The "Borden Citizen," publication of the Borden County Historical Survey Committee, launched its 9th year of publication with its September issue, which reached our desk the past week.

The September issue reported that the Borden County Museum Committee is fixing a display of fossils and artifacts for the "open house" scheduled in Permian Basin area museums beginning tomorrow and continuing through Sunday.

The Scurry County Museum, along with those in several other Permian Basin cities will be participating in this open house event for four days.

Cities and towns along U.S. Highway 87 had their day before the Texas Highway Commission last week to present a plea for Interstate 27.

The U.S. 84 forces have their bid in and will be conferring with the Highway Commissioners. The latter group is particularly interested in a "Plains-to-Port" route from the Houston-Galveston area to the High Plains and Panhandle via the state capital.

Administrative Highway Engineer Mark Yancey was quoted recently as saying that Texas will need approximately 72,000 more "lane miles" of road by 1990. Making a four-lane highway out of a two-lane road for a distance of 20 miles would add 40 lane miles.

Why is upgrading to four lanes important? The Texas Good Roads Association says one life is saved each year for each five miles of highway built to modern Interstate standards.

The opening ceremonies of the Billionth Barrel of Oil celebration here Monday morning probably lured more television cameras here than any other event in history. Chamber of Commerce Manager Mickey Nunley said he counted nine.

The event got excellent play on Channel 8, Dallas, Monday evening, receiving fully as much attention as the Middle East crisis, with a generous amount of film. Lubbock stations have shown their coverage of the billionth barrel ceremony and coming up Saturday is a 30-minute show devoted to the billionth barrel celebration on a Midland station (SCAT) 5).—WACIL McNAIR

## No Contest Plea For Tax Evasion

By RICHARD H. PYLE
Associated Press Writer

WASHINGTON (AP) — Vice President Spiro T. Agnew resigned Wednesday, his historic decision announced by a weeping staff secretary.

Agnew then pleaded no contest in federal court in Baltimore to a single count of federal income tax evasion.

The vice president, his face drawn, entered the plea before U.S. District Court Judge Walter E. Hoffman.

Hoffman told the vice president he considered the no contest plea the equivalent of an admission of guilt.

Hoffman sentenced Agnew to the maximum $10,000 fine and placed him on probation without supervision for three years.

Agnew left the courthouse at about 2:40 p.m., stepping into a limousine for an unknown destination. Agnew told newsmen that the Justice Department has not been fully prosecuting witnesses in his case.

Witnesses against him had received either full or partial immunity, Agnew said.

Waving to bystanders, he drove off.

He had attended a hearing in which he and Atty. Gen. Elliot L. Richardson were seated in a courtroom for about 30 minutes.

Agnew's resignation means President Nixon will submit to Congress a nominee to succeed the vice president. The Nixon nominee would take over the vice presidency upon approval by both branches of Congress.

Agnew has been under federal investigation in connection with alleged kickbacks in Maryland, where he served as governor before becoming vice president.

Mrs. Lisa Brown, the Agnew secretary, told The Associated Press of the resignation. She said she was speaking on behalf of J. Marsh Thomson, press secretary to Agnew.

SPIRO T. AGNEW

She was in tears.

Agnew entered the plea to a charge of evading federal income taxes in 1967.

There was no indictment. Agnew entered his plea to charges filed by the Justice Department, thus waving his right to have his case considered by a grand jury.

Secretaries at Agnew's office in the Executive Office Building said there would be no further comment immediately.

Mrs. Brown said only:

"The Agnew staff has just returned from a meeting in which we were informed that the vice president has resigned as of 2 o'clock this afternoon."

At the time word of Agnew's resignation swept through the capital, President Nixon was in his Oval Office.

There was no indication whether he was meeting with anyone.

## Resentencing In Drug Cases Out

AUSTIN (AP)– The Texas Court of Criminal Appeals ruled today that the resentencing provision of Texas' new marijuana law is unconstitutional.

The court agreed with Austin Dist. Atty. Bob Smith and other prosecutors that allowing judges to reduce sentences of persons previously convicted of marijuana possession usurped the governor's power of commutation.

Under the new law, possession of four ounces or less of marijuana is a misdemeanor. But hundreds of Texans are serving prison terms under the old law which provided up to life in the penitentiary for possession of marijuana.

The resentencing provision was designed to give these people the chance for reduced sentences, or even outright release, under the table of punishments set out by the new statutes.

Resentencing, the court said, would in fact be a commutation.

To uphold resentencing would "be equivalent to announcing that the legislature, in enacting such section, clothed district judges with the power to grant commutation, etc., after conviction, thus ursurping the governor's powers granted to him by the constitution," the court's opinion held.

Smith brought the problem to the court after District Court Judge Tom Blackwell scheduled a resentencing hearing for Frank DeMolli.

# Iraq Joins Mideast War

By THE ASSOCIATED PRESS

Israel claimed its warplanes blasted Damascus airport and other strategic targets in the Syrian and Egyptian heartlands today as Iraq announced its air and ground forces have joined the five-day-old Middle East War.

In Washington, the U.S. Defense Department said today that the Soviet Union has begun using its biggest and best transport planes to deliver "very large tonnages" of military supplies to airports in Egypt and Syria.

