BOY LOSES LEG CUT BY PLOWS

Martin Melton, age 21, was seriously injured Friday morning while plowing for his brother, Newton Melton on the Jno. N. Stump place southwest of here, causing the amputation of his right foot.

Melton was driving the tractor when the one-way plow began to choke up with weeds. Without stopping the tractor he stepped back to the plow to loosen them up when he slipped and fell under the plow. Holding on grimly to a lever he managed to keep his body from being pulled under the plow while being dragged nearly a hundred feet. Leland Webb, who was working on a tractor nearby, saw the accident and ran to stop the tractor and assist Melton.

Melton was brought to Perryton to the Brewer & Kengle hospital where it was found that the leg would have to be amputated, half way between the knee and ankle. He is recovering as well as could be expected.

Miss Margaret Butler spent the week-end in Canadian as a guest in the home of Mr. and Mrs. Neal Cross.

MARIE DRESSLER HERE IN "EMMA" JULY 22-3

Marie Dressler, idol of the screen, will be seen Friday and Saturday at the Ellis Theatre in her newest starring vehicle, "Emma", an intimate story of American family life. Richard Cromwell, Jean Hersholt and Myrna Loy have important supporting roles.

The picture presents Miss Dressler in her first straight character portrayal since "Min and Bill", which won her the Academy award for the best performance of any actress in the industry in 1931. The story is by the same author, Frances Marion, and the production was directed by Clarence Brown, whose last effort was the Crawford-Gable hit, "Possessed".

Miss Dressler is seen as the faithful servant in the home of a rich man. She is a second mother to his children but in the end they turn against her as the result of a dramatic will contest.

WANTED: MEN!

God gave us men. The time demands
Strong minds, great hearts, true faith and willing hands;
Men whom the lust of office does not kill;
Men whom the spoils of office cannot buy;
Men who possess opinions and a will;
Men who have honor; men who will not lie;
Men who can stand before a demagogue
And dawn his treacherous flatters without winking;
Tall men, sun crowned, who live about the fog
In public duty and in private thinking!
For while the rabble with their thumbworn creeds,
Their large professions and their little deeds
Mingle in selfish strife, lo! Freedom weeps!
Wrong rules the land and waiting Justice sleeps!

Melon's Sulphur Company Is Against Attorney Gen. Allred

Following is in part from an address by Attorney General James V. Allred, at San Antonio, Texas, Wednesday night, July 20, 1932:

"I have based my campaign for re-election upon a high plane and have indulged in no personalities," Attorney General James V. Allred declared in an address here tonight.

"More than forty years ago Governor Jim Hogg declared in his campaign for re-election that the issue then was whether certain powerful interests of the State should control. Today the same issue is presented to the people of Texas. The fight is on. The issue is unmistakeably presented. Its disguise by either side would be reprehensible.

"The people of Texas base their judgment of a faithful public officer on his record rather than upon the mouthings and the whisperings of those who believe themselves above the law.

"It would have been easier for me to take the course of least resistance and play politics rather than to antagonize the powerful.

"These interests have sought by distortion of the facts and by falsehoods to condemn me for an act which I believe the people of Texas will commend me now that the facts are known. Here they are!

"When I became Attorney General, complaint was made to me that the Texas Gulf Sulphur Company owned by Andrew Mellon and the Morgan interests and which owns the greatest sulphur fields in all the world in Wharton county, Texas, was not paying its just share of taxes to the State. Upon request, I investigated and found that they were paying taxes upon a thirteen million dollar valuation in Wharton county. Yet a smaller company in an adjoining county with not one-tenth of the property which the Texas Gulf Sulphur Company owned in Wharton county was paying upon a basis of eighteen million dollars. Think of it. One company in one county paying upon a valuation of eighteen million dollars and another in an adjoining county with ten times as much property paying upon a basis of a measly thirteen million dollars.

"Upon the evidence presented to me I discovered that if this great sulphur company could be forced to pay taxes upon the same percentage of value as the small home owner or the farmer in Texas pays, they would be paying taxes upon at least fifty million dollars valuation.

