

GOP Hints Veto Of Medical Care Plan

Vote Slated Late Today

WASHINGTON (AP)—Republicans dropped a hint today that President Eisenhower might veto any medical care plan tied into the Social Security program, if that is what Congress enacts.

It came as the Senate pressed toward a decision on this proposal, backed by Sen. John F. Kennedy, the Democratic presidential nominee.

There was an agreement for a vote by 5 p. m. It was expected to be very close.

Senate Republican Leader Everett M. Dirksen of Illinois talked of a veto after GOP congressional leaders had their regular weekly meeting with Eisenhower.

Dirksen didn't quote the President. But on the basis of Eisenhower's previous statements, Dirksen said he might very conceivably disapprove a plan tying medical care for the aged into the Social Security system.

On the other hand, Dirksen said, Eisenhower probably would approve the Javits proposal. He said it contains many of the features Eisenhower has advocated including federal-state grants to help the aged meet medical bills.

This proposal is sponsored by Sen. Jacob K. Javits (R-N.Y.) as a rival to the Kennedy-backed Social Security plan.

Sen. Lyndon B. Johnson of Texas, the Democratic leader and party vice-presidential nominee, told newsmen at the Capitol that even the Javits plan marked an administration move toward the Democratic view.

Some Democrats said privately as the showdown approached that they could not see how the Kennedy-backed proposal could win without votes of several Republicans. There is opposition to it from some Southern Democrats.

Dirksen said the Republican substitute would be cumbersome and questioned whether states could raise the necessary funds.

Either of the rival plans would be added to a medical care plan for indigent persons approved by the Senate Finance Committee.

Under this about 200 million dollars in federal funds would be made available each year to help states pay medical expenses of those on the public assistance relief rolls, or who have incomes high enough to keep them off but insufficient to handle medical bills.

Dirksen said the Republican substitute would be cumbersome and questioned whether states could raise the necessary funds.

Dag Presses Plans For Congo Panel

UNITED NATIONS, N. Y. (AP)—Secretary-General Dag Hammarskjöld pressed ahead today with plans for a committee of nations to advise on operation of the 15,000-man force serving under the U. N. banner in the Congo.

Hammarskjöld's task in the Congo was eased for the time being at least by Premier Patrice Lumumba's withdrawal of demands for U. N. aid to whip secessionist Katanga into line.

Hammarskjöld had decided his position would be less vulnerable if he formed the advisory group, a procedure he found successful in directing the U. N. Emergency Force in Palestine. The advisers will be from the nations whose soldiers are in the U. N. Congo Command.

Lumumba backed down after all but the two Communist members of the Security Council on Sunday endorsed the secretary-general's refusal to let the U. N. force be involved in the Congo's internal political troubles.

It was a pointed rejection of Lumumba's demand that the Congo government in control of rich Katanga province, whose Premier Moïse Tshombe is leading a move to make the Congo a loosely organized federation of semi-autonomous provinces.

Lumumba changed his tune after a three-hour conference with the Soviet ambassador to the Congo, Mikhail D. Yakovlev.

The government "sees no reason to press its demands," said a spokesman for Lumumba, adding a "ceasefire" face-saving comment that "the government is satisfied that Belgian soldiers will be withdrawn" and "considers the atmosphere good."

Pressure By Nixon Aide Is Charged

WASHINGTON (AP)—Sen. J. William Fulbright (D-Ark.) said today that pressure from a Nixon campaign aide led the State Department to reverse itself and offer funds to bring African students to this country.

He told the Senate that James Shepley, an aide to Vice President Richard M. Nixon in his presidential campaign, entered the picture "on a crash basis" after learning that the Joseph P. Kennedy Jr. Foundation had agreed to put up \$100,000 to transport the students.

"I deplore, as strongly as I can, a department that is so susceptible to outside pressure," said Fulbright, chairman of the Senate Foreign Relations Committee.

Last week Sen. Hugh Scott (R-Pa.) kicked up a row in the Senate by accusing the family of Sen. John F. Kennedy, Nixon's Democratic opponent, of underwriting the transportation of the African students for political purposes.

He said the Kennedy Foundation, of which the senator is a trustee, had outbid the government on the project. Kennedy replied that the foundation had acted only after the State Department had rejected a request for aid.

COALS TO NEWCASTLE—United Nations troops unloaded a cargo of bananas from a Russian supply plane at Leopoldville airport in the Congo. No one seems to know why the Russians sent bananas—a commodity in plentiful supply in the Congo. (AP Wirephoto)

Herter Warns Latins Reds Biggest Menace

By STANFORD BRADSHAW
SAN JOSE, Costa Rica (AP)—Secretary of State Christian A. Herter will warn the Latin American nations today that they are not the United States' are most menaced by communism's attempt to infiltrate the Western Hemisphere via Cuba.

Herter, laying down a hard U. S. line toward prime minister Fidel Castro's regime, was expected to urge the foreign ministers' conference of the Organization of American States to condemn Red Chinese-Soviet threats to the hemisphere. It was not known whether he would back Argentina's plan for a special conference to chart plans for a democratic counter-offensive.

Herter's speech, late this afternoon follows a new U. S. memorandum to the conference accusing Cuba of training spies and guerrillas to spread Communist revolution throughout the hemisphere.

The tough U. S. stand chilled hopes of some Latin American delegates that they could arrange some procedure to mediate differences between the United States and Fidel Castro's regime.

The nine-page U. S. memorandum to the OAS Peace Committee supplemented an earlier 78-page report. Besides charging that international brigades are being trained in Cuba to carry the Red message to other Latin American nations, the new memo noted Red Cuban moves to suppress "the remaining vestige of individual 'liberty' in Cuba—religious freedom."

Cuba's OAS ambassador, Carlos Lechuga, termed the report "totally false." Cuban Foreign Minister Raul Roa was expected to demand sanctions against the United States, charging economic aggression against Cuba.

Argentina's proposal called for another conference within 90 days to prepare a draft treaty of methods "for prevention and eradication of the Communist movement in the hemisphere." Initial reaction to the proposal was cool.

The United States was considered likely to get a good response to its request for a strong stand against Soviet infiltration in the view of the U. S. agreement to take political and economic sanctions against the Trujillo regime in the Dominican Republic.

There was some apprehension, however, that if too much pressure was placed on Cuba, she might take her charges against the United States back before the U. N. Security Council. Cuba sought U. N. condemnation of the United States in July, but the council referred the complaint over to the OAS.

Radio Caribe, Dominican dictator Rafael Trujillo's radio station, announced in Ciudad Trujillo Monday night it is negotiating to subscribe to the service of the Soviet news agency Tass.

A spokesman said the broadcasting company does not want its listeners in the Dominican Republic to be "influenced by imperialist interests which are contrary to the Dominican people."

Fort Worth Child Crushed To Death
FORT WORTH (AP)—Charles Daniel, 2, was crushed to death today beneath wheels of the family car just outside southwest Fort Worth.

Officers said Charles and a brother, 2, were playing in the car parked in the driveway. Somehow they disengaged the gear shift and the car started rolling. Charles jumped out and slipped beneath the vehicle.

Freezing weather, with strong winds, snow and rain, gave Montana a preview of winter today. The cold front spread throughout the state, dropping temperatures below freezing in the Helena area. Snow and rain pelled Butte.

Temperatures generally were in the 40s in most of Montana, with rain in many sections. The mercury dropped to 50 at Billings after Monday's high of 90 degrees. Thunderstorms swept the south-east part of the state, with wind gusts of 52 m.p.h. at Miles City and 48 m.p.h. in northern Wyoming.

The thunderstorms and strong winds extended into the Dakotas and Nebraska. The mercury soared above 100 in the Dakotas and 104 at Philip, S.D. Generally mild weather was the rule elsewhere.

Pair Lose Lives In South Texas Crash
LA MARQUE, Tex. (AP)—Mrs. Lulu Clark Stahl of Houston, 83 today and due to be honored at Houston Hearing Society, and Howard Shields, 40, of Texas City were killed today in an auto crash.

Mrs. Stahl was a former president of the society's active members. The Highway Patrol said Shields was alone. The driver of the car in which Mrs. Stahl died, William F. Jones, 50, of Houston, was killed.

Churchill Warning Brought To Light

WASHINGTON (AP)—Britain's Winston Churchill warned Harry S. Truman about Soviet expansion plans before the U. S. president went to Potsdam in 1945, it was reported today.

After Truman got to the wartime parley with Churchill and Joseph Stalin, he found the Red detaching their land grabs in Eastern Europe and reaching for more.

This was reported by the Minneapolis Tribune and the Des Moines Register & Tribune in the third of a series of four articles by Fletcher Knebel and Charles W. Bailey on the still-unpublished Potsdam papers.

