Damage Toll High From Hurricane Force Winds

By The Associated Press

Thick clouds of blinding, choking dust and winds of hurricane force lashed Texas Tuesday blowing a child to her death under a bus, ripping apart buildings and overturning trailer homes.

Three deaths were caused by the fierce winds and dust. Blinded motorists crashed their cars into other vehicles. Property damage across a 600 mile stretch of Texas ran into the tens of thousands of dollars.

Gusts of wind up to 80 m.p.h. threw persons to the street. The dust, floating miles high in the sky, seeped into homes, made eyes red and sore. Texans spit the gritty sand from their mouths.

The dust and sand filled the sky with a redish haze and the lights of low flying planes could be seen in mid afternoon. The dust and wind reminded many West Texans of the black days of the dust bowl back in the 1930s.

Peggy Burns, 8, got off a school bus at Cleburne and was blown under the moving bus by a gust of wind. The child died when the rear wheels of the vehicle crushed her.

A 12-foot high brick wall toppled onto 11 parked cars at Texarkana, Tex., Tuesday night when the storm pushed into that East Texas city. There were no injuries.

A raging dust storm was blamed for the death of Joe Lee Martin, 34, who died when his tractor plunged over the edge of a pit near Matador.

A private plane crashed on a hillside five miles east of Alpine during a dust storm killing Anthony Frank Spann of San Antonio.

A record low pressure area that covered most of the country from the Rockies to the Appalachians was blamed for the storm. Unseasonably warm temperatures accompanied the low pressure with Dallas recording an 87 and McAllen, in the Lower Rio Grande Valley, reporting a 96 degree high.

As the winds subsided in West Texas the temperatures dropped sharply.

Early Wednesday the tons of dust had moved eastward and southeastward into the coastal sections of Texas. Laredo and Alice reported visibility of 1½ miles.

The western sections of Texas—where visibility was almost zero—reported almost normal visibility and Midland had 15 or more miles visibility. Abilene reported 5 miles visibility with some dust.

Winds were still strong over the central and eastern portions of Texas.

Temperatures early Wednesday ranged from 27 degrees at Dalhart to 69 at Laredo.

Dust reduced visibility Wednesday at Lufkin, Houston, Corpus Christi, College Station and Waco.

Winds of 78 m.p.h. blew down a concrete wall of a building under construction at El Paso and blew a large section off a roof in the business district.

Winds ripped apart a maintenance building at the Eastland Airport. Winds also sank boats and wrecked docks at Lake Leon, near Eastland.

Winds of 65 m.p.h. overturned six trailer homes and toppled a concrete block wall on a construction site at Odessa, in West Texas.

Telephone and electric lines snapped like strings and trees as large as two feet in diameter were jerked out of the ground.

The police transmitter at Odessa was knocked off the air.

Plate glass windows were smashed and part of the 40-foot steeple on the First Christian Church at Midland was torn away by high winds. Trailer houses were overturned and trees uprooted as the storm passed through that West Texas city.

Visibility was down to 100 yards at Big Spring as 65 m.p.h. winds tore through the city knocking out electrical service.

A huge section of a corrugated iron roof peeled off the Fielder-Dillingham Lumber Co. at Abilene and went sailing down the street. Three walls of a drive in under construction were blown down.

Two light planes were destroyed by the storms but the occupants escaped death. Don Slape and Ivan Paul Hartsey of Olney, Ill., were not hurt when their plane was caught in a huge downdraft and crashed into a gravel pit filled with water near Fort Worth's Amon Carter Field.

Garry McCoy, 38, of Seattle, Wash., took off at Midland, saw an approaching dark cloud of dust and attempted to land. But as the plane touched down a strong gust flipped the plane on its back. Damage to the craft was estimated at $8,000 and McCoy escaped with minor injuries.

Major grass fires contributed to the poor visibility in Central and West Texas. The biggest fire was northeast of Eastland where 750 acres were burned before the fire was controlled. Other fires on the Page Ranch, north of Cisco, and between Albany and Breckenridge were brought under control.

The grass fires, one four miles long and the other eight miles long, were under control in Johnson County. Two other fires burned in Somervell in Central Texas.

Herman Jones, 46, was knocked to the ground by a gust of wind as he was about to enter the Midland Reporter-Telegram Building. He was not hurt but the wind blew his glasses in one direction and his brief case in another. He has not seen either since.

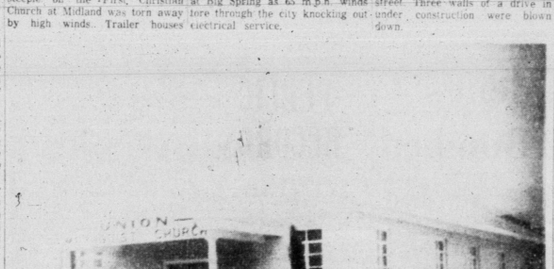

Mrs. Ruby Lee Basden was knocked to the ground at Brownwood by the strong winds which rolled her along the sidewalk. She was hospitalized with cuts about the head. She is the mother of The Rev. James Basden, pastor of the First Baptist Church of Midland.

Wink and Carlsbad, N.M., reported wind gusts exceeding 80 miles per hour while Abilene clocked the wind at 73 m.p.h. The wind gusted at 102 m.p.h. in the higher elevations of the Guadalupe Mountains of far West Texas.

One of the unusual features of the storm was the record breaking low pressure area. A sea level pressure of 29.00 inches at Fort Worth was .09 of an inch lower than any recorded in 71 years of records there. The lowest pressure of the storm was 28.70 inches at Ponca City, Okla.

JOHNNIE'S AUTO CLINIC RIPPED APART

UNION METHODIST CHURCH STEEPLE TUMBLES

President Inspecting Cape Canaveral Base

CAPE CANAVERAL, Fla. (AP) — President Eisenhower came here today for a personal inspection tour of this test center for the missiles figuring so importantly in controversy over U.S. defenses.

The President planned a stay of three or four hours before returning to the capital.

Eisenhower's jet airliner touched down here at 10:26 a.m., EST, after taking off from Andrews Air Force Base, near Washington, at 8:30 a.m. Eisenhower boarded the plane after a helicopter flight to Andrews from his farm near Gettysburg, Pa., where he spent Tuesday night.

The President was accompanied here by Secretary of Defense Thomas Gates Jr., Deputy Secretary James Douglas, his son, Maj. John Eisenhower, and a group of White House aides.

The President was greeted by Air Force Maj. Gen. Donald N. Yates, commander of the test center, and Brig. Gen. William Rogers, vice commander.

The President was whisked in an Air Force automobile to the Cape Canaveral central control building for a classified briefing on missile activities and progress here.

The hour-long briefing was to supplement information sent to him daily. This information has helped formulate the administration stand that the United States is capable of deterring any enemy from attacking, and that the missile gap with Russia is not as serious as some critics are contending.

An extensive tour of the cape's 15,000 acres, visits to the gantries, the blockhouses, the hangars, and launching sites under construction was planned for the President.

Barring a last minute change of plans, Eisenhower will see no actual launching of missiles. But he is expected to get a look at a variety of them — including the new intercontinental types, Atlas and Titan.

The President is making the visit at the height of the controversy over the relative military strength of the United States and the Soviet Union.

A Soviet Union lead in missile development is acknowledged by Eisenhower. But he, Gates and some other Defense Department top officials contend the United States has sufficient deterrent power to discourage a Soviet attack.

This is disputed by some Democrats in Congress, who say this country will be particularly vulnerable in the years immediately ahead.

In announcing plans to visit the test center, the White House said only that the President for some time has been wanting to inspect the Canaveral facilities.

Report On Audit Heard By Board

Snyder School trustees Tuesday night received the formal report on the school district's annual audit.

Russell Yorgesen and Charles Blakey of the firm of Deffebach and Yorgueson presented the report.

Yorgesen, spokesman for the auditors, said the audit was generally "good." However, the auditors recommended some improvements, especially in the school's inventory system for moveable property.

Such an inventory was started in compliance with recommendations in a previous audit report, Yorgeson noted, but in some areas the inventory has not been maintained properly, he said.

The board voted to establish a policy designating authority for keeping such inventories on a current basis, with transfers of property between schools to be recorded in the administration office.

The auditors also suggested that the school review some of its insurance program to make certain that it complies with state regulations. Specific reference was made to liability insurance on vehicles and health insurance programs.

T. E. McCollum, superintendent, reported on the Lamar Junior High building project. He presented letters from several sub-contractors who reported that they had not been paid promptly for work performed. McCollum said that Fred Buford, school architect, was conferring with representatives of Kelley Construction Co., the general contractor, and its bondsmen, concerning the complaints. The building is in the last stages of completion, the superintendent reported.

The board voted to grant a year's leave of absence to Bob Clinton, high school director of choral music. Clinton, in a letter to the board, said he had been offered a fellowship at Texas Tech to complete work on his doctorate.

The board named Roger Gee, music teacher at Central Elementary School, to serve as acting choral director at the high school during Clinton's absence. In a letter to the board, Gee said he would serve in the post for one year and then make the post available for Clinton.

The board took no action on two proposals for installing lights at the Travis Junior High football field. Proposals were submitted by Boss Electric Co. and by Southern Electric Co. The board noted that specifications in the two proposals differed. A set of specifications will be drawn up and both firms will be asked to submit new proposals.

McCollum reported that the siege of flu and other illnesses apparently was slacking off. Over 600 pupils were absent on Monday, but by Tuesday the absentee figure had dropped to about 400, he said.

Two Workers Are Killed By Train

ORANGE GROVE, Tex. (AP) — Pablo Valdez, 50, of Brownsville, and Gregerio Moreno, 42, of Edinburg, were killed Tuesday when struck by a Southern Pacific freight train near Orange Grove.

Both were section hands working on the railroad track when hit about 1 p.m. by the southbound train.

Investigators said the men were using a tamping machine, driven by a noisy air compressor, and failed to hear the approaching train.

German-View Reiterated By Adenauer

BONN, Germany (AP) — Chancellor Konrad Adenauer declared today Berlin must remain under four-power occupation until German unity is achieved. He spoke before the lower house of Parliament, which applauded wildly.

By their applause and supporting statements, West German lawmakers showed solid backing for this summation of the position Boon is taking in Western deliberations for the May 16 summit meeting. There was no formal vote.

The 84-year-old West German leader said that in talks with President Eisenhower in Washington next month he intends to present the unanimous German view once again.

Adenauer insisted no interim settlement of the Berlin question is possible unless it affirms the rights of U.S., British and French troops in West Berlin and sets up a program aimed at unifying Germany through free election.

BERLIN (AP) — East German Premier Otto Grotewohl said today he has heard Western governments may sign a World War II peace treaty with West Germany while those governments who are ready for it will sign a peace treaty with East Germany.

Subcommittee counsel Robert W. Lishman listed these other firms from which Finan also acknowledged receiving payments: Jay Cee Records and Cosnat Distributing Co., Mercury Records, United Artists and Shad Records. Finana listed the others as Decca, Cameo, Carlton, Epic, Coed, Meridian and London.

Commenting on his agreement to keep a special watch for labels of the firms paying him, Finan said: "It did not seem immoral, because I felt I was rendering a service."

To a question by Rep. John Moss, D-Calif., Finan said that his service when he was fired.

Scurry Area Gets Lashing

By GERRY BURTON
Daily News Staff

The groundhog may now see his shadow, robins may sing on the doorstep and the buds may be bursting on the boughs, but the surest sign that spring is on the way in West Texas is that phenomenon jestingly referred to as "West Texas Spring Rains."

When the swirling, biting grains of sand from everywhere stall traffic, whip shingles off houses, crumple TV antennas and infiltrated the best weatherproofed buildings, the old timers look out at the solid wall of sand going by and remark sagely, "Well, it looks like spring's about here."

The granddaddy of them all seemed to engulf Snyder yesterday afternoon. Gravel flew through the air, chipping car paint and stinging the few pedestrians who dared the raging gusts.

Signs went tumbling. Drivers at one traffic light could not see another one block ahead. Shingles ruffled and fluttered away. Tin ripped from barns and storage houses and crashed through alleys, across streets, lots and at times striking cars.

On the outskirts of the city, real estate was rapidly changing location, at times completely obliterating the roads in its eagerness to move across the highways.

