Cooper Wins Only County Race; Dog License Law Passes 500-86

In Sutton County's only political race, Alfred Cooper(employee of the Sonora Food Locker, was elected justice of the peace over George A. Barrow, incumbent, by a vite of 339 to 67.

Reelected without opposition were: George Wynn, county judge; H. C. Kirby, county and district clerg; B. W. Hutcherson, sheriff, tax assessor and collector; Mrs. Thelma Bricoe, treasurer; J. W. Elliott, county attornew; H. C. Saunders, county surveyor; Joe B. Ross, county chairman; N. W. Poteet, constable.

sUDyiecSe8oya elredfrid T A O

County commissioners reelected were Dave Locklin, precinct 1; Dan Cauthorn, Precinct 2; C. W. Adams, Precinct 3; Dantes Reiley, Precinct.

In the state races, voters gave Governor Allan Shivers a lead of 336 votes over his nearest rival, Caso March. Gov. Shivers received 374 and March got 38. The county gave Callan Graham a 2-1 vote for a second term as state representaive. Graham received 267, while Herebert Antoine, Kerrville, got 128.

In the vote on the county dog license and tax law, the final return for 500 and 86 against. The law carried by a large majority in precincts 1 and 2, but was defeated in precincts 3, 4 and 5.

The precinct 1 vote was 181 and 33 against; precinct 2 voted 125 for and 16 against; precinct 3 voted 5 for and 15 against; precinct 4 voted 7 for and 15 against and precinct 5 voted 1 for and 7 against.

New Rodeo Bowl Opening At Big Spring Next Week

An elaborate new bowl-type arena, considered one of the finest plants of its kind anywhere, will be formally opened for the first time as Big Spring stages its 17th annual rodeo next week.

The show is set for Wednesday through Saturday, August 2-3-4-5, with performances each evening at 8:15 o'clock.

Over $3,500 in purses, plus entry fees are expected to attract a long list of performers. The RCA-approved events will inlude bareback riding, calf roping, steer wrestling, wild cow milking, and a ladies' barrel race.

An added attraction at all Big Spring shows will be the appearance of "Wild Bill" Elliott, noted star of western movies.

The new rodeo plant in Big Spring is situated west of the west, on the road leading into the airport. The grounds cover 44 acres, and the new bowl--of natural amphitheater type--will seat 7,500 people. There are 98 box seats.

The top tier is about a ground level, so that wind and dust annoyances will be eliminated in the bowl. The arena is completely of concrete construction, and there are no posts or pillars anywhere to obstruct the view.

There are seven chutes, plus adequate corrals.

Max Murray is attending the University of Texas this summer.

Shurley Buys Marathon Ranch

David D. Shurley, Sonora, has purchased an 18,000-acre ranch in Brewster County, about 50 miles south of Marathon, from Sheriff and Mrs. B. W. Hutcherson, Sonora. Shurley arrived home Saturday from Boulder, Colo., where he had been attending summer school at the University of Colorado. The ranch deal was reportd to have been made early last month. Consideration was not announced.

The ranch joins the Big Bend National Park and is to be sheep-proof fenced later. Shurley plans to run cattle until the place is properly fenced.

Shurley, a 1947 graduate of Sonora High School, has attended Baylor University the last two years where he was majoring in law. He does not plan to return to school.

The young ranchman is to have associated with him his parents, Mr. and Mrs. Collier Shurley. Rex Hutcherson is living on the ranch at present.

Detail Given On Antelope Hunt

The executive secretary of the Game, Fish and Oyster Commission this week announced details of the special antelope hunt west of the Pecos, October 2 to 10, inclusive. First priority will be given permit holders for the 1948 hunt who withdrew their names in time for assignment of an alternate. The alternates were those whose names were not selected in the drawing which was required when more than 702 applications for permits were made.

Regulations for the hunt provide that persons who did not apply for an antelope shooting permit in 1948 shall have number two priority. The 1948 permit holders have number three priority.

The number of permits for this fall will not be set until the results of the 1950 antelope census is completed. The executive secretary indicated that the total permits allowed may be less than during the last open season in 1948.

Texans with a first priority rating are being notified and are being sent applications blanks. Other hunters may receive the blanks by writing the Game Department. Their names will be placed on the eligible list when they return the filled-out blank along with the $5 special license fee.

Misses Leila Kate Drake and Betty Williams of San Angelo have been the guests of Miss Anne Karnes this week.

Mr. and Mrs. Vernor Griffen visited their mothers in Goldthwaite last week.

Mrs. W. D. Kring and Miss Lois Hill spent the weekend fishing on the Llano River near Junction.

Sutton County Exceeds Quota In Bond Drive

Sutton County was one of 103 counties in Texas that exceeded their quotas in the recent Independence Savings Bonds Drive, George H. Neill, county Savings Bonds chairman, announced today after receiving final sales figures from Nathan Adams of Dallas, state chairman.

Sales in this county were $17,606.25, or 121.42 per cent of the $14,500.00 quota.

The Independence Drive was held May 15-July 4, with sales through July 17 being counted toward the quota.

