Corn Price Sets Future Meat Supply

By ALEXANDER R. GEORGE

WASHINGTON—Smaller meat supplies are in prospect for next year as a result of the high price of corn.

Government livestock experts also say that if consumer demand continues strong, meat

prices are likely to be higher in 1948 because of the shortened supply.

High prices for corn tend to reduce the future meat supplies because many corn growers figure they can make more money by selling their corn than by feeding it to hogs and cattle. Farmers, particularly those in the corn belt, keep a sharp eye on the hog-corn price ratio.

The Technical Deadline

This ratio means, generally speaking, that when the market price of 100 pounds of hogs is less than the price of 11.5 bushels of corn, hog feeding falls off and corn selling increases. This

MIDLAND SKYLINE—Pictured here is the skyline of Midland, which has grown from a small West Texas town to a thriving city. Midland is now in one of its biggest building programs.

TEXAN GROWS 17-FOOT CORN—W. B. Gray, Tyler, Tex., billman, stands atop a six-foot stepladder to inspect the corn he grows as a hobby on a small plot of ground near his home. The tallest stalk measured 17 feet high on July 16. Gray said the corn grew so tall because he pushed the stalk roots at least 18 inches into the ground instead of letting them grow upward.

100 pounds of hogs to 11.5 bushels of corn is the "signal" for less feeding of corn in normal times, when most hog-feeding farmers are efficient and experienced operators.

However, the big increase in the demand for meat during the war and postwar period brought a large number of inexperienced hog producers into the business. Many of these newcomers figure it pays to stop or reduce corn-feeding when the price of 100 pounds of hogs is less than the price of 13 bushels of corn.

A Department of Agriculture

market observer recently estimated that 100 pounds of hogs were bringing in money equivalent to only 10.2 bushels of corn. Corn prices increased considerably after that computation was made.

Fall and Winter Prospects

While prospective reduction in livestock feeding indicates smaller meat supplies next year, butcher shops probably will be heavily stocked in the coming fall and winter months. There has been a record slaughter of cattle and calves this year, and an increased output of pork is indicated for this summer and fall.

The Bureau of Agricultural Economics says this year's huge slaughter of cattle and calves will result in a sharp reduction in the number of these animals on farms. Cattle feeding in 1948 probably will be below the high rate of this year. As a result, says the bureau, beef and veal output is expected to be reduced next year.

However, food supply observers say that even if meat output is reduced as much as 18 pounds per person next year, it will not necessarily mean "a critical shortage" except possibly for

those who do not have the money to buy meat.

The average consumption per person for the years 1935-1939 was 125.6 pounds, almost 28 pounds less per person than this year's estimated average of 153 pounds. This year's consumption is said to be the largest in 35 years.

Quarter Horse Sale Scheduled August 8

The Perryton Sales Co. will be the site of a six-quarter horse sale on Friday, August 8, Kenneth Munger, owner, has announced.

The sale is expected to draw buyers and sellers from over this section of the country and already a large number of horses have been listed for the sale.

A similar sale held at the local ring last fall was very successful, drawing quarter horse fanciers from over the Southwest.

Wayne Lovett and Ivan Lovett were in Fort Worth on business the first part of the week.

Plains Pioneer Dies July 14

Mrs. Mary Ellen Montgomery died July 14 at the home of her son, Lee, near St. Louis, Mo. She had reached the age of 77 years, eight months and six days.

Mrs. Montgomery was an early-day resident of Ochiltree county, coming here in 1903 with her family. They left in 1912, moving to Shattuck, Okla. where she made her home until about nine months ago when she went to St. Louis.

She was married Nov. 25, 1890 to W. G. Montgomery at El Reno, Okla. Six children were born to this union. The father and three of the children preceded the mother in death. Surviving are Mrs. Bertha King, Perryton; C. G. Montgomery, Hutchinson, Kans.; and Lee P. Montgomery, St. Louis, Mo. There is also a foster daughter, Mrs. Maryola LeBaube, and six grandchildren and three great-grandchildren.

Mrs. Montgomery was a charter member of Ochiltree Chapter No. 161, Order of the Eastern Star and a Past Worthy Matron of the Shattuck Chapter.

Lovingly and affectionately known to many of her friends as "Mother Montgomery," she followed the teachings of Jesus, being an active member of the Methodist Church at Shattuck. She was a second mother to her many young friends who came to her with their troubles and

problems, always giving them wise and loving counsel.

Revival Meeting Gains Momentum

The revival meeting at the People's Chapel is gaining momentum with the oratory and the golden throated trumpet of Dr. Ronald Crozier, reports Rev. Campbell, pastor.

Dr. Crozier, a Canadian evangelist, was formerly an ace trumpet player, having had contracts with some of the foremost dance bands in the country. However, his trumpet was converted at the same time he was and he is now playing the "Trumpet of the Lord," stated Rev. Campbell.

The revival will continue thru next week and Dr. Crozier's subject Sunday night will be "When Anti-Christ Reigns," Rev. Camp-

bell, pastor of the chapel, speak at the Sunday service on "The Christian's Ministry."

School District Keeps Growing, Gives Building Headaches to School Board

HOUSTON, July 29 (AP)—Alldine, the miracle school district, has outgrown its trousers again. Scholastic population of the little Harris county school district has increased over 800 per cent since a 1933 consolidation vote.

The district faces its seventh building program necessary within its brief 14 years of history.

It all began shortly after the consolidation when, with a scholastic population of 326, the district voted a \$40,000 bond issue for erection of a combination elementary and high school building and the enlargement of a negro school.

A combination gymnasium-

building was added in the late 1930's. The structure was realized only after trustees and patrons joined in constructing the addition themselves.

Another bond issue a short time later resulted in a new high school building and a home economics cottage.

By the start of the war, there were approximately 2000 children in the district, but with war-time shortages and restrictions it was not until last year, when there were 2400 children, that the residents were able to vote another bond issue.

