AGED TOURIST SHOOTS SELF HERE

OFF FOR WIDE OPEN SPACES

Clara Bow, now a "disguised" blonde, is snapped at Hollywood in the arms of Rex Bell, just before they departed for Bell's cattle ranch and the wide open spaces. With seven years of motion picture work behind her, Clara is going to take a long rest and then try vaudeville, she says, probably returning to the screen later. She intends to marry Rex in a year or so.

Dallas Preacher Hanged To Chandelier

PASTOR SAVED FROM DEATH IN CHURCH

B. P. BROWN KIDNAPED BY FOUR MEN; CRIES BRING RESCUERS

(By Associated Press)

DALLAS, June 18.—Four men hanged B. P. Brown, occasional preacher and employe in the baggage department of a Dallas hotel, to a chandelier in the North Dallas Baptist church early today. His outcries aroused residents of the neighborhood, who rescued him. The men had abducted him as he was en route home from work.

Brown drew up his feet and rested his weight on the altar of the pulpit from which he has preached many times to his congregation of the little church.

Threats Reported

Brown reported to officers that he and the Rev. H. P. Marler, pastor of the church, had received numerous threatening letters the last three months.

As he was en route to his home from work, shortly after midnight, a man with a gun stepped in front of him and commanded him to walk to the church. Near the church three other men joined them. Brown did not recognize any of them.

Stripped Of Clothing

The four men stripped Brown of all his clothing, tied his hands behind him and pulled his feet up behind him to meet his bound wrists, tying them together, then jerked the supply pastor up to the chandelier by a new rope with which a hangman's noose had been tied about his neck. Brown was saved from death by the fact that the rope stretched and he was able to swing around until he rested his weight on the altar.

After standing in the church for a few minutes, taunting Brown

LIBEL SUIT NEARS JURY

ARGUMENTS IN CASE UNDER WAY HERE

TRIAL NEARING CLOSE AFTER FIVE WEEKS IN COURT HERE

Before a crowded courtroom, attorneys continue their pleadings to the jury in the $200,000 libel suit of Fred Spikes against J. Evetts Haley and trustees of the Capitol Reservation Lands company today in the 99th district court. Presentation of arguments, started late Wednesday afternoon, is expected to be closed sometime this afternoon after which the case will be turned over to the jury for deliberation.

Should more time be needed, the arguments may be continued until tomorrow morning after which the jurors will receive the case.

In Fifth Week

Today marks the fourth day of the fifth week of the trial, presentation of evidence having started on May 12 after the selection of the jury, May 11 and 12.

Mr. Spikes, a Lubbock business man, is seeking damages as the result of a chapter of Haley's book, "The XIT Ranch in Texas" which mentions "the Spikes gang" in connection with cattle rustling and outlawry in the early days of New Mexico. Haley is said to have been employed by the land company to write the book.

Tom Garrard, one of the attorneys for the plaintiff, opened the pleadings before the jury Wednesday afternoon. Argument was resumed this morning when Charles C. Crenshaw of the defense staff talked for two hours. He was followed by George R. Bean who spoke until the noon recess.

Lockhart To Close

Four other attorneys, Franklin Brown and G. E. Lockhart for the plaintiff and E. L. Klett and George

MAN IS FOUND DEAD THIS MORNING

VIOLENT DEATH HERE SECOND IN LAST 26 HOURS

The second violent death in 26 hours occurred here early today when 74-year-old A. F. Wilson of Phoenix, Ariz., died of a bullet wound in the head at Tajo tourist camp, two miles south of Lubbock on state highway No. 9.

Wilson at about 4:30 a. m. was in bed with his wife when he shot and killed himself with a .32 caliber revolver," Justice of the Peace H. K. Porter reported in a signed verdict following an investigation.

Death Investigated

Peace Justice Porter, County Attorney Vaughn E. Wilson, and Deputy Sheriff Will Earnest investigated the death at about 5:30 a. m.

Wilson's widow, also 74 years old, said he had told her more than a month ago that "it would be better if he killed himself," the justice of the peace reported. Mrs. Wilson indicated her husband had been depressed because of lack of finances.

Mr. and Mrs. Wilson and four relatives, A. P. Havener, Mr. and Mrs. M. B. Havener, and Wilson Havener, were en route from Phoenix to Shawnee, Okla. Moneys of the group totaled only slightly more than $3, investigators said.

Bullet In Temple

A bullet from a .32 caliber revolver entered Wilson's right temple near the top of the ear and emerged behind the left ear.

Wilson's hands were found in the same position as those of Guy U. Davis, Lubbock real estate operator who was found dead in his room at 1511 Main Street Wednesday morning. A verdict of death by a self-inflicted pistol shot was returned in Davis' death.

A revolver was in Wilson's right hand, the index finger inside the trigger guard, and was on the sa-

PROHIBITION DRIVE IS SET FOR JULY 15

ZERO HOUR OF HUGE OFFENSIVE AGAINST ILLICIT RUM SET

(By Associated Press)

WASHINGTON, June 18. — The zero hour for the biggest sustained offensive in prohibition history against leaders of the illicit liquor industry was set for July 15 today by federal officials.

Exactly 15 days before that date, Prohibition Director Woodcock said, a corps of 350 new dry agents will be concentrated in a dozen cities from coast to coast for an intensive two-weeks training course.

Aim At Leaders

Added to the present force of more than 1,500 to make it the biggest and best trained federal dry army in history, he said, they will be instructed specifically to concentrate on the large scale commercial violators and the higher-ups of the liquor gangs, leaving the speakeasy and small-time bootlegger principally to local enforcement.

Woodcock acknowledges that for the past two or three months his office had been "bending every effort" toward the date when these new men, selected from among thousands of applicants, could be thrown into the field.

Already 150 of the new agents authorized by congress have been thrown against the Volstead law breakers. Woodcock held out for this number against the criticism of the Wickersham commission and its recommendation to President Hoover and to congress that this figure be doubled.

Gambling Ships On West Coast Rapped

LONG BEACH, Cal., June 18. (AP)—Several gambling ships operating offshore were termed menaces to navigation in a telegram sent to President Hoover by the Long Beach Ministerial association, which asks that federal steps be taken against them.

LEGION MEETING OPENS SATURDAY

Early arrivals are expected in Lubbock tomorrow for the annual fifth division and quarterly eighteenth district conventions Saturday and Sunday of the American Legion. Women of the Legion auxiliary also will convene here. Registration will begin Saturday morning.

Clark M. Mullican, Ninety-ninth district court judge and a legionnaire, will open the convention formally at 3 p. m. Saturday at the Uptown Dance palace.

State Commander Hal Branner of Laredo will respond.

A program of entertainment and business has been arranged both for legionnaries and auxiliary members.

The auxiliary will meet at 3 p. m. Saturday at the American Legion home.

An automobile tour of the city will follow the first sessions.

Sports entertainment, dances, an appropriate sermon, a chow-line, and a dinner are on the program.

Two Policemen Disguise As Luggage To Fustrate Kidnaping Of Physician

(By Associated Press)

POTTSTOWN, Pa., June 18.—When gangsters kidnapped Dr. J. Elmer Porter, 66, president of the Security Trust company, state police went along—disguised luggage.

Dr. Porter, who is a physician-banker, drove his automobile to an appointed place last night where he was to "treat" a patient in response to a mysterious telephone call.

State police had already obtained information from an unnamed source that the call was to be the starting point of a kidnapping and two of them concealed themselves in the rear of the doctor's car.

Arriving at the place, Edward Kitchell and Harry McKay, described as Philadelphia gangsters, climbed into the car and directed Dr. Porter to drive to a lonely part of the city. They glanced in the rear of the car but concluded the bulge was baggage and paid no heed.

The state police remained hidden until the gangsters directed Dr. Porter to stop at a place where another automobile was waiting. In it was Foster Weand, also of Philadelphia. The officers then shook off the appearance of baggage and arrested all three. Weand was said to have had letters in his possession indicating the physician was to be held for $15,000 ransom, the amount to be paid by his brother, Samuel, a druggist.

GOOD WEATHER FOR FLIGHTS

FLIERS ARE POISED FOR ATLANTIC HOPS IN NEAR FUTURE

(By The Associated Press)

NEW YORK, June 18—Good weather prospects today gave fliers hope of starting trans-atlantic flights soon.

Dr. James H. Kimball, government forecaster, noted general improvement in conditions and the absence of headwinds over the Atlantic. He advised that there be no start till visibility at sea improved.

His announcement started activity at various Long Island fields.

Wiley Post and Harold Gatty, who want to circle the globe, hoped to be the first to get away. Their plane was already loaded and fueled at Roosevelt field. They intended to fly to Harbor Grace, New Foundland, before crossing the Atlantic.

Miss Ruth Nichols, who plans a solo flight to Paris, tested her plane in a dash from New York Baltimore yesterday and made arrangements for a possible start today for Harbor Grace.

At Floyd Bennett field, Clyde Pangborn and Hugh Herndon, Jr., are conducting tests with a plane in preparation for a flight to Moscow, and thence round-the-world.

Druggists To Rap New Cigaret Tax

DALLAS, June 18 (AP)—Despite the plea made yesterday by R. L. Reader of San Antonio, member of the legislature, in behalf of the newly imposed three cents per package tax on cigarets, Texas druggists were prepared today, during the fourth and final day of their 1931 convention, to adopt a resolution condemning the levy.

BOY IS KILLED BY HORSE

DAWSON COUNTY LAD CRUSHED TO DEATH LATE WEDNESDAY

(Special To The Journal)

LAMESA, June 18.—Crushed by a horse which stumbled, 10-year-old James O'Neal of Higginbotham community died en route to a hospital at about 7 o'clock last night.

The horse, which the boy was riding to bring cows home from pasture, fell on him at 6 p. m. Wednesday. He was a son of Mr. and Mrs. Andy O'Neal. Higginbotham community is twenty miles west of here.

Funeral services will be conducted at 3:30 o'clock this afternoon at the Methodist Episcopal church here Rev. W. C Hinds of Lamesa and Rev. J. W. Webb, Baptist minister of Higginbotham community, will officiate. Burial will be in a local cemetery.

His parents and an 8-year-old sister survive the boy.

Jobless Russians Form Suicide Pact

KATTOWICE, Poland, June 18. (AP)—A man with an old Russian sawed-off shot gun sought shelter in a barn near here last night, police were informed today, and told a group of other jobless men there that he could no longer endure the bitter poverty which had been his for many months.

He gave the gun and ten cartridges to one of the group and asked the man to shoot him. The second man too knew the miseries of unemployment and complied. Then the man sent a bullet through his own head.

To Question Women In Girl's Slaying

NEW YORK, June 18. (AP)—Detectives, still balked in their attempts to untangle the mysterious snarl of fact and fancy surrounding the death of Starr Faithfull, sought today to question two women reported to have been with her shortly before she disappeared.

They hoped these witnesses might be able to throw light on why the overwrought, unstable girl of 28 dropped from sight and turned up dead on Long Beach.

One of the women was reported to have been seen talking with Starr at Grand Central station at 4:30 p. m. June 4, the day before she disappeared.

BRAKEMAN WILLED

PAMPA, June 18. (AP)—M. P. Wilson, Santa Fe railway brakeman, was injured fatally early today when he fell beneath a train. His right arm and leg were severed and he died in a hospital. Survivors are his widow and several small children.

FEDERAL COURT REOPENS TODAY

United States district court convened this morning after a day's rest. Cases tentatively set by Judge James C. Wilson for trial today were Hammer vs. Commerce Trust company, and Critchfield vs. Commerce Farm Credit company.

Seventy-second district court was not in session this morning, following conviction yesterday of W. E. Kunkle of Hale Center on a forgery charge. Kunkle, whom peace officers alleged was head of a family forgery ring, was sentenced by a jury to two years in the state penitentiary.

The man's wife this week received a five-year suspended sentence after pleading guilty to attempting to pass a forged check. She said her husband had forced her to pass worthless checks he had made, authorities said.

AMELIA AT TULSA

TULSA, Okla., June 18 (AP)—After making an exhibition flight in her autogiro today, Amelia Earhart Putnam announced she would remain here until Saturday for repairs to the "flying windmill."

One-Man Cure For Jobless Problem—While He Lasted

CHICAGO, June 18. (AP) — George De Poulos was a one-man cure for the unemployment problem—while he lasted.

His was a simple plan—simply hiring chauffeurs.

"Send me around a couple of chauffeurs," De Poulos would ask of various employment agencies.

The chauffeurs came and were asked for a $200 guarantee against smashing up De Poules' automobiles.

But that was the trouble. De Poulos didn't have any automobiles and the police called it a confidence game.

ROBBERS LOOT PASSENGERS

THREE TAKE MONEY IN BUS HOLDUP; ESCAPE WITH $281 CASH

(By Associated Press)

SHREVEPORT, La., June 18.—Half a dozen passengers on a night bus from here to Houston were delayed near Keithsville, 14 miles from here late last night while three bandits, posing as passengers, robbed them. The robbers escaped in a roadster waiting on the roadside and driven by a fourth man.

Operators of the bus line reported that $281.25 was taken from four passengers and the driver. Two negro women passengers lost no money. The bus continued its journey an hour after the robbery.

Miss Eula Mae Taylor, Shreveport, en route to New Willard, Tex., lost $150. H. L. Solomonsky, Richmond, Va., en route to Logansport, La., lost $87. Others robbed were: W. A. Pollard, Tyler, Tex., en route to Houston, $36; P. Bates, Houston, $3.25, and J. C. Deason, bus driver, $5.

Armed With Pistols

The bandits were armed with pistols. Deason said one sat beside him and the other two in the rear. They boarded the bus at Shreveport and Deason said he remembered seeing them get out of a roadster at the station similar to the one in which they escaped after the holdup.

The passengers then were lined up outside the bus and were quickly searched for money.

Death Claims Mrs. J. D. Smith Today

Mrs. J. D. Smith, a resident of Lubbock seven years, died at 9 o'clock this morning at her home 212 Fourth street. She would have been 70 years old November 1.

Funeral services will be conducted here Friday afternoon. Burial will be in Lubbock cemetery by Bynum-Morgan Funeral home.

Survivors are the widower; a son, Martin Smith of Lubbock, and four daughters, Mrs. E. B. Speck and Mrs. M. McNabb, both of Lubbock, and Mrs. F. P. Standfield of Anton and Mrs. B. H. Barnett of Tahoka.

Jury Deliberates In Pantages Case

SAN DIEGO, Cal., June 18. (AP)—The jury in the trial of Alexander Pantages and three others on charges of conspiracy and contributing to the delinquency of a minor took up its deliberations today with little indications of when a verdict might be reached.

Question Hoover On Knowledge Of Harding Scandal

SENATOR WALSH WANTS TO KNOW WHERE CHIEF EXECUTIVE GAINED INFORMATION USED IN DEDICATION OF HARDING'S MEMORIAL

(By The Associated Press)

WASHINGTON, June 18.—Pointed questions as to President Hoover's knowledge of Warren G. Harding's "dim realization" that some of his trusted friends had betrayed him, have been directed at the chief executive by Senator Walsh of Montana.

Walsh was the Democratic prosecutor in the senate investigation that disclosed the Teapot Dome and Elk Hills oil lease scandals of the Harding administration, in which Hoover was secretary of commerce.

In a statement through the Democratic national committee, Walsh in referring to Hoover's dedication of the Harding memorial said:

Interesting History

"That was an interesting bit of history introduced Tuesday by President Hoover into his speech at Marion, Ohio, namely that the realization by President Harding that he had been betrayed 'by a few of the men whom he had trusted,' was a contributing cause of his death."

Coming from the reliable source from which "the fact is now given to the public, a number of questions are prompted," Walsh said.

"Of the faithlessness of which particular friend or friends, afterwards shown in the courts of the land to have betrayed the country as well — to use the language of the orator at Marion — did President Harding have knowledge, Fall, Daughterty, Forbes or Miller?"

