## Citizens Check for Leaks After Receiving August Water Bills

Water consumption during the month reached an all-time record and city residents didn't have trouble believing this after receiving water bills Monday.

Cost of the water was double and in some cases triple the previous month and a constant stream of water customers has raised the issue of "too high for water" at the city hall this week.

Most irate customers are those who have been paying about $3.50 per month and find their bill this month around $8.00, says city secretary Frank Shaffer. However, an $8 water bill isn't bad at all this month. There are scores of bills around $25, some more than $40, and the highest residence water bill in town was a whopping $75.90.

Business firms found that air conditioners, even the refrigerated kind that depend upon water to cool the coils, can use a lot of water. Water bills of $20 were not at all uncommon, and one business firm paid $109.55 for their water this month.

The city pumped approximately 55,000,000 gallons of water between June 15 and July 15, the period for which water bills are rendered. The total billing for the month was $11,000, a new record. Previous high, billed a year ago at this time, was $8,600 indicating that about one-third more water was used this month than at the same time a year ago.

City manager J. B. Whigham pointed out that a lot of water can run through a garden hose in a day's time. An ordinary water hydrant will flow 8-12 gallons per minute, under average pressure. This figures out to 720 gallons per hour and a person could run 5,760 gallons through the line in an eight-hour spell of

## Crop Insurance Deadline Set For August 14

The deadline for Ochiltree county wheat farmers to obtain federal crop insurance on their 1955 wheat crops will be August 14 instead of the usual date, August 31, Roger Tandy, crop insurance agent for the county, has been advised.

This means that after August 14 no applications will be accepted from Ochiltree county wheat farmers for crop insurance on next year's crop.

The Federal Crop Insurance Corp. has advsed O. B. Briggs, Texas State Director, not to accept any applications filed by our farmers after August 14 due to the unfavorable prospects that face this area for the 1955 crop." Tandy said.

Ochiltree county collected $127,000 in crop insurance premiums for 1954 and have paid out $305,000 in claims for the wheat crop this year. In the years 1952-53,54, there have been total premiums $324,319 paid in by Ochiltree county farmers, who have received a total of $952,610 for claim payments.

A surplus from prior years amounted to $175,000 makes a net loss of $453,281 during the years since 1952.

"In view of the unfavorable crop conditions that we have experienced in this area, it is

## Sunday Rain Boosts Moisture for July

**A rain which fell Sunday night in a heavy thunderstorm brought .72 inch of moisture to the Perryton area and boosted the unofficial rainfall measurement for July to 2.33 inches in Perryton. The rain has not been general, but varying amounts have fallen over most of the county. Sufficient rain has fallen during the past two weeks to revive grain sorghum fields which were beginning to suffer from hot weather and lack of moisture. Another good rain or two and the grain sorghum crop is practically made, most observers believe.**

## Smith, Daughter Have Polio In Enid Hospital

Carlos Smith, 25, son of Mr. and Mrs. Dale Smith, 1001 S. Baylor, is in the polio clinic of an Enid, Okla., hospital, receiving treatment for polio. He was taken to Enid on July 29 and is paralyzed from the waist down. He has been placed in an iron lung.

Smith, who has made his home in Beaver where he is employed by a Texas Co. seismograph crew, brought his 5-year-old daughter to Perryton last week and her ailment was diagnosed as polio in a local hospital.

The child was taken back to Beaver and a few days later Smith complained of feeling ill and came to Perryton where a spinal test was made and it was discovered that he had polio.

He is in the isolation ward in the Enid hospital. His daughter, Sherry, is recovering satisfactorily from the attack and the doctors say that Smith is doing as well as can be expected.

Mr. and Mrs. Smith have two other children, a son four years and a daughter one year of age. Smith's wife and his parents are in Enid with him.

He grew up in Perryton and is a 1947 graduate of PHS. He was a star guard on the 1946 Ranger football team. Mrs. Smith is the former Miss Donna Clark of Perryton.

GOD SENDS THE SUNRISE! God sends the Dove! May she light on the cross atop the steeple of our church. May she drop her message of "Peace on earth, goodwill to men." May this symbol of the Holy Spirit eliminate rivalries of Methodists, Presbyterians, Baptists, Catholics and all the other religious groups. *May we give the "Prince of Peace" a chance in our lives, in our families and with our neighbors.* May we care more for progress of soul than in progress of things. The ways of Peace are more difficult than the ways of strife. They bear the mark of culture, of civilization, of deep piety and of genuine religion. May we be faithful to God and to His church. *May we be Peacemakers for they shall be called the children of God.*

## Shell Crew Gets Safety Award

An outstanding safety award was presented the Shell Oil Co. seismograph crew of Perryton last Thursday when they received a Joseph A. Holmes award from the Bureau of Mines.

