Floydada city council meets with LULAC members

About 10 members of League of United Latin American Citizens met with the City Council at its regular meeting Tuesday night. Tino Morales opened his remarks for their presentation with remarks that "this had been going on for months...maybe years. It must come to an end before something happens...something bad happens."

Carmen Gutierrez and Marilyn Buchanan read their complaints aloud before the approximate 30 in attendance, excluding bidders. Morales read a complaint sent in writing and signed by two witnesses from Carlos Mendoza in his absence.

Mendoza told the council members that the LULAC organization was "putting them on notice to go to single member districts for a fairer minority representation." He said they would give the council until November 30. "After that time, it will be up to us as to whether we file suit."

Morales asked for the name of the LULAC organization to be placed on the agenda for next month because of his being out of town for a week for the convenience of others interested in lodging complaints to be heard.

The council accepted the request. Written copies of Tuesday night's complaints were filed with the council.

Sealed bids were opened for an elbow type insulated aerial unit and truck from UEC of Oklahoma City for a total of \$26,364.43 and from Commercial Body Corporation of San Antonio for a total bid of \$26,719. Both company's bids were based on a 1985 Chevrolet truck from Oden's.

Bids had previously been published for a used 1982 or newer Caterpillar 953 track loader or equal, but none were received. Four bids were received on a new 1984 Caterpillar 953 track loader or equal. Nichols Machinery Company of Dallas submitted a bid of \$108,006 with

a trade in allowance of \$30,494 for a total of \$77,512 with an alternate bid of \$92,512 all cash. J.I. Case & Co. subsidiary, Tenneco Company of Lubbock, submitted a bid of \$108,409. Their trade allowance reduced that bid to \$78,409; an alternate bid of \$88,409 was submitted without trade. Yellowhouse Machinery Company of Lubbock's bid was \$77,244 with trade and \$93,254 without trade. A bid of \$73,886 with trade and \$97,886 without trade was submitted by West Texas Equipment of Lubbock.

Both of these matters were tabled for further study. Those bids will be awarded at a special meeting of council Monday, November 19, at 7:30 p.m.

Glenn Reddick and Larry of Davermann Associates, Inc. from Austin and Mike Simmons with Shirley, Simmons & Zeppa, attorneys at law in Austin, met with the council to give them a briefing and a short update about what

they were seeing cities in other areas experiencing. The council authorized the electric engineers to begin a power supply study; they will report back to the council when the study has progressed sufficiently.

Demolition and cleanup bids were opened on Lot 5 & 6, Block 2 in Barker Addition. Submitting bids were R.B. Holt for \$650 and Richard Zavala of Lockney with RVA Construction for \$775. The bid was awarded to Zavala, because the council expressed he had "adequate" equipment to complete the job as bid.

The council members passed resolutions to authorize demolition on properties belonging to Roy L. Tullis located at 211 E. Crockett described as E/3 of Lot 9-10-11, Block 139, Original Floydada, and C.A. Boothe located at South Ninth and E. Georgia Street described as Lots 5, 6, 7, and 8, Block 124, Original Addition.

A public hearing will be held on December 11, 1984, at the next regular council meeting for properties belonging to D.V. Whitfill located at 429 W. Tennessee St., described as Lots 1-2, Block 112, Original Addition; Floydada Pepper and Vegetable located at 508 W. Grover described as Lot 12, Block 22, Original Floydada; and Vincent Garcia located at 119 W. Mississippi St., described as Lot 5&6&W/2 of 7, Block 93, Original Addition.

Two properties owners had granted permission for the city to cleanup vacant lots. The council agreed to advertise for bids on property belonging to Mildred Franks located at 627 W. Ross described as E/2 of Lot 4, all of 6, Block E in Andrews Addition and the shed on back of lot belonging to Mrs. M.C. Kitchens located at 426 W. Jackson Street described as Lot 13, Block 43, Original Floydada.

The purchase of a computer and software for general ledger and accounts payable, payroll and billing was discussed. Jimmie Lou Stewart, city secretary, said they had observed the IBM PC XT system in operation at Ralls and Slaton and they were convinced that it was the system they needed. The total

system would be at a cost of \$19,420. "We've got to be on by April," Bill Feuerbacher, city manager commented, referring to the city's physical year end. The two employees agreed it would take from 6 to 8 months to put all of the records, but only the general ledger and accounts payable is expected by year-end.

In other matters undertaken in the lengthy agenda council members set November 22 for the Thanksgiving holiday and Monday and Tuesday, December 24 and 25 for Christmas holidays for the city employees. Steve Hale, city attorney, was asked to draw a draft of a new ordinance for claims of personal property damage or injury to be presented at the next meeting for adoption. Olin Watson, Jr. was reappointed for a two year term on the Floydada Housing Authority board. Mrs. Joe (Roberta) Rodriguez was appointed to replace Dale Goen on the board at his request not be reappointed. Their terms will expire December 1, 1986. Pay order no. 1 was authorized for payment on the Municipal Airport Project. Feuerbacher reported the work to have progressed slowly until this past week.

Orman designated County Investment Officer

County Treasurer Glenna Orman has been designated County Investment Officer in charge of Floyd County investments by the commissioners court. The action occurred after a dispute arose between Orman and county auditor Bobbie Hamilton concerning investment of county money held in certificates of deposit.

Orman told the court "When I decided not to follow the auditor's recommendation concerning investments, she refused to sign the checks for me to re-invest. I based my decision on advice from the bank financial officers which would earn the county more money on the investments." Orman submitted Article 1709 detailing the duties of county treasurers and requested the court to decide who has authority in the matter.

"Mrs. Orman was elected treasurer and has done a good job. I feel like we should let her do her job. The voters put her in charge of this money; let her handle it however she feels will benefit the county," stated Jack Lackey.

Hamilton requested that the decision be put in the form of a motion and voted

on. Jack Lackey made the motion designating Orman as County Investment Officer. It was seconded by Bob Jarrett and passed by unanimous vote.

In more routine matters at the November 12 meeting, County Auditor Bobbie Hamilton reported that the county budget for this year was in good shape and appeared to be finishing 1984 as planned. "Some line item adjustments are necessary to transfer money not used in one area to another area which requires additional funds," she said. Judge Choise Smith asked that she present these items when court convenes on November 29.

Glenna Orman reported that county investments have earned approximately \$100,000 so far this year with some CD's maturing on November 15 and available for reinvestment at that time.

The court approved the addition of a blanket bond to cover deputies of the county clerk's office at a cost of approximately \$30 per year.

A Farm Bureau county resolution signed by Warren Mitchell and Carrie Bertrand was read urging the county to adopt a cutoff date of April 20 each year

for use of the chemical 24D Ester in agricultural spraying. The resolution was adopted by unanimous vote.

A letter from Kenneth P. Gearheart, Director of Economic Development for South Plains Area Government, requested that the commissioners pass a motion to join the Agricultural Development Co-op at its related provisions. The organization is basically designed to issue bonds and raise money to further agricultural development and employment in ag related areas. The matter was tabled until a later date.