The State Department, which periodically publishes state documents of historical interest, has so far refused to remove secrecy from the Potsdam papers.

An inquiry is under way on how they were "leaked" to the press. The July 17-Aug. 2, 1945, meeting at Potsdam, near Berlin, was the last of the big World War II conferences among the major allies. It made postwar plans in general, but not specific, arrangements in Eastern Europe, which the Soviets never lived up to.

The Knebel-Bailey account said the Potsdam papers show the "secret" behind a "great concern" for the U. S. can be set.

An objection by Rep. August E. Johansen (R-Mich.) prevented the measure from going directly to a Senate-House committee for a compromise with a narrower bill passed earlier by the House.

That action would have required unanimous consent. Under the regular rules, the Rules Committee must give its approval to a bill. The measure can be set.

Over the Soviet takeover in a May 11, 1945, cable to Truman—two months in advance of the Potsdam gathering. Just a month earlier, on April 12, Truman had become president upon the death of Franklin D. Roosevelt.

An earlier Knebel-Bailey article said that Stalin, with the approval of Truman, stalled a Japanese peace treaty three weeks before the first atomic bomb destroyed Hiroshima.

The Knebel-Bailey account said the Potsdam papers show the "secret" behind a "great concern" for the U. S. can be set.

EXHAUSTED—Weary firefighters rest while their foreman tells a newsmen of the grim battle to hold the fire line at the south edge of the Sierra mountain community of Foresthill, California. The hamlet's 225 residents waited under evacuation orders over the weekend while some 1,400 firefighters fought the forest blaze near the area. (AP Wirephoto)

Winds Shift To Slow Fire

RENO, Nev. (AP)—Electricity returned to western Nevada Monday night after shifting winds slowed forest fires that weary men were unable to hold.

The winds also cooled debris enough to allow repairmen to restore disabled power lines, re-lighting Reno and the Lake Tahoe resort area.

Reno and 14 other Nevada cities were without power since Sunday afternoon when spectacular blazes that cracked over 70,000 acres melted power lines.

Despite the restoration of power, rangers warned today that the same shifting winds could push the fires to new heights.

Bill To Cut Dominican Sugar Asked

WASHINGTON (AP)—President Eisenhower today asked Congress for legislation giving him power to take away from the Dominican Republic an allotment of 322,000 tons of sugar for the U. S. market.

The President's action followed up condemnation of the Dominican regime of strong man Rafael L. Trujillo by the foreign ministers of the American Republics meeting at San Jose, Costa Rica.

When Congress in July authorized Eisenhower to reduce Cuba's sugar allotment by 70,000 tons it provided that 322,000 tons of this reduction go to the Dominican Republic.

Citing the action of the foreign ministers in condemning Dominican acts of aggression against Venezuela and calling for a break in diplomatic relations with the Dominican Republic, Eisenhower said: "In view of the foregoing considerations, the government should have discretion to purchase elsewhere the quantity apportioned to the Dominican Republic pursuant to the July amendment to the Sugar Act."

"I therefore request legislation providing that amounts which would be purchased in the Dominican Republic pursuant to the July amendment need not be purchased there but may be purchased from any foreign countries without regard to allocation."

By ED O'NEILL
AUSTIN (AP)—A Texas Highway Commission order banning foreign goods in building Texas roads has been criticized as an "ill conceived action" which will bring about criticism abroad to the U. S. State Department.

The Washington attorney, Nelson Hill, said it violates the spirit of the treaty between the two nations in 1933.

A public hearing was called Monday by the commission to hear both sides in the issue. A decision is not expected until late next month.

In 1938 the commission issued the order but it was kept pending until the Bureau of Roads issued a policy decision. In June 1960 the bureau said it was a matter of state should decide so the commission re-issued the order about a month ago. Chairman Herb Perty, Carrizo Springs, said: "They argued that a policy would insure a uniformity of materials used on the roads and that it would be a 'forward step for Texas.'"

Highway Commission's Ban On Foreign Goods Criticized

Campaign Going Well, Like Advised

WASHINGTON (AP)—Republican congressional leaders told President Eisenhower today that the political campaign is "going very well" for his side.

Senate GOP leader Everett M. Dirksen said he has "no doubts" about the campaign's progress. He said the campaign is "going very well" for his side.

On the other side of the political fence, Sen. Henry M. Jackson (D-Wash.) said he admires the courage but doubts the political wisdom of Vice President Richard M. Nixon's decision to campaign in the Deep South.

Nixon announced Monday he will talk in Birmingham, Ala., Atlanta, Ga., Friday after a speech Wednesday at the Veterans of Foreign Wars convention in Detroit, Mich.

Jackson, the Democratic national chairman, said he has "no doubts" about the campaign's progress. He said the campaign is "going very well" for his side.

Addison's Debts High

DALLAS (AP)—A Denver, Colo., attorney said Monday the debts of uranium promoter John Milton Addison may exceed 2 million dollars.

Milton Berger, in Dallas preparing for today's meeting of creditors in Addison's federal bankruptcy case, said "My client's claims alone amount to more than \$2,000,000."

All of the \$2,000,000, of course, will not come from lenders' claims," Berger said. "This total includes all commercial claims, automobiles people have lent to him and claims of all sorts."

Most of the \$2 million Berger represents lies in Honolulu, Hawaii.

The meeting of creditors today was scheduled by Federal Bankruptcy Referee Elmore Whitehurst. Addison was not attend.

He was in Flagstaff, Ariz., Monday standing trial in an illegal restraint suit.

Honors Set For McKinley

TOKYO (AP)—Japan Tuesday disclosed it will award the Fifth Class Order of the Rising Sun to a famed fighter of Texas oil well fires, Myron M. Kinley of Houston.

The foreign ministry cabinet and imperial household have approved the decoration in gratitude for Kinley's help in extinguishing 62 oil fires in Japan.

Kinley, 62, extinguished one oil well blaze near Nagasaki, Japan, June 25, after it had burned out of control for nine days.

Kinley put out another oil well fire for the Teikoku Oil Co. in the same area in January.

There has been no decision on how or when the award, one commonly given to outstanding foreign engineers, will be presented, Kinley left Japan for home June 28.

Expulsion Is 'Ridiculous'

GREAT NECK, N. Y. (AP)—The mother of an American student expelled from the Soviet Union for taking pictures termed the action "utterly ridiculous."

However, Ann D. Andrews expressed concern because she said Kennedy had no word from her son Joseph, 21, or American authorities as to his whereabouts or the situation concerning him. She learned of the expulsion from news reports.

The U. S. Embassy in Moscow was informed Monday that Kennedy was in Boston. The Russians accused him of taking pictures of a factory behind the apartments but Andrews said he didn't know of one.

Construction Is Approved

AUSTIN (AP)—The majority of the Texas Youth Council approve of recent construction starts at two state reformatories, two members of the 3-man council said Monday.

Louis Henna of Round Rock and Robert Kneebone of Houston said they had no criticism of the executive director, Dr. James Turman, for starting the projects.

Chairman W. C. Windsor of Dallas told Turman last Friday: "I think if we are making an addition to one of our campuses it should be with the approval of the council. I personally can't see your spending the state's money without the authorization of the council—and that's what you were doing."

Turman recently bought two government surplus buildings that are being converted into a dining hall at the Gatesville State School for Boys and the Gainesville State School for Girls. The buildings cost \$239,000. The council had budgeted about \$100,000 for the two projects but Turman said the council could now drop the items from the budget.

Barbara Powers In Farewell Meeting With Husband Today

BY STANLEY JOHNSON

MOSCOW (AP)—Barbara Powers put on a bright yellow dress today and had a farewell talk with her imprisoned husband, U2 pilot Francis Gary Powers.

They met at the Soviet Supreme Court building.

A "title" earlier, his father's name, Oliver W. and Ida Ford Powers, spent a last sad hour with their son who has been sentenced to 10 years' detention for espionage.

Neither parents nor wife were able to speak with newsmen when they emerged. They were all obviously overcome with emotion.

When Barbara came out she held her face with her hand. Her mother, Mrs. Montague Powers, of Milledgeville, Ga., ran interference for her as she dashed to a limousine for the drive back to the hotel.

This was the first time since her arrival in Moscow that Barbara had worn a bright color. She did so today because her husband likes her in yellow.

Powers sent word to his father to "please bring money" to their last meeting, so that the fierer can buy cigarettes and other small items in jail. Powers also said he could use a watch. His own watch was forfeited to the Soviet state treasury under the terms of his sentence along with other valuables he had when captured.