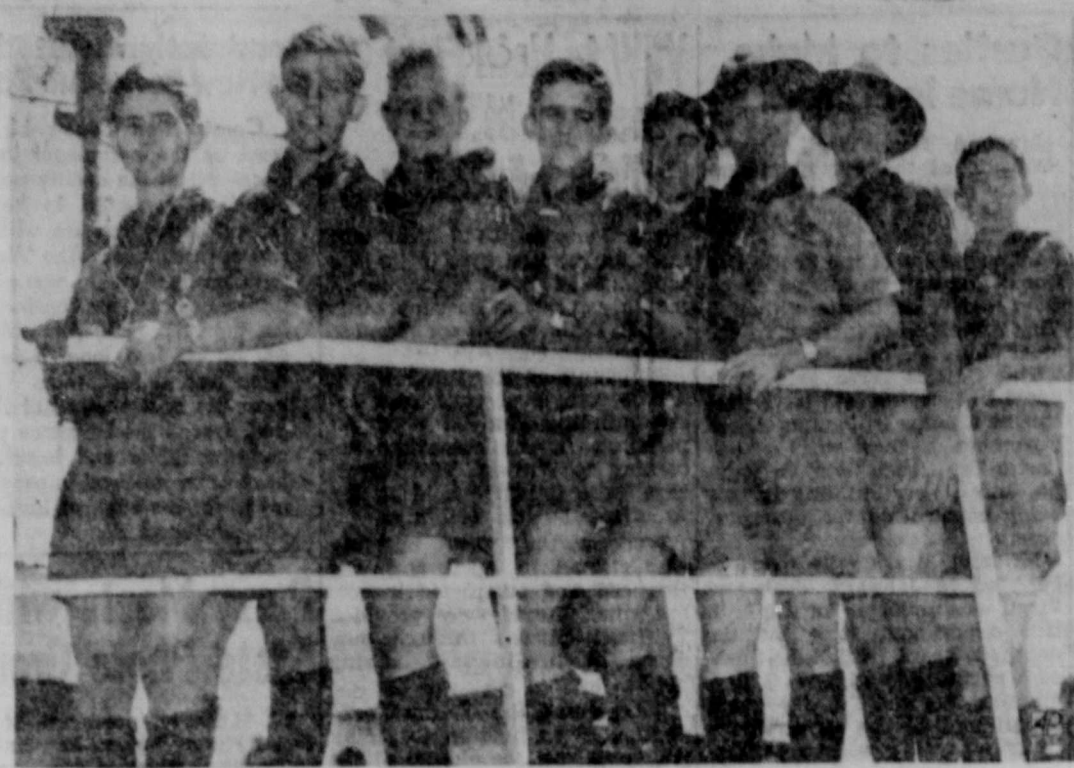

This was for a new elementary school.

Now the scholastic population is up to 2700 and contractors have started to work on a new high school building.

Additions also are being made to the negro school.

Financially, the Alldine district is not overburdened with wealth. It is a district made up almost exclusively of moderate, or low priced homes. Tax returns from small homes are small.

Inversely, there are many children, and there has been a net gain of over 400 this year. The new high school will not be

That 3,000 figure appears to be certain and just around the corner.

Warsaw-Marseilles Airline Planned

WARSAW (AP)—The Polish Airlines "LOT" plan to start a new service to Marseilles, via Prague, and Zurich sometime this year, the semi-official newspaper Rzeczpospolita announced.

Such a new southwestern airline would give Warsaw direct connections with French North Africa by changing at Marseilles.

Nazis Beheaded 10,000 in Last Two War Years

BERLIN — More than 10,000 German men and women were executed by the axe in the last two calendar years of the Nazi regime, documents of the Reich Justice ministry reveal.

The executions did not include those under military law.

Whereas 49 death sentences were handed down in Germany during the economic crisis year of 1923, two decades later 10,071 persons were beheaded in 1943 and 1944.

There were 21 execution points scattered throughout Germany. The two most used were in the Ploetzensee and Brandenburg prisons, both in Berlin. All death sentences handed down by the Nazi Peoples Court, which tried Germans accused of being spies for foreign powers or plotting against the Nazi state, were carried out there. In 1943, 447 persons were beheaded in Brandenburg and the following year, 916. The records said eight to 20 seconds were required for beheading by the axe.

Tri-State Meet to Determine Liberal-Perryton Freight Line

A special meeting of the Texas, Oklahoma and Kansas railroad commissions will be held in Liberal Thursday in the county courthouse to decide upon a transportation line from Liberal to Perryton. There has been no service and no truck line facilities over this route since the Riley Truck Co. went out of business several weeks ago.

The Cheatham Motor Freight of Perryton will ask for a 180-day temporary permit to operate this line, during which time application will be made for a permanent permit. J. R. Cheatham, owner of the Cheatham Motor Freight, was in Amarillo Wednesday, meeting with members of the Texas Railroad Commission to clear with them prior to the joint meeting in Liberal. Cheatham pointed out that his company now operates a freight service from Perryton to points south and that the Cheatham Co. is in the best position to operate the Perryton-Liberal link on the interstate freight route.

On Tuesday, R. R. Pierson, general manager of the Cheatham Co., Lee Little, secretary of the Perryton Chamber of Commerce, Lloyd Phillips, manager of Woolwine's, and Cheatham were in Liberal to secure information on facilities there.

During the time the Riley Truck Line has been inoperative, the transportation situation between Perryton and points north has been a headache for shippers in this section of the Panhandle. Rail shipments have to go a long way around east or west, and the only other alternative has been to ship by private truck.

Interested persons have been invited to attend this hearing in Liberal Thursday and present their views to the railroad commissioners.

stand could not be completed in time for the August celebration, so this action was postponed.

By the time of the spring livestock shows, it is expected that there will be show barns and stalls erected at the fair grounds also in accordance with the master plan. When the plan is completed, there will be two rows of box stalls, each row containing 70 stalls, making 140 stalls for the double row. The show barns will be equipped with seats, show rings and all facilities necessary for showing and judging animals.

"We want to emphasize the quality of Ochiltree county wheat," stated Kershaw. "Already the mills have served notice that they can't use inferior varieties of milling wheat, and we want to further establish the quality of Ochiltree county wheat, which is now tops in the entire hard wheat area."

Letters have been sent to all farmers, urging their attendance at this meeting and it is hoped that a final settlement of the advertising and improvement program will be made, either to start the program or abandon it.

new fixtures, shelving and display counters for the hundreds of items added by the store in setting up a complete home and auto supply store.

The Goodyear Service Store recently acquired the Westinghouse franchise and has an ample supply of all electrical appliances, including fans, heaters, irons, radios, light fixtures, coffee makers, light bulbs, wiring and heavy appliances such as refrigerators, washing machines and ironers.

Logan emphasized that while the store has expanded and offers everything for the home, auto, and sportsman, the complete tire department is still the outstanding feature of the company.

There have been a number of new white sidewall tires received lately, the first since before the war, and these are available now, stated Logan.

Opened in March, 1944, as a strictly tire store, the company has been steadily expanding since that time. Their large recapping facilities and repair service kept many automobiles and farm implements running during the time when new tires were not available.

The personnel of the company includes Bob Logan, owner, George Statham, manager, Frank Shaffer, outside salesman, and Mike Jackson, service department.

Farmers Urged to Apply Soon for Soil Practices

Ochiltree county farmers were requested this week to sign up immediately for soil conservation practices, or else a portion of the money allocated for conservation practices will have to be returned to the state AAA office.

Elliott Lee, AAA secretary, reported that of the \$82,600 allotted to Ochiltree county for conservation practices, only \$39,414 has been used, leaving \$43,186 available for additional practices.

The conservation payment program was halted for two months, from May 27 to July 24, when Congress held up the Agricultural Appropriation. The program was resumed exactly as proposed early in 1947, however, and payments are being made.

Conservation payments are made on the following practices: weils, \$3 per foot; dams, 10c per yard; pit cultivation, 20c per acre; chiseling, 25c per acre; terracing, long ridges, \$1.50 per 100 ft.; terracing, channel type, \$1.00 per 100 ft.; diversion terraces, 8c per cubic yard.

Information regarding other practices may be obtained at the local AAA office.

seen through a screen of growing wheat. This picture was taken from a point just north of the elevator and the wheat stalks were placed before the camera as "props" to aid the photographic effect.

"Reaping the Golden Tide," was the title L. L. Nunley of Guymon gave to his third place winning photograph. The picture taken just north of Perryton, shows a self-propelled combine cutting grain, with Perryton in the background. Nunley, an amateur photographer, selected this particular combine because it showed both the large umbrella for daytime work and was equipped with headlights for night cutting, indicating the long hours put in by harvest crews.

Fourth prize of \$50 was won by Ray E. Kennedy of Liberal, with a picture of a combine and tractor at work at dusk.

Fifth prize of \$50 was won by J. L. Price of San Angelo, Texas, with a picture of seven self-propelled combines at work on the O. C. Rogers place near Farnsworth.

V. L. Gross of Guymon won sixth prize and \$50 for his picture of four self-propelled combines, showing each of the machines, throwing a spray of straw.

