DELIBERATE ACTION

SEC. LANSING WILL SPEND SEVERAL DAYS EXAMINING THE GERMAN NOTE

MAY DECLARE INTENTION

Believed Next Note to German Government Will Declare What U. S. Propose to Do

By Associated Press. Washington, July 12.—The situation between Germany and the United States has taken on such a serious character that the policy of the American government will require lengthy and deliberate consideration, that it may have the firmness that the circumstances require. This was the statement made today in high official quarters.

Secretary Lansing, after taking several days to examine the German reply, may not go to Cornish, N. H., after all to confer with President Wilson. The original plan, it was explained, was for the president and Mr. Lansing to confer and then have the secretary of state draft a note to be submitted to the cabinet on the president's return to Washington. Now the belief is that the president and Mr. Lansing working independently will prepare memoranda.

Counselor Von Bernstorff, the German ambassador, has asked Secretary Lansing if he wished to see him and it is said the secretary replied that he does after he has examined the situation. The ambassador is seeking information on the attitude of the American government toward the German reply. After Mr. Lansing has consulted President Wilson, it is not unlikely that some intimation will be given to the German ambassador of the seriousness with which the United States government regards the crisis.

NOTE BEING DRAFTED. —Secretary Lansing has begun work on a draft of a reply to Germany, but has not given anyone the slightest inkling of his views. Such intimations, however, as have been received from the White House as well as the state department point to the framing of a policy which will express even more emphatically than before the views of the United States and the belief is growing that the next note may include some idea of the intention of the American government if its demands are not met.

In all quarters here the reply was the single topic of concern. What the action of the American government will be is doubtful, largely in the sense that the means of expressing the ideas and purposes of the United States have not yet been decided. It was authoritatively indicated that obviously there would be no surrender of rights and no acceptance of the German proposal to guarantee immunity to American ships under arrangements to be agreed upon by the naval authorities of the two countries concerning the marking of the neutral ships.

There is no intention, from indications in official quarters, to force a situation, but in whatever policy is followed the Americans endeavor will be to place full responsibility on Germany for any subsequent rupture of friendly relations. Since the Lusitania was sunk, on May 7, there has been no violation of the principles for which the United States has contended, unless the mishap to the Nebraska can be included, and in that case the Washington government has not finally reached a conclusion as to whether a mine or a torpedo caused the explosion. In the view of many officials, should German submarine commanders continue in practice to respect American rights discussion could continue. There were intimations, however, that in the next communication the United States most likely would insist upon the German government's serious consequences which will ensue from any further violation of American rights as proclaimed in the notes already sent.

Chief Obstacle. The chief obstacle, it appears, however, to permitting virtually a status quo to continue, while further notes are exchanged, is the treatment which Germany has given to the Lusitania case. The United States has asked for disavowal of intent to kill Americans and for reparation, although the latter has been subordinated to the greater consideration of whether Germany is justified in the action of the submarine commander or would admit liability. No direct answer on the question of law involved was given in the last note and the quick sinking of the vessel was attributed to "peculiar circumstances" such as the presence of high explosives. High officials regard this as an evasion, pointing out that even if there were explosives on the ship, which is not admitted, they never would have been ignited but for the German torpedo.

Bernstorff Expects to Break. Opinion in German quarters here is much the same as that which has been reflected in press comment from Berlin. Count Von Bernstorff, the

German ambassador, is satisfied with the German reply and thinks offers a basis for negotiation. He does not believe a break between Germany and the United States is not probable and is satisfied that the suggestions carried by Dr. Meyer Gerhardt to urge the German foreign office to adopt a friendly tone in its reply were followed. With the United States an active champion of the cause of neutral rights, German officials here say they foresee an amicable understanding eventually on the question of freedom of the seas.

TELEPHONES WILL BE
USED BY SUFFRAGISTS

Every Suffragist in New York Will Appeal For Votes July 25 Over Telephone

By Associated Press. New York, July 12.—The Empire state campaign committee has selected July 25 as "telephone day" for the suffragists. Appeals will be made by telephone from suffrage headquarters in New York and elsewhere to the governor of New York, New Jersey, Pennsylvania and Massachusetts to support the suffragists campaign. The mayors of New York and San Francisco will be asked to deliver short speeches by telephone. On that day every suffragist in this state will be required to call three men by telephone and urge them to vote on the suffrage amendment to the constitution.

MAN SAYS HE WILL CARRY
ON FRANK HOLT'S WORK.

New Orleans, La., July 12.—Declaring that he would kill J. P. Morgan and Sir Cecil Spring Rice, British ambassador at Washington, and finish the work started by Frank Holt, a letter received by a local newspaper signed with the name Pearce, warned New Orleansians who had friends or relatives aboard the British steamship Baron Napier and Howthead to watch for reports of these vessels. It is believed here that bombs have been placed on both ships.

Both vessels cleared with cargoes of mules for the British Army July 8, and sailed the next day, the Baron Napier for Avonmouth, England, and the Howthead for Dublin and Belfast via Norfolk.

The writer declared that it was Holt who warned passengers on board the Lusitania before that vessel sailed from New York that it would be dangerous to make the voyage on her. It also is declared that Holt personally called on Charles Frohman and urged him not to take passage on the ship.

BOMBARDMENT OF TURKISH
POSITIONS REPORTED FUTILE.

Constantinople, July 11, by wireless to London, July 12.—Bombardment of the Turkish positions on the Gallipoli peninsula again has proved futile, according to a statement issued tonight at the Turkish war office. "Saturday afternoon an enemy cruiser of the Nelson type protected by four torpedo boats appeared before Zaba Tepe (near the tip of the peninsula) and fired two hundred shells at our position without success. The Turks lost one killed and two injured, several of our shells struck the ship and forced it to withdraw."

PURE FOOD COMMISSIONER
INVESTIGATING ICE CREAM

By Associated Press. Austin, Texas, July 12.—R. H. Hoffman Jr., state pure food commissioner, has started a statewide investigation of the manufacture and sale of ice cream, he stated here today, declaring that in some instances he had analyzed samples of ice cream and found it highly adulterated. Samples will be taken of ice cream manufactured over the state and complaints will be lodged where it is found impure.

MRS. WILGANOSKI'S TRIAL
IS SET FOR TODAY

By Associated Press. Austin, Texas, July 12.—Mrs. Kate Wilganoski, seventy years old, was to be tried here today on an indictment charging that she murdered her husband by striking him on the head with a stick of stove wood here last February. It is said she killed him because, although he was worth \$50,000, he refused to allow her any money and had ill treated her. Mrs. Wilganoski burned the body and hid the charred remains in post holes lately dug on her premises, according to the police.

