Jury finds Lozano death accidental

By ED TODD
R-T Staff Writer

ODESSA — "This is where justice is determined; rights are determined," Ector County District Attorney John Green told the six-member inquest jury probing into the Jan. 22 death of inmate Larry Lozano Jr.

"You're the justice system," said Green, who later said that the Lozano case had turned into a "race issue."

With that, the jury went into deliberation at 5:30 p.m. Wednesday and came back 25 minutes later with its verdict: Lozano's death in the Ector County jail was accidental.

In its two-day hearing before Peace Justice Virgil Lumpee, the three-man, three-woman jury had listened to the testimony of 37 witnesses, plus two by deposition.

Jury foreman Clifton Monroe Riggs, a 57-year-old Odessa real estate man, said the jury had no difficulty reaching a verdict. It came on first balloting.

"The testimony of all of them (witnesses) was important," he said immediately afterward.

Lozano, described by a sheriff's deputy as having "super-human strength," died in the county jail after eight men, including five deputies, subdued Lozano after he apparently went "berserk" in his padded isolation cell on Jan. 22 — his 12th day in jail on a charge of assaulting peace officers.

John Green

The jury's verdict, which essentially ends the chances of the case going to the grand jury, coincided with the opinion of Houston forensics pathologist Dr. Joseph A. Jachimczyk.

Jachimczyk, next to the last witness to testify, said Lozano died a "traumatic death — accidental."

" . . . In effect, that person (Lozano) suffocated to death," said Jachimczyk, the Harris County chief medical examiner.

He had examined autopsy findings and Lozano tissue slides taken by two other pathologists: Dr. Kris Challapalli of Odessa and Dr. Frederick Bornstein of El Paso. Both testified that Lozano died of throat injuries — suffocation — rather than by injuries to the head and abdomen, as previously held by the latter two pathologists. Bornstein testified that Lozano "was killed."

"All I know," Bornstein had said late Tuesday, "is that this human being (Lozano) was killed by another human being." He said the death was a "medical homicide."

Late Wednesday afternoon, Jachimczyk testified that, in his opinion, the death was caused "by outside force (by the deputies) coupled with resistance (by Lozano)."

Green asked the Houston pathologist if Lozano's death was "accidental, (legal) homicide, unknown or suicide."

"My my own opinion," Jachimczyk said, "is that it was accidental — unintentional."

Green asked Jachimczyk if he thought the lawmen trying to quell the apparently violent inmate had used undue force.

"Somebody used excessive force," he replied.

Jachimczyk said he saw no evidence that Lozano had been kicked in the face, as had been alleged by at least one jail inmate, Buddy Fazzio.

"(Death was by) trauma to the neck, certainly not by kicking or cutting," Jachimczyk said.

Minutes after the jury rendered its verdict, the sheriff's office on the first floor of the courthouse was buzzing with deputies and other peace officers who seemed relieved and pleased with the jury's findings.

Sheriff Faught, who had maintained Lozano committed suicide by repeatedly ramming his head into the glass window of his one-man padded isolation cell, said he regretted the death of his prisoner.

"Of course," the sheriff told The Reporter-Telegram, "you know it's a serious thing that happens where there's a death any time, any place.

"No one hates his (Lozano's) death

AFTER the Radio City Music Hall Rockettes had performed what they thought was their last show Wednesday night, members of the audience, including the elegantly-clad man with a white top hot, handed out flowers. But just after midnight, an agreement was announced that will keep the famous New York hall in business for at least another year. (AP Laserphoto)

Russian wants money?

UNITED NATIONS (AP) — Arkady Shevchenko, the Soviet government's renegade at the United Nations, is reported demanding money and U.S. protection to get Secretary-General Kurt Waldheim off the Russian hook.

U.N. spokesman Francois Giuliani said the top Soviet U.N. employee wanted "a mixed bag of money and personal security" to resign from his $76,000-a-year job.

When he resigns, Waldheim told reporters in Vienna, "this will become an affair between the Soviet and U.S. governments."

Some diplomats expressed concern that the affair would foul the atmosphere for Secretary of State Cyrus R. Vance's talks in Moscow next week on nuclear arms reductions.

Informed sources said Shevchenko wants the money he has paid toward the U.N. pension for which he is not yet eligible, a lump sum for the two remaining years of his contract and assurances he can remain in the United States.

One Soviet informant predicted he would get more than $100,000.

In Washington, State Department spokesman Tom Reston said Shevchenko "is free to stay here, return to the U.S.S.R., or go to another country as far as we are concerned."

The 47-year-old Ukrainian was scheduled to return to Moscow on leave this week but instead left his job as undersecretary-general for political and Security Council affairs April 5 because of "differences with his government," a spokesman for Waldheim announced Monday. He has not been seen in public since.

Shevchenko's American lawyer, Ernest Gross, says the missing man is in seclusion near New York but is not a defector. Gross said Shevchenko intends to remain a Soviet citizen.

The Soviet government accused the U.S. government of a "detestable frameup" and a "premeditated provocation" and charged that U.S. intelligence services were holding Shevchenko under duress. The State Department denied the charges.

Although Shevchenko's post is reserved for a Soviet citizen nominated by the Soviet government, Gross contended that the U.N. Charter prohibits Waldheim from firing him at the demand of the Russians. But a well-placed source said the Soviet mission asked Waldheim to get Shevchenko's resignation, and the secretary-general told Soviet Ambassador Oleg A. Troyanovsky he would do his best to get it.

Mikhail A. Kharlamov, Troyanovsky's deputy, said Waldheim had accepted Moscow's nomination of Victor L. Issraelyan, a veteran Soviet diplomat, to succeed Shevchenko.

Lozano verdict brings protest at courthouse

ODESSA — With Sheriff Elton Faught and several deputies watching from the roof of Ector County Courthouse, protesters of the verdict in the Larry Lozano case gathered today on the sidewalks in front of the courthouse.

Lozano's death in the jail here on Jan. 22 was ruled accidental by a six-person inquest jury Wednesday. Carolina Rodriguez, a Brown Beret major, said: "We are protesting the outcome and the fact that we couldn't get back into the courtroom after it was cleared yesterday. No one was surprised at the outcome."

She said a spokesman for Attorney General John Hill had informed her that within a week or so action might be expected from Hill's office in the Lozano case.

Carlos Garcia, another Brown Beret, said: "The verdict was just a one-sided story. It was just a circus."

Security by the Odessa Police Department was heavy in the courthouse vicinity, but police chief Jack Tomlin said he expected no trouble. A Brown Beret press conference was scheduled for 9 a.m.

Big Spring couple dies in accident

COMSTOCK — A Big Spring couple died early Wednesday morning from injuries received in a one-car accident about seven miles east of Comstock on U.S. 90 in Val Verde County.

Leocadio D. Valadez, 66, and Francisca Valadez, 66, were fatally injured when the car ran off the road in a construction zone and struck a concrete abutment, the Texas Department of Public Safety said. The accident occurred about 2:30 a.m. Wednesday.

LATE NEWS

BOSTON (AP) — Sen. Edward Kennedy has told his intimate friends and colleagues that he is seriously considering running for the presidency in 1980, the Christian Science Monitor reported today.

Located 25 miles southeast of Carlsbad, near New Mexico State Highway 128, the proposed Waste Isolation Pilot Plant (shaded area of map) would store low- and high-level nuclear wastes.

Carlsbad area found ideal for WIPP project

EDITOR'S NOTE: This is the second in a series of articles on a proposed nuclear waste disposal pilot plant near Carlsbad, N.M. The third part of the series will appear in Friday's Reporter-Telegram.

By JIM STEINBERG
R-T Staff Writer

CARLSBAD, N.M. — "If in 10 years from now we determine the storage of radioactive wastes to be successful here, it may be decided that this would be the best place in the country for the storage of high-level commercial nuclear wastes," the Department of Energy's number two man said here Tuesday.

The statement by DOE Deputy Secretary John O'Leary came in response to a question at a public information hearing on the proposed Carlsbad Waste Isolation Pilot Plant 25 miles southeast of this city of 28,500.

At that hearing, DOE officials explained that tests conducted since 1972 have shown the area ideally suited for construction of a $370 million underground facility that would store both low- and intermediate-level radioactive wastes as well as high-level radiation waste from defense projects and spent fuel rods from nuclear reactors.

The proposed WIPP site is approximately 40 miles from a potential future source of Midland's water beneath the T-Bar Ranch, in Loving County on the New Mexico-Texas border.

O'Leary said Tuesday that if the salt beds in the area of the WIPP site began seeping into this watershed "you'd have as much of a problem as you would with the radiation." Because of the geological stability of the area, O'Leary said he could not foresee that kind of contamination occuring.

The city has water rights to the 920,000 acre-feet of water beneath the ranch. At the city's present consumption rate, city officals have said this untapped underground water could supply the city's water needs for the next 62 years.

The WIPP is part of the nation's first attempt to form a policy on nuclear wastes.

O'Leary said that the absence of satisfactory long-term disposal facilities from spent fuel rods used in nuclear reactors has eliminated nuclear energy "as a viable option to the nation's energy problems. We are trying to get it back."

To retrieve the atomic energy program, O'Leary said, was the reason for the expansion of the WIPP from the original "mission," declared in 1972, as a storage area for low- and intermediate-level transuranic wastes that are by-products from various defense projects.

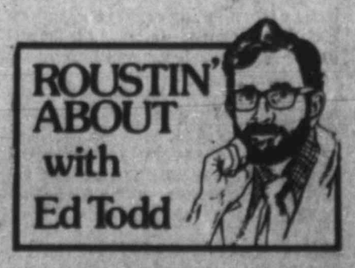

"But even if another nuclear power plant were never built, we would still have an enormous problem of what to do with the wastes we have already accumulated," O'Leary noted.

"We don't enjoy coming into an area like this and facing all the hostility of people who don't like the idea of a nuclear dumpsite near their homes. We could ignore the problem. Other administrations have done that. But we feel its the place of the government to come to grips with the nuclear waste problem," O'Leary said.

O'Leary admitted that the United States "got into the nuclear energy business" with haste, before waste

He plays for the 'soft swing' set

When was the last time you were "in the mood?"

If you're an avid fan of the late Glenn Miller of the Big Band era, it could have been just about any time.

A number named "In the Mood" was one of Miller's biggest hits. And among the "soft swing" set, it still is.

Only recently, possibly Texas' No. 1 Big Band, The Mal Fitch Orchestra of Dallas, dropped into Midland for a performance.

Band leader Mal Fitch put the 12-piece band through its repertoire of formal dance music. It makes for just good listening, too.

Naturally, since he's also a businessman in addition to being a pianist and vocalist, Fitch plays to and for his audience, which he can be particular about choosing.

He does not come cheap.

"There are three Ph.D.s up there (in the band)," Fitch remarked in a breather from the bandstand.

He said he's got the best players around for his organization, which numbers about 100 musicians. Not all are "scholars," like those three philosophy-type doctors in the band he brought to Midland.

Fitch, by the way, is . . . or was . . . an academian.

He used to teach courses on the history of Western civilization.

But he gave up school teaching to get into the lucrative musical world.

He was the arranger-conduct for the Crew Cuts ("Sh-boom," "Earth Angel"), that pop group of the mid-1950s, and went on up from there.

His vocalist is his Jo Stafford-ish wife, Betty.

Fitch plays most all (doesn't have an arrangement of "And the Angels Sing," though) of that once pop music of the 1930s and the 1940s. He touts Dorsey brothers' music, et al.

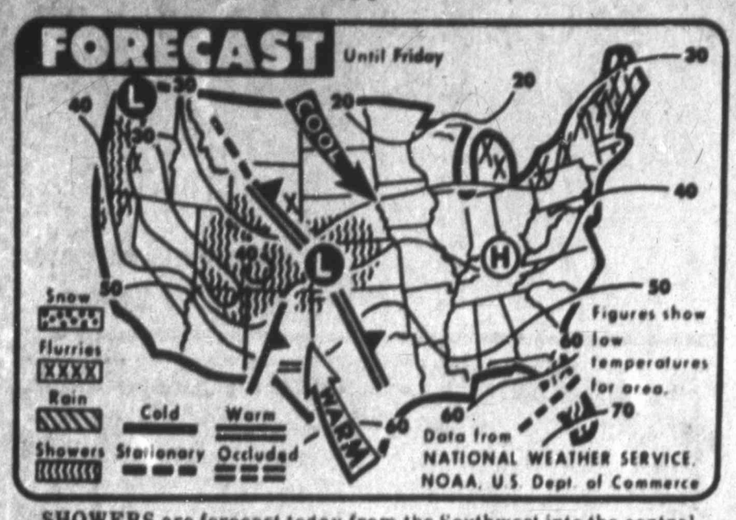

He plays his sophisticated renditions of the rock 'n' roll music of the the '50s, '60s and '70s. All types.

He's got an uptown arrangement of Jim Croce's "Big, Bad Leroy Brown."

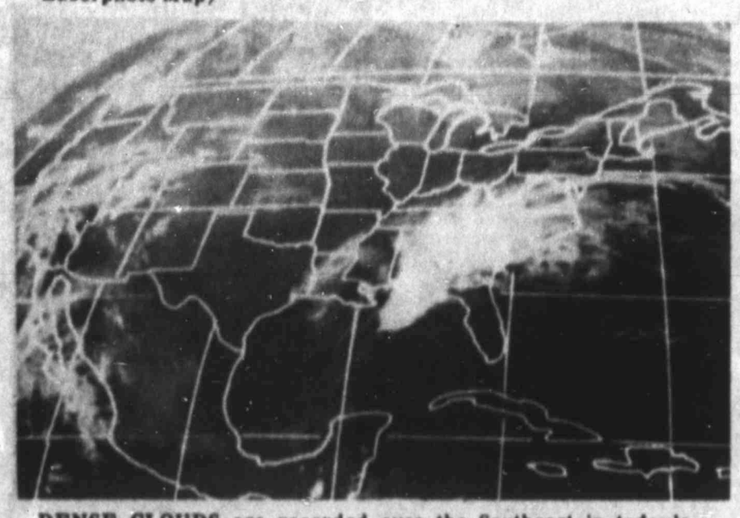

In sum: If you get a chance and relish that jazzy swing music,, make a date with Mal Fitch.

He's bringing the Big Bands back . . . for a price.

WEATHER SUMMARY

SHOWERS are forecast today from the Southwest into the central Plains and along the Northwest coast. Scattered snow flurries are expected for the St. Lawrence Valley and northern New England. Warm weather is forecast from the Southwest to the Southeast, but cool weather is expected for most of the country. (AP Laserphoto Map)

DENSE CLOUDS are recorded over the Southeast in today's satellite cloud picture, taken at 4 a.m. EST. Also visible are low clouds over portions of New England, the lower Mississippi Valley and from the upper Great Lakes to the extreme northern Plains, and high clouds over section of the western states. (AP Laserphoto)

Extended forecasts

Saturday through Monday

North Texas

Increasing cloudiness and warm Saturday. Partly cloudy, turning cooler with chance of thunderstorms Sunday. Decreasing cloudiness again Monday. Highest temperatures Saturday in the mid 80s, cooling to near 70 on Monday. Lowest temperatures Saturday in the 40s, cooling to the 50s on Monday.

South Texas

Increasing cloudiness and warm Saturday. Chance of showers and thunderstorms Sunday. Partly cloudy and a little cooler Monday. Overnight lows Saturday and Sunday in the 60s, except 70s along the coast and in the lower valley.

West Texas

Chance of showers and thunderstorms over the weekend. Otherwise, partly cloudy Saturday through Monday. Turning cooler first of the week. Highs in the 80s and 90s Saturday cooling to 60s north to 70s south except 80s Big Bend first of the week. Lows 30s and 40s Saturday cooling to the 40s north and mountains to 50s south by first of the week.

New Mexico, Oklahoma

Oklahoma—Fair to partly cloudy today. Partly cloudy tonight and Friday. Mild. Highs upper 80s to mid 70s. Lows mid 40s to lower 50s.

New Mexico—Partly cloudy with a few afternoon showers over the northern mountains today through Friday. A few thundershowers along the eastern border this afternoon. Moderate afternoon winds both days. Highs upper 60s and 70s mountains and north to the 80s south. Lows 30s mountains and north west to the 40s and low 50s east and south.

Texas area forecasts

North Texas—Fair and warm through Friday. Highs 78 to 84. Lows 48 to 56.

South Texas—Sunny and mild today. Fair and cool tonight. Partly cloudy and warmer Friday. Highs mid 70s to low 80s. Lows mid 50s north to mid 60s south. Highs Friday in the 80s.

Port Arthur to Brownsville— Variable mostly north winds around 10 knots today. Northeasterly winds 10 to 15 knots tonight becoming southeasterly 20 to 25 knots Friday. Seas 2 to 4 feet today, increasing slowly tonight. Partly cloudy.

West Texas—Fair through Friday. Warmer most sections tonight. Highs 71 Panhandle to 82 Big Bend. Lows 41 mountains to 49 Panhandle to 59 south. Highs Friday 73 mountains to 79 Panhandle to 85 Big Bend.

Lozano death found accidental

(Continued from Page 1A)

any more than I did," he said.

While Lozano was jailed, Faught said he had tried to get the prisoner confined to the hospital for psychiatric help. The man was prone to violence bordering on the berserk, he said.

"Hopefully, in the near future, we'll get a lock-up unit in the hospital (Odessa's Medical Center Hospital) where we can keep our mental patients," Faught said.

The sheriff said he has respect for his deputies and others who were suspected by some of intentionally killing Lozano.

"There's nothing else that I can say, but that I am pleased with the verdict," Faught said.

Among those not pleased by the jury's finding was Lozano's aunt Lydia Ortega of California.

"The way I've been looking at it, it's a kangaroo court," she said even before the jury had begun its deliberation.

She was one of several of Lozano's relatives who had listened to the two-day hearing. Lozano's mother, Conseula Lozano of Pecos, was not at the hearing. She has been ill and is in a coma, another relative said.

"I'm taking her to California," Ms. Ortega said of Lozano's mother.

Minutes after jury had been dismissed, Green, standing in the third-floor hallway just outside his office, termed the Lozano's case "a race issue."

"This should have never been a race issue. This was a race issue," he said.

Brown Beret "soldiers" and others from the Mexican-American community have been protesting Lozano's death for 2½ months. Brown Berets were represented at the inquest.

Green said he expected the federal government to attack the Lozano case from the civil-rights angle.

"I expect the federal government to try to do something," Green said.

He said the federal government has been checking into the case because of "the fact that it is a minority" ethnic group involved in the Lozano case.

Green said the government wouldn't be interested were Lozano a "white man."

"That's what you call 'reverse discrimination,'" the district attorney said.

In referring to Texas Attorney General John Hill's interest in the Lozano case, Green said the case was as much as Ector County's as it was Hill's.

"The attorney general was here," Green said in alluding to Dan Maeso, an assistant to Hill.

"John Hill was part of the trial (hearing). This was John Hill's 'bird' as well as ours."

Though seated next to Green through much of the hearing, Maeso did not question witnesses, which included sheriff's deputies, Texas Rangers, present and former county jail inmates, the pathologists, police officers and Department of Public Safety troopers, mental-health people and others.

Green had charged Hill with concealing evidence in a criminal case (Lozano) in which "he does not now nor will ever have jurisdiction."

Maeso, however, told The Reporter-Telegram Wednesday that the attorney general's investigation into the Lozano case "is still going on."

And in alluding to a Monday night meeting he had with Ector County jailer Jackie Perkins, Maeso said, "It's not true that I offered immunity — totally untrue . . . .

"The only person that can do that is Green," Maeso said.

Perkins, the jailer on duty at time of Lozano's death, was the 18th witness called by Green to testify at the inquest.

The 26-year-old jailer said Lozano had been placed in the padded isolation cell because "they had trouble with him earlier that day (Jan. 22)."

He said "several inmates . . . said they were having trouble" with Lozano in his tank cell. He said Lozano had busted out with his shoes a thick (about an inch) glass window in the cell.

Perkins said he checked on Lozano when he heard a banging in the second-floor isolation cell. That was about 7 p.m. on Jan. 22, a Sunday.

"I seen Lozano coming down violently on the glass (window)," Perkins testified. "He was butting his head . . . (and) was bleeding from his head."

Perkins said he tried to calm Lozano.

"I was trying to tone him down, trying to get him under control before he hurt himself."

But Perkins said he "never got a response out him."

"I was in total shock how the man went berserk," he said. "I honestly thought the man was going to knock the (steel) door down."

Perkins said he called for assistance from other peace officers.

By 7:10 p.m., the first of eight men, including deputies, reserve deputies, a game warden and a Department of Public Safety trooper, arrived to help quell the "major" disturbance, Perkins said.

"Our concern was to try to get Larry Lozano out (of the one-man cell) . . . to get him medical attention," Perkins said under examination by Green.

One deputy sprayed Mace, a gaseous defense product similar to tear gas, into the cell. ". . . It didn't bother him," Perkins said.

Perkins said Lozano had in his hand a brass "ring," about 10 inches in diameter, unscrewed from a drainage hole, and apparently used that and his head to shatter the glass.

After coaxing Lozano up to the door and getting him to stick the ring partially through the "bean hole" (for giving food to a prisoner), deputies tore the ring from Lozano.

Perkins then unlocked the door, and the officers rushed in, wrestled the "fighting" Lozano down to the floor and finally managed to handcuff him, Perkins said.

Just before the officers lunged into the cell, Perkins said he heard Lozano utter that "He was going to see what the next world was all about."

Other than that, Perkins said he couldn't understand what the man was saying.

"The noise that he was making was so great that you couldn't hardly hear anything," he said. He said Lozano had pieces of glass in his hand when the officers entered the cell.

Once brought down and handcuffed, Lozano, still kicking and fighting, was pulled or carried to the passageway just outside the isolation cell.

He said one deputy put on "headlock" onto Lozano to help bring him down.

Lozano, placed in a prone position, was being held down by several of the men. The heaving Lozano finally seemed to relax. Within minutes, he was dead.

On Tuesday, approximately 260 people, including uniformed members of the Brown Beret, listened to proceedings in the crowded courtroom, which is just above the jail.

On Wednesday, fewer than 200 were in the courtroom. But that morning, Justice Lumpee cleared the courtroom of spectators after many, in unison, uttered a low-pitched and rumbling "no," as if in disbelief when jailer Perkins said:

"I honestly thought the man (Lozano) was going to knock the (steel) door down."

Lumpee allowed members of Lozano's family, including relatives, and the members of the press to remain in the courtroom.

Earlier, he had warned the spectators not to make an "uproar" during the hearing.

More warm days likely

More warm weather is in store for the Permian Basin today and Friday says the National Weather Service at Midland Regional Air Terminal.

The overnight low tonight is expected in the middle 50s. The high temperature on Friday is expected to be in the middle 80s.

