STORY OF WEST VIRGINIA WAR TOLD

MEN SHOT FROM ARMORED TRAIN

"DEATH SPECIAL" EMPLOYED IN RIFLE FIGHT ON MINING CAMP

COMMITTEE IS STARTLED

Men and Women Tell How Peaceful Community Became Veritable War Zone

By Associated Press.
Charleston, W. Va., June 14.—Today's inquiry by the Senate committee investigating the coal mine strike centered about a single battle in the Paint and Cabin Creek districts. Almost all day the committee heard statements concerning the attacks on Holly Grove, the strikers' camp, from an armored train which was run up into the strike district February 7.

The committee was astonished at the testimony of Lee Calvin, an ex-mine guard, who was one of the men in the armored train when the strikers' camp was fired upon. Cisco Estepe, a miner, was killed and Mrs. Annie Hall was wounded. Calvin was questioned by the attorneys for the State and told a sensational story of the attack.

After relating that he had been a chief-guard on Cabin Creek and had left the district because of the shooting there, he said that Sheriff Bonner Hill and Quinn Morton, a mine operator, had prevailed upon him to join in the party going up Cabin Creek Valley. He said:

"There were ten or twelve men in the armored car and when we got to Paint Creek junction all of them began getting rifles ready. They tried to give me a rifle, but I told them I had no shooting to do. The brakeman came through the train and turned down the lights. He told me not to raise the windows but to shoot right through the windows. I was leaning out of an open window and as we came up to Holly Grove, I saw a stream of fire start out of the baggage car where the machine guns were mounted.

"The stream kept up as we went through Holly Grove. As we passed I saw three or four flashes of fire from the tents.

"The witness did not see any shots from the tents before the shooting began from the train. He said:

"I just heard the engine's whistle blow 'foot, foot' and the shooting from the train began. I am positive the shooting first began from the baggage car.

"The witness said Quinn Morton was on the train. When the train had passed the miners' camp at Holly Grove, he said Morton came running back through the car and shouted, 'Back up the train and we will give them another round.'

"I think that Morton told him something about there being women and children up in those tents, and he wouldn't shoot." At this statement Senator Martine of New Jersey, almost leaped from his chair and shouted:

"Martine is indignant. 'What sort of a man is this Quinn Morton—I mean Quinn Morton?' He is an ordinary American citizen that he could order such a thing." Attorneys for the coal operators were on their feet and in a moment the committee room was in confusion. Attorney Jackson shouted:

"Mr. Morton will be brought before your committee and you will see him and talk with him."

"God help me, then," remarked Senator Martine.

"The senator ought not to say that," said Mr. Jackson.

"I just can't help it," said Martine. "Under examination by another attorney, the witness repeated the statement that Quinn Morton came through the car hollering 'back up the train and we will give them another round.' He said when the train reached Mucklow, just above Holly Grove, the men in the armored car remained there three days until after the last battle of Mucklow. Calvin said he wanted the company bookkeeper named Bobbett, who was killed in the battle, not to say up the hills that day. Witness said:

Miners Side Heard.
There was a stretch of him and the others who were shot in the battle. The witness declared Chesapeake and Ohio railroad detectives had slugged him in a Charleston hotel because he had quit the company.

Women and men who showed traces of years of arduous toil, sitting back with stolid glances at the story of the strike. Attorneys for the mine operators insisted they would show the train was fired on from

Senate committee now in West Virginia hills investigating the civil war which attended the strike of the miners in the Paint and Cabin Creek districts last winter. The investigation was ordered following reports of conditions bordering on Cossackism.

town before the machine guns in the armored car were turned loose.

Known As Death Special.
The miners called the train the "Death Special." The operators called it the "Bull Moose."

Harry Arthur, who was employed by the Chesapeake and Ohio railroad as a brakeman on the train described the steel sheeting which encased the baggage car and the two machine guns which were mounted so as to give the greatest possible range through the protected car doors.

Mrs. Annie Hill, who jumped into the committee room told how she shielded her three little children from the bullets by hiding them in the chimney corner of her little home at Holly Grove, when the armored train made its appearance. She said she had been shot through the limbs and the bullet had gone through the Bible and hymn book on her parlor table.

"Shoot To Kill."
W. B. Buzzard told the committee that a man with whom he was talking on a Cabin Creek train was shot from a closet in the car after an argument with a mine guard. No criminal action ever resulted from the shooting, so far as he knew. Harvey S. Kimball, a former special agent of the Chesapeake and Ohio railroad, said he had ridden on the "Bull Moose" train and had been ordered to shoot if stones were thrown at the train. He said:

"If you shoot, shoot to kill, was our orders."

Romeo Bennett, another special agent, gave similar testimony.

STOCK MARKET RECOVERS FROM RECENT DEPRESSION

By Associated Press.
New York, June 14.—The advance in stocks which came after the violent break earlier in the week went unchanged today. Virtually every important stock traded in shared the day's rise, which substantially amounted to the largest gain achieved since the upturn began. Many stocks were carried above their prices a week ago, having sustained a complete recovery from the downward plunge after rendition of the Minnesota rate decision. Operations for the "long" account were carried on more confidently today; bull traders being encouraged by yesterday's firmness in the market.

Concerted efforts were made to drive the short interest, which was forced to retreat. This advance continued throughout the half-day session. Growing ease in money rates was an important influence in broadening speculation for the long account. A large gain by the banks for the week was shown by the banks' statement. It totaled approximately eleven million dollars. The week's liquidation in securities was reflected in a scaling down of loans and nearly nine million dollars was added to excess cash reserves. In the weekly trade review emphasis was laid on various favorable features of the week, including the good crop report the better tone in the money market and lessening of tension in trade schedules.

JAPAN WANTS TO RENEW ARBITRATION TREATY

Ambassador Notifies United States—Other Treaties Will Go Through, Bryan Predicts

By Associated Press.
Washington, June 14.—Japanese Ambassador Chinda today advised Secretary Bryan that Japan is willing to renew another period of five years her arbitration treaty with the United States which expires by limitation August 24. Secretary Bryan said today he expected the Senate will ratify the new arbitration already signed with Great Britain and other countries notwithstanding the opposition against them.

ELEVEN PROBABLY DEAD IN UNDER GROUND CAVE-IN

New York Subway Becomes Tomb of Workmen Eighty Feet Below Surface

By Associated Press.
New York, June 14.—Eleven lives are believed to have been lost in a disastrous cave-in eighty feet underground on the new subway under construction at Fifty-Sixth street and Lexington avenue this afternoon when thirteen men of a crew of thirty-two drillers and laborers were entombed. At 10:30 a. m. bodies had been recovered and five were still buried under many tons of rock and earth.

Two injured men were rescued, but one of them probably will die. Five hundred laborers assembled in an effort to dig out the buried men. There appears no hope that any of the men have escaped death.

LABOR EXEMPTION FROM ANTI TRUST LAW OPPOSED

Chamber of Commerce of United States Takes Referendum Vote on Subject

By Associated Press.
Washington, June 14.—By a large majority of its constituent members, the Chamber of Commerce of the United States, in referendum votes announced tonight, opposed the exemption of labor and agricultural organizations from prosecution under the anti-trust law as provided in the sundry civil bill and favored, practically unanimously, for the establishment of a permanent tariff commission. The appropriation in the sundry civil bill for enforcement of the anti-trust law, is made with the prohibition that none of the funds shall be used for prosecution of labor or agricultural combinations.

The bill is about to go to President Wilson for signature and the result of the business men's vote on this subject will reach him about the time the bill does. The referendum had been forty-five days in process of development.

TRAIN HITS AUTO, TWO MEET DEATH

F. A. RYAN AND WIFE OF DALLAS KILLED IN SMASH-UP

TRAGIC VACATION TRIP

Auto is Hurled Eighty or Ninety Feet and Occupants Live But Short Time

By Associated Press.
Waxahachie, Texas, June 14.—Mr. F. A. Ryan and wife of Dallas, Texas, were struck by a southbound Katy passenger train near Forreston early today while riding in their automobile. Mrs. Ryan died in a few minutes and Mr. Ryan in a few hours. They were going to Galveston in the machine to spend their vacation. They stopped at Waxahachie for breakfast.

Mrs. Ryan was unconscious when picked up, but Mr. Ryan was still conscious. The train stopped, backed up and took them aboard, carrying them to Italy. The auto was struck broadside and hurled eighty or ninety feet along the right of way and turned upside down on the fence. Both the auto and the train were going down grade at the time. Some parts of the machine were thrown three hundred feet.

Mrs. Ryan was thrown 145 feet, landing on the west side of the track. Mr. Ryan was picked up about 133 feet from the crossing on the east side of the track. The pile runs parallel to the railroad about a hundred yards and crosses at a sharp angle.

A sharp wind which was blowing possibly prevented Mr. Ryan from hearing the train.

WILL EXEMPT REFUGEES FROM QUARANTINE RULES

Governor Takes Action Saturday at Request of Secretary of State Bryan

By Associated Press.
Austin, Texas, June 14.—American refugees from Mexico will be permitted to land at Galveston without spending four days in quarantine as required by state regulations, provided they have proper health certificates issued by the federal authorities at Tampico, the point of embarkation. This was the message sent by Gov. Colquhoun today to Secretary Bryan at Washington, replying to Bryan's request that the state regulations be suspended.

The governor was advised that the Red Cross, acting in conjunction with the State Department, is trying to remove to the United States American refugees who are in desperate circumstances, many of whom are citizens of Texas, and that the steamship Mexican, due to sail from Tampico today, had refused to accept any of these refugees for passage to Galveston on account of what was called the arbitrary and unjust regulation of the state quarantine department.

BLAZING LOCOMOTIVE IN SMASHUP AT PALESTINE

Catches Fire While Taking Oil and Engineer Jumps to Escape Being Roasted

By Associated Press.
Palestine, Texas, June 14.—An L. & N. locomotive on fire and another engine and string of cars in the yards here today, doing much damage. One man was slightly hurt. The runaway locomotive, an oil burner was taking off when the fuel ignited and spread over the engine.

The driver attempted to back up but had to jump when the heat became too intense. The engine gained great speed before backing into the other locomotives. Both locomotives were torn up.

HEAVY EARTHQUAKE FELT IN SOUTH EAST EUROPE

Serious Damage Believed to Have Been Done in Bulgaria and Rumania

By Associated Press.
Sofia, June 14.—A heavy earthquake was felt throughout Bulgaria at 11:33 this morning. Serious damage is reported from the Central district.

At District Attorney Whitman's office today it was said that a fatal wound of Webber or any of the prosecution's other witnesses would not hamper the state should new trials be granted. The sworn testimony of Webber could readily be used should he not be able to testify in person.

Webber first feared that the tip of the knife had been poisoned but no indications of infection.

EARTHQUAKE APPARENTLY COVERS WIDE TERRITORY

By Associated Press.
London, June 14.—Dispatches from various points in southwestern Europe indicate that the earthquake reported today from Sofia was widespread. At Bucharest, two distinct shocks were experienced. Several towns in southern Hungary also were affected. In none of these places, however, was there any serious damage.

IRON AND STEEL GO ON FREE LIST

RAW MATERIALS BECOME NON-DUTIABLE BY ACTION OF COMMITTEE

\$2,000,000 IN REVENUE

Finished Products' Rates Cut to Compensatory Basis—Debate May Start Wednesday

By Associated Press.
Washington, June 14.—The transfer to the free list of tariff bill of iron and steel raw materials with an estimated durable value of more than \$2,000,000 a year, was approved today by the majority members of the Senate finance committee. This increased the Senate's additions to the Underwood free list to an aggregate annual loss of \$2,000,000 in revenue, making the total annual revenue loss from the free list about \$27,000,000.

After an entire day spent on the subcommittee's report of the metal schedules, Chairman Simmons announced it had been widely cut. Nearly every item of the schedule was reduced. To the free list were added pig iron, ferro-manganese steel blooms, slabs and billets. On all finished steel products an average reduction of ten per cent was made from the Underwood rates. Lead, zinc, aluminum were left to be disposed of Monday. Aluminum will be changed from an ad valorem to a specific tariff basis and the duty will be reduced but will not be transferred to the free list as many advocated.

Administrative Features.
Aluminum experts will be called in Monday to look over the committee's proposed specific rates. All structural steel which was made dutiable at twelve per cent in the Underwood bill, has been reduced, compensatory to the free listing of raw materials, the average rates being about ten per cent ad valorem. The raw materials were placed on the free list largely because they are controlled by the United States Steel corporation.

Senator Simmons said the administrative features of the bill, which have presented such a problem, would be acted upon Monday or Tuesday, and that the bill would be ready for the caucus by Wednesday or Thursday. It was agreed by many of the democratic senators that it would have been well had there been no attempt at this session to revise the tariff administrative regulations. Inasmuch as the House bill has many changes and the Senate has considered the subject for many weeks, it finally was determined that the revision task should be completed. All democrats of the finance committee make no secret of their wish that it would have been possible to retain the Payne-Aldrich administrative provisions until a commission could make a thorough study of the subject. On Monday the committee will take up the administrative and sundries schedules and the free list. It is predicted the caucus will make few changes and that debate on the measures can begin in the Senate by Wednesday, June 25.