Total sales in Texas for the drive were $25,383,274.75, or 105.37 per cent of the state's $24,088,000 quota. The goal was reached and exceeded during the last week of the drive, with a final burst of bond buying accounting for over $7,000,000 in sales.

"You and the people of your county can be proud of your record in this drive," Adams told the local chairman. "By exceeding their quota they have helped the state preserve an unblemished record of always going over the top in bond drives. At the same time the people of your county have added substantially to their savings and, consequently, to their personal financial security."

47 Years Ago

G. W. Logan was in from his place on the Llano this week on the grand jury.

—47—

B. C. Jackson, the well known commission man of San Angelo, was in Sonora Friday looking after some business.

—47—

Ed Fowler was in from his ranch on the Llano Monday on business and reports having sold 200 cows to Sam Woodward of Coleman at $11.50.

City Fogged With DDT At Night

DDT fogging of Sonora and parts of the county was mostly being done at night due to high winds, reported R. M. McCarver, city manager, this week.

McCarver fogged parts of the Fort Terrett area early this week when doctors diagnosed the illness of Harold West Evans, Fort Terrett ranchman, as polio. Evans is in a San Angelo hospital, where his condition is reported as fair.

Night fogging with the city-county-Lions Club financed fogging machine will be continued the rest of the summer. McCarver said. He added that the city has put oil on standing water found in the draws and asked that citizens cooperate by getting rid of tin cans or any other receptables that might catch rain water and serve as breeding grounds for mosquitos.

Soil Conservation District

The 12 grass seed strippers ordered by the District have arrived with seven of them already perchased by cooperators. Anyone interested in obtaining one pleas drop by the District office in the Court House.

* * *

Paul Turney's 6 acre enclosure near his headquarters contains one of the best variety of plants in this enclosure revealed 78 differthe District. A recent check of ent kinds of plants growing on this 6 acres.

Of the 78 kinds of plants, 19 were grasses, 41 were weeds, and 18 woody plants. The majority of the plants were of better grazing value.

Such a wide variety of good plants is ideal for grazing since plants and grasses are more palatable and taken at different times of the year.

Enclosures such as this help show what our rangeland is capable of producing.

Jo Hardgraves is interested in determining the rate of improvement of some of his pastures. To assist Hardgraves, SCS technicians set out transects last Tuesday.

Transects are means of measuring vegetation. They will be measured again in two years and compared with results of this year's reading. Any change in vegetation composition can then be determined. They are an aid in studying Hardgraves pasture management program.

* * *

Robert Halbert completed the contouring of his cultivated land this week. Contour guide lines were run on his 190 acre No. 1 field.

Contour guides lines will aid Halbert in putting his crops in the water on the field. This can-level rows that will hold most of servation practice will aid materially in reducing loss of top soil during heavy rains. It will also reduce crops loss during dry periods by increasing the amount of moisture available for crop production.

* * *

Mrs. Carra Simmons has deferred her East Pasture for the past two months. Sideoats grama and silver bluestem have made a very noticeable increase during this period These grasses have gone to seed.

Mrs. Simmons plans to shift livestock to this pasture about August 1 and defer her West Pasure the duration of the growing season.

Several cooperators got together last week when Joe Berger, Tom Davis, accompanied by Charlie Hull looked at pastures on Berger's and Davis' ranches.

Berger's Horse Trap showed considerable improvement under a system of deferred grazing. The good results of seedinn silver bluestem in areas of this pasture were observed.