One man remarked that a "floating loan" was all that could have been valid yesterday. Another suggested that such annual exchanges of sand is what keeps this country supplied with the proper mixture of soils for farming.

More specific damage included Johnnie's Auto Clinic on the East Highway. Half of the building was picked up and deposited on the roof of the Bar V Motel next door, cutting a gash in the roof.

On the Big Spring Highway, the Canyon Drive In Theater attracted audiences all afternoon as parts of its huge screen structure peeled away and went sailing across the highway. The 70-foot structure swayed and twisted with its wings and one guy wire gone, as gusty winds reached over 60 miles per hour.

An unofficial wind gauge at the Burchett Iron Works on the Lubbock Highway registered gusts unofficially up to 80 miles per hour.

West of town on the Lamesa Highway, the steeple was hurled from atop the Union Methodist Church.

Missing Tech Coed In San Francisco

LUBBOCK (AP) — Miss Anita Joyce Cantrell, 22, missing from the Texas Tech campus for a week, has written her mother and a college friend that she is safe in San Francisco.

"I just wanted to get away from everything familiar," the girl informed Mrs. J. P. Cantrell, her mother, in Grand Prairie.

She said she had moved into a boarding house and that "Everyone tells me I will have no trouble getting a job."

Miss Cantrell dropped from sight last Wednesday. A crumpled paper left behind revised speculation that she might be the victim of amnesia.

Man Charged With Threatening Ike

HARRISBURGH, Pa. (AP) — Clyde D. Sherk of nearby Linglestown has been charged with threatening the life of President Eisenhower in a letter.

Sherk, 23, is held in lieu of $15,000 bond pending federal court action.

U.S. Commissioner Charles J. Ware said Tuesday Sherk was arrested Feb. 4. Sherk waived hearing the following day on a charge he "wilfully deposited for conveyance in the mails a threat to take the life of the President of the United States," Ware said.

Ship's Radioman On Trial Today

BOSTON (AP) — A handsome Dutch radio operator goes on trial for his life today charged with killing an alleged shipboard paramour.

Willem Van Rie, 31, of Utrecht, the Netherlands, has been in jail since last September in the death of Lynn Kauffman, 23, a pretty divorcee from Chicago.

Conviction could mean death in the electric chair, but Van Rie insists a jury will free him. His wife, Nella, 31, agrees. "We will be home by tulip time," she vows.

Miss Kauffman's nearly nude, battered body was found on the shore of a Boston harbor island last September, the day after Van Rie's ship, the Dutch freighter Utrecht, left Boston for New York.

The state charges that she and Van Rie engaged in a 44-day shipboard romance that began in Singapore and ended with her death. Van Rie says there was no affair, no murder.

The first order of business in the trial is to pick a jury of 14. Two of the jurors will be alternates.

Originally, since listed, Miss Kauffman's death as due to accidental drowning, the Medical Examiner's office ruled police saying her death was not due to drowning but due to violence. A grand jury agreed with Dr. Luongo.

A hundred men and women have been summoned as prospective jurors.

Only 50 seats have been provided for spectators in the seventh-floor court room in a tall building on Pemberton Square.

One space is reserved, however, for Nella Van Rie, loyal wife of the defendant. They were married 22 months ago in Utrecht, where both grew up. Mrs. Van Rie came here in October to wait for her husband's trial.

Miss Kauffman, daughter of a Chicago industrialist, was an extremely pretty and talented girl. Since her divorce three years ago from a St. Louis attorney she was employed as a research assistant to Dr. Stanley Spector, 35, professor of Far Eastern studies at Washington University, St. Louis. She lived with the Spectors.

She was returning home aboard the Utrecht after spending a year in Singapore with Spector, his wife, Fiona, 30, and the three small children.

Disc Jockey Tells Probers Of $15,500 In 'Side Payments'

By JAMES B. SIBBISON

WASHINGTON (AP) — House payola probers called a second former disc jockey today after hearing a colleague tell of receiving $15,500 in side payments over a two-year period.

Joseph Finan, who said he received the money as a consultant, and Wesley Hopkins, today's new witness, both spun records for Cleveland's radio-TV station KYW until they were fired last Dec. 3.

Hopkins has denied that he took payola — under the table payments or gifts for promoting records or products. He was called before the House Legislative Oversight subcommittee today to testify about payola on the ground such pay ments foul the public as to a record's worth or popularity.

Finan, 32, said he had received $15,500 from 15 record firms in 1958-59 for his opinions on which records would be hits and which would flop.

In addition to that money, he said, there was his annual salary from KYW of up to $40,000 and almost $2,000 a year additional for presiding at record hops for teenagers in small towns around Cleveland.

According to a sworn statement read at the hearing, both Hopkins and Finan once agreed to push selected new RCA Victor records and "promote" them to the point where they became hits.

The fees, according to the statement by Byron Burneson, an independent Cleveland RCA Victor distributor, were to have been $50 weekly from his firm for every record that was plugged.

Finan said that just wasn't right. If it were, he said, he would have made up to $600 a week on that account alone.

Finan testified that Big Top Records gave Big $450 for promoting three records and said that one Madison record he played for $150 went on to become a hit.

Finan said he also gave special attention to Hugo and Luigi records in making up his show. He acknowledged getting $1,400 in several payments from this firm.

Subcommittee counsel Robert W. Lishman listed these other firms from which Finan also acknowledged receiving payments: Jay Cee Records and Cosnat Distributing Co., Mercury Records, United Artists and Shad Records. Finana listed the others as Decca, Cameo, Carlton, Epic, Coed, Meridian and London.

Commenting on his agreement to keep a special watch for labels of the firms paying him, Finan said: "It did not seem immoral, because I felt I was rendering a service."

To a question by Rep. John Moss, D-Calif., Finan said that his service when he was fired.

WEATHER

East Texas: Mostly fair through Thursday. Cooler with lowest 25 to 35 in north and 35 to 45 in south tonight.

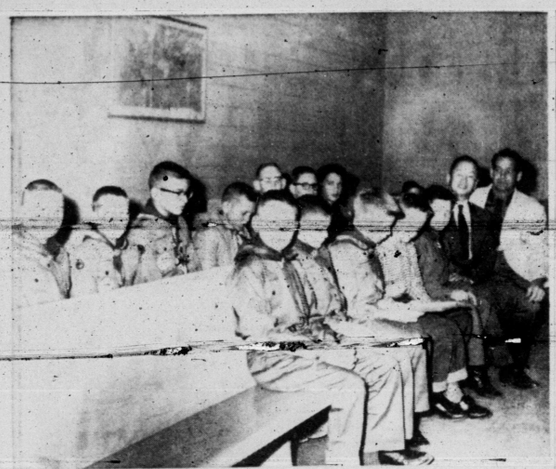

South Central Texas: Mostly fair through Thursday. Colder with lowest 30 to 40 in north and 40 to 50 in south tonight.

North Central Texas: Clear to partly cloudy through Thursday. Colder with lowest 22 to 32 tonight.

Northwest Texas: A few snow flurries likely in northern Panhandle this afternoon, otherwise clear to partly cloudy through Thursday. Colder with lowest 10 to 20 in Panhandle and 20 to 30 elsewhere tonight.

Southwest Texas: Fair through Thursday. Colder with lowest 28 to 36 tonight.

West Gulf: Northwesterly winds around 25 m.p.h. over land and north portions and occasionally winds 20 to 35 m.p.h. elsewhere. Partly cloudy to occasionally cloudy through Thursday.

BOY SCOUTS SEE FORMOSAN GENERAL—Members of Troop 36 and their scoutmaster J. B. Maschek, took their regular meeting time to go see the movie General Wang Shih Ping had produced in Formosa. The movie was shown at the Calvary Baptist Church to a good crowd despite the sandstorm.

Negro Student's Home Is Bombed

By JOHN R. STARR

LITTLE ROCK, Ark. (AP) — A home-made bomb shook the home of a Negro student Tuesday night in a new outbreak of violence over integration of Little Rock's high schools.

Carlotta Walls, 16, and three other members of her family were asleep in the house but escaped injury.

She is one of five Negroes attending Central High School where integration of nine Negroes was enforced by federal troops in 1957 after mob violence broke out.

The blast was the first violence at the home of one of the Negro students and the first over integration since Labor Day bombings.

Police began a search for two cars reported cruising in the area shortly before the explosion near the front steps of Carlelyou Walls' home in a predominantly Negro neighborhood.

The explosion followed a severe thunderstorm. Some residents thought it was another clap of thunder.

Only a few white families live in the area, about three miles southwest of the heart of Little Rock's downtown area.

Police said the explosive appeared to be two sticks of dynamite. Dynamite also was used in the Labor Day bombings which damaged school board offices, the office of Mayor Werner Knoop and Fire Chief Gann Nalley's station wagon.

Five men were arrested in those bombings. Three were convicted and given three-year prison sentences. A fourth, who pleaded guilty, was given a five-year term. The fifth still is to be tried.

Police moved in quickly Tuesday night. Police Chief Gene Smith, ailing with influenza, took personal charge of the investigation.

Police sealed off the area around the Walls home. Two detectives and two uniformed patrolmen kept an all-night watch.

"We've got several leads and we're checking them out," said Asst. Chief R. E. Glasscock.

J. J. Casper, special FBI agent, joined Smith at the scene.

Smith called out all available policemen. An officer with a riot gun was posted at each of the two integrated high schools and at the homes of seven other Negroes attending them.

Police said the bomb probably was thrown from an automobile speeding down the dimly lighted and unpaved street about 11:10 p.m.

A foot-square hole was torn in the exterior of a brick wall. All the windows on that side of the one-story home were shattered. Bricks were blown 100 feet and a few windows in neighboring homes were broken.

Police Lt. Carl Jackson said Mrs. Walls, Carlotta, and two younger daughter, Loujama, 11, and Tina, 5, were jolted awake by the explosion. Walls himself was visiting his father several blocks away.

Political Announcement

The Snyder Daily News is authorized to announce the following candidates for office, election to be subject to action of the Democratic Primary:

For Congressman, 17th. District:
ROY SKAGGS

For State Representative—90th District.
RENAL B. ROSSON

For District Judge:
STERLING WILLIAMS
ARTHUR BLANCHARD

For District Attorney:
WAYLAND G. HOLT
ROBERT R. PATTERSON

For County Attorney:
GEORGE KILLAM, JR.

For Sheriff:
BILL LOVE
HOWARD GIBBONS
EARL ABERCROMBIE
R. B. SEARS
LLOYD MERRITT

For Commissioner, Prect. No. 1:
W. M. (MARION) DABBS
GRADY WILLIAMS
T. B. KNIGHT
BILL JORDAN
J. ELMO CROWDER

For Commissioner, Prect. No. 3:
JIM STIRLING
J. B. TURNER
KENNETH SMITH
JACKSON "J. P." ELLIS
THAYNE W. MEBANE
L. L. "Pat" MOORE
FRED BULLARD
T. P. ALLEN
J. C. (Weene) MORGAN
JESS EVERETT

Tax Assessor-Collector
GERAL GREENE

K. O. Power from Wilson Motors, 1960 Ford Falcon.

BIRTHS

Mr. and Mrs. C. W. Horsley, 217 Thirty-sixth Street, are the parents of a son weighing 7 pounds 11 ounces born Monday at 2 a.m. in Cogdell Memorial Hospital.

Mr. and Mrs. Aubrey Haney, 2404 Avenue I, are the parents of a daughter weighing 6 pounds 7 ounces born in Cogdell Memorial Hospital Monday at 7:12 a.m.

Mr. and Mrs. Ronald McHenry 1307 Twenty-fourth Street, are the parents of a son weighing 8 pounds 6½ ounces born Tuesday at 2:26 p.m. in Cogdell Memorial Hospital.

Mr. and Mrs. C. C. Sellars, 414 Twenty-eighth Street, are the parents of a daughter weighing 7 pounds born in Cogdell Memorial Hospital Tuesday at 3:35 p.m.

Mr. and Mrs. Gilbert Ramos, Eleventh Street and Avenue R, are the parents of a son weighing 6 pounds 10 ounces born Tuesday at 12:53 p.m. in Cogdell Memorial Hospital.

