

STAGE IS SET FOR APPEALS TO U.S. SUPREME COURT

Purloined Pentagon Papers Puzzle

By The Associated Press

A major constitutional legal battle over government secrecy and freedom of the press headed to the U.S. Supreme Court today after appellate rulings in government suits against The New York Times and The Washington Post over articles based on classified Pentagon Papers.

As a Los Angeles federal grand jury began an investigation into how the top secret Pentagon study of U.S. involvement in the Vietnam war was leaked, three other news organizations today printed articles they said were based at least in part on the 47-volume report.

An appeals court in Washington ruled Wednesday the Post could resume publication of its

suspended series after 6 p.m. Friday. A similar court in New York said the Times could also resume but could not use any material the government contended was dangerous to national security pending a lower court review of those documents.

The Justice Department, which has sought injunctions against the Times, Post and The Boston Globe on the ground that publication of the papers threatened national security, said it would appeal the Washington ruling to the Supreme Court. The Times said it would appeal the New York ruling.

President Nixon said Wednesday that he would make available to Congress the complete 7,000-page study but that the

document would remain top secret pending a review of that classification by the executive branch.

Meanwhile, Knight Newspapers Inc., which publishes 11 newspapers, and the Los Angeles Times today printed articles they said were based on the documents. The Chicago Sun-Times also ran stories it said were drawn from the secret study and from "government documents."

In Los Angeles, a U.S. District Court granted immunity to two persons subpoenaed to testify before a grand jury probing what a Justice Department spokesman called possible violations of national security laws.

One of the two granted immunity was Anthony J. Russo,

34, a former employee of the Rand Corp., a Defense Department "think-tank." His lawyer said he wanted to challenge the federal immunity statute and Russo did not testify Wednesday.

A one-time Rand and Defense Department employee, Daniel Ellsberg, has been named by a former New York Times newsman as the source that gave the Pentagon study to that newspaper.

Ellsberg, in a CBS television interview with Walter Cronkite Wednesday, did not comment on that charge. But he said the notion that the study was leaked to embarrass former President Lyndon B. Johnson "will be quickly allayed" when the full document is made public.

The full study reveals a "sameness of policy throughout four administrations," he said. "The real lessons really come from seeing the whole sweep of the history. There has never been any year when there would have been a war in Indochina without American money fueling it."

The Chicago Sun-Times said in today's editions that documents in the study revealed that a key plotter in the coup that ousted South Vietnamese President Ngo Dinh Diem informed the U.S. embassy 26 days prior to the coup that assassination of Diem was one of three courses being contemplated.

The Chicago newspaper also quoted "government documents" as revealing that Ken-

nedy sent then Vice President Lyndon B. Johnson to Vietnam in May, 1961, with orders to "encourage" South Vietnam to request U.S. ground troops. Diem resisted the idea, the Sun-Times said.

Roger Hilsman, a former State Department official, said Wednesday that two memos he wrote in 1963 about the possible overthrow of Diem were taken out of context and misinterpreted by the Sun-Times in its Tuesday editions.

The Sun-Times stories said Hilsman recommended Diem be overthrown if he entered negotiations with North Vietnam. Hilsman said the memos were "contingency documents" that had no connection with Diem's ouster in November.

The Los Angeles Times re-

ported today that the Pentagon study also showed that the National Security Council rejected a recommendation by a State Department expert in 1963 that the United States pull out of Vietnam because it could not win the war against the Communists.

Paul M. Kattenburg, then head of the State Department's Vietnam Working Group, made the recommendation but it was overruled by Secretary of State Dean Rusk, the newspaper said.

The Knight Newspapers story, as published in the Philadelphia Inquirer, cited the Pentagon documents in reporting that former Defense Secretary Robert S. McNamara proposed a coalition government for Vietnam in 1967.

Hunt For Survivors In Gas Explosion

LOS ANGELES (AP) — At least one worker was killed and 16 others were missing 178 feet underground today when a pre-dawn explosion tore through an underground water tunnel being built northwest of here.

Fire Capt. Roy Walters said "we're not at all optimistic" about finding survivors in the 18-foot-wide tunnel, hit Wednesday by a smaller blast that caused minor injuries to four workers.

Walters said the tunnel was filled with debris and thick, rolling smoke and that the tunnel's fresh-air ventilation system to the area where the men had been working was destroyed by the blast.

Walters said it isn't known yet what caused the blast. Other officials said it could have been caused by methane gas ignited by a spark from workmen's equipment.

The first rescue team of city firemen equipped with oxygen breathing equipment said they found the body of one man about 800 feet from the work area, near the end of the five-mile-long tunnel.

Glamour Kitten Becomes Mother

MIAMI BEACH (AP) — "Miss Texas," an 18-month-old calico cat and front runner in the All-American Glamour Kitten Contest, gave birth to five kittens Wednesday during the contest.

Pageant officials said Miss Texas' condition would in no way hinder her chances at the All American crown.

Doc On Trial Shot In Mouth

CORPUS CHRISTI (AP) — Dr. J. C. Garcia, on trial on 137 counts of making false claims for medicare payment, was found shot to death in his home today.

Dr. Garcia was due back in the courtroom at 10:30 a.m. today.

Sources said he had been shot in the mouth.

Dr. Garcia, 58, a political leader as well as physician, was a one-time member of the federal Health Insurance Benefits Advisory Council under a two-year presidential appointment made in November, 1965.

It was during the time he held this position, the federal indictment charges, that he made false claims totaling about \$20,000.

As a member of the insurance council, he advised the secretary of health, education and welfare on administration of the federal health insurance program.

Rape Costs Landlord

NEW YORK (AP) — The landlord of an East Village tenement has been found legally liable for \$10,000 damages in the rape of a young tenant by an assailant who entered her apartment through a broken window.

Legal authorities said they could not recall a similar ruling involving a landlord and a tenant.

In a decision made known Wednesday, Civil Court Judge Martin B. Stecher ruled that the window was "cause" for the intrusion. Despite the rape victim's "numerous but fruitless demands" to have the window fixed, it had remained unrepaired, the judge said.

Sales Tax Check Up 10 Per Cent

First quarter returns on the city sales tax have been received by the city finance department showing a 10 to 11 per cent gain over the first quarter returns in 1970.

A check for \$100,831.35 was received by Charles Smith, city finance director, from the state this week.

"The tax rate is basically at the same level, but there is a measure of inflation involved in the increase of the returns," Smith said. "However, there is some business recovery shown in the figure and this would show a more meaningful increase to the city."

First quarter receipts in 1969 from the sales tax were \$82,176.61 and \$89,397.07 in 1970. The last quarter refund to the city in 1970 was \$108,688.68.

Texas cities received \$35.5 million in city sales tax returns for the three-month period ending March 31, State Comptroller Robert S. Calvert reported Wednesday.

The state charged \$719,756 for handling the tax money.

Can't See What He Is Opposing

TULSA, Okla. (AP) — Al Jordan, vice president of an organization fighting pornography, is irritated because he couldn't see the movie he is fighting.

Jordan bought a ticket to the show but the manager recognized him as a protest witness in a recent unsuccessful court fight to halt the showing. The manager refused Jordan admission and refunded the money.

6th City Officer Leaves; Finance Director Smith

The number of administrative heads in the city government was depleted further today with the resignation of Charles Smith as city secretary and finance officer.

Smith's resignation was presented to the city manager this morning and read in part "this has not been an easy decision for me, but due to the prevailing conditions present which cannot be ignored, I feel it has been a necessary one."

SIXTH DEPARTURE

The finance director's resignation will be effective July 15 and he will be going to a similar position with the city of Lake Jackson, Texas.

Included in Smith's duties as finance director is the basic preparation of the city budget. Work on the 1971-72 budget has been scheduled to start in August.

Smith is the sixth city official to have left his office, fifth to resign, since the first of the year. Others who have left office are Bo Anderson, director of utilities, Larry Crow, city manager, Nolen Chafin, director of public works, Herb Prouty, city attorney, and Jay Banks, police chief, who was dismissed by action of the majority of the commission.

DATES

Crow resigned several weeks ago to be effective June 30. Chafin will be leaving the post July 31, and Prouty's resignation is effective June 30. Anderson resigned his position in the first months of the year and is currently working with the

CHARLES SMITH

Colorado River Municipal Water District.

A question recently has come to light in the city on the city manager's part in the resignations of all the city officials. When asked on the matter

Crow commented, "I have not encouraged these people to leave their offices just because I am leaving; however, I can understand their positions. I have given good recommendations of their ability to their future employers."

"Mr. Crow never encouraged me to resign my position here. There is more to my decision than that," said Smith. He would make no further comment at this time.

Smith, 40, came to the city on July 19, 1965, from Fort Worth where he had lived for 11 years and worked with Baker Mobile Homes.

His first duty with the city was in the capacity of assistant finance director and city secretary and in January of 1967 he took over the regular duties with the retirement of the former director.

PETITIONS OUT

Lamesa is Smith's home town and he was graduated from Lamesa High School in 1949. He attended Baylor University and

was a graduate of the class of '54.

Meanwhile, petitions asking for the recall of Commissioners Wade Choate, Jack Watkins and Eddie Aciri were apparently in circulation. No report could be obtained from those who had requested the petitions.

Broncs Buck, Bulls Kick, Festus Sings

By STEVE HULTMAN

Big Spring residents turned out for the opening night of the action packed 38th Annual Big Spring Cowboy Reunion and Rodeo Wednesday.

More than 200 contestants were on hand to try to stick with bucking broncs or bulls for eight seconds of eternity, or to rope and tie ornery calves, provided with the rest of the stock by Tommy Steiner of Austin.

The girls got into the act in the barrel races and in mundane but necessary jobs like time and score keeping.

The estimated 7,000 Big Springers roared their approval of Ken Curtis, the "Festus Haggin" of "Gunsmoke".

Curtis who rode into the arena on his mule, put on a show of jokes, story telling and singing that brought continued applause from onlookers.

"We lived on the Pickett River in Colorado," he said. "My folks was so poor they couldn't afford to have any children — so our neighbor had me!"

"Us Haggins ain't the purtiest fellers in the world, but I got me a girl. She's real nice except

for the marks on her from fellers touching her with a 10-foot pole."

Curtis told of his singing with the "Sons of the Pioneers" and sang, among others, his first hit song, "Tumbling Tumbleweeds."

The Frontiersmen and Patty Johnson joined in with Curtis on many of the songs.

"Festus" really won the hearts of the children after his performance when he spent 10 minutes riding around the arena shaking hands with them.

Other entertainment included Charro Gomez and his dancing horse El Ciel. The beautiful Arabian stallion danced in perfect rhythm to the music. During the second performance, the horse danced while Charro performed rope tricks in the center of the arena.

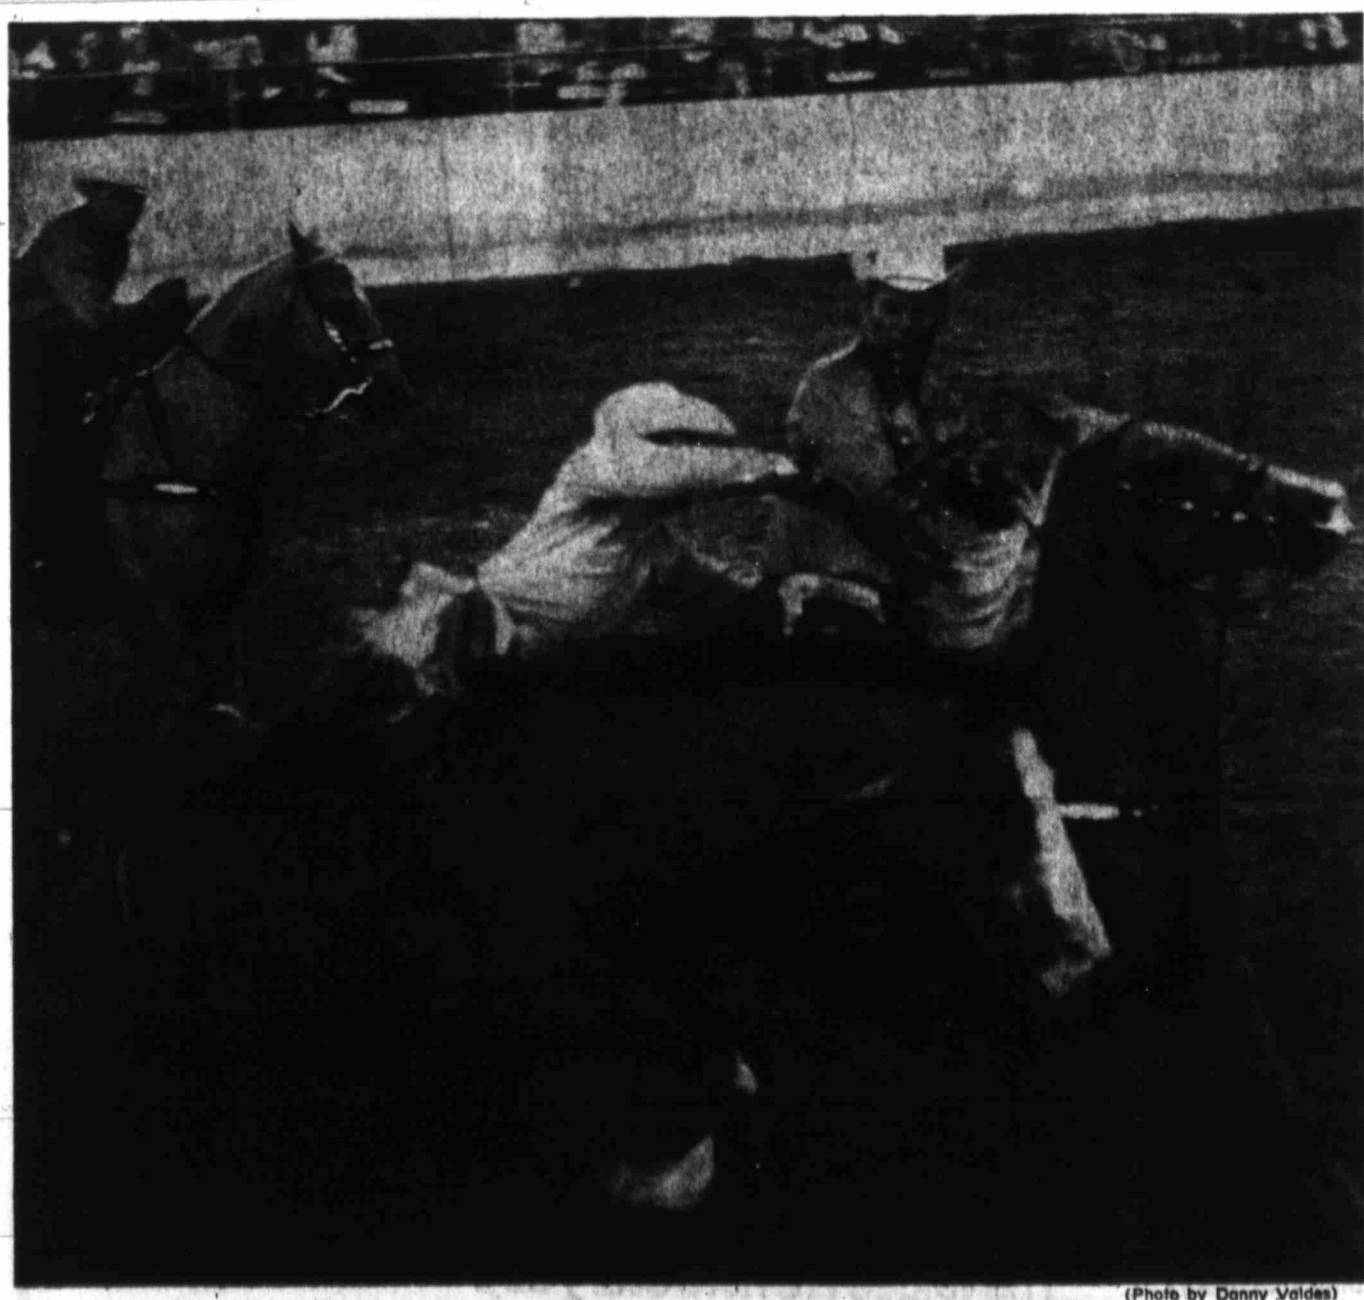

Some of the funniest moments of the show came from Kaju Kido and Dick Bolling, the bull-fighter clowns. Time and again they drew the rampaging bulls away from the downed rider — and made the audience laugh while they did it.

'I THOUGHT THAT BUZZER WOULD NEVER SOUND' ... bareback rider makes leap for safety

PLANNING A VOYAGE — Samuel J. Reuther, 56, and wife Rita, 52, Grosse Ile, Mich., sit at the stern of 36-foot ketch which they built in their backyard over a five and one-half year period in which went 7,000 hours of work. The sailboat is equipped with a 40 hp diesel auxiliary. The two plan to sail the world in the boat named "Apogee," because "being the way out kids, we thought it was appropos."

Increases Noted In Texas Arrests Of Illegal Aliens

SAN ANTONIO (AP) — Illegal aliens from Mexico are being arrested in South and Central Texas in steadily growing numbers, officials report.

Immigration authorities said a record 718 illegal immigrants were caught last month in the

Austin-San Antonio-Waco area. They said 66 were apprehended last weekend in the Waco area alone.

Most such aliens are returned to Mexico as voluntary deportation cases, with only about 10 per cent handled in formal hearings, officials said.

ISN'T HARASSMENT

A planeload of illegal aliens leaves San Antonio, Austin or Waco three or four times a week for border cities. From there they go back to Mexico's interior by bus or train.

"This isn't harassment," said John Holland, head of the Immigration and Naturalization serv-

ice's district office here. "We try to get them near where they came from."

For example, he said, a border resident would not be sent deep into Mexico.

"We don't just bundle them up and shoot them back to Mexico," he said. "One of the first things we ask (an alien) is if he has any wages coming and where his belongings are."

HIGHEST EVER

The number of June arrests in the Austin-San Antonio-Waco area already is approaching 500, according to figures from the local immigration office.