RURAL SCHOOL WEEK
OBSERVED AT AUSTIN

By Associated Press. Austin, Texas, July 12.—Many well known educators will lecture here this week which is rural school education week conducted by the University of Texas.

NORTH TEXAS ROTARIANS
LEAVE FOR FAIR TODAY.

By Associated Press. Fort Worth, Texas, July 12.—North Texas Rotarians were to leave here today on a special train to attend the annual convention of the National Rotary Club in San Francisco, July 13-14. It is expected that all there will be approximately 500 Texas Rotarians at the convention.

GUAYMAS ESCAPES
FROM BOMBARDMENT

ADMIRAL HOWARD AND FOREIGN CONSULS PREVAIL UPON COMMANDER

WILL FIRE UPON TRAINS

Mexican Steamer, Bonita Also Will Be Fired Upon Because Carrying Supplies For Enemy

By Associated Press. Guaymas, Mexico, July 11, wireless to San Francisco, Cal., July 12.—A general bombardment of Guaymas by the Carranza gunboat Guerrero planned for Monday has been prevented. After strong protest by Admiral Howard of the U. S. cruiser, Colorado, and the French, German, British and Italian consuls, the Guerrero commander agreed to fire only on Southern Pacific trains entering or leaving the city and upon the Mexican steamer, Bonita, anchored in the inner harbor. The commanding officer of the Guerrero said the train and the steamer, Bonita, would be fired upon because they have been used by the enemy for the transportation of troops. It is believed that the city is practically free from bombardment of these two points. The time for the bombardment had been set for 6 o'clock Monday morning but the Guerrero commander agreed not to open fire upon the trains and the Bonita until six o'clock Monday night. The Guerrero arrived here Saturday and immediately a blockade was declared, a schooner which attempted to enter was stopped and ordered to put to sea after the passengers had been allowed to land.

GRASSHOPPERS CAUSE
DAMAGE TO FARMERS

Steps Already Being Taken to Check Their Ravages—J. W. Campbell Recommends a Poison

Grasshoppers are reported to be causing some trouble in this section, damaging corn and cotton and steps are already being taken to check the pest.—J. W. Campbell, district agricultural agent, recommends the following preparation: Dissolve half a pound of soda in boiling water. Add to this two pounds of arsenic, two gallons of molasses and 50 pounds of bran. Mix and let stand overnight. Sprinkle over field.

This mixture is said to have proven very efficacious in destroying grasshoppers and in checking their depredations.

Husband Called
Her Old, Wife Shot
And Killed Him

By Associated Press. Quincy, Ill., July 12.—Mrs. Marie Moore Wielage, aged 35, was in jail here today on a charge of murder as a result of the shooting of her husband, Elmer Wielage, aged 26, Sunday afternoon. Mrs. Wielage said her husband had called her an "old woman." She made an unsuccessful attempt at suicide after the shooting.

Al Jennings Has
A New Experience;
Was Hold-up Victim

By Associated Press. Los Angeles, Cal., July 12.—Al Jennings, the former Oklahoma bandit, was discussing today the sensations experienced by persons who are compelled at the point of a revolver to give up their valuables. Jennings was a passenger last night on an interurban electric car which was held up by two masked men. He with other passengers yielded a "cold woman" and jewelry amounting to about \$200.

RUSSIAN TROOPS BEING
SENT TO DARDANELLES

Transport Fleet Being Prepared to Carry Troops From Vladivostok to the Dardanelles

By Associated Press. Manila, P. I., July 12.—Persons who have arrived here from Saigon, capital of French Cochinchina, report that all vessels belonging to the Messageries maritimes which have been engaged in far eastern traffic are being transformed into transports to carry Russian troops to the Dardanelles. The ships are being sent to Vladivostok to take on troops.

Russia probably will benefit more than any other nation in the fall of Constantinople but there has been no previous authoritative reports that the Russian troops would be sent to the Gallipoli peninsula to assist the allies.

COMPARATIVE CALM
IN BATTLE AREA

ITALIANS CLAIM SUBSTANTIAL ADVANCE IN THEIR OPERATIONS

FIGHTING ON WEST FRONT

German Report Tells of Attacks and Gains at Several Points Which French Deny

By Associated Press. London, July 12.—Comparative calm exists in the various fighting areas with the exception of the Austro-Italian front where the Italians claim a substantial advance in their efforts to invest Trieste. Petrograd is stated at the Russian success over the Austrians who are said to have lost one of the three corps which began the advance against Lublin. The entente allies are reminded, however, that this is only a local triumph on forty miles of a thousand mile front. Austrian operations against the Warsaw railroads have been checked which means that the threatened advance on Warsaw is a little less dangerous than when the Austro-German attack began. A dispatch from Austrian headquarters in Galicia explains the apparent lull in the Austro-German advance by asserting that the Teutonic allies fixed Lemberg as the objective of the present campaign with the idea of establishing themselves in strong position to the northward with the idea of using part of their troops elsewhere. It is further explained that the Austrians proceeded beyond Krakow but encountering unexpected opposition retired upon the position originally selected where they took their stand.

FRENCH REPORT SAYS
GERMAN ATTACKS REPULSED

By Associated Press. Paris, July 12.—Official statement: "There was great activity during the night upon various portions of the front. In the sector of Arras the enemy, after having lost a large number of asphyxiating projectiles attempted towards midnight south of Souchez an attack which failed. The second attack about 2 a. m. permitted them to occupy the cemetery and some section of the trenches immediately adjacent. A desperate battle with hand grenades took place in the closely associated trenches to the southeast of Neuville-Zeeast without appreciable gain on either side.

"Upon the plateau north of Oise the bombardments of both sides was particularly violent. In the Argonne there was fighting with bombs and mines in which our artillery joined. In the Woivre district the enemy violently cannonaded Fresnes-en-Woevre with projectiles of all caliber and attempted several attacks, one near Saulx en Woivre, the other in the forest of Apremont. They were repulsed. In the Vosges the Germans exploded a mine near our positions to the southeast of Allersville, then delivered a strong attack with several companies which was thrown back with important losses."