Syria reported its air defenses drove the Israeli airport raiders away from Damascus before they could get close enough to damage the four-year-old airport.

But as reports of ground fighting slacked off, Damascus charged other Israeli jets were hitting civilian targets at the central industrial city of Homs and Syria's major ports on the Mediterranean. The Israeli command described the targets as "strategic and military."

Tel Aviv and Damascus reported major aerial engagements also swirled over the Golan Heights battleground and both sides claimed downing large numbers of the other's planes.

The Israeli military command said its raiding jets inflicted "considerable damage" on the Damascus airport. A spokesman said the facility "is no longer a civilian airport but a base for military strikes into Israel."

It was the second reported raid on the Syrian capital. Israeli jets bombed the Defense Ministry and government radio station on the eastern fringes of the city Tuesday. Civilian casualties were reported heavy.

## Two More Victims Identified

HOUSTON (AP) — Pathologists have identified two more victims of Houston's mass murder case, leaving unidentified only seven of the 27 bodies recovered last August.

Two brothers, missing from their home in the Houston Heights area since late 1972, were identified Tuesday.

They were Michael Anthony Baulch, 15, and Billy Gene Baulch Jr., 17, sons of Mr. and Mrs. Billy Baulch.

Dr. Joseph A. Jachimczyk, Harris County medical examiner, said the body of Billy was found in a grave near High Island in Chambers County. He had been strangled.

Jachimczyk said the body of Michael was uncovered in a Houston boat shed. He had been shot twice in the head.

The multiple slayings came to light Aug. 8 when Elmer Wayne Henley telephoned police he had shot to death Dean Arnold Corll, 33, in self defense during a sex and paint-sniffing party at Corll's home in suburban Pasadena. Henley named Corll as the leader in a homosexual murder ring.

Henley and David Owen Brooks, 18, led authorities to a Houston boat shed and at locations near High Island and near Sam Rayburn Reservoir in San Augustine County where the bodies of all teen-age boys and youths were recovered.

Bonnie Bailes, 23, Route 3, Snyder, and her daughter, Sherry Bailes, 3, sustained minor injuries in a two-car collision on Smith Street three blocks east of the Clairemont Road in the Green Hill Addition at 6:05 p.m. Tuesday.

They were taken to Cogdell Memorial Hospital by Snyder Ambulance Service. Both were released after receiving treatment.

Investigating Highway Patrolmen said Mrs. Bailes was driving a 1963 Model Oldsmobile that was in collision with a 1971 Model Ford driven by Johnnie Chambers, Box 1102, Snyder. There was moderate damage to both vehicles.

# Congress Backs Mideast Efforts

WASHINGTON (AP) — President Nixon conferred with congressional leaders today and won unanimous support for his administration's efforts to halt the Middle East war.

Senate Democratic Leader Mike Mansfield, who reported the unanimous support, indicated the congressional leaders were told that it could be a long conflict.

Nixon and Secretary of State Henry A. Kissinger gave a 90-minute briefing to 19 Democratic and Republican congressional leaders, bringing them up to date on the latest military and diplomatic developments.

Talking with reporters on the White House driveway after the meeting, Mansfield said that the question of supplying arms to Israel is "always under advisement" but that it did not arise at the meeting.

Mansfield, when asked whether there were predictions about the length of the conflict said, "It might not be a six-day war."

The congressional leaders, Mansfield said, "are unanimously behind the position" pursued by Nixon and Kissinger in their diplomatic contacts to "bring about a settlement in the Middle East."

# Even a scoundrel can look you in eye

By Abigail Van Buren

© 1973 By Chicago Tribune-N. Y. News Synd., Inc.

DEAR ABBY: I am a 19-year-old girl who never had a date.

Well, I met Ralph, this really nice kid at work. He's 24 and on the quiet side. He's not very sharp looking, but he has nice manners and I think he has good character because he's always talking about his involvement in church youth activities. Ralph asked me if he could meet my parents and ask their permission to date me, which I think is rather unusual for a guy these days, don't you?

I invited him over, and my mother said: "He has such nice manners, it's too bad he isn't taller."

My father said: "I never trust a guy who doesn't look you in the eye when he's talking to you, and this guy is one of them."

Abby, I like Ralph, and want to go out with him. Do you think my father could be right?

DAUGHTER VERSUS FATHER

**DEAR DAUGHTER: Yes. And he could also be wrong. There are plenty of scoundrels who can look you squarely in the eye and lie like blazes if there's enough to be gained by it. Get to know Ralph better before making any judgments.**

DEAR ABBY: A few months ago my sister told me her son had committed a crime and was in prison. [She gave me his address so I could write to him.] She said I am the only person she's told, and to please not mention it to the rest of the family. My sister never told me what her son did or how long he's in for, and I didn't want to question her, fearing it might upset her.

I wrote to my nephew, but didn't have the courage to ask him any questions. I did ask him what I could send him. He answered immediately, and told me not to send him anything because he couldn't accept anything. Can this be true?