"My watch only cost \$49.50," the elder Powers told newsmen, "but it's a good watch. It cannot compare with the one he had, but I am immensely proud to give it to him."

Barbara Powers also was to see her husband, but after his parents visited him.

Barbara waited anxiously for a reply to a three-page, handwritten letter she dispatched to Nikita Khrushchev Monday, asking the Soviet premier to see her or to allow her to see her husband.

The members of the family went separate ways again Monday night, for a little relaxation after the strain of the trial. Oliver Powers and his wife visited with American newsmen at a coffee dinner with another group of newsmen at a restaurant.

Aged Man Sprays Area With Gunshot

HOUSTON (AP)—An 82-year-old man sprayed his neighborhood with shotgun charges Monday night and killed a deputy sheriff as police surrounded him.

A few minutes later an officer charged the backyard redoubt of Lewis E. Semora and subdued him. The policeman grabbed Semora as he tried to reload his shotgun.

Sheriff Buster Kearns said Semora was incoherent and couldn't answer questions. He was taken to a hospital for treatment of an injury, possibly a bullet wound.

No charge was filed against him immediately.

Killed was Deputy Donald E. Knowlton, 31, who volunteered his help when police rushed to Semora's home on the northern outskirt of the city.

Sheriff Kearns said Knowlton walked directly in front of the backyard shack in which Semora was hiding and was felled by a shotgun blast.

Police were called to the Semora home by a neighbor, Evelyn Lindsey, 33, who said two windows in her home were shot out. As officers A. R. Herndon and Kelly Woodard arrived, they heard eight to 10 shots and traced the sounds to the shack. A hurried call for reinforcements brought Knowlton, who was cruising the area in a patrol car, and about 10 other officers.

Knowlton is survived by his widow and a daughter.

WOMEN

The Snyder Daily News, Tues., Aug. 23, 1960

Look To Future As You Furnish

"Look ahead two ways when you buy furniture." First, you look to the immediate future, and what your life will be like in a few years. Then you look ahead two years.

When you have these two pictures of your life clearly in mind, you will be ready to start planning. You will know what your needs are for the present and for the reasonable future. Here are some questions to ask yourself: Will our family grow? The increase from two to three can be devastating. A young married couple might be wise to pause before buying fragile easily soiled treasures. Youngsters can be brought up to live with nice things, but it's often easier on parents if the "nice things" are scratch-resistant and easy-to-keep clean. As children grow, the sturdy furniture can be transferred to a family room.

How much "housekeeping can I afford?" A woman "on the go" and on a budget will look for easy care. She will want finishes that won't show the first dust fleck surfaces that will wipe clean with a damp cloth.

The woman who can afford a cleaning woman or the time to give her home intensive care can go in for carvings, curves and china collections.

Will we move? If you are likely to change addresses, you will want furniture that will be attractive in both your present and future homes. Size and scale are important here. Furniture that is just right for a generous-sized room overpowers a tiny one.

Will we re-decorate? Take a good look at the condition of the furniture you already have and of the room. Perhaps you will need more than one change in the months ahead. A master plan will guide your buying so that everything will "go together."

WHAT'S GOING ON

Mr. and Mrs. C. E. Trussell, 2311 Twenty-seventh Street, have returned home after joining Mr. and Mrs. Dale Glover of Fort Worth on a vacation trip to California, Utah and other western states.

When Is Cake Done

The timer, oven control and automatic clock on your range are reliable guides to help you determine the exact time a cake has finished baking. On humid days a cake may take a little longer to bake than the recipe states. Home economists say that it is a good idea to thrust a wooden pick into the center of the cake. If the pick comes out clean the cake is done — and another triumph has been chalked up for automatic controls!

Men Step Up Pace In Style Changes

Men are making fashion news of their own this fall in a world that in the past decade has seen men's style changes fast approaching those of women. Only as recently as the '40s it took seven years for a man's clothing style to change.

Today a style in men's clothing is replaced by a new one in a span of two or three years and even that time lag is being cut shorter each season.

For example, the Continental suit introduced two seasons ago, has today gained broad acceptance across the country for its more fitted, shorter jacket, squared shoulders and cuffless, tapered trousers. Such general acceptance of a style at one time took seven to 10 years.

Now moving into the style picture this fall, are styles that underscore the look of "elegance" rather than the note of "high style." Fabrics with a smooth, elegant finish, rich deep colors and discreet patterns are the clues for the man of distinction this coming season.

A group of special suits in an elegant silky black, a surprise fashion note for daytime or late-day wear, are being featured. In a man's wardrobe these suits correspond to the ever wearable and beautifully simple black dress needed by every woman.

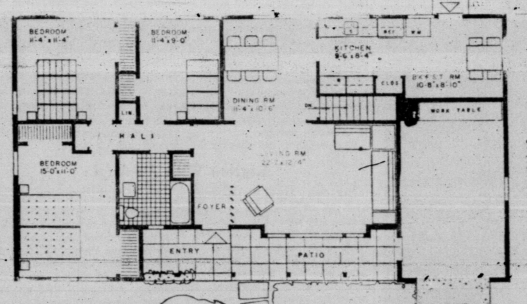

Vests are making a steady return to fashion. This trend is sparked by the younger man to whom the vest is almost a novelty. The matching vest gives him more pocket room and helps to create the long, trim silhouette today's styles dictate.

Men on the move — either for business or pleasure — also will find this fall that the widely accepted summer-weight blend of dacron and worsted has been woven in a heavier weight for fall and winter, adding further to its style and wearing qualities.

Vacation Comfort

Small heaters for vacation house now come in light fashion colors. The colors harmonize with other furnishings in a cottage. New models feature radiant circulators. They are available for natural, bottled or liquefied petroleum and manufactured gas. The heaters relieve dampness and chill and extend the use of the cottage for beyond regular vacation months.

HOMES FOR AMERICANS

EFFICIENCY PLUS. This is not an especially large ranch type home but its 1,215 square feet of living space are used to the maximum advantage. Special features: A covered patio that allows protected access to the garage in foul weather, a light and airy 20-foot-long kitchen-breakfast room with three windows opening on two sides of the house and a foyer separated from the living room by a vertical louvered divider that does not detract from the openness of the two areas. The architect is Samuel Paul, 89-51 164th St., Jamaica 32, N. Y., and the plan is HA155P.

For A Picnic Serve An Easy Skillet Dinner

What is a picnic? Webster defines a picnic as "An excursion or pleasure party the food for which is usually provided by members of the group and is eaten in the open air."

With their usual disregard for Mr. Webster's precision, Americans have expanded this definition to include any meal eaten under casual circumstances, according to the Texas Beef Council. In Texas, a picnic may vary from one battered sandwich eaten on the creek bank during a lull in crawdad fishing to a barbecue with a guest list numbering several thousand.

The Beef Council has found that a picnic requires three elements: good food, good friends, and a casual setting. This casual setting, however, carries a warning for hostesses: prepare large servings, because fresh air and good companionships are great appetite whetters.

This Skillet Dinner is equally delicious served on the patio or at the lake. These proportions make 4 servings.

1 pound ground beef; ¼ teaspoon Ac-cent monosodium glutamate; 1½ teaspoons salt, divided; 2-3 cup fine dry bread crumbs; ¼ teaspoon pepper, divided; 2-3 cup evaporated milk; ¼ cup shortening; ¼ cup chopped onion; ¼ cup chopped green pepper; 1 can (1-pound) tomatoes; 1 can (1-pound) whole kernel corn.

Break up meat with fork in mixing bowl. Sprinkle Ac-cent and

¼ teaspoon of the salt over entire surface of meat. Toss gently with fork to distribute seasonings. Add bread crumbs, ¼ teaspoon of the pepper and evaporated milk; mix and form into large patty. Brown meat in hot shortening on all sides. Add onion and green pepper; cook until tender. Drain tomato and corn liquid into skillet; simmer until liquid is reduced to about ¼ cup. Add tomatoes, corn, remaining ¼ teaspoon salt and ¼ teaspoon pepper; heat to serving temperature.

Soap Susan

A circular piece of plywood attached to a standard TV swivel makes a Lazy Susan for soaps and cleaners under the kitchen sink. The many bottles are easier to reach with this time saver.

Small Furniture Solves A Problem

By VIVIAN BROWN

THE LONG NARROW ROOM is a challenge to decorators, amateurs or professionals. If the family likes to entertain, the problem of confining a cozy seating arrangement can be frustrating as this letter from an Oakland, Calif., reader indicates:

"Our living room is nine feet by 22 feet, broken up by a staircase, entrance door opposite the fireplace, three windows and a door that leads into a dining room. The only unbroken space is the wall that runs parallel to the fireplace, but it is 6 feet plus staircase, and our sofa is 7 feet, so there is no room for it. We can't put it in front of the fireplace because of the door. The short wall on the other side of the room is broken up by a window. We are at our wit's end to find a cozy place where we can group our furniture. What can we do?"