Seventh prize of \$50 was won by Jim Bean of San Angelo, with a front view of an unidentified harvest hand peering over his combine as he prepares to move into a patch of wheat.

Much favorable publicity was gained by Perryton and Ochiltree county through this photograph contest. The Associated Press sent out the winning pictures to newspapers all over Texas, Kansas, Oklahoma, New Mexico and Louisiana. Telegrams were received from several leading magazines requesting prints of the winning photographs.

All of the pictures will be displayed in windows of Perryton business firms during the Perryton Celebration where thousands of persons will be able to see them.

The prize money for this contest was contributed by a number of local firms interested in the advertising and improvement of Ochiltree wheat. A complete list of contributors to the prize fund follows:

Summer Recreation Program to End Thursday, July 31

The summer recreation program, which has been in operation since May 21, will close on Thursday, July 31, Lewis Emerick, supervisor, announced this week. It was originally planned to extend the program through August 21, but so many children are leaving with their parents on summer vacations, that it was felt advisable to close the program now.

A total of 97 children signed up and participated in the program, reports Emerick. Ages ranged from 5 to 14 and activities were supervised by Emerick and Miss Terry Morehead, both of whom teach in the Perryton schools during the winter. The expense of the program, some \$1,200, was borne by the Lions Club, Rotary Club, VFW, and Chamber of Commerce.

Activities enjoyed during the 10 weeks of the program included baseball, swimming, tennis, jousting, badminton, horse shoes, marbles, boxing, wrestling, table tennis, bicycle races, foot races and archery.

the Wheatheart title will be keen.

A prize list of \$200 has been put up by the Chamber of Commerce for this program. First prize is \$100, second \$50, third, \$25, fourth, \$15 and fifth, \$10.

The contestants will appear in the parade on August 22, dressed in bathing suits, and will be judged at the reviewing stand. All but five will be eliminated at this time.

At the Frankie Masters dance that night, the remaining five dressed in evening gowns, will be honored guests, and at 11 o'clock, the final judging will be held and the nation's Wheatheart will be named.

in the south part of the county, and the home place was built there, 21 miles due south.

In 1937, Mr. and Mrs. Flowers "retired" and moved to a home in Perryton. However, Mr. Flowers continued to take a quite active interest in farming activities and even drove a truck as late as the harvest in 1944. For the past three years, he had led a less active life and his health failed until he was forced to remain in bed for the past ten months.

He is survived by his wife, Emma, eleven children, 41 grandchildren and 9 great grandchildren.

The children are the sons, Calvin, Lawson, Oscar, Travis and Clem, all of Perryton; Gilman of Canadian; Atlas of Miami; and Cephus of Tulsa; and the daughters, Mrs. L. C. Portwood and Mrs. Lilla Lee Addington, Amarillo and Mrs. Chas. Gladwell, Janelow, W. Va.

Funeral services will be conducted at the First Baptist Church Thursday afternoon at 2 o'clock under the direction of Rev. O. C. Curtis.

"Cheyenne" relates the story
of "The Poet," a notorious bandit
portrayed by Bruce Bennett, who
earned his name because of his
habit of leaving a memento in
verse when he robs the Wells
 Fargo stage coaches. Dennis
Morgan appears as a gentleman-
gambler who is pressed into ser-
vice to try to capture the elusive
"Poet." Jane Wyman, who event-
ually falls in love with her hus-
band's pursuer, is the wronged
wife of the desperado who at-
tempts to reform her n'er-do-

new Warner Bros. star, is cast
in a comedy role as a dance-

Supporting the quartet of stars
are Alan Hale as a timid and
somewhat comic sheriff, Arthur
Kennedy as Sundance, leader of
an outlaw gang; and Tom Tyler,
Bob Steele, John Compton and
John Alvin as members of the

'Two Smart People' is Tale of Romantic Swindlers, Lucille Ball and John Hodiak

The story of two suave society crooks, who find romance a stumbling block in the path of their respective careers as swindlers is deftly unfolded on the Pertex screen in "Two Smart People." M. G. M. comedy drama starring Lucille Ball and John Hodiak.

The film plays on Sunday, Monday, Aug. 3-4.

Their whose light fingers are as much at ease at handling a drawing room teacup as in finding the right combination to open up a safe has been a basic character in many a drama of society chicanery, but "Two Smart People" avoids the pitfalls of the common place in a refreshing plot twist in which the hero openly admits his crime and places himself at the disposal of a tailing detective on the condition that he be given a four-day whirl with the girl he loves before giving himself up to the authorities.

It is easy to see the comic possibilities of what follows, and "Two Smart People" makes the most of them. In a whirlwind courtship, Hodiak, as the man in the case, sweeps Miss Ball thru a profusion of romantic interludes which begin when they attempt to outwit each other in a Beverly Hills hotel, continues in a series of diverting episodes on

a train, makes a brief stop across the Mexican border and rises to a dramatic crescendo amid the colorful spectacle of a Mardi Gras in New Orleans.

Nostalgia of Gay Nineties Shown in 'Sunbonnet Sue'

A lavish motion picture of the Gay Nineties era in New York, steeped in the atmosphere of the faded Bowery, comes to the Pertex theatre on Aug. 5, with the opening of the Monogram musical film, "Sunbonnet Sue."

Stars of the production are Gale Storm, who sings in her father's saloon on the famous street, and Phil Regan, a brash young Irishman who is a candidate for alderman. Their romantic adventures are the moving force in a charming story of a past generation, before life became even more complicated with the perfection of such in-

Love in South America Has Funny Angles

If South America ever calls our bluff and does take back its rumba, samba and other rhythmic lend-lease trappings, it is sure to get them back in wonderful shape, thanks to Twentieth Century-Fox whose newest musical extravaganza, "Carnival in Costa Rica," done up in gorgeous Technicolor, does right well by them. The film, which plays Wed.-Thurs., Aug. 6-7, at the Ellis Theatre, has everything to gladden the eyes, ears and hearts of movie fans north and south of the Rio Grande.

Starring Dick Haymes, Vera Ellen, Cesar Romero, and Celeste Holm, "Carnival in Costa Rica" is a motion picture delight.

The story flits its sprightly way through round after round of love and laughter. Vera Ellen is the winsome daughter of a Costa Rican plantation owner, played by J. Carrol Naish to perfection. Promised in marriage to Cesar Romero, scion of a wealthy family, Vera suddenly discovers that a chance meeting with Dick

Haymes, young American busi-
ness man, has set her heart a-
pounding, and Cesar is the last
man she'd care to marry. Cesar
is not too unhappy about this
development since he is schem-
ing to get out of the match and
marry Celeste Holm, a night

club singer. When the double romance is finally straightened out to the satisfaction of the couples in-
volved, it remains for the lovers
to convince their respective par-
ents that the matches were made
in heaven. After a series of con-
ventions as the horseless car-
riage and the moving picture.
Other members of the cast are
George Cleveland, Charles D.
Brown, Edna M. Holland and
Raymond Hutton.

Popular songs of the era are
featured, mainly such perennial
ly popular numbers by the fam-
ous Gus Edwards as "School
Days" and "By the Light of the
Silvery Moon." Miss Storm and
Regan are the principal singers,
and there are also tunes by en-
tertainers in a Bowery concert
hall, vying for the attention of
the audience with can-can dan-
cers and the attractions of the ad-
jacent bar.

