlemen were seated. Just before reaching them he would glide off obliquely, missing them, but he had as well run into them as to frighten them as he did several times.

This carelessness and evident bravado, which is followed by some of the auto drivers, is what causes the trouble.

IN THE COURTS

JUSTICE COURT CULLINGS

A warrant was issued from Justice Rowland's court this morning charging O. S. Vaughan with assaulting J. W. Field. The disturbance arose over a dispute between the two men. Field was quite badly injured about the head. The trouble occurred in a restaurant during last evening. The case will probably come up for hearing in Rowland's court this afternoon.

Judge Charles T. Rowland this morning imposed a fine of $252 against Ada Dexter and John Tillis, two state witnesses in the seventeen disturbance of the peace cases, mention of which was made yesterday, for not being present when the cases were called today.

CRAZY MAN ARRESTED

County Judge Milam this morning ordered S. St. Clair, an old man 52 years of age, sent to jail on a warrant alleging insanity. His case will be tried later.

St. Clair was arrested a few days ago while in the act of disrobing in the Santa Fe-Central passenger station on Jones street.

On entering the prosecuting attorney's office this morning St. Clair took off his coat and removed his shoes and socks. Judge Milam suggested that the unfortunate man put back his shoes, as he might take cold. "Cold, h—ll, this hot weather. You certainly have traveled some," said the man, and the laugh was on the judge.

St. Clair said he came originally from Georgia and worked on a farm in Washington county until arriving here a few days ago.

DISTRICT COURTS

Brooks James, negro, charged with criminally assaulting a negress, was admitted to bond by Judge Dunklin this morning in the sum of $1,000. Bond was made and the accused was given his liberty.

Judge M. E. Smith of the Seventeenth district court this morning granted a divorce in the case of Mary Armstrong against A. D. Armstrong. The custody of a child was awarded the plaintiff.

The foreclosure case of the International Banking, Loan and Financing Company of Denver against Carroll Faison et al. was continued for service.

COUNTY COURT

George Harmon, charged with the theft of wire, pleaded guilty before Judge Milam this morning and was fined $1 and one day in the county jail.

VITAL STATISTICS

Births—To Mr. and Mrs. P. A. Kunkel of Fort Worth, a girl.

Deaths—James Ross, aged 47 years, died at Fort Worth May 30.

MARRIAGE LICENSE

A marriage license was issued to Franklin C. Cornell, Jr., and Mrs. Cordelia Hearne this morning by the county clerk.

FRIDAY ONLY,

$1.65

The **Arcade**

1204-6 Main Street

NORTH SIDE AND ROSEN HEIGHTS

Nash Furniture Company.

The fair for the benefit of All Saints' church of North Fort Worth will close tonight with the contest for the most popular young lady and the most popular foreman of Swift and Armours. Last night a great many articles of value were auctioned off at half price.

Tonight the winners of the different contests will be announced and a large crowd is expected to be present as a great deal of interest has been manifested in the outcome of the different contests.

NOTES AND PERSONALS.

The ladies of the Methodist church entertained a large number of their friends last night with an ice cream social. The ladies realized a fair sum which will be used in church purposes.

T. M. Thannisch has moved his family from his old residence on East Front street, to his new home in Rosen Heights.

Dr. R. L. Rhodes left today for Dallas, where he will be connected in the surgery department of St. Paul's hospital of that city.

Miss Hallie Moody of the North Side, is visiting friends in the south part of Fort Worth.

Mrs. G. W. Eastham is expected home today from an extended trip through the North and East.

Miss Jessie Curd of Sherman, is the guest of friends and relatives on the North Side.

DEATHS

CHILD OF J. Y. CUMMINGS

The 3-year-old son of Mr. and Mrs. J. Y. Cummings died early this morning from a complication of diseases. Mr. Cummings is absent from home and a courier was dispatched to Euliss to notify him of the death of his child. There will probably be a meeting of the Fort Worth Bar Association today to pass resolutions on the death.

OVER THOUSAND SCHOOL CHILDREN IN DENTON

DENTON, Texas, June 2.—R. Ledbetter, who has just completed the scholastic census of the city of Denton, says that there are 1,027 children in the town of Denton within the scholastic age, as against 917 last year. The attendance at the city schools during the session closed last week was larger than ever before, and it is thought that more room will be required for the coming year's work.