Sheriff Fred cardinal asked the court to approve the deputation of James L. Norrell as a reserve deputy for the Sheriff's Department. "Reserve deputies help us a lot and save us money. They are only used during special circumstances and always accompany a full time officer," said Cardinal.

"I am not in favor of reserve deputies. Using them is just asking for trouble," said commissioner Jack Lackey. "We have enough law enforcement

officials in this county to handle our problems already."

The insurance agent for the county, Sam Baker, was consulted as to the county liability in case a reserve officer is injured or injures someone. Baker stated, "They are covered by the county policies, but may not be covered by workman's compensation. This should be carried for them."

The court passed the necessary resolution to cover reserve officers under workmen's compensation at a cost of approximately \$400 to \$500 per year. Commissioner Lackey voted against the proposal saying, "I can't in good consciousness vote for this since I am against the use of reserve deputies."

Norrell was approved as a reserve officer and the deputation of Weldon Emert and Bill Dawson was cancelled in a motion made by Sam Spence and seconded by Thomas Warren. Motion was carried by a vote of 3 to 1.

School Board repays loan

Superintendent Jerry Cannon reported to the board that \$376,087.05 has been collected in local taxes as of October 31. This is 40.91% of the roll collected and leaves \$543,070.31 still to be taken in at the local level. "Initial collections were used to repay the loan taken out to underwrite the first weeks of school and a \$100,000 certificate of deposit has been purchased as an investment," stated Cannon.

Bids were opened for the sale of two school buses no longer used by the district. The bid was awarded to City Auto in both cases. Leroy Burns of that firm submitted the high bids of \$300 on the 1969 Ford and \$1000 on the 1973 International.

Bids for replacement of the three doors, two at the front and one at the side of the front, of Graves Gym were opened. The low bidder was Walter Davis Construction at \$4300. Work is scheduled to begin upon arrival of the new doors approximately four weeks after order is placed.

The tutorial policy mandated by House Bill 72 was reviewed and approved. Cannon reported "participation at high school is good, but is only minimal at the other schools. Tutoring is being provided before and after school for 45 minutes. Teachers are being paid \$7.50 for these extra sessions.

Cannon presented the preliminary requirements for local implementation of the career ladder program and asked the board to consider the appointment of the three school administrators who will serve on the selection board.

Fred Zimmerman stated, "I think this matter needs more time than we have to devote to it tonight." Hulon Carthel agreed saying, "These choices will be very important and could cause long range problems. I think we should think about it carefully."

The board elected to take the matter up again at the next meeting.

Cannon submitted, with the board's approval, job descriptions for librarians, teachers aides, and custodians to be included in the policy manual. Also approved were the evaluation forms to be used in assessing job performance throughout the system this year.

The board voted to approve membership in the Texas Association of Community Schools at a membership fee of \$200 per year.

Superintendent Cannon informed the board that City Auto would not be able to deliver the new ag pickup on schedule due to delays in manufacture of the 454cc engine specified in the bid. February is the new estimated delivery.

Final business for the month was the rescheduling of board meetings for the second Monday of each month for December and January due to basketball season.

By resolution of the Board of the Association, once the Arts Association obtains a permanent "home", a plaque will be attached to the building showing the names of all who have been memorialized by means of such contributions to the building fund. Readers are urged to consider such enduring contributions in the future, especially when honoring the memory of someone who had an interest in some area of the visual or performing arts.

Arts Association proposes

"Train Day" in 1986

At a meeting this week, the official Floyd County Sesquicentennial Committee approved plans presented by the Floyd County Arts Association for a "Train Day", to take place in August of 1986, as a part of the 150th celebration of Texas.

This project will be subject to the finalizing of plans made through the Greater Dallas Sesquicentennial Committee to bring an authentic, old steam train across the state from East to West and from North to South. The "Texas Independence Express", as the locomotive is named, will be making a trip from Amarillo to Galveston during August and September of 1986. Sara Probasco has been in frequent contact with those planning this excursion, in trying to get the train to come through Floyd County. Railroad officials were surprised to learn that Floyd County is the site of the only remaining railroad tunnel in the state of Texas. Many had been unaware of its existence. Much interest has been generated as a result of calls, letters, the sending of maps and photographs, as well as data concerning other points of historical interest in the area that might be of additional interest to the train's passengers.

The train will be composed of approximately 15 cars, including some pullman and some coach cars, and is expected to transport some 400 passengers.

ject centers around the hope that it will be possible to route the train through Floyd County with a stopover in Lockney for several hours. These hopes seem well founded, according to contacts in Dallas. "Train Day" would be a day-long celebration turning back the clock to days gone by. Ideas presented include an arts and crafts fair featuring only those crafts that might have been enjoyed 150 years ago, and including demonstrations of quilting, candle-making, basketry, leather-craft, etc. Also under consideration would be Chili- or Bar-b-que cookoffs, a melodrama centered around the railroad, square dancing, fiddling, etc. In other words, a gala combination of "Old Fashioned Saturday Night", "Entertainment Extravaganza", Arts and Crafts Bazaar, etc. that would involve the participation of any and all individuals or groups throughout the county who would like to take part. The Arts Association would coordinate and plan all of the various aspects of the day around the train schedule.

It is predicted that such an event would attract people from miles around to see the train, in addition to welcoming the passengers (some of which would be coming from other parts of the country) to Floyd County.

If plans can be finalized before the end of the year (1984), this event will be included in the "Official guide to Sesquicentennial Events in Texas", which will be distributed around the U.S. in the Fall of 1985.

Commissioners Court

Election results for the November 6 General Election were canvassed and certified to be correct after the correction of minor errors in the tally.

Discussion concerning the proposed purchase of a computer for the county auditors office was extended, requiring most of Monday afternoon and Tuesday morning after a recess was called at 4:30 p.m. on Monday, November 12 and court re-convened at 8:30 a.m. on Tuesday, November 13.

County auditor Hamilton said "It is not a matter of wanting to or being able to. I cannot put my records on the Tax Appraisal District computer. The confidentiality of the records could be questionable."

Commissioner Lackey stated, "We would be putting the taxpayers in double jeopardy. We already have a computer in the Appraisal District capable of doing what needs to be done. It's a shame that these women can't work together without buying another computer."

Hamilton submitted a report comparing various computers and their expandability to include other county offices as well as the cost. "For my needs in my office, a professional personal computer is sufficient. The court asked for this report on multi-user systems, and I did the research for it."

"The comparative cost estimates for purchasing a system sufficiently able to perform as needed and estimates of the cost of adding the auditors office to the

Appraisal District computer are negligible, about \$500," said Sam Spence.

"There is more to consider than initial cost," according to Lackey. "Maintenance costs and supplies will be added to the budget each year."

"If it isn't going to cost much more to buy what the auditor wants than to go on this other computer, maybe she should have what she feels suits her requirements," said Bob Jarrett.

