VOL. 4, NO. 12 — WICHITA FALLS, TEXAS, TUESDAY, AUGUST 8, 1922 — FIVE CENTS EVERYWHERE

RAIL BOARD WILL ACT ON SENIORITY ISSUE

DEAD ENGINEER IS BLAMED FOR M. P. SMASH-UP

Coroner's Jury Says Flier Pilot Negligent

By Associated Press.

DETROIT, Mo., August 7—Negligence on the part of Engineer Matt "Ginger" Glenn was responsible for the Sulphur Springs wreck which caused 34 deaths thus far and injury to more than 100 persons, according to the verdict of a coroners jury late this afternoon.

Mr. Glenn was engineer on the Missouri Pacific fast passenger train No. 4, which crashed into local No. 32 Saturday night. The coroner's jury held that his failure to observe a block signal, warning him that the track ahead was not clear, caused the rear end collision.

Mr. Glenn was killed when he jumped from his cab just as the collision occurred.

The verdict was returned after the jury had decided to render an open verdict blaming no one, and had then immediately reconvened and reconsidered its decision.

Given Orders

Engineer Glenn had received orders "on the run to pull over on a siding at Cliff Cave, 15 miles south of St. Louis, to allow the Sunshine Special No. 1 to pass, and it is believed he was reading these orders when he passed the block signal, warning him of an unclear track.

No orders had been received concerning No. 32, the testimony showed, and the signals were the only means of showing the track was not clear at Sulphur Springs.

James A. Long, of this city, conductor of the local, testified they had received no orders to take a siding at Sulphur Springs adding "we had no idea No. 4 was so close behind."

Long stated he did not see the fast flyer approaching, but heard some one yell: "Here comes No 4," and that he was running to tell the engineer when the crash came. It was testified that the local had not been taking water at DeSoto for several weeks, and when asked whether this order had been issued in connection with the railroad strike, the witnesses replied they did not know.

Signals Working

R. R. Ragland of DeSoto, a signal supervisor for the Missouri Pacific, stated that all of the blocks between Riverside and Sulphur Springs had been inspected by him and found to be in perfect working order at 6:45 p. m. Friday. These signals were the ones which Glenn was said to have gone by without noticing.

The death toll was brought to 35 this afternoon with the death of Pearl Goff of Cadet, Mo., a sister of Beulah Goff, who was killed in the wreck.

GAINES WARS ON FERGUSON

Opposes State Demo Committee

By Associated Press.

DALLAS, August 7.—Judge John W. Gaines of San Antonio, who furnished the only break in the routine at today's meeting of the state democratic executive committee by requesting that the name of James E. Ferguson be not permitted on the ballot in the August democratic runoff election, declared following the meeting that he would file suit in district court of Bexar county seeking to restrain the chairman of the committee from certifying Mr. Ferguson's name as a candidate in the second primary. Judge Gaines declared that he would file this siut Tuesday or Wednesday.

No Dissent

Motion to certify former Governor Ferguson's name was voted by a chorus of "yeas." No dissenting voices were heard. This motion was voted following Judge Gaines pleading that Mr. Ferguson's name not be permitted on the ballot:

Accordingly, Mr. Ferguson and Earle B. Mayfield, high men in the July primaries for the democratic nomination for United States Senator will go on the ticket. There was no protest against certification of Mr. Mayfield's name.

Armies of Sun Badly Beaten

By Associated Press.

CANTON, China, Aug. 7.—The northern army of Sun Yat Sen, deposed president of south China, has met a stinging defeat by Chen Chiung Ming's troops near Shiuchow, in northern Kwangtung province, and is in retreat back to Kiangsi province, whence it came a few weeks ago, according to advices received here today.

Freight House Burns

By Associated Press.

KNOXVILLE, Tenn., Aug. 6.—Fire of unknown origin today destroyed the freight station of the Louisville and Nashville railroad and twenty empty box cars in the yards. The loss is estimated at $500,000.

Ma Burdick War Heroine; Needs Aid What'll You Give?

H. N. F's. Mainly About *People*

Silk Hose Will Go Up—
So Will Cotton—
If G. O. P. Tariff Wins
It Must Be Beaten—

SENATOR ATLEE POMERENE of Ohio is a democrat and one of the intellectuals of the minority of the senate.

He has been studying the tariff bill the republicans are making. He says under the high rates proposed in the pending bill the women of the United States will be forced to pay approximately one billion dollars more for clothing than they paid under the democratic law now in operation.

Cotton fabrics have been boosted from 22.6 to 40 per cent. This includes ginghams, calicos, organdies and similar materials used exclusively for women's and children's dresses. Laces up from 60 to 90 per cent. At the present time Pomerene says women can buy them in five and ten cent stores. This will no longer be possible if the proposed republican rate becomes effective. Cotton hosiery will go up from 37 to 68 per cent. When the republican tariff is effected no more children's hosiery for 25 cents per pair. Silks will go up from 60 to 90 per cent. Silk pongee for dresses and shirtwaists and habutai silk for women's undergarments will be boosted to higher prices. Wool fabrics, leather and cotton gloves, household utility articles, hardware, cutlery, buttons and toys are items in the billion tariff bill for women alone. Cotton corsets under the democratic tariff law 30 per cent; under the republican which is to be put over 64 per cent.

REGARDLESS OF COL. JOHN Henry Kirby's southern tariff association, regardless of all the high-faluting arguments and tearful entreaties of these so-called protective democrats who are running wild in Texas, the republican tariff bill now pending trims the people to the bone, starves their pocket books and all to make money for the billionaire manufacturers and steel kings of America who do not need it.

And the defenders and apologists of this iniquitious measure have the effrontery to say that it is for the protection of the American farmer and the American laborer when the wealth makers and wage earners of America are to be its victims. A vast number of the money kings of America declare direct taxation to be downright robbery. This applies to the income tax, the excess profits tax and the federal inheritance tax.

But these critics of direct taxation favor an indirect tax which is placed upon the backs and the bellies of the people where they can not use it but they feel it every time they invest a dollar of hard-nearned money in the necessities or necesaries of life.

THERE MUST BE A FOREIGN market for the surplus cotton of the south. There must be a foreign market for the surplus wheat of the north. If there is a large surplus of either of these commodities, it must be taken by foreign

Fair Premium List Ready This Week

The premium list for the Texas-Oklahoma fair is expected to be ready for distribution this week, according to George L. McGhee, assistant secretary of the fair association.

The book carries lists of premiums to be given at the fair totaling approximately $7,500 and covering scores of varieties of exhibits.

The premiums placed on various exhibits will be attractive enough, it is said, to make it worth while for exhibitors to come here from remote counties in the Texas and Oklahoma district to be reached in the fair campaign.

'Tis Not Charity But Appeal to Patriotism Behind Record News Plea to Citizenship

The heroine of the war lies in Wichita Falls in a bed of pain.

She lived on the fiery fronts of France before the very death-belching cannons with the boys. They fought and went down and died all about her. She was ever with them—cheering them with words they longed for; words from a woman to a lonely man lost among millions of men. She not only cheered them. She fed them. She gave them doughnuts and coffee. From early morn to late in the night, her little stove alighted by the blaze of the enemy's fire, she was with the boys.

And today, she needs help.

A little island of heaven in a swirling hell of noise and destruction. Just a little spot, reminiscent of home and comfort, where "Ma" Burdick, baked her thousands of doughnuts, and big, steaming pots of coffee, while the guns crashed their threats of death all about her, and weary men paused for a word of cheer and a bite to eat, before they plunged over the top once more.

And "Ma" was always there.

Thousands of doughboys came back home, blessing her and singing her praises. Thousands of others, who sleep under the poppies over there, died with "Ma" Burdick's name on their lips.

For no matter how bitter the fight, the shells never fell too fast nor too thick for "Ma." Day after day she donned her "tin hat" and crept up through the trenches with the boys, giving them coffee and doughnuts, and, best of all, cheer and faith.

And no matter how dreary and dismal the night, the ghastly rays of the star shells would light the kindly face of "Ma," as she toiled on through the night.

She Fed Soldiers Cheer.

And although "Ma" Burdick holds the record for doughnuts, baked on the front, and probably dispensed more coffee to the soldiers in the front line trenches than any other living person, yet her service is not measured in doughnuts, nor in coffee.

It is, rather, measured in the message she carried to weary men, whose hunger was not all "of the belly kind, that's banished by bacon and beans, but the gnawing hunger of lonely men, for a home and all that it means."

It is measured in that great mothering spirit of the woman, who carried on with "her boys" long after her strength failed, with a word of cheer for the discouraged and home sick, that sent them on into the battle again after their spirit was almost broken.

It is measured by the brave smile with which she met those wounded, broken boys, on the bloody, backward trail from no man's land, that carried to them a message of home and comfort, and other, sweeter things, that caused them to forget their pain.

It is measured by the comfort she brought those boys, before they passed on into the land of silent heroes, by the hands she held as the

(Continued on Page Two)

Gun, Fish, String, Bang, Hospital

By Associated Press.

HOUSTON, Texas, Aug. 7.—C. A. Lensing of Goose creek lies in a hospital here today with a painful, although not serious injury received Sunday when he came upon a "set gun." Lensing was fishing. He needed a weight. He saw one in a boat and reached over for it. He touched a string and a bullet was fired into his shoulder. Officials are investigating the placing of the gun at that point.

Strikers Face Trial in Houston

By Associated Press.

HOUSTON, Texas, Aug. 7.—Three striking shopmen of the International and Great Northern railroad are on trial in the federal court today on a charge of interfering with the operation of a railroad in the hands of a federal receiver. They are charged with threatening and interfering with a workman of the road.

Commissioners Get Window Slammed In Their Face So They Take Action

Constable Morgan pulled the window up.

Some one on the other side where the Red Cross office is located pulled it down.

And then the constable let the county commissioners who were in session up stairs in the court house know just what had happened.

Up went the window again. And down it came with a bang.

"Madam, you have pulled that window down in the face of the county commissioners," a voice informed the lady on the other side. And she stood motionless for a second or so, and then informed the commissioner who had addressed her that she "couldn't have the window up at all."

And all the time, on the other side, the constable and his deputies who had come in their office to do some work were sweltering.

The commissioners adjourned without much further ado.

But upstairs they wrote in their journal:

"Be it ordered that effective August 15, the rooms occupied in the court house by the Red Cross shall be vacated. And it is so ordered."

It was explained later that the Red Cross has occupied the rooms in the basement of the court house for some time gratis from the county, and that the constable's office, located next door and directly in front of the room, has only one small ventilation unless the windows adjoining the Red Cross rooms are opened.

FINAL TRUCE APPEAL FALLS ON DEAF EARS

Agree to Consider Important Matter Any Time

By Associated Press.

WASHINGTON, Aug. 7.—"As a final appeal from the government for immediate settlement of the rail strike President Harding today communicated to railroad executives and heads of the striking shop crafts unions proposals that the men be sent back to work, and that the managements take them back and that adjustment of the crucial seniority issue be left to decision of the railroad labor board.

Though the president was said to consider this, the only practical course the government could take, union spokesmen indicating its rejection, summoned their associates to meet here Wednesday to pass upon the proposal and further called to Washington for general conference Friday the heads of all railroad labor organizations to consider methods of co-operation that might make the strike more effective.

The rail executives had made no response to the white house tonight, though press dispatches indicated that they also would meet to frame a collective answer.

STRIKERS RILED AT HARDING'S PROPOSAL

By Associated Press.

WASHINGTON, Aug. 7. — President Harding's new proposal for settling the railroad strike apparently advances "no constructive program" leaders of the striking shop craftsmen announced tonight after a protracted conference.

B. M. Jewell, head of the shop crafts federation, said the president's settlement proposals constituted "a most uncalled for attempt to help the railroads break the strike," and added that "nobody ought to get the idea the shop federations will accept."

ROAD EXECUTIVES DON'T LIKE PLAN

By Associated Press.

NEW YORK, Aug. 7.—Assertion that President Harding's new proposal for ending the rail strike seems "to demand a complete surrender of the position of the railway presidents as stated last Tuesday," was made by L. F. Loree, chairman of the eastern presidents' conference, at the close of an informal meeting of rail heads late today.

Airmen Finish Mapping Flight

By Associated Press.

SAN DIEGO, Cal., August 7.—Completing their six thousand mile air mapping flight, Lieutenants Charles Webber and Virgil Hines, army aviators, arrived at Rockwell Field here today. The two airmen started from Rockwell Field on July 26, flying to Las Vegas, Nevada, Salt Lake City, Denver, San Antonio, El Paso and Nogales, hopping off from the latter city early today.

Dismiss Contempt Charges Against Men

By Associated Press.

LITTLE ROCK, Aug. 7.—Contempt of court proceedings against 29 striking shopmen at Hoxie, Ark., was dismissed in federal court here today on the ground that the evidence submitted was insufficient to sustain the contention made in the complaint by the Missouri, Pacific railroad which alleged interference with section hands at Hoxie in violation of a federal injunction.

Keep Moving, Please

By Associated Press.

DENVER, Colo., Aug. 7. — The forcible ejection from Colorado by state rangers of William Z Foster, leader of the big steel strike two years ago and nationally known labor organizer was "for the best interests of the state," and no "law was consulted," Adjutant General Hamrock said today.

Foster, who was characterized as a "dangerous radical" by the adjutant general, was taken from a hotel here shortly after his arrival from Salt Lake City, placed in an automobile and secorted by the rangers to a town on the Kansas state line, Hamrock announced. Previously it had been reported he was placed on a train here.

The adjutant general said Foster first said he intended going on to Kansas City, where he was to address a labor meeting tonight, but later he said Foster declared he was going to Omaha.

When Sam Grows Up He'll Do Some Insisting, Too

REFINERS SAY THEY'RE LOSING

Gas Price Probe Is Started

By Associated Press.

WASHINGTON, Aug. 7.—Opening its inquiry into gasoline prices, the senate manufacturers committee was told today by R. L. Welch, secretary and counsel of the American Petroleum institute, that refiners in the United States as a whole had produced gasoline and other petroleum products at a loss since late in 1290. The recent declines in gasoline prices were attributed by the witnesses to reduction in crude oil values.

"The maintenance of the market in crudes," said Mr. Welch, "was due to an apprenhension that production in some of the Mexican fields was due for a rapid decline. However, the development of a series of important pools in the mid-continent field and in California has increased the current supply of crude to a point where in connection with the crude oil stocks on hand there is no longer any need for apprehension regarding a sufficient supply to meet present demands."

Supply Depends

Mr. Welch told the committee that "it seems reasonably apparent that the continuity of supply will be largely dependent upon the discovery of new and imporant pools."

Questioned as to further reasons for the decline in crude prices and the consequent drop in gasoline, Mr. Welch said that it appeared that the business judgment of the oil men together with a lack of storage facilities and employment of the financial resources combined to cause most purchasrs of the crude product to decline to buy.

Typhoon Toll Is Placed at 28,000

By Associated Press.

HONGKONG, Aug. 7.—The toll of the typhon of Aug. 2 at Swatow already has mounted to 28,000 dead. Coffins are lacking to provide decent burial for many and the bodies are being interred in gunny sacks. The new figures on lives lost which almost triples the previous estimates were contained in a circular issued today by the Hong Kong branch of the Swatow chamber of commerce.

LEAGUERS SWIM

Epworth leaguers were entertained at the lake swimming pool last night. The young people went out on an especially chartered street car and enjoyed water festivities until late in the night.

Texas Engineers Hear All About Irrigation Work

Special to The Record News.