Wednesday's high temperature was 82 degrees, and the overnight low was 44 degrees.

It was clear and pleasant this morning in Andrews, Odessa, Lamesa, Stanton, Rankin, Big Lake and Crane.

Dense fog reduced visibility to near zero early today along the Texas Gulf Coast.

Fog, including some described by the National Weather Service as light, was also reported across a vast area of South Texas from Cotulla to Victoria and from San Antonio to Brownsville.

Elsewhere, skies were mostly clear. A weak cold front was stretched from near Wichita Falls to near Lubbock and westward into New Mexico.

Forecasts called for continued clear skies and warm temperatures statewide with afternoon highs expected to be mostly in the 70s and 80s. A few readings were expected to reach into the lower 90s in the Big Bend area of Southwest Texas.

Carlsbad area well-suited for nuclear waste facility

(Continued from Page 1A)

disposal problems had been resolved. "But we got into it purely as a means of national survival. That's the reason for our haste," he added.

"I tell you that we will not do it (the Carlsbad WIPP) if it can't be done safely for both humans and the environment.... It is something we should do in the national interest," O'Leary added.

The WIPP would cover 60 surface acres, according to the present proposal. Surrounding that would be a tightly controlled buffer zone, with a width up to three miles.

Waste disposal would be accomplished at two levels below the ground in a large salt deposit. At 2,100 feet below the surface, a disposal area of up to 2,000 acres would be prepared for transuranic wastes with a low degree of radiation. In 1985, about 95 acres are expected to be used for the storage of four million cubic feet of these wastes. After 1985, approximately 250,000 cubic feet of wastes are planned to be added each year.

At 2,600 feet, transuranic wastes requiring "remote-handling" will be stored. In 1985, 100,000 cubic feet of these wastes will be stored in a 10-acre facility. These are intermediate-level radioactive wastes.

The DOE task force also proposes the facility be used to demonstrate "the permanent disposal of up to 1,000 spent fuel assemblies discharged from commercial nuclear power plants."

Each spent fuel assembly contains approximately 47 atomic fuel rods. These are high-level radioactive wastes. One thousand of them would weigh approximately 500 tons.

Plans call for them to be stored at the 2,600-foot level. The demonstration would require no more than 20 acres.

An additional 20 acre facility at the 2,600-foot level would be used for research and development of storage techniques for high temperature, very high-level defense and spent-fuel wastes. No permanent storage is proposed for this material.

O'Leary said the DOE probably will ask the Nuclear Regulatory Commission for a license during March 1979. A decision from the NRC could be expected in early 1981. If the project is approved, it would take four years to build.

Visitor warns of 'consequences'

The Washington Post

WASHINGTON — Romanian President Nicolae Ceausescu met with President Carter at the White House Wednesday to warn that the world faces "severe consequences" if efforts to achieve a Middle East peace settlement fail.

In his remarks during the welcoming ceremonies, Ceausescu said an equitable settlement must include withdrawal of Israeli forces from all Arab lands occupied in 1967, creation of an independent Palestinian state and guarantees for the integrity of all nations in the region.

His comments provoked special interest because Romania has ties to both Israel and the Arab states that, in the past, have enabled Ceausescu to play a middleman role in the Middle East. He helped to arrange last year's meeting between Egyptian President Anwar Sadat and Israeli prime minister Menachem Begin.

But, while the Middle East was among the main topics of Ceausescu's 90-minute meeting with Carter, U.S. officials said the talks involved a general exchange of views and did not include discussion of any specific Middle East peace plan.

Reports from the Middle East in recent days have said that Ceausescu had given Sadat a proposal for resuming the Middle East talks with the participation of the Palestinian Liberation Organization. These reports have been denied by Egyptian government sources.

Despite a mutual interest in the Middle East, U.S. sources said, the real main purpose of Ceausescu's visit is to keep open the lines that have given Romania a special relationship with the United States.

Although Ceausescu is making his fourth state visit to Washington, it is the first since Carter took office.

Romania is unique among the Soviet Union's Communist allies in the East European Warsaw Pact because it has followed a frequently independent course in foreign policy. It is the only Warsaw Pact country to have diplomatic relations with Israel, and it has pursued friendly ties with both the West and Moscow's adversaries in China.

Among the benefits of that policy have been Washington's granting of most-favored-nation tariff status to Romania — a position that has increased trade between the two countries tenfold in the last decade. Ceausescu, U.S. sources said, is keenly interested in having that status renewed.

If there is a potential cloud over the visit, it involves Romania's record on internal human rights. In contrast to his liberal foreign policy, Ceausescu has been accused frequently of keeping a tight, often repressive rein on dissent within Romania.

Carter recently received a letter from 66 members of Congress, who expressed concern about apparent restrictions on emigration of Romanian Jews to Israel. It called on Carter to confront his visitor "candidly and forcefully" on human rights questions.

However, such issues were glossed over at Wednesday's meeting, where Carter praised Ceausescu as "a great leader of a great country." A White House spokesman, Jerrold Schecter, said the human-rights questions was not discussed at Wednesday's meeting, but Schecter added that it could come up at later discussions.

In greeting Ceausescu, Carter caused a brief flurry of excitement when, in talking about Sadat's Israel visit, he described Jerusalem as the capital of Israel. The United States does not regard the city as having that status.

The White House later rushed out a statement acknowledging that the president had made a slip of the tongue. It carefully reiterated the long-standing U.S. position that Jerusalem's status should be decided in a peace settlement between Israel and the Arab countries.

Ex-ambassador blasts Carter's South African policy

By KAY HORD

President Carter's policy in South Africa has resulted in unnecessary deaths, former U.S. Ambassador to South Africa John Hurd said Tuesday.

"Mr. Carter's changing of renunciations and support of guerilla operations has led to more killing, arson and burning.

"It's the wrong way to solve the problem. We are taking a small fire and throwing gasoline on it rather than water," he said.

Hurd was appointed as ambassador during 1970, under the Nixon administration. He continued to hold the job through the Ford administration, leaving in May 1975.

He was in Midland Tuesday night to speak at a fund-raising dinner for the Associated Republicans of Texas.

"I don't support South Africa's policies of apartheid, but I think we fail to realize, even if we were to have a multi-racial society and equality and moral justice for all races in that area, in order to support such a society, it must be economically viable.

"And I don't think anyone will disagree, at this point, that there are not enough educated black people to run an economically viable country," he said.

Apartheid is the policy of separate development of the blacks apart from the whites.

Hurd also sid he thought, by the positions taken by the United States, that we had we had given blacks in South Africa the impression that the U.S. would be supportive of black uprisings and might even furnish troops.

"I feel we have said a great many things concerning South Africa that we cannot implement," Hurd said.

"Andrew Young, especially, with his looseness of terms, has said things that might lead you to believe that American troops might beused against both Rhodesia and South Africa. It could also contribute to some radical thinking that could lead to more people getting killed," he said.

Hurd said the problems and issues in South Africa were very complex, basically stemming from the fact that about four million whites govern about 18 million blacks.

One of the main planks in apartheid includes giving blacks independent mini-states within South Africa. But the blacks are resisting this, Hurd said.

"They feel they should be given citizenship and be a part of the Republic of South Africa rather than have small, enclosed homelands. They do not think they would be economically viable — and they're right."

Hurd used Transkei as an example. Transkei Tuesday announced that it had broken diplomatc relations with South Africa.

"You have to remember that Transkei is a very arid, mountainous, basically non-arable land. Thirty to forty percent of the Transkeins work in South African mines and various industrial plants. Part of this income goes back to Transkei. Transkei basically is dependent on South Africa," he said.

"We have to be realistic about the situation with South Africa. I'm afraid that we have been carried away with the ideals of morals rather than concentrating on practical matters.

"We have to realize that just because we ask the Soviet Union and Cuban forces in Angola, and most recently in the horn of Africa, to leave that they are not going to go home.

"South Africa is very important because of its position and the minerals and goods it produces. We have to help move it to a better way for its people," he said.

Hurd said the situation with apartheid had improved since he left Africa.

"There's integration of sports, which is practically complete now. There's the multi-racial aspect of public schools as compared to private schools before. The multi-racial public schools were not allowed before. There also are some moves in some areas to allow blacks to own their own homes," Hurd said.

Local Historical Society to hold spring meeting

The presentation of five historical papers and two special awards will highlight the spring meeting of the Permian Historical Society scheduled Saturday at Furr's Cafeteria here.

Clayton W. Williams Sr. of Fort Stockton is president of the society. Mrs. Nancy McKinley, president of the Midland County Historical Society, is in charge of meeting arrangements.

A meeting of the board of directors will be held at 9 a.m., with the general meeting to open at 10 a.m. The registration desk will open at 9:30 a.m.

Three papers will be delivered during the morning session: "Early Mexican Settler in Pecos County" by Joe Primera; "Confederate from East Texas" by Judy McClure, and "History of the Seven D Ranch" by Johnnie Ruth Hill.

A business meeting is scheduled at 11:40 a.m., following which a luncheon will be held.

Two papers will be presented during the afternoon: "Pontoon Crossing" by Williams, and "The Application of a Successful Working Formula: The Founding of the Baptist Church in Ector County, Texas" by Bobbie Jean Klepper.

One of the special awards will be presented by Conrad Dunagan of Monahans and the other by Mrs. McKinley and Dr. Roger Olien. The recipients will not be announced prior to their presentations.

County Historical Commission reports will be heard during the day.

Alleged Nazi object of scorn

CHICAGO (AP) — Even if he wins, even if a judge finds that Frank Walus did not lie to immigration authorities about an alleged past as a Nazi terrorist, the victory may be empty. Walus has already lost a great deal.

His teen-age son, who wants to attend West Point, threatens to leave home. His lawyer is pressing for payment of $60,000 in legal fees.

Strangers scrawl swastikas on his home. Some of his neighbors shout epithets at him. Others testify against him.

"I have lots of phone calls threaten me and also my tenants," said Walus in an interview in his neat living room. He rents out the second floor of his modest two-flat building. "They say they will blow up my house. They put lots of swastika on the sidewalk and throw eggs at my house."

Walus, 55, a small man who speaks with a heavy Polish accent, is accused of lying to immigration officials and covering his alleged Nazi background to become a citizen.

Eleven witnesses swore in U.S. District Court before Judge Julius Hoffman that they recognized Walus as the Gestapo agent who 35 years ago was seen to murder and beat Jews in the Polish cities of Kielce and Czestochowa. He would have been a teen-ager then.

Walus maintains he has never killed anyone: "I am innocent, clean like a blank sheet of paper."

Walus first visited the United States in 1959. In 1963 he returned, to reside quietly on Chicago's southwest side — until Jan. 26, 1977, when federal officials thrust a civil complaint into his hands.

Club to hear 'spokes-mam'

BIG LAKE — June Brooks of Ardmore, Okla., widely-known as "a one woman - free enterprise system," will be the speaker tonight at the annual ladies-night banquet of the Reagan County Lions Club.

The function is scheduled at 7:30 p.m. in the school cafeteria.

Ms. Brooks, who heads the June Brooks Oil & Gas Co., has been in the oil business more than 35 years. She was the first woman trained by Magnolia Petroleum Co. to be a landman. She is a director of the Independent Petroleum Association of America and is active in the American Petroleum Institute. She is nationally-known "spokes-mam" for the independent segment of the oil industry. Her speeches have gained her the title of "The Mad Mam from Ardmore."

Frank Sandel is arrangements chairman for the event. Ralph Duesing is the club president.

Powerful 'sermons'

Three distinguished persons — each from entirely different backgrounds and careers but all loyal, concerned Americans — spoke out forcefully for America and its free enterprise system in talks delivered here within the last week or 10 days.

This is a most encouraging sign, reflecting as it does a nationwide trend which seemingly is gaining momentum. And what better time for such a groundswell than in an election year.

Maj. Gen. Harry H. Johnson (Ret.) of San Antonio, and a Midland resident back in the 1930's, was one of the speakers who spoke out in a firm, patriotic tone in brief remarks made at a luncheon given in his honor by Walter H. Waine Jr. of Midland, the general's aide during World War II years. The occasion marked the general's 83rd birthday.

"We've got a great country," Gen. Johnson said. "We don't know how great it really is until we've seen other countries.

"We've got to keep it a'going and a'rolling."

He credited the free enterprise system with being one of the things which make this nation great.

"Service in the military is important to everyone — not only to the ones who are in it..... It reflects what kind of people we are...;

"We did our job (in the war). We did it with our heads up," he said.

Another speaker, a noted entertainer who performed at a High Sky Girls Ranch benefit here last week, concluded his comedy routine in a serious vein.

Justin Wilson urged his listeners to love their country. "The United States is your country," he said. "Sometimes it's not worth a damn, but I won't stop loving it."

He then spoke out for free enterprise, saying "The free enterprise system is rapidly going by the wayside because of over-regulation up there in Washington, D.C."

He explained that bureaucracy is the No. 1 saboteur of free enterprise. He said that this faceless, burgeoning bureaucracy is, after the executive, legislative and judicial branches of government, becoming the nation's unofficial "fourth branch" of government.

"We must stop this trend of fading free enterprise," he declared.

The third speaker was Wallace A. Moritz of San Angelo, president of the Texas Association of Realtors, who addressed a dinner-meeting given in his honor by the Midland Board of Realtors, in cooperation with Boards of Realtors of Odessa, Big Spring and Snyder.

Moritz declared himself for the free enterprise system in words loud and clear. He urged that others stand firm in their support of the system which has made this nation great.

In urging his audience to be alert to legislative matters and to become more involved in governmental affairs from local to national levels, the veteran West Texas Realtor said, "Our business, like most others, is threatened by too much government involvement."

"It behooves us, then, to become involved in politics," he continued. "I know many of you have been cautioned in the past that you must do this .... but we have procrastinated. I say to you, it's later than you think. You can no longer leave it up to George, because George has sent a message that he is tired of doint it all..

"This is your country and your government. It's time to elect good, conservative candidates who share your philosophy and our philosophy..... Remember, this is an election year."

This was great preaching on most important topics by each of the three speakers. And their message that he is tired of doing it here.

Would that every loyal American speaker across the width and breath of the land would bear down even harder on this and similar subjects. As Mr. Moritz said, "It's later than you think."

The Country Parson

by Frank Clark

"I guess most people's religion is more an inheritance than a conviction."

ART BUCHWALD

Favorite tax fantasies as related to columnist

Art Buchwald

WASHINGTON — Many magazines have been doing articles on sex fantasies. It's amazing how many men and women will talk about them if their names are not used for publication. But it's rare to have anyone admit that they have tax fantasies. After prying and cajoling, I finally got several people of both sexes to tell me their favorite tax fantasies.

F.M., 33-year-old divorcee, writes: "It is 11 o'clock at night. I'm home alone reading Erica Jong when the doorbell rings. I put on my housecoat and go to the door. 'Who is it?' I ask.

"'Cohen of the IRS,' is the reply.

"'How do I know you're Cohen of the IRS?' I ask.

"'Who else would be at your door at 11 o'clock at night?'

"I open the latch and there is Cohen, holding a satchel in his hand. 'Frieda,' he says, 'I have a $3,000 refund for you.'

"I gasp and clutch the top of my housecoat.

"'How can that be?'

"'Your ex-husband, at the suggestion of his present wife, insisted on paying the income tax on your alimony, even though he didn't have to.' He hands me the money and I faint dead away. When I wake up, Cohen is sitting at the table counting out $3,000 in brand-new $100 bills."

—0—

L.D., a 30-year-old car salesman, writes: "I have this tax fantasy, maybe two, three times a week. I'm called down to the IRS office for an audit. The agent tells me to bring down all my receipts and records.

"He looks like a fat sheriff in a TV commerical sitting behind his desk smoking a large cigar. I tell him I have been meticulous about my deductions, and he'll find everything in order.

"He chuckles and says, 'That's what they all say. Why don't you make it easy on both of us and tell us exactly how much you've cheated Uncle Sam out of this time?'

"I say, 'It's all here. Every cent I deducted has been verified and accounted for.'

"'Okay,' he says, taking out his mini-calculator. 'If you want to play rough, I can play rough.' He starts hitting the calculator with his fat fingers. It takes three hours. He goes over the figures again and again. He can't find one thing wrong with my tax return. His face is red. 'There has to be something here,' he says.

"After the fourth time he realizes that the return is perfect. He looks at me, opens the top drawer of his desk and excuses himself to go to the men's room. I wait in my chair. Suddenly I hear a gunshot from the washroom. An aide says. 'Don't feel bad. For him it was the only honorable way out.'"

—0—

B.P., a 42-year-old father of three, says his favorite tax fantasy, which he has not revealed even to his wife, starts when he walks into a post office to mail his tax return. "Suddenly I see television cameras and newspaper people. As I put my folder into the slot, Secretary of the Treasury Blumenthal, dressed up as Uncle Sam, steps up to me and says, 'Congratulations, B.P. You are the one-hundred-millionth person to file a tax return in 1978. On behalf of a grateful government, you have won a free business trip to Hawaii for two, a four-bedroom tax shelter in Texas, full depreciation on your house for five years and a tax-deductible three-martini lunch at a restaurant of your choice.'"

—0—

T.R. is a 21-year-old career woman who has worked her way up in the stockroom of a very cheap department store. Her boss is known as the "wicked stepmother." Every April there is a ball given by the store before the spring clearance sales.

The stepmother says T.R. can't go to the ball until she counts all the glass slippers that are still unsold from a previous Cinderella promotion which never got off the ground.

As T.R. is counting the boxes a Fairy Godmother arrives with a new dress from Bergdorf Goodman and a diamond ring borrowed from Elizabeth Taylor. T.R. goes to the ball and meets a handsome prince. He falls in love with her, but at the stroke of midnight she has to leave. She loses her glass slipper. After a futile search he finally finds T.R. in the stockroom and tries the slipper on her foot. It fits.

He confesses he's really not a prince but actually works for H and R Block, the tax consultants. He explains to her that if they get married they could save $345 a year on their income tax. Overcome with the thought of the tax loophole, she says yes, and they live happily ever after.

WASHINGTON MERRY-GO-ROUND

Carter cabinet looking for leaks

By JACK ANDERSON

WASHINGTON — The government does not own the news, but every president has tried to control its flow. President Carter has not kept as tight a nozzle on the news as his predecessors did. But not even Jimmy Carter likes to read about his private conversations in this space.

From time to time, we have published excerpts from the confidential minutes and memos of the Carter Cabinet. This has upset the muck-a-mucks who attend the meetings. They have started to go bananas over their inability to find and block the leak.

The matter came up at a recent Cabinet meeting. Declared the confidential minutes: "The president and several members of the Cabinet discussed problems relating to leaks of Cabinet minutes and other information discussed at Cabinet meetings."

Carter ordered his Cabinet secretary, Jack Watson, to investigate and plug the leak. The president was terse about it. He instructed Watson "to consult the Cabinet" to find who's leaking and to provide the oval office with "a memorandum on this subject."

But Watson, like the White House plumbers before him, has been unable to shut off the news. Of course, he has not resorted to the bag jobs, break-ins, mail intercepts, tailings, frame-ups, buggings and other routines invoked by the Nixon White House.

For the past quarter century, we have published news from classified documents. We have been less willing than other correspondents to accept the government's right to classify whatever it wishes.

All too often, we have found that the government uses its classification powers to censor the news. Brass hats and bureaucrats stamp as "Secret" what properly should have been marked "Censored."

•

LOCKHEED LUCK — The federal government may soon shellout $1.3 billion to Lockheed Aircraft to replace all the wings on the problem-plagued C-5A transport plane.

But a former middle-level Lockheed official has told us that the company should not receive the contract. According to Henry Durham, who worked for Lockheed for 20 years, Lockheed officials discovered in 1969 that the wings had severe structural deficiencies.

Yet instead of halting production to redesign the wings, claims Durham, Lockheed attempted to strengthen them through costly and inefficient programs known as "wing fixes." He also charges that 48,000 parts for the wing repairs were simply scrapped at the taxpayers' expense.

The fixes gave the wings a safe flying life of only 8,000 hours. The government, therefore, must now replace all the wings at an estimated cost of $1.3 billion.

In a letter to Sen. William Proxmire, D-Wis., Durham charged that Lockheed was "paid tremendous sums of money to do the job correctly in the first place." Awarding the company the $1.3 billion contract, he contends, "would amount to a reward for disastrously rotten mismanagement and performance."

We first published Durham's allegations about other flaws in the C-5A program on July 19, 1971. He later testified before Congress. Most of his charges were also verified by a General Accounting Office field audit.

Afterward, Proxmire said of Durham: "I have never heard an abler witness ... He had examples, data, facts, records and actual parts to back up what he said."

Lockheed officials insist, nevertheless, that Durham was too far down in the company hierercy to have a "comprehensive picture" of the C-5A project. Snorted one company official: "He has no credentials for critiquing design."

A Lockheed spokesman, during two lengthy telephone interviews, confirmed that the company "went through expensive manufacturing processes" to stabilize the wings and that some initial repairs later had to be modified. He insisted, nevertheless, that a "blue ribbon" panel of government officials and industry representatives recommended that Lockheed take "interin measures" to fix the wings. The company would have defaulted its contract, he said, had it not made the wing modifications.

Footnote: Durham's allegations about the wing fixes have been confirmed by another forner middle-level Lockheed official in a written statement.

•

CHEAPER DRUGS — The big drug companies are trying to muzzle a Food and Drug Administration official who supports the purchase of generic drugs.

These are the cheaper substitutes for the brand name drugs which are manufactured by the giant pharmaceutical firms.

In a confidential letter to Commissioner Donald Kennedy, the mouthpiece for the industry, C. Joseph Stetler, who runs the Pharmaceutical Manufacturers Association, fumed about a Food and Drug official who had advocated generic drugs in testimony before the New York state legislature.

Stetler claimed that the official had tried to "coerce" the lawmakers. Kennedy responded that Stetler's charge was "absurd."

•

MULTIPLE SUITS — On February 9, we quoted from a confidential investigative memorandum, which alleged federal health programs at Georgetown University "had been ripped off to the tune of over $600,000." The memo charged that the taxpayers' money went to line the pockets of Dr. Frank A. Finnerty, a Georgetown professor.

We quoted the professor's emphatic denial. It was Georgetown that was responsible for the missing money, he said. Now the federal government wants Georgetown to return the money. Georgetown, in turn, is suing Finnerty. And Finnerty is countersuing Georgetown for $1 million.

It's up to the courts to decide who ripped off the taxpayers.

NICK THIMMESCH

Congressman McCloskey blows the whistle on Israel

WASHINGTON — Rep. Paul "Pete" McCloskey (R-Calif.) is urging his colleagues to vote a cut-off of military and economic aid to Israel if Israel is guilty of any further misuse of cluster bombs (CBUs) as is apparently the case in Lebanon, where civilian areas were hit by the devastating device.

