

THE LIST AS DRAWN.

Following is the list as drawn at Washington last week, and from which the quota for Mitchell County will be selected. The Record advises that everyone preserve this paper and file it away at home, as it contains history that will not appear elsewhere. This list will be valuable a quarter century from this date for reference.

- | | | |
|----------------------|-----------------------|-----------------------|
| 2-Andrew Gaserey | 269-Clarence E Farmer | 509-C C Wilson |

SELECTIVE DRAFT DRAWN

CAPSULES TAKEN FROM BOWL BY BLINDFOLDED MEN.

ALL DAY AND FAR INTO NIGHT

Purpose to Decide the Order in Which the Men Registered Are to Be Called Upon to Appear Before Local Boards.

Drawing of lots under the selective draft went off at Washington without mishap except for the drawing of one blank, which means that one serial number among the 10,500 assigned to registrants was not drawn. The blank was given number 10,500 in the liability for service list and in rechecking given that place.

Purpose of the drawing was to decide the order in which the men registered would be called upon to appear before the local boards for examination as to their fitness to serve in the national army.

Number of registration districts in the United States is 4,557. Numbers were drawn from a large glass bowl by blindfolded men, who handed them to an announcer, who called out the number and the serial was recorded.

Each name drawn called out the serial having a like number in every district in the United States. The first number drawn was 258 and all men throughout the United States having that serial number were to be the first called to appear before their respective local boards for examination.

First army is to number 687,000 men able to serve and without cause for exemption. Estimates of exemptions are made running up to 60 per cent of those called out. If this holds approximately true, then about 1,800,000 men will have to be examined to select the first increment of 687,000 men.

GERMAN CASUALTY LIST HUGE. KILLED AND WOUNDED ALONE STAGGERING FIGURES.

German casualties reported in the German official lists during June, but not as having occurred in June, as given out by the war office at London, are as follows:

Killed and wounded, 28,819.
Died of sickness, 32,915.
Prisoners and missing, 38,606.
The totals of the official lists since the war began are as follows:
Killed or died of wounds, 1,032,800.
Died of sickness, 72,990.
Prisoners and missing, 591,966.
Wounded, 2,825,581.
Naval and colonial casualties are not included.

Found Unconscious.
Paul L. Leavitt of Cleburne, sentenced in federal court at Dallas on a plea of guilty to a charge of having sought to evade the selective draft act by registering under a fictitious name, was found in an unconscious condition in the Dallas county jail. A short cord had been tied about his neck and he had rolled off his cot, leaving his weight suspended on the cord. He was revived.

Eleven Killed in Air Raid.
Sunday morning a squadron of German airplanes, about twenty, dropped a number of bombs over Felixtown and Harwich, on the east coast of England, killing eleven persons and injuring twenty-six. An alarm was sounded in London, but before the raiders could reach a point near that city they were attacked heavily by defending squadrons of aircraft and retreated. So far as known the enemy lost no machines. They were pursued out to sea. A number of persons saw the attack, but the difficulties of observation were great.

Aviation Measure Adopted.
House bill appropriating \$640,000 for the aviation service prevailed in the senate 66 to 17. Calder offered an amendment to subject aliens to war duty, but it was withdrawn. The bill provides for the world's greatest air fleet.

Courtplace Warning.
Department of justice has warned against the purchase of unapproved courtplace as the result of official reports of German-poisoned courtplace which have appeared in Kansas and other western states.

J. A. Sadler has the leading cold, drink and prescription business of the town. Go there first for what you want.

LOW BLOOD PRESSURE.

First Aid to Those Suffering From Hemorrhage or Shock.

One hears a great deal about the danger of high blood pressure, but not much about the danger of too low a pressure. Yet the latter may be very swiftly fatal. It results often from shock, as well as from severe loss of blood. But there is a very simple means of giving temporary relief, which every one should know, since such knowledge might often be the means of saving life.

A diastolic pressure of fifty millimeters is critical, for the blood tends to accumulate in the abdomen, but death may be avoided if immediate means be taken to raise the arterial pressure. A late number of La Revue gives the following directions:

"The wounded person in whom arterial pressure is low should be placed immediately on an operating table heated by electricity, with his feet elevated for an hour or more some thirty millimeters (about one and one-quarter inches) higher than his head. If the diastolic pressure remains below eighty millimeters an injection of isotonic serum should be made and if necessary repeated. If the pressure does not remain sufficiently high after the second injection another injection is made of adrenalin into a vein, preferably a vein near the heel."

It will be noted that the first part of these directions can be carried out by any one—namely, the application of warmth and the raising of the patient's heels higher than his head. This is so important and so efficacious that the famous French physician and research scientist, Dr. Charles Richet, has made it a practice in his lectures to students to give them the striking object lesson of a dog which had been bled almost to the point of exhaustion, so that death was imminent, being instantly revived by this simple expedient of changing its position. When he was apparently dead while the head remained higher than the extremities, as soon as the head was lowered the wailing life returned.

First aid to the injured, therefore, suffering from hemorrhage or shock is to place the victim on a mattress or bench and raise the feet slightly higher than the head.—Review of Reviews.

Stepping Stones to Success.

Picture what you want.
Visualize it.
Dramatize it.
Rehearse it.
Make your mental picture clear.
Focus your attention on it.
See it over and over a thousand times.
Improve it; empower it.
Put your inspiration into it.
Have dynamic interest in it.
Awaken your sleeping genius.
Expect success; laugh at failure.
Be confident and poised.
Rest in accomplishing.—Nautilus.

Sovereigns in Bolivia.

Bolivia has a strange connection with Great Britain in the fact that the English sovereign is the standard gold coin. This is minted from local gold at the capital of the country, La Paz, along with the Peruvian half sovereign, which also is legal tender. Although Bolivia is as yet quite a "new" country and has not had time to adopt a coinage of her own, she has found an opportunity of establishing state monopolies on alcohol, spirituous liquors and tobacco, rendering the prohibition of them at any time an easy matter.—London Chronicle.

What Can Be Done in One Day.

"Every day is such a usual occurrence that its true significance does not come home to us," says a writer in the Woman's Home Companion. "We get so used to our days that we are blind to their universal possibilities."

"In the beginning one-sixth of the whole world was made in a day, yet how many of us feel that we can do one-sixth, or even one-hundredth, of all the things we ought to do in one day?"

"Within one day the battle of Waterloo and the battle of the Marne were won. How about all the days between? A man can change the fortune of his entire life in a day."

Loading on the Job.

Mrs. Woman, are you married? If you are we wish you all of the happiness and the best of blessings a generous world can give you. But let us ask a bold question and probably offend you. We do not mean to be impolite. It is just the perversity of human nature to want to know if you married a lazy man—a man who talks in a loud voice about his back yard garden and lets his wife do all the work.—Memphis Commercial Appeal.

Didn't Do It.

Flatbush—He's always knocking the married men.
Bensonhurst—Yes, I know it.
"Only a few years ago he told me he was just crazy to get married."
"That's right, but it seems he wasn't quite crazy enough."—Yonkers Statesman.

W. L. Doss has a fine line of jewelry and at Drug Store prices, not at Jewellers' prices.

COTTON, GRAIN AND LIVESTOCK

Dallas.
Quotations July 23.—COTTON: Middling fair, 28.00; strict strict good-middling, 25.75; good middling, 25.37; strict middling, 25.19; middling, 25.00; strict low middling, 24.62; low middling, 24.25; strict good ordinary, 23.75; good ordinary, 23.50.
GRAIN—Wheat, No. 2, basis soft \$2.58. Corn, white, \$2.30 to \$2.35; mixed, \$2.20 to \$2.65. Oats, Texas red, 76 to 77c; sacked, 80 to 81c.

Fort Worth.
CATTLE—Heaves, \$6.50 to \$11; cows, \$5.00 to \$8.25; heifers, \$6.50 to \$9.50; bulls, \$5 to \$7.25; calves, \$5 to \$13.
HOGS—\$15 to \$16.
SHEEP—\$14.25 to \$18.50.
GOATS—\$8.50 to \$11.10.

FOOD BILL PASSES IN SENATE.

BROAD AUTHORITY IS CONFERRED ON THE PRESIDENT.

By 81 to 6 the senate passed the administration food control bill, modified as it came from the house, but still giving the president broad authority to regulate food, feed and fuel; providing for three commissioners and authorizing a minimum guaranteed price of \$2 per bushel for wheat.

Prohibition provisions, prohibiting further manufacture of distilled beverages in bond were left untouched.

SINKING A SUBMARINE.

How the U-29 and Its Daring Crew Were Sent to the Bottom.

Von Weddigen, the hero of the German submarine service, after sinking the British cruisers Aboukir, Hogue and Cressy was promoted to a better ship and took command of the U-29. In comparison with the U-9 a bigish brute, a regular "peach," almost an undersea liner.