EFFORTS AT CLEMENCY FOR BANKER UNAVAILING

F. E. Pye of Houston Due to Begin Five Year Term for Forgery Monday

By Associated Press.
Houston, Texas, June 14.—Friends of F. E. Pye, former president of the Central Bank & Trust Company of this city, who was convicted at Bryan and sentenced to five years imprisonment on a charge of forgery were advised today that the legislative committee, the state pardon board and Governor Colquhoun have all decided against interfering with the sentence. This means that Pye must serve his term. It was intimated, however, that a further move in his behalf will be made before Monday when it is expected to send him to the penitentiary. He was convicted at Bryan on a charge of forgery from Houston. An appeal from this verdict is pending at Austin.

WEBBER WILL RECOVER FROM HIS STAB WOUND

Gunman and Rosenthal Case Witness Not Badly Hurt by Mysterious Assault

By Associated Press.
New York, June 14.—"Bridget" Webber, the Rosenthal murder case witness who was stabbed early today and taken to a hospital suffering from loss of blood was believed tonight to be well on the way to recovery. His wound, which was inflicted by a boy who stepped up behind him while he was on his way to a subway station after having attended an East Side function, is only about an inch deep. No serious results are anticipated.

At District Attorney Whitman's office today it was said that a fatal wound of Webber or any of the prosecution's other witnesses would not hamper the state should new trials be granted. The sworn testimony of Webber could readily be used should he not be able to testify in person.

Webber first feared that the tip of the knife had been poisoned but no indications of infection.

Thought It All Right To Try To Bribe Senator To Get Postmastership

By Associated Press.
Santa Barbara, Cal., June 14.—C. E. Eganbrech was arrested today on a federal indictment charging him with an attempt to bribe United States Senator John Works. He wanted to be postmaster here and is alleged to have written Senator Works, offering \$1000 for the appointment. His letter was turned over to the department of justice at Washington and an indictment was returned by the grand jury here. He is a carpenter and fairly well to do. No one thought he had political aspirations. He seemed surprised when the warrant of arrest was served. He admitted he had written Senator Works and added:

"But I didn't know it was a crime to pay a congressman for getting a political job. I thought that was a common practice." In his letter he gave banking and commercial references as to his responsibility.

Gets Six Cents Damages: Had Sued Magazine for \$75,000 For Libel.
By Associated Press.
New York, June 14.—Thomas R. Harwood, a Philadelphia lawyer, won a verdict today of six cents damages against the International Magazine Company, publishers of the Cosmopolitan for libel. He brought suit for \$75,000 on the ground that he had been injured by publication of articles relating to the sugar trust.

Offered \$10,000 To Give Up Girl He Loves, Young Man Remains True Blue

By Associated Press.
Sioux City, Iowa, June 14.—An offer of \$10,000 if he would give up the girl he loved and enlist in the United States Navy apparently has been turned down by Charles Jason, son of a wealthy Nebraska rancher. Two weeks ago the elder Jason left a \$10,000 check at the recruiting station here to be turned over to his account on the moment he enlisted in the Navy. The son has not claimed the check.

Vivisection Causes Arrest of Professors On Charges of Cruelty

By Associated Press.
Philadelphia, June 14.—Arrests were made here today of five professors and surgeons of the University of Pennsylvania for cruelty to animals in connection with the vivisection of dogs. This constitutes the second step in legislation by the Women's Society for Prevention of Cruelty to Animals. Recently, Dr. Sweet of the University was arrested on similar charges.

WORKS IN HOSIERY MILL AND GETS \$150 PER WEEK

By Associated Press.
Ipswich, Mass., June 14.—Testimony regarding wages paid at the Ipswich mill where a fatal riot occurred Tuesday night was instructed at the hearing by the defense of the nineteen persons charged with rioting today. Christiana Tpanagopoulou, aged sixteen, said she had worked in a mill a year and a half at a weekly wage of \$150. Another girl who has been in America a year and a half said she received about two dollars a week.

THIRTEENTH CHILD, WEIGHS 13 POUNDS, BORN JUNE 13

By Associated Press.
Galveston, Texas, June 14.—Mr. and Mrs. T. B. Elkins, residing near Galveston on Friday 13, were presented with a thirteen pound baby girl, the thirteenth child born in the family.

GAINESVILLE METHODIST CHURCH IS BURNED FRIDAY

By Associated Press.
Gainesville, Tex., June 14.—The Broadway Methodist Church was destroyed last night by fire of unknown origin. The loss is estimated at \$12,000 with \$5,000 insurance. The congregation had left the church only a few minutes when the fire broke out. They had just held a meeting at which plans were exhibited for a fine new church.

CARRANCISTAS TAKE SHEEP BELONGING TO AMERICAN

By Associated Press.
Langtry, Texas, June 14.—Alleged Carrancistas in Coahuila raided the Garcia ranch opposite here on the Mexican side one day this week and drove off 10,000 sheep, the property of Walter Wetherby of Del Rio, Texas. He protested to the rebel headquarters at C. P. Diaz and they have promised to return the sheep. In an effort to get all their cattle out of the rebel zone, Blocker & Company have just brought across 3000 cows and yearlings and shipped them to Fort Worth. All the cattle of this firm are to be brought out at once.

USE OF SENATOR'S FRANK IS PROBED

NOT MUCH LIGHT THROWN ON SUBJECT AT SATURDAY'S HEARING

"LOBBYIST" IS EVICTED

Literally Kicked Out of Document Room When He Gets Too Pernicious

By Associated Press.
Washington, June 14.—Anselm Wold, the Senate printing clerk, told the lobby investigation today about the order for printing "Sugar at a Glance" the anti-free sugar document prepared by T. G. Palmer, representing the sugar interests, which was circulated under the franking privileges of Senator Lodge. The committee had developed testimony on whether Palmer was permitted to change the document after the Senate had ordered it printed. Turning to Senator Overman, Wold referred to a previous conversation and added: "I told you then that somebody had been monkeying with orders here and I still think so."

Wold could not throw much light on the situation and other senate employees may be called.

An "insidious lobbyist" was literally kicked out of the Senate document today. He did not tell his name.

Lobbyist "Kicked Out."
The victim of the kicking, who fled down the capitol steps, had been accused Senate employees because they did not furnish him with some printed documents about indigo tariff rates, printed only for the finance committee. Assistant superintendent R. M. Cooper of the document room said he ordered the man to leave this morning. Cooper added:

"He rushed into the room and threw his hand back toward his hip pocket. Then I kicked him into the hall. That is one way to handle such lobbyists."

This incident did not happen in connection with the formal investigation. Henry Oxnard, the millionaire vice-president of the American Beet Sugar Company, testified that he estimated he had spent on an average of \$20,000 a year for the last twenty years in behalf of the beet sugar industry. He declared not a cent had been spent illegally. Each year when he was at his home in Washington, he declared he came to the capitol to watch legislation and see his friends among the senators. Senator Reed demanded that the witness give the names of senators who were his friends. Oxnard replied:

Friendship is Disclaimed.
"Most all the senators." "You need not include me in that list," declared Senator Reed. "Well, I call Senator Overman one of my friends and Senator Cummins there, and—"

"I don't know so much about Senator Nelson."

Senator Overman promptly asked Mr. Oxnard if he had ever called upon him at his office or home or if he had ever attended Mr. Oxnard's entertainments. Mr. Oxnard replied in the negative. Oxnard declared he had sold most of his stock in the beet sugar company because of fear of free sugar and his brother had turned jointly \$4,000,000 of the beet sugar stock and had \$1,000,000 invested in cane sugar in Louisiana. He informed the committee that "Have-meyer or some other person connected with the sugar trust" informed him that "the sugar trust spent \$750,000 in the Cuban reciprocity fight. He suggested some of it may have been spent in subsidizing newspapers."

The committee adjourned until Monday without finishing Oxnard's examination.

GOVERNMENT PARENT TO INDIANS, IS PRINCIPLE

Controller Lays Down Rule in Paying Bill for Medical Services for Navajo

By Associated Press.
Washington, June 14.—Uncle Sam is just as much a guardian and protector of his Indian wards as a parent is of his children, or a husband of his wife. This principle of responsibility was proclaimed today by George Downey, Controller of the Treasury in overruling the appeal of Robert W. Woolley the new auditor for the interior department for a reversal of the controller's previous decision approved a \$900 bill of George T. Sampson of Winslow, Arizona, for treating and nursing back to life a blind Indian who had been run over by a railroad train.

Auditor Woolley sustaining the position of his predecessor thought the bill unreasonable.

Charles Walker, a blind Navajo of the Noup, Arizona Indian school and ward of the government, deserted by his companion upon the approach of a train, was run over. Dr. Sampson called to his assistance, amputated his left leg and right foot and cared for him three months.

"This was an emergency if there ever was one. The Indian had to be cared for at once as a matter of humanity," said the Controller in holding the bill a just and honorable one. "Could a father escape liability for services rendered his child under such circumstances? He could not."

AIR SHIP FLIGHT IN NINTH INNING

SHERMAN TAKES GAME IN FAREWELL FRAME ON POOR FIELDING

VIOLATE ANTI PASS LAW

Eleven Passes Issued—Local Start Fast and Wind Up Much Slower

A balloon ascension in the ninth, no parachute, and Sherman won. The Drillers, Phillips in particular tossed away a good ball game in the final frame of a draggy contest. Wichita Falls was one run to the good when the ninth opened, and three to the bad when the batter walked. It seems to be a habit with Sherman to spot the Drillers two or three runs until the eighth or ninth and then turn and help themselves.

The game furnished one of the poorest pitching exhibitions ever witnessed on the lot here. There were eleven walks and the batter did not have three balls called on him was a rarity. This, with the ragged fielding, made the game a listless exhibition of the national pastime.

Locals Take Lead.
The Drillers started off briskly enough, scoring two runs by hard hitting after two were down in the first. Sherman made these back by the end of the third and the Drillers again took the lead in the fifth. Then in the ninth, when men on second and third and one out, Phillips played tag with a dinky little grounder and two runners crossed the plate. Fast work could easily have cut one man off at the plate and a double was quite possible.

Mathews went the entire route for the locals and while he allowed only five hits, it took some hard work to keep the score down. The Drillers tapped Callahan for seven bingles, but fast support kept the score down. In the sixth, the Drillers had the bases full and no one out; two were forced at the plate and the third popped out.

How They Scored.
There was plenty of steam at the start. With two out, Nicholson hit to left field for a pair of sacks and scored when Workman followed suit. Phillips brought Workman in with a single to center and Dupuy fanned for the third out. In the second, Lawrence hit between right and center for three bases and scored on an infield out. In the third, Williamson walked, Callahan fanned; Reed walked. Humphries hit a grounder to Mathews who threw Williamson out at third and Dupuy threw to first to complete the double. Nicholson let the ball get away from him and Reed completed the circuit.

Wichita Falls scored again in the fifth; with one out, Nicholson drew his second pass and took second on Workman's infield out, scoring on Phillips single to left field. Dupuy walked, but Morris forced Phillips at third.

The Awful Ninth.
In the ninth Allen started by getting a pass to first and Guthrie singled to center, sending him to third. Callahan sent Phillips a grounder and before the second baseman had found his bearings, both Guthrie and Allen had scored. Reed's two bager sent Callahan to third, whence he scored on Humphries' long fly to center field. It was over, three and out in the Drillers' final effort.

The Drillers passed up a splendid chance to score in the sixth, but luck was against them. Hornbuckle walked and Mathews singled to left field. Nevitt tried to bunt and everybody was safe when an effort was made to get Hornbuckle at third. Brown sent a grounder to Humphries who caught Hornbuckle at the plate. Nicholson sent a grounder to Reed and Mathews was caught at the plate. Workman sent a high one to center field and it was all over.

Ten Left On Bases.
Sherman bid high for a score in the eighth, but there was nothing doing. With one out, Humphries walked and Crosby singled. Lawrence hit Dupuy a hot drive which the third baseman handled with his bare hand just in time to catch Humphries at third. Porkney flied out.

Wichita Falls had ten men to die miserable deaths on the bases. Let the box score complete this assortment of Sunday morning literature:

	AB	R	H	P	A	E
Sherman	4	1	1	3	6	0
Reed	4	1	1	3	6	0
Humphries	4	1	1	3	6	0
Crosby	4	1	1	3	6	0
Lawrence	4	1	1	3	6	0
Porkney	4	1	1	3	6	0
R. Allen	4	1	1	3	6	0
Guthrie	4	1	1	3	6	0
Williamson	4	1	1	3	6	0
Callahan	4	1	1	3	6	0
Bettison	4	1	1	3	6	0
Totals	35	5	5	17	4	0

Batted for Williamson in ninth.
Score by Innings:
Wichita Falls, 200 010 000—3
Summary—Stolen bases—Reed, Callahan, Nevitt. Sacrifice hits—Workman, Hornbuckle. Sacrifice fly—Humphries. Earned runs—Sherman 1, Wichita Falls 2. Two base hits—Nicholson, Workman, Reed. Three base hit—Lawrence. First on balls—Off Callahan 6, off Mathews 5. Struck out—By Callahan 3, by Mathews 2. Left on bases—Sherman 6, Wichita Falls 10. First on errors—Sherman 2, Wichita Falls 2. Time of game—1 hour and 50 minutes. Umpire—Vitt.

NOTES OF THE GAME.

Boooo-o-o-o! One! Stree-e-ek tub! Yes, Vitter is there with the big league voice.

To get two hits and handle seven chances, some of them difficult, without a bobble, then fizzle in the fateful ninth. That was Hot Tamale Phillips' performance.