Should I write to the warden and ask him what my nephew did and how long a sentence he's serving? Also, it doesn't seem reasonable that my nephew can't accept anything from the outside. CONFIDENTIAL, PLEASE

**DEAR CON: If your nephew advised you that he cannot accept anything, believe him. Don't ask the warden for the particulars of your nephew's crime. If your sister didn't choose to tell you, and your nephew doesn't volunteer the information, refrain from asking. It will come out [and so will he, hopefully] eventually.**

DEAR ABBY: We're trying to teach our 3-year-old daughter table manners at dinner. I say that dinner is a place to be thankful, unwind, enjoy dinner, and have a pleasant conversation. My husband says it's the place to teach our daughter good manners. I agree, but how do you discipline her and let her enjoy her meal without everyone getting upset?

We're going 'round and 'round. Please help us. MOM

**DEAR MOM: If everyone gets "upset" when you try to teach your child table manners, there must be something wrong with your method of teaching. Correct her gently with patience, instead of with anger and harsh criticism. And don't pick at her for every little infraction. Let a few things go. Youngsters who are constantly upset during mealtime often develop stomach disorders later.**

**Problems? You'll feel better if you get it off your chest. For a personal reply, write to ABBY: Box No. 69700, L. A., Calif. 90069. Enclose stamped, self-addressed envelope, please.**

**For Abby's booklet, "How to Have a Lovely Wedding," send $1 to Abigail Van Buren, 132 Lasky Dr., Beverly Hills, Cal. 90212.**

## Woman Becomes Contractor

SALISBURY, Rhodesia (AP) — There may be other jerry-built houses in Rhodesia, but Su Fleet says that only hers is the real thing.

Su, a Salisbury model, and her architect husband had started building their dream house in the suburbs when disaster struck.

"Our one and only contractor made a mess of it before it was hardly started. And we knew what would happen if we let them carry on.

"We'd have had to pay a lot of money for an inferior job that wouldn't last and wasn't what we wanted in the first place. So I went into Salisbury and tried to register as my own contractor."

Jerry Builders is the new firm's name and Su is director, proprietor, shareholder and key employe.

She was amazed that nobody tried to stop her from forming Jerry Builders.

"They didn't even ask me to lay a brick. All I did was pay $10 (about U.S. $14) with $100 (U.S. $140) deposit. I'll get that deposit back when I dissolve the company.

"So what it amounts to is that for $10 — no experience, no qualifications, no trade tests, nothing — anybody can be a contractor. The only stipulation is that you hire registered labor."

Husband George designed the house. "I hired him for obvious reasons," says Su.

Carpenters, plumbers, electricians and others are hired direct.

"Normally the contractor does all the hiring for you. But that way you don't know what quality or quantity of materials are being used or even if they are the ones you want. You don't know when it will be finished. You don't know the standards of the workers.

"Once you start stipulating preferences, the costs shoot up. You can't win," Su declared.

George believes that "nobody in this country seems to give a damn about living in jerry-built houses. Nobody cares that they are being taken for a ride. Well, we do."

The dream house is still a shell of rough brick walls. The builders' children play on piles of sand and stacks of lumber. But Su is content.

"At least we'll have the only properly Jerry-built house in the country."

## Kent Turns To Radio Advertising

KENT, Ohio (AP) — Kent State University has turned to radio commercials as a means of boosting college education — and Kent State.

A spokesman for the school said students "just aren't breaking down the doors to get into college" and that "colleges have been forced to advertise for students."

One commercial cites five successful KSU alumni. But the most successful one uses children's voices, says Angelo Coulis, KSU director of radio-television information.

The voices are those of a boy who wants to be a fireman and a girl who wants to be a nurse. An announcer tells them that a college education can help them achieve their goals.

# Ex-Con Attempts Return

BABY BOY. By Jess Gregg. Putnam. 256 Pages. $6.95.

Meet Baby Boy Clabbern, one of the biggest foulups to appear in recent fiction and also one of the most endearing.

Baby Boy, so named because the orphanage he was raised in never quite got around to giving him another name, is illiterate, a condition he manages to get around when he wants something read to him by claiming his eyes were injured in an industrial accident or some other outrageous lie. He is also a thief, an utterly incompetent one, so bad, in fact, that when he breaks into a house the most valuable thing he can find among a collection of rare antiques is a snapshot album which he loses to another thief who breaks into the same house and robs it as well as Baby Boy.

Released from prison, after serving time for a crime he wasn't anywhere near smart enough to have pulled off, the young ex-con wanders innocently into a civilian life that he can neither comprehend nor adjust to. His adventures on the outside are hilarious to the reader, but not so to Baby Boy, who decides after a while that life in prison is vastly preferable to being outside the walls.

But with a mind like his, getting back into jail is almost as hard as getting out.

## GETTING HIM BACK IN HIS CORRAL!

# Banking Future Is On Display At Meeting

By JOHN CUNNIFF
AP Business Analyst

CHICAGO (AP) — You might see your banking future in the displays at the McCormick Place convention center here. The American Bankers Association is holding its annual meeting, and what do you suppose they've attracted?

Racks of dishes and silverware, displays of stuffed dolls, trays of jewelry. There are Bible salesmen and salesmen of hand-lettered scrolls, and a manufacturer of chimes and carillons who wants banks to ring in the nation's bicentennial.

The Christmas display companies are demonstrating how, with holly and wreaths and candy canes and trees, a bank can transform itself into the spirit of Santa Claus. Christmas is a time for spending, they say.