"I wrote the county judge of that county setting up these facts and asking for the opportunity to present evidence in support of these statements. He wrote me and promised a hearing for the State. A few days after this a lobbyist for the sulphur company called on me and tried to get me to drop the matter by their accepting a raise of three million dollars in valuation. I refused to do stating that it was a matter for the Commissioner's Court to decide after hearing the evidence.

"A few days later one of the Commissioners wrote me that the valuation of the properties of this sulphur company had been taken up out of order over his protest and a compromise had been made whereby they merely raised their assessment three million dollars.

"The Bradley bill was then introduced. It provided in substance that in those counties in Texas where taxes had been remitted as in Wharton county—the Attorney General might have the right to examine the valuation placed upon such properties and should have the further right to present a petition to the Commissioner's Court setting up that the tax payer had not rendered its property at the proper value and that the Commissioner's Court should then set a date for a hearing at which time both sides should have an opportunity to present evidence; and that upon that evidence the Commissioner's Court should base its judgment.

"That bill passes the House of Representatives by an overwhelming majority. I regret to say that it was afterwards defeated in the Senate.

"I was summoned by the Committee to testify and relate my experience in my efforts to equalize taxes and in that connection to thereby reduce the taxes imposed upon the small home owner and the farmers of this State and to place them upon the backs of those who were able to and should pay them.

"If there is anything wrong with my attempt to do this those who are opposing me may make the most of it. This great sulphur company has made a net profit of from thirteen to fifteen million dollars during each of the past three years—and that upon an original investment of only ten million dollars. I now find that I was very modest in suggesting that they should be taxed upon a basis of fifty million dollars valuation. I challenge any who criticized my actions in this regard to tell people of Texas what valuation the Texas Gulf Sulphur company placed upon their properties for income tax purposes and then to compare that figure with the little sixteen million dollar valuation at which they are now rendering their properties in Wharton county for State purposes.

"Believe me, if they paid on just ten per cent of the value of these properties, they would be paying on at least eighty million dollars with a resultant saving to the small tax payer who is compelled to pay upon an entirely different basis of valuation.

"Politicians have long talked about equalizing the tax burdens and about taking it off of the backs of the poor and placing it upon the shoulders of those who are able to pay. Nothing has been done. But I believe the people of Texas will appreciate my humble efforts to relieve their tax burdens even though I have thereby incurred the wrath of this great sulphur company.

"I expect to continue my efforts in this direction and it may be of interest to the people of Texas to know that I recently collected forty-one thousand dollars from this very company on taxes for the year of 1923. They admitted they owed this money when I called upon them for it but insisted it was the result of a 'slight mistake' on their part."

Man Lost 26 Pounds Looks 100% Better

Feels Stronger Than Ever

Just to prove to any doubtful man or woman that Kruschen Salts is the SAFE way to reduce—let us take the letter of Mr. F. J. Fritz of Cincinnati, Ohio, recently received.

He writes: "I've tried extreme dieting, setting up exercises with very little results—but the results from Kruschen are almost incredible. In 3 months I reduced from 205 to 179 pounds and feel stronger than ever—no more wheezing or gasping for breath—friends say I look 100 per cent better."

Bear in mind, you fat man, that there is danger in too much fat—try the safe way to reduce—one-half teaspoonful of Kruschen Salts in a glass of hot water every morning—cut down on fatty meats and sweets—one bottle that last 4 weeks costs but a trifle—get it at any drugstore in the world. D-1—Adv.

To The Voters of Ochiltree County

Realizing that many voters desire that a candidate for public office should make a personal interview with them as to that parties candidacy, I take this means to explain that position.

Busy with the affairs and duties of this office, and with financial conditions such as they are, it has been utterly impossible for me to make a personal canvass of the entire county, but when I announced for this office, and when I was elected by the splendid majority you gave me two years ago, I felt and reasoned that you would prefer that your County Attorney attend more to the duties of that office than with the spirit of neglecting those sacred sworn obligations and going about over the county seeking political profit.