NO REPLIES FROM
ENDANGERED SHIPS

NAVY DEPT. AWAITS ANSWERS TO WIRELESS HOLDINGS OF BOMBS IN WORDS

ONE WITHOUT A WIRELESS

Note Received By New Orleans Paper Says Writer Placed Bombs on Two Steamers

By Associated Press. Washington, July 12.—Navy department officials today were awaiting from British steamers, Howthead and Baron Napier laden with mules for the British army and now off the South Atlantic coast to a warning wirelessly to them to watch out for bombs in their holds. The Howthead was scheduled to stop at Newport News, the other vessel sailing direct for England.

Both vessels sailed from New Orleans July 9. The Howthead was not contacted by wireless but should reach Norfolk tomorrow afternoon. Sending of the warning was ordered by Secretary Daniel upon receiving a telegram from a New Orleans newspaper saying a letter to that paper signed "Pearce" indicated that explosives had been placed aboard those vessels.

The radio message was broadcast over the sea and even if it is not picked up directly by the Howthead or the Baron Napier, some other ship in the neighborhood may relay it. Naval officers think responses may be caught by some of the wireless stations along the South Atlantic coast tomorrow.

OKLAHOMA TWO CENT
CASE COMES UP TODAY.

Oklahoma City, July 12.—The state's case in the two-cent fare litigation has been set for a hearing here today before Federal Judge Youmans of the western district of Arkansas.

PRIAR REVIVALISTS
TRANSFER EFFORTS

TENT HERE TAKEN DOWN AND PREPARATIONS MADE TO LEAVE CITY

OPEN AT ELECTRA SUNDAY

Meetings Here Have Been in Progress Five Weeks With More Than 200 Conversions

With Electra as their next stop, the H. H. Friar evangelistic party this morning struck its revival tent and prepared to leave this city. The meetings have been in progress for just five weeks, during which time there were in excess of 200 conversions. The decision to close the meeting here was reached last night. In his sermon Sunday night, Dr. Friar indulged in some sweeping criticisms of Wichita Falls and the people here in general. The decision to go to Electra was made some time ago, although no time was fixed. In his sermon Sunday night, the evangelist said among other things that he had never seen a place where being a Christian meant as little as it did in Wichita Falls, and there were other sentences in his sermon equally severe. The Friar meetings are conducted independent of any one denomination but usually, as in this case, have the support and cooperation of the pastors of the city. During much of his stay here, Dr. Friar has dealt particularly with the liquor traffic and both in the tent services and in meetings on the downtown streets he has been an ardent advocate of prohibition; by some it is said that he is largely responsible for the calling of the election in this county.

COURT HOUSE SMELLED
LIKE FERTILIZER PLANT

Bounty Paying Day Brings Adiferous Collection of "Varmint" Hides to Commissioners Court

There was something decidedly rotten about the court house this morning. One realized it as soon as he entered the building and the nearer he came to the county judge's office, the more it seemed that something bad crawled in there and died several days previous. Investigation showed that this was the day for bringing in wolf hides for the bounty and some of the hides were over ripe. The commissioners wanted to hide the hides, but they first had to pay two dollars for each wolf scalp, this being the amount allowed under the new state law which is now effective. There were 32 hides, a total of \$64 being paid out. One small boy came in with five hides, saying he had killed the wolves himself northeast of Electra. There were 25 rabbit scalps for which a five cent bounty is paid. The next time there are any bounties to be paid the commissioners will

LITTLE INTEREST SHOWN
IN PROPOSED AMENDMENTS

By Associated Press. Austin, Texas, July 12.—Reports from throughout Texas received here today show apparently very little interest in being manifested in the six proposed amendments to the state constitution which are to be voted on at a special election to be held July 24. The amendment for which there possibly has been most active support is that increasing the number of supreme court judges from three to five. Many lawyers have been urging this. Briefly the other amendments are: Divorcement of the State University and A. & M. College, authorizing the levy of a special road tax not to exceed 50 cents on the \$100 value of land throughout the state to vote a students' loan fund, authorizing issuance of bonds for levees, drainage and roads, and authorizing voters to cast their ballots in precincts other than those of their residence.

FARM TRACTOR USURPS
PREROGATIVE OF MULE

Tractor Used to Pull Automobile From Ditch on Seymour Road Saturday Night

A new use for farm tractors was found late Saturday night when one was employed to pull an automobile out of the ditch on the Seymour road west of the city. The car backed into a deep ditch while trying to turn around and the tractor, brought from a nearby farm, yanked it out in a hurry. The rescuing of stranded machines has been a prerogative of mule teams in the past, and farmers with mules have profited handsomely when the roads were muddy and mud holes were numerous. Now it appears, the horse and mule have been superseded in this regard and as if indignity of standing idly by and permitting a puffing gasoline engine to pull the binder were not enough, they have to surrender the privilege of rescuing automobiles. The prediction that the time will come when machinery does everything on the farm except milk the cow and spank the baby appears justified.

JULY 31 DESIGNATED FOR
LOCAL OPTION ELECTIONDRYS OPEN CAMPAIGN
WITH MASS MEETING

GOOD SIZED CROWD OUT SUNDAY—ENTHUSIASTIC SPEECHES HEARD

SPEAKERS WERE
CHEERED

W. J. Bullock, Dr. A. L. Andrews, Judge Martin, Rev. Miller and Judge Howard Talk

Five or six hundred people majority of them men, were at the South Methodist church yesterday afternoon at 4 o'clock when the campaign for local option was formally opened in Wichita county. All the speakers were repeatedly cheered during their remarks. The meeting was opened with prayer and song.

W. J. Bullock the first speaker, said this was the most important election ever held in Wichita county because the saloon was the enemy of the church, the home and the state. He urged every Christian to get into this fight against sin. "God expects you to do it, and the man in the world if he is to have any respect for your pretensions of religion expects you to do it," he said. "If the saloons remain in this town they cannot be laid at the door of any prohibitionist in the day of judgment."

Dr. A. L. Andrews read and commented on statistics as to the economic waste of vast sums of money spent for liquor. He said this money ought to go into useful business. He declared he was the friend of the saloon man but he wanted to put him in a respectable business that did not blight homes and wreck the lives of those who were his patrons. "Wichita Falls is a beautiful city," he declared, "and she only needs one thing to make her morally what she is commercially, the queen of the west, and that is close the saloons and the bawdy houses. They cannot run without victims, and are you ready to furnish your boy or your girl for these places of vice and immorality? The saving of a fair haired boy or a blue eyed girl is worth more in the sight of man and God than all the brick and mortar that was ever built in the world."