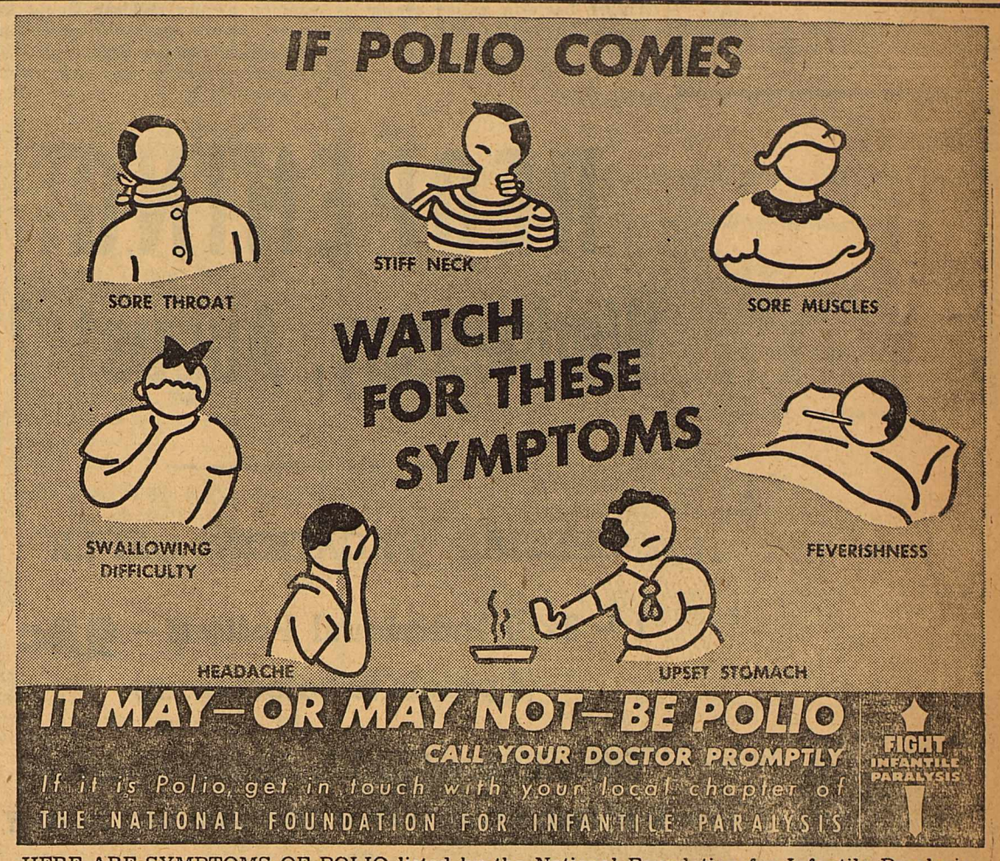

At the Tom Davis ranch the group observed Indian grass and the bluestems increasing in areas where Davis had planted seeds he gathered. The results of Davis' pasture deferments and mesquite eradication was observed.

Mrs. B. C. McGilvray has returned from a month's visit with relatives in Athens, Waco, and Austin.

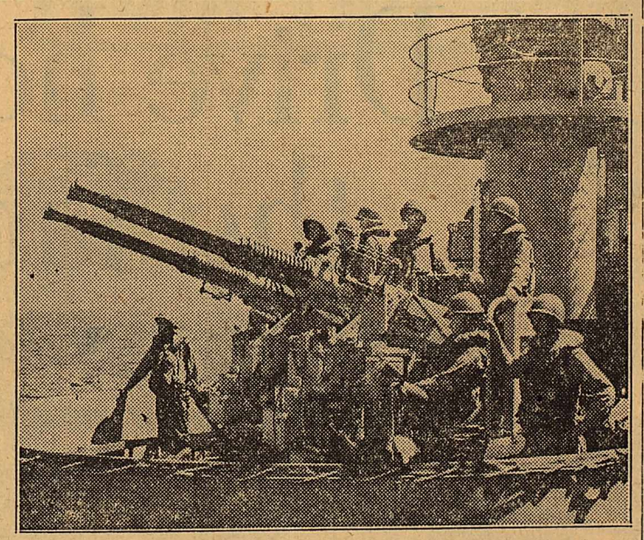

Miss Nellie White of Abilene is visiting her grandmother, Mrs. Frank Smith.

Ernest Carroll has gone to the Sweeney Diabetic Camp at Gainesville. He will be there until September 3.

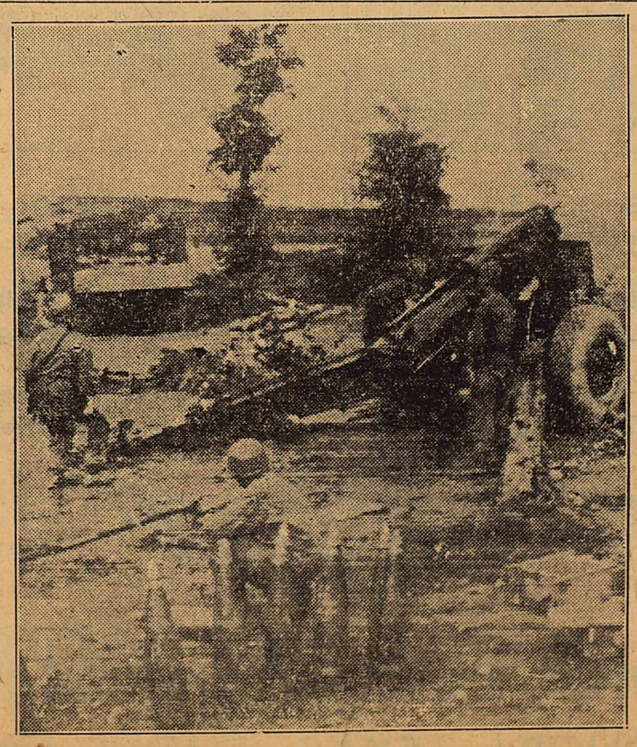

Carol and Eddie Marvin of Del Rio have been visiting in the home of the J. B. Renfroes. Their parents, Mr. and Mrs. F. O. Marvin, came after them Thursday.

HERE ARE SYMPTOMS OF POLIO listed by the National Foundation for Infantile Paralysis. They may—or may not—mean polio. Call your doctor and then, if help is needed, contact your local chapter of the National Foundation. When polio is around, these precautions are recommended: Keep children with their own friends and away from people they have not been with right along. Don't become exhausted through work or hard play. Don't stay in cold water too long or sit around in wet clothes. Avoid becoming chilled. Always wash hands before eating.