The Drillers have agreed that any one of them caught smoking a cigarette inside the grounds shall be fined four bits; cigars, one dollar. And the rule will be enforced.

Why couldn't Bill Guthrie get some hits like those of yesterday when he wore a Wichita Falls suit?

Dupuy's bare-handed stop at third in the eighth was the real stuff.

Three errors in one day doesn't look right for Nicholson.

Sherman is here again this afternoon. City Park at 3:30. Scorgins will probably be the Drillers' slab offering.

Mathews generally gets a healthy crack at the ball, which is considerably better than fanning.

Vitter isn't so worse as an umpire and in general his work was very satisfactory. Humphries didn't do much kicking and when Jimmie doesn't kick.

"That-a-boy, Matty, that-a-boy." Dupuy talks to them from third base in a way we like to hear. Noise doesn't often win games, but it helps some.

Some of the Sherman fans will be over today to see the game and we hope to send them home feeling just as happy as the Bonham fans did a few weeks ago.

Welcome home to the hit column, Tris Speaker Workman. Where have you been?

Kixziar is away on account of illness in his family and Duke Morris is adorning the right garden during his absence.

NINTH INNING RALLY WINS FOR DRILLERS ON FRIDAY.

Out-hitting Bonham nearly three to one, the Drillers nevertheless had to fight hard to win a brilliant rally in the ninth, putting the score on the right side.

Kane held Bonham to only three hits, but Bonham took advantage of two infield bobbles and scored twice, while the Drillers had scored but once on six hits when the ninth started.

Dupuy's home run in the third gave Wichita Falls her only score until the final frame.

Kane pitched a splendid game, keeping the bingles well scattered; he was entitled to a shut-out. The Drillers hit Platschke in nearly every inning, but good fielding by Bonham kept the score down.

After two were out, Bonham scored in the fifth. Leslie walked and Bonham got the first hit for Bonham, sending Leslie to third.

Platschke hit a high infield fly that should have been taken by Dupuy but Lawson went after it and missed it, Leslie scoring.

In the eighth Nichols beat out an infield hit and stole second. An error at third on Fenner's grounder enabled him to reach that bag and he scored when Nevitt failed to handle Heck's drive.

Fenner was held out at third on this play. Nevitt to Lawson to Dupuy, after Nichols had scored.

Pennington's

Ladies' White Lingerie, Chiffon, Net and Voile Dresses Reduced in Price

Right in the midst of the season when they are most wanted. All are this season's models and beautifully made. You will note the prices are not reduced one-half or one-third because our small margin of profit will not stand such a reduction as some stores offer. But a reasonable reduction here will bring the garments down to a less price than others usual one-third off.

White voile dresses, elaborately trimmed and beautifully made, very handsome. The \$20.00 values are reduced now to **\$17 50**

The \$12.75 values are reduced now to **\$9 98**

The \$7.50 values are reduced now to **\$6 48**

White embroidered lingerie dresses in many rich and striking styles at substantial reductions. The \$18.50 quality reduced now to **\$15 00**

The \$16.50 quality reduced now to **\$13 50**

The \$7.48 quality reduced now to **\$5 89**

The \$5.00 quality reduced now to **\$3 98**

\$1 Ratine Now 50c
A few pieces of our one dollar a yard ratine in pink and blue, only offered to close out this week at a yard **50c**

\$3.95 Pumps \$2.95
About 30 pairs of ladies' fine red kid pumps, made by the Red Cross factory, early season price was \$3.95, to close out at **\$2 95**

PIKERS OIL CO. ORGANIZED HERE

WITH THIRTEEN STOCKHOLDERS LE75 CONTRACT ON FRIDAY—THIRTEENTH

NOT AFRAID OF HOODOO

Well Will be Drilled on Thrallkill Farm in the Ferguson District

The oil business always is a flirtation with fate, but for real impudence and defiance, nothing beats the action taken by some leading oil men of Wichita Falls, Electra and Iowa, Par Klait Friday.

On Friday, the thirteenth, with thirteen stockholders, the Pikers Oil Company was organized, and then, as if to get the business over with before they lost their nerve, they made a contract with drillers to begin work at once on unproven territory.

The Pikers Oil Company signed up a contract with Owen & Hitt to drill on the Thrallkill farm near the Ferguson well. Drilling operations will begin at once.

Wichita oil men interested in this new company are Messrs. Kemp, Perkins, Snider, Allen, St. Clair, Householder, Bolding and Norton.

Wichita Falls Some Summer Resort: Cool Weather All The Week

If those people who joined the rush for summer resorts knew how cool it had been in Wichita Falls the past week, they would begin using the return coupons of their tickets at once. During most of the past week the thermometer has hovered around the 60 mark and for three days straight the temperature was at 50. But yesterday there was a noticeable rise in the temperature, and at six o'clock last evening the mercury stood at 70 degrees.

The general rains of last week caused the cool wave, so the weather clerk says, and he gives out no promise of a repetition of the low temperature during the coming week.

Preceding the cool wave Wichita Falls had experienced a hot wave almost unprecedented for this season of the year, and a general movement to the mountains and other summer resorts began.

MODEL LAUNDRY TO OPEN FOR BUSINESS TOMORROW

One of the very latest industrial enterprises to begin business in Wichita Falls is the Model Laundry which will open for business at 709-11 Tenth street tomorrow morning. J. W. Snow and W. T. Arthur are the proprietors of the Model Laundry. Wichita Falls has been the home of both of these gentlemen for nearly a quarter of a century and with the splendid equipment and the experienced assistants which will be associated with them, they have assurance of success in their new business venture.

All of the machinery with which they will begin business is brand new and of modern pattern. In fact nearly every machine installed in this laundry is of the Troy make, which is known among laundry people as the best.

An auto truck and two delivery wagons are a part of the equipment with which the Model Laundry will begin business.

TO GIVE BAND CONCERT AT COURT HOUSE TODAY

This afternoon from three o'clock until four, a free band concert will be given on the court house lawn. This concert will be given by the Wichita State band, assisted by the musicians from the band with Grandi Stock Co. which has been playing here this week. The public is invited to attend this concert.

Although the season is far advanced, no arrangements have yet been made for regular band concerts, free to the public, such as were enjoyed by the townspeople and the country folk as well last summer. It is possible that some action will be taken soon.

Philadelphia, June 14.—Cleveland beat Philadelphia today, three to four. Bush held Cleveland to four hits, but poor fielding helped lose the game.

The score:
Cleveland.....3 4 0
Philadelphia.....0 4 4
Batteries—Greig and O'Neil; Bush and Schang.

To Cure a Cold in One Day
Take LAXATIVE BROMO Quinine. It stops the Cough and Headache and works off the Cold. Druggists refund money if it fails to cure. H. W. GROVE'S signature on each box. 25c.

Flag Day Observed Here: Old Glory Floats Over Many Wichita Buildings

Old Glory floated from many buildings and homes in Wichita Falls yesterday, the occasion, being the anniversary of the adoption of the stars and stripes as the official flag of this country, by the Continental Congress. Many flags were in evidence and the efforts of the Daughters of the Revolution to secure observance of the day here met with considerable success.

The Daughters realized seventy dollars from the sale of flags Thursday and Friday. This amount will be added to the fund already started to buy a flag for the Austin school building.

GOVERNMENT DISMISSES OIL CASE IN WYOMING

By Associated Press.
Cheyenne, Wyo., June 14.—The government's suit against the Mid West Oil Company a test suit involving title to oil land in California and Wyoming was dismissed today by Judge Rehner of the United States district court. The government ought to recover only 4000 acres in this suit, but the issues involved thousands of acres of other California and Wyoming land withdrawn by President Taft's sweeping order of 1903 designed to reserve the country's oil resources and afford the government a title for the navy.

ASSISTANT WAR SECRETARY REVIEWS TEXAS CITY TROOPS

By Associated Press.
Texas City, June 14.—The feature of Assistant Secretary of War Henry S. Brockbridge's visit here today was a grand review and parade by the second division troops. In the camp. They were 8,000 men, more than 4000 animals and over 100 wagons and ambulances in line. General Carter headed the parade in khaki.

CHRISTIAN ENDEAVOR AT PORT ARTHUR NEXT YEAR

By Associated Press.
Dallas, Texas, June 14.—The Texas Christian Endeavor Union in session here today chose Port Arthur as the 1915 meeting place over Fort Worth, the only other contestant for the place.

TEXANS LEAVE ON TRIP TO CENTRAL AMERICA

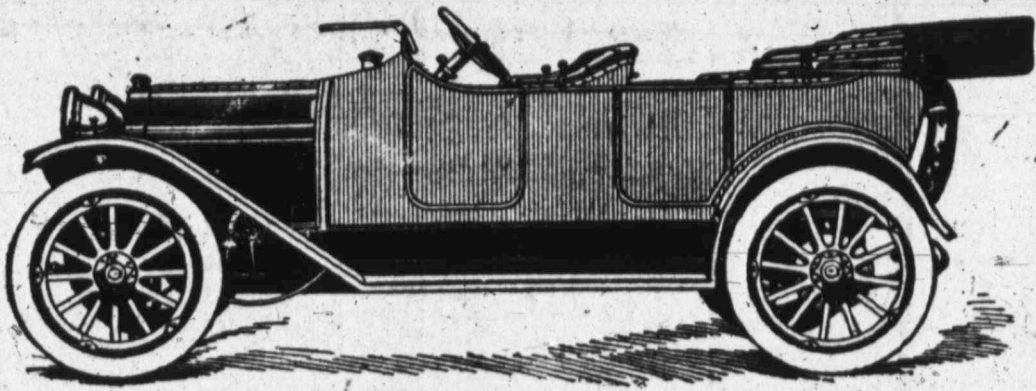

By Associated Press.
Galveston, Texas, June 14.—Fifteen trade evangelists left this morning on the charter steamer Preston for a month's visit to Central American countries. They will visit Panama before returning on July 15. Galveston, Houston, Fort Worth and Hamlet are represented. Honduras, Guatemala, Panama and other countries will be visited.

DO PEOPLE READ THE TIMES ADS?

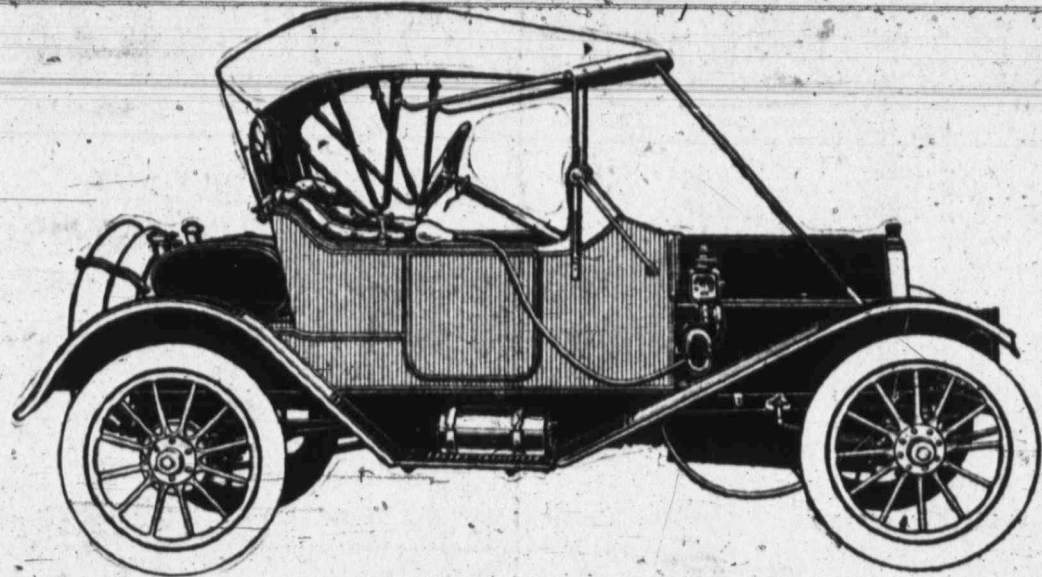

"Ask J. M. Bland. A half page ad in Friday's paper, packed his store yesterday with people seeking to buy the bargains he had to offer, and he says The Times did it."

"Asked if he wanted an ad for Sunday's paper, he said: 'No, I've got more business now than I know what to do with and more people than I can wait on. I'll have something for you the first of the week, but I've got to rest from this rush first. I had no idea so many people read The Times ads.'"

JAR PLANT WILL BEGIN AUGUST

RAPID PROGRESS BEING MADE ON BALL BROTHERS' FACTORY

MINIMUM FIRE DANGER

Practically No Wood Work Going in to Construction—Large Force of Men at Work

So nearly fire proof are the numerous buildings which are now being erected as parts of the new Ball Bros. glass plant in the factory addition that Foreman Kelly, in charge of a part of the work, said yesterday, "A five room dwelling could be set in one of these buildings, set on fire and left to its destruction without damaging the factory building to any extent."

The structural work now visible bears out this statement. Wherever possible steel has been used in the construction. Then brick or corrugated iron is used, so that very little wood work figures in the construction.

Superintendent T. B. Smock said yesterday that the plant would be completed and ready for operation by August 1, and it is expected that the fire will be started at that time.

Four Carloads Daily. This factory will be devoted exclusively to the manufacture of Mason fruit jars. Six machines will be installed, which will make the output four carloads per day.

Every article that goes into the make-up of the fruit jars will also be manufactured at this plant. A roller mill is being installed for the manufacture of the zinc used in the caps and another machine is being installed for the manufacture of the caps.