Fall was secretary of the interior, and was convicted of accepting a $100,000 bribe from Edward L. Doheny. Daugherty handed in his resignation as attorney general at the request of President Coolidge. Forbes became involved in his administration of the veterans bureau and Miller, likewise as alien property custodian. Both were imprisoned.

Walsh asked if Harding "had such knowledge why did he not peremptorily dismiss them from the

SPANISH PLOT IS TRACKED

MOVE TO OVERTHROW GOVERNMENT BEING INVESTIGATED

(By The Associated Press)

MADRID, June 18—Published reports that a military movement was under way to overthrow the republican government and crown Prince Jaime de Bourbon king of Spain were being tracked down today.

A number of newspapers said General Martinez Anido, military governor of Barcelona under the monarchy, was on his way to the province of Navarre to organize an army which would march on Madrid and place Don Jaime, son of the late pretender, on the throne.

Forced to Resign

General Anido, who was vice-premier in the cabinet of General Primo de Rivera and long a captain general in the army, was forced to resign his post when King Alfonso gave way to the republic.

Prince Jaime whose headquarters are in Paris, was roundly cheered at a meeting of 20,000 Catholics in Pamplona, capital of Navarre, last Sunday for his sympathy toward the church. A telegram from him felicitating Catholics in their cause against the government was read at the meeting.

Two Tahoka Thefts Are Reported Here

Theft of an automobile casing, wheel and tube belonging to B. C. King of Tahoka and of a Chevrolet coach owned by T. D. Walker of Tahoka was reported to police Wednesday night.

Police subsequently reported the automobile had been found northwest of here. Both thefts were from near a dance north of railway tracks.

A theft charge was filed in county court this morning against a man in a case transferred from city corporation court.

ROTARIANS TO FRANCE

HAVRE, France, June 18. (AP)—Three hundred and five American Rotarians arrived on the liner Carmania today on the way to the international convention at Vienna. Judge S. K. Pall, president of the Havre Rotary, met them at the pier.

It Was Good Place To Sleep, Anyway

LOS ANGELES, June 18. (AP)—Robert Carson got a parking tag. His case was set for the morning session of traffic court.

Four times Judge Kaufman called Carson's name. Four times no answer. The court gave it up and issued warrant for Carsons arrest. A drowded day wore through and the court knocked off at 5 p. m.

"Who are you?" a baliff inquired, shaking the shoulder of a sleeping man near the courtroom door.

It was Carson. He had been asleep since morning.

The baliff recalled the judge from the halls.

"I'm a night watchman, and used to sleeping in the day time," Carson explained. 'Couldn't keep awake in court."

The court recalled the warrant and fined Carson $2.

MOTHER SLAIN BY OFFICER

DETECTIVE HELD FOR BEATING WOMAN TO DEATH WITH GUN

(By Associated Press)

LOS ANGELES, June 18—Mrs. Grace Duncan, 25, of Glendale, Calif., mother of two children, was beaten to death with a pistol butt in a downtown hotel room and Detective Lieutenant Edward Nolan, 38, was held today as the slayer.

Police said the killing followed a jealous outbreak in which Nolan floored R. V. Williams, New York silk salesman, during a "party" in the latter's hotel room.

Nolan, almost hysterical, denied that he was more than a casual acquaintance of the woman. He declared he did not know why he struck her, except that he had been drinking and was seized with a sudden rage when he suspected Williams of trying to make love to her.

Williams denied making any advances.

Local Negroes To Celebrate Friday

Commemorating emancipation of the American negro, a program has been planned for Friday by Lubbock's negro population. Celebrations will be in the negro section here and at Johnston's ranch southeast of Lubbock.

A Lubbock negro baseball club will meet a team of Midland Mexicans here Friday in the first of a scheduled three-game series.

J. P. Oliver, local negro doctor, is director of activities here. John Allen and Charles Jackson of Slaton will supervise the celebration at the ranch. Dances, broncho riding, roping, boxing, and a barbecue are slated.

Tom Mix To Return To Movies In Fall

HOLLYWOOD, Cal., June 18. (AP)—To the tune of the small galloping hoofs and in the dashing dress in which Tom Mix left the movies for the circus more than three years ago the star of western stars is coming back again.

He and Tony, his educated horse, like many others, went out when the talkies came in, but Universal has signed him for a series of six pictures to start production in the fall.

MRS. HAMMOND DIES

WASHINGTON, June 18 (AP)—Mrs. John Hays Hammond, wife of the noted engineer, died here early today after an illness of several weeks.

PRINCIPALS IN ARNO-VANDERBILTS TRIANGLE SILENT ON FAMILY TILT

(By Associated Press)

RENO, Nevada, June 18.—Cornelius Vanderbilt, jr., was "sorry" today that he had "nothing to say" concerning the latest episode in his stormy career—a reported rift with his wife over alleged attentions paid her by Peter Arno, noted cartoonist here for a divorce.

Neither would Mrs. Vanderbilt or Arno comment on reports Vanderbilt had gone gunning for Arno but had changed his mind before reaching the Arno residence and returned to his own home.

Chief of Police J. M. Kirkley said last night Arno had come to him Tuesday asking for protection from Vanderbilt, who, he said, had threatened to do him "bodily harm."

Kirkley said he had told Arno he was "big enough to take care of himself," and that if anyone was bothering him "to go punch him on the jaw."

Arno made no mention, Kirkley said, of any attempt by Vanderbilt to shoot him. This also was confirmed by Clyde D. Souter, Arno's attorney, who said that "if any such statement has been made by anyone it is absolutely untrue, and not founded in fact. No such occurrence took place at any time or place."

MINIATURE WIRELESS ROBOT, IN FREE BALLOON MILE OR SO IN SKY, GIVES OUT INFORMATION ABOUT WEATHER

Did you know that a miniature wireless robot operating in a free balloon a mile or so in the sky is one of the newest devices employed to give you your weather information? Dr. William J. Humphrey tells about this robot and other weather developments in the following article—one of a series on what's going on in the world today."

BY WILLIAM J. HUMPHREYS
Meteorological Physicist, United State Weather Bureau
(Copyright, 1931, by The Associated Press)

WASHINGTON, June 18 (AP)—There are lots of new things about the weather.

Not very long ago the only means we had of studying the air above us was to climb a hill or mountain with our weather instruments.

After that kites were equipped with registering instruments. Now the aviator takes the instruments up.

Devices Developed

Sometimes, though, it isn't practicable for the aviator to make his weather flight and so for this reason, and others besides, two entirely different devices for getting information about the state of the free upper air are now being developed.

One of these is the rocket which can be used not only for exploring the lower air or region of storms, but also the upper air perhaps to the 50 mile or more level of the Kennelly-heaviside layer, or ceiling, that reflects wireless waves and makes talking to the other side of the world possible.

The other device, already considerably developed, is the free balloon carrying a meteorological equipment with a miniature wireless robot to take the readings and report them at once to the man who wants to know what they are. And he obeys implicitly the specific orders given him before he starts.

A sample message might be: "One mile nigh; temperature of the air 20 degrees Fahrenheit; relative humidity 80 per cent." Besides, he will give you the like information from as many other elevations as you may desire. You have only to make your wants known, he does the rest.

Study New Gas

Surely this would seem to be going the limit, but it isn't. There is a gas with strange properties in the atmosphere miles beyond the utmost reach of the lightest balloon that is now being carefully studied. We cannot get at it to measure it directly, but we can estimate its amount by its action on lights from the sun, moon or stars.

There is not much of it, this tangent gas we call ozone, but that little is of the utmost consequence. But for its presence every eye would go blind with the consequent flood of ultra-violet light that then would reach the earth from the sun. On the other hand if it existed in a much larger amount, enough, say, to make a layer of gas, as dense as the air in which we live, even so little as one inch thick, few infants, human or animal, probably would be born and they would die of the rickets!

In the line of applied meteorology, aviation is requiring and receiving increasingly frequent, detailed and accurate information as to the existing and prospective states of the atmosphere, especially in respect to wind, clouds, fogs, visibility and temperature. Nor is the study confined entirely to land areas. Already pilot balloons, that show the way and the speed of the wind miles high, are more or less regularly sent up from a few ships that ply the oceans, and more are sure to follow.

Dog His Reward

When a hit-and-run motorist took the life of "Dempsey" pet dog of 12-year-old Albert Van Sweringen of Kansas City, Mo., Albert wrote Mayor Bryce Smith urging him to warn motorists to drive more carefully. The mayor was touched by the boy's letter and rewarded him with the best canine the city pound could produce to take the place of "Dempsey." And here is Albert with his new dog.

"Jack and the Beanstalk" is not only found in Asiatic literature, but a similar legend is known amongst the Zulus and the inhabitants.

FLASHES OF LIFE

* * *

As Brought Over Associated Press Wires Today

(By Associated Press)

One Of Grads

WELLESLEY, Mass. — Chief Justice Hughes is one of the graduating class at Wellesley, a girls' college. As a honorary member he attended the commencement supper. The custom is for married seniors to stand on their chairs when their names are called. The chief justice did so, remarking that having married a Wellesley girl and having had a daughter graduate from Wellesley, he felt no terrors.

Awarded Degree

NEW YORK—Mrs. Frances P. Golden, member of the city board of higher education and mother of four children, is a new bachelor of law. For three years after getting breakfast for the family she went to classes at Fordham university. She decided a knowledge of law would be variable in connection with her municipal duties.

Debs Downcast

NEWPORT, R. I.—Some of the debs are downcast. J. Huntington Hartford, 2d, Harvard student and heir to a great fortune, is deserting Newport for the summer, going to Honolulu with his mother.

Robinson Crusoe

ISTANBUL, Turkey—There's a Robison Crusoe within sight of the Golden Horn. Vassil, a 63-year-old shepherd, lives alone on Plati, Princes islands, with his dog and sheep. His diet is wild herbs and mutton. His house is a hut of branches. When young he left the mainland to escape restrictions against pasturage and located on an island which had a convent in early Christian times.

Different Kinds

HELENA, Mont.—There are sportsmen and super-sportsmen in Montana. Residents can obtain a license to fish and hunt small game for $2. For $3 big game may be shot. A $5 license gives all the privilege of the lower-priced classes plus extra honor and a windshield sticker on one's car.

Confidence

BOGOTA, Colombia — The American colony is confident about the winner of the annual Fourth of July baseball game. There are only Americans enough to make one team and they play a nine of Englishmen. After the ball game there is a beer pumping contest. John Bull hopes to get even.

A new quarter-tone piano, demonstrated by Hans Barth in New York recently, divides the regular scale of 12 notes into 24.

FIVE-LANGUAGE CROONING SCORES FOR COAST SINGER; SHE'S AIR STAR NOW

* * *

SAN FRANCISCO (AP)—From breadlines to broadcasting is the experience of Adele Burian.

This KYA crooner had a tough time after the World war in her native Austria and saw some of the Russian revolution before she came to America in 1922.

Her parents and grandparents were musicians and singers in the old world, and she completed her musical education here—hoping to go on the concert stage.

By accident she "crooned" over the mike and made a tremendous hit by singing popular songs in five languages. Now she's doing it daily.

Miss Burian with her relatives stood in lines in Vienna after the war for her daily rations.

Adele Burian croons in five languages for Pacific coast fans.

Natural Gas Pipe Line Is Proposed

OKLAHOMA CITY, June 18 (AP)—Preliminary surveys for a 20-inch natural gas pipe line from the Oklahoma City oil field through Tulsa and out of the state to the north to cost $14,000,000 have been made and early construction is planned, representatives of the Western Service corporation announced today.

Earl R. Ernsberger, president of the corporation, said that a large gas market north of Tulsa had been offered his company, contingent on construction of the pipe line, and that the company could obtain an open flow of 1,750,000,000 cubic feet of gas daily in the Oklahoma City field.

Watch For Your Name; Free Lubrication Job!

Dr. O. W. English, bring your car to Beacon Master Service 13th St. and Ave. L or phone 2000 and we will come and get your car. You have a Firestone specialized lubrication job coming FREE any time you want it. It is the best and most complete you can get any where. We don't have to prove it—the job itself will prove it. Adv.

A plan for construction of twelve national arterial highways, is under consideration by the Nationist government of China.

ITCHING BURNING TORMENT ENDED BY RESINOL

What relief! The first application of this soothing, healing ointment usually stops all itching and burning and makes your tortured skin feel comfortable at last. Apply freely anywhere on body—no parts too delicate no surface too irritated for its healing medication. Sold by druggists everywhere. Try it and enjoy the relief it gives.

"OPEN HOUSE" AT NEW LUBBOCK HIGH SCHOOL BUILDING TODAY

CITIZENS GET GLIMPSE OF STRUCTURE

FIRST INSPECTION BY PUBLIC IS ALLOWED ALL-DAY TODAY

Lubbock citizens were getting a glimpse of the city's new $650,000 senior high school today in the first public inspection of the structure since its completion a few weeks ago. Visitors were admitted this morning at 9 o'clock and will be shown through the plant until 7 o'clock this evening. A large number of citizens viewed the building this morning and more were being shown through this afternoon.

A. C. Jackson, business manager of the Lubbock school district, announced last night that school officials were anxious that every patron see the new building and make a complete inspection of its departments.

"We cordially invite the public to come out and inspect the building," Mr. Jackson said. "We want them to see what they are getting and we have arranged this opening because so many people have asked about seeing the structure.

To Conduct Visitors

"There will be employes of the board and others scattered over the building at strategic points to explain things to visitors. We want the public to come out, if they care to. We have been told by a number of people from other cities, who have new buildings in their towns that cost considerably more than this one, that we have the best they have seen. We leave this to the public."

Mr. Jackson also announced that at stated intervals, the special scenic effects of the lights on the stage of the school auditorium will be demonstrated. E. W. Fite, engineer for the schools and in charge of the buildings and grounds, will have charge of this work.

Not less than an hour to an hour and a half is needed to properly go over the building and look at the special features of the structure. In fact, a two hour stay will be more nearly correct if one is to see anywhere near all there is to be seen.

General style of architecture is a modified Spanish type, with graceful lines and soothing tones. The very latest in school construction has been used, the equipment is of the best and newest type and everything possible for convenience of both pupils and instructor, has been developed.

Two Rest Rooms

Entering on the 19th street side, one is impressed with the beauty of the tile work of the foyer for the auditorium. There are two rest rooms for the general public to the right and left of the entrance, one for men and the other for women. There is a ticket window also, for charge affairs

Down the right hall to the east wing, one finds the office of M. H. Duncan, superintendent of schools, with private offices for each of the supervisors. North along this hall, on the east side, is the commercial department, with typewriting rooms, bookkeeping room and class rooms.

Patio On West

On the west side of the hall is a patio, with walks, a fountain and fish ponds. This patio separates the class rooms from the auditorium while on the opposite side of the auditorium is an open air theatre, with a stage and connection with the dressing rooms of the auditorium.

North of the auditorium is the gymnasium, a department that any college would be proud to have. The big room is 80 by 70 feet, a full sized basketball court for games and also large enough for division into two smaller courts for inter-class or other contests. There are six baskets for the gym, one at each end and two on the sides. Bleachers of concrete with wooden seats, will accommodate around 500 people. Outside entrances have ticket windows so that persons may come in either side and buy tickets without having to cross the gym floor.

Lockers Provided

Below ground are the locker rooms for girls and for boys. On the girls' side there are 38 showers, with a total of 228 lockers. Showers are so arranged that girls may have a semi-private dressing room as well as a private shower. Only one girl will be allowed in each shower and locker room at a time, each girl having an individual locker for gym suit and also for her street clothing. On the boys' side there are two sections, one with 320 lockers for boys and seven showers, with a team room for basketball and football players and 35 lockers. There are four showers off this room. Showers hot, warm and cool water, with the spray regulated from coarse to fine. Physical education directors for boys and for girls have separate offices, with lockers for equipment. Above the court is a gym room for students who cannot take the prescribed course of work.

On the first floor also there are located the office of the principal and an office for dean of boys and for dean of girls. A hospital room is next to the office of the dean of girls.