A. E. Wells To Take Abilene School Post

A. E. Wells, Sonora superintendent of schools for the past five years, announced Tuesday that he is resigning his position here to accept a job with the Abilene school system as director of curriculum and instruction.

Wells came here in 1945 and formerly elementary principal in San Angelo. He has also taught at Albany. He holds his B. S. degree from Abilene Christian

A. E. Wells

College and his M. S. from Colorado State College for Teachers.

In naming Wells to the post, the Abilene board filled a vacancy created by the transfer of Charles Romine to the principalship of Abilene High School. Romine, former principal of Temple High School, had recently been reelected to the post now held by Wells.

Wells said that since he was notified of his appointment Monday night, the Sonora school board would accept letters of application in preferance to personal calls at this time.

"It took me a long time to make up my mind about leaving Sonora," Wells said Tuesday. "The cooperation and friendliness of the school board here and of the people will certainly be hard to match."

Under Wells' administration, the school system, embracing the whole county in one district, has made many improvements, chief among these the addition of a $400,000,000 elementary school. Other additions to the plant include a new football stadium, baseball field, Negro school, and lighting for the tennis courts.

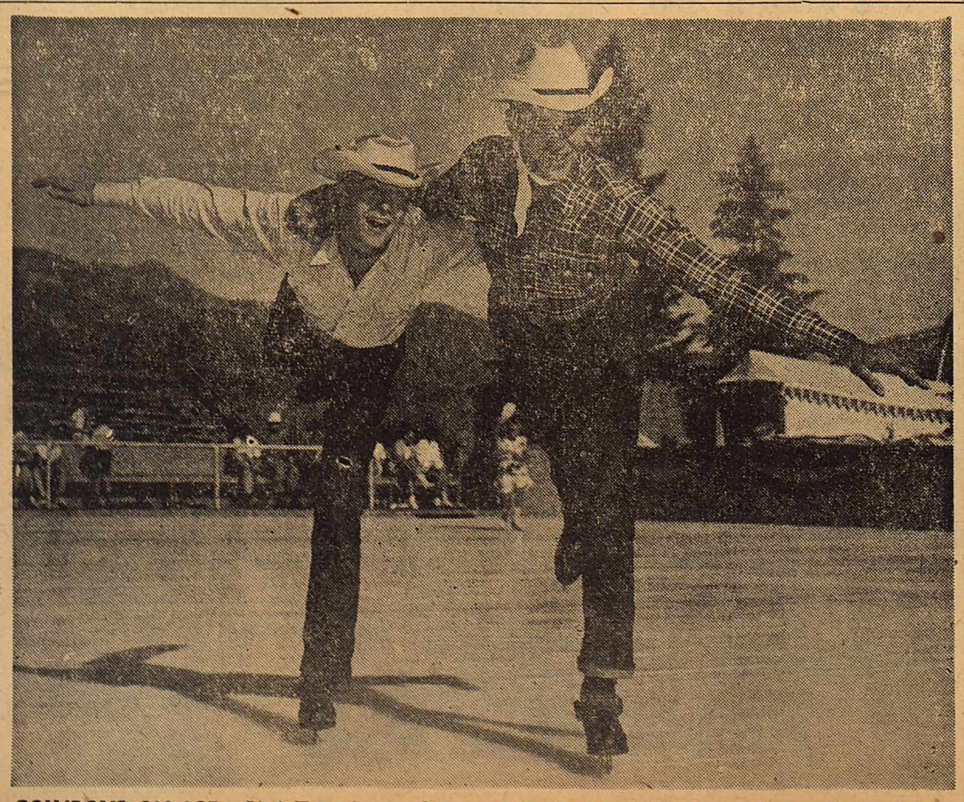

Wells said he will probably stay in Sonora until a successor has been named. Members of the local board are Bryan Hunt, president, Frank Bond, treasurer, George D. Chalk, secretary, and Howard Espy, Lea Allison, Mrs. George H. Neill and Mrs. W. R. Cusenbary.

Congratulations

To These New Parents

Mr. and Mrs. Melvin Glasscock are parents of a san, Tommy Ray, born here July 13. The baby weighed 6 uonds. Grandparents are Mr. and Mrs. Rudolph of Boerne and Mr. and Mrs. Pink Glasscock of Sonora.

YOUR HEALTH

When a state health authority says there is no such thing as a natural resistance to impetigo, parents of small children know exactly what he means. Those parents know, perhaps from bitter experience, that the same individual can suffer repeated attacks from what State Health Officer Geo. W. Cox calls an "offensive, annoying skin infection."

Although children are unusually susceptible, impetigo can be found in any age group, Dr. Cox said. It is most prevalent during the summer months, but has been known to occur at any month.

Impetigo, according to Dr. Cox's explanation, is a purulent skin infection. It isn't too serious, except in new born babies. An invasion of a hospital nursery ward calls for extreme attention to keep uninfected babies from getting it, for it spreads like fire in dry grass.