Louis Mack, assistant director for investigation, said the May total of 718 arrests was the highest ever recorded for one month in this area.

Holland and Mack noted that in May of 1969 there were 295 illegal immigrants picked up in the Austin-San Antonio-Waco area. In May of 1970 the total was 414.

Drought and economic conditions in Mexico were among reasons cited for the rise.

Water Contract

HOUSTON (AP) — City Councilmen have approved a \$1,683,430 contract for installing three 108-inch water lines which will run through the San Jacinto Battle Ground State Park.

The contract was awarded to the Paul N. Howard Co.

Ruling Clears Way For City To Annex, Tax Packing Plant

SAN ANTONIO (AP) — A lawyer says Crystal City will proceed immediately to annex the property of a Del Monte packing plant—the town's largest industry—under a court ruling issued here.

U.S. Dist. Judge John Wood Jr. authorized Crystal City Wednesday to annex and tax the property of Del Monte Foods, Inc., which had been exempt from such action since 1963.

Del Monte lawyer James Baskin Jr. said he will confer with the firm's San Francisco headquarters and will recommend an appeal.

EXTRA \$13,500

Jesse Gamez, Crystal City's attorney, said the small Southwestern town will start annexation procedures at once.

He estimated the taxes from the plant would total \$13,500 a year.

An issue was what Crystal City called a conflict of interests over a contract between the city and Del Monte, exempting the firm from taxation and annexation.

Crystal City went to court after a Mexican-American third political party gained control of the city government. The exemption arrangement was made long before the party came to power.

The city argued the original contract, approved in 1963, was void because City Atty. R.A. Taylor was on a retainer as Del Monte's lawyer when he advised the city council on the agreement.

NO PROOF

It also argued that a renewal of the arrangement in 1970 was void because Taylor held the same two positions again, and city councilman Charles Crawford Jr. was a foreman for Del

Monte. Crawford voted for the contract.

Wood refused to declare the 1963 contract void. He said there was no proof of a conflict of interest on Taylor's part and no evidence that he influenced the council to such an extent that it should be nullified.

He ruled in favor of the city on the renewal, authorizing it to assess taxes retroactive to 1970.

He based his ruling on a finding that the presence of Crawford and Taylor "together in their respective capacities as city councilman and city attorney rendered the (1970) contract at least voidable and probably void."

Wood also set aside an injunction issued against annexing the Del Monte property.

Baskin indicated he was considering seeking another injunction halting annexation proceedings until the ruling on the 1970 contract is appealed.

The judge denied the city's

request for more than \$500,000 in damages and \$150,000 in lawyers' fees.

Gamez said Crystal City will appeal the ruling on the 1963 contract.

Texans Vote With Majority

WASHINGTON (AP) — Both Texas Senators, Democrat Lloyd Bentsen and Republican John Tower, voted with the majority to invoke cloture and thus shut off debate on the draft extension bill Wednesday.

The Senate vote was 65-27 to invoke cloture, a vote that was three more than the required two-thirds majority.

Harvey Appointed To Accident Board

AUSTIN (AP) — Gov. Preston Smith announced the appointment Wednesday of Harold B. Harvey of Lubbock as a member of the industrial accident board, effective immediately.

Harvey was appointed to a term to expire Aug. 31, 1975. He replaces Richard Penn of Austin, husband of one of Smith's secretaries.

Penn took a management job for three days to qualify for the post, but Atty. Gen. Crawford Martin said that did not make him a representative of management as required by law.

Motor Vehicle Members Picked

AUSTIN (AP) — Gov. Preston Smith announced the appointments Wednesday of six men to the newly created Texas Motor Vehicle Commission, effective immediately.

They are H.G. Andrews Jr. of Stamford, Dick McLain of Houston, Fenner Tubbs Sr. of Lubbock, Jack C. McKenzie of Corpus Christi, Curtis C. Gunn of San Antonio, W.O. Bankston of Dallas.

LETTERS TO EDITOR

TO THE EDITOR:

We have lived in Big Spring for 14 years and don't think that we have ever had better men than Wade Choate, Jack Watkins and Eddie Aciri on our City Commission, and we will support them. They were elected to run the city business and they should be given a chance to do this.

MR. and MRS. B. O. WILLIAMS
1219 Lloyd

TO THE EDITOR:

Having come to Big Spring in 1912, I feel I have some knowledge of the city's progress over nearly 60 years.

In regard to the present controversy regarding city administration, I would like to state that I voted for, at a great deal of inconvenience to myself because of advanced age, Mr. Watkins, Mr. Choate and Mr. Aciri. I have absolute faith in these gentlemen and their ability to run the affairs of the city. I hereby register and reaffirm my complete confidence in these actions of these duly elected officials. It is my hope and prayer the people of Big Spring, without the help of those outside of Big Spring who don't contribute one cent city taxes, will stand behind these three men whose desire only is for the betterment of the city.

MRS. S. H. LONDE
706 Rosemont

TO THE EDITOR:

Anyone who has come in contact with most of our policemen know they are fine men. Sometimes their job isn't easy; just like you and me they make mistakes. Some people have chosen to ignore this fact. Chief Banks and his men don't have to keep all their evidence in

an office where only certain people can see it; they do it by being there to help people.

Although I am nearly 17, I spent most of my life believing cops were evil and mean. However, the first time I met some of our fine policemen, I felt little and ashamed of myself. I respect most of our policemen; I also respect their opinions and ideas very much. Maybe the three commissioners need to clean up their business before they try to interfere in everybody else's.

DEBBIE HALLER
516 Edwards Circle

TO THE EDITOR:

I think it is time the people of Big Spring stood behind the three commissioners that we, the people, elected to do a job. Who among us has the courage to do what these men have done recently?

I feel it is past time that we all unite and stand behind them. It's easy to sit back and gripe when things are not going right. Then when people do have the courage to do what they feel is right, we just shrug it off and say, "Oh Well! It's just their job." I for one am glad I voted for these three men. I would do the same thing again if they see fit to run for commissioner again.

Military Draft Remains In Doubt

WASHINGTON (AP) — The future of the military draft remained in doubt today, less than a week before it is scheduled to expire, despite a rare Senate vote to prevent a filibuster against extending it.

Pleased with the addition of an amendment to the draft bill urging a complete U.S. withdrawal from Indochina, enough moderate doves joined pro-draft forces Wednesday to produce the required two-thirds majority in a 65-27 vote to limit debate.

The bill now is expected to pass the Senate but it must go to a House-Senate conference to work out differences, then be passed again by both houses in identical form before it is ready for the President's signature.

WARNINGS

There were warnings after the cloture vote Wednesday that some of the doves who voted to limit debate might turn around and refuse to prevent a renewed filibuster if the pullout amendment is removed in conference, where a majority is thought to oppose it.

Thus, it is uncertain if the bill can pass before the draft expires midnight June 30.

The leader of the Senate anti-draft forces, Democratic Mike Gravel of Alaska, said he was surprised by the vote to limit debate.

He attributed it in part to passage Tuesday of an amendment by Senate Majority Leader Mike Mansfield of Montana. It urges the President to pull all U.S. forces out of Vietnam in nine months if all American prisoners are released.

But if the Mansfield amendment does not survive conference, Gravel said, "I certainly would expect many of the amendment's supporters to join me in renewed efforts to filibuster the draft bill when it is returned to the Senate."

LIMIT DEBATE

Acting Republican Leader Robert P. Griffin of Michigan said chances are the conference will kill the amendment, which he described as "a kind of Mickey Mouse political operation to try to take credit away from the President."

Snakes Welcome To Family Piano

TUCSON, Ariz. (AP) — Mrs. June F. Young says she'll just have to play the piano for a while now that a sidewinder rattlesnake has made a new home in the young family's organ.

Mrs. Young said she and four of her children were sitting in their living room when the snake slid across the rug and curled up inside the organ.

Pima County sheriff's deputies sprayed Mace into the organ and Mrs. Young tried to spray, without success.

Mrs. Young said her family will wait to play the organ until the snake finds a new place to live.

Trial Site Of Ex-Chief Of San Marcos Changed

SAN MARCOS, Tex. (AP) — The trial of former Police Chief Wyman Dial, 36, on four charges of burglary and two of theft was transferred to Houston Wednesday by Dist. Judge Terry L. Jack.

No trial date has been announced for Dial, who is free on \$30,000 bond.

Dial was extradited in April from California, where he had served part of a prison sentence

Planning Public Housing Units

HOUSTON (AP) — A Houston Housing Authority spokesman told the city council Wednesday the authority is planning 2,000 new public housing units, including a high rise project for the elderly.

Henri de Ybarra, legal counsel for the authority, said the high rise will contain 200 units.

Tom Booker, executive director of the authority, said the project will cost \$2.5 million. The authority will issue revenue bonds backed by the federal government to finance the projects.

for burglary of a Beverly Hills residence. He is presently on 10 years parole from that conviction.

ROTC Axed At Schreiner

KERRVILLE, Tex. (AP) — Dr. Sam E. Junkin, president of Schreiner Institute, announced Wednesday that the school is dropping its Reserve Officers Training Corps after nearly 50 years.

Although military courses were not required at Schreiner, it has been known chiefly as a military school. It offered military courses as part of the academic program.

"Ultimate goals for the school have not changed," Junkin said. "We shall continue to provide the limited enrollment, the residential faculty, and the controlled environment we feel can best enable the young persons to find themselves as a student and as a responsible citizen."

The president, in a letter to students, said opportunity for military oriented activities still would be available on an extra-curricular basis.

Gazette Includes Washington Obit

AUSTIN (AP) — An Austin family has a piece of American history to treasure—a copy of the Ulster County Gazette of Jan. 4, 1800, that includes an obituary for George Washington.

Mrs. Sterling Goldsmith received the family heirloom along with some other old papers from her uncle, Leonard Carman of Cornwall on the Hudson in New York.

She said she does not know where her uncle, who died recently, got the old paper. But she said she thought it had been in the family for many years.

Mrs. Goldsmith said she would be willing to loan it to libraries for display.

The Gazette (Vol. II, No. 88) was published in Kingston, one of the larger towns in Ulster County, New York, by "Samuel Freer and Son."

The paper, which is printed on one sheet and contains four pages, is remarkably well preserved although badly yellowed. Each page measures about 17 by 10½ inches or five inches shorter in width and height than most daily newspapers.

Washington died Dec. 14, 1799, and was buried in a small family vault on the hillside of Mount Vernon, as was his wish.

An excerpt from the story's lead reads: "On Wednesday last the mortal part of Washington the great—the father of his country and the friend of man, was confined to the tomb with solemn honors and funeral pomp."

"A multitude of persons assembled from many miles around, at Mount Vernon, the abode and last residence of the

illustrious chief. There were the groves—the spacious avenues, the beautiful and sublime scenes, the noble mansion—but alas! The august inhabitant was now no more, that great soul was gone. His mortal part was there indeed; but ah! How affecting? How awful the spectacle of such worth and greatness, thus, to mortal eyes fallen—yes fallen! fallen!"

She said she does not know where her uncle, who died recently, got the old paper. But she said she thought it had been in the family for many years.

Mrs. Goldsmith said she would be willing to loan it to libraries for display.

600 Teamsters Win Pay Hikes

HOUSTON (AP) — More than 600 teamsters planned to return to work today at Grocers Supply Company, Inc. ending an eight-day strike for higher wages.

A. W. Parker, president of General Drivers Local 968 of the International Brotherhood of Teamsters, described their new contract as a milestone.

Under the pact, union members get a 50-cent hourly increase immediately and an added 70 cents per hour in two increments over the next 18 months.

OR GO TO JAIL FOR THREE YEARS She Must Shed 60 Pounds

MIAMI (AP) — Mary Louise Peterson must shed 60 pounds in the next five months or go to jail for the next three years.

The deadline diet was imposed on the 38-year-old mother of six after she was found guilty of disorderly conduct and resisting police without violence. Criminal Court Judge Murray Goodman made the weight loss mandatory—as a term of her three-year probation.

"Her attorney said she was on welfare and was too overweight to hold down a job," Goodman said. "If I put her in jail or fine her, I just penalize the children."

At the time of her May 24 trial, Mrs. Peterson tipped the scales at 315. Tuesday, she said she was down to 310.

"I'm on a strict protein diet," she said. "It's not easy to lose weight, but then my doctor said it wouldn't be. The judge told me I had to lose three pounds a week until I got down to 250. I'm going to lose more than that, I'm not going to stop until I get down to 200."

Mrs. Peterson, who is 6 feet tall, said she weighed 138 when she was married, nearly 20 years ago, but had gained steadily over the years.

"It sort of creeps up on you," she said.

Mrs. Peterson must make periodic visits to her probation officer to show she is complying with the terms of her sentence. She also plans to begin attending a Miami weight reducing

salon, which offered her a free membership.

"When I sentenced her," Judge Goldman said, "she told me, 'Good, now I'll finally lose some weight.' I hope she does for her sake."

170 Families Forced To Flee

HOUSTON (AP) — More than 170 families were forced from their homes Wednesday night when a gasoline storage tank overflowed at Humble Oil's Al-dine station in north Harris County.

There were no injuries and no fire, although fire units were at the scene as a precaution. Residents returned shortly before midnight.

The overflow occurred at 7:45 p.m.

A Humble spokesman said the spilled gasoline was contained in a safety wall around the tank. The tanks are linked with the company's Baytown refinery, storing gasoline for tank trucks delivering to area service stations.

Horoscope Forecast

TOMORROW

—CAROL RIGHTER

GENERAL TENDENCIES: The only one complaining because you have not been through some unexpected condition time for this. Getting rid of prejudices you may have will bring harmony to your life. Not a good day for entering bigwigs or those who mean to do good to you.

LEO (July 22 to Aug. 21) You feel in an irate mood and could lash out at others mercilessly. So calm down and think things over carefully. Await a better day for any comments you want to make. Then speak diplomatically.

VIRGO (Aug. 22 to Sept. 22) You have private worries that could get you off balance if you do not look at them objectively and do something constructive about them. A good friend needs help. Give it willingly and you ease your own burdens as well.

LIBRA (Sept. 23 to Oct. 22) It would be better to handle loyal friends loyally and not be so excited over new-found friends who could easily have unscrupulous motives. Not a good day for entering bigwigs or those who mean to do good to you.

GEMINI (May 21 to June 21) Much care in motion is most necessary today, especially when driving. Keep your purse zipped so that you do not spend money foolishly. Generosity to kin is fine, though.

MOON CHILDREN (June 22 to July 21) You are tempted to invest too much in something that might be highly risky.

TAURUS (April 20 to May 20) Kin

so test it with a very small amount first. That business expert you usually follow is not up to par right now, so be wary. Do not especially in bank.

SCORPIO (Oct. 23 to Nov. 21) Don't take any risks where your reputation is concerned and make sure you do nothing to irritate one who means much to you. Steer clear of others who may want to do you. Permitting others to criticize is not good.

SAGITTARIUS (Nov. 22 to Dec. 21) Not a good day for jumping into new projects, but fine for further study of them. Look for the data you need in your daily paper or other good sources. Make sure you show others that you are dependable.

CAPRICORN (Dec. 22 to Jan. 20) Use your good judgment with those important to your success and happiness and don't rely on hunches which are erroneous now. Make may be in an irate mood. Don't argue and all will blow over nicely.

AQUARIUS (Jan. 21 to Feb. 19) An associate is too demanding today. Do only that which you can and explain your actions to promote understanding. Don't resort to temper. Then you get excellent results and all is well.

PISCES (Feb. 20 to March 20) Get busy and complete whatever work you have to do: put off amusements until later. Be more careful where wardrobe is concerned, or you can damage it. Take it easy tonight. Some reading is fine.

Poll Shows Nixon Certain To Lose Election In 1972

WASHINGTON (AP) — A poll shows President Nixon would be an overwhelming favorite of GOP conservatives with Vice President Spiro T. Agnew a weak second. It adds that, if Nixon runs, 72 per cent of those polled want him to keep Agnew on the ticket.

Mrs. Phyllis Schlafly, a biographer of 1964 GOP nominee Barry Goldwater, says in her June newsletter a poll she took indicates "grassroots Republicans believe Nixon is certain to lose the next election."

The newsletter also says that, Mrs. Schlafly, whose own ef-

fort to win election to the House from a downstate Illinois district was unsuccessful, says her poll is "the most comprehensive and scientific in-depth survey of grass-roots Republican opinion ever taken."

It was based on home interviews with 3,423 people, a sample twice as large as that used in the Harris and Gallup polls.

It shows that 32 per cent of those who said they voted for Nixon in 1968 would not again vote for him, even if the only alternatives are voting for Sen. Edmund S. Muskie, D-Maine or Alabama Gov. George C. Wallace, or staying home.

Without Nixon in the race, the poll showed 60 per cent favor Reagan and 23 per cent Agnew.

Mrs. HST Is Fine

KANSAS CITY (AP) — Officials at Research Medical Center in Kansas City reported today that Mrs. Harry S. Truman remains in good condition. She was admitted to the hospital Monday for a checkup.

Fire Damages HCJC Building Wednesday

By KERRY GUNNELS

A flash-fire on the roof of the Horace Garrett Applied Science building now nearing completion caused momentary excitement for Howard County Junior College night-school students Wednesday.

Ben Johnson, administrative dean at the college, said that representatives of Cooper Construction Co. of Odessa, which is constructing the building, said there was no damage to the building itself and very little time would be lost.

Dr. W. A. Hunt previously had estimated the \$800,000 building would be ready for occupancy by October.

Ben Faulkner, West Texas Roofing Co., said an estimate on the amount of damage was not available this morning, and that it might be Friday before a complete estimate is made.

Several contractors had

damages done to their particular areas — including vents, electrical outlets, and some equipment on the roof. Faulkner said the roof covering was virtually destroyed.

Fire Chief A. D. Meador reported that the fire may have been started by a cigarette tossed onto a tar mop.

The fire was confined to the roof, and once firemen reached positions to pour water onto the burning tar and tarpaper, it was under control in less than 15 minutes.