In the principal's office is a "master clock" which regulates each hour the 29 clocks over the building. These clocks are located in halls and departments. Hall clocks are virtually "double clocks" in that they have two faces so that persons may see the clock from either direction. There is an automatic ringing of bells at proper intervals. The mechanism is so arranged that bells may be sounded on different schedules each day in the week. Bells for changing of classes will indicate a minute before time to leave the room, the time to leave and then a tardy bell for students to arrive at their next class room.

Below stairs also is the heating system, with two Hegge Simplex boilers and an automatic hot water heater with 1,000 gallon capacity. The basement is 25 feet deep.

Equipment Complete

On the west side of the first floor is the vocational training department. This equipment includes a planer, a jointer, two lathes, an electric emery wheel, a mortiser, a band saw, cross cut saw and 15 benches. Thirty students may be handled each day. There is a tool room and other room, for storage.

On the second floor, one feature is a large room known as the "state book" room where text books belonging to the state department are to be kept.

The blue print room is a feature of the mechanical drawing room. Here there are 30 desks for drawing, with 90 individual drawing boards, each automatically controlled by the key of the drawer for other equipment of students.

Near the state book room is a room for student publications, including the school annual and the student publication.

Connecting the two study halls on the second floor, on the west side, is the library. The girls' study hall is to the south, with room for 128 girls at a time. The boys' room is to the north, with 112 desks.

A music auditorium, with locker space for band instruments, sheet music and the like, is a feature for the music department.

Home Ec On Third

On the third floor, on the east side, is located the home economics department. Here are two rooms for clothing work, containing sewing and work tables, locker space for 60 and with two ironing boards and storage space. Connecting is a model bedroom, with a bathroom attached. Next is a model living and dining room combined. Furniture for these rooms has not been installed

Kitchen equipment is of the latest. There are two work rooms, with six and eight kitchen cabinets. Gas ranges and stoves are to be installed but there are plenty of space for storage of foods, equipment. A G. E. refrigerator is a part of the equipment.

The Biology department has a separate laboratory of its own, with a small fish tank now containing a lonesome gold fish. Not all the equipment has been installed here. The chemical laboratory has 14 tables for experimental work, with air vents over each table, gas, electricity and sink. A private laboratory for the teacher and a battery and generator room is on the space connecting the physics laboratory. Here there is more equipment to be added.

Seating capacity of the auditorium is 1,505. The stage has a loft extending up 60 feet from which hangs the scenery, drops, etc. There are two sets, an exterior and an interior. Three rows of lights above and the footlights provide ample lighting facilities. There are red, white and blue globes, all controlled from a central room. Lights are in sections and it is possible to develop effects from midnight to noon day. An asbestos curtain is in front, with a velour drop and a satin two color drop, black and gold. There are 288 globes of 150 watt power each. Automatic control of exits protects the outsides with possibility of a fire closing doors leading to the outside There are two dressing rooms, one for boys, the other for girls, with lockers, toilets and dressing tables.

Teachers on several floors have separate rest rooms and lavatories.

Besides the ornamental tile in the foyer, all tile in halls is a tan color, with a glazed surface.

The public speaking department has its own space also. Above the foyer is to be found four class rooms for private music instruction.

SEIBERLING TIRES

It's Vacation Time

The Seiberling Tire Is a Structure of New Strength

A Tire of more miles . . . . a new champion for low mileage cost.

You are thinking of buying new tires? The wise car owners are buying the nation's newest tire development, "The New Seiberling", "America's finest tire."

The super triple tread, air cooled Seiberling has astounded the rubber industry and is revolutionizing mileage cost and non-skid tire mileage by performing twice as cheap as any of the super tires on the present day market.

No balloon tire offers the road comfort found in the super triple tread air cooled Seiberling tire. Riding on them . . . just like floating on quiet swelling waves. The pounding and vibration that shakes cars to pieces and makes long riding uncomfortable for car driving is eliminated by the shock-absorbtion that is possible only in the triple Tread air cooled Seiberling.

5th Car Load of Seiberling Tires Arrived This Week

Public demand for this new tire on the South Plains has justified the purches of a car load each week for the past five weeks.

Several Guests Play Bridge With Las Chaparritas Club Members On Wednesday

Misses Johnnye Gilkerson And Sylva Wilson Are Hostesses Wednesday Eve

Misses Sylva Wilson and Johnnye Gilkerson joined in entertaining Las Chaparritas club Wednesday evening in Miss Gilkerson's home at 1715 18th street. Several guests were invited to play bridge with the members on this occasion.

High score in the games was made by Miss Mary Meador and Miss Frances Ford made second high score.

Members attending were Misses Maxine Clark, Mary Lois Gamel, Sarah Michle, Virginia Murray, Frances Ford, Gail Quinlan, Eloise Nelson, Almeda Murray Beto Wulfman, Glyds Grimsley, Mrs. Charles Bacon and Mrs. Clarance Rollo.

Other guests were Misses Katherine Morrison of Dallas, Louise Jennings, Dorothy Lomax, Mary Meador, Lulu Mae Cravens, Marian Evans, Blanche Bacon and Elizabeth Evans.

LOCALS

Mr. and Mrs. J. W. Lynch are visiting in Mineral Wells.

Mr. and Mrs. Thomas Ray Strange have returned to their home in Checotah, Okla., after visiting Mr. and Mrs. G. W. McCleary. They visited in Big Spring with Mr. Strange's brother, W. T. Strange.

IMPETUS GIVEN TO PROGRAM

CONTRACT FOR SLAB ON NO. 9 TO BE AWARDED SOON

Contract for a slab on state highway No. 9 south probably will be let "soon," as a result of resolutions adopted recently by the County Commissioners court and forwarded to Austin for consideration by the state highway commission, County Judge E. L. Pitts said Wednesday.

The resolution asked federal aid for No. 137, marking of U. S. 62 through Lubbock county and paving of No. 9.

Chairman W. R. Ely, in a letter to Judge Pitts, said that bids would be asked "soon" on unit No. 2 on highway No. 9, or from Lubbock south to the Lynn county line.

Ely said it was impossible to secure any federal aid on No. 137 in this county at this time. He pointed out that the state's appropriation for federal designation of highways had been "over drawn" and that it had been necessary for the state to withdraw federal designation from "several hundred miles of highway." For this reason, the state highway department expects the county to post its 50 per cent of the cost of paving and grading and drainage work.

John T. Waller, secretary of the commission, advised the court that federal markers for U. S. No. 62 highway, known as the Carlsbad Caverns route had been ordered. "Within 30 days" he added, "the highway in your district will be marked."

Caverns route through Texas from Altus, Okla. on the east to Tatum, Roswell and Carlsbad, N. M. and on to El Paso had been ordered. "Within 30 days" he added, "the highway in your district will be marked."

Judge Pitts in a personal letter to D. K. Martin concerning paving explained that the drainage work on No. 9 had been completed since March 19 and that the members of the court had been frequently asked by citizens the "why" of the delay in paving. He pointed out that the county has had posted for many months its share of the paving work.

"We have over $300,000 worth of bonds, authorized but not issued," Judge Pitts said. This, he explained, would be enough to take care of the highway work to be done in the county, on which funds from the sale of previously issued bonds have not been posted with the state.

There are two grading and drainage contracts yet to be let and four paving jobs.

Delinquent Chest Funds Being Paid

Since the employment of a special collector, delinquent pledges to the amount of $1,500 have been paid into the Community Chest fund, the chest secretary reported last night. The collector has been seeking payment of pledges authorized for payment on June 15.

One more quarterly payment remains for persons paying their pledges every four months, he said. Four more payments remain for those who pay monthly to complete their pledges. About $5,000 in current accounts is outstanding on the boards of organization, it was said.

DR. MYERS

Doctor Myers' Daily Column On Child Welfare

BY GARRY C. MYERS, PH. D.
Head Division Parental Education Cleveland College, Western Reserve University

TRAINED NURSE MAID

Mothers of young children who have constant or occasional domestic help face numerous problems in relation to the child and to the help. Ideal help are such that in the mother's absence they can take her place, doing as nearly as possible as she would do herself, assuming full control in her absence, administering all necessary discipline of the child acting entirely in the mother's place. Such help is not very plentiful and not many parents are willing to have a stranger discipline their children.

As a consequence, the person left with the child may so cater to his whims as to avoid conflicts and get along with him well enough to hold her job; or, she may become an official tattler, reporting to the mother the child's delinquencies on her return. On account of her tattling the child acquires dislike for her, co-operating less freely, and with more bad behavior the next time the mother is away.

The mother, as a rule, follow up the tattler's report with questions, almost surely causing him to lie in her attempt to make him incriminate himself. Upon the child's own testimony or the tattler's, she administers punishment, perhaps. It does no good because it is too far delayed. Her coming home becomes a trying time for her and for the child, breaks down his genuine affection for the mother and, bye and bye, causes him to dread to see her go away, also to dread to see her come back home.

* * *

Trained nurse-maids and caretakers of children are greatly needed. Many mothers choose them carelessly; others, who are wiser, find few good ones to be chosen.

In the not distant future, caring for young children in the home will become a highly-trained profession, which will attract a large number of young women. High schools will be offering courses in the field.

Churches and women's clubs, looking for big fields of service, can find one here—to sponsor courses offered by colleges and universities. Here and there elementary courses are available already. The International Institute of the Y. W. C. A. of Cleveland put on such a course last year, the child training committee having supplied the leadership. An occasional mother of my parent classes registers her nurse-maid, brings her along to school with her. A few others have sent their nurse-maids the following year.

A number of these parent-students sit down regular at home with their help and go over in detail the notes of the lectures and class discussions. These parents see how ineffective their own training is unless they share this training with those who for so much of the child's time are entirely responsible for him.

* * *

I shall be glad to answer, in these columns, questions addressed to me in care of this paper, provided these questions seem to be of general interest.

If you have a question you would like to have answered personally, write me, enclosing a self-addressed, stamped envelope.

EDITOR'S NOTE: Two pamphlets by Dr. Myers may be obtained by sending 10 cents in coin, for each, and a self-addressed, stamped envelope, to Dr. Garry C. Myers, in care of this paper, or Central Press Association, 1433 East Twelfth street, Cleveland, O. The pamphlets are: "Punishments and Rewards" and "Fear."

NEW FACE POWDER STAYS ON LONGER

If you have large pores use a face powder that will not clog them. A new French process called MELLO-GLO makes the skin look young, stays on longer, furnishes a youthful bloom, does not irritate the skin or make it look pasty or flaky. Spreads smoothly. February Marriage Is Announced Here

A young couple whose marriage has been recently announced in Colorado, is visiting in Lubbock now with Mr. and Mrs. S. H. Straley, 2108 20th street. These visitors are Mr. and Mrs. Albert Shaddy of Dallas.

The bride is the former Miss Irma Wynell Womack, who was a student in Texas Technological college during regular term of school that closed early this month. She and Mr. Shaddy were married in Clovis, N. M., on February 8, although no announcement of the marriage was made until last week in Colorado.

The couple is to go to Dallas from here to reside.

Mrs. Shaddy is the daughter of Mr. and Mrs. H. D. Womack of Colorado. Mr. Shaddy was in Lubbock last year as he was superintend of some construction work on the new Lubbock High school building.

Mrs. H. B. Bryan Has Party For Club

Mrs. H. B. Bryan, jr., 2003 28th street, entertained La Cenacienta Needle society Wednesday afternoon in her home. The time was spent sewing.

Those who attended were Mesdames George Brewer, Herbert Stubbs, R. L. Clinkscales, C. M. Traylor, J. B. Morrisset, J. B. Galland, I. P. Kennedy and Hurley Carpenter.

Mrs. H. T. Wilkins Is Club Hostess

L'Aiquillee club members were entertained Wednesday afternoon by Mrs. H. T. Wilkins in her home at 1918 26th street. Punch was served during the afternoon which was devoted to needlework, and an ice course was served at the end of the party. Mrs. Wilkins was assisted in entertaining by her daughter, Lois Marie Wilkins.

Those who attended were Mesdames H. A. Welmaker, Maude Bradley, T. L. Biggs, William von Wolff, Dee Puckett, Earl Ellison, T. W. Keys W. D. Click Imogene Pace and V. O. Jennings.

ATTEND FIELD MEET TODAY

FIVE FROM LUBBOCK LEAVE FOR MARFA AFFAIR TODAY

Representing the Panhandle-South Plains fair, the Lubbock Chamber of Commerce, and Lubbock newspapers, five persons left here early this morning by automobile for Marfa to attend ranch inspections and a livestock conference in the Big Bend region.

Dr. I. E. Barr, livestock superintendent of the fair; A. B. Davis, manager of the chamber of commerce; A. B. Davis, jr., and two newspaper men composed the Lubbock delegation.

Lubbock Invited

Beginning today and continuing through Friday, the meeting is sponsored by Brewster, Jeff Davis, and Presidio counties. G. W. Merrill president of the Highland Hereford association, of Marfa, said in inviting Lubbock's attendance.

Cattle ranches will be inspected both days, groups going from Marfa and Fort Davis and exchanging itineraries the second day. A general assembly will be held Friday night at Marfa, for open discussion of the livestock industry.

HEADS HOTEL GROUP

VANCOUVER, B. C., June 18 (AP)—Charles A. Marigold, of Dallas, Tex., was elected president of the Hotel Greeters' Association of America at the 21st annual convention here yesterday. Kansas City, Mo., was chosen for the 1932 convention city.

Oklahoma Guest Is Honoree For Party

Mrs. S. D. Bailey of Snyder, Okla., who is visiting in the home of her daughter, Mrs. George A. Simmons, was complimented Wednesday afternoon at a bridge party given by Mrs. W. O. Stevens and Mrs. J. Milton Jones in the Stevens home at 1406 Avenue O.

High score in bridge was made by Mrs. F. R. Friend and Mrs. W. H. Meador was high in a general cut.

Several courtesies have been extended to Mrs. Bailey during her visit here.

Beth Holland Speaks At Girls' Meet

Bobby Aycock was hostess to Akipsia Camp Fire girls Wednesday afternoon in her home at 2321 13th street. Beth Holland described and identified ten butterflies and a hike was planned for next Wednesday evening to the County park. The guardian, Elizabeth Conner, was present. Girls attending were Alene Duncan, Kathryn Davies, Maxine Hensley, Marguerite Power, Luella Benson and Wilma Dysart of Amarillo.

Refreshments were served.

History Authority To Speak At Tech

Tech officials expect a large audience to hear Prof. W. B. Webb, authority on western American history and member of the University of Texas faculty, when he speaks here Friday night on "The Significance of the Great Plains in American Life." The lecture is to be heard in the chemistry auditorium, beginning at 8:15 o'clock.

An author of a number of textbooks used in American grade schools and a recognized authority on western American history, Prof. Webb's lecture is to be of much interest, college officials have declared. The lecture is open to the public.

Whalers estimate that the average whale can cover a distance of about 12 miles in an hour.

Club Women Hear Talks On Home

Talks on problems of the home were heard Tuesday afternoon at a meeting of the Wolffarth Home Demonstration club in the home of Mrs. E. F. Graston. Mrs. Wiley Gates was joint hostess.

Mrs. M. T. Daniel talked on house planning and furnishing; Mrs. G. L. Sims talked on business organization in relation to the home and Mrs. B. Landers talked on family relations in the home.

Refreshments were served to Mesdames O. T. Corley, Landers, W. H. Meek, Henry Ross, Sims, P. J. Stryker, H. A. Sullivan, Jim Hobgood, J. D. Fraley, Daniell, R. Hollom, Eiliene Graston and Juanita Corley.

Butterflies Studied At Girls' Meet

Fern Holland talked on butterflies Wednesday afternoon before a meeting of the Sunowa Camp Fire girls at the club house, 2009 Broadway. Later she helped the girls identify butterfly specimens. Games were played during the afternoon with the guardian, Miss Ethel Green, in charge.

Those who attended were Helenoire Reynolds, Betty Alice Gordon, Jeanette Kelly, Marjorie Johnston Jean Fay Briston, Gwendolyn Hyatt, Caroline Reynolds and Wanda V. Hunter.