THERE HE GOES!—A game jockey and his gallant steed go galloping down the track in one of the thrilling scenes from the picture "That's My Man," starring Don Ameche and Catherine McLeod. The picture shows at the Ellis on Friday and Saturday, August 1-2.

Christian Science

"Love" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, August 5. The Golden Text is: "Let him that glorieth glory in this, that he understandeth and knoweth me, that I am the Lord which exercise lovingkindness, judgment, and righteousness, in the earth" (Jeremiah 9:24).
 Among the citations which comprise the Lesson-Sermon is the following from the Bible: "God is love; and he that dwelleth in love dwelleth in God, and God in him" (1 John 4:16).
 The Lesson-Sermon also includes the following passage from the Christian Science text-book, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "'God is Love.' More than this we cannot ask, higher we cannot look, farther we cannot go" (page 6).

It is estimated that about 300 million people throughout the world have malaria in some years.

FROM THE HEART OF A SOUL

A clean life is more to be desired than gold . . . and the consolation a lucky possessor has in knowing that he or she is privileged to reap daily from its huge storehouse of self-created blessings is unspeakable. The testimony given here is not an occasion of pride nor of idle show but may these facts be influential in your scheme of living . . . may they challenge you to find yourself in time to avoid embarrassment.

A good home is unquestionably one of the greatest privileges of any individual and its influence is evidenced through many generations. Parents who spend hours teaching and leading their youngsters to a better understanding of the things beautiful and most of all . . . how to live, shall not have spent life nor time in vain.

THE curse of drink and its companionate sins is without question the greatest evil of this generation. It knows no bounds, nationality nor faith. It prays upon those who are weak enough to accept what it offers and prostitutes without discrimination. A clean life cannot be hidden. Its smile is radiant; its influence profound; never looks dissipated and always is on the alert. Your church can help you to live clean. Attend regularly and give systematically to her program.

YOU IN THE CHURCH THE CHURCH IN YOU

Character is a by-product of the church. It is here that young and old alike are showered with benediction and a stronger democracy. In the church the ministerial are molding religious character. Statesmen today declare that the church alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church of our choice on Sunday. "You in the Church and the Church in you"—form a combination for good.

Veterans' NEWS

More than 17,000 government checks to Texas veterans were mailed in the period January, 1947, to May because of faulty addresses reported this week.

Although this was only one of the 1,739,733 issued in the period, VA emphasized that the hardships caused by the addition of the VA to the list of the returns moving and fall-

ing to give the VA a notice of change of address. In all such cases, VA must verify correct addresses before the checks can be mailed.

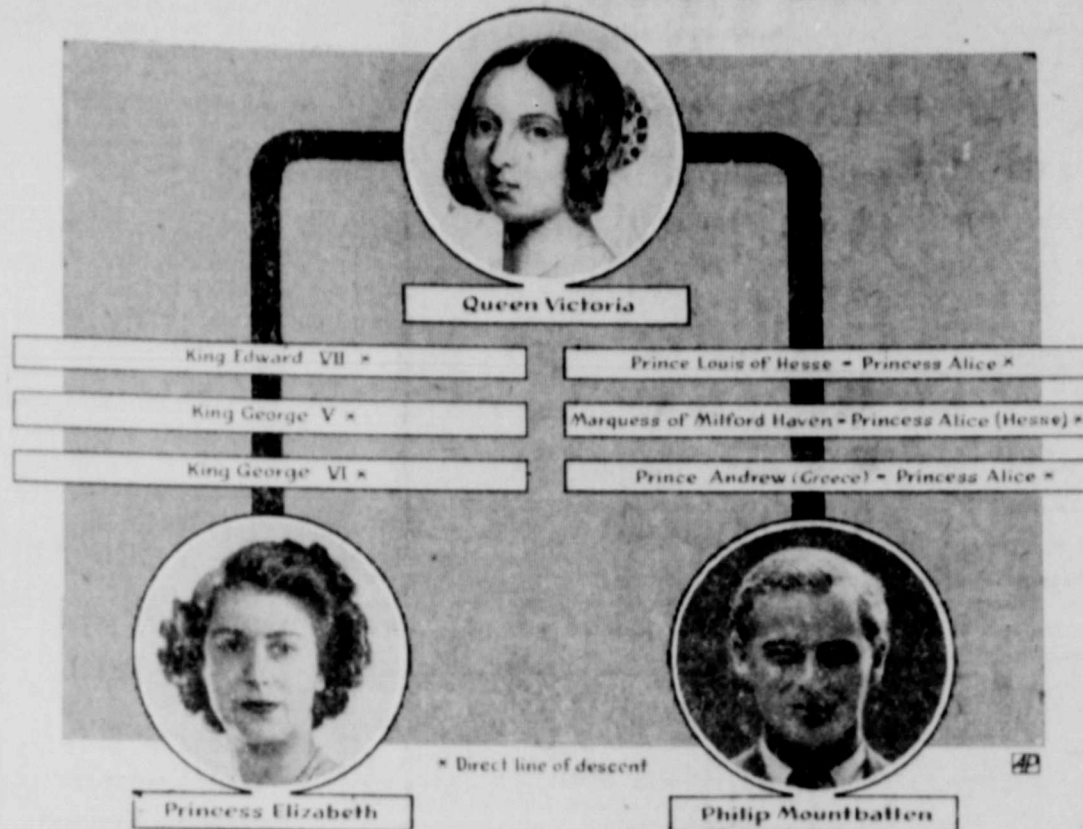

Most negligent in notifying VA of changes of address were World War II veterans taking on-the-job training or going to school. More than 60 per cent of the returns were subsistence payments.

As a result of the study, VA has made some administrative changes which it is expected will help eliminate some of the returns.

But the principal factor in eliminating returned checks still is the veteran, himself, VA said. Veterans must keep paying of files advised of their correct and current address to receive prompt and efficient service.

VA said it is setting the units up in the 79 offices and that all will be in operation within the next 30 days.

The service is designed to simplify the purchase of prosthetic devices for veterans and to eliminate much red tape in present procedures.

Trained VA employees in each office will give disabled veterans the latest authentic information on new inventions and other developments in artificial arms and legs, hearing aids, aids for the blind, cosmetic hands and ears, plastic eyes, and other devices to assist the physically handicapped.

Disabled veterans also will receive technical advice and counsel in their choice of artificial limbs and other aids. The units will maintain close liaison with manufacturers of prosthetic appliances to insure that eligible veterans receive the best aids on the market.

Blue Ribbon Cattle Winners Show Increase

COLLEGE STATION, July 28—Thirty percent of the dairy cattle exhibited at "dairy days" in Texas this spring were classified as blue ribbon animals, an increase of seven percent over blue ribbon awards last year.

The increase, say Extension dairymen at Texas A. and M. College, indicates that Texas dairy farmers are recognizing good dairy type. There was also a marked decrease in the number of cattle receiving white and yellow ribbons.

At the 33 educational "dairy days" held in the state this year, 2,156 head of dairy cattle were classified. Final tabulation by the Extension dairymen, who helped judge many of the shows, reveals that 18,720 people took part in the "dairy days."

A breakdown of the classification shows 2.1 percent of the cat-

tle classified purple ribbon; 30 percent, blue ribbon; 42.8 percent, red ribbon; 21.1 percent, white; and 4 percent, yellow.

Six different breeds of dairy cows were entered in the 33 shows—Ayrshire, Brown Swiss, Jersey, Guernsey, Holstein and Milking Shorthorn.