WORK OF VANDALS

WACO, Texas, June 2.—Vandals entered the Columbus street public school building a few nights ago and created havoc. Black boards were destroyed, ink bottles overturned and contents spilled on desks, and other damage done. Officers are investigating.

PREPARE FOR ENTERTAINMENT

WACO, Texas, June 2.—A strong central committee has been appointed by the Business Men's Club to prepare for the entertainment of the committee of Chairman Burton of the rivers and harbors committee on the occasion of the visit to Waco on June 13.

UNION MEN INSIST ON RIGHTS AT DENTON

DENTON, Texas, June 2.—Considerable trouble threatens to grow out of a recent misunderstanding between the employes at work on the new mill at this place and those who are in charge of the work. It seems that the union men, including carpenters, and brickmakers' helpers, are determined that none but union men shall be employed on the work, while those in charge of the work refuse to discriminate between the two classes.

It was attempted several days ago to settle the matter by arbitration, but without success. Mr. Blewett, in charge of the work, in a letter published yesterday, claims that everything is moving along smoothly with the work and that the men who were caused to quit work on the building were turned down on account of incompetency. Organizer C. W. Woodman, who was here several days ago, has written a letter to the union men here, in which he commends the action of the members of the local union in seeking employment elsewhere.

Work on the mill is still in progress, the places of those who quit having been taken by others not members of the union.

TREATY IS SIGNED

LISBON, June 2.—A treaty has been signed between Spain and Portugal. It conforms with article 19 of The Hague convention.

ACUTE RHEUMATISM

Deep tearing or wrenching pains, occasioned by getting wet through; worse when at rest, or on first moving the limbs and in cold or damp weather, is cured quickly by Ballard's Snow Liniment. Oscar Oleson, Gibson City, Ill., writes, February 16, 1902: "A year ago I was troubled with a pain in my back. It soon got so bad I could not bend over. One bottle of Ballard's Snow Liniment cured me." 25c, 50c, $1. Sold by H. T. Pangburn & Co.

SIX STORY BLOCK FOR TENTH AND MAIN STREETS

The statements made that Fort Worth will eventually be the leading metropolis in Texas is being verified almost daily.

It is learned today that a fine brick business block is to be erected on the property located at the southwest corner of Main and Tenth streets, owned by Anson Brothers.

The building, it is understood, is to be six stories high and will be built of brick and stone. While the cost of the structure would not be learned today, it is said it will be several hundred thousand dollars.

The building is to have a 100-foot frontage on Main street. The Anson Brothers own the ground through to Houston street, but whether it is to be used from Main to Houston streets is not learned.

CAR STRIKE OF SHORT DURATION

Cars were tied up three hours yesterday on the Fort Worth and Rosen Heights Street Railway Company as a result of the discharge of one of the employes. The management dismissed one of the conductors, who they claimed was the instigator of the movement which terminated into a ten minute strike by the employes last Friday, and upon his discharge yesterday his fellow employes walked out, tying up traffic for three hours or more. The mattre was adjusted by the company and the conductor was re-instated as a motorman.

The men are all pleased with the action of the company and do not contemplate any further trouble as the company is operating under union wages, the last increase being granted last Friday.

WILL RUN CARS AT HOUSTON TOMORROW

HOUSTON, Texas, June 2.—A strike was declared by the union employes of the street railway company this morning at 3 o'clock. Today the men have remained quietly about their hall, while the company is making no effort to run cars, but will do so as soon as promised adequate protection at the hands of the authorities. The men promise order and will put on wagons to transport the citizens.

The sixty strike breakers that the company has held at San Antonio for the past two days are now en route to Houston and will reach here this afternoon.

A bulletin has been posted by the company, stating that all men who fail to report for duty at 6 a. m., June 3, will be discharged immediately. The second vice president of the Amalgamated Association of Street Railway Employes is in charge of the strikers. An effort will be made to run cars in the morning.

GERMANY AND THE TRAMPS

(Brooklyn Eagle.)

Germany has solved the tramp problem. It is announced that she is reasonably free from vagrants and that such as are slinking about the byways are a relatively harmless lot, who seldom commit robberies and assaults of magnitude. And the way she has settled the difficulty is this: She arrests all tramps and puts them at work. She makes the work so much harder than the work of decent men that after a trial of it the tramps reform and quit the road.