Impetigo is caused by a pus forming bacteria called staphylococcus-- the same sort of germ found in boils and sores where pus is present. Uusually it forms an unsightly crust over wide areas of the body. The pus underneath the crust is highly infectious if allowed to get on any other skin surface.

The infection is easily transmitted when a non-infected person uses the towel of someone infected, since the towel moisture permits the germ to survive.

Children living in the most hygienic homes frequently get impetigo, although it is perhaps more common among children living in homes where personal sanitaion isn't considered too important.

Dr. Cox says soldiers are often infected, because they have small chance for keeping consistently clean. It may involve a whole arm, or a side of the face and neck.

The only way to minimize the ill effects of impetigo is to keep thei nfection localized, that is, keeping it from spreading. This can be done only by preventing the pus or serum from exuding onto "clean" skin surfaces.

The family physician is the infected child's best friend. He'll advise the mother how best to combat the ailment, and how to keep it from spreading to other members of the family.

OIL SAMPLES INDEXED IN NEW BULLETIN

Samples from 30,000 Texas oil wells are indexed in a new 148-page University of Texas Bureau of Economic Geology publication.

Covering samples processed in the Bureau's Well Sample Library at the University's Off-Campus Research Center, the bulletin, "Index to Well Samples," may be obtained for $1.65 from the Bureau of Economic Geology, University of Texas, Austin, Texas.

LIVESTOCK SHIPMENTS UP

Livestock shipments in Teras rose 7 per cent in May from April, the Texas Bureau of Business Research reported.

In comparison with May 1949, livestock shipments climbed 32 per cent in May 1950.

Twenty-five years ago about one-fifth of the agrciultural income in Texas came from the sale of livestock, while today more than 45 percent comes from that source.

If poison ivy or poison oak plants are grubbed and burned, avoid the smoke, for it carries the toxic volatile oil of the plants and is extremely poisonous.

Attend SOME Church Sunday.

Santa Fe Carloadings

Santa Fe System carloadings for week ending July 22, 1950, were 22,561 compared with 24,804 for the same week in 1949.

Cars received from connections totaled 11,723 compared with 9,305 for the same week in 1949. Total cars moved were 35,284 compared with 34,109 for same week in 1949. Santa Fe handled a total of 36,-635 cars in preceding week of this year.

Fish supplies the same high quality protein that is found in other meats and is an easily digested food. Most fish provide the consumer with vitamins A and B and the salmon and mackeral also contain the recently discovered vitamin D.

Drive slowly through School zones.

THE PRESIDENT'S MESSAGE was the big news on Capitol Hill last week. It was followed quickly by bills to lift the ceiling on the number of men who compose the armed forces and steps were taken to put the nation on what has been called a "limited" war footing.

The best guesss around here is that about 100,000 men will be required to chase the commies out of South Korea and that it will be September before a real counter offensive can be launched. Thus far our delaying action tactics have been carried out with less than two divisions, whereas the invaders swooped down with a total of nine divisions, well trained, seasoned and mechanized. Outnumbered 10-to-1, our troops have suffered but have performed with gallantry and heroism.

The North Korean army includes an estimated 70,000 veterans of the China war - Koreans who were in Manchuria and who went into the Chinese communist forces. And about 150 modern 34-ton Russian tanks spearheaded the drive. The Joseph Stalin tank - the largest of all - has not been used much. In fact only one of them has been seen in action. At least two others are knowns to be standing by.

The new super bazooka, capable of stopping any of these tanks, was flown to Korea three weeks after the invasion began. Many people have wondered why those

Six Steps to a better vacation in your Buick

1. Over-all LUBRICARE lubrication—including inspection of your Buick from radiator to rear end.
2. Removal of one front wheel, inspection of brake lining and wheel bearing.
3. Inspection of tires, *plus* cross-switching of wheels to save you money on wear and mileage.
4. Headlight aim corrected.
5. Stop lights and other warning lights checked.
6. Engine tune-up—for snappier performance and increased mileage economy.

Phone this week, for prices and an appointment—before the rush!

Mr. Link Robinson, 519 Lindsey, is the most content and satisfied man in Newport, Ky. In fact, he says there isn't a thing in the world that can irritate or upset him now that he is on the HADACOL band wagon. If there ever was a man who thought HADACOL is the most wonderful thing in the world, it is Link Robinson, since he learned that his system lacked Vitamins B_1, B_2, Iron, and Niacin.

Here is what Mr. Robinson has to say about HADACOL, which is now supplying liberal quantities of these essential elements: "I have been a steel worker for over twenty years. When you are a steel worker, you have to do plenty of good, hard work, and you need lots of good, substantial food. But when a stomach is in as bad a shape as mine was . . . I couldn't eat, I had gas pains, stomach bloating and nervousness; well, I just couldn't eat the proper foods I needed. My boss told me about HADACOL and I started taking it immediately. After the second bottle I could tell a definite improvement. Now I can eat the foods I need to eat to really be on the job. In fact, I can eat anything I want to. I am not nervous anymore, either. Best of all, I haven't got those terrific gas pains and no more stomach bloating. HADACOL is the best ever. I recommend HADACOL to everyone."