After a hard day on the job, looking for game in the upper North sea, the U-29 went "to sleep," resting with a slight negative buoyancy on a shielving sand bank. Outside of the watch officer and the regular standing watch, all hands must have turned in, sleeping in their leather suits. It is supposed that, as the watch at the telephones heard the nearing propeller beats of a British destroyer screen, the alarm was sounded—"Touch station!"—with every man flying to his post.

One might imagine that Von Weddigen waited; that the microphones vibrated the slow chugs of big ship propellers, which told him that the British fleet was approaching. Blowing his adjusting tank to a submerged trim, he came to fighting position. His periscope tipped the surface.

He was lucky enough to come between the two columns of the British grand fleet, steaming in line of squadrons, with the Iron Duke leading the right column, flying Jellicoe's flag. The periscope of the U-29 showed up halfway between the squadrons, six cables apart. She got off her torpedo, which passed under the Iron Duke. Immediately she fired No. 2, which also missed, going astern. Because of danger of smashing their own ships none of the British gun crews dared to fire at the German submarine.

But after the second torpedo something went wrong with the U-29. Either the valves failed to work, which, by taking water into compensating tanks, were to equalize the weight of the discharged torpedoes, or at the instant the diving rudder man failed in giving enough "down rudder." At any rate, the nose of the submarine shot up above the water.

She started immediately to begin to dive, but the dreadnaught, third in the left column, swung out of line and went full speed for the U boat. The big ship caught her on the ram, spearing her like a whale, and raised her along the cutwater until the submarine was half out of water—a flash, a grinding smash, the U-29 balancing first one way, then the other, and finally dropping, the lettered bow foremost! The dreadnaught swung back into column. Without a signal being made, without a shot fired, the grand fleet proceeded.

This is the true story of how Von Weddigen perished. It came from a man who saw it with his own eyes.—Henry Reuter in Saturday Evening Post.

Mrs. M. K. Jackson, and Mary, return from a visit of six weeks with relatives in Dallas, last Tuesday. They were accompanied home from that place by John H. Basden.

O. M. Mitchell, R. E. Dolman and Mr. Peters, left this week for Dallas from which vantage point they will endeavor to spy out an attractive market in which to buy cotton this fall.

You can see "Jerry" at the opera house every Saturday.

OPERA HOUSE PROGRAM

FOR NEXT WEEK

MOVED

We have worked day and night to get moved time to get out this weeks paper. If it is port in any way it can not be helped this

Supporting the Government-

This is a time for every citizen to support the United States Government, and many are doing so at considerable cost or sacrifice to themselves.

We have joined the Federal Reserve Banking System established by the Government to give greater financial stability and strength to the member banks and protection to their depositors.

You can give your support to this great Government enterprise and also obtain its protection for your money by becoming one of our depositors.

T. W. STONEROAD, Jr., Vice Pres.

S. D. VAUGHAN, Cashier

WESTBROOK

Mrs. J. T. Candler and son Laurence, left Thursday morning for a visit with relatives in Dallas. They will attend the Farmers' Institute at Austin before returning home.

E. Hamilton and daughter, Ramelle, left Saturday for Austin.

Basil Hudson is visiting his sister, Mrs. S. A. Cromer of Colorado.

A. M. Bell returned from the eastern part of the state the first of the week.

Dr. and Mrs. W. H. Butler and children left Sunday for an extended visit in Fort Worth, Dallas and Austin.

Mrs. R. C. Beal returned from El Paso Sunday night where she underwent an operation.

Miss Hattie Petty is attending the Farmers' Institute in Austin.

Geo. D. Shelton left Monday for a few days' visit in Abilene.

Mrs. Annie Cox returned to her home in Abilene after several days' stay with her cousins Mr. and Mrs. E. V. Bell.

Thursday, July 12, the infant son of Mr. and Mrs. E. V. Bell was laid to rest in the W. O. W. cemetery. The little babe only lived one day and its little spirit wafted its way back to its giver.

J. Blakney left Monday night for Cisco to be gone for several days.

H. H. Padgett, R. M. Morris, E. Smith and Bud Simpson have returned from Burk Burnett.

C. E. Wright received a message Monday that his nephew had just died at Sulphur Springs. Mr. Wright left Monday night to be at the funeral.

Mrs. Myrtle Huey of Colorado, was the guest of her brother, G. D. Shelton, last week.

Mrs. Albert Julian is visiting in Colorado this week.

W. H. Rogers and wife and Mrs. Sam Smartt returned from New Mexico, Friday.

Rev. J. P. King, pastor of the Baptist church, will start his meeting here Saturday night before the first Sunday in August. Everybody is invited to take part in the service.

Those who attended the service conducted by Rev. D. B.

**AD HATES OIL,
CALOMEL, PILLS FOR
LIVER AND BOWELS**

Give "California Syrup of Figs" if
Cross, Sick, Feverish, Constipated

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

Doak at Cuthbert, Sunday, were J. M. Helton and family, E. S. Hudson and family, Miss Margaret Lasseter, Mrs. Little and children, Miss Xenia Smartt and Griggs Butler.

Albert Julian came in on No. 6 Monday from Big Spring.

J. A. Thompson of Colorado was a Westbrook visitor Monday.

S. D. Vaughan and family, Mrs. L. E. Lasseter and daughter, Miss Dorothy, and Mrs. A. S. Mason of Colorado were guests in the home of J. E. Lasseter, Sunday.

The total number who signed the Hoover pledge cards from Westbrook was 22.

H. H. Griffin and J. E. Skelton came in from their ranch Sunday and spent the day in Westbrook.

Messrs Palmer and Kitchen returned the first of the week from Cisco, where they had been looking after their stock.

Mr. and Mrs. J. T. Smith and children motored out and spent the day at the Sheffield ranch Sunday.

Claude and Key Hooks, of Teville were Westbrook visitors Friday.

Little Mary Ruth Bell has been very sick this week with scarlatina.

CONSTIPATION AND INDIGESTION

"I have used Chamberlain's Tablets and must say they are the best I have ever used for constipation and indigestion. My wife also used them for indigestion and they did her good," writes Eugene S. Knight, Wilmington, N. C. Chamberlain's Tablets are mild and gentle in their action. Give them a trial. You are certain to be pleased with the agreeable laxative effect which they produce. Obtainable everywhere.

A BIG JOB FINISHED.

The job of moving a printing plant the size of the Record's, is no small undertaking. To move all the heavy machinery and material, much of which must be taken apart and reassembled, requires all hands. All this work must be done between issues of the paper or miss an issue, which is little short of a tragedy in the newspaper business.

This issue of the Record is gotten out in its new home on Walnut street, just south of the postoffice, where it is permanently to "stay put." It now abides under its own roof. It will require yet another week or two to get all things adjusted to a new environment and in smooth running order.

Our friends are requested to call in and inspect our new quarters, where we are better than ever prepared to serve their needs in the printing line.

Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Every family without exception should keep this preparation at hand during the hot weather of the summer months. Chamberlain's Colic, Cholera and Diarrhoea Remedy is worth many times its cost when needed and is almost certain to be needed before the summer is over. It has no superior for the purposes for which it is intended. Buy it now. Obtainable everywhere.

To Cure a Cold in One Day

Take LAXATIVE BROMO QUININE. It stops the Cough and Headache and works off the Cold. Druggists refund money if it fails to cure. W. W. GROVER'S signature on each box. 25c.

J. A. Sadler keeps everything carried by a modern drug store. Prescriptions are his specialty.

Alta Vista—the best ice cream made. W. L. Doss dispenses it.

LORAIN LOCALS.

Mrs. Fred Hall and children of New Mexico who have been visiting relatives near Loraine returned home Monday night.

W. S. Thomas and family left this week for the plains, prospecting. Rev. Griswold, the presiding elder of Sweetwater district preached at the Methodist church Saturday and Sunday.

John Griffin, who has been filling a vacancy at the pump station, returned home Sunday.

Miss Ida Meeks of Merkel spent Sunday and part of the week with D. K. Nelson and family and Mr. and Mrs. John Lindsey, on her way to Hermleigh, to visit her sister, Mrs. Pearl Bullock.

Rev. C. W. Dunn of Stephens county spent a few days in Loraine last week and attended the meeting which is in progress.

Howard Spikes returned Saturday from Plainview, where he has been working on a ranch.

Mrs. Will Pollard and children of Winsboro, who have been visiting her father, James Butler and sister, Miss Berta Butler, returned home this week.

E. J. Dunlap went to Sweetwater Friday on business.

T. J. Lane and family of the Silver community, are moving this week to Tulsa where they intend making their home.

Mr. and Mrs. Fling of Rusk county are visiting their daughter, Mrs. Dunn, at Baumann.

The families of G. W. Adams, Will Adams and Mrs. Sam Anthony attended preaching at Loraine Sunday.