AUSTIN, Texas, Aug. 7.—R. H. Thompson, engineer of the gigantic Wichita Falls water conservation and irrigation program, described it to the engineering conference of reclamation and conservation here today. He was praised by Chairman Dean T. U. Taylor of the university as having worked his way through the university, chosen to value Texas and other railroads, and chosen by the federal government to value all United States railroads. Julian Montgomery of Wichita Falls was chosen a delegate to the state conservation conference of the Texas chamber of commerce in Waco, Aug. 16.

Others here from Wichita Falls include J. E. Doyle, J. L. Lochridge and J. C. L. Howard.

Prominent Woman Called by Death

Special to The Record News.

BURKBURNETT, Aug. 7.—Mrs. Lola G. McGee, 25, wife of J. P. McGee, a high official of the Travis Refining company here, died today after a few days illness. Her body will be sent to Pork Springs, Texas, for burial tomorrow. She is survived by her husband and two small children.

Sleeper Burns

By Associated Press.

SEATTLE, Wash., Aug. 6.—The lives of 30 passengers were imperiled, one man was seriously injured and several other persons received cuts, burns and bruises when the rear sleeper on the westbound Columbian flyer on the Chicago, Milwaukee and St. Paul railroad was destroyed by fire early today near Rye, 130 miles east of Seattle.

CITY TO SLICE TAX RATE 11 CTS

Personal and Real Property Affected

A reduction of 11 cents from the tax rate in Wichita Falls last year will soon go into effect if ordinances 417, placed on first reading last night during a meeting of the city council, is passed finally.

The ordinance establishes the 1922 tax rate at $1.55 on the $100 valuation.

Attention was called to the fact that the ordinance places the city on record as producing the first and only tax reduction in this county, the county rate having been increased, while it is understood that the irrigation rate will be higher.

The tax rate which would be established through the ordinance affects $33,000,000 of personal and real property which is taxed in the city of Wichita Falls, it was explained.

Civic Improvement Fever Hits Graham

By Associated Press.

GRAHAM, Texas, August 7.—With the new addition to the water system completed and in operation, adding 500 gallons per minute more water to the city supply and with material on the ground for the extension of the street lighting system, Graham is well in a period of municipal improvement. Aside from the municipal improvements there is much general progress being made here. New homes are being built and altogether there is an atmosphere of prosperity.

Fatal Whisky Raid Starts Posse on Hunt for Negro

By Associated Press.

HUGO, Okla., Augus 7.—Posses augmented by additional volunteers today continued scouring Choctaw county in search of a young negro who is believed to have fired the bullets which yesterday killed prohibition agent, E. G. Wiggins, a member of a raiding party operating near Steer, 10 miles north of here, in a hunt for illicit whiskey stills.

B. H. Pendergrast, another federal agent, was dangerously wounded and Y. C. Reed, the negro's father, was killed in the exchange of shots which followed an attack upon the two officers as they approached Reed's house.

According to other members of the party who were separated from them at the time, the officers were within a few yards of the negro's shack when without warning they were met with a deadly revolver fire. Wiggins was killed instantly. Pendergraft, felled by the negro's shots, sent 10 bullets into Reed's body.

When he saw his father die, the younger Reed took to his heels in time to escape the remainder of the raiding party which was attracted to the scene by the firing.

VOTES TO RULE ON QUESTION HALTING PEACE

Harding's New Plan Finds Little Favor

By Associated Press.

CHICAGO, Aug. 7.—The United States railroad labor board expressed its willingness to act on the seniority question now at issue between the railroads and their striking shopmen, in resolution adopted at a meeting late tonight.

The resolution was adopted by a vote of five members of the board to one, A. O. Wharton, a labor representative, voting against it. The six members were all that were in the city when the meeting was called. Ben W. Hooper, chairman, presided. Those who attended were G. W. W. Hanger of the public group, Samuel Higgins, Horace Baker and J. H. Elliott of the railroad group, and Mr. Wharton and Mr. Hooper.

"BIG 4" WIRE MEN TAKE STRIKE VOTE

By Associated Press.

CINCINNATI, Ohio., Aug. 7.—Telegraphers numbering approximately 1,100 on the Big Four railroad are taking a strike vote following the breakdown in negotiations over the interpretation of working rules, it was announced tonight by the company in a statement to the Associated Press.

The company in its announcement stated that "when no agreement could be reached with the employes they offered to refer the matter to the railroad labor board for adjustment, as provided in the transportation act of 1921, but the union refused to take this action and strike ballots are now being taken.

NEW COAL PLAN WAITS FOR MEN

National Wage Basis Proposed

By Associated Press.

CLEVELAND, Aug. 7.—Settlement of the nationwide soft coal strike under a definite plan that may result in the making of wage agreements on substantially a national basis will be presented to a conference here Wednesday of coal operators, who are expected to come from all parts of the country, with officials of the union miners.

In the main the plan provides for resumption of coal production by union miners under the wage scales that existed when the strike began last April 1 and for the appointment of an advisory commission of inquiry within the coal industry, the personnel of this commission to be approved by President Harding.

Meeting Wednesday

Existence of the plan which has been approved by some operators scattered over the country became known today when union officials and operators, controlling about one-third of the output of the central competitive field, met both separately and jointly with a view of taking action toward breaking the coal strike. The joint conference here today adjourned until 8 p. m. Wednesday by which time it was announced officially that it was expected that "other substantial interests" would join in the meeting.

Katy Will Stay At Parsons

By Associated Press.

TOPEKA, Kan., Aug. 7.—Assurance that the Missouri, Kansas & Texas railroad has no intentions of moving its general offices from Parsons, Kan., to St. Louis, was given by W. W. Brown, general attorney for the railroad, who is here today for a conference with the state charter board relative to the issuing of a Kansas charter for the M. K. & T. company, a Missouri corporation. At a recent session on the Kansas charter application for issuance was held up pending reply to the inquiry as to a plan for removal of the company's general office from Parsons.

Germans Willing To Forsake Beer

By Associated Press.

BIELEFELD, Germany, August 7. The results of the first straw vote ever taken in Germany on the question of prohibition showed an overwhelming majority today in favor of the abolition of alcohol, as prescribed in the United States. This balloting was conducted in the first police precinct of Bielefeld and of 14,000 qualified voters, 12,626 voted for prohibition, 416 against and 1022 declined to vote.

Infant Dies

Vacilli Inez Bohrinis, the infant daughter of Mr. and Mrs. P. J. Bohrinis, 2014½ Seventh street, died at the home of her parents here yesterday after a brief illness. The funeral will be held from Sacred Heart church here today at 3 p. m., with Father George officiating. Interment will follow in Sacred Heart cemetery.

LAKE TO PUT ON FISH FRY

Big Day Planned for Thursday

They're going to have a big day out at Lake Wichita Thursday.

There'll be plenty of fish, coffee and bread.

It'll be served free of charge to guests at the lake on Thursday, according to Manager Walker of the swimming pool concession.

Walker says the concessionaires have gotten together to put over a real big day Thursday and already are placing orders for fish.

It is probable that the boy scouts band also will be on hand. A dance already is booked for the affair.

The entertainment will start at 6:30 o'clock.

MA BURDICK—

CONTINUED FROM P. 1

final agony approached, by the fevered brows she smoothed, and the messages she crooned into ears that soon would hear no more.

Now it is "Ma" Burdick, who is fighting for her life. Her frail body, not meant for the rough usages of war ,began to give way under the strain before the armistice was signed, but like the brave soldier she was, she carried on until the last shot had echoed across the Argonne woods.

Today, in Wichita Falls, she lies on a bed of pain, a casualty of the war. Now it is her brow that is fevered, and it is she that needs the kindly word of encouragement, and the stimulating thought of friendship and deeds that are not forgotten.

"Ma" Burdick, who helped write one of the most glorious pages in American history, sacrificed her health in doing it. She is without the money with which to seek the change of climate which doctors say is necessary if she is to recover.

But must she fight her battle alone?

Will You Help?

The Record News believes not. It cannot believe that her record of service during the war is forgotten. It cannot forget those poor, torn boys, whose passing she made less painful. It cannot forget that it was in the service of our boys that she sacrificed her strength.

And so the Record News has started the "Ma" Burdick fund. It is asking, not for charity, but for enough money to take "Ma" away for awhile, to some sunny spot, where she can get well. It is asking it, not in the name of the Record News, nor in the name of Wichita Falls, but in the name of those boys who turned back the German hordes. It is asking that we keep faith with those boys whom "Ma" Burdick helped, in their agony, who are sleeping beneath their wooden crosses, where poppies grow. The Record News is asking it, because it believes those boys whom she inspired, would want it done.

You have given to help fight, you have given to help the wounded, and now, you are being given one more opportunity to give in behalf of a woman who kept the spirit of America burning in the hearts of the American boys overseas.

Make your checks payable to the Record News' "Ma" Burdick fund, and mail or bring them in today.

KIWANIS CLUB SENDS $100.

Just at the conclusion of the Kiwanis meeting yesterday, several pathetic addresses in behalf of Ma Burdick of the Salvation Army, made by certain members of the club brought sympathetic palpitations to the hearts of the 35 men who sat around the banquet tables.

And as a result the club raised nearly $100, which will be sent direct to Ma Burdick at once.

Two Kiwanians contributed $12.50 each, the club gave $25 from its treasury, and a "money shower" was held at the door at adjournment which netted over $85.

It was announced all Kiwanians who were not present yesterday will be given an early opportunity to contribute to the "money shower," this causing the statement to be made that the fund will bbe around $100.

Illinois Troops Sent to Joliet

By Associated Press.

JOLIET, Ill., August 7.—A detachment of 250 men of the 132nd infantry, under command of Lieutenant Colonel Morris arrived here at 3:40 o'clock this afternoon for duty in the strike area where a pitched battle was fought this morning between striking shopmen, sehriff's deputies and railroad detectives in which two men were killed and Sheriff Newkirk of Will county was seriously wounded. The deatchment is armed with rifles and machine guns. They marched immediately to the Elgin, Joliet and eastern railroad yards.

Burk Man Hurt In Auto Wreck

Shortly after dark last night, a man giving his name as Nichol suffered severe injuries when his automobile was wrecked on the Burkburnett road several miles out of the city.

Nichol was hurried to a local hospital where an examination showed that no bones were broken and that he was only bruised and slightly cut.

He was resting easily at a late hour last night.

Obregon Ratifies Huerta Agreements

By Associated Press.

MEXICO CITY, August 7. — El Universal in an extra edition tonight says President Obregon this afternoon ratified the agreement entered into New York between Senor De La Huerta, secretary of the treasury and the international bankers.

The newspaper says that notice of the signing of the agreement was sent to Thomas W. LaMont of J. P. Morgan & Co., New York, and that the agreement now will be sent to congress for ratification.

Acording to El Universal, Senor De La Huerta confirmed the signing of the agreement by President Obregon.

SCHOOL DAYS —By Twig

BURK PAVING MOVING ALONG

Will Finish 1,500 Feet This Week

The south section of the Burkburnett paving project was finished yesterday afternoon, according to information received at the Potts & Prentice Construction Co.'s office.

The last lap of 460 feet on the south end of the road, opening the gap from Wichita Falls to Burkburnett, was completed in record time.

A total of approximately 1,500 feet, which it is believed will be finished this week, lies on the east side of Burkburnett, it was announced, the material at that end having given out and ceasing work for the present.

When the entire project is completed, the Burkburnett road will cover a paved course 15 miles long.

Harrison Blocked

By Associated Press.

WASHINGTON, Aug. 7. — The blocking of efforts to obtain immediate action on the Harrison sugar investigation resolution and an impassioned denial by Senator Smoot, republican, Utah, that he had proposed in a letter to Major General Crowder, American representative to Cuba, a reduction in the duty on sugar in return for the limitation of this years' Cuban sugar crop to 2,500,000 tons, marked senate consideration today of the sugar schedule of the tariff bill.

Senator Harrison twice sought to call up his resolution, but the first time objection was made by Senator Smoot, who then was waiting to address the senate, and later by Senator Curtis, Kansas, the republican "whip."

FERGUSON'S NAME GOES ON TICKET

By Associated Press.

DALLAS, Aug. 7.—By unanimous vote the state democratic executive committee today decided to certify the name of James E. Ferguson of Temple, to the county chairman, as one of the run-off candidates for the United States senate in the primary August 26.

POSSIBLY SO

Her Second Husband—No, I can't go out with you this evening. I have some work to do at the office.

Mrs. Pstinger — You've neglected me shamefully ever since we've been married. If my first husband was alive you wouldn't dare to treat me so.

RESOLUTIONS ADOPTED AT ENGINEERS' MEETING

By Associated Press.

AUSTIN, Texas, Aug. 7—Adoption of resolutions proposing plans for controlling flood waters of Texas and reclaiming the overflow lands of Texas was the result of the conference today of 157 engineers and those interested in flood prevention and land reclamation.

The conference lasted the entire day. It was called to order by Governor Neff and after he had explained his purpose in calling the conference, T. U. Taylor, dean of the engineering department of the University of Texas, was elected chairman.

Almost the entire day was devoted to addresses and talks by various engineers and representatives of similar associations.

Troops Called to Trouble Center

HARTSELLE, Ala., August 7.—Troop C, 100th infantry, Alabama national guard, entrained late today for Albany following reports of trouble there in connection with the railway strike.

Reports received here from Albany say that two negroes were shot and slightly wounded in Albany today, but no details are available. The troops were ordered to Albany by Governor Kilby. Captain R. A. Burleson is in command.

RESORT ROAD TO BE BUILT

Burk Chamber Joins Oklahoma Project

Work on the Lawton road in Oklahoma from the toll bridge north for a distance of one and a half mile through the sand flat, will be started right away. The road is to be built of clay and with the concrete road to the bridge soon to be completed there will then be good road all the way to Medicine Park.

The Burkburnett chamber of commerce is to pay one-third of the cost of building the road across the deep sand in Oklahoma and the remaining two-thirds will be paid by Cotton county, Oklahoma, and the toll bridge company. The work is to be completed before the cotton season comes on.

Many automobilits who have made the trip to Medicine Park, Lawton, and other points recently have hesitated in making a second trip because of the bad piece of road that is to be repaired. When the concrete road is completed through Burkburnett to the river and the strip of valley road beyond the bridge completed, Medicine Park will be within two hours of Wichita Falls by automobile.

MAINLY ABOUT PEOPLE

(Continued from page 1)

buyers or the farmer will receive from the home consumer a price far below the cost of production. And why all this talk of protection for American labor. All the steel kings are fighting organized labor.

All the textile manufacturers of New England are fighting organized labor. Many of the rail executives are fighting organized labor. All demand that their employes shall accept wage reduction and longer work days. If labor is to be protected by tariff legislation why is it that the beneficiaries of the pending bill are more hostile to labor than all other employers of labor in the United States? It is a fine old bunco game that some of these republican congressional leaders are playing.

THEY ARE TELLING THE American people that they can make them prosperous by increasing their taxes and make them happy by advancing the price costs of all the goods and wares that the American consumer must buy. Bunk appears to be the great god of American politics.

There is a pathetic side to it. A vast number of people fall for the bunk until they have been trimmed to the bone and their pocket books made as flat as a pancake and then they run amuck again and swallow more bunk headed to them by demagogues who have new quack remedies for their real or fancied ills. It is all right for the people to read but unless they think as well as read, they will get nowhere. They are ever the victims of the Hungry Joes of politics and the original Hungry Joe in his halycon days was the king of all the bunco men of New York and turned a new trick every time he turned around.

TEN MILLION MORE GALLONS of crude oil was exported during the month of June than went abroad during the same month a year ago. American dealers exported 24,214,000 gallons. During the year they exported 379,000,000 gallons. What has this to do with the price of Mexican crude?

