Number 41

Heavy Rains Set New Record For Year

Crowd Attends I'm-An-American Day Program

A crowd that filled the auditorium and galleries of the Methodist Church to overflowing, coming from every section of the county, heard the I'm-An-American program here Sunday afternoon, which was pronounced to be good from beginning to end.

The parade which was to have preceded the program was abandoned, however, on account of a light shower of rain which began falling just as the parade should have begun, and the place for rendering the program was changed from the City Park to the Methodist Church for the same reason. Members of the American Legion, Boy Scouts, and Girl Scouts attended the program.

Truett Smith, who was to have acted as master of ceremonies, was unable to be present on account of illness, and District Attorney Rollin McCord substituted for him.

The Tahoka High School Band, in uniform, led by the band director, John Hamblen, rendered several numbers.

Supt. W. T. Hanes, who initiated the movement for the observance of the day in Tahoka, was in charge of the program and made a few appropriate introductory remarks.

W. A. Reddell pronounced the invocation and John Hamblen led the congregation in singing "God Bless America" and "America".

Under the direction of Mrs. Loyd Edwards, four brief community program numbers were rendered, all of which were highly enjoyed and appreciated.

First, there was a patriotic talk by Mrs. R. L. Pirtle of Draw, impressive and effective.

This was followed by a piano duet by the School children, Allie Jo and Billy, brother and sister, of O'Donnell, the foster children of Mr. and Mrs. B. M. brother and sister, of O'Donnell.

Buddy Gene Bragg represented West Point, delivering an appropriate declamation.

Miss Maurye Giles, teacher in the New Home school, sang most beautifully and effectively the national anthem, "The Star-Spangled Banner," accompanied by Miss Thelma Ruth Strain of New Home on the accordion.

The address by Dr. W. B. Irvin, superintendent of the Lubbock city schools and president of the State Teachers Association, was pronounced by all as most excellent.

A lengthier address was delivered by Tahoka's own Tom Garrard, who had many good things to say, stressing America's need to prepare for the emergency of war and to meet the totalitarian threat which the world now faces.

As a closing number, John Hamblen again led in the singing of "God Bless America."

The success of this program will doubtless encourage the giving of another such program next year and annually thereafter.

Free Coffee And Gingerbread For The Business Men

Tahoka business men are invited to be guests of The News' Cooking School from 9 to 10 a. m. this morning (Friday) at the basement auditorium of the First Baptist Church for a cup of Admiration Coffee, "The Cup of Southern Hospitality" and hot gingerbread, and to meet the Cooking School lecturer, Miss Jessie Hogue.

Remember the time this morning, 9 to 10 o'clock.

All men are also welcome to attend the lectures at 2 p. m. on Friday and 9:30 Saturday morning.

Street Paving Is Halted By Rains

Workers started pouring on the hot-top on Tahoka's city paving project Monday morning and had the work barely under way that day, when Tuesday morning's rain put a stop to the project. However, with the return of warm, dry days, the work will be resumed.

Hot-top was poured on the center sections of the street on the west side of the square and the street between the postoffice and the agriculture building.

Tuesday morning workmen began pouring hot-top on the first street east of Main in the business section when the rains came.

Other streets on which topping will be placed include those around the City Park and West North Third Street from Main to the High School building.

Although there are about twenty blocks in the town to be treated with hot topping, and the work would have proceeded continuously until the job was completed had not the rains interfered.

Work will be resumed, however, as soon as the weather will permit—possibly before this paper reaches the reader—and with favorable weather conditions, the job should be completed within a few days.

56 Seniors Are Given Diplomas

Fifty-six seniors of Tahoka High School were presented diplomas of graduation last Friday night before a crowd of relatives and friends in the school auditorium Friday night.

Dr. Clifford B. Jones, president of Texas Technological College, delivered the commencement address, in which he gave practical advice and suggestions to the young people complete the high school phase of their education.

Diplomas were presented by Prentice Walker, president of the board of trustees.

Miss Lenore Anglin was valedictorian, Miss Eleanor Dudgeon salutatorian, and Glenn Loyd was highest ranking boy in the class.

Last of the school activities for the 1940-41 term were performed on Monday afternoon, when students throughout the school system were handed their report cards for the year.

A majority of the teachers will spend most of the summer here, a few will attend school, and a few will visit at their former homes.

Golfers Planning Chicken Barbecue

Play was begun last Sunday in a big chicken barbecue golf tournament at the Tahoka Golf Club, the winning side to entertain the losers with a chicken barbecue on Monday night, June 2. Play must be completed on Sunday, June 1.

Fifty-six golfers are scheduled to participate, 28 on a team headed by J. K. Applewhite, and 28 on a team headed by R. P. Weathers. The team winning the most 18-hole contests will be declared the winner.

New Pharmacist At Tahoka Drug

Emery C. Glass, recently of Lubbock began his duties at Tahoka Drug Wednesday morning as pharmacist.

Mr. Glass graduated last winter from the University of Texas School of Pharmacy, and has been employed since that time at Mark Halsey's in Lubbock. He is said to be a very capable pharmacist.

Mrs. Glass and their child arrived here Thursday to make their home. Mr. Glass replaces Glen Smith, who left a few months ago to work in Portales, N. M.

Mrs. L. P. Craft was a visitor in Sundown Thursday.

Miss Hogue, cooking expert, demonstrates cake baking methods.

News' Free Cooking School In Progress

In spite of threatening weather and muddy roads, 130 women, not including children, registered at the opening session of The Lynn County News' Happy Kitchen Cooking School in the basement auditorium of the First Baptist Church Thursday afternoon. Other sessions of the school will be held at 2 p. m. today, Friday, and the final session beginning at 9:30 a. m. Saturday.

Miss Jessie Hogue, noted food economist brought a very interesting lecture and demonstration of modern kitchen methods.

New methods of preparing other foods will be demonstrated today and tomorrow. Recipes used during the school are being printed in The News, beginning with this issue. Watch for others next week.

Happy Smith served all those present Orange Crush, and gifts and samples were given away by national advertisers and local merchants to eighty women.

The Mrs. Tucker's Cake Baking Contest, in which eight cakes were entered Thursday, will close with the Saturday morning show. All cakes must be brought in at the lecture at 9:30 a. m. Saturday or before. Valuable prizes will be given the four best cake bakers.

Women were registered from O'Donnell, Draw, Grassland, Midway, New Lynn, Wilson, Woodrow, Dixie, New Home, Meadow, West Point, and other communities.

Three Are Injured In Wreck Here

A man named Byrd, about 50 years of age, residing at Westbrook, and a young woman whose name was not learned by the News, but who is said to reside in Big Spring, were seriously hurt about eight o'clock Thursday morning when the car in which they were riding and which was being driven by a Mr. Gressett, also of Westbrook, overturned on the highway a few miles south of Tahoka.

Ed Park, Ed Garnett and others arrived at the scene soon after the accident and the injured were brought to Tahoka, but not finding a physician readily, the three were taken on to a hospital in Brownfield, the place where the three were going when the accident occurred, Mr. Gressett having a brother there.

Garland Pennington accompanied them to Brownfield but he did not learn the exact nature or extent of the injuries.

The car was badly damaged.

Newmoore School Closes May 30th

Newmoore, the last school to close in Lynn county, will hold its final exercises on May 30, according to Fred Bryant, superintendent.

Newmoore has been teaching through ten grades, but next year the teaching force will be cut from three to two and the number of grades taught will be reduced to seven. This is being done in order that the school might be standardized.

Mr. and Mrs. Bryant will be the teachers next year.

Three Trainees Leave For Camp

To fill the call for three Lynn county men for training in the army, two whites and one Mexican answered the call today.

Robert Draper of Midway, order No. 32, and Melvin D. Brookshire, Grassland, order No. 215, left here at 7:40 this Friday morning on a bus for Big Spring and thence to El Paso, where they will enter Fort Bliss.

The Mexican, Ramon Torres, order No. 219, had been transferred to Bexar county, and was to be inducted into the service at San Antonio.

Two Negroes who had volunteered to answer the call for one Negro from this county on Monday, May 19, whose names were published last week, Johnny Burt Williams, an under, and John D. Walker, order No. 465, failed to pass the physical examination. Howard Anderson, order No. 29, who had been transferred from Lynn to Karnes county, was selected therefore to answer this call, and he was inducted from that county Monday.

The Board is now sending out questionnaires to the remainder of the registrants in this county. Up to Thursday morning 150 had been sent recently, up to and including order No. 752.

Tahoka Is Winner Of WTCC Award

At the convention of the West Texas Chamber of Commerce in Mineral Wells last week, Tahoka won the Membership award. This award is made, as we understand it, on basis of population, and Tahoka had more members according to population the past year than any other city or town in the territory served by this organization.

In token of this distinction, a certificate, beautifully framed, was presented to Tom Garrard, acting secretary of the organization for Tahoka. To Mr. Garrard personally is due most of the credit for this splendid showing. To him also is due the thanks of our entire citizenship for the prompt and efficient manner in which he has handled Chamber of Commerce matters here.

Mr. Garrard was also on the program at the Mineral Wells meeting for an address.

We have been unable to contact Mr. Garrard, however, since his return from the convention and failed to get a resume of its proceedings.

Mrs. Garrard accompanied him to the convention.

Lyntegar Finishes Line In Hockley

Lyntegar last week completed lines offering 12,500 volts of electricity in Sundown, Hockley county, thus assuring them adequate electricity for power service.

Lyntegar Co-op was already servicing the Sundown line, but the power was pitifully inadequate for the need before the completion of the new lines, Garland Pennington, manager, said.

Service for Sundown was just another step in the progress made by Lyntegar since its organization several years ago.

Tahoka Senior Are In Mountains

About thirty-five members of the Tahoka High School graduating class have been at Ruidoso, in the White Mountains of New Mexico, since Monday of this week. They were scheduled to return home either Thursday night or Friday.

Hope Haynes and Miss Willie Pearl Dockray, teachers, were chaperones for the group.

They expected to visit a number of places of scenic interest in the Mountain country.

Most Farmers Must Re-plant Cotton, Feed

The frogs have been having a hilarious time this week. They evidently think they are down in the swamps somewhere. And for a few days they have had good reason to think so. Lakes are full, and sluices of water running over the highways here and there. It's enough to fool any West Texas frog, most of whom, or which, had not yet learned to swim.

But the amount of rainfall this week varied greatly in different localities. In Tahoka, the rainfall Tuesday and Wednesday amounted to 2.71 inches, bringing the total for the month of May up to 6.47 and the total for the year up to 13.75.

But east of town it must have rained much more than it did here. Out there the water ran over the highway in many places. Near the George Small residence it swept across the pavement several inches deep, and further out, beyond the six-mile filling station, the water across the highway was so deep as to flood cars and stop them.