Mr. and Mrs. Cal Hatter of Odessa are the parents of a daughter weighing 8 pounds 12 ounces born Sunday morning at 2:03 a.m. Maternal grandparents are Mr. and Mrs. Clarence Wade of Route 3. Paternal grandparents are Mr. and Mrs. H. L. Hatter of 2809 Avenue N.

Local Agent Is Honored

Don Robinson of Snyder was honored in Austin at an awards banquet of American Founders Life Insurance Co., which was held in conjunction with the firm's annual convention recently.

Robinson, local agent for American Founders, was honored for a year's continuous membership in the President's Club (the top honor club of the company) and the Top Ten Club.

Mrs. Robinson was presented with a new spring outfit for his leading production in January of this year.

Attendance of agents and their wives at the convention was on the basis of production qualification.

Celebrated at the banquet was that attainment of American Founders of over $100,000,000 life insurance in force, achieved in little more than five years.

Draft Call Issued For 6,000 Men

WASHINGTON (AP) — The Army today issued a draft call for 6,000 men in April. This is the same quota previously announced for February and March.

The new call brings to 2,515,430 the total number drafted or earmarked for induction since the resumption of Selective Service in September 1950.

By hitting 337 Boston Red Sox rookie Carl Yastrezmski won the 1959 Carolina League batting title by a margin of 54 points. He starred at second base for Raleigh, N.C.

Optometry Case Will Get Hearing

AUSTIN (AP) — The Supreme Court agreed today to hear arguments on a court order stopping the State Board of Optometry from pressing action against a Dallas optometrist and his nine firms.

The complicated case will be heard March 16.

The board appealed a June 26, 1958 decision of a Dallas District Court which gave Dr. Ellis Carp and his optical firms the injunction against the board. The District Court order was approved by the Texarkana Court of Civil Appeals.

The Supreme Court granted the writ after hearing on the basis of arguments that the appeal was unnecessary because there had been no evidence the board took any actions against Carp that the injunction now prohibits.

The board originally sought an injunction to prevent Carp and his employes from operating in offices without floor-to-ceiling partitions and separate entrances, as provided in a board rule. Carp operates in jewelry stores. The board also claimed that technicians, not licensed optometrists, were fitting contact lenses.

Carp filed a cross action and Judge Jack Thornton of Dallas ruled that the optometrist need not change his methods of business. The temporary injunction prevents the board from taking court action to enforce its rule on separate entrances and another provision against so-called bait advertising.

Optometry firms operated by Carp at the time of the board's original suit included Lucky One Price, One Price, Lee and Mission optical firms in Dallas, and Douglas, Panhandle, Downtown, Mesa and Mast firms in other Texas cities.

Report Five Die In Crash

HELENA, Mont. (AP) — A schoolbus loaded with rural youngsters, a gasoline tanker and a passenger car collided near here today, the sheriff's office reported.

First reports indicated there were at least five casualties but it could not be learned immediately whether any were killed or how seriously injured. The sheriff and highway patrol sent several men to the scene.

The school-bound bus was from the Canyon Ferry Dam community.

Three ambulances from Helena answed the first call at about 8:20 a.m., but the sheriff's office said it was not until after 9 a.m. that there was a second call, for additional stretchers.

Indians Ask 'Stick' Game

FORT HALL, Idaho (AP)—Banning the old Indian "stick" game is like banning bingo, or bridge, say the Indians, and the Tribal Council adopted a resolution appealing to the "sense of justice and honesty of the American people."

Last month the government said no more gambling on the Shoshone-Bannock Indian Reservation here. It had been allowed since 1938, at least over the weekends for small amounts of money.

Most stuck with the ancient Indian guessing contest called the stick game, but some enjoyed card games instead.

Tuesday the Tribal Council said the order by the Interior Department was aimed at the "subjection of Indian tribes, to create turmoil and confusion." The Indians said the stick game is only recreational and that they will "resist all prosecution and persecution."

Khrushchev Off For India Today

By PRESTON GROVER

MOSCOW (AP) — Premier Nikita Khrushchev took off today for visits to India and three other Asian countries, trying to build up Soviet prestige and to match the impression President Eisenhower made in the area.

Khrushchev, members of his family and a group of top Soviet officials boarded the big turboprop Ilyushkin airliner after greeting diplomats and some 300 Muscovites who braved bitter cold weather to see them off.

Khrushchev's plane was to refuel in Tashkent, then fly over the Hindu Kush and Himalaya mountains to land at Palam, New Delhi, Thursday morning.

Khrushchev made no departure speech. Muffled in a heavy black coat, Astrakhan collar and fur hat, he turned and waved before entering the cabin of the plane, the last to board.

Mrs. Khrushchev, who is not going on this trip, was not seen among the onlookers at the flag-decked airfield.

With Khrushchev were his two daughters, Julia and Rada, and the latter's husband, Alexei Adzhubei, editor of the government newspaper Izvestia. He was also accompanied by a granddaughter, Julia, whose father was killed in World War II.

Also in the party were Foreign Minister Andrei Gromyko, Culture Minister Nikolai Mikhailov, Georgi Zhukov, chairman of the Committee for Cultral Relations with Foreign Countries; Semyon A. Skachkov, chairman of a similar committee dealing with economic relations and foreign aid, and Pavel Satukov, editor of the Soviet Community party newspaper Pravda.

Khrushchev will remain in India until early Sunday, then push on to Burma for a brief stop. On Feb. 18 he goes to Indonesia, where he is expected to spend a week before returning home with a stopover in Afghanistan.

The Soviet press has been full of articles for the past two months telling how much aid the Soviet Union has given to India.

Without comparing Soviet aid with more extensive help given by the United States, the Soviet government has made a great show of steel mills, chemical plants and oil refineries built or planned for India with Soviet help.

But the visit to India will pose problems for Khrushchev. India officials feel is the only one who could induce China to give ground in the bitter dispute over the frontier between India and Tibet. This is expected to be one of the main topics Prime Minister Nehru will take up with his Soviet guest.

Woman Tells Of Assault

FORT WORTH (AP) — A 33-year-old mother of four told police today she was beaten and raped by a man as three of her children slept in a nearby bedroom.

She said she was awakened shortly after 1 a.m. by a man who told her to keep still and not to scream. She described the intruder as about 19 or 20.

She said she saw a light in the living room and screamed. She said she thought it was her teen-age daughter who had been out on a date. She said that when she screamed the man beat her and later raped her.

Her husband was out of town.

Scouters Set Roundtable Sessions Here

Boy Scout leaders will be in regular roundtable sessions Thursday night at the high school.

Harold Lacik, Boy Scout Roundtable Commissioner, has announced that Ralph Morgan will give a demonstration of fire by friction, plus some rope tricks.

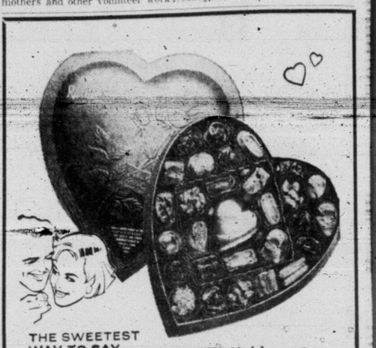

Scoutmasters have been asked to bring flint and steel sets to the session for practice.

Will Cleveland, Texas Highway Patrolman, will present a gun safety program for those attending the Boy Scout roundtable. Purpose of the program is to teach scoutmasters how to train their respective troops in gun safety.

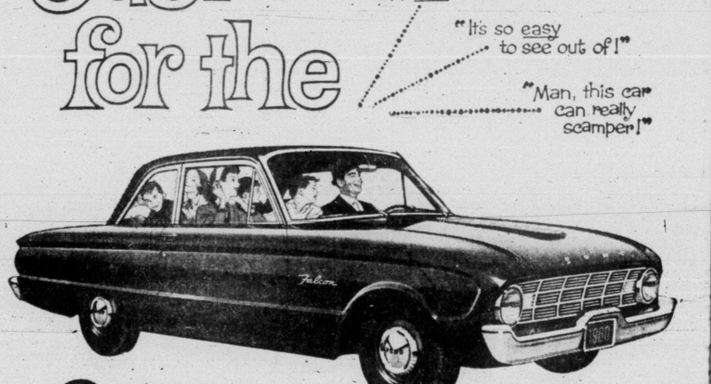

Program quarterlies will be distributed. Training course information will include the basic course to be conducted Feb. 20, and the Junior leaders conference to be held March 18-19 at Camp Ed Murphy.

At the Cub Leaders roundtable, those attending will participate in the first session of the Cub Leaders training course. It includes the basic training for Cubmasters, Den-mothers and other volunteer workers in Cub Scouting. Program quarterlies carrying the program suggestions for March April and May will be distributed.

Also the Cub Leaders will get final instruction on the role of Cub Scouts in the Boy Scout circus scheduled in April.

THIS CASSEROLE of baked spaghetti is made with a handy packaged spaghetti dinner. It has a surprise center layer of sliced Italian ham and black olives which makes it a delightful main dish for the family meal.

This Surprise Spaghetti Bake Is Different And Delicious

A spaghetti dinner is inevitably a good choice for the family menu because everybody likes it. Mother also likes it because it is such an easy dish to prepare. She can take the whole dinner down from the pantry shelf in one package and make it in a jiffy. This one ingenious package, devised by a famous chef, contains a box of uncooked spaghetti, a can of grated cheese and a can of savory, ready-to-heat spaghetti sauce with beef meat or mushrooms.

Furthermore, there are many tempting ways of serving this highly convenient packaged spaghetti dinner. Try for example, baking it in a casserole with a surprise center layer of Italian ham and black olives and the mushroom sauce and grated cheese mixed in with the spaghetti. When it is baked to a golden brown, remove it from the oven and bring right to the table, fragrant and piping hot. With a handy frozen vegetable such as green peas, a crisp green salad and chunks of crusty bread, you'll have a dinner that is a veritable chef's triumph.

SURPRISE SPAGHETTI BAKE

1 package spaghetti dinner with mushroom sauce
¼ pound thinly sliced prosciutto (Italian ham)
½ cup halved pitted black olives

Cook spaghetti according to directions on package. Mix olives with spaghetti. Then arrange half of spaghetti on bottom of shallow greased casserole. Pour half of sauce and half of cheese from package over this layer. Next place prosciutto (ham) in a layer over the spaghetti. Then arrange rest of spaghetti over ham. Pour remainder of sauce and cheese over top layer. Bake in moderate oven (350 degrees F.) twenty minutes.

WOMEN'S CALENDAR

WEDNESDAY

Altrurian Daughters meet at 2:30 p.m. at Martha Ann Club with Mrs. K. Patterson, hostess.

East Elementary P-TA meets in the school auditorium at 3:45 p.m.

THURSDAY

Fluvanna Home Demobstration Club meets at the community center.

Snyder Palette Club meets with Mabel Belsher, hostess.

Town and Country Garden Club meets at 2:30 p.m. at Martha Ann Club with Mrs. Charles Spivey, hostess.

Center Elementary P-TA will meet at 3:45 p.m. in the speech-arts room.

The Twilight Garden Club meets at 7:30 p.m. at Martha Ann Clubhouse. Election of officers. Ethel Roberts, Frances Spencer and Ruby Patterson, hostesses.

North Elementary P-TA meets at 4:40 in the Speech-Arts room. Pat Falls will be guest speaker with subject "Must Action Be Seasonal?"

FRIDAY

Beta Sigma Phi chapters will meet at the Martha Ann Womans' Club for a Valentine party.

El Feliz Club meets at 3 p.m. at Mary Lynn's Tea Room with Mrs. E. J. Richardson, Sr. hostess.

SUNDAY

Delta Kappa Gamma meet at 2:30 p.m. in home of Estha Coffee, Loraine.

Luncheon at Martha Ann Woman's Club for members and their guests. Reservations by 5 p.m. Saturday.

Mrs. Dick Roberts Hostess To Jaycee-ettes

The Jaycee-ettes met Tuesday evening in the conference room of the West Texas State Bank.

Mrs. Dick Roberts, hostess, carried out a Valentine motif in the room decor.

Committees were appointed for the installation banquet, Mrs. Floyd Smith, president of the San Angelo Jaycee-ettes Club will be the installing officer.

Mrs. Ernest Sears gave a report on the Winter Tri-Regional meeting held in Midland Feb. 6-7. Eight members of the local club attended.