On the flat housetops of Morocco girls may often be seen flying kites where they believe will give an augury of their future. If the kite remains unbroken good fortune is in store for them; if mishap befall it evil days will be their portion. Their faith in the oracle is so great that mishap to the kite plunges them in dejection.

WOMEN AND GERMAN UNIVERSITIES

The movement in Germany to open the doors of the universities to women has failed in its chief purpose, but it has led to something. Girls are to be admitted to the classical schools preparatory to the university as an experiment, but there is a positive opposition on the part of the government to a classical training for women. Instead and "to maintain the ideal position of German women in the home" the instruction of girls in the high schools is to be better adapted to domestic requirements. That is to say, the ambitious young women are to be taught the art and science of cooking and of household work generally. The minister of instruction does not seem to be impressed by the arguments in favor of erudite women, but he has a lively sense of the importance to the country of general good cooking.—Philadelphia Record.

MAKING WORK TO HOLD OFFICE

If the United States government ever finds it necessary to economize it can discover a chance in the census department. That branch of the service is so busy that it ought to be given a chance to rest up a bit. The latest freak it has undertaken is a "report of the value of stocks and bonds of incorporated companies." If there is any stock or any bond concerning whose value any citizen desires information he can find a broker in five minutes who can tell him what is to be told. The idea of the government getting up another Wall street guide is laughable.—Hartford, Conn., Courant.

On June 9 the Order of Railroad Telegraphers will celebrate its eighteenth anniversary, having been organized at Cedar Rapids, Ind., in 1886.

ICE!

FITZ MAY RETURN TO BLACKSMITHING

Noted Fighter to Retire From Ring and Follow His Trade of Horseshoeing—Tries His Handiwork on Race Horse

NEW YORK, June 2.—Bob Fitzsimmons is figuring seriously upon reverting to his old trade of blacksmith as a means of livelihood. He is anxious to take up the work of an expert farrier at the race tracks and was today busy canvassing the owners at Gravesend, Sheepshead Bay and Jamaica with the idea of learning just how much work he could turn to his forge. Fitz said in submitting his scheme to a Gravesend owner:

"This proposition looks like a real good thing, and if I can see that it will make an even break with fighting I will certainly start in at once. But I know right now that I can not fight and follow the business at the same time."

There is little doubt of Fitzsimmons' ability to work up a big trade, for his popularity with the general run of owners and trainers, together with his notoriety as a fighter, would bring him plenty of patrons. A man who is able to judge says there is $15,000 a year for Fitz in the scheme.

He proved his capability last week, when Newton Bennington's Song and Wine went lame. Fitz was called and put a new plate on the colt, who afterward captured the Expectation stakes, worth $5,500.

20 INJURED IN TORNADO

OMAHA, Neb., June 2.—Reports from Tekamah which was struck by a tornado indicate that twenty persons were injured, some seriously, but there are no fatalities.

The seriously injured are: Kip Hamblin, Miss Gertrude Denny, Prof. J. D. Barned, Miss Gray, Mamie Redington, Joe Brune and Jess Spillman.

The storm wrecked most of the buildings, the path of which was a block in width and several blocks long. The opera house, two general stores, a blacksmith shop and several residence were destroyed.

A high school commencement rehearsal was in progress in the opera house when the storm struck the building, carrying away the roof and partially wrecking the walls. A number of the pupils were hurt, the most serious being young Hamblin and Miss Denny.

LAMSDORFF OVERLOOKS IT

ST. PETERSBURG, June 2.—Foreign Minister Lamsdorff refuses to make complaint against Prince Dolgorouky, who committed personal assault on the minister Monday evening. The latter is still under arrest.

If the medical authorities decide his mental derangement is not sufficient to warrant his incarceration in an asylum, he will probably be forbidden to live in St. Petersburg.

TO DIE IN ELECTRIC CHAIR

COLUMBUS, Ohio, June 2.—The first of the half dozen occupants of the annex of the Ohio penitentiary will pay the death penalty tomorrow, when Carl Berg, a Swedish youth of 19 years, will be electrocuted. Berg's crime was the murder of John Ginhard, a fellow tramp, at Wauseon last fall.

DAMAGE FROM THUNDERSTORM.

ST. LOUIS, June 2.—Reports this morning are coming in from various sections showing considerable and widespread damage from the thunderstorm that raged today. This city and vicinity were deluged with a heavy fall of rain which turned streets at some sections into rivers. Many houses and other buildings were struck by lightning and partly burned.