It takes courage for a congressman to suggest that Israel is capable of making mistakes. McCloskey recently went through the tedious process of [illegible] the Carter Administration's arm to get it to admit that Israel did indeed violate its arms purchase agreement by using CBUs in Lebanon.

The cluster bomb is a hideous [illegible] which creates a blizzard of [illegible]ments over areas as large as [illegible], causing any humans around [illegible] or maimed. The U.S. sold [illegible] Israel with the strict stipulation that they were to be used for [illegible] purposes and only on [illegible] targets. Israel originally said it needed CBUs to attack SAM anti-aircraft missile crews.

McCloskey is against CBUs, period. When it was reported in the American press that Israel had used them on civilian targets, he got sore, and phoned the Defense and State departments who replied that they had no such knowledge.

On March 23, McCloskey had a letter hand-delivered to President Carter, protesting the "reported" use of the CBUs and urging him to "terminate the sale or transfer" of them to Israel. McCloskey described the horrible injuries Laotian villagers had suffered from CBU bombing in the Vietnam war.

McCloskey asked President Carter to convey this message and articles describing the horror of CBU bombing to Israeli Prime Minister Begin who was then meeting with Carter. Israel Defense Minister Ezer Weizman once described CBUs as "marvelous to use on personnel."

When a McCloskey staffer asked the Israeli embassy about the Israeli CBU action in Lebanon, he was told "to take the report with a grain of salt." (Israel eventually admitted using CBUs in Lebanon. U.S. correspondents report that many U.S. manufactured CBU canisters and parts have been found in civilian areas there.)

Meanwhile, with no response from the White House, McCloskey kept dogging State, Defense, and the CIA for confirmation or denial. Finally, on April 8, State confirmed that Israel had apparently broken its contract on CBUs, by using them in Lebanon.

So McCloskey wrote Carter again, stating that "whatever the provocation" for Israel actions, "the use of U.S.-supplied CBU cluster bombs against civilian areas in Lebanon was such an outrageous decision by an allied government that the U.S. should make it clear in the most direct form possible that we will cut off military assistance to any nation which uses CBUs against civilian targets."

He repeated his request for Carter to let Mr. Begin know how horrible CBUs are, and to act to prevent Israel from using CBU again or transferring them to other nations. Finally, he asked: "Does the U.S. still deliver or offer to deliver CBUs to Israel?"

McCloskey referred to press reports that Ethiopian aircraft used CBUs to terrorize civilians in Eritrea, and that Israel was providing CBUs to Ethiopia. If Israel transferred the U.S.-supplied CBUs to Ethiopia, Israel is in gross violation of its arms contract with the U.S.

Now, Secretary of State Cyrus Vance, in an April 5 reply to Reps. Charles Whalen (R-Ohio) and Paul Findley (R-Ill.), reported that Israel may have violated its arms agreement through its military operations in Lebanon. But Whalen and Findley were concerned about the overkill aspect, not specifically CBUs.

Why does McCloskey push so hard against cluster bombs?

"In 1971 I went to the Plain of Jars in Laos and learned of the carnage from CBUs," McCloskey says. "I also learned that 1,277 of the 2,500 men in my old regiment (Fifth Marines) suffered wounds from booby traps set in Vietnam by old people and children who had survived saturation bombing by the U.S. Civilians develop deep hatred for anyone conducting heavy bombing or using CBUs. It is militarily unproductive.

"Israel must learn restraint. There is a lot of murmuring among congressmen about Israel's military action these days. I have intelligent Jewish constituents who also worry about where Israel is going."

McCloskey is not a pacifist, or opposed to Israel using force in retaliation for guerrilla atrocities against Israeli people. He's against the victimizing of civilians by military force.

He was twice-wounded in Korea where, as a Marine infantry officer, he led assaults on Chinese positions. Fifty-eight of his GI men were killed or wounded. "I once monitored an air strike with napalm on a village," he said, "and when we got in there, we learned that the Chinese had forced 80 old people and children to remain in the houses. It took us two days to pull the 55 killed and wounded out. That's one reason I'm against bombing civilian areas."

THE BIBLE

CAN YOU QUOTE IT?

By LAVINA ROSS FOWLER

1. King Herod had his own particular method of keeping peace at home; He killed his mother-in-law, two sons and wife, ending all discussions or legal procedure, but what happened to him? Acts 12:23

2. What sort of a person did Solomon "dub" a maul, and a sword and a sharp arrow? Proverbs 25:18

3. Did Jesus suggest that He or any of His apostles evade paying taxes? Matthew 17:24-27

4. What did Peter say when Cornelius fell down at his feet to worship him? Acts 10:25-26

5. How did Naomi display her knowledge of men? Ruth 3

Four correct . . . excellent. Three correct . . . good.

Man tires of 'swamp,' quits bureaucratic post

WASHINGTON (AP) — The bureaucracy got to Harry Cain this week, and he quit. "I don't think I can say why I decided to do it now," the $42,000-a-year bureaucrat said after announcing his decision Wednesday to about 200 of the federal civil servants who worked for him. "I was flying home from Phoenix and decided, now."

Cain, 40, just decided he couldn't fight the bureaucratic rules any longer. He couldn't hire the people he wanted and couldn't fire those he didn't.

But he didn't put it that way in his speech. Cain has a stutter and began slowly, deliberately, cough drops clicking against his teeth:

"I have been in the health programs of this department since 1962 and have been extremely fortunate in having had a wide range of exciting, worthwhile challenges. ..."

Cain's voice failed him.

He pushed the microphone away, paused a few seconds, then gave up and sat down. His boss, Henry Foley, whom Cain brought into government years ago, stepped to the podium to "continue for my good friend."

Foley, now Cain's boss in the Health Resources Administration of the Department of Health, Education and Welfare, read Cain's prepared remarks:

" 'I have totally lost my tolerance for the bureaucratic swamp through which a bureau like this must wade,' " he read. " 'The widest and deepest channel in the swamp, of course, is affectionately known as the personnel system.

" 'Lesser channels include procurement, reports clearance, regulations development, et cetera, in each of which good waders have been known to drown. In the last several years, I've waded through most of those channels, often with the water up to my nose. Too much of anything can ruin one's taste for it.' "

He urged support for President Carter's proposed overhaul of the civil service system to give managers more authority to fire and more responsibility to perform. But Cain clearly had had enough.

"I wish only that I could have made some progress in draining the swamp," he said. "Having failed at that, I wish (my colleagues) strength, stamina, hope, good humor, faith, a charitable spirit and whatever else they need to keep their heads above the stillrising water."

When the speech was over, several bureaucrats came up to say a few words to their departing boss. The first one, a younger man whose lower lip was quivering, said simply, "You're a good man, Harry Cain," and turned away. A woman threw her arms around him. Others wished him luck.

"What are you going to do now?" Cain was asked.

"I'm going to swim over to the side, climb up and dry out. I'll think about it after that."

George Weis

Lions choose officers

Members of the Downtown Lions Club elected officers for 1978-79 and heard an address by Jim Reese of Odessa at their Wednesday noon meeting in the Midland Hilton.

George Weis was elected president of the club, succeeding Garland Chapman in the office.

The other officers named include Ray Gwyn, Morris "Bull" Hulsey and Jerry Speck, vice presidents; Tom Mixon, Lion Tamer; Carol Hisey, club sweetheart; Frank Marlow, secretary-treasurer; Jack "Hats" Darden, tailtwister, and Hap Palmer, assistant tailtwister.

The new directors elected are Al Dirnberger, Dr. Norman Gould, Larry Hunnicutt and Ab Ellis.

Reese, an Odessa businessman and a Republican candidate for the 19th District congressional seat now held by George Mahon, spoke on the subject, "Our Commitment to Freedom." He was introduced by Lion Douglas Beck.

Criticizing big government as it exists today, Reese said it now is a race between the productive and the non-productive, with the non-productive having taken the lead recently. He said 40 percent of the Gross National Product goes to the government.

"If and when free enterprise dies its epitaph perhaps will read 'The Greatest Story Never Told,' " the speaker said.

He told his audience that a dedicated few can bring about needed change.

"Citizens should and must stand up for what they think is right," he said.

A 200-year new idea of freedom was discussed by the speaker.

Reese cited five responsibilities of individuals: (1) To yourself to do the best that you possibly can; (2) To family — to particiate; (3) To community — put something back into it; (4) To country — to participate, and (5) To your God.

"And if we put the last responsibility at the top of the list, the other responsibilities will fall into place," he concluded.

Texas court makes landmark decision on renters' rights

AUSTIN, Texas (AP) — A renters' rights decision handed down by the Texas Supreme Court on Wednesday was a major victory for consumers, the head of the attorney general's consumer protection division says.

But the executive director of the Texas Apartment Association says it might dry up the supply of housing for low income persons.

The high court, in a major decision setting a precedent in Texas law, said landlords owe their tenants liveable housing.

It also said courts may no longer enforce rent on apartments, duplexes, rooms or houses that are unsafe, unsanitary or otherwise unfit to live in.

"It's a major decision for consumers. It creates new rights for consumers that have been previously unrecognized in Texas and definitely follows the national trend," said David Bragg, chief of the attorney general's consumer protection division.

Lyle Johansen, director of the apartment association, said the owner of the 75-year-old building whose defects led to the landmark court case, simply tore down the structure.

"He decided it would be cheaper for him to get out than make those repairs. I'm sure there are going to be a lot of owners who feel the same way," he said.

This could reduce the amount of housing available for families and individuals without the money for better quarters, he said.

Johansen said the association, which had filed a brief urging the court not to deviate from existing common law, had not decided whether to request a rehearing.

He predicted the decision would "create a lot of confusion" and many more court cases.

"It may take years to determine what makes a place habitable and what doesn't," Johansen said.

Bragg explained in laymen's terms the court's decision that landlord-tenant relationships include "an implied warranty of habitability."

"With this decision, the tenants have a right to demand that the landlord get the premises in liveable condition if he expects them to pay the rent," he said.

"You don't have the right to unilaterally stop paying your rent. But if he tries to collect the rent, you could say, 'Not until you make it liveable.' It means that if you are paying $400 in rent, but the place is only worth $100 a month because of roaches and no heating, the tenant will pay only $100 if it goes to a lawsuit," Bragg said.

The suit was brought by Wilford Kamarath of Dallas against C. C. Bennett, from whom he and his family rented a $110-a-month apartment in 1975.

Candidate to appear

All five Democratic and Republican candidates for the 19th District congressional seat are scheduled to appear at a candidates rally at 7:30 p.m. Thursday in the Hospitality Room of Commercial Bank.

The event is sponsored by the League of Women Voters.

Farmers heading home after defeat of farm bill

WASHINGTON (AP) — Protesting farmers who massed thousands strong outside the White House to decry House rejection of an emergency farmaid bill say they're heading home to work for the defeat of their enemies on Capitol Hill.

The farmers — brought here by the American Agriculture movement — had jammed the House gallery for Wednesday's 268-150 vote defeating the farm bill.

They had lined the White House fence — 3,500 of them — telling Jimmy Carter through a bullhorn directed at the Executive Mansion that they wanted to talk to him.

Now they are leaving the city they've lobbied so heavily for almost four months, determined, says one, to "cook" the 193 Democrats who voted against the bill.

"In two years' time, the American people will regret this day ever happened," Bobby Jackson of Levelland, Texas, said outside the White House.

"It will be amazing what this will do for the Democrats in the next election. This'll cook 'em," he said.

"Come on out, Jimmy, we want to talk to you," yelled fellow Georgian Oliver Odom, pressing his bullhorn against the White House fence.

Carter, who was inside entertaining visiting Romanian President Nicolae Ceausescu at a state dinner, said later he had not been aware of the protest.

Carter had repeatedly threatened to veto the bill if it had reached his desk. He said it would have sent the country's inflation rate skyrocketing while raising farmers' feed grain costs.

He said the defeat of the bill, which had narrowly passed the Senate earlier this week, was "good for the farmers of the United States and ... very good for consumers."

The dissident farmers didn't agree.

"This is going to cause a lot of bankruptcies this year in rural America," said Texan Gerald McCathern.

While the Democratic chairman of the House Agriculture Committee, Rep. Thomas S. Foley of Washington, said he doubted Carter's veto threat was the key to defeat of the bill, the measure's Republican authors charged that the president's "heavy-handed pressure" and "scare tactics" had been responsible.

Opponents said enactment would have added between 58 cents and $2.14 to what a three-person urban family spends on food a week.

The bill would have raised basic support prices for wheat, feed grains and cotton while giving growers of those crops higher federally guaranteed prices this year in exchange for idling one acre for every two they planted.

Let Safeway's Family

RULES AND INSTRUCTIONS

1. TO OBTAIN MATERIAL: With each visit to participating store, each adult (18 years or older) may obtain one ticket and on first visit, one Collector Card. No Purchase required.
2. TO PLAY: Scratch off boxes with edge of coin to reveal prize amounts. INSTANT GAME: Three (3) prize amounts of a kind on one ticket wins that prize. COLLECT GAME: Correctly place collector stubs on Collector Card. Complete any column (1 thru 8) win that prize. Watch for "You Win" $ 100 or $1,000 Collector Stub and win that amount instantly!
3. TO CLAIM PRIZE: Submit tickets for verification to Store Manager (sign on back in his presence). Winners of $1-$20 Game paid in cash at store. Redemption of over $20: Complete Claimant's Form (retain receipt) for payment by check.
4. OFFER NOT OPEN TO: Employees of sponsoring retailer, its subsidiaries, manufacturers of Game, their advertising agencies and families of foregoing.
5. ALL TICKETS are subject to verification, are void and may be rejected if not obtained through legitimate channels, or if illegible, mutilated, forged, tampered with or irregular in any way, or contain printing or other errors. Liability for irregular tickets, or those not verified, limited to replacement of ticket. Void where taxed or restricted by law. Person(s) using any device, scheme, information or method other than fair chance to play and win is disqualified. Retailer reserves the right to limit prize to one per household. Valid winning tickets must be presented within two (2) weeks after end of Game or prizes or forfeited. Winning tickets become property of sponsoring retailer and cannot be returned. State, Federal and other taxes imposed on any or all prizes are sole responsibility of winners.
6. GAME ENDS ON APRIL 16, 1978, OR UPON DISTRIBUTION OF ALL TICKETS IF SOONER.
7. ALL TICKETS AND COLLECTOR'S CARDS must have same series number and are valid only in that Series No. Game.
8. UPDATING ODDS: Odds to win and number of prizes unclaimed will be updated each week after thirty (30) days for all prize categories $25.00 and over.
9. TICKET VOID IF it does not contain in front: Series No., Security Pattern, and Title "INSTANT MONEY TM" under scratch-off box; $ Symbol and spelled out word.
10. TICKETS—(One per address per day) also available by sending stamped, self-addressed envelope to: Instant Money, Series 609, 23 Chestnut Street, Englewood, N.J. 07631. Scheduled Commencement: January 15, 1978. Scheduled Termination: April 16, 1978.

Series 609 is played in 59 participating Safeway Stores in the State of Texas, cities of El Paso, Marfa, Alpine, Ft. Stockton, Pecos, Odessa, Midland and in the State of New Mexico, cities of Hobbs, Carlsbad, Artesia, Roswell, Alamogordo, Ruidoso, Las Cruces, Deming, Silver City, Socorro, Belen, Albuquerque, Las Vegas, Santa Fe, Los Alamos, Espanola, Taos.

Riots indirectly help non-whites gain news posts

The Washington Post

WASHINGTON — While city after city exploded into riots in the mid-1960s, George Lane was hauling a mailbag in Denver, Colo. On weekends, Lane, then 27, worked as a copyboy at the Denver Post but he didn't think he could be a reporter.

The newsroom, he said, was all white. In 1968, there were fewer than 100 nonwhite journalists among 38,000 professionals; today, there are 1,700 nonwhites among 43,000.

But three things happened in quick succession to change Lane's mind and to alter the status of minorities in the news business. As the cities burned, some black janitors, switchboard operators and copyboys were upgraded, many only momentarily, to reporters. Then in 1968 the Kerner Commission, in its study of the causes of the riots, implicated the insensitivity and minority employment practices of daily newspapers. It called the employment record "shockingly backward."

Reacting to all these pressures, a summer program to train and place nonwhites in the communications industry was started at Columbia University. George Lane was a member of that first summer session in 1969 and returned to the Denver Post as a full-fledged reporter.

"It took a bunch of brothers burning Watts and Detroit for an assistant managing editor to say 'Why don't you quit the post office?' And I was reluctant because the post office was security," Lane recalled last week. He was one of 100 alumni of the summer program, now run by the Institute for Journalism Education (IJE) at the University of California at Berkeley, who attended a conference here on minorities and the news.

The news isn't that good, said Jay Harris, the assistant dean of the Medill School of Journalism at Northwestern University.

"Over the last 10 years, the number of minorities in daily newspapers has increased fourfold, primarily in the reportorial category on large, urban newspapers.

"But over half of the (1,750) daily newspapers employ no minorities in reporting or editing capacities. The industry is still segregated."

Sitting in the hallway of the Capital Hilton Hotel, the headquarters for he two-day conference, George Lane laughed uneasily. "We now have four black reporters and a Chicano reporter who covers sports. But the changes are slow. They try to cover minorities more objectively but it's not a mecca yet," said Lane. George Lane has experienced many of the trends and attitudes that have been common to the black journalistic experience in the last 10 years: the period of being the Arthur Ashe of the newsroom; the fight for black instead of Negro, Chicano instead of Hispano; refusing to be tagged a "black" reporter but finding the stories were being ignored; and then the criticism of positive minority stories as public relations.

"Now the sensitivity comes from a respect for me, the individual, and the changes in editors, many are younger. But the only time the story is suggested by them is when it's riot potential, a crowd in the shopping center."

Many of the summer program alumni were sales clerks, librarians, unemployed, census takers or students before trying journalism. Michael Lopez, 34, who was unemployed in 1976, was recently named Arizona Newsman of the Year for his stories on corruption in prisons and the funeral home and mobile home industries.

DEATHS

J. W. Jungman

J. W. Jungman

Joseph Willis Jungman, 53, of 4713 Crockett Ave. died Tuesday afternoon of an apparent heart attack on an oil lease in Ector County.

Services will be at 11 a.m. Friday in St. Ann's Catholic Church with the Rev. Adolph Kaler, officiating. Rosary will be at 7:30 p.m. today in Newnie W. Ellis Funeral Home. Burial will be in Resthaven Memorial Park.

He was born Oct. 4, 1924, in Knox City and spent most of his early childhood near Knox City and Munday. Jungman went to schools in Sunset.

He served in the Navy during World War II as a radar officer and married Maxine Breeding on Nov. 1, 1949, in Lamesa.

The Jungman's moved to Midland in 1960. He was employed as production manager for Miller Oil Company for many years.

He was a member of St. Ann's Catholic Church.

Survivors include his wife, Maxine Jungman; three daughters, Rebecca Willingham, Mrs. Ron Qualls and Angela Jungman, all of Midland; two sons, David Jungman of Midland, and Leonard Jungman of San Angelo; one sister, Mrs. Annie Michael of Munday; one brother, Ed Jungman of Brady, three granddaughters and three grandsons.

The family requests memorials be sent to the Heart Fund or St. Ann's Ladies' Altar Society.

Ernest S. White

MONAHANS — Ernest S. White, 60, a 20-year resident of Monahans, died in his home here early Tuesday.

He was a brother-in-law of Mrs. Hal S. Adams of Midland, and was well-known throughout this section of West Texas.

Funeral services were to be held here at 2 p.m. today.

Lovidy Walker

ODESSA — Lovidy E. Walker died Wednesday in an Odessa hospital.

Services will be at 3 p.m. Friday in First Methodist Church of Loraine with the Rev. Fred Witta, pastor, officiating. Burial will be in the old Sweetwater Cemetery.

Mrs. Walker was born April 20, 1891, in Red River County. She married Joseph Franklin Walker July 21, 1907, in Gorman. She came to Odessa in 1963 from Loraine. She was a Baptist.

Survivors include four sons, Norvan Walker, E. O. Walker, Kenneth Walker and Truman C. Walker, all of Odessa; a daughter, Mrs. Merle Martin of Midland; a brother, L. E. Melton of Ranger; a sister, Norma Pilgrim of Dumas, nine grandchildren, 13 great-grandchildren and a great-great-grandchild.

Faye Roberts

Mrs. Russell R. (Faye) Roberts, 46, died Wednesday morning at her residence at 1704 S. Marshall St.

Graveside services will be at 2 p.m. Friday in Fairview Cemetery with Elder Elvis Barrington, pastor of Primitive Baptist Church, officiating. Services will be directed by Newnie W. Ellis Funeral Home.

Mrs. Roberts was born Nov. 14, 1931, in Memphis, Tenn., and spent her early life there. She moved to Midland in 1962.

Survivors include her husband; two sons, Randy Roberts and Richard Roberts, both of Midland; a daughter, Mrs. Rick Sprague of Midland; a brother, James Wigzell of Midland; a sister, Lynda Buck of Ohio, and a grandchild.

Lance warns editors censorship possible

The Los Angeles Times

WASHINGTON — Bert Lance, portraying himself as a victim of a "prosecutorial press," warned the nation's editors Wednesday that the press may face government censorship unless it improves its standards of reporting.

Lance, who resigned as budget director eight months ago as a result of questions about his past financial activities and who is being investigated by several federal agencies, also defended his continuing close relationship with President Carter. He said he still periodically advises the president.

His warning to the press came at the conclusion of a speech at the annual convention of the American Society of Newspaper Editors.

"In the absence of self-discipline and internal reform," he said, "other groups may find it necessary to step in and subject the press to the same rigorous standards of ethics and truthfulness that the press applies to the rest of us.

"That threat is called censorship," he continued, "and I may be mistaken, but I think it is a conceivable outcome of what appears to be a headstrong refusal to get your own house in order."

The Lance-Carter relationship also was defended at the ASNE convention by White House Press Secretary Jody Powell and political aide Hamilton Jordan, two other Georgians who are close to both Carter and Lance. They discounted as irrelevant any political damage the relationship may cause Carter.

Still another Georgian in the Carter Administration, Attorney General Griffin B. Bell, told the Los Angeles Times Wednesday that he will give Carter a status report on the Justice Department's investigation into Lance's banking and financial practices by Monday. Earlier, Bell had said, "if people will be patient, the Lance thing will be brought to a head."

Republicans have publicly questioned whether Carter's continuing embrace of Lance might adversely affect the outcome of the Lance investiations, which include a grand jury probe in Atlanta.

Some White House aides have expressed concern to The Times that continuation of the relationship, while Lance remains politically active and under investigation, may cause serious political damage to Carter.

At a Senate Judiciary Committee hearing, Sen. Charles McC Mathias Jr., R-Md., questioned Bell about a Jan. 20 Democratic party fund-raising dinner in Atlanta where Carter said Inace had "come out of Washington a hero" and was the only member of the Carter administration "who has been a complete success so far."