Based upon the above, I ask that you go to the polls and vote for me for a second term of office whether I have the opportunity to visit with you or not. I believe a careful survey of my past year and half's administration in this official capacity will prove to you that I have stood for strict law enforcement; that I have not bothered the courts of this county with trival complaints upon which there was no reasonable possibility of a conviction, thus calling for a trial at a great expense to the taxpayers; that I have not filed tax suits against citizens of this county who because of financial adversities have been unable to pay their taxes and upon which each suit the County Attorney receives a commission for filling same in the District Court; that I have been on the job, advising the Commissioners Court at each of their meetings and cooperating with all other officials at all times.

Believing in the old time Democratic idea that "one good term deserves another", I submit my candidacy to the voters of this county and assure you that such vote by you will merit my continued careful efforts in the fulfillment of the duties of the office of County Attorney.

Respectfully submitted,

Max W. Boyer

THREE DAY TRIAL FOR PERFECT MOVIE KISS

Clive Brook kissed Claudette Colbert in a taxi for three days! Then the kiss was pronounced perfect enough to film.

The taxi-kissing scenes were made for the first Colbert-Brook co-starring feature, 'The Man From Yesterday," coming to the Ellis Theatre on Monday and Tuesday.

In this picture Brook, as a British army officer, and Claudette Colbert, married hastily in war-time Paris, spend an hour-and-a-half honeymoon in a taxicab, then Brook leaves for the front. Nearly ten years elapse before they find each other again. Colbert in the meantime, believing Brook dead, falls in love with another man. When they find each other again, the love that swept them into matrimony is lost for Claudette. Only duty remains. Brook refuses to accept her sacrifice, and, in a climactic scene, frees her for real love.

Miss Alta McBride, Baton Rouge, La., is a guest this week with Mrs. T. L. Higginbotham. She is enroute to her home after spending some time at Phoenix, Ariz.

Galen Murphy motored to Clinton, Okla., Monday to visit with E. J. Lambert, who is seriously ill in the hospital there.

Mr. and Mrs. O. B. Bengston and daughters, Misses Mary, Elsie and Stella, of Enid, Okla., were week-end visitors at the Hotel Perryton with Mr. and Mrs. Harry McCauley. Miss Stella remained for a weeks visit with her sister.

Mr. and Mrs. John Luthi, who live southwest of Perryton, announce the arrival of an eight pound daughter born Saturday, July 16, Shattuck hospital. The name, Peggy Rae, has been chosen for the little lady.

Mr. and Mrs. Carroll Dodd and son, Larry Joe, were in Dalhart Saturday night and Sunday visiting in the home of Mr. Dodd's parents, Mr. and Mrs. E. H. Dodd.

Miss Mary Brittan and two sisters of Abilene, who are visiting with a brother in Spearman, were in Perryton Sunday visiting a short while with friends. Miss Mary is a teacher in the Perryton schools.

To The Voters Of Ocniltree County

In the first place, I wish to express my appreciation of my two opponents. They are friends of mine, both just as good citizens as we have. I expect them to remain my friends regardless of the outcome of the primary. Below I wish to give you some of the reasons why I think I should be elected as your County Judge.

Mr. Flowers, who is our County Judge at the present time and running for re-election, is a young man. I do not feel that he has had sufficient experience to fill such an important office. Judge Flowers stated, in his speech on the street last Thursday evening, that he thought that a man should have legal training to fill the office of County Judge. I agree with him but will go further and say that I think that he should have some experience as well, so as to avoid making such costly mistakes as was made in our recent highway bond election. I do not hold this against him, anybody is subject to mistakes, but as he is a young man just out of school I think he should have a better job in a field where there is more chance for advancement.

Now as to my other opponent, Mr. Rogers. He is a man of high standing and I believe that he would fill the office well, but I do not think that he is entitled to same for he now has a position which he has held for a number of years as secretary-treasurer of the Federal Loan Association. This position carries a fee of about $100.00 per month, or to be more exact, he gets 2 1-2 per cent on more than $46,000 worth of stock, in addition to other income from agencies, etc. Under present financial conditions, I do not think that he should have everything.