PUTTING IT MILDLY AS POSSIBLE

Grimes—Oh, come; Miss Muggins is not so bad looking as you seem to think. Why, I believe you think she is positively ugly.

Grant—I hope I am too much of a gentleman to think anything so uncomplimentary of a lady. But I don't recall any person whose face is so splendidly fitted for a thick veil.—Boston Transcript.

IT WAS HIMSELF HE SAW

"Honest, now, Jones, did you see a burglar in your room when you called the police?"

"No; my wife had shifted the mirror in my room and I didn't know it."—Detroit Free Press.

THE MAIN CONSIDERATION

"Young man, have you stopped to think where you will go when you die?"

"Gad, no—I haven't even thought where to go on my summer vacation."—Puck.

ABSOLUTELY UNRECOGNIZABLE

Wigg—I hear Guzzler's disguise at the masquerade was so perfect that no one recognized him.

Wagg—That's right. He was cold sober.—Philadelphia Record.

SPOONING IN THE DARK

Her mother—Did you turn out the gas when Tom left?

Kitty—No'm. Tom turned it out when he came in.—St. Paul Dispatch.

TIRED OF THE OLD WRAP

Mrs. McCall—Putting away your old sealskin coat, eh? They're queer-looking camphor balls you're stowing away with it, Mrs. Kute—Camphor balls? Not much! These are live moths. I want them to get in their work on this old thing so my husband will have to buy me a new one next winter.—Philadelphia Press.

The most beautiful volume in the congressional library at Washington is a Bible which was transcribed on parchment by a monk in the sixteenth century. The general lettering is in the German text, each letter is perfect and there is not a scratch or blot from lid to lid. Each chapter begins with a large illuminated letter, in which is drawn the figure of a saint, some incident of whom the chapter tells.

Century Building **WASHER BROTHERS.** Main @ Eighth

Panamas
$5.00, $7.50, $10, $12.50 @ $15.00

CITY BRIEFS

Nash Hardware Company.

Picture frames at Brown & Vera's.

Cut flowers at Drumm's. Phone 101.

Joe M. Collins, Plumbing. Phone 718.

J. W. Adams & Co., feed, produce, fuel and fat kindling. Phone 530.

Hugh H. Lewis, Hardware, Refrigerators, Ice Boxes and Gasoline Stoves, 806 Houston street.

It will always be found a little better and perhaps a little cheaper at the William Henry & R. E. Bell Hardware Co., 1615-17 Main and 513-15 Houston streets.

Manning's Powder, for feet, prickly heat, sores, skin disease and insect bites. Free box Pangburn's.

H. A. Williams for buggies and wagons.

LADYIES, do you know what you are missing by not seeing Mrs. Kate Wallace for fine sofa pillows and centerpieces, etc.? 805 Houston street.

Dr. E. D. Capps, Specialist, Eye, Ear, Nose and Throat. Office Fort Worth National Bank Bldg.

Only a short service was held at the big south side tent last evening, owing to the threatening storm. A splendid audience had gathered and there was every prospect of a fine service. This evening Mr. Smith will discuss the theme announced for last evening, "The Mission of the Christ," and as usual there will be some fine music.

Mr. and Mrs. M. D. Watson and son left this afternoon for a visit of several days at Mineral Wells.

Rev. I. T. Morris reports that he has a Polish girl, aged 20 years, for whom he is anxious to secure a place, as an invalid father is dependent upon her for support.

Judge Meek of the federal court has returned to California, to remain until the next term of court.

Due to an oversight the name of Miss Gerda Estes was left out in the account of the High school commencement in yesterday's Telegram. Miss Estes gave a recitation, entitled, "The Girl With the Violets," picturing a typical girl at the telephone. Her selection was well rendered, exceedingly humorous and very much appreciated by the audience.

Mrs. John Phelps, who for the past month has been the guest of Mrs. E. W. Tempel, left on the Frisco this morning for St. Louis. Mrs. Phelps will be joined at the fair by her husband and after a two weeks' stay at the Inside Inn they will go to their home in Baltimore.

J. N. Watson, former Texas and Pacific yardmaster in Fort Worth, but now holding that position at Boyce, La., was in the city yesterday.

R. J. Sullivan, division superintendent of the Missouri, Kansas and Texas, with headquarters at Denison, is in town today.