SENATOR HEFLIN OF ALAbama says interest of 8½ per cent was charged a small Alabama bank by the Atlanta federal reserve bank in 1920. That small bank sure needed money. Why go to Alabama? Judge George W. Armstrong of Fort Worth has a column of interest figures that would make those of Heflin look like the calculations of a piker.

Klan Trial Opens

By Associated Press.

LOS ANGELES Aug. 7. — The examination of talesmen in the trial of 37 persons who are elleged to have participated in a ku klux klan raid at Inglewood, a suburb, last April, in which one man was killed, proceeded slowly today in superior court, both defense and prosecution attorneys propounding numerous questions on the subject of prejudice for or against the klan to each person called.

Seven women were among the first 12 persons called to the box and none had been challenged when adjournment was taken for the day.

3 FIRES AT VERNON

VERNON, Texas, Aug. 7.—Only three blazes, all of them coming on the last Saturday in the month, marked activities during July of the local fire department. None was of great consequence. Vernon possesses an excellent system of fire inspection that have restrained losses from this source to a minimum.

CLARA OPPOSES 50-CT. RAISE

Residents Appear Before Commission

Much opposition to the raise of 50 cents on the $100 valuation recently made at Clara, school district No. 9, was expressed by a large body of Clara residents who appeared before the county commissioners yesterday afternoon during their regular weekly meeting.

The tax rate in the special school district was raised June 22 of this year to 100 cents on the $100 valuation, through a special election ordered by Judge J. P. Jones, the opposing faction contended, this election having been authorized after a petition bearing numerous signatures had been presented to the judge.

The residents present yesterday contended that the petition calling for the election had not represented 95 per cent of the property holders, who, they claimed, had not been aware of the election, which carried.

It was further contended that the 50 cent rate gave the district $11,280.40, to which $5,000 had been added through state aid in 1921, and that approximately the same fund could be obtained for the 1922 term of school.

The court informed the body of citizens that they were powerless and could take no action in the matter, as such questions could only be settled by the school trustees of the district and by the county superintendent, Burl Bryant. When this had become known, the committee announced their intention of holding a special protest meeting Wednesday evening with the proper authorities, with the intention of blocking the tax if possible.

Allied Meet Opens

By Associated Press.

LONDON, Aug. 6.—Allied statesmen are gathering in London tonight for the opening tomorrow of what seems universally regarded as the most momentous conference since jeace was concluded.

The immediate concern of the conference is the question of reparations and Germany's request for a moratorium, but since the delivery last week of the note of the Earl of Balfour, it is presumed that the question of inter-allied indebtedness cannot be excluded from the discussions, especially as Premier Poincare is credited with bringing to London a plan for the extinction of the German reparations bonds in exchage for a cancellatio of the Frech debt to Great Britain.

Mayfield Raps Brewers' Association

Special to the Record News.

WAXAHACHIE, Texas, Aug. 7—Earle B. Mayfield, candidate for the United States senate, tonight scored what he termed attempts of his opponent and the American Brewers association to break down enforcement of national and state prohibition laws through attacks on the constitution and laws of the nation. Railroad Commissioner Mayfield, who led his opponent, ex-Governor James E. Ferguson, by more than 40,000 votes in the first primary, declared that he will continue to submit the issues of the second primary campaign, prohibition and lower freight rates, and will not get down into the mud of personalities.

No Action Taken on 11th St. Paving

Although the Eleventh street paving question was brought to the attention of the city council by property holders living on that thoroughfare, no action was taken by the commissioners relative to early pavement of that street.

Mayor Frank Collier informed those who appeared before the council that the paving of Eleventh is indefinite, and that it will be several weeks or possibly months before the city can begin to formulate plans for the project. Financial conditions of the city, it was explained, call for cautious expenditures at this time.

BUILDING CODE URGED BY CHIEF

McClure Seeks Cut in Key Rate

Urging that Wichita Falls take some action looking toward the decrease in fire key rate of insurance, "Dad" McClure, chief of the fire department appeared before the city council last night and suggested that the invitation of the state fire inspector to this city would possibly result in a small decrease.

Although Chief McClure urged that the city put into practice here a building code, the council took no action on this matter, and left it open for future discussion.

The chief explained that one of the local fire boys can be appointed fire inspector with the result that a 5-cent reduction in key rate would be obtained.

Prior to adjournment, the commissioners voted to invite a state fire inspector to this city for the purpose of investigating the old stand pipe located at Eleventh and Burnett, which the local chief wishes to have placed out of use.

Bankers to Pen

By Associated Press.

MOBERLY, Aug. 7.—Walter Bundridge, former president and his brother, Verne Bundridge, former cashier of the Defunct Farmers and Merchants Bank here, pleaded guilty this afternoon to embezzlement of $100,000 from the bank and were sentenced to ten and five years respectively in the penitentiary.

COUNTY DROPS TWO OFFICERS

Hawkins and Reeves Let Out

Through an order issued by the county commissioners during their regular session yesterday, had in the absence of Judge J. P. Jones, who is on his vacation, two motor officers retained on the budget operated for that purpose will be released from service on August 15.

The officers, George Hawkins and Swan Reeves, have both been in the employ of the county for a considerable length of time and both are officers with long records of services in various official capacities.

Several motor officers, it was learned, will still be on the highways, despite the reduction ordered by the commissioners, these men being in the departments headed by Sheriff Fred K. Smith and Constable Frank Morgan.

CITY CAN'T OUTLINE LIMITS FOR SIGNS

Appearing before the city council during their regular session last night, a representative of the White Sign company was informed by the commissioners that they were not able to insure the company that no others would be granted permission to erect sign posts near the White signs.

Th council told the representative that he could get better results along that line by placing his proposals before either the chamber of commerce or the merchants' association.

The White Sign company, it was anounced recently, will post all the routes out of Wichita Falls to outlying territory in this county.

OFF TO CALIFORNIA

H. N. Roberts, traffic manager of the W. F. & S., accompanied his wife and Mrs. C. A. Wilson to Amarillo last night, where the two ladies will depart for Los Angeles, Cal.

Mrs. Roberts and Mrs. Wilson will be out of the city for a period of about six weeks.

Heavy Downpour Would Materially Help the Oil Industry

SOUTH ELECTRA IS SUFFERING

Water Supply Runs Low in Heat

Unless there are good rains immediately, the oil fields will have incentive for shut down, in addition to the lower price, reports from the various pools of the county and district showing water shortage that grows increasingly serious with each successive day of hot dry weather.

Several shut downs were reported from South Electra on Monday when the water lines shout off connections. Refineries in the field are also reported suffering from a lack of water.

Oklahoma Men to Curtail Production

An informal meeting of oil producers of Oklahoma was held at the offices of the Mid-Continent Oil & Gas association at which the present condition in the oil producing industry of the mid-continent field was discussed and the following resolution was passed:

"Whereas, the conditions in the oil producing industry are such that oil is being produced at an economic waste, and,

"Whereas, the producers themselves have no adequate storage or transportation facilities with which to conserve the oil until an available market be afforded:

"Now, therefore, be it resolved, by this meeting of producers that a general meeting of oil producers of the mid-continent field be held in Tulsa on August 12 for the purpose of determining the consensus of opinion with reference to shutting down unnecessary and wasteful drilling and building lease storage to take care of the oil.

(Signed) C. T. Wilson, W. H. Gray, Frank Tack, Bert Gutelius, P. G. Walker, Burt Collins, John Griffin, H. N. Cole, W. G. Skelly, C. J. Wrightsman, J. J. Shea, John R. Hadley."

FRENCH CUT DOWN ON OIL IMPORTS

WASHINGTON, Aug. 7.—During the first four months of 1922 French imports of petroleum products show a marked increase over the corresponding period of 1921, and in some items exceed the imports for the same period of 1920, says the current issue of "Commerce Reports." Kerosene imports were 48 percent greater than the corresponding 1921 figure, although still somewhat less than that for 1920. Imports of esences (gasoline, etc.) were about 160,000 gallons, or 57 per cent greater than the corresponding 1921 receipts, and about 3 per cent above the 1920 figure.

Mexia Field Now Being Investigated

Special to the Record News.

WASHINGTON, Aug. 7. — An area which includes about 110 wells in the Mexia (Texas) oil field is under investigation by the United States bureau of mines. A complete series of "sand" sections is in the process of construction, and this is expected to aid materially in the work of excluding water.

It has been found that, contrary to the opinion of some of the operators, considerable salt water exists above the woodbine oil sand. A sample was secured from a depth of 1,050 feet from a gas well and was sent to the Bartlesville (Okla.) experimental station for analysis. There have already been made a few analyses of water in production and on surface water. The samples of the latter run less than 600 parts per million total solids, while the waters associated with the oil formation run from 25,000 to 40,000 parts per million.

The results of the above-mentioned sample will probably indicate the value of water analyses for distinguishing top and lower waters. The bureau of mines has called the attention of operators to the importance of accurate production records, fluid level data, the use of water analyses, etc., as well as to the need of effectively abandoning wells and to the harm of continued swabbing for production.

Rates From Burk Found Unreasonable

Special to the Record News

WASHINGTON, August 7—Rates on crude petroleum in tank car loads, from the Burkburnett and Ranger groups in Texas, and the Shreveport group in Louisiana, to Wilson and Healdton, Okla., were found unreasonable and unduly prejudicial in a decision by the interstate commerce commission today in the case of the Nyanza Refining company vs. the Atchison, Topeka and Santa Fe railroad, et al.

The commission gave the railroads until September 30 to put into effect rates from these two groups to Wilson and Healdton the same as maintained in group 6, plus two and a half cents per hundred pounds.

Orient Must Run

CHILLICOTHE, Texas, Aug. 7—Special to the Record News.

Hon. Clarence E. Gilmore, member of the Texas railroad commission, was here yesterday to meet the Orient officials, who are making an inspection of same. He says the Orient must continue to run as it traverses one of the best agricultural countries in the state.

MEXICAN REDUCTIONS CAUSE SALARY DROP

WASHINGTON, Aug. 7—Recent reduction in Mexican petroleum has caused a decrease of revenue to the Mexican federal government and has resulted indirectly in a cut of from 5 to 15 percent in salaries of government employes. Oil exports from the gulf ports of Mexico during the month of June, 1922, were 16,976,000 barrels as against 18,598,000 barrels for May.

WEDLOCKED —By Leo

Pure Oil Average Is 34,708 Daily For Crude Output

Production of Pure Oil-Humphreys interest in the Mexia-Texas oil field was 32,543 barrels on August 1. During the 10-day period from July 22 to 31, inclusive, the crude oil output of these properties amounted to 347,080 barrels, an average of 34,708 barrels a day.

Pure Oil-Humphreys wells have proved the structure advantages of their locations by being untouched by salt water. These producing properties are high on structure, while salt water has encroached only on wells that are down structure and off proven big yield formations.

Wells of the Pure Oil-Humphreys interest in the Currie field north of Mexia are making over 6,000 barrels a day. This pool is showing better producers than early completions promised.

The Humphreys Pure Oil Pipe Line company has extended its lines to Currie and is moving this oil to its gulf coast terminal.

Half the production of these properties is being handled by the Pure Oil company, being moved from Smiths Bluff on the gulf to the company's Marcus Hook, Pa., refinery by tankers.

He Feels Fine After Drinking Alcohol

Will denatured alcohol that is labeled "poison" kill a human being?

That is the question corporate court officials were asking themselves yesterday morning when a man charged with drinking almost a pint of the liquid appeared before Judge Marrs to answer a charge of being drunk.

Apparently it will not. For the defendant stood there, declared that he felt "O. K." and even refuted the idea that he might have had a headache.

"I got drunk because they cut my salary, judge," he told the court, to which the latter replied: "Well, you didn't hurt anyone but yourself, and it will cost you $10."

And so it did.

Wash Hunt to Miss Ethel McCalmmons, both of Wichita Falls.

A. E. Hill to Miss Mimmia Montgomery, both of Wichita Falls.

Clyde Green of Burkburnett to Miss Ruby Harper of Oklaunion.

Ben Givens to Mrs. Dona Gobble, both of Burkburnett.

C. J. Smith to Miss Genette Moore, both of Wichita Falls.

PANHANDLE TO GO ON DEEPER

Fail to Get Oil at 1,830 Test

Testing of the 1830 foot sand failing to show oil, the Panhandle Refining company's No. 1 Waggoner, section 27, is drilling deeper, for the 1900 foot sand.

The No. 1 of Hockaday and Shaw, in section 34, east of the Grisham, McCallister and Brown 1600 foot producer, is drilling deeper from 1430 feet, this sand also failing to show production.

In section 29, the No. 1 of the Sure Oil company has been abandoned as dry, below 2,000 feet.

NEWS NOTES OF CHILLICOTHE

Brief Paragraphs of Names and Events

Special to The Record News.

CHILLICOTHE, Texas, July 7.—Clifford Casey and two sisters of Abilene are guests in the J. B. Mulkey home.

Miss Annabel Moore is visiting friends in Childress.

Miss Alice Mulkey has returned from a visit with friends in Childress.

Mrs. J. B. Bishop has returned from an extended visit to relatives in El Dorado, Okla.

L. K. McDonald and wife left Monday for a vacation in Colorado.

Shady Hale and wife of Wichita Falls visited friendd here this week.

J. B. Jones of Durant, Okla., arrived here last week and has assumed charge of the business formally conducted by the White Produce Co.

More than 1,000 people from Chillicothe attended the opening of Lake Pauline Monday.

W. E. Williams was transacting business in Wichita Falls Wednesday.

Miss Lisie Ray Hansard left Monday morning for Oklahoma City, where she will visit Mr. and Mrs. Walter Gwnaley.

Misses Ruby Milstead and Louetta Davis of Acme visited Misses Ruby Milstead and Elois Hansard Sunday and Monday.

Jack Craig and wife will move this week to Altus, Okla., where he will keep books for the William Cameron Lumber company.

Robert Jackson attended the republican county convention at Quanah last Saturday.

L. W. Alred was a business visitor to Quanah Saturday and also attended the democratic county convention.

The Baptists gave an ice cream social Monday night at the church and more thann five hundred attended.

Maurice Allensworth and family will leave soon for Colorado Springs to spend their vacation.

John Heilhicker who has been spending his vacation in Yellowstone national park is expected home this week.

T. V. Touchstone and C. E. Carlock were in Wichita Falls on business Tuesday.

Brann and Carl Garner returned last Friday from east Texas where they visited relatives and friends for two weeks.

Jack Nuckles was attending court in Paducah Saturday. He drove home in two hours in order to see the ball game.

J. D. Ferguson of Vernon was here Monday enroute to Crowell to be at the bedside of a sick relative.

Employment Still Improves in Texas

Special to the Record News.

WASHINGTON, Aug. 7. — Employment conditions in Texas which have been steadily improving for several months have suffered a check and employment has diminished, the department of labor announced today.

Agricultural work has considerably declined and acttivities in several oil producing centers curtailed. Refineries, however, have slight additions. Controversies in railroad occupations have increased idleness. Contrary to these conditions, food products continue to gain and metal working concerns and lumber mills are nearly normal. Building, both dwellings and heavy construction, continues brisk and employs the majority of these craftsmen. A moderate demand for common labor exists on public improvements.

GASSER AT BOWIE EXPECTED TO FLOW

BOWIE, Texas, Aug. 7.—A big gasser is expected from the Bowie Oil and Gas company's No. 1 oBedeker, about four miles west of here. A heavy gas pressure has been encountered at 1,561 feet after 40 feet of sand was drilled into. An eight-inch casing will be set.

