STEPHENVILLE LOCAL NOTES.

A. L. Cole was in the city Saturday.

The Chautauqua grounds were thrown open to the people of Erath county Tuesday and about six thousand people enjoyed the free and excellent programe arranged by the business men of Stephenville.

Dr. Goodner of Harbin spent the fourth in Stephenville.

W. R. Able and J. E. McCarty were here on business Friday.

The Maloney Mercantile Co. opened up for business on the first.

County Treasurer Geo. Parker has gone to Mineral Wells in quest of health.

A number of Dublin people spent the fourth here and heard Sam Steele lecture.

Prof. Parker, manager of the Frisco-Central normal at Dublin, was here Saturday.

Judge Thompson and family have returned from Glen Rose very much improved in health.

Mrs. E. O. McIlhany had a large number of young people at her home Thursday evening.

Mrs. Bruce Cage gave a Japanese Tea Saturday afternoon in honor of her niece, Miss Pauline Phillips.

Will Cretty went to Austin Sunday to return Monday with his wife and baby, who have been visiting relatives there.

After spending several weeks with her aunt, Mrs. Bruce Cage, Miss Pauline Phillips left for her home at South McAlister Sunday.

Miss Crouse entertained a few friends Friday night. Dancing was the feature of the evening and a merry time is reported.

Miss Catherine Eggleston, one of the readers of the south, drew a large audience at Crow's opera house last Monday night. Miss Eggleston impersonated the characters in "When Knighthood Was in Flower" in a very charming and impressive manner.

The Farmers Union will meet at Stephenville on the 14th of July and amuse themselves with a grand picnic and public speaking. The fleecy staple will be discussed in all the different phases by the farmers of Erath county and also by the chief mogul of the institution.

Talk of Central Extension.

E. P. and S. A. Swenson of New York have purchased what is known as the Spur ranch in Kent, Garza, Dickens and Crosby counties, which embraces one million acres of land.

The Spur ranch was owned by a Scotch syndicate and the deal is said to have reached $3,000,000. The Swensons own extensive land interests in Jones and other west Texas counties and the purchase of this ranch is said to indicate that the Texas Central railroad will be built to the plains, as it is reported on good authority that the ranch will be opened to actual settlers.

Treasure Sought in Comanche County.

The Comanche Exponent of this week says: "T. J. Hanson, who lives above Proctor near the Leon, says quite a number of people think there is a buried treasure in his pasture and on several occasions have parties gone there and spent several days digging and prospecting. At one time several men from Waco came up and asked his permission to dig, promising to give him a large per cent of any treasure they might find. They were armed with an old Mexican chart and map. Mr. Hanson gave them permission and they dug and blasted in his pasture for a week or two, but found nothing. Mr. Hanson says he takes no interest in such matters, as the only 'treasure' he ever got was by hard work. There are several places in Comanche county where people think treasure was buried by the Mexicans or somebody back in the dim past, one of these places being Tom Tuggle's farm near Indian Creek."

RUSSIAN MUTINY

Warship of the Czar Floats Flag of Revolution in Black Sea and Demands Tribute of Cities.

Conditions of the war in the far east have recently been changing slowly and especially so since the peace negotiations have been under way. These are progressing as fast as might be expected, except that while Russia has intimated her readiness to conclude an armistice the Japanese have been following up their advantage on the Manchurian plains and have displayed no intention of of relinquishing their advantage and are apparently intent upon forcing a fight before the peace commissioners meet at Washington early in next month.

In the meantime Russia is having more to contend with in her foes at home than abroad and the petty czar of the boasted "all the Russias" has somewhat disgracefully consented to a convention to frame a limited constitution for the freemen held as slaves to his wishes.

Revolution is rampant throughout the empire, from the seat of misgovernment at St. Petersburg to the far away north of Siberia and from Odessa on the southwest to Vladivostok on the southeast. The common people, downtroden from generation to generation are rising against the claims of autocracy and demanding a government in which they may enjoy some voice and freedom. The sceptre trembles in the hands of Czar Nicholas.

Even one of the Russian warships of the Black sea fleet, the Kniaz Potemkie, has massacred her crew of officers and thrown them overboard and raised the flag of revolution. The government has since made futile efforts to sink the vessel by sending torpedo boats after her, but these have either joined her crew or been sunk in pursuit of their mission. Latest reports say the vessel has been calling at various Russian Black sea ports and enforcing her demands for provisions and coal by threats of bombardment and in some cases executing enough of the threat to show they mean business.

Pharmaceutical Board to Meet.

Notice of the Pharmaceutical Board for the 29th judicial district of Texas.—Notice is hereby given that the Board of Pharmaceutical examiners of the 29th judicial district of Texas will hold their annual meeting on Thursday, August the 10th, 1905, at Mineral Wells, Palo Pinto county, Texas; those desiring to take the examination will be governed by the above date and place.—J. W. Smith, Registrar, Stephenville, Erath county, Texas. 1t.

Woman Arrested for Theft.

Nellie Carens, a white woman, was arrested last week at Weatherford on charge of making off with $120 belonging to her aged grandfather in Comanche county and Sheriff Smith of Comanche went to Weatherford last Friday and has since lodged the prisoner in jail at Comanche. John Wright has been arrested at Stephenville as an accomplice and is also in jail. The woman was camped in Weatherford with a "wild west" show company when arrested.

Cotton Warehouse at Brownwood.

A joint meeting of the Farmers Union and Cotton Growers Association in Brown county has resulted in the decision to undertake the building of a cotton warehouse of not less than six thousand bale capacity. The company will be incorporated as the Farmers Cotton Warehouse Company with shares at one dollar each and each share holder limited to $25. Shares subscribed for will become due July 20th and work at once begun.

Cotton Prices Soar.

Farmers who have held their cotton long enough and taken care of it, have some reason now to feel glad over the price offered. The government report just out shows not only a very decided decrease in the acreage, but also a very poor condition of the crop at the close of report receipts on June 25th. Cotton at once took a leap skyward and the tendency has continued until the staple is today worth in the local market 9½ cents on a basis of middling and it is still on an upward tendency.

Holiness Meeting at Gustine.

We are requested to announce that the Holiness tent campmeeting will begin at Gustine Friday, July 14th, in charge of Rev. W. M. Henry and others and that all are invited to attend and take part in the meeting.

Theif Not Apprehended.

Deputy Sheriff Fulkerson reports that he has not yet apprehended the thief who stole his horse and D. H. Hurd's buggy some time during the previous night of Sunday week. The horse was taken from his stable about midnight of Saturday, hitched to Mr. Hurd's buggy and was found Sunday morning near Wilson.

Comanche Union at Energy.

The Comanche County Farmers union's regular meeting will convene at Energy Thursday of next week, July 13th, at 10 a. m. New county officers will be elected and delegates to the state union named. Hon. W. D. Lewis, member of the state executive committee will be present.

Deaf Mutes Celebrate the Fourth.

The deaf mutes of Oklahoma Territory celebrated the fourth of July with a picnic at a park in Oklahoma City. About fifty from different parts of the territory, together with those of the schools for deaf mutes at Guthrie, were present. One of the members made an address, using the deaf and dumb method of talking on the fingers.

Last Tuesday wes the day we were supposed to celebrate. Emancipation day came a little earlier. Printer folks everywhere were unable to observe either. It takes constant hostling to get out a live paper and stops cannot be permitted except in case of death and then only long enough to throw in the clods.

It is especially desired that all members of committees and of the directory be present and as many others as may desire to attend.

Child Killed By Rattlesnake's Bite.

Early Wednesday morning at Palo Pinto the two year old child of Dodge Bellew died from the effects of being bitten by a rattlesnake the evening of July 3rd, at the home of its grandmother, Mrs. McEntire, about one mile from town. The child walked off the end of the porch and soon began to cry. The family paid no attention to it for some minutes. As it continued to cry, one of the family went to the child and discovered a large rattler coiled up near it. The little one had been bitten on the right ankle and on the calf of the leg, from the effects of which it died. Two rattlers were found very close together and killed.

Base Ball Movements.

The Dublin team played Brownwood at the Brady fair Tuesday and Wednesday of this week, resulting in a score the first day of seven to two in favor of Dublin and the second day four to three in favor of Brownwood. Yesterday the boys played at Ballinger with Brownwood, resulting in a score of ten to four favorable to Dublin. The series will be continued there today and tomorrow. Sunday, Monday and Tuesday the Dublin team will play Angelo on their own grounds, and Thursday, Friday and Saturday of next week the game will be between Dublin and Brownwood at this place. Burks of Temple, an exceptional tosser of the globe, is now employed to pitch for Dublin and it's said he pitches a ball that they fan all the time.

San Angelo won four straight games from Brownwood on the Brownwood diamond, closing last Tuesday, the two last games being three to one and seven to six, but Wednesday they were defeated on the same grounds by three to two.

Miss Smalley will work under his direction and her salary will be $1,000 a year.

A Twentieth Century Farmer.

Farmers in this twentieth century cannot afford to live out their lives in a hum drum way, says the Tribune of last week. It was well enough during the pine-knot and tallow-dip stage of creation, but the world progresses and even the kerosene oil lamp is being relegated to the junk pile. Jarvis Goodwin, who lives near Thurber and is the owner of a large farm, is one of the progressive spirits who desires to get out of this life all the good that there is in it and provide himself and his family with the conveniences and labor-saving devices that science and inventive genius has given the citizens of this progressive period of human existence. Perhaps his association with the progressive people of Thurber was responsible largely for his expansive ideas. If so, its a compliment to the Thurber people and also tc Mr. Goodwin. One of Mr. Goodwin's latest ventures is the installation of an electric light plant with which to light up his residence, dairy rooms and barns. He will also use the power to saw his wood, do his churning and to operate other labor-saving devices on his farm. This plant was put in operation a few days ago, and of course Mr. Goodwin wanted some friends to come out and help him celebrate the opening, and a barbecue was given for the occasion. A large number of people were there to witness the turning on of the electricity that is hereafter to light up the home of Mr. Goodwin.

It was the intention to have William Jennings Bryan touch the electrical button but the leading spirits of Thurber could not get in touch with him in time.

Populists Have Served Mission.