I would part with the sofa. It seems to be the problem now, unless you can make a structural change moving the entrance door to the other end of the wall. A low seat or two-seater sofa would serve your purposes better. If your home is temporary, a three-seater sectional sofa could offer advantages of two pieces plus chair at the moment, and used later in a larger living room. Small-scaled furniture is the answer to a narrow living room, and then it can be coter even than a larger room, if planned carefully. A big mirror over the fireplace or sofa could give the illusion of more space.

A Toledo reader writes:

"We have a very tiny dining room, six feet by eight feet. Is there anyway to decorate it so that it can look brighter and larger? It is painted dark green, a color that was on the wall when we moved into the house. A gay wallpaper could perk up this room considerably. A wallpaper of birds, trees, or a country mural scene would help. A vivid color combined with bright white can lend an enchanting effect."

white wallpaper with white wainscoting construction. If the furniture is pine or another warm tone, Mahogany turns takes well to yellow and white. Dillo walnut.

A Marlboro, Mass. homemaker has kitchen problems: "Could you help me select a wall paint to go with yellow tile and black border in my kitchen. My clock, chair ladder, serving car, spice cabinet and stove accessories are all white. A brown set is bronze, floor tile is light gray with splashes of yellow and black. Stove, washing machine and refrigerator are white. The archway between kitchen and hall is painted pale rose. What colors besides white and yellow could I choose?"

You have yellow, gray, black, white, red and brown in your kitchen. It would give a circus effect to introduce another color with strong colors such as those. A pale yellow or white paint seems to be your only solution to harmony in the color scheme.

Outdoor Cooks

Gas-fired grills are now available for outdoor cooking as well as indoor use. They're popular because they provide quick controllable heat and a uniformly hot surface for any type of grill cookery. Accessories for the grills include spits, rotisseries, griddles, handle and leg assemblies and ventilating hoods.

It's The People Vs. Frank Lane

By HARRY JONES
Cleveland Plain Dealer
Sports Writer

CLEVELAND, AP—The tendency among disappointed Cleveland Indians fans to pin the blame on General Manager Frank Lane... Maybe Frank is at fault—and then again, maybe he isn't.

JESS 'N JOE — One of the biggest questions facing Tiger coaches and fans nowadays is: who will succeed to the quarterback throne vacated by the graduating Dick Hooper?

Before a man is condemned he usually is given the right to defend himself. Even a lynching party allows a prisoner a chance to speak his mind.

So these questions were put to Lane Monday in Boston. Q: Frank, what's wrong with the Indians?

A: Before we begin this, let me say one thing I never said. I simply try to speak the truth as I see it. Right now, just about everything is the matter with the Indians. If I were to single out the one thing that hurt us most I'd have to say it was (shortstop) Woody Held's injury.

When we lost Held we lost a good bit of our power. Little Mike de la Hoz has done a good job filling in, but we really didn't appreciate Held until we lost him. Q: So what else is wrong with the Indians?

A: He's dead? Bob Feller on the air the other day and he said he was disappointed in the failure of our young pitchers to improve. So am I. We depended quite a lot on Gary Bell and Jim Grant and they just haven't come through.

Q: Was the pressure too great on those young pitchers?

A: I'll answer that this way: Was the pressure any greater on our young pitchers than it was on Baltimore's?

You never know how kids react to pressure. Actually, our pitching staff is younger in years, but it is far more experienced than Baltimore's. To tell the truth, I wouldn't trade the potential of our staff for any other in the league. I still think the kids will be good pitchers.

Table for Youngest Olympian, mentioning Luciano Marcellini.

Healthy Suit Served Up To Bad Boy Billy

CHICAGO, AP—Brawling Billy Martin, the scrappy Cincinnati second baseman who Monday was used for \$1,040,000 by the Chicago Cubs and rookie pitcher Jim Brewer, could be contemplating a counter-suit.

Martin indicated there was the possibility of a counter-suit after he was served with a notice shortly before Monday's game between the Redjays and the Cubs at Wrigley Field.

The action stems from a brawl Aug. 4 in which Martin slugged Brewer, charging that the Cub pitcher was throwing at his head.

The Cubs and Brewer, who has been hospitalized since being punched, are asking \$200,000 each in actual damages and an additional \$200,000 each in punitive damages.

Brewer, a 22-year-old from Broken Arrow, Okla., has had two operations involving the orbital bone of his right eye. Physicians say he's out for this year and that he is to stay away from all athletic activity during the winter which also means he cannot referee basketball this year.

Record Entry List Bulges Amateur Meet

NEW YORK, AP—More than a dozen golfers who have represented the United States in the top international amateur competition, the Walker Cup matches against Britain, will be just jugs trying to qualify for a spot in the National Amateur Championship this year.

With a record entry list of 1,357 for the championship, to be played at the St. Louis Country Club Sept. 12-17, nearly every club body gets into the tournament.

Only 19 entrants are exempt from sectional qualifying and they include seven amateur champions of foreign countries who will be coming here for the second world team championship a couple of weeks later.

Hobbs Spurts To Big Lead

BY THE ASSOCIATED PRESS
Hobbs had the second half championship of the Sophomore League virtually clinched under his own power and now the other clubs are helping the Pirates do it quicker.

Monday night Hobbs whipped Alouqueque 8-2 and at the same time Aligne was clipping second place Carlshad 6-4. The result: Hobbs increased his lead to 7½ games with only nine days to go.

Expansion Of Majors Talked By Executives

LOS ANGELES, AP—Two Houston executives met in Los Angeles Monday with Del Webb, co-owner of the New York Yankees, and Walter O'Malley, owner of the Dodgers.

The purpose: Informal discussion of expansion of the American and National Leagues.

Representing Houston were Craig Cullinan, chairman of the Houston Sports Association's executive committee, and George Kirksey, executive secretary.

Webb is chairman of the American League's Expansion Committee. O'Malley of the National League.

Webb said that the expansion of the league would be a "gradual process" and that the new teams would be added in stages.

HOW DO HIS DODGERS GO?

Sherry, Sherry Quite Contrary

By ED WILKS
Associated Press Sports Writer

As a would-be starting pitcher, Larry Sherry is a loser everytime he wins.

LARRY SHERRY
Grabs Fifth In Row

The Dodgers, trailing 4-2 after the Giants got rid of starter Don Drysdale in the second inning, took over with three runs in the third against loser Stu Miller, then counted the winning run in the fourth as Norm Larker singled for his third RBI. Larker, 3 for 4 in the Dodgers' 10-hit attack, padded his league leading average to .340.

Sherry is 12-6 in relief after a brief early season shot as a starter. At the moment, he is their top winner, collecting his 13th victory with 7-13 innings of three-hit relief. Monday night as the Dodgers came from behind to beat San Francisco 8-5.

It was Sherry's fifth straight success, all in relief. With two saves, he has accounted for seven of the Dodgers' last 11 victories in their bid to get rolling in the National League race.

With the top three clubs idle, the fourth-place Dodgers picked up a half-game, but still trail first-place Pittsburgh by 8½. They are .93 percentage points behind third-place St. Louis.

In the only other game Monday the Chicago Cubs whipped Cincinnati 6-3. The Cubs also handed Billy Martin, the Reds' second baseman, a \$1,040,000 damage suit in the August 4 fracas that sidelined pitcher Jim Brewer with a broken cheek.

The young right-hander simply has proved too valuable in relief for the Los Angeles Dodgers to let him go.

Sherry's seventh win of the season, the 32nd of his career, That broke a tie with Ralph Kiner as the NL's all-time champion among right-handed hitters.

Sherry also drove in three runs with a pair of singles for San Francisco, but Sherry, who has lost eight, shut out the Giants on one run the rest of the way. Willie Mays, second base Larker at .330 brought it in with a sixth-inning home run, his 20th.

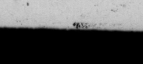

The Cubs beat the Reds and Cal McLish (4-9) with four runs in the first inning. Three were earned. Don Zimmer, who drove in three runs with a triple and double, and rookie Ron Santo, who had two doubles and a single, combined for five RBIs. Bob Anderson (7-7) was the winning pitcher, but needed relief help.

Sherry is 12-6 in relief after a brief early season shot as a starter. At the moment, he is their top winner, collecting his 13th victory with 7-13 innings of three-hit relief. Monday night as the Dodgers came from behind to beat San Francisco 8-5.