100-BARR... WELL BY COLUMBIA IN

A hundred barrel well has been completed by the Columbia Petroleum corporation in the South Burk Texhoma field. The new well is the No. 12 on the Judson-Dodson lease, and is in the thousand foot sand.

Production Still Up in Oklahoma

Special to the Record News.

OKLAHOMA CITY, Okla., Aug. 7.—One district in Oklahoma has shown a decline in production, that being the Bristow district. Other fields have just about held their own, despite the fact that there is an effort to curtail production by a restriction of drilling operations at this time. Oklahoma averaged 410,000 barrels daily during the week, and Kansas jumped to 87,000 by virtue of the completion of almost 40 wells during the week ended July 29. These figures show that there is still a great task ahead before the oil business is stabilized.

The meeting of oil men scheduled to be held in Tulsa, Aug. 12, to outline a plan to meet the emergency of reducing production is expected to have a large attendance.

Every operator in the mid-continent district is asked to be on hand, because conditions are far more serious than is generally realized and there is no need bumping along with oil selling for low prices for several months, when a little common sense co-operation for a short period will make it sell still higher.

Production of the two states, by fields, follows:

Oklahoma	Barrels
Cushing	25,000
Healdton	19,500
Hewitt	28,000
Burbank	75,000
Lyons-Quinn	19,500
Other fields	243,000
Total	410,000

Kansas	Barrels
El Dorado	44,500
Augusta	22,000
Other fields	21,000
Total	87,000

USE A MAC-DRY BATTERY AND FORGET IT—Adv.

No Big Oil or Gas Wells Likely In Madill-Denison Territory

Special to The Record News.

WASHINGTON, Aug. 7.—The geological survey has just issued a bulletin on the oil and gas possibilities of the Madill-Denison area of Texas and Oklahoma.

Oil seepages near Madill, Marshall county, Oklahoma, led to the discovery and development many years ago of a small pool east of that town. The oil is remarkable for its high grade—about 47.5 baume, much lighter than the average crude oil from the pools of Oklahoma—and it is, therefore, more valuable. The discovery naturally stimulated the search for oil in that region, and companies have therefore made great expenditures in persistently prospecting parts of Marshall and Bryan counties, Okla., and Fannin and Grayson counties, Texas. These expenditures have resulted in the discovery of only one small gas pool, known as the Enos field, in southern Marshall county, Oklahoma.

Work done by the United States geological survey, department of the interior, revealed the presence of three distinct anticlinal folds, which they called the Preston anticline, the Madill anticline, and the Leonard-Celeste monoclinal nose. A short description of these features was given in the Survey's Professional Paper 120, published in 1919, but detailed consideration of the conditions that may affect the production of oil had not been completed at the time that paper was published. In a report entitled "The Structure of the Madill-Denison area, Oklahoma and Texas, with notes on Oil and Gas Development," by O. B. Hopkins, Sidney Powers, and M. H. Robinson, recently published as the Survey's Bulletin 736-A, the prospects for oil in the region are considered in detail.

According to this bulletin the formations most likely to yield oil in the Madill-Denison area are the Woodbine and the Trinity sandstones, of Cretaceous age. The Trinity is the oil and gas bearing formation of the Madill and Enos pools. However, there is apparently little prospect thta very productive wells will be obtained. Gas wells of a maximum daily volume of 5,000,000 cubic feet or oil wells of a maximum initial production of 20 barrels are about the best thta may be expected from the Trinity and Woodbine formations on the Preston anticline. Farther south, on the Leonard-Celeste monoclinal nose, if oil is found at all, it is not unreasonable to hope for wells of greater yield, but this gently arched plunging anticline does not offer particularly favorable structural conditions for the accumulation of oil or gas.

The possibility that oil or gas may be obtained from the Carboniferous formations below the Cretaceous is indicated by showings obtained in at least two of the deep wells that have been drilled within a few miles of the Madill oil pool. These deep wells, however, in spite of their showings of oil and gas, offer little encouragement, for the well records do not indicate that they penetrated sands that would hold much oil.

$50 AT RATE OF $2 MINUTE HIS RECORD

WICHITA, Kan., August 7.—Al Rupple, an oil driller of Wichita, made $50 at the rate of about $2 a minute recently. After four days' fruitless fishing for a lost bit in a 60-foot hole, he proposed that he be lowered into the hole and adjust the clamps over the end of the bit. Bert Frost, the drill foreman, agreed to the $50 stipend and Rupple turned the trick.

The Bank and You

Your success in business and ours in banking are, of course, closely related.

To assure the best results from the efforts of either business house or bank, consistent co-operation between the two is esesntial.

It is this spirit of co-operation with Wichita Falls and West Texas business interests for thirty years that has brought this institution thousands of accounts.

The City National Bank of Commerce not only works WITH but FOR its customers.

Come to the Texas-Oklahoma Fair at Wichita Falls, September 30 to October 4.

STATE ECONOMY

COMMISSIONER OF AGRICULTURE George B. Terrell favors consolidation of the marketing and warehouse department with the agricultural department. There are other departments that he would consolidate with his own or legislate out of existence. There is going to be a demand for this on the part of many delegates who will be in attendance upon the state convention in San Antonio September 5. Commissioner Terrell, being a dirt farmer, has views of his own. There are other farmers who kick up the dirt or dust occasionally who are not in harmony with his program. It is announced that the state tax rate is going to be jumped to the limit this year.

Texas taxes will be higher and not lower. Jones, the freight payer, cannot escape. However, his financial condition has vastly improved since 1921. Crops have been bountiful. There may be three million five hundred thousand bales of Texas cotton picked and ginned and marketed. This should bring a lot of new money into the state. Cotton is not like petroleum. There are thousands of cotton growers. There are only a few hundred oil producers. If cotton sells for a fair price it places money in the pockets of thousands. They pay their merchants and their bankers and they deposit in the banks their surplus money. This makes money easy and the interest rate lower.

There are uplifters who are clamoring for the lawmakers to appropriate millions of dollars for this or that purpose. Those who are in charge of the state government cannot pay out more than they take in. If they go beyond the sums appropriated then the state becomes a debtor if it borrows money and Jones holds the bag. He is the state. He pays. There are a vast number of professional uplifters in Texas and elsewhere who are forever clamoring for the creation of new departments of government and new jobs and for the lawmakers to make fat appropriations for their support and maintenance. Why don't they go to work like the balance of the human family and keep their beaks out of the public feed trough?

MILAM'S PLATFORM

DEMOCRATS of Milam county indorsed the administration of Governor Neff and commended him for his vigorous enforcement of the law. These democrats of Milam did not stop with that. They denounced mob violence under any and all circumstances and declared that no man or woman in Milam county "shall be subject to punishment except in conviction for crime, charged by indictment, duly presented or information based on proper affidavit duly filed in a court having jurisdiction of the offense and after a public and orderly trial before an impartial jury in which guilt is established in accordance with law and such punishment shall be administered in a lawful way only by the officer charged with that duty."

This was the democracy that Thomas Jefferson taught but it is a $100 to $1 proposition that a lawyer drafted the resolutions adopted by the Milam county democrats. No layman could have performed the job and only a lawyer could have or would have jammed eighty-four words into one sentence. More power to him. Flowers for the living.

"SEW-UPS" ARE PAST

JUDGE PLEASANT A. TURNER, now serving as judge of the criminal district court of Bowie county, will be a member of the senate of the thirty-eighth legislature. He is a noted lawyer of Texarkana and has made his home in that city almost forty years. His nomination for state senator over R. P. Dorrough was one of the surprises of the July 22 primary. Dorrough is a youngster of 42 and thought all along that he had the nomination sewed up. Judge Turner is a youngster of 72. He declined to become a candidate for re-election to the judgeship and notified the democrats of the first senatorial district that the state would need him as a lawmaker for two years. Dorrough and his friends laughed. They looked upon his candidacy as a joke. Well, it wasn't. The judge went over by a safe majority and next winter he will be a strenuous champion of the law enforcement program to be submitted by Governor Neff. Whenever a candidate thinks he has an office sewed up in Texas or any other American state in these sensational days, he is fooling himself. It can't be done. Now that the people have the direct primary they play the devil with the hopes of the sewer-ups on primary election day.

FROM A SEAT IN THE GALLERY

By Herbert Corey

ANY administration works in a mysterious way its wonders to perform. Cynics say some administrations are worked in a mysterious way. For each administrative ectoplasm that can be seen and handled half a dozen mediums throw heavy fits behind the dark curtain.

That introduction should command the intelligent interest of the proletariat, what?

As this is written President Harding has just issued the statement in which he told Governor Sproul of Pennsylvania that he may "expect the selection of a commission" which shall bring to a just end the coal dispute. And here is a sidelight on the manner in which that statement came to be issued. Senator George Wharton Pepper of Pennsylvania was talking with a group of newspapermen:

"This is my reaction to the coal trouble," said Senator Pepper. "It is as though two householders in a village were to quarrel, to the great disturbance of the village. When they were asked to take their fuss before a magistrate they refuse. I think the community has the right to enforce a settlement."

The newspapermen looked, as always, intelligent:

"What do you think of supporting the president's hand by the publication of interviews from—say—100 eminent citizens throughout the country? We know that he favors an inquiry and arbitration."

The newspaper men didn't think anything of the idea:

"Eminent citizens attract more attention from a city editor than from the rest of the world," they said. "The public is cold to eminent citizens. City editors pepper all public stews with interviews from eminent citizens. They rarely represent anything. Why don't you ask the governors to talk?"

So Senator George Wharton Pepper got on the wire to Governor Sproul of Pennsylvania and he communicated with twenty-seven other interested governors and they communicated with the white house. Then President Harding, somewhat gratefully surprised by the twenty-eight hands under his elbow, for he had not expected nor solicited them, issued his statement. But the play was recorded thus:

Anonymous to Pepper to Sproul.

IS THERE A COTTON SEED TRUST

ATTORNEY GENERAL FRED B. KEELING has filed in the twenty-sixth district court a motion to require Swift & Co. to sell their oil mills owned in Texas which ownership by decree of the court in 1916 was held to be in violation of the anti-trust laws of the state. These oil mills were placed in trusteeship at the time of the judgment and the attorney general says that they have had ample time to sell them. He asks that the mills be sold and the matter closed in the courts of Texas. Lest we forget, in 1916, former Attorney General Ben F. Looney decided that there was a cotton seed trust in Texas and that the cotton growers were at the mercy of the trust. He launched a campaign against the so-called trust and the result was a plea of guilty and the mills were placed in the hands of three trustees.

It was claimed by the attorney general that the trust divided the cotton belt of Texas into zones, arbitrarily fixed the price of seed and the farmer could take it or leave it. If he carried his seed, beyond the borders of his zone, he was told by the buyer that the thing for him to do was to return to his own neighborhood or territory and accept the price tendered him in the first place. All this is alleged to have taken place in the good old days. Now Attorney General Keeling is on the road again, and he asks that the oil mills shall be sold. Has he discovered another cotton seed trust? Is there another price-fixing combination in the field?

Governor Neff has been invited to inspect a proposed site for the penitentiary at Marble Falls. Of course the governor should be provided with plenty of work. He hasn't much on his hands at present. Is it the intention of the author of the penitentiary relocation law to move the penitentiary to the new site before the coming of the Christmas holidays? If so, just why the rush?

A Pacific coast editor says "A scab is a hero." Dead or alive?

Rippling Rhymes

BEDTIME STORY.

"Oh, grandad, ere we hit the hay, tell us a tale," said little Jay. And Peterkin and Abigail insisted that I tell a tale. "Today," I said, "you had a trip in my new car, and saw it zip at giddy speed along the lea, until a speed cop climbed on me. But you're so used to wondrous things, you calloused modern kids, by jings, the finest car that ever was can't move you to a mild applause. When I was young, aged six or five, my grandad took me for a drive; he doubtless hoped I might indorse the animal he called a horse; it was a tall, ungainly beast, and had four shambling legs, at least; it had no place for oil and gas, but burned up oats and hay and grass; and when all sweated up and warm, it drew the flies, in mighty swarm, and it grew rather peeved thereat, and kicked a hole through grandus seven miles an hour." "It's seventy no doubt you dad's hat. It put in all its pep and power, and took mean," said Peterkin; "you're off your bean." "'Twas seven miles an hour, by gum; we thought that we were going some; and grandad, he looked down at me, and I looked up to him in glee: 'Now, this is speed!' I heard him call—" "Your story is no good at all," said Peterkin and little Jay; "we don't believe a word you say; a man might drive a horse, indeed, but who would say a word of speed when hitting up so punk a gait? We'll go to bed; it's getting late."

LESSON NO. 37
The Vacuum Tube Detector

In contrast to the crystal type of detector the vacuum tube offers marked advantages. The crystal requires careful adjustment in order to receive signals of maximum strength and the adjustment lacks the stability which the vacuum tube affords. For receiving the highly specialized broadcasting features, transmitted on a wave length of 360 meters, the crystal type of detector offers a limited range. Local conditions have considerable bearing on results obtained from the crystal detector but it may be said in general that it affords a satisfactory means of signal reception within a radius of from 5 to 25 miles.

The vacuum tube detector, on the other hand, offers the distinct advantage of increased range, intensified signals and stability of adjustment. Just as in the case of the crystal detector, local conditions influence the range of reception but in general the substitution of a single vacuum tube as a detector in place of the crystal may result in the reception of signals within a range of from ten to one hundred miles.

A simple form of vacuum tube receiving circuit is shown in the following diagram.

In this diagram the open circuit may be made to conform to the radiated wave by adjustment of the primary (L-1) of the receiving transformer and by the short wave condenser (C-1). The secondary (L-2) of the receiving transformer is adjustable in steps and for intermediate wave lengths, tuning is secured by means of the variable condenser (C-2.)

In this receiving circuit the crystal detector is replaced by the vacuum tube (VT). To secure proper operation of the vacuum tube, two external sources of energy are necessary; namely, the "A" and "B" batteries. The "A" battery has a potential of six volts and may be obtained in cape cities varying from 36 to 100 ampere hours. The "B" battery provides a potential of from 18 to 22 and one-half volts with a current flow of small amperage. The "A" battery supplies the necessary current for heating the filament, the amount of current being controlled by a small adjustable resistance connected in series. Heating of the filament causes the emission of electrons or small charges of negatives electricity from the filament. Careful regulation of the amount of current flowing through the filament will prevent it from being burned out or having its normal length of life considerably reduced. The amount of current differs for various types of tubes and has a range from 0.2 to 1.5 amperes, the propert amount being recorded on the container in which the tube is purchased.

The plate current is provided by the "B" battery, a storage of dry battery with a potential usually of 22.5 volts. The positive terminal of the battery is connected to the plate, as shown, the current flowing from plate to filament through the tube and thence through the receiving telephones to the negative side of the battery.

When the open and closed circuits of this type of receiver are properly tuned to the transmitter, the energy of of the radio-frequent oscillations of the radiated wave is rectified by the vacuum tube into uni-directional pulsations which are rendered audible in the receiving telephones.

The valuable rectifying properties of the vacuum tube will be further explained in lessons to follow.

The Once Over

1922 AT THE SUMMER RESORTS

NEWPORT—Commodore T. Toddle Tishtush, yachtsman, soap magnate, arrived here today on his certified steel yacht Hiccough III. He was accompanied by Mrs. Tishtush, though not on speaking terms with her. The commodore caused some consternation by stepping from his cabin directly into the harbor and attempting to walk ashore. Two deckhands rescued him, took his bottle away, and put him back to bed. The Hiccough III is one of the finest yachts ever put into Newport. It makes twenty knots an hour. The commodore makes twenty quarts an hour.