This crew, headed by L. E. Jackson, party chief, has worked from October 1, 1940 to April 27, 1954 without a loss of time accident. The crew originated on Oct. 1, 1940 and has put in 561,207 man hours on 5,118 days work. There are an average of 19 men on the crew.

To qualify for this award, a crew must have at least 300,000 man hours without an accident and there have been only two Shell crews that have been able to establish this record.

The Herald adman belongs to that great order of the water squirters. You may be a member To qualify, you go home from work and pick up the hose and squirt a little water here and there. Not enough to do any good anywhere, just squirt a bit of water for the fun of it.

After August first water bills were studied, the society of squirters is about to fold up and join the soakers. Soakers are all known for their green thumbs and modest water bills. watering. This would be expensive, as some have found out.

A standard quarter-inch copper tube attached to an air conditioner can deliver 375 gallons an hour under full pressure and an air conditioner without a pump can get rid of a lot of water on a hot day, the city manager points out.

Better news is in prospect for the next water bill payment, however. City pumps delivered 22,500,000 gallons of water in the period June 15-30 while the wells pumped only 14,500,000 gallons in the period from July 19-31, indicating that next month's water bills will be substantially less.

And it's probably just as well, too.

As one water user told the city manager, "We'd better strike a bargain on this water—or else I'm going to let the grass, flowers and trees die on YOUR parkway!"

only logical that the corporation should require that farmers make up their minds now regarding this insurance protection," says O. B. Briggs, State FCIC Director.

"Those who want to wait to see whether or not crop prospects change before planting are looking for something other than a reasonable insurance proposition. The strength of the crop insurance program will not be helped by the addition of policyholders who sign up with the idea of carrying the protection for only one year because they think that their chances of collecting are unusually high. The program will be better off in the long run with these 'in-and-outers' who are looking for subsidy rather than insurance," Briggs concludes.

## To Pour Concrete Monday at New Equity Elevator

Work is progressing rapidly on the new Equity sub-terminal elevator at Twichell, with pouring of the concrete for the mammoth structure slated to begin Monday morning.

Bill Grammer, construction foreman for Chalmers and Borton, said that it will take about nine days of non-stop pouring of concrete to erect the walls of the elevator. The Ferguson Ready-Mix Co. has the concrete contract and are to deliver 25 yards per hour, Grammer said.

About 30 men are working on the construction job at the present time but there will be 75 men there Monday. A full crew will work for about two weeks and the job will continue into the fall.

The elevator, with a capacity of about 500,000 bushels, will rise 138 feet into the air with a 40 foot headhouse on top of that. There are 24 concrete tanks, built on the hexagon principle like the Farnsworth Equity elevator.

## Dike to Reduce City Lake Size

A dike to make a smaller body of water at the city lake has been constructed this week by Ray Wright, who plans to make better use of the waste water for irrigation with the dike.

The city is happy to have the water channeled into a smaller area, which helps the smell and appearance of the rest of the city lake bed. Drying up the city lake will make it possible for the city to combat the mosquitoes and other insects, according to city manager J. B. Whigham.

Wright has been using water from the city lake to irrigate a field just east of the lake, and in fact a portion of the lake drains into his land.

The city sewer plant empties about 700,000 gallons of water each day into the lake. Part of this is lost through seepage and evaporation.

## Christian Science

**Services 11 a. m. each Sunday**

**Public Cordially Invited**

How the individual can find true joy, health, and courage through gaining a spiritual understanding of God will be explained at Christian Science services Sunday.

Keynoting the Lesson-Sermon entitled "Spirit" is the Golden Text from Galatians (5:22,23): "The fruit of the Spirit is love, joy, peace, longsuffering, gentleness, goodness, faith, meekness, temperance: against such there is no law."

The blessings bestowed on man by God, divine Spirit, will also be brought out in readings from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, including the following (78:23-30): "Spirit blesses man, but man cannot 'tell whence it cometh.' By it the sick are healed, the sorrowing are comforted, and the sinning are reformed."

From the Bible, the following passage will be among those read (John 4:24): "God is a Spirit: and they that worship him must worship him in spirit and in truth."