Day Of Prayer Is Observed Wednesday By Methodists In 2 Lubbock Churches

Observing a day of prayer designated by Methodist bishops in the southern church, Methodists of Lubbock had a number of prayer services on Wednesday here.

Three different groups met at the Asbury Methodist church for sessions of prayer during the day. Senior Epworth League members gathered from 10 until 11 o'clock at the church for a service led by Miss Lucille Liljedahl. The Women's Missionary society had a service during the next hour with Mrs. Paul Williams in charge. During the hour after 12 o'clock, H-League members met at the church. Miss Vera Ratliff was leader for this service.

Women's societies in First Methodist church observed the day with prayer meetings. Members of Mary Helm society met with Mrs. J. O. Haymes during the afternoon and Mrs. C. P. Carlock was leader of the service. Talks were made by Mrs. C. A. Bickley, Mrs. Claude Burrus and Mrs. Haymes on prayer and fasting.

Circle In Meetings

Circles in the W. M. S. that are headed by Mesdames R. C. Odom, C. B. Powell, J. P. Edgar and J. C. Orr met at the church at 7:30 o'clock in the evening for a short prayer service that was led by Mrs. J. W. Watson. Those who attended remained for the regular mid-week prayer service at the church.

Circles that are led by Mrs. George R. Bean and Mrs. A. G. Odom met in the afternoon with Mesdames R. M. McCollom and W. J. Dillon in their home, 1609 Avenue K. Mrs. R. I. Tubbs led the prayer service and others who attended were Mesdames Walter K. Ames, O. R. Copeland, R. Bush Smith, Odom, Bean and A. W. Evans.

Mrs. C. C. Webb, 3001 22nd street, was at home to women in the circles of which she and Mrs. T. V. McKinney are chairmen. Mrs. A. H. Crawford led the prayer services. Others who attended were Mesdames McKinney, Fred Adkins, C. C. Lane, L. E. White, C. E. Love, and Erle Thompson.

239 Attend Vacation School Today

There was an attendance of 239 boys and girls in the first Baptist Daily Vacation Bible school this morning, according to a report from the church. Wednesday's attendance was about 250.

Helium, the wonder gas, was so named from the Greek tword meaning the sun element.

NO MATTER HOW HARD I SCRUB, I CAN'T GET THE CLOTHES WHITE ENOUGH

Don't be a washboard slave

Soak your clothes whiter

"HOW hard washday used to be! I'd scrub until my back almost broke, but my wash never looked white enough. Now I just soak the clothes in Rinso suds, and they come snowy! I don't even boil."

Colored clothes brighter

Trust your finest cottons and linens to Rinso's safe suds. It keeps them bright and new-looking after dozens of washings. Such creamy, *lasting* suds—even in hardest water! Twice as much, cup for cup, as light, puffed-up soaps. The makers of 40 leading washers recommend Rinso. Great for dishwashing! Get the BIG package.

MILLIONS USE RINSO in tub, washer and dishpan

KING MICKEY AND QUEEN MINNIE TO BE ELECTED AT CLUB MEETING HERE

King Mickey and Queen Minnie will be elected by members of the Mickey Mouse club Saturday morning at the Palace theater at a meeting of the club.

Sponsors of the Mickey Mouse tribe promise that Saturday's program will be one of the most interesting since the club of Lubbock boys and girls was formed.

In addition to the election, a new Mickey Mouse film and comedy attraction, one of the greatest juvenile films of the year will be shown Saturday morning at the Palace. Jackie Cooper in "Skippy" is the main attraction and is heralded by critics as a show children should not miss

There are 12 candidates for Queen Minnie's place—each representing one of the firms which, in cooperation with the Avalanche-Journal and the Palace theater, have made the Mickey Mouse club possible. The youngsters elected as king and queen each will receive a $5 gold piece, as well as other prizes.

DANDRUFF

Itching scalp and dandruff vanish when ZEMO touches the scalp. Thousands say it is the one sensible way to stop itching scalp, remove dandruff and prevent falling hair. ZEMO is clean and dependable. All dealers, 35c, 60c, and $1.00.—Adv.

WILL FLY TO CAPITALS

BUSINESS MAN - PILOT PLANNING TOUR OF ALL STATES

KANSAS CITY, June 18 (AP)—John D. Brock, business man who has made the 559 of a series of consecutive daily airplane flights plans to take off tomorrow on a tour having all state capitals on its itinerary.

Brock announced the object of the tour a demonstration of the accessibility of state capitals by air and the feasibility of extended flights over well defined routes along which are adequate landing fields.

Col. Ruby D. Garrett, former chief signal officer for the 42nd (Rainbow) division, a Kansas City attorney and councilman-at-large, will be the business man-pilot's passenger.

The first leg of the tour covering approximately 2,650 miles and requiring six days will take the flier to Topeka, Kas., Lincoln, Neb., Cheyenne, Wyo., Denver, Colo., Oklahoma City, Okla., Austin, Tex., Baton Rouge, La., Tallahassee, Fla., Jackson, Miss., Little Rock, Ark., and back to Kansas City.

Germany boasts the largest mouth organ orchestra in the world, having 40 musicians who play from twelve to fifteen instruments each.

BUTLER USES WORD "HELL" IN RADIO SEPECH

BOSTON, June 18 (AP)—Major General Smedley D. Butler who was cut off the air when he used the word "hell" in a radio broadcast in Philadelphia recently, sent the term into the ether from Boston Tuesday and found that "the purity of New England radio air was different from that of Philadelphia." He was speaking at a "night before" banquet of the Bunker Hill post of the American Legion.

The major general told the same story that he started to tell when the power was shut off in Philadelphia. It was:

"A Quaker was accousted by a thug who smote him on the cheek. Without losing his temper, the Quaker asked the thug to smote him on the other cheek, which the thug did.

"The Quaker then removed his coat, rolled up his sleeves and said, 'now, having complied with the rules of the Bible, I intend to lick hell out of thee'".

10¢ TUMS
TUMS FOR THE TUMMY
For ACID INDIGESTION
At last . . . quick, pleasant relief from that gassy fullness, burning sourness, belching, upset stomach, nausea, etc., which often follow meals. TUMS—a new Antacid mint—relieves almost immediately. Eat three or four TUMS—often one is enough. Delicious, sweeten the breath. At any drug store—only 10c.

EXPORT OF GRAIN SHOWS DECREASE

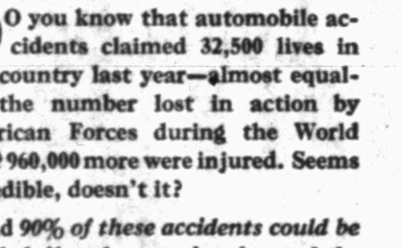

WASHINGTON, June 18 (AP)—Exports of grains from the United States in the week ending June 13 totaled 1,378,000 bushels as compared with 4,141,000 in the preceding week and 1,863,000 in the corresponding week of 1930.

Wheat exports reported to the department of commerce amounted to 1,327,000 bushels during the week ending June 13 against 4,038,000 in the preceding week; barley, 45,000 against 95,000; corn 1,000 against 9,000; rye, no exports; oats, 5,000 against 4,000.

Canadian grains in transit from United States Atlantic ports totaled 1,410,000 bushels against 1,750,000. Canadian wheat flour shipped from United States ports totaled 48,000 barrels against 26,000 and United States wheat flour exported amounted to 21,000 barrels against 239,000.

This Store is SAFETY HEADQUARTERS

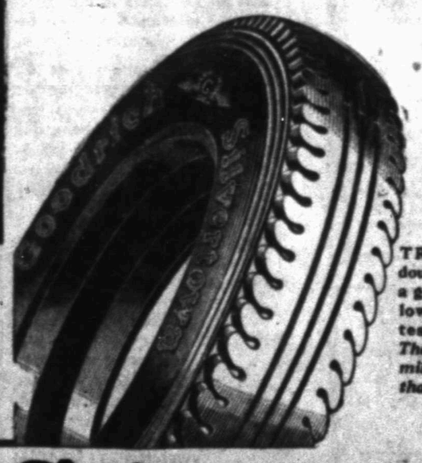

Come in NOW sign this pledge to SAVE LIVES

DO you know that automobile accidents claimed 32,500 lives in this country last year—almost equaling the number lost in action by American Forces during the World War? 960,000 more were injured. Seems incredible, doesn't it?

And 90% *of these accidents could be avoided, if each motorist observed the 9 sane, practical rules in this Silvertown Safety League Pledge.*

Let's put our town in the forefront of this nation-wide movement to save lives. Come to our store—sign the pledge which makes you a member of the Silvertown Safety League today!

IDENTIFY YOURSELF!
Members of the league receive emblem for the radiators of their cars—without cost. Join this movement to save lives.

TRADE IN those doubtful tires. Receive a generous trade-in allowance on safety-tested Silvertowns. *There are more safe miles in a Silvertown than in any other tire.*

Consider your Adam's Apple!!*
Don't Rasp Your Throat With Harsh Irritants
"Reach for a LUCKY instead"

Place your finger on your Adam's Apple. You are actually touching your larynx—this is your voice box—it contains your vocal chords. When you consider your Adam's Apple, you are considering your throat—your vocal chords.

What is the effect of modern Ultra Violet Rays upon tobacco? Dr. E. E. Free, one of America's well-known scientists, who was retained by us to study Lucky Strike's manufacturing process, addressing the Illuminating Engineering Society, said:

"The essential effect of the Ultra Violet is the production of better tobacco and of cigarettes regarded by virtually all smokers who have tested them as milder and with a lesser tendency to cause throat irritation."

Here in America LUCKY STRIKE is the only cigarette that employs Ultra Violet Rays in connection with its exclusive "TOASTING" Process—the only cigarette that brings you the benefits of the exclusive "TOASTING" Process which expels certain harsh irritants present in all raw tobaccos.

"It's toasted"
Including the use of Ultra Violet Rays

SPYING ON SPORTS

Thus far nobody has troubled himself to ask this department for passes to the world's heavyweight championship fight over at Cleveland next Friday night week, and we're beginning to worry about the Lubbock delegation to Ohio. Maybe so there's not the interest in the Smelling-Stripling fight we guessed.

* * *

But there is considerable interest being manifest toward the world's welterweight wrestling championship match at Amarillo next Monday night. We have been asked quite frequently about the chances of "gettin' a pass and bumin' a ride" for the Cal Farley-Jack Reynolds setto. Sorry, but Jerry sent us two ducats and we'll need both of 'em—one for whoever automobiles us up and one to get in.

* * *

There seems to be a little argument over Ray Waller's no-hit, no-run pitching exhibition the other day when the Avalanche-Journal club defeated the Advertisers, 5 to 0. We had hoped to establish undeniable proof that Ed Hambright, manager and second baseman for the Avalanche-Journal team, made an error when a ball was knocked his way. Some think it was a hit. Our photographer happened to be on hand (his name is NOT Mike) and was using a movie camera.

Here's what the film shows, and we regret that it fails to show Hambright missing the ball. The film broke right there, just as it does at the Palace theater right in the middle of an interesting scene, and we lost full proof that an error was made. The story goes, however, that the ball, which Hambright should have recovered on the first bounce, took a third hop and Ham failed to get it. Whether he touched it or whether he didn't has nothing to do with its being an error, and so was it recorded on the books.

* * *

Our photographer was on the job yesterday, and it's a good thing his camera does not make talking pictures. Lubbock golfers are in the midst of a qualifying play at the Meadowbrook in connection or preparation for the annual city championship tournament. Below is shown Don Mitchell (in disguise), a Lubbock Country club player trying to qualify for the first flight in the tournament at the Meadowbrook course. The one on the right is Old Sol.

We understand Don and a bunch of friends are behind a move for smaller greens and larger cups—and a return of the old standard-sized ball. Nowadays they blame all their golfing faults on the new "balloon ball" which is on the mat now subject to the straw vote of golfers all over the country. Everything from tonsilitis and falling of the sox to the failure of the onion crop in Sweden is being blamed on the new ball.

* * *

Lubbock is one of the few cities of its size anywhere which lays claim to possessing an athletic spirit in which a lighted athletic park is not to be found. Night football, baseball, track and horse-shoe pitching (to say nothing of tennis and croquet, is screaming its success from the Atlantic to the Pacific and an illuminated athletic field here would attract cash customers in proportion to the other towns.

* * *

A plan is under way to install lights in Merrill Park for night baseball this summer. All that is lacking is funds necessary to equip the plant with arcs. When someone steps into the thing with a flush pocketbook we will see night games and big crowds plenty.

* * *

It appears to us that with a little cooperation on the part of Lubbock's scholastic institutions and independent individuals interested in seeing night baseball that lights could be purchased and installed here with little cost to any individual or organization. Suppose, f'rinstance, a few fellows get together and order the lights, use them at Merrill Park this summer for baseball games and this fall they can be transferred to a football field for night gridiron contests.

* * *

It is cool enough in late October and November for football games in the afternoon, but September and early October games under lights would increase attendance remarkably or we miss a guess. We're thinking of increased gate receipts wherever lights are being used and Lubbock should prove no exception. Baseball lights easily may be transferred into football field lights, but the ordinary football lighting system is not capable of lighting a baseball diamond. It takes more power and more lights to correctly illuminate a baseball field, yet the same lights will turn a gridiron into a thing of beauty with daylight effectiveness

TEXAS LEAGUE SPLIT SEASON SEEN

GIBSON PAYNE AND HUGHETT LEAD ROUND

EXPECT FORTY OTHERS TO QUALIFY TODAY IN CITY MEET

Shooting scores of 68 each, Mendall Hughett, Texas Tech student-golfer, and Gibson Payne, local business man, led the first day qualifying round in the annual city championship tournament yesterday over the Meadowbrook course. Hughett is a regular player at the Meadowbrook while Payne is a Country club member.

Forty local men were registered yesterday to qualify in the tournament, which continues through Sunday, but only 31 shot the 18-hole qualifying round. A high wind and sandstorm late in the afternoon prevented some entries from competing rounds and others from starting.

Expect 40 Others

It is thought that at least 40 others will qualify today. Qualifying play will cease this afternoon and match play will begin tomorrow. First, second and third flight players will play at the Lubbock Country club with fourth flighters continuing at the Meadowbrook.

Three players tied for second place with 72s yesterday and two for third place with 73s. James Allredge, Jo Dick Slaughter and E. T. Daniels, Country club golfers, went the round in two over par for 72s and second place. Lyle Holmes, Tech student and Meadowbrook player, and V. O. Jennings, Country club member, shot 73 each.

Equalls Record

Hughett had a par-smashing figure going out that equalled the course record. Bagging five birdies on the round, the Tech student had a 32 for the first nine, but encountered trouble coming in for 36 one over par. Seven times on the first nine he was on the green for birdies but missed putts.

Payne, a first flighter in the West Texas Golf association tournament held here recently and who advanced to the finals in the River Crest invitation tournament at Fort Worth last week, missed a 6-foot putt on the last hole for a five, one over par, that lost undisputed leadership for him. He had been sinking long putts all afternoon and was at the top of his game only to miss the par 4 hole. He started playing at the fourth, joining a foursome, and wound up on the third hole.

Payne's Card:

Par Out	434 445 443	—35
Payne Out	425 345 453	—35
Par In	443 434 445	—35—70
Payne In	343 434 444	—33—68

Hughett's Card:

Out	334 335 443	—32
In	353 544 444	—36—68

GOLFERS SEEKING WESTERN CROWN

MIAMI VALLEY COUNTRY CLUB, Dayton, O., June 18 (AP)—Over Miami Valley's bunkered and trapped terrain, one of the most hazardous greenswards in this section of the country, more than 120 golfers from all sections of the country started this morning in quest of the western open golf crown now held by Gene Sarazen of Flushing, N. Y.

Included in the field are at least ten of the "big shots," potential winners in any man's tournament. The list includes Sarazen, Ed Dudley, Olin and Mortie Dutra, Walter Hagen, George Von Elm, Clarence Gamber, Chic Evans and heading the amateur contingent are Leonard Schmutte, Emmett French and Abe Espinosa.