Following the meeting the hostess served coffee, Cokes and cake to nine members.

Medical Horizons In A Changing World, Program Presented At Altrurian Club

Mrs. W. R. Everetts was guest speaker at the Altrurian Club meeting Friday at the Martha Ann Woman's Club.

Mrs. Hugh Taylor presided. There were 19 members present.

Mrs. W. P. King was hostess for the day as well as program director. Mrs. Frank Butler, Mrs. H. G. Towle and Mrs. Tom Boren were on the program committee.

Mrs. King told the group "Society today is alive with changes. The secret of the atom have been probed, which has ushered in an era of atomic energy and atomic medicine. There has been great changes in medical science in the last two decades. What are some of the health problems pertinent to modern society".

"In recent years there has been notable publicity about ionized radiation and its hazards. Our Health Department is preparing to meet this challenge to human health as well as many other health problems facing us in this changing world, which will require a board range of medical specialists as well as others who are interested in the welfare and progress of humanity. New and higher levels of health can be achieved through public education. The real key lies in wiser use of our present knowledge by an informed public and the medical profession." In closing she gave these statistics: "World health has improved notably during this century. Communicable diseases has been greatly reduced by our wonder drugs. Tuberculosis mortality declined over 90 per ent from 1925 to 1957. Heart disease accounts for 38 per cent of all deaths and cancer has risen to second place in our nation. Recent research indicates that there is a pronounced deficiency of Vitamin C in the blood of cancer patients as compared to a healthy person."

From the Altrurian Clubs health program, Mrs H. G. Towle read a most interesting and informative letter from a 90-year-old doctor, who in 1906 was practicing in Colorado City and was her mother's physician and did a marvelous cure— after returning to New York, his home. He was called to do Red Cross work overseas during World War I and II and ended up practicing in Paris, France. He practiced until he was 87-years and since has been a patient there. He is in a wheel chair and is nearly blind.

The subject of paper was "How to Keep From Getting Tired". "Can only mention a few of the things he wrote about. He told us what tiring, fatigue and exhaustion meant to the body.

"Since fatigue occurs normally in our human organisms we must not expect to prevent it completely. Just now we are dealing with the fatigue. We all experience it, but we should remember that fatigue is not limited to our human minds and bodies. How about the long winter rest that occurs in various trees? What about the fatigue occuring in certain animals? What shall be said about the fatigue observed even in metals?

"These questions show how really big the problem of fatigue is, and what a job we shall have if we undertake to prevent it in ourselves.

"Electric batteries run down, elephants, race horses, even snakes get tired and have to rest. There is no such thing as perpetual motion.

"Fatigue which can be overcome by short rests he termed local fatigue. Like resting the eyes after long periods of reading, or laying aside our paint brush after much painting. We cannot listen indefinitely to the finest music. The men who plays tennis, golf or baseball has to rest his arm, when they feel certain warning sensations. We also know that we can walk, run, skate, dance or work, longer, if we keep the muscles in good training. This is local fatigue.

"Now, after keeping all bodily structures busy for lengthy periods of time, we have to heed the signals announcing that the entire human machine is running dow— our fatigue is now general. We cannot prevent it in any normal way. We can resort to stimulats, tranquilizers, etc. but the substitues cannot satisfactorily replace the normal restorative constituted by the sleep that knits up the reavelled sleeve of care'—.

"If continued their effects are injurious. We welcome the sleep that refreshes and restores—but, we do not escape from 'getting tired'. We must learn to work in harmony with nature, and never against her."

He also discussed the functions of the heart—pumping, nutrition and oxygen to every smallest and remotest cell in our bodily structure. But nature has provided aid, by giving us a short rest spell after each heart beat, which helps the heart muscles to recover its energy. We must give our hearts, our minds, our stomachs, our body the repose' which they urgently need, when they give us the getting 'tired' signal.

He closed his discourse by recalling the final words of Stonewall Jackson, who said with eloquent tranquility, as death approached, "Let us cross over the river and rest under the shade of the trees".

Mrs. W. R. Everetts than gave a most interesting and informative talk on 'A Career in Nursing'.

She said in part: "If we look in retrospect at nursing, we will realize why we talk of nursing as a career today.

"From time immemorial, nursing has been recognized as one of the works of mercy of the Christian Church. Among the earliest nursing records are those of the Hotel Dieu in Paris, where since the 12th century Augustinian Sisters have been in charge. The work of Theodor Fliedner and his wife influenced a later development of nursing laying the foundation for the modern deaconess movement in Germany in 1836. Then we have the Sisters of Mercy and the Sisters of Charity in Ireland.

"Nursing had no distinctive part in the colonial development of the United States. We are most familiar with the era of Florence Nightingale. She was endowed with the intelligence of a scientist and the emotional drive of a reformer, and being a member of an aristocratic and wealthy family she brought respect to nursing.

"Nursing was referred to as a calling until the early 1900's. Today, it is a highly organized profession. It was not until 1873 that the first schools of nursing were opened. Today many hospitals are affiliated with universities in a four-year course so that the graduate has a B.S. degree in addition to her RN, enabling her to teach, to be an administrator, or a director of nursing. Some specialize in obstetrics, orthopedics, pediatrics and etc. Opportunities for nurses today are tremendous.

"We have nurses in our Doctors offices, Public Health nurses, working on a city, county, state or national basis. We have nurses in our schools.

"Estimates show that our country needs 65,000, while we have only 25,000 qualified in this field. Our schools and colleges and children's campus need nurses. The demand of nurses in industry is expanding. The Mission fields of our churches, at home and abroad offer a challenge to nurses.

"There is also a great need for male nurses in our Veterans hospitals in heavy industries where employees are chiefly men also in exploration and marine operations.

"Medical science is advancing rapidly, nursing care both professional and practical, must progress with it.

"In our own Cogdell Memorial Hospital we have the ICT (Industrial Cooperate Training) program for practical nurses, in which 24 registered and 23 completed their years training course Feb. 5. There is another class of 16 begining this month.

"American nurses are all over the world, nursing under the auspices of the United Nations, the World Health Organization, the office of Inter-American Affairs and Pan-American Sanitary Bureau.

In closing she said, "can you think of any other career that offers such varied opportunities".

Mrs. Everetts than gave a few suggestions on "Safety in the Home". Keep all medicines, lye, solvents, matches, and sharp objects out of childrens reach. Label all medicines, anchor scatter rugs, beware of curtains to near the stove, broken steps or linoleum, smoking in bed, litter, on floor as well as water and grease, and have adequate lighting. Statistics show 4,200,000 home accidents occur each year. Of these 130,000 are permanently injured, 75,000 are killed, at a cost of 850 million dollars.

A little skit was presented by Mrs. Everetts, Mrs. Boren, Mrs. Butler and Mrs. J. W. Leftwich on accidents.

Refreshments were served by the hostess.

GOOD WITH CURRY

Ever serve sliced bananas as an accompaniment to chicken curry?

Eastern Star And Masons Are Invited

Mrs. T. J. McReynolds, 6259 Woodcrest Lane, Dallas, Associate Grand Conductress of the Grand Chapter of Texas, Order of the Eastern Star, and the wife of Dr. T. J. McReynolds.

Mrs. McReynolds will be honored with a reception on Saturday, February 13, from 7:00 to 9:00 p.m. at the Masonic Temple, 1600 West Wall, Midland.

Mrs. McReynolds has held a number of Grand Offices, both elective and appointive, in the Grand Chapter of Texas. She is now in the Grand Line to the Grand East, when she will then become Worthy Grand Matron of Texas, O. E. S.

The Associate Conductress Club of District 2, Section 81 is hostess for the reception. This includes:

Mrs. Ray York, Chairman, Norman Read No. 1010, Midland; Mrs. Harold Petti, Vice Chairman, Crane No. 816, Crane; Mrs. L. B. Davidson, Secretary, Friendship No. 1008, Odessa; Mrs. Barney Foster, Treasurer, Odessa No. 447, Odessa; Mrs. W. D. Day, Andrews No. 849, Andrews; Mrs. George W. Bair, Big Spring No. 67, Big Spring; Mrs. Joe Rogers, Coachoma No. 449, Coahoma.

Mrs. Oletha Overton, Garden City No. 149, Garden City; Mrs. E. E. McBride, Goldsmith No. 854, Goldsmith; Mrs. Royce Womack, Laura B. Hoff No. 1019, Big Spring; Mrs. Jeff Shipp, Lamesa No. 363, Lamesa; Mrs. E. D. Bates, Midland No. 253, Midland; Mrs. O. A. Ball, Seminole No. 855, Seminole; Mrs. Charlie Pinkerton, Stanton No. 175, Stanton.

All Eastern Stars, Masons and friends are invited and urged to attend and meet Mrs. Thelma McReynolds, who was installed November 5, 1959, as Associate Grand Conductress of the Grand Chapter of Texas, Order of the Eastern Star.

LOOK AT THE LOWER PRICES
LOOK AT THE PLUSES

List prices as much as $76.05 lower on popular models with popular equipment

The '60 Chevrolet models most people buy, equipped the way most people want them, are actually priced lower than last year's models. This two-tone Bel Air V8 sedan, for example—with Turboglide, push-button radio and de luxe heater—lists for a whole $76.05 *less!* Prices are lower for all comparable V8 models throughout the line. Also for all comparable 6-cylinder models with Powerglide. Yet Chevy's loaded with more of the things that put pleasure into owning a car. (Just look at the list!) It's the greatest year yet to get into a Chevy!

Softer, more silent ride with coil springs at all four wheels and new butyl rubber-cushioned body mounts.

Big brakes for quicker, surer stops. Rivetless bonded linings mean they last longer, too.

More room to relax in. Chevy sedans offer roomier seating than any car in their class. Lower, narrower transmission tunnel means more foot room.

Only full wraparound windshield among the leading low-priced cars.

Electric windsbield wipers keep sweeping even when you speed up to pass.

Vent windows crank open and closed. So much simpler than fighting those tricky little catches.

Keyless locking of all doors. Quick and easy. The same key opens door, glovebox, trunk and starts the car.

Economy Turbo-Fire V8. Or how to get up to 10% more miles per gallon of regular and still have lots of "git."

Thriftiest 6 in any full-size car. It's the '60 version of the engine that got 22.38 miles per gallon in the 1959 Mobilgas Economy Run.

Widest choice of power teams. 24 engine-transmission teams in all, with output up to 335 h.p.

A trunk that's made for long trips with up to 22.5% more actual luggage space. Sill's lower for easier loading.

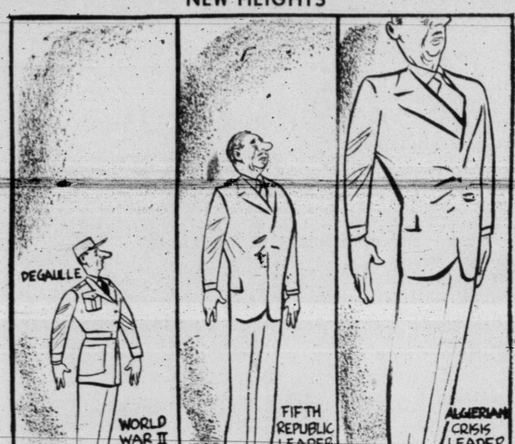

Fisher Body craftsmanship. Look at the finish, the fabrics, the detail work. You'll see the difference.

NEW HEIGHTS

Generals And Admirals Add To Confusion Over Defense

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — If you think the Washington confusion over defense is exaggerated, read this.

Last week Adm. Arleigh A. Burke, chief of naval operations, said "I support the President's budget" which asked Congress for less money than the Navy thought was needed for Polaris missile-firing submarines.

But this week Burke said he would ask for a billion-dollar boost in the budget to provide more of the submarines faster. But then he crossed thinking with Gen. Nathan F. Twining, chairman of the Joint Chiefs of Staff.

Burke is a member of the joint chiefs but Twining opposed the admiral's idea of wanting more money for the Polaris sub.

On Monday Gen. Lyman L. Lemnitzer, Army chief of staff and a member of the joint chiefs with Burke, said this country's ability to airlift troops and equipment to deal with any emergency is woefully inadequate.

But Twining brushed aside Lemnitzer's concern for the airlift.