Pack Horses Kill an Elk Calf

YELLOWSTONE PARK, Wyo.—AP—When an elk calf wandered into a pasture used by park pack horses, the latter promptly attacked the wild stranger, kicking and biting it fiercely.

The mother elk finally drove the horses away and stood guard for several hours over the calf before realizing it was dead.

When Fate Fails It Tries Again

MERCED, Calif.—AP—Mariposa county officers pieced together this story of the fatal double fall of Edward Scott, 62. He fell from a hay wagon, fractured his skull, but didn't realize the gravity of his injury. So he climbed back on the wagon—and fell again, breaking his neck.

Mr. and Mrs. R. R. Ward, Mr. and Mrs. T. O. Pugh and Mr. and Mrs. Grady Pearson of Spearman attended the XIT celebration in Dalhart Friday.

IS PEACE POWER

AIR FORCE DAY, AUGUST 1ST

use today questions the fact that the whole future of the United States may rest in the very clouds over your head. And now, reorganized Air Forces give thousands of eligible young men an opportunity to take an active part in building America's power... on the ground as well as in the sky.

You may, for example, enlist in the Air Forces for three years. If you have a specialty which will qualify you, you may be able to enlist in a grade at higher pay.

If you have had Air Forces experience, you may join the Air Force and continue your military aviation training outside of basic courses.

Or, you may join the Air National Guard and perhaps become eligible for advanced technical training at special Air National Guard schools.

On Air Force Day, make a point of finding out everything about your Air Forces—especially the new Aviation Career Plan outlined below. Full details can be obtained at your U. S. Army Recruiting Station.

NOW—THE WORLD'S GREATEST OPPORTUNITY FOR A CAREER IN AVIATION

in the Army Air Forces offer high school graduates an unprecedented opportunity to get the finest aviation schooling fourth—and select your school or course before you enlist. The AAF Career Plan is unlike anything ever offered before. It permits selected high school graduates to apply and qualify for AAF specialized courses of their own choice. Simply go to the U. S. Army Recruiting Station, advise the Recruiting Officer of your choice of aviation training you want and he will provide you with an application blank and a complete list of available courses.

When you are selected to attend the course of your choice, you enlist in the Army Air Forces for 3, 4 or 5 years. After your training period you are guaranteed the education you have selected to make you a specialist in the type of work you want.

Get a list of all the schools and courses open to you under the AAF Aviation Career Plan at your U. S. Army Recruiting Station.

Seven Acres, Plus Water, Is 560 Acres

COLLEGE STATION, July 22.—Fred Kveton has come up with a pasture-producing formula that turned seven acres of grazing land into 560 acres.

Here it is: seven acres, plus mixed grasses, plus irrigation, equals 560 acres.

Kveton, who farms near Abilene, Lubbock County, believes that following his formula is a good way to stay in the cattle business, in spite of dry years, reports D. W. Sherrill, Lubbock County agricultural agent.

Kveton began working on the plan last September when he

planted seven acres of pasture grasses, in cooperation with the Soil Conservation Service, PMA, and the Texas A. and M. College Extension Service. The mixture he planted was made up of 10 pounds of brome grass, five pounds of crested wheat, five pounds of orchard grass and two pounds of alfalfa. He irrigated the seven acres every 15 days.

Since last April, reports County Agent Sherrill, 28 head of cattle have grazed the seven acres, with no feed on the side. Recently Kveton took the cows off and cut 3 tons of hay off the small field.

How does Kveton get the 560 acres? It's just that he believes it would take 560 acres of native dryland grass in his section of the country to support those 28 head of cattle.

WAH-WAH'S A WOW—Wallace (Wah-Wah) Jones, University of Kentucky athlete has blossomed into a one-man athletic program. In baseball, he didn't lose a game while pitching for the club and was a leading hitter. A fine "clutch player," his last minute goal won a crucial game with Long Island University last winter in a basketball thriller. He was an All-Conference end in football last year. He also is a letterman in track, specializing in the weights.

LOTS OF CURVES—The Laramie, North Park and Western railroad claims a place among the most winding railways in the world. It has fifty-seven 12 degree curves in its 111-mile long main line. Sometimes even the conductor gets dizzy on the run, they say.

Veteran Forum

Q. I have a blue discharge from the Army. Am I entitled to any of the benefits under the G. I. Bill?

A. If you have other than an honorable discharge, you may request Veterans Administration to review the circumstances under which it was issued. If it is found that your discharge was issued under conditions other than dishonorable, you will be eligible for benefits under the Servicemen's Readjustment Act (G. I. Bill).

Q. I am an American Indian and a World War II veteran. Am I eligible for a G. I. loan?

A. Yes, but it must be on property you own or plan to own outside the reservation. You can not secure a G. I. loan to build a home on tribal land.

Q. Will Veterans Administration accept collect telephone calls made by physicians who wish to ascertain whether they will be paid for emergency treatments given veterans?

A. Yes.

Q. I am a World War I veteran and I was married in June, 1945. Is my wife entitled to receive a pension when I die?

A. A widow of a World War I veteran is entitled to receive a pension if she was married to the veteran before Dec. 14, 1944, or for 10 or more years. Consequently, your wife would not be eligible for pension if you died less than 10 years after your marriage.

Speedier Way To Polish Silver

Home makers may bid good-bye to spending long and tedious hours polishing the family silver.

Flatware may be rendered gleaming in from two to five minutes by placing it in an old aluminum pan and boiling it in a solution of one teaspoon of soda and one teaspoon of salt per quart of water, according to Miss Lola M. Drew, assistant professor of home management at Texas Technological College. Each piece of silver should touch the pan while boiling.

Knives with hollow handles should not be polished in this manner, the boiling water will loosen cement, Miss Drew cautioned. Neither should silver with oxidized or French gray

finishes be treated with this method, since chemical action of the solution and aluminum will remove the soft finish and make the entire piece shine brightly.

However, for other pieces, many authorities say this treatment is less detrimental to silver than old fashioned rubbing.

Miss Rankin Weds Mr. Boese July 26

Mr. and Mrs. Marion M. Rankin of Boyd, Okla., announce the marriage of their daughter, Miss Jennie Rankin, to Mr. Eugene Boese, son of Mr. and Mrs. Jake Boese, of Waka, on July 26, at Perryton. The double ring ceremony was performed by Judge Dave Shanks.

The bride attended the Bethany high school and is a graduate of the Enid, Okla., business college. The bridegroom attended the Perryton high school. He served three years in the army, with 20 months in the European theatre.

After a short wedding trip, the young couple will be at home near Waka, where Mr. Boese is engaged in farming.

Ochiltree Club Offers Interesting Program

The Ochiltree Home Demonstration Club will meet Friday afternoon, August 1, in the home of Mrs. Kirt Williams. The storage of clothing will be discussed by Virdie P. Wheeler, county demonstrator.

This will be Mrs. Wheeler's first meeting since she returned from the Summer Work Shop at Gatlinburg, Tenn. She will exhibit some of the work that was done while she was studying there.

All members are urged to be present. Visitors are welcome to attend.

Miss Spivey and Randall Jones are Wed in Lubbock

The wedding of Miss Beatrice Spivey of Lubbock, daughter of Mr. and Mrs. E. L. Spivey of Maxwell, N. M., and Randall Jones of Lubbock, son of Mr. and Mrs. C. F. Jones of Perryton, took place at 10 o'clock Saturday morning, July 26, in the parlor of the First Methodist church.

Dr. H. I. Robinson, pastor, officiated for the single ring ceremony before the mantel, which was banked with white gladioli and flanked by palms and candelabra.