"The building has a concrete roof," said Meador, "so the only thing that could burn was the tarpaper."

The fire started about 8 p.m. at the south end of the roof and spread quickly along the entire length, according to witnesses.

A great amount of black

smoke was generated by the tarpaper and tar, and for a while the heat from the blaze could be felt by onlookers standing as far away as the Dora Roberts Student Union building.

Many of the night school classes were let out, and a crowd of spectators, students and nearby residents, gathered to watch the firemen's efforts.

Damage to the not-yet-finished building was slight. Smoke damage was minimal and flames never reached the second floor.

Firemen tossed burning rolls of tarpaper off the roof as the fire was finally extinguished.

"The only thing that was burned on top was the tarpaper," said Meador as the pile of charred rolls mounted. "That and a lot of labor, went up in smoke," he said.

Raft Trip Set For July

Camp Amon Carter, YMCA encampment in the Fort Worth area, will offer a Colorado River trip for 14-16-year-old boys from July 9-19.

The 11-day trek will be limited to 30 boys, accompanied by four adult sponsors.

Starting at Yaki Point on the south rim of the Grand Canyon, the boys will begin a three-hour hike down to Phantom Ranch, where the float trip starts.

The boys will travel in pontoon boats for the 150-mile trip down the Colorado. Experienced boatmen from the White Water River expedition will serve as guides.

Camp Carter will supply tents and supplies, food and cooking equipment. Each boy will provide his sleeping bag, waterproof duffel and ammo can.

A fee of \$165 will include transportation, trail expenses, insurance and the river ride. A non-refundable deposit must be made with each application and reservations are on a first come, first-served basis.

For information, write Camp Carter, 6200 Sand Springs Road, Fort Worth, or call 739-9241.

Lamesa Phones 'Blacked Out'

LAMESA — All but five to 10 of the 400 telephones knocked out of order Tuesday when a truck pulled down a 600 pair cable have been restored to working order, report officials of the General Telephone Company of the Southwest here.

The telephone blackout occurred when a truck passed under the 600 pair cable on North 21st Street, and pulled it down.

The "blackout" affected citizens from North 22nd to the Lubbock Highway and lasted all day Tuesday and half a day Wednesday.

Workmen from Hobbs, Levelland and Tahoka were called in to assist local crewmen in repairing the damage. They worked through Tuesday night trying to correct the damage.

Officials report that the telephones still out of order are now being worked on.

National Leaders Pay Tribute To W. W. Heath

Funeral services for W. W. Heath, former U. S. ambassador to Sweden and chairman of the University of Texas board of regents was to be held at 2 p.m. today in the University Methodist Church in Austin, with burial in the State Cemetery.

Mr. Heath, 67, died at his home in Austin Tuesday afternoon after an apparent heart attack. He was the father of Mrs. Dewey Ray of Big Spring.

Former President Lyndon B. Johnson headed a distinguished list of honorary pallbearers, including former Secretary of State Dean Rusk, Governor

Preston Smith, Secretary of the Treasury John Connally, Supreme Court Justice Price Daniel, Senator Lloyd Bentsen and John Tower, Lt. Governor Ben Barnes, Attorney General Crawford Martin and former Senator Ralph Yarborough.

Former President Johnson, a close friend of Mr. Heath, issued a statement:

"He was a strong, wise and enduring worker in the fields that have meant much to me — education, diplomacy and government. He was a man whose leadership benefitted the state and nation, and I benefited not only from his services, but from his friendship as well."

"His unselfish and untiring efforts as a public servant of his state and of our nation will always serve as a memorial to him. He was a good friend of mine, and he will be missed by all who knew him," said Gov. Preston Smith.

"We have lost one of Texas' strongest leaders," said Rep. J. J. Pickle, D-Tex., "He was tough but confident, progressive but careful and generous to a fault."

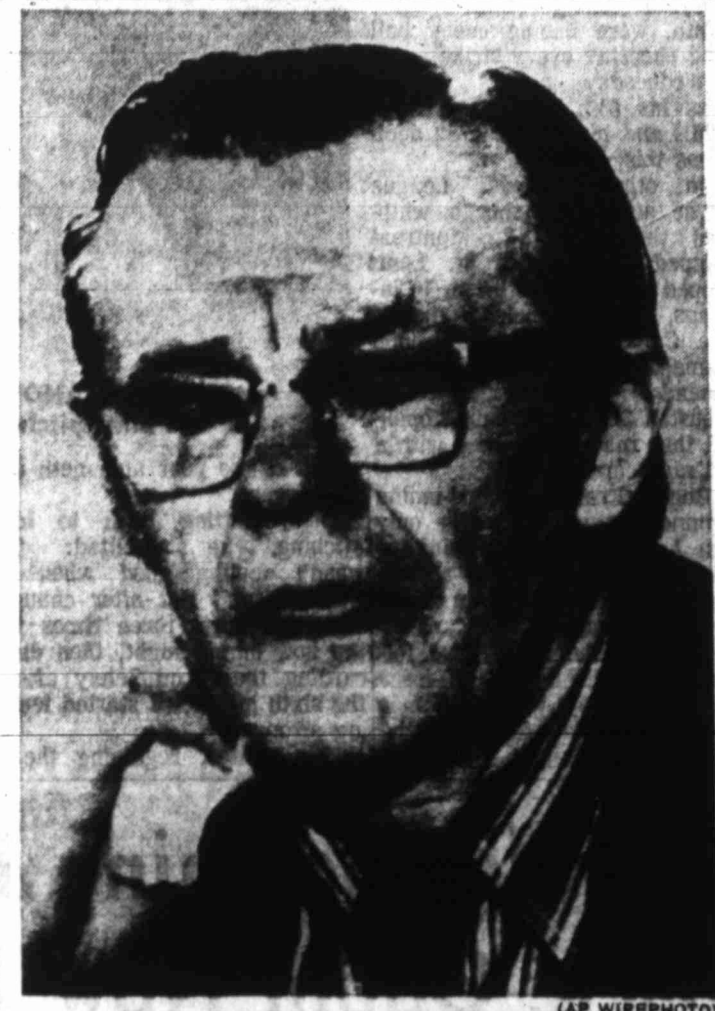

Heath was appointed ambassador to Sweden by Johnson in 1967. He had a ranch which is 8 miles from one of Johnson's ranches in Blanco County.

He became ambassador after resigning from the board of regents. His original appointment as a regent was by Gov. Price Daniel in 1958, and Gov. John Connally reappointed him in 1965. He was chairman from 1962 until he quit the board.

Heath was born in Norman, Tex., in East Texas, and came to Austin in 1933, when Gov. Miriam "Ma" Ferguson appointed him secretary of state. He entered private law practice in 1937.

He considered one of his major accomplishments as regent chairman the peaceful integration of the UT-Austin campus. "The fact that we were able to do it without violence, without bloodshed, without federal marshals — that is the thing I'm proudest of because undoubtedly it is the hardest thing we've gone through."

Heath also was instrumental in establishing the LBJ Library on the university campus.

HOT UNDER THE COLLAR — Roger Hilsman, a former state department official, pauses during news conference in New York Wednesday to use a handkerchief to wipe off perspiration. Hilsman said that two memos he wrote in 1963 about the possible overthrow of South Vietnamese President Ngo Dinh Diem were taken out of context and misinterpreted by the Chicago Sun-Times.

Wise Comes Within One Batter Of Perfect Tilt

Seven years ago Rick Wise watched Jim Bunning pitch a perfect game, then went out and recorded his first major league victory. On Wednesday night, Wise came within one batter of duplicating Bunning's incredible feat.

"I was well aware of the situation all the way," Wise said after he fired a no-hitter against the Cincinnati Reds—the second in three weeks suffered by the beleaguered National League Champions—and led the 4-0 triumph with a pair of home runs.

Wise faced just one batter more than the minimum 27, retiring the first 16 he faced, surrendering a one-out walk to Dave Concepcion in the sixth, then setting down the remaining 11 Reds.

"The crowd really encouraged me," Wise said of the 13,329 Cincinnati fans who began rooting loudly for him in the seventh inning and, by the ninth, were booing every ball and cheering every strike.

Wednesday night's victory was his 66th triumph for the Phils and his eighth in 12 decisions this year.

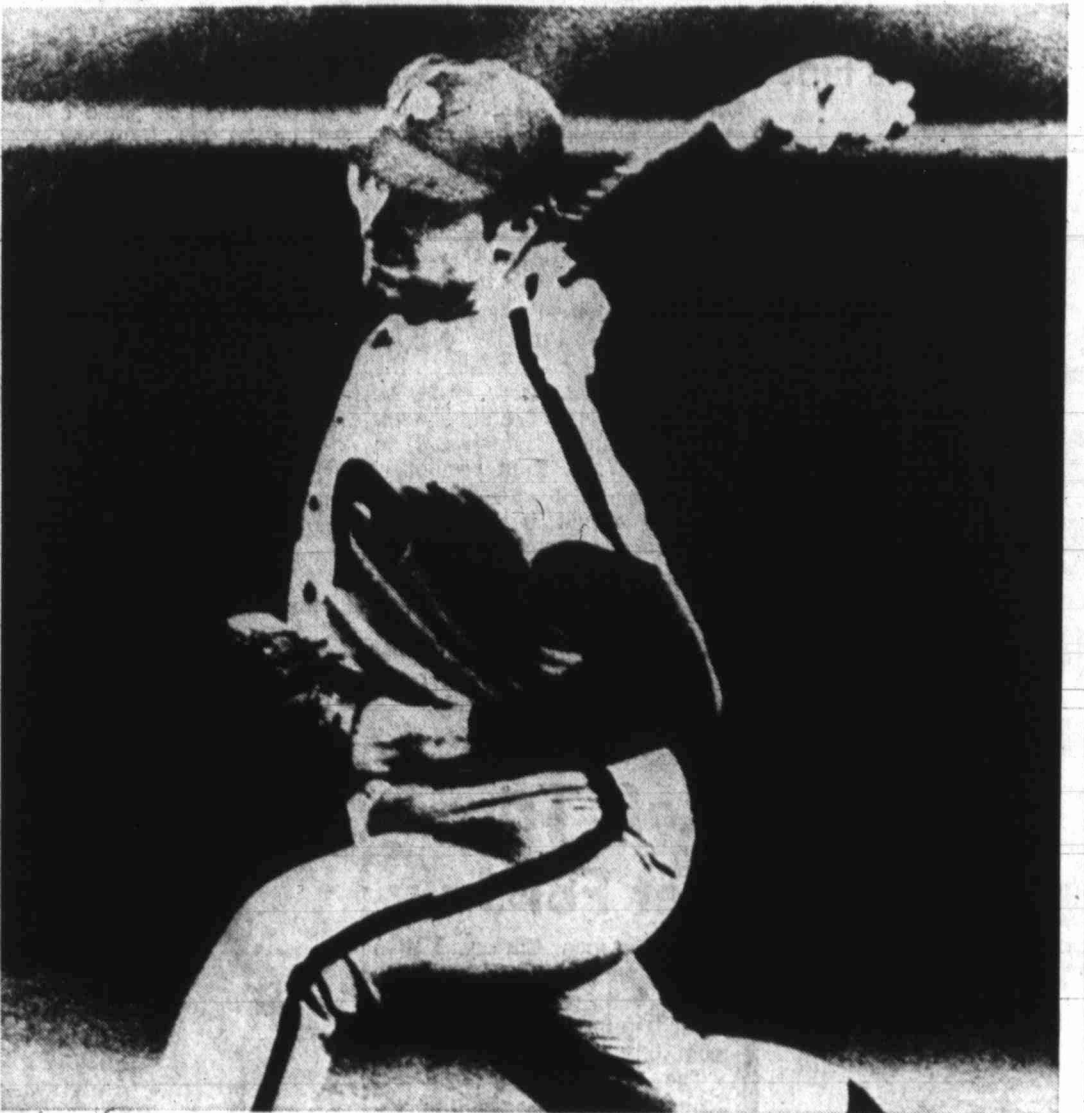

In other National League night action, Pittsburgh whipped the Mets 6-2, Montreal clipped Atlanta 6-3, St. Louis tipped Los Angeles 3-1 in 10 innings, San Francisco flipped the Cubs 5-2 in an afternoon game and, in a two-night doubleheader, San Diego edged Houston 3-2 in a 12-inning opener, then made it a sweep with a 4-3 nightcap triumph.

Roger Freed's second-inning grounder gave Wise the only run he needed, driving in Joe Lis who had been hit by a pitch and moved to third on Willie Montaner's double.

Then, in the fifth, Wise followed Freed's double off loser Ross Grimsley with a homer over the left field fence. And he led off the eighth with his fourth of the year and ninth of his career.

Then, getting back to his pitching, he admitted: "I wasn't feeling good when I warmed up." But after changing sweatshirts three times in the hot, humid night, then discarding them completely after the sixth inning, "I started feeling stronger."

The Pirates, regaining their

fourth of the year and ninth of his career.

Then, getting back to his pitching, he admitted: "I wasn't feeling good when I warmed up." But after changing sweatshirts three times in the hot, humid night, then discarding them completely after the sixth inning, "I started feeling stronger."

The Pirates, regaining their

4 1/2-game lead over New York in the National League East, were paced by Willie Stargell's three-run homer in the first inning and RBI double in the second. His 26 homers and 72 RBI lead the majors. Cleon Jones had a homer for the Mets.

Rusty Staub led the Expos' triumph with two singles that knocked in three runs and Bob

Bailey chipped in with his eighth homer while Darrell Evans drilled a two-run shot for the Braves.

The Cardinals, limited to one hit through seven innings by Dodgers' starter Don Sutton, then won it in the 10th on run-scoring singles by Lou Brock and Joe Torre off reliever Jim Brewer.

Tarleton Gals Holding Lead

BOZEMAN, Mont. (AP) — Two defending team champions, Cal Poly in the men's division, and Tarleton State for the women, took the lead in team standings Wednesday night after the second day of action in the National Intercollegiate Rodeo Finals.

The Cal Poly team, from San Luis Obispo, Calif., was paced by saddle bronc rider Melvin Dicks and bareback rider Larry Hay, who stood 1-2 in their respective events.

Tarleton State girls of Stephenville, Tex., led their division on the basis of strong performances by breakaway roper Sharon Harrelson and barrel racer Martha Thompson.

Following Cal Poly in the men's standings were Tarleton and National College of Business, Rapid City, S.D., tied for second. The second and third spots for the women were held by Colorado State and Ricks College.

In the saddle bronc event, one of the most closely contested, Cal Poly's Dicks, ranked third in national standings, and Tom Miller of Black Hills State College, Spearfish, S.D., were tied for first.

The barrel racing event for the girls was shaping up as a tight contest with Colorado State's Dee Dee Dear, ranked No. 2 in the nation, holding a lead over Tarleton's Miss Tompkins, No. 4 in the nation, by one second.

Stillwagon Due East Star Spot

LUBBOCK, Tex. (AP) — Jim Stillwagon has had a taste of professional football and the Outland Trophy winner from Ohio State says, "It sinks in real quick that there's no more rah-rah scarlet and gray."

Stillwagon has been scrapping for a first string job on the Toronto Argonauts of the Canadian Football League.

"There were more than 50 American boys trying for a place on the club and they can keep only 14," Stillwagon says. "The competition is really something. It's the most pressure I've ever felt and I have a no-cut contract. But I don't want something just handed to me."

The club, obviously pleased with Stillwagon at defensive tackle and linebacker, sent him to Lubbock to play for the East in Saturday's 11th annual All America Coaches Games.

Stillwagon arrived Wednesday and stepped off the plane into the 90-degree Texas heat. Informed he had just missed practice, Stillwagon said, "That's one way to get out of those two-a-days."

He was a fifth round choice of Green Bay of the National Football League but the Packers apparently didn't go strong for him because he stands only 6 feet and weighs but 225. The Toronto offer was much sweeter, including a two-year, no-cut contract.

Stillwagon is one of East coach Charlie McClendon's prime hopes in shutting down the West's high-powered offense which features Plunkett, the Heisman Trophy winner.

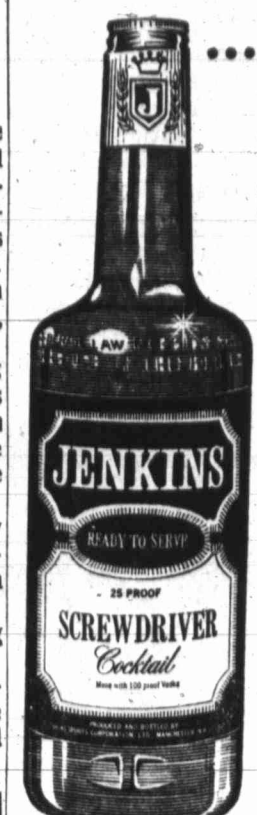

West Coach Bob Devaney praised both Plunkett and Southern Methodist's Chuck Hixon in Wednesday's workout.

"Both are getting that timing down," Devaney said.

A crowd of some 45,000 is expected in Jones Stadium for the 7:30 p.m. CDT kickoff that will be televised nationally on ABC.

Tigers Clip Optimists

The Big Spring Hardware Tigers squeaked past the Optimists, 6-5, in a Hi-Junior League contest Wednesday night.

The Tigers drove in four runs in the opening inning. The first three Tiger batters were walked when cleanup swinger, Landon Soles, followed with a double.

The Optimists trailed until the top of the sixth when they finally caught the Tigers.

The Tigers managed a run in the bottom of the sixth when Soles walked and Bruce Abbe came through with a clutch single with two men out to score.

The Optimists got two on in the seventh but a high fly to left fielder Barry Roger by Jodie Allred ended the game.

The Tigers were out, 5-4, by the Optimists, but Earl Reynolds, who pitched the first five innings, and Troy Kerby who relieved him rationed them to no more than one per inning.

Snickle Beal and Richard Shook recorded two hits each for the Optimists, and Eddie Padron got one.

The Tigers now lead the Hi-Junior League with a 6-2 record. The Optimists have a 5-4 win-loss record.

Optimists 100 022 0-5 5

The Angels advanced over the Orioles, 11-4, Wednesday night in Sophomore League competition.