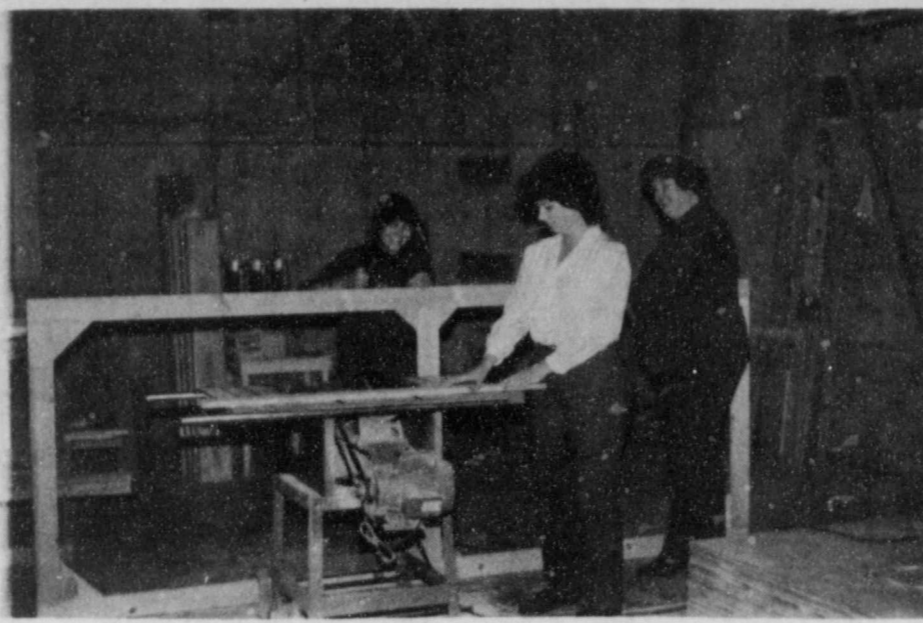

Hamilton asserted, "I am not trying to push the court into anything, but I need to know the direction the court is going on the computer issue so I can plan my work."

Jarrett said "I am more undecided after this meeting than I was a month ago. I don't think we are ready to make a decision yet."

"At first, I had thought it would be simple to buy a small computer and put Bobbie's records and the voter registration on it. Now others have expressed an interest in being added to the computer and the amount in the proposed budget for this is not sufficient," said Judge Choise Smith.

The court elected to delay a decision until another time.

Judge Smith presented plans for the courthouse renovation drawn by Shriver-Megert and Associates to comply with the handicapped requirements. Bids for the work will be advertised in local, Lubbock, and Amarillo newspapers. Bid opening will be at 4 p.m. on November 29.

Art Association to present dinner-theatre production

"Spirit!", the dinner-theatre production of Floyd County Arts Association is in its final stages of rehearsal. Tickets went on sale to the general public this week, and already the reserved sections are filling up.

The two productions, (to be presented on Saturday, Dec. 1 at the Lockney School) will include a dinner of "Filet of Prime Rib" with all the trimmings.

The Scenery committee has been hard at work for the past two weeks making the framework and covering it with canvas. These "flats" will be hinged together to form the walls, doors, and windows of Clara and

Esther's room at the Happy Hollow Retirement Home.

As this is the first production for the Arts Association, everything is being done "from scratch", but with continued future use in mind. The scenery now being constructed is expected to last for many years as the Association continues to present drama events for the County.

Tickets are available through any member of the cast and the Association Board of Directors, or may be purchased at the First National Bank of Lockney, First National Bank of Floydada, and the Floydada Chamber of Commerce.

"Thanksgiving is a time for rest and gratefulness" cautions DPS

Lubbock Major V.J. Cawthon, Department of Public Safety Regional Commander said, "Drivers should be extra cautious during the Thanksgiving holidays. It is a time for us to rest and be grateful for many things." The Major urges Texas motorists to begin using seat belts on all occasions when

operating a motor vehicle. He said, Safety finds that it is better to be safe than sorry. Remember when driving, a person who has been drinking is a slower thinking person. Most driving "Over 98% of all traffic fatalities last year were not wearing a seat belt."

The Texas Department of Public

skills are not natural, rather they are learned skills. This means that a drinking driver is less skilled and more dangerous than a sober driver. Remember that probably 50% of all traffic fatalities involve a drinking driver. Try to keep an eight hour span of time between the bottle and the throttle.

Social Security

By Terry J. Clements

Whenever an employee is hired, the employer is responsible for recording that person's Social Security number and home address. This is essential if employees are to receive full credit for all Social Security-covered employment. The employer should copy the employee's Social Security number directly from the Social Security card.

At the close of the calendar year, employers are responsible for submitting Form W-2 (Wage and Tax Statement) to the Social Security Administration (SSA). This form shows each employee's annual earnings and tax information.

Unless this information is reported in timely fashion and with the employee's correct name and Social Security number, he or she may never be credited with the correct amount of earnings. This in turn, may affect future eligibility for, and the amount of monthly retirement, disability, and survivors insurance benefits for the worker and his or her family. If it is found that an employee's name and/or Social Security number has been reported incorrectly, the employer should furnish the correct information.

If you have any questions you may visit at 1401-B W. 5th, Plainview, or call us at 293-9623.

Worship service to be held

This Sunday, Nov. 18th, at 7:30 p.m. Floydada's community Thanksgiving worship service will be held at the First United Methodist Church. The church is located at 203 W. Kentucky.

G.A. Van Hoose, pastor of Trinity Church in Floydada, will deliver the Thanksgiving message. There will also be a number of musical presentations from various participating churches and a combined choir.

One of the purposes of this service is to raise financial support for "Spirit of Sharing." During this service an offer-

ing will be received for this community endeavor. Jack McIntosh, an associate of Spirit of Sharing, will be updating the congregation on some of the ministries this organization provides for the community of Floydada and the surrounding area.

The central purpose of this service, however, is to give a unified expression of our thankfulness to God. We are blessed people in this nation. Everyone is encouraged to attend.

Susan Hendrix-Whited pledge marriage vows

Miss Susan Kay Hendrix and Danny Lee Whited exchanged wedding vows on Saturday evening, November 3, at 6:00 p.m. at the First Baptist Church in Floydada. Dr. Floyd C. Bradley, area missionary, assisted by the Rev. Howell Farnsworth, pastor of First Baptist Church, performed the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Bill Hendrix of Floydada. The parents of the groom are Mr. and Mrs. Dan Whited of Lawton, Oklahoma.

The altar was adorned with brass pyramid candelabra decorated with pink gladioli, dubonnet carnations and jade and pink candles. The area was flanked with two palms of jumbo jade on each

side and a pair of seven branch candelabra, decorated in pink and dubonnet daisy poms and pink candles.