The regatta committee today completed plans for the 100-yard dash for sloops, schooners, cutters and yawls to be held next Tuesday. Great sport is expected. In the event enough newspaper photographers are not on hand the event will be postponed twenty-four hours.

A sack race for cabin cruisers, obstacle race for steel steam yachts, and button-button-who's-got-the-case goods chase for revenue boats will be added attractions.

The New York yacht club made its annual cruise here today, closely followed by the prohibition enforcement fleet.

Countess Dolores dePosit deCanter, famous French beauty, spent yesterday at the Loafalotte Country club. She wore a gown of black silk netting over very little. Every male member of the club was present for the first time this summer. They held a special meeting in the grill later and passed resolutions urging America to cancel the French debt.

Mrs. Carroll Sillydame, wife of the American minister to the Scilly Islands, entertained the Swiss minister and his Algerian bride in her Italian gardens Wednesday. Mrs. Sillydame speaks Swiss as well as she does English—better, in fact.

The committee on admissions to Bailey's Beach is still considering the application of several newcomers to Newport who would like to bathe there Mondays and Fridays. Miss Adenoidia Agate, who gave a coming out party yesterday wil llollow it up with a going in party tomorrow if the tide is right.

Richard L. T. Saulsbury Chilblains husband of the Duchess de Natured, came down for a moonlight swim last evening, fell asleep on the beach and was carried out by the tide. The duchess has requested that no search be made for him.

The favors at the lawn fete to be given by Mrs. Ritz-Ritz Rugged for the purpose of buying silk stocking for starving Slavs will be sterling silver corkscrews.

LENOX, Mass.—Mortimer Fish and wife have arrived at their estate here accompanied by the corespondents who will be mentioned in their coming suits for a separation.

Percival R. E. Puddindome, whose father died and left him the Puddindome department store interests last year, has opened his summer home here. He looks as dumb as ever.

Seventy-four members of the Lenox Salad Culture club were entertained at the villa of the Countess de Dodo on Friday. Miss Mabel Oatmeal and Miss Millicent Shadroe poured. During the afternoon the countess showed her guests her full-blooded chow dogs and husband.

ATLANTIC CITY—Mr. and Mrs. Abe Fordinsky are stopping at the Super-Palace with their twelve children and all of Mrs. Fordinsky's relatives. They have a wonderful room.

New traffic regulations were announced for the beach during bathing hours. Semaphores will control the movements of all bathers; red semaphores permitting bathers to go into the water and white semaphores restricting the movement to coming out. The Crowden Baths has made a hit by equipping bathers with bumpers, front and rear.

The sand artist who makes one set of figures last the entire season is still reaping about $1,000 a day from boobs who throw him quarters from the boardwalk thinking that he works for a living.

A visitor from Chicago walked into a boardwalk restaurant yesterday, asked for a tender steak and got it. He was revived by the pulmotor.

Kirby May Enter Race for Senator

HOUSTON, Aug. 7.—Friends of John H. Kirby, millionaire lumber man, today were predicting that Mr. Kirby soon will announce formally as an independent democratic candidate for United States senator. Mr. Kirby reiterated that he is a democrat but other than that declined to make any announcement today on the senatorial race.

VOTES IMPROVEMENTS

By Associated Press.

HOUSTON, Aug. 7.—City improvements totalling about half a million for paaving and for storm and sanitary sewerage were authorized today by the city council.

DOGHILL PARAGRAFS

By GEORGE BINGHAM

Yam Sims is a great make-believe the other day, while having nothing else to do he made out like he was going away. He asked the Tickville depot agent when the train would be there, then Yam looked right bothered at the time table, and went out and walked up and down the platform with his hands behind him with a worried, business look on his face, just exactly like somebody that was waiting for the train.

* * *

The Tin Peddler says a mule has almost as much human nature as anybody, as he notices on a hot summer day he will drive his mule into a cool spot of water for a drink and it will try to kill all the time it can before leaving.

American Crawl Stroke Best for Endurance And Speed—Universally Used in Sprint Races and Long-Distance Events

START OF BREAST STROKE

The illustration shows Miss Gertrude Artelt, national champion, starting the breast stroke, which is usually the first stroke taught beginners in swimming.

THERE are numerous strokes in swimming and they all have their particular advantages. Among them are the breast, the sidearm, the overarm, the double overarm, the backstroke, the Australian crawl and the American crawl.

Of these various strokes, the American crawl is undoubtedly the most popular and practical for sprints as well as long distances.

For years the first stroke taught has been the breast, but recently some instructors start their pupils with the crawl. Most persons regard the crawl as the most difficult, but I have seen the crawl learned as readily as the breast stroke.

The knack of swimming comes with practice. Some pupils will grasp their instructor's ideas in a short time and others will paddle around for some time before learning. Sooner or later, however, they get the "feel" of the stroke and keep on going.

I WAS taught to swim the breast stroke in six lessons when I was nine years old. It was difficult for me at first, but suddenly it came to me, and the other strokes proved easy.

* * *

OLGA DORFNER SLOW TO LEARN.

OLGA DORFNER, who was one of the greatest swimmers in America, winning several national championships and breaking many records, was a slow pupil. To Olga it seemed that it took ages for her to learn, but she found herself all at once and developed into a marvel.

On the other hand, Ethelda Bleibtrey learned in no time, it seemed. She used to paddle around in a pool in New York City in which Charlotte Boyle, who has held many national records, trained. Charlotte became interested in Thel and helped her little pupil all she could in her spare time.

In a few weeks Thel could swim almost as well as Charlotte, and then she stepped on a par with her instructress. Finally she passed every swimmer and record in the world.

Olga Dorfner started on the breast stroke, as most of us have, but Thel was taught the crawl. Now they both swim every stroke perfectly.

After the breast stroke, which differs from every other stroke in that no part of the head touches the water except the chin, comes the side stroke, which is said to be the next difficult stroke. It is similar to the breast stroke, but is executed on the side. In this, though, the side of the head rests in the water and the whole body is more relaxed than in the breast.

* * *

THE single overarm is similar to the side arm except that one arm is brought out of the water. Beginners delight in the difference between this stroke and the first one taught because of the extra speed it gives.

* * *

KEEP YOUR EYES OPEN.

NEXT comes the double overarm or trudgeon. In this, at certain intervals both arms pass through the air. The leg stroke is like the drive used in the other strokes, but the whole face is put in the water. This is why so many persons hedge and become discouraged and say they cannot open their eyes under the water.

This can be overcome by a simple method. Fill a basin with water and drop in some coins. Take a deep breath, plunge your face in the water and open your eyes long enough to count the coins, withdraw, exhale and verify your count. After you have repeated your performance a few times you will find that you can readily open your eyes under water, and they must be kept open, no matter what stroke you use.

The trudgeon was used for years as an endurance stroke. At one time all long-distance swimmers used the trudgeon, but now the American crawl is universally in practice in ten-mile swims as well as fifty-yard sprints.

The perfect American crawl is the most graceful of all strokes. It is easy, smooth, steady and speedy. The arms are used in the same way as in the trudgeon, but the action is quickened. The feet are propelled up and down and keep your body moving and on a straight line all the time. The legs keep you from rolling around on your side, and every bit of energy used helps to keep you going ahead.

* * *

THE American crawl is derived from the Australian crawl, which differs from our stroke in the leg drive. There are only two leg beats to arm pulls in the Australian, but in the American there are six kicks to each arm pull.

* * *

MAINTAIN SAME PACE.

IN A 50-yard dash, the feet churn the water at a terrific pace; in a 440 the pace, of course, is lessened, and in a ten-mile swim it is still slower, but the same pace is maintained throughout the entire race.

The last three years the Delaware Yacht club has held the ten-mile national swim, and it has been most interesting to watch this race. The swimmers who start out at a terrific, uneven pace becomes exhausted after a few miles, but the winner finishes with the same speed he started.

After you have learned the easy crawl turn over on your back and swim the backstroke. It's lots of fun and you'll easily master it.

I'M QUITE sure that when you learn one stroke, you will just naturally drift into the others.

(Copyright, 1922, by Public Ledger Company)

In her next article Miss Artett describes training methods.

Miss Dorothy Witcher Honored by Farewell Picnic by Her Hostess

Honoring Miss Dorothy Witcher of Dallas, her hostess, Miss Mattie Ellen Verscholye, entertained with a picnic Monday evening, the occasion being in farewell to Miss Witcher, who left later in the evening for her home in Dallas.

Members of the outing party Monday included, besides the honoree, Miss Dorothy Hardy, also of Dallas, another guest of Miss Verschoyle, Miss Dorothy Ellis, Miss Mattie Ellen Verschoyle, James Youngblood, Paul Rutledge, L. R. Verschoyle and John Bradley.

During their stay here the two young visitors from Dallas have been the center of many delightful social activities. . One of the most pleasant was a theater party on Saturday afternoon. After enjoying the performance, the guests went again to the home of the hostess where a buffet luncheon was served. Those included in the invitation list were, besides honorees and hostess, Miss Dorothy Ellis, Miss Mary Sypert Clark, Miss Irene Clark, Miss Lurline Turner, Miss Rebecca Meador, Miss Fay Boyd, Miss Etta Verschoyle, Miss Charlie Bell Verschoyle, Miss Estelle Keevil, Miss Anna Keevil, Miss Joe Besty Miller and iMss Elizabeth Brown and Messrs. Paul Rutledge, James Youngblood, L. R. Verschoyle, Parker.

Within the week the girls are planning a radio dance ,the music to be furnished from the broadcasting station at Call Field. The entertainment was planned for Monday evening before the departure of Miss Witcher, but the hostess' mother, Mrs. Verchoyle has been called to Dallas, so that the dance has been postponed.

FRONT-GORTON WEDDING SOLEMNIZED SUNDAY

Miss Nina E. Front and Max W. Gorton were quietly married at the home of the bride's parents at 12:12 Sunday, Rev. T. S. Pittenger officiating. Witnesses included only members of the bride's family.

After the ceremony, wedding cake and ice cream were served.

The bride has made her home in Wichita Falls for some years. Mr. Gorton is from New York. They are at home for the present at 507 Burnett.

* * *

CAMP FIRE GIRLS ACTIVE OVER WEEK

Week end activites of the local Camp Fire girls included a hike of the Wa-gi-ta branch to the W. H. Downing farm where they spent the night and a Sunday morning hike to Scotland park by the Wee-no-nah girls where they enjoyed a camp fire breakfast.

The Saturday night outing included a camp supper and breakfast and an early morning swim. Mrs. R. E. Broyles, guardian of the Wa-gi-ta group chaperoned the campers. Those present were: Misses Mary Katherine Moody, Bernice Apple, Juanita Bachman, Muriel Jones, Jewell Rose Akin, and Nellie Lewis.

The Sunday hikers were: Misses Glenore Fisk, guardian, Elvia Allmen, Jim Covey, Vivienna Harris, Marguerite Denison and Burleigh Davenport.

DALLAS IS SOME TOWN MISTER

By Associated Press.

DALLAS, August 7. — Clarence Wimberly of Denison, was injured last night when he put his head out of a window of an interurban car from Fort Worth as it was entering Dallas and was struck by a Second avenue street car. Lacerations on his head were treated at the emergency hospital. His condition is not believed serious.

FASHIONS

Remodel a Last Season Frock by Adding Sheer Over-Drapery

The frock in the sketch is offered as a suggestion to the woman who wants to freshen up a last season model to do service during the first weeks of autumn. Every woman who has ever remodeled a dress knows that about the simplest and easiest thing to do, if there is a good silk foundation of some sort to begin with, is to drape this either in some sheer silk such as chiffon or georgette, net, etc., or in lace.

The dress sketched is of black satin, with waist and skirt panel overdrapery of royal blue chiffon, striped with narrow black silk braid, the wide sleeves being faced with the blue. The girdle is a band of the satin, covered with chiffon rosettes carrying a touch of gold or silver tinsel in their centers.

This dress is graceful and conservative in style, so that it will be in good taste even though draperies and circular skirts do succeed in sounding the season's high style note.

Incidentally, the draperies featured fall in such soft, long lines that they do not interfere with the straight silhouette. As a matter of fact draperies of any kind are being experimented with so far only in minor degree.

One of the interesting angles of autumn styles is that all change appears to be from the hips down—it is almost safe to say below the knees. Naturally increased length has a right to figure, but this is not all. Usually novel trimmings appear only on the lower part of the frock, and where flare is admitted, it is always below the knees.

Little Stories For Bedtime

IT IS DECIDED TO LEAVE THE OLD ORCHARD

Have you ever noticed how some people seem born to make trouble for others? Bully, the English Sparrow, and his wife, Mrs. Bully, are not very big. In fact, they are small. But they can upset an entire neighborhood in less time than it takes to tell about it. They seem to just delight in a fuss, and when they cannot stir up a quarrel among their neighbors they quarrel between themselves, so that where they are there is very little peace.

Now, until they moved there from the city the Old Orchard had been one of the quietest, most delightful places in all the great world in which to live. To be sure, there were occasional little outbreaks, as there are bound to be in all neighborhoods, but they were merely little misunderstandings which were soon righted. Then came Bully and his wife, and from the day of their arrival the Old Orchard was never the same again. At first the other people living there had hoped that after a little Bully and Mrs. Bully would settle down and things would be as peaceful as before. When matters went from bad to worse they began to hope that something would happen to drive Bully out of the Old Orchard, and when Chatterer the Red Squirrel appeared and tried to get the six eggs in Bully's house for the first time in the history of the Old Orchard the other bird folk didn't offer to help drive the would-be thief away. The truth is they hoped that he would get the eggs and that then Bully would decide to move back to the place he had come from.

But Bully and his wife had needed no help from any one. They had been quite equal to giving Chatterer such a punishment as he had not had for many a long time, and then when they had made him run for the safety of the old stone wall how they did brag and boast! This was too much for their neighbors.

"Just listen to them!" cried Welcome Robin. "They are common, just the commonest kind of common people. I simply cannot live in such a noisy neighborhood. This is my last season in the Old Orchard. I hate to do it but next spring I shall look up another neighborhood in which to live."

"That is what Iam planning to do," announced Winsome Bluebird. "I don't want to, but I simply must. I've spent every summer since I can remember right here and my parents lived here before me, but I cannot stand such goings-on another year. I shall not come back."

"I feel just the same way," sputtered little Jenny Wren. "I like my house. It is the best I ever had, but I'm going to give it up and look somewhere else. This is no neighborhood for honest, quiet-loving people, and all on account of those upstarts from the city. It is an awful thing to say, but I do wish that Chatterer had got their eggs. It would have served them just right."

All the other birds living in the Old Orchard, including Drummer the Woodpecker, Goldie the Oriole, Pewee the Flycatcher, Skimmer the Swallow, and Chippy the Sparrow, own cousin to Billy, agreed that this would be the last summer they would spend in the Old Orchard. They would leave it to Bully and his family, for it was very clear to all that they could not live in the same neighborhood with them. And this is how it came about that the Old Orchard was in danger of losing the little feathered people who loved it so and whom it loved.

WHEAT HITS LOWEST LEVEL

Record for Season Set Monday

By Associated Press.

CHICAGO, August 7.—Burdensome receipts together with indifference of demand led to lowest prices yet this season in the wheat market today. Furthermore some late selling was induced by vague reports about President Harding's new move to settle the railroad strike. The close was unsettled at 1-4c to 1 1-8c net decline, with September $1.05 5-8 to $1.05 3-4 and December $1.06 5-8 to $1.06 3-4. Corn lost 1-4c@3-8c to 7-8@1c and oats 1-8c to 3-4c. Provisions finished unchanged to 12@15c lower.