HADACOL Is Different

Countless thousands are benefiting from HADACOL . . . even hundreds of doctors are recommending HADACOL to their patients whose systems lack Vitamins B_1, B_2, Iron, and Niacin. HADACOL is so wonderful because HADACOL helps build up the hemoglobin content of your blood (when Iron is needed) to carry these precious Vitamins and Minerals to every organ, and every part of your body—to the heart, liver, kidneys and lungs, even to the eyes, hair and nails.

Give remarkable HADACOL a chance and if you don't feel better with the first few bottles you take—you get your money back. Only $1.25 for Trial Size; Large Family or Hospital Size, $3.50.

A LOOK AT THE BOOK

By DR. BOB JONES, JR.

PRESIDENT OF BOB JONES UNIVERSITY — GREENVILLE, SOUTH CAROLINA

The Bible judged from any standpoint is an unusual and remarkable book. The book of Job, the oldest portion according to the opinion of sound scholarship, is over 3,000 years old. The newest portion, the book of Revelation, was written about 96 A.D. Between these two books, through the intervening centuries, the others were written by approximately forty different men. Yet there is not a single contradiction or discrepancy in the whole book.

The Bible is not a treatise on science, but when it deals with science it is scientifically accurate. It is not primarily a book of history yet the archaeologist digging up the records of ancient civilization has proved over and over again its historical inerrancy. From every viewpoint it is the world's most valuable volume. Someone has said that wicked men would not have written the Bible, because it reproves human wickedness. Good men would not have written it, because it claims divine authorship.

The only explanation of the book is found in the fact that the Bible "came not in old time by the will of man: but holy men of God spake as they were moved by the Holy Ghost" (ll Peter 1:21). God himself, through the instrumentality of his servants, who wrote under the inspiration of the Holy Spirit, is the Author of the Book.

The word God throws light upon forming power over mind and heart and life. "The entrance of Thy word giveth Light" (Psalms 119: 130). The word of Gor throws light upon the relationship of man with man, nation with nation, and upon the relationship of men and nations with God. There is no other volume which so stimulates the mind and enlightens the intellect, but the Bible does more than bring intellectual enlightenment. It expels spiritual darkness in the human heart and brings the light of the very presence of God Himself into the souls of those who accept its promises and trust the Redeemer whom it reveals. The man who be- a lamp to his feet in the darkness lieves and loves the Book finds it of this word and light on the path which he walks (Psalms 119: 105). The Book gives light. The Book is Light. The Word of God treasured in the human heart dispels the darkness of sin. The Psalmist has written, "Thy word have I hid in mine heart, that I might not sin against thee" (Psalms119: 11). The Word inwardly action.The Word of God hidden in the human heart does not stay hidden. Like a bright flame in a lamp its light shines out through the life.

Are You... MISER? SPENDTHRIFT? THRIFTY?

A miser saves 60% of his income. A spendthrift saves nothing. A thrifty man saves 20% of his income.

A thrifty man enjoys life with moderation, providing for later years. He invests money safely for future delivery. ANICO's 3-Way plan is ideal for the thrifty man. He gets a return on his investment, is protected in case of death, and if he has to drop the plan he still has guaranteed cash or paid-up endowment values. The sooner you plan your future, the better your future will be.

Continued From Page 3 —

bazookas were not readily available to meet the Reds when they crossed the 38th parallel. The fact is this new weapon is brand new. It was still in the testing stage, and the very first ones released by the factory were promptly flown to the war front. There they have proven very effective.

The trouble was, our policy in Korea has in the past been indefinite and ill-considered. Only a few months ago it was announced around the world that neither Formosa nor Korea were considered essential for American defense and security. More than a year ago we pulled our troops out of Korea, and left the natives practically unarmed and unprepared for any invasion from the north.

And, despite that, American economic aid was continued for Korea. Now we know that the economic assistance there was a mistake without the same time commiting substantial military support. Many of us in Congress felt that to pour economic help into South Korea, without any assistance of military protection, was waste and folly. Now everyone knows that position was correct.