Escorted to the altar by her father, the bride was radiant in her formal floor length white wedding gown of wedgewood lace and Venice lace over bridal taffeta designed with a high neckline, natural waist and long lace sleeves and bouffant skirt. The bodice was enhanced with net which was complimented with lace appliques. Rows of ruffles on the skirt fell in waterfall fashion and the full back of the gown ended in a sweeping cathedral train. The bride designed her hat, which was made by the groom's aunt of Waco. She carried a cascade bouquet of white roses, stepha-

notis, and white sinuata statice.

To carry out bridal tradition, the bride carried a handkerchief, belonging to her great-grandmother, as something old; her wedding attire was borrowed from her sister-in-law, Joan Hendrix of Odessa; and her garter, made by the groom's aunt, was something blue. She also placed pennies in her shoe minted in the birth years of the groom and herself.

Attending as maid of honor was Treva Hambricht of Waco. Holly Hendrix, sister-in-law of the bride of Floydada, and Tami Tanner, cousin of the groom of Hewitt, Texas, served as bridesmaid and junior bridesmaid, respectively. Nieces of the bride, Mandy Hendrix of Odessa and Joni Hendrix of Floydada were flower girls.

Bridal attendants were attired in burgundy, floor-length dresses with sweetheart necklines. Their bouquets consisted of mauve gerbera daisies, alstromeria and leatherleaf fern.

Serving as best man was D.L. Chambers, cousin of the groom of Waco, and Ronnie Tanner, cousin of the groom of Hewitt, acted as groomsmen.

Guests were seated by Steve Hendrix and Joel Hendrix, both brothers of the bride.

Musical selections were presented by Mrs. Bill Hardin, organist, and Christi Norrell, pianist, along with Mrs. Carolyn Cheek, who vocalized "I Owe You," "There Is Love," and "The Wedding Prayer."

A reception was held in the Wall Street Parlor following the ceremony. The bride's table was set with silver

appointments on a white lace cloth with the attendants bouquets completing the setting. The three tiered wedding cake was decorated with pink roses and lattice work and was topped with a miniature bride and groom.

Serving refreshments were Joan Hendrix of Odessa, Jody Smith of Lubbock, Charlotte Tanner of Hewitt and Esmo Gonzalez of Floydada.

Serving in the houseparty were Mrs. Tommy Assiter, Mrs. John C. Moss, Mrs. Corkey Guffee, and Mrs. Tom Moore.

After a brief honeymoon, the couple will be at home in Waco.

The bride, a Floydada High School graduate, attended West Texas State University and Miss Wade Fashion School in Dallas. She is currently employed with Cox Department Store in Waco.

The groom has attended TSTI in Waco and is employed with Darr Equipment Co. in Waco.

A rehearsal dinner was hosted by the groom's parents in the fellowship hall of First Baptist Church.

A shower for the bride and groom was hosted in the home of Mrs. Dan Hagood. Hostesses for this courtesy were Mmes. Tommy Assiter, Dan Hagood, Tom Moore, Corkey Guffee, W.H. Simpson Jr., Bill Cagle, Ronnie Evans, Gordon Hambricht, Keith Marble, Fern Hartsell, Lisa Howard, Choise Smith, John C. Thanksgiving food drive started

Floydada Spirit of Sharing is starting a Thanksgiving food drive this month in order to replenish empty shelves in the food pantry and to prepare for those in need with the approaching winter months ahead.

For some families winter means many hardships, including going without food or clothing. The purpose of the drive is to collect food to help those in Floydada that may face that type of hardship.

Peggy Medley, vice-president of SOS, and food pantry chairman, is asking for the assistance of civic organizations, churches, Sunday school classes, individuals and school youngsters to start a food box for SOS. If you need help in beginning the project, Mrs. Medley may be contacted at 983-3392 or 983-5874. Remember gifts of food will help to help others.

Two recent reports in Texas have indicated there is a widespread hunger

problem in this state, affecting as many as 961,000 people, and the problem is getting worse, according to the Physician Task Force on Hunger.

The Senate Interim Committee on Hunger and Nutrition, which held hearings throughout Texas, calls it "shocking" that a state with one of its lowest unemployment rates in the nation has elderly, pregnant women, and children who are seriously hungry. The Senate reports indicated that 75 percent of the people requesting food at emergency food centers are asking for the first time. Floydada SOS is among the food emergency centers also receiving "first time" requests.

To meet this demand for food and in order to see that no one goes hungry in Floydada, SOS is asking that you do your part. As we look forward to Thanksgiving, let us count our blessings as we share together in this project of helping those in need.

"Carnival"

Editor's Note: Mr. Manfred Saunders of Lubbock, who attended the R.C. Andrews Elementary School Halloween Carnival, wrote his impression of the evening in the following poem:

Carnival

Amid the orange and the black, the pumpkins and the ghouls. The festive air, the joyful sounds resounded in the school. For here tonight there was to be a different atmosphere. No studies, papers, books, or tests could possibly appear.

The halls were gaily colored and signs proclaimed the wares. Guess the beans, the age, or birth, or buy the cakes right there. Roam thru the spooky labyrinth or choose some painted hair. Or even have your countenance completely changed and rare.

With spangled nails of every hue proceed now to the gym. And walk the circle for a cake that someone's sure to win. While down below along the walls, your prowess you can prove

With darts and balls and fishhooks, a prize with every move.

The throng of folks, the span of age, the varied sum of all Gave one pause to reflect somewhat and honestly recall That this is our America which gives the joy to be Both free and well accepted as a part of liberty.

There in the eyes of children one saw happiness blaze forth For this was their endeavor for celebration and its mirth. Little cowboys, ghosts, and goblins paraded round the hall With witches, and red demons and some from Cinderella's ball.

No matter what the cost of time and energies well spent, Regardless of the plus report in dollars and in cents, The evening was a generous gift to the little folks who came For the joy they felt and the fun they had is nothing short of gain.

Five awarded Child Care Credentials at T.M.C.

Alva Nellie Riojas, Delia Medrano, Cecelia (Sally) Martinez, Nora E. Solorzano and Josie Torrez of the Texas Migrant Council in Floydada have been awarded the Child Development Associate Credential in recognition of outstanding work with pre-school children in a group setting. The credential is awarded by the CDA Credentialing Commission, which is working to improve the quality of child care provided for youngsters in child care centers. The Commission represents the early childhood profession through its member national organization.

Every candidate for the CDA Credential is assessed by a team of four persons including three from the local community. The team members observe the candidate working with children and

evaluate the caregiver's competence in six areas. These range from establishing and maintaining a safe and healthy learning environment to advancing the child's physical and intellectual growth. The three local assessors were parent representatives Linda Ocha and Rosa Trejo with Belia Sarabia, ERST, Marie Cherry from Washington, D.C. represented the CDA credentialing commission in the evaluations.

In an age when both parents of an increasing number of children are working outside the home, finding an environment in which children will receive more than basic maintenance has grown in importance. CDA assures parents that the credentialed caregiver is capable of providing competent and nurturing care.

Green Thumb training provides fire safety tips

In case of fire, has your family worked out a plan of escape from every room in the house, and, if possible, to close windows and doors?