Last week Gen. Maxwell D. Taylor, who retired as Army chief of staff last summer, questioned this country's ability to fight a limited war. But his successor, Lemnitzer, said "There is no doubt we could do a very good job."

While President Eisenhower's budget for military spending came to 41 billion dollars—with $9,806,000,000 set aside for the Army—Secretary of the Army Wilber M. Brucker told Congress this week the Army should have $10,320,000,000.

Gen. David M. Shoup, Marine Corps commander, said he didn't believe the 170,000-man Marine force provided for in Eisenhower's budget is enough.

Eisenhower says he probably knows more about defense needs than anyone.

Last week Gen. Thomas S. Power, boss of this country's long-range bombers, asked for money to keep his planes aloft 24 hours a day, to avoid having them smashed on the ground if the Soviets attack.

But Twining said the important thing is to be able to start such an alert if and when needed. Secretary of Defense Thomas S. Gates Jr., said the same thing.

Twining disagreed also with Taylor who said this country relies too much on weapons of massive retaliation and not enough on weapons to fight brush-fire wars.

Eisenhower stressed how much he relies on the advice of his top military advisers—the top ones are on the Joint Chiefs of Staff. His budget called for drastically cutting back production of the 2,000-mile-an-hour long - range bomber, B70.

Power told Congress he figured with 300 missiles the Soviet Union could knock us flat. Eisenhower scoffed at this idea and Gates said Power was "unrealistic."

And, oddest of all, since Power was jumped on so fast by his superiors, Twining said Power's speech had been cleared by his Pentagon superiors before he made it.

Jerry Lewis To Pay $800 For Haircut

HOLLYWOOD (AP) — This sounds like an awful trimming but—Jerry Lewis will pay $800 for a haircut Thursday.

Lewis is in Miami, Fla., and he is importing his own barber, Arthur Fredman, who operates a shop here.

Fredman, barber's kit in hand, boarded a jet plane for Miami to keep an appointment with the crew-cut comedian. Fredman said he has traveled to New York, Chicago, Houston and Las Vegas—all at Lewis' expense—to cut Lewis' locks.

Teachers Get Tired Of Hearing This

By HAL BOYLE

NEW YORK (AP) — Remarks that teachers get tired of hearing —or overhearing:

"Those that can, do; those that can't, teach."

"What are you teachers always crabbing about? After all, you get the whole summer off."

"She looks like a teacher."

"I hear the reason she never married was she had an unhappy love affair."

"Surely you must be mistaken. My son wouldn't have said a thing like that to anyone—even a teacher."

"The job pays $3,500, and, of course, you'll coach the dramatics club, chaperone the Friday night dances, take tickets at the football games and——"

"What does she know about children? She doesn't have any of her own."

"Naturally, your private life is your own, Miss Blatz, but this is a small town and we've never had a woman teacher who smoked in public."

"Frankly, the opportunity for advancement is limited, but you'll have the satisfaction of molding young minds."

"Keep me after class if you want to. But you better know one thing—my uncle's on the school board."

"Now, what is all this nonsense my wife tells me about you thinking my son ought to spend another year in the first grade?"

"Obviously, he's college material—if you just do your job right."

"Oh, Miss Blatz wouldn't care for a cocktail. Get her a nice glass of fruit punch."

"I don't understand it. Herbert never had any trouble with any other teachers."

"Maybe you did say we were going to have a test today, but I couldn't hear you in the back row."

'Nomadic Special' Is Good Viewing

By CYNTHIA LOWRY
AP-TV Radio Writer

NEW YORK (AP) — Playhouse 90 embarked Tuesday night on its new phase as a nomadic special in the CBS channels. We'll miss it in its own regular niche, for the 90-minute show remains one of television's enduring delights.

"To the Sound of Trumpets" Tuesday night's play and while it probably won't win any awards it provided an entertaining three acts. Stephen Boyd and Dolores Hart played a pair of star-crossed lovers who, after meeting somewhere between the front lines and Paris during World War I, struggled with their respective consciences.

He is a British captain, so sickened by slaughter that he is deserting. She is an American volunteer nurse's aide, fleeing her hospital to spend a leave with her husband. Confscience, of course, wins in the end. But the moral was incidental to the love story.

NBC's Startime consisted of a lot of bands playing the songs they made popular during the late 1930s. It was just fine for those who like to watch musicians play.

There were such old favorites on view as Bob Crosby, Count Basie, Guy Lombardo and Gene Krupa. There were also a lot of gray or bald heads and frankly middle-aged gentlemen in the bandstands, a sharp reminder that we are not as young—or slim—as we once were.

This isn't the type of show that startime does best.

Everyone seems to complain about the constant commercials on the Jack Paar show, and finally somebody has done something about them. A trade magazine assigned a monitoring service to report on the commercials one night—Jan. 14—on four of Paar's 146-station lineup.

It found the commercials occupied between 22 and 23 minutes of the 105-minute show—just under the maximum allowed by the National Association of Broadcasters' TV code.

But it isn't so much the time consumed by the commercials that drives this viewer to bed, but the way they chop up the show. Sometimes there is time for about two sentences of entertainment between the hard sells, the station breaks and more sales pitches.

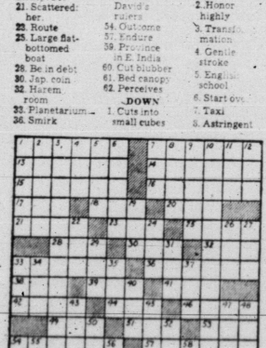

Recommended tonight: "The American Cowboy," CBS, 10-11 musical satire with Fred MacMurray, Edie Adams, Carol Burnett, Wally Cox.

Bonnies Hike Home Record

By JACK CLARY
Associated Press Sports Writer

At 6-foot-2, Tom Stith looks about as big as the armory in Olean, N.Y. where his St. Bonaventure basketball team plays its home games. Put 'em together and they're plain murder.

That's what happened Tuesday night when Stith scored 48 points to help the Bonnies to a spine-tingling 90-89, triple overtime victory over a good Providence College team for his 92nd consecutive home victory, longest such string in the nation. The Bonnies now have a 12-3 over-all record.

Stith, a native of Brooklyn, N.Y. is playing in his third varsity year. He did quite a job Tuesday night, breaking the school's home court record and scoring the clinching two points in the last 14 seconds.

The lithe senior, not big as present-day players go but more agile than most, is definitely not a home court star. He has played only five games in the tiny Citadel, but still is the second best scorer in the nation, with 473 points in 15 games for a 31.5 average.

Only Cincinnati's fabulous Oscar Robertson, college basketball's all-time scorer has more, with almost a 40-point per game mark has more this year.

Things are getting a little hot down in the Southwest too, with the Southwest Conference unable to shake its tie for first place. Texas A&M beat Arkansas 77-68 but are still tied for first with Southern Methodist which rapped Rice 66-52. Baylor knocked off Texas Christian 73-60 in another conference game.

North Carolina State won its fourth straight, 63-53 over Duke in an Atlantic Coast Conference game, while Virginia Military clinched a Southern Conference playoff berth, beating Davidson 72-60.

Holy Cross won its ninth straight as Spence Thompson laid in a field goal in the final two seconds to beat Ivy League leader Dartmouth, 72-71. Boston College outlasted Harvard 86-82 and LaSalle was hard-pressed to beat little Albright, 73-67.

Chattanooga won its first basketball game ever over a Southeastern Conference team, upsetting Mississippi 76-74 while Mississippi State needed a pair of fouls in an overtime period to nip tiny Morehead, 75-73.

Elsewhere, Detroit and Memphis State, in the National Invitation tournament with Providence, were victorious. Detroit, led by Dave Debusschere's 29 points, beat Assumption (Ont.) while Memphis State easily handled Florida State 83-67.

In the Far West, Portland nipped Oregon state 53-51, Santa Clara romped over St. Mary's 74-48, and San Jose State beat College of Pacific, 58-50.

It took two steals in the final minute of the third overtime period by Ed Petrovick to set up the Bonnies' victory, with the second going to Stith for the winning points. Stith hit 19 field goals in 31 tries and got 8 of 11 fouls. He also grabbed 18 rebounds. Len Wilkens led Providence, now 13-4, with 34 points.

Aggie Soph May Be Key To Crown

COLLEGE STATION (AP) — Texas A&M faces a rugged road schedule in the final three weeks of the basketball campaign and a sophomore could be the key as the Aggies strive for their first outright championship in 37 years.

Carroll Broussard, 6-5 scoring leader from Port Arthur, is the only soph in the Aggies' starting five and may be the finest second year man ever to play in the league.

A&M currently is in the process of its finest season in decades with a 15-2 mark but the toughest portion of the schedule lies ahead. Battling Southern Methodist and Texas, the Aggies have to play their hardest games away from home in the stretch drive. SMU has the tough games at home.

Broussard, high school All-America selection, has had his ups and downs this year but the 19s have been all the downs. He was chosen most valuable player in the pre-season conference tourney at Houston and led the cadets to their second straight crown. He has had two 29-point games this year and but two below 10. His worst game came in the two-point loss to SMU when Kim Nash held him to four points.

Through the first 17 games Broussard has averaged 17.7 points per game and has hit on 46 per cent of his field goal attempts.

Broussard has all the requirements of a great player—size, agility, shooting eye and tough on defense.

Aggie Coach Bob Rogers figures the sky's the limit on Broussard and that his big soph has yet to reach his potential.

Winds Rake Phoenix Links

PHOENIX, Ariz. (AP) — The big winds died down in Phoenix today — the kind whipped up by nature and those talked up by amateur golfers — as the pro-am prelude to the Phoenix Open Golf Tournament.

The storm that complicated Tuesday's qualifying for 170 would-be competitors in the 25th annual tournament starting Thursday blew out of the state.

The gabby golfers went out on the 6,620-yard Phoenix Country Club course to try to make good their boasts in the unusual presence of galleries and the elite of the nation's pro shotmakers.

In all, 144 golfers teed off on the par 36-35—71 layout the pros take over Thursday in the 72-hole chase for $22,500 in prizes.

Winds clocked at 37 miles per hour pushed up scores as 74 spots in the open field were filled. The survivors of the qualifying round join 76 exempted pros and amateurs in the tournament field.

Sammy Reynolds of Springfield, Mo., led the qualifiers with a respectable 67. He was followed by Bill Bisdorf of Denver and Monte Bradley of Hillsboro, Tex., each with 68.

Brownwood Football Coach Steps Aside

BROWNWOOD (AP) — R. E. Warren has resigned as athletic director and head football coach of Brownwood High School but will remain as head basketball coach and general manager of athletics.

Cage Tilt Dusted Out; Make-Up Due

The Snyder-Lamesa basketball game which was "dusted out" here last night, probably will be played Friday of next week.

Coach J. P. Ward of the Tigers said this morning that he had not been in contact with the Lamesa coaching staff since this morning and the new date was set.

Coach O. W. Follis of Lamesa called Tuesday afternoon and advised that the Lamesa team would not make the trip here last night because of roads hazards occasioned by blowing sand.

Originally the Tigers were scheduled to conclude their season next Tuesday night at Lake View.

"We want to play the game because we need the experience," Ward said. He said that Lamesa wanted to play the game to keep its team sharpened up for the playoffs, since the Tornadoes already are a virtual cinch to cop the district title.

DELUGE HITS AT OLYMPIC SITE—A truck rolls into a flooded portion of a main road at Squaw Valley, Calif., during a driving rainstorm that posed a serious flood threat to the site of the 1960 Winter Olympic games. More than four inches of rain fell in 24 hours and more was expected. Worried officials feared some ski runs might be lost. (AP Wirephoto)

Athletes Await Clearing Weather

By JACK STEVENSON
Associated Press Sports Writer

SQUAW VALLEY, Calif. (AP) —An international field of athletes from 25 nations looked hopefully today for clearing weather and the chance for some final hard winter Olympic Games training.

Just eight days remain before the Feb. 18 opening ceremony, and the rain and snowstorms the past three days in this High Sierra valley have drastically curtailed practice.

Exceptions are the figure skaters who work inside the 3½-million-dollar ice arena.

Although 25 nations have checked into the Olympic village not all teams are complete and seven are yet to be represented.