In fact, Marshall Stewart, says they had a regular cloudburst out there. It rained four inches Tuesday, he reported and six inches Wednesday morning, a total of ten inches in two terrific downpours—a larger amount than was ever registered by any Government rain gauge anywhere on these plains that we have ever heard of since the memory of man runneth not to the contrary. Lakes in that immediate section are fuller than they have ever been seen before.

In Lubbock also there was an unprecedented rain Tuesday, according to all reports. While less than three inches was recorded by the Texas Tech college rain gauge, yet it was claimed that down-town Lubbock got a five or six inch rain. Photographs of the flooded streets published in the Avalanche and the Journal indicated that something awful had happened. Water ran over the curb and into many places of business, it was reported.

The old Yellowhouse Draw got on a rampage and sent water over the spillway of the Buffalo Lake dams to such a depth as to create the fear that the structures would be swept out, but they weathered the storm successfully.

A large portion of Lynn county particularly the western and southern portions, got little or no rain Tuesday, but Wednesday's rain seems to have covered the entire South Plains.

In Tahoka, the rainfall Tuesday measured 1.06 inches, while that of Tuesday night and Wednesday registered 1.65 additional.

Most if not all of the cotton and the feed that had been planted will have to be replanted over. This will make it later but it may be better in the long run. It is unfortunate for farmers to lose so much valuable seed, however.

John Heck of Wilson, who was here Thursday, reports that Wilson had 5 inches of rain this week. He says the soil was washed badly, worse than ever came under his observation before. Hail destroyed the roof of one building on his place. He says that from one high point east of his house he believes that fully ten thousand acres of water are visible. He declares that he never before saw so much water in this country.

George Small declared that he had the biggest rain on his farm he had had in twenty years.

Florence Brothers Visit Home At Draw

Sergeant Willie Florence and Private Charles Florence visited their parents, Mr. and Mrs. W. Z. Florence, at Draw over the weekend.

They are former students and athletes of Howard Payne College and were mobilized and sent to Camp Bowie with the National Guards in November.

**Buy Tires
NOW**
*Pay later
as you ride*

It's easy to get easy terms on first-line Lee DeLuxe Tires at any Phillips 66 station.

Whether you need one tire, or new rubber all around, you will be pleasantly surprised by the lack of red tape, by the liberal pay-as-you-ride plan.

You get tires with top quality proved by the famous 5-million mile Florida Road Test. Pitted against other leading first-line brands, Lee Tires were superior in tread-wear... cord-strength... resistance to bruises and to ply-separation. Yet first-line Lee Tires cost no more than other leading makes. Actually, they cost less than you guess!

ODDS & ENDS

by Eee Eye,
the Elder

During all the countless years preceding the dawn of the twentieth century, wars were fought on the surface of the land and the sea. But now they are being waged on the land and the sea, in the air and under the sea.

Three of the most destructive implements of modern warfare are the airplane, the submarine, and the armored tank. In the present war, Germany is using each one of these implements with greater effectiveness than has any nation with which she has yet come to grips; and, if the United States should enter the war, Hitler will use them as opportunity may afford against us.

And yet, ironical as it may seem, America has furnished each of these implements of death and destruction to the world.

Many of you silver-haired men and women, yea many whose hair is yet scarcely touched with silver, can remember the thrill that we experienced when it was announced in 1905 that the Wright brothers, Wilbur and Orville, had made a successful long-distance flight in an airplane at Dayton, Ohio. They had made successful short flights at Kitty Hawk, North Carolina, in 1903, but little attention was paid to their experiments and the world knew little about them. But we were thrilled when we read newspaper accounts of their long-distance flight in 1905.

Some contend that credit should go to Prof. S. P. Langley of Massachusetts for having constructed the first heavier-than-air power-driven machine that would fly, for he constructed such a machine in 1896, in which a flight of more than half a mile was made, and in 1903 he built another machine which he failed to operate successfully, but in which Glenn Curtiss, another American, did make a successful flight in 1914, after Langley's death.

Glenn Curtiss himself made a machine in 1906 in which he flew a distance of more than a mile, another machine in 1909 in which he flew at a speed of almost 47 miles per hour in a flight at Rheims, France; and in 1910, he flew from New York to Albany, a distance of 142 miles, with only three stops. In 1919, a Curtiss machine made the first flight across the Atlantic Ocean.

Thus it was America that taught the world how to fly.

The submarine is also an American invention. John Phillip Holland, an Irish-American, is credited with having devised the machine upon which all present-day models are based.

Holland was born in Ireland in 1842. Probably for good and sufficient reasons, he grew up to hate the English landlords who owned much of the land in Ireland.

Almost before reaching the estate of manhood he began to study some method by which English sea-power might be curbed. While teaching at Cork at the age of 20 in 1862 he conceived the idea of devising a type of submarine that would be effective in blowing up battleships. He solved the problem to his own satisfaction but nothing came of it at the time.

Then he emigrated to America. While supporting himself as a teacher, he continued to work on his submarine idea. He perfected a successful machine in the seventies but it was not until 1895 that the United States Government became sufficiently interested in the possibilities of the submarine as a weapon of warfare to advertise for bids for the construction of such a machine.

Holland offered a model in 1896 which was accepted. That was the beginning of the present-day submarine as an implement of war.

Holland was not the first Ameri-

can, however, who had dallied with the submarine idea.

Before Robert Fulton became interested in the idea of a boat propelled by steam, he worked diligently on the invention of a submarine. Going to France in 1796, he devised a cigar-shaped submarine that was really a success. He gave exhibitions both in the harbor at Brest, France, and in England. The strange craft was able to stay under water for a period of five hours, and with it Fulton blew up the hull of an old ship with a mine.

But for some strange reason, governmental authorities failed to grasp the possibilities of the new invention and did not become interested. Fulton then turned his attention to the invention of the steamboat. With his first successful model, he gave a demonstration on the Seine in 1803, but strange to say France did not become interested in that either. And so the submarine was not yet to make its advent.

Several small submarines were employed by the Confederates in the Civil War and they succeeded in blowing up one Federal ship, but the Confederates failed to develop these craft to the point that they really became effective.

It remained for the Irish school teacher to devise the craft which was accepted by the United States Government and which became the forerunner of all the submarines that now swarm the seas.

Ironically enough, these submarines were used by Germany to sink Uncle Sam's merchant vessels on the high seas during the World War, and this policy on the part of the German Government finally drew the United States into the war.

When Robert Fulton's submarine had failed to enlist the interest of the French in the late 1790's, and when his first steamboat, which he demonstrated on the waters of the Seine in 1803, also failed to interest them, he turned again to America.

Upon his arrival, he began work upon another boat. The result of his craftsmanship was the Clermont. He became the butt of many a joke directed by the incredulous at his clumsy-looking contraption, which reminded one wag of "a sawmill mounted on a scow and set on fire." But on the day set for the start of its first trip up the Hudson

River from New York to Albany, a great crowd gathered to watch the experiment. It was a gay crowd, we may well assume. Many, no doubt, expected to witness a grand fiasco. But lo and behold, when the engineer took his seat and turned on the steam, the boat began to move! It chugged up the Hudson at the rate of five miles per hour!

But the possibilities of steam navigation had been proved, and the problem of increasing the speed was easily solved.

An American had given to the world the steamboat; and the other day when Americans witnessed the launching of the mightiest battle ship ever built, the U. S. S. Washington, they well might have turned their thoughts back to the historic feat performed by that resourceful and self-reliant American citizen of another day, Robert Fulton; for it was the perseverance and the genius of this child of democracy that made possible all the great modern navies of the world.

The big tanks being used both by Hitler and the British in their titanic struggle for mastery are merely a development of the caterpillar tractor, which was first manufactured in Peoria, Illinois.

It was large-scale farming in America that created a demand for mechanical power, and the tractor was invented to meet the demand. We do not know who devised the first model, but among the models developed was the caterpillar type.

During the World War the British conceived the idea of a war machine built on the caterpillar model, and the appearance of these "tanks" on the fields of France, manned by British soldiers, advancing across ravines and climbing steep hills and crushing down saplings that stood in their path to make assaults upon the enemy, struck consternation into the ranks of the Germans on many an occasion.

And so, when Hitler began to build up his great war machine a few years ago, he included these powerful tanks in his equipment.

Edgar, thirteen year old son of Charlie Clinton, has been seriously ill at his home here for the past ten days.

THE LYNN COUNTY NEWS—TAHOKA, TEXAS

MRS. GLADYS STOKES WILL ATTEND CONVENTION

Mrs. Gladys M. Stokes has qualified for attendance at the 37th annual agency convention of the Southwestern Life Insurance Company to be held in Galveston, June 5-6-7, according to C. F. O'Donnell, president.

More than 400 persons are expected to attend the convention including 220 agents, their wives and officials of the Company. Southwestern Life representatives, by producing a specific volume of business during the previous year, win the right for themselves and their wives to attend the convention with their expenses paid.

A program replete with discussions devoted to the business of life underwriting has been planned for the convention. Amusement and entertainment features typical of the Port of Galveston have been planned.

Four employees of the Tahoka office of Lyntegar Co-op, Inc., in Tahoka plan to attend a West Texas-New Mexico conference of Project superintendents and bookkeepers in Lubbock Saturday. Planning to attend are Garland Pennington, Oran Short, and Misses Ellen Nixon and Robbie Milliken.

U. S. TRAINS YOUTHS FOR SEA

The United States Maritime Service is meeting the threatened shortage of skilled merchant seamen by training youths who have had no previous seagoing experience. Young American citizens in good physical condition 18 to 23 years of age are being enrolled for a seven months' course of instruction in the duties of the deck, engineers, and stewards departments. Enrollees are paid \$21.00 monthly; clothing, food, and quarters are furnished by the Government. The training course qualifies these young men for jobs on American merchant vessels where pay starts at \$72.50 a month with food and quarters furnished. For detailed information write to U. S. MARITIME SERVICE, WASHINGTON, D. C.

HENSLEY-WILLIAMS

A wedding of more than usual interest in the county was that of Miss Jo Williams and Pat Neff Hensley, popular young people of the Draw community which occurred at the home of the bride's parents Sunday morning, May 18, at 10 o'clock.

The couple was attended by Mr. and Mrs. B. Barnes, when the Rev. Jesse Young, pastor of the Draw Methodist Church, read the beautiful rites that united them as husband and wife.

The bride, costumed in blue with white accessories, carried a shower bouquet of red radiance and tall-moon rosebuds with fern. Later Miss Lois Williams caught the bride's bouquet.

At noon the guests and the bridal pair enjoyed a feast in the parental

home and the bride's cake was cut and served to all.