Mrs. Grady Furlow of Winnsboro who has been visiting her father, James Butler and other relatives, returned home this week.

Miss Thelma Phillips returned Sunday from Sweetwater where she has been visiting relatives.

Mrs. Hubert Toler and children returned Wednesday night from an extended visit to Palestine, Grape-land and other places.

Joe Meador and family left last week for Matador, prospecting. C. H. Manley and family spent Sunday with their parents, Mr. and Mrs. J. M. Winstead.

A FAIR WARNING TO MARKET PATRONS.

On and after May 15th, our business will be on a STRICTLY CASH BASIS. This applies to all alike, without the least discrimination. Do not ask us to charge any purchase. It will not be done. This notice is to save any embarrassment. The rule will not be violated in any case. PICKENS & REEDER.

BECK & MORRIS (Joe's Market)

Heavy Grain Yield.

Denton county wheat crop has been thrashed. It has been one of the most profitable in the county's history. The yield has averaged over fifteen bushels per acre and prices ranged from \$2.07 to \$2.27 per bushel. Oats averaged around seventy bushels an acre.

HAVE YOU BEEN SICK?

Then you realize the utter weakness that robs ambition, destroys appetite, and makes work a burden.

To restore that strength and stamina that is so essential, nothing has ever equalled or compared with Scott's Emulsion, because its strength-sustaining nourishment invigorates the blood to distribute energy throughout the body while its tonic value sharpens the appetite and restores health in a natural, permanent way.

If you are run down, tired, nervous, overworked or lack strength, get Scott's Emulsion today. It is free from alcohol.

Scott & Borne, Bloomfield, N. J.

Keep Colorado Money in Colorado.

TO SPREAD DISEASE.

STATED GERMANS WERE TO DO THIS BY COURTPASTER.

Charged with conspiracy to scatter broadcast infectious and deadly disease germs through the medium of courtplaster, three German agents of the kaiser, according to United States District Attorney Fred Robertson of Kansas, are being held incommunicado in towns of that state.

The conspiracy, one of the most dastardly yet credited to German agents in the United States, was discovered by W. R. Smith, Kansas state chemist, upon analysis of courtplasters, distributed free, by three men in various Kansas towns and villages.

The first laboratory test made by the state chemist proved a puzzle, so three other expert chemists were summoned. All three found tetanus (lock-jaw) germs in their samples.

The chemists state that country doctors, without the aid of analytical facilities, easily would be deceived by the courtplaster. The germs are so well concealed that detection is almost impossible.

The three men—there may be others, officials believe—traveled through the state selling the plasters, where possible, and, in many instances, giving them away.

Charges of assault with intent to kill, fraudulent use of the mails, violation of the pure food laws and conspiracy were filed against them at Kansas City, Kan.

Names of the suspects and the towns where they are held is being kept a secret for fear of lynching should their identity and connection with the "disease" plot become known.

Backed by Germany.

Confirmation of reports that Germany financed the attempt of General Chang Hsun to restore monarchy in China was received at Tokio by Japanese officials. President Li Yuan Hung, who sought refuge in the Japanese legation at Peking, has resumed his presidential duties.

FORT WORTH UNION STATION. COMMISSION ORDERS RAILROADS TO BUILD STRUCTURE.

An order was issued by the railroad commission requiring the Texas and Pacific, the Missouri, Kansas and Texas; the Fort Worth and Denver, the Fort Worth and Rio Grande, the International and Great Northern, the Chicago, Rock Island and Gulf States and the St. Louis and Southwestern railway companies to construct and maintain at Fort Worth a union passenger "depot building and appurtenances adequate and sufficient for the proper accommodation of their passengers arriving at, or departing from, their station in the city of Fort Worth." The railroad companies also are to provide at the station adequate and sufficient tracks for the proper operation of the station.

The commission gives the companies choice of two propositions. If they continue to jointly use the Texas and Pacific depot it must be enlarged and improved in accordance with blue print plans and specifications submitted by J. L. Lancaster, receiver of the Texas and Pacific.

Adequate and sufficient facilities shall be provided at the depot for the proper handling of all baggage, mail and express matter.

Tracks by trains in approaching or leaving, depot building and station shall be so arranged or rearranged and enlarged as to provide sufficient and adequate trackage for the safe and proper operation of depot building and station.

If the depot it must be in use and operation within a year.

Santa Fe and Houston and Texas Central railways are also required to provide at their joint station in that city adequate and sufficient train sheds and additional facilities for proper handling of baggage, express and mail.

OATS AND WHEAT GREATER.

YIELD IN TEXAS MUCH BETTER THAN LOOKED FOR.

The wheat and oats harvest of Texas has gone forward unhampered, despite the driest and hottest June on record, and has developed a better yield than conditions a few months ago portended, according to a review of crop conditions issued by the Texas Industrial Congress.

Although there have been rains all over the state during July, for the most part they have been insufficient to break the drought, and of little value agriculturally to the counties in the northeast. Rains for the first week of July were followed by excessively hot days, reaching 112 degrees in places, and evaporating much of such moisture as it fell.

These weather conditions have created havoc among the sorghum crops and the yield has been extremely unfavorable, especially in the central western and southern sections, where the crop has ranged from utter failure to small. In some sections a second crop has been planted.

Although the peanut is drought resistant, the unseasonable conditions will be reflected in the reduction in the reduction in the yield per acre.

Cotton has grown slowly in most sections of the state and is late. Its condition, according to the report, is about 65 per cent for the state, as compared with 82 at this time last year.

The western half of the Panhandle country had a good rain, helping the range considerably.

UNLIMITED POWERS GRANTED COUNCIL OF SOLDIERS AND WORK MEN-CONFER SAME.

The council of soldiers and work men's delegates and peasants of all Russia voted to grant the government of Premier Kerensky "unlimited powers," under the title of "Government of National Safety," for the re-establishment of public order, both at the front and at home.

Patriotic, Nevertheless.

William Simon of Chicago, weighing nearly 300 pounds, applied for admission to an ambulance company, but was refused on account of his weight. He asked what he could do to help and was told to get recruits. Simon in one day brought twenty-five men to the ambulance headquarters to enlist.

Three Lynched in Petrograd.

Three occupants of an automobile, a soldier, a sailor and a civilian, were lynched on a Petrograd street after they had fired shots into a group of officers and soldiers in front of the People's palace. A score or more were wounded.

D. L. BUCHANAN

THIS MAN SAYS HE

FLIRTED WITH GRAVE

Fell Off Until He Only Weighed Seventy Pounds—Takes Tanlac and Gains Twenty One Pounds

"I'll tell you the truth; if I knew this Tanlac was not going to be sold any more I would buy every bottle on that counter over there before I left here tonight," said W. A. Spitzer, at Patton-Pope's Drug Store, Birmingham, Ala., recently. Mr. Spitzer is a well known painter employed by the Tennessee Coal, Iron and Railway Company, and resides at 910 South Sixty-eighth street, Birmingham.

"Before I began taking it I only weighed 135 pounds. Today I got on the scales and tipped them at 156—a gain of 21 pounds—and more than I ever weighed in my life. That's exactly what four bottles of Tanlac did for me. Just look at this belt! I had to let it out four inches, and it is still tight on me.

"About seven years ago I commenced having stomach trouble, and it kept getting worse until I began having attacks of acute indigestion. When these attacks came on me I would just swell up like a mule with the colic, and got as limp as a rag. My breath would get short, and my pulse so weak, I was afraid my heart would stop beating. The stomach pump had to be used every time, as this was the only thing that would relieve me. Finally my kidneys went back on me, and I don't believe I was out of pain night or day for four long years, and I actually got so weak I could hardly stand on my feet, much less work. I was fading away fast, and got down to where I only weighed seventy pounds. I was almost a walking skeleton, and I tell you I was flirting with my grave, and guess I would have been in it if it had not been for Tanlac. For four years I couldn't hit a lick of work. I guess I was as near dead as any man you ever saw to be alive. But, look at me now; I am strong and as well now as I ever was in my life, and can do as big a day's work as any man.

"Yes, sir, if ever a mortal man has been through the rub I am the man I have paid out, I guess, not less than \$2,500 in the past six or seven years for doctor's bills and medicines, and have bought enough medicine from drug stores in Birmingham to own an interest in one of them, and I was lucky not to have had an undertaker's bill to wind it all up.

"I have been a painter all my life, and have had painter's colic several times, so guess that had a lot to do with my condition. Anyway, there seemed to be nothing that would straighten me out. Everytime I heard of new medicine I would get it. I read of Tanlac one day, and that's one time I hit it right. That's what saved me. Why, Tanlac just raised me right out of my grave. I can now eat anything, and actually I eat so much I get ashamed of myself. My landlady said the other day she would have to raise my board. I told her, though, she must remember that for four years she made money off of me, and that I was only making up for lost time. Why, seven or eight biscuits at a meal don't satisfy me now, but I just quit at that for fear I will overdo matters, but everything tastes so good to me now! And sleep! Why, I never would wake up if they didn't come in and shake me. I haven't a pain about me now."