Despite the storm and the flood threat of Monday, the 20,000,000 site of the Olympics was returning to normal.

However, skiing was permitted only on Papoose Peak, the games' site of the ladies' slalom and the ladies' giant slalom.

KT22, scene of the men's giant slalom and women's downhill, and Squaw Peak where the men's downhill is scheduled, remained closed.

"We can have them ready two days after the storm clears," said Willy Schaeffler, director of ski events.

Predictions were for a let-up in the storm today with 35 inches of new snow in this 2 ½-mile valley.

Anderl Molterer, one of Austria's best men skiers, went out for a practice and commented, "The snow isn't good and it isn't bad."

Austria's girl skiers didn't go out because coach Hermann Gamon said they might catch cold.

"Besides, with the deep snow and bad visibility, you can't have serious training anyway," he added.

Cross country skiers from Italy, West Germany, Great Britain and one Japanese worked on a practice course at McKinney Creek.

Others, including the Finns, limbered up by skiing around Squaw Valley. Later the Finnish delegation moved to a lodge closer to McKinney Creek in a heavily wooded area more like home.

SWC Chase Sails Into Second Half

By The Associated Press

The Southwest Conference basketball race sailed through its first half Tuesday night with Texas A&M and Southern Methodist tied for the lead and Texas a close runnerup.

The Aggies hurdled the Arkansas menace with comparative ease as they walloped the Razorbacks 77-68 to compile a 6-1 record. SMU held the pace with a 66-52 triumph over lowly Rice.

Texas, which beat Texas Tech 75-66 Monday night, has 5-2.

The first big showdown comes Saturday night when SMU and Texas battle at Dallas. A Texas victory would leave Texas A&M in undisputed first place provided A&M beat Rice at College Station.

Baylor lashed Texas Chrjstian 75-60 Tuesday night and pulled into a tie with Arkansas and Texas Tech for fourth place. Each is three games away from the top.

Texas A&M's started all scored in double figures then turned things over to the reserves, holding a 75-58 lead at the time. Carroll Broussard, the sensational Aggie sophomore, looped in 23 points as high man of the game. Pat Foster got 20 points for the Razorbacks.

SMU snapped out of it in the second half to forge easily ahead. Max Williams finally got SMU moving with eight straight points early in the second half. He wound up with 19 points, a total equalled by teammate Steve Strange.

Baylor took charge early and once led by 18 points in gunning down TCU. Baylor subs played the last seven minutes. Carrol Dawson had 18 points to lead the Bears.

Next action isn't until Saturday night when Arkansas plays TCU at Fort Worth and Baylor and Texas Tech clash at Lubbock in addition to the Aggie-Rice and SMU-Texas games.

Midland Coach To Join Nebraska Staff

MIDLAND (AP)—Cletus Fischer has resigned as football coach of Midland High School and will become backfield coach at the University of Nebraska.

Erdelatz To Name Staff

OAKLAND, Calif. (AP) — Former Navy Coach Eddie Erdelatz, who will coach the Oakland entry in the American Football League, plans to name his assistants within a week.

Erdelatz, 45, came to terms Tuesday with owners of the club, still in its blueprint stage, but the signing of a contract won't come for about a week. It is rumored to be for two years at about $25,000 a year.

Erdelatz-coached teams blazed a brilliant record during his years at the U.S. Naval Academy, 1950-58. He resigned at the close of the 1958 season.

The coach played college football for St. Mary's at nearby Moraga.

His first Navy team upset previously unbeaten Army and repeated the victory the next year.

Titans Will Play In Polo Grounds

NEW YORK (AP) — The New York Titans of the American Football League Tuesday signed a lease to play at the Polo Grounds the next two seasons with an option for 1962. The eight club AFL will begin operating this fall.

Harry Wismer, president of the Titans, said his team's seven home games would not conflict with the home dates of the New York Giants of the National Football League, who play at Yankee Stadium.

Baseball Damage Suit Is Reversed

NEW YORK (AP) — A three-man U.S. Court of Appeals has reversed decision on a $250,000 damage suit against baseball Commissioner Ford Frick and the 16 major league teams.

The appeal was made by Frank D. Lawrence, president of the Portsmouth (Va.) Baseball Corp. after a district court threw out the suit a year ago. Lawrence contends major league telecasting forced him out of business. The Portsmouth club folded five years ago.

Attorneys for Lawrence and for baseball argued the case Tuesday.

Penn State last went unbeaten in football in 1947 with nine victories and one tie.

B Team To Host Tourney

The Snyder High School B team will be host to an eight-team basketball tournament here this weekend.

First play on the local court will come Friday night as the Snyder B team tangles with the Hermleigh Cardinals in a first-round game.

Other first round games will take place at other sites, with all teams entered scheduled to appear here Saturday for the playoffs.

The tournament was arranged so that regularly scheduled games this week of the other six teams would count as first-round games in the tournament.

The other first-round games include Sweetwater vs. Colorado City, Lamesa vs. Lake View and Brownfield vs. Andrews.

Trophies will be awarded to the first, second and consolation winners in the tournament. Awards also will be presented to the five players selected on the all-tournament team, which will be named at conclusion of the tournament.

Second round action will begin in Tiger gym Saturday morning, with the losers of Snyder-Hermleigh and the Sweetwater-Colorado City games meeting at 9 a.m. The winners of thos two games will tangle at 10:45 a.m.

At 1:30 p.m. Saturday the losers of the Lamesa-Lake View and the Brownfield-Andrews games will play, while the winners of those two games will meet at 3 p.m.

Consolation bracket finals are set for 6:15 p.m. Saturday, with the championship finals to follow at 8 p.m.

Government Winding Up Oil Case

TULSA (AP)—The federal government put finishing touches today on its case against 29 major oil firms charged with a conspiracy to rig prices.

Government attorney Joseph McDowell said prosecution probably will be completed about noon.

Under an agreement between defense and government attorneys, this will be followed by a recess until Friday when arguments will be heard by U.S. District Judge Royce Savage on motions for acquittal.

The government has placed in the record nearly a thousand exhibits and presented testimony from various witnesses in trying to link defendant firms to an alleged conspiracy in 1956 and January, 1957 to raise and fix crude oil and gasoline prices.

Testimony about an Arkansas duck hunt for oil officials in January, 1957, highlighted the government's case Tuesday.

The far call of ducks came up when government attorneys questioned J. E. Howell, vice president of Monsanto Chemical Co.'s Lion Oil Division.

He was asked about numerous messages, most of them telephone calls, between himself and crude oil men from competing firms before and after Jan. 3, 1957, the date Humble Oil touched off a general price rise in the oil industry.

Howell explained messages involved invitations and replies to the duck shoot he planned near Stuttgart, Ark. and not price increases. Messages after Jan. 3, he said, involved notices from some of the invited men who, because of company duties, couldn't attend.

Howell said he learned of the Humble price hike "from my stock broker." Asked why he called officials of Esso Standard Oil Co. to check on the Humble announcement, he said, "I had to check somewhere. Naturally since it came from a stock broker, I wasn't sure."

Executive Vice President Charles Perlitz Jr. of Continental Oil Co. denied the government's charge of collusion and explained how Conoco followed Humble's hike the same day.

Drills To Start

COLLEGE STATION (AP)—Texas A&M starts defense of its Southwest Conference baseball championship with the opening of practice Feb. 15. Eight lettermen, including six regulars, return.

Theft Case Trial Opens

A jury of one woman and 11 men were selected this morning in 132nd District Court for the case of The State of Texas vs. D. L. (Fuzzy) Duke of Lubbock. Duke is charged with the theft of five cattle from Judd McGaha last October.

Gene Dulaney and Renal Rosson are representing Duke, with District Attorney Wayland Holt prosecuting and District Judge Sterling Williams presiding.

Members of the jury are Ralph Eades, W. G. Teaff, Weldon Perry, Roy C. Wood, Paul Sizemore, Mrs. Nina Eaves, Clyde Hall, Nathan Wade, S. L. Blythe, Arthur Duff, Mark Durham, J. P. Madding.

Witnesses for the prosecution include Judd McGaha, J. L. Gamble, Susie Konklin, Lloyd Webb, Carl Raines, and D. L. Parker.

The defendent and Mark McGaha are defense witnesses.

Testimony was to start this afternoon.

Sky's The Limit For Wilt

By DAVE DILES
Associated Press Sports Writer

DETROIT (AP)—The sky's the limit for skyscraper Wilt (The Stilt) Chamberlain, newly Basketball Assn. scorers and rebounders.

Fabulous, phenomenal, fantastic—call the 7-foot-2 rookie anything you like—Chamberlain has scored more points in a single season than the old crown-wearers ever dreamed was possible.

Chamberlain poured in 41 points Tuesday night in a losing cause. His Philadelphia Warriors went down to a 122-113 defeat at the hands of the Detroit Pistons.

His 57-game total — he missed one game with the flu—is 2,134. This is 29 points better than the old record set last season by Bob Pettit of the St. Louis Hawks.

Pettit set his mark in 72 games. The NBA hiked its schedule to 75 games this year, so Chamberlain, 22, has 18 more games in which to build the record. At the rate he's going, he will score in the neighborhood of 2,818 points —not counting playoffs.

The gangling recruit also established a single-season rebounding record, pulling down 17 for a 1,614 total, two better than the mark set last season by Boston's Bill Russell.

A flock of ex-scoring champions were on hand to see Wilt's record-busting performance, in addition to the paying crowd of 8,201 that gave him a standing ovation when he was presented with the basketball.

George Yardley, first man to crack the 2,000-point barrier, said "I'm glad I got to see it. He's made a believer out of me. When I saw him with the Harlem Globetrotters, I figured he didn't have the desire to be outstanding in the NBA. But he's showed me plenty."

Yardley scored 2,001 points two seasons ago with the Detroit club.

Paul Arizin, two-time scoring leader, was on the court with Wilt trying to stop the Piston's fourth straight home victory.

The Warriors' coach, Neil Johnston, won the NBA scoring title three times. "I got up to 1,759 points one season and I know George Mikan had over 1,900. But I didn't think anyone would reach 2,000. Now Wilt has done this. I'm afraid to say it, but it looks like 4,000 points will be reached, too."

Dolph Schayes of the Syracuse Nats is the league's all-time scoring leader with 15,388 points. Schayes hopes Wilt makes a career out of singing and leaves basketball to "us little guys."

It sounds a little far-fetched, but Wilt really wasn't at his best in his record-setting performance. A collision in Sunday's game at St. Louis jammed several teeth into his lower lip, and the big fellow has had practically no sleep, no solid food and only three glasses of orange juice since.

He could barely talk after the game. Just enough to say "I'm just playing basketball. I'm not trying to prove anything."

Archie Moore Gets Warning

SAN DIEGO, Calif. (AP) — Archie Moore, warned by the National Boxing Assn. that he will lose his light heavyweight title unless he signs for a defense by Friday, has snapped back:

"The NBA championship doesn't mean anything at the box office. I'll draw just as many people if they take my title as I would if I kept it."

NBA President Anthony Marcello said Tuesday night that Moore will be stripped of his title unless he agrees by Friday to a defense against Harold Johnson of Philadelphia, the No. 1 challenger. Macerori issued the warning in a wire to Jack Kyarus, Archie's manager.

Archie said Johnso deserves another shot at the title but added he would like to attend to some other business close at hand." That business, Archie said, is a title fight with Erich Schoeppner, a German light heavyweight. Archie said Kearns has been trying to arrange the fight in Germany.

Macerori said he told Moore as long ago as September that he should have to sign for a fight with Johnson by Feb. 12. Moore said he recalled no such warning.

PRE-HEARING CONFERENCE—Acting Chairman John Stennis (D-Miss) of the Senate Space Committee has a word at the witness table with Gen. Nathan Twining, Chairman of the Joint Chief of Staff, before the start of a Washington hearing. The senators are looking into the status of the U. S. defense preparedness. (AP Wirephoto)

Finch Tells Why He Employed Detectives

By DIAL TORGERSON

LOS ANGELES (AP)—Why did Dr. R. Bernard Finch hire private detectives to follow his wife?

The playboy physician explained it this way at his murder trial.

"I knew that Barbara wasn't getting any loving at home—and I figured regardless of the fact that she had been cold and frigid toward me she may not (have been) toward anybody else."