Mrs. Hensley is the daughter of Mr. and Mrs. J. A. Williams, while the groom is the son of Mr. and Mrs. A. R. Hensley, both well-known families of the Draw community, where both young people were reared.

The young couple immediately started keeping house in an attractive home of their own on his farm northwest of Draw.

Everett Gaussoin, young son of Mr. and Mrs. Clarence Gaussoin, underwent tonsillectomy in a local clinic Tuesday morning.

Mr. and Mrs. Russell Haney and baby daughter, Nona Beth of Roscoe, visited Mr. and Mrs. L. C. Haney here last week end.

HAWKINS REUNION SET FOR JUNE 9TH

June 9 is the date set for Homecoming for ex-students of the now non-existent Hawkins Normal College, which until 1914 was situated at Gorman. W. A. Anglin, who is an ex-student, said it is possible there are ex-students in Lynn county who have not been notified and would like to attend.

Registration will begin at 9 o'clock in the morning, and a program will follow. There will be no registration fee.

Mr. Anglin will appear on the program.

Mrs. Lida Kelson of Roff, Oklahoma, came Sunday night for a visit with her sister, Mrs. W. M. Harris. Mr. and Mrs. Harris met her at Big Spring.

CARD OF THANKS

We wish to express our gratitude to many friends for their deeds of kindness and for the words of comfort they have spoken to us in the double sorrow which we have suffered in the accidental death of our brother and the sudden and unexpected death of an uncle just a few days ago. Especially do we thank the postal employees here and the Men's Bible Class of the Methodist Church, who sent floral offerings to each of the funerals. We shall ever treasure these kindnesses in our hearts.—Mrs. A. C. Weaver, Mrs. Lillie B. Walters.

Mrs. Pete Wetzel of Henrietta is here visiting her son and daughter, Jim Wetzel and Mrs. R. L. Gray. She will stay several weeks.

EARLY LEGISLATORS SETTLED ARGUMENTS WITH FISTS

AUSTIN, May 15.—In early Texas history, legislators weren't content to shout angry words at each other across the halls of state, but preferred to fight it out with pistols and fists.

Records in the University of Texas library—being studied by William Hogan, a graduate student from University, La.—reveal at least five fights occurred between law-makers during the Texas Republic.

The University of Louisiana historian said one day a shooting between two congressmen took place on the very steps of the Texas capitol—all over a matter of legislative policy.

On several occasions, Hogan said, the House adjourned to watch fights between legislators taking place on the capitol lawn.

Mrs. Oran McRae and sons of Henderson plan to return home Saturday after spending the past four weeks here with her parents. Mr. and Mrs. W. T. Clinton, Sarah Jane Jones, Mrs. McRae's niece will return with them to spend the summer.

Mrs. G. W. Newton of De Leon is here visiting her son, Bill Newton, and family.

Corn Ring with
Creamed Frankfurters
Broadcast by Mary Lee Taylor
May 22, 1941

3 tablespoons finely cut onion, 1 cup Fat Milk
2 tablespoons butter or other shortening, 3 slightly beaten eggs
2 tablespoons flour, 2½ cups drained, whole kernel corn, cooked or canned (No. 2 cans)
¼ teaspoon salt
¼ teaspoon pepper

Turn on oven and set at moderately slow (350° F.). Grease well, then dust with flour an 8½-inch ring mold or 8 x 4 x 3-inch loaf pan. Cook onion slowly for 5 minutes in butter. Blend in flour, salt and pepper. Slowly stir in milk. Heat to boiling point, stirring constantly. Add grated cheese, stirring until melted. Then stir into slightly beaten eggs. Add corn and mix well. Serve liquid off corn to use in season. Put mixture in ring mold. Bake in pan containing ¾ inch of hot water. Bake about 1 hour, or until firm. Loosen sides and let stand in mold 5 minutes before turning out. Then fill center with Creamed Frankfurters (See below). Serves 6.

Creamed Frankfurters
1½ tablespoons butter or other shortening
3 tablespoons flour
¼ teaspoon salt
¼ teaspoon pepper

Melt butter in saucepan. Blend in flour, salt, pepper and mustard. Slowly stir in water. Boil 1 minute, stirring constantly. Stir in milk. Add frankfurters. Heat slowly, but do not boil. Serve plain, or in center of Corn Ring (See above). Serves 6.

Daily Program For Cooking School

Cherry Cobbler with KC Cake Topping, Tuna Roll with Egg and Olive Sauce, Jiffy Biscuits, Swiss Steak, Asparagus with Cream Sauce, Chocolate Cream Pie, White Cake, One Egg Cake, Spiced Coffee, Fan Salad, Caramel Dumplings, Rhubarb or Orange Muffins, Miniature Rolls, Drip Coffee.

Our readers are urged to clip these recipes and keep them for future use. Other recipes used in the Lynn County News' Happy Kitchen Cooking School will appear in coming issues of The News.

CHERRY COBBLER WITH KC CAKE TOPPING

(Temperature 350 degrees—1 hour)
Pour a No. 2 can of cherries into baking dish, add 4 tbsps butter, 1 cup sugar and 4 tbsps Tapioca, few drops red cake coloring. Pour following cake batter over top and together with sauce.

4 tbsps Mrs. Tuckers shortening
6 tbsps sugar
1 1/2 tspn KC Baking Powder
1/4 tspn salt
1 cup flour
1-3 cup milk

1 egg
1 tspn vanilla
Mix all dry ingredients and cut shortening into mixture. Beat egg and add to milk and vanilla. Combine with dry ingredients.

TUNA ROLL WITH EGG AND OLIVE SAUCE

2 cans white tuna fish
1 can small peas
1/2 cup diced celery (cooked)
1 cup medium white sauce.
Flake tuna, mix other ingredients together with sauce.

Egg-Olive Sauce
2 cups medium sauce
6 hard cooked eggs
14 stuffed olives
Slice olives cross-wise. Put egg yolks through sieve, fold in sauce and sprinkle with paprika.

JIFFY BISCUITS

1 1/2 cups flour
2 tbsps Mrs. Tuckers Shortening
1 1/2 tspn. KC Baking Powder
1/2 tspn salt
1/2 to 2-3 cup milk
Toss on a floured board and knead until smooth. Roll into a rectangular sheet, spread fish mixture over dough allowing 1 inch margin on all sides. Roll like jelly

rolls, moisten edges with water to seal. Place on sheet and bake in pre-heated oven for 10 minutes at 425 degrees. Reduce heat to 350 degrees and bake 35 minutes.

SWISS STEAK

2lbs. round steak (cut 1 1/2 inch thick.
4 tbsps Mrs. Tuckers Shortening
1/2 cup flour with
1/2 tspn KC Baking Powder
2 tspns salt
1 onion (sliced)
1/2 cup tomato catsup
1/2 tspn pepper
1 1/2 cups water

Wipe meat with damp cloth. Rub with salt and pepper. Pound of flour (with baking powder mixer in) into meat. Brown meat on both sides in shortening. Add onion, water and tomato catsup. Cover and cook gently 1 1/2 to 2 hours. Serve with crisp lettuce salad, buttered cauliflower and hot rolls.

ASPARAGUS WITH CREAM SAUCE

2 cans white asparagus
2 egg yolks
3/4 cups sour cream
1 tbsps lemon juice
1/2 tbsps minced parsley
Salt and paprika
Combine cream with egg yolks in double boiler, add lemon juice. Cook until thickened. Remove at once from heat and add parsley, salt and paprika. Serve over heated asparagus.

CHOCOLATE CREAM PIE

1 1/2 cups sugar
1/4 tspn salt
6 tbsps flour
2 cups milk
4 egg yolks
2 sqrs bitter chocolate
1 baked shell (cooled)
Mix sugar, flour together in top of double boiler. Blend milk and chocolate. Cook until thickens then add egg yolks, cook 5 minutes. Cool. Top with whipped cream or meringue with grated orange sprinkled over top.

Pastry For One Pie

1 cup flour
1/2 tspn salt
1-3 cup shortening
2 or 3 tbsps cold water

WHITE CAKE

Sift and measure 3 1/2 cups flour,

2 cups sugar, 1/4 tspn salt. Sift again three times. Put in large bowl of mixer then add 1 cup Mrs. Tuckers Shortening, cream until of consistency of fine cornmeal. Then, add 6 egg whites (unbeaten), 1 cup milk (out of this cup take 6 tbspsful). Stir into eggs, pour eggs and remainder of milk and beat until smooth like velvet. Stop mixer and add 1/2 tspn vanilla, 1/2 tspn lemon extract and 3 tspns KC Baking Powder. Blend thoroughly and pour into loaf pans. Bake at 350 degrees for 40 minutes.

Marshmallow Icing

1 1/2 cup sugar
1/4 tspn cream of tartar
12 marshmallows
1 cup hot water
1/4 tspn salt
1/2 tspn vanilla
2 egg whites (stiffly beaten)
Pink cake coloring (if desired)
Cook sugar, water, salt and cream of tartar to 238 degrees or soft ball stage. Add marshmallows and pour in slow stream over stiffly beaten egg whites. Add few drops of cake coloring if desired. Add extract. Beat until icing holds shape. Spread on cake.

ONE EGG CAKE

1 1/4 cups flour
1 cup sugar
1/4 tspn salt
2 1/2 tspns KC Baking Powder
1-3 cup Mrs. Tuckers Shortening
2-3 cup milk
1 egg
1 tspn flavoring

Sift flour before measuring then add flour, baking powder, salt and sugar, together in mixing bowl. Add shortening, milk, unbeaten egg and flavoring all at once. Beat until smooth. Pour into pan and bake at 350 degrees for 25 to 35 minutes.

Topping

1/2 cup brown sugar
2 tbsps flour
1/2 cup chopped nuts
2 tbsps butter

SPICED COFFEE

1-8 tspn nutmeg
2 cups milk
1-8 tspn cinnamon
1-8 tspn cloves
1/2 tspn vanilla
1 tbsps sugar
Few grains salt
Scald milk, mix sugar, spices and salt and add to milk. Beat with rotary beater or electric mixer about 5 minutes. Chill and add 1/4 cup of cold Admiration coffee, shake well and serve.

FAN SALAD

Arrange mounds of potato salad with cooked cream dressing, garnish with celery cut in fan shapes.

Cream Dressing

1 tspn mustard
1 tspn salt
2 tbsps flour
1 tspn sugar
Hot sauce
1 egg yolk
1-3 cup lemon juice
1 tbsps butter
1/2 cup sour cream

CARAMEL DUMPLINGS

1 1/2 cups sugar
2 tbsps butter
1-8 tspn salt
2 1/4 cups boiling water
1/4 cup liquid Admiration coffee
Brown 1/2 cup sugar, add boiling water and coffee. Let boil 10 minutes.