Mark Callahan relieved Roger Battle at the mound in the third inning and held the Orioles to one run for the rest of the contest.

Billy Don Whittington of the Angels stood three for four for the night, including a triple with the bases loaded. Don Kelso had two hits for the Angels. Casey Lovelace, Shawn Anderson, Roger Battle and Robert Southworth also hit for the side.

The Orioles had six hits, with Timmie Cain and Jackie Romine getting two hits each.

Coach Resigns

NEW ORLEANS (AP)—Bill Hines, the head baseball coach at Louisiana State in New Orleans for the past two seasons, announced his resignation Wednesday to enter private business.

Powell's Booming Bat Is Back, Odom Now In Form

Boog Powell and Blue Moon Odom are back on the ball ... and the Chicago White Sox are all over it.

Powell cracked two home runs and a single Wednesday night, pacing the Baltimore Orioles to a 7-5 victory and finally bringing his batting average over the .200 mark.

Odom, the Oakland blazer who missed the first month of the season following elbow surgery, shut out Minnesota for 7 2/3 innings and beat the Twins 8-3 with relief help in the ninth to square his pitching record at 3-3.

And, in an afternoon game, the White Sox continued to apply their newfound sock, walloping Kansas City 12-3 for their fourth straight triumph and a 46-run total during the

winning streak.

Elsewhere in the American League, the New York Yankees nipped Detroit 6-5 on Gene Michael's 13th inning homer; Boston edged Cleveland 2-1 on a homer by Joe Lahoud and Milwaukee split a doubleheader with California, winning 6-0 and then bowing 9-5.

Powell, the American League's most valuable player last season, took a .178 average into Washington Monday night but has boosted it 31 points to .209 after drilling nine hits, for eight RBI, in the three games in which he has batted.

His 10th and 11th homers accounted for three Baltimore runs Wednesday night, helping Jim Palmer gain his 10th victory with ninth inning relief help. Frank Howard hit his 10th homer for the Senators during

a four-run rally in the ninth.

Odom, who had failed to last seven innings in six previous starts since coming off the disabled list, blanked the Twins on three hits until Harmon Killebrew singled and Rich Reese homered with two out in the eighth. Ron Perranoski replaced Odom after Leo Cardenas' leadoff homer in the ninth.

Whitt, Green Tie For Lead

WICHITA FALLS, Tex. (AP) — Mark Whitt of Irving joined Phil Green of Richardson in a tie Wednesday for the second round lead of the 15th annual Junior Texas-Oklahoma Golf Tournament here.

Both fired three over par 74s.

Whitt and Green held a total of 142. Green dropped from his first round 67 to a 75 on the second day.

The day's only sub par round was by John Adams of Midland and Don Robertson of Denton who shot one-under 71s, pulling within one stroke at 143.

Dallas' Steve Cook fired a 74 for a total of 143 while Mark Triggs of Tyler, Dub Huckabee of Monahan and Mike Massey of Austin tallied par 72s for 145.

Bucky Sheffield of Lubbock and Gary McKenzie of Fort Worth slipped to 77s after first round 69s, to fall four strokes off the pace with 146.

Scott Haynie of Wichita Falls turned in his second 73 for a 146 total.

Astros Won't Yell Bravo

SAN DIEGO (AP) — Angel Bravo's pinch double with two out in the bottom of the ninth vaulted the San Diego Padres to a 4-3 victory over Houston for a sweep of their Wednesday two-night doubleheader.

The Padres, snapping a seven-game losing spin, won the opener 3-2 in 12 innings on Tommy Dean's two-out run-scoring single.

Bravo, whose pinch double in the eighth inning of the opener sent that game into extra innings, drilled his game winning shot to left after Bob Barton was safe on a one-out error by third baseman Doug Rader and Dave Campbell forced Barton at second for the second out.

Both victories went to San Diego reliever Bob Miller, 5-2, who pitched four scoreless innings in the opener and two in the nightcap.

The Padres, snapping a seven-game losing spin, won the opener 3-2 in 12 innings on Tommy Dean's two-out run-scoring single.

Bravo, whose pinch double in the eighth inning of the opener sent that game into extra innings, drilled his game winning shot to left after Bob Barton was safe on a one-out error by third baseman Doug Rader and Dave Campbell forced Barton at second for the second out.

Both victories went to San Diego reliever Bob Miller, 5-2, who pitched four scoreless innings in the opener and two in the nightcap.

Richey And English Star To Play Off Tie Match

WIMBLEDON, England (AP) — The center court here was set today for the final scene of an unfinished tennis drama.

The participants were Cliff Richey, the U.S. Davis Cup star from Sarasota, Fla., and Roger Taylor of England, Britain's brightest tennis star. They were tied at two sets all, and 7 in the deciding set, when darkness halted play Wednesday.

Richey won the first set 6-2, lost 3-6 and 2-6, but came back to win the fourth set 6-4 to tie the match. After two protests from Taylor, tournament referee Mike Gibson called the match.

The tie-breaking scoring system, being used at Wimbledon for the first time this year, doesn't apply in a fifth set, so Richey and Taylor will just have to slug it out the old-fashioned way. The first man to break service will probably advance to the third round.

Richey is the No. 6 seed. Two other Americans, Stan Smith of Pasadena, Calif., and Arthur Ashe of Gum Spring, Va., have already made the third round. Smith cruised past John Paise of Britain yesterday, 6-1, 6-4, 6-4. Ashe mastered Patrick Proisy of the French Davis Cup team, 6-4, 6-4, 6-4.

Three other prominent American players did not fare as well.

Charles Pasarell of San Francisco, was upset by Adriano Panatta of Italy 6-3, 6-3, 3-6, 6-3, in the men's second round.

Sentimental favorite Pancho Gonzales was beaten by Pierre Barthes of France, 7-5, 8-9, 3-6, 6-3, 6-4, in a center court duel

which lasted over three hours.

Rosemary Casals of San Francisco, No. 4 seed in the women's singles, was beaten 7-5, 6-4 by Kerry Melville, the Australian with the powerful forehand.

In other matches, Rod Laver of Australia, the top seed in the men's singles, bested Ray Moore of South Africa, 6-8, 6-3, 6-2, 7-5, and Tom Gorman of Seattle, the unseeded American who eliminated No. 8 seed Cliff Drysdale of South Africa, beat Ezio di Matteo of Italy, 2-6, 6-2, 6-2, 6-1.

Allison Takes Hueytown Race

HOUSTON (AP) — Bobby Allison of Hueytown, Ala., drove an almost flawless race at Meyer Speedway Wednesday night to capture an unprecedented fifth straight NASCAR victory in the Space City 300.

He took only two pit stops during the 150-mile grind for a combined 39.4 seconds.

Richard Petty of Randleman, N.C., auto racing's first millionaire driver, was making a strong bid to halt Allison's amazing win streak at four until he went into the pits after 43 laps.

This was all the opportunity Allison needed. He sped past Petty and relinquished the lead for only nine of the remaining

157 laps.

James Hylton of Inman, S.C., took over the lead on the 147th lap when Allison went into the pits. But Allison's crew had his 1971 Dodge back on the track in 24.9 seconds, and he regained the lead for keeps on the 157th circuit. Hylton finished second.

Allison picked up the \$1,700 winner's check, but possibly even more important were the 100 points he was awarded in the race for the Winston Cup. This moved Allison's total for the year to 1,908.

Hylton collected \$1,200 for his second place finish and Walter Ballard of Houston, behind the wheel of a 1971 Ford, pocketed \$900.

THE HEAT BEATERS

When Mark IV says "Custom" air conditioning, this is what we mean.

Elegant styling. Built-in design. And engineering that's customized both under the dash and under the hood.

These are just three of Mark IV's long line. True customs, each obviously belongs in its car alone.

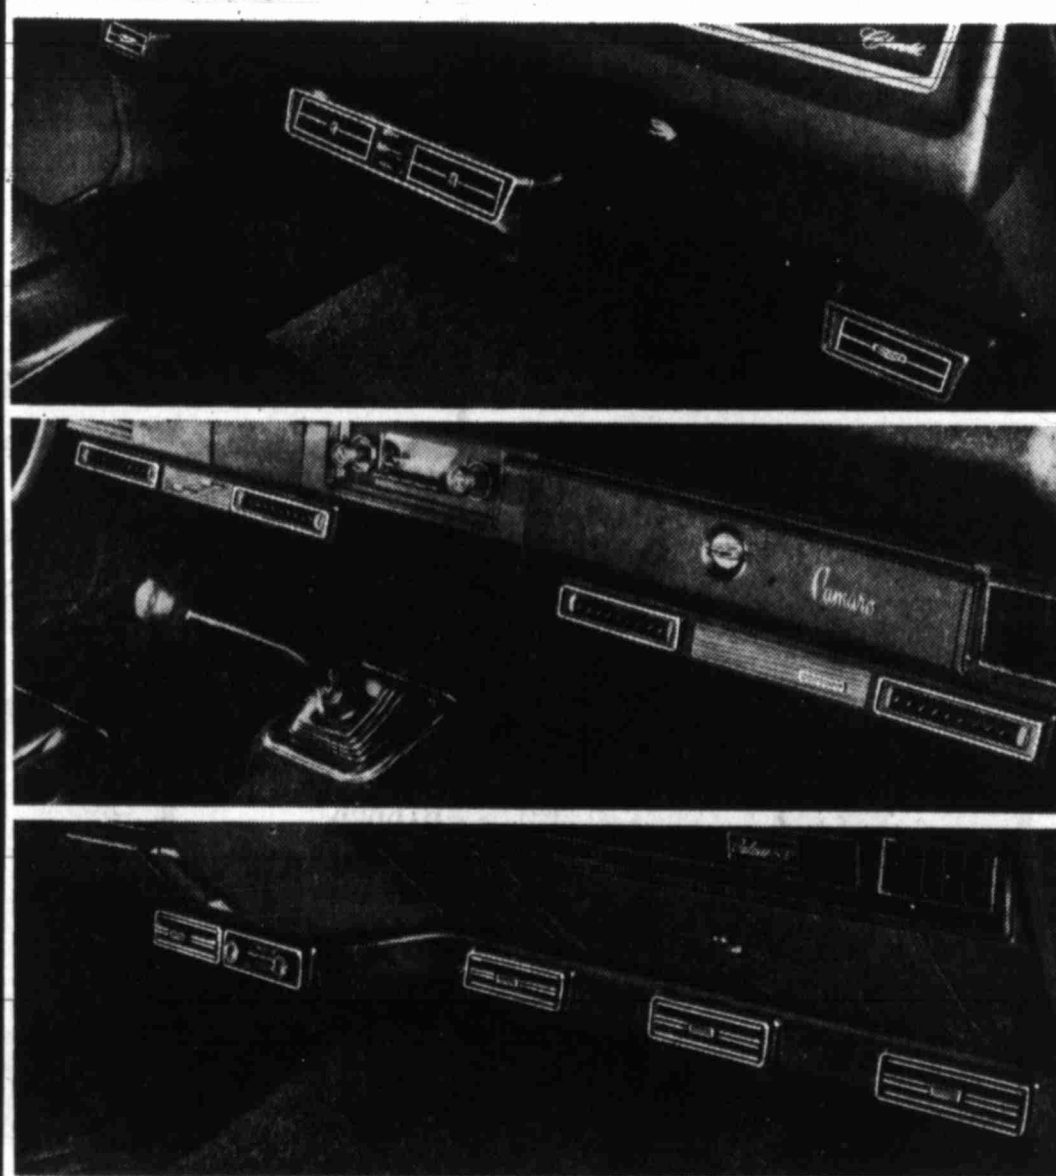

But Mark IV means more than just a pretty face. Mark IV has proved it can outcool all competitors—even factory air—in tests supervised by the U.S. Auto Club.

That's one reason Mark IV outsells the second brand 2 to 1. And Mark IV quality is backed by a 12 month, no mileage limit warranty good at any of the 5,000 Mark IV service centers coast to coast.

Mark IV has a full line of auto air conditioners starting at only

AMERICAN JETS — These lads have carried the Jet banner in the American Little League during the current season. Pictured are, front row from left: Terry Johnson, Richard Jenkins, Wesley Beauchamp (bat boy), Bryan Robinson, Brian Jenkins; second row, Barry Ross, Lance Perry, Bobby Williams, Steven Nobles, and Rodney Floyd; third row, Danny Coffee, James Holub, Bobby Huff, Scott Robertson, Robert Parson, Jimmy Combs, also Walter Beauchamp, manager, and Van Perry, coach.

Starfighters And Tigers Nail Down League Titles

The Starfighters clubbed the Sabres 21-1 to clinch the International Little League title Wednesday evening.

Don Roberson and Ruben Cherry, who divided pitching chores, allowed the Sabres only one hit while their mates were banging out 16 hits.

Ruben Cherry went four for five including a double; while Greg Pearson, Gary Martin, Ron Roberson, and Dale Hollandsworth had two hits each — C. Martin, R. Roberson and Hollandsworth included doubles. Gary Gunkel had two hits, one of them a double, for the Sabres. Ron Shults was nipped for the loss.

The Tigers nailed down the Texas Little League championship with a 6-2 victory over the Orioles Wednesday. It took a five-run rally in the last inning to do it, however.

Clem Sanchez shackled the Orioles with only two hits and

Craig Burks did just as well at working on the Jets, but his defenses faltered.

The Stars didn't let the Pirates get away with anything in the American Little League contest Wednesday evening and won it 6-0. Leland Daniels held the Pirates to four hits, and Tommy Belcher, the loser, allowed only six, two of them going to Kent Rice. Brent Overman got two of the Pirates' safeties.

The Hawks crammed over four runs in the first game then played steadily the rest of the way to defeat the Jets 5-2 in an American Little League game Wednesday. The Hawks are now 15-3 for the season.

C. Vernon won with a one-hitter, got credit for the win, while

B. Huff was charged with the loss. For the Hawks, J. Rogers and M. Evans had two hits each. B. Ross got the only hit for the Jets.

The Lions didn't necessarily prove to be the king of the beasts in the National Little League Wednesday evening, for the Wildcats won it 5-2, taking third in the league.

Bobby Doe, the losing pitcher, held the Wildcats to only one hit, but he had trouble with control in walking 10. Randle Jones got credit for the win, but Bubba Stripling, who came on in relief, struck out eight of the last nine Lions.

The Lions are now 12-5 for the season and the Wildcats 9-6-1.

Kenny Catches Dad's Homer

S.T. PAUL-MINNEAPOLIS (AP) — Kenny Killebrew, 13-year-old son of Minnesota Twins' slugger Harmon Killebrew, walked up to his father in the clubhouse Tuesday night with a surprise.

The father had socked his 11th homer of the season and 498th of his career in the sixth inning.

corral the Mustangs 11-5 in an American Minor League game Wednesday.

Holmes got two of the Elks' seven hits, while Hyer and Croelman each had two for the Mustangs, who had six hits of Pearce, the winning pitcher. Marquez was charged with the loss.

The Wildcats slashed the Tigers, 15-8, in International Minor League action Wednesday night to clinch a second place league finish.

McKee of the Wildcats hit a double and a single while at bat. The Wildcats finish the season with a 10-5 record while the Tigers stand 8-7.

WP—Jerry Hafton; LP—Anthony Cherry

Houston To Get Pro Basketball

BOSTON (AP) — Pro basketball is returning to Houston for another try—and this time it will have hometown hero Elvin Hayes going for it.

The Big E. and the rest of the San Diego Rockets are now the Houston Rockets via sale of the franchise Wednesday night to a group which will operate it in the Texas city beginning right away.

Announcement of the shift was made by NBA Commissioner Walter Kennedy at a hastily called news conference during the league's annual board of governors' meetings. He said the sale price was \$5.6 million.

Houston's first experience with a pro basketball team was a failure, with the American Basketball Association's Mavericks operating there two seasons from 1967-69 before moving out and becoming the Carolina Cougars.

HAYES IS BACK This time, however, there will be the added attraction of Hayes, who led the University of Houston to basketball prominence, including a nationally televised upset of the Lew Alcindor-led UCLA juggernaut, and has continued his stardom through three pro seasons with the Rockets.

Kennedy said the NBA had been eyeing Houston as a potential franchise site in an event, and was thus in a position to act quickly when the San Diego sale proposal was put before the board.

Kennedy said the Houston group is headed by Wayne Duddleston, a real estate broker, and Billy Goldberg, a banker. He said Bob Britebart, the principal owner of the San Diego franchise, would be part of the new ownership.

The commissioner said General Manager Pete Newell and the team's new coach, Tex Winter, would go with the club to Houston. He said the club would retain its nickname of the Rockets and would remain in the league's Pacific Division.

Kennedy said the Rockets will play most of their games in the Hofheinz Pavilion, a new arena on the University of Houston campus which was opened last year with a seating capacity of 11,500 and room to expand. He said a few games would be played in the Astrodome.

ERIE, Pa. (AP) — Donna Caponi, admitting an inferiority complex, doesn't think of herself as a U.S. Women's Open champion. Nevertheless, she begins defense of that title today at Kahkwa Club.

Miss Caponi has won the Open two years in succession, and nobody has ever won it three straight times.

Miss Caponi won only two tournaments in 1970, including the Open. She has no victories in 1971, even though she is fifth on the money list.

The 72-hole Open is a \$33,000 event, with \$5,000 going to the winner.

Although short, the 6,306-yard course demands accuracy. It's tree lined, well trapped, and hilly.

Only two golfers—Mickey Wright and Betsy Rawls—have won the Open four times. Both Miss Wright and Miss Rawls are entered in a field of 135 golfers in the Open.

The course record at Kahkwa is 70, set by Mary Lena Faulke in 1959 in the Western Women's Open, won that year by Patty Berg.

MOUNT POCONO, Pa. (AP) — Moon-faced Mark Donohue is smiling again.

He went out in the cool of the afternoon Wednesday and whizzed around the new Pocono International Raceway at a shade above 172 miles per hour.