J. P. Dingler, one of the most prominent old line populists in the county, was in to see us last Saturday. While talking about the political situation he gave us the following interview: "I think there will be a split in the republican party and there will be one wing dominated by Mr. Roosevelt and composed of the reform element in the party, and the other wing will be composed of the conservative or capitalistic republicans. I think now is the time for the populists to withdraw as a party from the political field, as Bryan had adopted all the populist demands except their redeemable money plank of the platform. I think the populist party has served its end, having accomplished what it set out to do, and should now withdraw and the populists as individuals be in readiness to align with the old party which promises the most toward reform principles. The principles of the people's party are now more popular and more talked of than ever before. I was one of the first men in Comanche county to attack the two old parties and advise getting up a new reform party, but am now ready to affiliate with the old party which will carry out the reforms asked by the rank and file of the people."—Exponent.

Joke on Harmsworth.

Sir Alfred Harmsworth, the London newspaper man, runs rather to sensationalism at times, and recently put himself in a ludicrous position through indulging in a saffron tinted effort, says the Kansas City Journal. A motor car ran over and killed a little boy in Hertfordshire. The occupants of the vehicle did not stop to see what had resulted from their recklessness. The police failed to discover the offenders at once, and Sir Alfred in his Daily Mail took the case up in a sensational fashion, offering $500 reward for identification of the motorists. In a few days the police learned that the owner of the car was Hilderbrande Harmsworth, Sir Alfred's brother. All England is now enjoying a laugh at the editor's expense.

NATURE'S WARNING.

Dublin People Must Recognize and Heed It.

Kidney ills come quietly—mysteriously.

But nature always warns you through the urine.

Notice the kidney secretions.

See if the color is unhealthy—

If there are settlings and sediment,

Passages too frequent, scanty, painful.

It's time then to use Doan's Kidney Pills,

To ward off Bright's disease or diabetes.

Doan's have done great work in Dublin.

C. L. Harris, farmer, living two miles west of Dublin, Texas, says: "Previous to getting Doan's Kidney Pills at the Overton Drug Co., I was troubled for more than five years with my back and kidneys. A dull, heavy aching across the small of my back caused me much annoyance, especially if I stooped or lifted anything, and the least cold I caught settled in my kidneys, causing too frequent action of the secretion and they also contained a brick dust sediment. The first few doses of Doan's Kidney Pills relieved me and in a short time I was cured. You are at liberty to refer to me as one who can recommend Doan's Kidney Pills from personal experience."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

An Ocean Mystery.

Undoubtedly the most extraordinary of the mysteries of the sea is the fate of the crew of the ship Marie Celeste; a more fantastic creation apparently, the novelist never wove. She left New York in 1887 for Europe, her passengers being thirteen, including the captain's wife and child. Two weeks later a British bark sighted her in the Atlantic; there was no sign of life on board. A boat was sent to her, and a most exhaustive search proved her to be as silent as the tomb, as deserted as a pesthouse. Everything was in its place, even the boats at the davits. The hull was undamaged, the cargo untouched. Rigging and spars were intact; the sails were all set. The crew's forecastle and awning covered the poop. Binnacle and wheel and rudder were complete. The sailors' kits and dinner were seen in the forecastle. In the cabin was a sewing machine, with a child's garment under the needle and on the table a half eaten meal. The chronometer ticked undisturbed in the chart room; the cash box unrifled. The logbook, posted to within forty-eight hours of the visit, showed the passage to have been favorable; the ship's appearance proved there had been no storm. Evidence of a struggle or piracy or murder there were none. Yet thirteen people had disappeared as if spirited away by some supernatural agency, and from that day to this the mystery has never been unraveled, although the United States government spared no effort to solve it.—McClure's Magazine.

A Wise Provision.

The most sensible thing done by the late session of the legislature was the enactment of a provision for the cancellation of the cetificates to teachers who fail to comply with their contracts to teach. It is very often the case that teachers apply and are elected by a board of trustees and no sooner than the teacher receives notice of election than he or she begins to look about for a better job with the intention of resigning if a better can be had. The board is bound by the election and cannot remove a teacher under the time for which he or she is elected except for cause and the board could be held responsible for the salary for a dismissal without cause. There certainly should be some responsibility attaching to the teacher and the new law supplies this by providing for the cancellation of the certificates to teach.

Last week one man came in and made affidavit to the ownership of twelve bottles and others will later on appear before Justice Long and Constable Starr and get their goods.

Emmett Tankersley, an old Stephenville boy, was married at Fort Worth on June 25th to Miss Elma Staples, a very popular young woman of Waco and a graduate of Polytechnic college. Emmett is now cashier in the National bank at Quanah. He was at one time connected with the post office at Stephenville and afterwards became an employee of the First National bank of this city.

The "Walking Arsenal," whose arrest was noted a few weeks ago, and who escaped later from the poor farm, has not yet been apprehended by the officers. When he escaped he had a ball and chain on his ankle, but B. G. Hall of the poor farm says he procured an axe and opened the links of the chain, and he was thus enabled to make better speed for a place of safety and it is not likely he will ever be re-captured. Sheriff Creswell has in his possession the two large pistols taken from him.

HICO

From the Review.

June 30th.—J. A. Duckett, who has recently sold out his business in Tolar, is in the city prospecting.

The new stone office being erected by Wieser & Co. at the roller mills is rapidly nearing completion.

Mr. A. Giesecke has sold about 165 bushels of plums at good prices already this year from his fruit farm north of the city.

Mr. George Dudley has let the contract for a fine two-story residence to cost about $3,000 to be erected on the site of his old home on the hill.

W. J. Rosamond, wife and baby boy will start on a visit to Stamford, Baird and other places in the west. They expect to have an outing of several weeks in search of health and pleasure.

The election held at Duffau recently to decide whether or not a tax of 40 cents on the hundred dollars should be levied for school purposes, carried in favor of the tax by a good, big majority so we understand.

Prof. J. E. Corrigan has just returned from a ten days trip to Yoakum county in the Panhandle country where he has purchased a section of land and also took an option on three or four more of the very choicest sections he could find.

Mr. J. S. Carpenter purchased of Mr. George Dudley 578 head of sheep this week which he transferred from the Dudley ranch to his own ranch about three and a half miles from Duffau. They passed through Hico Wednesday and attracted considerable attention.

From the News.

June 30th.—The prospects are good for the Hico band to be in working order very shortly.

Harvey & Cox shipped a car of mixed cattle to Fort Worth Tuesday. W. F. Hudson shipped two cars at the same time.

A high land moccasin snake about four feet long was killed on the walk in front of the First National bank Wednesday afternoon.

Mrs. W. M. Peeler, who has been visiting the family of D. T. Collier, left Wednesday for Dublin. She will visit there and other west Texas points before returning home.

Our city court and police department have about as much energy as any city officials we ever heard of. They held a term of court yesterday morning at five o'clock and fined two violators of the law before most people were out of bed.

F. W. Altman and Tom Hollis have the management of the confederate re-union this year. They understand the business and it goes without saying that the re-union this year will be a big success. The date is August 9th, 10th, and 11th.

Rev. D. T. Holmes died at the home of his daughter, Mrs. C. H. McCollum in this city, Monday morning. The remains were taken to Hamilton that afternoon and interred in the city cemetery there Tuesday morning after services at the Methodist church. He was seventy-five years old and leaves a wife and several children, among whom are Mrs. McCollum and Mrs. W. M. Erwin of this city.

COMANCHE.

From the Exponent.

June 30th.—C. T. Bryson has strung a telephone wire from town to his home in the country.

J. D. Miller of Fleming fears that the boll worm will injure cotton in his community.

The postoffice at Creamer, on the road between Comanche and Gustine, has been discontinued.

Marriage licenses have been issued to A. P. Fleming and Miss Emma Allen, W. A. Dyson and Miss Jennie Gooch.

J. T. Hanson of near Proctor says hunters in his pasture last week shot a fine horse belonging to Dempsey Graham and it will die.

About 660 taxpayers were cited to appear before the county board of equalization and show why their assessment should not be raised. The court has been in session this week and is hearing the protests from those cited to appear.

BROWNWOOD.

From the Bulletin.

July 5th.—Dirt was broken last Thursday on the new $15,000 public school building here. The building is to be erected of hollow concrete blocks, a new material invented and manufactured in Brownwood. It is to be three stories and a basement and will have an auditorium on the third floor with a seating capacity of four thousand. There are to be three large recitation rooms on the first and second floors.

A warehouse belonging to the Weakley Hardware Co. caught fire Monday afternoon but was extinguished with but a few dollars damage

Misses Fannie and Katie Wright of Dublin are visiting Mrs. W. M. Estes. They will accompany the Estes family on a fishing trip this week.

The hardware firms of E. J. Broad and the Huribut-Jackson-Hughes Co. at Brownwood have consolidated. The style of the last named firm will be retained.

Billy Logan and Chas. Sanger of Waco were here Thursday making arrangements to open up a cotton exchange. They are well known commission brokers.

Judge C. H. Jenkins returned this morning from San Antonio, where he has been acting as council for the defense in the Jonathan Miles case. He reports that Miles was acquitted.

W. M. Hooper of Indian Creek and Sheriff Denman returned Thursday night from Hamilton county, where Sheriff Denman recovered three mules belonging to Mr. Hooper and disposed of by parties arrested recently for stealing them.

Sheriff Denman visited all the club rooms in the city Friday evening and took possession of all the intoxicating drinks in them. The action is the result of an invescigation of the proposition by the grand jury the past two weeks. No arrests were made.

EASTLAND.

From the Bulletin.

June 30th.—About forty new residences have been built in this city in the last year, and not a vacant house in the town.

The commissioners' court adjourned last Friday to meet July 6th for the purpose of raising taxes on property given in too low.

Cal Hazel and Miss Mollie Eddleman were happily married at the home of the bride at Cisco last Sunday. We learn they will make Eastland their home.

Mrs. C. D. Spann, in order to save a nest egg, put an old door knob in a hen's nest and last Wednesday little Mae Clair went out to get some eggs, but instead of finding eggs in the nest found a large chicken snake, who had been gathering eggs on his account. She called to our high sheriff, Mr. Bedford, who was passing and he stopped and killed the snake and it was then discovered that the snake had not only taken all the eggs in sight tut had also swallowed the door knob.