Mathias questioned whether such statement might affect the actions of grand jurors in the investigation. Bell agreed that they might and predicted that after he gives Carter a status report on the investigation, the president will stop makng public comments about Lance.

Lance told the editors he realized that many of them had negative impressions of him. "If I were to describe them," he said, "they would probably go something like this:

"He's a shady character.

"He has a tendency to cut corners.

"He exploited his public office.

"He exploited his relationship with the president."

Lance denied that any of the impressions were correct, but said they were projected by enough newspaper "to create a pervasive impression that I'm a shady operator who's been caught with his hand in more than one cookie jar."

Although Lance said he could spend many hours citing examples of "careless, erroneous or biased reporting," he questioned no specific cases of reporting that preceded his resignation under fire.

Actually, he cited only several reports, including a March 9 Washington Post story which reported that a bank holding company was seeking a contempt citation against him for failing to answer questions about his role in an alleged attempt to take over the company. Lance faulted the Post for failing to report that a federal court denied the request for the contempt citation.

He also challenged the accuracy of a March 22 New York Times editorial and a March 24 Washington Post editorial, both of which he said were erroneous because they relied on a Securities and Exchange commission report which was erroneous.

Finally, he denied as a "total fabrication" a Time magazine report last week that the White House had "confiscated" his diplomatic passport and that Jordan had told him to put some distance between himself and the president.

Lance said he voluntarily surrendered the passport and had never talked to Jordan about staying away from Carter or the White House.

Jordan, who also denied the Time story, said:

"Bert Lance is our friend, he will alway be. If he has done something wrong as has been alleged, but not yet proven, he will still be my friend. He has a personal relationship with several of us at the White House, obviously the president. Their relationship will continue. I think it is not official, it is proper."

Jordan tried to play down the significance of the relationship, however, declaring, "the communication he has with us is much less frequent than is, I think, perceived."

Powell, also defending Lance's continuing relationship with the White House, said, "I know of no instance in which Bert Lance has ever asked me or anyone else in the administration to do something that was a perversion of our public trust...."

Scoffing at suggestons that the continuing relationship might influence the federal investigations of Lance, Powell said, "I haven't even seen it speculated....that Bert Lance is getting a break because of his relationship with the president."

Eight schools compete in play contest at MC

Eight area Class AA schools are scheduled to compete today in the University Interscholastic League One-Act Play Contest at Midland College.

The plays will be presented in the lecture hall of the Fine Arts Building.

Admission charge for the performances is $1 per person for the entire day. Four plays will be presented beginning at 2 p.m. and the other four beginning at 6 p.m.

Schools and their contest plays include: Ozona, "The Ugly Duckling;" Stamford, "The Ugly Duckling;" Fabens, "The Mad Woman of Chaillot;" Sonora, "The Cave Dwellers;" Wylie, "The Sand Box;" Lubbock-Cooper, "The Haunted House;" Denver City, "A Company of Wayward Saints," and Alpine, "Quiet Please."

The contest is being jointly sponsored by the Midland College speech department and the Midland Community Theatre.

Search for men continues

DEL RIO — The search continues today for two Permian Basin men who are "missing and presumed drowned" after a boating accident Saturday on Amistad Reservoir.

Theodore J. "Bud" Portele Jr. of 2811 Durant Drive and Ken Holder and Oscar H. "Doc" Barker, both of Odessa, were fishing in a 16-foot bass boat in Devil's River, near Rough Canyon Marina, Park Service Ranger Eldon Cohlman said Monday.

Holder, the only known survivor of the incident, told rangers that "suddenly" he was in the water, the boat was running out of control and the other two men were missing.

Efforts to find the two have included divers, dragging the area and surface patrols by rangers, Texas Parks and Wildlife Department game wardens and border patrol airplanes.

Cohlman said one complication in the search is that they don't know where to look.

Council hears jury's list

BIG SPRING — City Councilmen heard a list of suggestions Tuesday offered by a 12-member Howard County grand jury called recently to consider the shooting death of Juan Galaviz.

Included in the suggestions was repair or replacement of audio and video equipment used by the Big Spring Police Department. The audio equipment did not work the night that Galaviz reportedly was shot by a Big Spring police officer.

Another suggestion called for coordination of policies and procedures within the department.

Police Chief Stanley Bogard said he was not sure what the suggestion for coordination meant.

ERA nears deadline

SPRINGFIELD, Ill. (AP) — Like sand in the hourglass held aloft by feminists rallying beneath the Illinois Capitol rotunda, time is running out on the Equal Rights Amendment.

With less than a year until the March 22, 1979, deadline for ratification, its supporters have zeroed in on Illinois with money, lobbyists and volunteers to try to win over the only major northern holdout state.

Tall City hosts 5-4A track meet Friday

By TERRY WILLIAMSON

Beginning 11:30 a.m. Friday at Memorial Stadium, 28 regional berths in both girls and boys divisions will be up for grabs in the District 5-4A track and field extravaganza.

Only the top two finishers in each race will earn a trip to the Lubbock regionals in two weeks, and if this meet lives up to past 5-4A runs, there should be a lot of surprises when the curtain falls. Field event finals begin at 11:30 a.m. while running preliminaries start at 1:30 p.m. Friday's finals will begin at 7:30 p.m. with the girls 440-yard relay.

San Angelo, Odessa Permian, Abilene Cooper and Midland Lee all appear to have a shot at the team title in what could be the tighest race for team honors in many years. The others have enough strength to keep it tight.

WHEN ALL is said and done, however, it will be the ones earning regional berths that count. The top two finishers in the region meet will earn a trip to the state meet, which will be held in Austin one month from Friday night's run.

If the meet ran according to times posted this season, which it never does, it would appear that Lee would have an outside shot at gaining two relays and four individuals for the regionals. Midland High, on the other hand, could possibly qualify one relay and five individuals. This would appear to be the very best both squads could muster, but there are some boder line cases involved. Still, the chance is there.

Lee's best chances come in the two relays, 440-yard dash and shot put. There is an outside chance in the 880 if things fall just right.

MIDLAND HIGH'S best hopes lie in the 100, 220, 880 and mile runs. There is an outside chance at qualifying a 440 relay team and both 100 berths.

The Pack's Alvin Price owns the best times in both the 100 and 220 this year with 9.4 and 21.5 times, but there is a bundle of talent in both races. Cooper's Charles Rainey owns a 9.5 in the 100 while Creighton Blahak of Cooper, Huff of Big Spring and Danny King of Permian all own 9.7. Jerry Bundage of Midland High has a 9.8 while Doug Guthrie and Dwight Washington of Lee both own 9.9. Rainey has a 21.7 in the 220 while Blahak, King and Huff in are in the 22.2 range. Abilene's Eddie Guillen's 22.4 was an upset over Price last week in San Angelo.

Permian's Danny Abbott, with a 49.7, and Lee's Phil Carleton, 49.8, are the big favorites in the 440 while Paul Pieper of Permian and Lee's Jami Berry own 51.5. Carleton is only a sophomore, but he has been the most steady performer for Lee all year.

THE 880 looks like a two-man run between San Angelo's Ed Bruning, 1:56.4; and Midland High's Chuck Stump, 1:57.0. Stump has never beaten Bruning, the defending 5-4A champion. If either should fail, San Angelo's Frank Rodriquez, 2:00.5 or Lee's Arthur Pertile, 2:01.5 could step in for a regional berth.

Only a week ago, the mile run looked like just another battle between San Angelo's Lon Albert and Midland High's Jeff Adkins. Albert has a 4:24.4 this year while Adkins owns the best mark of 4:23.7. Still, Lee's Steve Hooper pulled a big uspest over both the favorites last week in San Angelo with his best of 4:26.7. Hooper now knows he can win, and that could make a difference.

In the relays, where points are doubled, the Rebels look strong for two regional berths. Big Spring owns a 42.3 in the 440 relay while Cooper and Lee stand at 42.7 and Midland High owns a 43.2.

LEE'S EFFORT in the 440 relay will be handled by Jerry Moore, Berry, Guthrie and Washington. The Pack runners will be Jeff Robnett, Chris Sliger, Bundage and Price.

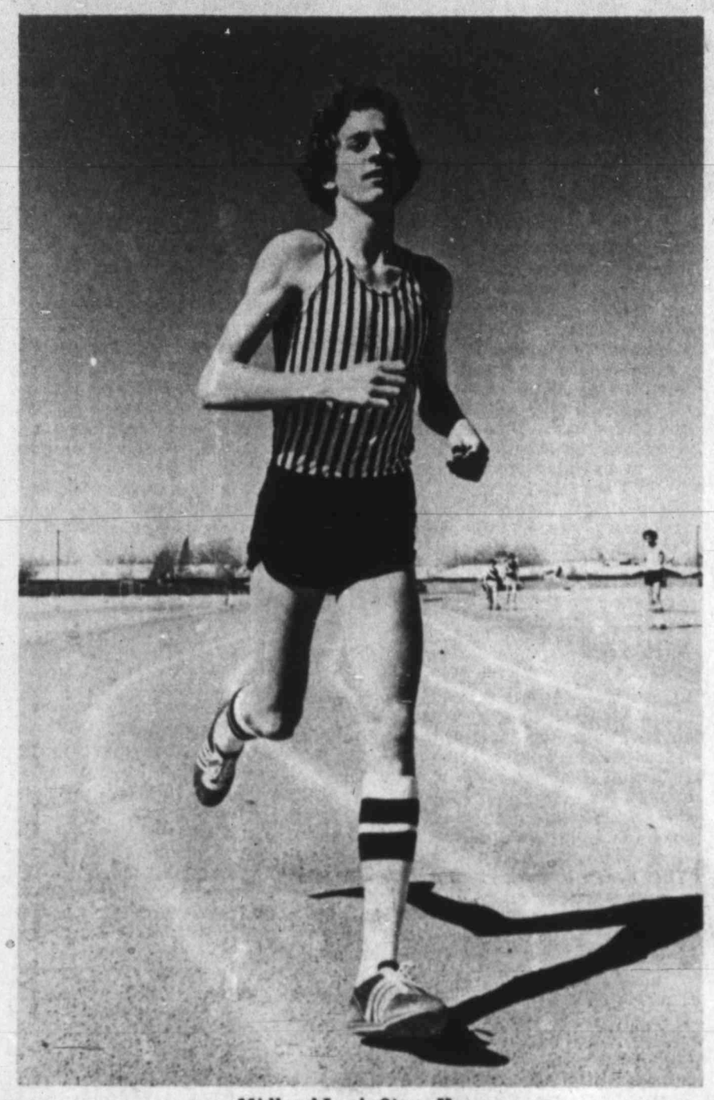

In the mile relay, San Angelo owns a 3:20.0, posted last week, while Lee has a 3:21.2, also posted last week in a loss to San Angelo. Pertile, Washington, Berry and Carleton have improved almost weekly in this event, and own victories over San Angelo this year. Permian is next with a 3:27.5 and Abilene High and Cooper both own better times than the Bulldogs.

Jeff McCowan, 55-6 this year, is Lee's major hope in the shot put. Permian's Tommy Sager is the favorite with a 55-8 this year. Lee's Rodney Taylor has a 53-7¾, and has been on the upswing.

Outside of those events, it looks as if the other 5-4A members will get the lion's share of regional qualifiers, but the competition is stiff in nearly every event, especially the two hurdle events.

PERMIAN'S ALAN Swann is the favorite in the 120 hurdles with a best

Midland Lee's Steve Hooper

5-4A netters invade Midland

By PAUL DOMONITCH

The District 5-4A tennis tournament opens Friday morning at the Lee High courts, as 96 young men and women go after a dream that few, if any, will realize.

The dream is a state championship, and this two-day affair is the first hurdle standing in the way. The top two finishers in each of the four events will earn berths in the regional tourney up in Lubbock, and from there it's non-stop to Austin.

Play begins at 9 a.m. Friday and will continue until completion of the first two rounds. Semifinal and final round action is scheduled for Saturday morning.

Midland High's Vicki Vasicek, last year's girls singles champion, is the only 1977 district winner back to defend her title. Kirk Farquhar, another Midland netter, who teamed with Jeff Bramlett to win the boys doubles title a year ago, is back also, but he has a new partner this time around.

The Pack won two of the four crowns up for grabs at the 1977 tourney in Abilene, and they should dwell, if not better, this weekend. They go in as the favorite in three events — girls singles and boys singles and doubles — and a sweep of all four, while not likely, is not out of the question.

VASICEK WILL be favored to win her second straight 5-4A girls singles crown, but the young junior is by no means a shoe-in. She made it all the way to the state semifinals a year ago, but she's been up and down ever since.

A case in point is the Abilene Invitational two weeks ago, where she was upset in the finals by Lee's Karen Broe. Broe has been living in the shadows of Vasicek for two years, but the 17-year-old senior has been playing very well on the winter tournament circuit the past few months, and she could very well win it all.

Not to be taken lightly is Midland High sophomore Mary Morgan, who gave Broe all she could handle in the semifinals of the Tall City Classic last month and plays the kind of game that can give Vasicek fits as well.

Pack Coach Larry Burgin had been debating whether to use Morgan in singles or doubles. Two weeks ago at Abilene, she teamed with Cary Garton in doubles and they made it to the finals before succumbing. But in the end, Burgin decided to play the youngster in singles.

Two other girls who could surprise are Debbie Vaughn of Abilene Cooper and Lee's Sharon Snyder.

MIDLAND'S BRAMLETT will move over to the singles event this year, and the 5-foot-7, 135-pounder will be the boys' favorite. His biggest challenge will probably come from Abilene Cooper's Brent Proctor.

Proctor beat Bramlett when they met in a dual meet in January, but in a return match two weeks ago in the finals at Abilene, Bramlett took him in three sets.

Bramlett's teammate, Jeff Rea is a solid player, and could muscle into Saturday's finals and earn a trip to Lubbock. Lee's two players in this event will be Ed Barrera and Randy Purifoy.

UP UNTIL last month, Larry Burgin had absolutely no idea who would be his number one boys doubles tandem by the time the district tourney rolled around. Then, he decided to pair Farquhar with Joe Love in the L.D. Bell Tennis Festival early last month.

He wasn't sorry.

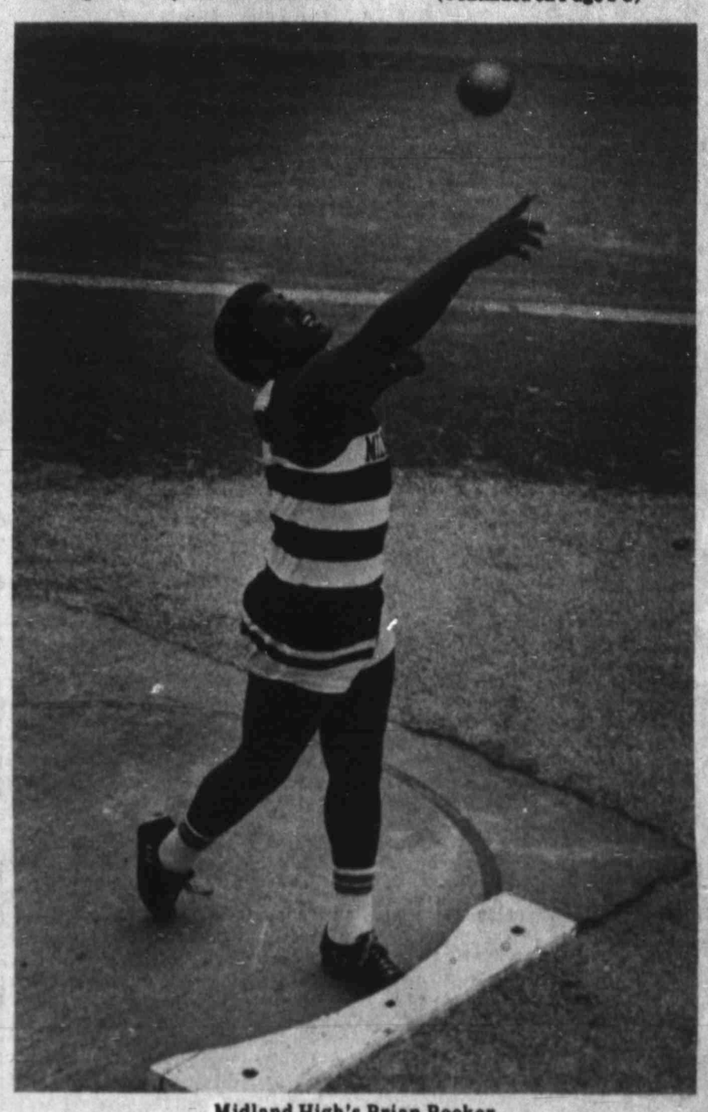

They lost in the finals of that one to the highly-regarded Dallas Highland Park team of Talbot Davis and Chris Doane, but after that they went on a tear, winning it all in the Tall City Classic, Lubbock and Abilene. They are favored to continue their streak this weekend.

In the Tall City and Abilene finals, the Midland pair beat Steve Ashley and Mike Madden of Odessa Permian and the two Panthers figure to give them their biggest challenge this weekend again. Other teams capable of the upset are Jeff Boykin and Joe Snailum of Abilene Cooper, Permian's other tandem of Steve Tinsley and Stan Gifford, Midland's number two team of Duncan Kennedy and Craig Aldridge, and Steve Black and Tim Nelson, and Tim Carter and Jon Lanier, Lee's two pairs.

THE ONLY event Midland High is not favored in is girls doubles, and yet, two days ago, it was the event Burgin was most optimistic about.

After experimenting with different

Midland High's Brian Booker

Knicks scorch Cavs, 132-114

By The Associated Press

The home-court advantage doesn't mean a thing if the visiting team is hitting 61 percent of its shots.

That's the formula the New York Knicks used Wednesday night to beat the Cleveland Cavaliers 132-114 at Richfield, Ohio, in the opener of their first-round National Basketball Association playoff series.

"That was a great ball game, one of the best this team has played all season long," said Coach Willis Reed after enjoying his team's explosive offensive display that featured 41 points by center Bob McAdoo and 16 apiece by Earl Monroe and Spencer Haywood.

"When the shots fall," added Reed, "a lot of things work. This is a great shooting ball club and when two or three guys get going ..."

He didn't have to finish the sentence. Cleveland Coach Bill Fitch knew exactly what he was talking about.

"It was a long night at the OK Corral," he said. "They never did have a cold streak. What's impressive is they got up 12 points and just continued to take it easy and work on offense. If New York plays this well, they'll not only be tough for us, they'll be tough for everybody. That's a tough team to defense."

Two other best-of-three first round playoff series got underway Wednesday, with the Washington Bullets beating the Atlanta Hawks 103-94 and the Seattle SuperSonics defeating the Los Angeles Lakers 102-90. Milwaukee beat Phoenix 111-103 Tuesday night in another playoff opener.

The second game in each series will be played Friday night, with third games, if necessary, on Sunday.

McAdoo scored 15 of his points in a 36-point third quarter as the Knicks took a 99-90 lead into the final period and then drew away. New York's 132 points were the most scored against Cleveland all year.

"Their execution surprised me," said Cleveland forward Jim Chones. "They let the guys who shoot well do the shooting and let the rest of the guys do the hard work ...They just played super."

Best of all was McAdoo, who was equally effective shooting from the outside or driving to the basket, hitting on 17 of 25 from the field.

"I ran to the open spots and I was just hot," McAdoo explained. "The adrenalin was flowing and they (the Knicks) knew I was hot and were giving me the ball. All you have to do is move and they'll get it to you."

Forward Campy Russell led Cleveland with 21 points and reserve guard Terry Furlow scored 20.

Bullets 103, Hawks 94

Washington built a 75-57 lead in the third period and hung on to beat Atlanta, getting 14 points from reserve guards Larry Wright and Charles Johnson in the fourth quarter to turn back a Hawks rally.

"They were coming at us pretty good," said Washington Coach Dick Motta, who saw the lead dwindle to six points in the fourth quarter. "With 7 minutes to go we slowed up too much, got a little cautious. It was a natural thing, but we shouldn't have played against the clock so soon."

Told that it had not been a pretty game, Motta said, "I don't think you'll see any Atlanta game that's pretty. If they played in a dark alley, they'd be arrested. It was hardnosed basketball, no place for the timid or weak at heart."

Bob Dandridge led Washington with 20 points despite sitting out the final period because of a recurrance of a pinched nerve in his neck.

Sonics 102, Lakers 90

At Seattle, Lakers center Kareem Abdul-Jabbar picked up his fifth personal foul 30 seconds into the fourth quarter and the Sonics ahead 73-68.

He sat out the next five minutes, during which time the Sonics stretched the lead to nine points. The Lakers could come no closer than five after that as Sonics center Marvin Webster scored seven of his team's last 15 points.

Gus Williams led the Sonics with 23 points and Webster and Fred Brown added 19 points apiece. Abdul-Jabbar topped Los Angles with 26.

Midland High's Jeff Bramlett

Dodgers blank Midland, 10-0

SAN ANTONIO — Mickey Hatcher hit a two-run homer and knocked in four runs to lead the San Antonio Dodgers to a 10-0 win over the Midland Cubs here Wednesday night as Dave Stewart combined with Gary Biggerstaff to pitch a five-hitter.

It was the Cubs second straight loss in the season opening Texas League series. The teams meet again at 7:30 p.m. today with Ted Power hurling for the Dodgers while rookie Herman Segelke will go for Midland.

Hatcher's two-run homer came in the second to put the Dodgers ahead 2-0, but for a while it looked like left fielder Eric Grandy had robbed Hatcher with a leap above the fence. Starter Ron Davis for Midland retired the first five batters before walking Mike Sciosia and then Hatcher followed.

In the third, the Dodgers added four more runs as Davis failed to retire a batter. Mark Bradley had a run scoring single and and Hatcher a two-run double. Davis was lifted during the rally for another rookie, Jack Uhey.

Uhey was driven to cover in the seventh by another four-run burst, this time the big blow was a three-run double down the right field line by Marvin Garrison, who won Tuesday's opener with a three-run pinch double.

Jeff Albert finished up in runless style, but the damage had been done.

FOR THE Cubs, it was a night of frustration. Although Stewart went seven innings, Midland had runners on base in every inning.

In the first inning, Steve Macko walked and went to third on Joe Hernandez' hit and run single. Hernandez stole second, but Stewart escaped.

In the second, Grandy, who had two hits, tripled and it looked like Kurt Seibert had driven in the run with a shot into the hole on the right side, but second baseman Jack Perconte made a great play.

In the third, Hernandez singled and Rosinski hit a 400-foot drive to the warning track in center, a few feet to either side it would have been a homer instead of being caught.

The Cubs play at San Antonio through Sunday before coming home to Cubs Stadium to face El Paso in a six-game series...Pre-game activities will get underway at 7:10 p.m. and everyone in attendance will receive a free Cubs bumper sticker. It also will be the first Elementary school night of the season...Segelke is a 6-4, 210-pound righthander from San Francisco who posted a 13-8 record for Pompano Beach in the Class A Florida State League last year.