Dumplings

1/2 cup sugar
1 tbsps Mrs. Tuckers Shortening
1/2 cup milk
1 1/2 tspns KC Baking Powder
1 cup flour

RHUBARB OR ORANGE MUFFINS

(Temperature 425 degrees—20 min.)
1 cup diced rhubarb
1 tbsps flour
1/2 cup sugar
3 tbsps butter
2 tbsps sugar
2 eggs, well beaten
1 cup milk
2 cups flour
2 tspns KC Baking Powder
1/4 tspn salt
1/2 cup chopped nuts
Brown sugar.
Stew rhubarb with the 1 tbsps of flour until tender, add sugar and melted butter, eggs, milk, nuts, salt flour and baking powder. Stir mixtures together just enough to moisten the flour. Grease muffin pans, cover bottom with brown sugar. Bake. Remove muffins from tins as soon as taken from oven.

MINIATURE ROLLS

(Temperature 400 degrees—15 to 20 minutes)
1 cup milk
4 tbsps sugar
1 tspn salt
4 tbsps Mrs. Tuckers Shortening
1 yeast cake
1 tspn KC Baking Powder
2 1/2 to 3 cups flour
1 egg

DRIP COFFEE

Measure into drip coffee maker, 1 tbsps Admiration coffee for each cup desired. Bring freshly drawn water to quick boil and pour over

coffee, using 1 cup of water for each cup of coffee. Serve immediately or keep hot until ready to serve. Do not boil.

Movie Designers High In Praise Of New Cotton

HOLLYWOOD, CALIF.—Cottons are headed for the biggest season on record, Hollywood's leading designers told the National Cotton Council today. Edith Head of Paramount, Travis Banton of Twentieth Century-Fox, and Adrian and Robert Kalloch of Metro-Goldwyn-Mayer were unanimous in their praise of new cotton designs for summer.

"I believe the women of America, as a whole will be more interested in cotton this year than ever before," Miss Head said. "World conditions in general may be responsible for this. Practical, functional styles will be the rule and cotton is the best answer for this type of clothes."

Plan Cotton styles

"The California climate lends itself very naturally to the best in cotton fabrics," she declared. "With the wide assortment of colors and planning some exciting styles for weaves presented this year I am Paramount players to wear on the screen."

"Cotton is by far the most practical fabric for play clothes and sports clothes because it can be tubbed and after each washing emerges fresh and crisp. The profuse use of lingerie trimming is an accepted fact for the spring and summer. In keeping with the times I think this will be cotton's greatest year."

Chief Designer Adrian of Metro-Goldwyn-Mayer told the council that although we are interested in American cotton every year, this year, with America in a spot of fashion importance, we are more interested than ever.

Trend Toward Cotton

"With the world upside down, and the trend toward economy on every side, cotton should coe into its own during 1941 as it never has before," declares Robert Falloch of M-G-M.

"The cotton this season," Mr. Kalloch said, "offer limitless possibilities for the designer. As effective an evening gown may be fashioned the most costly taffeta."

"While most designers have gone in for complete cotton ensembles

The value of this fabric as a trim is yet to be realized. Take for example a summer bride or bridesmaid, their gown of tulle with bias bands of white pique as trimming.

Completely Practical

"The values of cotton are numerous," he concluded, "but most important it can always be fresh, and it provides its complete practicality. It can always be fresh, it can always be smart, and it provides a most valuable asset in its inexpensive chic."

Travis Banton of Twentieth Century-Fox said that "with the eyes of the world often turning to the Hollywood scene for inspiration, particularly under the present chaotic conditions, we designers here feel the need of every native resource. I know that I personally find every year more interested in the materials created from one of our great American products—Cotton."

Mr. and Mrs. Marvin Wood spent last week end in Clovis, N. M.

New Prescription Law Is In Force

The Legislature last week finally passed and sent to the Governor a new law regulating the sale of liquor on prescriptions, and Gov. O'Daniel signed the measure Monday.

The law is now in effect, but can not be complied with to the letter until forms prepared in conformity with the provisions of the law are printed and distributed.

The law prohibits a physician to write more than 100 liquor prescriptions in 90 days and no physician may write any liquor prescription without having first received a permit from the state liquor board.

Drug stores are prohibited from having in stock more than ten gallons of intoxicating liquor at any time.

The law was enacted to curb the operations of physicians and druggists who were writing and filling unlimited numbers of liquor prescriptions not for the purposes of healing or relieving sickness, but to make money out of the business.

Miss Billie Rowland McMurry Graduate

Ablene, May 21—Billie Rowland, daughter of Mr. and Mrs. W. W. Rowland of Tahoka will receive a Bachelor of Science degree from McMurry College, Abilene, at the Commencement exercises which will be held Thursday morning, May 29, in the Radford Memorial auditorium.

Miss Rowland is a business administration major, minor in both English and history. As an outstanding student, she holds membership in the Wah Wah-taysee Drum and Bugle Corp, serving as the reporter 1940-41 T. I. P., girl's social club; a member of the McMurry College Theatre, Press Club, and is Administration secretary, serving the president, dean and the vice-president.

Paul Howell, who has been under treatment for two or three weeks from an injury to the left eye sustained when a piece of metal became lodged in it, was advised by his physician this week that the injury has almost healed but that the sight has been greatly impaired.

Scrapbook

Myrtle Rochelle

In the current issue of Better Homes and Gardens Magazine, there is a picture of the Tahoka Daisy which should be a boost to our town's civic pride. The picture is in full color, as real as life, and there's an accompanying description which recommends it as a border plant for flower beds, praises its beauty, and makes suggestions on how to get the best results in cultivating it.

Did you go to the News' Happy Kitchen Cooking School yesterday? If not, you missed a real treat. Miss Hogue is really a charming lecturer—never tiring, and instructive as well as humorous. We'll guarantee you a swell time—besides, you can be sure of a free drink paid for by Happy Smith. And there are many valuable samples and gifts for the ladies. Come on down this afternoon with the rest of us, and then come back to get the swell menu suggestions Saturday morning. You will be glad to get the swell menu suggestions and recipes that pep up your meals and are easily prepared. We want you there—it's FREE.

Mrs. Emil Prohl left Thursday morning for Fort Worth, Dallas, and Austin. She was accompanied as far as Hillsboro by Mrs. W. D. Smith Sr., who will visit a sister there. Mrs. Prohl will visit Dr. Prohl's brother in Dallas and her parents in Leander, where Martha Ann has been the past two weeks.

VACATION BIBLE SCHOOL

AT METHODIST CHURCH

The annual Vacation Bible school for children opened at the Methodist Church Thursday afternoon at 4 o'clock in the church and will extend through Friday, May 30, according to Mrs. James Clinton, director.

The school has been arranged by Mrs. Clinton, superintendent of children's work, Mrs. Era Stewart, superintendent of the Junior Department, Mrs. E. R. Edwards, superintendent of the Primary department, and Mrs. Happy Smith, superintendent of the Beginners' department.

Instructors in the school are: Mrs. Claude Donaldson and Mrs. Era Stewart, music.
Mrs. L. F. Craft, devotional.
Mrs. Hick Gibson and Mrs. G. M. Reid, recreation.

Mrs. J. L. Brooks and Mrs. Maurice Small, refreshments.
Rev. G. E. Turrentine, Intermediate boys.

Mrs. G. M. Stewart, Intermediate girls, "Hymnal Appreciation."

Mrs. W. C. Mathis, Juniors, "The Land Where Jesus Lives."

Mrs. Harley Henderson and Mrs. C. T. Frank, "Jesus' Teachings About the Father."

Mrs. C. A. Thomas, Primary, "The Ten Commandments."

Mrs. James Clinton, "The Creation."

Mrs. Happy Smith and Mrs. Douglas Finley, Beginners.

BAPTIST BROTHERHOOD

HOLDS PROGRAM

In spite of flooded streets and prospects for more rain, seventeen members of the Baptist Brotherhood met in the basement of the Church Tuesday night for the first regular meeting since the body was organized.

While a number of those on the program were not present, others substituted for them and some splendid talks are said to have been delivered.

With Deen Nowlin as president and W. A. Reddell in charge of the program, the speakers of the evening included C. A. Lawrence, H. P. Caviness, W. A. Reddell, and Rev. George A. Dale.

Sandwiches and cold drinks were served.

The next meeting will be on Tuesday night, June 17.

COLLINS WITHDRAWS

Immediately upon the announcement of Gov. W. Lee O'Daniel as a candidate for the United States Senate, Hal Collins of Mineral Wells announced his withdrawal.

Collins made the claim that he had the race won until his friend O'Daniel announced. Probably very few people will agree with him on that point, but there are multitudes who believe that he was merely pinch-hitting for O'Daniel until such time as the latter should deem it most opportune for him to announce. Virgil Arnold of Houston, who also imagined that he was running, withdrew upon O'Daniel's announcement.

Library Is Again Open Each Day

The LyYnn County Library opened again Thursday afternoon after being closed several days because of cancellation of the salary of the librarian, Mrs. McDonald, by WPA.

Mrs. G. M. Stewart, chairman in charge of the library project, said notices were sent out that librarians would be discontinued and salaries would be cut off beginning this week, throughout this area, but Mrs. McDonald later received notice to resume work Thursday.

The library will continue to be open from 12 until 5 o'clock each afternoon as previously, Mrs. Stewart said, and the same rules will apply as before.

COLORED METHODISTS CONDUCTING REVIVAL

The pastor and members of the colored Methodist Church here have been laboring under difficulties this week in their efforts to conduct a revival meeting. The rain and the mud have interfered very materially with their efforts.

The revival campaign was begun last Sunday and by Tuesday morning there had already been three additions to the church, according to the pastor, Rev. T. A. Amas.

As originally planned the meeting was to close tonight.

Mrs. Ella Davis enjoyed a delightful visit with old friends at Well-

man during the latter part of last week when she attended graduating exercises of that high school and saw a son and daughter of Mr. and Mrs. Erman Duncan and a son of Mr. and Mrs. T. F. Chrisman receive their diplomas. She returned home Sunday.

Mr. and Mrs. Hazlan Cook and Dudie spent last week end fishing down on the south Concho near Christoval.