The speed was the fastest recorded during five days of practice for the July 3 Schaefer 500 mile race, but for Donohue it ended days of frustration that began several weeks ago at Indianapolis.

It had taken the 32-year-old Brown University alumnus two days to get his Roger Penske-McLaren racer up to speed. And, as one trackside observer put it, it was one of the few times in the illustrious Penske-Donohue association that the team wasn't ready to race when it arrived at the track.

The reasons were numerous. For one thing, the Sunoco Blue McLaren-Offy was demolished in a wreck during the May 29 Indianapolis 500—after Donohue had led that \$1 million classic for 62 laps and ap-

peared en route to an easy victory.

The car had to be rebuilt for the \$400,000 Pocono race at a cost of more than \$50,000.

In between Donohue lost two straight Trans-Am races in his Penske Javelin, and was forced out of the Lemans 24-hour race after three hours when the engine failed in his Penske Ferrari. He was running second at the time.

New Yorker Pete Revson, who beat Donohue for the pole at Indy, was the first driver to break the 170 m.p.h. barrier at Pocono. The team McLaren driver was clocked at 170.3 during a late afternoon run Wednesday.

Several top speedsters flurried with the 170 barrier Wednesday, among them Joe Leonard, his teammate, two-mile Indy winner Al Unser, and the veteran A.J. Foyt.

Al Unser had recorded a lap at 169.2 while Leonard and Foyt both were in the 168-plus range.

Two days of practice remain before time trials begin at 10 a.m. Saturday to fill a 33-car field for the Schaefer 500.

Multiple Listing Service

(1). BUYERS AND SELLERS receive the benefit of cooperation between Realtors rather than being restricted to the offerings of a single agent or a series of agents. (2). Buyers, by contacting only one Realtor, may have access to the listings of all Realtors who participate. (3). Current market information, which is readily available through Multiple Listing, means that Realtors, their clients and the public are better served and informed. (4). Negotiations are carried on under rules of procedure designed to assure ethical practice, thus furthering the interest of clients and the public while extending adherence to high standards of practice.

Bass Tournament Begins Saturday

The next Big Spring Bass Club tournament is scheduled for Saturday and Sunday at the new Coleman Lake.

All fishermen are invited to join the tournament competition on either or both of the two-day tourney. Entry fee is \$3 for one day or \$5 for both days.

Fishermen may register and weigh in at the public dock at the lake. Competition starts at sunrise Saturday and continues until the final weigh-in at 3 p.m. Sunday.

Those interested in pre-registering for the tournament may contact Jerry Avery, Ken Lancaster or Ted Hicks.

LEGAL NOTICE
The Howard County Commissioners will hold an auction sale on Saturday, June 26, 1971 at 9:00 A.M. at the Howard County Warehouse, 1000 North San Antonio Street, Big Spring, Texas on the following: one 1967 Ford car, one 1961 Ford Pickup, two 1964 Ford Pickups, two '61 Gallon motor graders, one 1968 Pontiac car, one shop made tandem trailer (Vitrac), one shop made tandem trailer, old tires and scrap iron (including used, cyclone fence rail and posts). Items may be inspected at the County Warehouse before sale date. The County reserves the right to reject any or all bids.
Signed: VIRGINIA BLACK County Auditor

'We Must Just Close Up Shop' In Sacramento

SACRAMENTO, Calif. (AP)—The man who pays California's bills said today "we might just close up shop" if June 30 goes by and the state enters the new fiscal year without a new budget.

State Comptroller Houston I. Flournoy, a Republican, said he is preparing an emergency plan to cope with a budget crisis for the third consecutive year.

Gov. Ronald Reagan's \$6.74 billion austerity budget has been fattened to more than \$7 billion in the Democrat-controlled legislature but is mired down in a deadlock over welfare, tax reform and spending. The deadline for passing a budget is midnight June 30.

CAPTURING SPIRIT OF THE WEST—Don McCulley of the Texas Art Gallery of Dallas, and John R. Rose, Santa Fe, N.M., hang one of the many works of the nation's leading Western artists. These are on display today through Saturday at the Heritage Museum, free to the public. This is one of the most pretentious art displays ever exhibited here.

Heritage Museum Exhibits Display Of Western Art

A display of some of the best western art in the country is in the Heritage Museum through Friday.

The display includes oils and water colors as well as bronze sculpture of 12 of the 30 Cowboy Artists of America plus a number of other prominent western artists.

The show is sponsored by the Big Spring Heritage Museum in conjunction with the Texas Art Gallery of Dallas. Don McCulley, a partner in the Dallas firm, is on hand to explain the display.

"The only true heritage art of the United States is cowboy art, and some of the finest artists in America are represented here," McCulley said.

"We also have pieces by Joe Grandee, proclaimed the first artist of Texas by the State Senate, and Julian Anderdonk, the first Hill Country painter in Texas."

GOLD MEDAL
Two of the Cowboy Artists, James Boren and Tom Ryan, were recently awarded the coveted gold medal of the National Cowboy Hall of Fame.

Boren works primarily with watercolors and his peaceful scenes have become some of the most sought-after works in the western art world. Portfolios of six Boren watercolors

will be sold during the show. These reproductions are signed and numbered by the artist.

Tom Ryan has employed the medium of oils to achieve his success in western art. Building his work around the famous 6666 ranch, Ryan has also become another western artist whose work is in great demand by both collectors and dealers.

"There is not a lot of cowboy art available," said McCulley. "Some of the painters only turn out one to four oils a year."

Another Cowboy Artist, Olaf Wieghorst, is also exhibited at the show. Wieghorst, a native of Denmark whose work as an artist was preceded by tours of duty with the New York Mounted Police and the Cavalry of the United States Army, is an artist whose work has now become the center of many museum collections.

There are five of his paintings on display and like the other pictures in the show will be for sale. It is hoped that a portion of this collection will become the permanent property of the Heritage Museum through the generosity of its many patrons in the Big Spring area.

Bronze figures by Clyde Doney, John Free, Tom Knapp, and John Ward make up a most interesting portion of the show. Quality bronze work such as that on display at the museum is hard to come by and the men mentioned above, notably Doney and Free, are among the very best in their field.

Frank McCarthy, an artist whose painstaking attention to detail and his unusual techniques of oil paint application to create a smooth and glossy painting similar to the classic "old masters", has some pictures on display.

'No Smoking' Will Pay Off

ARLINGTON, Tex. (AP)—At least 45 families living in an apartment complex feel it's worth \$10 a month to stop smoking.

The families are living or are planning to live in the Sherry Park Apartments, which has announced that the \$10 will be deducted from monthly rentals for tenants signing "no smoking" pledges.

Mrs. Anita Maxfield, the apartments' manager, has been praised by the Texas Interagency on Smoking and Health for her action. Mrs. Maxfield said she has received letters of inquiry from outside North Texas, including Chicago and Los Angeles.

"One of the most amusing things that's happened," she said, "concerned three boys who are college students sharing an apartment. Two quit smoking and they told the third that he'll have to pay the extra \$10 a month unless he quits, too."

Seek Source Of Money In Slaying Of Mine Worker

WASHINGTON, Pa. (AP) — Despite a guilty plea to murder charges and a detailed statement from a key defendant, authorities say their investigation into the 1969 slayings of United Mine Workers insurgent Joseph A. "Jock" Yablonski and his wife and daughter is far from closed.

"The FBI has been looking, is looking and will continue to look for where the money came from to finance these slayings," said Thomas Henderson, a U.S. Justice Department lawyer, after Claude E. Vealey entered his guilty plea Wednesday in Washington County Common Pleas Court.

In a 15-page, 3,500-word statement that was read after the plea, Vealey said he and two accomplices were paid a total of \$5,200 by a man he knew

only as "Tony" to execute the killings. Vealey indicated that he never saw "Tony," that the killings and payment were arranged by a go-between.

The two key questions remained after the statement: Tony's full identity and his motive for wanting Yablonski killed.

In Washington, a spokesman for the United Mine Workers said there was no connection between the Tony in Vealey's statement and UMW President W. A. "Tony" Boyle, who defeated Yablonski for the union presidency after a bitter campaign that ended three weeks before the Yablonski murders.

Neither Henderson, who was assigned to the case in early 1970, nor special state prosecutor Richard Sprague would comment when asked whether

they knew Tony's full identity. Sprague, however, said it was conceivable there would be more arrests. He called Vealey's plea and statement, delivered Wednesday but given to the FBI almost immediately after Vealey's arrest in January, 1970, "just the first step up the ladder."

"We have four others to prosecute," Sprague said, "and it could be more." Four persons besides Vealey are charged in the Yablonski slayings.

Some sources said authorities already had investigated three and perhaps more "Tonys," and that there was nothing in any of their backgrounds tying them to the case.

News of Vealey's plea and statement spread slowly through the rich soft coal fields of Appalachia.

In Charleston, W. Va., Dr. I. E. Buff, a physician who has campaigned for UMW reform and better mine safety and improved black lung benefits, said: "There is someone with a great deal of intelligence that masterminded the job. There is someone with a great deal of money that is also implicated. That's who we should get."

Minstrels Here For Concert

The Christian Minstrels, a teen musical group from Pasadena, Calif., will present a concert at 7:30 p.m. today in the Church of the Nazarene, according to the Rev. E. Wales Lankford, pastor.

The concert is based on the theme "Let's Get Together," and there will be no admission charge.

The Christian Minstrels are on a 40-day, 9,000-mile tour of 24 states and Canada, their fifth annual state-wide tour. The group holds the George Washington Honor Medal from Freedom's Foundation of Valley Forge for their contribution to patriotic music and the American way of life.

Old-Fashioned To Be Thrifty?

RUSK, Tex. (AP)—Taxpayers shouldn't have to assume greater tax burdens every time the legislature meets, Gov. Preston Smith said Wednesday, adding that it isn't old-fashioned to be thrifty.

"It is too much to expect and it is too much to demand, particularly in these inflated times, that our taxpayers assume greater and greater burdens each time the legislature meets — if we can avoid it," he said.

Smith spoke at an appreciation dinner honoring himself and the legislature. "Personally," he said, "I don't think it is too old-fashioned to expect the state to spend the taxpayers' money as carefully as any private citizen spends his own."

(AP WIREPHOTO)

'JOCK' REMEMBERED — Three friends of Joseph A. "Jock" Yablonski recall their relationship with the insurgent mine leader who was murdered in December, 1969. Discussing his friendship, his leadership of the insurgent Miners for Democracy, and the confession to his murder in Washington, Pa., Wednesday are left to right, Nick Savage, a miner for 43 years, William Freeman Sr., police chief of Clarksville Borough, Pa., and George Millward, an electrician.

Miners Gathering In Pubs To Talk About Assassins

CLARKSVILLE, Pa. (AP) — A group of miners sat in a small taproom Wednesday night and recalled their friendships with insurgent mine leader Joseph A. "Jock" Yablonski, his murder a year and a half ago and the confession of a man charged in the case.

Yablonski, 59, his wife and daughter were found shot to death in their beds here Dec. 31, 1969, shortly after he lost an

election for president of the 20,000-member United Mine Workers union to W. A. "Tony" Boyle.

SHOULD PAY
Soot-stained miners, after laboring eight or more hours underground, talked about the slaying and Claude E. Vealey's courtroom confession a few hours earlier that he was one of three men who killed the Yablonskis.

None of those questioned expressed anger at Vealey.

"The people who put him up to it should pay. I don't see how you can put the whole blame on him. He wouldn't have done it on his own. The blame should go on the people who paid him," miner Emile Lepo said.

"If I had my way, I'd turn him over to the coal miners and they'd find out who was behind it," said George Smoggie, a steelworker.

Although the UMW offered a \$50,000 reward for Yablonski's killers, some of the Clarksville miners said they wondered if someone in the union was not responsible.

STILL HERE
"We don't think it goes all the way to the top but no matter what the decision is, we'll always wonder if it wasn't someone in the union," one miner said.

"He may be dead but he's not gone, we're still here," Nick Savage, a miner for 43 years, said. "I happen to be one of those rebels, one of his boys, one of the Miners for Democracy."

Yablonski's group of insurgents assumed the name of the Miners for Democracy.

"For so long, the union has been so crooked, so powerful, the only hope any miner had was Jock Yablonski, and now he's dead," another miner, John Cherup said.

Mann To Exhibit Works In Gold

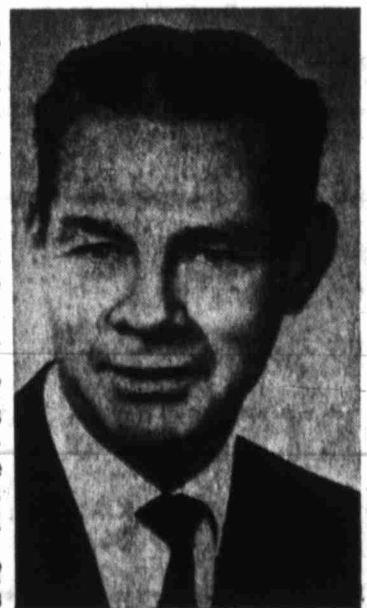

Those in the Big Spring area who have feasted on treasures of western art and bronze at Heritage Museum Wednesday and today will have another rare treat coming Friday and Saturday.

Bart W. Mann, San Angelo, will exhibit concurrently with the paintings and bronzes examples of his own creative genius — his works in gold. Like the paintings, the Mann display is free to the public.

Although he classifies himself as a hobbyist, Mann is recognized as one of the outstanding goldsmiths of the nation, and, indeed, he enjoys a full measure of international respect.

He is due to bring some of his flacons, goblets and cups made of solid 18-karat gold, many of them beset with alexandrites, a methysts, diamonds, rubies and sapphires.

He also has a collection of what has grown out of this challenge of the esthetic — his works in smaller jewelry such as pins, brooches, tie-tacks, etc. Many of these are produced by techniques which involve natural items (honeycomb, for instance) which are used to create moulds and vaporized and displaced by gold. His fascination with gems (Mann

BART MANN

buys them from all over the world) has led to a variety of clusters such as grapes, a jeweled apple tree, cactus with green chrysopase, natural green snail pin, corn ears with kernels of pearls. Simple gold creations embrace such things as thorny cross inset with rubies for the hands, side-arm feet, miniature horned toads, ram's head, arrow head.

The Consumer Will Pick Up Tab

LAS VEGAS, Nev. (AP) — The consumer will ultimately pay the cost of cleaning up the environment, says Russell Train, chairman of the President's Council of Environmental Quality.

"The original cost is on the polluter to clean up the problem," said Train, "but the consumer can expect the cost to be passed on to him."

Reds Grab Fire Base

SAIGON (AP) — North Vietnamese troops drove South Vietnamese infantrymen off a key base just south of the demilitarized zone today and a second artillery outpost nearby was abandoned.

Within hours after the North Vietnamese captured Fire Base Fuller, four miles south of the buffer zone separating the Vietnamese, the South Vietnamese started pulling out of Fire Base Sarge, six miles to the south-west.

Associated Press correspondent Michael Putzel, reporting from Da Nang in the northern sector, said U.S. helicopters lifted out South Vietnamese artillery pieces from Sarge. The base had a battery of six 105mm howitzers.

Fire Base Sarge, like Fire

Base Fuller, had been under steady North Vietnamese shelling attacks for the past six days. The two bases were the two westernmost outposts held by the South Vietnamese in the area below the demilitarized zone.

Putzel reported that the assault against Fuller began Wednesday night after the North Vietnamese had pounded the base with a tremendous mortar and rocket bombardment, firing some 800 rounds in 80 minutes.

The North Vietnamese assaulted the base from a north-west ridge, virtually the only approach open to them. After the North Vietnamese penetrated the barbed wire perimeter, the South Vietnamese pulled out, descending on the south slope of the mountain in disarray, he said.

(Photo by Danny Valdes)

JOB CORPS ENTRANTS — Melvin R. Mathis, local recruiter for the job corps, welcomes some of the first Big Spring women to enter the program: Elaine Teichman, Dora Grissom and Brenda Kaye Vowell (right). Miss Grissom plans on secretarial training, and Miss Teichman is seeking a career in health services. Both will attend the Albuquerque center. Miss Vowell will train for food service at the McKinney center. Their parents are Mr. and Mrs. Delois Teichman, Midway Road; Mrs. Barbara James, 1303 Mesquite; and Truman Vowell, 2401 Runnels.

Drouth Relief Measure On Freight Rates

Howard is in a list of West Texas counties due to share in reduced rates on shipment of hay as a drouth aid measure, it was announced by Cong. Omar Burleson.

He said that an Interstate Commerce Commission Drouth Order would permit railroads to ship hay at reduced rates to Andrews, Bailey, Cochran, Eastland, Hockley, Howard, Jack, Martin and Yoakum counties.

Burleson said the order was made because of drouth conditions in the area. It applies to those persons designated as being in distress and in need of relief by the U. S. Department of Agriculture, or by such state agents or agencies as may be designated by the Agriculture Department, to assist in relieving problems caused by the drouth.

Big Spring (Texas) Herald, Thurs., June 24, 1971 3-B

Ira Aten was short on formal education, but he was gifted with a keen mind and the ingenuity which made the Texas Rangers famous. His 1888 plan to end the fence-cutters war with a "dynamite boom"—or dynamite bomb—is featured in THE TEXAS STAR on Sunday, June 27.

Also, Mickey Herskowitz writes about the star-sighted city of Houston. Dean Boswell spotlights an entertaining plumber, and L. A. Wilke looks to Freeport's Fishing Fiesta.

the TEXAS STAR

OVERRUN — Map locates Firebase Fuller four miles south of the DMZ in South Vietnam. It was reported today North Vietnamese troops overran the base defended by South Vietnamese forces. Headquarters of the South Vietnamese refused to confirm the retreat.

Students At Angelo Meet

FORSAN — Two Forsan High School students and the publications advisor are attending the 1971 Angelo State University Yearbook Seminar this week in San Angelo.

They are Debbie Fryar, daughter of Mr. and Mrs. Travis Fryar, 4001 Wasson, Big Spring, and Tommy Rodman, son of Mr. and Mrs. Robert Rodman, St. C. Rt., Big Spring. Mrs. Don Stevens, Big Spring, is their advisor.

