

On The BEAM

J. W. KING, SR.

It has been a long time since we have had an abundance of rain in April as we have had this year. The earth is soaked and ready to receive the seed farmers will be putting in the ground within the next few weeks. April, this year, produced 7.05 inches of rain, all of it except .10 of it coming the last two weeks of the month. This brought the total for the year to 9.45 inches, way above the average for the time of year.

The hail we had in a narrow strip around Loraine on April 28 was small sized, but it came thick and fast, stripping fruit trees of most of the large crop of fruit that had set on the trees, including pecan trees. Fruit that is left on the trees is bruised and if it matures will be inferior.

Saturday is election day in Texas, or rather it is primary time when the Democrats will select candidates to oppose the Republican candidates in November. If you are qualified to vote you ought to exercise the privilege and cast your vote for the candidates you think are best suited for the jobs.

FFA Wins At Texas Tech

The livestock judging team of Loraine FFA Chapter almost made a repeat performance in the judging contest held at Texas Tech, Lubbock, Saturday. The team one year ago placed first with 144 teams competing. This year, the team placed second with 153 team competing and needed only five points to take first place honors.

Members of the team were Ronnie Finley, Keith Hackfeld and Stanley Hackfeld. In the contest, Ronnie Hackfeld was the 10th overall high individual with approximately 469 competing. Keith Hackfeld was only three points behind Finley.

In the judging of sheep, Stanley Hackfeld and Ronnie Finley had a perfect score and the team placed first with a score of 296 points out of a possible 300.

The top ten overall high teams were: Roby, 1055; Loraine, 1051; Spur, 1037; Hereford, 1021; Dumas, 1017; Sweetwater, 1016; Snyder, 1014; Perryton, 1012; Ozona, 1011 and Cashiona 1010.

The poultry and egg judging team from Loraine also qualified for the State contest at Texas A&M, and placed 12th in the Texas Tech contest with 60 teams competing. The team also placed 7th in the Area II competition. Members of the team were Jesse Watkins, Steve McCollum and David Terry.

The meat judging team, composed of Bob Furlow, Donnie Bowles and Ricky Walker placed third against 45 teams.

Other teams participating in the Texas Tech contests were: dairy cattle, composed of Dennis Cornutt, Danny Butler and Herman Mitchell; and dairy products teams, composed of Peter Galvan, Lupe Galvan and Stanley Long.

The livestock and poultry teams will be competing in the state contest at A&M, which will represent the top 10 per cent throughout the state and each team had to qualify in their respective areas for the state contest.

Present laws covering auto liability insurance are inadequate for the protection of the motoring public. The Safety Responsibility Act needs revising.

INDUSTRY:

The potential resources in Mitchell, Howard and Nolan counties are tremendous; only good leadership is needed to promote them.

AGRICULTURE:

Greater farm and ranch income should be encouraged through less government control.

AGAINST WATER POLLUTION:

Water pollution must be prohibited and greater storage areas should be encouraged.