Sheriff Bedford went to Ft. Worth last Friday after J. B. Miller, Carl Adainson and T. P. Weathered who are charged with swindling. They gave bond to appear here next Saturday, at which time an examining trial will be had. We learn that S. M. Pratt of Stephens county sold about 140 head of cattle to the above mentioned parties or a part of them, and after the cattle had been delivered and shipped by parties Mr. Pratt found that the check that had been given him in payment for the cattle was not good. Mr. Pratt claims his loss at about $2,600.

D. B. Bollinger was in the city Saturday, having just returned from the drawing at Jalisco, Mexico. He was very much pleased with that country and also the way in which the drawing was conducted and carried out. He said the lucky man from this county was B. E. Harmon of Staff, who drew a business lot and a tract of one hundred acres. Mr. Bollinger said that there were several from here who drew business lots, and among them were himself and W. T. Hill. Mr. Bollinger reports that about five hundred American people from the different states attended the drawing and that many would locate there. He also mentioned a number of enterprises that would soon be ready for business, among which were the building of an ice factory and bottling works, a four room two story brick school building and an experiment station of one hundred acres, which he will likely be interested in. Mr Bollinger seems to think that is a fine country, says there is doubtless lots of copper and silver near the city of Jalisco. He expects to move there with his family sometime this fall.

The Effects of Fertilizing.

J. A. Underwood of near Dublin was in the city on Tuesday, and fell in with the agricultural editor of the Tribune, and discussed fertilizers, farm ditching, public roads and many other topics that interest, on all of which he talked most entertainingly. In speaking of the use of fertilizers he gave his experience in the following language: "Several years ago I determined to see what effect cotton seed meal would have on cabbage. I prepared an acre of land, and opened up the furrows for the plants. I then distributed one ton of meal in these furrows and turned back the soil. I had planted my cabbage seed in January in metal cans. I used cold frames and had them covered with oiled domestic. At early planting time the five thousand plants were removed to the planting ground; and the plants were slipped into their holes without breaking the soil in which they had been rooted. The fertilizer made them wonderfully vigorous and fine, and I invited all my neighbors to help themselves for I had as yet found no market for them. Finally a Waco house shipped me a lot of sacks, and I made a contract to ship cabbage to them at $1 per hundred, and soon sold them $82.50 worth of as fine stuff as you ever saw. At this point my acre was about exhausted, but I still had orders not only from the Waco firm, but also orders from Temple and other points aggregating fifteen thousand pounds which I could not fill. If I had found the market at the right time I would have doubled my sales, for hundreds of the large heads burst open before I began shipping. It is my opinion that I could have sold the product from fifteen acres. After I had finished shipping, my Waco merchant wrote me a letter in which he stated that he had been handling cabbbage for a great many years, but that he had never handled in his life such a uniformly fine lot of stuff."—Stephenville Tribune.

Strange Action of Strange Man.

A boy looking to be about eighteen years old was at the court house today looking for the mayor and telling a peculiar story. It was to the effect that a manufacturing company in New York City which he had been working for was closed down on account of a strike and he was out of work. A gentleman on the streets, who had eight or ten boys with him, heard the boy inquiring for work and told him he would take him to Texas where there was plenty of work and good pay, that he would bring him back if he did not like it. Accordingly the boy accompanied him to Fort Worth, the gentleman paying the fare. At Fort Worth the boy was put on the Frisco, given a ticket and fifty cents and sent to Brownwood and was told that a man would meet him there, give him work and take care of him. There was no one here to meet the boy and he is here without money, friends or much knowledge of work outside the walls of a factory. He seemed distressed about his condition and impressed every one who talked with him as being in earnest. He stated that the gentleman who made these offers claimed to be an agent of a Child's Protection Association. The boy is evidently the victim of some money making scheme that should be detected. The gentleman with the other boys left for some other point in Texas.—Brownwood Bulletin.

Clever Plan For a Reward.

A young man about twenty years old by the name of Cleve Wyont, of Henrietta, has recently tried a new plan to get some favor from the M. K. & T. railway management. He placed an obstruction on the track and then went and informed that he had seen two men place something on the track to wreck the train. The matter was taken up by the officers and he was soon located as the chap who had done the deed and he confessed that he had placed a chain on the track and then went and told the officials in time to save the train, thinking he would get a reward.

CHOLERA INFANTUM.

Child Not Expected to Live from One Hour to Another, but Cured by Chamberlain's Colic, Cohlera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey of Agenewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by Overton Drug Co.

Young Man Drowned in Bosque.

Wednesday of last week Arthur Davis, a young man of about twenty-five years of age, son of Mrs. Mary Davis of this city, left the Frank Davis place near Help for Meridian to get some supplies. He did not show up in Meridian or return to the place he had been working.

Very little attention was paid to the matter, as it was thought he was either in Meridian or at Mr. Davis' place.

Last Saturday morning Jeff Baird noticed a horse in his pasture below Comanche crossing and did not take any particular notice, thinking some one was there fishing. He again noticed the same horse Wednesday morning and brought it to town. The horse was identified as belonging to Davis and it was also learned that Davis had never reached Meridian or returned home. The saddle on the horse showed that it had been in the water. Wednesday afternoon a searching party was organized to try and find the rider of the horse. In a short time John Crenshaw found the body lodged in a drift about one and a half miles below Comanche crossing.

Upon inquiry we learn that the river was about half bank full Wednesday of last week. Deceased had evidently rolled up his pants to his knees expecting a struggle on crossing the river.—Meridian Tribune.

That Referendum Again.

A citizen of Fort Worth asked the Fort Worth Record, "What about this referendum business, anyhow?" The Record gives the following straightforward answer:

"As to the referendum, it is a plain and simple application of the sound principle of popular rule. The only objection we have ever heard is that it originated with the populist party, and that it is not only illogical but silly. It was demonstrated two thousand years ago that good may come out of Nazareth, and wise men are always willing to learn of the simple.

"The point is raised that it causes delay, but that is captious. There is no worthy enterprise that will be defeated or destroyed by the mere fact of delay for sixty or ninety days. On the other hand, many a dishonest or unwise scheme may be uncovered in that time. The people as a whole are just as capable of passing upon the merits of a franchise as the city council, and as it is their streets and privileges that are being bartered they ought to be a party to the transaction."

Cultivate Cheerfulness.

Everyone has a welcome for the person who has the good sense to take things quietly. The person who can go without her dinner and not advertise the fact, who can lose her purse and keep her temper, who makes light a heavy weight and can wear a shoe that pinches without anyone being the wiser, who does not magnify the splinter in her finger into a stick of timber, nor the mote in her neighbor's eye into a beam, who swallows bitter words without leaving the taste in other people's mouths, who can give her own way without giving up the ghost, who can have a thorn in the flesh and yet not prick all her friends with it—such a one surely carries a passport into the good graces of mankind.—Big Springs Herald.

Take Care of the Cotton.

The Progress man was down at the wharf Saturday while a shipment of cotton which had been stored in the yards was being made, and had his attention called to the weather-beaten condition of the bales—nearly everyone of them will have to be picked from twenty to three hundred pounds. This cotton, or at least a portion of it, could have been sold for ten cents. This editor does not essay to offer advice to the farmers about cotton raising, but would strongly urge the plan of providing shelter for cotton which is to be held in the future. The damage to one bale in many instances would have paid for the building of a shelter for dozens of bales.—Gorman Progress.

The Diamond Cure.

The latest news from Paris is that they have discovered a diamond cure for consumption. If you fear consumptionior pneumonia it will, however, be best for you to take that great remedy mentioned by W. T. McGee of Vanleer, Tenn. "I had a cough for for fourteen years. Nothing helped me until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which gave instant relief and effected a permanent cure, for throat and lung troubles. At Overton Drug Co; price 50c and $1.00, guaranteed. Trial bottle free.

Would Wait Till One Came Around.

The drunken fellow, who when asked to take a chair said, "Thank you, I'll just wait till one comes around," was not a whit more absurd than the man who wants to buy or sell or swap something and waits indefinitely to make the trade, when by spending a few cents for an advertisement he would quickly accomplish his purpose. Life is too short and real business too urgent, in these modern times, to follow the slow methods of a hundred years ago.—Fort Morgan Times.

BLUFF DALE

Regular Correspondence.

July 5th.—Quite a number from here went to the Chautauqua at Stephenville the fourth.

J. P. Cobb left Thursday morning on a business trip to Mineral Wells.

Several parties from here will hear Bob Taylor at Stephenville Saturday.

Miss Ona Cornelius of Stephenville is spending the week with friends here.

James Drennan, assistant station agent, visited home folks Saturday night.

Cab Hines of New Mexico is visiting his parents, Mr. and Mrs. W. E. Hines.

Mrs. D. L. Dennis left Saturday for Moran, where she will visit for a few weeks.

Mr. and Mrs. John B. Wolverton left Monday to visit in Fort Worth and Dallas.

Foreman J. A. Brown of the Frisco bridge force paid his family a hurried call the first of the week.

Mrs. J. C. Singleton has been visiting her daughters, Mesdames I. A. and W. L. Griffith at Stephenville.

Rev. Shelby King of Granbury has been visiting here. He filled the pulpit at the Baptist church Sunday night.

A very pleasant time was spent by a large number of young folks at the residence of Mr. Wristen Tuesday night.

Mrs. H. T. Hall and Miss Ida Holt returned last Friday from a month's visit to points in eastern Texas.

Miss Alva Gray, who has been visiting relatives here for some time, returned to her home at Corsicana Wednesday.

Lee Kight of this place passed through Tuesday morning en route to Tolar, where he has extensive gin interests.

Mrs. J. J. Keahey left Monday to visit her brother, Gus Lowe, at Cleburne, who has been very ill for several weeks.

Mrs. E. H. Chandler returned Wednesday morning from a visit to her son, Hon. F. H. Chandler of the county capitol.

Bud Yarborough shipped a car of cattle to the Fort Worth markets Tuesday night. Mr. Jacobs will snip again in a few days to St. Louis.

Editor Gaston, of the Granbury News, and his daughter were in the city Monday. While here they were guests of L. F. and Miss Kitty Gordon.