A liner plant for the manufacture of the porcelain liners is also a part of this big industrial enterprise.

The estimated cost of the plant is a half million dollars. There are now fifty men employed in the construction work.

A lumber dealer whose yard is in the vicinity of the plant, says that many new dwellings in the vicinity of the plant will be built as soon as the plant begins operations and the employees have decided upon their locations.

Eight Buildings Going Up. The factory buildings cover several acres and there are as many as eight large buildings now in course of construction.

The capacity of the "pot" in which the glass sand is melted, is two hundred tons. In every department, the most modern appliances have been utilized in construction and in the machinery to be used in the operation of the plant.

Men who have become familiar with the construction and workings of glass factories say that this new plant of Ball Bros. is one of the best in point of construction and in point of operating efficiency in the entire West.

TRAMMELL'S WILD PITCH ALLOWS ARMORE TO WIN.

Special to the Times. Ardmore, Okla., June 14.—Trammell's wild pitch in the ninth today allowed Henderson to score the only run of the game. Trammell and Roy Allen pitched good ball.

The score: R H E
Ardmore . . . 000 000 000—5 2
Batteries—Trammell and Scott; R. Allen and White.

BRALLEY SLATED FOR A. & M. PLACE; IS RUMOR.

By Associated Press. Austin, Texas, June 14.—It is rumored about the capital today that the presidency of the A. & M. College has been offered to F. M. Bralley, state superintendent of education. He is not in the city and the report cannot be confirmed.

NATIONAL LEAGUE.

Pittsburg, June 14.—New York fielded amazingly well and by bunching hits in three hits won from Pittsburg, six to five. Of the seven hits off Mathewson, two were triples and two home runs by Voix and Wilson, when the bases were empty.

The score: R H E
New York . . . 6 11
Pittsburg . . . 5 7 1
Batteries—Mathewson and Meyers; O'Toole, Robinson, Hendrix and Gibson.

Chicago, June 14.—Chicago made it three straight from Brooklyn today winning five to one. The game cost the visitors their best catcher, Erwin, who suffered a broken arm when he caught Zimmerman who in attempting to steal home, slid with great force. Erwin held the ball and retired the side, but then collapsed.

The score: R H E
Brooklyn . . . 1 5 1
Chicago . . . 5 3 0
Batteries—Curtis, Regan, Wagner and Erwin; Fisher; Lavender and Bresnahan.

St. Louis, June 14.—Philadelphia won from St. Louis today seven to nothing. Seaton who hurt his side in the sixth held the locals helpless until the third when the home team filled the bases. With two out, Seaton fanned Mowrey and ended St. Louis' chance.

The score: R H E
St. Louis . . . 0 6 4
Philadelphia . . . 7 8 0
Batteries—Geyer and Wingo; Seaton, Moore and Doolin.

Cincinnati, June 14.—Boston profited today by Cincinnati's errors and won the third straight game from the locals, four to two. Maranville of Boston, at short accepted eleven chances without an error.

The score: R H E
Boston . . . 4 8 1
Cincinnati . . . 2 8 5
Batteries—James, Tyler and Whaling; Brown, Ames and Clark.

TEXAS LEAGUE RESULTS.

Houston, Tex., June 14.—Houston defeated Fort Worth six to one today by hitting Rhodes hard and giving Rose superior support. Kitchens was fined five dollars by Umpire McKee for back talk.

The score: R H E
Houston . . . 6 9 4
Fort Worth . . . 1 10 2
Batteries—Rose and Allen; Rhodes and Kitchens.

Galveston, Tex., June 14.—Harry Williams broke up a close game in the eighth inning today when he hit out a two bagger when the bases were full, cleaning the sacks; he scored later on a single.

The score: R H E
Galveston . . . 4 4 1
Austin . . . 0 7 1
Batteries—Hartman and Wilson; Flanagan and Haigh.

San Antonio, Tex., June 14.—Stinson put an infield single over in the eleventh inning with Dallas today and scored Seitz from third, winning the game, one to nothing.

The score: R H E
San Antonio . . . 1 5 3
Dallas . . . 0 3 3
Batteries—Morton and Price; Huenecke and Jackley.

Beaumont, Tex., June 14.—Waco drove Peaster out of the box in the seventh inning this afternoon and made two runs. Carson for Waco made a home run in the ninth.

The score: R H E
Beaumont . . . 1 4 0
Waco . . . 5 12 1
Batteries—Peaster, Downey and Reynolds; Ashton and Reilly, Carson.

THE WICHITA SOUTHERN LIFE INSURANCE CO.

WICHITA FALLS, TEXAS

Solicits Business from the Insuring Public on the Following Grounds:

- 1st. We are in a position to furnish sound protection for those who need it.
- 2d. The protection furnished by the WICHITA SOUTHERN is equal to the best furnished by the United States.
- 3d. The company is required by law to carry the same amount of reserve in proportion to amount of insurance in force as the largest company in the world.
- 4th. We find by comparison that our assets in proportion to liabilities, which is the real test of strength, are much greater than many of the companies who are much older and larger.
- 5th. The company loans its funds in the communities from which it receives its business, and in the ordinary channels of business drifts back to you.
- 6th. If you are not directly interested in the company, many of your associates are. If you are a professional man, banker, merchant or farmer, many of your patrons and friends are doubtless stockholders in the company.
- 7th. YOUR FAMILY NEEDS THE PROTECTION WE HAVE TO OFFER.

We handle all sizes and styles of G-E Electric Fans—The Leaders of the Market.

CARPENTER ELECTRIC CO.
800 Ohio Ave.

LAUNDRY'S WATER TANKS MOVED WITH MUCH LABOR.

The two big water tanks owned by the Acme Laundry were moved this week from their old site, to a position convenient to the new location of the laundry. The tanks were hauled a distance of a mile and a half and the work required a week's time. Three men and one team were employed in the work. They were moved by means of block and tackle, and the tedious process of getting them across the street car tracks on Scott avenue delayed street car traffic yesterday afternoon.

"IF YOU KILL ME, I'LL KNOCK YOUR HEAD OFF."

When Rose Humphries, who recently fired three shots at an inmate of one of her houses, was approached by Mounted Officer Henry Allen, she still held the smoking pistol in her hand. The officer demanded the gun. "I believe I will just kill you too, Henry Allen," she said as she pointed the weapon at the officer. "If you kill me I will knock your head off," said Allen as he sprang from his horse. Rose surrendered the gun.

DAM AT ASPERMONT BROKEN BY HEAVY RAIN.

(Anson Reporter) During a very heavy rainfall over the central and western portions of Stonewall county last Friday night and Saturday morning and the large dam of the new reservoir at Aspermont was washed out in two places, causing the loss of nearly all the water that had been stored. The dam is almost a mile in length and if made to hold, will embank one of the largest bodies of water to be found in this portion of the state.

GRANDFIELD WILL HAVE ANOTHER GRAIN ELEVATOR.

(Grandfield Enterprise) Grandfield has secured the construction of a second grain elevator. The promoter of the enterprise is I. I. Helton, an Enid capitalist, who has interested local parties as stockholders in the company. The elevator people propose to put in machinery to grind meal, shell corn and operate as modern and up to date institution. Sand is now being hauled for the foundation and work will be pushed in order that the elevator may be ready for business by the time the big wheat crop begins to move to market.

Wichita Falls, Texas, June 15, 1913.

This from the Houston Chronicle. Study it out and you will then know how the name Huerta is pronounced: "No matter how he pronounces his name nor what his name means, there is no denying the fact that lots of people would be happy if the president Huerta leave Mexico."

Both Clarence Ousley and F. M. Bralley have been mentioned as probable successors to Colonel Milner of the A. & M. College. Both are politicians and either is likely to land the job, but neither, in the estimation of this paper, can fill the position as well as the man who has just resigned, and who doubled the attendance of the school in five years.

The legislature of the state of Illinois has granted suffrage to the women of that state, and this was accomplished without the women folk of that state engaging in any street brawls or riots. If it was a victory for women, their tactics must have been very different from those of the Pankhurst following. A woman with a pleasant smile on her face can come nearer getting just what she goes after, or she is seeking, than the woman with the torch or bomb. Doubtless, not more than twenty per cent of the women of that state desired suffrage, or will exercise it, now that they have the right, but the men were generous. They gave the twenty per cent, or that portion of the female population who were seeking suffrage in the right way the benefit of the doubt.

Nearly all wheat and oat crops in this section of the state are now in the shock and some few crops have already been threshed. The Times has interviewed many farmers from every section of the county as to the prospective yield for wheat this year as compared to that of last, and in every instance, with possibly one or two exceptions, the answers have been that the yield would be better and the grain heavier. The yield that fell the first of the week did no damage to the grain crops, but were of great benefit to other crops. Perhaps never before at this season of the year have prospects for a good all-round crop been quite so flattering.

WANTS TO KNOW ABOUT S. J. RESOLUTION NO. 18

Editor Times,

Wichita Falls, Texas.

Dear Sir:

During the past three weeks I have noticed a great many statements from the Board of Education and Presidents of our various State Educational Institutions, also State Superintendent of Public Instruction, anent the adoption of Senate Joint Resolution No. 18, which provides that the Legislature may issue bonds, approved by the Governor, for the erection of necessary buildings for the University of Texas, the A. & M. College, Penitentiary improvements, roads and bridges, construction of ware houses, etc., and without submitting facts and figures, all have emphatically declared that the adoption of said resolution would not cost the tax payers of the state one cent. Now, Mr. Editor, for my own information I desire to propound to the advocates of this resolution a few questions, which will of course, expose my ignorance concerning our educational institutions, but I have learned a number of things by asking questions, therefore, I hope the wise will pardon. They state that the interest on the Permanent University fund will be sufficient to pay the interest on the bonds and create a sinking fund sufficient to retire bonds at maturity, which is no doubt true, but, granting that this is true, does it necessarily follow that it will not cost the tax payers of the state one cent? Has all the interest on the Permanent University fund prior to this time been spent for the erection of buildings or has a part of it been used for maintenance or operating expenses? If part of this interest has been applied to current expenses where will the money come from to replace it? Let me answer—out of appropriations made by the legislature. Does the legislature appropriate the tax payers money? Will it cost less to run the University with an increased capacity? I do not object to increased appropriations in order that every one that desires may attend the State University although it comes out of the tax payers pocket, but I do think we ought to be fair, and not declare that the adoption of resolution No. 18 will not cost the tax payers of the state one cent, when it will. Do the advo-

Belle of Wichita

(UNEXCELLED)

FREE sample and demonstration at Wichita Hardware Company's Store. Try one sack

cates of this resolution know that the income from the Permanent Fund at the present time will obtain for the next forty years? Will the adoption of resolution No. 18 be a benefit to the A. & M. and the Medical department of the University? If so in what way? Does the University, when raised to the first class, which this amendment proposes to do, propose to do the same work that the A. & M. is now doing? If so what effect will that have on A. & M? Can the legislature appropriate money out of the general revenue for the erection of buildings for our State Normal and College of Industrial Arts? If so, why does their existence and growth depend on this bond issue? Have our State Educational Institutions become so expensive in their operation that bond issues are necessary to maintain them and save the State from bankruptcy? Is the credit of this grand Empire State at such a low ebb that her bonds must be secured by lien before they can be sold? I would like for some one to answer these questions, with facts and figures, prior to July 19th.

Respectfully,
W. P. KELLY.

250 Pairs of Pants For \$5.00

We are compelled to give up our store room on July 1st. We have on hand 250 pants patterns, in the season's choicest woolsens. They are valued from \$7.50 to \$12.50. On Monday and Tuesday I will take orders for your choice of any thing in the house for

\$5.00

I will make these up in my own shop from your individual measure, and fit them to you before finishing. They will be finished with the best of trimmings and made in the season's newest styles. The offer is for two days only, Monday and Tuesday, and made for the sole purpose of closing out the goods. I will sell in the two days all I can possibly make in the time I can occupy the building, and you must come early to be sure of getting your order filled. A few suit patterns in spring goods at greatly reduced prices.

"Office Hours Always"

NINETY PER CENT

of the people who take medicine do not know whether Phenacetine is made in Germany or grows wild in Kansas. They do not know whether Chloroform is indicated in Typho-Malaria or a specific for disappointed affections. They do not know whether Homatrophine is worth fifty cents a grain or two dollars a barrel. They do not know these things and will never know because it takes half a lifetime to learn them. So you are at the mercy of the man who fills your prescriptions both as to quality and price. However we think the man who would take advantage of your not knowing to charge you too much or give you inferior drugs in your prescriptions would take your purse if opportunity offered.

Our prescription department is the pride of the business and is on the square. Give us a chance to show you.

CALLS ON POSTMASTER FOR NAVAL INFORMATION.

Since reading in The Times of the vast amount of information Postmaster Bacon has been ordered to supply the postal department, a woman living here concluded that the postmaster would be a good one to consult on all matters, and she called at the

postoffice this morning to ask him what method to pursue in order to get her son into the navy. If the youngster doesn't like the navy better than a good many boys do after they get in, she will likely soon be consulting three postmasters in an effort to find out how to get him out of the navy.