Quarterback Clubbers To Name Officers

The Snyder Quarterback Club lifts its mantle of off-season dormancy tonight, as the initial meeting of the 1960 grid season is slated to get underway in the High School cafeteria beginning at 7:30.

It represents an especially important session, too, as the election of new officers is the main item on the agenda. Friday night saw the club nominating committee holding a caucus and drawing up a tentative slate of nominees which will be presented tonight.

The elections will include the regular list of "executive" officers and also at least two additions to the board of directors of the organization.

Those officers retiring in favor of the new group include Doc Weaver, president; Freddy Bullard, vice-president; Roy Meador, secretary; and Joe Williamson, treasurer.

At his bedside, 12:20 a.m. doctors in Dallas, Texas, said they had no idea how long he would live.

At his bedside, 12:20 a.m. doctors in Dallas, Texas, said they had no idea how long he would live.

Death Ends Career Of Song Writer

DOYLESTOWN, Pa. (AP)—Oscar Hammerstein II, whose magic lyrics have brought laughter and joy to Americans for 40 years, died of stomach cancer today at the age of 65.

His death at his beloved country home of Highland Farms, far from the glitter of Broadway, ended one of the brilliant careers in theatrical history.

The big gentle man who penned the words of such songs as "O! My Darling Clementine," "When I Grow Too Old to Dream," "Only Make Believe," "Some Enchanted Evening" and "Milk and Honey" died shortly after midnight.

His lyrical gift helped fashion a brilliant string of musical shows that have become popular classics, from "Rose Marie," "The Desert Song" and "Show Boat," down through "Oklahoma," "South Pacific," "The King and I," and currently the Broadway smash "The Sound of Music."

Since his collaboration with composer Richard Rodgers in 1942, the names of the two men have become a theatrical tradition.

Asked once what he deemed the most profound change in modern musical theater, song writer Cole Porter, a musical giant in his own right, replied: "Rodgers and Hammerstein."

Their first effort was "Oklahoma!" When the curtain rose on that show in March 1943, it took Broadway by storm.

Critics and drama historians alike hailed it as a turning point in theater, a fresh integrated production that kicked traditional musicals into the discard.

"Oklahoma!" ran on Broadway for five years and nine weeks—an all-time record for a musical. It became something of a folklore itself and inspired a new school and musical shows.

While "Oklahoma!" ran its successful course, Rodgers and Hammerstein turned their hand to other shows.

By 1960 eight more musicals had been created, nearly all of them major triumphs, including "Carousel," "Allegro," "Me and Juliet," "Pipe of Dream," and "Flower Drum Song."

Mrs. Philip Mathias, and his sons, William and James. He had been in a coma since Monday evening.

He started by doing a play in 1920. Soon after he developed into a lyricist, writing words for the music of virtually every major composer — Rudolph Friml, Sig-

mund Romberg, Jerome Kern, Vincent Youmans and George Gershwin.

"I know the world is filled with trouble and many injustices," he once said. "But reality is as beautiful as it is ugly. I think it is just as important to sing about beautiful mornings as it is to talk about slums. I just couldn't write anything without hope in it."

Ginnings In Valley Still Below 1959

MERCEDDES AP—The four-county Lower Rio Grande Valley area has ginned 284,745 bales of cotton so far this season. The total is well below the 300,000 bales ginned for the same period in 1959.

Kennedy To Pass Oklahoma Parley

OKLAHOMA CITY (AP)—State Democrat Chairman Geop McGill said Monday that Sen. Lyndon B. Johnson will be on hand.

The Snyder (Texas) Daily News, Tues., Aug. 23, 1960

Kennedy is expected to appear in Oklahoma once or twice during the presidential campaign, McGill said.

Charge Trio In Slaying

GALVESTON (AP) — Police charged three men with murder and abduction Monday night after the battered body of Mrs. Sandy Ferro, 32, was discovered here.

Her husband, one of the three charged, was found shot in the head at his home Monday night. His condition was termed critical.

Mrs. Ferro's body was found in an old gun emplacement at old Fort San Jacinto by three Houston residents.

Charged with the death and abduction were John Ferro, 32, Orion Block Jr., 20, and Domingo Williams, 25.

Officers said Williams and Block told them the three men forced the woman into their car Monday and drove her to the gun emplacement. During the ride, they said, Ferro pistol-whipped his wife.

Colonel's Boat Probed

SAN ANTONIO (AP)—The Air Force has announced that the FBI is investigating a report that the deputy commander at Randolph Air Force Base used federal property in the construction of a houseboat.

The announcement said Col. J. O. Randolph has been relieved of his duties pending completion of the investigation.

An FBI spokesman said the report of the misuse of the property came from "an Air Force man" but he declined to give details.

Asked for comment, Randolph said "I feel I should probably not make any statement until completion of the investigation. My own conscience is clear and I don't feel that I have knowingly violated anything, but I don't think I had better say any more."

The colonel said he plans to ask the advice of a civilian lawyer.

Goldwater Slates Speech In Dallas

DALLAS (AP)—Sen. Barry Goldwater (R-Ariz.) will speak here Friday officially to open the campaign of John Tower of Wichita Falls, Republican candidate for the Senate seat of Lyndon Johnson.

Goldwater is chairman of the national GOP Senatorial Campaign Committee.

SORT OF A POLITICAL SNIPE HUNT!

Candidate In Connecticut Has Admirable Gimmick

By INEZ ROBB

In "Gypsy," the musical version of Gypsy Rose Lee's autobiography, there is a stirring ballad, titled "You Gotta Have a Gimmick" in which a trio of strip-teasers try to instruct a neophyte in the biz.

What is true for strip-teasers is equally imperative for politicians. Sometimes the public is apt to believe the gimmick is glumular in both. Be that as it may, there is a Republican candidate in the Second Congressional District of Connecticut who has, in one woman's opinion, a wholly admirable gimmick.

Horace Seely-Brown Jr., — and him with a fancy hyphen in his Anglo-Saxon name, too — is tramping over his district a la Johnny Apples. Only Seely-Brown, who is former mathematics teacher and now an apple grower, is not giving away apple seeds, apples or apple saplings.

Instead, this Republican candidate for the House is giving away potato holders, a basic ingredient — say, a MUST — in any adequately stocked kitchen. In his house-to-house campaign, Seely-Brown figures to give away 25,000 to 30,000 potato holders to grateful housewives.

What you may ask, perhaps cynically, are the chances for success in the potato holder campaign? The only answer, in view of the fact that Seely-Brown has won five out of the last seven Congressional elections in his district, is "excellent."

Seely-Brown's is a very good gimmick, indeed. A potato holder is a necessity that, for some obscure reason, is eternally evaporating in even the best-stocked and best-run kitchens. Potato holders have a subtle life of their own, disappearing at will, and always when most urgently needed.

So a candidate who knocks on the door and proffers a potato holder

just when the jelly is about to bubble over or a roast has to be snaked from the oven, isn't likely to be forgotten on Election Day.

Furthermore, potato holders cost money. Once upon a time they were something that grandma knit of coarse wool or twine, or children, on a rainy day, wove on a small frame out of strips of old rags. But today they are a money item, and if father is a barbecue addict, a good asbestos mitt, the ne plus ultra in potato holders, can cost up to \$5.95.

Probably as a candidate-gimmick Seely-Brown has a patent on the potato holder. But I think I have hit upon a gimmick fully as good for his opponent, if any. The answer to the potato holder is the kind of small sink or scrub brush that the Fuller Brush man used to leave at our house when I was a child.

This small brush is another indispensable household aide, and like the potato holder, it goes its own independent way. It's here this minute and gone the next. Often, I suspect, it is tossed out with the potato peels and the orange rinds when the sink strainers is emptied into the garbage pail.

At all odds, the little sink brush that the Fuller Brush man used to give away now costs anywhere from 29 to 89 cents, depending on how much the housewife is willing to spend on such an elusive article, whether she wants it in colors to match her kitchen, etc.

For all I know, the Fuller Brush man may still give away these little brushes. But "peddlers" are not allowed to operate in well-run New York apartment houses, so this free staple of my childhood is lost to me.

Come to think of it, a small sample bottle of vanilla, almond or lemon extract would do, too. Extracts once were sold door-to-door when I was young, and a

sample bottle of this or that flavor food was everyday lagniappe. These are only a few hints on how to counter the potato holder campaign. Far be it from me to interfere with the race in Connecticut's Second District. But on the other hand, there's no reason for Seely-Brown's opponent to campaign bare-handed or the housewife not to win in either case.

Doubts Reds Set For An Early War

By JAMES MARLOW

Associated Press News Analyst

WASHINGTON (AP)—The head of America's super-spy outfit doesn't expect the Soviets to make war on the United States any time soon. But he does expect them to give this country trouble in other ways for a long time.