Judge P. A. Martin said there was more bootlegging in Wichita Falls than in any four or five prohibition counties around us, and that more crime had been committed in the last five years in one mile of the court house in Wichita county than in any ten prohibition counties in Northwest Texas. He said his experience as a judge on the bench of this district proved to him that seventy-five per cent of the divorce cases in Wichita county were the result of having saloons here.

"You may vote to make my boy a drunkard, but if I am the only man in Wichita county to do it I will never vote to make your boy a drunkard," he said. "You can hear on the streets only one argument and that is the sordid and selfish one that prohibition will hurt business. Yes it will hurt the saloon business and it will hurt very much the business of your county attorney and some of the criminal lawyers."

Judge Martin ridiculed the moral coward and the fence rider. "Get on the right side," he urged, "this election is more important to our homes than any vacation you can ever take and you will have to answer to God for your actions."

Rev. R. C. Miller told of two families that the saloons of this city had recently blighted and ruined and left in poverty because the father was a drinking man.

Judge W. J. Howard said, he was an old man not able to work, and that prohibition would take the fees of his office to almost nothing, but he did not want the money of a drunken husband that ought to go to his wife and children. He said he had a son who was an exile from home who could not live in a town where they had saloons and who would come home as soon as they were voted out and the temptation to drink removed. It was announced at the meeting that a young men's prohibition club would be organized at Judge Martin's office tomorrow night at 8 o'clock. All young men who desire to join are urged to be present.

JOPLIN MINERS AT WORK
AT THEIR OLD SCALE

5,000 Miners Go Back to Work in That District After Strike Lasting Two Weeks

By Associated Press. Joplin, Mo., July 12.—The strike of nearly 5,000 miners which began here two weeks ago ended today when at every mine in the district the men asked for their places at the old wage scale. The miners have not asked recognition for their newly formed union.

527 SIGNATURES TO
THE PRO PETITION

FORMAL ORDER AWAITS SELECTION JUDGES WHO WILL BE NAMED TODAY

ANTIS WERE
REPRESENTED

Date Selected Suitable to Both Sides—Most Regular Judges and Clerks Will Be Named

Saturday, July 31 was today designated as the day upon which the prohibition election will be held in this county. The order for the election will not be formally made by the commissioners court until late today but the presentation of the petition, with a total of 527 signatures, made it certain that the election will be held. The delay was occasioned by the request of a committee representing the anti-prohibitionists for representation among the election judges and clerks. The petition was presented by Judge P. A. Martin, who with W. J. Bullock, appealed for the prohibition committee. Of the 527 signatures, 269 were secured in Wichita Falls, 106 in Iowa Park, 74 in Burkburnett and 78 in Electra. County Judge Harris suggested that the names be checked with the tax lists to see whether all those signing the petition were qualified voters, but it was decided that at least 250, the number required by law, were qualified.

Date Agreeable to Both.

The date was agreeable to both prohibitionists and anti's, Judge Scurry saying that those opposed to prohibition favored July 31. A. L. Huey was also present from the anti committee. Judge Scurry asked that in naming the election judges, pro's and anti's be given equal representation, and he asked that no final action be taken until the anti committee could give the names of those it wished to serve. This was agreed to. Mr. Bullock said that the regular judges would select the prohibition committee and this list was given over. It was found that at most boxes both pro's and anti's were judges, except in two of the city boxes, where all were pro's. It is probable that some changes will be made at these boxes. The date selected is considered suitable by both sides. July 28 would be the earliest date that the election could be held. The returns must be canvassed by the commissioners' court not earlier than eleven days after the election, in special session. This may mean that the commissioners who will be in regular session then, must adjourn their regular session and convene in special session. Judge Martin thinks this can be done.

KING GEORGE ENTHUSED
AFTER VISIT TO FLEET.

London, July 12.—The belief that the British navy will win fresh laurels "whenever the day of battle comes" is expressed by King George in a message to Admiral Jellicoe after a visit to the grand fleet.

"I have had the pleasure of seeing the greater portion of the officers and men of the fleet," said his majesty. "I realize the patient and determined spirit with which you have faced long months of waiting and hoping. I know how strong is the comradeship that links all ranks together. Such a happy state of affairs convinces me that whenever the day of battle comes my navy will add fresh triumphs to its old and glorious traditions."

AUSTRIANS CLAIM TO
HAVE ATTAINED OBJECT

Subsidence of Activity on Galician Front Explained New Operations Being Planned

By Associated Press. Austrian Army Headquarters in Galicia, July 12.—The relative subsidence of activity on the part of the Teutonic allies last week may be explained by the fact that the goal set for the Lemberg campaign already has been attained. This was the recapture of the city and the securing of strong defensive positions to the eastward and northward. These positions have been secured along the Zlota-Lipa and Bug rivers and the ridge to the northward, dot Krasnik. The Russians attempted a counter offensive from Lublin against the Austrians, bringing up heavy reinforcements for this purpose. Owing to this movement the Austrian troops which had rushed beyond the position originally selected withdrew to the ridge where they have been successfully resisting all Russian attacks. They feel secure in their present position and it is believed here that they can be easily held against whatever forces Russia can throw against them. Indications now point to a period of quiet along the Russo-Galician front while the Teutonic allies are preparing for operations in other quarters.

The Mustard Seed Is a Tiny Nut

The meat or kernel of this tiny nut is what has the real, rich mustard flavor—the shell is a most as flavorless as the hull of a walnut.

Then when the whole mustard seeds are ground up into mustard you get bulk to be sure, but the strength is weakened by a part of it being shell or the tasteless part of the seed. It is pure mustard, but it is not the best flavored mustard, nor the most economical to use.

White Swan Mustard is made by discarding the shells and grinding up into mustard only the kernels of the mustard seed—these little kernels look like rolled oats when ready for grinding. Mustard made so is all strength and flavor.

You can very readily satisfy yourself as to whether or not a mustard is ground from kernels only or from whole seed. The former, poured dry into a glass tube shows a powder of a solid, pure canary yellow. The other kind will look speckly—the mass is full of little dark particles; these are the shells, the almost tasteless part of the mustard seed.

The purchase of White Swan Mustard is an assurance not only of getting pure mustard, but of getting mustard ground from the shell-less kernels of imported mustard seed—full strength and fine flavor.

Your grocer sells White Swan Mustard—ask for it.

SOME STRONG STATEMENTS MADE BY EVANGELIST

In Sermon on "The Prodigal Son" Rev. Friar Scores Wichita Falls Society.