In other Texas League action, El Paso defeated Amarillo, 6-3, Arkansas defeated Shreveport, 8-6, and the Tulsa-Jackson clash was postponed because of wet grounds.

Bill Ewing collected three hits in four trips to the plate, including a two-run, tie-breaking homer as El Paso defeated Amarillo, 6-3. Brian Greer had three hits in a losing cause for Amarillo.

Greg Wilkes was the loser in more ways than one. He argued that a home run hit off him in the sixth inning was foul and was ejected from the game.

Leon Durham had four hits as Arkansas beat Shreveport, 86. John Dean gave Shreveport an early 3-1 lead with a three-run homer in the third inning.

Royals pelt hapless Birds

By The Associated Press

It has been 13 years since the Baltimore Orioles had a poorer start than the 0-5 record that has dropped them to the bottom of the American League's East Division.

The Seattle Mariners haven't even been around for 13 months. But they are suffering a similar affliction: a fivegame losing streak and a lengthening list of disappointments.

"This is a nightmare," said Orioles Manager Earl Weaver after a three-run outside-thepark home run by sickly Amos Otis and an inside-the-park shot by slow-footed Darrell Porter carried the Kansas City Royals to a 5-2 victory Wednesday night.

"I'd like to wake up."

Seattle Manager Darrell Johnson might have been thinking the same thing after watching a creditable pitching performance by Rich Honeycutt ruined by errors in a 4-3 loss to the Oakland A's.

"Honeycutt pitched outstanding baseball," said Johnson, though the rookie's wild pitch permitted a run to score in the A's' three-run seventh. Seattle came back to tie the game 3-3 in the eighth, but Jeff Newman led off the A's' ninth with a game-winning home run.

"It's a tough way to lose, but ..."

In the other American League games, the Detroit Tigers trimmed the Texas Rangers 3-2 behind Mark Fidrych, the California Angels defeated the Minnesota Twins 9-5, the Boston Red Sox bested the Cleveland Indians 6-3, the Milwaukee Brewers — helped by Moose Haas' 14-strikeout pitching — trimmed the New York Yankees 5-3 and the Chicago White Sox nipped the Toronto Blue Jays, 5-4.

The loss left the Orioles the only winless team in baseball (Seattle at least has won twice), and brought Baltimore within reach of the 0-6 start that marred the 1955 season.

"I'll keep making changes until I find a club that can go out and win," said Weaver. "One swing of the bat can change this game around."

Actually, it was two swings — on consecutive pitches — that doomed the Orioles.

Otis, who had spent the morning in the hospital with kidney stone troubles, cracked the three-run homer that wiped out a 1-0 lead Baltimore had taken on Eddie Murray's second-inning homer.

Then Porter, the lumbering catcher, sent Mike Flanagan's next serve down the right field line and past the Orioles' Ken Singleton.

While Singleton chased the ball, Porter chugged around the bases and slid into the plate just ahead of the relay.

"I was running out of gas as I came around second and was hoping they'd hold me at third," said Porter. "That wasn't a slide at home plate. I was collapsing."

Newman's ninth-inning swing won the game in Oakland, although just 1,742 people were there to watch it — the second consecutive sub-2,000 night for the A's at their Oakland Coliseum home.

The A's carried a team batting average of .199 into the game against Seattle, but their pitching has been so strong (an earned run average of 1.04 on seven earned runs in their first six games this season) no one seems to mind.

Oakland had shut out the opposition for 29 2-3 consecutive innings before the Mariners scored twice in the top of the seventh.

Tigers 3, Rangers 2

Fidrych survived a two-run, first-inning homer by the Rangers' Al Oliver and permitted Texas just five other hits in helping Detroit come back to win.

"I was overthrowing the ball early," said The Bird. "But I decided I was still going to throw my best pitches at the Rangers. I struck Oliver out in the ninth inning with the same pitch he hit a home run off me in the first. You lose in this game when you give up."

Ron LeFlore's third single of the game, the Tigers' third straight hit in the seventh inning, drove in the winning run.

Texas may still have been recovering from a strange pregame scene in its locker room. Pitcher Roger Moret stood like a statue in front of his dressing area, in a trance-like state, for nearly an hour. A shower shoe was clenched in his extended right hand. He didn't say a word.

Hours later, after the application of sedatives, he was taken to Arlington Neuropsychiatric Hospital for observation, rest and tests.

Angels 9, Twins 5

Rick Miller's first home run since 1974, a grand slam, highlighted a nine-run first inning and carried California to its victory over Minnesota.

Frank Tanana survived a home run and a triple by Rod Carea before getting help from the bullpen. Dan Ford also homered for Minnesota.

Brewers 5, Yankees 3

A two-run, tie-breaking double by Don Money backed the club record 14-strikeout performance by Haas and carried Milwaukee to its fifth consecutive victory.

The Brewers continued their power barrage. Larry Hisle cracked the team's 11th of the season — his third — to tie the score 3-3. Sal Bando had homered earlier for Milwaukee.

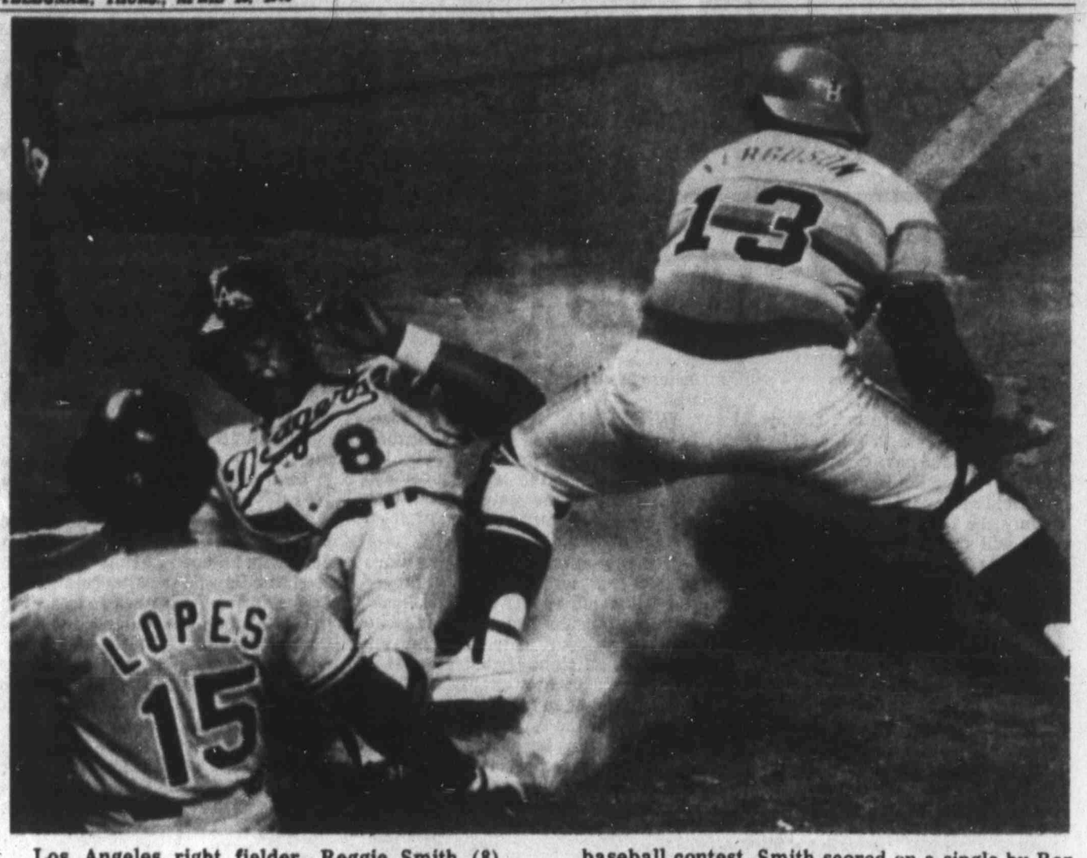

Haas fanned New York's Reggie Jackson four times. Graig Nettles homered for the Yankees.

Red Sox 6, Indians 3

Home runs by Jim Rice and Fred Lynn and a two-run single by Jerry Remy paced Boston's victory over Cleveland. Andre Thornton connected for the Indians.

White Sox 5, Blue Jays 4

Jorge Orta slammed two home runs while Ralph Garr and Wayne Nordhagen hit one apiece to power Chicago past Toronto.

Los Angeles right fielder, Reggie Smith (8), slides home safely under a tag attempt by Houston catcher Joe Ferguson (13) in Wednesday night baseball contest. Smith scored on a single by Ron Cey. (AP Laserphoto)

Frozen Moret scares Rangers

ARLINGTON, Texas (AP) — It was shortly before 6 p.m. Wednesday night when visitors to the Texas Rangers locker room were startled by a strange and bizarre scene.

Relief pitcher Roger Moret stood frozen like a statue before his locker, holding a shower shoe in his extended right hand and not uttering a word.

He remained in that position almost an hour before he snapped out of the trance-like state.

At 9:35 p.m., he walked to an ambulance and was taken to the Arlington Neuropsychiatric Hospital with Ranger Owner Brad Corbett and Executive Vice President Eddie Robinson holding up their coats to screen curious onlookers.

Team physician Dr. B.J. Mycoskie said Moret had gone into "a definite catatonic state. You don't see them very often," he said.

The 28-year-old Moret had threatened to jump the team last week because of arguments with several players.

He said last Friday, "I'll be gone in 24 hours."

However, Moret stayed and turned in four innings of brilliant relief Monday night when Texas defeated the New York Yankees. Moret gained a save in that game and said later, "I'm very happy."

He told a reporter Wednesday night before he climbed into the ambulance, "I want to be traded. . .you tell them that."

Doctors gave Moret five shots of sedatives.

Reds finally like Blue

By The Associated Press

"My team colors are orange and black, not red and white," said Vida Blue.

Wednesday night, however, his colors were more like black and blue.

Blue made his National League debut — finally — against Cincinnati, of all teams, and the Reds treated him rather rudely even though his picture, biography and pro baseball record are prominently displayed on page 23 of the team's 1978 media guide.

That, of course, was before Commissioner Bowie Kuhn blue-penciled the off-season deal in which the Reds thought they had acquired Blue from the Oakland A's for first baseman Dave Revering and $1.75 million.

The hard-throwing left-hander, who now toils across the bay from Oakland in San Francisco, was tagged for 10 hits and six runs — five earned — in five innings as the Reds pounded out 20 hits and walloped the Giants 12-3.

Elsewhere, the Houston Astros edged the Los Angeles Dodgers 11-10, the St. Louis Cardinals downed the Pittsburgh Pirates 5-1, the Montreal Expos nipped the Philadelphia Phillies 8-7 and the Chicago Cubs beat the New York Mets 4-2. San Diego at Atlanta was rained out.

Astros 11, Dodgers 10

Pinch hitter Jesus Alou's grounder scored Jimmy Sexton from third base in the bottom of the ninth inning to end a 29-hit slugfest. Art Howe opened the inning with a double, pinch runner Sexton moved to third on Wilbur Howard's grounder and scored when Alou's grounder was fielded by shortstop Bill Russell too late for a play at the plate.

The Astros failed to hold an 8-3 lead built with five runs in the fourth inning on Howe's three-run homer and Bob Watson's two-run double. Enos Cabell also homered for Houston while Rick Monday connected for Los Angeles.

Cardinals 5, Pirates 1

Bob Forsch hurled a four-hitter, striking out nine, and Mike Tyson doubled home the tie-breaking run in the fourth inning as the Cardinals beat Pittsburgh ace John Candelaria. A two-out throwing error by shortstop Frank Taveras helped the Cardinals snap a 1-1 deadlock. Ken Reitz reached second base on the error and scored on Tyson's double.

Forsch used sliders and change-ups to accompany his fast ball and curve, but said: "The fast ball was still the best pitch. It's the one that sets up the others. If you don't have a good fast ball, nothing else works."

Expos 8, Phillies 7

Gary Carter and Chris Speier slammed two-run homers and Larry Parrish added a two-run single but Montreal needed a ninth-inning run off Gene Garber on Pepe Frias' double and Andre Dawson's single to withstand a two-run Philadelphia rally in the bottom of the inning.

Cubs 4, Mets 2

Ray Burris' five-hit pitching and two-base errors by New York outfielders Steve Henderson and Bruce Boisclair helped Chicago to victory. The Mets got their runs off Burris in the first inning on Tim Foli's single, Henderson's triple and Willie Montanez's sacrifice fly.

But the Cubs got a run in the second on singles by Bobby Murcer, Dave Kingman and Manny Trillo and tied it in the fifth on Henderson's error, a sacrifice and Greg Gross' grounder. In the sixth, Boisclair dropped Murcer's fly ball and Kingman singled for the go-ahead run. Chicago added an insurance run in the eighth when Murcer doubled and Manny Trillo singled.

Tennis tourney is set

(Continued from Page 1-C)

combinations all during the winter circuit, the successful 30-year-old coach of the two-time state champions has paired Cary Garton with Dinah Boyd and Sherry Armstrong with sophomore Karen Farquhar, Kirk's sister.

Garton was district runnerup in singles last year as a junior, while Boyd and her partner Amy Thompson were regarded as one of the finest doubles teams in the region a year ago before they were upset in the semifinals of the district tournament.

This will be the first time that Armstrong and Farquhar will be playing together. Armstrong, a senior and a exceptional doubles player, has been teamed with Boyd in most of the winter tournaments, while Farquhar and her partner Amy Davenport, have been tearing up 'B' girls doubles play the last few months.

"Since I put them together, Cary and Dinah have had the best attitude on this team," Burgin said happily. "They have really been playing well together and they want to win this thing and I think they can.

"And Karen and Sherry are capable of the same. I really like our chances in this event."

Still, neither Pack tandem will be favored. Leslie Miller and Carmen Lewis of Permian, last year's district and regional runnerups, will be the top seed. The Panthers' number two team of Suzanne Naworski and Karen Wilson is also strong, as are Lee's two combos of Margaret Smith and Jean Lanier, and Jill Mutschler and Mindy Cravens. This is probably the most evenly balanced event of the tournament.

NET NOTES: Midland High's Tim Baird, who would have been playing doubles in the district tourney for the Pack, was handed a tough break last week when he was sidelined with mononucleosis. The senior will be headed for Washington & Lee College in September. . . The eight district coaches will meet tonight in the Lee High library at 7 p.m. and do the seeding and draw up the brackets. . . The girls regional tournament will be held next Friday and Saturday up at Texas Tech, and the boys regional is set for the following weekend.

Tampa acquires Chambers

CHICAGO (AP) — Free agent Wally Chambers, a stalwart in the Chicago Bears defensive line for four seasons, has been traded to Tampa Bay in exchange for the Buccaneers' first-round draft choice in 1979 and a player to be named later.

The Bears announced the transaction Wednesday, three days before Chambers' free agent status expired.

"Tampa Bay is the team that Jack Childers, Chambers' agent, said he wanted to play with," said Bears General Manager Jim Finks. "Tampa Bay also was the only (National Football League) team expressing interest to us in making a bid for Wally."

Chambers, 26, missed most of last season with a knee injury suffered in the Pro Bowl after the 1976 season. The 6-foot-6, 260-pound defensive tackle appeared in several games in 1977, but was ineffective and underwent surgery late in the year.

The Bears renegotiated Chambers' contract prior to the 1977 season and included a clause which gave him the option of becoming a free agent Feb. 1. The Bears, however, retained the right to match any offer Chambers might receive from other NFL teams.

After knee surgery, physicians said Chambers' future as a football player depended on his willingness to work in a rehabilitation program. Chambers has insisted that he has worked hard at regaining mobility in the knee, while team management has said he hasn't.

grievance last month with the NFL's Player-Club Relations Committee contending that his bargaining postition with other teams was weakened by statements made by the Bears and Jim Finks concerning Chambers' rehabilitation efforts.

The committee conducted a hearing on the complaint April 3, but withheld a decision on the dispute until April 15, when Chambers' free agent status would have expired. Had the decision gone in favor of Chambers, the Bears would hace lost the right to match any offer given the player but still would have received compensation in players.

A mainstay in the Bears' defensive unit from 1973 to 1976, Chambers once started 51 games in a row before a wrist injury sidelined him in 1976.

Chambers will get two chances to show the Bears whether he is fit any longer; the Bucs play the Bears on Oct. $2 and Nov. 26.

last week of 13.8, but Cooper's Tim Roberts has a 14.3 while San Angelo's Neville Leverett owns a 14.1 and brother Scott has a 14.4.

The 330 hurdles could be even closer with Neville holding a 38.4, Roberts a 38.7 and Swann a 39.1. Jim Harris and Glen Fink, both of Odessa High, stand at 39.3 and 39.4 respectively.

Cooper's David Hodgson is the heavy favorite in the discus with a 170-8 while Sager owns a 165-8. San Angelo's Doug DeWitt has a 165-9 and Sammy Lee, another Bobcat, owns a 161-3.

Permian's King is the big favorite in the long jump with a 23-4 while Big Spring's Kenneth Coffey has a 21-9. Paul Davis of Permian, Moore and Elmer Montgomery of Lee all own 21-7½ this year. Any of the three could break through with a second.

ABILENE HIGH'S Monte Hamilton, who has a 15-foot vault this year, is expected to battle Cooper's Kim Prine, who owns a 14-3. Permian's Huey Chancellor owns a 6-10 in the high jump this season while Neville Leverette owns a 6-8. Three others stand at 6-4.

Permian, Odessa High and San Angelo should make a strong run at the team title in the girls division, but Midland High and Lee both have chances to earn regional berths.

The Pack's Donna Repman owns the best mile outing of the year with a 5:48.7 while Wanda Caldwell is tops in the 880 with a 2:31.1. The Midland High mile relay team owns a 4:20.0, second only to San Angelo's 4:16.0.

JANA TROLINDER of Midland High has the third best time in the 440 with a 1:03.0 while Lee's Terri Reyes has the third best mark in the 880 with a 2:32.6. Lee's Leshia Watkins has a leap of 5-0 in the high jump for the third best mark.

Permian has a 49.6 in the 440 relay for the best girls time in the area while Big Spring, 50.1 and Odessa High, 50.5, follow.

Permian's Lisa Woodward owns the best discus mark with a 119-2 while Abilene High's Karen Baker has the best 80-yard hurdle mark with a 10.7. Big Spring is the top 880 relay unit with a 1:46.3.

PERMIAN'S MOLLY Woodward owns the best shot put mark with a 39-7¾ while Karen Posey is the best triple jumper with a 34-9 this year. Permian's Lori Farquar owns a 5-2 in the high jump while teammate Andrea Peppard has a 17-7¾ for the area's best long jump. Permian also has the best 440 runner in Elisa Martinez with a 59.5 while Big Spring's Sandy Harris has a 26.8 in 220. Mitchell of Big Spring has an 11.2 in the 100.

There will be no admission charge for Friday's prelims, but tickets for the finals will be $1 for adults and 50 cents for students.

Ali faces retirement

FAIRBANKS, Alaska (AP) — Will his Sept. 15 heavyweight title rematch against Leon Spinks be Muhammad Ali's last fight? To listen to the ex-champion, it could be yes or maybe. The yesses appear to have it.

Spinks lifted Ali's crown with a 15-round split decision at Las Vegas Feb. 15, and the two have signed for a World Boxing Association title rematch at the New Orleans Superdome Sept. 15.

The World Boxing Council gave its version of the title to Ken Norton after Spinks refused to fight Norton in his first bout after the victory over Ali.

"I'm coming back for the last time," Ali said at one point during a news conference Wednesday. "I'm putting all my cards on the table. This is the third time to get my title back. And at my age now, I need to do everything right. I need to put it together."

At another point, the 36-yearold Ali said: "I'd like to wind it up in the Superdome. I'd like to fill the Superdome and be the first man to win the title three times, and go out champ."

At another point, Ali said: "I got another shot to come back and get my title, and make history. Then, naturally, I'd like to get out then."

But there also were some maybes.

"I don't know what I'm going to do. I have to get out soon, we all know that, and I want to go out a winner. I would hate to quit now after Spinks beat me," Ali said.

But would he really retire after the Spinks fight, in view of two previous pronouncements of retirement, and of unretirement?

"I don't want to say for sure that I will, but I'm intelligent and I've got wise people with me, and the odds are that we'll get out after getting the title. I won't hang around and lose it again."

Ali, in Alaska to film some television commercials for the Ford Motor Co., said he took Spinks lightly the first time, but that he won't on Sept. 15.

Income tax cuts proposed by British

By WILLIAM TUOHY
The Los Angeles Times

LONDON — The British Labor government announced Tuesday a nearly $5 billion stimulus to aid the economy and reduce unemployment, mainly in the form of personal income tax cuts.

The proposals were made by Chancellor of the Exchequer Denis Healey in announcing the budget for the forthcoming year — a package that offered something for nearly everyone.

However, Healey said that one of his main concerns was to avoid another ruinous round of inflation in Britain and to try to keep the inflation rate sinking as it has been for the last few months.

Personal income taxes were generally slightly lowered across the board, pensions were increased, more money was allocated for education and health services, school-children from the ages of 7 to 11 were given free lunches and the basic learning rate was raised by 1 percent.

However, the company tax rate remained unchanged as did duties on liquor, beer and most other luxuries. But cigarettes with a heavy tar content were raised about 12 percent.

The budget, though it was designed to appeal to most Britons, did not please everyone, mainly some Labor spokesmen as well as industrialists who had hoped to see a bigger stimulus to Britain's ailing industry.

However, other political commentators said that Healey had walked a careful line, avoiding an excessive boost which would push the inflation rate up again.

BY SOME CALCULATIONS, the average British family will receive about $4 to $6 a week extra from the tax cuts and allowances.

Healey's decision to try to keep inflation down was quickly reflected in the financial community, where the stock market rose somewhat and the pound strengthened by the end of the business day.

For the past several years, Britain has been running a double-digit inflation rate, only recently dipping below 10 percent.

Healey said that he expected the inflation rate to be reduced to 7 percent by this summer and wanted to insure that it remained at least at that figure.

Healey said he also wanted to see the national productivity rise by about 3 percent, which he said would encourage other European governments to reflate their economies slightly without sending the inflation figures rising again.

Thus, in political terms, Healey's budget was being viewed as a "cautious one" and not specifically designed for voter appeal in early elections.

Political analysts said that if Healey and Prime Minister James Callaghan were actually planning on early elections, the stimulus would probably have been greater to please labor unions, the average householder, and some segments of industry.

In this view, new elections are probably not planned before next fall, or even until next spring.

However, the government can, if it chooses, either dampen down the economy or stimulate it some time in the summer or autumn if it thinks that this would be politically expedient.