H. M. Jack, general foreman of bridges and building for the International and Great Northern, is in town today.

Last night three new coaches, three baggage and express cars passed through the city en route to Brownsville. The cars were built by the St. Louis Car and Foundry Company for the new railroad, the St. Louis, Brownsville and Mexico.

H. C. Glawson, driver of No. 5 fire station, was yesterday removed to the hospital to be operated on for appendicitis. He is reported as doing nicely today.

J. F. Henderson, chairman of the Seventh ward of the democratic committee, has called the primaries for 8 o'clock Saturday night at the store of Mulkey & McDaniel, on South Main street.

A son has been born to Mr. and Mrs. John Burke.

LOST—A gold fraternity badge, diamond shaped, bearing Greek letters, "S. A. E." Set with opals and rubies. Was lost somewhere on Arlington Heights road or in city park. Reward will be paid if left at Telegram office.

Mrs. F. J. Downie and daughter, Lucile, are the guests of Judge and Mrs. B. R. Webb on Henderson street.

Horses get fat and slick when fed on Texas Star Dairy Food.

Misses Melissa and Septima Smith, nieces of Mrs. T. T. McDonald, left for Baird this morning to spend two weeks of their vacation.

Mr. Sammons, who has purchased a lumber yard at Ardmore, will move from Fort Worth to that city. Mr. Sammons was the pioneer lumber man at Ardmore and left a few years ago to make Texas his home.

Ask your dealer for Texas Star Dairy Food—cheaper and better than bran.

June 16 the Houston and Texas Central Railroad Company will sell round trip tickets for an excursion to Savannah, Ga., via steamer from New Orleans. The tickets will be sold for $50.30. The accommodations will be limited for this trip and only a certain number will be provided for by the Central. The tickets are good for sixty days.

The greatest stock food of the century is Texas Star Dairy Food.

Miss Lottie Wilcox of Waco has located in Fort Worth and will make this city her future home.

Mrs. T. W. Hoote has returned to her home in Galveston. She has been the guest of Miss Tarleton during the past three weeks.

The Elks will give an informal dance this evening.

The Country Club will serve table d'hote dinner this evening to members and friends, followed by an informal hop.

Get rich by feeding your cows on Texas Star Dairy Food.

Fewer Gallons; Wears Longer.

REJECTED HE SHOOTS GIRL

CHICAGO, June 2.—With a pistol, Frank Sisler, a rejected suitor, shot himself and Miss Estelle Roney, the daughter of the assistant superintendent of the South Chicago ship yards. The girl fell unconscious in the street.

Sisler hurried around the corner and fired a bullet into his own head, inflicting a fatal wound.

Miss Roney will recover.

PROHIBITIONISTS OF ELLIS HAVE CANDIDATE

WAXAHACHIE, Texas, June 2.—Some little interest has been injected into the local political situation by the announcement that the prohibitionists of Ellis county had put a candidate in the field for the legislature. Under the last apportionment Ellis county was entitled to two representatives. These places are now being filled by Hon. J. B. Hemphill of Ennis and Hon. J. M. Alderdice of Waxahachie, both of whom are candidates for re-election. Until the prohibitionists gave it out that they would have a man in the field these gentlemen had only one opponent in the person of Attorney B. F. James of Waxahachie.

ARDMORE WILL TRY TO GET MUSKOGEE ROAD

ARDMORE, I. T., June 2.—The Muskogee Union railway, C. M. Haskell president, has a line of railroad now under construction from Muskogee by way of Madill to Whitesboro, Texas. The Muskogee Union is a Missouri Pacific proposition and by reaching Whitesboro will make important Texas connections. The Chamber of Commerce of this city will meet Friday night to take steps toward inducing the road to deflect westward and place this town on their line.

BOARD CANNOT PUNISH WITNESS

KANSAS CITY, Mo., June 2.—The Missouri supreme court today decided that the state board of arbitration had no power to punish witnesses for contempt who refuse to testify before it. The law gave the circuit court power to punish witnesses who refuse to testify before the board and the supreme court says this section is unconstitutional. This, it is said, practically destroys the law.

The case came from St. Louis, where certain livery men were declared in contempt for refusing to testify before the board in relation to a strike of their employes. They applied for a writ of prohibition to preevnt the court from punishing them, and the supreme court today granted the writ.