The Hess case still remains a mystery. Either Hess is a deserter of Hitler and his cause and fled to save his neck or he was sent over by Hitler on a secret mission to see some particular individual or group with the purpose of inducing them to start in Great Britain some kind of peace move or a fifth columnist movement. If the latter is the truth, then the whole scheme was spoiled when Hess failed to make a safe landing. The latter alternative seems more than a possibility in the light of the fact that just last week-end Paris papers were calling upon the United States to intervene in behalf of peace. The United States could virtually dictate terms of peace, they said. Of course the proposals of these Paris papers were inspired by Hitler. He would like to have a negotiated peace, for with all continental Europe under his heel, he feels that he could do the negotiating to beat the world. Yes, Hitler is getting anxious for a negotiated peace, for he is beginning to feel that in the long run he can not win against the combined power of Great Britain and the United States. Just now the growing power and threatening attitude of the United States is the darkest cloud on Adolf Hitler's horizon.

Charley Guy, editor of the Lubbock Avalanche-Journal publications, writes from Washington that he is about to be converted to the belief that the United States should get right in there and hit the ball for Great Britain in its effort to stop Hitler. It was the Premier of Australia who got under Charley's skin. Charley was not impressed by President Roosevelt's arguments and warnings. Secretary Hull was unable to convince him. Not all the Democratic Senators in Washington could make an impression. A host of war commentators were unable to make a dent. To every argument and every appeal and every fact he remained adamant. Never would Charley yield to this flood of British propaganda. More than a year ago he declared that in his view, this war in Europe was merely a case of "dog-eat-dog" and it did not make much difference whether England or Germany won the war. He had never changed his mind, he says, until he heard Premier Manley. In his column Monday, the Plainsman says: "The writer, since the first shot was fired in the fall of 1939, has clung tenaciously to the theory—and the belief—that the United States should not again be sucked into the morass of European troubles. And never has he doubted the wisdom of pursuing peace until listening to Robert Menzies. Admittedly, the Australian prime minister hammered his thoughts home. . . . And when he said that he and his people were fighting the Axis powers because they could not look forward to living in a world dominated by the theories of Hitler, and Mussolini, and Stalin, he made a deep impression." Congratulations, Charley. But we are still wondering why like sentiments expressed by our own President and by three-fourths of the leading statesmen in our own country had not made a similar impression upon the gentleman who writes the Plainsman column.

Citizens are reminded that the campaign for the sale of National Defense Bonds and Savings Stamps is a continuing campaign and these bonds and stamps may be procured at the Bank or at the Post Office at any time. People who have surplus money to invest can invest it safely and at the same time render a patriotic service by buying bonds or stamps.

Poor old France! Poor old Belgium! Now eighty-five years of age and head of the so-called French Government at Vichy, he has felt compelled to yield to the gradually increasing pressure brought to bear upon him and other French leaders by the Nazis, and now it is announced that he and the French Government have gone over to the Nazi cause lock, stock, and barrel. They are shooting at their former allies, the British. As a reward for their assistance, Hitler is releasing a hundred thousand French prisoners who have been held in Germany since the French debacle last summer. But he still has 700,000 French prisoners left, to trade on in the future, if press reports are true. These French, it may be assumed, are the slaves of the Germans, employed for the most part in German fields and industries raising food and making munitions and other supplies for the Germans while the latter go forth from one conquest to another. If the British should be conquered, they will be set to work for the Germans too; who can doubt it? We Americans had better help the British to stop this thing where it is, or rather to drive the Nazis back to their own home base with such a whipping that they will be willing to stay at home and attend to their own business for at least another half century.

As was expected by everybody, Governor W. Lee O'Daniel announced Monday night as a candidate for the United States Senate to succeed his appointee, Andrew Jackson Houston, whose tenure of office will expire with the inauguration of his successor following the special election of June 28. In view of the fact that there are at least three other candidates who have shown considerable strength, Gerald Mann, Lyndon Johnson, and Martin Dies, it seems that O'Daniel's chances should be very good. He probably will not get a majority of the votes this time but the chances are that he will get a plurality, which is sufficient to elect in a special election.

TREAT CHICKS for ROUND WORMS
With Dr. Sullivan's
AVI-TON

WYNNE COLLIER, Druggist

It's great to be a citizen of a German vassal state. Poor little Belgium was over-run and conquered by the Nazis. The King was taken prisoner, and is still a prisoner, we understand, somewhere in Germany. Bread lines are now being maintained in the cities of Belgium. In one of them the other day appeared a plainly dressed queenly woman—and then somebody recognized her, the former Queen of Belgium.

Mr. and Mrs. S. H. Holland, former long time residents of the County, were here for the commencement exercises of the High School and were accompanied by their new home in Port Worth by their daughter, Dorothy, who had remained here to complete her Junior work with her class.

MORE CIVIL SERVICE EXAMINATIONS DUE

Civil Service examinations for the following positions have been announced.

Junior custodial officer, \$1,860 a year, Bureau of Prisons in the Department of Justice. Junior custodial officers supervise and instruct inmates employed in work provided by the institution. They are also responsible for preventing escapes and for enforcing the rules and regulations of the institution. Applicants must have completed at least 14 units of high school study and must meet high and rigid physical standards. Applicants must be at least 25 years of age but must not have passed their forty-fifth birthday. The closing date is June 19, 1941.

Junior stenographer, \$1,440.00 a

year; junior typist, \$1,260 a year. This examination is open to both men and women. Appointment will be made in Washington, D. C., only. The closing date is June 9, 1941.

Full information as to the requirements for these examinations, and application forms, may be obtained from A. C. Weaver at the Tahoka post office.

Douglas Finley and Callaway Hufaker took a week end fishing trip to Christoval last week end.

FRIDAY, MAY 23, 1941

THE LYNN COUNTY NEWS—TAHOKA, TEXAS

New Lynn Play Day Last Friday

Friday, May 16, marked another successful Girls Play Day at New Lynn. This is the second successive year for the school to sponsor a program of this type and it proved even more popular with the girls and young women than ever. The patrons and other visitors were highly interested spectators.

Ve Nell Walker, a sophomore girl, was sweepstakes winner with 33 points accredited to her. In the major sports Miss Walker was a first place winner in volleyball. In the minor sports she placed first in tennis doubles and the 440 relay, second in the 100 yard dash and the broad jump, and third in the 50 yard dash.

La Nell Thompson, a junior girl from the Tahoka High School, was second place winner, placing first in the 100 yard dash, the 50 yard, the broad jump, chinning the bar, and the sack race, and second in the 440 relay. She amassed a total of 28 points.

Winnell Meeks, a New Lynn freshman girl, and Allene Bartley, a graduate of Tahoka High School, tied for runner-up with 25 points each. Miss Meeks placed first in volleyball, jacks, and the 440 relay. Miss Bartley placed first in volleyball and the shot put, second in the sack race, and third in tennis doubles.

A trophy was awarded Ve Nell Walker for high point girl in the Girls Play Day sports. Ribbons for first, second and third place winners were given for each event.

NEW LYNN PATRONS AND STUDENTS HONOR BOLINS

As a last tribute to Mr. and Mrs. J. B. Bolin, resigning superintendent and teacher of the New Lynn school, a great crowd of patrons, friends, and students gathered in the school auditorium at 1 o'clock last Friday to present them with parting gifts and to wish them happiness and success in their future work.

The beautiful collection of gifts consisted of those from the New Lynn board of trustees and their wives, Mr. and Mrs. R. W. Barton, Mr. and Mrs. Newman Bartley, Mr. and Mrs. E. B. Terry, Mr. and Mrs. J. D. Carter, Mr. and Mrs. C. M. James, Mr. and Mrs. C. W. Meeks, and Mr. and Mrs. A. D. Jester, teachers, the various classes in both the high school and elementary grades, and individual students and friends.

Mrs. J. B. Oliver and daughter, Maxine, with Mr. and Mrs. L. A. Forsythe, expect to go to Waco this week end and bring home Mrs. G. W. Forsythe, who has been visiting relatives in South and Central Texas since the Christmas holidays.

Miss Ineva Headrick, teacher of English in Tahoka High School, left Monday afternoon for Colorado Springs, Colo., where she will visit a sister this summer.

Miss Nellie McLeroy, teacher in the Tahoka Grade School, expects to attend the Southwest Baptist Theological Seminary in Fort Worth this summer where she will do special work in religious education.

Arley Moore To Preach New Home Sunday

All-day services have been planned by the Church of Christ at New Home for next Sunday.

Elder Eugene Long of Tahoka will preach in the morning and at night, while there will be a singing at 2:30 in the afternoon, followed by preaching by Elder Arley E. Moore, who has recently returned from the far Northwest. For more than a year Elder Moore has been doing mission work in Oregon, Washington and in Western Canada. Prior to that he was minister for the local congregation of the Church of Christ here for several months.

While it is not contemplated that lunch will be served on the ground at noon, yet anyone desiring to bring lunch and to remain at the church throughout the day is at liberty to do so, it is stated.

Mr. and Mrs. Byron Terrell, who teach at Grassland, have gone to Mississippi for a few days vacation. Byron expected to do a bit of fishing as well as visiting.

Mr. and Mrs. Archie Sims, teachers of the Dixie school, expect to spend most of the summer in Lubbock, where she will attend school and he will work.

PHYORRHEA MAY FOLLOW NEGLECT

Are your gums unsightly? Do they itch? Do they burn? Druggists return money if first bottle of "LE-TO'S" fails to satisfy.

WYNNE COLLIER, Druggist

Congratulations

Mr. and Mrs. E. B. Kemp of Lubbock upon the birth of a daughter, weighing six pounds 2½ ounces, in the Lubbock Sanitarium at 8:30 o'clock Monday morning. The mother is the former Miss Marjorie Wells, daughter of Mr. and Mrs. Claud Wells of Tahoka, a graduate of Tahoka high school and pianist and sweetheart of Tahoka Rotary Club. The little Miss has been named Sandra Carol.

Mr. and Mrs. J. L. Heare and Mr. and Mrs. W. O. Thomas are this week at their cabins in the Sangre de Christo Mountains near Eagle Nest, New Mexico, where they are trying some of the early-season trout fishing. They expect to return home in a few days.

Miss Joyce Russell left Saturday to visit her sister, Mrs. H. D. Owens, who has just returned home after a major operation in a Big Spring hospital. and family in Big Spring. Mrs. Owens

Urgent Call Made For Red Cross Sewing

Miss Bernice Edwards, chairman of the British War Relief, Lynn county Chapter of the American Red Cross, urges the women of Lynn county to come to the Red Cross sewing room and help with the sewing and knitting for the needy of war torn Britain. This sewing room is open every day from 2 p. m. until 5 p. m. where material can be obtained, and instructions given for sewing and knitting.

There will be an all day meeting next Tuesday and Wednesday, May 27th and 28th, at the sewing room, and all women who can possibly do so are urged to come and bring a covered dish and work these two days.

This program closes on May 31st, and it is imperative that the articles that are finished be brought in before that time in order that they may be packed for shipping to Red Cross headquarters where they will be shipped to Britain.