A grass seed company is urging bankers to offer "horticultural premiums," the suggestion being that the depositor's grass will grow even if his savings might not.

Need it be said that the banks want your money these days, even if they are reluctant to part with theirs in the form of a home mortgage? And they are willing to try almost any enticement, including high interest rates, to get it.

The assortment of premiums on display seems to suggest that if competition by interest rate fails — and to some extent it might have — the banks will be fighting furiously with premiums.

Mere weeks ago some banks thought they had a great thing in their "wild card" CDs — certificates of deposit unrestricted by rate limitations. But then they found a good deal of the money came not from the outside sources but from the passbooks of their own depositors.

The future of retail banking, and to some extent of society too, is demonstrated by the large number of automated, self-service devices that might reduce the bank's overhead, the customer's wait in line — and provide personal service.

One device, designed to operate from the bank's outer wall, is activated by the customer's bank card. Insert the card and a sign appears on the television screen: "Welcome to ——bank, where our customers like the way we work for them."

The customer then raps out his request on a device similar to a touch-tone telephone. He might want to make a loan or pay a utility bill or add to his checking account. The TV screen displays the instructions, but if the customer bungles the job a live teller appears on the screen.

At the end of the transaction, assuming the customer performed an act deemed by the card to be legitimate, out comes his receipt or, in the case of a loan, the money. Inside, the transaction is automatically recorded in the bookkeeping system.

The safe companies are here, too, and they have diversified their products to counter the sophistication of those who would do the bank in.

The thief today doesn't necessarily use a gun, although a bullet resistant glass maker is peddling his products. He might try to pass counterfeit bills though, and so the electronic devices are prominent.

## Jurgens, Fourth Wife Reconcile

ZURICH, Switzerland (AP) — Actor Curt Jurgens and his fourth wife have reconciled on the eve of a scheduled divorce hearing, Jurgens' lawyer said Tuesday.

Divorce proceedings for the Austrian actor and French-born model Simone Boucheron had been initiated after a 15-year marriage amid press reports of a romance between Simone and an unnamed Greek movie maker.

Lawyer Erich Kaestilin did not comment on this but said the motto of the reconciliation here Monday night was that "divorce should not be the price for the bit of freedom which we wish to enjoy."

Jurgens and his wife were not available for comment.

# *Double Talk Is Essential*

By HAL BOYLE

NEW YORK (AP) — Everybody learns at least two languages in his life, whether he realizes it or not.

And if he picks up a foreign language, too, that makes three.

The first language anyone usually learns is the language the people speak where he spends his childhood. Here the native language, of course is American, an offshoot largely of the English language.

The child learns American here because he needs a language in which to say what he is thinking. As he grows older and less truthful, however, he finds he needs a second language in which he can say something — but not at all what he is really thinking.

Slowly picking his way, often by himself, he evolves that necessary second language — double talk. This is usually a mirror image of his native language.

Thus if you were born in New York, you'd learn American double talk; in Paris, French double talk; in Minsk, Russian double talk.

So, while its accent may be national or even provincial, double talk is international, for the need for it arises wherever hypocrisy exists, and hypocrisy, common sense tells us, exists in every land containing human beings more than 4 years old.

The more skillful you become at this second language — double talk — the abler you should be at getting what you want from human society. So it will pay you to learn it early and study it well all your life long.

For the benefit of the beginner, here are a few common examples of double talk. In each case, the double talk used by the speaker is in quotes, followed by what he really was thinking:

"I'd rather be right than president of this corporation." — Anyway, as senior vice president I'll probably live longer.

"I have just begun to fight." — If we don't start winning soon, we'd better start getting this ship to hell out of here.

"England expects every man to do his duty." Otherwise, it'll be a long swim home for him — or 20 years in the brig without grog.

"I don't mind admitting I had to come up the hard way." — But you'd think at least one member of my family would have left something behind besides debts.

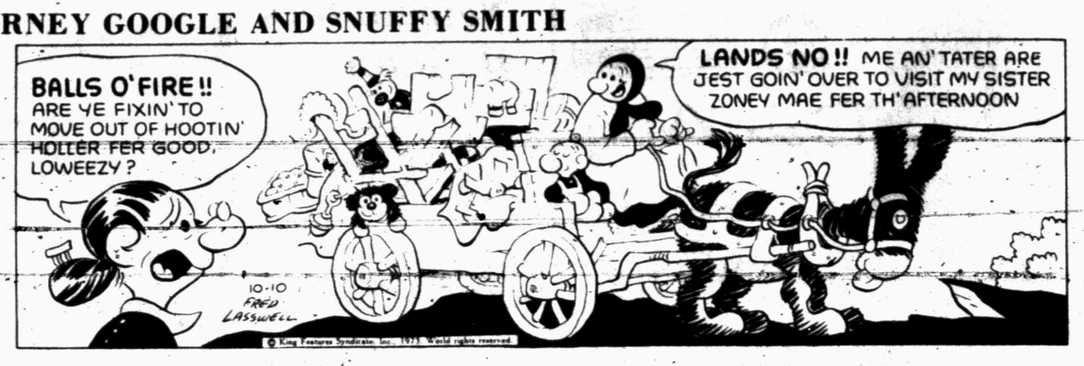

"Oh, no, you're not boring me in the least." — But you might make the situation more interesting if you'd simply drop dead.