## Issues Remain the Same

Now that Texas has a run-off in the governor's race between Allan Shivers and Ralph Yarborough, it may be well to examine what appears to be the basic issue between the two candidates. These issues emerged at the start of the campaign and are still there, despite the smoke screens of charges and counter charges hurled by the candidates during the recent campaign.

One major issue is whether certain ultra-liberal groups within the national Democratic Party and outside the state are going to dictate the choice of a Texas governor.

The second is a conflict of political ideologies, one of the traditional Democratic theory of states' rights and the other the theory that a strong central government should be dominant.

In reality the two issues are so closely related as to merge into one. Governor Shivers is a states' rights Democrat, a strong believer in the principle upon which the Democratic Party was founded and to which it adhered until it was infiltrated by Northern ultra-liberal elements to a degree which virtually has given them control.

Among these elements are the CIO Political Action Committee, and the National Association for the Advancement of Colored People, both of whom have swung all their weight behind Ralph Yarborough in the Texas race for governor.

We doubt if the people of Texas will be willing to substitute somebody else's definition of "Democrat" for their own. They did not in 1952 and it would be highly foreign to their nature for them to do so now.

We believe Allan Shivers will get the Democratic nomination for governor of Texas in the August 28 run-off election.

## Tipping Inflation

Tipping has got so far out of hand that the authors of a 35-cent booklet on the subject warn their readers that it it not necessary to tip the diaper service, the dry cleaner, expressman, florist, Fuller brush man, bus driver, teacher or the repairman.

Commenting on the book, the authors say this leaves only the red cap, Pullman porter, waiter, doorman, page boy, room maid, cigaret girl, hat checker, washroom attendant, cab driver, barber, manicurist, caddie, locker room attendant, the clergyman at the wedding and possibly the head waiter to worry about.

Because of inflation, many travelers have upped their percentage for tips from the usual 10 to 15 per cent. The authors of the booklet question the need of 15 per cent except for extraordinary service. When you bought a good dinner for $1.50 a tip of 15 cents was usual. Now that the identical dinner costs $4, a tip of 40 cents is adequate, they say. They say also that there is no need to tip on the tax.

Some hard heads insist upon saving more than that and leaving no tip at all, contending that the management of the firm should pay a living wage to their employees. Others content that tipping gets no better service and the worst that can happen for lack of a tip is a hard look, so why tip?

At any rate, it appears that inflation, which has increased costs for all kinds of services, has taken care of higher tips so that the old 10 per cent basis ought to be adequate.

## From the SIDELINE
with HAROLD HUDSON

We visited the site of the Equity elevator at Twichell Monday afternoon and it looks like quite a structure. They plan to pour the concrete for the elevator beginning next Monday and will require 25 yards of "mud" an hour, according to Mr. Grammer, foreman of the job. Right now they're waiting on an electric jack to lift the forms as the concrete is poured and are setting steel.

There is no employment problem at this job, at least not for the company. Grammer said there were about 100 men at the job shack Monday morning and he hired 40. Intended to hire 35 but got through 40 before he stopped to count, he said. The men came from various towns in Oklahoma and from Darrouzett, Lipscomb, Follett, Booker and Perryton. Unskilled labor scale is $1 per hour and there is a big demand for jobs at this price.

**All it takes to like some peope better is a chance to see less of them.**

We attended the county Democratic convention Saturday, such as it was, and wound up getting elected temporary chairman and a delegate to the state convention. The latter was not done without some misgivings on the part of Sid Talley, the ex-sheriff and old line Democrat who still isn't satisfied with the way things went two years ago and who maintains Allan Shivers is not a Democrat.

**Sid isn't too sure that this department isn't a Republican in Democrat clothing and said as much at the county convention. Sid is a strict Democrat right down the line. Says it is immoral for a man to vote in the Democratic Primary and then not vote a straight Democratic ticket in the general election. He's not a bit pleased about the number of Republican votes cast in Ochiltree county two years ago and is still convinced that there are a lot of Republicans voting in the Democratic Primary. The only sane thing to do, says Sid, is to kick 'em out.**

We consider ourselves Democrats, all right, but not the "brass collar" variety. That means that if we don't like the party choices, we vote for someone else in the other party. In this present governor run-off, we are for Shivers all the way, and we believe he's going to win.