The seasons new low record prices for wheat were reached early in the day. With arrivals of wheat here totaling 1,014 carloads and with hedging sales finding them without any adequate buying support, prices went down grade until the December delivery struck $1.06, the bottom figures of the session. Subsequently moderate rallies took place.

Corn and oats as well as wheat dropped to lowest prices so far on the the 1922 crop. Current estimates of the yield of feed were construed as bearish, but were afterward partly offset by announcement of nearly 6,000,000 bushels decrease in the visible supply of corn.

C. OF C. TRAFFIC MEN IN SESSION

By Associated Press.

AUSTIN, Aug. 7.—The proposed 18 percent increase in intrastate express rates to correspond with interstate rates, was the chief consideration before the conference of traffic managers of Texas chambers of commerce held here today. A statewide hearing on the matter is considered likely. The traffic managers are scheduled for hearings before the railroad commission tomorrow.

DALLAS COTTON

DALLAS, August 7. — Cotton steady 20.80; Houston steady, 21.05; Galveston steady, 21.40.

COTTON PRICES VARY GREATLY

Weather Reports Are Responsible

By Associated Press.

NEW ORLEANS, August 7.—It was almost entirely a weather market in cotton today with fluctuations due mainly to various opinions regarding moisture conditions in Texas. Private reports of considerable rain in western counties caused a drop of 37 to 52 points in the first part of the day but when the official returns failed to confirm this rainfall the market recovered aboue half of its losses, finally closing at net losses on the session at 29 to 32 points with October at 20.33.

The lowering opening was in some measure due to an unfavorable opinion of foreign news but most of the selling was inspired by telegrams stating that rain had fallen over eight counties in western Texas. October became weakest month and appeared to be feeling some little hedging selling. It lost 52 points at its lowest and traded down to 20.10 cents a hundred.

NEW ORLEANS SPOTS

By Associated Press.

NEW ORLEANS, Aug. 7.—Spot cotton quiet; sales on the spot 25, to arrive none. Low middling 19.75; middling 21.00; good middling 22.00. Receipts 678; stock 72,031.

Cotton closed barely steady at net decline of 29 to 32 points.

	High	Low	Close
Oct.	20.52	20.10	20.33
Dec.	20.50	20.15	20.34
Jan.	20.47	20.20	20.25
May	20.25	20.25	20.15

NEW YORK COTTON.

By Associated Press.

NEW YORK, Aug. 7.—Early declines were followed by moderate rallies in the cotton market today, but they were not fully maintained and after selling up from 20.62c to about 20.95c, December closed at 20.83c. The general market closed easy at a decline of 24 to 33 points.

The market opened barely steady at a decline of 9 to 14 points and was very weak during the early trading owing to reports of better weather in the southwest, continued nervousness over European affairs as reflected by unsettled exchange rates and the unsettled domestic labor situation. There was a good deal of southern selling accompanied by reports of increased hedging against both old crop cotton and early new crop receipts, while there apueared to be very little demand except for covering on a scale down. The break carried October contracts off to 20.60c aond January to 20.53c, or the lowest prices touched since the advance of early last month and about 230 points below the high prcies of last Tuesday.

Now That's Rather Odd

KANSAS CITY.—Most of the dogs in the city pound were freed Saturday night by a young man who appeared in a taxicab in front of the city pound, climbed over the main gate into the stockade and unwired the gate. Watchmen arrived too late to stop more than a few of the canine prisoners. The young man jumped into the taxicab, taking with him a couple of dogs that caught his fancy, and departed. He said he wanted dogs for his two babies.

SAN FRANCISCO.—The golf challenge of the Upson family of Sacramento to play any similar family of father, mother and son, has been accepted by the Osbornes of San Francisco, and three atches will be played one at the Del Paso club at Sacramento, one on the Olympic club links in San Francisco, and the rubber on a neutral course.

SAN FRANCISCO. — Patriarchs and tong leaders of San Francisco's Chinatown, after 17 months of intermittten warfare, have ratified a treaty of peace. Contrary to precedent, this agreement will not be secluded in the retreat of some powerful tong, but filed in the police archives.

After representatives of four of the largest tongs signed the articles of peace the Chinatown police squads stepped unheralded into the sanctum.

"Gentlemen of the tongs," the sergeant in charge began, "you have signed and sealed the peace treaty. Now I am going to take the document with me under the promise that it shall not be opened until warfare again breaks out among you.

"And if any one is killed, every one whose name appears on the articles, will be held in connection with the murder."

Then with a "farewell, gentlemen," the sergeant and his men left the hall.

ST. LOUIS—Samuel Foti, 25 years old, and an infant daughter, Frances, 2 months old, were killed this afternoon when a bomb he was making in his home exploded. His wife and a 14 months old daughter were burned but not seriously. The bomb was to have been used at an Italian celebration tomorrow it was said.

Cotton Broker Fired by Officers

By Associated Press.

NEW YORK, August 7.—Edward Rosenberg, senior member of the firm of Edward Rosenberg and company, cotton brokers, has been expelled from membership in the American Cotton and Grain exchange, the directors announced this afternoon. One of the charges against Mr. Rosenberg was that of failing to execute on the floor of the exchange orders entrusted to him by his customers.

CATTLE CALLS GAIN STEADILY

Receipts Reach Total Of 6,000

HOME GROWN STUFF SCARCE

Produce Shipped in From Colorado

The Wichita Falls market was almost devoid of home grown produce Monday with the exception of watermelons, cantaloupes, a few tomatoes, okra and sweet peppers. All other vegetables and produce bought by local dealers came in from Colorado or other points.

Prices paid farmers were unchanged from Saturday but with tomatoes scarcer each day a boost is expected before the middle of the week.

Saturday there was a fair supply of new crop Porto Rican yams on the market from home fields but very few were offered Monday. Following prices were quoted to farmers Monday.

Cantaloupes, 10c to 50c per dozen
Sweet corn, 40c per dozen.
Sweet peppers, 12c per pound.
Okra, 10c per pound.
Peaches, $2 per bushel.
Grapes, Muscats and Concords, 10c per pound.
Fresh blackeye peas, 5c per pound.
Beets, 40c per dozen bunches.
Squash, 4c to 5c per pound.
Eggs, 25c to 27c per dozen.
Butter, 30c to 35c per pound.
Fryers, 30c to 35c per pound.
Hens 20c to 35c per pound.
Tomatoes, 5@6c per pound.
Spinach, 8c per pound.
Porto Rican yams 5c per lb.

Prices Continue Upward March In Stock Market

By Associated Press.

NEW YORK, August 7. — With comparatively few exceptions, the upward movement in prices was continued in today's stock market.

While there was no evidence of extensive public buying, a good investment demand was noted for some of the Pittsburgh grade rails and industrial rails, several of which reached new top prices for the year. President Harding's new strike settlement plan reached the street too late for more than cursory perusal, but its immediate reflex was favorable. Among the rails which broke through for new top prices were Chespeake and Ohio, Chicago and Northwestern, Great Northern preferred, St. Paul preferred and Southern railway preferred, which egistered gains of 1 to 2 points. The strength of the Northwestern group was attributed to the unusually good crop prospects for that region.

Strength was shown in such equinment issues as American and Baldwin locomotive and Pullman company, which were up 1 1-2 to nearly 3 points.

Montgomery, Ward's extremely favorable semi-annual earnings statement furnished the incentive for the buying of mail order shares. Exceptional strength of Kresge and Woolworth, which soared 5 to 8 points, respectively, was ascribed to the possibility of extra disbursements this fall.

INTERNATIONAL EXCHANGE

By Associated Press.

S. S. S. Fills Out Hollow Cheeks, Thin Limbs!

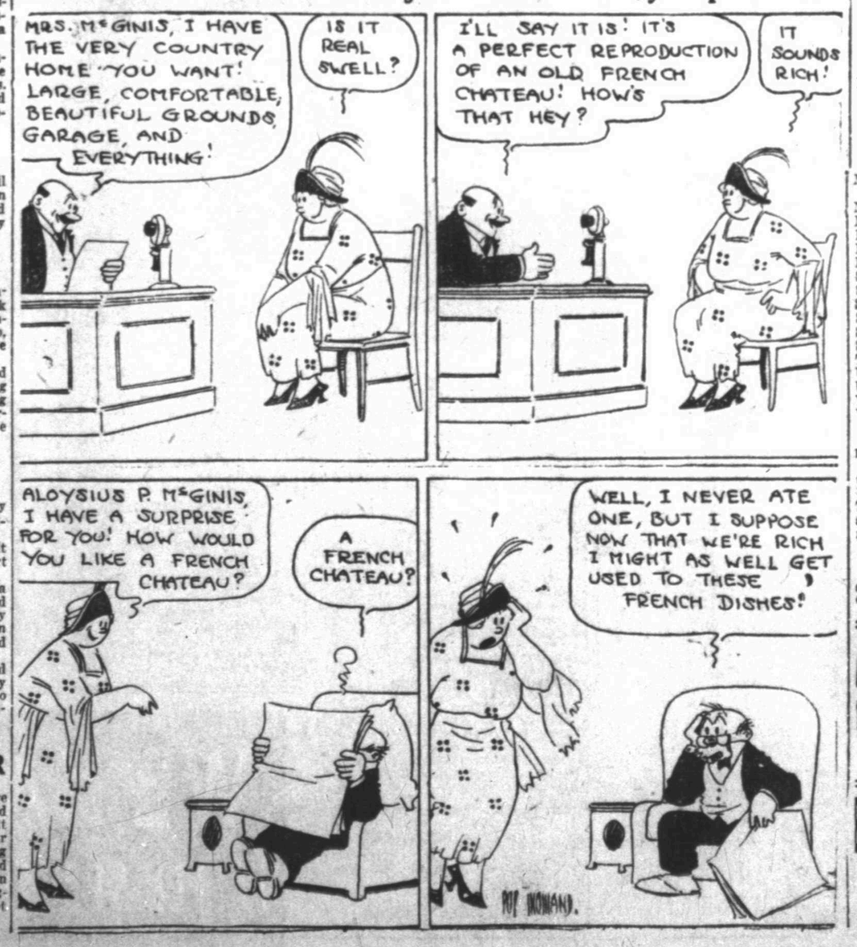

Men and women,—whether you will ever build yourself up to your normal, just-right weight depends on the number of blood-cells in your blood. That's all there is to it. It's a scientific fact. If your blood-cell factory isn't working right, you will be run-down, thin, your blood will be in disorder, and perhaps your face will be broken out with pimples, blackheads and eruptions. S. S. S. keeps your blood-cell factory working full time. It helps build new blood-cells. That's why S. S. S. builds up thin, run-down people, it puts firm flesh on your bones, it rounds out your face, arms neck, limbs, the whole body. It puts the "pink" in your cheeks. It takes the hollowness from the eyes, and it fools Father Time by smoothing out wrinkles in man and women by "plumping" them up. S. S. S. is a remarkable blood-purifier. While you are getting plump, your skin eruptions, pimples blackheads, acne, rheumatism, rash, setter, blotches are being removed. The medicinal ingredients of S. S. S. are guaranteed purely vegetable. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

Fans Rampant Over Official Action in Diamond Insult

GAME OUTRAGED BY GASSERS STALLING IN FOURTH AS RAIN HOVERS OVER FIRST CONTEST

Umpires Refuse to Forfeit Contest After Most Flagrant Play Ever Exhibited in Athletic Park; Runners Trot Around Paths Unmolested; Second Game "Wet Grounds"

By "SPIKE" COOPER

Spudder fans, and a goodly Monday crowd of 'em, too, witnessed the most disgusting exhibition of the great national game yesterday, then the Gassers, "knowingly, willfully and with malicious intent," attempted to stall play in the fourth inning of the first game until rain would halt the game which was to them hopelessly lost. For more than 15 minutes the umpires permitted the insult to continue, refusing to forfeit the contest. Seeing no other alternative, the Spudders were finally retired after nine runners had marked the pan. When the game was finally called in the seventh, the Spuds led by a 15-3 count.

Toward the close of the third inning it seemed that the rain would begin at an ytime. The Spudders led at the close of the first half of the fourth. A series of base hits, a wild pitch and a couple of bases on balls added four runs to the total, and as the clouds came closer, the Gassers began to delay their game. Runners added bases unheeded while members of the infield tossed the ball to each other as if warming up and runner after runner scored. Both Umpires Weir and Daly cautioned Manager Vann regarding the play and threatened to forfeit the game, but permitted the inning to be finished. With the score 15-3, the shower broke and halted the game.

Second Called Off

After several minutes, Umpire Weir called the second game off on account of wet grounds, despite the fact that only a light shower had fallen and the dry ground quickly drank up the water that fell. Neither team left the club house for some time, feeling that the second game would be played, but Weir was firm in his declaration, and thusly were the Spudders deprived of a game badly needed at this time. Since another postponed game is scheduled today ,it will be impossible to get the second game played this season, unless at the close of the season, the result would have a bearing on the pennant decision. In thta case, the game will be played as a post-season contest.

Steve Mokan started for the Spudders but was not up to his accustomed form and gave way in the fourth to a pinch hitter, Pat Flaherty doing the sticking for him. At this juncture the score stood 4-3 in favor of the Spudders. Flaherty's single was followed by a series of hits, errors, listless play and nine pilfered cushions for nine runs before Tanner ended the frame with a pop foul to Smith.

Wheeler Helps Mokan Out

Wheeler took up the job and continued through the last three rounds, holding the Gassers away from the plate although they hammered out six safe lows. 'Twas indeed too bad that Mokan was jerked, for the Spuds piled up a safe lead and he could not have been ousted surely and now two of the staff need their rest.

The Gassers collected as many hits as did the Spudders, but they were not hamered out in the proper succession, this, together with some truly excellent baseball by the Spudders, prevented the visitors from counting but three times.

Errors at critical moments put the Spudders out in front in the first three rounds and they held a sufficient lead before the fourth inning farce transpired.

Homer Ezzell outhit the field for the day, getting a single, a double and a homer over the left field fence.

As a result of the fourth inning display, nine Spudders added stolen bases to their credit, three of which went to Flaherty as he trotted around the bases after sending a drive into center field.

The Spudders came through without a bobble and nice plays by Adams, Summa and White staved off Gasser runs which stood on the near corners.

Three Hurlers Used.

The Gassers sent Lohman to the mound to start, but he was yanked in the fourth before a hitter had been retired. Slim McGrew then went in and was also pulled with only one retired. Slappey was hastily warmed up and finally retired the side. In reality four runners were put out, but Umpire Wier had left the plate and was talking to Manager Vann when Bescher was tagged out as he walked in from third. Not seeing the play, Weir did not call the runner out.

The Gassers will make their final appearance of the season today. Two games are again carded, the first to start at 3 o'clock.

BLONDY CROSS TO REMAIN IN CITY

"Smiling Blondy" Cross made sure his plan of remaining in Wichita Falls for the winter yesterday when he accepted a position with the Dixie Tire Service company in the business department.

Cross plans to remain in this territory through the winter "working up money to carry me through Texas university," as he states it. During his sojourn in this city he will put in several hours each day diligently training for "all-comers" in the prize-fight arena, he announces.

He will probably be seen in action within a short time in Wichita county, as the young pugilist has already signed up for several bouts to be staged at Electra, Burkburnett and surrounding territory.

"Blondy" holds the record at having been floored the most number of times always to rise again and face his opponent. He is a scrappy pugilist, and always gives that dominating smile of his as a "hay-maker" to any opponent he meets.

KEN WILLIAMS SETS NEW MARK

Two Homers in Sixth Inning Is Feat

By Associated Press.