Allen W. Dulles, director of the Central Intelligence Agency, made a plea Monday night for more courses in American schools on Communist theory and practice.

Talking to the Veterans of Foreign Wars in Detroit, Dulles refused to believe any soft talk from Russia's Premier Nikita Khrushchev whose intentions, he said, are the same as those of Lenin and Stalin: world communism.

The only difference between Khrushchev and his predecessors, Dulles said, is a difference in technique in trying to reach the same goal.

"During the years immediately ahead it seems more likely that the immediate danger we will be facing, and on a worldwide basis, will be Communist political, economic and subversive action and penetration: not a hot or nuclear war," Dulles said.

He listed seven points he said are basic elements of Khrushchev's policy:

1. Build up Soviet military might based on ballistic missiles which would give him an effective weapon for direct attack on the United States.
2. Build up Soviet industry at the same time—to satisfy some of the needs of the Russian people—but still devote a greater share of it to military aims than the United States is likely to do with its industry.
3. Support all elements of extreme, rapid nationalism in Asia, Africa and Latin America. Dulles said: "He is working for chaos in countries from Cuba to the Congo, and chaos breeds communism."
4. Aim economic and technical aid at certain, critical countries in Asia, Africa and Latin America where "the Communists believe they can make the most headway."
5. Keep in high gear Russia's worldwide subversive apparatus in countries from Cuba to Central Africa and to Southeast Asia and indeed throughout the world.
6. Build Russia's formidable military weapons in secrecy and even exploit spy scares to preserve that secrecy while refusing any meaningful inspection system which would make disarmament workable.
7. Propaganda. Dulles said Khrushchev is directing "the greatest propaganda machine the world has ever known."

Thus the immediate future, as Dulles sees it, will bring no war but tremendous Soviet efforts at Communist subversion all over the world for years to come.

Many Adults Are Merely Big Children

By HAL ROSE

NEW YORK (AP)—Curstone comments of a Pavement Plato: "Are you grown up? If you really are, you are a fairly. Perhaps you belong in the Smithsonian Institution.

One of the most shocking discoveries that can come to a person in middle age—if he is honest with himself—is the realization that he has changed little from the person he was as a child.

The only thing that consoles him, as he peers more closely at his middle-aged neighbors, is the discovery that they too aren't really grown up—they are merely enlarged children.

When young, we yearn desperately to be grown up, figuring that mere size and time will magically make us able to solve all our problems and get everything we want from life.

Well, it doesn't often work out that way.

As adults we are indeed bigger and older. But we have grown up only physically; emotionally we are still back in kindergarten—and there most of us stubbornly stay most of our days.

What is the most outstanding characteristic of the ordinary child, even the most angelic? Surely it is his determination to have his own way, to bend the whole vast world he was born into to his own imperious will.

Frustrated, he howls and shakes his tiny fists in anger.

He is an outrageous capitalist and show-off from the moment he takes his first step. He wants to own everything that catches his eye, and he wants to be admired for everything he does.

If he loses at a game and weeps and it told he should be a good sport," he asks practically, "Why?" His theory is that if the other kids won't play his way, he'll pick up his marbles and go home. He tends, by human nature, to be vain, arrogant and full of self-pity.

Life is full of one disappointment after another as it curbs his behavior and forces him to be more social. But inwardly his desire for rage and riot as strong as ever.

MODEST MAIDENS

Reds Pouring Into Congo

By LYNN HEINZLING

LEOPOLDVILLE, the Congo (AP)—Communists and "anti-imperialists" of uncertain doctrinal background are pouring into Leopoldville.

Hardly a day passes without one of the Soviet spies unloading disheveled visitors of vaguely Slavic appearance.

Soviet Ambassador M. D. Yakovlev has rented an embassy on a street named after the hated Belgian colonialist Leopold II and he will have no trouble staffing it.

It is only a short distance from the Congo Embassy, which has been in business here as a consulate for months.

If Premier Patrice Lumumba as he threatens, turns to one of the Communist states for "disinterested assistance" he won't have to turn very far.

Lumumba's office has begun to look like a Communist reading room. His written statements, correspondence, and radio orations have acquired a polished French flavor unusual in a nation with 16 college graduates, only one of whom is in Lumumba's Cabinet.

Most revealing of all correspondents for Soviet and other Communist journals have turned up in surprising numbers. There is even a correspondent from the Soviet literary publication, Literary Gazette.

One of the new journalistic arrivals has been showing around a booklet entitled "Hands Off the Congo." It presumably is being distributed among the Congolese population, about 20 per cent of whom can read. It contains most of Soviet Premier Nikita Khrushchev's speeches concerning the Congo, up to and including one on Aug. 8.

Sunday, 25 Czechs arrived. They were described as embassy staff. The Czechs were reported preparing.

ing to supply the Congo the hundreds of French-speaking teachers it requires to open the schools next month.

The U.S. Air Force brought a good number of Communist indoctrinated G-2 personnel to a few in Guinea's soldiers a few weeks ago. Each company had its political commissar.

G-2's Lassamas-Diane, who became a general only the night before he left for the Congo, took off his uniform soon after arrival and now is a civilian adviser to Lumumba and the government. It is believed that a good many other Guinea U.S. soldiers have become civilian advisers.

Another prominent figure in Lumumba's entourage is Mrs. Andre Blouin, who was expelled from the Congo by Belgian authorities, before independence, for her left-wing activities. She is chief of protocol and takes a hand in writing scripts with a distinct anti-Western bias for the Congolese radio.

Texas Items In Public Works Bill

WASHINGTON (AP)—A four billion dollar public works bill, including a number of Texas items, has been sent to a conference committee for work on differences between the Senate and House versions.

The House acted on the measure Monday.

Five Texas projects have differing amounts in the House and Senate.

These items and the respective Senate and House amounts are: Freeport Harbor \$99,000,000; Canyon Reservoir \$2,100,000 and \$2,099,000; Navarro Mills Reservoir \$3,500,000 and \$3,100,000; McGee Bend Dam \$6,600,000 and \$6,000,000; and Stillhouse Hollow Dam \$200,000 and nothing.

Other Texas projects, for which figures are identical between the two bodies:

U.S. Engineers construction — Brazos Island harbor \$100,000; Galveston sea wall \$2,700,000; Intra-coastal waterway channel to Port Mansfield \$1,600,000; Colorado River channel \$956,000; Guadalupe River channel to Victoria \$21,400,000; Fort Aransas-Corpus Christi waterway \$1,500,000; Sabine-Neches waterway \$1,800,000; Buffalo Bayou \$2,500,000; Cooper Reservoir \$250,000; Houston Ship Channel \$1,240,000; Proctor Reservoir \$1,600,000; San Antonio channel \$1,100,000; Waco Reservoir \$11,000,000; Corpus Christi bridge \$512,000; Denison Dam \$200,000.

U.S. Engineers planning — Matagorda Ship Channel \$266,000; Pecos River \$51,000; Somerville Reservoir \$100,000; Texas City \$189,000; Bardwell Reservoir \$125,000; Galveston Harbor jetty \$85,000.

Reclamation Bureau — Lower Rio Grande rehabilitation, La Feria, \$500,000; Lower Rio Grande rehabilitation, Mercedes, \$2,500,000; San Angelo \$1,000,000; Donna Irrigation District, Hidalgo County No. 1, \$2,050,000.

Ex-Sergeant Seeks Post With Castro

By RICHARD G. MASSOCK

HAVANA (AP)—A dishonorably discharged U.S. Air Force sergeant who once tried to defect to the Soviet Union said today the Cuban air force is considering his application for a job in Fidel Castro's intelligence service.

Paul D. Wilson, 31, of Indianapolis, Ind., said Castro's secretary, Juan D. Ota, wired him the air force would get in touch with him.

Wilson told newsmen Monday he hoped to join Castro as a "loyal Cuban patriot."

Wilson said he was in the U.S. Air Force 12 years and tried to defect to the Soviet Union while serving in Germany but was caught by U.S. military police. He subsequently was sentenced to three years in prison and a dishonorable discharge for desertion, larceny and forgery. He was freed after serving part of his term in a federal prison in the United States.

His former wife, Loyce Sims, and two children, Ralph 8, and Paula, 4, live in Indianapolis. His mother lives in North Miami Beach, Fla.

Ghost Light Sought As Yardstick

MEXICO CITY (AP)—Astronomers are looking into the depths of space for a ghostly kind of light they hope to use in creating a new yardstick for measuring the universe.

This light came from stars as they were exploding and dying millions of years ago. Although the stars themselves are gone, their last rays of light flash on, waitlike, through creation. And any day now some of this light may reach the earth in a round-about way.