PREDICTABLY, the opposition Conservative Party challenged the budget as mostly window dressing. Tory leader Margaret Thatcher charged that the reduction of the income tax was not enough and that the whole budget message was only "election deep."

And John Grenburough, president of the Confederation of British Industry, said: "The chancellor said that the key to growth and high employment must lie in an improvement in our industrial performance.

"This budget will not achieve this. He has done far too little for those who must lead the revival of our trade and industry — managers, skilled workers, the owners of small business who can provide much of the extra employment.

"It is a particularly timid budget."

Some labor union leaders and labor parliamentarians who had called for a stimulus of as much as $8 billion joined industry spokesmen in calling the budget overly cautious.

The chancellor's tax cuts were "chicken feed" said Sidney Sidwell, a Labor member of Parliament who belongs to the left wing faciton of the party.

"The tax cuts are chicken feed and will be forgotten by everyone in a matter of weeks."

However, Len Murray, the general secretary of the labor umbrella organization, the Trades Union Council, said that Healey "had got his priorities right."

MURRAY SAID the budget would give a significant boost to the economy but also reflected social and industrial priorities that were shared by the council.

Murray admitted that an $8 million boost might have been better, but he added that "I fully share the chancellor's belief that the increase in real income and living standards will be the key to restoring confidence in both sides of industry.

"No trade unionists will dissent from the chancellor's emphasis on getting inflation down and keeping it low."

Britain has one of the highest income tax systems in the world, reaching 83 percent at the top levels.

But it also has many socialized medical and welfare services which are free.

The chief gainers from the Tuesday easing of the tax burden were at the lower income scale — those in the so-called "poverty trap," where it becomes more profitable to go on public welfare than to work for a living.

Healey said that about 4 million workers at this level would be aided — by as much as $4 a week.

While there were tax cuts across the board, middle-income taxpayers complain that the reductions at their level were not nearly enough to keep abreast of the rising cost of living or to encourage enterprise in initiative by these wage earners.

THE LIBERAL PARTY, which gives the Labor government its parliamentary majority, wanted to see personal income taxes reduced even further.

However, Liberal Party leaders said they would not make a parliamentary issue of the matter, though they would try to convince the government to give bigger personal income taxes. David Steel, leader of the Liberal Party, said that the budget "was not adventurous enough" in reducing income taxes.

The Labor Party leaders traditionally prefer to see lower direct income taxes and higher indirect taxes in the form of sales or similar taxes.

"The income tax changes will not create the incentives necessary to get the economic growth we need," said Liberal Party economic spokesman John Pardoe. "Liberals remain absolutely convinced of the need for major reductions in income tax."

The overriding concern of the government in this current budget appeared to be to keep the inflation rate down even at the risk of being accused of not giving enough stimulus to the economy.

91 oil, gas tests added to exploration, development

Petroleum operators working in the Permian Basin Empire of West Texas and Southeast New Mexico last week filed permit applications for 20 wildcats and 71 development tests, for a total of 91 projected tests.

The total number of tests staked in the two-state area, two weeks ago, was 112, making last weeks count show a decrease in projected activity.

Railroad Commission District 7-C, San Angelo, was the leader in wildcatting activity with seven projects planned in that category. The Midland office and the Lubbock office each reported five wildcat applications, while Southeast New Mexico had three.

RRC District 8-A processed 25 pool applications. Development sites planned in District 8 totaled 18 and District 7-C had 19.

Wildcat — OWPB — P & W Oil Co. No. 1 Fasken, 1,980 feet from south and 660 feet from east lines of section 4, block 41, T-3-N, G&MMB&A survey, 11 miles east of Andrews, 5,000.

Crane County

Sand Hills (Judkins) — Gulf Oil Corp. No. 1102 W. N. Waddell, et al, 2,200 feet from north and 660 feet from east lines of section 28, block B-26, psl survey, 18 miles northwest of Crane, 3,200.

Sand Hills (Judkins and Tubb) — Exxon Corp. No. 161-1 J. B. Tubb, 660 feet from south and 1,980 feet from west lines of section 19, block B-27, PSL survey, 17 miles northwest of Crane, 4,500.

Ector County

Cowden, South — Rule 37 — Amoco Production Co. No. 5-D Frank V. Addis, 1,100 feet from north and 900 feet from east lines of section 35, block 43, T-2-S, T&P survey, three miles west of Odessa, 4,550.

Foster — Rule 37 — Amoco No. 71 J. E. Witcher, 613 feet from north and 823 feet from west lines of section 25, block 43, T-2 S, T&P survey, four miles northwest of Odessa, 4,500.

Glasscock County

Howard-Glasscock — Continental Oil Co. No. 17-A B. Overton, 3 980 feet from north and 330 feet from east lines of section 8, block 32, T 2-S, T&P survey four miles southwest of Forsan, 2,600.

Howard-Glasscock — Conoco No. 18-A B. Overton, 3,320 feet from north and 990 feet from east lines of section 8, block 32, T-2-S, T&P survey four miles southwest of Forsan, 2,600.

Howard County

Iatan, East (Howard) — Amoco Production Co. No. 11-A Mrs. Cora Lee Echols, 990 feet from north and 2,310 feet from east lines of section 6, block 30, T-1-S, T&P survey, three miles east of Coahoma, 2,000.

Iatan, East (Howard) — Amoco No. 12-A Mrs. Cora Lee Echols, 1,650 feet from north and 2,310 feet from east lines of section 6, block 30, T-1-S, T&P survey, three miles east of Coahoma, 2,000.

Iatan, East (Howard) — Amoco No. 13-A Mrs. Cora Lee Echols, 2,319 feet from north and east lines of section 6, block 30, T-1-S, T&P survey, three miles east of Coahoma, 2,000.

Cornet (Spraberry) — Duncan Drilling Co. No. 1 Cole, 3,630 feet from south and 2,310 from east lines of section 13, block 26, H&TC survey, 1⅛ miles southeast of Vincent, 4,800.

Moore — Mallard Exploration, Inc No. 32 West Moore Unit, 1 650 feet from south and 330 feet from west lines of section 18 block 33, T-1-S, T&P survey, six miles southwest of Big Spring, 3,400.

Iatan, East (Howard) — Rule 37 — Amoco No. 4 John W. Davis, 330 feet from south and 2,302 feet from east lines of section 43, block 30, T-1-N, T&P survey, abstract 244, three miles east of Coahoma, 2,900.

Martin County

Lacaff (Wolfcamp) — OWPB — BTA Oil Producers No. 7-C 7422 JV-S Mustang, 2,173 feet from south and 900 feet from east lines of section 2, block 7, ULS, 20 miles northwest of Lenorah, 12,220.

Mitchell County

Wildcat & Jameson, North (Strawn) — Sun Oil Co. No. 5 A J. F McCabe, 660 feet from north and west lines of section 4, block 1 A, H&TC survey, four miles north of Silver, 7,325.

Pecos County

Hershey, West (Devonian-Montoya) — Amended — Northern Natural Gas Co. No. 1-6 Hersenson, 1,120 feet from north and 1,980 feet from west lines of section 6, block 51, T-10, T&P survey, 33 miles west of Fort Stockton, 16,800, (Amended location).

Apco — Warner, West (Ellenburger) — National Co-op Refinery Associated No. 1-B Myron A. Smith, 1,980 feet from southeast and 3,300 feet from southwest lines of section 59, block 10, H&GN survey, 12 miles southwest of Imperial, 5,200.

Reeves County

Wildcat, HNG Oil Co. No. 2-12 Sabine-State, 660 feet from north and west lines of section 12, block 55, T-4, T&P survey, 20 miles northwest of Pecos, 7,000.

Wildcat — Hilliard Oil & Gas, Inc. No. 1 Andover-State, 1,865 feet from north and 2,620 feet from east lines of section 24, block 50, T-8, T&P survey, 23 miles southeast of Pecos, 22,000.

Wildcat — amended — C&K Petroleum, Inc. No. 1-45-Meeker, 1,320 feet from north and west lines of section 45, block 6, H&GN survey, 14 miles east of Pecos, 20,500, (amended depth and field).

Sterling County

Conger (Pennsylvanian) — Texaco Inc. No. 1-O Sterling Fee 1,992 feet from south and 769 feet from east lines of section 23, block 32, T-5-S, T&P survey, 16 miles southwest of Sterling City, 8,300.

Ward County

Wildcat and Rhoda Walker (5900 Canyon) — HNG Oil Co. No. 1-151-A Cameron, 1,980 feet from northeast and 1,667 feet from northwest lines of section 151, block 34, H&TC survey, 10 miles west of Pyote, 8,000.

Payton — The Three-B Oil Co. No. 21-4 Payton Pool (Yates sand) Unit, 2,875 feet from northeast and 3,312 feet from southeast lines of section 3, block 32, H&TC survey ¾ mile southeast of Grandfalls, 2,100.

Winkler County

Wheeler (Devonian-Silurian) — OWPB — Amoco Production Co. No. 2-B R. A. Wheeler, 2,006 feet from north and 2,009 feet from west lines of section 16, block 46, T-1-S, T&P survey, five miles west of Notrees, 10,500.

District 8-A

Jo Mill (Spraberry) — Gulf No. 1008 Canon Ranch Unit, 660 feet from south and 700 feet from east lines of section 38 block 33, T-5 N, T&P survey 13 miles west of Gail, 7,600.

Jo Mill (Spraberry) — Gulf No, 1805 Canon Ranch Unit, 660 feet from south and east lines of section 47, block 33, T-5-N, T&P survey, abstract 378, 13 miles west of Gail, 7,630.

Jo Mill (Spraberry) — Texaco Inc, No. 4532 Jo Mill Unit, 1,934 feet from south and 1,980 feet from west lines of section 24, block 33, T-4-N, T&P survey, 15 miles southwest of Gail, 7,783.

Cochran County

Slaughter — Amoco Production Co., No. 146 Northwest Mallet Unit, 1,450 feet from north and on east lines of labor 15, league 47, Edwards CSL survey, abstract 325, six miles south of Whiteface, 5,300.

Cottle County

Wildcat — OWPB — Gus Edwards No. 6 J. J. Gibson, 2,510 feet from north and 1,480 feet from west lines of section 38, F. P. Knott survey, four miles southeast of Chalk, 4,400.

Crosby County

Wildcat — Boone & Moore Oil Co. No. 1 Amoco-Collier Estate, 1 980 feet from north and 660 feet from west lines of section 10, block 2, DS&E survey, abstract 954, three miles southwest of Caprock, 4,800.

Dawson County

Patricia, Northeast (Spraberry) — Petroleum Exploration & Development Funds Inc. No. 1 Clearman, 660 feet from north and west lines of section 28, block 36, T-5-N, T&P survey, abstract 441, five miles southwest of Lamesa, 8,400.

Gaines County

Wildcat — Dyco Petroleum Corp. No. 1-124 Golden, 467 feet from north and 1,320 feet from east lines of section 124, block G WTRR survey, abstract 1062, four miles northeast of Seminole 5,500.

Robertson, North (7100 Clear Fork) — Exxon Corp. No. 5302 Robertson (Clear Fork) Unit, 1,440 feet from south and 250 feet from east lines of section 4 block A-24, PSL survey, eight miles southwest of Seminole, 7,200.

Hockley County

Yellowhouse (San Andres) — Amoco Production Co. No. 3 Victor J. Williams, 660 feet from south and east lines of labor 25, league 706, State Capitol Lands survey, five miles northwest of Whitharral, 4,600.

Yellowhouse (San Andres) — Amoco No. 4 Victor J. Williams, 660 feet from north and east lines of labor 25, league 706, State Capitol Lands survey, five miles northwest of Whitharral, 4,900.

Yellowhouse (San Andres) — Amoco No. 9-A Yellowhouse Land Co., 660 feet from north and west lines of labor 10, league 718, State Capitol Lands survey, five miles west of Whitharral, 4,600.

Yellowhouse (San Andres) — Amoco No. 10 A Yellowhouse Land Co., 660 feet from south and east lines of labor 1, league 718, State Capitol Lands survey, five miles west of Whitharral, 4,600.

Slaughter — Amoco Production Co. No. 147 Northwest Mallet Univ, 1,450 feet from north and on east lines of labor 14, league 47, Edwards CSL survey, abstract 325, six miles south of Whiteface 5,300.

Slaughter — Amoco No. 148 Northwest Mallet Unit, 1,450 feet from north and on east lines of labor 13, league 47 Edwards CSL survey, abstract 184, seven miles northwest of Sundown, 5,300.

Slaughter — Amoco No. 149 Northwest Mallet Unit, 1,450 feet from north and 35 feet from west lines of labor 11, league 47, Edwards CSL survey, abstract 164 seven miles northwest of Sundown, 5,300

Slaughter — Amoco No. 151 Northwest Mallet Unit, on north and 1,339 feet from east lines of labor 17, league 47, Edwards CSL survey abstract 325, six miles south of Whiteface, 5,300.

Yellowhouse (San Andres) — Amoco No. 1-B Mid Seale, 660 feet from south and west lines of labor 8, league 718, State Capitol Lands survey, six miles west of Whitharral, 4,600.

Slaughter — Amoco No. 147 Northwest Mallet Unit, 1,450 feet from north and on east lines of labor 14, league 47, Edwards CSL survey, seven miles northwest of Sundown, 5,300.

Motley County

Wildcat — Jack F. Grimm & N. B. Hunt No. 1 Lizzie Archer, 660 feet from north and 2,266 feet from west lines of section 85, J. H. Gibson survey, abstract 94, four miles southeast of Matador, 9,500.

Scurry County

Sharon Ridge (1700) — TOMCO No. 1 R. W. Eubanks, 1,600 feet from north and 2,193 feet from east lines of section 120, block 97, H&TC survey one mile south of Ira, 2,000.

Terry County

Wellman, West (San Andres) — Dyco Petroleum Corp. No. 1-48 McDonald, 1,980 feet from south and west lines of section 48, block DD, J. H. Gibson survey, seven miles southwest of Wellman, 5,500.

Yoakum County

Wildcat — Ladd Petroleum Corp. No. 1 Lee, 660 feet from south and east lines of section 98, block D, J. H. Gibson survey, 10 miles northwest of Plains, 5,300.

Wasson — Shell Oil Co. No. 4435 Denver Unit, 2,770 feet from south and 920 feet from west lines of section 894, block D, J. H. Gibson survey; two miles west of Denver City, 5,250.

Wasson — Shell Oil Co. No. 5716 Denver Unit, 1,200 feet from north and 4,425 feet from west lines of section 38, block AX, psl survey, one mile east of Denver City, 5,250.

Wasson — Shell No. 4635 Denver Unit, 200 feet from north and 2,300 feet from west lines of section 892, block D, J. H. Gibson survey, in Denver City townsite, 5,250.

Wasson — Shell No. 4636 Denver Unit, 1,150 feet from north and 550 feet from west lines of section 892, block D, J. H. Gibson survey in Denver City townsite, 5,250.

Wasson — Shell Oil Co. No. 3633 Denver Unit 1,020 feet from north and 1,130 feet from west lines of section 865, block D, J. H. Gibson survey, one mile north of Denver City, 5,250.

Wasson — Shell No. 3634 Denver Unit, 1,000 feet from north and 2,200 feet from west lines of section 865, block D, J. H. Gibson survey, one mile north of Denver City, 5,250.

District 7-C

Coke County

Wildcat — EI FEL Energy No. 1 Earl Davidson, et al, 660 feet from south and 1,300 feet from west lines of section 404, block 1-A, H&TC survey, A-1392, three miles northeast of Robert Lee, 5,200.

ACR (Odom) — ACR Exploration, Inc. No. 2 F. Price, 1,980 feet from north and east lines of section 311, block 1-A, H&TC survey, abstract 294, one mile northwest of Robert Lee, 7,000.

ACR (Odom) — ACR No. 3 F. Price, 575 feet from north and 2,100 feet from west lines of section 311, block 1-A, H&TC survey, abstract 294, 12 miles northwest of Robert Lee, 7,000.

Concho County

Wildcat — Universal Mineral Corp. No. 1 Russell Green, 930 feet from north and 467 feet from west lines of section 45, block 9, H&TC survey, abstract 442, six miles west of Eden, 4,200.

Crockett County

Orona (Canyon) — Anderson Petroleum, Inc No. 1-10 I Moody Minerals 660 feet from south and west lines of section 10, block MM, T&StL survey, 29 miles southwest of Ozona, 7,200.

Wildcat — C. F. Lawrence & Associates, Inc. No. 1 Troy, 2,173 feet from north and west lines of section 14, block OP, GC&SF sruvey, abstract 4445, eight miles north of Ozona, 1,600.

Clara Couch (Wolfcamp) — Lawrence No. 1-C Owens, 660 feet from north and east lines of section 8, block GG, H&OB survey abstract 4919, 31 miles west of Ozona, 6,100.

Adams Baggett Ranch (Canyon) — O & G, Inc. No. 1-154 Adams 1,537 feet from south and 1,313 feet from east lines of section 154, block O, GH&SA survey, abstract 5044, 23 miles southeast of Ozona, 5,200.

Wildcat — William Perlman No. 1-A-8 General Crude, et al, 1,100 feet from north and 2,272 feet from east lines of section 8, block NN, GC&SF survey, abstract 5311, 31 miles southwest of Ozona, 8,000.

Irion County

Irion "163" (Ellenburger) — Gulf Oil Corp. No. 2-VE State, 1,980 feet from north and 1,880 feet from west lines of section 5, block 40, University Lands survey, two miles southeast of Barnhart, 9,500.

Rock Pen — OWDD — Union Texas Petroleum Corp. No. 3-44 Farmer, 1,980 feet from south and east lines of section 44, block 1, H&TC survey, A-1061, five miles west of Mertzon, 7,400.

Baker Ranch (Canyon) — Fortune Drilling Co., Inc No. 1-8 Baker, 660 feet from south and 2,191 feet from west lines of section 8, H. C. Noelke survey, abstract 1229, nine miles southwest of Mertzon, 7,200.

Spraberry Trend Area — Atlantic Richfield Co. No. 1-58 J. R Scott, 690 feet from north and 990 feet from west lines of section 58, block 14, H&TC survey, abstract 1143, 12 miles north of Barnhart, 6,400.

Spraberry Trend Area — ARCO No. 2-58 J. R. Scott, 1,550 feet from south and 990 feet from west lines of section 58, block 14, H&TC survey, abstract 1143, 12 miles north of Barnhart, 6,400.

Reagan County

Calvin (Dean) — OWDD — Earl R. Brono No. 1 Cynthia Malone, 1,980 feet from north and west of section 10, block A, Hoper & Wade, abstract 775, 13 miles north of Stiles, 8,400.

Runnels County

Wildcat — Enrich Oil Corporation No. 1 Jerrie Sue Gambill Harris, 2,200 feet from south and 2,280 feet from east lines of Marshall University Survey No. 512, three miles northwest of Crews, 4,200.

Deike — E. B. Fletcher No. 1-291 A. W. Hancock, 6,061 feet from southwest and 689 feet from northwest lines of tract 8, Henry L. Bays survey 444, 2½ miles southeast of Wingate, 4,900.

Wildcat — amended — Alamo Petroleum Co. No. 1 E, J. Bishop, 2,167 feet from southeast and 3,644 feet from northeast lines of John Early survey 449, abstract 130, two miles south of Wingate, 4,800, (amended location).

Schleicher County

Wildcat — Centaur Petroleum Corp. No. 1 Effie Martin Clancy, 1,320 feet from north and 660 feet from west lines of section 45, block 8, TW&NG survey, 21 miles east of Eldorado, 5,200.

Veirex (upper Canyon) — T. C. Meador No. 10 T. C. Meador, 1,667 feet from north and 3,030 feet from east lines of section 1216, TCRR survey, abstract 1636, 14 miles northwest of Eldorado, 6,950.

Eldorado (Canyon) — HNG Oil Co. No. 1-108 Pfluger, 660 feet from north and east lines of section 108 block A, HE&WT survey, abstract 839, two miles west of Eldorado, 7,100.

Sutton County

Sawyer (Canyon) — HNG Oil Co. No. 2-76 Wallace, 2,200 feet from north and 933 feet from east lines of section 76, block 14, TW&NG survey, 14 miles southeast of Sonora, 5,000.

Shurley Ranch — amended — William Perlman No. 2-129 Mack Cauthorn, 799 feet from south and 2,052 feet from east lines of section 129, block C, HE&WT survey, abstract 444, 12 miles southwest of Sonora, 7,600, (amended location).

Tom Green County

Dove Creek (Canyon) — Fortune Drilling Co., Inc. No. 3-E Winterbotham, 660 feet from north and 1,876 feet from west lines of section 29, block 21, H&TC survey, abstract 790, 12 miles southwest of Christoval, 6,700.

Upton County

Spraberry Trend Area — John L. Cox No. 2 Morgan, 1,320 feet from south and west lines of section 24, block B, CCSD&RGNG survey 14 miles northeast of Rankin, 8,700.

Spraberry Trend Area — Cox No. 3-H Owens, 1,320 feet from north and west lines of section 32, block Y, TCRR survey, 14 miles northeast of Rankin, 8,700.

Wildcat — R. L. Burns Corp. No. 1 21 Powell, 1,992 feet from north and 656 feet from west lines of section 21 block 40, T-5 S, T&P survey, abstract 46, 16 miles northwest of Upland, 9,500.

Spraberry Trend Area — OWWO — Exxon Corp. No. 1062 Pembrook Unit, 660 feet from north and west lines of section 9, block A, CCSD&RGNG survey, abstract 15, eight miles northeast of Upland 7,400.

Southeast New Mexico

Chaves County

Chaves, Southeast (Queen) — Bill J. Graham No. 1 Williams, 1,980 feet from south and 1,730 feet from west lines of section 3-13s 31e, 30 miles northeast of Hagerman, 2,900.

Wildcat (Mississippian) — OWDD — Harvey E. Yates Co. No. 1-J Heyco Crosby, 990 feet from north and 660 feet from west lines of section 34-7s-30e, seven miles southeast of Boaz 8,600.

Eddy County

Wildcat — J. C. Barnes Oil Co. No. 1 Big Chief Communitized, 1,980 feet from north and west lines of section 22-22s-28e, eight miles southeast of Carlsbad, 12,600.

Wildcat — J. C. Barnes Oil Co, No. 1 Little Squaw communitized, 1,980 feet from north and west lines of section 27-22s-28e, nine miles south of Carlsbad, 12,600.

Wildcat — amended — Perry R. Bass No. 57 Big Eddy Unit, 1,980 feet from south and 660 feet from west lines of section 30-21s-29e, 10 miles east of Carlsbad, 6,600, (amended section).

Phantom Draw — amended — Texas Pacific Oil Co., Inc. No. 2 Phantom Draw-Federal Unit, 1,980 feet from south and 660 feet from west lines of section 30-26s-31e, 20 miles southeast of Malaga, 12,900, (amended location).