Eighteen holes were scheduled for today and at the end of the round the field will be reduce to the low 100 and ties. Eighteen more holes will be played and the field will be reduced to the low 64 and ties for the 36 hole finals Saturday.

Johnny Goodman Is Favored In Match

GOLDEN VALLEY GOLF CLUB, MINNEAPOLIS June 18 (AP)—Johnny Goodman of Omaha, the outstanding favorite to win the 1931 trans-Mississippi golf championship, was matched against Earl Larson of Minneapolis, in the first round of the 36-hole matches today.

The sharp shooting Omaha boy held his shots well to the line in Wednesday's high wind and he appeared to be the best of the quarter final entries.

Fred Dold of Wichita, Kas., was matched today against William Fowler of Fargo, N. D., captain of the University of Minnesota golf team.

HOUSTON WITHIN HALF GAME OF BEAUMONT FOR 1ST PLACE

(By Associated Press)

The Texas league pennant scramble tightened up a notch Wednesday night when Beaumont allowed Houston to creep within half a game of a tie for first place.

Playing the only afternoon game, the Exporters suffered a shutout from the fine pitching arm of Bob Cooney of Wichita Falls, 1 to 0. Cooney clicked off his eighth victory of the season against three defeats. He was a double star—on the mound and at bat. After two had been retired in the eighth, he singled to right and advanced to second when Garms walked. Alliday singled to center to score Cooney with the only run of the game.

Houston, picked up pennant ground with an 8 to 2 decision over Fort Worth. Clarieton held the Cats to three hits, and was in front all the way.

San Antonio had a winning streak stopped Wednesday night when they lost to the Shreveport Sports, 8 to 4. Lefty Erickson, knocked from the mound Tuesday night in the first inning, stalked back Wednesday night and got revenge by keeping eleven San Antonio hits well scattered.

At Galveston, the Buccaneers, thanks to some excellent pitching from Black Bill Harris, defeated Dallas 4 to 2. The Buccaneers won the Dallas series, their first since an invasion of Wichita Falls the middle of last May.

MAJOR LEAGUES' LEADERS SHOWN

(By The Associated Press)
(Including Wednesday's Games)

NATIONAL LEAGUE:

Batting—Hendrick, Reds, .404; Terry, Giants, .361; Runs—Klein, Phillies, 51; Terry Giants, 44; Runs Batted In—Klein, Phillies, 48; Arlett, Phillies 70; Doubles—Adams, Cardinals, 20; Davis, Phillies, 19. Triples—Worthington, Braves, 8; Watkins, Cardinals, 7; Home Runs—Klein, Phillies, 17; Arlett, Phillies, 11; Stolen Bases—Comorosky, Pirates, 8; Cuyler, Cubs, 8; Pitching—Derringer, Cardinals, won 6, lost 1; Sweetland, Cubs, won 6, lost 1.

Batting—Morgan, Indians .388; Cochrane, Athletics, .385; Ruth, Yankees .385; Runs—Simmons, Athletics, 51; Manush, Senators, 48; Myer, Senators, 48; Runs Batted In—Cronin Senators, 57; Foxx, Athletics, 54; Hits—Cronin, Senators, 83; Simmons, Athletics, 79; Manush Senators, 79; Doubles—Webb, Red Sox, 26; Manush, Senators, 20; Triples—Cronin, Senators 8; Manush, Senators, 7; Home Runs—Foxx, Athletics, 13; Ruth, Yankees, 11; Gehrig, Yankees, 11; Stolen Bases—Chapman, Yankees, 20; Johnson Tigers 16; Pitching—Fischer, Senators, won 7, lost 1; Burke, Senators, won 6, lost 1.

SQUINTS 'EM OVER

* * *

Here's a face that should puzzle even the invincible Babe Ruth himself when he steps up to the the plate. It is that of Henry ("Hank") McDonald, latest addition to Connie Mack's pitching staff for the Philadelphia Athletics' 1931 season.

DEADLINE SET ELEVEN DAYS FROM NOW

SPORT WRITERS THINK MARATHON WILL BE TWO-WAY AFFAIR

BY BILL PARKER
Associated Press Sports Writer

DALLAS, June 18.—The deadline for splitting the current Texas league pennant race is only eleven days away and while no official announcement has come from President Gardner's office at Wichita Falls, it is the consensus of Texas league sport writers that the league marathon will be a two-way affair with the first half closing July 3, and the second half opening July 4.

President Gardner, now touring Texas league cities, when asked for an expression on the split, said it was strictly within the control of Texas league magnates, but that a split would be no surprise.

Lead Could Change

Under a new Texas league rule, club moguls must cast their respective "ayes" and "nayes" five days in advance of the proposed split. This means the votes must be polled and accepted by Gardner by mid-night June 25. After the vote, there will be five more playing days in the first half, and with Beaumont, Houston and Fort Worth within a few points of each other, the lead could easily switch within five days.

It will be necessary for six of the eight clubs to vote "aye" on the split before it can become effective. Regardless of which club is on top when the vote is polled, if at all, it is the belief that the leader will vote "aye" and take a chance on staying up there five days longer.

There is no doubt about the dissenting votes—they will not come from the lower division—not with San Antonio, Dallas, Shreveport and Galveston completely out of the running without some sort of a miracle to put them up there, and a split seems to be their only chance of such a miracle.

That gives the proposed split four sure votes with two needed from the upper division. It is not taking much for granted to write that the leader on June 25 will vote for the split and take its chances on staying at the pinnacle for five days. This gives the split five votes with three clubs remaining in doubt. Wichita Falls has nevpr been strong for a split. This would leave the final decision up to Houston and Beaumont with Fort Worth the go between clib.

GEORGE EARNSHAW TURNS BACK THE INDIANS FOR ELEVENTH WIN WITH ONLY TWO DEFEATS; SENATORS WIN

BY GAYLE TALBOT, JR.
Associated Press Sports Writer

George Earnshaw, hero of the last world series, was expected to be a great help to the Philadelphia Athletics in their quest of a third straight championship, but it is doubtful that even Connie Mack looked for his big righthander to set the sizzling pace he has for the first two months of the race.

In turning back the Cleveland Indians, 4 to 2, yesterday, Earnshaw recorded his eleventh consecutive victory as against two defeats. In his last four victories over western clubs he has allowed only six runs.

Routes Invaders

Washington completed its rout of the western invaders by scoring once in the ninth to nose out St. Louis, 8 to 7. The victory was Washington's twelfth in a row and its fifteenth out of sixteen starts.

Rain washed away the only other bouts scheduled in the American league, a doubleheader between the Yankees and Red Sox at Boston.

In the day's only National league contest, the Brooklyn Robins wound up their western invasion with a 2 to 0 triumph over Pittsburgh.

STARS OF GAMES ON YESTERDAY

(By Associated Press)

Ossie Bluege, Senators—Hit triple in ninth inning, drove in winning run for 8-7 victory over Browns.

George Earnshaw, Athletics—Held Cleveland to five hits and cracked out single and double to score eleventh straight victory.

Wally Gilbert, Robins—Hit double and two singles and scored one run in 2-0 victory over Pittsburgh.

TWO CITY LEAGUE GAMES SET TODAY

Changing the playing scenes, the City league schedule for today calls for the Rainbows and Legion-Lions to meet at Merrill Park and the Avalanche - Journal - Wholesaler game at Rainbow Park. The latter is located at Texas avenue and 3rd street.

In the only game played yesterday, The Texas Utilities team defeated the Rainbows, 4 to 3, in a close contest at Merrill Park.

The Legion-Lions team, together with a few picked stars, went to Slaton yesterday and took a 5 to 4 beating at the hands of the Slaton Tigers .The Tigers were seen here last week against the Hubbers.

The Sahara Desert covers an area equal to two-thirds of Europe.

Harvard Favored To Win Over Yale Crew

NEW LONDON, Conn., June 18 (AP)—Harvard power is expected to prevail over Yale skill tomorrow night when the varsity eights race on the Thames river.

Harvard will go to its stake boat as the only undefeatedly varsity in the country, chiefly because of Navy's unexpected victory at Poughkepsie and the storm that washed out Harvard's quardrangular brush with Cornell, Syracuse and M. I. T. last month at Ithaca.

To date the Harvard varsity has come through two short race regattas undefeated and his beaten Navy, Pennsylvania, Princeton and Massachusetts Institute of Technology. Yale has trailed Columbia and Cornell and its preliminary season was the most unsuccessful one in years.

Flogging in the American Army was not abolished until 1861, the year the Civil War began. That form of punishment was officially abolished in the Navy in 1850.

Simplified Refrigeration
GREATEST ADVANCE IN 17 YEARS

This phantom view shows the highly simplified sealed-with-porcelain unit of the new Servel Hermetic.

COME and see this newest electric refrigerator—entirely different from all previous types—designed and built on advanced engineering principles—the most highly simplified electric refrigerator.

Now you can have the tremendous every-day convenience of electric refrigeration entirely free from the old-fashioned service problems.

Here's an operating unit so simplified that it requires fewer moving parts, fewer chances for friction and wear. It's hermetically sealed under 10 tons pressure to eliminate kitchen repairs and replacement of parts.

The Servel Hermetic gives you "care-free" refrigeration for fewer cents a day—uses less electric current. The beautiful new Servel cabinets are graceful—require less floor space. Yet they give you more, usable shelf space.

Stop at the Servel Hermetic display. A complete range of sizes at irresistible prices—Every Servel Hermetic is backed by a broad factory guarantee protecting you from the bother and expense of old fashioned service. Place your order now for prompt installation.

READ THESE QUICK FACTS
Hermetically sealed unit
Fewer moving parts
No moving parts exposed
Freedom from kitchen repairs
Costs less to operate
Quietest electric refrigerator
Handy control for fast freezing
Beautiful, modern cabinets
More, usable shelf space
Flat, "ribbon type" shelves
Flat, usable top
Broad factory guarantee

TRUCK FIRM IS NOT CHOSEN

SANTA FE WILL HAVE NEW SERVICE EARLY NEXT AUGUST

Name of the truck firm that will handle the pickup and delivery service of the Santa Fe in Lubbock under the terms of the recent authorization of the Interstate Commerce Commission for that work, has not been announced, E. E. Kancher, division freight and passenger agent, said today in announcing that the service probably will not start before early in August.

"J. A. Gillies, division superintendent at Slaton, has been handling the contracts in the agency stations of this division," Mr. Kancher said. "He has about 70 or more agency points on the Slaton division between Presidio and Canyon, Lubbock and Farwell and the old Orient division.

Bids Are Taken

"We have been given until June 30 to get these contracts signed and ready. I presume it will be about July 10 before the names of the contractors will be known. We took a number of bids for the job here and submitted them to Mr. Gillies."

The official order for the installation of the service has not been received here from the Interstate Commerce commission. The Railroad Commission of Texas also has not issued its order covering intra-state shipments.

Whether the order will permit shipments from Dallas and Fort Worth to Lubbock, to be included in the free service zone, is not known, Mr. Kancher said. The order of the I. C. C. calls only for towns within a radius of 300 miles of a point to shipment, to have the pick up and delivery service free. Towns over that distance from the destination, must have a small charge per 100 pounds.

Towns over the South Plains affected by the Santa Fe free delivery plan include, besides Lubbock: Levelland, Seagraves, Brownfield, Meadow, Ropes, Smyer, Shallowater, Anton, Littlefield, Amherst, Sudan, Muleshoe, Abernathy, Hale Center, Plainview, Lorenzo, Idalou, Crosbyton, Ralls, Floydada, Lockney, Slaton, Tahoka, Lamesa, Southland, Post, Justiceburg and Snyder.

MAN WHO FIRED FIRST AMERICAN SHOT OF WORLD WAR IS MODEST AND TRUDGES STREETS TO PROVIDE FOR CHILDREN

Alex Arch today

Sergeant Alex Arch, before he sailed for France

American soldiers feeding typical field battery in France during the World War

BY FRANK A. WHITE
Central Press Correspondent

SOUTH BEND, Ind., June 18—The man who fired the first American shot in the World war, in 1917, who is a resident of this city, is a modest, unassuming individual trudging the streets daily and intent upon providing for three growing children and a wife.

To the postman he is known as Alex L. Arch. To his neighbors he is Mr. Arch. To his friends he is simply Archie. Not one in 10,000 connect him with the momentous event of World war days which sent his name humming around the globe.

Arch, of Hungarian descent, came to South Bend to play with the boys of his neighborhood when he was 13 years old. Some years later, bitten by wanderlust and enamored by the glorious picture of war painted in books, he enlisted, training at Fort Douglas, Ariz. He was sent to the Mexican border.

With "Pershing's Own"

With respite, Arch went into Battery C, Sixth field artillery, First division, upon the declaration of war by the United States in 1917. He went across with "Pershing's own," and a cold, gray October morning found his battery going into position in the Luneville sector.

It was Sergeant Arch, then, who transmitted information that caused his gun crew to train the muzzles upon a bridge at Strasbourg, Alsace-Lorraine. It was Sergeant Arch's hand which, at exactly 6:05 o'clock on the morning of Oct. 23, 1917, pulled the lanyard that sent the first American shell screeching over the German lines. A direct hit on the bridge was recorded.

Cable and telegraph keys throughout the world clicked Arch's name in carrying the information that America was actually in the war. After firing 24 shells, Sergeant Arch was temporarily relieved, scurried to a dugout, and scribbled a note to his South Bend sweetheart, describing the event.

The next the world heard of modest Sergeant Arch was word that he had been severely wounded June 10, 1918.

"With the world at peace today, the days of 1917 and 1918 are only a dream," Arch remarks.

He is at a loss to understand why the world made a fuss about him firing the first shot when he was only carrying out orders, as any soldier would do. But the Indiana Historical society is preserving the record of Sergeant Arch in book form.

Eight Stars Still In Tennis Tourney

CHICAGO, June 18 (AP)—The fight for the western tennis singles championship today went into the quarter-final round with eight seeded stars in the running.

Marcel Rainville of Montreal, winner of Canada's only victory over the United States in the American zone Davis Cup tests, was paired with Scott Rexinger of the University of Chicago, holder of the western conference title, at the top of the upper bracket, with Herbert Bowman of New York, metropolitan champion, opposed by Charles Lejeck of Chicago.

Harris Coggeshall of Des Moines, Ia., defending champion, faced a tough one in Frank O'Connell of Chicago, who yesterday eliminated Leo Lejeck, while George Jennings, jr., holder of the National Public Parks, was matched with George O'Connell, veteran Chicago star.

Terrible Eczema Goes Quickly

Strong, Powerful Yet Safe, Moone's Emerald Oil Has Astonished Sufferers

Here is a wonderful antiseptic oil now dispensed by pharmacists at trifling cost, that will do more towards helping you get rid of unsightly spots and skin diseases than anything you've ever used.

Its action is little less than magical. The itching is instantly stopped; and in a short time you are rid of that bothersome, fiery eczema. The same is true of barbers' itch, salt rheum and other irritating and unsightly skin troubles.

You can obtain Moone's Emerald Oil in the original bottles for 85 cents at Bowen's Drug Store, Bowens' Hilton Pharmacy, or any modern drug store. It is safe to use—guaranteed—and failure in any of the ailments noted above is next to impossible.—Adv.

UNION LABEL

Thought For Today

Forsake the foolish, and live; and go in the way of understanding.—Proverbs 9:6.

* * *

A learned fool is more foolish than an ignorant fool.—Moliere.

Coal Mine Police

Liberal-minded men and women throughout the country will be glad to learn that Governor Pinchot of Pennsylvania plans to cancel the commissions of all "coal and iron policemen" effective July 1. The move should have been made many years ago, but even though tardy it is extremely welcome.

The coal and iron policemen, of course, are private guards employed by the big coal and iron companies who are actually sworn in as officers of the law. Obviously, such a system is open to terrible abuses; two years ago a miner was killed by the coal-and-iron pluguglies of Allegheny county, and it proved impossible to convict his quasi-official murderer.