The bride wore a navy street length dress with shirred neckline and shoulders, with navy and white accessories and an orchid corsage.

Mrs. Bob Henry of Las Vegas, N. M., sister of the bride, was matron of honor. She wore a blue two piece dress with white accessories and a white gardenia corsage.

William O. Linn of Lubbock was best man.

Mrs. Mamie I. Neal played piano selections.

A reception was conducted in the Chimayo room at Hilton hotel after the ceremony. The couple was assisted in receiving by Mr. and Mrs. C. F. Jones, Mrs. Noel Keith and Gerald Jones, sister and brother of the bridegroom, of Perryton; Mrs. Bob Henry of Las Vegas, N. M., and Mrs. Muri Foreman, sister of the bride, and Mr. Foreman, of Spur.

The table was decorated with white gladioli and candles.

Out-of-town wedding guests were from Perryton, Spur, Las Vegas and Maxwell, N. M., and Amarillo.

After a wedding trip to New Mexico and Colorado, the couple will be at home at 3317 Twenty-fifth after Sunday. For traveling, the bride wore a cocoa brown suit with cocoa and white accessories.

The bride is a member of Epsilon Sigma Alpha.

The bridegroom formerly attended Texas Technological college, where he was a member of the College club. He served five years as a pilot in the U. S. Navy. He is traffic manager of Braniff Airways.

Mrs. Jones is employed by the Veterans administration.

Mr. Jones came to Perryton with his parents when a small boy, and attended the Perryton schools, graduating from high school here before entering Lubbock Tech. He served in the Pacific Theatre during the war.

Miss Peggy Lamb And Mr. Herrman Wedding, July 19

Sacred Heart Cathedral was the scene on Saturday morning, July 19, for the marriage of Peggy Jane Lamb, daughter of Mr. and Mrs. Lawrence W. Lamb, 1705 Fillmore, to Jerome B. Herrman, son of Mr. and Mrs. A. E. Herrman, 1931 Harrison.

Monsignor John Steinlage read the double-ring service. Arrangements of white gladioli and daisies formed the decorative background at the altar.

Miss Betty Ellen Brainerd, maid-of-honor, wore a green linen dress with a white gardenia corsage. Jack A. Herrmann was his brother's best man.

For her wedding, the bride chose an egg shell crepe suit accented with brown accessories. She carried a white Bible topped with an orchid and showered with white streamers knotted with carnations.

Following the ceremony, the bridal party was honored at a wedding breakfast in the Capitol Hotel.

Mrs. Herrman was graduated from Amarillo High School and attended Loretta Heights College, Denver, Colo. Mr. Herrman was graduated from Price College. He is employed in Borgor by Herrman Brothers Drilling Operators.

The couple is at home in Borgor after a trip to Albuquerque, N. M.—The Amarillo Sunday News-Globe.

The bride is the granddaughter of Mr. and Mrs. J. N. Conley, and has a wide acquaintance in Perryton.

Miss Peggy Jean Lovett is Bride of Clyde Ward at Home Wedding

On Sunday afternoon, July 20, at five o'clock, Miss Peggy Jean Lovett, daughter of Mr. and Mrs. Ivan Lovett, became the bride of Clyde Ward, son of Mr. and Mrs. A. C. Ward of Spearman, in a simple ceremony performed in the home of the bride's parents.

Rev. J. H. Sharpe, minister of the First Methodist Church, officiated for the single ring ritual.

Sweet peas and gladioli were used to decorate the house, and the couple stood before an archway for the exchange of vows. Baskets of flowers and greenery were banked at either side of the arch.

The bride's only attendant was her aunt, Mrs. Findorf Schubert of Spearman. She was attired in white eyelet and wore a corsage of pink gladioli. Mr. Schubert attended the bridegroom as best man.

A street length dress of ice blue crepe accented the bride's youthful beauty. She wore white

accessories and carried an arm bouquet of pastel pink and white carnations.

For her daughter's marriage, Mrs. Lovett chose a black linen dress with red accessories. Mrs. Ward wore brown crepe. Both had corsages of white carnations.

A reception complimenting the bridal couple was held immediately following the ceremony. The bride's table was laid with a centerpiece of sweet peas and held the punch service and the two-tiered wedding cake which was topped with a miniature bride and bridegroom.

Mrs. Oscar Blank poured, and Mrs. Bill McLanahan served cake after the bride cut the first piece.

Mrs. Ward attended the Perryton High School, and Mr. Ward attended schools in New Mexico.

The wedding guests included Mr. and Mrs. A. C. Ward and Mr. and Mrs. Findorf Schubert, Marilyn and Burton, all of Spearman; Mr. and Mrs. Oscar Blank, Charon and Dixie, Mr. and Mrs. Bill McLanahan and Virginia Lee, Mrs. Darrell Ward, and Iveline and Joylynn Lovett.

Mr. and Mrs. Ward have an apartment in Mrs. Myrtle Collingsworth's home on Southwest Seventh street.

Visitor Honored At Friday Coffee

Mrs. Dick Graves entertained at an informal coffee Friday morning in her home on Southwest Fourth street, honoring her mother, Mrs. D. W. Von Schrittz, Gypsum, Kans., who is her house guest.

The guest list enjoying this pleasant occasion included Mesdames O. C. Shearer, Bill Thomas, Darwin Barnes, Adrian Thomas, Garland Redfern, Arlie Hale, Carl Blackmore and Fred Dowers.

A Statement To Our Customers About Resale**PRICES of PRODUCT****Built by International Harvester Company**

Here at Harvester we are concerned over the fact that a growing number of our products are appearing on the resale market at greatly inflated prices.

As manufacturers, we try to produce at the lowest possible cost. We cannot set the prices at which our products—tractors, motor trucks, farm implements, refrigeration, and industrial power equipment—are sold. We can and do suggest list prices which the great majority of our dealers adopt as their retail prices.

\$20,000,000 Price Reduction
Our basic price policy was publicly stated in March, 1947, when we announced price reductions at the rate of approximately \$20,000,000 per year on our products. At that time, Fowler McCormick, Chairman of the Board, said: "ANY PRICE IS TOO HIGH IF IT CAN BE REDUCED."

Practically all of our dealers cooperated with this policy and passed on the savings to their customers.

The objective of the price reductions was to make it possible for customers to buy our products, which they need so badly, at lower prices. Naturally, this purpose is defeated when our products are sold by anybody at inflated prices.

IH Production at All-Time Peak
Inflated prices are caused by

the difference between supply and demand. To increase supply, we now have the greatest number of employees in history on our payrolls—almost 90,000 in the United States, as against about 60,000 prewar. Large new plants are getting into production in Louisville, Evansville, and Melrose Park. A fourth will soon be in operation in Memphis. The men and women now employed are turning out the greatest quantities of IH products of all kinds that we have ever made. These are also the finest products we have ever made, and recognition of that fact is an important contributing factor to the demand for them.

Distribution to Dealers

But even record-breaking production is not sufficient to give your dealer—and other IH dealers—enough products to meet today's demand. We have tried to make the fairest possible geographical allocation of our products so that every dealer would get a fair share, and we know that dealers, in most cases, have tried earnestly to make the fairest possible distribution to their customers.

But we also know that many of our products—far too many—are being resold at inflated prices. The public criticism and resentment of these resales are of real concern to us, as we know they must be to our dealers, because such reactions en-

danger the good will of the dealer and the Company any community.

Distribution to Customers

Experience shows that IH new products are being sold by users who decide can continue to make use of their old equipment after have had an inflated price for their new equipment. To state this, many dealers taking measures to buy equipment purchased of their customers' own is not to be resold.