NEW OFFICERS CHOSEN BY ROYAL ARCH MASONS

Wichita Falls Chapter No. 202 Holds Election at Session Friday Night

Wichita Falls Chapter No. 202 Royal Arch Masons elected the following officers on last Friday night:

R. C. Smith, Excellent High Priest; W. A. McCarty, Excellent King; S. W. Jonte, Excellent Scribe; W. Lee Moore, Treasurer; E. V. Friberg, Secretary; Frank Collier, Captain of the Host; J. O. Smith, Principal Sojourner; N. W. Self, Royal Arch Captain; E. W. Chinn, Master of Third Vell; Nat Henderson, Master of Second Vell; W. J. Garner, Master of First Vell; J. W. Walup, Guard.

Wichita Falls Council No. 140 elected the following officers: J. W. Walup, Thrice Illustrious Master; Frank Collier, Right Illustrious Deputy Master; C. W. Richolt, Right Illustrious Conductor of the Work; E. V. Friberg, Secretary; W. Lee Moore, Treasurer; the others are appointive and have not been named. The installation will be June 24, St. John's day.

SUMMONS PLAINTIFF AS JUROR IN HIS OWN CASE

Constable Frank Burns Gets Talesman, All Right, but One Soon Disqualifies

In summoning jurors for justice court cases it is customary for the constable or other officer of the court to go out on the street and summon such men as he believes can legally qualify as jurors. And such summons is as binding as if the service had been brought about through more elaborate process.

Last Friday Constable Frank Burns was told to go out and get twelve jurors for a case to come up in Judge Howard's court. Burns obeyed without making any inquiry as to what case was to be tried, and when his twelve jurors responded and had taken their places it was discovered that Burns had the plaintiff in the case on the jury. This juror was promptly disqualified.

FIRST OATS OF SEASON BROUGHT IN SATURDAY

Are From Farm of Joe Zoludek East of City, Who Receives a Bonus

Joe Zoludek, who is farming east of town near the Dave Thomas place, got the "first bale" money on oats yesterday. He brought in three loads which weighed out over 200 bushels. He sold the three loads to the Maricle Coal Co., which concern paid him thirty-five cents per bushel, a bonus of five cents per bushel.

The grain buyers also presented Mr. Zoludek with a five dollar gold piece in recognition of his enterprise in being first on the ground with 1913 oats.

CHILDRESS HIGH SCHOOL AFFILIATED AT AUSTIN.

(Childress Index)
Principal Brown of Childress high school informed this paper Friday that he had received word from the

DIVINE ATTRIBUTES

Love and respect for those who have departed this life are two of the higher attributes that distinguish us from the lower animals.

We erect beautiful and lasting MEMORIALS to commemorate the life and death of those we hold dear, because of this DIVINE emotion we are pleased to call LOVE, yet no words in any of the love or death languages can encompass or express the things of the heart, or the thoughts and emotions that make of us more than beings of less intelligence.

There is a distinction between frailty and robust health, between wisdom and ignorance, between morality and immorality, but there is no distinction between LOVE and MEMORY. That which clothes in a mantle of charity and wreathes in forget-me-nots.

We express these divine emotions as nearly as the human hand and loving hearts can, with our LASTING MEMORIALS.

MAYFLOWER FORTY-TWO CLUB WITH MRS. HUDSON

The Mayflower Forty-two Club met Thursday afternoon with Mrs. Hudson. On account of the absence of the president there was no business other than the games. There were eighteen lively and interesting games played, Miss Clara McCarty, a guest, winning high score. The hostess assisted by Mrs. Little served delicious ice cream with strawberries, and cake. The place for next meeting will be decided later.

PRESBYTERIAN LAWN PARTY WILL BE HELD THURSDAY

The lawn party which was to have been given last Thursday evening at the home of Judge and Mrs. A. H. Carrigan was postponed on account of the inclement weather, and will be held next Thursday evening. This is to be one of the most elaborate affairs of the kind given here in some time and a large attendance is expected.

WICHITANS ON VACATION TRIPS HAVE COOL TIME

Most of the Wichitans who are on vacation trips met cool receptions the past week, according to advices received by stay-at-home friends. The temperature was cool enough at home to require heavier clothing than usual, but in northern resorts it necessitated overcoats and such things, and Wichitans who went unprovided with these wraps found themselves decidedly inconvenienced. Post card greetings from those away tell of northern frosts and other unjunglelike freaks of the weather.

EARL CLAYTON EXPECTED HOME AFTER 4 YEAR ABSENCE

Earl Clayton of this city is expected home today or early this week to visit his mother, Mrs. H. L. Baker, after four years' absence as hospital surgeon in the navy. He has risen high as it is possible to go in that department of the navy and his friends here are proud of his success. His ship reached San Francisco from Shanghai on June 11 and he is expected here shortly.

AUXILIARY TO O. R. C. TO CONDUCT MEMORIAL SERVICE

The Ladies Auxiliary to the Order of Railway Conductors will hold its annual memorial service at the Moose hall Sunday night beginning promptly at 8 o'clock. All friends of the conductors and of the auxiliary are cordially invited.

MISS CHAMBERLAIN HOSTESS IN HONOR OF MRS. SHUMATE

Mrs. Shumate of Dallas, was very pleasantly complimented Thursday afternoon by Miss Ethel Chamberlain, who entered five tables at bridge. An enjoyable round of games was played, after which refreshments were served. Those present were Mesdames E. E. Shumate, J. T. Montgomery, O. T. Bacon, W. B. Shepperd, I. D. McKee, H. A. Allen, W. N. Maer, Mike Walker, Wade Walker, F. B. Crawley, E. P. Greenwood, J. W. Duval, Peyton Grayson, R. M. Darnell, R. L. Miller, Salmon, M. A. Marcus, E. H. Short, Misses Raney and Sherrod.

FIVE HUNDRED PARTY FOR MRS. SHUMATE OF DALLAS

Mrs. J. T. Montgomery and Mrs. Allen Darnell entertained Friday afternoon at Five Hundred, complimenting Mrs. E. E. Shumate of Dallas. The afternoon's souvenir was won by Mrs. Boulware, who presented it to the honoree. Delicious refreshments were served after the players were through. Present were Mesdames Kane, Marcus, Malone, May, Walsh, Miller, E. L. Smith, Thompson, Berney, Cravens, Toney, R. Daynell, Griffin, Crawley, Graham, I. D. McKee, Weeks, Everett Jones, Wade Walker, Shepperd, Boulware, Stanforth, Misses Chamberlain and Sherrod.

MRS. THOMPSON TO SING AT METHODIST SERVICES

At the services at the M. E. Church, South, this morning, Mrs. G. F. Thompson will sing "The Ninety and Nine." Mrs. Thompson's singing has found such favor here that this announcement is expected to be of interest to local music lovers.

FORTY-TWO PARTY ENJOYED AT THE MONTGOMERY HOME

As a farewell compliment to Mrs. E. E. Shumate of Dallas, who returned home Saturday, Mr. and Mrs. J. T. Montgomery entertained a number of friends at forty-two Friday evening. Those present were Mesdames P. R. Langford, H. B. Patterson, G. D. Anderson, J. C. A. Guest, C. C. Huff, T. B. Noble, A. H. Carrigan, J. W. Culbertson, Wiley Robertson, E. B. Goraline, J. L. Jackson, Ralph Darnell, Mesdames Boddy of Henrietta, M. M. Adickes, E. M. Brown, R. H. Hall, Misses Eppel of Amarillo, Hazel Gaston.

INFORMAL RECEPTION AT COLLEGE OF MUSIC AND ART

An informal reception will be given at the College of Music and Art next Monday evening for Miss Rose

Howard of Fort Worth, who comes to conduct the normal. The friends of the school are invited.

The United Clubs are most cordially invited to attend an informal reception at the College of Music and Art to meet Miss Rose Howard, Monday evening.

MRS. J. C. BERNEY, Pres.

WICHITA FALLS ATTORNEY CLAIMS BRIDE AT ABILENE

Mr. and Mrs. Edward Lorenzo Fulton returned Sunday from their wedding trip to South Texas, which followed their wedding at Abilene on June 4. Mrs. Fulton was Miss Una Colquitt, member of a prominent Abilene family, a cousin of the governor and a young woman of unusual beauty and personal charm. The wedding ceremony was performed by Rev. Mr. Burkett, pastor of the Baptist church at Abilene. The groom has resided in Wichita Falls for about two years; he is assistant county attorney and has a substantial practice. He is a graduate of the State University. His many friends here will welcome Mrs. Fulton heartily into the circle of Wichita Falls matrons and Mr. and Mrs. Fulton are now receiving congratulations. They are making their home at 1203 Burnett.

JUST-SO SEWING CLUB WITH MRS. J. O. McDOWELL

Mrs. J. O. McDowell was hostess to Saturday's meeting of the Just-So Club, the young ladies gathering at her home to sew and enjoy the usual pleasant time. Ice cream and punch were served during the afternoon and the occasion was a very enjoyable one. Present were Misses Lena Gardner, Eva Benson, Ruth Downing, Nina Barwise, Helen Brightwell, Sherill and Pearl St. Clair.

WICHITA FALLS TAKES LEAD IN OFFERING PEACE PRIZE

In behalf of the State Peace Committee of the Texas Federation of women's clubs we earnestly thank the Chamber of Commerce, the special committee composed of Messrs. Long, Strans and O'Reilly, and all who donated to the splendid cash prize of \$100.00 to be awarded to the one who composes and delivers the best essay on industrial peace, in this district of Texas. In justice to our Chamber of Commerce and this committee we wish to correct the statement in Sunday's issue of the Times. This cash prize for industrial peace is the first cash prize offered for this subject. Wichita Falls leads, not follows; though the committee on peace wishes to have many more such splendid prizes in the near future, for we feel that one of the surest ways to influence a nation to train the thoughts of high school, college and the university students, for they will be the coming influential citizens—either employers or employees. If they have a substantial incentive to study this all important subject they will grow familiar with the relations of the one to the other, and will not likely view one another as enemies when they begin their business life, either as the employer or the employee, but from having made a sociological study of the relation existing between themselves, they will make better citizens and live more useful lives. We hope that this may be the means of settling the differences between capital and labor, instead of the strike, which does not restore peace and confidence, but brings sorrow, trouble, privation and too often death through violence and through privation. MRS. MARY LIGON CHRISTENSEN, State Chairman Peace Committee, Texas Federation Women's Clubs.

BOX PARTY OF ALUMNAE FOR GRADUATING PROGRAM

A number of the alumnae of the Academy of Mary Immaculate were members of a box party at the commencement exercises of the Academy at Maudslayi Monday night. The box was decorated in the colors of the class of 1913, the alumnae occupying both the upper and lower boxes. In the party were Misses Jennie Higgins, Ruby Grogan of Byers, Glen Massee of Long Beach, California, Grace Morris, Fred Iyer, Bonnie Hardy, Bess Qualls of Glenburne, Temple Thompson, Mabelle Jackson, Flossie Murphy, Eddie Carver, Genevieve Carver, Mrs. F. M. Kell.

MYSTIC CIRCLE MEMBERS PLEASANTLY ENTERTAINED

The members of Lone Star Ruling No. 2437, fraternal Mystic Circle were entertained Tuesday evening, June 10th by Mr. and Mrs. L. A. Henry at their home at 1006 11th street, and by Mrs. M. A. Marshall of 1010 11th street. Both houses and lawns were brightly and tastefully illuminated and a very pleasant time was enjoyed by all present. Games of all kinds including forty-two and five hundred were indulged in. Dancing also helped fill in the evening. The music was furnished by Messrs. W. S. Wooten and Frank E. Lee. Ice cream and cake were served. Among those present were Messrs. L. A. Henry, Jas. G. B. Tofton, Harry B. Gatewood, Henry S. Harvey, Frank E. Lee, Wm. S. Wooten, George Darling, Mrs. L. A. Henry, Mrs. Mary Gatewood, Mrs. Ruth Harvey, Mrs. Maude Lee, Mrs. Wooten, Mrs. Laura Koken, Mrs. Ellen C. Dunham,

Mrs. Colburn, Mrs. S. A. Bass. The evening was wound up by the singing of lodge odes. Miss Hazel Miner, daughter of Mr. and Mrs. L. A. Henry, also celebrated her 9th birthday by entertaining her girl friends, among whom were, Margaret Koken, Inez and Kennet Gatewood and Ethel Harvey.

HUFF-McDERMITT WEDDING AT ALTUS THURSDAY

William E. Huff and Miss Pearl McDermitt of this city were united in marriage on Thursday at the former home of the bride, Altus, Okla. The ceremony was performed by Rev. A. C. Burroughs of Wichita Falls and was attended only by relatives and close friends. After the ceremony, Mr. and Mrs. Huff left for Colorado Springs to remain several days. They will return to make their home in the new cottage at 1210 Denver. The groom was born and reared in Wichita Falls, the son of one of Wichita Falls' foremost citizens. The bride has resided in this city for some time and is a most estimable young woman. The best wishes of a wide circle of friends accompany these young people.

MRS. PITMAN IS HOSTESS IN HONOR OF VISITOR

Mrs. J. S. Pitman pleasantly entertained about twenty of her friends Thursday evening in honor of her guest, Miss Naomi Haynes of Lindsay, Oklahoma. Games of various kinds and music were the diversions. Piano and song numbers were rendered by Misses Bertha Gordon, Elizabeth Youngblood, Jessie Kerr and Mr. Pitman. The rooms were handsomely decorated with roses and sweetpeas, and delightful refreshments were served.