Evangelist Friar in his sermon of Sunday night hit some pretty hard blows at Wichita Falls and made some strong statements, speaking on "The Prodigal Son," of which breed this town is full, according to Mr. Friar. "It means less to be a Christian in Wichita Falls than in any place I have ever visited," he said, "you are working on the wrong end of things, do away with the cause of drunkenness and evil, the saloons and the bawdy houses. You men who uphold the saloons and kindred evil institutions, will you furnish the boys and girls, young men and young women which these institutions demand from your own family? If you are a dead game sport you will back up your convictions and your arguments. Some people say 'take the saloons away and the town will decay.' God pity a town that has to depend on such for its support. Are saloons necessary for the protection of your homes?"

At last you can get one of the biggest motor cars on the market at the price you have been considering—one of the most luxurious motor cars made by one of the great leaders of the higher-priced motor-car field. At last you can get a car at a reduced price that hasn't one bit of value taken out of it.

At last you can get at the price of cheap cars, a Chalmers car—a car that 10,000 owners have run for two years at the lowest record for real economy of upkeep ever known.

Cut from \$1925

This car was placed on the market two years ago at \$1925. Thousands were sold at that price. Then the car was reduced to \$1725 and we sold thousands more at this figure.

Most of these cars went to New York, Philadelphia, Boston and Chicago, where the list of Chalmers Six-48 owners reads like the Blue Book.

They were not bought merely by those who felt that \$1725 was all they could afford to pay for an automobile, but by people who could afford any car.

Over a thousand Six-48's are operating in the New York City district alone, yet one man at the Chalmers New York branch attends to all repairs or adjustments that have ever been necessary.

No Changes But Improvements

The cars operating in this district broke all records for upkeep—freedom from repair cost, considered.

There can be no improvement made in a motor which does such work as this.

There can be no structural improvement made in carburetion which makes such a record in gas economy, or on a chassis with such proper distribution of weight—light where it can be, strong where it should be.

Not one of these quality advantages has been skimped in the 1916 model of this car, but numerous refinements have been made.

The car is built in our own shops. It is not a motor picked up here, a transmission, then, and other parts from somewhere else.

How We Are Able To Cut

This fact and quantity production have enabled us to produce this car at the 1916 price.

We are building 20,000 cars this season. That is nearly four times as many as ever before. We are putting up new buildings; we are installing new labor-saving and cost-reducing machinery.

With bigger organization, increased capital and new plans, we have cut down administrative expense in its ratio to each car made.

After several years work we are now equipped to make quality cars at quantity prices.

This car gets all the advantages of this general saving.

In addition we had no new tools to make on this model, no new tool fixtures to make, no new machine tools—so we are able to give the present buyers the benefit of these special savings also.

The Car of Quality—Plus

"Let Your Next Car be a Chalmers"

Not a Made-Over Car

Thus you see that it is not a made-over car to meet a lower price; it is the same high-grade quality car that originally sold at \$1925.

Think of it!—this car at \$1550—\$375 cheaper than its first selling price—and then people wondered how we could make it at less than \$2000.

Why, a great motor manufacturer once said to us: "It is the finest motor in material and workmanship we have ever seen (the one in this car at \$1550). We are frank to say that we have never turned out a better motor, even for higher-priced cars. No company that we know is turning out a motor with such high-class workmanship as you put on this one."

Look Beneath the Surface

Statements like this should make the prospective motor-car purchaser look beneath the surface of claims of all motor-car manufacturers nowadays.

The prospective purchaser can't tell by looking at a finished car what is in the chassis. If he is a man of mechanical knowledge he can tell something by close examination of the chassis.

But even then he can't find such differences as the motor manufacturer found in our motor.

But those who see Chalmers Cars in the making see these differences.

That's why we proudly call attention to the fact that we have never lost a single sale to a prospective purchaser who made a trip through the Chalmers factory.

Talk to Owners of This Car

Many of your neighbors in this city and vicinity are running this car now—ask any of them about it.

It is the car of Quality—Plus. It is the car of Quality, because the Chalmers Motor Company has never succumbed to the temptation to make cheap cars. When we cannot build quality cars we will go out of business.

It is the car of Quality—Plus, because with new plans for quadrupled production, new organization and the biggest business in our history, we can make Quality Cars at prices which make this Six-48 absolutely the best "buy" in the field of cars priced from \$1200 to \$2000 today.

We are not given to over-statements. Hence we ask the privilege of proving this rather strong claim. May we show you this car, to-day?

own family? If you are a dead game sport you will back up your convictions and your arguments. Some people say 'take the saloons away and the town will decay.' God pity a town that has to depend on such for its support. Are saloons necessary for the protection of your homes?"

"Ninety per cent. of your boys are better known in the bawdy houses of city than in the prayer meeting. Some uphold the dance and it is true that perhaps more than 90 per cent of the girls who dance are pure, but a girl in the arms of a fallen man is in mighty dangerous hands."

"Some of you society people have stayed away from the meeting because you have a pet devil and I have been hitting it. It is very well to say 'keep thyself pure' but the pure young man of today is not very popular with young women, for society demands a different kind. Society of today is short on everything but brass."

The dance was born in the bawdy houses and when society people have it in their homes they have a dangerous thing. The best people are not found in the 'society crowd.' I would ten thousand times rather have my daughter marry an honest, green country boy with broken shoes than to have her marry a society man with plenty of money and worse than no character."

Mr. Friar closed his talk with some pitiful stories of fallen girls, of which he said there were nine hundred thousand in the United States.

Select Meats

Cold Lunches

It isn't that the meat necessary for slicing nicely must be any better than for ordinary table use, but there are certain cuts as you know that will slice nicer when cold, than others.

I always try and suit my order filling to my customers' desires and needs.

Then tell me when you want meat, whether it's for cold slicing or not and I'll see that you get just what you want.