Now as to my own qualifications. I came to this country in 1901 and filed on land in the southwest part of the county on January 9, 1901. I brought with me the first well drilling machine and drilled many of the first wells to be put down in the county. In 1904 I leased a threshing machine from Jones brother of Canadian and moved same here, it being the first machine in the Panhandle north of the Canadian River. In 1905 I purchased the first gasoline tractor and threshing machine that came into the Panhandle. Then a few years later I put in the first telephone exchange in Ochiltree county. In the thirty-one years that I have been a resident of Ochiltree county, I have assisted with every development. I feel that my seven years service as Mayor of Perryton has given me experience which should be very valuable in the administration of the County Judge's office, for the duties of the two offices are very similar.

If elected to this office, I will stand for strict economy in every item of expense; advocate the closest possible cooperation between city, county and school, thus eliminating any overlapping of jurisdiction and expense, and where possible and practical to combine offices if the same efficiency can be maintained and expenses reduced.

I have no other business affairs and will be able to devote my entire time to the business of the county and the taxpayers, giving assistance, with pleasure, to all alike.

If you feel that I can serve the best interests of the county, I will appreciate your consideration and support at the polls and if elected will welcome your cooperation.

Yours truly,

First Aid Contest

Six Teams Entered In Texas-Louisiana Power Company's First Aid Contest

The regular monthly division em- ployee meeting of the Texas-Louisiana Power company and Oklahoma Electric & Water company was held at eight o'clock, Monday evening, July 18, in the division office here.

The program for the meeting con- sisted of a demonstration of first aid work. Six teams, three persons to the team, entered a contest to determine which one was best quali- fied to render first aid.

The problem for test was stated as follows: "patient (in his shirt sleeves) is found unconscious, ab- domen resting on an electric live wire. There is a simple fracture on the right fore-arm. Rescue and treat the case. Artificial respira- tion should be performed for two minutes. One member of the team to be the patient and two of the members should handle the case."

Members of the six teams enter- ing the competition were:

Team 1: Miss Mildred Baumann, Mrs. Yvonne Baber, Mrs. Blansit Carter, Perryton.

Team 2: Blansit Carter, Olan Rowe, R. O. James, Perryton.

Team 3:C. R. Jenkins, J. L. Cou- ger, Ernest Landrum, Perryton.

Team 4: C. S. Carmichael, H. H. Hale, Higgins, and W. B. McLarty, Follett.

Team 5: Ted Hibbs, John Herron, Beaver, and Roy Cunningham, For- gan.

Team 6: Donald Hughes, Garland James, Guymon, and A. L. Schnell, Tyrone.

Judges: Dr. G. J. Budd and Miss Overhull.

Teams one and two tied for first place, registering 98 out of a pos- sible 100 points. The tie, to deter- mine who should receive first prize, was broken by drawing a number from a hat and Team 1 winning, team 2 automatically taking second place and team 3 won third prize. Each demonstration was well given, the lowest grade being 91.

The employees made donations to the amount of $15.00 in prize money which was divided as fol- lows: first, $7.50, second, $4.50, third, $3.00.

The winning team put the demon- stration on at the Lions club lunch- eon, Tuesday, and at the medical meeting, Wednesday.

The employees meeting was very educational and proved that first aid should be studied by everyone. Sev- eral guests attended the meeting Tuesday night.

The Texas-Louisiana Power com- pany has in this division, over forty employees and have had only two minor accidents since last October. Considering the nature of the work, this is a remarkable record and they attribute this to the company re- quiring their employees to make a study of safety. They are constant- ly watching this phase of the work.

Last November, one employee, Cliff Foreman, plant operator at Guy- mon, Okla., was given a medal by the National Safety council for hav- ing saved the life of one his fellow- men, by applying artificial respira- tion to him after he had been as- phyxiated.

This company holds safety meet- ings once each month at Higgins, Beaver, Guymon and Perryton. All employees are required to attend and the public is always cordially invited.

Mrs. C. E. Whippo and son, Charles, returned home Sunday evening from Kansas City, Mo., where Charles has been attending school. Mrs. C. A. Creagan, aunt of Mrs. Whippo, and Mr. and Mrs. C. A. Creagan Jr. and daughter, Betty Jean, accompanied them home and will visit several weeks with C. A. Creagan and with Mrs. Creagan's brother, T. W. Meade.