These and other questions were asked when more than 60 Green Thumb workers assembled in the Crosby Senior Center, November 13th for training. Grady Ammon of the Lubbock Fire Department gave the group several fire prevention tips, such as, "are all electrical connections (cords, outlets, lamp and appliance switches, etc.) in perfect condition? He told the seven-county area group that the kitchen stove is one of the main causes of accidental fire and smoke loss.

Also on the program was a representative from the American Heart Association who talked about the problems of high blood pressure and its connection and possible alleviation through nutrition.

Green Thumb District Director Susan Armstrong talked with the Green Thumbs about administrative matters and presented a film from the Central Texas Chapter of the Red Cross that dealt with home safety.

Green Thumb is an employment program for seniors that is sponsored by Farmers Union and funded by the Department of Labor under Title V of the Older Americans Act. Rural residents who are over 55 years of age and income eligible are hired by the program and placed with non-profit organizations where they provide services to their communities. Green Thumb is an equal employment opportunity employer.

Attending the session from Floyd County were Petrolis Ortiz, Andres Polis, Georgia Finley, Mary Adams, Katherine Edwards and June Van Cleve.

LAKEVIEW NEWS

By Joyce Williams

Thursday, Nov. 15, 1984:

Mrs. James Lee Nichols displayed her lovely handmade dolls at the Lions Club Arts and Crafts show Saturday in the Massie Activity Center. Exquisite little costumes with tiny tucks, pleats, ruffles in authentic period detail are handmade by Eva Lee for the dolls she has created. They look like the baby and children's clothes mothers made for their children fifty to a hundred years ago, each stitch reflecting loving care.

Mrs. Ann Glasscock had a large double booth of her handmade wooden arts and crafts with her parents, Mr. and Mrs. Weidon Hammonds helping with sales and supervision. Wooden and fabric magazine racks, heart trimmed coat hangers, framed mirrors, even quacking duck toys made from old inner tubes and a wooden duck were among Ann's handiwork. Faye Bertrand bought the duck push toy at a sale somewhere and showed it to Ann, who has been selling them ever since.

Even the little Breed twins were at the Arts and Crafts Show. They were carried by their mother, Mrs. Rex Breed, and their aunt, Mrs. Joe Mack Breed.

Mrs. Robert Muncy, Mrs. Norman Muncy and Mrs. Mike Giesecke also attended the show and shopped for craft work. They, along with Mrs. Flora McNeil, admired the paintings of western artist, Kenneth Wyatt, displayed with his books.

Mr. and Mrs. Mike Bishop ate Sunday dinner with his parents, Mr. and Mrs. Howard Bishop. Later in the afternoon Mr. and Mrs. Pete Calloway visited her sister and family. Greg Bishop is busy stripping cotton and enjoying every minute of it. All the farmers are so glad to finally have a cotton crop to gather after two previous years of nothing.

The Lakeview Gin is going early and late. Mrs. Beverly Harrison is helping at the gin office this year.

Monte Williams used the bank holiday Monday to move cattle with Norman Muncy and Q.D. Williams.

Mrs. Q.D. Williams and grandchildren, Austin and Ashleigh, visited her father, Edgar Jones, in Truscott, Sunday. His granddaughter, Miss Jacquelyn Brown, was also there, enjoying a holiday from her bank job in Houston. Other guests were Mrs. Ed Moble and sons of New Mexico, Mrs. Norma Lee of Vernon, and Mrs. Clara Brown of Truscott. A two and a half inch rain there recently has wheat fields from Paducah eastward looking like golf courses, but pastures are still bare, and tanks are empty.

The oil news is that plans are still on for the rig to move in on the Adams place within the next week or two. While no new leasing is going on in Lakeview, it continues eastward around Roaring Springs and is reported to be active in the Quitaque area again.

The paved parking lot abandoned when the United Transport Company, who used to haul new cars in and out of Floydada, has a new use now. It is being used to store modules of cotton. It's good to see that fine area being recycled. Weeds had pushed up through the asphalt so one could hardly see the paving. Now it's cleared and

lined with white mountains of cotton. Sunny days, dry and fine for cotton harvest are allowing the strippers to gather in the cotton. Just what they hoped for.

Blood pressure clinic is announced

Marie Milliken, R.N., President of the Great Plains Home Health Agency invites area residents to help celebrate National Home Care Week in Floydada.

The President and the Congress have proclaimed November 25-December 1, 1984 as National Home Care Week to pay tribute to the thousands of dedicated individuals throughout American whose efforts allow more than five million elderly, infirm, disabled or dying to receive skilled health and social services in the comfort and privacy of their own homes.

Mrs. Milliken remarked: "There is a movement in this country to find less expensive and more humane ways to provide health care to our growing elderly population, as well as to children and young people who are temporarily or chronically ill or disabled. Lawmakers are finally discovering what we have known all along: Home care supports the dignity and independence of our most vulnerable by keeping them out of hospitals and nursing homes for as long as possible. It keeps families together and offers a compassionate and low cost way to care for our loved ones. In an era of skyrocketing health care costs, home care offers an excellent alternative to institutional care both because it is less expensive and because it encourages the self reliance and cooperative effort upon which this nation is founded."

Mrs. Milliken went on to note that Great Plains Home Health Agency has been proudly serving the Floydada area for three years with foundation experience dating back to July 1, 1966. They provide Nursing Services, Home Health Aides, Physical Therapy, Speech Therapy and Social Services to over 66,000 people every year.

Home Care Week in Lubbock will kick off with no charge blood pressure clinics from 8 a.m. to 5 p.m. Monday through Friday at 2321 50th Street, Suite D. The blood pressure clinic in Floydada will be on November 27 from 10-12 at the First National Bank. The Great Plains Home Health Agency hopes that as many Floydada residents as possible will take part.

Mrs. Milliken concluded by saying: "The theme for National Home Care Week is **When It Comes to Health Care, There's No Place Like Home.** We think that says it all."

Annual brunch discussed

The Floyd County Chapter of the American Cancer Society met Tuesday, Nov. 6 at 5:00 p.m. at the A&M Extension office.

Judy Allen, President called the meeting to order. The main topic discussed was the Christmas brunch which will be Saturday, Dec. 8 from 9:30-11:00 in the home of Mrs. Eugene Beedy. Tickets will be \$5.00 and can be purchased from any board member or bought at the brunch on Dec. 8. Door prizes will be given and everyone is invited to attend.

Judy Castillo brought the film strip "Health Myself". This film series can be used in our school system to make children more aware of the health hazards in our society today.

The Great American Smokeout was discussed and it will be Thursday Nov. 15. This year "Adopt a Smoker" theme is being used to help those who smoke to try to quit for Nov. 15 as well as the future.

The meeting was adjourned. The next meeting will be Tuesday, Dec. 4.

Arts Assn. finalizes Spirit!

FARM NEWS

Farmers to lower prices

Vowing to "bring down natural gas prices," farmers from throughout the Texas irrigation belt will meet November 17 in Dimmitt to organize the Texas Agricultural Energy Users Association. The Association has already been chartered. "All we need now," says Carl King, president of the Texas Corn Growers and one of the organizers of TAEUA, "is the support from farmers we need to get the job done."