Winchester (Cisco) — Exxon Corp. No. 2-CU New Mexico State, 660 feet from south and 1,980 feet from west lines of section 24 19s-28e, 14 miles southwest of Loco Hills, 10,400.

Undesignated — Yates Petroleum Corp. No. 1-JI Harvey-Federal 1,780 feet from south and 1,980 feet from east lines of section 23-21s-21e, 25 miles southwest of Lake Wood, 8,450.

Turkey Track, North — amended — Amoco Production No. 1-CE State, 660 feet from north and 1,980 feet from west lines of section 5-19s-29e 11 miles southwest of Loco Hills, 11,500.

Lea County

Buckeye (Abo) — Energy Reserves Group, Inc. No. 2 Amoco-State, 660 feet from south and west lines of section 3-18s-35e, four miles southeast of Buckeye, 9,500.

Lusk, North (Morrow) — Mewbourne Oil Co. No. 1-G Federal, 1 980 feet from south and west lines of section 27-18s-32e, nine miles south of Maljamar, 13,200.

Querecho Plains (Queen) - Mewbourne No. 4-E Federal, 1,650 feet from north and 2,310 feet from east lines of section 27-18s-32e, nine miles south of Maljamar, 4,300.

Lusk, East (Wolfcamp) — Amoco Production Co. No. 2-DR State, 1,650 feet from north and 990 feet from east lines of section 16 19s 32e, seven miles northwest of Halfway, 11,000.

Undesignated (Drinkard) — Martindale Petroleum Corp. No. 1-V Little, 330 feet from south and 1,700 feet from east lines of section 7-22s-37e, three miles southwest of Eunice, 6,750.

Quail Ridge (Morrow) — Gulf Oil Corp. No. 2-ED Lea-State 1,980 feet from south and west lines of section 16-19s-34e, 10 miles southwest of Buckeye, 13,600.

Detroit to build parks

DETROIT (AP) — This river city is reclaiming the banks of its international waterway as another phase of its urban revitalization.

A $4.6-million package of city, state and federal funds will be funneled into acquisition of three future park sites on the Detroit River, eastward from the $350-million riverfront Renaissance Center, which has become a catalyst for the city's revival.

The construction of Renaissance Center is part of a renewed interest in the city's riverfront, which for years was occupied by dingy warehouses and run-down commercial buildings.

The money will be spent to acquire 37 acres on the river, which has been cleaned up and stocked with game fish in recent years.

The parks will include fishing areas along the river, bicycle and footpaths, benches for ship watching, picnic areas, fountains and parking lots. Eventually the parks will be connected with existing and future parks by paths which will permit walking, jogging or bicycling along the whole Detroit riverfront.

Officials said the program was a small step toward a major rededication of the river to fishing and other sports.

The state has planted salmon, steelhead and brown trout in the river at Belle Isle, Detroit's 1,000-acre island park, and plans call for additional fishing piers in the river.

Besides Renaissance Center, a five-spired, hotel-commercial office complex, a 20,000-seat sports and convention arena and a $45-million newspaper publishing plant for the Detroit Free Press are under construction on the river.

The river, which forms the border with Canada, carries some 15,000 Great Lakes and oceangoing ships annually.

Village expands

SAN LUIS OBISPO, Calif. (AP) — It has been more than four years since "Grandfather" settled his people on their 200 acres in hill and brush country near here.

His idea was that the salvation of the urban American Indian lies in going back to the land — not reservation land, but their own small, self-sufficient communities. So far, his plan seems to be working.

The settlement, known as Red Wind, has grown from a collection of shacks and teepees, to 18 families and a population of 71, drawn from a number of different tribes.

Two large hogans have been built for school rooms.

Wallace criticizes reluctance of states to develop energy

"Regional selfishness and total lack of understanding" account for the refusal of other states to develop oil and gas reserves for fear of environmental risks, said Texas Railroad Commission Chairman Mack Wallace in Midland Wednesday.

Wallace is a candidate for re-election in the Democratic primary. He is opposed by John Thomas Henderson of Austin.

Wallace said that in analyzing the reluctance of states to bring their oil resources into productivity, a conspiracy to withhold their product until Texas has depleted its supplies might be a hidden factor.

"By virtue of the amount of oil and gas productivity in Texas, the responsibility of the Railroad Commission is awesome," Wallace said.

Although not listed as one of the agency's functions, Wallace said, one of its important functions is to "keep a watch on the developing scene in Washington."

"The fact of the matter is that Texas has produced 40 percent of the oil and gas consumed by this country and we have acquired practical experience and common sense that is needed," Wallace said.

Earlier this week, candidate Henderson charged Railroad Commissioners were influenced by political contributions they received from companies they regulate. Henderson said he is financing his own campaign to avoid owing "anybody anything."

Wallace denied that charge today.

"The contributers to my campaign are the same as those who contribute for any other major state race. I can't be bought. One of the purposes the legislature had for making a commissioner a six-year term is to take the politics out of the office. And I think the commission bases its policy on what is best for the people."

Mack Wallace

He said it was a "constant effort" to see that industries are regulated in the public interest. "We have to prevent windfall profits," he said.

Wallace was appointed Railroad Commissioner by Gov. Dolph Briscoe in September 1973. He was elected commission chairman on Jan. 1, 1977.

California city orders emergency call slowdowns

By EVAN MAXWELL
The Los Angeles Times

ANAHEIM, Calif. — In the wake of several traffic accidents involving police cars, Anaheim Police Chief Harold Bastrup has imposed a 50-m.p.h. speed limit on all emergency "Code Three" driving on city streets.

The new policy also would limit all freeway Code Three runs (any emergency response with flashing lights and siren) to 70 m.p.h. and would prohibit extended high-speed pursuits, as well as blocking or ramming suspects' vehicles.

The policy changes are among the most severe restrictions adopted by a police administration anywhere in the state, and are an effort to prevent accidents that injure civilians and police officers, as well as exacting a heavy toll in police equipment, Bastrup said.

The changes, which he said have been under study for several months, were immediately challenged by the Anaheim Police Association, which represents most of the 300 sworn officers in the city, with a population of more than 200,000.

Jack Jansen, president of the group, said that the change in policy amounts to a limitation on the amount of judgment officers are allowed to use in their jobs.

"We could probably live with the new policy, which limits our speed to 15 m.p.h. over the posted limit, in most normal emergency situations, but not if it applies to pursuit of a dangerous felon," Jansen said.

Jansen said the association officers will meet with Bastrup Friday in an attempt to change the Anaheim policy, or at least to clarify some aspects of it.

Bastrup, while maintaining that the policy was under study even before a series of recent accidents, said the new policy is an attempt to encourage different tactics in emergency driving and in pursuits of suspect.

"I want my men to hang back and get the suspect vehicle to slow down," he said. "We have had good luck with that tactic. We also want to do away with 'caravaning' in which a large number of cars get into the chase. We want pursuits to be of a short duration, and we want no more than two units in."

The matter of high-speed driving in either emergency or pursuit situations is one of growing concern for police administrators, with some disagreement among chiefs about the proper methods to minimize accidents and fatalities.

Many police administrators and officers claim that their ability to pursue and apprehend suspects is critical to the deterrence of flights by criminals or even by violators of routine traffic laws.

Others, including many veteran officers, maintain that aggressive police tactics provoke many high-speed cases and that the potential deterrence value does not justify the risk.

One National Highway Traffic Safety Administration study indicated that as many as 400 persons are killed, and perhaps 5,000 injured, in the estimated 8,000 pursuits that take place in the United States each year.

Geophysical industry faces oil's problems

The president of the International Association of Geophysical Contractors Tuesday night said the "people in the geophysical end of the oil industry are feeling the same pinch as the petroleum marketers, refiners, transportation and production folks."

Charles Darden of Houston, speaking at a meeting of the Permian Basin Geophysical Society, backed his statement with a list of problems faced by the geophysical industry.

"Like all others in the industry, we are spending an increasing part of our time filling out government forms and complying with new rules and regulations — some totally unnecessary and others presenting unduly restrictive burdens on our operations.

"The end result, as always, is higher prices for the ultimate and intermediate consumers of petroleum products," Darden said.

IAGC, organized in 1971, is an international oil industry trade association representing the independent service companies that perform virtually all of the geophysical petroleum exploration in the United States and more than 95 percent of the petroleum-finding geophysicics in the free world. The membership is made up of geophysical equipment manufacturers, data processing suppliers, geophysical consultants and the geophysical departments of major oil companies.

Since its organization, the IAGC has carried on an "unheralded" battle against government regulations that endanger the operation of geophysical concerns and others in the oil industry.

Darden outlined the accomplishments of the IAGC in the past and told his audience about the areas the organization is currently fighting.

Darden said the orgnization's name is a misnomer. "All segments of the industry participated in its formation, and our focus has always been, and will continue to be, directed to activities that benefit our entire industry."

Listing some of the accomplishments of the IAGC, Darden said it had, at the state level, convinced Texas to allow the use of explosives along and on state highways [illegible] the state had passed legislation banning it.

"The IAGC was able to kill a bill in the Louisiana legislature that would have imposed unrealistic restrictions on the use of explosives in the state.

"We got the Louisiana Explosive Code changed in the industry's favor. We helped kill in committee a bill in that would have made it mandatory for copies of all data to be provided to the state as a condition of receiving a permit for work on public [illegible]

"We worked to soften [illegible] regulations covering shot hole procedures that required for holes to be [illegible] cement from bottom to top.

"We helped defeat a North Dakota bill that would have required [illegible] on of all seismograph [illegible]

"We worked against the introduction of bills in Texas and Louisiana that would have called for [illegible] ration of geophysicists and [illegible] th scientists."

Darden also said the IAGC is working around the clock in an attempt to keep permit costs around the country as moderate as possible.

"We are presently working on a permit cost jump from $25 to $100 per shot hole put in effect by the Louisiana State Parks and Recreation Commission."

Darden said the IAGC is working to hold legislation that "certainly will be re-introduced soon in Alaska that would require the use of a registered professional land surveyor to supervise seismic operation in that state."

The IAGC president said his association, at the federal level, was instrumental in shaping Outer Continental Shelf Interim Geophysical permit regulations providing the industry with 10 years of confidentiality on seismic data and 30 years of confidentiality for gravity data.

"Had the IAGC not been successful, OCS exploration would have suffered a drastic reduction. The association is continuing to seek more favorable geophysical permit regulations from the Interior Department," Darden said.

"It has been a constant effort to keep the Interior Department's OCS permitting requirements from strangling us. These rules seem to change with every issue of The Federal Register.

"IAGC has been able to affect numerous changes in these rules to ensure confidentiality of all data collected and to obtain some payment for copies of all such data requested by the USGS."

Darden pointed out that the U.S. Geological Survey is steadily encroaching into the private geophysical contracting industy by:

Outfitting and operating several geophysical acquisition vessels.

Operating a substantial geophysical Data processing center in the Denver Area, and

Its program to collect geophysical data on the OCS — ofting contracting for it from private companies — and then selling it for little more than copying cost to anyone.

"Not many of them have an opportunity to strike against all the tangle of bureaucratic re tape, but there is something we can do that will have a significant positive impact on our industry — and our individual companies.

"API President Frank Ikard sounded the charge recently. He called on every member of our industry to organize and strive — as individuals, as companies, and through trade groups and organizations of all types — to bring about a change in the uncertain, often hostile political climate that stems from what he calls the Washington Problem.'"

Darden said "among the realities we face is that the present anti-oil climate is not simply a bad dream that someday, by some miracle, will reverse itself. Only constructive action by our entire industry will change the climate.

"We must become actively involved in the communications process with government — by assembling the facts and providing them, along with personal views, to the people in government considering new energy legislation or regulations."

Ward pool spreads

Shell Oil Co. No. 1 Edwards Deep Unit, re-entry project in Ward County, has been completed as a long west extension to the Scott (Delaware) field of Ward County.

The well, No. 1 Edwards Deep Unit, was completed for a daily flowing potential of 76 barrels of 41.8-gravity oil and 150 barrels of water, through a 20/64-inch choke and perforations from 4,759 to 4,890 feet.

Gas-oil ratio is 5,263-1.

The pay section was acidized with 2,950 gallons and fractured with 10,000 gallons.

Originally completed as a Mississippian gas well in the Barstow field, it is 4,100 feet from northeast and 1,320 feet from northwest lines of section 41, block 33, H&TC survey and one mile west of Barstow. It is 3½ miles west of other production in the Scott field.

Total depth is 18,124 feet and plugged back depth is 6,510 feet. Operator set 9⅝-inch casing at 11,593 feet.

Amoco stakes long outpost

A southeast outpost to the four-well Wheeler (Devonian) field of Winkler County has been staked by Amoco Production Co.

It is Amoco Production Co. No. 4 Blue Estate, 1⅞ miles southeast of the Devonian area and one location east of Silurian production.

Slated for a 10,640-foot bottom, it is 640 feet from south and 2,009 feet from west lines of section 15, block 46, T-1-S, T&P survey.

DRY HOLES

CHAVES — Mountain States Petroleum Corp. No. 1 Trigg-Federal, wildcat, 660 feet from north and 2,220 feet from west lines of section 26-12s-27e, nine miles northeast of Hagerman, junked and abandoned.

CRANE — Exxon Corp. No. 66-B Jax M. Coxden, wildcat, 2,867 feet from northwest lines of section 852 feet from southwest lines of section 24, block 2, N&TC survey, 11 miles southwest of Crane, td 2,225 feet.

CROCKETT — J. Cleo Thompson No. 4-12-56 University, 1,320 feet from north and east lines of section 12, block 56, University Lands survey, 18 miles northeast of Ozona, td 8,497 feet.

DAWSON — Amerada Hess Corp. No. 2 Dyre, wildcat, 660 feet from north and 1,980 feet from east lines of section 17, block 25, T-4-N, T&P survey, five miles southwest of Lamesa, td 11,541 feet.

EDDY — Leland A. Hodges Trustee, No. 1 Hudson-Federal, wildcat, 1,980 feet from south and 990 feet from east lines of section 17-26s-25e, five miles southwest of White City, td 1,317 feet.

J. M. Huber No. 2 Terra-State, Yarrow (Delaware) Field, 1,096 feet from south and 1,564 feet from west lines of section 15-23s-26e, 10 miles west of Loving, td 5,200 feet.

J. M. Huber No. 3 Terra-State, Yarrow (Delaware) field, 1,650 feet from north and 990 feet from east lines of section 25-23s-26e, seven miles west of Carlsbad, td 2,800 feet.

Sabine Production Co. No. 1 Cass-Federal, wildcat, 1,980 feet from north and 660 feet from west lines of section 11-20s-23e, 17 miles west of Lake Wood, abandoned location.

GAINES — Mobil Oil Corp, No. 744 H&J, Havemeyer (San Andres) field, 2,182 feet from north and 256 feet from west lines of section 285, block G, CCSD&RGNG survey, 14 miles northwest of Seminole, td 130 feet, junked and abandoned.

IRION — Mitchell Energy Corp. No. 3-6 M. B. Noelke, Monument (Spraberry) field, 2,075 feet from south and 467 feet from east lines of W. T. Collins survey No. 6, abstract 1071, ten miles southwest of Mertzon, td 3,850 feet.

PECOS — John R. Seay No. 2 W. T. Shearer, in the Lehn, Apco, North (Montoya) field, 3,980 feet from north west and 660 feet from southwest lines of section 27, block 10, K&GN survey, three miles south of Imperial, td 5,007 feet.

Mexican official says gas stalemate 'ironic'

HOUSTON (AP) — A top ranking official in the Mexican petroleum industry says the present stalemate over the price of Mexican natural gas to U.S. importers is "ironic" but expressed hope an agreement can be reached soon.

Speaking to an international trade conference here Wednesday, Ignacio de Leon, assistant director general of Petroleos Mexicanos, or PEMEX, said the addition of Mexican gas to the world supply, rather than forcing energy prices up, would help hold world oil prices down.

He also implied that although Mexico would like to sell gas to the U.S., the country is fully prepared to use its gas and export oil instead.

"But let me assure you that PEMEX has already developed an alternative plan," de Leon said, "which will permit the complete absorption of all available gas supplies within the Mexican economy, substituting largely for oil."

Six U.S. interstate distribution companies reached a tentative agreement last August with PEMEX to purchase the gas at $2.60 per thousand cubic feet. Energy secretary James Schlesinger says that price, compared with the $2.16 now being paid for Canadian gas, is too high.

De Leon told the Fifth Annual International Trade Conference of the Southwest that Mexico was prepared to build the pipeline branches necessary to carry the gas to the border if the U.S. government approves the "reasonable" price.

The $2.60 figure is pegged to the price of No. 2 fuel oil Mexico would use for its domestic needs in place of the gas exported.

An 821-mile natural gas pipeline from southern Mexico to a point about 80 miles south of Brownsville, Texas, is scheduled for completion early next year. The Mexicans say the extension they would make to the border towns of Reynosa, Mexico, and McAllen, Texas, would eliminate costly shipping charges for the importers.

Wolfcamp well finals

Gulf Oil Corp. No. 1 Lois McDaniel has been completed in the War-Wink, South Wolfcamp field of Ward County, nine miles northwest of Pyote.

Operator reported a daily flow of 13 barrels of oil through a 30/64-inch choke and perforations from 11,084 to 11,208 feet.

Gravity of the oil is 42.4 degrees and the gas-oil ratio is too small to measure.

The well, originally filed as No. 1 McDaniel Gas Unit is a re-entry operation. It was a 17,484-foot dry hole ⅛ mile east of Ellenburger and Fusselman production in the Quito, East field.

Location is 990 feet from northeast and northwest lines of section 165, block 34, H&TC survey.

House Republicans may save Carter plan

WASHINGTON (AP) — House Republicans, long left out of efforts to frame compromise energy legislation, think President Carter may turn to them in hopes of salvaging his plan.

One House negotiator, Rep. Bill Archer, R-Texas, said the sentiment has arisen in the "the last few days."

Archer's fellow Republicans generally are more sympathetic to the kind of compromise backed by Senate negotiators than are Democratic House conferees, who are holding out for tighter federal controls over the price of natural gas.

Rep. Clarence Brown, R-Ohio, said on Wednesday that the president told the Republicans he'd like their support and that to break the deadlock he might even go with a GOPbacked plan for deregulation by 1983.

Rex Granum, a White House spokesman, said later in the day that Carter was flexible on a deregulation date. "Continued inaction on energy will cause far more serious damage to the nation's economy than the kinds of compromises that are under consideration," he said.

House Republicans point to past Democratic failures to break the deadlock among themselves and say they think Carter will come to them as a last resort — even if it means angering some liberal House Democrats on the conference committee.

Leading energy conferees were summoned to the White House today for yet another bargaining session, the third since Tuesday, when Carter intervened in the negotiations in an attempt to rescue his long-delayed energy plan.

House Republicans have been excluded from the sessions, even though three GOP senators have attended.

Carter's intervention came in the form of instructions to Energy Secretary James R. Schlesinger to work up a compromise plan. The Schlesinger proposal calls for an end to price controls on newly discovered gas by April 30, 1985.

But Carter told a group of excluded Republican House conferees on Wednesday that he wasn't wedded to any particular scheme and would accept nearly any compromise just to get a bill, several participants at the meeting said.

Meanwhile, Brown and Rep. Toby Moffett, D-Conn., a liberal conference member who has refused to attend recent closed sessions, are challenging the White House meetings as illegal.

They told a news conference Wednesday that the private deliberations appear to violate a House rule requiring conference committees to be open to the press and public when legislation is handled.

DOE chief says Carter has plan

HOUSTON (AP) — A compromise energy plan from the Carter administration that might be more palatable to gas-producing states could break the present congressional impasse over new energy legislation, according to Energy Secretary James R. Schlesinger.

Schlesinger told a Houston news conference Wednesday he couldn't give details of the proposed compromise but said it is one that will "help both those in the gas-producing states and those in the states that need natural gas."

The energy chief spoke with reporters after briefly addressing the 46th annual meeting of the Edison Electric Institute convention.

Schlesinger said more effort must be made to develop alternative sources of energy as the days of oil and gas as primary energy providers are numbered.

Earlier in the day a highranking official of Mexico's government-owned oil industry told an international trade meeting here that his country was ready to put up branch pipelines to move gas to the United States if Mexico's asking price is approved.

Ignacio de Leon, assistant director general for purchasing of Petroleos Mexicanos, said the price, which he called reasonable, is $2.60 per thousand cubic feet.

Six U.S. interstate distribution companies have agreed in principle to pay the price but the administration says it is too high.

Advised of de Leon's statement, Schlesinger told reporters, "The United States is ready to pay top price for natural gas, but at the moment we believe the $2.60 figure suggested by the Mexican government is too high. I do think an agreement can be reached as long as we don't push up the price."

The United States now pays $2.16 per thousand cubic feet of natural gas piped in from Canada.

The Mexican figure is pegged to the price of No. 2 fuel oil which the Mexicans would use to replace the gas they export.

DRILLING REPORT

ANDREWS COUNTY

Continental No. 32 W. T. Ford; pumped 2 barrels oil and 326 barrels water in 24 hours through perforatio ns 5,864 to 5,938 feet. Testing continues.

Rial No. 1-5 University; drilling at 7,841 feet in shale.

BREWSTER COUNTY

Union Texas No. 1 Sibley; drilling at 15,616 feet in shale.

CHAVES COUNTY

Harvey Yates No. 1 Rebecca Crosby; moving in and setting up pumping unit.

Harvey Yates NO. 8 Graves; td 3,907 feet in lime, waiting on completion unit.

Harvey Yates No. 2 East Lake Arthur; td 1,455 feet, set 8⅝-inch casing at 242, now tripping.

Depco, Inc. No. 2 Midwest-Federal; td 9,426 feet, took a drillstem test from 9,270 to 9,415 feet, gas to surface in 5 minutes, recovered 480 feet condensate, gas at rate of 8.4 million cubic feet per day, gravity 55.

Amoco No. 1-DQ State; td 9,540 feet, plugged back depth 9,486 feet, Morrow perforations 9,342 to 9,350 feet, acidized with 1,500 gallons, on initial potential flowed 1093 thousand cubic gas per day, 16/64-inch choke, tubing 775, no fluid.

CONCHO COUNTY

Bennett, Hillin & NRM No. 1 Pebble; td 270 feet, plugged back depth 324 feet, waiting on rotary.

COTTLE COUNTY

Samedan Corp. No. 1 Gregory; td 6,235 feet in lime, taking a drillstem test from 5,720 to 5,810 feet.

Samedan Corp. No. 1 Neiman Estate; drilling 7,490 feet in lime.

CRANE COUNTY

Lario Oil & Gas No. 2-D Tubb; repairing casing.

CROCKETT COUNTY

William N. Beach No. 1-B Noelke; drilling 525 feet.