Mr. and Mrs. Bailey Dunham left Sunday morning for Fort Worth, where they will reside. We regret very much to lose them from our midst.

There were two funerals at the Wesley Chapel cemetery this week. A nine year-old daughter of Mr. Cam of Poney Creek and a Mr. Davis, who lived in Somervell county.

A large number from town attended the ice cream supper at Mr. Sellers of Wesley's Chapel Saturday night. Everybody had a pleasant time, which is always assured at Mr. Sellers.

Ben Dykes happened to a very serious accident Wednesday. J. A. Duckett's seperator passed over his foot, crushing it very badly. It will be some time before he will be able to work.

Bert Dinsmore and Miss Steward were quietly married Tuesday night. Justice Greenwood also performed the marriage ceremony for a couple Monday but we failed to secure the names of the contracting parties.

We failed to tell last week of the damage done on North Paluxy by the deluge. J. Drennan was loser of six or eight acres of cotton and oats, while Dr. Greenwood lost twenty acres of oats entirely. His loss amounts to over one thousand bushels, as oats will average between fifty and sixty bushels to the acre around here.

Mr. Wm. L. Baber, the newly appointed postmaster, took charge last Saturday with Miss Edna Duckett as assistant. Mr. Baber has enlarged and otherwise improved the office since his installation to accommodate the rapidly increasing business. The two rural carriers, J. L. Hunt of route one and W. V. Cobb of route two will soon receive a nice desk each for their business. Mr. Baber is rapidly becoming acquainted with the duties of the office and we bespeak for him the utmost confidence of the community. Mr. Williams, the ex-postmaster, feels greatly relieved of the office after an eight years service. His many friends wish him every success.

[Prof. J. C. Bennett of Bluff Dale is the exclusive authorized agent for the Progress at that place. Payments made to him for the Progress on our account will be duly recognized. Persons interested in a good representation of Bluff Dale will confer a favor by reporting all local and personal items to him—Editor] 3-8t

CARLTON.

Regular Correspondence.

July 6th.—Mr. and Mrs. Carmicheal of Hico are visiting friends here.

Miss Ethel Moore left for home at Winters yesterday.

J. D. Clark went to Dublin yesterday on business.

The big rain yesterday evening caught quite a crowd of Caritonites down on the Leon.

The threshers are finishing up now. The run has not amounted to much this year.

Andas Rowland, who was kicked by a mule some time ago, cannot see with his left eye yet.

J. G. Flack has about enough names to insure a rural route from Carlton to Lamkin via Wilson and return.

Will Walker and wife of Coke county are visiting relatives and friends here. He reports crops in the west ahead of this country.

The entertainment gotten up by the young folks and given on the night of the fourth was a success. The object was to raise funds to seat our tabernacle. The amount raised was about $60.00 after deducting expenses.

Frank Martin of Purves was in our town Monday.

T. P. Tidwell has returned from a visit to Comanche county.

Miss Emma Ettheton burned her foot quite badly Wednesday.

Oce Purves is contemplating removing from here to Henrietta.

A protracted meeting is announced to begin at the Baptist church Wednesday night.

Miss Flora Hutchinson has been employed with the Maloney Mercantile Co. at this place.

A. Rodgers, our genial merchant, accompanied by his family is visiting his daughter in North Carolina.

Albert Hale and family are visiting in Paris, Texas, and Mr. Carter fills his place with the firm of Head & Warren.

The Maloney Mercantile Company have opened their large branch house at Alexander and are rapidly shaping for a big fall trade.

We are pleased with our prospect for good crops, especially corn and forage crops. Our fruit crop is also excellent this seasen.

Ollie, the ten year-old daughter of Bill Williams who formerly lived here, died at Leuders Monday and was buried here Tuesday.

Alexander hotel is to be opened at once under the management of Ollie Carter. Mr. Carter is well known and we predict for him a good patronage.

J. W. Bryan has sold his residence here to our fellow townsman, W. B. Warren, and will take charge of the Carter hotel at Comanche. Mr. Bryan is an experienced hotel man and we wish for him success in his new location.

The nice building erected by the Woodmen and Odd Fellows is now completed and the first floor will be occupied by our popular druggist, C. C. Oliver. These lodges are in fine working order and are a credit to our little city.

At a recent meeting of the school board of Alexander Jas. Wharton was re-elected principal and Miss Fannie Kay assistant. The school is receiving a nice list of transfers and prospects indicate an increased enrollment this year.

Mrs. Swearinger, who was recently sent to Cameron for an operation, is reported convalescent. Our local lodges and Dr. M. W. Rogers deserve much credit for this charitable deed. I mention this not boastingly but to remind other communities to respond when duties of similar nature may demand it.

ALTMAN

Regular Correspondence.

July 5th.—The hot weather is making cotton grow rapidly.

Elvin Sheets is visiting T. S. Hall and family.

Miss Mary Chadick is very sick at this writing.

M. H. Jones and son took possession of their store last Saturday.

Elmer Hall returned Sunday from the plains, where he has been at work.

Mrs. Mattie Altman of Hico is visiting her mother, Mrs. Knowles this week.

The farmers are nearly all through chopping cotton and some are laying by their crops.

Mr. Sowell will purchase a new thresher, as there is plenty of oats to thresh here.

Several of the young folks attended the children's day exercises at Clairette last Sunday.

W. F. Altman and R. C. Knowles left Sunday for Brady, where they think of locating.

Quite a number of our people had a fish fry yesterday down on the Bosque and report a good time.

DE LEON.

Regular Correspondence.

July 6th.—Miss Dannie Miller is visiting in Brady.

Mrs. J. C. Lambert and children are in Bluff Dale this week.

Mrs. Laura Hurron of Mt. Pleasant is here on a visit to her son, H. L. Hurron.

Wm. Manchester of Waco came in Tuesday and went out to his farm eight miles north of town.

Dick Carter is filling the place in the depot and express office lately filled by Raymond Rogers.

Jim Whaley and wife have returned from an extended visit to east Texas and southwest Arkansas.

Miss Mattie Hammitt of Gorman came in Wednesday to visit her brothers, Tobe and Kia Hammitt.

Mrs. W. C. Streety returned the first of the week from an extended visit with relatives in Hill county.

Mrs. J. A. Adams of Dublin and Miss Maggie Berry of Waco visited with Jno. C. Adams and family last week.

Mrs. Elizabeth Gilbert of McNeal, Ark., is visiting her nephews, the Messrs. Whaley, here for a few weeks.

Raymond Rogers was transferred from the De Leon depot to Hico, where he will perhaps be permanently located.

The fourth was observed here by the closing of almost every business house in town and a number went to the creek fishing.

A. K. Bender, who was taken very suddenly ill Monday morning on one of his farms on the Leon, is reported to be some improved today.

De Leon was visited by a splendid rain Wednesday evening which came in good time for most of the oldest corn and will be good for all crops.

A. L. D'Spain went to Dublin Thursday morning to meet his wife who has been visiting her daughter, Mrs. C. A. Tunnell, in Brownwood for two weeks.

Mrs. J. N. Estes of Mercury, who has been visiting her sister, Mrs. A. Stroble, left for her home Wednesday. Mrs. Stroble accompanied her as far as Dublin.

Mrs. A. H. Nelson and two little daughters and Miss Claudie Nelson of Beligreen, who have been visiting Zollie Nelson for several days, left Wednesday for their home.

B. P. Higginbotham had his left foot pretty badly mashed Monday by his saddle horse stepping on it. He had a fine young mule about ruined by barb wire Monday and three good mares badly cut on wire which was washed loose by overflows.

HAMILTON.

From the Herald.

July 5th.—Prof. J. O. Staff has been elected county lecturer for the Hamilton county Farmers union.

Mrs. R. A. Kooken came in Sunday from New Orleans to visit her mother, Mrs. Brunk.

The Journal-News and the Herald have been consolidated, to continue under the name of the latter, which has been published nearly thirty years

Sheriff Kinsey arrested Walter Turnbow at the Indian Gap picnic last Saturday and has lodged him in jail. He was under indictment for gaming eighteen months ago.

Jenks Brooks made a flying trip to Durant, I. T., last week and brought back Fred Baker, who was charged with seduction here. He was caught just as he was boarding a train for other parts.

Representative Chesly has appointed Miss Mary Scott of Hico to a scholarship in Sam Houston normal and Otto Burney of Evant, E. A. White of Pottsville and Miss Jessie H. Cornelius of Lanham to state normal at Denton.

There was a rush last week of property holders who wished to protest against the commissioners court raising their renditions, but the court held their ground in most cases. Col. Ramsey Cox plead with eloquence against the Central road being required to render at over $4,500 a mile, but it was raised to $5,000.

FROM THE EDITOR.

He Forgot That He Had a Stomach.

Talking of food, there is probably no professional man subjected to a greater, more wearing mental strain than the responsible editor of a modern newspaper.

To keep his mental faculties constantly in good working order, the editor must keep his physical powers up to the highest rate of efficiency. Nothing will so quickly upset the whole system as badly selected food and a disordered stomach. It therefore follows that they should have right food, which can be readily assimilated, and which furnishes true brain nourishment.

"My personal experience in the use of Grape-Nuts and Postum Food Coffee," writes a Philadelphia editor, "so exactly agrees with your advertised claim as to their merits that any further exposition in that direction would seem to be superfluous. They have benefitted me so much, however, during the five years that I have used them, that I do not feel justified in withholding my testimony.

"General 'high living' with all that the expression implies as to a generous table, brought about indigestion, in my case, with restlessness at night, and lassitude in the morning, accompanied by various pains and distressing sensations during working hours. The doctor diagnosed the condition as 'catarrh of the stomach,' and prescribed various medicines, which did me no good. I finally 'threw physics to the dogs,' gave up tea and coffee and heavy meat dishes, and adopted Grape-Nuts and Postum Food Coffee as the chief articles of my diet.

"I can conscientiously say, and I wish to say it with all the emphasis possible to the English language, that they have benefitted me as medicines never did, and more than any other food that ever came on my table. My experience is that the Grape-Nuts food has steadied and strengthened both brain and nerves to a most positive degree. How it does it, I cannot say, but I know that after breakfeasting on Grape-Nuts food one actually forget he has a stomach, let alone 'stomach trouble.' It is, in my opinion, the most beneficial as well as the most economical food on the market, and has absolutely no rival." Name given by Postum Co., Battle Creek, Mich.