The group will meet at 7:30 p.m. Nov. 17 in the Castro County Exposition Building, three blocks southeast of the courthouse in Dimmitt.

Bill Clayton, former speaker of the Texas House of Representatives and now regarded as one of the most effective lobbyists in Austin, will highlight the meeting. Clayton, retained to represent TAEUA during the upcoming legislative session, will outline his plan for pushing through a bill which would bring natural gas prices and quality under the control of the state.

King said Texas Corn Growers and the Texas Sugar Beet Growers Association have furnished the money to get the new organization off the ground, but said they are counting on a big turnout at the meeting to show the full support of irrigation farmers and agribusinesses for the new association.

Bill Cleavinger, president of the beet growers' association, said he and other farm leaders have tried before to get regulations approved in Austin, but have always been frustrated by the efficient efforts of the gas lobby.

"This time," he added, "we have got to get it done. We're running out of time. In the last 10 years, we've been force-fed an 800% increase in gas prices, and irrigated agriculture is being strangled."

Cleavinger calls intrastate gas sellers "an unregulated monopoly" with unilateral pricing authority. "As farmers, our choice when they increase the price is to pay up or get out. We've got to have some relief, and we've got to get it before another farming season starts."

"You know something is wrong with the system," adds King, "when the big industrial users can afford to bring in trainloads of coal from Wyoming cheaper than they can buy the natural gas being produced a few miles from their plants—especially when so many gas wells are shut down because the utilities say they can't sell it. At the same time, more than a third of the irrigation wells in the Panhandle have been shut off because we can't afford to buy it."

King and Cleavinger said they had had initial contact with several large agribusiness concerns who use large amounts of fuel and they expect funding and cooperation from several.

"But we're counting on 100% support from irrigation farmers," said King. "We think that with Bill Clayton and the current political climate, we've got a good shot at getting something done. But the only way we can do it is with the full support of irrigators from throughout Texas."

COTTON TALKS

FROM PLAINS COTTON GROWERS, INC.

Strong opposition to new pesticide application standards proposed by the Texas Department of Agriculture and support for efforts to halt spiraling energy costs were the dominant positions adopted by Plains Cotton Growers, Inc. at the PCG Board's quarterly meeting in Lubbock October 24.

TDA formalized its intentions to impose extensive controls on pesticide use in Texas agriculture by publication in the Texas Register on October 23 after months of haggling over the proposal with PCG, other commodity groups, aerial applicators, chemical companies and others.

PCG's unanimous vote against the new regulations followed a vigorous denouncement of almost every paragraph in the six-page proposal by Tommy Fondren of Lorenzo, PCG Board Chairman. Fondren also is Chairman of the Texas Association of Cotton Producer Organizations which resolved to oppose TDA's actions at a meeting in Dallas October 9.

Fondren expressed his opinion that the detailed notification requirements, field re-entry intervals and protective clothing requirements proposed by TDA are not needed. Producers, he said, already take the necessary precautions

to avoid unreasonable risk of pesticide injury to workers, applicators and themselves.

For this "we don't have to have a law," he stated.

Fondren went on to note that TDA's proposed re-entry intervals differ from either or both the labels printed on pesticides and the intervals required by Washington's Environmental Protection Agency. "How is the producer to know what's required of him?" he asked. "This inconsistency and the vague wording of some of the other rules will just encourage lawsuits and make attorneys rich."

Texas law requires at least a 30-day comment period following Register publication before the rules can take effect. Earliest possible date for adoption, according to the Register notice, is November 23.

PCG will follow up on the Board's resolution, according to Executive Vice President Donald Johnson, by filing formal objections with TDA during the comment period and by presenting testimony at any public hearings scheduled in the interim.

Ray Joe Riley of Sunnyside and Texas Corn Growers President of Carl King of Dimmitt updated the Board on activities of the Texas Agricultural Energy Users Association (TAEUA). That organization, an outgrowth of the 24-year-old Plains Gas Users Association, had engaged the services of former Texas Representative Billy Wayne of Springlake to seek state legislation beneficial to both natural gas and electricity users in agriculture.

The PCG board voted its unanimous support of TAEUA activities.

November 16 - 22 focuses on farm and city teamwork

Farm-City Week, Nov. 16-22, focuses on the teamwork of farm and city people as partners in growing, processing, marketing and consuming food and fiber.

"In Texas, movement of food and fiber from the farm or ranch to the supermarket and family table provides jobs and income for about a fourth of the working force," points out Dr. Carl Anderson, marketing economist with the Texas Agricultural Extension Service, Texas A&M University System.

Nutt judges at Kansas City

Members of the Abilene Christian University senior judging team were among 20 teams with a total of 100 contestants competing in the American Royal Livestock Show in Kansas City, Missouri on November 3. Mark Nutt, an ACU team member from Floydada, placed eighth in sheep judging. Other members of the ACU team in competition were Jay Beakley, Shane McClung, Kenny Day and Ben Head.

The team will compete again Monday, Nov. 12, in Louisville, Kentucky at the North American International Livestock Exposition where about 45 teams will participate.

Mark is the son of Mr. and Mrs. Ed Nutt of Floydada.

Saturday, November 3, the Senior Conducting Team, Junior Conducting Team, and the Quiz Team went to Lubbock to compete in area contests at Texas Tech. The senior team placed 11th, the junior team placed fifth and the quiz team placed sixth.

The members of the senior team are: Pam Richardson, Shannon Barbee, Shannon Edwards, Jeff Matsler, Brent Williams, Matthew Redding, and Troy Don Faulkenberry.

Members of the junior team are Chad Pernel, Heath Robertson, Michael Hicks, David Christian, Ty Stovall, Jason Brown, and Keith Hancock.

The quiz team is made up of David Morren, Tony Shipley, Roger Alldredge and Greg Thompson.

Monday, November 12, the FFA held a meeting concerning the sales of T-shirts. The T-shirts being sold show a Whirlwind dunking a basketball. It is hoped this will raise the morale of the town in preparing for the upcoming basketball season. The shirts sell for \$8.50 each in all sizes. After the meeting, refreshments were served.

Beginning Nov. 1, the Cotton Board is recognizing 338 gins in 15 states "for attaining 100% producer support among their growers" for Cotton Incorporated. In a letter to Cotton Belt gins, Glen Stevens, Fresno, chairman, announced that these gins will be the first to receive a special plaque in a new recognition program, beginning with the 1983-84 crop year. The reason, he said, is in appreciation for "...outstanding industry leadership and 100% producer participation in the Cotton Incorporated research and promotion program for the past crop year." Noting that the gin is crucial to building grower support for Cotton Incorporated—now supported by slightly over 75% of all grower dollars—he encouraged all 1,880 gins to qualify this season.