Nearly all IH dealers, believe, are now using the of PRESENT NEED as the guide for the resale of products. The customer whose need is real and is not likely to resell.

What Price Should You Pay?

While it may take a little time to get delivery, we our customers to consider of the factors mentioned before paying more than list price for any IH product. Any IH dealer or brand furnish the suggested list price for any IH product.

We know that the overwhelming majority of dealers are as much opposed to inflated prices as we are. The public interest, we have ready asked their cooperation—and are now asking the operation of customers correcting this situation.

INTERNATIONAL HARVESTER**INTERNATIONAL and McCORMICK - DEERING FARM MACHINERY**

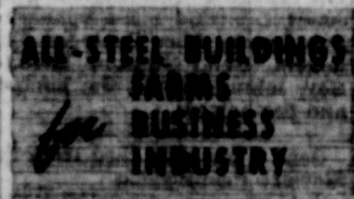

We endorse this policy of our Company
100%. As publicly stated before, our
prices are the company list plus
freight, and all equipment sold
by us this season has been
on this basis.

Heirs Get Trunkful Of Money

FLORENCE, S. C. (AP)—A battered old trunk here yielded \$101,000 in cash to administrators of a \$1,600,000 estate left by two business-minded sisters.

Working to liquidate the estate of Mrs. Susan J. Stackley Buchell and Mrs. Catherine Mary Stackley Berry, administrators found the trunk, inside, neatly packed away, was the cash.

The estate was divided among 24 nieces and nephews of the sisters, who for many years operated widespread business interests from a small dry goods shop here.

Leland Bryan of San Diego, Calif., left for home Monday after visiting his parents Mr. and Mrs. J. L. Bryan of Spearman and helping through harvest.

Mr. and Mrs. John Foster and children of Liberal, Kansas and Mr. and Mrs. Bud Foster, Thomas, Okla., visited Mrs. Myrtle Collingsworth this week.

Alton Boxwell returned Friday from a business trip in London, Ohio.

Your Name . . . In or Out of Paper

On keeping one's name out of the paper—
Two things usually drive editors and reporters to the verge of
insanity (among other vagaries of the newspaper business) and
they are people who want to keep their names out of the paper
and people who want to get theirs in.

The person who doesn't want to have his name used in the
paper is usually suffering from (1) false modesty, (2) false ideas
of his grandeur, (3) shame or (4) hanky-panky.

On the other hand, the person who wants his name in the paper
is usually either being helpful or overreaching himself.

If all people were only too modest or being helpful, the job
of the reporter in gathering news events would be comparatively
easy—in fact, the reporter would spend most of the day walking
about with a stunned expression, muttering, "What has hap-
pened to everybody!"

Most people fall in a large class we might call the take-it-or-
leave-it class in which they are willing to give information and
permit use of their names without any thought about the situa-
tion one way or another. And that is fortunate for the rest of
the newspaper reading public.

But the small minority—the alleged social leader who bangs
into someone else's car (grandeur), the drunk and disorderly be-
haviorist (shame), and the shady business partner (hanky-panky),
and the social climbing campaign (overreaching) cause more
trouble than you can shake a stick at.

The modest, oddly enough, are the ones in the town who are
getting things done—and credit should be given when credit
is due. And the helpful bring in, write in, phone in most of the
items you find in today's paper that are of interest. If newspaper
workers do any blessing, they're the ones that receive it.

Babson Discusses Job Hunting

ROGER W. BABSON, Editor-in-Chief

GLOUCESTER, Mass., July 25. With a possible 10,000,000 unem-
ployed by 1952 unless labor re-
lations get straightened out, both
schools and parents should begin
now to make graduates worth
employing. Certainly, there then
will be keen competition for
whatever jobs there may be. Young
people now in high schools should
make up their minds to put work
before play and cut out the social
stuff which is making too many
of them useless only for driving
trucks and jerking soda.

Simple Economics

Business expects the schools to
equip our men and women with
an adequate background of the
historical, psychological and eco-
nomic forces which have pro-
duced our nation. Our young
people should also be given a
background of the many "isms."
With such a background stu-
dents should understand the
merits and benefits which our
free society has to offer. How-
ever, the school cannot do much
unless backed up by sensible
table talk and religious instruc-
tion at home.

No nation can long prosper

without the proper incentive,
progress and efficiency. This
causes a continuous improve-
ment in the standard of living
and security for all producers.
When people produce more,
business thrives, national in-
come increases, standards of liv-
ing rise, and our voters are hap-
pier. It is the understanding of
these basic factors including
some real religion, which our
homes and schools should teach.
These include emphasis on that
simple economic fact that only
as we all produce more is there
more to divide.

Schools Shortchanging Pupils

Schools today are shortchang-
ing pupils. Youngsters are being
shoved out into an ever increas-
ingly competitive world with
inadequate training in the fun-
damentals of reading, writing,
spelling, arithmetic, self-expres-
sion, etc. Too many of our young
people knocking on the employ-
ment manager's door are unable
to do relatively simple mathe-
matical tasks. These are basic
tools of work, rather than the
useless frills which schools now
teach.

It is not the accumulation of
vast amounts of factual material
that makes a young person em-
ployable. Rather it is his char-
acter, his health, his desire to
be of service and his ability to
work with others. Schools are
shortchanging students by their
failure to teach how to work and
live, how to get and hold good
jobs. Schools should spend much
more time in both group and in-
dividual counseling to help stu-
dents better understand them-
selves, their interests and their
aptitudes.

Schools Shortchanging Vocationally

With 29,744 different jobs listed
in the Dictionary of Occupa-
tional Title, schools of this
Atomic Age should offer system-
atic courses in vocational infor-
mation, get their students out
on field trips, make greater use
of occupational films, part-time
job experiences, etc. Most im-
portant of all young people
should be taught the dignity of
working and the disgrace of loafing.

To teachers, I say: "Get to
know your students more than
from just grades." Prepare him
for job interviews. Make sure a
student understands his own
balance sheet of assets and li-
abilities. Teach him how to sell
himself on the interview. Schools
should have students realize

Ask Me

that personal qualifications such
as incentive, resourcefulness,
adaptability, and willingness to
assume responsibility are more
important than joining a union
to assure success.

Parents Should Wake Up

But the best training of all for
getting a good position after
graduation is to work summers.
Whether or not your boy and girl
does this is up to you,—and not
to any teacher. In some States
boys and girls must get the okay
of the Superintendent of Schools;
but this always is obtainable if
you as a parent request it. Par-
ents who let their children run
around or loaf all summer are
committing a crime against them.

Too many parents hate to
make their dear Susie and John-
nie get a job because their
friends do not work. Instead of
being content to listen to speech-
es, Parent-Teacher Associations
should urge parents to refuse to
give spending money or loan
the car to kids who loaf sum-
mers or who fail in their studies
winters. It is not now too late
for parents to get tough this
summer.