GOD'S MERCY MOST ASTOUNDING FACT

REV. SMITH PREACHES FROM
TEXT "I STAND AT THE DOOR
AND KNOCK"

JOINT RULERSHIP ASKED

God Does Not Seek to Dominate Our
Lives to Exclusion of Our
Own Values

"Behold I stand at the door and knock," was the text of Rev. C. C. Smith's sermon at the First M. E. Church, corner Seventh and Lamar streets Sunday morning. The speaker said that God does not dominate our lives to the exclusion of our own self. It is a joint rulership of the life he covets, said Rev. Smith. His sermon in part follows:

"This is a very familiar thought and yet it is so vital as to be ever new. It is not exhausted with the use but rather brightened and beautified. We are living in an age of great thoughts and great deeds. No one who can intelligently compare the past with the present will dispute the fact that the intellectual achievements of today are in advance of anything the world has known. But no matter how great our achievements in this direction we have not outgrown the principles set forth in this text of Scripture. Let the scientist think his greatest thoughts; let the philosopher and the theologian be never so profound, still he will never surpass the stupendous fact of God's amazing grace revealed in the plan of salvation. We are indeed in an age of great thought but our minds will be confronted with nothing greater than this, God through Christ, has made possible the forgiveness of sin. What is sin? Sin is a willful turning away from God and right. Sin is separation from God. Man, by his own will, draws away from God. Set over against this willful act on the part of man the fact of God's mercy in providing reconciliation and you have the most astounding fact of the universe. This is not the property of the learned alone. It is exceedingly simple in its putting. But measured by its consequences it has no superior. It is such a thought as fits the soul of us all and when it has really gripped us we can not escape from its commanding importance.

"Behold I stand at the door and knock," here is the eternally righteous God beseeching sinful man not for his own sake but only that he may have a chance to do for man the supreme good. By his knocking God reveals his desire to enter into our lives. He acknowledges man's right to rule in his own heart and does not use his divine power to force the door but waits an invitation to enter. How patient he is. How long he has stood knocking before many doors. What a pastor Christ is. Suppose that the ordinary pastor of the ordinary church should come to your house door and knock and you would not respond. What would he do? Doubtless at the first he would conclude that you had a good excuse for not admitting him and so he would turn away and later when it was more convenient he would call again. In due time he knocks at your door again. He knows that you are in the house but that you do not admit him. He might even excuse this case if he were real patient and come again the third time. If, however, he concluded that you were persistently and wilfully refusing to admit him no doubt he would take it as a suggestion that you did not want to see him and would say to himself, if those folks ever want this preacher they will send for him. Have called there the last time usually sent for. Social customs would doubtless justify even a preacher in doing that thing. But what if Christ should do that way? How many times has He knocked at your door and been refused? Christ is out searching for the lost and He is not careful for His own feelings in the case, but he is concerned for his sinful children. What amazing unselfishness Christ shows in bringing us salvation.

"Consider too the character of the man who asks admission to your life. He is the most distinguished guest of earth. How proud we are sometimes when a great man of public note comes to stay at our home for a time. There is rivalry in the committee as to who shall entertain him and if we are the fortunate ones we have it

written up in the papers and we tell it to our children and hand it down as a sort of heirloom, something which has wonderfully elevated our social position. But no guest of earth can possibly shed abroad over our homes such an influence as this Heavenly Visitor. Think how we have so often refused Him when we would not refuse a man of worth among our friends. The greatest, the best, the most distinguished, the Son of God himself, and yet we refuse to entertain Him. He will bring distinction to our home and much more than distinction. He will bring in all those qualities of soul that are necessary to make home a reality. He will make our homes real homes and not mere abiding places.

"There are some things very definitely implied in the fact of Christ's divine knock. First He shows that man is worth saving—that any man is worth saving. Divine wisdom pronounces man worth seeking after. When we look upon man sometimes we are moved to say, he is not worth living. But God says he is and so he seeks him out. Mankind gets very low in sin and very near the brute in his habits sometimes. He even goes below the brute because he can do things which the brute is utterly incapable of doing. We say he is a worthless beast. God says he is worth saving and so he tries to get into his life to save him. He sees in him eternal possibilities. The wisdom of God declares also that man needs saving. Many people today are inclined to believe that they do not need a Savior. But Christ does not indicate that He is knocking only at the door of the degraded. He says 'any man.' In the fact that God is searching for all men is proof that all men need Him. He shows that man is powerless to save himself. God does nothing needlessly. If man could save himself God would certainly permit him to do so. But since God pays such a price to save man it is plain that without this divine sacrifice man can not be saved. God has a part in the salvation.

"Man also has his part in salvation. The Son of God stands at the door and knocks, desiring to come into the soul to cleanse it from sin and to save it eternally. But man must open the door. Divine power will not force an entrance. He comes to every man's heart. It is a universal call and the call continues. We may talk about the unpardonable sin and the more we talk about it the less we will know. What we do know is that God says repeatedly, 'any man.' If any man will hear my voice, he will come in. It is a vast deal to this entire possible that man should bring himself to such a place that he can not hear but God has not failed him nevertheless. It is not the will of God that any man should perish. God will pardon any sin if we do our part. But man must hear his voice—that is give heed to His voice. There is a vast deal to this matter of hearing. It is not the aural process alone. That is simple enough. But to hear is to heed in this case, and if any man will heed Christ will come in. 'If any man will open the door.' There is much in the act of opening a door. Have you ever noticed how some people can welcome you just by opening the door? Some people can throw the door back out of the way in such manner as to fairly turn the house over to you; and again there are others who can just hold the door a little open in a way that chills all feeling of welcome. When you get outside that door you feel like you have escaped from a dark prison. Were you ever a book agent and have you knocked on the door and had some lady come to the door and open it up just a little and without saying a word fairly freeze you with her attitudes? You needed all the diplomacy of an expert to get into the house. The door was not shut but still it was not open. An attitude can tell more plainly

ly even than words that the mistress is in no mood to talk to book agents. If any man will open the door, how do we go about that act? Do we begrudge God his entrance? If so He will not come in. He is not an agent with something to sell but a guest with something invaluable to give. Unless we open the door in a way that really bids Him welcome He will not come in.

"When man has done his part God surely will do His. If we welcome Him He will come in. When Christ comes in sin must get out. He banishes evil from our lives. We want to be rid of sin. The only way is to let Christ come in and rid us of sin. I will come in and sup with Him. How significant that expression is. There is no other place where we meet our guests so much in common as around the family table. If we want to really get acquainted we plan to dine together. Christ understood this long before the days of modern luncheon together over some matter of church business. He used this well known social principle as an illustration. He wants to meet with us as a guest accorded the familiarity of the dining table. He wants to establish His peaceful rule over our hearts in this common domestic way which signifies complete accord with His spirit. But he does not dominate the life to the exclusion of our own self. He with us and we with Him. It is a joint rulership of the life that He covets. He wants us to be ourselves but self harmonized with His divine self. What a magnificent putting of His will toward us is this text. We have in these words the very heart of the Gospel message. If we will heed this knock and open the door He will come in and rule jointly with us over our lives to the exclusion of sin and to the establishment of righteousness in our souls. We desire this

FREE DELIVERY

In yesterday's Times Mr. Grogan, of Byers, in a communication, asks why it was that on July 2nd, (according to the Dallas News) Wichita Falls was only paying 90 cents for wheat, while twenty-four other towns in Texas were paying from 92 cents to \$1.00. The Times learns that on that particular day, that not much wheat was marketed here, but 95 cents was the lowest price paid. It therefore concludes that the Dallas News' report is incorrect. If necessary, the Times can give the names of the parties who sold wheat here on that day, and if those who doubt the statement that 95 cents was the lowest price paid, they can write the parties who sold the wheat.