"One out of every 35 Texans is a farmer or rancher, and about 30 percent of the state's retail trade business is directly associated with agricultural production and selling of food and fiber products," says Anderson.

Many businesses, financial institutions and individuals are involved in providing supplies, credit and services to farmers and ranchers and in processing and marketing agricultural commodities. Nationally, one out of every five jobs in private enterprises is tied to agriculture.

With its \$9 billion in cash receipts from agricultural commodities in 1983, Texas ranks in third place behind California and Iowa. Texas, however, is traditionally number one in the sales of cattle and calves, cotton, grain sorghum, sheep and wool, goats and mohair, cabbage and spinach.

Total farm assets in Texas are estimated at \$92 billion. With 185,000 farms in Texas, assets average about a half million dollars per farm. Many commercial size, full-time operators, have in excess of a million dollars invested in their farm or ranch businesses.

"Producing an abundance of high quality food and fiber is inherent to American agriculture. Americans spend far less of their take-home pay on food than people in other countries of the world," Anderson points out. "Today that averages about 16 cents of every dollar of disposable income, with 4 cents of that spent on food eaten outside the home."

"Together, farm and city people make the best food and fiber team in the world," he believes. "This gives a country the capacity to feed its own people and to export for economic gain as well as for humanitarian purposes."

The U.S. farm population is about 2.4 percent of the nation's total. Each farm worker now supplies enough food and fiber for 78 people, 20 of which live abroad. Only 10 years ago, each farm worker produced for 47 people.

Bring One Grower Drive Launched: A special program called "Operation Big" has been launched to create wider interest and more participation by cotton producers in the 1984 Beltwide Cotton Conferences sponsored by the National Cotton Council and other groups.

BIG, which stands for Bring 1 Grower, was designed to allow agribusiness firms to play a major role in increasing grower participation in the conferences, January 6-11 at the Marriott Hotel in New Orleans.

Robroy Fisher, a Greenville, Mississippi, producer who will serve as general chairman of the 1985 Beltwide Cotton Production Conference, says he fully supports any help from agribusiness that would add more grower participation.

"I don't think most growers realize the amount of knowledge available at the Beltwide," Fisher said. "There's no

Mayor Powell addresses second grade students

Mayor Parnell Powell spoke to the second grade students at Duncan Elementary on Friday, October 26. The subject of his talk was local government.

The teachers of the four classes, Phyllis Smith, Kay Dean Smith, Carolyn Smith, and Gloria Fannon, have been directing a study of our country and its government. As a part of that, the mayor agreed to tell the students about Floydada's city government.

The class has also delved into the mysteries of elections. The classes have held an election for classroom monitors. The classes began with nominations and carried through to the actual voting to elect two monitors. Chad Hinsley and Shayla Turner were the students' choices for the posts.

Mayor Powell said, "I was delighted to try to explain our city government. I

was scared to begin with, because I didn't know if I could say anything they would relate to, but it turned out just fine."

When asked what they thought about elections now that they had studied them, the responses were very enlightening. Corey Carthel said, "It is hard to decide who to vote for." Andy McHam agreed.

Rain McCandless said, "I think it is good to have elections."

Derrick Martinez stated, "A president gets a lot of pride and respect, but I think it is hard to get in an election." Joni Spence said, "I think they are fun."

The most unusual opinion came from Jason Arney. He said, "When you have an election, the men get guns and shoot and who ever is left after you shoot, is elected."

MAYOR PARNELL POWELL is pictured with Shayla Turner and Chad Hinsley who were elected class monitors for the second grade at Duncan Elementary.

Varsity finishes season against Tulia Hornets

By Joe Paty

The Floydada Whirlwinds finished the 1984 football season playing Tulia at Tulia. The Whirlwinds fell to the Hornets 21-0; the score was not a good indication of the effort of the Winds.

The team made a good effort but was plagued by mistakes. Tulia made 2 big plays to lead 13-0 at the end of the first half. Floydada moved the ball fairly well but could not sustain a good drive and take advantage of the two opportunities to score in the second quarter. The Whirlwind defense continued to play well, but a spattering offense kept any points off the scoreboard.

The second half seemed to be a carbon copy of the first. Floydada recovered the opening kick-off but could not take advantage of the opportunity. Tulia continued to pound away during the second half and scored on a 35 yard pass completion and converted a two point x-point to take a 21-0 lead in the fourth quarter. Tulia finished with night with 10 first downs, 80 yards passing and 192 yards rushing. Floydada had seven first downs, 13 yards passing and 125 yards rushing.

This was the end of football for 10 seniors, but their attitude, hard work and continued improvement is not

noticed. These young men have displayed true character by "staying-in-there" and competing when the "chips" were down — most would not have "stuck-it-out." We commend each of these men and want to wish each of them the very best in the future. Our 1984 seniors: Michael Saens, David Morren (Captain), Terry King (Captain), Tony Caballero, (Captain), Larry Smith, J.B. Cates, Derrick Jenkins, Adolfo Garcia, Peter Morales, Greg Thompson.

Varsity underclassmen are: Juniors - Brad Rainer, Richard Rendon, Alvin Cooper, Haney Robertson, James Burns, Danny Degollado, Joey Kemp, Tomas Delgado, Jeff Matsler; Sophomores - Leif Younger, Clay Lowrance, Joe Gonzalez, and Cornelius Campbell.

"I believe there is definitely a future for the Floydada Whirlwinds and it lies in the capable hands of our underclassmen (Varsity, JV and Freshman)."

"I would like to give a special thanks to all the Whirlwind Boosters. It take a 'true Whirlwind fan' to stay behind and support the team through a season like this one. We do appreciate each of you. Thanks from the 1984 Whirlwinds and coaches staff."

Floydada freshmen tie for district championship

By Coach Mike Cocanougher

The Freshmen defeated Tulia last Thursday night 22-2 in the last game of the season. This win boosted their season record to 9-1.

Tulia scored their only points with a safety in the first quarter. In the 2nd quarter Floydada's quarterback Ty Stovall dove into the end zone on an option play for a touchdown. The extra point attempt failed. Score at halftime was 6-2, Floydada.

Ralph Casillas scored another Floydada TD during the third quarter. David Medrano scored the extra point. In the fourth quarter Ty Stovall scored on another option play. Leonard Flores scored on the extra point, making the final score 22-2.

Defensive standouts were: Ralph Casillas, Roland Hernandez, Leonard Flores, Joe Perales, Pat Hazlett, Richie Porter, Chad Morris and Julio Flores.

Offensive standouts were: Ty Stovall, Randy Enriquez, Chad Pennell, Ruperto Jimenez, Greg Lawson, Jeff Smith and Keith Hancock.

"I am very proud of these young men, they worked hard, they are truly Whirlwinds of the future," said Coach Cocanougher.

The rewards for being selected include having a picture displayed on the front bulletin board for two weeks, receiving a certificate to take to their parents, and wearing a special recognition badge for the two-week period.