Tanlac is sold in Colorado by W. L. Doss, in Loraine by Garland & Elliott and in Westbrook by J. H. Board.

TO KILL PRAIRIE DOGS.

Dr. W. R. Shook of Loraine, dropped in last Monday morning and asked us to publish the following method of killing prairie dogs. He says he has tried it himself and seen it tried, and can vouch for its effectiveness: Wrap a teaspoonful of sulphur in a rag and saturate it with gasoline. Set the rag afire, drop into the dog hole and stop all openings. The gasoline will keep the sulphur burning; so use plenty of it.

Mrs. Housewife:—Water is scarce, wood is high, the dust still blows and all conditions are unfavorable for having your washing done at home, yet some of you still undertake to have it done there, and are disappointed with results: Would it not be better to send your clothes where none of these things will annoy you and the work will be done right. We are the people who will please you. Phone us about your bundle and have the work done in the best way.—The Colorado Steam Laundry.

Hubert Toler announces that he has just received a full line of parts for Maxwell cars, at his sales-rooms in Colorado.

FOOD AND WAR

Shortage in Raw Materials Gives Rise to Alarm Among Manufacturing Interests—America Must Apply Every Resource to Meet World's Demand for Food—Labor Saving Machines and Man Power on the Farms Vital Factors in Economic Crisis—Appeal for Government Action.

Government action ensuring the farmers of America ample supplies of farm implements and competent farm labor is virtually necessary to this country's future participation in the war, declare the manufacturers of farming tools and machinery in the United States. This action must be immediate and radical, they say, or in 1918 the United States will fail to produce foodstuffs necessary to feed the civil population of our allies and to keep the allied armies in fighting trim.

This declaration is made in a public statement by the National Implement and Vehicle Association, whose members manufacture most of the farming implements used in and exported from the United States. It is the Association's answer to an anxious inquiry about reports of a prospective implement shortage addressed to it in behalf of the country's farming interests by ex-Governor W. D. Hoard of Wisconsin, one of the leaders of American agriculture and publisher of Hoard's Dairyman. The statement, which is signed by Charles S. Brantingham, Chairman of the Association's Executive Committee, says:

Unless prompt action is taken by the Government, our country will make the same mistakes that have resulted in compelling our allies to appeal to us to save them from famine. Unless we protect the production of labor-saving farm machinery and the supply of skilled farm labor we, too, must soon face a shrinkage of food supplies.

Without such action as is here suggested and urged, the farmers of the United States will not have enough machines or men in 1918 to meet the demands upon them.

"We are now confronted by shortages of raw material and factory labor that will begin to be manifest in shortages of certain lines of farm machinery this fall and will result in serious shortages in many vital lines next year. Stocks on hand in important kinds of tools and machines are smaller than in normal years, because of earlier scarcity of factory labor and a rapidly tightening security of all raw materials.

"Farmers have deferred during the last three years the replacing of old and badly worn tools and machines. Now, confronted by the practical certainty that the war is to continue indefinitely, with attendant assurance of a heavy demand and high prices for all their products, and by an inevitable shortage of farm labor, they cannot put off longer replacements of worn out machines and the additions to equipment necessary to increase acreage and production.

"It is also essential in meeting the demand of the farmers for implements that there shall be preference in transportation for raw materials to the factories and for finished goods from the factories to the farms.

"For the last ten years farm labor has been more and more difficult to secure, and now with an enormous increase in the demand for labor in munitions factories, and the withdrawal of many young men from productive occupations, there is bound to be a shortage of farm labor such as this country has never known. In Kansas alone a vast number of fertile acres on which the wheat crop failed will lie idle this summer, chiefly for lack of labor and partly through lack of machines to replant to corn.

"We regard it as vital to keep on the farms the men now there who know the business, especially the men trained in the use of labor-saving machinery. It would be wasteful and foolish to let them go and afterward try to replace them with unskilled men.

"We seek no advantage for our industry over any other, but we realize and we want the public to realize that without this product and without sufficient labor the farmers of the United States cannot increase or even maintain their production of foodstuffs next year. To avert the calamity that such a condition will surely produce, our industry and the farming industry which it chiefly supports must be put upon the same preferred basis as the making of war munitions, even if other less vital industries suffer thereby for materials and men.

"These are the measures that we declare to be vital to the feeding of this nation and its allies next year:

"1. That the manufacture of farm materials be given equal preference with the manufacture of war munitions as regards supplies of necessary raw materials.

"2. That service to the country in farm machinery factories be considered of equal importance with service in munition making plants, Government or private.

"3. That labor on the farms be considered as of equal importance with the production of war munitions.

"4. That the raw materials for farming machinery and the finished goods be given equal preference by the transportation agencies of the country with munitions of war.

"These measures must be taken immediately to be effective, because the use and demand for farming machinery are seasonal. We must have right now materials and the men to make the farm machinery that the farmer at home and abroad must use this fall and next spring. Delay in action will be as disastrous as failure to act at all."

Sunshine Special 10:35 p. m.

There is no doubt about it; the hot dry weather is getting on the raw nerves of both man and beast. A good rain would have as beneficial effect on the mental and moral condition of the people as on the vegetation. The high tension would be relieved and the prolonged strain broken.

It doesn't seem to matter about the tightness of the money market or hardness of the times, leanness of the crop prospects or other calamities, some kind of folks will buy automobiles and burn 25c gasoline in joy riding. Another car load of Fords came in last week and disappeared like ice under an August sun. Let the people rule while they can.

A bill introduced before the English Parliament last week seeking to expand the functions of the Bank of England, was the first intimation many people had of the fact that the Bank of England was not a national institution. It is a strictly private and personal financial corporation, taking over under bond, the financial transactions of the United Kingdom. The institution has been able to call to its aid and council, the wealthiest and the ablest mentally men of all the united kingdom.

The Taylor County Times published last week a tabulated statement of the rainfall in that section for the past 32 years. It contains several curious facts. The heaviest precipitation occurred in 1914 with 41.60 inches. The next heaviest was 1895 with 35.30 inches. 1905 there were 33.06 inches; 1908 there fell 34.97 inches of rain and in 1906 there were 29.05 inches. All these years of plentiful rainfall were preceded immediately by years of meager precipitation. All these records are above the average annual rainfall for this section, which is about 25 to 26 inches. Arguing from the record of the 32 years of this table, we are led to believe that the past two years of subnormal precipitation, are the precursor of another series of abundance. Let us so hope and work to that end.

Every now and then some brute commits a crime so revolting that no power on earth could avert justice. The case of Leonard Dodd and another man named Stevenson, who forcibly abducted Miss Orcutt at Dallas, one night while she was riding with an escort, whom they knocked insensible, and taking the young lady to a lonely spot, criminally assaulted her, so shocked the whole community, that their punishment was swift and sure. Stevenson was tried week before last and given the death penalty. Dodd was tried last week and received a life sentence. No more heinous crime was ever committed in any state, and after the verdicts were read, district attorney, Mike Lively, thanked the jury, declaring that such verdicts would do more to deter crime and keep down mob violence in cases of this character than all the laws and officers combined. So far, no move has been made for an appeal of the cases.

BIG DELEGATION TO SWEETWATER.

In view of the present muddle into which the West Texas A. & M. College matter has fallen, a meeting of the citizens of Colorado was held at the Chamber of Commerce Tuesday afternoon, to appoint delegates to the meeting held at Sweetwater Thursday, July 26th. The result of that meeting is not known as the Record goes to press on that day.

The published affidavits of Lieutenant-governor Hobby, Speaker Fuller and Commissioner Fred. Davis, that they did not vote for the location of the school at Abilene, and that their concurrence in the statement that Abilene had received three votes, was gotten by Governor Ferguson by questionable methods, have stirred the entire state to demand a rigid investigation of the matter.

At a recent meeting of representatives of several West Texas towns at Sweetwater, a special committee of lawyers, from Colorado, Sweetwater, Snyder and Hamlin, was appointed to investigate the legal aspects of the matter and report back to the meeting held Thursday.

From the consensus of opinion expressed at the meeting there is no antagonism to Abilene as a location for the school, but the method by which the school was located is most heartily condemned. From all present indications, the entire matter will be held up and thrown into the courts and whatever the issue, it is the popular opinion that the board that had the location in hand, will never locate the school. The matter will likely be deferred until the present board passes out of office. Following is a list of the delegates to Sweetwater, besides whom many others signified their intention of going.

P. C. Coleman, C. M. Adams, F. M. Burns, H. L. Hutchinson, J. H. Greene, C. H. Earnest, R. O. Pearson, A. J. Coe, W. A. Dulin, and several others.