There's a reason.

PROCTOR.

From Comanche Exponent.

July 4th.—There were no demonstrations here in honor of the noted day of our independence, though our people have as great veneration for our intitutions and as high appreciation of our liberties as those of any community in the United States. They are simply not demonstrative.

Mrs. Mattie Thompson is very sick.

Clarence Nugent of Stephenville was a pleasant visitor to our town this week.

Rev. Holmes will preach at the Christian church tonight and tomorrow night.

Dr. Parks has been quite sick at the hotel for several days but is reported better today.

Mrs. Rayford Reid went several days ago to be at the bedside of her daughter, Mrs. Meroney at Manor, who has typhoid fever.

The revival meeting at the Baptist church will begin Friday night and the new shingle tabernacle on their lot will be ready for occupancy.

Prof. Plummer, who was superintendent of our school in 1902, has returned to our community and last Sunday captured and carried off one of our most accomplished yourg ladies, Miss Wood Washington. Miss Wood was a teacher in our school last session and is the daughter of J. T. Washington.

Our Sunday school and League conference was a grand success. The most successful manner of conducting these institutions was freely discussed for two days. We had some very instructive and inspiring speeches and papers which no doubt put these institutions on a higher plane within the bounds of the Brownwood district. We had sermons from such men as H. A. Boaz, president of Polytechnic college; C. G. Shutt of Indian Creek, Brown county; Bro. Shuffler of Comanche, Bro. McGuire of Rising Star and Bro. Williams of Ballinger. In addition to the spiritual uplift of the occasion, the social feature was very enjoyable indeed.

COMANCHE.

From the Exponent.

July 7th.—Miss Josie Harris of Whitney is here visiting her mother.

J. W. Bryant from Alexander has taken charge of the Carter hotel.

J. P. Dingler says the boll worm is destroying the early cotton down his way.

The fourth was a dull day in Comanche, the town being practically deserted.

Mr. and Mrs. A. J. Toalson of Kyle are visiting their daughter, Mrs. George Albin near Fleming.

Over two hundred bales of cotton was shipped out of Comanche Monday and a good big lot of it Tuesday.

Geo. Doubleday and family and Mr. Lynch of Hico and J. D. Waring of this place are out on the Colorado river fishing.

W. H. Heath has given up the Carter hotel and moved to Dublin with his family, where he has bought residence property and will likely engage in real estate business.

W. D. Jenkins has resigned his position as principal of the Gustine schools and has gone to work in the store of Martin Co. His numerous friends are glad to see him in his present position.

Charlie and Lee Guyger of Proctor were here Wednesday. They informed us that Proctor is building up fast—a permanent tabernacle and several residences now under course of construction.

Several weeks ago A. L. Burleson bought one hundred and sixteen bales of cotton at seven and one-half cents with a view to holding it for higher prices. Monday cotton went up to nine cents and Mr. Burleson sold out for $7.50 clear on each bale or a total profit of $870. The deal amounted to over $5,000.

Winfield Scott and others were here last week, and it is rumored they are thinking of building a cotton seed oil mill on the lot where the yellow gin stood. The Scott interests owned a mill here once and moved it away. If they put in another mill it will be for the purpose of trying to "freeze out" the present mill, which is owned solely by home people, in order to have a monopoly of the business in this section and thus be able to dictate prices for cotton seed. The Scott interests already own mills at Brownwood, Ballinger, Dublin, Stephenville and Hico, and the Comanche mill is their only competitor in the seed market. There is no necessity for a second mill in Comanche and the people do not look with favor upon a second mill being erected here.

BROWNWOOD.

From the Bulletin.

We are in receipt of the announcement of the forthcoming marriage of our popular and good looking friend, Wade Monroe Waller of Dallas to Miss Nell Elizabeth Clapp of that city, which happy event will be solemnized at the residence of the bride's mother at 232 Park avenue in Dallas at 7 o'clock Tuesday morning, July 18th. Mr. Waller is the traveling salesman for the A. G. Elliot Paper Co. at Dallas and as such is a frequent and welcome visitor to the Progress, as well as to all the other newspaper offices of this section of Texas. His friends can only be numbered by a recount of his acquaintances and the regard for him constantly grows with further association. The Progress in advance wishes for Mr. Waller and the estimable lady whom he will lead to hymen's altar, every happiness that a congenial unity can afford.

It speaks well for the reputation of the Dublin schools when it is noted that the school boards in all of our sister towns of any size for many counties around are constantly on the lookout to secure a member of the Dublin faculty. Last year Prof. Cline went from the second place in the Dublin schools to take the first in the De Leon schools, this year Prof. Wright went from the high school faculty of Dublin to take an advanced salary in John Tarleton college and Prof. Sims has now filed his resignation from the second place in our schoos to take the superintendency at Comanche. Other members of our faculty have also had tempting offers from our neighbors, all of which goes to show that the talent of our schools is recognized by our neighbors.

Messrs. Eugene Moore and W. X. Barnes were in the city last Friday in the interest of a railroad from Glen Rose to Granbury to connect with the Frisco. Mr. Barnes states that his people are going to have railroad connection with the Frisco to Granbury or Tolar or with the Central at Walnut. He said that if Granbury would raise a bonus of $15,000 and right of way to the Somervell line, this point would be selected. The people of Granbury ought to take an interest in this matter and secure the road to Glen Rose. It would prove a valuable feeder, and she cannot afford to let some other town take it.—Granbury Democrat, June 30th.

Messrs. C. B. Long and Trim Barrett will attend district court at Hillsboro next Monday as witnesses in the cases of the state vs. Bob and Joe Hunt of De Leon, who are charged with an assault upon Conductor Clark on the Texas Central passenger train last fall on a return excursion trip to Waco to attend Ringling Bros. show. It is alleged that the two persons charged knocked the conductor down and drew a dirk knife on him and that they were parties also to breaking out nearly every glass in the car and otherwise damaging it. Several others have already plead guilty and paid fines for their part in the affair.

Mr. A. H. Plummer of Ft. Worth and Miss Wood Washington of Proctor were united in marriage at the latter place last Sunday morning, July 2nd, at 5:30 and passed through Dublin on the train to their home at Ft. Worth a few hours after. The groom is a member of the faculty of the Ft. Worth high schools and is considered an educator of high attainments. The bride was one of the most popular and accomplished young ladies of the little city of Proctor and a sister to Mrs. Will McCampbell of this city.

Our long time farmer friend W. R. Jennings, and his estimable wife, who reside near Harbin, expect to leave next Monday for the boyhood home of Mr. Jennings, near McMinnville, Tenn., where two or three months will be spent on a visit with his brother and sister. He has not visited his old home before in sixteen years and he and Mrs. Jennings look forward to a most pleasant trip. They will be joined on the trip by G. W. Jennings and wife of Hill county, a brother of Mr. Jennings.

Prof. Henry Sims, who has for some time past held the position of principal in the Dublin High schools, was elected superintendent of the Comanche schools at a meeting of the board there Monday night at a salary of one thousand dollars a year. The professor will accept the position and has accordingly filed his resignation with the board here.

Dave Deaton last Monday disposed of his livery business in Dublin to Bert Drake, who will with Sim Brown, continue the business. Mr. Deaton thinks he may possibly remove to Umbarger or Hereford in the event his wife's health is improved with that climate.

In the court of criminal appeals at Austin the case of Thurman Sexton, recently given three years in the penitentiary for mule theft, was affirmed. The cases of Sid Counts, E. M. Peeples and Dave Holt, also appeals from Comanche county, were ordered carried over to next October.

Personal Mention.

Perk Brown is in the city this week.

Capt. R. H. Reid of Proctor was in town today.

J. H. Wilder spent several days of this week in Brownwood.

Attorney Helton of Comanche spent last Sunday in Dublin.

Miss Percy Moore of Comanche visited relatives here last week.

Merchant W. E. Lowe of De Leon was in town yesterday afternoon.

Farmer W. R. McPherson of the Carlton county is in Dublin with cotton today.

D. L. Harris and wife left yesterday for a stay of two weeks at Eureka Springs.

Miss Ora Shelby left last Sunday for an extended visit with relatives at Louisville, Texas.

L. Carlisle was over from Comanche first of the week with a view to returning here to reside.

Miss Leva Robinson is the guest this week of her sisters, Mesdames Walling and Tate at Comanche.

Mr. and Mrs. Ross of De Leon spent the fourth of July with Mr. and Mrs. J. T. Foote in this city.

Prof. E. I. Hall was called to Marlin this morning on business and will be absent until Sunday or Monday.

P. B. Arrington, type writer expert and dealer of Dallas, was a pleasant caller on the Progress yesterday.

Mrs. Pack Bettis returned to Dublin Monday after having visited here a short while, says the Walnut Springs Hustler.

Farmer J. B. White was seriously ill with cramp colic last Saturday but was able yesterday to be at town for a short time.

Prof. J. D. Shaw left yesterday for a two weeks trip in the Abilene country in interest of university extension work.

Mrs. Sam G. Harris and daughter, Miss Fannie, returned last Friday to their home at Valley Mills, after a brief visit with relatives here.

Tom Miller, B. W. Lafferty, Ed Powell and Will Eddleman left Tuesday on the Frisco evening train for a few day's outing at Shadrick's Mill on the Colorado river.

Prof. Jas. Wharton of Alexander was here Tuesday and went into the nearby country in the interest of the Woodmen order. He gave the Progress an appreciated visit.

M. Cagney left this week for a trip to the northwest, including Salt Lake City, Yellowstone National Park, Seattle and Portland. He will be absent about six weeks.

Capt. A. M. Jones of near Dublin spent several days this week in attendance at the Trans-Colorado fair at Brady, which he reports lacked a very great deal of being a success.

Mr. and Mrs. Dave Deaton left Monday night for Umbarger in Randall county, where Mrs. Deaton will spend some time for her health. Mr. Deaton will return in about two weeks.