A senior, Miss Fryar is a member of the yearbook staff. Rodman, a senior, will serve as photographer for next year's yearbook.

The annual seminar is co-sponsored by the ASU Journalism Department and News-photo Yearbooks of San Angelo. More than 90 students from 27 Texas cities and towns and three other states are attending the workshop.

Has Good Reason To Enter College

GRAND FORK, N.D. (AP) — High school pupils applying for admission to the University of North Dakota's summer school program for juniors must write a brief explanation of why they wish to attend.

Not all of them detail a quest for knowledge.

Registrar Milford Ulven came across an application form in which a youth specified, under his reason for attending, "a 36-24-36 now attending summer school."

The application was accepted. Ulven said the lad's honesty might offset any possible lack of academic zeal.

Labor Candidates To Attend Meet

A new president and secretary-treasurer of the Texas AFL-CIO will be elected at the labor organization's convention in Dallas this August. H. S. Brown, who has been president since 1961, will not seek re-election.

Candidates have been invited to visit union members and speak at the regular monthly meeting of the Odessa Central Labor Union, according to D. L. Willis, president of the Central Labor Body.

The meeting will be Monday 7:30 p.m. at the Plumbers Hall, 2020 E. 8th, Odessa.

'Love What You Have' Advises Air Force Wife

By BARBARA LORD

"If you can't have what you love, love what you have." This phrase of an old adage is a dominant philosophy for Mrs. Charles Walker, and she believes it has helped make her 16 years as an Air Force wife happy ones.

Born in Mulhouse, France, which is on the French, German and Swiss borders, Mrs. Walker grew up in a land of mountains and snow. Since marrying Col. Charles Walker, deputy commander of operations at Webb, she has found herself in many parts of the world where she had to learn new hobbies and gain new interests. The Walkers have two daughters, Charlene, 13, and Diane, 10.

Today, finding herself in West Texas, Mrs. Walker doesn't worry about the lack of snow and mountains. Instead, she learned to play golf and bridge, and is active in community work.

"People should just learn something new instead of griping about what they can't do," said Mrs. Walker. "It's the same with cooking. If the stores don't have what you're used to cooking with, you have to find something else that's as good. What's available varies in every part of the country."

Mrs. Walker thinks it pays to use the best of everything when she prepares meals, and she thinks a little extra effort makes a big difference in taste. She chops onions by hand rather than in a chopper; she grates her own cheese for spaghetti; and she prefers to cook with real butter, fresh cream and the best cuts of meat.

One of the biggest surprises to Mrs. Walker when she first came to the U.S., was the openness of American kitchens. In France the kitchen is off limits to visitors, and only very close friends were allowed in.

"The French are preoccupied with food," said Mrs. Walker. Food comes first above everything. They always have two big meals a day, and all I remember is my mother in the kitchen over the stove."

Mrs. Walker cooks an average of at least three big meals a week, when she gets a little fancier than usual and manages to get her family all at the table. Cooking is a hobby with her, and putting variety into the family meal is a challenge.

"You have to have a feel for cooking to be a good cook," said Mrs. Walker. "I have many cookbooks, but seldom use them except for getting ideas." She thinks anyone can read a cookbook, and buy hundreds of spices, but that good cooking depends on the individual's ability to combine cookbook directions with her own instincts.

Mrs. Walker learned that it pays to have things prepared ahead of time for the occasions when her husband brings an unexpected guest for lunch or dinner. Her freezer is usually full of dishes that can be taken out and ready to serve in a matter of minutes.

"Sometimes I'm in the mood for cooking and will have four different meals sizzling at the same time. All the burners and the oven will be full all day long, and I end up with several meals that I can freeze. I make onion soup by the gallon, and its great to have on hand for lunches."

Although Mrs. Walker left France 13 years ago, and has been an American citizen for 10 years, people still expect her to specialize in French cookery. The time and distance away from her home country have not lessened her love for food, and she never disappoints guests in the expectation of a French meal.

"I like any kind of food when it is well prepared," she said. "I fix a lot of French foods, of course, but I cook many other foreign foods too." Mrs. Walker has taken courses in Chinese and Hawaiian cookery, and also makes Mexican and Italian dishes.

Mrs. Walker reads cookbooks like most people read a novel. She said that new ways of preparing foods are being discovered all the time, and that a woman should update her cookbook collection regularly in order to make both better and easier meals.

The Walkers met on the ski slopes of Murren, Switzerland, where she almost bumped into Colonel Walker (a beginner at the time), when she was speeding down the mountains on her skis. She said when people note her accent and ask where her home is, she replies "Big Spring."

"My home is where I live right now," she said. "It's not where my relatives are or where I have been before. I make a home wherever we're assigned. Moving never gets

easier, but I think every home has gotten better. We've moved every two years for the past 16, and each time I thought I would die from leaving my friends. But we always make new friends, and we never lose the old ones."

Mrs. Walker taught high school French in Hawaii, Washington, D. C. and Virginia. She is also fluent in German, and speaks "enough Spanish to get by." She holds a BA degree in Art.

Many activities keep Mrs. Walker busy in Big Spring. She visits patients at the Veterans Administration Hospital monthly, and takes them refreshments and magazines. She also gives magazines to residents at Big Spring State Hospital and to prisoners in the local jail.

Although she still classifies herself as a beginner golfer,

Mrs. Walker enjoys the sport. She also plays bridge with the Officers Wives Club and at the Big Spring Country Club, and she likes to sail, an art she learned in Hawaii.

She is a member of the International Women's Club, Immaculate Heart of Mary Mothers Club, Women of the Chapel, and the 1930 Hyperion Club. She enjoys being with people, and in West Texas she has made it a point to discover the good points of West Texas and West Texans.

"I was impressed with Texans even before we came here," she said. "I had met them in other places, and they were always very outgoing and charming. I find them a very well-groomed, poised and friendly people."

Mrs. Walker's favorite recipes are shown on page 5-B.

(Photo by Danny Valdes)

VERSATILE CREPES — One of the most versatile of all French foods is the Crepe, a pancake-like food that can be used in many forms. Prepared with a flaming liqueur sauce, they become the famed French dessert, Crepes Suzettes, which Mrs. Charles Walker prepares often. Without the sauce, the Walker children enjoy crepes with butter and syrup for breakfast. They can also be rolled and stuffed with any number of fillings for a lunch or quick evening meal.

Delight Your Family With Gourmet Stew

Madam, tonight is the night you capture the essences of foreign flavor delights to captivate your winsome diners. Imagine a Hacienda Stew right from your kitchen in minutes. Or a French country stew of rich brown gravy enveloping chunks of tender beef and flavorful garden vegetables.

Sounds delightful! But here's the nicest part. Most of the preparation has been taken out of your hands when you start with chicken or beef stew from a can. All you need do is enhance the meaty stew of your choice with added tidbits exemplary of the cuisine you're capturing.

HACIENDA STEW

1 cup green pepper, cut in 1/2-inch squares.
2 tbsps. butter or margarine
2 cans (1 pound 3 ounces each) beef stew
1 can (15 ounces) kidney beans
2 tbsps. chili powder
Corn bread or corn chips
In saucepan, cook green pepper in butter until tender.

Add stew, beans, and chili powder. Cook over low heat for 5 minutes. Stir now and then. Serve with bread or chips. Makes 4 to 6 servings.

Or, spoon up platesful of luscious canned chicken stew laced with sliced mushrooms, the pungency of crushed thyme, minced garlic and dry red wine. Crusty French bread coated with creamery butter and a plate of tomato wedges, cucumber circles, and green pepper strips round out the meal.

VIVA LA FRANCE STEW

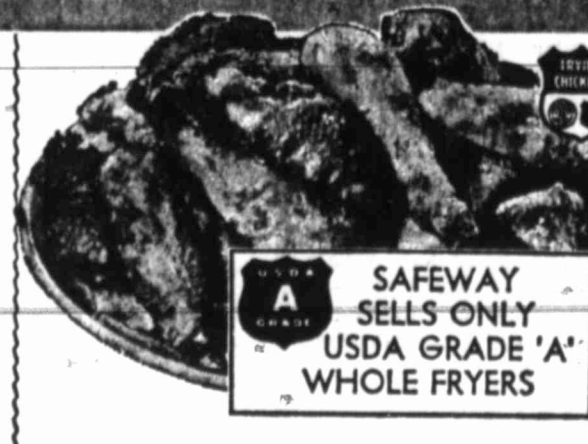

1 can (2 ounces) sliced mushrooms, drained
1/2 tsp. leaf thyme, crushed
1 small clove garlic, minced
1 tbsps. butter or margarine
1 can (1 pound 3 ounces) chicken stew
2 tbsps. dry red wine
2 tbsps. chopped parsley
In saucepan, brown mushrooms with thyme and garlic in butter; stir in remaining ingredients. Heat; stir now and then. Makes 2 to 3 servings.

Coed 'Killer' Wins New Trial

AUSTIN (AP) — The Texas Court of Criminal Appeals reversed Wednesday the death penalty conviction of Jackie Wayne Grider in the Dec. 8, 1967, knife slaying of a Baylor University coed.

Grider must receive a new trial, the high court said, because persons who opposed the death penalty were excluded from the jury.

Jill Brown, a Baylor coed from Crawford near Waco, was reported missing the night of Dec. 8, 1967. The next day her blood-soaked car was found on a shopping center parking lot in Waco. Miss Brown's nude body, bearing several long gashes from a knife, was found Dec. 10 among some cedar trees near Lake Waco. Grider was arrested and charged several days later.

The trial was moved from Waco to Dallas on a change of venue.

Grider's trial began May 20, 1968 — only two weeks before the U. S. Supreme Court's famous "Witherspoon vs. Illinois" decision prohibiting the systematic exclusion from death penalty juries of persons who have scruples against capital punishment.

The Texas court said "Witherspoon" must be applied retroactively.

It said 23 out of 72 prospective jurors were excused because they opposed the death penalty.

Washington Prof Might Eliminate 'Pulp Stink'

SEATTLE (AP) — A University of Washington professor reports he is on the threshold of a breakthrough that will eliminate the malodorous smell associated with the manufacture of paper.

Dr. Kyosti Sarkanen says it will be about three years, before research is far enough advanced to warrant construction of a pilot plant.

The process Sarkanen and his colleagues are working on utilizes gaseous oxygen rather than the sulfur compounds that combine to create the offensive kraft odor now speeded forth from the stacks of pulp mills.

HIGHER YIELDS
"The pulp industry," Sarkanen says, "will continue to grow with the development of new products dependent on pulp and with the depletion of petroleum chemicals needed in production of such items as nylon."

"So," he says, "why not develop now so new plants, as they are needed, which will be odorless and return higher yields, thus reducing the costs of finished products?"

Sarkanen's experiments are based on a pulp bleaching process utilizing oxygen rather than chlorine gas, a major pollutant of streams.

"If oxygen can take the place of chlorine, there's no reason we can't substitute it for sulfur in the pulping process," says Sarkanen.

The only real problem, says Sarkanen, is to induce the gaseous oxygen deep enough into the wood chips. He said the oxy-

gen works well in breaking down the surface material but that it is wasteful because it doesn't utilize all the raw material.

BREAKTHROUGH

It is in this area that Sarkanen is expecting a major breakthrough in the near future.

Sarkanen's process could prove a boon to both industry and residents of pulp mill towns who now endure the distinctive odor, not unlike decaying meat, that permeates a mill town. As little as one part per billion is detectable by the human nose. But despite its offensive odor, the gaseous waste from the mills is not harmful to animal or plant life, Sarkanen says.

Most pulp mills are located in areas of great scenic beauty or along lakes and streams with potential for recreational, tourist and industrial development.

But the all pervading stench precludes such development. The first reaction of most persons getting their first whiff of "pulp stink" is to get out of town and fast.

Disaster Plan

HOUSTON (AP) — The city council voted Wednesday to have Dr. Charles A. Berry, chief physician for the Manned Spacecraft Center, prepare a medical disaster plan for the Houston Intercontinental Airport.

Under the plan, the city would lease to doctors a two-acre tract near the airport for a clinic.

Dbie. Pass Pass Pass

Opening lead: Deuce of ♦
A light third seat opening bid by East paid off a handsome reward in today's hand, when an indiscreet opponent stuck his neck out once too often.

After two passes, East chose to open the bidding with one heart, despite the fact that he had only 10 high card points. Altho his values were somewhat anemic—including two unsupported jacks—the presence of a reasonable suit plus eight cards in the majors are mitigating factors. If he held a doubleton spade, for example, or if his suit were a minor then there would be no justification for initiating the auction, in view of partner's original pass.

South's one spade overall is open to question. His suit is broken and the presence of so much strength in the opponent's suit is another objection. West, having passed 12

points including a good four card spade suit, is well within himself in making a penalty double.

North promptly bailed himself out to two diamonds, which appeared to offer a safer haven. East was relieved of the obligation of taking further action and South decided, temporarily, not to stir matters up any further.

West repeated his penalty double and East showed a complete faith in partner by passing. He trusted that his partner would allow for the possibility that his third seat opening bid might be somewhat below par and that the double was based primarily on West's own assets. Observe also, that East does hold two diamonds which makes it rather likely that the dummy will be extremely short in trumps.

South now committed his major indiscretion on the deal by bailing out to two no trump. Despite his holding in hearts, he had no basis for assuming that no trump would prove to be a better contract. Perhaps North should have persisted to three diamonds after West doubled two no trump, but he is hardly open to censure for refusing to fight a stubborn partner.

West opened a diamond and when the smoke had cleared, South was restricted to two diamond tricks and two hearts on the deal. The defense took, in all, three spades, three hearts and three clubs to administer an 1,100 point sting. Had North been permitted to play two diamonds, he could have scored seven tricks for a modest 200 point deficit.

Sunflowers Like Money In Bank?

RENNER, Tex. (AP) — The often berated sunflower which North Texas farmers have battled for generations as a stubborn "weed" may emerge as a bonus cash crop.

Officials of the Texas Research Foundation in Renner, Dallas, say they are researching the possibility of commercially growing sunflowers on a large scale in North and East Texas as in other parts of the country.

"For years we have been testing various seeds in order to locate a variety that could thrive this far south," said Huey Whitehurst, administrator and chief agronomist. "The seeds produce a superior oil for human use and high protein food supplement for cattle."

"Now we think we may be getting close to isolating a variety that can withstand the Texas climate."

While Texans have been chopping sunflowers down as a nuisance, the Russians, Canadians and farmers in the northern

United States have been reaping healthy profits from sunflower seeds with a minimum of work and investment.

Although some varieties are native to Texas the largest grow better in colder climates. In most cases the sunflowers compete successfully with soy beans, safflowers and corn.

"Through continuing research, we believe we can first isolate and then develop one single variety of sunflower that can grow standing straight up in Texas," Simpson declared.

"Sunflowers have only one lethal enemy, the sunflower moth. Its larvae eat the blossoms and seeds and we cannot spray if the head bends over." Unfortunately the moth is just as durable as the flower it devours.

"When we find a variety that can stand up straight we can spray and defeat the moth," Whitehurst said. "We know the spray that will work. Now we need the plant."

Helping The Hooked

One of the more tragic byproducts of the unwanted Vietnam war is the incidence of drug addiction among U.S. servicemen who have seen duty there. Just how big a problem drug addiction in the military is only now being made known. And only now is the emphasis being placed upon treatment of men who become addicts while in service, rather than on punishment and discharge.

Hearings planned in Congress are certain to make public more and more of the story. And a frightening one it is; estimations (which we hope are too high) are that as many as 40,000 GIs in Vietnam are heroin addicts.

But viewed historically, the figures are not perhaps as surprising. For war and narcotics addiction have often gone together.

War is an unnatural action of man; to bear the pain and to kill another human being on command is too much of a strain for many individuals. Therefore, military men have often sought escape in narcotics, which dull the senses and make the unbearable bearable.

In our own experience, the Civil War is a glaring example of the hand-in-hand aspect of narcotics and war. Opium and its derivatives were only beginning to come into widespread medical use at the time of the Civil War. Therefore, indiscriminate use of morphine because of ignorance of its addictive powers created a night-

mare problem. It is believed that by 1880, about 400,000-Americans were morphine-opium addicts — and that's about twice the number of those believed to be heroin addicts today.

Heroin, however, is a more serious problem than opium. It is far more potent, far more addictive — and far harder to shake — than either morphine or opium. And the heroin being used in Vietnam is 95-97 per cent pure; it can produce a "high" merely by inhalation. By contrast, heroin sold on the streets in this country is an adulterated mixture with only 5 to 10 per cent pure heroin. Consequently, GIs addicted in Vietnam return to find they have an \$80 or \$90 a day habit — and

the nation has a monstrous problem.

Passage by the Senate of a resolution prohibiting arbitrary discharge of military addicts without first offering them full treatment is a step toward curing the problem.

It is not a solution, however. Heroin cannot be cut off at its source in Southeast Asia as long as we have troops there and the native government is too weak or indifferent. (Secretary of Defense Melvin Laird has proposed that the U.S. buy up the entire Turkish poppy crop in an effort to dry up this source.) The effects will be with us for long, long time, but a start must be made toward the road back.

Better To Wait

Rep. F. Edward Hebert, House Armed Services committee chairman, wisely has backed away from the Navy's troubled F14 fighter plane. He has withdrawn support for more money for the F14 until the Pentagon completes a review. The House supported his stand.

Rising costs, about \$2 billion over Navy estimates, are plaguing the Pentagon and the F14 contractor, Grumman Aircraft Corp. The Pentagon

must decide whether to continue the project, stop it entirely, cut back its order or renegotiate the contract.

Hebert realizes the Navy needs a new carrier fighter. But he is waiting for Pentagon recommendations. If the Pentagon decides to continue the F14 program and makes "strong justification" for it, Hebert is prepared to back it again. The decision to wait is a sound one.