30 DAY SESSION WOMAN'S HOME MISSIONARY SOCIETY

Beginning at 2:30 Monday the following program will be rendered by the Home Mission Society of the M. E. Church, South: Subject, "Woman in Industry—Children's Work." Meditation on God's Word (The Significance of Childhood)—Mrs. Nolen. Woman's Place in Industry. In Christian Lands and Non-Christian Lands—Mrs. J. C. A. Guest. Vocal Solo—Miss Helen Hines. Woman's Need in Industry. Physical, Moral and Legislative—Mrs. Fred Harrington. Vocal Solo—Miss Gladys Herron. Children's Work: Our Own Children's Future in the World's Evangelization. Child's Labor in the South—Mrs. G. H. Carpenter.

MRS. A. N. BARRY HOSTESS TO FRIENDS AT FORTY-TWO

Mrs. A. N. Barry, 306 Travis avenue, entertained a party of young people Friday evening at forty-two and other games. At the conclusion of the game refreshments consisting of punch and cake were served. Mrs. Jeter of Stamford, presiding at the punch bowl. Those present were, Misses Burns, Helen Shields, Ira Conner, Mattie Humphries, Essie Allen, Lena Humphries, Ethel Register, Bessie Sherrod, Lorena Miller, Mabel Miller and Messrs. G. Jenkins, G. Sherman, H. Humphries, R. Billings, C. Millison, T. Millison, S. Bell, W. D. Reeves Jr., L. Adams, Gene McClure, Mr. Tenbrinks, Jim Carter.

DUVAL-OLIVER WEDDING AT CLEBURNE LAST TUESDAY

G. K. Duval and Miss Myrtle Oliver, two popular and esteemed young people of this city were united in marriage at the home of the bride's parents at Cleburne last Tuesday evening. The groom is employed in the auditor's office of the Wichita Falls & Northwestern; the bride is the daughter of Rev. H. F. Oliver of Cleburne, and was a teacher in the public schools of this city during the past session. These young people enjoy the friendship and esteem of a wide circle and are the recipients of many good wishes in their new estate. They will make their home at the Joline.

ANOTHER THREE-STORY BUILDING IS PROBABLE

Judge Hodges Plans Better Building To Replace One That Was Burned

A three-story building extending seventy-five feet on Ohio and fifty on Eighth street will mark the site of the recent fire on that corner, if plans are carried out. Judge Hodges of Frederick will probably erect a three story building to replace the one burned and it has already been announced that J. W. White will erect a three story structure on the corner.

O. P. Marchman was here last week making arrangements to rebuild his place on Eighth street, and he will put up a two story building there. Work on J. L. Jackson's building will also start within a very short time. Judge Hodges was here last week and said that he had about decided to put up three stories instead of two, and his building will adjoin the White building on the north.

MISS HAYNES AWARDED PERFECTION COOKER

Miss Kate Haynes was awarded the Perfection Cooker given by the Wichita Hardware Co. for the ten best reasons why a person should buy a Perfection Cooker. Many of the entries gave practically the same reasons as did Miss Haynes, but her's were more convincing in the opinion of the judges, and for that reason were considered the best. Miss Haynes' reasons were as follows: Being all metal, it is most durable. It serves as a table. Lower shelf can be used for vessels. It has the most perfect insulation. It is perfectly sanitary. The metal rim protects radiators. It is really an ornament. It saves time, work, worry, and money. The Perfection represents ideal convenience. It is what the name indicates, "Perfection."

VALUATIONS IN TILLMAN COUNTY OVER \$15,000,000

(Frederick Leader) County Assessor Burks has completed the assessment of Tillman county. The total valuation is \$15,324,846, an increase of about \$325,000 over last year's valuation. The

"RELIABLE"

Reflection of Personality In The Summer Styles

New York, June 14.—Carlyle made familiar to us the philosophy of clothes proving beyond the possibility of effective contradiction that man's garb is a sure index of his life, but the psychology of clothes is quite another question. That is a modern discovery which is slowly and surely gaining the attention of the lay mind. Perhaps the majority of us are too busy in our endeavor to get clothes of any quality, color or construction to waste our much-needed energy on solving the question of whether this or that color scheme harmonizes with our temperament or, when adopted by us, typifies the bent and peculiarity of our personality. The woman who dresses well makes us conscious of her beauty, charm, softness and grace, and the nearer she approaches perfection in the art the more does she give us a happy impression of harmony and loveliness, unmarred by an obtrusion of detail. This is dress technique at its highest. To accomplish this, woman must know herself. Her clothes must be the crown and culmination of her personality.

The frock seen in the first figure not only conforms to the dictates of fashion, but it may impersonate also the idiosyncrasies of the wearer. If the hair be brown, the complexion clear and the eyes brown or blue, shades either blue or brown will develop it advantageously. As represented the dress was made of checked brown-and-tan silk. Collar, cuffs and girdle of Bulgarian silk effectively brighten the costume. The "hiss and feathers" employed may also tell a tale of personality. Usually women of most discriminating taste prefer little elaboration; and with them line is the most important factor of the gown. It is made to accent all good points and conceal all bad ones. This is the task of the woman who does her own sewing, to choose a model suited to her style.

At the present moment Bulgarian and Futurist trimmings are thought to produce just the right touch of piquancy and picturesqueness, but whatever country, from Japan to Turkey, serves as tone inspiration, women should use discrimination in adopting its color schemes and choose only those whose main tone is to them most becoming. A touch of color at throat, wrist or waistline is generally considered sufficient to brighten the most somber gown. Should the gown be of light tone, trimming in pleasing contrast may be used with good effect, and on the most serviceable frocks of coarse mesh and fabric the gay color effect is most pleasing. For evening, however, all such conspicuous shades are passe. Delicate pastel tones are preferred when the choice of trimming is silk or satin. But beads, bugles, rhinestones and fancy buckles, buttons and soft-toned pearls alone are used. The most elaborate lingerie dresses this season are made of batiste embroidery combined with genuine laces of Cluny, filet, Venise and d'Alencon. Not combined with batiste embroidery is also much in favor for both afternoon and evening. English eyelet embroidery is quite smart, but the material used is batiste, not linen, and is wrought in many spray and floral motifs as well as "eyeleted".

Since gowns of sheerest fabric—voile, marquisette, sheer linen and chiffon—are most fashionable, the petticoat, on which heretofore some economy could be practiced, has come forward as one of the most important of garments, quite as great a factor as the dress skirt. Not infrequently the entire effect of the costume depends on the style and material of the petticoat. Those of chiffon, for evening wear with the frock of the same diaphanous web, are very charming. They may either harmonize with or match the shade of the frock, and they are to be had in white, pink, blue, lavender and yellow. Many are trimmed

with lace medallions and have flounces of shadow lace. Rosebuds, outlining the top flounce, make a pretty finish. A recent novelty is a petticoat, all of net, unlined, with corset waist to match. This is most effective for wear with summer frocks. Petticoats of shadow lace are next in favor and may be worn either with evening or afternoon dresses. Crepe de Chine handkerchief linen, French batiste and nainsook are also much used. For the dark tailored suit, petticoats of messaline and soft taffeta are still popular. It is very important that the petticoat be well cut. Under the tight skirts a few inches of extra width will make a crease in the skirt. Every particle of superfluous width, not of underskirts, but of every undergarment worn with the present-day costumes, must be carefully cut away. It is only in the frock for practical wear that woman can afford to be extravagant in undergarment. For with a costume such as that of the second illustration, the cut of the petticoat must be as carefully considered, but the material and finish may be less fragile and dainty. The charming shirt waist in this figure was developed in white voile. Low collar and yoke proclaim the prevailing mode. A girde of silk in pleasing harmony with the green stripe of the skirt. The skirt was developed in green and tan summer silk, with a few folds of drapery at the left side. Buttons form an effective finish. To the woman who can not afford one of the new mantles of chiffon or soft silk so dainty for summer wear, it will be a consolation to know that she may wear the coat of her silk suit with her sheer lingerie frocks and be considered quite smart.

If she have a coat suit of matelasse, poplin, broche, silk or satin, either plain or brocade, and in black or any of the new shades, she may adopt the jacket for wear with her dainty summer frocks and get double service out of it. This will be a decided economy, as coats invariably outline their companion skirts. Equally suitable is the separate skirt of white serge, broadcloth, crepe or silk for wear with this jacket. These supplant the throws and scarfs of recent fashion, and are much more sensible and practical.

WOODMEN PLAN PICNIC AT THE LAKE JUNE 26

Camp 3001 is Preparing For Big Time—Competitive Drill Will Be Feature

Wichita Falls Camp 3001 of the W. O. W. are planning on a big time at Lake Wichita on June 26, the occasion being their annual picnic and bath. Special music and lots of it is promised. There will be a ball game and the usual attractions at the lake. A cash prize is offered in a competitive drill in which several teams will participate. The railroads have granted special rates for the picnic and a big attendance from out of town is expected by the local camp.

FIRST PEACHES OF SEASON ARE MARKETING AT BOWIE.

(Bowie Cross-Timbers) The first peaches of the season were marketed in Bowie on Saturday last. They were of the Early Wheeler variety and raised by Barney Fenglio, of near Montague. The peaches were placed for shipment with the Evans Produce Co., who will handle the crop. Thirty crates were shipped to points up the Denver last week. On Monday, Mr. Fenglio brought in seventy-five crates more. They too, were shipped to Amarillo.

Rural Credits in This
State

Fort Worth, Texas, June 14.—To the City Men of Texas: In this article I want to record some of the difficulties that confront a Texas farmer in a business way and to point out a few substantial reasons why so many farmers have not the price of a home. I shall not undertake to defend the Texas farmer as a business man—he needs no defense. He produces eighty-five per cent of the wealth; pays seven million dollars of taxes per annum and manages property valued at \$2,853,000,000. I want to present some of the larger problems of agriculture in the hope of lifting the vision of city men to higher ground where they can study the forces that are rending asunder the Nation's hearthstone and analyze the powerful agencies that must be set in motion if we are to check the downward trend of agriculture.

According to authoritative estimate the farmers of Texas earn from production, four per cent per annum net on their investment and I consider these figures approximately correct. The Federal agricultural department has just announced that the farmers of this State are paying an average of ten per cent per annum, or to quote exact figures, 9.97. The agricultural indebtedness of Texas approximates \$225,000,000. The difference between the amount of interest paid and the amount earned on this indebtedness per annum is \$13,500,000 and as a logical result something over two thousand farmers lose their homes. We are rapidly passing from home-owners to tenants, from tenants to laborers and the laborers drift in to the cities.

The tide in our affairs is flowing upstream and must be reversed if we are to have an enduring civilization. Farm peasantry is the most alarmingly spectre that confronts the public of Texas today. Indeed it is the industrial tragedy of the present century. Will you come with me for a moment and take a retrospective view of the farm homes of Texas? Behold each day a hundred father, covering the hearthstone with the ashes of failure; as many mothers drenching the family altar with tears of despair; and hundreds of innocent children pined under the fallen timbers of wrecked homes. Would you be surprised if these men, sinking as they struggle, cry aloud against society? Is it not your problem and mine?

The Price of a Home.
Let us quote the price of a home in the language of the farm. The price of a home is the toll of a mother with babe in arms, the rearing of children in poverty and ignorance, the mortgaging of a father's life into the timbers of the structure and lowering the school of society toward the primitive levels of civilization. The farmer must be lifted to where he can secure the price of a home, the home must be reduced to a new or agriculture will become a gypsy occupation.

We will now reduce the price of a home to dollars and cents and carefully compute the cost of each item of material entering into the structure at market prices. No civilization can better serve its citizens than by placing a home in reach of its humblest laborer and we will there fore follow the Texas farm laborer as he builds a home. The risk is so monumental that many shrink from it in despair, others who summon courage to try it—stunned by the struggle—are sent staggering down the thoroughfares of failure to wander through life without ambition or hope. Those who succeed—haggard, and aged—step from its portals into the grave, but will produce the figures taken in the main from the federal census report. I shall in this analysis deal with general averages. There are, of course, extremes in all classes but the average results of all that can be reasonably expected.

Takes Sixty Years To Build a Home.
The farm laborers of Texas receive six dollars per week without board and few cents over four dollars per week with board. Their net earning power at best hardly exceeds \$154 per annum, provided they are constantly employed, which is not always the case. The first step of a farm laborer in his journey toward a home is tenant farming, although many who undertake the task, omit this experience in their upward climb, preferring to remain farm laborers until they have accumulated sufficient funds to make the first payment on a home. The average value of farm equipment on a Texas farm is \$1,950, including household goods it will take the farm laborer seven years to become a tenant farmer. The gross earnings of a Texas farm are \$1,250 per annum and one-third must go for rental, leaving him with \$800 gross as his proportion. From this sum must be deducted the cost of living, feeding the teams, and the running expenses of the farm, including a hired hand when one is employed. The frugal farmer will raise most of his feed stuff but the value must be deducted as total production is included in the gross. A careful estimate places the cost of running the farm at \$600, leaving the tenant farmer \$200 net per annum. The figures are a little high as in practical experience many tenant farmers go back to laboring as more remunerative than tenant farming. The average value of a Texas farm as listed by the census enumerators is \$5,311. In seven years time the tenant farmer has accumulated \$1,400 and can make his first payment on a home. He no longer pays rent and is now making \$450 per annum net, without paying any wages for himself and family, which can be applied on in-

terest and principal and taxes. It will require twelve years to pay for his home provided he escapes the scythe of Father time and dodges the shafts of Dame misfortune. No provision has been made in this estimate for giving the children a higher education and performing the duties to church and society, or to provide himself and family with the comforts and convenience of modern life. Add these financial burdens and compute the time and the farmer is sixty years of age before he owns a home.