R. E. Moore, five miles southwest of Burkburnett, was in the city this morning. Mr. Moore has finished threshing his wheat. He sowed 314 acres, and his average yield was 19 1/2 bushels per acre. The largest part of his crop of 200 acres of it made a yield of 22 1/2 bushels per acre. The other part was greatly damaged by too much rain, some hail and high water. Mr. Moore will not sell his wheat at the present market price. He generally holds until spring.

There is considerable complaint from damage to crops by grasshoppers. Here is a remedy for the killing of grasshoppers that has been handed The Times by the secretary of the chamber of commerce of this city. As to whether it will do the work—that of killing off the grasshoppers The Times, of course, cannot say, but it comes highly recommended, we give it for what it is worth:

"Grasshopper Poison—Dissolve one-half pound of soda in boiling water, add two pounds arsenic and two gallons molasses, then mix well with fifty pounds of bran and sprinkle over field. Let this set overnight before feeding to the hoppers."

Governor Ferguson has given it out that he is going to vote against three of the proposed constitutional amendments on July 24th. The majority of the people who will vote at all on those propositions are likely to accept his advice and do likewise. They are apt to make it even stronger than the governor and vote against all of them—not because they do not recognize the fact that our constitution needs to be amended, but for lack of confidence they have in the fellows who drew the proposed amendments. They probably are of the opinion that when the state constitution is to be amended it should be done by calling for a constitutional convention, and appointing or electing as delegates to such a convention the very best men of the State.

The Times has no objections whatever to the publishing of communications treating on matters of public interest. In fact The Times is glad to give them space in its columns, regardless of whether the authors agree with The Times or not. But The Times would much prefer that all such communications bear the signature of the writer. There is something cowardly that attaches itself to the writer, who, for one reason or other, refuses to give expressions to his views on any public question over his own signature. Let it be understood, however, that The Times does not mean to say it will refuse such publications. It only prefers that they be signed by the writers. It is the right way to do such things, and no man who has fixed opinions should be afraid to give expression to them over his own signature. When he chooses a different course, whatever his opinions are do not carry with them much weight.

"The supreme court in declining to name two members of the board to locate the three proposed state normals in accordance with the act passed at the regular session of the Thirty-Fourth legislature, conferred a distinct favor upon the State and saved the tax payers a very large sum of money which can be much more wisely expended upon existing institutions, educational and eleemosynary," declares the Board of Regents of the state normal schools, adding the opinion that the establishment of the proposed schools would cripple instead of strengthen the normal school system. This is well said and the only pity of it is that it was not said several months ago, at the time when the legislature was considering the measure for the creation of three monuments to the stupidity of the legislators and furnish a number of them with a means to further their own petty political ambitions through the hope of their own communities in securing the location of one of these schools. The Board of Regents of the state normals may be excused for their silence then because as they say in their statement, they were not even consulted in regard to the measure. The people had a right to expect, and the true friends of education in Texas did expect, that Governor Ferguson would use his influence against this brazen assault upon the state treasury and blow at the efficiency of the educational system of the state, but the governor appears to have been busy with his own pet measure, the Gibson bill, and did not raise his voice in protest, and it is even reported gave encouragement to those behind the bill. The state for many years to come will have all it can do to provide for the schools already existing without adding to their number with the inevitable weakening of those already created. Let us hope that the effort to create new normal schools is safely dead.

Market Report

Chicago Grain Futures.
Chicago, July 12.—Unfavorable weather and bullish cable advices carried the wheat market up grade today. After opening 1-4 to 2-5-8 higher prices reacted somewhat, but soon began again to advance. Corn rose with wheat and as a result of unfavorable weather. The opening ranged from 1-8 to 3-4 higher. Oats rose with other grains. Wheat closed unsettled. Corn closed steady. Wheat, July 1.09; Sept. 1.08 1/8; Dec. 1.04 7/8. Corn, July 76 3/8; Sept. 72 7/8. Oats, July 47 1/2; Sept. 37 1/4; Dec. 38 7/8.

Kansas City Cash Grain.

to 1.24. Corn No. 2 mixed 75 to 1/2. Oats white 53.

New York Cotton.

New York, July 12.—Notwithstanding the heavy liquidation of last week the cotton market was again very nervous and unsettled at the opening with early fluctuations extremely irregular. Cables were better than due and the opening was firm to a decline of 4 points on August but generally four to ten points higher on new local shorts and Liverpool straddler interests, sent prices about 11 to 13 points net higher during the middle of the morning but after the close

abroad the market declined with active months selling about 2 or 3 points of the early advance. Cotton closed strong, July 3.58; Oct. 8.99; Dec. 9.20; Jan. 9.31; March 9.57.

Fourteen saloon licenses which expired this month have been renewed and about as many more will expire between now and the end of the month. The state, county and occupation tax payable by the saloons in renewing its license amounts to \$550. The number of the saloons in this county could be increased, owing to the gain in the scholastic census upon which population estimates are based, but it is not likely that there will be any additional saloons, as the number is smaller at present than it was a year ago.

Will Prohibition Kill The Town And Hurt Business

(ADVERTISEMENT)

Read the following:

Amarillo, Tex., July 6, 1915.
To Whom It May Concern:
This is to certify that we have been citizens of Amarillo, Texas for some years and voluntarily give our opinion of the effect of prohibition in our city. The last four years of prohibition have been years of conservative progress in business activity. We have also found that laws against selling of liquor can be enforced as well as any other laws. This city had a hard fight on the question but when it won, we can certify that in our opinion it has won forever. Even many of the people who wanted the saloons to stay would not have them back for any thing. Our business life has been helped by their being away. While our commercial and moral life has been improved, crime has been reduced and poverty has been greatly reduced. Dependent families are comparatively few and happy homes are now occupying places once occupied by dens of vice. Life is considered dearer in our city, and murder is an almost unheard of thing. We sign our names willingly and give our consent for this document to be used when it may be deemed and help other citizens to follow in our steps.