Superior No. 1-Q University; drilling 2,295 feet in shale and lime.

Monsanto No. 1-29-35 University; acidized perforations 1,740 to 1,780 feet with 2,500 gallons, swabbing, no gauges reported.

James L. Lamb No. 3-26 University; drilling 1,400 feet in lime.

CULBERSON COUNTY

Atlantic Richfield No. 1 Covington State; drilling 12,183 feet in lime and shale.

DAWSON COUNTY

Cola Petroleum No. 1 Bowlin; td 8,600 feet, preparing to take potential test.

Cola Petroleum No. 1 Lowrimore; td 8,806 feet, flowing load through Dean sand perforations 8,616 to 8,722 feet.

Gulf Oil No. 1-A Woodward; preparing to test perforations 7,962 to 7,966 feet after 1,000 gallon acid treatment.

ECTOR COUNTY

Texaco, Inc. No. 6-14 West Jorden Unit; preparing to take potential test.

EDDY COUNTY

CITGO No. 1-A Polk; td 12,754 feet, running tubing.

J. M. Huber No. 5 Terra-State, td 2,896 feet, plugged and abandoned.

J. M. Huber No. 3 Terra-State; cut casing at 840 feet, preparing to plug and abandoned.

Mesa Petroleum No. 2-G Ringer-Federal; drilling 10,363 feet in lime.

Southland No. 1-18 State; drilling 6,280 feet in lime.

Eastland Oil Co. No. 1-K City of Carlsbad; drilling 2,885 feet in sand and shale.

Dorchester No. 1-J Liggett; td 9,315 feet, moving in completion unit.

Harvey Yates No. 18 Empire South Deep Unit; td 1,158 feet in anhydrite, fishing.

Depco, Inc. No. 1-A Sundance-Federal; drilling 3,560 feet in lime.

Aminoil No. 3 Willow Lake Unit, td 12,807 feet, ran 4 points, on 8/64-inch choke, 1.2 million cubic feet gas per day, no fluid, 8/64-inch choke, 2 million cubic feet per day, no fluid, 15/64-inch choke, 4 million cubic feet per day, no fluid and 19/64-inch choke, made 6 million cubic feet per day with ½ barrel production water, through perforations 12,274487 feet, now shut in, waiting on calculations.

Amoco No. 1 Pardue Farms Gas Co.; drilling 7,550 feet in shale.

Amoco No. 1 Johnson; td 8,705, plug back depth 8,663 feetvforaos 8,350 to 8,568 feet, acidized with 1,000 gallons, flowed 950,000 cubic feet gas per day on 14/64-inch choke, taping pressure 730 pounds, fractured with 20,000 gallons and 27,000 pounds sand, flowing to clean up.

Texas Oil & Gas No. 1 Keohane-Federal; drilling 11,055 feet in lime.

Barnes Oil Co. No. 1-F Little Squaw; drilling 710 feet in anhydrite.

Barnes No. 1-F Big Chief; td 2,641 feet in lime, set 10¾-inch casing at 2,560 feet.

Gulf No. 1-GL Eddy; td 11,150 feet, flowed 1.536 million cubic gas per day, 25 barrels distillant, 3 barrels water, 18/64-inch choke through perforations 11,024 to 041.

Gulf No. 2-GE Eddy; drilling 7,187 feet in lime.

Gulf No. 2-GF Eddy; td 12,297 feet, still shut in.

Gulf No. 1-GN Eddy; td 200 feet,ha16-inch casing at 200 feet, waiting on cement.

Gulf No. 1-D Shearn; td 11,350 feet, shut in.

Gulf No. 1-GX State; td 305 feet, set 13¾-inch casing at 305 feet, waiting on cement.

Amoco No. 1-J Federal; td 2,000 feet, running logs.

Amoco No. 1-A Yates-Federal Communitized; td 8,905 feet, running logs.

Amoco No. 1-EW State Communitized; td 3,695 feet, plug back depth 2,812 feet, hit key seat, waiting on cement.

Texas Oil & Gas No. 1-G Indian Hills State; td 7,573 feet, found drilling break from 7,570 to 7,573 feet.

GAINES COUNTY

CITGO No. 1-M Brown; drilling 6,607 feet in lime.

Paskin No. 1-215 Boecker; td. 5,800 feet, spotted acid.

Paskin No. 1-214 Elliott; drilling 2,181 feet in anhydrite and redbeds.

GARZA COUNTY

Jake L. Hamon No. 1 Hill; drilling 4,060 feet in lime and shale.

GLASSCOCK COUNTY

Amoco No. 1-B Winnie Powell Cooper; plugged back depth 3,790 feet, acidized perforations from 3,685 to 3,721 feet with 1,000 gallons, now testing on pump with no guages.

Belco Petroleum No. 1 Underwood; drilling 8,712 feet in shale.

Pennzoil No. 2 L.C. Clark; td. 6,305 feet, lost circulation.

HOWARD COUNTY

Campana Petroleum No. 2 Read; td. 8,925 feet, running 4½-inch casing.

HOCKLEY COUNTY

Amoco. 2 Boyd Unit; drilling 8,436 feet in dolomite and chert.

Amoco No. 45-3 Alex A. Slaughter Estate; set 13⅜-inch casing at 475 feet, now drilling 465 feet.

IRION COUNTY

Texas Oil & Gas No. 2-K Jones; drilling 6,365 feet in lime, shale and sand.

Union Texas No. 2-44 Farmer; drilling 2,870 feet in lime, shale and sand.

Union Texas No. 4-57 Farmer; td. 8,000 feet, spotted 2 gallons acid across perforations from 6,982 to 6,986 feet, acid with 4,000 gallons, recovering load, swabbed 70 barrels load.

Gulf No. 2-VE State; drilling 904 feet in lime and redbeds.

NRM No. 4 Rocker B; pumped 39.6 barrels oil and 22.5 barrels water in 24 hours.

NRM No. 6-A Rocker B; td. 6,565 feet, set 4½-inch casing at total depth, now moving off rotary.

NRM No. 1-B Rocker B; drilling 3,000 feet in shale.

Hytech No. 1-86-B; drilling 3,580 feet.

KIMBLE COUNTY

Cmco American No. 1 Charles Simon; drilling 2,867 feet.

LEA COUNTY

Amoco No. 1 West Tonto Deep Unit; plugged back depth 11,030 feet, acid with 3,000 gallons through perforations from 10,948 to 10,980 feet, swabbing load.

Amoco No. 2 Nellis Federal; td. 13,670 feet, set 5½-inch casing at 13,669 feet, preparing to drill out cement.

Atlantic Richfield No. 1 Langley Deep; acidized Ellenburger perforations from 13,642 to 13,531 feet with 15,000 gallons and shut in 1 hour, flowed back, gas to surface in 1 hour, turned through seperatec, 16/64-inch choke for 3 hours, tubing pressure 3,300 pounds, casing pressure 0, recovered 18 barrels water and 30 barrels condensate, flowed at a rate of 2.4 million cubic feet per day, turned to burn pit, iped on ½-inch choke and flowed on open flow wet, tubing pr essure 2,200 pounds, gas rate of 13 million cubic feet per day, testing continues.

Superior No. 1-L Government; plugged back depth 17,025 feet, fishing.

Getty No. 1-35 Getty; td. 315 feet, cleaning out fill.

Adobe No. 1-16 State; td. 13,783 feet, still moving off rotary.

North American Royalties No. 1 Long; drilling 8,470 feet in lime and shale.

Cotton Petroleum No. 1 Lowe Land; drilling 11,350 feet in lime and shale.

Cleary Petroleum No. 2-A New Mexico-Federal; drilling 6,021 feet in lime and shale.

Cleary Petroleum No. 1 Folmont-Federal; drilling 9,450 feet in lime and sand.

Monsa Petroleum No. 1 Mattie Burns; td. 10,950 feet, testing.

Energy Reserve Group No. 2 Amoco-State; drilling 3,577 feet in anhydrite.

Gas Producing Enterprises No. 2-27 Chamberes-State; drilling 8,720 feet.

LOVING COUNTY

Conoco No. 1 Arno Gas Unit; td. 17,682 feet, fishing.

LUBBOCK COUNTY

Hillin rd Oil & Gas No. 1 Merrell; td. 7,317 fee t, shut in for repairs.

General Crude No. 60-1 Kitchens; drilling 11,945 feet in lime and shale.

MARTIN COUNTY

Parker & Parsley No. 1-A Snyder; drilling 1,052 feet in surface rock and redbeds.

Hillin rd No. 1 Grantham; td. 12,150 feet, logging.

MGF No. 1-A Stimson; td. 9,130 feet, flowing load through perforations from 8,911 to 9,030 feet.

MGF No. 2-A Stimson; drilling 1,195 feet in redbeds.

RK Petroleum No. 1 Juliette; drilling 11,301 feet in lime and chert.

RK Petroleum No. 1 Smith-Taylor; drilling 8,395 feet in lime.

Rial No. 1 Snell; drilling 2,500 feet in anhydrite and salt.

MENARD COUNTY

Bennett, Hillin & NRM No. 3-101 Jacoby; td. 3,500 feet in lime and shale.

OTERO COUNTY

Robert E. Hillin No. 1 Burro Canyon Unit; drilling 525 feet in lime.

PECOS COUNTY

Gulf No. 1-A Bostman; td 3,500 feet; flowed 11 barrels of oil and 33 barrels of water in 24 hours, through a one-inch choke and perforations at 3,353-3,373 feet.

Gulf No. 1-B Bostman; td 3,500 feet; flowed 30 barrels of oil and nine barrels of water in 24 hours, through a one-inch choke and perforations at 3,346-3,172 feet.

Gulf No. 1 Guswalt; td 3,510 feet; circulating; spotted 100 gallons over perforations at 3,34 2-3,384 feet.

Gulf No. 1-A USM Hillin; td 3,475 feet; flowed 138 barrels of oil and 277 barrels of water in 24 hours, through a one-inch choke and perforations at 3,148-3,324 feet, which have been acidized with 2,000 gallons and fractured with 21,000 gallons and 35,000 pounds.

Gulf No. 2-DA Weatherby; drilling 3,610 feet in anhydrite.

Getty No. 2-31 Montgomery; td 11,287 feet; preparing to drill ahead after recovering fish.

Resources Investment No. 1 Weidenbach; drilling 2,010 feet in lime and sand.

Aminoil No. 1 Harral; drilling 11,931 feet in shale, sand and lime.

Monsanto No. 1 Claude; drilling 7,310 feet in lime and shale.

Phillips No. 1 C. Mitchell; drilling 10,175 feet in lime and shale.

Phillips No. 1-B Claude; pb 12,200 feet; swabbing, no gauges, through Strawn perforations at 12,129-12,142 feet, which were acidized with 250 gallons.

Phillips No. 1-N Shell pb 11120,000 feet; preparing to perforate Strawn zone.

Phillips No. 1-P Mitchell; drilling 6,875 feet in lime and shale.

Texaco No. 3-D Pecos Fee; td 11,200 feet; flowed 250,000 cubic feet of gas per day, plus 313 feet of load kerosene in 14 hours.

Texas Oil & Gas No. 2-K Wilson; pb 1,471 feet; waiting on gas connection.

REAGAN COUNTY

on No. 2-12 University; td 6,856 feet in chalk; making a trip.

REEVES COUNTY

No. 1 Hobbs; td 3,185 feet; waiting on completion unit.

Gulf No. 9 Cleveland; td 13,050 feet; flowed 3.5 million cubic feet of gas per day, plus two barrels of distillate, in an unreportaxount of time; 13 barrels of distillate have been recove red, through perforations at 12,856-12,723 feet, which were treated with 1,000 gallons of acid and 83,046 gallons of fracture material.

Gulf No. 7 Horry; drilling 3,158 feet in anhydrite.

Gulf No. 1-NB State School Board; td 5,800 feet; still "light".

Gulf No. 2 Westervelt; td 6,710 feet, waiting on cement; set 5½-inch casing at td.

Texaco No. 3-AZ Reeves Fee; shut in for four-point test.

ROOSEVELT COUNTY

Enserch No. 1 Lambirth; td 2,434 feet; fishing.

SCHLEICHER COUNTY

Lovelady No. 2 O'Harrow; td 5,380 feet; swabbed 14 barrels of load water with a small show gas in eight hours through perforations at 5,352 5,380 feet, which were acidized with 500 gallons.

Cola Petroleum No. 1 S. Whitten; td 6,600 feet; pumping back load, through perforations at 3,938-6,352 feet.

Bennett & RKH No. 1 Bruton; td 7,804 feet, pb 7,706 feet; waiting on cement.

SCURRY COUNTY

Lario No. 1 Chriswell; td 6,470 feet; logging.

STERLING COUNTY

Crown Central No. 1-143 Terry; td 7,350 feet; flowed 160 barrels of load oil in 24 hours, through an 18/64-inch choke.

Crown Central No. 2-143 Terry; drilling 5,470 feet in shale.

STONEWALL COUNTY

Desana No. 5-147 Flat Top; td 3,525 feet, moving out rotary.

Desana No. 2-132 Flat Top; drilling 220 feet in redbed; set 8⅝-inch casing at 127 feet.

Desana No. 3-132-B Flat Top; td 4,800 feet, has been plugged and abandoned.

Continental No. 1-A Zant; td 5,670 feet; taking potential test, through perforations at 5,561-5,585 feet.

TERRELL COUNTY

Gulf No. 1-8-35 University; drilling 11,995 feet in sand and shale.

UPTON COUNTY

Cox No. 2 Duff (was No. 2-I Owens); drilling 8,058 feet.

Aminoil No. 1-15 University; pb 10,882 feet; shut in.

VAL VERDE COUNTY

Resources Investment NO. 1-8 Arledge; ddrilling 5,340 feet in lime.

Resources Investment No. 1-20 Mills; drilling 14,427 feet in dolomite and chert.

Pennzoil, Getty & Tamarack No. 1 Fawcett; td 10,986 feet, still fishing.

WARD COUNTY

Monsanto NO. 1-17university; td 7,669 feet; preparing to drill ahead.

Monsanto No. 1 Kelton; td 9,793 feet; preparing to drill ahead.

Gulf No. 2 Cadenhead; drilling 13,639 feet in lime and shale.

Gulf No. 6 Crawar; td 5,000 feet; shut in; fractured perforations at 4,108 4,240 feet, with 30,200 gallons and 30,000 pounds.

Gulf No. 5 Pruett; td 11,400 feet; flowed 80 barrels of oil and 715 barrels of water in 48 hours, in 24 hours, through perforations at 5,315-5,526 feet and a 15/64-inch choke.

Gulf No. 2-OC State; td 6 630 feet, pumped 32 barels of oil and 346 barrels of water in 24 hours, through perforations at 4,973-5 736 feet.

Gulf No. 1-WZ State; drilling 3,293 feet in anhydrite

Gulf No. 3-13 18 University, td 6,375 feet flowed 177 barrels of oil and 99 barrels of water in 23 hours, through a 12/64 inch choke and perforations a t 6,214-6,288 feet, which were treated with 17,500 gallons and 26,000 pounds of fracture material.

Gulf No. 3-13-18 University; td 13,100 feet in shale; waiting on cement; hung a 5-inch liner from 10,803-13,099 feet.

Continental No. 4 Wilson; flowed 93 barrels of oil and 307 barrels of water in 24 hours, through an 18/64-inch choke and perforations at 6,038-6,086 feet.

Conoco No. 8 Wilson; drilling 5,138 feet in anhydrite and lime.

Getty No. 4-10-18 University; td 11,317 feet; logging.

Southland Royalty No. 3-A Edwards; td 5,000 feet; pumped 26 barrels of load water in 15 hours, through perforations at 4,144-4,320 feet.

Union Texas No. 1-19-19 University; drilling 13,980 feet in shale.

Superior No. 1-P University; drilling 18,733 feet in shale.

Superior No. 1-20-18 University; shut in; perforations at 12,758-12,914 feeth, were treated with 68,000 gallons and 92,000 pounds of fracture material and acidized with 18,000 gallons.

Gulf No. 1 Lois McDaniel (was filed No. 1 McDaniel Gas Unit; has been completed to flow 13 barrel and 36 barrels of water, through perforatiot 11,084-11,208 feet. Gravity of the oil was 42.4 and gas-oil ratio was too small to measure

WINKLER COUNTY

Cotton No. 1-38 University; td 11,804 feet; preparing to cement 5½-inch casing at 11,800 feet.

Monsanto No. 1 Evelyn; td 10,310 feet, circulating off gas.

Rial No. 1-6 A Sealy-Smith; drilling 630 feet in redbed.

Settlement may not be answer

AUSTIN, Texas (AP) — A proposed settlement of more than $1.6 billion in customer gas claims against Lo Vaca Gathering Co. will not solve all of Lo Vaca's legal problems, says a lawyer for five Crystal City residents.

"The courts will still be clogged by many litigants if everyone is not taken care of" in the settlement, Paul Rich said at a railroad commission hearing Wednesday.

The hearing before examiner Tom Hill went into its ninth day today.

Rich and other lawyers questioned Lo Vaca president William Greehey on Wednesday.

Greehey testified that the only reason Lo Vaca has been able to obtain gas recently is that "our producers believe there will be a settlement. They just don't believe the Dec. 12 order. I don't think anyone believes the December order."

The commission order would force Lo Vaca and its parent, Coastal States Gas Corp., to refund the more than $1.6 billion and to live up to older and cheaper gas contracts.

He reiterated that the order would force Lo Vaca into bankruptcy.

Greehey said under cross-examination by a lawyer for Big Three Industies Inc., however, that he has assured suppliers that they would be paid, but some are not convinced.

Greehey also testified that other natural gas customers might resent it if the settlement wiped out $800,000 owed LoVaca by Crystal City.

Opponent tags water plan backers 'water hustlers'

EDITOR'S NOTE — By far the most emotional, critical and expensive facet of long-range Texas water planning is the issue of importation. It poses an engineering, economic and political challenge of enormous proportions. In this special report, one in a series on Texas water, the pros and cons are examined.

By MIKE COCHRAN

HOUSTON (AP) — "Hustlers," he sniffed. "Water hustlers. If you look at the hard facts, it's a house of cards that doesn't make any sense at all.

"The hustlers want to spend billions of dollars to import water to the High Plains, but nobody ever says who the hell's going to pay for it.

"When you ask them, the silence is deafening."

So says one Jay Tapp, a Houston business consultant who ranks among the most vigorously vocal opponents of water importation to Texas.

It is a multibillion-dollar debate.

"I'm not unsympathetic with the problems of the people on the High Plains. It's a damn serious problem," Tapp said in an interview.

"But whether or not the people of Texas should pony up the money to solve their local economic problem is a real question ... Until they get the silliness out of the Texas Water Plan, the voters will continue to reject it."

The Texas Water Plan is the state's flexible guide to meeting its long-range water needs. And Tapp is one of the plan's severest critics.

Adversaries contend Tapp's views on water stem from a conflict of interest involving a ranch he owns in a proposed dam site on the Blanco River.

The project would submerge his ranch in water. But Tapp scoffs at the accusations:

"I tried to protect my ranch from being flooded. There was no conflict of interest."

And he disagrees emphatically with those who insist the state's economic future will be jeopardized by failure to locate a surplus out-of-state water source and transport it to Texas.

"The basic thrust of the whole thing, the primary crisis, is created by irrigated agriculture," Tapp said. "The water hustlers want to increase from 8 million to 21 million, the number of acres under irrigation.

"But they don't ever stop to look at the economics ... Researchers say $20 to $35 (per acre-foot) is the break-even price farmers can afford to pay.

"Although they didn't pin down what it's going to cost to implement (importation), it looks like water will be selling for $200 to $300 an acre foot.

"The lifting of all this water to the High Plains, the energy costs, it just gets out of sight. Some High Plains farmers are having to shut down their pumps now because of energy costs."

Tapp contends he has found "gaping holes" in state and federal water agency reports on multimillion-dollar water schemes and that "the original Texas Water Plan had holes a million miles wide."

Why, Tapp asked, should Texas taxpayers be expected to subsidize irrigation farming on the High Plains and elsewhere that water must be imported?

Dr. Herb Grubb of the Texas Department of Water Resources acknowledged that irrigation uses a large quantity of the state's water, adding:

"Since 1970, about 60 to 62 percent of the total value of crops grown in Texas are grown on irrigated land—8 million acres of it.

"If one were to lose this production, then the total quantity of grains, cottons and vegetables that would be sold to the food processing industries would be reduced significantly.

"Farm prices would increase for the crops that were grown and this increase would be felt at the grocery stores throughout the state. We would have a lower quantity of food material coming to market at the higher price and we would have less of these commodities to export to foreign markets."

And that, said Grubb, one of the state's leading resource economists, "would negatively impact our balance of payments and thereby adversely affect the national economy as it relates to the world economy."

Another consideration, he said, is the social and economic costs of declining regional economies that are now using the exhaustible water supplies.

"The most important of these is the opportunity that will be lost by the people ... in what is now a significant element of our statewide economy," he said.

"We're talking about relocating large numbers of people into jobs in other parts of the United States, if those jobs can be found."

Grubb said the state water department takes the view that, "we shall attempt to provide the water necessary to meet the needs of the people, the economy and the environment."

And he agreed with Duncan Ellison of Lubbock, executive director of Water Inc., that those who benefit from the importation investment will pay the freight.

"Those who benefit directly, such as the farmer who uses the water, will pay directly," said Ellison, whose non-profit organization is dedicated to water importation.

"Those who benefit indirectly, such as the consumer, will pay indirectly — in the price he pays at the market place.

"When we talk about the worldwide need for food and fiber, we have the facts with us. We don't have all the answers, but we'll ... try to come up with the very best solutions."

Ellison said he considered Tapp's estimate of $300 an acre-foot water nearly three times what the actual cost would be and also suggested a water-less West Texas would not be the main victim.

"Over the long haul, it still comes down to the fact that the big losers are the people who would have processed and used the produce from this area," he said.

"And another thing," he snapped. "I'm a water hustler, and you can quote me on that. I'm proud of it."

55" Wide China
Oval Table and two leaves
4 side chairs
2 Arm chairs
$1939.00

Thomasville designers have researched carefully the motifs of country furnishings and created a beautiful dining room grouping of true character. All furniture with colonial themes was inspired by the heritage of early settlers from their native England. These design motifs are seen throughout these handsome dining room pieces. Authentic details include the dentil molding just under the deep cornice top. A country English motif is noted in the arch form on the china cabinet. The wooden grille follows the same attractive shape and adds authenticity. Thomasville's attention to detail is seen in the deep beveled panels of the lower doors and the important bracket foot. The tables and chairs are reproductions of New England Queen Anne styles. In keeping with the charm of the country character, native woods of oak veneers and solids are selected. The rich fruitwood finish is hand-padded and heavily distressed to achieve the look of fine antiques. In this grouping are the treasured design elements which create "that Thomasville look."