**Some agitation among mothers has resulted from the two polio cases that have developed in Perryton and some of them are afraid that swimming in the city pool may have had something to do with it. As a matter of fact, Gary Knowles hasn't been swimming in the city pool since the opening day. Kenny Jones, who worked at the swimming pool, certainly did swim, but apparently he and the Knowles lad didn't give each other the germ because they didn't see each other all summer.**

Actually, the doctors don't know how polio is contracted. There are a number of precautions to observe, but catching the germ is still apparently a matter of chance.

**At any rate, we are glad the two boys from Perryton had a light case and not the bulbar or paralytic type of polio. Both will be all right outside of having to curtail vigorous activity for several months.**

Many politicians who try to cultivate the farmer succeed only in harrowing him.

**Dress designer Christian Dior's "flat look" with a special girdle to take the bounce out of bosoms, may catch on, but if it does, women are bigger fools than we think. We just can't believe they will hide their natural charms in spite of what the style dictator decrees. Then too, if this "flat look" becomes popular, it will make natural selection a much more complicated process for the males.**

Girls need beauty more than brains because most men can see better than they can think.

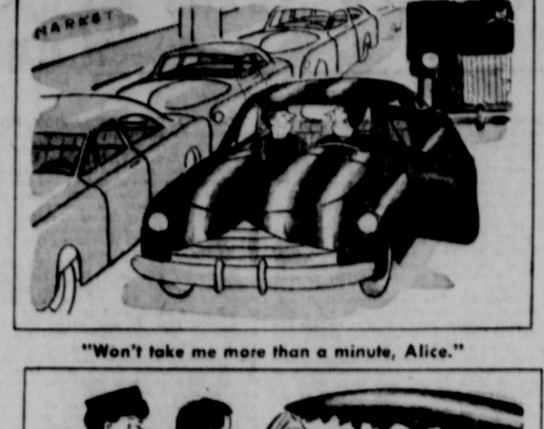

**Occasionally we run into a real tightwad around here, but no one we have ever known can compare with our college roommate, a chap named Ed Klock from Fort Smith, Arkansas. Klock rationed out the toothpaste from his tube and when it was finished, unrolled it and gave it a good rolling with a round lead pencil to get the last smell of toothpaste out of it.**

We once took a hitch-hiking trip with him on which we traveled 500 miles and each spent 50 cents and he didn't let go of his four bits without a struggle. He was the type of fellow that would walk all the way to town from the UT campus to save two cents on a package of razor blades.

**But the best trick he had was on reporting home in Fort Smith after spending a holiday there. His mother would always insist that Ed call home in Fort Smith after returning to Austin safely and this he would do. Only his method was to call his parents in Fort Smith, collect. When the operator called them, they would refuse the call and thus know that Ed arrived safely back in Austin, and this vital bit of information didn't cost a red cent to the Klocks.**

## He's Ready For Hibernation Pills

**(Ed. note: The Wolf Creek Philosopher may have an idea this week, but it's ahead of his time.)**

Dear editar:

I was out here yesterday afternoon trainin my calves to stay on the shady side of their mothers while they go from the shade to the water tank, heard the other day a rancher in West Texas lost a bunch of calves from sun stroke just walkin on the sunny side of the cows, and I got to thinkin about an article I read some time back.

Accordin to this article, a scientist out in California is workin on a method of puttng people into hibernation when they get sick. He's tryin to develop a pill you can swallow that'll cause you to pass into a month long sleep or daze, while you recover from whatever is ailing you.

And I've been thinkin. Grass is so short, cattle are so hungry, and the price is so low, about the only thing that'll save em is some of them pills.

If I could give each one of my cows one of those pills and she'd hibernate in the barn until the drouth is over and the grass is knee high, it'd beat government relief all to pieces. In fact, I wouldn't see any point in usin this method just while a drough is on, why not arrange to let your cows hibernate every winter? Along about the first frost, hand each one of em a pill and herd em in the barn, shut the gate, and forget about em until next spring when the grass is out once more. Might even try one myself, although up to now there hasn't been much essential difference between my farmin activties and hibernation anyway. Use of these pills would also solve the government's problem of price supports for cattle, which up to now it's been unable to do on account of they claim you can't store a cow.

The trouble with scientists though is they're always talking about these things but they're a little slow about getting around to gettjng the pills in my hand. You take a man with a bunch of cows, no grass, and the bottom out of prices, even if the government lends him some money to buy feed with, there's a joker in it, he's got to pay it back. That ain't relief, that's just postponin the misery.