HOMES FOR AMERICANS

PLANNED TO CIRCUMVENT high building costs, this house is designed for utilization of materials obtainable in stock patterns and sizes. It has a layout for sectional building with breezeway and garage optional for economy and a second floor that can be left unfurnished for the present and still leave a complete house. The tub in the first floor lavatory-powder room can be omitted if the bathroom on the second floor is installed. The main house, without porch and garage, contains 17,280 cubic feet. It can be built on a lot with a 65-foot frontage. A. Raymond Ellis, Box 191, West Hartford, Conn., is the architect. This is his Plan No. 732. He considers a house of this type "a good investment because it is easy to build and maintain, has a high mortgage value and resale possibilities."

compliance with statute; and WHEREAS, a portion of Huntton Independent School District was, on June 11, 1947, by the County Board of School Trustees of Ochiltree County, Texas, detached from said Huntton Independent School District and annexed to Perryton Independent School District in accordance with the provisions of Article 2742f, Vernon's Annotated Civil Statutes; Acts 1929; 41st Legislature, First Called Session, p. 106, ch. 47, said territory being described by metes and bounds in an order of said County Board of School Trustees dated June 11, 1947, appearing upon the Minutes of said County Board of School Trustees, reference here being made to the same for full description of such detached territory which no longer forms a part of the original Huntton Independent School District, but the balance of the original territory now comprising the present Huntton Independent School District; and

WHEREAS, it is the statutory duty of the undersigned, Dave Shanks, as County Judge of Ochiltree County, Texas, to issue an order for an election to be held in said Huntton Independent School District, and

WHEREAS, it has been made known to the undersigned that Honorable A. Bissantz, County Judge of Lipscomb County, Texas, has issued an order for an election to be held on August 30, 1947 in the Booker Independent School District for the purpose of voting upon the question of whether or not said Huntton Independent School District shall be consolidated, with said Booker Independent School District;

IT IS THEREFORE ORDERED by the undersigned, Dave Shanks, County Judge of Ochiltree County, Texas, that an election be held on the 30th day of August, 1947, at the following voting place in said Huntton Independent School District, as the same exists at this time: Garage Building on north 1/2 of Section 120, Block 10 to determine whether Huntton Independent School District of Ochiltree County, Texas, and Booker Independent School District of Lipscomb County, Texas, shall be consolidated for school purposes.

The following persons are appointed presiding officer and clerks at the election places indicated:

Presiding Officer: Roy Doerrie
CLERKS: Mrs. J. W. Hocking, Mrs. Charley Pinkerton.

The presiding officer shall, within five days after said election has been held, make due return thereof to the Commissioners Court of Ochiltree County, who shall, at its next meeting after said election canvass the returns of such election and if the votes cast in said district show a majority in favor of such consolidation, and provided further that the votes cast in the

Booker Independent School District in Lipscomb County, Texas, show a majority voting separately in favor of such consolidation, the court shall declare said school districts consolidated as prayed for.

All persons who are legally qualified voters of this State and County and who are resident qualified voters of the aforementioned school districts shall have written or printed on their ballots:

"FOR CONSOLIDATION"
And those opposed to such consolidation shall have written or printed on their ballots the words:
"AGAINST CONSOLIDATION"

Notice of this election shall be given by publication of a copy of this order in some newspaper published in Ochiltree County, Texas, for at least 20 days prior to the date of which such election is ordered, or by posting a notice of such election in said district, it being elected by the undersigned Dave Shanks, County Judge of Ochiltree County, Texas, that notice be given both by such publication and by posted notice.

Issued this 21st day of July, A. D. 1947.

Jane Cupper's "Daring" Bathing Suit

Cuppers showed me some of their nineteen-ten vintage—picking on the beach and pretzels, in bathing suits that made them look like they dressed in street-wear.

She was smothered in a long-sleeved pull-over with knee length sleeves and looking embarrassed—she thought Jane's costume of a blouse, two copious skirts, long black stockings was a daring.

She laughed a lot at those costumes, but came to think of it.

as Dee says, we'll probably look just as funny twenty years from now, in what we call our "Modern" clothes. Only thing that won't change in the picture is that melon, wholesome glass of beer.

From where I sit, tolerance that lets us wear sensible, decent clothes—to give us sun and air and freedom—will keep that wholesome glass of beer a part of the American tradition.

Ochiltree Vets To Get \$80,000

The way was opened Saturday for Ochiltree county veterans to receive an estimated \$80,000 in cash for their terminal leave bonds, when President Truman signed a bill allowing the bonds to be cashed, at any time after September 1.

Although the President and the administration had strongly opposed the bill for cashing the bonds, both the House and Senate passed the measure without dissenting vote. Opponents of the bill stated that it is inflationary, turning much more currency into circulation.

On the other hand, Senator Taft urges a reduction of the national debt, and by paying off these bonds will reduce the debt, he says, and will save the government that much interest. The Treasury department is making arrangements with banks and other institutions so that bonds can be cashed in local communities.

Positive identification of those cashing the bonds will be required to prevent "sharks" from benefiting from bonds they purchased at a discount. Although the bonds are not transferable, it has been reported that some persons have bought bonds from hard-pressed veterans for as little as 50¢ on the \$1.

This step of the government at last makes the enlisted man on an equal basis with officers regarding terminal leave. Officers have been given their terminal leave pay in cash at the time of their discharge.

The deadline for applying for terminal leave was extended to Sept. 1, 1948.

To Construct New Perryton Lumber Office Building

Workmen are razing the old Perryton Lumber Co. office building in preparation for constructing a new brick and tile office building for the company. The new office is expected to be completed by fall, and a temporary office has been located in the south warehouse until the new building is completed.

An interesting sight was discovered while the old building was being torn down. Underneath the floor there is wheat stubble from a crop harvested nearly 28 years ago, and the stubble is as bright and well preserved as the stubble from this year's crop.

The old building was erected soon after Perryton started in 1919. It was the Summers Hood Lumber Co., operated by Fred Hood, one of the early builders of the town. Later the yard was sold to the Panhandle Lumber Co., then to the Perryton Lumber Co.

Construction of a new office building is a part of the expansion and improvement program of the company. In June, a new brick warehouse was completed which nearly doubled the capacity of the yard. The new office building, 100 feet wide and 50 feet deep, will have more than twice as much space for the offices and display, stated J. H. Stephenson, manager.

Dannie Jean Mize, who has been visiting in Colorado City, Texas with relatives for the past month, returned home last Thursday night. Her cousin Betty Teal of Lubbock returned with her for a weeks visit.

Leslie Ayers, Amarillo, was a business visitor in Perryton Monday.

Mrs. Noel Keith attended the wedding of her brother, Randall, in Lubbock Saturday morning.

Mr. and Mrs. W. J. Miller are spending a few days in Amarillo. A farewell party honoring Mr. and Mrs. J. G. Kerns and Mr. and Mrs. Fred French was held Saturday night at the station. A gift was presented to each.

Beaver 'Gyp' Racket Comes To Abrupt End

It was a good thing while it lasted, but like all good things, the easy money racket which was worked successfully in Beaver and other counties came to an abrupt end last week with the arrest of C. M. O'Leary in Durango, Colo., along with his accomplice, Joe Hibbs of Spring field.

The pair allegedly cleaned Western Kansas and Oklahoma Panhandle farmers out of an estimated \$130,000, of which Beaver county farmers shelled out around \$50,000.

The deal was that the outsiders would approach a farmer and offer to sell him an automobile at dealer's list price, plus a 5 per cent commission. The slicker would take the farmer's check for \$750 and give one of his own in return, for the same amount. A few days later, the car would be delivered and the stranger would announce that he could purchase scarce farm machinery under the same terms.

Soon other farmers, eager to get in on a good thing, loaded down the stranger with \$750 checks, and the man would leave for parts unknown, after first cashing the checks. His checks, of course, were worthless. O'Leary operated a community sales and used car lot in Kingman, Kansas.

The Beaver county complaints are being filed along with the ones from other counties in which the pair worked.