"Pardon me, I'm not crowding you, am I?" — What kind of nut are you, anyway? Did you think I'd just let you elbow me out of my place in this line?

"After all, money can't buy happiness." — But if you've got the right kind of dough, baby, you can buy me.

"So nice of you to come." — You can do us an even bigger favor by being the first to leave, too.

## Junior Editors' Quiz on CREAM OF TARTAR

**QUESTION:** *What is cream of tartar?*

* * *

ANSWER: Cream of tartar is obtained from Argol which is found as a crust in wine vats. It exists in the juice of the grape and is deposited during fermentation. This substance also is present naturally in mulberries, pineapples and unripe beets. Most of the tartaric acid is derived from grapes.

In producing cream of tartar, the Argol or sediment in wine barrels is partly purified by crystallization. In this stage it is known as tartar or tartaric acid. When it is thoroughly purified, decolorized and ground to a fine powder, it is called cream of tartar.

In cooking, cream of tartar is combined with soda to lighten dough. The best baking powders contain cream of tartar. In medicine, it is combined with sodium bicarbonate to form Rochelle Salt. It is also used as a purgative and emetic. In dyeing, it is used to fix colors. It is also used in making candies and hard icings for cake.

## Lamesa Is Rated 4th In AAA

By THE ASSOCIATED PRESS

San Angelo Central in Class 4A and Lewisville in Class 3A are sitting on the hot seat in The Associated Press Schoolboy Football Poll this week.

Both have assumed the No. 2 rankings in their respective classes and No. 2 was bad place to be last week.

Defending state champion Odessa Permian was ranked No. 2 behind Baytown Sterling until it lost a 21-6 district battle to Midland High on touchdown passes of 93 and 15 yards from Steve Reddell to Norris Johnson. Permian yielded five turnovers, three fumbles and two pass interceptions.

Brownwood lost its No. 2 ranking in Class 3A to Lewisville after a 9-7 loss to Wichita Falls Hirschi on a safety in the final 4:36 of the game.

All top ranked teams, Baytown Sterling in 4A, Gregory-Portland in Class 3A, Friendswood in Class2A, New Diana in Class A and Big Sandy in Class B held their top billings.

San Angelo, the 1966 state champion, became the third challenger to Sterling this season. Galveston Ball started out the season as No. 2 until it lost to San Angelo 30-0 and turned the runnerup spot over to Permian.

For its effort, Midland moved into the rankings as No. 9 after getting its first victory over Permian in 10 years.

Brownwood stayed in the top 10 as No. 8 and once-beaten Hirschi became No. 10. Two other Class 3A teams, No. 6 Kilgore and No. 7 West Orange which lost to Class 4A Beaumont Charlton-Pollard.

Alpine dropped from the Class 2A list after its second loss of the season. San Diego, ranked sixth last week, was beaten for the first time and dropped to eighth. Unbeaten Lubbock Roosevelt, whose smallest victory margin this season is 22 points, became the No. 10 team in Class 2A.

# Campaneris Leads Oakland To Victory Over Orioles

By JACK STEVENSON
Associated Press Sports Writer

OAKLAND (AP) — Oakland shortstop Bert Campaneris, the 155-pounder dubbed "Baby Ruth" after home runs in two straight games, predicts the A's will win their way into the World Series again today.

"I don't care who's pitching, we'll win," declared the explosive little infielder whose 11th-inning leadoff home run beat Baltimore 2-1 Tuesday and gave Oakland a 2-1 edge in the American League playoffs.

The defending world champions will represent the American League a second straight year if they beat the Orioles' ace right-hander, Jim Palmer, today. He shut them out 6-0 in the opener of the best-of-five playoff series.

Oakland left-hander Vida Blue didn't last through the first inning in that one but he'll be back facing the Orioles again.

"We have a well-rested Blue who has shown he can pitch well against anybody," said Oakland Manager Dick Williams. "Certainly we have a chance against Palmer."

Campaneris hit only four home runs during the regular season but he led off the second game of the championship series with a homer and ended the third game with one. That provided the pitching victory to southpaw Ken Holtzman, who threw a three-hitter.

Campaneris, who was suspended the final three games of last year's playoffs when he threw his bat at a rival pitcher, said he hit a slider, low and inside, for his game-winning homer.

"I wanted to throw it further inside," commented a disappointed Mike Cuellar who had allowed only three hits before Campy's homer.

The A's victory put all the pressure on Baltimore and Palmer.

"We have our backs to the wall," admitted the hurler who won 22 games and lost nine on the season. "If I don't pitch well and we lose, we're eliminated. I'll try to pitch the same way I did in Baltimore."

Earl Williams got Baltimore off to a 1-0 lead in the second inning when he slammed a Holtzman fast ball over the left field fence, the Orioles' first homer of the series.

Holtzman then retired 14 batters in order before walking Tommy Davis in the seventh.

Oakland didn't score until the eighth, when Manager Williams' strategy paid off.