Agricultural experts will you how to conserve feed, take care of your grass, when a cow gets hungry, n't take any expert to the only answer to her is feed.

If they can get these tion pills perfected 20 days now, my cows can make otherwise I won't be

Yours faith

Look at the 3-way bonus you get in the car that's sweeping the nation!

1. You get the car that's styled for tomorrow—

and for just a few dollars more than the so-called "low-price three"!

In Buick today you find the fresh modern beauty that will pattern the styling of other cars yet to come. That's a major reason for Buick's soaring success this year. But the clincher is Buick's low delivered price—lower than you think. No other car at so low a price gives you this advanced styling—plus Buick's great room, comfort, ride and V8 power.

2. You get the car that's a sure high resale value

Of this you can be sure: the new Buick you buy today will look modern next year, too—because that broad panoramic windshield will be appearing on other cars as a 1955 feature. So with the new Buick you buy now, you'll stay right up in the style parade for years to come—*and command a higher resale price when you trade it in.*

3. You get a bigger allowance from our volume business

Regardless of price class, *Buick today is outselling all other cars in America except* two *of the "low-price three."* That's fact. So with this tremendous sales volume, we can offer you a higher trade-in allowance when you buy a new Buick. Come in, see and drive Buick the beautiful buy. Then see for yourself how our volume business means a far bigger allowance for you.

## Blue Sox Win Over Liberal In League Game

The Blue Sox captured a well earned 8-3 victory over the Liberal Indians last Wednesday night, coupling 11 hits with 8 Liberal errors.

Liberal drew 1,241 spectators for the game, second highest attendance mark n the Tri-State League, and far eclipsing any attendance mark for Perryton.

The Blue Sox went into a decisive lead in the third inning, with Larry Gilchrist hitting a single, followed by a double by Jack Crowe and a long single by Bob Gibson. Cooper's single and Melvin Williams' sacrifice contributed to the inning which ended with the Sox on the long end of a 4-2 count.

## City's Rhodes Scholar, Duane Bell Home Monday

Duane Bell, son of Mr. and Mrs. Aldon Bell, sailed from Southhampton, England aboard the French liner "Liberte" Tuesday and is scheduled to arrive in Amarillo next Monday morning.

Bell, this city's first Rhodes scholar, has been a student at Oxford University, Hertford College since September, 1951. He also had the honor of serving Hertford College as president during this year. (President is similar to being president of the student council).

The 1947 Perryton high graduate is a history major and received bachler and masters degrees from the famed English university. He received his AB at the University of Oklahoma in June of 1951.

Duane is bringing an English friend, Dennis Bonney, home with him for a visit. Bonney is an exchange student and will enroll at the University of California, Berkeley, Calif. for the fall term.

## THE CLUBHOUSE

Only two of the 15 leading batters in the Tri-State Baseball league improved their base hit marks this last week, and as a result Hooker's 6-feet-4 inch right fielder, Ken Corley, who was one of the two, is the new league batting leader with .484. The other member of the top 15 to improve is Perryton second baseman, Jack Crowe, who went from fifteenth to sixth position as he raised his figures from .350 to 393.

The week was disastrous to the batting championship bids of Sublettes Leon Howard and Bob Johnson. It likewise hurt Perryton's Melvin Williams, about to enter the Marines, and their left-fielder Bob Gibson.

With almost all of the leading stickers fading before improved league pitching it is far from impossible that Guymon's Bob Rigby, out of their lineup on his summer vacation the last week, may back into the the lead. Carl Furillo, Brooklyn outfielder, won the National league title while out of action, last year. Rigby with an unchanged average of .481 is so close behind Corley that a strike-out or two could tell the tale.

Hooker was the only one of the five league clubs to improve its team hitting mark over a week ago. By raising team hitting from .285 to .296, the Cardinals again are the ranking batting club of the Tri-State. Sublette lost 15 batting points to drop to .284, Liberal fell off 3 points to .248, Perryton lost 2 pointers to .235, and Guymon's already weak figure of .195 was knocked down still further to .189 by Sublette's left-hander, Jack Christie.

Thirty of the league's 40 games of the 1954 season are now over, and here are two separate races. The first-second place battle between Sublette and Hooker is so close that a single defeat by either of these clubs may boost the other into the pennant.

Likewise there is a royal scramble for third place between present incumbent Liberal, and contenders Perryton and Guymon. Liberal has four league games yet to play, Perryton two and Guymon five. Whichever team can win two additional games is a practical cinch to end up with the third place honor.