J. E. Johnston and family left last Monday for an overland trip to Tulia in Switser county, where he will visit with relatives. He will be absent a month or more and may extend his trip to New Meixco before returning.

Granville Hodges of Edna Hill and Dr. B. R. Tubbs of same place were in Dublin Tuesday en route for a trip to Arkansas, the former going to Leslie, and the latter to Mountain View. Dr. Tubbs expects to return to this section after an extended visit but Mr. Hodges will probably remain there with relatves.

E. Rouleau's Carriage shop is equipped with tools, machinery, material and competent help to supply the demands of the trade. Carriage work is the principal line of business. All work is cash, except by arrangement. tf

Dr. J. J. Mulloy, practice limited to the diseases of the eye, ear, nose and throat. Office over the Grange Store, Dublin, Texas.

The Protectionist at Valley Mills says G. L. O'Briant, late of Dublin, has located at that place.

He eats heartily in the hottest weather who uses Prickly Ash Bitters. It keeps the stomach, liver and bowels in perfect order.

Sheriff Mack Cresswell and County Attorney Pannill, in company with the local officers, yesterday afternoon raided the cold drink establishment at the Klondyke old stand but found nothing but what is termed "Tetotal" and "Ino," neither of which come within the prohibitive law.

Many of the summer normals are now closing but the normal at Dublin is just entering upon the second and most important part of its work. The first examinations were held yesterday and will continue today and tomorrow and the next will be held July 27th, 28th and 29th. We understand that fifty or more are taking the first examination. The enrollment has now reached one hundred and thirty and additional persons are constantly enrolling. A patriotic service was held last Tuesday morning—the fourth of July—and after that the school took holiday. The service was very interesting and included appropriate addresses from each member of the faculty and from some of the students. Many of the students and faculty, whose work will not interfere, are expecting to go to hear the Taylor lecture at Stephenville tomorrow. This normal this year is the most business like institution one may see in a summer normal. The leading and all-pervailing feature has been to accomplish something and the social part for the school has been altogether a secondary consideration instead of as is usual taking the first place. All in attendance report a most pleasant time, however.

Dublin was practically deserted last Tuesday and the town largely presented the appearance of an extra dull Sunday in the middle of the summer. Everything was closed from about nine in the morning until after four in the afternoon even the drug stores and cold drink people participating in the general holiday. Nearly every one went to the country for a breath of fresh air and a whiff of the new mown hay and many of them angled for the finny tribe on various nearby streams with varying success. The postoffice was closed also except for a few minutes after the arrival of each mail train but it was gayly and profusely decorated in the national colors and the standard of the republic floated over the building, though at half mast in mourning for the dead Secretary of State John Hay, whose remains lay in state in the city hall of his home at Cleveland, Ohio, during the day.

Our young friend, W. S. Baker, of Purves is the inventor and patentee of an automatic safety attachment for gins, which he has had on exhibition at the Powell gin in this city for several days past. The device is an automatic lift for the gin breast, which stops the feed of cotton when lifted. The attachment does its work promptly in case the condenser happens to stop, a thing that often occurs, and which always gives the ginner considerable trouble. This device dispenses with the annoyance so caused and is also convenient in changing bales or in any other instance where it is desired to stop the feed. Mr. Baker has associated Mr. Sebe Goodwin of Purves with him in the sale of his patent and they have already contracted to place the attachment on each of the gins in Dublin. Practical gin men all pronounce the device a very useful invention.

The rural route carriers had a holiday Tuesday on account of independence day.

Market Moved.

We have moved our market just opposite our old stand where we are better prepared to furnish the trade with more and a better variety of ham and other smoked meats. We will call the attention of the trade to the quality of our sausage and the low prices of our fresh meats in general. We will be prepared to make our own balongne and other varieties of sausage that heretofore we have not been able to make on account of not having the room at our old stand.—Jones & Norton, market, Dublin. The auction sale of dead freight by the Texas Central at Walnut Springs recently, brought a combined amount of $223.35. The sale consisted of refused or unclaimed freight gathered from all along the road. It is said many people got bargains in their purchases, but others paid several dollars for boxes of old almanacs. The freight could not be opened and examined until sold.

The new schedule that became effective on the Central last Sunday makes no change in the time at Dublin of the 12:30 noon train west or the 4 p. m. train east. The morning flyer was changed to reach Dutlin at seven o'clock and leave fifteen minutes later and the evening train west to arrive at 9:50, departing immediately.

The heavy increase of business in the various departmnets of Higginbotham Bros. general mercantile establishment at this point has made a number of changes in the management necessary and the employment of an additional bookkeeper. Mr. Don Bowie of Weatherford is acting in this capacity.

THE FARMERS' UNION

The farmers union picnic at Blum has been postponed to some time in August.

* * *

State President Barrett of Georgia is establishing a business department and managing same.

* * *

Hood county union will meet at Granbury today, Parker today and tomorrow at Weatherford and Tarrant today near Grapevine.

* * *

There are now five state Farmers unions—Texas, Oklahoma, Arkansas, Louisiana and Georgia—with a membership of a quarter of a million.

* * *

The meeting of the Indiahoma State Farmers union at Tishomingo, July 18th to 21st, promises to be one of the biggest events of the summer.

* * *

The Farmers union of Morgan Mill has purchased the J. W. Gaither gin at that place and will hereafter operate it in the interest of the organization.

* * *

Bro. Montgomery states that Organizer Burklow has just hit Kansas and writes back this sententious letter: "These people will organize." and Burkelow will see that they do. Next?

* * *

It is stated in the Mercury-Password that the appointments made for President Murray, Vice-President Calvin and others have been withdrawn by the state executive committee.

* * *

The Farmers union of Brown county is taking steps to build a cotton warehouse at Brownwood with a capacity of six thousand bales. Committees were appointed and the meeting called for July 10th.

* * *

The state committee of Georgia union is arranging for a special car and expect to bring a train load of delegates and visitors to the national meeting at Texarkana. Georgia proposes to be strictly in the swim.

* * *

Erath county union met yesterday at Lingleville, Palo Pinto met July 3rd and 4th at Mineral Wells, Bosque at Meridian, Johnson today at Sand Flat, Runnels yesterday and today at Ballinger and Hill county will meet July 13th and 14th at Peoria.

* * *

The big dailies are loud in the prediction that the Farmers union will go to pieces, and cite the present disturbances in the order as a sure forerunner of disruption, but we hope they are reckoning without their hosts. Let the order weed out those who are in the union to "use it," and all will be well.—Texas Farmer.

* * *

About noon one hot day last week a wool clad friend of the writer argued that wool was a better material for summer clothing than cotton, because what would keep out cold would keep out heat and when we asked him why he left that heavy woolen overcoat at home which he wore all last winter he turned away, muttering something about "going to extremes."—Abilene Journal.

* * *

That there will be difference of opinions on matters of policy to be pursued by our union when we meet in our state meeting is but natural. But, if every man among us will lay aside all selfish ambitions and work for what we honestly believe to be right and work for it in the proper way we will all be satisfied when we are through. An appeal to prejudice always fails in the long run. Let's be men.

* * *

Hill county union farmers are fixing for doing their own ginning this fall. They have contracted for a four stand cotton gin to be erected at Mertens and other locals will no doubt follow soon. Mertens is a fine location, being in the center of a fertile and thickly settled part of Hill county. The plant selected will cost about $5,000 when completed.

A call has been issued by Lecturer John W. Baker of Abilene for a meeting of the Farmers unions of Taylor, Callahan, Jones, Fisher, Nolan, Mitchell, Howard, Borden and Scurry counties, to meet at Abilene July 21st at 10 a. m. to organize a West Texas District union and to formulate plans for a closer and better financial co-operation, especially in the handling of cotton in large bulks.

* * *

W. E. Berry of Cuthbert, Mitchell county, wants each farmer union or non-union, to state how many bales of cotton he will hold off the market and then to put up a forfeit of $2.50 or more per bale, or make good bond or note for the money, the obligation not to be binding unless five thousand bales shall be thus tied up, a complete report to be made not later than the first of October.

* * *

How cotton can be selling now at eight cents, if there was as much made last year as the government reported, is one of the things that can't be explained on any other ground except laregly increased consumption. Friends, if the world's needs have increased thus, what ought you to have for your cotton in case of a light crop this year? But you will have to organize and strike for it if you get it.—Abilene Journal.

* * *

COTTON WAREHOUSE AT STEPHENVILLE.

A committee representing the Farmers union consisting of John Winters, John P. Jones, Mr. Wood and Mr. Golightly and of Willard Chamberlain and J. J. Bennett of Stephenville representing the Southern Cotton Growers Association, passed a resolution recently at Stephenville meeting, recommending the building of a cotton storage warehouse large enough to contain five thousand bales. The Central District union will now take up the matter and it is likely it will pass.

FARMERS JOURNALS.

A steer with a rope on him, with a cowboy and a pony at the other end of the rope, has a mighty poor show; and so has a farmer with a mortgage on him, and a creditor and a sheriff at the other end of the mortgage.

Was it the sudden discovery of a shortage that caused the price of cotton to spring from nine cents to sixteen cents toward the latter part of the season of 1903, after the bulk of the crop was out of the farmer's hands? No. It was the sudden discovery that a few speculators had obtained a corner on the market. The farmers could just as easily have gotten the fifteen cents a pound themselves if they, before turning the cotton loose, had stood in with one another and demanded it, as the bull speculators did later on. The speculator had to buy the cotton. The farmers had it to start with.

The prospect of a district organization, through which the farmers of west Texas may be enabled to sell thousands of bales of cotton in one "lumping" trade, grows brighter the more it is talked of. If a warehouse is necessaay to concentrate cotton so as to alter the old way of peddling it out on the streets, then let the warehouse come. If only that warehouse could be filled with unincumbered cotton! The meeting is to occur at Abilene, July 21st.

* * *

MINEOLA COURIERS.

The strength of the union depends on the strength of the locals. Build strong locals.

Clean around your own door before you talk about other people—and then don't do it.

The mortgage is unmerciful. It is an absolute disgrace for the producers of wealth to have to give them.

If we can own our produce when we get it made, we are safe. We must own before we can completely control.

There is no room for selfishness in the Farmers union except the selfishness born of a desire to see the union succeed.