He sent Jesus Alou up to hit for catcher Ray Fosse and Alou golfed a blooper into left field for a single. Fleet Allan Lewis went in to run for Alou.

Williams had selected Angel Mangual originally as the pinch hitter for second baseman Dick Green but, with a bunt the obvious play, he switched and used Mike Andrews.

The bunt went to Cuellar, who was off balance when he fielded it. So he threw to first—the sacrifice working. Campaneris struck out but Joe Rudi banged a broken-bat single off his fists to score Lewis from second.

# Rose's Twelfth Inning Homer Stops Mets, 2-1

By KEN RAPPOPORT
Associated Press Sports Writer

NEW YORK (AP) — They threw an apple, a tennis ball and an egg at Pete Rose, but the only flying object he cared about was a baseball.

Rose hit it over the fence for a home run in the 12th inning to give the Cincinnati Reds a 2-1 victory over the New York Mets and tie the National League playoffs at two games apiece.

"I wasn't thinking about a home run, I must confess, but I wanted to hit that ball all the way to the airport," said Rose, who apparently felt he struck a blow back at the Mets' fans for their animosity toward him.

Rose had been the object of scorn here ever since his fight with New York shortstop Bud Harrelson, a scuffle that triggered a full-scale melee during Monday's bizarre game.

"Sure, I heard them booing at me every time I showed my face," said Rose. "They kept throwing things at me, too. But that only makes me play harder."

Cast as the villian, Rose heard the boos once more as he stepped to the plate in the top of the 12th inning to face New York reliever Harry Parker.

Someone threw an apple at Rose, but he brushed it aside with his bat, looking darkly toward the stands. Then came the tennis ball and the egg.

It was reminiscent of Monday's affair, when Rose was showered by pop bottles, beer cans, batteries and a whiskey bottle in left field. The garbage shower took place after the Rose-Harrelson fight and the resulting battle royal.

The fans remembered Monday's infamous "Rose-Bud Incident" and continually hissed the Cincinnati left fielder before he pumped Parker's 2-2 fastball out of sight over the right field fence.

Then the 50,786 fans were dramatically silent, for the most part, as Rose circled the bases with his right hand held high in a clenched-fist gesture of victory.

Rose singled twice and walked before smashing his second homer of this five-game series.

Until Rose's winning hit, the fourth game of the National League playoffs was full of other pulsating drama. The Mets had taken a 1-0 lead in the third inning on Felix Millan's run-scoring single and George Stone protected that slim advantage until the seventh. At that point, Tony Perez slugged a home run, his first hit in 15 at-bats in this series.

## Seventh Grade Results Told

Geral Greene's Little Tigers 1 defeated Boxie Weems' Little Tigers A 24-0 in a 7th grade football game Tuesday afternoon.

After a scoreless first quarter, James Williamson tallied from two yards out early in the second period. Richard Crayton ran across for two bonus points.

In the third period, David Fulford scored from eight yards out, and Cary Welsh ran for the two extra points.

In the fourth quarter, Richard Crayton completed a 10 yard touchdown pass to Billy Hall. Crayton ran for the two extra points.

In another 7th grade game held yesterday, Wayne Preston's Little Tigers 1 defeated Jerry Mankins' Little Tigers 14-0.

In the first quarter, Vic Valentine got loose on a 32 yard touchdown run. In the third period, the Little Tigers 1 took the kickoff and drove 48 yards for a touchdown. Mark Davis scored from four yards out, and James Sterling added the two extra points.

## MIAMI'S STANFILL IS TOP DEFENSIVE PLAYER

MIAMI (AP) — About the only thing Miami Dolphin defensive end Bill Stanfill didn't do to the New York Jets last Sunday was get them penalized for having an extra man—Stanfill—in their backfield.

Stanfill sacked Jet quarterback Al Woodall four times, dropped rookie backup Bill Demory once and was credited with five assists as the Dolphins kept the Jets to 139 net yards while winning 31-3.

The Associated Press named the 6-foot-5, 250-pound Stanfill as National Football League Defensive Player of the Week because of his performance.

"We're real pleased for him to get the recognition," Dolphin defensive coach Bill Arnsparger said Tuesday. "Bill had an outstanding game.

"He put on a lot of pressure and helped us stop their running game which, of course, let us work on their passing."

Stanfill's storming forays into the Jets' backfield helped hold Woodall to four completions on 15 passes and the untested Demory to two of five. Each had two intercepted.

Miami Coach Don Shula said he could not "remember having ever had a player who made five sacks in one ball game."

## Richert Gets Trophy Late

LOS ANGELES (AP) — Relief pitcher Pete Richert of the Los Angeles Dodgers checked his mail at the club office Tuesday and took possession of what may be the most post, post-season award.

It was the 13-year-old Southern Association Rookie-of-the-Year trophy. Hal Potten, league president, sent the trophy along with a letter.

Potten said he discovered the trophy while cleaning out a store room, and "why I didn't find it before now, I'll never know."

# Watergate Led Bush To Be GOP Spokesman

By CARL P. LEUBSDORF
AP Political Writer

WASHINGTON (AP) — George Bush thought his main job as Republican national chairman would be to convert President Nixon's 1972 landslide victory into a "New Republican Majority." Then came Watergate.