ST. LOUIS, Aug. 7.—Veteran baseball writers tonight said that Kenneth Williams, left fielder for the St. Louis Browns, who knocked out his 29th and 30th home runs in the sixth inning of today's games between the Washington and St. Louis Americans, set a new modern major league record as they could not recall any other instance in modern baseball where only one player cracked out two circuit drives in the same inning.

By hammering out the two homers Williams forged ahead of Rogers Hornsby of the St. Louis Cardinals, who has 28 home runs for the major league home run championship of the season. Jacobson was on base each time Williams clouted the ball in the right field bleachers.

CATS EVEN UP SERIES ON GIANTS

Love Whiffs Ten But Is Hit Hard in Pinches

By Associated Press.

DALLAS, August 7.—Fort Worth evened the series with Dallas by winning today, 6 to 2. Although he struck out 10 Panthers, Love yielded hits when they meant runs. When Dallas threatened in the third inning, Johns relieved Whittaker and held the locals scoreless. Rader's home run inside the park was a feature.

TENNIS MATCHES GO BY DEFAULT

By Associated Press.

GLENCOVE, N. Y., August 7.—Seven in the matches of the first round of the metropolitan women's singles championship today went by default, but in those that were played all the favorites came through.

Mrs. Molla B. Mallory of New York, easily defeated Mrs. William M. Ellis, New York, 6-1, 6-0.

In the second round Miss Margarita Strahler, Los Angeles, defeated Miss Alice Vail, New York, 6-1, 5-1, and Miss Jean Robertson of New York defeated Miss Alberta Olson of St. Louis, 6-3, 6-1. Mrs. Mallory won in the second round over Miss Jessie Gott of Brooklyn, 6-0, 6-1.

PATENTS GRANTED

A patent has been granted Mortimer L. Clopton of this city for his ring gauge invention. Everett O. Cummings of Electra, also has been given a patent for his pump inventionn.

KNOT HOLERS!

The Knot Hole Gang will hold its final meeting of the year tonight at seven o'clock at the Methodist church, corner of Tenth and Lamar.

All members are expected to be present. Refreshments will be provided.

Mothers and fathers are invited to attend also.

The Reason Why--

When questioned regarding their opinion and attitude of and toward yesterday's game between the Spudders and Gassers, both Umpires, Weir and Daly, made themselves plain.

"We did not forfeit the game in the fourth inning because of courtesy to the president of the Shreveport club. Although the players showed no respect for the finances of their club president, since a forfeited game automatically assesses a fine against the club, it would not have been the players who would have suffered. The Shreveport club has been a tail end club most all of the season and are now in a crippled condition on the field.

"The game was the worst exhibition we have ever seen, either of us. It is a disgrace to the game itself.

"Since Manager Vann did not respond to our advice until warned the second time, no one can be blamed for the showing of his team except himself.

"The fans who paid their admissions are entitled to a ball game. None would have been satisfied had the Spudders not received credit for their win. This they did, and without a forfeit.

"The president of the Shreveport club will not have to pay the fine which would have been attached to a forfeit and the Spudders still get credit for their win.

"The entire procedure of the game has been fully and completely reported to the president of the league for his official action."

BABE'S BAT IS POSON FOR TIGERS

Four Hits Gives His Team First Game

By Associated Press.

DETROIT, Aug. 7.—Ruth's double and Schang's single in the ninth gave New York a 4 to 3 victory over Detroit today. The "Babe's" bat was a potent figure in the game, his single in the fourth inning when the Yankees grouped five of their hits, driving in the tying run. After the first inning, when Bob Jones tripled with the bases full, as the result of a single, error and pass, the Tigers could do little with Sam Jones. Score:

Vanity is the greatest handicap to greatness.

WELCOME, JAKE!

Jake Miller's back in the fold again.

Following the injury of Art Weiss, the Spudders were left without a utility man since Tex McDonald was sent to right field.

An appeal to the Pirates, asking that he be loaned for the remainder of the season, was granted.

Jake arrived yesterday afternoon and was out in uniform.

Muff of Pop Fly Lets Three Runners Cross Plate

By Associated Press.

BOSTON, August 7.—Six runs in the eighth, three of which were scored when Hornsby muffed Ford's short fly and fell, gave Boston a 9 to 8 victory over St. Louis today and prevented St. Louis from taking the league lead. Powell and Fournier made home runs. Smith and Ainsmith each had four hits in four times at bat.

SOUTHERN RACE GETTING CLOSER

By Associated Press.

MEMPHIS, Tenn., August 7.—Four wins and no loses for the Mobile club and counts on the right side of the ledger for New Orleans and Little Rock, while the leading Chickasaws continued in a slump during the past week tightened the Southern association race.

As the race stood tonight the members were six and a half games ahead of Mobile, the Bears had a two-game advantage over New Orleans and Little Rock was within half a game of the Pelicans. Chattanooga batsmen piled up a total of 94 hits during the week with Little Rock making the next best showing in that department with 69 in eight games.

BROWNS SWAMP SENATORS, 16-1

By Associated Press.

ST. LOUIS, Aug. 7.—St. Louis today swamped Washington 16 to 1 for the locals fifth straight victory. The Browns went on a rampage in the sixth inning, knocking Mogridge out of the box and scoring 9 runs on 9 hits, seven of which were for extra bases. Williams knocked out two home runs in the inning. Erickson, who relieved Mogridge, also was batted hard, the locals got five more in the eighth inning. Collins also drove out a homer.

Ira Thomas Now With Gasser Club

Ira Thomas, former member of Connie Mack's Athletics, arrived here yesterday afternoon.

Thomas is reported to have purchased the Shreveport baseball club in a deal consummated Saturday. The reported price is $75,000.

Just what significance is attached to his present visit here was not learned.

WILLIAMS DRIVES TWO OVER FENCE

By Associated Press.

ST. LOUIS, Mo., Aug. 7.—Kenneth Williams of the St. Louis Browns today went into the lead among major league home run batters by knocking out his twenty-ninth circuit drive of the season off Mogridge with one man on base in the sixth inning of today's game between Washington and St. Louis. Williams now is one home run ahead of Rogers Hornsby of the St. Louis Cardinals, champion home run slugger of the National league.

Williams hit his second home run in the sixth inning off Erickson, who relieved Mogridge for Washington after the Browns had batted around. Jacobson again was on base. It was Williams' thirtieth home run.

Katy Restores Trains to Service

By Associated Press.

ST. LOUIS, August 7.—Missouri Kansas and Texas railroad announced today that passenger trains No 25 and No. 26, which were discontinued as a result of the shopmen's strike, have been restored between Waco and Houston, Texas. Passenger and freight service on the system is improving each day, according to the announcement, which stated that the road has 43 per cent of its normal mechanical force at work.

VERNON COTTON NOT IN DANGER

Slight Relief Is Felt From Heat

Special to The Record News.

VERNON, Texas, Aug. 7.—Saturday brought the first relief, slight though it was, that Wilbarger county has experienced in a week from the intense heat which has been sweeping this section of the state. Hazy clouds, which dimmed the rays of the sun, coupled with a vigorous breeze made the day comparatively pleasant following almost unbearable torridness.

Although crops have suffered somewhat from the continued hot weather, no alarm is felt as yet over prospects for one of the largest cotton yields in the history of the county. On tight land cotton has been hurt to the greatest extent, but although numerous bolls have been shed, the stalks yet contain an abundance of fruit.

Thermometers in Vernon during the hottest days of last week ranged from 108 to 114 degrees. City officials found a slight curtailment of the water supply necessary each day to insure a sufficient supply in the event of emergency.

REPUBLICANS TO CONDEMN STATE

By Associated Press.

FORT WORTH, Aug. 7.—Condemnation of the state administration for extravagance and inefficient management of the prison system and strong denunciation of the ku klux klan will be the "high spots" in the platform to be adopted by the republican state convention which will be in session here Tuesday, according to party leaders who are here today for the meeting of the state executive committee.

GUARD OFFICIALS REVIEW TROOPS

By Associated Press.

AUSTIN, Aug. 7.—General John L. Hines, commander of the eighth corps area, United States army, and Colonel A. L. Wolfe, officer in charge of national guard activities in the eighth corps area arrived at Austin at noon today and reviewed the 3,000 Texas national guardsmen at Camp Mabry this afternoon. Governor Neff and Adjutant General Barton accompanied the regular army officers at the review. General Hines addressed the troops briefly.

RAINEY SERVICES TO BE IN WAXAHACHIE

By Associated Press.

WAXAHACHIE, Texas, Aug. 7.—Funeral services for Chief Justice Anson Rainey, of the court of civil appeals for the fifth district, who died in Chicago Sunday morning, will be held here at 4 o'clock Tuesday afternoon.

Judge Rainey was a confederate veteran. He had practiced law at Waxahachie, Dallas and Fort Worth and had been a state senator, district judge and member of the court of civil appeals for the fifth district. He was chairman of the directors of the Texas Masonic home.

I. & G. N. TO STAY IN PALESTINE

By Associated Press.

AUSTIN, Aug. 7.—Headquarters of the reorganized International & Great Northern railway company will remain at Palestine or charter of the new company will not be approved by Attorney General W. A. Keeling, it was stated today.

The proposed new charter of the International & Great Northern railway company designated Houston as the place for the headquarters following reorganization.

TEXAS ENGINEERS IN AUSTIN FOR MEETING

By Associated Press.

AUSTIN, August 7.—More than 200 engineers from all parts of Texas attended the conference here today on flood control and reclamation problems called by Governor Neff. Dean T. U. Taylor of the state university engineering school was appointed chairman of the conference and of a permanent council to consider flood and reclamation matters.

FAT-THIN BATTLE PLANNED BY CLUBS

Fat men and lean men—skinney men and old men—all will be seen in action here soon.

The Kiwanians have challenged the Rotary club to combat on the local baseball diamond, and although the latter has not yet made known its intention of accepting, the Kiwanians are preparing to present one of the best teams seen here in sometime.

Ed F. Riley, Dan Ludien and C. B. Dooley were designated by President Ben Neal to formulate plans for what the funds derived from the ball game shall go towards.

FINE FOR SLEEP

With a maximum temperature of 102 degrees at 2:50 o'clock Monday and a minimum temperature of 86 degrees which prevailed for more than an hour during the morning, Wichita Falls suffered very little from the heat Monday. The cool breeze which followed two showers made the atmosphere really enjoyable at times and early night found a good breeze blowing with the temperature fine for sleeping.

30 PROFESS FAITH

The revival conducted for two weeks at Bradley's corner, near Burkburnett, was closed by Rev. W. L. Nelson of the Magnolia Baptist church Sunday night with 30 professions of faith.

Ministers of Bradley's Corner were high in their praise yesterday of the work executed at that community through the services of Rev. Nelson.

NOTICE OF HEARING
To Appropriate Public Water's of the State of Texas
No. 698

Notice is hereby given, to whom concerned that the Texhoma Oil and Refining company, the postoffice address of which is Wichita Falls, Texas, did on the 4th day of August, A. D. 1922, file its application in the office of the Board of Water Engineers for the State of Texas, in which it applies for a permit to appropriate of the unappropriated waters of the state, from the North Fork of Little Wichita River, in Archer county, Texas, sufficient water for the purposes of mining, to be impounded in a reservoir created by the construction of a dam, and d iverted by means of a pumping plant, said dam to be located at a point which bears S. 1500 feet; thence S. 75 degrees W. 1200 feet from the N. E. corner of T. Bell Survey No. A-31 on the North bank of the Little Wichita, in Arcer county, distant in a northwesterly direction from Archer City, Texas, nine miles.

You are hereby further notified that the said Texhoma Oil and Refining company is to construct a dam of concrete, 6 feet in height, 55 feet in length, having a top width of 3 feet, and bottom width of 5 feet, thus creating a reservoir having an average width of 40 feet, length of impounded water two miles, an average depth of stored water five feet, and having a storage capacity of 50 acre-feet, and to impound therein, and divert therefrom not to exceed 500 acre-feet of water per annum for the purposes of mining.

A hearing on the application of the said Texhoma Oil and Refining company will be held by the Board of Water Engineers for the State of Texas, in the office of the Board at Austin, Texas, on Monday, October 2nd, A. D., 1922, beginning at ten o'clock a. m., at which time and place all parties interested may appear and be heard. Such hearing will be continued from time to time, and from place to place, if necessary, until such determination has been made relative to said application as the said Board of Water Engineers may deem right, equitable and proper.

Given under and by virtue of an order of the Board of Water Engineers for the State of Texas, at the offices of the said Board, in Austin, Texas, this the 4th day of August, A. D., 1922.

JNO. A. NORRIS,
C. S. CLARK,
A. H. DUNLAP,
Board of Water Engineers
(SEAL)—Attest:
A. W. McDONALD, Secretary.

SHERIFF'S SALE
The State of Texas, County of Wichita.

Notice is hereby given that by virtue of a certain order of sale issued out of the honorable 80th district court of Wichita county, of the 29th day of July, 1922, by A. F. Kerr, district clerk of said Wichita county, Texas, for the sum of seven hundred ninety-nine and 50-100 dollars and costs of suit, under a judgment upon a vendors lien, in favor of Highland Irrigation & Land company, in a certain cause in said court, No. 12958-C and styled Highland Irrigation & Land company vs. Harris H. Roberts, placed in my hands for service, I, Fred K. Smith, as sheriff of Wichita county, Texas, did, on the 31st day of July, 1922, levy on certain real estate, situated in Wichita county, Texas, described as follows, to-wit:

Being lot 2 in block 84-A of Highland addition to the city of Wichita Falls, Wichita county, Texas, and levied upon as the property of Harris H. Roberts, and that on the first Tuesday in September, 1922, the same being the 5th day of said month, at the court house door, of Wichita county, in the city of Wichita Falls, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said order of sale, I will sell said above described real estate at public vendue, for cash, to the highest bidder, as the property of said Harris H. Roberts.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Record News, a newspaper published in Wichita county.

Witness my hand, this 31st day of July, 1922.

FRED K. SMITH,
Sheriff of Wichita County, Texas.
By F. E. JOHNSON, Deputy.

SHERIFF'S SALE
The State of Texas, County of Wichita.

Notice is hereby given that by virtue of a certain Order of Sale, issued out of the honorable district court of 1922, by W. V. Cunningham, district Wise county of the 10th day of June, clerk, of said Wise county, Texas, for the sum of Fourteen Thousand One Hundred Ninety-four and Sixty-eight Hundredths ($14,194.68) dollars and costs of suit, under a judgment upon foreclosure of note, in favor of the City National Bank of Decatur, Texas, in a certain cause in said court, No. 5064, and styled City National Bank of Decatur, Texas vs. L. J. Crawford, Ed Yarbrough, J. D. Robertson, Clois L. Green, J. T. McCormick, D. H. Milton, B. R. Floyd, E. E. Traweek, J. F. Davis and Keystone Petroleum company, placed in my hands for service, I, Fred K. Smith, as sheriff of Wichita county, Texas, did, on the 23rd day of June, 1922, levy on certain real estate situated in Wichita county, Texas, described as follows, to-wit:

The following described real estate belonging to J. F. Davis at Electra, Texas, lot 6, block 22; lots 21 and 22, block 11; lots 17, 18, 19, block 46; lots 10, 11, 12, block 34; lots 1- and 16, block 61; lot 22 in block 78 of the City of Electra, Wichita county, Texas; lots 11 and 12 in block 34, being set aside as the homestead of J. F. Davis, which are included in the above list of property. Also 20 head of horses and mules, now located at Electra and at the damsite located in Baylor county, Texas; also one Buick roadster, two White trucks, now in the possession of said J. F. Davis. Property belonging to Ed Yarbrough of Electra, Wichita county, Texas, lots 9 and 10 in block 13, and lots 9, 10, 11 and 12 in block 110 of the city of Electra, Wichita county, Texas, and levied upon as the property of J. F. Davis and Ed Yarbrough and that on the first Tuesday in September, 1922, the same being the fifth day of said month, at the courthouse door of Wichita county, in the city of Wichita Falls, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said order of sale, I will sell said described real estate at public vendue for cash to the highest bidder, as the property of said J. F. Davis and Ed Yarbrough.