Control prices, not by politics, but by business methods. By organization, concentration and aggregated mentality.

Two thousand strong in Newton county, Missouri, writes State Organizer Ray. They are taking hold in a business way.

Meditating upon legislative corruption, a thoughtful man was moved to say: "If representatives really represent the people, what a scurvey lot we are!"

HELP WANTED.

No Energy. No Will Power. No Ambition. Losing Confidence in Self and the Confidence of Friends or Employers.

A State of Health That Needs Prompt Treatment to Ward Off Serious Disease.

Do you notice a large reduction in your vital energy? Are you losing hold on your place in the social world? Is your strength gone, constitution weak, appetite poor, digestion deranged, bowels costive, with uneasiness and symptoms of derangement in the region of the kidneys? Such a condition is the preliminary to Bright's Disease or some other serious kidney trouble. If this describes the state of your body, we urge upon you prompt action before your health is entirely beyond recovery. Prickly Ash Bitters is the remedy you need; it has a four-fold restorative effect. It stimulates the torpid liver, restores health in the stomach, strengthens and cures the kidneys, and through its peculiar yet agreeable laxative character it clinches the good work by thoroughly cleansing the bowels. It is a certain remedy for kidney and liver diseases.

Accept no substitute. Insist on having the genuine Prickly Ash Bitters with the large figure 3 in red on the front label.

Church organizations are a necessity for the maintenance of worship and the promulgation of religious teaching, but a church organization should never be used to bring any pressure to bear directly or indirectly upon any man to hinder him in his honest search for truth or in his honest expression of what he believes to be the truth—Rev. G. A. Kratzer, Universalist, Fitchburg, Mass.

* * *

Occasionally we become so interested in the affairs of other people that we forget to attend to the duties that belong to our own sphere. It is far better to give persistent thought to the things dependent upon us rather than try to manage the things committed to our brethren. After we have met our own obligations fully, it will be time to busy ourselves about the matter of those next to us.—Texas Christian Advocate.

* * *

The supreme need of mankind is conversion to religion, to the spiritual point of view, to an appreciation of what is most worthy of the name religion as a human asset—a conversion to the spiritual point of view, an estimate of religion not apart from practical life, but as a force in forming and sublimating it all, the innate force, if it is not denied or ignored, making for nobility and for the noblest way of doing all things—Rabbi Charles Fleischer, Hebrew, Boston.

* * *

The meeting in porgress at the Baptist church for two weeks past closed Wednesday night and Rev. Lattimore of Denton, who has been assisting in the meeting, left for his home yesterday. Much good has been accomplished for the church and religious sentiment in general and something like twelve new members added to the church rolls. Regular services will be held at the church next Sunday and the ordinances of baptism will be administered to all who are ready and may be present for that purpose.

* * *

The Christian Endeavor society of the Christian church held a very interesting patriotic service Sunday evening. Prof. Gaylord Kline led the meeting and the house was beautifully decorated in flags and flowers. A splendid key-note was that whenever the call comes a multitude responds eager to die for our country, but what is more needed is a host who will live for it. At the conclusion of the meeting the minister installed new officers for the ensuing six months. These are J. S. Pipes, president, Miss Isla Cathey, vice-president, Miss Bess Maloney, secretary and treasurer, Miss Nell Andrew, corresponding secretary.

Urgent, our Lord tells us, was his life. He is the example of all true living. These lives of ours, shortened now by the measure of another year, should be urgent also. There ought to be in every life the urgency of the feeling of being sent. This was in the life of Jesus. "I must work the works of him that sent me." There ought to be in every life that urgency of a sense of obligation. "I must work the works of him that sent me," said Jesus. How this urgency of obligation will prevent the careless and aimless frittering of our swiftly passing and only life in this world! There ought to be in every life urgency of the need of instant seizure of opportunity. There was this in the life of Jesus. "I must work the works of him that sent me while it is day," said Jesus. Opportunity comes, but does not wait. "Seize her by the forelock," said Thomas Carlyle; "she has no backhair." There ought to be in every life the recognition of the urgent fact of the end. There was in the great life. "The night cometh in which no man can work," said Jesus. But the ending night here shall be sunrise in the better country if we shall have been urgently true to the great trust of life here. And there is forgiveness for past failures in Jesus Christ.—Rev. D. Wayland Hoyt, Baptist, Philadelphia.

Why He Affirmed.

Judge Shelby of Alabama was once talking about the difference between swearing and affirming, says the Buffalo Courier.

"Whatever the difference is," he said, "it is assuredly not what a certain old colored man understood it to be last week. This colored man, entering the witness box, said he thought he wouldn't swear. He thought he would just affirm. 'Erastus', I said, 'how is this? A month ago when you appeared before me, you consented readily enough to swear. Why is it that you will only affirm now?' 'Wel, yo' honah,' said Erastus 'de reason am dat I speck I ain't quite so sure about de facks o' dis case as I wus o' de odder.' "

The Progress gets so much good reading matter from the Brownwood Daily Bulletin that the editorial table needs to be supplied with two copies of each edition in order that all the good reading on both sides may be gotten at. The Comanche Chief and Stephenville Tribune are about in the same demand, though we are able to manipulate the latter with little trouble on account of one side being "patent." There's lots of room on the inside of the Tribune for more good home matter that Capt. Jenks knows so well how to get and make readable.

A man wrote the editor of the Gatesville Star-Forum: "I don't want your durned old paper any longer." The editor replies that he is not trying to make the paper any longer—that he can hardly get enough news to fill it up now. He hopes that with this explanation the man will let the paper be sent to him three more months, when he will owe just $5 on subscription.

Compare this week's issue, or any other issue, of the Progress with any county weekly published in west Texas for the same week and see if your opinion of the Progress is not enhanced. Do not make the comparison to see how poorly the other paper may appear but how good the Progress is.

Child Bitten By Skunk.

Claude Rutherford, a twelve year-old boy living with his parents nine miles north of Graham, was recently bitten on the hand and arm by a skunk. The little fellow was sleeping on the porch when the vicious animal attacked him. His father, hearing the noise, ran out and knocked the skunk off the porch with a blanket, but it came immediately back to renew the attack. This was repeated, and at last Mr. Rutherford picked up a chair and killed it. Fearing hydrophobia the boy was taken to Graham and upon advice of medical attendants taken on to Austin to take the Pasteur treatment.

A Strange Coincidence.

A story from Lexington, Ky., under recent date says:

Miss Mary Etta Proctor, daughter of Thomas Proctor, of this city, was the victim of a strange coincidence on the occasion of her graduation from Cardone Catholic school in Georgetown, and as a result her mother lives in fear of a fatality.

Just as the young woman stepped on the platform to read an essay a swallow flew in at the window and fell prostrate at her feet. Before proceeding the girl picked up the bird and with tender hands revived it, and walking to the window permitted it to fly away, after which she began her essay, the subject of which was "The Flight of the Swallow."

WHAT THE CHURCH-BELLS SAY.

On the quiet Sabbath mornings, when I hear the church...
Just two re-iterated words to me they always bring.
O, those words are so familiar as they fall upon my ear,
That I smile in my reflections, for each church-bell ...

While I sit and listen, listen to each bell as it doth call,
Then I study o'er the question "how can I obey them ...
For there are so many churches, that within my heart I ...
That to pay them all one visit, would employ me for a ...

And sometimes on Wednesday evenings, when my duty ...
I attend the different churches and I find the faithful ...
They all smile and say unto you, "from false prophets ...
But, I am so glad to see you, now continue to come here ...

All the churches have one object, or at least they say they ...
And I would never dare to think that Christians were ...
But if they mean they all are one, to me it isn't clear,
That contradictory chorus of, "come here! come here! ...

Now brethren should I start a church, I'd call it "Christ...
That takes in everything at once and cometh from above ...
I'd have my members true as steel, I'd never doubt nor ...
And my church-bell would be calling "everybody now ...

The Baptists want deep water, just like the Christians do ...
The Methodists they sprinkle and the Presbyterians too ...
They all preach Christ our Savior, and love that casts out ...
But their bells are all monopolized, for each one says ...

If a poor deluded heathen should come to our fair land,
Dear friends, could his benighted mind be made to understand ...
Do you think though we endeavored to make his vision ...
That he wouldn't be disgusted with those ding-dong ...

I am searching for a treasure that I hope some day ...
It would prove a soothing syrup to this much befuddled ...
I want to find a church-bell that's my earnest heart-felt ...
That will ring in tones unbiased and will say, "Go ...

A certain railway in Michigan has a station entitled Sawyer's Mills, but is usually entitled, for short, Sawyer.

A rural couple on one of the trains attracted much attention by their evident fondness for each other until the brakeman thrust his head in the doorway of the car and called out "Sawyer!"

"Reuben" suddenly assumed the perpendicular and indignantly exclaimed, "Well, I don't care if you did; we've been engaged three weeks."

The head teacher in a Sunday school was much worried by the noise of the pupils in the next room. At last, unable to bear it any longer, he mounted a chair and looked over the partition. Seeing a boy a little taller than the others talking a great deal, he leaned over, hoisted him over the partition, and banged him into a chair in his room, saying:

"Now be quiet."

A quarter of an hour later a small head appeared around the door and a meek little voice said: "Please, sir, you've got our teacher."

Marriage and Infectious Disease.

A young woman in the state of Washington sued a man for breach of promise of marriage. In his answer he confessed the promise, and averred that he would have married the woman had he not discovered after it was made that she had tuberculosis. The court held that if tuberculosis is an infectious disease, transmissible from parent to offspring, it is against public policy that a person suffering from tuberculosis should be married, and that nobody should have to pay damages for breaking a promise to marry such a person. This is a case in which the state must be cruel to some individuals, in order to be kind to the majority. In self-defense it should prohibit such marriages.

GLEN ROSE LINE.

Some Prospects that Frisco May Build a Tap Line From Granbury to Health Resort.