It led the 48-year-old Texan to become a party spokesman seeking to separate the Republicans from the scandal enveloping their own administration.

"There has been a need to put the party role into perspective," the former ambassador to the United Nations explained in an interview. "There has been a need to get that message across, the fact that the national committee is not responsible, that the party is not involved."

Though Bush renewed the now-familiar Republican litany that Watergate won't hurt the GOP at the polls, he conceded he has become more cautious about party prospects in the 1974 congressional elections.

He said the loss next month of Republican-held governorships in New Jersey and Virginia, which some party leaders see as a growing possibility, "wouldn't look good at all" but added that a string of GOP successes in recent local elections is proof "this isn't going to wipe out the Republican party."

Discussing his eight months on the job at GOP headquarters on Capitol Hill, Bush also said:

—"There's been a recovery" in the flow of contributions, and the committee will be able to meet its $5.5-million budget, about three times as much as the Democrats, without further staff cuts or borrowing.

—The controversy surrounding Vice President Spiro T. Agnew cannot help the GOP but, as for the effect on elections, "I don't think one could possibly measure that at this point." Bush said Agnew's 1976 presidential prospects certainly have not been enhanced, but he added that vindication could change that.

—The launching of 1976 presidential soundings by Govs. Nelson A. Rockefeller and Ronald Reagan, Sen. Charles H. Percy and John Connally is encouraging. "We seem to have a wealth of qualified talent," he said. "I can't help but look at the Democrats and think, in this particular area, we're in pretty good shape compared to them."

—In line with an effort to make the national committee "a little more election-oriented," he stepped up party programs to provide assistance to candidates and potential candidates.

These include weekly campaign management schools, and at least three "New Majority Workshops" to stress ways of seeking support from those whose first GOP vote was cast in 1972 for President Nixon.

"These workshops will hopefully demonstrate to party leadership and candidates how to attract so-called New Majority voters, how to attract them to Republicans when you don't have a presidential race on," Bush said.

## Eight Die In Plane Crash

INKSTER, Mich. (AP) — Eight persons aboard a twin-engine plane died Tuesday evening when the craft crashed into a densely populated residential area, authorities said.

Officials said the airplane skidded about 550 feet down a street lined by homes and slammed into a utility pole but there were no reports of injuries to anyone on the ground.

Police said two men, two women, three young girls and a boy were killed in the crash.

The Beechcraft airplane crashed about 7:30 p.m. while trying to land at nearby Detroit Metropolitan Airport in foggy weather, the Federal Aviation Administration reported.

FAA employes said the registration of the craft had not been confirmed and bodies of the eight aboard had not been identified.

## Fair Bull Brings $5,250

DALLAS (AP) — A bull consigned by the 4C Ranch of former Texas Gov. John Connally at Floresville brought the $5,250 top price Tuesday in a Santa Gertrudis cattle auction at the State Fair of Texas.

Buyers from nine states and Mexico paid $230,580 for 132 lots from 31 ranches in the Premier Santa Gertrudis Association sale.

The top price for females was $4,400 for a cow with heifer calf at side and rebred, from the Mirasol Ranch at Uvalde, Tex.

Successful bidders represented ranches in Texas, Alabama, Mississippi and Oklahoma, and in Brazil. The sale attracted about 600 prospective buyers.

# Job Placement Service New

## Career Corner

by Joyce Lain Kennedy

Dear Joyce: Some time ago you mentioned the possibility of a national computerized job placement service for women operated by a women's organization. Has this started yet, and how can I be included? —S.I., Philadelphia, Pa.

You probably mean the Catalyst National Roster which is expected to debut the latter part of November. This is a computerized listing of employable women who have completed at least one year of college and who seek administrative, managerial, technical or professional employment, full- or part-time.

THE ROSTER INCLUDES women who are currently employed and want to advance as well as those who are re-entering the labor force after an absence.

Because Catalyst has foundation sponsors, the listing is free to women and here's how it works. After obtaining and returning a 1-page resume form you are assigned an identification number. This number represents you on the roster where your occupational area, years of experience, salary range, preferred geographical location, educational background and preference for full or part-time work are printed out. Listings are arranged by occupational fields and geographic locations for the convenience of employers.

CATALYST HAS established a national network of 85 centers (usually on college campuses in connection with continuing education programs) in communities throughout the U.S. If you have contacted one of these centers, an interested employer can get your resume and additional information on your qualifications from that center. Some of these centers charge fees to you or employers for successful placement of initial processing. You get a listing of the centers when you receive your resume form.

If you have not contacted a center, your resume will be sent from Catalyst headquarters to the employer who can contact you directly to arrange an interview.

First time use of the roster is free to employers who express an interest in it. Future issues will be available for a subscription fee. Subscription to the roster also entitles an employer to an unlimited number of resumes.

MANY EMPLOYERS who do not want to screen applicants will prefer to work through established employment agencies to obtain and follow up applicants' resumes. If an employment agency should contact you as a result of the Catalyst National Roster and you are unwilling to pay a placement fee, merely say that you are only interested in fee-paid jobs. As a side benefit, the employment agency may know of additional job openings of interest to you.