E. A. Records and family spent the week-end in Pampa and Ca- nadian visiting with friends and rel- atives.

Mrs. Glenn McGibbon and little daughter, Marianna, returned home Thursday from the Beaver hospital.

Wade Johnson, who is employed at the English Field, Amarillo, is visiting in the home of his parents, Mr. and Mrs. A. A. Johnson of the New Hope community.

NEWS BY THE MINISTERIAL ALLIANCE

"A CALL TO ARMS"

The Call

The committee of forty-five, representing the dry wing of the Democratic party in Texas, issues a call to arms through the chairman, Mr. Cato Sells. The call is as follows: "We Summon The Dry Democrats of Texas to Meet The Challenge of the Liquor Forces.

"We earnesty urge all Democratic voters who are opposed to legalizing the manufacturing and sale of intoxicating liquors, and favor the preservation of the Eighteenth Amendment, without fail, to enter the coming state-wide Democratic primary election, to be held Saturday, July 23, and to vote for dry candidates for Congressmen, for governor and all state officers and members of the Legislature and all county officers.

"In view of the determined effort to destroy our prohibition laws, we feel that no dry Democrat can afford to stay out of the Democratic primaries."

The Moral

The moral in the story is this: that, if the friends of righteousness are indifferent in this hour of moral and spiritual crisis, the blame of such indifference will abide on us through eternity. Did not God say, "Curse ye Meroz. Curse ye bitterly the inhabitants thereof because they did not come up to the help of the mighty". (Judges 5.23.) The only accusation brought against them was their failure to do what they should have.

Dan Poling tells of what happened in Vermont, once, during a campaign for state-wide prohibition. One man said, "Prohibition will carry the state all right; and if I wasn't so busy, I would like to vote myself!" In the election which followed he and his kind defeated prohibition, for with 100 thousand eligible voters in the state, only fifty thousand went to the polls, and a majority of the delinquents were registered in territory already dry through local option.

And when Poling told this he said: "Shame! Vermont of the Green Mountains! Vermont out of which Ethan Allen came to walk with the immortals! The descendants of men who tied rags about their frost bitten, bleeding feet, and marched through blizzards to die for liberty, sat by their firesides on a day when the honor of their commonwealth and the future of their unborn were at stake, and, with the supreme weapon of citizenship in their hands and the gauge of civil battle thrown down struck not a blow—and the battle went to the enemy by default. Thrice shame upon those who sell their neighbors birthright and their own for the pottage of civil laziness."

Saturday, July 23, will tell whether the same can be said of the citizens of the Lone Star State. Citizens of the great State of Texas, you have the weapons in your hands that will effectively turn the tide of battle if you will use those weopons at the polls. Saturday is the time when your voice can be heard and when you can assert your power as a citizen in the name of righteousness. Will you be indifferent when the cause for which our mothers, our fathers, our churches have wrought is at stake? Will you surrender our government into the hands of people who are enemies to prohibition and the friends of liquor? Will history repeat itself Saturday? Shall it be said of Texas and of America that they "being armed and carrying bows, turned back in the day of battle?" Christion citizen will you turn back or will you come up to the help of the Lord next Saturday?

CHRISTIAN SCIENCE

"LIFE" was the subject of the lesson-sermon in all Churches of Christ, Scientist, Sunday, July 17. The golden text was taken from Psalms 27:1. "The Lord is my light and my salvation; whom shall I fear? the Lord is the strength of my life; of whom shall I be afraid?"

The passages read from the Scriptures embraced the following from Deuteronomy 30:15, 19: "See I have set before thee this day life and good, and death and evil; . . . therefore choose life, that both thou and thy seed may live."

Citations from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, included this from page 289:

"The spiritual fact and the material belief of things are contradictions; but the spiritual is true, and therefore the material must be untrue . . . Matter and death are mortal illusions. Spirit and all things spiritual are real and eternal."

How Do You Drink?

When God called Gideon to deliver Israel from the hands of the Midianites too many people volunteered to go with him. He gave the opportunity for all who wanted to do so, to go home, and still he had ten thousand, which the Lord said were too many. He then carried them down to the creek and all those who got down on their knees to drink he put in one crowd and sent them home. Those who dipped water with their hands and lapped like a dog he kept with him and with the army of three hundred he defeated the Midianites. It has been said, and correctly said I think, that the three hundred watched as they drank. On the other hand the nine thousand and seven hundred forgot the mission they were on and the dangers they faced and gave themselves to drinking.