Leaky Legends

Around The Rim

Jean Fannin

A magazine carrying a story about the "legend of Scenic Mountain" came across my desk the other day. Legends about Scenic Mountain, South Mountain, the big spring, Moss Creek, and other local sites are numerous, but this happened to be one I had never heard — at least in detail.

THE STORY CONCERNED a wealth of gold cached in a cave on Scenic Mountain by a gang of outlaws. I've heard legends of buried treasure of the mountain, but my informants have never been specific — I suppose if the tales were more detailed someone would have been a lot richer by now.

Anyway, as this newly-brought-to-light legend has it, a band of outlaws stole a shipment of gold and took off across the West Texas prairies with it. When they reached the big spring a posse was hot on their trail. The heavy load of gold was slowing them down so they decided to ditch it here and come back for it later.

ONE OF THE MEN located a cave (he did something by mere chance which numerous search parties have failed to do), and the outlaws stashed the gold. Then as they took off for safer pastures a band of Indians attacked and massacred the gang (which might lead to moralizing on behalf of some folks about "just rewards"). Anyway the posse found

the outlaws, but no gold.

THIS LEGEND, as do most, has quite a few holes in it. For instance, if the outlaws were already dead when the posse reached them who leaked the location of the gold. From what I've heard of Indians in these parts in those days, wouldn't it be safe to assume at least one tribe was going to be able to afford better teepees during the coming winter?

I SUPPOSE that during the middle of this bloody battle one of the outlaws might have called aside one of the braves and said "Listen, buddy, we've got this gold cached up there in the mountain." It's safe to assume there might have been an attempt at a deal — I suppose. Although I'm tempted to think that most of those Indians who learned to speak English so well are all safely confined inside my television set — or at least not out on raiding parties in the middle of a West Texas prairie.

HOWEVER, if everyone went along debunking legends as fast as such stories reached their ears you and I would have a pretty colorless land to live in. So, even though I'm not quite sure that it has any substance, I'll just add this one to my collection. Who knows, some day I may have enough legends that I can piece them all together and find that treasure trove.

Telling 'Em Off

Andrew Tully

WASHINGTON — While politicians, journalists and assorted drawing room liberals were telling our youthful revolutionaries how wonderful they were at commencement exercises across the land, it was a breath of fresh air to hear the voice of an authentic scholar named Nathan M. Pusey.

YOU ARE, in fact, dangerous bums, Dr. Pusey told the rebels in a speech to students before retiring as president of Harvard University. Pusey used nicer language because he is a gentleman and a nicer guy than I am, but his message is not distorted by my translation. Indeed, when he called the revolutionaries "power-hungry . . . grievously, even malignantly deluded . . ." he was employing words that make "bum" in comparison seem an innocuous label.

MORE IMPORTANTLY, Dr. Pusey exposed the vicious and shoddy flummery of the mob's ideology. He was describing the fraud inherent in most "demonstrations" when he noted that while these foul-mouthed kids "profess to eschew materialism" and "talk endlessly of love . . . (they) manifest less and less regard for others, or the opinions of others outside the immediate circle" of their intimates.

DR. PUSEY put his finger on some of the facets of the children's revolution most of us have wondered about for some time. He noted the rebels' "rhapsodic concern for the environment," then went on to depose that these are the same brats who "burn automobiles and buildings, tack posters on trees, spray-paint walls and public monuments, break down bushes, trample grass, discard trash by the roadside." Some ecologists!

IT WAS good to learn, too, that Dr. Pusey had the guts to question the brats' motivation. There has to be something suspicious about a mob that, as Dr. Pusey noted, "amplify their rhetoric in public parks, shriek their calls to action over bullhorns and sound trucks . . ." This strategy of forcing their "usually very inane doctrines" on the community has the smell of a terrible self-doubt.

Let us turn from Dr. Pusey to an anonymous Boston policeman quoted at length in The New York Times

Sunday Magazine of June 13 by a Harvard University psychiatrist named Robert Coles:

"HAVE YOU ever seen those college kids shouting at the police? I've never seen anything like them for meanness and cheapness. The language that comes out of their mouths; you begin to wonder whether you're in a mental hospital."

Well, as people like Ted Kennedy and other assorted bleeders for political profit keep telling us, these are our children. They need our help, and it should be given to them, since it apparently is too late for the kick in the pants that should have been administered years ago. But as we help them — or try to do so — we also should have the grace to be ashamed of them.

(Distributed by McNaught Syndicate, Inc.)

What Others Say

There is some justification to the argument that until legislators are granted higher pay, attempts to limit outside income and the temptation to "do business" with lobbyists in Austin are bound to fail.

Certainly the \$4,800 now provided for legislators is not a princely salary. Few legislators depend upon this as their sole source of income, however.

But would increasing the pay of legislators, even if providing at the same time for annual sessions, automatically insure better-quality lawmakers, a more efficient legislature, and fewer attempts to bend ethics in search of a quick buck? The answer obviously is no.

If such a system is the norm in Austin, and it is, what difference would paying legislators \$20,000 a year, \$12,000 a year or \$200 a year make? Individual legislators count for little under present rules in Austin. The best men in the world, with the best intentions and in possession of the best bills, can't do a thing if the rules are stacked against them.

When the legislature sees fit to break its bonds, to reform its procedures and to toss out the lobbyists, then it can rightfully ask for higher pay.—SAN ANGELO STANDARD TIMES

Not Enough Facts

David Lawrence

WASHINGTON—Slowly the facts are coming to the surface about the notorious "Pentagon study"—part of which, although containing "classified" documents, have been published in the press. It turns out that the 36-man group of researchers had no access to White House files and was not permitted to interview "any of the principal participants."

LESLIE H. GELB, chairman of the Pentagon task force which prepared the report that it was rather "a history based solely on documents." Without the opinions of the participants, he declared, this approach was certain to lead to "mistakes" and "distortions." He added:

"Of course, we all had our prejudices and axes to grind and these shine through clearly at times, but we tried, we think, to suppress or compensate for them . . ."

"WRITING HISTORY, especially where it blends into current events, especially where that current event is Vietnam, is a treacherous exercise. We could not go into the minds of the decision makers; we were not present at the decisions, and we often could not tell whether something happened because someone decided it, decided against it or, most likely, because it unfolded from the situation."

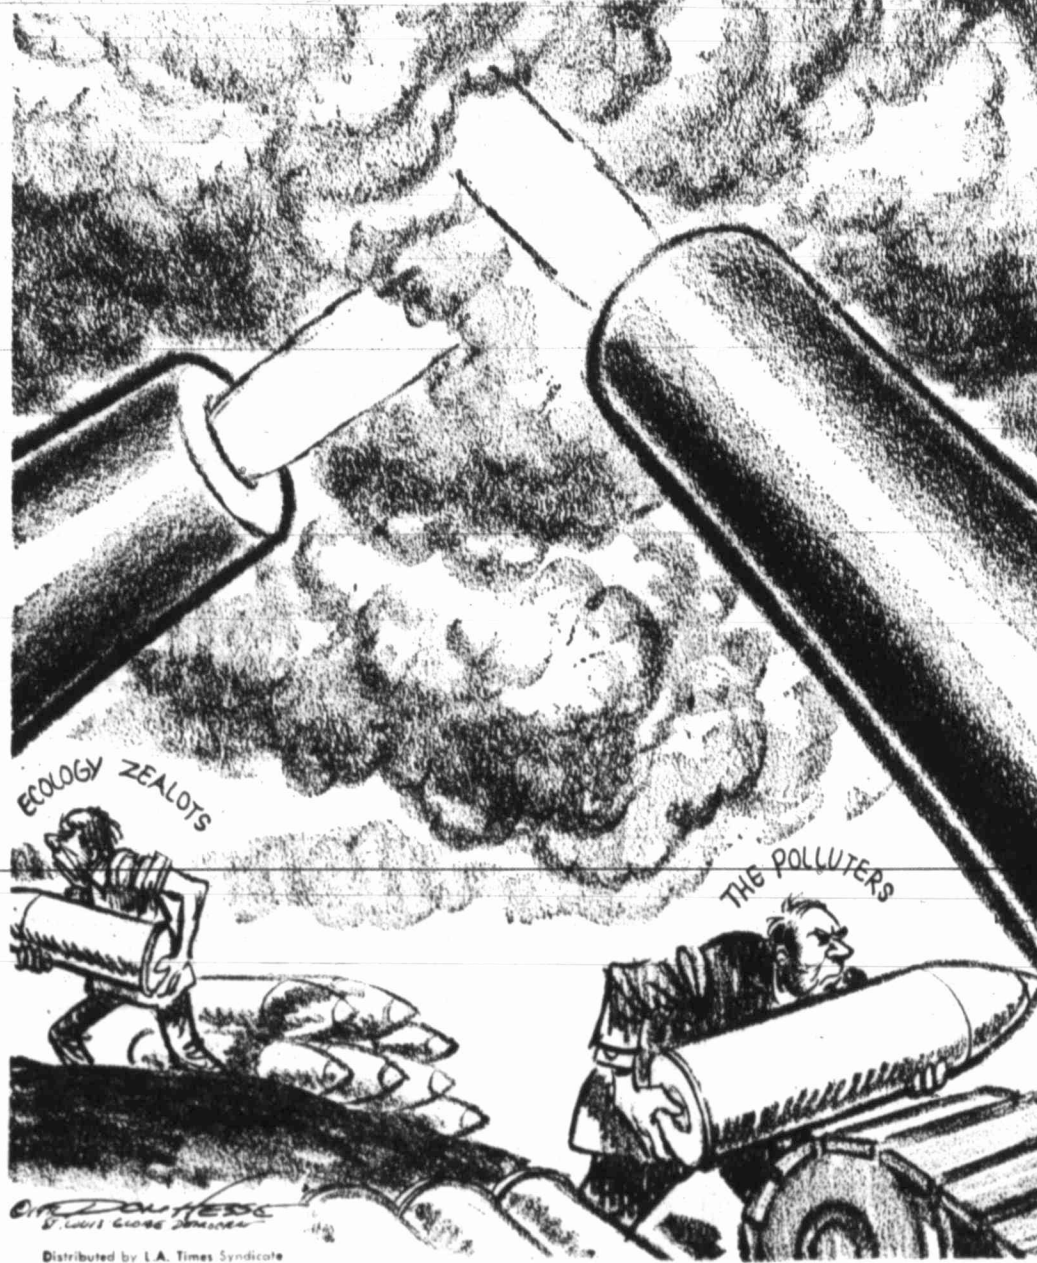

This statement indicates that the "pentagon study" should not have been given the significance which has been attributed to it in the press.

THE OPEN admission that the

"principal participants" in the administration were not interviewed is of great importance. The American people will not be able to form an impartial judgment of just what did happen in the making of Vietnam policy during this period until those involved — including President Johnson, his secretary of State Dean Rusk and his Secretary of Defense Robert S. McNamara and successor Clark Clifford — are interrogated or their written memoranda to the President are permitted to be studied by another investigating commission. The objective would be to get all the facts and then form an impartial judgment.

IT IS INTERESTING to note that General Maxwell Taylor, who was formerly chairman of the Joint Chiefs of Staff and later American ambassador to South Vietnam, has questioned some of the conclusions drawn from the "Pentagon study." He denies that there was any deliberate deception by the Johnson administration.

EVERY DAY there are indications that the entire controversy is creating an unfavorable impression of the United States in foreign countries. It is not clear, abroad what is meant by the allegations that President Johnson engaged in "deception." General Taylor, points out that President Johnson was still rejecting the bombing recommendations even after the 1964 election, so "it seems highly unfair to accuse him of having made up his mind before the elections but putting it off for political reasons." (Copyright, 1971, Publishers-Hall Syndicate)

POLLUTING THE POLLUTION PROBLEM

How To Make Big Money

John Cuniff

NEW YORK (AP) — This is an excellent time to buy issues of new stocks, says Milton Fisher. Some sound companies with good prospects are offering their shares. The potential for big profits exists.

But beware. A sound foundation in the new issue market often deteriorates suddenly, catching the naive, the greedy and the fools in quicksand. The public's only protection is itself, says Fisher, and sometimes it isn't protection enough.

An investor-banker, Fisher is author of a successful book that poked holes in the commonly accepted notion that small investors must deal only in stocks listed on the big exchanges.

Nonsense, he said in the book, "How to Make Big Money in the Over The Counter Mar-

ket." Investments are under your nose if you look, he said. Why invest in a big company whose growth is behind it and about which you know little when you can invest in a local company with its future ahead of it?

Said Fisher: "Only the public can reject the junk. Let the issuer and the underwriter eat the garbage. They'll get the message."

How do you reject the junk? By studying the prospectus, which Fisher claims really isn't as formidable as it appears. He gives this advice:

1. Pay particular attention, of course, to the statement of earnings paragraphs. The company must list its five-year financial record, or from its founding if less than five. What are the earnings per share?

2. Determine the price-earnings ratio, or the number of times earnings the stock is selling for. If a new issue comes out at 50 or 100 times earnings and you know you can get seasoned companies at 15 times, you've had your warning.

3. Study the paragraphs on "dilution." Be mighty skeptical of a new issue in which the insider's value per share was one cent and the stock is being offered to the public at \$5 a share.

Value per share is not to be confused with cost per share. The insider might have paid very little for his stock, but then he could have built up the value by his contributions to the company. The important figure to look for is the value of the insiders' shares at the time the company goes public.

On The Lam From Lamb

Hal Boyle

NEW YORK (AP) — Jumping to conclusions:

There is no real reason why we should always try to rid ourselves of unreasonable prejudices. Being ornery and contrary now and then is part of human nature and helps keep us human. For example, I have

spent all my life on the lam from lamb. I know it is unreasonable to flee lamb when so many people agree it is tender, tasty and nutritious, but any occasion on which I can evade eating lamb is a moral victory. To me lamb is still a mouthful of wool, fit only for women and children too small to defend themselves.

I feel the same way about eggplant. Whenever I hear the word, I get a mental image of a green hen turning into a half-ripe tomato.

Some of the best customers of door-to-door salesmen are recently retired men. They are so grateful to have somebody to

talk to beside their wives that they usually buy something after listening to the sales spiel. Never lend money to a guy who half the time wears one of his socks inside out. You can't trust anyone who is that badly organized.

Unhappiness is what a wife feels when her husband feels happy, and she can't for the life of her figure out the reason why.

Speak kindly to your wife for the next couple of months, fellows, and bring her home a rosebud now and then. After that she won't mind so much reassuming the seasonal anonymity of being just one more of television's pro football widows.

It is time to go on a vacation if you find you are making more than one trip a day to the pencil sharpener simply because you can't think of any other way to act lazy.

When a politician starts waving the flag too hard, it's a good idea to look under his rug and see what he is seeking to hide.

Wives like following the principle of togetherness in marriage more than husbands do. Togetherness in small details, that is. A wife is always willing to join her husband's fasting program when he has to go on a diet, but feels hurt and neglected when he shows unwillingness to join her in a diet she has to follow.

About the only consoling thing you can think of when one of your friends over 50 takes up jogging, is that you'll get a half day off from the office to attend the services for him.

Experience is what costs a fellow so much to get when he doesn't want it, and what so many business firms pay so little for when they demand someone who has it.

Senate Wants In

Marquis Childs

WASHINGTON — As a loyal member of the Nixon team, the Senate's minority leader, Sen. Hugh Scott of Pennsylvania, often finds himself caught between two fires. In conference after conference at the White House he has argued that the Senate must be given some piece of the Vietnam action.

The response is invariably: If we show any signs of yielding by setting a date for withdrawal, Hanoi will get the idea we're going to surrender. Then we will have no chance of sustaining a viable South Vietnamese government and army capable of resisting a Communist take-over.

SO SCOTT GOES back up to Capitol Hill to play the part of the little Dutch boy with his finger in the dike. There was no difficulty over the Hatfield-McGovern amendment. Well in advance Scott had predicted the vote would be 53 to 39. The vote on the "end-the-war amendment" to the Selective Service Act was 55 to 42.

THE DEFEAT of Hatfield-McGovern and a similar resolution in the House is far from ending the pressures on Capitol Hill to force some action on the President looking to an end of the fighting. Two of the most-respected senators, Frank Church of Idaho, a Democrat, and John Sherman Cooper of Kentucky, Republican, have been redrafting a proposal to be hopefully voted on before the summer recess beginning Aug. 8.

THE AMENDMENT as presently drafted would declare it national policy to withdraw all land, sea and air forces from Indochina. It prohibits

any Department of Defense funds or any other funds, including foreign aid money, being used for the purpose of engaging the armed forces of the United States in further hostilities in North or South Vietnam, Laos, Cambodia or Thailand. Defensive air attacks would be prohibited unless American troops were to use the phrase in the Constitution, in imminent danger. This means there could be no residual force nor any bombing out of Thailand or from aircraft carriers.

SINCE THE repeal of the Gulf of Tonkin resolution the President has no authority to do any of these things, the amendment asserts. It acknowledges, in effect, that only the commander-in-chief and not the Congress can set a date for a complete pull-out. "The President should set a date for withdrawal," the amendment says.

This is a sweeping proposal, even though it stops short of fixing a deadline. Yet it appears likely to get a majority vote when it comes up. Sen. George Aiken, the ranking Republican on the Foreign Relations Committee, and Majority Leader Mike Mansfield both favor it.

(Copyright, 1971, United Feature Syndicate, Inc.)

City Birds

DUNDEE, Scotland (AP) — To increase the variety of birds in Dundee, the parks department is breeding gold and silver pheasants, partridges and other birds, and releasing them in the parks.

The birds roam all over the city, where the rule is "Don't interfere with them or try to catch them."

Editorials And Opinions The Big Spring Herald

8-B Big Spring (Texas) Herald, Thurs., June 24, 1971

A Devotion For Today . . .

Come, see a man, who told me all things that ever I did: can this be the Christ? (John 4:39, ASV)

PRAYER: Lord, so speak to me that I may be able to speak of Thee to others. May my lips and life proclaim the glorious gospel of Thy redeeming grace. In Jesus' name I pray. Amen.