The Need of Cheap Money.
The remedy lies in cheap money and in securing better prices for our products. The average farm loan in the United States bears 7.75 per cent per annum. In the North Atlantic tier of states it is 5.96, in Texas 9.97. Certainly our securities are as good as the average, then why do we not get the same rate of interest? The equalizing of this item alone will reduce the interest paid by the Texas farmers on their present indebtedness approximately \$5,000,000 per annum, which can be applied to resting tired mothers, comforting aged fathers and educating our children.

May I not plead with the city men for co-operation in this, the greatest task of the age? Is there one so busy that he cannot see the horizon darkened by the dust of moving vans of 200,000 restless farmers, hurrying toward the precipice of ruin? Can you not hear in the rumble of the wagons as they groan under the burden of one-fourth of our population, the echo of approaching calamity more dreadful than war and more terrible than pestilence? Can you not feel the hunger for culture and refinement gnawing at a million young and innocent souls as they glide along in the early hours of life like spectres on their way to the cemetery of ignorance?

Will you not lend a helping hand in cooling the fever of our restless industry, soothing the brow of discouraged farmers and reviving the drooping spirits of those who fall in their struggle to feed and clothe the world?

Governmental Aid Required.

The chasm between the amount owed and interest paid on mortgaged farm property in Texas must be bridged over by decreasing the rate of interest and increasing the price of our products. Marketing is equally as complex a problem as rural credits and neither has received the attention of the government it justly deserves. The Farmers' Union is going to ask the Legislature at the special session to appropriate \$25,000 per annum to be expended under the direction of the State Department of Agriculture in promoting marketing and rural credits. It is as properly a function of government to study and disseminate information and to put into execution plans for the sale of products as it is to teach production. Certainly it is poor statesmanship to follow the crop to the barest field and there let it rot for want of a market. The Farmers' Union stands ready to co-operate with state government in developing a warehousing system and facilities for the systematic marketing of cotton and to render assistance in marketing all products on a more intelligent and business like basis. It will take the co-operation and combined efforts of all to handle the problem.

About two-thirds of our farmers are tenants and fifty-one per cent of them move every year. It is a sad commentary on our citizenship when the census reports show that over 1,000 families become agricultural vagabonds each year and wander from farm to farm. These people are not the waste material of our citizenship, neither have they become the victim of dissipated energies or misdirected efforts. These men are out of the loins of agriculture and have been stricken by the bludgeon of a stupid market system and a brutal method of rural credits that takes for its toll 2400 happy homes per annum.

A Challenge To Statesmanship.
Let me suggest that a half million farmers crossing the continent on their annual journey to a foreign market; that seventy families losing their homes per day and thousands of mothers tolling in the field, is as deplorable a challenge to government as civilization ever hurled at the statesmanship of any country or age.

This closes the present series of articles and I want to thank the press for the liberal space given and the public for their patient hearing, and to beg the pardon of those who may have become offended at anything I have said. Will the audience please stand and be dismissed with a smile. All the farmer wants is cheap money and he won't be happy until he gets it. We have been tilling the soil a long time and we would now like to have a chance to sell the till. We want a reasonable price for our products and unless we get it we are going to have to quit raising them, or go broke. In closing let me make a final appeal to the Texas farmer for organization and co-operation.

The Farmers Must Stand Together.

The farmer neither buys the price of the things he sells or buys. His assignment in the vineyard of industry is one of toll and his compensation is fixed by competitive lines of industry. He can only enlarge his responsibilities and extend his influence through co-operation and organization and until he does so the must depend upon mercy rather than justice to fix a price on his labor. He can only assume the management of agriculture through co-operation and until he does so he must remain the victim of his own folly. Let us all get together.

GAS EXPLOSION CAUSED BY SMOKING CIGARETTE.

(Electra News)
Lighting a cigarette while pulling a well on the Douglas lease resulted in a gas explosion that severely burned Joe Chilson, one of the casing crew. His face and arms were burned to a blister and his hair was singed. He pluckily walked to the city alone and Dr. Gault dressed the burns. The flash ignited the slush oil and it was several minutes before the fire was successfully smothered. Mr. Chilson is to be congratulated that the result was not more disastrous.

DELIVERY

There is no use in wasting the beautiful summer days in kitchen work which is absolutely unnecessary. There is of course a lot of cooking that you will have to do but you can save a great deal by keeping a supply of such prepared foods as baked beans, salad dressing, canned soup, salmon, sardines and a number of other items that if you will call at the store I can help you select an assortment and make you a special price for the quantity and save you money as well as hot kitchen work. Every one of these prepared foods I guarantee as to quality and will refund your money quickly on any package that you return that is not what it should be.

URGES FARMERS TO KEEP FIGHTING GRASSHOPPERS

Campbell Says Continue of Poison Will Prevent Recurrence Next Year

The fight on the grasshoppers must be continued, unceasingly unless farmers in this section want a repetition of the pest next year, says J. W. Campbell, district agricultural agent. Mr. Campbell says that the use of poison killed many of the insects but that the eggs which these had laid hatched out, bringing out a

new generation that now threatens to do considerable damage unless the poisoning is continued. He urges the farmers to continue the liberal use of arsenic for some time so that as rapidly as the young hoppers are hatched they may be killed. If this is not done, he declares, next season is apt to witness an even worse pest of the insects. The damage by the grasshoppers has been quite severe in spots, but the insects appear to work the most harm in one vicinity, covering a comparatively small section and putting perhaps one or two farmers almost out of business, while others not far away have practically no trouble. This condition has led to exaggerated reports of the damage.

Mr. Campbell believes that the wheat yield will be better than last year and he is very hopeful of a much higher trade than that of 1912. There will be considerable No. 2 wheat, he believes. While the straw is not nearly as thick as it was in 1912, the heads have filled out much better, he finds.

Merely A Suggestion.

While Wyatt, a prominent Wichita Falls capitalist who recently built the new five-story Westland hotel at that place was in Memphis and spent the night. He talked to quite a number of citizens but did not discuss his business. A new five-story fireproof hotel would not be a bad investment in Memphis.

FALLING BRICK STRIKES BOY; SKULL FRACTURED

Worker at Ball Brothers Plant Sustains Serious Injury Saturday Morning

Will Wilkins, a seventeen year old boy, suffered a fracture of the skull, necessitating an operation yesterday morning, while at work at the Ball Bros. glass factory.

With others, young Wilkins was working with a block and tackle which was fastened to the rafters in one of the buildings. The fastening gave way and the heavy block fell, striking Wilkins squarely on the head. He was not rendered unconscious by the injury and suffered intensely until the ambulance arrived and he could be taken to the hospital.

Dr. Giest and Dr. Amason attended the injured man at the factory and ordered him taken to Mackechny's Sanitarium where the operation was performed. Physicians believe that he will suffer no permanent injury from the accident.

Workmen at the plant under the direction of Superintendent T. B. Smock, did all in their power to relieve the suffering of the injured man while they were awaiting the coming of the ambulance and work at the plant was practically suspended for the time being.

WORK IS PROGRESSING ON NEW SCHOOL HOUSE

Work on the new Sam Houston school building in the Highlands Addition, has progressed so far that Scott Bros., the contractors, say they will have the building completed by August 1. The brick work will have been completed by the latter part of the week.

The building will cost \$8,000 and will be a much needed improvement in that addition, as the rapid growth of the residence section near the factory district has made a convenient school imperative. The new building is located only about one block from the car line.

CONVICT-BUILT ROADS IN STATE OF COLORADO

Use of Prison Labor on Public Highways of State Being Demonstrated

Colorado Springs, Colo., June 15.—What Colorado has accomplished by the use of convict labor on its public highways will be shown the editors of the country during the sessions of the National Press Association, to be held in Colorado Springs, beginning June 17. One of the features of entertainment following the convention will be an automobile ride over the newly built scenic highways radiating from Colorado Springs and on this trip the editors will see the kind of roads that are being made in Colorado.

They will go over the Lincoln Highway, which is the central transcontinental highway through Colorado, and upon the Ute Pass section of which convict labor has been employed. This is one of the splendid mountain highways of Colorado and it is rich in historic associations as it follows closely the old Ute Indian trail out in the mountain sides many hundreds of years before Columbus discovered America.

They will also ride over a portion of the Colorado Springs Canon City state highway, which also was constructed by convict labor and which has been pronounced one of the model mountain highways. These are fifty or more automobile roads radiating from Colorado Springs, and the editors will get a general idea of the work that Colorado is doing to build good roads.

According to the report of the warden of the state penitentiary, 177 miles of roadway were constructed by convict labor in Colorado during the last biennial period at an estimated saving to the country of \$22,439.56. Convicts at work are placed on the honor system and allowed much of the freedom of the ordinary camp.

CONFIRMED PROOF

Residents of Wichita Falls Cannot Doubt What Has Been Twice Proved

In gratitude for relief from aches and pains of bad backs—from distressing kidney ills—thousands have publicly recommended Doan's Kidney Pills. Residents of Wichita Falls who so testified years ago, now say the results were permanent. This testimony doubly proves the worth of Doan's Kidney Pills to Wichita Falls kidney sufferers.

Mr. G. A. Swope, carpenter, 612 Burnet street, Wichita Falls, Texas, says: "I had pains across the small of my back and in my sides and there was trouble with the kidney secretions. My ankles become swollen. A few boxes of Doan's Kidney Pills entirely cured me. I seldom have occasion to use a kidney remedy now but when I do, Doan's Kidney Pills 'always give fine results.'"

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

BAPTIST TENT MEETING IS NOW IN PROGRESS

Being Conducted By Rev. W. H. McKenzie Near Planning Mill—Continues This Week

Rev. W. H. McKenzie, missionary of the associated missions, has been conducting tent meetings just across the street from the planning mill in the southeastern part of the city, assisted by the pastor of the First Church. The first service was held last Sunday night and was well attended. The rain hindered somewhat with the attendance during the week. The meetings will continue throughout the coming week. Services are held at four o'clock in the afternoon and at 8:30 each evening.

A TEXAS WONDER.

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment and seldom fails to perfect a cure. Send for Texas Testimonials. Dr. E. W. Hall, 2226 Olive St., St. Louis, Mo. Sold by all druggists.

Mineral Wells.—The orders for first class silos to be erected in Palo Pinto county have been placed and it is expected that their erection will be the cause of many more going up, as they are sufficiently near town for inspection by the farmers. C. H. McMaster, editor of the Galveston Tribune is erecting one of the largest of the three silos on his farm near here.

Lot three at 15c
Greatest values you have seen.

Why Darn Socks?

It really isn't necessary for you to spend your valuable time darning socks. You can avoid it by purchasing Holeproof Socks for your men folks or—by asking your men folks to buy Holeproof Socks for themselves. Holeproof Socks cost no more than ordinary socks. But—Holeproof Socks keep out of the mending basket because they are knit so they wear evenly at all points. Holeproof Socks are knit the natural shape of a man's feet. They are knit from fine, strong, durable, long-stem yarns—extra reinforced at heels and toes, where "the rub" comes. All Holeproof Socks are guaranteed. Should you not be entirely satisfied with Holeproof Socks, you can get your money back. Holeproof Socks are priced from 25 to 50c the pair. The line includes the new styles, colors, and combinations—as well as Standard Staples and such sensible ideas as shown below. 6 pairs for \$1.50 guaranteed 6 months.

Emerson Springs

"The easiest riding buggy in the world," is our claim for Emerson vehicles. We purchase the finest spring used in vehicle construction. They are highly polished, oil tempered and never get loose in the heads, will not bind or wear on the bolt and no dirt can work its way into the head to cut out the bearings.

You will never find any Emerson buggy pitch to the front or rear, but ride perfectly level under all conditions, and as comfortable with one person as with two.

Emerson Auto Seats

We use yellow poplar exclusively of the finest quality, not less than 26 inches in width. The frames and posts are of ash, thoroughly reinforced so that we never expect a seat returned unless damaged by an accident or misuse.

Manufacturers using cottonwood seats can quote much lower prices on what "looks like an Emerson," but when the vehicles are put in service, trouble commences, corners open up, posts give way, and the undercoats are absorbed by the open grain of the cottonwood.

Emerson Tops

We point with pride to the length and beauty of the tops we use on our vehicles. The quarters are 14 inches in depth and 50 inches in length.

HUERTA MAKING LITTLE HEADWAY

CAMPAIGN AGAINST REBELS HAS ACCOMPLISHED NOTHING

JAILBIRDS IN HIS ARMY

Large Part of His Fighting Force Has Been Recruited From Penitentiaries

By Associated Press. Mexico City, June 14.—In the three months General Huerta has been President of Mexico he has made no substantial headway against the rebels, according to the opinions of close and impartial observers of the situation in this Republic. Unless there is made a radical change in the conduct of the government's campaign against its enemies, or unless the rebels become much weaker than they are today, foreign observers believe that Huerta will have great difficulty in restoring peace to Mexico. As for the rebels, they have grown steadily stronger since General Huerta became president, and now there is scarcely a state in which their mobile columns have not been operating in defiance of the government's superior armament and organization.