The Glen Rose Star of June 30th, appropos of the above subject has to say:

The Star has been watching the railroad situation closely for the past six months, in order to take advantage of any favorable turn for a railroad to Glen Rose. Last Saturday we felt that the psychological moment was at hand, and spent that day in Fort Worth, interviewing Frisco officials and the Fort Worth Board of Trade, the wholesalers and members of the Factory Club and received assurance of material aid in getting a line to the Frisco. In an interview in which we gave the advantges to be derived, the undeveloped possibilities, resources, etc., and that a bonus of $40,000 could be raised as an inducement, a director of the Frisco said: "If conditions are as good as you picture them, and a practicable route can be obtained, then if you get up such a bonus and right of way is gotten up, the Frisco will build the road to Glen Rose."

The Star man was referred by City Engineer Hawley to Mr. Coppage as a thoroughly reliable engineer, and we made an appointment with him to meet us in Granbury Sunday, ride over the proposed route, and for him to give his opinion on its practicability and estimate the cost of the survey. The Star pays his expenses as we are anxious for a road.

We will have some better news next week.

The Trap of Our Forefathers.

"When the first unscrupulous man found himself in possession of millions of dollars the constitution became not his master but his tool," says Frederick Upham Adams, in Tom Watson's Magazine. "When the officials of our first great corporation found it practical to bribe legislation, the trap set by the forefathers was sprung. I do not mean to hint that the founders of the constitution foresaw any such outcome. They constructed a device to protect themselves, and their bones had crumbled into dust before wealth was sufficiently armed and equipped to take advantage of their mistakes.

"Wealth seized upon the senates, state and national. It found in the judiciary a natural ally, and it did not hesitate to invoke the aid of partisanship and the unblushing use of corrupt influences, direct and indirect, in order to subject the courts to its domination. This is a blunt statement, but the time has arrived when the courts can no longer be covered with a machine-made robe of sanctity. There are good judges and bad judges, but the decisions of the latter are as binding as those of the former. A corporation judge is not a priest: he is a low type of politician.

"Our aristocratic forefathers designed a constitution intended to protect themselves against a majority. Our modern corporations and vested interests have discovered that the same machinery oiled with bribery can be used by the minority for the purpose of plundering the majority. Our forefathers invented checks; our trusts have converted them into bludgeons. Our forefathers constructed constitutional ramparts, behind which they hoped to be safe from the attacks of the majority: our vested interests have bristled them with guns, behind which they demand and receive tribute."

Figuring Around.

Three-fourths of the business men "figure around" when they want a piece of job printing of any size done. These same men are quick to condemn the practice in other people and know that there is nothing saved by the people who go all around town, if wishing to buy a pair of trousers, a peck of potatoes or a box of pills. Why they do it is one of the mysteries of business. There is as much difference in job printing as there is in the practice of medicine or law, yet men are never seen going the rounds of the doctors' offices to see who will make the lowest bid to take care of a case of sickness, nor do they "figure around" when wanting a lawyer to examine a title. If they want a doctor or a lawyer they employ them and trust to their honesty to do the right thing. The same plan should be adopted when dealing with the printer. The newspaper man may have extended favor after favor to a man, may have worked himself to death and to poverty, lauding his town that the property interests of the capitalists may be advanced, but all the good he has done, or may ever be able to do, is forgotten if there is a chance to save fifteen cents on a job of printing by getting competitors to bidding against each other to see who can get the job the cheapest and then in turn, to save themselves from loss, do the cheapest job.

If there was really anything much to be saved or any certainty that anything would be saved even by accepting the lowest bid, there might be something to justify the practice. But lets see if anything is ever really saved. Paper, such as is used on ordinary jobs, costs all the way from about three cents a pound to about thirty cents; ink varies in price from five cents a pound to three dollars, and the men who do the work get wages varying from the devil at five or ten dollas a month to as much as three dollars a day for the best job printers. When a job is hawked around and let to the lowest bidders, the only thing the low priced man can do to protect himself is to cut on quality, because he has to pay as much for good stock, good ink and competent printers as his competitor. Paper varies so much that it is comparatively easy to cut down a cent or two and some times much more on each pound without the customer knowing it. The cheapest newspaper ink can be substituted for the costly job inks without many patrons discovering the difference and if the bid has been too low, after making these savings, the devil can be put on it as a practice job, while the job experts are looking after the work in which there is a margin of profit. When printers get to figuring on work the man who wants to do good work with good material is at the mercy of those who want the job at any price that will get it, and the customer, when he accepts the lowest bid, is usually at his mercy, too. An instance came to our attention recently where one printer was given a job amounting to about fifteen dollars because his bid was fifteen cents the lowest, when there could easily have been a difference of two or three dollars in the stock used and more than that in the kind of work turned out. It is a pretty safe conclusion that the low priced man is going to protect himself in some way, so that he will not work for nothing, especially when there is so little chance for detection in substituting. Printers as a class are as honest as any other business men, and work for as low a margin of profit. It is not by any means the lowest priced job that is the cheapest. The man who does the figuring is not apt to figure so that he loses. If there is a loss it is generally borne by the man who "figures around." If you have any confidence in the printers and have work to do in their line, take the job to them, show them what you want, ask them to make the price as reasonable as possible, and you may be sure of getting really more for your money than where you practice hawking. If you haven't confidence in the printer it is far better to let him alone, than to give him a job at any price.

Must the Hen "Go?"

Seems as though there were more substitutes now than during the civil war. A corporation with a capital of $6,500,000 is making eggs, warranted "strictly fresh," out of casein, which is made out of milk. Thus the cow lays eggs, so to speak. As yet, however, she does not displace the hen. Casein eggs won't hatch. Will star-eyed science yet make them hatchable and consign the hen to the museum?

Thoughts For the Fourth of July.

To have freedom is only to have that which is absolutely necessary to enable us to be what we ought to be and to possess what we ought to possess.—Rahel.

Countries are well cultivated, not as they are fertile, but as they are free.—Montesquieu.

The cause of freedom is identified with the destinies of humanity and in whatever part of the world it gains ground, by and by it will be a common gain to all who desire it.—Kossuth.

This is what I call the American idea of freedom—a government of all the people, by all the people, for all the people; of course, a government of the principles of eternal justice—the unchanging law of God.—Theodore Parker.

The greatest glory of a free-born people is to transmit that freedom to their children.—Havard.

Many politicians lay it down as a self-evident proposition that no people ought to be free till they are fit to use their freedom. The maxim is worthy of the fool in the old story, who resolved not to go into the water till he had learned to swim.—Macaulay.

We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty and the pursuit of happiness. That to secure the rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute a new government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likey to effect their safety and happiness.—Declaration of Independence.

Let Common Sense Decide

Tom Nolen's case, in which he was convicted of seduction at the last term of the district court of Bosque county and given two years in the state prison, has been reversed and remanded. Nolen was released Monday from custody upon his old bond.—Meridian Tribune.

The damage suit of W. B. Phillips of Iredell against the Texas Central railroad, in which judgment in the sum of something over $7,000 was given in the district court of this county, was carried to the court of civil appeals and was then certified to the supreme court of Texas and the application was refused.—Meridian Tribune.

Judge Lockett, district judge in the old district composed of Hill, Johnson and Bosque counties, has purchased property and located in Cleburne. The legislature divided the district, making a district of Hill and another of the counties of Bosque and Johnson. Judge Lockett will continue to preside over the last named district and Judge Wear has been appointed by the governor for the Hill county district.

The commissoners court in their session last Friday made arrangements whereby jury scrip made a leap from fifty cents on the dollar, where it has been for over two years past, to seventy-five cents on the dollar and this applies to all jury scrip which has heretofore been issued, and which will hereafter be issued during the year 1905. Under these arrangements it will go to ninety cents next year and at par the year following. The court has not increased the rate of taxation in the county to do this, but is equalizing its finances and valuations. Jurors for the coming July term of district court, as well as the other courts of the county, will now receive $1.50 cash for their services instead of $1, which is at least a long step in good finances on the part of the commissioners court.

As a matter of donation to the editor, advertising in any other newspaper in Dublin territory serves the same purpose as an advertisement in the Progress. The Progress does not wish to conceal the fact that we want business, but we want business, not charity. We are prepared to serve the advertiser who wants to advertise and to reach the largest number of people of the Dublin territory with what they have to say at the least expense and in the best manner. We are there with the goods on our part. Regular circulation—at this time—not sample distribution—more than two thousand copies weekly, ninety-five per cent of which is in Dublin territory. Let us show you.

1 Dollar Saved Represents 10 Dollars Earned.

The average man does not save to exceed ten per cent of his earnings. He must spend nine dollars in living expenses for every dollar saved. This being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain,s Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by Overton Drug Co.

The newspaper that takes money for advertising on the pretext of having a circulation that it hasn't got, is obtaining money under false pretenses. The Progress issues a circulation statement each year and the circulation books, the mailing machine lists, the paper bills and the press counting machine are open at all times to prospective advertisers, besides Wednesdays and Thursdays the pile of paper in course of printing can be seen. Our rates are low considering the circulation in Dublin territory.

July 4th.—Farmers are about up with their work.

Many attended the picnic at Stephenville the fourth.

Robert Pack of Pigeon visited relatives in this section Friday and Saturday.

Fountain Johnson has his sorghum mill and evaporator ready to make up syrup of the community.

Crops are, as a rule, very good. Our sandy land corn has agreeably surprised us all and the close black land is all one could desire. Cotton is late but looks as though it would come up to its usual standard. Gardens have revived and vegetables are plentiful.

The writer was at R. K. Glanton's last Sunday and looked at his fine cabbage that he calls show heads. They are simply fine and large. He has almost every thing that grows in the garden, and young vegetables now up and growing for fall use and he has his fine farm and ranch advertised for sale. He says he wants to sell out and go where he can fish and hunt.

Our neighborhood has one of the best organized marble teams in the county. As soon as crops are laid by they expect to challenge the county for a game of the best six out of seven from one to five hundred dollars. No fudging will be allowed.

OPEN FOR BUSINESS

Having purchased the stock of the late G. B. Maloney & Co at a big bargain, we have now opened our doors to the public and are prepared to serve the people with a complete line of General Merchandise, including also Hardware and Implements and will have Some Great Bargains to offer.

To the former patrons of Maloney & Co., we wish to say that their liberal patronage will be appreciated by the new firm and that the same courteous treatment and accomodations will be extended as was the custom of the old firm to extend. We want your business and are prepared to offer inducements to get it.

YOURS VERY TRULY,