Governor Pinchot says that state police after July 1 will be used to prevent disorders around mining or manufacturing properties in case of strikes. That is as it should be. There never was any excuse for the coal and iron police and no one should regret their departure.

A Damning Picture

"Just working, working, working all the time."

That was the only explanation offered by a pretty young waitress who was taken to a middle western hospital the other day after making an unsuccessful attempt to end her life by taking poison. Brief as it is, her explanation is terribly expressive.

Back of it there is clearly evident the dreadful monotony that falls over some jobs. One can picture the endless succession of days that were exactly alike; days of hard work, unpleasant living conditions and insufficient recreation. When the sameness of "working, working all the time" can drive an attractive young girl to suicide one gets a damning picture of the lives which some wage earners in modern cities have to live.

Modern Fagins

When Dickens wrote "Oliver Twist," it was generally taken for granted that Fagin, the professional corrupter of youth, was about as scoundrelly a character as any novelist could invent—too scoundrelly to exist in real life.

Compared with some of the underworld rats of today, however, Fagin looks almost like a gentleman. What, for example, would Dickens make of the Cleveland bootlegger who was convicted of hiring a 15-year-old boy to undertake the dangerous work of "hijacking" liquor from rival bootleggers—at $5 a gallon?

Dickens probably would be interested, too, to note that this modern Fagin got off with a year in the workhouse and a $500 fine. There are times when the charge that we coddle our criminals seems to have a bit of truth.

Cadets And Kisses

The company of cadets at the U. S. Naval Academy that surpasses the other companies in matters of drill, athletics and all-around smartness has the privilege, each graduation day, of receiving the colors from the hands of a pretty girl.

In former years the company commander who received the colors got, at the same time, a kiss from the pretty girl; but this year he had to go unkissed, by order of the Academy authorities, who felt that the custom was undignified, flippant and vaguely unmilitary.

It isn't any of our business, to be sure. But we can't help feeling that the authorities have made a mistake. Commencement time at any institution of learning is a time for kisses—and especially so at a place of uniforms and romantic traditions like the Naval Academy. Can't the old custom be restored?

The Soviets are said to have purchased the largest stone crusher, but they won't admit they're putting bosses on the rocks.

The Plainsman Says:

That Girl on Broadway says truth isn't stranger than fiction. It only seems stranger because we see so much less of it.

* * *

A scientist has discovered that birds prefer the country because they fare better there. That, however, doesn't include the stork. He only gets $25 in the country.

* * *

FOLKS, The Plainsman went out yesterday afternoon and inspected the new senior high school, opened to the public today, and he's here to say that it's the gosh-awfulest, finest building of its kind he ever saw. It is complete from stem to stern and a public asset that people will be proudly pointing to for years to come. There's no getting around it—it's the last word in school buildings.

* * *

There are a lot of folks who think the building is too fine and The Plainsman could see some angles of the equipment that were pretty foxy. But we've got the building now and there's nothing lacking, so we'd all just as well like it and show it off all we can.

* * *

THIS column urges everybody to see that building as soon as possible because it's a real education in itself. Only don't go out there without a guide because you might get lost in there and never get out. The wide, beautiful corridors go in so many directions and for so long a distance that Steve Glaze, who was out there working, suggested that Doctor Duncan get himself a pair of skates so he wouldn't have to walk so far visiting the teachers!

* * *

The new building and equipment cost a lot of money but it's not hard to look it over and see where its worth a lot of money. And it didn't cost any more per cubic foot than the Tech administration or chemistry buildings, the architects claim, and its a sweller building than either of those. Go out and see it for yourself!

* * *

That Man on Avenue Q says a wife is a great comfort through all those troubles the bachelor never has.

* * *

It takes a pretty smart guy to read a barometer but any idiot can try to shake salt from a shaker.

* * *

ANOTHER 'wild bull' has turned out to be nothing more than a 'bum steer'. 'Scarface Al' Capone, like the rest of the lawbreakers big and small, has come to the end of the trail—is headed toward a felon's cell.

"Crime doesn't pay" is a pretty trite expression but it's true in the long run. The easy money that follows the trail of booze and blood turns to worthless sawdust in the end.

* * *

In The Plainsman's opinion, conviction of Capone is the biggest piece of national news since the last presidential election, for the reason that once again has been demonstrated that those who dance must pay the fiddler. When Capone's cell door finally swings shut, the youth of the nation will once more realize that "you can't beat the rap," no matter how big and powerful you may be.

* * *

IT IS no wonder that during the past few years more and more young men and women have turned to a life of crime. In the newspapers, on the screen they have seen daily the indication that crime does pay if you have the right kind of an 'organization', the right kind of 'protection'. The glorified gangster has stalked across the horizon, figuratively spitting in the eye of decent people. He has 'muscled' and 'grafted' his way along in what looked like certain immunity. He has slain and laughed and slain again, only to walk free among honest men and women.

* * *

For awhile it looked very much like the law was powerless to interfere with the guerillas of the underworld and the natural reaction of the weak-willed was: "I can't make money being honest. I can make money being a crook. Capone gets away with it—so does Moran, Volpe, Machine Gun Jack McGurn and the rest! I'm going to try my hand!"

* * *

BUT now it has been again demonstrated that crime doesn't pay—and although it is doubtful that Capone will ever pay in full for his crimes, it has been shown that he can be removed from the scene by enforcement of a few of the statutes he has so contemptuously broken.

Law and order has been given a tremendous boost back up the ladder to public respect. The Capone case is of great import as the nation moves more rapidly to enforcement of its laws.

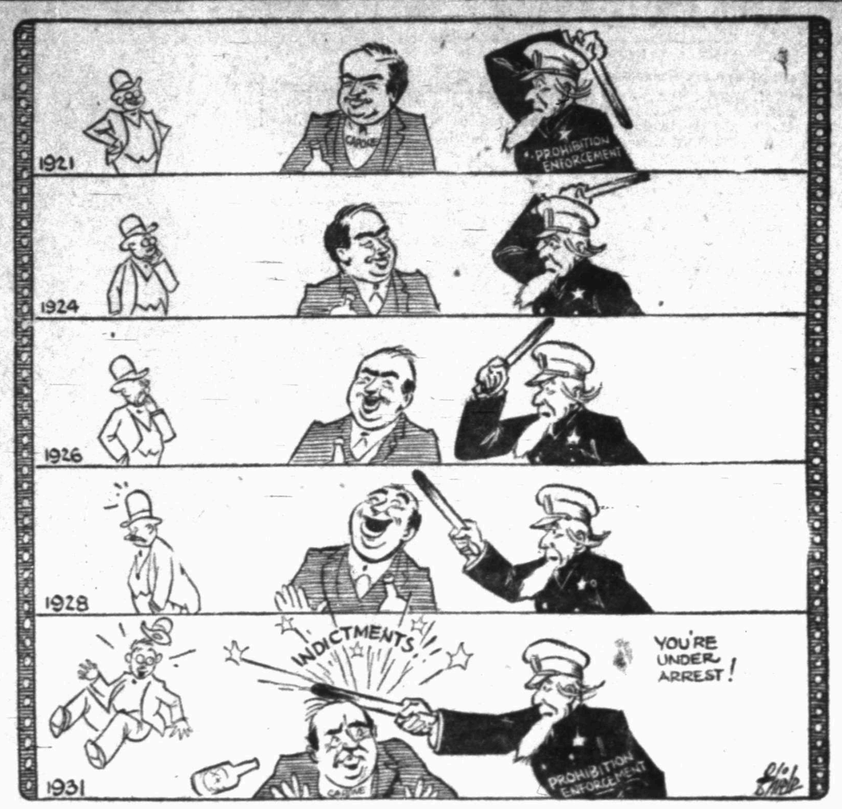

* * *

Of course, the mere running down of Capone doesn't mean that all racketeering and law violating will end. There's a lot more work to be done, as Arthur P. Duggan, of Littlefield, said in a civic club speech here yesterday. Few, however, will argue against the fact that the conviction of Capone is a step in right direction—and a long step, at that.

* * *

The modern call of the great open spaces is "Hey! Got any gas to spare?"

A "Slow Motion" Hit!

"Without-Or-With, Offense To Friends Or Foes, We Sketch Your World Exactly As It Goes"—Byron

Nearly 17,000 Government Jobs At Washington Are Held By Men And Women Theoretically Not Entitled To Them

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON, June 18—Speaking of jobs there are nearly 17,000 government positions here held by men and women who are theoretically not entitled to them.

They have all been available at one time or another to people out in the states who wouldn't come and take them.

DUTCHER

The law provides that as far as possible appointments in the departmental service in Washington shall be apportioned among the states on the basis of population. The Civil Service Commission has been making almost frantic efforts to enforce that provision, but one still finds that:

Forty-four states and territories which are entitled to about 36,000 of the apportioned appointments here have received only about 19,000.

Virginia, Maryland and the District of Columbia, entitled to 1389 appointments, have 17,739. That is, local residents and suburbanites have been getting an enormously disproportionate share of the jobs.

Residents of the District of Columbia, entitled to 149 appointments, have 12,695.

Maine, New Hampshire, Delaware, Iowa and Vermont are the other states in excess of their quotas, but in each case the excess is very small. Typical examples of disproportion are California, with only 383 of its quota of 1737 appointments; Ohio, with 1003 of its 2033; New York, with 2038 of its 3851, and Michigan, with 475 of its 1481. Some states, such as Massachusetts, with 1225 appointments of its quota of 1300, are close to correct apportionment.

The big reason for the condition which results in almost half the apportionable jobs being held by people from right around here is that the boys and girls in the states who are qualified for the posts simply haven't been taking the examinations for them.

In view of the extreme measures which are taken to balyhoo the examinations and information about the jobs and to give citizens of states under quota up to a 25 per cent advantage over those of states in excess, the Civil Service Commission can't figure out why that has remained true even during a considerable period of unemployment.

Civil service positions of one description or another are constantly available and announcements about them are posted in federal buildings of 5000 cities in case you are anxious to find out about them.

The commission, constantly trying to straighten things out, refuses to certify as eligible for federal employment any resident of a state in excess of its apportionment if it can certify a man or woman from one of the other states. They certify the latter on examination ratings as low as 75, even when there's a member of the former group with a rating as high as 100.

Examinations are held in 780 cities. Announcements of them are not only posted in federal buildings and post offices, but are sent to newspapers broadcast over 60 radio stations and distributed to public employment officials, interested labor unions and trade journals.

Often examinations are held which are closed completely to the states in excess of quota and lately it has been the policy to give even the temporary jobs to people from faraway states.

Folks here and from nearby have always applied for federal jobs in Washington in much greater numbers than others, but the big breakdown in apportionment came during the World war, at the outset of which the District of Columbia had only 1300 appointments and Maryland and Virginia about twice their quotas. Eligibles from the rest of the country were lacking and appointments were made almost to the first-comers.

Since the World war the veteran-preference law has tended to increase the disparity.

Diet and Health

By LOGAN CLENDENING, M.D., Author of "THE HUMAN BODY"

EDITOR'S NOTE: Six pamphlets and six articles by Dr. Clendening can now be obtained by sending 10 cents in coin for each pamphlet and 2 cents in coin for each article, with a self-addressed, stamped envelope, to Dr. Logan Clendening, in care of this paper, or Central Press Association, 1438 East Twelfth street, Cleveland, O. The pamphlets are: "Reducing and Gaining," "Feminine Hygiene," "Indigestion and Constipation," "The Care of the Hair and Skin," "Infant Feeding" and "Instructions for the Treatment of Diabetes." The articles are: "Normal Diet," "List of Books for Mothers," "Bed Wetting," "Diet of the Expectant Mother," "Ear Troubles" and "Tuberculosis."

HEADACHE

It is comforting for the headache victim to know that very few cases of chronic headache are serious, in the sense that they indicate deep-seated bodily disease. Most of them are nervous or reflex or constitutional (in the form of migraine.)

Dr. Clendening

In the study of a large series of chronic headaches only a little over 2 per cent were due to such organic diseases as high blood pressure, kidney disease, or brain tumour. That is only about two people out of a hundred who have chronic headache have their health seriously affected.

Escape headaches are very frequent. It is not easy to explain their mechanism, and the patient always resents and denies the diagnosis. Put baldly, some people find that they can get out of many disagreeable things in life by having a headache. The habit may come on quite early in life. Johnny cannot do his algebra lesson because he has such a headache. He is taken to an oculist and fitted with glasses, and even so, he still has a headache when the algebra lesson looms. The prospect of the movies does not make his headache worse, and he can read something else but the algebra book; but algebra and headache go together. If Johnny's parents are unwise and over indulgent they will get him let off of his algebra. Then the headaches will disappear. But the memory of their success remains in Johnny's mind. And before long he will have a headache whenever he has to do something he doesn't want to do, and the habit of having a headache will become lifelong.

That is the way in which some of these headaches which appear so mysterious in after life begin and grow.

Another similar kind of headache is the revenge headache. Her husband won't buy her a new dress, so she has a good roaring headache to make him sorry. She doesn't say that is the reason she has it, she would resent it indignantly if accused, she probably doesn't even know that is why she has it, but if her life is unraveled it is there just the same. One day when she was a little girl, her parents wouldn't let her go to a party, so she had such a headache from the disappointment that they let her go. She subconsciously found her headaches got her what she wanted, so she kept on having them.

The importance headache is still another brand. Sh! Don't make a noise, sister is having one of her headaches. She is lying down upstairs in a dark room with a cloth over her forehead and everybody must be still as a mouse. Sister has never married, and she can't work and this is the only way she can make everybody know how important she is and cause a commotion and get everybody's attention and respect.

Has No Confidence In Defendant

CHICAGO, June 18 (AP)—Judge Joseph Finnegan has no confidence in John C. Braschler.

In the first place, Braschler failed to show up yesterday.

"What kind of a man is this," asked Judge Finnegan, "who fails to appear to answer charges of operating a confidence game."

"Your honor," said the defense attorney, "it is not Mr. Braschler's fault he is not before you. He is sitting not standing before Judge Joseph McCarthy."

"And what, may the court ask, is he doing there."

"He's a juror in a criminal case."

"What kind of a case."

"Operating a confidence game," answered the defense attorney.

"My word," mused the judge.

HARRISON SCORES HOOVER ADDRESS

GULFPORT, Miss., June 18 (AP)—Senator Pat Harrison, Democrat, Mississippi, commenting on President Hoover's address at Indianapolis, said "how different from the speech of Candidate Hoover.

"Then he was predicting Republican prosperity in event of Democratic defeat and Democratic depression in the event of Republican defeat," said Harrison.

"Last night President Hoover made a pitiable explanation of the administration's efforts to save us from our economic collapse. His twenty year plan in contrast to Russia's five year plan was amusing."

TRAVEL BOOKS

If you are taking young children traveling, make them paper cambric books in which they can paste pictures en route. Take along blunt scissors, attached to tape, and when the porter brings you a table, turn them loose with some magazines and a tube of paste. It will keep them quiet for peaceful hours.

DAILY ALMANAC

Cloudy

TEXAS: Partly cloudy tonight and Friday. Light to fresh southerly winds on the coast.

ARKANSAS: Generally fair tonight; Friday increasing cloudiness.

OKLAHOMA: Partly cloudy tonight and Friday; cooler in northwest portion Friday.

SWAN

In New York With Gilbert Swan

NEW YORK, June 18—Notes from a convenient cuff—Who was the smart anonymous newspaper paragrapher who said, "Any girl will flirt when the train is going out!" . . . I was reminded of it only this morning at the Long Island station.

The chain restaurant system that experimented with a menu giving "all you can eat for 60 cents." A particular cafe, where business was none too good was used for the try-out. Now three floors are needed to accommodate the crowd. Nearly 90 per cent appreciate the opportunity, and order accordingly. Only 10 per cent ask for everything in sight! The same menu is used as in several dozen other cafes. Only the prices are not mentioned. You can order a six or seven-course dinner And it's always 60 cents. The chain is thinking of trying it in other cafes now. The profit is small, but the turn-over is terrific.