Dear Abby
Abigail Van Buren

DEAR ABBY: You don't have to tell me I have a crazy husband, I already know that. What I need is some advice on what to do about it. This man absolutely refuses to eat anywhere except at home, and I mean anywhere, including the lovely homes of his relatives and mine. (The only exception was his mother's home, but she is dead now.)

His excuse is that he doesn't know how clean their dishes and silverware are, and he isn't sure of the cleanliness of their pots, pans and kitchens.

Naturally, we can't go on out-of-town trips and our social engagements are limited, too, but that's the way it has to be.

In case you think my husband is a lame-brain, he owns his own business and last year his income was in six figures. He drives a Cadillac, wears tailored suits and carries his lunch. Figure that out! Can you help me?

EATING IN: DEAR EATING IN: Your husband has a "phobia" about germs. It won't kill him, but it's unfair to his family. He could possibly get over it with the help of a good psychiatrist, but if he's too selfish to seek help, I see an eternal triangle in your future — your kitchen, your husband and you!

DEAR ABBY: My wife is a schoolteacher, and as such she

gets three months' vacation during the summer. I have only one month vacation. She told me that she has decided to take our daughter to France for two and a half months. She says she needs the rest and the separation after eight years of marriage would be "good" for us.

Although I do love her, I am prepared to offer her a divorce based on this solitary flight.

What is your opinion?

PERPLEXED: DEAR PERPLEXED: It seems to me that you would be giving her an "ultimatum" rather than "offering" her a divorce. Loving her as you do, I would advise against such an "offer." (She may take you up on it.) Perhaps the separation would be good for both of you. Let her go with your blessings and find out.

DEAR ABBY: This is for the husband who sees nothing wrong with leaving 4-and-5-year-old children alone in the house "for a few minutes." In the state of California, children who are left alone in a house or an automobile are

considered "neglected" by an authority in REDLANDS.

DEAR ABBY: Referring to your reply to "Too Sensitive" in which you said it is intended as a compliment, not a put down, when asked, "How come a nice girl like you isn't married?" I think any question along this line is rude and nobody's business. The questioner deserves to be squelched, and my stock reply is, "I didn't have to."

Very truly yours,
BALTIMORE MISS

What's your problem? You'll feel better if you get it off your chest. Write to ABBY, Box 69700, Los Angeles, Calif., 90069. For a personal reply enclose stamped, addressed envelope.

For Abby's new booklet, "What Teen-Agers Want to Know," send \$1 to Abby, Box 69700, Los Angeles, Calif., 90069.

Testing For VD

Your Good Health
Dr. G. C. Thosteson

I've suggested (I'm not the only one) that, until we have a great deal more routine testing for venereal disease, we aren't going to find it all — and the V. D. epidemic will go on and on.

Since gonorrhea is not detected in blood tests, as syphilis is, but can be detected by the Thayer-Martin culture media test, why couldn't this test be advantageously made part of the requirement for a marriage license?

When it comes to gonorrhea, the male usually knows when he has it. The female very often does not.

But gonorrhea can go unnoticed even in the male. I received the following from

Murray C. Brown, M. D., health commissioner of Chicago:

"If cultures are not performed during premarital examinations — male and female — then the possibility exists that GC (gonorrhea) infections are not being detected."

"In one study, 26 out of 919 (2.8 per cent) males were positive for GC even though the reason the male patients sought an examination was for only a premarital blood test."

Worth thinking about, isn't it? Not that it will do the whole job. It won't. But it would be a starting point.

Dear Doctor: Is it possible that the chlorine used in

swimming pools may have a cumulative harmful effect on the eyes? Since I swim the crawl, I put my face in the water, eyes open.

The other day my eyes were severely irritated when I went swimming immediately after the chlorine solution had been put in the pool. —C.L.S.

Some people are more sensitive to irritation from chlorine than others, but there is no cumulative effect, because the tears are profuse enough to bathe the eyeball thoroughly.

If you happen to find the chlorine unduly irritating, my suggestion is to keep your eyes shut most of the time, except for an occasional glance to get your direction.

Dear Dr. Thosteson: How do doctors determine if a person has osteoporosis or osteoarthritis? I'm supposed to have both. —Mrs. B. C.

It's not at all unusual to have both of these annoying maladies. Much of the time a doctor can suspect either (or both) from examination and paying attention to what the patient tells him. But in either

case, X rays give pretty definite answers.

How does VD start? Why are teenagers among its most frequent victims? Will it cure itself? Dr. Thosteson has the answers in his convenient, layman's language booklet, "Venereal Disease: How to Avoid It; How to Cure It." For a copy write him in care of The Herald, enclosing 35 cents in coin and a long, stamped, self-addressed (use zip code) envelope.

First Lady Showing Off

WASHINGTON (AP) — First Lady Pat Nixon has invited members of the Committee for the Preservation of the White House to a luncheon meeting at the White House today.

She'll be showing off two newly refurbished rooms completed since the committee met last November — the ground floor diplomatic reception room and the Vermeil room, which houses a historic collection of silver-gilt objects.

Miss Kathy Linder Weds Robert Daniels

The marriage of Miss Kathy P. Linder and Robert Daniels is being announced by the bride's parents, Mr. and Mrs. Milton J. Linder of Phoenix, Ariz. Daniels is the son of Mrs. Jeri Daniels, 105 Mesa.

The couple was married in an evening ceremony, June 13 at the Temple Beth El in Phoenix. Rabbi M. Iutaur performed the ceremony and Martin Rubinoff, pianist, played background music.

The bride wore a floor-length peau de soie gown, overlaid with ivory silk organza. The Victorian sleeves and round neckline were trimmed in lace, and a wide band of lace ran down the front of the gown. A matching band trimmed the sleeves. An ivory pillbox held her long veil of illusion, and she carried a white orchid.

Miss Andrea Seigel served as maid of honor, and the bride's sister-in-law, Mrs.

Rhoda Linder of Des Moines, Iowa, was matron of honor. Bridesmaids were Miss Susan Daniels of Big Spring, the bridegroom's sister; Miss Pat Sinclair, and Miss Betty Lee Darby, both of Phoenix.

The attendants wore yellow gowns and head pieces of ribbons trimmed with daisies. Miss Seigel and Mrs. Linder carried bouquets of yellow and white daisies, and the bridesmaids carried yellow daisies.

Norman Linder served as best man for his brother. Ushers were Robin Phillips, Don Barjack, Nelson Graves and William Linder of Des Moines, Iowa.

A dinner and reception was held in the temple congregation hall, where dance music was provided by the Ed Nicoros orchestra. Following a wedding trip to Los Angeles, Calif., the couple will reside in Tempe, Ariz., where both are students at Arizona State University.

Daniels previously served two tours of duty in Vietnam where he received the Bronze Star and two Purple Hearts.

Young Women Travel To Utah For Festival

Miss Cheri Horn, daughter of Mr. and Mrs. Jack Horn, 505 Dallas, was among 25 young women who left Tuesday morning for Salt Lake City, Utah, to represent the Texas West Stake, Church of Jesus Christ of Latter Day Saints, in a dance festival Friday and Saturday.

The 16 women will present one of the dances performed in Little Abner, attired in square dance costumes. They traveled to the festival by car and plan to tour sights of interest before returning June 29.

The dance festival will have eight to ten thousand participants from all over the world. The West Texas Stake includes members from Midland, Odessa, San Angelo, Lamesa, Seminole and Big Spring. The festival is held every three years, with the interim years reserved for music and speech festivals. This is the first year the West Texas Stake has participated.

The festival is part of the church's Mutual Improvement Association (MIA) for young people. The area girls were accompanied by Mrs. Larry D. Racier of Andrews, state MIA president; and Mrs. George

Parks of Midland, dance instructor.

Previous performances of the dance were shown for the Relief Society of Odessa, on a noon talk show of an Odessa television station, and for sports day in Big Spring.

D. L. Whiteheads Visit Relatives

WESTBROOK (SC) — Mr. and Mrs. Danny L. Whitehead, stationed at Quonset Point, R. I., for the past six months, are visiting his grandparents, the A. C. Moody's, and her parents, Lt. Col. and Mrs. Robert L. Reid of Webb.

After his 20 day leave, Whitehead will return to Rhode Island while his wife remains in Big Spring for a visit.

Other guests of the A. C. Moody's have been the Junior Moons of South Texas, and a granddaughter, Darlene Fuson of Big Lake.

Stacy and Curtis Wade Clemmer of Cisco are spending the week with their grandparents, the Altis Clemmers, while their parents, the R. L. Clemmers, and the Curtis Clemmers of Colorado City vacation in Dallas and New Mexico.

Weekend guests of the Clemmers were the E. G. Johnsons of Cisco and Sherrill and Pam Hendricks of Roswell.

The Charles Rannes visited his parents, the G. C. Rannes in Midland recently.

Sunday guests of the E. A. Odens were Mrs. Bobby Blalock of Stanton, the L. B. Pruett and the Butch Poes of Balmorhea.

The D. A. Oglesbys visited his brother, Everett Oglesby of Kermit.

Plans Announced For Homecoming

KNOTT (SC) — The Knott Homecoming is Saturday at the former Cosden Club in Big Spring. All ex-students, parents, friends and teachers of the Knott School and community are invited. All those who can are requested to bring a spread dinner. The program will be at 5:45 p.m., followed by a business meeting.

Supper will be served at 7 p.m., and a prize will be awarded the person who received the best response in attendance to invitations sent out by former students.

Women's Group Has Bible Study

Byron Nugent, field representative at the local Social Security office, spoke to the TOPS Pound Rebels about the benefits of Social Security Tuesday at the YMCA.

Nugent listed the four basic benefits as retirement, disability, survivors and medicare. Mrs. Harold Bell presided, and Mrs. N. B. Perkins led the pledge. Nugent was introduced by Mrs. J. M. Griffin. The next meeting is at 7 p.m. Tuesday at the YMCA. Secret pals will be revealed and gifts exchanged.

WINNERS CHOICE — One of these three paintings will be awarded by the Martin County Unit of the American Cancer Society to the winner in the unit fund-raising project. The prize was donated by Mrs. Leroy Linney, seated, a local artist. Shown with her are, left to right, Don Tollison, secretary and publicity chairman; Mrs. George Dowden, and Mrs. Marvin Standefer, president.

Bride-Elect Honored At Tuesday Shower

A shower honoring Miss Cheryl Colclazer, bride-elect of Sandy Sandlin, was held in the home of Mrs. Joy Harmon, 405 Edwards, Tuesday evening.

The honoree wore a pink print peasant dress and was presented a corsage of blue Meline and fresh lime. Also presented corsages were her mother, Mrs. R. V. Colclazer; and her sister, Mrs. Bob Hedges of Abilene.

Co-hostesses were Mrs. Kenneth Lancaster, Mrs. John Paul Amos, Mrs. Donnie Baker, Mrs. Rebel Hirsch, Mrs. Alva Minnick, Mrs. John Minnick, Mrs. J. C. Robinson and Mrs. Gene Zant.

A white linen cloth covered the refreshment table which was centered with a white candelabrum and an arrangement of royal blue Meline and fresh limes. Fresh lemon leaves were used in decorations throughout the Harmon home.

Mrs. Lancaster presided at the guest register, and Mrs.

Party Fetes Miss Hill

Miss Joyce Ann Hill, was honored at a bridal shower last week in the home of Mrs. James Cook, Chapman Road, Sand Springs. Miss Hill is the bride-elect of Wayne Pantelemon.

The honoree was attired in a bright pink, sheath dress, and was presented a corsage of assorted flowers accented with miniature wedding bands.

Cohostesses were Mrs. Don Kennemer, Mrs. Archie Segrest, Mrs. Leroy Headrick, Mrs. James Cook, Mrs. Ellis R. Smith, Mrs. F. G. Labourcade, Mrs. Don Cunningham and Mrs. Louan Lejude.

Hostesses for the occasion wore corsages of artificial pink flowers on a white background, with pink streamers and wedding rings. They alternated greeting guests and serving refreshments.

The refreshment table was covered with an avocado-colored cloth, and the white napkins were printed with the prospective bride and bridegroom's names. An arrangement of assorted spring flowers centered the table, and coffee was served from an avocado service.

Painting Given To ACS Unit

STANTON (SC) — Mrs. Leroy Linney, a local artist, donated a painting to the Martin County Unit of the American Cancer Society, which will be given away in a fund-raising drive. Tickets for the painting are available at various Stanton businesses. It will be awarded at the Old Settler's Day Reunion July 10, and the winner will have a choice of three paintings.

The pictures will be on display at an exhibit in the building next to the post office. Proceeds from the drive will go to the 1971 Cancer Crusade.

The annual District 2 meeting of the American Cancer Society was held recently in Midland.

Martin County was awarded the Golden Achievement Award at a recent District 2 meeting of the American Cancer Society in Midland. The county reached a record high in crusade income and exceeded the per capita goal of the Texas Division in the 1971 crusade. Attending the meeting from here were Mrs. Jimmy Sawyer, education chairman; Mrs. Caldonia Daugherty and Mrs. Marvin Standefer, county crusade president.

Knott Residents In Hospitals

KNOTT (SC) — Mrs. James Blake is convalescing after undergoing surgery at Medical Center Memorial Hospital.

Mrs. John Allred has been readmitted to Methodist Hospital in Lubbock.

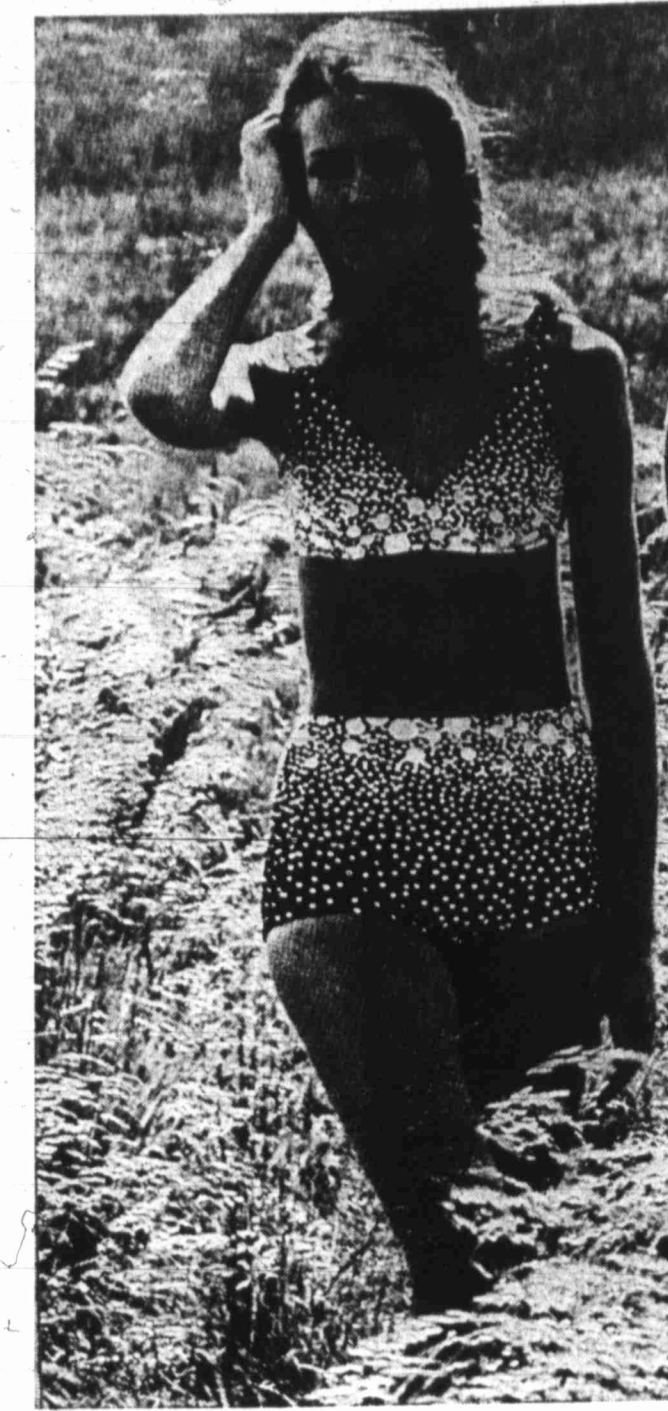

The Barney Nichols' visited their daughter and son-in-law, the Kynn Maxwells in Lubbock recently.

Mrs. Floyd White of Abilene was a guest recently in the home of the Lloyd Robinsons. Mrs. Robinson and her two sons were in Abilene Wednesday to attend the Barnum and Bailey Circus.

Mrs. Clay Alexander and her daughter, Jeanice Ashley of Dallas are visiting Mrs. Alexander's parents, the Joe Myers', this week. Other guests of the Myers' are his mother, Mrs. Lillie Myers of Corsicana; and his sister, Mrs. Billie Ruth York of Dallas.

Mrs. Joe Gillespie and sons visited in Odessa recently with the Kenny Gillespies.

Mr. and Mrs. Richard Parker and family of Hobbs, N.M., are guests of their parents, Mr. and Mrs. Henry Sample and Mr. and Mrs. Fred Parker.

CALLING 'ALL HOME MAKERS By Ted Hatfield DOES YOUR HOME HAVE "EUPHORIA"?

The dictionary defines euphoria as "a feeling of well being" — and when all is said and done — this, more than anything else, is what every woman is hoping to accomplish in furnishing her home.

Take a slow walk through all your rooms and take a good, long look at all of your furnishings and decor. Look at your floors, walls and ceilings, at the colors, textures and arrangements of your furniture, and you will soon know if you get that feeling of well being.

If you and your family get this feeling you are very fortunate and will surely enjoy every moment spent in your home.

If you don't get this feeling (and many people do not) then, it's time to make some changes.

This does not necessarily mean that you need a complete re-furnishing job. You may not need anything new at all. Your problem may be solved by re-arranging your furniture or adding just one or two new things.

Just as many women get a lift by buying a new hat, you may do the same for your home by adding a piece or two. A new chair, lamp or a new cocktail table may do the trick. Very often a change of color can give a lift to a room. Do whatever it takes to create your own euphoria.

And when you need help, we stand ready to serve you.