It is also desired that anyone having any old discarded buttons, bring them to the Red Cross headquarters

- Men and Motors—The New Army on Wheels -

Uncle Sam's motorized force—the new army on wheels—is symbolized by the "dawn patrol" of Chevrolet 4 x 4 army trucks shown across the bottom of the photo. The Chevrolet four-wheel-drive army truck, above, carries a complete telephone switchboard. Within a few minutes after the Fourth Division's motorized units completed a 235-mile trek from Fort Benning, Ga., on a practice mass movement, Major-General Lloyd R. Fredendall could communicate with every part of the vast encampment. The Fourth, moving in three columns, each 45 miles long, made the trip in 10 hours as compared with nearly 10 days before motorization.

GARNOLIA 4-H CLUB MAKES REPORT

"Underwear should be made of dainty colors that harmonize with the skin," said Miss McNatt, home demonstration agent, at the Garnolia 4-H club meeting Monday, May 12th.

"If the dress is to be seen rather than the underwear, then the color of the underwear should be white or of dainty colors. A colored undergarment showing through a dress makes the underwear more conspicuous than the dress and it is not in good taste. Sometimes it may be wise to have the top clothes and underclothes match, especially if the dress is dark."

There were thirteen member and one new member, Ida Mae Bruce, present.—Reporter.

HURT BY TRACTOR

Boyd Barnett, farmer near O'Donnell, was injured Saturday when his leg was caught in a moving tractor. It was reported that two bones were broken and it will be several months before he will be able to use the injured leg.

where they will be put on dresses, shirts, etc. There is also a need for machines in the sewing room.

Miss Edwards states that the O'Donnell women, not having been granted a Red Cross Sewing room of their own, have been cooperating with the sewing room here the past few weeks and have been doing quite a lot of sewing and knitting for the Tahoka sewing room, all of which highly appreciated.

Harley Sadler And His Own Company To Appear Here

Harley Sadler and his new stage show will appear in Tahoka for two nights, June 3 and 4. This show is being sponsored by the American Legion, who respectfully urge the people of this section to attend. Mr. Sadler this year promises one of the biggest and finest attractions ever brought to Tahoka. Besides outstanding plays a marvelous orchestra is carried and vaudeville features that consist of many radio, stage, and recording stars. One of the big features will be the musical comedy presentations, which will be given preceding the play and in addition to the regular line of vaudeville that you have always witnessed with the Sadler company. If you really enjoy a good stage show, Mr. Sadler urges that you not miss a performance this year. The big tent theatre is waterproof, and will be comfortable in all kinds of weather. Popular prices will again prevail. Children ten cents and adults twenty cents. Special reserved chairs are ten and twenty cents extra, government tax included. Remember the date and see ad elsewhere in this issue.

ARMY LOWERS ENLISTMENT STANDARD TO 8TH GRADE

Since the lowering of the requirements for the enlistment in the Regular Army Air Corps, states Major Jesse, U. S. Army Recruiting Officer for this District, there have been many young men with only an 8th Grade education who have succeeded in passing the War Department Test and thus were acceptable for this branch of the Service.

Most of these young men chose for their assignment the 14th Pursuit Group, March Field, California, although there are also vacancies at the Air Base Detachment, Fort Sill, Oklahoma, and for the Photo Group, Lowry Field, Colorado. Applicants for the Photo Group must desire Photographic training.

The majority of the young men who enlisted this month have decided to take the Airplane Mechanics Course offered by the Air Corps Technical Schools and open to any enlisted man in the Air Corps. These young men are wise for they quickly realized the value that such training will be to them in later years in Air Transportation.

Applications for enlistment in the Regular Army Air Corps can be made at the nearest Army Recruiting Station where young men without a high school diploma will be given an opportunity to take the War Department Test.

IMPORTANT MEETING OF EGG ASSOCIATION

Mrs. J. Paul Lawson is urging all members of the Lynn County Egg Marketing Association to meet in the court house on Saturday afternoon, May 31, at 2:30 o'clock. This new organization is seeking the cooperation of all producers of eggs who wish to obtain better prices for their products.

Mr. and Mrs. Dan Boyles of Amherst were guests of Mr. and Mrs. Maurice Small last week end.

A SURE-ENOUGH WATER SPOUT

Levi Nordyke reports that they had a real water spout down on his farm in the Midway community Wednesday.

In the first place they had a five-inch rain, but that was not the waterspout. While he was out scouting around over his farm following the rain, he looked up the road and saw a stream of water spouting up out of the ground, possibly a foot and a half or two feet high. It was a strange sight.

A little investigation revealed that it was coming up out of an old prairie dog hole. The water was running into the hole at a much higher point somewhere, evidently, and was being forced out at the lower opening, and there was a real little waterspout spurting up out of the earth.

BIRTHDAY PARTY

Miss Lorena Wenzel and Laura Mae Lockstedt were honored with a birthday party at the Roadside Park Sunday night.

After a series of games, sandwiches, cookies, pickles and punch were served.

Those who helped celebrate included Misses Lucilla Pinkert, Valerie Bartley, Marjorie Hill, Mary and Frances Schneider, Pauline and Marie Raindl, Alice Holcomb, Christine and Lillie Wenzel, Frances Jane Mitchell, and Messrs. Ray Bungar, Jimmie Hogge, Bertram Hatchell, Doc Schneider, Emil and Johnnie Raindl, J. B. Reese, Shorty Lee, R. L. Gibson, Tony Janak, Dick King, L. Walker, Troy Sproles, Jo Ed Crawford and James Haygood, and others whose names are not available.

Larrence Harvick, who in employment at the Paul Howell Garage, underwent an operation for appendicitis in a Lamesa Hospital Tuesday morning. His condition Wednesday was reported to be satisfactory.

Miss Mary Ellen Pesterfield was able to return to her work with the Texas-New Mexico Utilities Company Monday morning, after having been off duty for about two weeks on account of an attack of the flu.

Mrs. Zoy Cass left Sunday for Riverbank, Calif., after spending a week here visiting her parents, Mr. and Mrs. J. F. Millman. On Sunday Mr. and Mrs. G. O. Millman of Imperial visited with his sister and parents here.

Douglas Henderson, Jr., after completing his Junior work in high school here left Saturday to join his parents and sister in their home in Los Angeles, they having removed to that city last November.

Mrs. V. H. Lane and daughter Sudie Mae spent the week end in Haskell visiting another daughter, Mrs. Leon Burson. Sudie Mae remained for a longer visit. She plans to visit her grandmother also.

Clayton Johnson, of the Redwine community, who was seriously ill for several days this week, was able to be up and in Tahoka Thursday.

Band Parents Hold Picnic

Ninety-four members of the Band Parents club and of the Tahoka High band attended a picnic given by the former in Mackenzie State Park, Lubbock, Monday afternoon, as the last activity of the school year just closed.

All officers of the Band Parents club were re-elected at a short business meeting held at the picnic. These officers are: Mrs. Harley Henderson, president; Mrs. A. C. Weaver, vice president; Mrs. Carl Griffing, secretary-treasurer; and Mrs. Frank Hill, reporter.

The organization has been one of the most active of the town during the past school year.

Bereaved Twice In Same Week

Sarcely had Mr. and Mrs. A. C. Weaver and children and Mrs. Lillie B. Walters returned from Dallas last mid-week, where they had attended the funeral services on Sunday for the brother of Mrs. Weaver and Mrs. Walters, who had been killed in an airplane accident, until they received another death message, this time bringing news of the sudden death of an uncle, W. P. Anderson, which occurred at Antlers, Oklahoma, early Friday morning, death resulting from an attack of heart trouble.

The Weavers and Mrs. Walters left again to attend this funeral, which was held Saturday. They returned to their home here Sunday.

Mr. and Mrs. Marvin Wood spent last weekend in Clovis, New Mexico. Miss Marie Cox of the local P. S. A. office is nursing a sprained ankle this week.

Mrs. Tobe Kennedy and children are expected home this weekend from Socorro, New Mexico, where she spent the past week visiting her parents.

Mr. and Mrs. Herbert Huff who formerly farmed near Petty are now living southeast of Brownfield in the Welch School District.

REGISTRANTS WARNED TO NOTIFY BOARD OF CHANGE IN ADDRESS

General J. Watt Page, state selective service director, has issued a warning to all registrants that they must notify their local boards of any change of address.

Any wilful failure to do so may subject them to heavy penalties, as punishment for failure to conform to the Selective Service Act and Regulations has been fixed at imprisonment for five years or a fine of not more than \$10,000, or both such fine and imprisonment.

Most failures along this line have been due to ignorance of the law, it is pointed out, and the authorities have been lenient in these cases, but investigation of them takes up much time of local boards, and registrants are warned that they must take care to conform to the law.

Mrs. Dayton Short and little daughter returned Saturday from Dallas, where the little one has been receiving treatment for a crippled foot. The foot has been straightened by specialists and promises to be normal again.

Mrs. J. P. Callaway of Big Spring is here for a visit with Mrs. J. D. Donahson. Mrs. Callaway's late husband was once pastor of the Tahoka Methodist Church.

Ginnings BY COTTON JOE

Jim's been tellin' his women customers for 25 years that they oughta buy more cotton goods, but since he put in that display showin' all the pretty new things made out of cotton, he's sellin' 'em instead of tellin' 'em.

DALES RETURN FROM BAPTIST CONVENTION

Rev. and Mrs. George A. Dale returned last Saturday afternoon from attending the Southern Baptist Convention in Birmingham, Ala. They were accompanied on their trip by a son, E. E. Dale of Dallas, and a daughter and grand-daughter, Mrs. G. R. Kennedy and Dorothy Dale Kennedy of Lubbock. Little Miss Dorothy Dale, 9, who was one of the messengers of the Lubbock church, was told that she was the youngest messenger ever to attend a Southern Baptist Convention.

Seaking of twin calves, J. B. Oliver says that Tom Dyke has no reason at all to feel chesty. He has two sets of twin calves born out on his place during the past eight months, and all four of the babies are girls. Now who can beat that?

Mrs. G. W. McKinnon, who had been in a Lubbock hospital about 15 days following a major operation was brought home Sunday and is making satisfactory recovery.

VOLUNTEERS FOR MARINE CORPS REQUESTED

A mobile recruiting unit of the U. S. Marines Corps will be stationed in Lubbock, Texas, on May 26, 27, and 28. The sergeant in charge of the recruiting party will make his headquarters at the Lubbock Post Office Building, and will furnish free physical examinations without obligation to all applicants. At this time there is urgent need for thousands of new Marines, and vacancies are wide open among all Marine activities, in both the Regular Marine Corps and the Volunteer Marine Corps Reserve.