Only ½ game separates Guymon in last with 3 wins and 8 losses from Liberal's 4-8 mark. Perryton with 4-10 is also ½ game out of 3rd ranking. Liberal has the least favorable remaining schedule of this trio as three of its four remaining league contests are against Hooker and Sublette, although two of them are scheduled this week on Liberal's home grounds.

I'M NOT MUCH good but I love you, says Anne Baxter to Lyle Bettger in scene from "Carnival Story" realistic Technicolor drama, filmed in Germany by the King Bros. Steve Cochran and George Nader co-star. The film opens at the Ellis Theatre Tuesday, August 10.

# 'Carnival Story' Has Strong Appeal for Movie Goers

Motion pictures which stir the emotions are said to be the most successful, and by this yardstick, "Carnival Story" should be a good one. Starring Anne Baxter, Steve Cochran, Lyle Bettger and George Nader, the picture comes to the Ellis Theatre on Tuesday-Thursday, August 10-12.

"Carnival Story" is not a pretty story but it is certainly a fascinating one. Mature in its treatment, it centers on Anne Baxter as a post-war German girl, who drifts into carnival life as a refuge from a hard and unhappy existence. She is hungry for love and finds it in three starkly emotional affairs as she rises from obscurity to fame as the sensational high-diving attraction with the carnival.

Major attention is focussed on her hectic romance with Steve Cochran, the spieler with the American carnival troupe as it travels through Bavaria. He is bestial but irresitible and Anne finds it difficult to throw off his hold on her until he brings about the spectacular death of Lyle Bettger, the shows high-diver, following her marriage to him. Considerable drama and a few scenes of high-pitched excitement occur before Anne is free to start a new life with George Nader, an American magazine photographer assigned to cover the show.

## POW Action Is Portrayed In New Picture

One of the year's most timely and powerful dramas will be unfolded in "Prisoner of War," which comes to the Ellis Theatre on Sunday and Monday, August 8-9.

Starring Ronald Reagan, Steve Forrest and Dewey Martin, the picture tells the story of American prisoners of war in the Korean conflict.

It tells of men who endured hardships at the hands of the Red captors, of men who broke under pressure and of one man who pretended to play the Communist game because he then could perform services to ease the lot of his fellow captives.

Ronald Reagan enacts that man, Capt. Web Sloane who, in the uniform of a corporal, voluntarily parachutes to earth behind enemy lines and slips into a column of captive G. I.'s stumbling on a death march northward toward Red camps near the Yalu. When Web labels himself a "Progressive" so that he can have the freedom to steal needed surgical instruments to save the life of a fellow-prisoner and, later, when he makes a "peace plea" newsreel for the Communists, not even his closest friend, Joe Stanton (Steve Forrest) can believe that in doing so, Web has relayed important information to American Intelligence.

THANK YOU.
My Fellow Texans

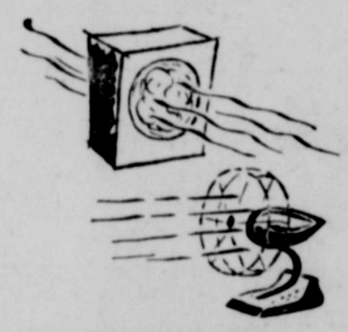

From the bottom of my heart, I want to thank all of you who supported me in the First Primary. Your interest in good government and your enthusiasm in this fight for Texas is an inspiration to me. Together, we will continue to discuss the issues and carry on the clean, hard campaign which will result in a decisive victory for Texas in the Second Primary on August 28.

July was a scorcher!
(One of the hottest on record)

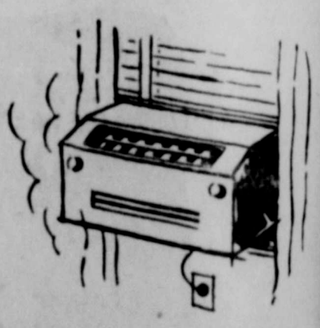

Electric fans worked harder and longer, bringing cooling breezes around the clock.

Electric refrigerators worked harder supplying extra refrigeration and extra quantities of ice cubes and cold drinks.

Home freezers worked harder to keep frozen foods safe through the extreme heat.

Air conditioners worked harder to keep rooms cool and comfortable. So did evaporative coolers.

Naturally, some electric bills may be higher because of all this extra use. But when you think of the relief from heat your electric service brings, you'll agree it's a real bargain in summertime better living.