And in compliance with law, I give this notice by publication in the English language, once a week for three consecutive weeks immediately preceding said day of sale in the Record News, a newspaper published in Wichita county.

Witness my hand, this tenth day of July, 1922.

FRED K. SMITH, Sheriff
Wichita County, Texas.
By F. E. JOHNSON, Deputy.

A COMPLETE NEWSPAPER — WICHITA FALLS RECORD NEWS — LEADS IN LOCAL NEWS

KIWANIS CLUB TO HELP FAIR

Ticket Campaign Considered

Following a report made to the Kiwanians during their regular weekly luncheon yesterday at the Kemp hotel, the Kiwanis club went on record as ordering 50,000 inserts to be placed in communications from now until the date of the fair, advertising the Texas-Oklahoma fair association opening here in September.

Homer Sanderford, reporting for the committee appointed by the Kiwanians some time ago to ascertain in what manner the organization could best help the fair association, announced that he had been informed the club could put on a ticket sale campaign to much advantage at the present time.

The suggestion met with favor, a committee consisting of D. L. Fritz, Homer Sanderford, Dan Ludlen and Frank Queisser being named to accept bids for the inserts and to find how they could best be used in advertising the fair.

Dixie Series May Be Played at Fair

The Dixie series for the Texas Oklahoma fair!

That is the big wish foremost in the hearts of many fair boosters and baseball fans here. As Wichita Falls edges into first place several persons prominently connected with the fair have expressed the hope that the local team will capture the state championship and the big series of the south can be played here while the fair is on.

As this is considered a possibility some of the fair boosters are placing strong hope. The Dixie Series would draw a big crowd in addition to the fair. It was said Monday that should some of the games of the Dixie series be played here during the fair, every available room in the city would be filled.

Flags Will Lead Way to Big Fair

When the gates swing open for the first annual showing of the Texas-Oklahoma fair on September 30, every visitor entering the gates will be guided by the American flag.

During the fair, every street leading to the fair grounds will be decorated with flags. Eighth, Ninth, Tenth and Grant street residences will be covered with flags while the downtown district will also be dressed up in its holiday clothes. The sides of the roads will have flags placed at convenient intervals to serve as guides and even some of the roads entering into the city will have flag decorations, it was said at fair association headquarters Monday.

Pays Fine for Speeding in Ford

The city streets are no place for the younger set to complete their dates. Especially if they are in a hurry.

It costs a certain young fellow $20 in police court yesterday for attempting to promptly fill his date, as he told the judge.

The defendant was charged with reckless driving, and Officers Charles Debout and Belcher narrated to Judge Marrs that the youthful driver was "making all a Ford could make," going up a prominent street with several girls and a boy in his vehicle.

The defendant told the court that he "was just trying to get those girls home by 11:15."

Fine Is Easiest

A fine of $15 was imposed on a white man who appeared in corporate court yesterday morning to answer a charge of vagrancy.

The defendant's case was investigated by the court, and then passed until after court had adjourned. At that time, Judge Marrs told the man that he "could have his choice, either accept a fine" at that hour "or come back later and the city would have stronger evidence to present against him." He chose the former route and paid his fine.

The officers testified that much complaint relative to his visits in a certain neighborhood had caused his arrest. One of the officers testified that when the defendant was arrested "he was in the house using abusive language with a woman."

HE WASN'T DRUNK; AFRAID OF "JAKE"

The aroma of intoxicating liquors caused one man to pay a fine of $10 in police court yesterday morning.

The defendant told the court that he was just following "a man who was already drunk on 'jake.'"

"'Jake' tears up the stomach," the court informed the defendant, who himself was charged with being intoxicated with "jake." And when the testimony was all in, the court assessed a fine of $10, causing the defendant to be remanded to prison in default of his penalty.

A Case of Good Eyesight

Short Stuff With a Dash of Pepper

The council met at seven—it also met at eight.
And when they started talkin' it was growin' awful late.
But they finally made a motion—th' docket was so light,
An' then th' meetin' ended—so did the night!

Mrs. C. H. Pirtle is visiting relatives in Fort Worth.

Everybody figured in Wichita Falls yesterday.

But despite the figures, we're still on the top.

Chief McCormick declares that with six more speed cops, the city treasury would overflow.

Mr. and Mrs. Joe Hansen have gone to Fort Worth by automobile. They will return home next week.

A maid at 10, sweet and fair, Vagged at 32 and fined. That's her, so she told Judge Marrs.

They smoke up the Kemp when Homer Sanderford gives a Kiwanis "silent boost."

Thank goodness something is coming down. The city tax rate has been reduced 11 cents.

Someone pulled the window down in the court house yesterday and the Red Cross had to move out.

"Blackie" Blackmon avers it even takes talking to sell a "talking" machine.

There's three graveyards in Wichita Falls now. The two cemeteries and the courthouse. Court's gone on a vacation.

Judge Marrs peered over the corner of his glasses a few times yesterday and the city wrote down $111 more in fines assessed. Some court, we'd say.

One up and another won yesterday. Might have been two, but Ole Jup Plux interfered, just as we thought he did.

The boys at the Bachelor have gone back to nature. They are establishing an open-air colony on the roof, it is reported.

And just think of it. The Record News was the only paper to carry the dope straight on the way they stood!

Ben Neal got awfully worried yesterday when 3 motions, 13 amendments, and 6 speakers arose before him at once. And at that, they were all trying to help Ben!

R. W. Miller, general superintendent of the Wichita Falls & Southern, who has been in Weatherford for several days, returned to Wichita Falls last night.

Pitcher Keene enjoys the mound real often in a baseball suit, but when the game's over—Boy! how he struts that college frat pin and, incidentally, Mr. Keene.

Horace Smith had a week's vacation forced on him yesterday when he won the fishing pole and line that "Doc" Ralph Petterson gave away at the Kiwanis meeting.

We wonder why it is that, when some one mentions "Miss ——" that all the boys around Tipton's immediately vanish and are later to be found in the vicinity of about several blocks from Tenth and ——?

Miss Mary, little Susan Ellen and Leona Belle, doughters of Judge and Mrs. J. H. Aynesworth, will leave today for a week's visit with their aunt, Mrs. Ed McCluskey, in South Bend.

Judge H. R. Wilson of the thirtieth district court with Mrs. Wilson started Monday by automobile to Ratonn pass and other points. Judge Wilson expressed a desire to take at least a week in touring from town to town by automobile as the best way to spend his limited vacation.

Some "gang" at one table at the Kiwanis luncheon Monday. Two newshounds, one shoe merchant, one salesman and one hardware dealer. And, boy! they were all hungry. There was room for six more of 'em, but when De Fries counted up the plates after the banquet they were all empty. How do they get that way?

SCOTLAND PARK SITE OPPOSED

Curlee Picks New Location

Walter Curlee, reporting to the Kiwanians yesterday at noon, announced that some opposition has arisen to the use of Scotland park as a camping site for automobile tourists.

Mr. Curlee reported to the Kiwanians, however, that he has located a spot near the pavement on Holliday creek that could be made into such a place. He asserted that approximately seven acres of land are available in the spot to which he referred and expressed the opinion that the city council could obtain it without much trouble.

Ben Neal, president of the organization, instructed Mr. Curlee as chairman of the committee appointed to select a camp site and investigate the possibilities of obtaining the place, to continue to function in that connection.

Man With Family Lectured by Judge

"The best thing you can do is to go to work and support your children and let liquor alone."

Judge J. P. Marrs addressed this admonition to a man who faced the magistrate in corporate court yesterday morning charged with being drunk. The defendant had just admitted that he had been drinking "jake" and had replied when Judge Marrs had asked him if he was married and had any children that he had "five, your honor."

"You have a great responsibility in your home," the court continued, "and there's a great job that rests on your shoulders."

The defendant paid a fine of $5.

WATCH YOUR TRASH ON WAY TO DUMP

If you load garbage into any kind of a wagon in Wichita Falls with the intention of hauling it away to a lumping ground be sure to see that the wagon does not leak and that the garbage which is wet is placed in the proper container to keep it from leaking to the streets.

This was the warning issued by police court yesterday morning when a man charged with that type of an offense was fined $1.

Dr. A. H. Douglas of the city health department testified that the defendant had loaded wet garbage into his wagon in an alley near the Morgan building, and that the garbage dripped to the pavement, creating a pool that would attract flies. This, it was brought out, is in violation of the sanitation ordinance.

BONES ROLLED UNDER ARC LIGHT BY BLACKS

Two negroes faced two other negroes in police court Monday morning and related to Judge Marrs the way a "crap" game was conducted Sunday night at a late hour, "right out in de street undah de arc light."

The negro defendants denied that they had participated in any "African golf" game, and declared that when the officers appeared upon the scene that they were not putting money in their pockets, but were just "sticking our hands down there to get some change."

The officers told the court that on the way to the police station, the negroes put their "bones" on the seat of the car, where they were found later.

Judge Marrs fined them both $25, and warned them that the fine "is heavy because you have wilfully misrepresented and the evidence shows you have."

COUNTY BUYS ROCK

One hundred tons of rock left over by the Tibbetts Construction company from their recently completed paving on the Clay county road have been ordered purchased by the county commissioners. The commissioners ordered the rock yesterday, at $1.75 per ton.

The rock, it is understood, will be placed on the shoulders of the Clay county road, to improve the conditions of that route through Wichita county.

Boy Burglar Stores Away Loot But Somebody Finds His Cache

Following up a theory developed by the city police department, R. L. Yates, juvenile officer, unearthed several stolen articles which had been taken in loot obtained at the Little Sporting Goods company on Seventh street, August 3, and placed under his custody a 13-year-old lad who admitted his complicity in the robbery.

Mr. Yates recovered two rifles, 10 boxes of shells, an Ingersol watch and a belt which the lad admitted having taken from the store on the night of August 3. Three baseball gloves, an automatic pistol and three more Ingersol watches which were taken at the same time, and which the 13-year-old lad admits having stolen, are missing.

The little fellow told Officer Yates that he effected an entrance into the building through the skylight, and said that he had made four trips into the place in removing the loot. He also stated that he had hidden the stolen property in a secluded place four blocks away, where it was later carried off by him.

He declared, however, that someone else must have seen him hide his loot, because, he said, he had not found the property now missing upon his return for the goods.

Officer Yates carried the young lad, together with another who was arrested some time ago, to Gatesville, where they will be confined for a period of about six months.

SHOWERS HERE COOLS CITY

Crops Sorely Need Downpour

Substantial showers of rain fell in Wichita Falls and north on the M. K. and T. railroad during Monday. The showers in Wichita Falls came early in the morning and after 4 o'clock in the afternoon.

They were sufficient to cool the atmosphere and lay the dust but not enough to aid crops materially. It is said, however, that the rain northward was considerably heavier than it was here and in some cases was material aid to the cotton crop.

Reports from other sections of the county were slow in coming in and late last night it could not be ascertained whether rain of any consequence had fallen in the farm districts off the railroad.

Cotton was seriously in need of rain and if sufficient rain falls within the next few days a heavy yield will be made, it is said.

DANCING TO CONTINUE THRU WINTER HERE

Dancing has not been discontinued at Lake Wichita's pavillion.

Billy Buzzard and his jazz-hounds will be very much in evidence all the rest of this year, possibly, according to an announcement made by Buzzard yesterday afternoon.

Dancing will continue at the pavillion throughout this winter at any rate, and Buzzard's orchestra will furnish the music on Tuesday, Thursday, Saturday and Sunday nights of each week.

Billy declares he has something new to spring at his next dance, and that he will probably put it into action at the Avoleh club Friday night, during the "color dance" of that organization.

Aged Woman Told She Must Be Shocked

A woman 32 years old yesterday morning stood at the railing which surrounds Judge John Marrs' desk in corporate court.

She was charged with vagrancy and she partially admitted her guilt and partially denied it.

She admitted to the magistrate that she had been married, that she now lives in a tent on Ohio street and that she has three children living in Childress. She told the court that she plans to leave Wichita Falls soon to go after her children.

Although her case was not dismissed, the court informed her that "you've got to be shocked good before you change your life any."

BONDS FORFEITED

Judge Marrs entered a forfeiture of $25 each in two cases of vagrancy during a session of corporate court yesterday morning.

The defendants, a man and woman, were both reported by court officials to have left Wichita Falls. Both, however, had placed a $25 cash bond with the desk sergeant, Lenly Humphris, to insure their appearance yesterday.

ROAD DAMAGE PAID

Because his crops and his cattle were damaged through the paving along the Burkburnett road, which project is being completed by the Potts-Prentice Construction company, the county commissioners yesterday afternoon ordered that F. M. McKinley farmer, be paid $200 for his damages.

The damage was alleged to have been done during the paving between Wichita Falls and Burkburnett.

SOUTH BAPTISTS WANT BUILDING

Residence Now Used For Services

The south side Baptists are working hard to secure a church building and considerable progress was reported Monday.

The Baptists in that section, which embraces the Sibley-Taylor and adjoining additions, have a residence leased temporarily and held services Sunday.

Rev. Ballew, county missionary, preached during the morning service and Rev. Farrel preached the evening sermon. Next Sunday a B. Y. P. U. will be organized. There were 73 in attendance at the Sunday school Sunday. The Sunday school was organized only a week ago.

Contributions for the building of the church for the south side mission can be made to Rev. Ballew at 1415 1-2 Taylor street; to the First Baptist church secretary or to members of the finance committee of the south side Baptist mission. The members of the committee are: Mrs. G. R. Smith, Mrs. C. C. Ferguson, Mrs. M. A. James, both of whom reside on route No. 5, R. F. D.

NEGROES CHARGED

Complaints charging statutory offense were filed against two negroes in the county court at law Monday afternoon by Sam Holliday.

Boht negroes were arrested early Monday and placed in the county prison pending hearings.

NOAH DAVES BACK FROM FUNERAL

Noah Daves, county officer connected with Sheriff Fred K. Smith's department, returned to his duties Saturday following a trip to Cleaburne, Texas, where he attended the funeral services of his brother-in-law, James A. Goff, general chairman of the Santa Fe boilermakers and general chairman of System of Federated Shop Craft of the Atchison, Topeka and Santa Fe railroad, who died recently following a sickness developed during an address he was delivering to striking shopmen.

Mr. Daves narrated yesterday that his brother-in-law was buried in the Cleburne cemetery on Sunday, July 30, and that in the midst of the ceremoney at the grave, six men, wearing the robes and hoods of the ku klux klan, appeared at the grave, whispered a silent prayer and laid a "flaming cross" of roses across the grave, signifying that they paid their last tribute to a departed klansman.

Flowers sent to Mr. Goff's bier from all portions of the United States literally covered the rostrum and chapel of the Baptist church, and required an extra car to convey them to the grave, Mr. Daves declared.

CLAY ROAD IS FINISHED HERE

Last Lap Completed In Wichita

Announcements to the effect that the Tibbetts Construction company laid aside their tools on the Clay county project in Wichita county last Saturday were made at the headquarters of Potts & Prentice Co., yesterday morning.

The last lap in the road of a half mine was finished Saturday, it was announced, this completing the Clay county or Henrietta road through Wichita county to the Clay county line.

A small quantity of material was left on hand, it is understood when the project was completed at this end.