"The country is plunged in anarchy," said El Diario, a pro-government paper, recently. "Brigandage holds sway in a large portion of the national territory; defeated in one place, the bands reappear in another, and they carry their audacity to the point of defying the federal divisions in their headquarters." The usual expression in the local papers, however, is of a different character. For the most part they reflect the carefully studied optimistic tone of the officers at the National palace, who make much of defeats administered here and there, and often fail to make any mention at all of rebel victories.

Three Campaigns. The military operations of the government have been divided into three general campaigns, one in the south against the followers of Zapata, conducted by General Juvenio Robles; another whose center is Guaymas, in Sonora, and the third, directed from Monterrey against the rebels operating in the states of Coahuila, Nuevo Leon and Tamaulipas. In addition to these defined campaigns the government troops are riding here and there over a dozen states, forcing their way from one point to another, only often to find, when they arrive at their destination, that the rebels have cut in behind them or have torn the country to pieces on either side of their line of march.

In the south Robles promised to exterminate in a few weeks the "bandits" led by Emiliano Zapata. He was instructed by the war department to use the methods of Weyler in Cuba; to concentrate in a few points all non-combatants and then devastate with fire and cannon the remaining villages and towns, killing his prisoners, except those whose physical strength appealed to him as material for the regular army, but before Robles could get his plan under way, Zapata was attacking him in his headquarters and since then it has been an open question which side would be the victim of the Weyler method. The region to the south already is practically devastated. Hacienda on which enormous sugar crops formerly were grown are today fast returning to jungle growth and the warfare in which the followers of Zapata have engaged now for almost three years appears to be causing them to revert to some wild and savage type.

The Guaymas campaign began well. General Medina Barron marched forth, but only to return after defeat, and it was almost two weeks after the battle at Santa Rosa before the government admitted the reverse. Meanwhile characterizing as untrue the press dispatches from the border. The campaign directed from Monterrey has resulted in the recall of General Tracy Aubert who, apparently, was unable to suppress the rebels under command of Venustiano Carranza or even to retake and reopen the railroad between Monterrey and Laredo, Texas. His successor has done no better. The rebels have extended their field of operations until small towns from the Gulf coast to Chihuahua are entered, seemingly, almost at will.

Conditions in the Central states are little if any better. In its desire to clear up the "labor situation" and open the railroads in order that the United States may have a higher opinion of the general situation, the government has confined most of its energies to the two northern campaigns.

Opposed to the rebels is the army of Huerta, a more numerous organization than any Mexico has ever seen. But in its ranks as "volunteers" are thousands of men "recruited" from the jails of the country and from prisoners captured in battle. The recent success of the government in securing a loan, however, will enable it to pay its soldiers, buy ammunition and other supplies, and otherwise conduct its military campaigns with greater energy. As a result conditions in Mexico are bound to be disturbed for some time to come.

Less Anti-Americanism. The press of the capital, which bristled with anti-Americanism in the early days of May following recognition by several nations and the failure of the Washington government to fall in line, has suddenly changed front. Wiser counsel seems to have prevailed and now a conciliatory tone is distinctly noticeable. A campaign to bring about a boycott of American products has fallen flat, and a proposed popular demonstration of disapproval of Washington's non-recognition of the Huerta government has been called off. Today there are no evidences of any anti-American agitation in Mexico City.

STATE HARVEST IS IN PROGRESS

OATS AND WHEAT BEING HARVESTED IN MANY SECTIONS OF STATE

PROGRESS DURING MAY

Commercial Secretaries Summarize State's Output in Month From All Sources

Fort Worth, Texas, June 14.—The production of the farms, mines and factories together with the foreign capital invested in the State during the month of May, aggregated \$80,450,000 according to data compiled by the Texas Commercial Secretaries and Business Men's Association.

The sources of wealth and the amount contributed by each to the gross increase during May are as follows:

Agriculture	\$27,800,000
Foreign capital	17,350,000
Factory	14,200,000
Mineral	11,100,000
Total	\$80,450,000

Agriculture. The harvest area expanded during May until it now covers practically the entire State. The first grain crops of the year were harvested with the cutting of oats and wheat during the latter part of May.

Reports received from dealers, agricultural and industrial agents, indicate that the oat crop will be in the neighborhood of 25,000,000 bushels and the wheat crop approximately 20,000,000 bushels. It is claimed that in most every section of Texas that this season has been an idea one for small cereals and that the wheat this fall should be of an exceptionally good milling grade. The recent rainfalls that have been general throughout the State have assured a record corn crop in the neighborhood of 200,000,000 bushels.

The fruit and vegetable production during May included the first peaches, cantaloupes, watermelons, dewberries, strawberries, new potatoes, tomatoes and roasting ears.

The first Texas cantaloupes to reach Chicago markets brought \$25 a crate or forty-six and a fraction of a cent apiece.

While the cabbage and onion season practically closed in the Rio Grande Valley and the Laredo district during May, the bulk of the fruit and truck shipments to home and foreign markets were moved from East and Central Texas. During May nearly 2,000 carloads of onions left the State.

Taking into consideration the timber cuttings and the livestock sales, the total agricultural production was approximately \$27,800,000, the heaviest of any month this year.

Livestock. Livestock shipments for the month of May to markets were \$24,213 head valued at \$7,350,325. Reports to the Cattle Raisers' Association of Texas for the last week of the month indicate a generally satisfactory condition of the ranges and cattle in excellent trim.

Throughout West Texas pasture tanks were filled and weeds for early feeding are assured.

Official figures show that more than 100,000 more cattle have been received at the Fort Worth market this year than for the same period last year.

Exact figures for the period between January 1st and May 30th were 420,622 cattle and for 1912, 319,996 cattle giving an increase of 110,626 head.

The May cattle receipts totaled 114,307, an increase of 11,519 over the same month in 1912. Hog receipts for May, 1913 also show a large increase over last year. The figures are 36,570 for this year and 24,225 last year, an increase of 12,345.

Nearly 1,000 more horses and mules were received at Fort Worth in May, 1913 than in the same month in 1912. The calf and sheep receipts both show a decline for May, 1913 when compared with May, 1912.

Mineral Production. The mines and wells of Texas increased the wealth of Texas approximately \$11,100,000 during the month of May. While the coal and lignite produced was 95,000 tons valued at \$119,000. Oil production in the Elctra field of Wichita county jumped to a new highwater mark, three new wells bringing the daily output of oil in that field to more than 24,000 barrels daily.

Actual mining of iron ore near Ore City began during May and the opening of these mines in East Texas marks the beginning of an industry which has unlimited possibilities.

During the month of May unusual activity was witnessed in all lines of manufacturing due in part to the ever-increasing demand for Texas-made products. The wealth added through the process of manufacture approximates \$14,200,000, an increase of \$500,000 over the preceding month. There were sixty-one new enterprises opened for operation during the month and construction work was commenced on thirteen factory buildings.

FARM ENCAMPMENT SCHOOL TO BE HELD AT FREDERICK.

(Frederick Leader)

W. S. Drumm, secretary of the Tillman County Farmers' Institute, received a telegram from Miss Irma Mathews, bringing the welcome news that Frederick had been awarded the summer encampment school of the Oklahoma Agricultural and Mechanical College, for this the fifth, supreme court judicial district. Miss Mathews said that the time of holding the school here had not been determined, but would be fixed so as not to interfere with the chautauqua or harvest. This encampment school should prove a fine thing for Tillman county and doubtless will, if the people of the county, particularly the farmers and their families, take advantage of it. A corps of teachers and lecturers is to be brought here from the state college, who will bring with them tents in which the meetings will be held. They will bring also livestock from the state experimental farm, for demonstration purposes and other things for the purpose of making the week one of real benefit for the farmers who attend their meetings.

There will be good music, ball game, rowing, motor-ing, fishing, bathing and dancing. Among other attractions will be a contest for cash between Company E. Reg. 101 Uniform Rank W. O. W. 3001, vs. Henrietta Uniform Rank W. O. W. Special rates on all railroads. Everybody come and enjoy the day. Ball from 8 to 12-p. m. Don't forget the time and place,

Wichita Falls, Texas, June 26 and 27

ings will be held. They will bring also livestock from the state experimental farm, for demonstration purposes and other things for the purpose of making the week one of real benefit for the farmers who attend their meetings.

TRASH PILE CONTEST IS HELD AT VERNON RECENTLY.

(Vernon Record)

The trash pile contest held under the joint auspices of the Young Men's Business League and the city of Vernon and brought to a close last Friday at noon was one of the most successful undertakings attempted in Vernon recently. The Business League committee in charge of the contest were greeted with the sight of eight trash piles, containing an aggregate of 7,165 cubic feet of rubbish of all kinds, from old tin cans on up to ranges and old buggies. Considering that none of the contestants were more than sixteen years of age and the short space of five days which the contest ran in which to gather the trash, the result is nothing short of remarkable. The contest was for \$20 in cash, divided in the following manner: First \$10; second, \$5; third, \$3; fourth, \$2. These prizes went to Gladner Young, Scott Hall, Dolye Stalcup and Edgar McHugh in the order named.

Hines and Embry, undertakers. Licensed embalmers. Open day and night. Use our ambulance. Phone 202. Located in Kemp & Kell basement.

ILLEGAL CATCHING OF FISH AT LAKE WICHITA.

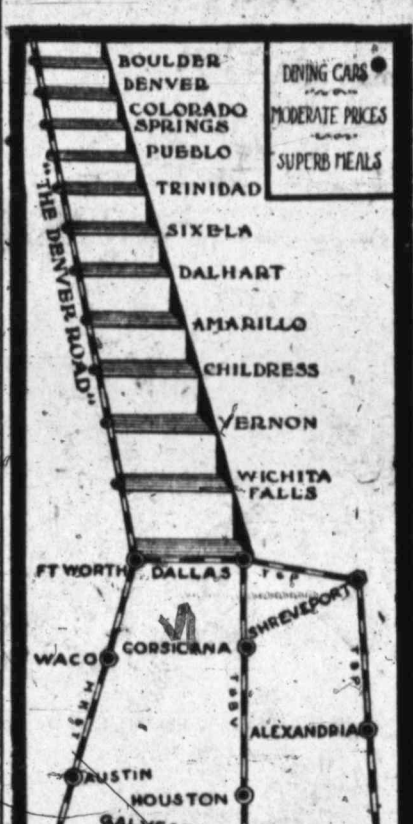

In order to stop the illegal catch-
ing of fish in Lake Wichita, the
Wichita Falls Traction Company en-
lists the co-operation of the public
to that end. The fish in the lake are
stocked and fostered for the sport
and pleasure of the general public
and fishing privileges with hook and
line in a legal and sportsmanlike
manner are free to every one, but
catching them by any illegal means
as seining, dynamiting, etc., is an
offense to the general public as well
as to the traction company and to
stop this practice, the Wichita Falls
Traction Company offers \$25 reward
to anyone furnishing information
necessary to convict such offenders.

service. Let every member and
friend hear our visiting minister.
The pastor will conduct a one hour
service in the evening from 8 to 9,
speaking upon "The Signs of Prom-
ise."

Some spend dollars in "drips"
trying to get good glasses, when
the same money in one "wad" would
have done the work the first time.
We know how. Dr. DuVal, the Pro-
gressive Eye, Ear, Nose and Throat
Specialist.

FUNERAL OF FRED LITTEKEN IS HELD SATURDAY MORNING.

The funeral of Fred Littiken was
held at the Catholic Church yesterday
morning. A large number of friends
of the family being in attendance. In-
terment took place in the Catholic
cemetery. Death resulted from a com-
plication of diseases from which an
operation brought no relief.
Mr. Littiken was the son of Mr.
and Mrs. Fred Littiken, well known
farmer of Wichita county. He was
27 years of age and was born in
Illinois, coming to Wichita Falls
about seven years ago. For a num-
ber of years he was employed by I.
H. Roberts, but recently has been
employed in the contracting business
with his brothers. He was married
and besides the widow leaves his
parents and six brothers and four
sisters to mourn his untimely demise.
Mr. Littiken was a man who stood
very high among his friends and
neighbors for his upright character
and straight forward life and all
who knew him will sincerely mourn
his death.

HORSE STEALING CASE IS LEGAL BATTLE AT FREDERICK

(Frederick Leader)
After the most noted legal battle
of the present term of district court,
the case of the State of Oklahoma
against Henry M. Eakman, accused
of stealing a horse, went to the jury
Tuesday afternoon at 5 o'clock. The
jury was out about thirty minutes
returning with a verdict of "not guil-
ty." The trial of the case had oc-
cupied practically all of Monday and

POISONED GRASS KILLS STOCK NEAR IOWA PARK.

(Iowa Park Herald)
A few weeks ago the Fort Worth
& Denver had several cars hauled up
and down their tracks with a liquid
in them, and on the side of the cars
it said: "Dynamite Kills Grass."
This liquid was sprinkled along the
tracks where Johnson grass had
grown, and after the big rains of
late, this liquid was washed down
the banks and into the fields where
stock was being pastured, and now
the report comes that James Magee
lost a valuable Jersey heifer and
Will Burnett lost four good steers
from eating this poisoned grass.

Ralph Hines Says--

Your comfort begins when you put
the shoes on your feet if the shoes
are

Selz Shoes

The perfect fit of these good
shoes is one reason we
handle them. You can
walk away in a pair of
your size and you'll
not need to break
them in.

A Selz shoe is a good
shoe in other respects,
too; you'll find on
every shoe bear-
ing the name a
guarantee of
your satisfac-
tion. That
makes it
easy for
you to
get
good
shoes