* * *

That reminds me of a place called "The Dollar Bill" that opened last winter. It was to be a night resort . . . entertainment, dancing and all that. You paid a dollar and there was a big lunch counter where you could get all you could eat for a dollar. The management expected to make money out of "set ups"—ginger ale seltzer and the like. They didn't know their Broadway mob. It came rushing in and ate up everything in the pantry. And spent only one buck, while "shaking down" all the entertainment it could get! The after-theater price, by the way, was to be a dollar an hour. And, again, the management made a mistake. It figured the Broadwayites would stay more than an hour. The place lasted about a month!

* * *

You can shop for apartments now in New York, even as you can shop for collars, lace curtains and other didoes. A smart concern opened recently on Fifth Avenue, calling itself "the apartment shop." The idea is to show you what an apartment looks like without necessitating an actual visit. Miniatures of scores of places are on view. The furniture decorations and conveniences are all displayed in pigmy form. The job of hunting all over town, peeping at this place and at that, is a most tiring one. Now you can literally window shop for a place to live. It's the bright idea of Mons. Henry Mandel and his merry crew, who are fast becoming some of the town's smartest realtors.

* * *

Another funny thing: When they tore down a considerable mid-town section to make way for the new Radio City, auction sales of fixtures were held at the rate of 10 a day. There had been 171 speakeasies in this section. And practically everyone who showed up wanted to bid for bars.

* * *

Also they're tearing down half the corner fronts on Broadway to set up orange drink stands. . . . Making it more and more like a county fair.

And there's still another Broadway columnist now. . . He's Ed Sullivan, who wrote sports on the Graphic until Louis Sobel, another of the umpty-million column guys moved over to the Journal. . . . But, as I've said so often, there's more than enough New York to go around. . . Half the population could turn to writing about it, and given a difference in temperament they'd all do something individual. . . . Mons. Sobel, by the way, is a lad from New Haven who has worked more than passing hard for his "breaks."

Liquor Drinking On Increase in Canada

MINNEAPOLIS, June 18. (AP)—Rev. John Coburn, Toronto, told the church social conference of the federal council of churches here today that provincial government liquor control in Canada has increased liquor drinking and drunkenness.

Mr. Coburn, who is field secretary of evangelism and social service for the United Church of Canada, said that "there has been a phenomenal increase in industrial accidents, highway fatalities, convictions for drunken driving and those crimes which indicate a loss of self control under governmental liquor control."

Flapper Fanny

You've got to string a man along before you can rope him in.

THE TINYMITES

STORY BY HAL COCHRAN—PICTURES BY KING

(READ THE STORY, THEN COLOR THE PICTURE)

Three men with paddles worked away to make the long and flat boat stay out in the middle of the stream, where it was safe and sound. Big rocks stood out on either side to add some danger to the ride. They'd surely crush the wooden boat, if it should run aground.

The Tinymites sat very still. It really was a wondrous thrill to see the water swishing by and foaming bubbly white. It wasn't long till Scouty said, "I must admit I thought I'd dread this ride, but now I've changed my mind. I think it's quite all right."

Then Coppy said, perhaps in fun, "I thought that we would need a gun to shoot the rapids. I was wrong. We needed but a boat. When we first started out I was wee bit frightened just because I didn't think, amid the rocks, the craft would stay afloat.

The trip however, ended well. The Travel Man soon heard them yell, "We're back again. Gee, we had fun." And then they hopped ashore. Wee Carpy said, "Right now I'd like to take a very thrilling hike up old Mount Fujiyama. I am sure a treat's in store."

"All right, that's just what we will do and it will be a hard climb, too," replied the Friendly Travel Man. And to the base they went. Said Clowny, looking way up high, "The top looks far. Oh me, oh my! I fear if we ever reach there our ambition will be spent."

But up they started, anyway. The Travel Man soon paused to say, "Now, take it easy youngsters. Climb real slow and be discreet. It's likely we will want to stop quite often ere we reach the top. The cinders on the pathway are not easy on the feet."

(The Tinymites reach Tokio in the next story.)

His Golden Hair Won Medal

Probably most American mothers will think their Junior's hair is just as pretty as little Rudi De Crikann's. But Rudi's fine flaxen tresses were adjudged best in all Hungary, at least, in a contest held recently at Budapest. Rudi is shown here as he posed for the cameraman after being awarded a gold medal.

They're Young, But Sea Voyagers

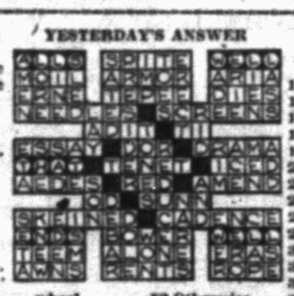

Charles N. and Wallace Bowles, above, brothers of Seattle, Wash., went all the way across the continent to New York, then sailed for Europe on the Mauretania. They're on the high seas now. The picture was snapped on board the big liner before she sailed.

Rates, Rules and Requirements of Classified Advertising Of The Lubbock Daily Journal (Afternoon) Lubbock Morning Avalanche (Morning) Sunday Avalanche-Journal (Sunday Morning)

All classified advertising will appear in both the Morning and Afternoon papers—both papers counting one insertion. All classified advertising is printed in the Lubbock Morning Avalanche first and the Daily Journal of the same date, no classified originating the afternoon paper.

Classified for Sunday's issue will appear in the Avalanche-Journal counting one insertion, as this paper is sent to all subscribers of both the afternoon and morning papers.

AVALANCHE-JOURNAL Combined Rates:

Minimum words, per insertion, 10.

One insertion, per word 4c
Two insertions, per word 6c
Three insertions, per word 7c
Seven insertions, per word 12c
Thirty insertions, per word 45c

These rates are for consecutive insertions only. Additional consecutive insertions over 30 times, of 1½c per word each.

All out of town ads, received by mail must be Cash with order. No exceptions.

PHONE 13 or 14

Our experienced ad taker will receive your ad and help you to word it, then our collector will call the following day. These accounts are "accommodation accounts" for our patrons and for one day only. No advertisements accepted on an "until forbid" order. A specified number of insertions must be given.

We reserve the right to place an advertisements under the proper classification and reject unclean or objectionable copy.

Obituaries and cards of thanks at regular classified advertising rate.

The publishers are not responsible for copy omissions, typographical errors, or any unintentional error that may occur further than to correct it next issue after it is brought to their attention. All advertising orders are accepted on this basis only.

Classified Advertising accepted until 5:30 P. M. on week days, and 5:30 P. M. on Saturdays, and all advertising received after 5:30 P. M. will be placed under "Too Late To Classify."

For classified display advertising information,

PHONE 13 or 14

TO DISCONTINUE AN AD

Notice to Discontinue An Ad must be given after 8 A. M. and before 5 P. M. to some member of the Classified Advertising Department. We cannot be responsible for notices given before or after these Hours, and to a member of some other Department.

ANNOUNCEMENTS

1.—Lodges and Societies

Yellowhouse Lodge. No. 841 A. F. and A. M. Stated communications the First Friday night, each month.

On Friday night June 6, Yellowhouse, Lodge, A. F. and A. M. elected officers for ensuing year, as follows:

A. W. LOGAN, Worshipful Master.
W. H. CARPENTER, Senior Warden.
A. SANSON, Junior Warden.
JOE BOYD, Treasurer.
J. H. MOORE, Secretary.
F. L. JONES, Tiler.

It is the purpose to install the officers on the night of June 24, at which time Past Master aprons will be presented to the seventeen Past Masters now in good standing. Hon. Marvin Jones, member of Congress from this district has been invited to make an address on the occasion and present the aprons.

F. L. JONES, W. M.
J. H. MOORE, Sec'y.

DAILY MARKETS

Stock Market

WALL STREET REPORT

NEW YORK, June 18 (AP)—Today's stock market was largely a duplication of yesterday's both in the downward movement and the small volume of trading.

A few issues sagged as much as two points They included American Telephone Case, U. S. Industrial Alcohol, Eastman Kodak, Southern Pacific and Northern Pacific. U. S. Steel's decline was fractional and there were minor losses in General Electric, Radio and General Motors. American Can, Allied Chemical, Drug, Consolidated Gas, Borden, International Harvester, Coca Cola and Vanadium cased 1 to 1 1-2.

Westinghouse yesterday's weak spot, firmed. St. Louis Southwestern rallied 5 points in response to the Southern Pacific offer, but yielded par of its rise At its high Cotton Belt was quoted at 22 compared with the year's low of 27.

Call money renewed at 1 1-2 per cent.

Livestock Market

KANSAS CITY REPORT

KANSAS CITY, June 18. (AP)—(U. S. D. A.)—Hogs, 4,000; 25-40 higher; top, 7.45 on 180-230 lbs.; packing sows, 275-500 lbs. 5.35-6.25; stock pigs, 70-130 lbs. 6.75-7.35.

Cattle, 2,500; calves, 700; generally steady; top yearling heifers 8.25; heavy steers 8.00; steers, 600-1500 lbs. 6.50-8.85; heifers, 550-850 lbs, 7.00-8.50; cows 4.00-5.75; vealers (milkfed) 5.00-8.00; stocker and feeder steers, 5.50-7.75.

Sheep, 6,000; killing classes mostly steady; top Idaho lambs 7.75; lambs 90 lbs. down, 6.75-8.00; ewes 150 lbs. down, 1.00-1.75.

FORT WORTH REPORT

FORT WORTH, June 18. (AP)—(U.S.D.A.)—Hogs 500; truck hogs 20 to 40c higher; truck hog top 7.40; no rail hogs offered; packing sows steady to 25c higher; mostly 5.25-5.50.

Cattle 3,000; calves 500; slaughter steers steady to strong; carlot sales 4.50-5.25; cake-on-grass steers in 5.00 range; other cattle and calves about steady; better fat yearlings scarce; good fed yearlings 7.50; good fat cows 3.75-4.50; fat calves 6.25-7.00; cull sorts mostly 2.00.

Sheep 2,000; fat lambs strong; fat wethers steady; bulk fat lambs 8.00-8.50; fat lambs 8.75; fat wethers 3.00; aged fat wethers 150, yearlings scarce.

Grain Market

CHICAGO REPORT

CHICAGO, June 18 (AP)—Reports of heavy rains in big sections of the Canadian grouth region led to lower prices for wheat early today. Favorable weather for crops in France, replacing prolonged adverse conditions, also was noted. Opening 1-4 to 3-4 cents lower, wheat afterward held near the initial limits. Corn started 1-8 off to 3-8 up and subsequently showed firmness.

1929 CHEVROLET TRUCK AND TRAILER AT A BARGAIN

Would consider trading for good late model car which is great. Buy now before the wheat harvest. Can see truck at 1306 Broadway. (Across the street from Lubbock Sanitarium). Act fast, as this bargain will not last.

C. J. NORTON

Phone 302 1306 Broadway

Like New with NU-ENAMEL

With amateur skill and a can of NU-ENAMEL the result is a beautiful high gloss, factory-like finish, which is as "smooth as glass" and wears like iron.

(You can now refinish your automobile and drive it almost instantly. NU-ENAMEL dries dust free within two hours.)

DURABILITY—

Although NU-ENAMEL dries much faster than ordinary Auto Finish, durability is in no way sacrificed. NU-ENAMEL through its heavy pigment content has wonderful filling properties—its liquid being especially treated oils makes it very elastic.

Cotton Market

NEW YORK REPORT

NEW YORK, June 18 (AP)—Cotton opened barely steady today, 6 to 9 points lower in response to relatively easy Liverpool cables and a favorable view of the weather map.

The initial offerings were quite readily taken by covering and trade buying but the selling continued with prices ruling around 8.66 for July and 9.29 for December or about 8 to 9 points net lower. Trading was moderately active and orders seemed to be fairly well divided, leading to rather irregular fluctuations.

Liverpool cables reported local and foreign liquidation with a poor offtake and said business in cotton cloths was slow in developing owing to distrust in current prices. Egyptian futures in Alexandria were 8 to 26 points lower and the Indian spot quotation in Liverpool showed a decline of 7 points.

Trading was quiet later in the morning. Prices sagged slightly under comparatively small offerings attributed chiefly to further liquidation and local or southern selling. July declined to 8.64 and December to 9.27, making the active months about 8 to 10 points net lower around midday. No fresh news factors were in evidence and traders appeared to be awaiting further developments.

NEW ORLEANS REPORT

NEW ORLEANS, June 18 (AP) — Cotton had an easier opening today. Liverpoo. cables were considerably worse than due and early reports of weather in the cotton belt were favorable. First trades showed losses of 6 to 9 points and the market continued to ease off slightly after the opening. July trading at 8.65, October at 9.02, and December at 9.27, or 9 to 10 points down from yesterday's close.

Near the end of the first hour the market was somewhat steadier and one to two points above the lows.

The market ruled very quiet all morning. Prices fluctuated narrowly mostly within the early range, although December at one time eased to 9.26 or 10 points under yesterday's close, and later rallied 9.30, up for four points from the low.

Around mid-session the market was still very quiet but steady at one to two points under the highs.

NEW ORLEANS OPEN

NEW ORLEANS, June 18 (AP) — Cotton futures opened steady today: July 8.67; Oct. 9.02; Dec. 9.26-bid; Jan. 9.39-asked; March 9.57-bid; May 9.82-asked.

NEW YORK OPEN

NEW YORK, June 18 (AP)—Cotton futures opened steady today: Jan. 8.65; Oct. 9.05; Dec. 9.28; Jan. 9.40; March 9.57; May 9.79.

ANSWER GIVEN TO SHOUSE

DICKINSON REPLIES TO DEMO ATTACK ON TARIFF

WASHINGTON, June 18 (AP) — Senator Dickinson replied yesterday to an attack by Jouett Shouse, chairman of the Democratic national executive committee upon the Hawley-Smoot tariff act with an assertion that the Democrat's statement was "characteristically false in fact, fraudulent in implication and hypocritical in conception."

Citing Shouse's mention of sugar and wool as two of the tariff items which brought retaliatory duties from foreign countries, the Iowa senator said in a statement issued through the Republican national committee, that because of Shouse's position, his "pronounciamentos are presumed to set forth the plans for democracy itself."

"If this be true, the Democratic party is obviously committed to remove the protection on sugar and wool, if it would come into power, under the Shoushan fiat," Dickinson said. "How acceptable this will be in the sugar and wool states having Democratic representation in congress remains to be seen.

Referring to the Democrats' charge that the tariff commission has failed to function adequately in reducing tariff rates Dickinson said only four of the Democratic senators who voted against the tariff bill have utilized their opportunity to request investigations by the commission with a view to reductions.

TESTIMONY IN CASE ENDED

WINTER GARDEN BELT SEEKS TO BUILD NEW LINE

EAGLE PASS, June 18. (AP)—Testimony was concluded Wednesday afternoon in the hearing here before H. E. Davis, interstate commerce commission examiner, on the application of the Winter Garden Belt railway to construct an 80-mile railroad line from Asherton to Eagle Pass, serving the Rio Grande Valley Winter Garden district.

Examiner Davis set August 1 as the date for the filing of briefs. Attorneys said they did not expect a decision before Jan. 1, 1932. The application was opposed by the Southern Pacific and the Missouri Pacific lines, while the port of Corpus Christi and towns in the valley intervened on behalf of the Winter Garden belt line.

Colonization Cited

E. J. Buckingham, star witness for the Belt line railway, was the last person testifying. He told of colonization plans for Quemado valley in an irrigation district through which the canal already has been built.

Witnesses for the Winter Garden railway testified that the Southern Pacific was not adequately serving Maverick county with its 28-mile line; that perishable products hauled over rough roads to the station decreased in value; that a 67,000 acre irrigation project now being constructed in the county merited a new railroad with a connection to the port of Corpus Christi.

The port of Corpus Christi introduced tonnage figures showing need for the new railroad, which would shorten the distance between the Gulf coast of Texas and copper mines in the state of Coahuila, Mexico.