Reservists will be enlisted for same four year period as regulars, with the sole difference being that the Reservists are to be assigned to active duty only for the duration of the emergency, following which they will be demobilized and allowed to resume their former civil occupation.

Men who have registered for Selective Service are eligible to apply for enlistment in any service of their choice, providing they have not yet received induction orders, and provided also that they meet all requirements for enlistment.

Applicants should be white, unmarried citizens of the U. S., without dependents, healthy, of good moral character, between the ages of 18 and 30. They must be able to read and write well enough to readily understand written orders and instructions.

M. S. Ragsdale, Sergeant, U. S. Marine Corps.

ELDER DRENNON'S NOTES

A few notes to let the readers know I am still in the ring.

I have held three meetings this spring. The first was at Melrose, a nice little town about the size of O'Donnell. It is half way between Clovis and Fort Sumner. It is noted for the sale of broomcorn. I was told it was the second largest market for broomcorn in the South.

The second meeting was held at Carrizozo, which is noted for the scenery around it. It is in full view of the snow-capped mountains. A large lava bed is close by on the west side of town. It is three miles wide and fifty-eight miles long, and it was very interesting to me—only two others as big in the world. While there I visited the white sands, which are very beautiful. I also visited Ruidoso and took dinner nine thousand feet high. Six deer were at the back door of the lodge as we drove up. It was so high I almost lost my breath, and it was so cold we had to have a big fire to keep comfortable. I had a very pleasant time in this meeting.

The third meeting was at Monument in the oil fields near Hobbs. Four hundred and eighty oil wells are in this field. My visit to the Butane gas plant was very interesting, to see them turn the foul gas into a liquid to be used in my home.

I am at home now preparing my baccalaureate sermon for the class at Fort Sumner, which I will deliver next Sunday night. I wish I were at Tahoka tonight to hear Dr. Clifford B. Jones deliver the Commencement address. My wife would also like to take in Happy Kitchen Cooking School next week.

More power to Editor Hill and Hurrah for Lee O'Daniel!

R. P. Drennon, La Lande, N. M.

Mmes Russell Fleming and Luther Jones who had visited their parents, Mr. and Mrs. J. L. Nevill, for some time before and including Mother's Day, have returned to their home at Flagstaff, Ariz. They were accompanied home by a cousin, J. C. Nevill, of Lyle, Texas, who had been visiting here.

Paul Cox of West Point spent the past week end in Denton, where he was formerly in school and attended the annual B. S. U. banquet at North Texas State College.

For chick's bowel troubles put Dr. Salsbury's PHEN-O-SAL in drinking water. Double-duty medicine checks germs in drinking water, medicates digestive tract.

POST RODEO BOOSTERS COMING TUESDAY

Two large 35-passenger chartered buses carrying Post Stampede and Rodeo advertisers are scheduled to arrive in Tahoka at 6:25 Tuesday evening to advertise the big two-day non-professional rodeo to be staged Friday and Saturday, June 6 and 7, at Post. The trippers will spend 30 minutes here.

In the party will be Giles Connell, Post rancher-banker and president of the Post Stampede, Inc., Phil S. Bouchier, manager of this year's show, and several other officials of the rodeo association. The Postites will be in rodeo regalia and will distribute advertising in each of the twenty-four towns included on the 650-mile trip.

A short, spicy musical program will be given by Post entertainers and an invitation to attend the two-day rodeo will be presented, while other trippers spend their time looking up acquaintances and personally inviting them to Post for the big event.

Purses for the two-day rodeo total more than \$1,300 in each, two \$115 saddles and other merchandise prizes.

There will be five major events, cowboy sponsor's contest with already a dozen or more contestants entered, calf roping, wild cow milking, bronc and steer riding. Big street parades will be staged each day at 12:30 p. m. The double-daily performances begin at 2 and 8 p. m.

DIXIE H. D. CLUB

"Freezing preserves flavor and color, and retains 90 per cent of vitamins B-1 and C," stated Miss McNatt at the meeting of the Dixie Home Demonstration Club May 18 in the home of Mrs. Callaway Huffaker.

"Vitamins B-1 and C, so badly needed in our diets during the non-productive months, are best insured in our diets through the use of frozen foods. Vegetables, fruits and pork are rich sources of these vitamins and have been found to retain them when stored for at least eight months."

Eight members and one visitor, Mrs. Ed Bayer, were present.

The next meeting will be in the home of Mrs. A. C. Aycox with Mrs. Jeanette Francis as co-hostess on June 5, at 2:30 o'clock in the afternoon.

Miss Edith Macha, R. N., of the Sweetwater Hospital, visited her parents, Mr. and Mrs. V. H. Macha, and three sisters, Mrs. Willie Bednars of Slaton, Mrs. Robert Huser of Lubbock, and Mildred Macha of Wilson, over the week-end. Miss Macha is a 1936 graduate of Tahoka high school and a 1940 graduate of the Lubbock Sanitarium.

LITTLE GIRLS MAY BE SUGAR AND SPICE, BUT—

Austin, May 14.—Little girls may still be made of "sugar 'n spice 'n everything nice," but grown-ups are made of phosphorus, sulphur, nitrogen and so on, University of Texas student scientists will have you know.

In a recent Power Show presented by students of engineering, chemistry and physics, to demonstrate the magic of modern science, a chart was drawn listing the chemical ingredients of a 150-pound man. Here they are:

Oxygen, 97.5 pounds; carbon, 27 pounds; hydrogen, 15 pounds; nitrogen, 4.5; calcium, 3 pounds; phosphorus, 1.5 pounds; potassium, 8 ounces; sodium, 3.5 ounces; chlorine, 3.5 ounces; magnesium, about one ounce; iron, about one ounce; traces of iodine, fluorine and silicon.

When Mr. and Mrs. O. J. Jackson of Stamford and their daughter, Mrs. Lois Euell of New Salem, Illinois, left for their homes on Thursday of last week, they were accompanied by Mrs. Edd Hamilton of this city, who went for a brief visit with her parents and her sister. This week the News received a post card from Mrs. Hamilton mailed at Lincoln's New Salem, Ill., written in the post office where Lincoln once served as postmaster. Mrs. Hamilton stated. There was a lot of other interesting printed information on the card. All of which should remind us that our own youthful postmaster may be president some day. Who knows?

Among local men now in training camps we noted the presence among us this past week-end of James K. Foster, who visited his aunt, Mrs. L. F. Craft; Keith Connolly, who visited his parents, Mr. and Mrs. James Connolly; Robert Maddox who visited his parents, Mr. and Mrs. B. P. Maddox. They are in training at Camp Bowie. Two other men from that camp were here on the previous weekend, Sam Garrard and Fins Connolly, as were Elwayne Nevill and Walthall Littlepage of Randolph Field.

"Where Quality Counts"

Jess Eubanks Of Lueders Muses On Friends, Friendship

Recently I was in Tahoka on my way to Brownfield to spend Mother's Day with my mother. I stopped in Tahoka for a short while on a Saturday afternoon to say "Hello" to as many of my friends as I could for the time I had to stay. I was standing in front of the Collier Drug Store talking with W. M. Lee, Tahoka's worthy and capable city marshal, when Mr. Park, the elder Mr. Park, walked up and spoke to me. Mr. Lee remarked that he and I had been friends a long time, and we all three agreed that friends in this world were worth more than money, and so they are. Mr. Lee's remark set me to thinking. What else is there in life that is worth as much as the last- ing friendships one makes as he travels down the highway of life? I believe there is nothing that is worth quite as much as a true, lasting friendship that only ripens with time from a favorable opinion of the person to a true friendship.

Still thinking on Friends and

Household Hints

By
MISS
JESSIE HOGUE

Who Will Con-
duct The News
Cooking School
May 22, 23, 24.

To sweep rugs use wet tea leaves. Spread them evenly over the rug and then sweep it in the usual manner. This brightens the rug and raises very little dust.

When "washing," put a piece of lemon peel into the dish-pan. It will soften the water, remove all traces of the smell of fish, onions, and so on, and puts a gloss on china.

Table salt and cream of tartar, equal parts, will remove rust stains. Wet the spot and spread mixture on thickly, then place material in the sun.

Linen that has become yellow may be bleached snow white if soaked in buttermilk for a short time—rinse and hang in the sun.

The darkest egg stain may be removed from silver by taking a pinch of table salt between the thumb and finger and rubbing it on the spot with the end of the finger.

Friendship when I came back home, I looked up the word Friendship in the dictionary, and here is what Mr. Webster says about it: "An attachment to a person proceeding from intimate acquaintance and a reciprocation of kind offices, or from a favorable opinion of the amiable and respectable qualities of his mind."

Then, another has said: "There can be no friendship without confidence, and no confidence without integrity."

In the long ago there arose a deep friendship between David and Jonathan, the son of Saul. This friendship was a beautiful friendship and lasted until David and Jonathan were both dead. Solomon, David's son, said: "He who would have friends must show himself to be friendly." And so it is, if we would have friends, we must give something in return for their friendship. I wonder sometimes if we appreciate our friends as we should. Mr. Lee set me to thinking.

A long time ago, it seems, I lived in Tahoka. I thought I had a few friends at least while I lived there; but somehow, I had always taken my friends for granted. Of course I appreciated them, but only recently have I come to realize the real worth of true friends.

I appreciate my friends I have left behind at Tahoka, and while I lived there I did my best to merit your friendship. I believe you will bear me out in this: I never did try

GRASSLAND H. D. CLUB ENJOYS DEMONSTRATION

"Everyone should learn the Texas Food Standard," Miss McNatt told the H. D. Club this week. "Not until then can we fully realize the importance of the freezer locker to a balanced daily diet."

The meeting was in the home of Mrs. Roy Lemond, who served delicious refreshments to Mesdames Claude Thomas, V. V. Laws, R. B. McCord, G. C. Watson, Tom Brown, Buck Edwards and the demonstrator Miss Maurine McNatt.

The next meeting will be with Mrs. V. V. Laws of Grassland on May 27, at which time the Club will study The Seven Points of Happiness.

MANY NURSES NEEDED

As a part of the National Defense Program, the Government has announced its need for many nurses in both the military and civil service; and the United States Civil Service Commission has announced open continuous examinations for those desiring positions as nurses.

Two examinations are now open for receipt of applications, one character of nursing service commanding a salary of \$2,000 per year and the other \$1,800. Graduate nurses may not be given a written test but are rated on their professional training and experience, as shown in their applications.

For further information, apply to A. C. Weaver at the Tahoka post office, or write to the U. S. Civil Service Commission, Washington, D. C.

