State Capital NEWS

Austin. — Major changes in state drivers' license law go into effect on August 28. At the same time, inspection of additional auto equipment will be required, and minimum fee for vehicle inspections will be raised to \$1.75. Inspections for the 1968 stickers will continue until April 15, the usual deadline.

Under the new law, front seat belts will be required on all cars which have belt anchorages as part of original equipment. Steering mechanism, wheels and rims also will be added to inspection items.

Other changes effective next week include:

- Licensing law raises minimum age to 16 for those who have completed a driver's education course and to 18 for those who have not had approved training.

- Minimum age for operating a motor scooter has been raised to 15, and a special examination will be required after January 1 to operate a motorcycle.

- All licenses issued to persons under 21 will be stamped "provisional" and may be suspended if the operator is convicted of two traffic law violations in a 12 month period. (This provision effective January 1.)

- Motorists convicted of driving without a license will be subject to a fine of up to \$200 for first offense and stiffer penalties thereafter.

- Those convicted of driving while intoxicated (or similar offense) are subject to first suspension of 12 months (18 months for later offenses) and may be required to attend a program of rehabilitation for problem drivers.

- Thumb prints will be required on all original applications.

- Driving while license is suspended or revoked is punishable by fine of \$25 to \$500 or a jail sentence of three days to six months.

- Stiff penalties are provided for counterfeiting or forging a license.

- Department of Public Safety will in the future receive from Department of Public Welfare a list of all Texans receiving aid due to visual defects.

POLITICAL SIGNS EMERGING — First major political indicators of what is expected to be a stormy year ahead began to come into focus here last week.

House Speaker Ben Barnes and Lt. Gov. Preston Smith acknowledged that they sat down together to talk over their plans at length.

Barnes said Smith told him he plans to run for governor and

encouraged him to seek the lieutenant governor's office.

Both declined to make any formal announcement of their plans until after Gov. John Connally's return from Africa about Sept. 4.

"I am hoping things work out so there will be no big political turmoil, but I have stated repeatedly my plans are not dependent on what anyone else does," commented the lieutenant governor.

"I may announce in the next few weeks, but I have to think about all this," said Barnes. "This is a political decision I am not ready to make yet."

Most observers rate Governor Connally as almost certain to seek a fourth term.

ATTORNEY GEN. SPEAKS — Atty. Gen. Crawford Martin said it is up to each individual school district to decide if it wants to adopt the new "tenure" or "continuing contract" law for its teachers. However, once adopted, the tenure plan protecting teachers against firing without cause becomes mandatory.

In other recent opinions, Martin has held that:

- Insurance issued to an individual under a group policy does not become incontestable under the insurance code until two years from the date the person becomes insured under a master policy.

- District judges and district attorneys can claim full reimbursement for official travels out of county of their residence, effective September 1.

- Cities under 185,000 population cannot pay any portion of firemen's personal obligation as contribution to relief and retirement fund.

- Writ of possession on property sold at a tax sale may be issued to the purchaser after expiration of 20 days from end of redemption period.

OIL OUTPUT REMAINS HIGH — Texas Railroad Commission maintained August's high oil production allowable for September — 54 per cent of potential.

September figure allows for maximum production of 4,075,231 barrels daily, unchanged from August.

Allowable has zoomed following Middle East oil crisis. It was 33.8 per cent in May, 35.9 per cent in June, 42.9 per cent in July and 54 per cent in August.

Nominations to purchase oil from major buyers came to 3,406,451 barrels a day for September, an increase of 383,041 over August. Bureau of Mines predicted the demand for Texas crude in the coming month would be 3,525,000 barrels a day.