CAN THIS BE TRUE?

A plot is believed to have been discovered by federal officers in the state of Kansas, to spread the germs of tetanus and other diseases by means of the sale and free distribution of court plaster. Several cases of lockjaw have been directly connected with the use of free samples of the plaster. The names of the parties so far arrested indicate their Teutonic origin, and there is strong evidence to support the assumption that the plot is backed by foreign enemies.

Skilled chemists and bacteriologists are said to have manufactured the plaster, as detection of the germs has been very difficult. When spies and sympathizers with any nation at war with the United States resort to such devilish methods as this to vent their hate, it is high time they were being hunted out and dealt with accordingly. Barbarism, at no stage of the world offered examples of inhuman cruelty more revolting than this. It is time Uncle Sam began cleaning house of such vermin.

Just now these West Texas towns that fawned upon the members of the A. & M. locating committee and played the hypocrite to a nauseating degree, are kicking themselves.—Snyder Signal.

Quite so; quite so. We recall a neighboring town or two that fairly slobbered over the locating board on its visit to those particular places, which are now itching to scalp this same board from chime to toe. The fellow who wrote that little story in the rear of the old blue-back speller about the mighty sight of difference it makes as to whose ox is hooked and whose bull does it, had a head on him big as a wasp and full of brains as a gourd is full of seed.

Soon as the news that the list of names drawn for Mitchell county, had been received here last Friday, there was a mighty rush for intelligence. If a fellow was told that his name had been drawn, in jest, it became a deadly serious matter with him until he found out to the contrary, and was but little mended if he found that it was a fact. "I'll write you from the trenches in France" immediately became a current salutation.

The first article in last week's Saturday Evening Post, written by Samuel Blythe, on the conduct of the war under the caption of "Big Men and Little" is worth careful reading by every citizen of this nation. Blythe is a sound reasoner, a clear thinker, and has for many years been in intimate touch with the war preparations of several countries. He was in Japan, Russia, China, England and France, when active preparations for fighting began, and knows every

symptom of preparedness, unpreparedness, efficiency and inefficiency in organization that crops to the surface. The reading of his article will afford a new and clearer light in which to interpret many things the president has to contend with.

A census of the unclaimed and untagged dogs in Colorado, we believe, would lead to a wholesale thinning of the canine population. Several families have moved away and allowed the dogs to shift for themselves, which as a rule means depredation upon the henroosts and back premises of neighbors. There are two or three rank offenders in the town—regular nocturnal prowlers, which are afraid of nothing and will even bristle up and growl at a peaceable, tax-paying church-going citizen in his own yard. Nothing short of a big chunk of lead propelled from the muzzle of a .45 will make any impression on these predatory hunters.

Inquiry of about score of farmers from different parts of the country as to their estimate of the number of bales of cotton would be made in their communities, compared with the crop of last year, supplemented by the opinion of those who usually keep posted on local conditions, lead to the belief that not more than 2000 can reasonably be expected unless the most favorable conditions obtain from this time forward. The recent local showers have helped some communities greatly, particularly is this true from Buford north to the county line and along the Sulphur creeks.

Ben F. Smith was editor of the Lockney Beacon. He ramrodded the campaign of Ferguson in that section for governor, and as a reward for his labors, was given a state job by the governor. He has been regarded as one of Ferguson's staunchest friends and henchman. But the farce of locating the West Texas A. & M. College seemed to be too raw for even Smith's loyalty, and he has resigned his state government job in order to be in position to consistently lambast the governor and the board.

We would not like to say just how many wagons loaded with household effects, we saw one day—this week—lined up at the freight station, waiting their turn at loading. These are they who have not the patience to stay by the stuff until the return of better times. We hope they will do well, wherever they may go, but believe that within two years they will join with old Joshua, when he prayed in the bitter hour of his defeat—"Would God, we had been content and dwelt on the other side of Jordan." The latchstring to the door of Mitchell county, will ever hang outward to those who have lost heart during the hours of the county's seeming adversity, and wish to return with its brightening prospects.

Pickens & Reeder keep the very best of seasonable meats that money can buy.

DON'T BE MISLED

Colorado Citizens Should Read and Heed This Advice.

Kidney trouble is dangerous and often fatal.

Don't experiment with something new and untried.

Use a tested kidney remedy.

Begin with Doan's Kidney Pills.

Use in kidney troubles 50 years.

Recommended here and everywhere.

A Colorado woman's statement forms convincing proof of merit.

It's local testimony—it can be investigated.

Mrs. J. G. Davis, Colorado, says:

"I have used Doan's Kidney Pills off and on for several years, whenever I have needed them and nothing has ever done me so much good. At times the small of my back was weak and achy and I could hardly bend down or lift anything. The kidney secretions were irregular in passage and I had dizzy spells. Doan's Kidney Pills, which I got at Doss' drug store have never failed to relieve me. They have helped me when other medicines have failed."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Davis had. Foster-Milburn Co., Props., Buffalo, N. Y. Adv720

If thinking of papering, see the new lines of wall paper at J. L. Doss' Pharmacy.

Whenever You Need a General Tonic Take Grove's

The Old Standard Grove's Tasteless Tonic is equally valuable as a General Tonic because it contains the wellknown tonic properties of QUININE and IRON. It acts on the Liver, Drives out Malaria, Enriches the Blood and Builds up the Whole System. 50 cents.

SOME BETTER PROSPECTS.

Another gentle shower of rain fell in this immediate section last Friday morning, supplementing the precipitation of .65 of an inch a few days before. Reports from other sections of the county indicate that in several communities, fairly good rains occurred. This was particularly the case on the HS ranch, where the precipitation was fully 1.50 inches. Ample stock water for immediate needs was secured, while the grass was saved from dying, and given a new growth and life. It is the consensus of opinion among farmers, cattlemen and the weather-wise generally, that the backbone of the drought has been broken. The fact that it has begun to rain again, never so little at a time is encouragement to hope for increasing quantities. The general cloudiness of the weather, day after day, betokens the presence of moisture that other conditions must precipitate in the form of rain.

All in all, West Texas is nearer the end of the protracted drought than it

has been during the past year. Every day brings the rains just that much nearer and the indications of the last two weeks encourage us to believe that the recent light showers are precursors of much better things in the near future.

A good penetrating rain any time in July, will not only greatly help what cotton there is of promise, but give opportunity for a fairly good feed crop, barring an unusually early frost. An Irish potato crop can yet be made, if planted in August, and in this connection, county farm demonstrator, Dulin, advises that home grown seed be used for this second crop wherever possible.

Conditions are never so bad as we imagine them. Troubles that never happen, send more people to their graves than those that actually befall them. It is wholly within the range of probabilities that the first day of January, 1918, will see the farmers of Mitchell county in much better condition than they themselves thought possible on the first day of July.

J. N. Padgett, postmaster at the bucolic community of Silver, was a business visitor here, Friday. He said he was trying to sell his possessions in that part of the vineyard, chiefly because of the impression that the older he grew, the longer and rougher appeared the road. Like the balance of us, who have topped the hill of life with the shadows from the morning sun falling behind us, friend Padgett ascribes the change due to the deterioration of the roadway rather than to any change in himself. This is the law of advancing age.

TAKING BIG CHANCES.

It is a great risk to travel without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as this preparation cannot be obtained on the trains or steamships. Attacks of bowel complaint are often sudden and very severe, and everyone should go prepared for them. Obtainable everywhere. Adv.

F. M. BURNS

CHURCHES, CLUBS AND SCHOOLS

ENTERTAINMENTS, PARTIES AND SOCIETY'S DOINGS

BY MRS. A. L. WHIPKEY

You will confer a favor upon the Record and the editor of this department if you will phone her (No. 157) any announcement or news item.

MISSION STUDY.

The Mission Study Class of the Baptist church met with Mrs. Geo. Smith last week, with Mrs. Hooper leader. The topic was the Indians and Negroes. The work among these two races was told of by different members. At the social hour the daughter of the house and Miss Hooper, served refreshments of salad sandwiches and tea. The next meeting is with Mrs. Shepherd.

B. Y. P. U. PROGRAM.

At the eleven o'clock hour Sunday morning the B. Y. P. U. conducted the services. This consisted of their regular weekly program with special music. This Union has now reached the A1 standard and their many friends rejoice that they have made such great improvement. Many good things are in store for these faithful ones.

FOREIGN MISSION PROGRAM.

Last Sunday was the day to observe Missions in the Christian Sunday school. A special program of music talks and recitations was prepared and as they have no pastor this was given at the 11 o'clock hour. The offering went for foreign missions.

Don't miss seeing the Melting Pot Monday night. It shows Walker Whiteside at his best. The scenes are laid in Russia and New York. Six big reels depicting the Russian Jew in the time of the rule of the Czar. Vera and David both get to America after many hardships. David makes good as a musician. They meet in New York, and the play closes with a happy and peaceful ending. The prices will be 10 and 20c.