Mrs. O. D. Pierce of Corpus Christi who spent about ten days with her mother, Mrs. Pearl Brown, left for her home Saturday. Mrs. Pierce enjoyed a reunion with her Lynn county relatives here when all of the children and grandchildren of Mr. and Mrs. F. M. Sherrod living in this county enjoyed a family dinner in the Sherrod home on Mother's Day.

to exploit my friends or cash in on their friendship, though I may have neglected them. Because you were my friends I didn't expect you to elect me to some office. However, I will always cherish the fond memory of serving some of my friends as a rural mail carrier while living among you.

This is a time when friends should be welded closer together. When the world is falling apart about us, when hate and envy and turmoil and strife are rampant in the earth, when the apostles of aggression and rule by the sword are holding sway in the earth, when everything that is high and holy and noble and good is being crushed and trampled upon, it is time then for friends of truth and justice and right to stay together and preserve the right to be friends.

So, in these perilous times I real-

ize more fully the need for friends and the value of friends. Money is very fleeting. It has a habit of changing its abode. It takes wings many times and flies away. It isn't worth very much after all but for the good it does in being passed from one to another. But true friendship—that is quite another thing. It is a spiritual value that can not be stolen or taken away. It is a sustaining influence in our lives when we are discouraged and downhearted. It is the thought that we have some friends out there in life who believe in us and who speak kind, encouraging words to us from day to day that keeps us going on an even keel.

Yes, we need to appreciate our friends more as we briefly pass this way, and we should show them we appreciate them while they live.

I am writing this open letter to my friends in Lynn county because I have the urge to do so. I have no other motive except that I still cherish the memory of my friends I left behind when I moved.

I realize too that I had my faults and my imperfections while living there, and I still have plenty and of course I know there is plenty room for improvement yet in my life, but I have never yet met a perfect man. We should have our friends in spite of their faults and imperfections. If there is any one

living there who feel that I ever did them a wrong while I lived there I stand ready to correct that wrong whatever might be the cost.

Friends are dear possessions—we should cling to them. Let us not cast them aside or treat them lightly, but let us give them a front page in our memory book and a warm spot in our heart, then I am

sure that life will be sweeter, the future brighter and our burdens lighter, if we cherish and keep our friends.

I am glad Mr. Lee spoke of lasting friendships. It has set me to thinking on these things and made me realize more fully the real worth of true friends.—Jesse C. Eubanks.

Next Saturday Is Poppy Day

Memory of America's war dead in the first World War will be honored here on Saturday, May 24th, when everyone will be asked to wear a memorial poppy in tribute to their service and sacrifice.

Plans for the observance of Poppy Day are being completed by the Marion G. Bradley post of the American Legion Auxiliary under the leadership of Mrs. R. C. Forrester, Poppy Day chairman. The memorial flowers, made by disabled war veterans, will be offered on the streets throughout the day by the Auxiliary women.

"This year, with the threatening shadow of a new World War falling across America, the memorial poppy has new significance," said Mrs. Forrester. "It shows that America still remembers those who fell in defense of their country twenty-three years ago; that Americans still believe that America's free way of life is worth any sacrifice, and that the spirit of patriotism still burns steadily in American hearts."

"The poppies grew on the battle front in France where the young men of America defeated the military might of autocracy in a gallant display of the strength of an aroused democracy. When we wear them on Poppy Day, their bright red blooms will remind us that our democracy has the strength to repel any dangers if we will serve as they served. There is inspiration for us all in the poppy of great memories."

"The poppies which the Auxiliary will distribute here have been made by disabled veterans at Legion Hospital, Legion, Texas. All Poppy Day workers will serve as volunteers and all of the money contributed to them for the flowers will go into the welfare funds of the Auxiliary to carry forward the Auxiliary's work for the disabled, their families and the families of the dead during the year ahead."

New Lynn Students Visit New Mexico

About twenty-five school students from New Lynn left Monday morning for a five-day trip to New Mexico. They were accompanied by Supt. and Mrs. J. B. Bollin, Mr. Schreiber, E. B. Terry, and Newman Bartley.

The group expected to visit the Bottomless Leks near Roswell, the Ruidoso section in the Lincoln National Forest, White Sands National Monument near Alamogordo, and Fort Bliss, El Paso and Juarez. En route home, they expect to visit the famous Carlsbad Cavern.

Miss Hogue Talks At Rotary Club

Supt. W. T. Hanes made an interesting report of the work of the Tahoka public schools the past three years and particularly the year that has just closed at the Rotary Luncheon Thursday. He gave information that should be of interest to every patron and citizen and that really inspired his hearers with a desire to do more for our public schools next year than ever before.

Mr. Hanes and the faculty are doing some wonderful work in our public schools, and he and the entire faculty are due the support and gratitude of our entire citizenship.

Miss Jessie Hogue, food economist, who is conducting a cooking school in the basement of the Baptist Church for the Lynn County News, was a guest speaker, and she certainly entertained that crowd of men, indulging in quite a bit of good-natured rillery at their expense.

Mrs. Rafe Richardson kindly served as pianist during the singing of a number of selections by the Rotarians.

Quite a number of visitors were present, including Dr. J. C. Loveless, W. B. Collins, and G. W. Barrett of Lamesa; Marshall Whitsett and Frank Liddell of O'Donnell; Judge Homer Winston, Dr. John R. Turner, and Tom Cobb of Lamesa; Henry Maasen, John Slover, Mrs. Rafe Richardson, Mrs. Frank Hill, and Miss Hogue.

Congratulations

To Mr. and Mrs. Lawrence Sanford on the birth of a son last Thursday, whom they have named Larry Sinclair.

To Mr. and Mrs. Prentice Walker on the birth of a little daughter in a sanitarium in Lubbock at 10:40 o'clock Thursday morning. Name and weight are not available at press time.

Ex-Tahoka Boy Texas U. Teacher

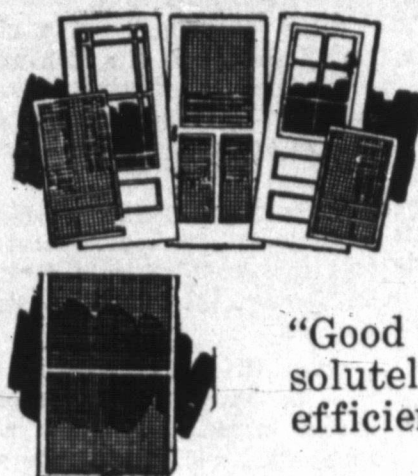

Announcement was recently made that Henry Burkhalter, a former Tahoka boy now serving as engineer for the Lower Colorado River Authority, has been engaged to give a course in Electrical Engineering in the University of Texas during its summer term.

Henry was reared principally at Grassland and graduated in the Tahoka High School in May, 1927. Later he graduated in the Texas

Technological College, and after a few years of teaching - experience and practical work as an engineer, he accepted the position which he now holds with the L. C. R. A. Many friends here are much gratified at his success in his chosen field.

CEMETERY NOTICE

Notice is hereby given that water at the cemetery will be available from 8 a. m. till 5 p. m. each day except Sunday. During other hours the water will be shut off.

MISS HOGUE SAYS:

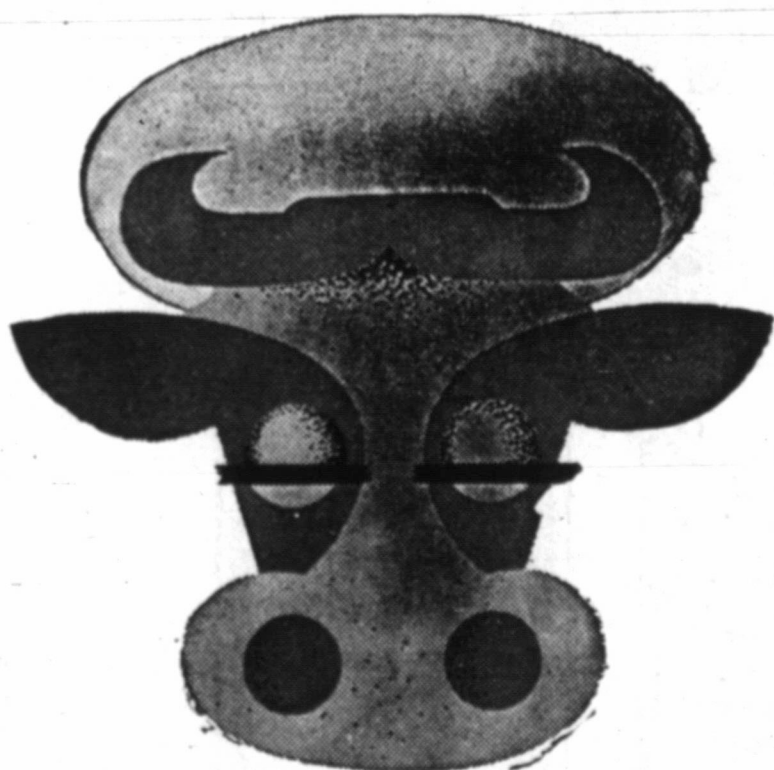

"Good screens are absolutely necessary to efficient housekeeping"

Let us furnish you with that screen door and extra screen wire that you might need.

We carry a complete line of Stoves, Hot Water Heaters, G-E Refrigerators, and other appliances. Our stoves and heaters may be fueled with Natural or Butane Gas.

CICERO SMITH LUMBER CO.

ELSIE agrees with Miss Jessie Hogue that Pasteurized Products are best.

"Ice cream and milk drinks made from Pasteurized Milk and served in sterilized dishes insure safety and quality," Miss Hogue said to Elsie.

"Moo!" answered Elsie, "You're exactly right. And if it's Borden's you can be sure of its safety—and, besides, Borden's Ice Cream is delicious."

In Tahoka, you'll find Borden's Pasteurized Products used exclusively, at Tahoka Drug. Delicious ice cream in the following flavors:

Cherry Nut	Butter Brazil Nut
Chocolate	Vanilla
Strauberry	Cherry Dubonnet
Banana Nut	Texas Pecan
Pineapple Sherbet

NOW'S YOUR CHANCE FOR A

big deal

ON THIS YEAR'S BIG FORD!

ANYBODY WITH A CAR TO TRADE will find it smart to see how much his car is worth in trade on a Ford this year!

In size, the Ford is the biggest car in passenger room in its price field. In comfort, it offers a soft and quiet ride that's new this year right down to a rigid new frame and long, soft springs.

Its hydraulic brakes are bigger than any other car's near its price.

Its engine is the only Eight in its field. Its economy was proved again this year when it was first in its class for gas mileage in the official Gilmore-Grand Canyon Economy Run.

Your Ford Dealer's certainly the man to talk trade with now!

FORD GOOD DRIVERS LEAGUE. Boys and girls, here is your opportunity to win one of 98 University Scholarships for skillful driving. For details, write Ford Good Drivers League, Dearborn, Mich., or see your Ford Dealer.