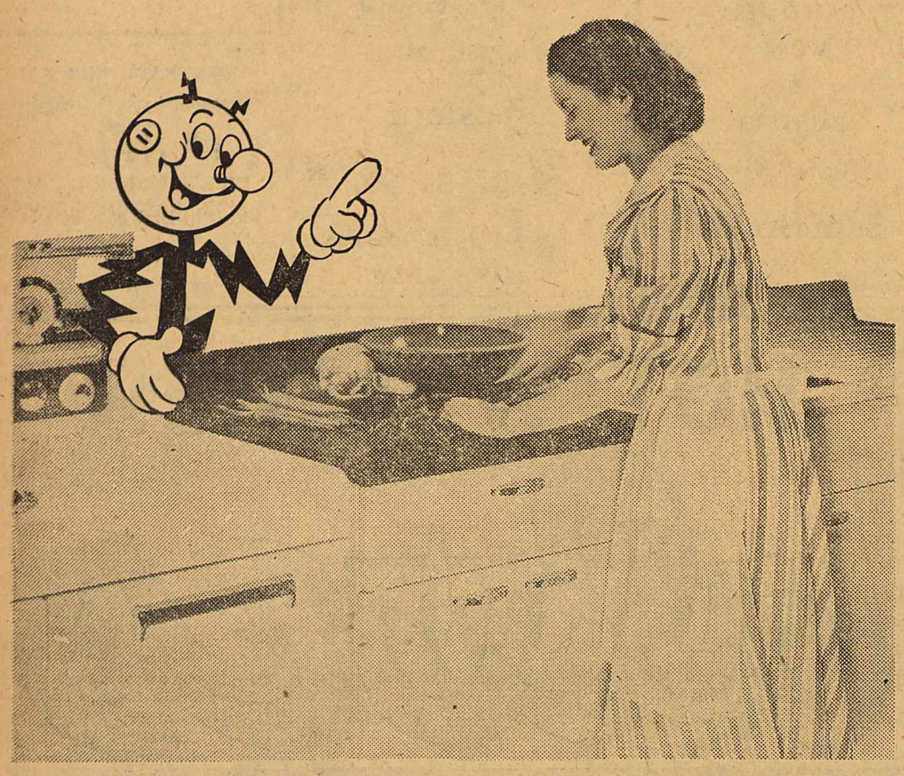

AS WE MOVE TOWARD a new era of peactime preparedness, it is important to keep in mind that this is not being done just to drive the Reds out of Korea. There are other trouble spots, and only the Kremlin knows where another war of the the Korean type may break out around the world. The general belief here seems to be that Russiaa does not want showdown war with us at this time, but is prepared for several small wars to be fought by satellites.

Right now Greece is menaced by a concentration of the old Communist guerilla armies across the frontier in Bulgaria. Iran, with its rich oil riches, faces huge Russian armies across the border, but internal rebellion is not believed likely. Tito's Yugoslavia is ready for anything to happen. For weeks masses of communist troops and tanks have been focused on the Yugoslav border. And in the Far East Indo-Chino is on the brink of communist attack any time. Except for American intervention, it is believed Formosa would already be under invasion by the Chinese Communist armies.

SO, IT CAN BE EASILY SEEN that if Russia had been permitted to have her way in Korea - if the U. S. hadn't reversed its position and intervened with military assistance, the Korean incident would have been put but the beginning of a series of war. Others may occur anyhow, but they will hestitate more now that Uncle Sam has got his dander up. The best insurance for peace is preparedness. It's the only language the dictators understand.

Glass casting rods from $7.50 up. Casting reels from $4.50 up, at your sporting goods dealer, G. E. Ellis. 1tc41

Woman's work is never done!

WOMAN'S WORK IS NEVER DONE—that's not just idle talk. The average housewife works 63 hours a week. And she performs 70 different tasks in one day's work, which is proof positive (if anybody needs it!) that housekeeping is a rugged job!

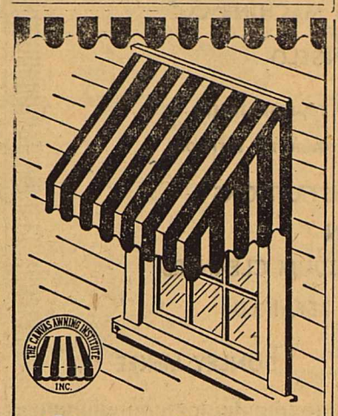

Of course, today's housewife has many electric helpers to lend a hand and take much heavy work out of housework. But even the finest appliances need something else—low-cost, dependable electric service to give them life and usefulness.

That's why it's a compliment that West Texas housewives take electric service for granted. You flip a switch and know your electric helpers are ready.

You can take its economy for granted, too. For your electric service is just about the smallest item in your family budget. It costs less than a pack of cigarettes a day, yet it helps you sew, cook, clean, wash and iron, guards your health, cools your home, heats water, entertains you. *What else gives you so much living value—at such little cost?*

What a stepper!

V-8 or "Six" she steps out like no other low-priced car. Yet you can own a V-8 for hundreds less than most "Sixes"—a Ford "Six" for even less.

What a stopper!

Ford's 35% easier-acting King-Size Brakes use car momentum to help you stop. Like Ford's extra-rugged "Lifeguard" Body, they give you the kind of protection you'd expect only of costliest cars. And for added safety and comfort, there's the low and level "Mid Ship" Ride—you're cradled between the wheels.

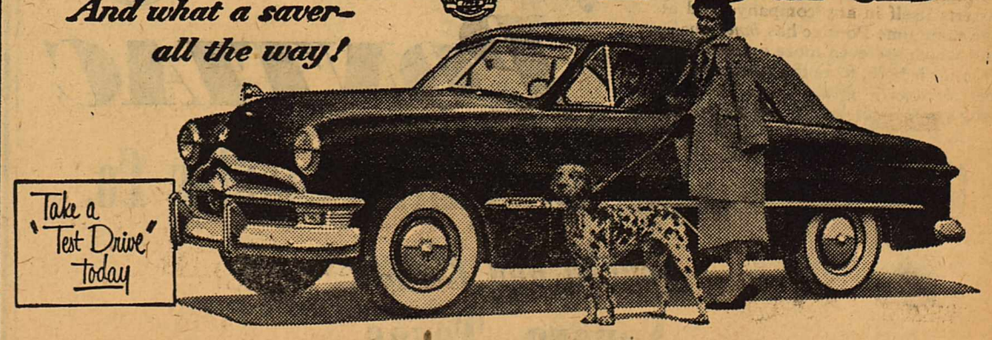

What a looker!