BUSINESS MEETING.

The M. E. Missionary society met in business session at the church Monday afternoon. Besides the regular business, they decided to send five dollars war relief to their missionaries. A lesson on Stewardship, on Latin America was led by Mrs. W. L. Doss.

DINNER AT BARCROFT

Mrs. Burns entertained a few friends with dinner at the Barcroft last Friday. Mrs. Marshall of San Angelo and Mrs. Blume of Fort Worth, were the guests of honor. The decorations were gladioli and ferns.

CAMPING PARTY.

Mrs. Barcroft and Mrs. Merritt left Wednesday with the missionary girls, for a few days' camping on the Phenix farm. Some of their friends have promised to go spend the night with them to keep off the boogers.

MISSIONARY MEETING.

The Presbyterian Missionary Society held the July Meeting with Mrs. Riordan. The subject was Latin America. There will be no more meetings till the last of August. The summer will be spent in doing Red Cross work.

The Melting Pot, Monday night.

CLIP THIS AND PIN ON WIFE'S DRESSER

Cincinnati Man Tells How to Shrive Up Corns or Calluses So They Lift Off With Fingers.

Ouch! ! ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezone when applied to a tender, aching corn or hardened callus stops soreness at once, and soon the corn or callus dries up and lifts right off without pain.

He says freezone dries immediately and never inflames or even irritates the surrounding skin. A small bottle of freezone will cost very little at any drug store, but will positively remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels. If your druggist doesn't have freezone tell him to order a small bottle for you.

Matinee at the opera house every Saturday at 3:30, always good show.

SOME CABBAGE RAISER.

A. L. Scott, while not going around loudly bragging on the flourishing condition and promise of his field crops, this season, yet he has made his industry and agricultural skill evident in other channels just as satisfying. If all other "yarns" in his garden are as fine as his cabbage, he has the high cost of cheap living hemmed in a corner and begging quarter. Mr. Dulin brought in a sample of Scott's cabbage last Friday, (which of course was the first one they came to in the garden, and by no means the best in the patch) that would have been a credit to the famous cabbage patches of extreme southern Texas.

It measured about three feet over all across the top, while the head was as hard and as solid as that of some folks we could name right here in Colorado. It was the finest specimen we ever saw anywhere. It required some work, a little irrigation on the side, but the result is worth all it cost.

LEMONS MAKE SKIN WHITE, SOFT, CLEAR.

Make This Beauty Lotion for a Few Cents and See for Yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way. Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so no pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smooth and beautify the skin.

All druggists will supply three ounces of orchard white at very little cost and the grocer has the lemons. No. 5 Adv.

CAMPFIRE GIRLS.

The campfire girls met with Mrs. Davis last week and spent the time sewing on Red Cross work. They decided to meet at the court house, after this. On Wednesday they met at the court house. Dr. Ratliff made a talk on first aid. A machine had been provided and was kept busy on Red Cross work. The Merry Wives added much to the occasion by their presence and assistance.

SEWING CIRCLE.

The little girls sewing club met with little Inez Payne last week. Little fingers were busy doing Red Cross sewing. After work, punch and cake were served by the hostess. They meet this week with Little Mary Figh at Mrs. Smoot's.

WOMEN SIGN PLEDGE.

Miss Ella Dry reports the Hoover pledge cards and the registration blanks for women were well received last Saturday, nearly 500 were signed in the country. Loraine, Westbrook and Cuthbert came up nicely with their part. She wishes to express her thanks to all who had part in this work.

FULLER CALLS HOUSE SESSION

IMPEACHMENT ACTION AGAINST THE GOVERNOR SUBJECT.

Speaker F. O. Fuller of the Texas house has issued a call for a special session of that body to convene at Austin at noon, Aug. 1, "to consider whether or not the house of representatives will present a bill of impeachment against the governor of Texas, the charges to be thereafter tried by the Texas senate."

At the same time affidavits were also made public as to how the speaker and Lieutenant Governor W. P. Hobby voted for the location of the west Texas agricultural and mechanical college, swearing that they did not vote for Abilene on either the first or second ballots.

Helps Sick Women

Cardui, the woman's tonic, helped Mrs. William Eversole, of Hazel Patch, Ky. Read what she writes: "I had a general breaking-down of my health. I was in bed for weeks, unable to get up. I had such a weakness and dizziness, ... and the pains were very severe. A friend told me I had tried everything else, why not Cardui? ... I did, and soon saw it was helping me ... After 12 bottles, I am strong and well."

TAKE CARDUI

The Woman's Tonic

Do you feel weak, dizzy, worn-out? Is your lack of good health caused from any of the complaints so common to women? Then why not give Cardui a trial? It should surely do for you what it has done for so many thousands of other women who suffered—it should help you back to health.

Ask some lady friend who has taken Cardui. She will tell you how it helped her. Try Cardui.

LANDS SOLD TO THE STATE OR RE- PORTED DELINQUENT IN FORMER YEARS

Not Redeemed and also Delinquent for 1916
in Mitchell County.

THE STATE OF TEXAS, COUNTY OF MITCHELL:

I, A. W. Cooksey, Tax Collector of Mitchell County, do hereby certify that the within report of lands and town lots assessed on the Tax Rolls of said County for the year 1916, which have been sold to the State or reported delinquent for the taxes of former years and not redeemed, and are also delinquent for the taxes of 1916, is correct, and that I am entitled to credit for the taxes as shown thereon.

A. W. COOKSEY, Tax Collector.
(Seal) Sworn to and subscribed before me this 11th day of June, 1917
W. W. PORTER, County Clerk.

CERTIFICATE OF COMMISSIONERS' COURT.

THE STATE OF TEXAS, COUNTY OF MITCHELL:
In Commissioners' Court.

We certify that we have examined the within report of lands and town lots assessed on the Tax Rolls of Mitchell County, for the year 1916 which have been sold to the State or reported delinquent for taxes of former years and not redeemed, and are also delinquent for the taxes of 1916, and find the same correct and that A. W. Cooksey, Tax Collector, is entitled to credit for the taxes as shown thereon, as follows, to-wit:

Given in open court, this 11th day of June, 1917.
J. H. BULLOCK, County Judge.
L. A. POWELL, County Commissioners.
J. M. HILTON, County Commissioners.
R. O. JOYCE, County Commissioners.
Attest: W. W. PORTER, County Clerk.

Why Not Keep KOOL?

HOT weather is upon us, and the problem of keeping cool and comfortable is to the fore. This is headquarters for such service. We have a large line of varied patterns of Silk Shirts, Kool Kloth Clothing, the most approved styles of Neckwear, Underwear, Hosiery, Shoes, Ties, Belts and other accessories to correct and comfortable dressing during the heated term.

IF IT'S FROM THIS HABERDASHERY, IT'S
IN THE MOST APPROVED STYLE AND TASTE

J. H. GREENE & CO.

LOCAL NOTES

Chas. A. Pierce left Tuesday morning for Plainview on business intent.

Figure with Jno. L. Doss on your next wall paper order. He has a new and full line of latest designs.

Exclusive agency for TANLAC.—W. L. Doss.

C. E. Thrasher returned from Dallas Sunday night and has taken a chair in the Dozier barber shop.

To all those who have laundry work done:—We are still fighting the high cost of living and invite you to save money by having your washing and ironing done by us.—The Laundry.

R. U. Bean looks as natural as an old shoe in a back alley, on the C. H. Lasky delivery wagon. He is a jehu that gets over the ground and delivers the goods.

J. A. Sadler has it.

We learn that Charley Taylor has sold his home in North Colorado and has moved to the residence next the opera house.

Has just arrived at J. A. Sadler.—TANLAC.

The passing of a long troop train last Tuesday afternoon from the West took practically the whole population of Colorado to the station on the dead run. It did not stop, but shook the dust from its wheels as it flitted past as if in commentary upon the insignificance of the town.

It will cost just \$1.00.—TANLAC. at J. A. Sadler's.

The Record thanks Mrs. Tim Harby for a number of fine cucumbers, raised in her garden near the West bridge, under irrigation from some of the water that runs to waste from the ice plant.

If its TANLAC you want, J. A. Sadler has it.

If its in a first class market you'll find it at Pickens & Reeder.

John Holt was greeting his friends on the street Wednesday morning, little the worse in looks and flesh for his recent operation.

PIERCE-FORDYCE OIL ASSOCIATION

SPECIAL LUBRICATING OILS FOR AUTOMOBILES
Any and all kinds of Grease or Oil. Oil or Gasoline by the barrel, delivered anywhere.

L. E. ALLMOND, Agent
Phone 89

"JOE'S Market"

I HAVE PURCHASED

Joe Beck's interest in "Joe's Market" and will continue the business at its present location. All outstanding accounts are due and payable to me and all indebtedness of the firm will be assumed by me. While the market will continue to be run on a cash basis, yet I am in a better position to give you more for your money than in the past.