(Signed)
J. N. BEASLEY, Mayor.
J. E. NUNN.
HENRY S. BISHOP, District Attorney.
B. G. LOWERY, President Military Academy.
F. M. RYBURN, Attorney.
W. H. KIMBROUGH, Attorney.

RAY C. JOHNSON, County Attorney.

H. A. NOBLES, Vice Pres. Noble Bros. Co.
W. M. BURWELL, Sheriff.
M. H. DUNCAN, Supt. schools.
W. H. FUGUA, Pres. First Nat'l Bank.

Amarillo, Tex., July 9, 1915.

Rev. B. C. Miller, Wichita Falls, Texas.

Dear Sir:

The city of Amarillo has been suffering for the past three years as a dry town under our local option laws. It is a great pleasure for me to say that this law is absolutely enforced here and some of the most ardent supporters of anti-prohibition, which we had in our city have taken the prohibition side of the question since they see the result in a saloonless town. From a standpoint of government our city is cleaner, our police force is reduced over one half and we have absolutely no use for a city jail. From a civic standpoint our citizenship is of a high order. Our laboring people pay their honest debts on pay day and use their surplus in improving their homes.

I have no interest whatever in either side of this question, but write this, as I understand that you are interested in a campaign in Wichita Falls.

Yours very truly,
J. N. BEASLEY, Mayor.

Prohibition seems to have killed two kinds of business at Amarillo, one is the liquor business and the other is the committing of crime. Let us clean up Wichita Falls.

Martin and Florence, classy clean comedy entertainers in a combination of stinging, dancing, hooprolling, ball-bouncing and a big jest of comedy juggling. Special scenery and setting at Aldome tonight.

The Quinine That Does Not Affect The Head
Because of its tonic and laxative effect, LAXATIVE QUININE is better than ordinary Quinine and does not cause nervousness or ringing in head. Remember the full name and look for the signature of W. W. F. F. F. F. F.

Earl Shappell riding a motorcycle and R. H. Delaney driving a Cadillac automobile collided on 10th street near Wiley Blair's residence this afternoon.

The motorcycle rider was pitched from his machine onto the lawn. His injuries are not serious. His motorcycle was badly damaged. Mr. Delaney was driving west and Mr. Shappell was riding east. Mr. Delaney had turned out to pass a wagon and was turning back to the right hand side of the street ahead of the wagon. Shappell, who is a motorcycle rider of only a few days' experience had turned over toward that side of the street when he saw Mr. Delaney turn out to pass the wagon. He expected to pass between the wagon and the curb. Mr. Delaney expected him to turn to the right. Both the motorcycle and the automobile were traveling at a slow speed when the collision occurred.

EDISON

Diamond Disc Phonograph

Is not a mere talking machine. It is a great musical instrument—an instrument that defies description.

All the words in the dictionary couldn't do justice to Mr. Edison's latest invention. You must hear it yourself. It's for all the music lovers at all times, the rarest in the world of music.

We have Edison Disc and Victorrolas for your comparison. Come in today and let us play the selection you love best. Don't miss it. Satisfy yourself. No obligation whatever.

At The Theaters

The Empress.
"Snobs," today's attraction at the Empress, pictured by the Jesse L. Lasky Feature Play Company, with Victor Moore as the star, may be said to be a comedy of modern society mixing milk and blue blood. One Charles Disney, the hero of the story, is a perfectly good milkman, who suddenly, through the death of various relatives, finds himself transformed into an English Duke with millions of pounds sterling at his command. A perfectly good milkman may not be a perfectly good duke—at least, not until he finds out how to do the "duke business" as one born to the part. When Disney first becomes a duke he determines to make the most out of his rise in the social scale with results that are almost indescribable. It is, however, with astonishment that he finds his title and his money cannot buy the one girl he loves, even though all the other women fawn upon him while they mock him behind his back. By the end of the story, milk and blue blood have learned to mix, so to speak, for Disney has learned that simplicity is the best rule in every walk of life.

The Lamar Airdome.
Tonight a new vaudeville bill will open for a three days' engagement, with Martyn and Florence heading the bill in a novelty special act. Hall and Sharkey have a song-and-dance time said to be excellent. Tonight's picture is "A Modern Knock Out" with Adele Lane and William Dowlan featured.

The Gem.
Katherine LaSalle and Guy Coombs are featured in a three part Kalem "An Innocent Sinner," a Hearst Selling News Pictorial to complete the program. Miss LaSalle is a newcomer in film land and this her first appearance will be of interest to the film fans who are ever on the lookout for new talent and new favorites.

The Majestic.
Ethel Clayton and Joseph Kaufman are featured in a three reel Lubin

COUNTY WILL AGAIN SUPPORT DEMONSTRATION WORK

The county commissioners today renewed the contract with the federal department of agriculture, for the support of the demonstration work in the county. J. W. Campbell is government agent for this work and receives \$1200 annually of which \$800 is paid by the county and \$400 by the government. Mr. Campbell and Mr. Ganzer appeared before the commissioners about the matter this morning and it was unanimously decided to let the work proceed without interruption.

"A Modern Enoch Arden" featured in three parts at the Airdome tonight.

Watch The Baby

Few babies can stand this hot sweltering weather unless the right kind of food is chosen and especially see that it is fresh. If baby is not developing normally, we advise that you try a standard brand of baby food. It's also good for children and grown-up people who find that heavy foods do not agree with their system this hot weather.

We carry at all times a well selected stock:

Mellins Food, small size 50; large size	75c

The Victrola is a Feature of the Farm Home These Days

It brings to the remotest parts of the country the greatest bands and orchestras of the world.

You enjoy their spirited music just as though you were among the crowds of music lovers who attend the actual band concerts at the noted summer resorts and places of amusement.

Seated at home, in the comfort of the shade trees or the screened in porch you can have Sousa's Band play Sousa's own stirring marches. You can have different bands play other selections—Pryor's Band, Victor Herbert's Orchestra, Vesella's Band, Conway's Band,

U. S. Marine Band, and the most famous musical organization of foreign countries.

With a Victrola you can make up a program to suit yourself and have a band concert at a moment's notice.

You can have all the new dances, the latest song hits, as well as the best in music for all occasions.

We show Victrolas from \$15 to \$300 and will be glad to play any selection at any time.

We make especially easy terms—\$1 and \$1 per week if you want it.

"Nobody Home" and "My Bird of Paradise"—Victor Military Band—12 inches \$1 25