Moosberg bestowed medal

Carl A. Moosberg, a Lakeview resident, has received the China War Memorial Medal from the government of the Republic of China for his service during World War II. Moosberg was stationed with the 51st Air Service Group in Dinjan, Chabua, and Mohanbari, India. The group provided support personnel for flights made into Kunming, China.

The medal is a Sino-Japanese War Memorial Medal. The center depicts Lu Ku Bridge near Peiping, where the war broke out, with a likeness of Chiang Kai-Shek and factories with smoke stacks in the background, indicating the victory and prosperous future of China.

Known as the "lost" decoration of WWII, the medal commemorates service in China with Chinese allies to defeat Japan. The decoration was authorized by the Chinese government at the end of the war and Circular #166, U.S. Forces, China Theater, dated 29 September 1945 was prepared for distribution to provide for issuance of the award.

The rapid demobilization of U.S. armed forces and the general confusion in the CBI Theater of operations resulted in the proper documentation being misplaced. The issuance of the award was noted on some discharge documents and service records, but no one ever saw the decoration or received it. The medal was generally considered to be a myth by those who heard rumors about it. Graham K. Kidd of Florida who served with 14th A.F. Hq. in Kunming, China, carried on a persistent investigation for documentation. 29 years later, he located a copy of Circular #166 and the award became a reality.

Moosberg is a member of the Hump Pilots Association, a group of over 4000 air crew members and support personnel who served in the China-Burma-India Theater during WWII. The courageous efforts of these men provided the entire source of supply for the American and Chinese Armies and Air Forces in China. This was the first massive airlift ever attempted, and a lot of dedication was required to make it successful.

Fully one third of the 3000 aircraft lost in the CBI Theater were lost when crossing the Himalaya Mountains. Going over the "hump", as it was called, was a never ending job with continuous flights 24 hours a day, seven days a week. The flights took 3 1/2 hours each way and were often complicated by the rugged terrain and the capricious weather of the 20,000 to 40,000 foot high mountains. Attacks by Japanese fighter planes and bombers also posed a major threat to the missions.

"I was not a pilot, but every load of

supplies or equipment ferried across the hump had to be accompanied by support personnel to its destination. Equipment and supplies had a way of disappearing between the air field and the final stop in China," said Moosberg.

The aspects Moosberg recalls most about his time in the war were "the poverty and starvation of the masses of people in India. They had to cope with a war, a drought, and all the internal problems of such a diverse and overpopulated nation," says Moosberg. "China was already operating on a commune system and had not had the drought problems. They were also better managers of the food they could produce."

Conditions for sanitation and purification of water made utilizing local food sources all but impossible for the troops. "All the food had to be transported in, so we ate C-rations and powdered eggs. We were able to obtain some beef on the hoof to butcher, but it had to be ten years old, and raised on a starvation diet. Ten year old beef was not a delicacy," stated Moosberg.

Moosberg, who was originally from Texas, returned to the Plains area after working for the USDA and the University of Arkansas for 24 years. The choice to settle near Floydada was made "because the people are friendly and cotton grows well here," according to Moosberg.

He now uses his agricultural talents to produce new varieties of cotton for Grow Agri Seed Company in Lubbock.

Moosberg and his wife, Pearl, have three daughters: June, Alice, and Carla. All three graduated from Texas Tech University with degrees in teaching.

The HPA is still searching for men who flew the Hump in an endeavor to compile a list for posterity. More information can be obtained from HPA, 808 Lester St., Poplar Bluff, MO 63901.

Elderly may file affidavit to postpone payment of taxes

Taxpayers aged 65 or over can delay payment of property taxes on their homesteads.

Elderly homeowners can qualify for the "over-65 tax deferral" by filing a sworn affidavit at the office of the appraisal district in which they live.

If an elderly taxpayer has already been sued to collect delinquent taxes on his homestead, he can still take advantage of the tax deferral by filing an affidavit asserting age and ownership with the court in which the suit is pending.

According to Ron Patterson, executive director of the State Property Tax Board, the Texas Property Tax Code provides that, once an "over-65 tax deferral" affidavit has been properly filed, taxing units may not pursue or initiate delinquent tax suits on the homestead as long as the applicant

owns and lives at that property.

Patterson said that forms for the deferral affidavit are available at local appraisal district offices in the state. The form should be filled out and signed by the applicant and his signature witnessed by a notary public or other official authorized to take oaths.

Patterson stressed that elderly homeowners should realize that the deferral only allows payments to be postponed, not dismissed. "During the period of deferral, the amounts of delinquent taxes, penalties and interest continue to add up," explained Patterson. "Once the applicant no longer qualifies for deferral—that is, if he no longer owns or resides at that homestead—all those accrued amounts become due and payable. Taxing units at that time may sue and foreclose on the accrued delinquent taxes, penalties and interest."

his fingertips."

He announced that SBU will be the recipient of Allen's library upon his retirement.

Allen was presented a citation and the doctoral hood.

Born in Fort Worth, Allen received a bachelor of arts degree from Howard Payne University; a bachelor of science degree from Midwestern University; a masters from Linda Vista Baptist College and has attended Southwestern Theological Seminary.

He married Norma Joyce Lovelace on Christmas, 1941. They have three children, Norma (deceased), James Allen and Joy Newcom, both living in Fort Worth.

He has been listed in Who's Who in the South and Southwest, Who's Who in Religion, and Contemporary Authors, and recipient three times of the George Washington Honor Medal given by Freedoms Foundation at Valley Forge.

Many fields are full of cotton modules, and some fields are still not ready for the cotton gathering. There has been lots of wind in the past days and some fields are full of cattle that are grazing stalks left from maize which was cut.

Our first main frost when it was in the 30's and there was ice on cars, and on standing water was on Friday morning, November 2. Some areas had had ice before this, but this frost was a general one.

Mr. and Mrs. R.E. She has been in intensive care, so Nancy has been staying with her mother. Nancy's twin sister, Patsy of Marengo, Illinois, has now come to assist them with their mother's care. Mrs. Holland is better each day. She had a toxic poisoning, and was very ill.

Mrs. Bonnie Moore who has been in Lockney General Hospital since last Wednesday returned to her home in Floydada Monday.

Mrs. Ruby Higginbotham left Saturday morning to go to Lubbock to visit with her son, Bud Higginbotham, and plans to go home Tuesday.

Mrs. Letha Mulder left on Tuesday morning to go to Amarillo to stay until Thursday evening in Amarillo with her daughter and family. Mrs. Kathy Taylor and her family. They planned to get some Christmas shopping done while she was up there.

Mrs. Maurine Parks who became ill down at Houston while they were visiting there with their son, Ed and family, is still in Northeast Medical Center at Humble, but she is getting better, we are glad to hear, after her operation. Her address where you can reach her is: Ed Parks, 2606 River Lawn, Kingwood, Texas, 77339. I understand the address given last week was not correct.

Mrs. Corda Taylor of Muleshoe came last week to South Plains to visit here at the parsonage with her children, the Rev. and Mrs. Cecil Osborne. She will remain until after the Thanksgiving holidays.