I thank you for past favors and ask
a continuance of same.

J. FORD MORRIS

J. L. PIDGEON CASH E. H. WINN

THE BRICK GARAGE

WINN & PIDGEON, Props.

The Largest and Best Equipped Garage in Mitchell County

Mr. Pidgeon, who is recognized as the leading mechanic in this section, will have the management of the business, thereby insuring to everyone the best possible workmanship and prompt, courteous treatment at all times. We solicit your business on the strength of being able to give you the best in our line.

The Melting Pot, Monday night.

Dr. J. D. Ratliff has an ad in this week's Record offering his residence and sanitarium for sale at a great bargain. The Doctor will leave next week for Lakeview, Hall county, where he will locate in the practice of his profession. While regretting much to lose Dr. Ratliff and his estimable family, the Record hopes the move will prove profitable.

Choicest of all meats and accompaniments at Pickens & Reeder.

Full line of parts for the Maxwell cars at the Maxwell sales-room in Colorado.

The condition of Mrs. A. W. Cooksey, who has been quite ill the past two weeks, is reported much better at this time. Mrs. Cooksey has had a very narrow escape from the fatal effects of ptomaine poisoning, which she suspects having contracted on a recent trip to El Paso.

Get your TANLAC at W. L. Doss. Exclusive agency.

Drives Out Malaria, Builds Up System
The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c.

Mr. R. P. Price never forgets that his friends enjoy good things as well as himself. He received a lot of old fashion, yellow Iowa roasting ears from back in "God's country"—commonly known as Fannin county—last week, and assumed that the Record force was somewhat behind in this commodity, sent up a number of them. We shall reciprocate when our guar-dain comes in.

W. L. Doss has the exclusive agency for TANLAC.

We are not dependent upon weather conditions in our laundry work. We wash every day and everything you send. Iron the flat pieces always, and the others if you wish it. Your patronage is solicited and our work guaranteed satisfactory. — Colorado Steam Laundry.

Clois King, son of Mr. and Mrs. Van King left Tuesday night for Lovington, N. M., where he has a position with the Kemp Lumber Company. Clois is a deserving young man, and the Record predicts he will advance to positions of trust and responsibility rapidly.

If wanting the Best Ice Cream go to W. L. Doss and say Alta Vista.

Mr. Jones, the expert barber, who has been working at the Roy Dozier barber shop for more than a year, left last week for Fort Worth, where he will remain. Mr. Jones and family made many fast friends in Colorado during their stay, by their attractive manners and general worthiness.

W. L. Doss handles the very best blackleg vaccine.

Our old friend, W. A. Louder, who now sojourns at Hermleigh, has been elected vice-president of the "E-K" Insurance Company of Scurry county.

Just phone J. A. Sadler your drug wants and he will supply them immediately.

Frank Crawford and family left last Friday, with all their household goods for Farwell, Texas, where they will reside. Frank has a carpenter work job when he arrives.

If thinking of painting your home don't hesitate on account of the supposed high price of paint. See W. L. Doss first, and you'll let the contract right away.

Mr. Page and wife returned from an extended trip to Austin, Bell county and other points of Central Texas, last Saturday night. He reports crop conditions all along the route of his trip as very spotted and these spots widely distributed.

Nuxated Iron, ask for it at Sadler's drug store.

Homer Easterwood, formerly proprietor of the Merkel Mail, but lately in the banking business, has purchased half interest in the Taylor County Times and will move to Abilene August 1st.

The Quinine That Does Not Affect The Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE, 25c.

County Attorney, Thos. R. Smith, has returned from his annual outing and fishing trip down about San Saba.

Kresco Dip, good for cattle, horses and hogs at J. A. Sadler's.

Mr. W. L. Reese and family and Mr. and Mrs. Nelson Vaughan left this week for Amarillo.

W. L. Doss has a fine line of jewelry and at Drug Store prices, not at Jewelers' prices.

THE BOYS ARE OFF.

Rousing Send-off Given the Colorado Volunteers to the Motor Truck Company.

The Colorado contingent, numbering some sixteen of the motor truck company recently formed at Big Spring, were summoned to Big Spring last Monday. They left on the night westbound train, and were given a rousing send-off and God-speed by the majority of the citizenship of Colorado, who knew anything about their intended departure.

The Colorado concert band was on hand and lent a stirring zest to the occasion by discoursing a number of stirring and martial airs.

After putting in the day at Big Spring drilling, they were sent back home with instructions to hold themselves in readiness to be called to duty in about ten days.

CALOMEL SALIVATES AND MAKES YOU SICK.

Acts Like dynamite on a sluggish liver and you Lose a Day's Work.

There's no reason why a person should take sickening, salivating calomel with 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

NOTICE TO LAND OWNERS OF MITCHELL COUNTY

The time limit for the killing of prairie dogs in this county is August 15th, 1917. The law makes it mandatory on the sheriff to proceed with the killing of all dogs at the above time if it is not done before then by the land owners. The cost of the killing will be charged against the land and collected as in the case of delinquent taxes. You will save cost by killing your dogs by the above date.

A. W. COOKSEY, Sheriff.

Roy Dozier will leave in a week or two for Fort Worth, where the truck company, No. 4, will be mustered into active service. The presumption is now, that this company will be requisitioned on the transportation connected with the work of erection of the cantonment at Fort Worth and possibly other cities of Texas. There will be a vast amount of hauling to be done in the erection and subsequent supply of these various camps throughout the state, and the army department has seen fit to recruit and qualify men for the duties of truck driving rather than pay higher salaries to civilians to do the same work. Colorado furnished a quota of more than a dozen to this special branch of the transportation service of Uncle Sam's army.

FREE OF CHARGE.

Why suffer with indigestion, dyspepsia, torpid liver, constipation, sour stomach, coming-up-of-food after eating, etc., when you can get a sample bottle of Green's August Flower free at W. L. Doss? This medicine has remarkable curative properties, and has demonstrated its efficiency by fifty years of success. Headaches are often caused by a disordered stomach.

August Flower is put up in 25 and 75 cent bottles. For sale in all civilized countries. Adv2

PICKENS' HOME BURNED.

About 7:30 o'clock Wednesday morning, the home of J. R. Pickens on the R. N. Gary place, near the Plainview school house, was destroyed by fire, the origin of which was a defective flue in the kitchen. Some of the household goods were saved, but the house was a total loss. This is a severe blow to Mr. Pickens, as we understand he carried no insurance.

J. A. Sadler has the leading cold drink, drug and prescription business of the town. Go there first for what you want.

The Melting Pot, Monday night.

POISON YOUR DOGS.

The law requires that unless you kill the prairie dogs on your land by August 15th, the sheriff will be required to do so and the cost taxed against the land and collected by stress. You need not be put to this unnecessary expense. I will do the work for you, guaranteeing satisfactory results, by the acre, no matter how many dogs there may be. My terms, with everything furnished and the work done to your entire satisfaction, are 10 cents per acre. For further information address me at Car, Texas.—F. C. FORBUS. 1tp

A. F. Feaster, H. L. Feaster and F. W. Britton went fishing on the North Concho river this week, and evidently had luck. They brought back two catfish, the largest of which weighed 45 pounds after being dressed, while the other was not so large. They claim that the fish lost about one-third its weight in being dressed. They located his catchup under a rock and went after him like they would a bear; and the fish gave them a good round of fighting before being landed. It was the largest fish we ever laid eyes on in West Texas.

BILIOUSNESS AND STOMACH TROUBLE

"Two years ago I suffered from frequent attacks of stomach trouble and biliousness," writes Miss Emma Verbyke, Lima, Ohio. "I could eat very little food that agreed with me and I became so dizzy and sick at my stomach at times that I had to take hold of something to keep from falling. Seeing Chamberlain's Tablets advertised I decided to try them. I improved rapidly." Obtainable everywhere.

COLORADO, :: :: :: TEXAS

Can you read this type clearly and with the same pair of glasses see distant objects?

With **KRYPTOK** Glasses you can see far objects just as distinctly as you read the type on the printed page. They give you near and far vision in one solid lens.

KRYPTOKS (pronounced Crip-toks) enable you to adjust your vision from near to far—INSTANTLY. They end the bother of removing glasses or fussing with two pairs.

KRYPTOK GLASSES
THE ONLY INVISIBLE BIFOCAL

KRYPTOKS cannot possibly be distinguished from single vision glasses because their smooth clear surfaces are absolutely free from the disfiguring lines, seams or shoulders of old-fashioned bifocals.

The Melting Pot, Monday night.

Most popular cold drink fountain in the city is that of J. A. Sadler.