How the orphaned light is to be used as a tool to help determine the size and nature of the universe was explained today by Prof. Fritz Zwicky, one of the astronomers who uses the world's largest telescope on Palomar Mountain in California.

A new cosmic yardstick is badly needed, Zwicky told the American Astronomical Society, because those now used to calculate extreme distances may be widely in error. Without a good yardstick, the astronomers can't tell how far it is to the most distant stars and galaxies. Unless they know those distances, they can't calculate the size of the universe. And if they can't determine its size, they can't tell whether the universe is expanding or has lived through a cycle of expansion and contraction.

What Zwicky works to find from exploding stars or supernovae—that has gone off at great angle into space and has been "reflected" earthward from cosmic dust clouds.

Meat Prices Holding Firm

WASHINGTON (AP)—Housewives can expect to pay for a number of months the same price they now pay for the higher priced cuts of beef.

Agriculture Department specialists said so today despite a slight decline in the price farmers have been getting for beef as compared with a year ago.

Hamburger and the cheaper cuts usually show some declines during late summer or fall and this is to be expected this year, a department report said.

As for other kinds of meat, the report said the increased whole hog processing has brought the price of pork down somewhat. Retail prices for veal, lamb and mutton in June were nearly the same as in June 1959.

RUSSIANS SHOW SPACE DOGS—A Radkevich, staff worker of the Academy of Sciences of USSR, holds Strelka, left, and Belka, dogs which Russians say survived a journey into space. The dogs were shown in Moscow. (AP Wirephoto via radio from Moscow)

Ira School Term To Open Sept. 2

IRA—Pupils in the Ira Independent School District will report on the morning of Sept. 2 to begin the 1960-61 term. Roy H. Sallee, superintendent, has announced.

However, teachers' work days have been scheduled for Aug. 31 and Sept. 1, the superintendent said.

On the opening day, Sept. 2, pupils will report for a "short" day for enrollment and issuance of books. Buses will run on revised schedules from last year.

No lunch will be served at the cafeteria on the first day of school, since students will be tired at about noon, when they will be returned home.

Major improvements to the Ira school plant during the summer include addition of new concession stand and restrooms for the football field; repainting of the interior of entire building; improvement of campus sites by landscaping and acquisition of one new bus.

The faculty, with length of tenure, is as follows:

Elementary school—Mrs. O. S. McCormack, first grade, 14th year; Mrs. Floyd McGuire, second grade, second year; Mrs. Tommie Millhollin, third grade, seventh year.

Ralston Bruce, fourth grade, third year; Miss Martha Ezra, fifth grade, second year; Bruce Fuqua, sixth grade, second year; High school—Roy Sallee, superintendent, sixth year; W. R. Fields, principal and commercial subjects teacher, second year; Mrs. Bruce Fuqua, homemaker, second year; Bill McMeans, agriculture, fifth year; R. C. Taylor, football coach, sixth year; Floyd McGuire, math, second year; Roy Lee Ford, English, first year; Robert Ryan, basketball coach, first year.

Ryan joined the Ira staff following a tenure at Lorraine where he was basketball coach last year.

Crack Down Asked On Drunken Drivers

AUSTIN (AP)—Gov. Price Daniel has urged a crack down on drunken drivers and speeders over the Labor Day weekend.

The governor said Monday he had written all police chiefs and sheriffs asking for special enforcement.

The Labor Day holiday usually claims about 28 to 30 lives.

Louisiana's Commission Vows Fight

NEW ORLEANS (AP)—Louisiana's new anti-segregation commission has vowed it will make every effort to "retain" and recover the rights which have been lost.

The vow was contained in a statement issued Monday after the commission held a closed meeting. The commission was formed to protect states' rights and segregation.

The statement also praised Governor Davis for taking the life New Orleans public school system. Davis seized control of the schools last Wednesday in an effort to head off integration of the first grade, ordered by U.S. District Judge Skelly Wright for next month.

The statement said "Minority forces for integration with the powerful help of the judicial pen are waging a strong attack on one of the state's most sovereign rights, the right to establish, maintain, operate and control its own public school system."

"We have held this meeting to inform ourselves of details necessary to our immediate objective. We anticipate a key role in the information of the strategy to be followed during the coming weeks to assure continued effective operation of public schools on a segregated basis. To prematurely divulge these plans would be unwise."

"We are not content to simply protect the sovereignty and resist encroachment. We will make every effort to regain and recover the rights which have been lost."

State Sen. Wendell Harris, commission vice chairman, said the school crisis here is a "do or die case" for Louisiana and the most far reaching cases in the history of the courts.

Predicting Davis would keep New Orleans schools segregated through executive and legislative action, Harris said the legislature is ready to enact more laws at any time.

"Just as fast as they (the federal courts) throw our segregation laws out, we're ready to pass more," he said.

Most Areas Hike Crude Production

TULSA (AP)—Most areas increased oil production as daily average U.S. output rose 31,280 to 6,859,850 barrels during the week ended Aug. 20, the Oil and Gas Journal said today.

The Journal estimated 1960 production at 1,647,940,600 a year ago.

Oklahoma was up 5,200 to 491,300; Colorado, 1,375 to 130,275; Louisiana, 500 to 1,066,775; and Arkansas, 200 to 82,300.

Production was unchanged in Texas, 2,457,225 barrels; and New Mexico, 294,875.

India's First Super Movie Opens; Vast Changes Seen

NEW DELHI (AP)—The first "super" production of Indian movie history opened this month in 150 theaters across the country. It could bring "super" changes in the world's second busiest motion picture industry.

"Mughal-e-Azam"—The Great Mogul—has more than a little of everything. It is both black and white and color. It has a cast of more than 8,000 people and 4,000 camels.

Director Karm Asif claims to have spent more than 12,500,000 rupees—\$3,636,000—a sum unheard of before in the Indian movie industry. Many Indian films, including the international prize winner "Pathar Panchali," are low-budget jobs, shot on weekends so the directors and players can hold down other regular jobs.

Asif and his backers show it can spend huge amounts on a movie and get it all back, the result could be big changes for an industry that annually turns out about 300 feature-length films.

Asif began "Mughal" in 1944 but had to give up after four reels because of a shortage of money. It took him eight years to find another angel in the person of Shapurji Pallonji Mistry, 72, a Bombay millionaire. "I took another eight years to complete the picture."

One whopping expense was constructing a set showing a Mogul period building, the Sheesh Mahal—House of Mirrors. It took 1 1/2 million rupees and two years of work. Asif spent more than a million rupees to boom "Mughal" in newspaper advertisements across the country.

The central theme of "Mughal" has been filmed three times since the talkies came to India, and all three versions were successful. The story has an abundance of the tears, thunder and sex needed to captivate the average Indian movie audience.

The Mogul of the story is Akbar, greatest of six emperors who ruled India from 1525 to 1707. The action deals with the trouble caused when Prince Salim, Akbar's only son, fell so deeply in love with a dancing girl that he was willing to take up arms against his own father. Historically, some of it is true.

NEW ORLEANS (AP)—Louisiana's new anti-segregation commission has vowed it will make every effort to "retain" and recover the rights which have been lost.

The vow was contained in a statement issued Monday after the commission held a closed meeting. The commission was formed to protect states' rights and segregation.

The statement also praised Governor Davis for taking the life New Orleans public school system. Davis seized control of the schools last Wednesday in an effort to head off integration of the first grade, ordered by U.S. District Judge Skelly Wright for next month.

The statement said "Minority forces for integration with the powerful help of the judicial pen are waging a strong attack on one of the state's most sovereign rights, the right to establish, maintain, operate and control its own public school system."

"We have held this meeting to inform ourselves of details necessary to our immediate objective. We anticipate a key role in the information of the strategy to be followed during the coming weeks to assure continued effective operation of public schools on a segregated basis. To prematurely divulge these plans would be unwise."

"We are not content to simply protect the sovereignty and resist encroachment. We will make every effort to regain and recover the rights which have been lost."

State Sen. Wendell Harris, commission vice chairman, said the school crisis here is a "do or die case" for Louisiana and the most far reaching cases in the history of the courts.

Predicting Davis would keep New Orleans schools segregated through executive and legislative action, Harris said the legislature is ready to enact more laws at any time.

"Just as fast as they (the federal courts) throw our segregation laws out, we're ready to pass more," he said.

Junior Editors Quiz on MONUMENTS

QUESTION: Who constructed Stonehenge?