The Southern Pacific and Missouri lines brought auditors and railroad officials to the stand with maps and figures to show that the Southern Pacific branch line lost $56,000 last year; that the present service was the best possible; that good highways which the Winter Garden railway would parallel already adequately serve the district; and blaming the decrease in business on the Southern Pacific branch line upon the policy of the Mexican government in concentrating business on the Laredo rail line.

Guards And Pickets Fight; Eight Hurt

ST. CLAIRSVILLE, Ohio, June 18. (AP)—Eight men were injured today in a fight between mine guards and pickets of the National Miners' union at the Florence mine. The fight started after 300 pickets had attempted to march to the mine but were dispersed by tear gas bombs thrown by deputy sheriffs.

AGED TOURIST

(Continued from Page One)

domen, just below the left hand, investigators reported.

Frank Jones, operator of the tourist camp, was present at the investigation, in addition to the peace justice, county attorney, deputy sheriff, the widow and four relatives.

The body was taken to Bynum-Morgan Funeral home. Relatives at Phoenix and Shawnee have been notified.

RITES NOT YET SET FOR GUY U. DAVIS

Funeral services for Guy U. Davis, real estate operator found dead in his room at 1511 Main street Wednesday morning, had not been completed at noon today.

Davis' two sisters were expected here today from Dallas and Rusk. His widow arrived here late Wednesday from Ruidoso, N. M.

Davis was shot through the head with a .32 calibre automatic pistol. Members of his family attributed the act to ill health and business reverses. Justice of the Peace H. K. Porter ruled that Davis died of a self-inflicted wound some time after Tuesday midnight. A pistol was found in the right hand.

The body, which is at Bynum-Morgan Funeral home, probably will be sent to Rusk for burial, members of the family said. The real estate operator and former apartment house owner was about 40 years old.

Mr. and Mrs. Davis had been married 16 years. The widow is at the home here of Mrs. Lonnie Montgomery, a daughter by a former marriage.

Heard Noise

A dress-maker living in a room underneath the one Davis occupied, said she heard a noise and what sounded like a shot at about 3 a. m.

Another occupant of the house, a filling station attendant, told officers he heard a noise like a bed slat falling on the floor at 5 a. m. as he was preparing to go to work. He heard a groan and then all was quiet in the room, the man told officers.

LIBEL SUIT

(Continued from Page One)

Dupree for the defense, will be heard this afternoon if time allows. Mr. Lockhart is scheduled to close the arguments before the jurors.

Testimony presented in the case hinged on happenings of thirty years ago and centered around activities leading up to the shooting on January 21, 1902 in which John and Dick Spikes, brothers of the plaintiff, were killed and Fred wounded.

Issues in the case were prepared by Judge Clark Mullican, presiding in the 99th district court, yesterday and read to the jury shortly before Mr. Garrard began to speak. Five issues were outlined by the court, the main issue being that the defendants mus. prove by their evidence that the statements in the book, "The XIT Ranch in Texas", pertaining to the plaintiff's reputation and that of his brothers, were substantiated.

THREE TO DIE IN CHAIR

EXECUTIVE CLEMENCY DENIED TRIO; TO DIE FRIDAY

HUNTSVILLE June 18 (AP) — Executive clemency virtually denied them, three men all convicted slayers, awaited approaching death in the state prison today.

Two were frankly fearful, but the third, Ofilio Herrera, who for 24 months has stared through the slit in the same death cell door, "smiled and waved," the assistant warden said, when that official chanced by. Twenty men have gone from death row to the electric chair since Herrera first was committed here.

Herrera, Nicandro Munoz and Victor Rodriguez will be electrocuted early Friday, barring intervention by Governor Sterling who said in Houston yesterday he would take no step in their behalf unless new and extenuating circumstances should appear.

No more than two men have been electrocuted here on a single morning in years.

Herrera killed, the jury found, Sheriff A. T Murray of Mason county, four years ago. He doggedly sought to escape the penalty, obtained a reversal, but in the new trial the death verdict again was returned. He besought the higher courts again, to no avail.

Ambushed Officer

Munoz and Rodriguez, who are Mexican aliens subject to deportation, were convicted of the murder of Bert Ellison, a customs officer at Weslaco, near the Mexican border. Ellison was ambushed.

The two condemned men confessed to participation in the killing, according to the record. Margarito Rodriguez, whom they named as one of the slayers was killed resisting arrest. Jose Maria Lopez, a convicted accomplice was sentenced to life imprisonment.

The prosecution contended a grudge growing out of a deportation motivated the murder.

PASTOR HANGED

(Continued from Page One)

for not heeding the threat letters, the men left. Brown remained in that position about three hours before being rescued.

City detectives today were given a stack of about fifteen letters, printed crudely on rough paper, which had been received by Marler and Brown. It was expected that federal officers would be asked to investigate the sending of the letters through the mail.

Wife Has Theory

Mrs. Brown told newspaper men this morning that her husband was a good friend of Pastor Marler and in her opinion, the attack was made "in an effort to get Mr. Marler."

She said attempts had been made by certain persons recently to persuade Mr. Marler to resign his pastorate but that he had refused. She said her husband had upheld the pastor in controversies which had arisen within the church congregation. Marler would not comment on the occurrence.

Even while newspapermen sought information about the hanging this morning, the church began to fill with attendants for the morning service of a revival meeting started last Sunday with the Rev. McKinley Norman as evangelist.

Marler completed his third year January 1 as pastor of the church. He came to Dallas from McAlester, Okla. Brown, a resident of Dallas about 12 years, entered the ministry two years ago under the sponsorship of Rev. Mr. Marler.

LITTLE JOHNNY AND MARY ARE THEIR OWN TRAINERS WHILE GROWING UP

CLEVELAND, June 18 (AP)—Little Johnny and Mary are their own athletic and mental trainers during the process of growing up.

They seem to know what's good for them and by accident or design they play with toys that do them the most good developmentally.

This is one of the secrets being revealed about children and their development, their growth and deficiencies by the Brush foundation of Cleveland as it conducts a five-year search for a definition of a well-born human being.

"Children in their play select the large manipulative toys which, because of their weight and general cumbersomeness, develop the large leg and arm muscles at the age when these should be developed," says Dr. Dewey L. Anderson, director of psychological research for the foundation.

"If the toys are such that they have but a single use, or do not allow for being pulled apart and put back together, they are not so popular with the youngsters."

"High hats" among the children, Dr. Anderson has found, are the least intelligent, while the more intelligent likewise are the more sociable.

The foundation's child laboratory is the nursery school at Western Reserve university, where a selected group of small children is brought by parents for observation and study.

GIRL AND MAN ARE DROWNED

DAUGHTER OF TULSA MAYOR AND AUDITOR ARE VICTIMS

TULSA, Okla., June 18. (AP)—The swift waters of Spavinaw creek carried a daughter of Tulsa's mayor and a city auditor to their deaths Wednesday. Carolyn Jane Watkins, eight year old daughter of Mayor and Mrs. George A. Watkins, was drowned when she stepped into a deep pool while wading and Earl Young, auditor in the water department, lost his life in trying to rescue her.

Young was pulled from the water but a three hour effort to resuscitate him failed. The child's body was not recovered for several hours.

The tragedy occurred 80 miles northeast of here, near Lake Spavinaw, Tulsa's water supply.

Economy Mills Has Dinner For Dealers

Dealers for Economy Mills were guests at a dinner at the Hilton hotel last night. About fifty persons attended.

J. R Newman, sales manager for the mills, was toastmaster.

Speakers included:

Walter Posey, B. Sherrod, W. T. Johnson, A. M. Hill, and A. B. Davis, manager of the Lubbock Chamber of Commerce, all of Lubbock, and J. E. Shelton, secretary of the Brownfield Chamber of Commerce.

QUESTION HOOVER

(Continued from Page One)

public service and cause to be instituted those prosecutions to which they later became subject?'

"Was the president's information," he continued, "that Harding had a 'dim realization' of the fact that he, and, of course, the country as well, had been betrayed acquired before or after the death of Harding? If after, who was his informant and, if before, why did he remain inactive, being one of the constitutional advisers of the president?"

HOOVER EN ROUTE TO WHITE HOUSE

ENROUTE WITH PRESIDENT HOOVER TO WASHINGTON, June 18. (AP)—President Hoover was on his way back to the White House today, "appreciative" of the welcome given him by the people of the central states.

In the last three days he has spoken as many times to vast audiences in Ohio, Indiana and Illinois and he has been the central figure in receptions at the capital cities of all three states.

In the central states President Hoover laid down his program and upon it he is determined to stand. Confidants of Mr. Hoover asserted he will stand on the issues he has defined in this region and remain henceforth in his post at the White House. He has no speaking engagements for the next two months and his close friends are of the opinion his platform has been completed.

The last link in a natural gas pipe line ,which will bring gas from Texas to Chicago and surrounding territory, will be finished about July 1.

How One Woman Lost 47 lbs.

In 3 Months and Feels Years Younger

Mrs. S. A. Solomon of New Bern, N. C. lost 47 lbs. in 3 months with Kruschen Salts. She reduced from 217 to 170 lbs. She feels much stronger, years younger and pains in sides, back and abdomen that bothered her for years are all gone. She says she not only feels better but look better as all her friends tell her.

"I shall never be without Kruschen Salts, will never cease taking my daily dose and more than glad to highly recommend it for the great good that is in it."

A bottle of Kruschen Salts that lasts 4 weeks costs but 85 cents at Bowen's Drug, Bowen's Hilton Pharmacy, City Drug Store, Lubbock Drug Company, Mark Halsey Drug and druggists the world over. Take one half teaspoon in a glass of hot water every morning before breakfast.

Attention to diet will help—cut out pastry and fatty meats—go light on potatoes, butter, cream and sugar—the Kruschen way is the safe way to lose fat. Try one bottle and if not joyfully satisfied—money back. Adv.

MOVEMENT OF GRAIN BEGUN

TWO MORE CARLOADS EXPECTED TO BE RECEIVED HERE

Movement of the 1931 wheat crop to Lubbock mills is underway, a carload having undergone federal inspection here Tuesday, a carload being bought in truckload lots Wednesday by Economy mills, and arrival of two additional carloads being expected today.

S. E. Cone announced that he expected a car of wheat from Idalou today over the Santa Fe railway and another car from Becton over the Ft. Worth & Denver City railroad. Wheat in both sections is testing 59 and 60 pounds to the bushel, No. 1 hard wheat.

More Is Expected

The Burrus elevator yesterday bought several truck loads of wheat and more is expected to be brought in today, W. H. Wright, manager, said. The elevator, with a capacity of 1,500,000 bushels, does not have any holdover wheat from the 1930 crop.

Local purchases of wheat by the Economy mills amounted to a car load. Additional purchases probably will be made today.

Moisture Is Light

Wheat from Foard City arrived late Tuesday and was inspected by R. R. Stuard, federal inspector. "It tested 60.3 pounds to the bushel and had a moisture content of 11.90, which is a little light," Mr. Stuard said.

"We received the first car of wheat this year two days earlier than we did last year, the dates being June 16 for 1931 and June 18 for 1930. My understanding is that the wheat Tuesday was cut by a binder and threshed out in the old style way and not with a combine."

Slaton was reported also as having received some wheat although the receipts were not a car load.

Wheat cutting was reported from several places around Lubbock.

WIDELY KNOWN COLLECTOR OF COWBOY VERSE FASCINATED BY OPEN RANGE

A nationally known collector of cowboy verse, John Lomax, Dallas banker, still is fascinated by the open range and its songs. He hopes soon to issue another book of the verse which most interests him.

Mr. Lomax is visiting in the home of Doctor and Mrs. C. C. Mansell, 2625 Twentieth street. Mrs. Mansell and Miss Bess Brown Lomax, also of Lubbock, are his daughters. He was accompanied to Lubbock by his two sons, John Lomax, jr., young banker of Corpus Christi, and Alan Lomax, University of Texas freshman. Mr. Lomax and his sons expect to remain here about a week, he said last night.

More than a decade ago while a member of the University of Texas faculty, Mr. Lomax became recognized as a national authority on cowboy verse. He published two volumes, "Cowboy Songs" and "Songs Of The Cattle Trails," while in Austin. He and Dr. H. Y. Benedict, president of the University of Texas, collaborated on a work, "The Book Of Texas," which was published in 1917.

Mr. Lomax severed his connection with the university six years ago to become vice president in charge of investments, of the Republic National company, of Dallas, a branch of the Republic National bank of that city.

"I have been too busy making a living during the last six years to devote much time to writing," Mr. Lomax said. "However, my fascination for the songs of the old west remains and I have not ceased collecting material. At the present I have a large trunk filled with manuscripts collected since my last book was published, and I am hoping that I may find enough time to assimilate this material soon."

The entire West is the field from which the cowboy verse writer may draw his material, he said. Every range rider is a potential contributor.

"Manuscripts I have collected within themselves, furnish ample material for study," he said. "When reviews of my books began to appear in newspapers and magazines, contributions from persons who really knew about all there is to be known about ranch life started pouring in. Some of them were crudely scribbled with pencils on cheap paper, some were typewritten, others had been clipped from newspapers and magazines.

"Many of the poems and songs were original compositions of ranch hands who had plenty of time to think in terms of verse while they were watching over herds of cattle on lonely ranges," he added. "I think my next book probably will be made up of those original compositions of cowboys."

The author said sheepherders had been more or less failures as far as ballads of the west are concerned.

"Most of the contributions of sheepherders are too dirty to print," he said.

Mr. Lomax said he had been reading accounts of the Spikes-Haley libel suit with interest since he had been in Lubbock.

"A great deal of historical data had been brought out in the proceedings," he said.

According to a Minnesota scientist it requires one-fifth of a second for the eye to register the image of a swiftly moving object on the brain of a person who thinks rapidly.

"B-C" Will Stop Any Headache In 3 Minutes

Realizing that no one drug can conquer all headaches, as they come from so many causes two North Carolina druggists developed a combination of several ingredients which function together, giving three-minute, safe relief for any kind of headache, neuralgic, sciatic or rheumatic pain, quiets the nerves and leaves you normally buoyant, without depression or bad after effects.

This combination of pain relieving ingredients, so efficient for women also at special times, may be found at any drug store or soda fount under the name "B-C" (10c and 25c) ready for use in easing pains and quieting nerves in three minutes. "B-C" is the most amazing preparation of its kind ever discovered and is guaranteed harmless. (Adv.)

NAMED INSPECTOR

AUSTIN, June 18. (AP)—Appointment of Dr. M. A. Williams, former veterinarian of the live stock sanitary commission of Texas, as inspector at the municipal abattoir was announced today by City Manager Adam R. Johnson. The new inspector will receive a salary of $2,800 a year.

Many, many other bargains just as good as the ones listed above. Get our prices and compare. Let us prove that we can save you money.

To smokers who are *hard-to-convince*

WE LIKE nothing better than to induce hard-to-convince smokers to switch to Camels for just one day.

For we know that after they have made a real test, it will be mighty hard to lure them away from this famous brand.

It's not easy to smoke parched-dry cigarettes once you have known the delights of perfectly conditioned Camels.

After inhaling the cool, soft fragrance of the Camel Blend of choice Turkish and mellow Domestic tobaccos protected by the Humidor Pack, your throat protests against the bite and sting and harsh hotness that comes from crumbly, dry tobacco.

No matter where you pick them up, in any land, in any climate, Camels are the same fresh, factory-prime cigarettes.

For the Humidor Pack of moisture-proof Cellophane air-seals all the flavor in and keeps out weather, dust and germs.

This is no mere advertising story. It is a recitation of fact that has made the whole country conscious of a new superiority in Camels.

If you are hard to convince, won't you switch to Camels for just one day? Then leave them—if you can.

Three in CAMEL QUARTER HOUR featuring Morton Downey and Tony Wons Columbia Broadcasting System—every night except Sunday

CAMELS

NO CIGARETTY AFTER-TASTE

Don't remove the moisture-proof Cellophane from your package of Camels after you open it. The Humidor Pack is protection against sweat, dust and germs. It delivers fresh Camels and keeps them right until you smoke the last one