Miss Elli Pool and her brother, Andy, and Tom Hill, motored over from Sterling Monday, to meet Misses Lote and Eloise Pool, who had been visiting in Roby. While here they were the guests of the A. L. Whipkey family.

Latest designs in wall paper at surprisingly low prices at John L. Doss' Pharmacy.

Mr. McKenzie motored to Sonora to bring home Miss Hazel, who had been the guest of Mr. and Mrs. Byron Byrne. Mrs. Landers is still waiting for car repairs before she can get home from her visit to the coast.

You can get Pape's Cold Compound at J. A. Sadler's.

Miss Nell Rountree of Plainview is the guest of Miss Olive Greenwood, and her brother, Mr. Austin Rountree.

You can now get any part of a Maxwell car at the sales-rooms in front of the postoffice in Colorado.

Mrs. J. J. McLure, formerly of Colorado, but now of Dallas, is visiting her former friends here.

Piles Cured in 6 to 14 Days
Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Bleeding or Protruding Piles in 6 to 14 days. The first application gives Ease and Rest. 50c.

Mr. and Mrs. J. H. Guitier and the babies motored to Abilene Saturday to visit relatives for a few days.

W. L. Doss keeps all kinds of window glass. He cuts it to size.

Mrs. Van King and the children returned from a visit with her parents on Champion, Sunday.

Sadler serves all the leading cold drinks and gives the best of service in all other lines. If its legitimate Sadler handles it.

Miss Mary Lyon of Big Spring is the guest of Miss Winnie Vaughan, and other friends.

Mrs. Blume and daughter, Miss Lucile, of Fort Worth, who have been the guests of her sister, Mrs. Prude, returned home last Saturday.

Get your meats from Pickens & Reeder's market. Only the best stuff is butchered.

Mr. and Mrs. D. N. Arnett left Wednesday morning for the plains.

Most attractive line of wall paper ever brought to Colorado at Jno. L. Doss' Pharmacy.

Last Saturday McCall Merritt who is working on the Renderbrook ranch was thrown from a horse and had one bone in the forearm broken. He came to town immediately and had it set and is now well on the road to recovery.

Pickens & Reeder strive to please both as to quality and service.

Miss Eleanor Coleman left Tuesday night for Cloudercroft. While there she will be the guest of Mrs. W. R. Smith.

Nujol, something new at J. A. Sadler's drug store.

Mrs. Ed Snowden of the HS ranch is visiting Mrs. McKenzie this week.

The Melting Pot, at the opera house Monday night. A splendid six-reel feature. Prices 10 and 20c.

Miss Dora Ward of Spade is spending the week with Mrs. Joe Sheppard.

A few regular customers wanted for sweet milk daily. Phone 297.—Mrs. Harry Smith.

A. R. Pool and son, Andy, of Sterling City, passed through Colorado Thursday afternoon enroute to New Mexico, in search of grass, and land for filing on as homesteads.

Roy Farmer marked the passing of his 26th birthday Thursday the 26th, with a dinner to which he invited several of his neighbor friends.

E. Keathley and son J. G. and father-in-law, J. J. Robertson, of Stephens county, left Monday for a trip in Mr. Robertson's new Ford Monday they went through Snyder, Gail, Tahoka, Brownfield and to Gomez, 140 miles in all. Tuesday they went through Plains, Sligo, Seminole and to Lamesa, 118 miles in all. Wednesday they returned home by way of Sparenburg, Soash, Vincent and Cuthbert, 90 miles, by noon. They report stock water put out between Gail and Tahoka by a recent rain; and the only crops worth even mentioning were between Colorado and Dunn. In most of the places no seed had been sown and where it had been but little ever came up. Jimmie Lee Hart, J. T. Fulkerson, Tom Smart and E. L. Burdine were seen at Lamesa. Mr. Keathley saw his sister, Mrs. J. T. Bryant and children who had just moved from Clarendon to Brownfield.

A FEW WORDS TO THE PUBLIC.

I would like for you to read every word in this advertisement before you stop. Some people say that a medicine that is recommended for so many things is not good for anything. Now, let me tell you, McCroskey's Tonic has seven ingredients in it, and acts on the liver, kidneys and spleen. It makes you fat instead of lean, and it acts on the stomach and blood. While it is a liver medicine, it is not a purgative. It only acts mildly and is a laxative and liver tonic. But if you need a purgative, take a course of liver medicine, and then follow with McCroskey's Tonic. It is sold in Colorado at W. L. Doss' drug store. Advtf

SACRE DHARP SINGING.

An all-day Sacred Harp singing will be held at Zion's Rest church on the Fifth Sunday in July, the 29th. Everybody is invited to be present and join in the singing.—Committee.

H. C. Car of the Vincent community, was in this week and moved his Record figures up another year. Mr. Car is the kind that never complains about conditions; he does the very best he can and leaves the result to a higher power. Asked about the crop prospects, he said he doubted if a bale of cotton or a ton of feed would be made within a radius of 15 miles of his home.

What is LAX-FOS

LAX-FOS IS AN IMPROVED CASCARA A Laxative Liquid Laxative, Cathartic and Liver Tonic. Contains Cascara Bark, Blue Flag Root, Rhubarb Root, Black Root, May Apple Root, Senna Leaves and Peppermint. Combines strength with palatable aromatic taste. Does not gripe. 50c

Courage in Elephants.
An elephant with a good mahout gives perhaps the best instance of disciplined courage—courage, that is, which persists in the face of knowledge and disinclination—to be seen in the animal world. They will submit day after day to have painful wounds dressed in obedience to their keeper and meet danger in obedience to orders, though their intelligence is sufficient to understand the peril and far too great for man to trick them into a belief that it is non-existent. No animal will face danger more readily at man's bidding—London Spectator.

If thinking of painting your home don't hesitate on account of the supposed high price of paint. See W. L. Doss first and you'll let the contract right away.

FIRST AMERICAN TRAITOR.

Benjamin Church Played That Role During the Revolution.

Benjamin Church, a graduate of Harvard and a member of a distinguished New England family, was the first American traitor. Church became eminent as a surgeon and as a writer of verse and was one of the leading Whigs in the years just preceding the Revolution. At one time he was a member of the Massachusetts provincial congress and became a member of the famous Boston committee of safety.

The committee's plans were consistently revealed to General Gage, governor of the province, but the source of the leak was not discovered until after the Revolution was fairly under way. At the time of the actual break between the colonies and England Church was assigned to an important colonial hospital. In September, 1775, a letter from Church to a British army officer, containing secrets of the colonial army, was intercepted. Church had entrusted the letter, written in code, to a woman, to be conveyed to one of General Gage's staff officers. The woman confessed her share in the treasonable move and implicated Church.

The traitor was taken before a council presided over by Washington, and he there practically admitted his guilt. Congress, acting on the suggestion of the trial council, ordered Church kept in close confinement in the Cambridge jail, "without the use of pen or paper, and that no person be allowed to converse with him except in the presence and hearing of colonial officers until further orders from this or a future congress."

Church's health failed rapidly, and he was permitted to undergo banishment to the West Indies. He sailed in a merchant vessel in May, 1776, and neither the ship nor Church ever was heard of again.—Kansas City Star.

PACKING GOLD IN KEGS.

Care Taken in Preparing the Money Metal For Shipment.

When a gold shipment is to be made by ship the necessary number of kegs are taken in a truck to the assay office, where they are received at a door in the rear. The gold bars are then placed on a hand truck and rolled to the kegs. In the presence of the agents of the shippers and of the officials of the assay office the bars are packed in the kegs, and sawdust is placed around them to prevent abrasion. When the heads of the kegs have been placed over the packed bars a piece of red tape is stretched across and fastened between the chime and the edge of the head. The seal of the shipping house is then attached to the head and the bottom of each keg.

After sealing the kegs are rolled to the wagon and lifted on. It takes two men to handle each keg, as there are ten bars to a keg, with a total weight of about 100 pounds. It may be mentioned that \$100,000 weighs in gold about 380 pounds, and \$1,000,000 weighs 3,800 pounds. Some time ago one of the officials of an assay office compiled figures showing how much gold a man could actually handle. It is a singular thing that great difficulty is experienced in carrying gold for any distance. The weight seems to be more "dead" than that of other metals, although that may be an illusion.

For instance, the average man could carry 100 pounds of gold one mile without much discomfort. Its value would be about \$26,000. A strong man could carry, say, 150 pounds a mile, reaching the end of his journey with just under \$40,000. A very powerful man might carry 200 pounds, or nearly \$53,000, a mile without exhaustion. Carrying gold is almost as difficult as getting it.—Los Angeles Times.

Paramount Garage

THE service that satisfies particular people is our specialty. We are equipped to overhaul your car from bumper to tail light, charge or repair your battery or any part of electrical equipment.

We Carry the Most Complete Line of Accessories in Town

Mr Pidgeon retires from the firm. Two expert workmen take his place.