ANSWER: This is a remarkable relic of some early civilization. This very ancient monument stands on Salisbury Plain, in Wiltshire, England. Because so little is known of who built it and how it was built, it is called "the Middle of Salisbury Plain." The British began to restore Stonehenge in 1822, setting up the stones in the pattern in which it is believed they were first arranged. Stonehenge is formed of 30 upright stones in a 108-foot circle. Thirty other stones lay across the tops of the upright stones. Inside the circle, 40 smaller stones were set in a circle. And inside this smaller circle, there were two sets of stones, each placed in the shape of a horseshoe, with the opening toward the northeast. A flat block of blue marble, 15 feet long, lay near the center curve of the inner horseshoe. This was probably an altar. Scholars believe sun worshippers built Stonehenge. Some date it from 1800 B.C. and others from 500 B.C.

FOR YOU TO DO: In America there are also several places about which little is known. The work of the Mount Baldy is as particularly interesting. See what you can find out about them.

(Janice Carter of Clifton, N.J., wins \$10 for this question. Mail your question on a postcard to Violet Moore Higgins, A.P. Newfeature, in care of this newspaper. If duplicate questions are received, Mrs. Higgins will select the winner.) 8-23

School attorney, Joe Reynolds, asked the FBI Circuit Court to Appeal in New Orleans Monday for a stay of U.S. Dist. Judge Ben Connally's order to integrate the first grade next month. The city has the largest segregated school system in the nation. The board has appealed Connally's order to the court and Reynolds asked for a stay in case the court does not rule on the appeal before school starts Sept. 5. The United States Supreme Court is considering Connally's appeal. Reynolds said he would file a writ of habeas corpus if the court ruled against him.

Demos Plan Strong Pitch To The Ladies

By DAVE CHEAVENS.
AUSTIN (AP) — A Kennedy-Johnson family drive for Texas' 24 electoral votes starts Aug. 29 with a strong pitch to the ladies. It continues through Sept. 13 at least.

Presidential candidate John Kennedy plans a two-day swing through Texas and Oklahoma soon after his sister, Mrs. Lyndon Johnson, and his sister-in-law make a series of coffee and tea party appearances in widely-separated sections of the state.

Sen. Kennedy has a firm date to speak in Texarkana Sept. 12. He also speaks in Oklahoma the same day.

Ask U.N. To Halt Senegal Secession

By ULYS YATES
PARIS (AP) — Modibo Keita, premier of the Mali Federation, has appealed for immediate U.N. help to block secession of the West African state of Senegal from the infant federation.

Senegal's independence from the federation Friday after a struggle for power with Keita. The latter, seeking to consolidate his power before the presidential election, had dismissed Dia from the vice premiership. But with Dakar the capital of both the federation and Senegal, police and troops in the port city were loyal to the Senegal premier. Keita was put under house arrest and then sent off to the neighboring Sudan by train.

Senegal's independence from the federation Friday after a struggle for power with Keita. The latter, seeking to consolidate his power before the presidential election, had dismissed Dia from the vice premiership. But with Dakar the capital of both the federation and Senegal, police and troops in the port city were loyal to the Senegal premier. Keita was put under house arrest and then sent off to the neighboring Sudan by train.

'Wet' Forces In Session

The "wet" forces in Snyder met Monday night and adopted the slogan "Snyder for Progress" and wish to be known as those who desire progress for Snyder. They also elected officers, a president, vice president, and two treasurers.

It is feared that if the Senegal-Sudan union is not restored, Keita will seek an association with neighboring, leftist-led Guinea — Sudan's alternative avenue to the sea — and through it will come under Soviet influence. Guinea's President Sekou Toure turned to the Soviet bloc for help after Guinea chose independence from France in 1958 and the French cut off all aid to the infant republic.

Panel Urges Dismissal

MILWAUKEE, Wis. (AP) — A committee of the Wisconsin State School Board has recommended that a high school teacher who initiated sex discussions in his classroom be discharged for "inefficiency and lack of good behavior."

WOMAN, 103, Still Hopes She Can Fly
SOMERSET, Pa. (AP) — Martha Gorsuch celebrated her 103rd birthday today with the hope that she still might get her first chance to fly in an airplane.

State School Policies Are Criticized

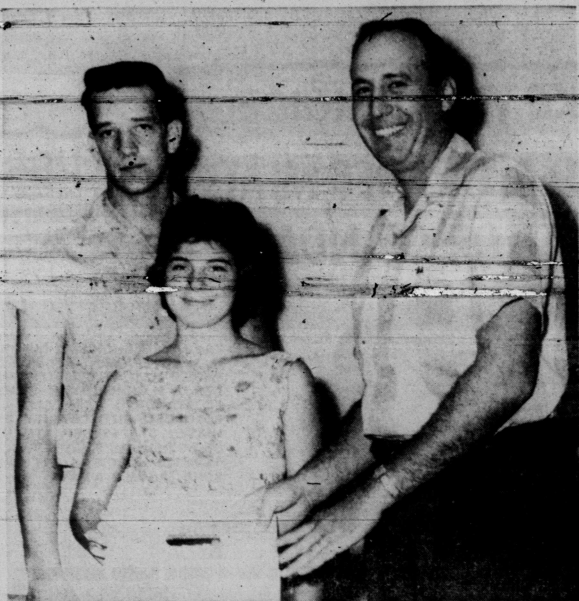

By LEE JONES
AUSTIN (AP) — State schools for the mentally retarded are driving private institutions out of business, a member of the state hospital board says.

Search Goes On For Missing Man

GILMER (AP) — An intensive search has failed to locate W. D. Lamar, 62, Gilmer real estate man missing since Saturday.

Aircraft Carriers Go To Foreign Duty

JACKSONVILLE, Fla. (AP) — Two aircraft carriers based at nearby Mayport have left for foreign assignments.

GIFT FOR THE BRIDE—Prospective brides get a bonus with their marriage licenses these days, compliments of County Clerk Dan Cotton. Dubbed the "Bridal Pack" by distributors, the box contains most anything to help the young bride keep house—soaps, cleansers, etc. Shown above are Mary Anne Carey, daughter of Mr. and Mrs. W. W. Carey, and Henry Davis Lowery, son of Mr. and Mrs. Buster Lowery, as they receive their package from Cotton.

Hermleigh School To Open Aug. 30

HERMLEIGH — Hermleigh Schools will open the 1960-61 term on Aug. 30, Superintendent Curtis Wise has announced.

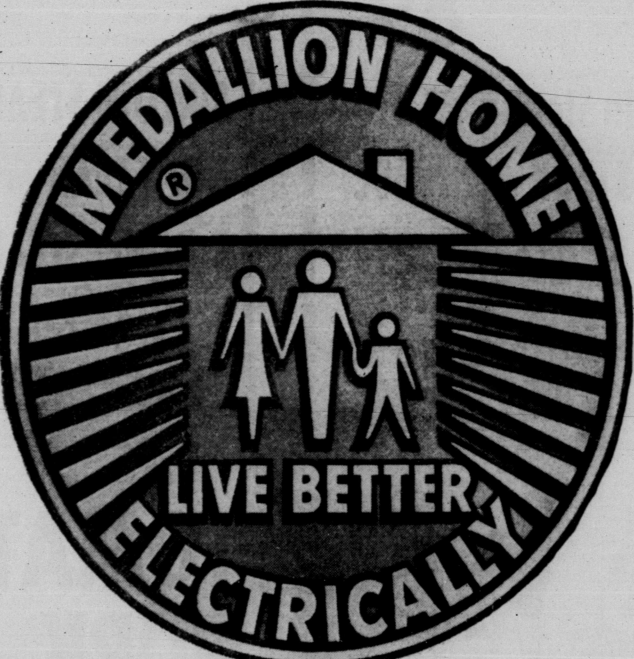

social studies and driver education; Mrs. Roxie Soules, English; Mrs. Frank Barnes, commercial subjects; Frank Barnes, agriculture; Mrs. Cecil Jones, home economics.

Youth Parade Set Saturday Morning

The "Youth Against Alcohol" in Scurry County will parade in downtown Snyder Saturday morning at 10 o'clock.

Better living is ready and waiting in homes that display this MEDALLION

Right from the start, you'll enjoy electrical comforts and conveniences you've always wanted . . . in a Medallion Home. The Medallion identifies homes that are wired and equipped for modern electrical living with . . .

FULL HOUSEPOWER — properly planned wiring and plenty of outlets and circuits for the appliances you own now and those you may want to add later.

WORK-SAVING ELECTRIC APPLIANCES — Including an electric range; electric bathroom heating and at least three additional major electric appliances.

LIGHT FOR LIVING — properly placed fixtures for beautiful, efficient, light-saving light. Light for living is planned lighting, based on the needs of the home.

Only new or remodeled homes that meet modern high standards for electrical living can display the Medallion. Look for it when you choose your home!