When she was shot to death July 18, Barbara Jean Finch had pending a divorce suit which could have cost the doctor just about everything he owned.

It was to fight the divorce, he testified Tuesday, that he hired the private detectives.

He said he fired a Los Angeles investigating firm after one of its operators tried twice to follow his wife—and lost her both times.

Asked Deputy Dist. Atty. Fred N. Whichello:

"Did you think that your wife was misbehaving every morning before noon?"

"I just wanted to find out where she was going and when," replied Finch.

Whichello asked Finch if he knew Mrs. Finch's divorce suit demanded all their community property—which she estimated at three-quarters of a million dollars.

"Well," said Finch, "isn't this sort of routine?"

"Weren't you told that on either cruelty or adultery that the court can award all the community property to the innocent spouse?"

"No," said Finch.

Finch, 42, is accused with Carole Tregoff, 23, of murdering Mrs. Finch so they could marry without sharing the community property.

Carole, once the doctor's receptionist, was his mistress at the time Mrs. Finch was killed. Finch has testified that he knew his wife was aware of his affair.

"I thought there was a pretty good chance that she was going out with somebody else that I wasn't aware of," the doctor said.

But he never caught her in an indiscretion, he admitted, even though he went so far as to hire a man he said agreed to date Barbara, if necessary, to get evidence against her.

The man was Jack Cody, a convict from Minneapolis, who told a different story when he testified that the doctor and Carole hired him to kill Mrs. Finch.

The doctor drew a laugh while being questioned about a $3,000 check, one the state says he forged under his wife's name. Finch says his wife wrote the check and a woman dietician at his clinic might have been present at the time.

"Have you learned since whether she remembers being present?" asked Whichello.

"I haven't been able to get out to talk to the girl, Mr. Whichello," said Dr. Finch, who has been in custody since the day after his wife's death.

Finch denied he talked his wife into executing a will three months before her death. Whichello noted the will set up trust funds of $200 a month for two children and left the rest to Finch.

The doctor said he didn't even recall terms of the will.

Coach Admits He Murdered Wife

CORDELL, Okla. (AP) — Jim Davis, clean cut basketball coach at Colony, Okla., High School, pleaded guilty Tuesday at his arraignment on a murder charge.

The victim was his pretty wife Patricia, 20, the mother of their 18-month-old daughter.

Washita County Atty. E. N. Sasseen said Davis, 22, told officers he bashed her skull with a baseball bat, stabbed her six times with a paring knife, then coached his girls' team in a game against Arapaho Friday night.

The boys game was cancelled after two teen-aged students found Mrs. Davis face down at the Davis apartment near the gymnasium in the tiny southwest Oklahoma town of Colony.

The slaying remained a mystery until Tuesday when Davis sat down for coffee and questions with Oklahoma Crime Bureau Agents Golden Kennedy and Ivan Gates.

"He began to sweat when we told him a few things we knew," said Kennedy, "and he finally confessed. He seemed relieved."

Sasseen mentioned no motive, but said officers questioned at length a girl from Colony.

"We were just talking and everything was all right . . . Everything was just lovely," Sasseen quoted Davis as saying. "I don't know what happened . . . Everything went black."

The people who knew him as a star high school athlete at nearby Hobart expressed shock and disbelief.

Harvey Reimer, who coached Davis in 1955 when he was an All-State catcher on the Hobart team, said:

"I can't say that I've ever worked with a cleaner boy—physically, mentally or otherwise."

Mrs. Bryan Gentry, secretary of the Hobart Baptist Church, said "He's always been the dependable kind, active in the church training union and Sunday School."

Davis was given a lie detector test Monday in Oklahoma City, but officers said that due to his emotional state, results were inconclusive.

A short time after his confession Davis was taken to a restaurant at Colony. He ate lunch while a radio blared the news of his confession. Officers said he did not look up from his plate.

Harrell On Tulsa Staff

TULSA (AP)—Bob Harrell, former TCU player and for 20 years a Texas high school coach, was named a backfield assistant today on the University of Tulsa's football coaching staff.

Harrell, 41, has coached the last seven years at San Angelo High School. He has built up a 144-20-5 lifetime record there and at high schools at Odessa, Greenville, Lamesa and Corpus Christi.

Fireworks Plant Razed

HAVRE DE GRACE, Md. (AP)—A heap of smoldering rubble lay over a 10-acre site today—the aftermath of a fireworks company explosion that claimed the owner's life.

Fortunately, 63 employes had ample warning and fled from the series of blasts Tuesday at the Havre de Grace Fireworks Co., and only two were injured. Three housewives on the street or in their homes also were hurt. The injured were treated at a hospital and released.

The charred body of James A. Fabrizio, 35, was found in the ruins of one building. He was so badly burned identification had to be made through dentures, a belt buckle and ring.

Another death was blamed on the explosions, which shook this northeastern Maryland town and did extensive damage to nearby homes.

Tough Little Pekingese Headed For Life Of Ease

NEW YORK (AP) — Ch. Chik t'Sun of Caversham, a pee wee who has flattened more tough hombres than any dog in history, headed home today for a life of ease.

Chik has earned it. He is a Pekingese, who weighs in at just 9½ pounds. He culminated three years of traveling from one end of the country to the other Tuesday night when he won the Westminster Kennel Club dog show in Madison Square Garden.

This was Chik's fourth try at the Westminster, and Mr. and Mrs. [illegible] Venable of Atlanta, Ga., wanted to win it badly. It was easier than they thought. Judge [illegible] H. Hartman Dibrated about a half hour—a ridiculously short time—before sending Chik to the top.

He now has 127 best in shows. The former mark of 121 was set by the great Boxer, Ch. Bang Away of Sirrah Crest. The Venables decided to let him go for 125. When he reached that figure, Westminster was so close, they decided to let him try for Westminster.

"And are we glad," said Mrs. Venable. "We thought this would be a fine farewell for him. Now he is going home to be a house pet.

"We have had him for three years, and he has traveled 75,000 miles a year if not more.

"I'll admit he got tired once in a while, especially when he was moving around a lot. But he was always willing to show."

He is the first Pekingese ever to win Westminster. For Clara Alford, his handler, the victory represented something she has been seeking for a long time.

"He'll be a wonderful pet," said Mrs. Alford, a half Cherokee from Oklahoma. He has been my favorite for three years and I think he'll adjust to his new life faster than I."

Chik, of course, got in the final by winning the toy group.

The other finalists included: Ch. Vardon's Frosty Snowman, a bulldog owned by Dr. Edward Vardon of Detroit, the non-sporting victor. Ch. The Ring's Bagshee, a basset hound, entered by Chris G. Teeter of Birmingham, Mich., the hound winner. Ch. Pinetop's Fancy Parade, an Ascob cocker spaniel, sent in by William J. Lafoon Jr. and Mrs. Rose Robbins of Petersburg, Va., the sporting champ. Ch. Cote de Yeige Sundew, a Pembroke Welsh corgi, entered by Mrs. William B. Long of Concord, Mass., who won the working group, and Ch. Balnart Bewitching, a Scottish terrier belonging to Mrs. Blanche Reed of Wantagh, N.Y., the terrier victor.

Convict Is Nabbed After 27 Years

By TOM DYGARD

BIRMINGHAM, Ala. (AP)—"I guess I always knew this day was coming, but I prayed every night that it wouldn't."

Harry Eugene Evans, 50, wanted by authorities for 27 years for failing to return to prison from a 10-day parole, sat in jail in Birmingham.

Police picked him up Tuesday at his house—where his wife and three children, his friends, and his employer knew him as Harry Eugene Hill, a respected, well-liked trucking company stock foreman.

Their warrant revealed his secret and identified him as Evans, a convicted bank robber.

"I've had a funny feeling ever since December," he said.

On Dec. 19 Evans was arrested in a minor traffic accident at Philadelphia and fingerprinted. He was on his way out of town after watching Alabama and Penn State play in the Liberty Bowl football game.

"It wasn't a serious accident, but a patrol car pulled me over, and they took me in and fingerprinted me," I started worrying then."

His wife of 19 years, who said she knew nothing of her husband's prison record, promised to stand by him.

The Hills have a daughter and two sons.

His employer of the last 10 years also stood behind him.

At Montgomery, Ala., officials of Kilby Prison said Evans was sentenced in 1931 to 20 years imprisonment for taking $2,454 from the Exchange Security Bank in Birmingham in a holdup in December 1930.

In October 1933 he was given a 10-day parole to visit an ill friend and never returned.

Evans said he thought he had a full parole.

"While I was out a lawyer told me he would get me a full parole for a fee," Evans said. "I paid him $250 and never heard from him again."

Hearings On Trains End

FORT WORTH (AP)—Hearings on discontinuance of Trains 5 and 6 between Houston and Kansas City by the Gulf, Colorado & Santa Fe Railroad ended here Tuesday. They will be resumed Thursday in Wichita, Kan.

The City of Temple filed a protest against discontinuation of the trains.

In the second day of the Interstate Commerce Commission hearing, J. J. Turpinat, assistant general auditor of the Santa Fe from Chicago, said it would not be necessary to fire employes to effect savings from the discontinuation of the two trains.

Turpinat said employes now working on Trains 5 and 6 "probably could be used" elsewhere in the system.

Turpinat was questioned by R. R. Bryant of Austin, representative of the Brotherhood of Firemen and Enginemen.

Turpinat told Bryant that he did not know if any department of the Santa Fe system was presently undermanned.

The railroad claims it loses $700,000 to $800,000 a year on the operation of the two trains.

Union Man Found Slain

CHICAGO (AP) — Police today tried to determine whether an elderly movie projectionist was slain because of his efforts to gain control of a union local.

Herman Posner, 73, defeated last March as a reform candidate for president of the Moving Picture Machine Operators Union, was found slashed to death early Tuesday behind his West Side home.

The union was investigated by the Senate rackets committee in 1958 which was seeking evidence of alleged corrupt influences.

Posner's body was found by members of his family who heard groans back of the house. He apparently was killed as he parked his car on returning from work.

His family discounted a robbery motive and told police they believed Posner was killed because of his efforts too bring about a reform in the union.

The Chicago Tribune, which ran a series of articles on alleged corruption in the union last October, has posted a $25,000 reward for information leading to the capture and conviction of the slayer.

Tests Are Slated For 36th Division

AUSTIN (AP) — "Operation Awake II" will test the reaction abilities of the 36th Division later this month.

Maj. Gen. Carl L. Phinney, Dallas, commander of the guard division, said Tuesday the date and hour for the exercise will be a secret.

The alert involves the full division with units in 65 Texas cities. This represents about half the strength of the entire Texas National Guard.

D. LOYD
. . . promoted by J&L

Promotions Set By J&L Supply

TULSA. — Several new assignments in the field sales organization of Jones & Laughlin Supply Division have been announced by W. L. Wolfe, Vice President-Sales.

T. W. Small has been appointed District Sales Manager of J&L's West Texas District with his headquarters at Odessa. He is moving from East Texas where he has been a salesman for J&L.

B. G. O'Brien, Salesman at Greensburg, Ky. is assigned as Salesman to J&L's Harvey, La. store.

M. D. Hartsell, Salesman at Shreveport, is promoted to Jackson, Miss. as Resident Salesman.

R. R. Angerstein, Salesman at the company's Fort Worth office, is assigned to the Wichita, Kan. sales office.

B. E. Irby, Store Manager at Longview, is assigned as Salesman at the Longview store.

J. M. Harp, Storeman General at the Shreveport store, is promoted to Salesman there.

K. M. Snipes, Sales Trainee at the Kermit store, is promoted to Salesman at Kermit.

D. Loyd, Sales Trainee at Snyder, is promoted to Salesman at Snyder.

Loyd entered J&L's sales training program in 1958. He is a graduate of Kansas State College.

Jones & Laughlin Supply Division, a division of Jones & Laughlin Steel Corporation, operates oilfield supply stores and sales offices throughout the United States and Canada. Headquarters for the Supply Division are at Tulsa.

Wealthy Colorado Brewer Missing

GOLDEN, Colo. (AP) — Adolph Coors III, wealthy brewer and industrialist, vanished from his blood-flecked car on a rural road Tuesday, touching off a vast manhunt in the Rocky Mountain foothills west of Denver.