During the summer months lots of people get occupied with the secondary and simply neglect the church. People seem to feel free to do things during the summer months and feel absolutely free from any obligation to support the church with their presence, prayers or means. It is bad enough in our town but in other places it has grown so bad until many churches do not have evening services. They take a religious or rather an irreligious vacation. The Lord has plenty of people who get down on their knees to drink, that is people who do not let their religion interefere in anyway with their lives. He needs some people who will not allow anything to side track them from the main thing. When the victory comes the credit is due the few and not the many.

METHODIST CHURCH

Let's change the subject! Last Sunday after the service a very excellent lady oozed up to me and said, "You get blue—blue, yes like the rest of us at times." I take it she didn't want me to show that I was blue. I got home and my wife climbed my statue, metaphorically speaking, about the same thing. And upon this subject I don't know just what to say, but it raises this question, how can the preacher be different from other men, how can he speak and not show he is like other men? At League one of the young ladies on the program said, "Lord help us! I just hear depression everywhere I go 'till I could scream and pull my hair!" That is, she is sure we are going to starve to death, but she objects to the realistic and horid details. "And all the congregation said, Amen!"

Now let's change the subject. I'm leading the way. Theme for the morning hour, "Two Unchangeable Quanities". And for the evening, "The Secret of Power". The choir will be present with a musical program, carefully selected and well trained, at both services.

Gentelmen, by sepcial permission of the ladies you don't have to wear coats. Come and make yourself comfortable.

Sunday school at 9:45 a. m. You'll enjoy the class fellowship. Try it!

Only original communications addressed to The Herald will be printed; open letters or letters otherwise addressed to various persons in public life are not acceptable.

Impelled by the action of the dry Democrats assembled at their meeting in Dallas on July 16th and by a personal conviction that the dry Democrats of Texas ought to enter the July 23rd primary, I want to urge that they do so. So many friends of prohibition in Texas are in need of sound information on the standing of the numerous candidates for Congressman-at-large, and in need of means of centralizing on certain candidates, I will assume so far on their patience and good will as to suggest several names for their support.

In the race for position No. 1 there are two strong candidates who can be depended on to oppose the re-establishment of the liquor traffice, and two whom I consider not so strong. The first two are W. Erskine Williams and E. G. Senter, the latter two are Geo. B. Terrell and Sherman Nelson.

Mr. Nelson is an esteemable young man, editor of the Conroe Courier, and I would be glad to support him, but in view of the necessity for backing our strongest candidates at this time, I am compelled to advise that we center our support behind Judge Erskine Williams of Fort Worth.

There is no abler man offering for a congressional seat at this time.

For position No. 2 we have an excellent woman candidate, and two stalwarts of the prohibition cause, E. B. Sartin and Cyclone Davis. I regret exceedingly the necessity of deciding that we cannot elect Mrs. Phebe K. Warner, and the furhter necessity of deciding that it would be better for the dry cause to center our support on the young and dynamic B. D. Sartin, rather than the veteran Davis. I esteem the latter highly, but I think he will agree that we need new blood in the dry battle, and Mr. Sartin is one of the ablest young men on the political horizon of Texas today. Therefore I must urge an united support for him.

For position No. 3, we have several very good candidates, and here also a decision is painful. Nevertheless it must be made, and I suggest the name of Sterling P. Strong. Mrs. Fred Real, A. H. King and Julian Hyer are all deserving our support, but Mr. Strong is undoubtedly the best vote getter in the group, and has proved his unwavering support to the dry cause through many years of battling in Texas. Therefore, I must urge that we all get behind Mr. Strong.

In the district races, allow me to urge all our dry friends to take care to determine the stand of the candidates on the liquor question, and be sure that only dry are returned to congress from Texas.

In conclusion, let me again urge upon all friends of good government, that it is their duty to enter the Democratic primary. We must vote to preserve decent government in Texas.

—W. D. Christopher.