Catalyst is a nonprofit organization founded in 1962 by 5 college presidents to deal with the waste of training and ability that results when women are locked out of the labor force by traditional employment practices and patterns. Early this year, the organization launched a grass-roots national program designed to open channels of communication among women, educators who serve adult women students, employers and local resource centers providing direct services to women throughout the U.S. The national program is funded by grants from the Kellogg, Ford and Mellon Foundations, Rockefeller Family Fund and contributions from business and industry.

**READER SERVICE: If you would like a resume form to fill out and be included in the Catalyst National Roster, send your request on a postcard to Joyce Lain Kennedy at this newspaper. Ask for "Catalyst Resume Form." Allow several weeks for delivery.**

GOOD FOOD—The Dairy Queen pictured here, located at 4301 College Avenue, and the one at 108 East Highway, both specialize in fast food orders. Jack Cummins, owner and operator, is observing his fifth anniversary in Snyder.

## Dairy Queens To Give Away Two Bicycles In Anniversary Event

Jack Cummins, operator of the Dairy Queen, 4301 College Avenue, and 108 East Highway, is giving away two 10-speed bicycles in observance of his fifth anniversary in Snyder.

"This is just my way of saying 'thank you' to the many people of Snyder who have supported us during the past five years," Cummins said.

He said you can register for the bicycles at either of the Dairy Queen Locations. No purchase is necessary to register. The drawing will be held at 5 p.m. Tuesday, Oct. 30, at both locations. One bicycle will be given away at each location. You do not have to be present to win.

Looking back on his five years in Snyder, Cummins said he feels very fortunate to be in Snyder–in a community that "has as much going for it as this one does."

The Dairy Queens specialize in fast food, such as hamburgers, steak fingers, barbecue, cheese dogs and assorted soft ice cream products.

Cummins has become a part of the community. He is on the board of directors of the United Fund, and he is a member of the Gold Coaters(Producers Club), the Lions Club, and is a past director of the Chamber of Commerce.

He and his wife, Sue, who helps him operate the business, are parents of two children: Kim, a 6th grader at Stanfield Elementary, and Chad, an 18-month-old boy. The family is presently residing at 2706 Forty-seventh Street.

Both Dairy Queen locations are open from 9 a.m. to 10 a.m. weekdays and on Sundays and from 9 a.m. until 11 p.m. on Fridays and Saturdays. The seating capacity at the Dairy Queen at 4301 College Avenue is 56. The telephone number is 573-8501. There is seating capacity for 28 at the Dairy Queen located at 108 East Highway. The telephone number is 573-9041.

Both locations have drive up windows for call in orders, and they also have air-conditioned dining rooms.

## Johnston's No-Roach Prevents, Kills All Types Of House Bugs

Fourteen babies per day!

Frightening isn't it! But that's the birth rate of a single female cockroach. It is hoped that there is no such population explosion in your home but if you see one roach....or one ant....or one spider - beware! there are plenty of relatives nearby. Don't spray these bugs to death, one by one, buy the best preventative and the most effective bug killer on the market today....Johnston's brush on No-Roach.

No-Roach is effective against all crawling insects cockroaches, ants, spiders, and silverfish. One application stays effective for months.

It's clean....and easy to use. Just brush the colorless, odorless coating where you want it. It dries quickly to form an invisible film that stays effective for months. Brush Johnston's No-Roach in cabinets, on baseboards, door sills, window frames....wherever you see roaches and ants. Use Johnston's No-Roach and Get No-Roach at: Furr's, Piggly Wiggly, B&B, Safeway, Everybody's, Rainbow and all grocery stores.

EFFECTIVE FOR MONTHS—All you have to do is brush on Johnston's No-Roach and it remains effective for months in keeping out roaches, ants, spiders, and other crawling bugs.

## Demos May Gain GOP Held Seats

WASHINGTON (AP) — Republican campaign strategists say they face an uphill battle to head off Senate losses in 1974 after Ohio Sen. William B. Saxbe announced his retirement and sources reported Kentucky Sen. Marlow W. Cook also will step down.

Democrats, meanwhile, said they have a good chance to capture both seats in 1974, as well as the Utah seat being surrendered by 74-year-old Republican Sen. Wallace F. Bennett.

They see a chance to hold their present 57-43 advantage and perhaps increase it in 1974.

Saxbe, who made his decision known Tuesday, was the fifth senator to announce he won't run again in 1974. In addition to Bennett, the others are Republican Norris Cotton of New Hampshire, and Democrats Harold E. Hughes of Iowa and Alan Bible of Nevada.

Republicans suffered another blow last week when Iowa Gov. Robert Ray, rated their strongest likely candidate for the Hughes seat, announced he would not run for the Senate.

Interviews with both Republican and Democratic campaign officials produced general agreement on the current outlook. Of the 34 seats being contested in 1974, the Democrats now hold 19.

Besides Utah, Kentucky and Ohio, the GOP-held seats in which Democrats think they have the best chance in 1974 are those of Sen. Milton R. Young in North Dakota and Robert Dole in Kansas.

Besides Iowa and Nevada, Republicans consider Sen. Mike Gravel of Alaska vulnerable and feel they have a chance against Sens. Thomas F. Eagleton of Missouri, Birch E. Bayh of Indiana and Abraham A. Ribicoff of Connecticut.