Sheriff Wermuth said Coors may be a kidnap victim.

FBI agents, lacking immediate jurisdiction, were poised to enter the case. Sheriff's deputies afoot, in jeeps and on horses were joined today by low-flying aircraft in the search.

Coors' carry-all wagon, its motor still running, was found on a small wooden bridge which spans a shallow creek. Blood was found on the bridge railing and on the seat of the vehicle.

The missing man's glasses and baseball-type cap were found on the creek bank below the bridge.

Coors, 44, left his foothills home at 8 a.m. for the 12-mile drive to the Adolph Coors Co. here, where he is board chairman. His auto was found nearly three hours later by the driver of a milk truck.

Undersheriff Lew Hawley said there were like and footprints in the area around Coors' turquoise-and-white carry-all.

"But frankly, the ground there is so rough it would be almost impossible to tell if there had been any struggle," he added.

Coors is the eldest of three brothers who operate the Coors brewery and the Coors Porcelain Co., whose products include missile nose cones.

The brothers are grandsons of a German immigrant who founded the firm in 1874. It now ranks 14th nationally among brewery firms, on the basis of production.

Coors is married and the father of four children—Mary Brooke, 18, Cecily Grant, 16, Adolph IV, 14, and James Grant, 10.

VENEZUELAN MAKES STATEMENT—Vennezuelan Ambassador Marcos Falcon Briceno, left, makes a statement at an extraordinary meeting of the council of the Organization of American States. Alfredo LaFone of Uruguay is at the center and Dominican Ambassador Virgilio Diaz Ordonez is at the right. Marcos Falcon, who requested the meeting in Washington, denounced alleged flagrant violations of human rights in the Dominican Republic. (AP Wirephoto)

Federal Agencies Heard In Dispute Over Dam Project

By TEX EASLEY

WASHINGTON (AP)—In an effort to reconcile differing views on the proposed Amistad Dam between Texas and Mexico, a House Foreign Affairs subcommittee heard testimony today from federal agencies.

The dam would be built on the Rio Grande near Del Rio, Tex., with the U. S. paying 56 million dollars of the estimated 80-million-dollar cost and sharing proportionately greater benefits. Mexico would pay the rest.

"Some of the testimony of witnesses we've heard seems to conflict," subcommittee Chairman Armistead Selden (D-Ala) said. "We'd like to find out how different people can take the same set of figures and arrive at such different conclusions."

Officials of the State Department, Reclamation Bureau and Federal Power Commission were called.

The current phase of the subcommittee hearing on a bill that would authorize the dam is expected to end today, Selden said. The group then will consider visiting the Texas-Mexican border to get a first hand view of the project area.

Later, he said, hearings will be resumed to give water users in the Lower Rio Grande Valley an opportunity to express their views.

Texans from the Del Rio and Eagle Pass and Laredo areas, upstream from the fertile and irrigated Lower Valley, emphasized the proposed dam is primarily for flood control and that no new lands would be put under irrigation.

Jack Drake of Weslaco, representing the Lower Valley Chamber of Commerce, asked the subcommittee to hold the later hearing so water users in his area could prepare their case. He said they don't object to Amistad as a food control measure, but feared it may deprive them of water to which they are entitled.

The other controversial feature of the project which the subcommittee seeks to discuss further with federal officials is the proposed dam's hydroelectric potential.

The subcommittee has been told by several witnesses that a Federal Power Commission report holds that the power to be generated at Amistad could not be depended on at all times. For this reason, they said, the government should not finance installation of generating equipment.

On the other hand, spokesmen for REA cooperatives in Texas have testified that the Central Power & Light Co. of Corpus Christi considered the power potential of such value that the company had offered to install generating equipment at its own expense and pay $337,000 a year for the falling water rights.

Estimates of the cost of the generating equipment—not included in the 80-million-dollar estimate for the dam, varied from 10 to 20 million dollars for facilities ranging from 70,000 kilowatts capacity to 100,000 kilowatts.

Mail Fraud Count Filed

CHATTANOOGA, Tenn. (AP) — Postal inspectors have charged a 32-year-old Chattanoogan with a revengeful mail order scheme in which such things as 1,500 pounds of cheese and a reducing machine were ordered in the names of other people.

Erold A. Curtcher was arraigned Tuesday on a charge of using the mails to defraud.

A U.S. attorney said the harrassment campaign of more than a year centered on officials of an insurance agency which had refused Curtcher a job.

Jack D. Hixson Jr., an agent for the insurance firm, said his name was used in the order for fancy cheese. But what really shook his household was his unsought enrollment in a rock 'n' roll record club.

He said rock 'n' roll is forbidden in his house, since his wife once was a violinist for a symphony orchestra.

Johnson's Chances Good, Says Hodges

FORT LAUDERDALE, Fla (AP)—The South will back Sen. Lyndon Johnson of Texas on the first ballot at the Democratic presidential nominating convention, Gov. Luther Hodges of North Carolina predicts.

"And he has a good chance to become the next president," Hodges added Tuesday.

Hodges said there's no reason why a Southerner can't become president, even though Sen. John Kennedy (Mass) looks like the present front-runner.

Says Dissension May Elect Nixon

By NORMAN WALKER

MIAMI BEACH, Fla. (AP) — The AFL-CIO political chief said today the hot Democratic presidential rivalry may create so much party dissension that Republican Richard M. Nixon could win the White House in a walk.

James P. McDevitt, director of the labor union organization's political division—the Committee on Political Educaton — declined to state his preference among presidential possibilities in either party but said a damaging Democratic nominating hassle is a distinct possibility.

As McDevitt, a Democrat, prepares to submit an appraisal of the coming campaign to a closed top union official, Lee W. Minton, spoke out for a Republican combination he claimed would be unbeatable.

Minton, president of the Glass Bottle Blowers Assn. and a member of the AFL-CIO Executive Council, said Secretary of Labor James P. Mitchell is the strongest man that Vice President Nixon could have as a Republican running mate. Mitton himself is a Republican.

"It would be foolish," Minton said, "for the Republicans to nominate any one else but Mitchell to run with Nixon. I don't think any Democratic combination could beat them."

McDevitt said that, with Nixon apparently unopposed for the top of the GOP 1960 ticket, Democrats could weaken their chances by dividing forces in hot state primary and national convention battles. He said this won't necessarily happen but well might prove to be the case.

Accordingly, McDevitt said, he has asked AFL-CIO state organizations to refrain, clear of taking sides in primaries between rival Democratic presidential Candidates such as the Wisconsin test between Sens. John F. Kennedy (D-Mass) and Hubert H. Humphrey (D-Minn). Similar requests have been made to national AFL-CIO unions.

Labor union sources meanwhile suggested that as a result of stepped up efforts to get union men elected as Democratic convention delegates, more of them than ever probably will be on hand when the Democrats convene this summer in Los Angeles.

No choice is expected during among the presidential aspirants. Union leaders strongly indicated that after this summer's party conventions they probably will consider endorsing the Democratic nominee provided he and his party's platform are acceptable.

Buddy De Sylva, composer of "When Day Is Done," "Button Up Your Overcoat" and other hit tunes began song writing when he was a student in the University of Southern California.

SETS INSPECTION — Elmer E. Watkins, above, Eminent Grand Warden, Grand Commandery Knights Templar of Texas, is due here Thursday evening to inspect Snyder Commandery No. 69. Watkins is from Wichita Falls, where he is associated with the National Cash Register Co. All Knights Templar and their wives here will meet for a dinner session at the Village Restaurant at 6:30 p.m. Thursday, preceding the inspection.

Canines Win Fight In Detroit Suburb

DETROIT (AP) — Suburban Lincoln Park is going to the dogs. Thanks to Mayor Jack Johns the canines won out in a proposal which would have limited each household to two dogs. The City Council was deadlocked 3-3 on the issue until the mayor cast his ballot against it.

He owns one dog.

Historic Inquiry Appears Possible

By STANFORD BRADSHAW

WASHINGTON (AP) — An historic inquiry by the Inter-American Peace Committee into alleged violations of human rights in the Dominican Republic appeared possible today.

The investigation was asked of the Organization of American States Monday by Venezuela in the wake of reports of mass arrests in the Dominican Republic. If it does result, the inquiry has first to pass hurdles within the OAS and within the Peace Committee itself.

From Venezuela, meantime, came reports that a revolt aimed at toppling the regime of Generalissimo Rafael Trujillo may come at any time. Trujillo denies his dictatorship is in trouble.

The OAS Council referred the Venezuelan request to its General Committee which was to determine how the council should proceed in a closed meeting Tuesday, the committee reportedly concluded the matter could best be handled by the five-nation Peace Committee.

A working group of five nations resumes late today its work of preparing a draft resolution for the General Committee and the OAS Council.

The resolution, diplomatic sources said, probably will express the concern of the council at violations of human rights, but note that the Peace Committee has special authority to act in this instance.

Venezuela then could take its request to the Peace Committee, or the committee itself could undertake the investigation on its own under authority given by a 1959 meeting of Western Hemisphere foreign ministers.

Venezuela is a member of the Peace Committee along with the United States, Mexico, El Salvador, and Uruguay, any would be disqualified from sitting. A special fifth member would have to be named by the OAS Council.

The Venezuelan reports of impending Dominican revolt came from diplomatic sources in contact with Dominican exiles in Caracas. They said the exiles are seeking to join forces for an orderly transition to democratic government and oust Trujillo, foes.

Named as a possible head for a Dominican provisional government was Prof. Juan Isidoro Grullon, 62, a professor of medicine at the University of the Andes at Merida, Venezuela.

Six-Year-Old Girl Sees First Lion

DETROIT (AP) — Karla, who is 6, went to the Shrine circus here Tuesday.

She wanted to see Caesar the lion, and Moppet the clown held her hand because that made everything easier.

He's a great big kitty cat," said Karla, "and I was scared. When he hollered he sounded like a pig.

"He lives in a big room and when he came up front he humped at me.

RAMBLER WINS COMPACT CAR ECONOMY TEST!

Rambler American tops nearest competitor by 6.67 miles per gallon in Pure Oil Economy Trials at Daytona

NASCAR SANCTIONED

Once again Rambler proves it's America's Economy King! Under official NASCAR supervision, the Rambler American won over all other U.S. economy cars to sweep the Compact Car Class in the Pure Oil Economy Trials held at the Daytona International Speedway Public Proving Grounds, February 1-3.

But gasoline mileage is only one measure of Rambler economy. Rambler owners save, too, on lowest prices, lowest upkeep, and highest resale value.

Discover Rambler's *all-around* economy yourself. See your Rambler dealer today.

HERE ARE THE OFFICIAL PURE OIL ECONOMY TRIAL RESULTS

RAMBLER AMERICAN 51.281 Miles Per Gallon

FALCON	44.614 MPG	Rambler gave 14.9% more mileage
VALIANT	41.801 MPG	Rambler gave 22.7% more mileage
CORVAIR	39.882 MPG	Rambler gave 28.6% more mileage
LARK	32.965 MPG	Rambler gave 55.6% more mileage

IMPORTANT

All cars in the Pure Oil Economy Trials were driven by expert drivers and operated under ideal conditions. The winning Rambler American Custom was equipped with optional overdrive which is not available on most other cars in the Compact Car Class and averaged better than 25 miles per hour. No car owner should expect to approach in every day driving the mileage achieved in this test by Rambler or any of the other cars. However, the results prove again the superior economy that Rambler owners enjoy.

For America's Lowest-Priced, Most Economical Cars

Rumor Ike May Buy California 'Ranch'

INDIO, Calif. (AP) — Is President Eisenhower negotiating to buy a 20-acre ranch near this Southern California desert city?

Asked about such reports, the present owner, William Carey of San Diego, said Tuesday "I would be most happy to confirm that the President is buying my ranch, but all that I can say right now is no comment, and to add that I can't think of a better new resident for Indio."

The property is a few miles from La Quinta, where President Eisenhower recently spent several days. It includes a central residence, five guest houses and a large swimming pool.

Dwarf Lemon Tree Produces Big Fruit

PASADENA, Calif. (AP) — Mrs. Carney Brewer planted a dwarf lemon tree in her back yard two years ago. A lemon plucked from it Tuesday measured 7½ inches in diameter and weighed 3½ pounds.

There's a bigger one on the tree.