Ford's the "Fashion Car of the Year." And Fords *stay* good looking with baked-on finish "made to live outdoors." That means high resale value which, with Ford's low running costs, spells real savings.

'50 FORD

And what a saver— all the way!

What's going on in Sonora . .

AROUND THE TOWN —

John F. (Sonny) Howell will be taken back to the Shannon Hospital today for a checkup. If his back, injured in a Memorial Day auto wreck, shows enough improvement, a brace may replace the cast he is now wearing . . . . way by Ratliff ambulance . . . . Harold West Evans, whose illness was diagnosed as polio upon his arrival at a San Angelo hospital Monday, is getting along about as well as can be expected. Although his legs see to be partially paralyzed, he could move his feet Wednesday. Some stiffness in his neck but no respirtory trouble has developed . . . . Bill Whitehead, another young ranchman suffering from polio, is reported making satisfactory progress at the Gonzales Warm Springs Foundation. His wife, the former Tina Ann Taylor, has taken a job in the office of the foundation . . . . Tommy Smith, owner, with his brother, Johnny, of Smitty's Welding Shop, was taken to a San Angelo hospital Tuesday, where it was discovered that one lung had collasped. He will be brought back here in a few days but will not be able to work for some time . . . . Mrs. Carmen Gonzelez, 49, who died at her residence here early Monday morning, was the county's first reported fatality from tuberculosis. She is survived by her husband and ten children, the youngest 15 years old.

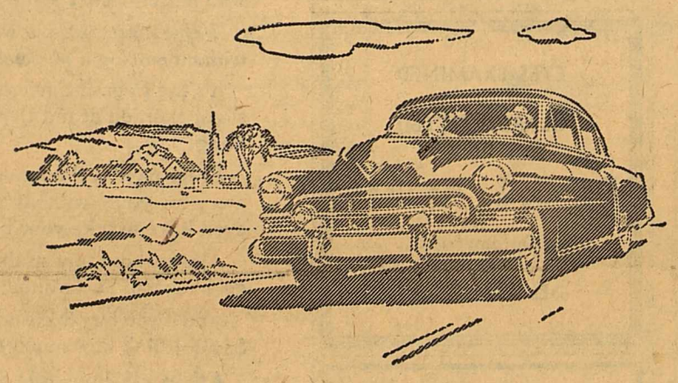

HERE AND THERE —

Betsy Ross is attending Camp Waldemar at Hunt . . . Miss Jackie Gwen Wardlaw, accompanied by her mother, Mrs. Jack Wardlaw, left this week to attend a banquet in Ft. Worth honoring winners in the recent state soil conservation contest. They will later leave on a trip to Colorado, her award for writing the essay, "My Soil Conservation District," which placed first in the state . . . . Patricia and Phyllis Ann Bunnell of San Angelo are visiting their grandparents, Mr. and Mrs. John Bunnell . . . .Marjorie Rees of Amarillo is here as the guest of her grandmother, Mrs. Robert Rees . . . . A feature story on the life and work of O. L. Carpenter, animal husbandman at the Ranch Experiment Station for 32 years, appeared in the magazine section of the San Angelo Standard . . . . A grass fire at the Sawyer 6-mile ranch Wednesday night burned off a few acres . . . . Walter L. Pfluger of Eden, bought the 6-section Steen ranch here and will take it over October 1, when a lease held by Libb Wallace runs out. Pfluger said Wednesday he intends to run mostly cattle and goats. He and his son, Robert, now a senior at Texas Tech are in the venture together and Robert will probably live on the ranch after graduation. The Pflugers also ranch in Eden and Kimble and Kimble County . . . . A. B. Hightower is about ready to sign a construction contract with the Texas Company calling for erection of a Texaco service station on his lot at the intersection of highways 270 and 299, across the street from the Richardson Gulf Station . . . . Hightower also said he is reopening the Park Inn Recreation Club . . . . the W. B. Hardys of Dallas are guests of the J. T. Penicks this week . . . . Mrs. Bartie Lou Bridwell and son, E. W., left Monday for Houston, where they will visit her sister, Mrs. P. O. Lesesne . . . . Mrs. Thomas Morriss returned this week from San Antonio, where she recently underwent major surgery. She is recovering satisfactorily . . . . Pete Jacoby and associates, Victor Loeffler (cousin of S. M. Loeffler, Tom Hardeman and Gus Witting, all of Junction are opening a new drive-in theatre on the airport property next Tuesday The theatre is equipped with RCA-products including individual car speakers. A 50x50-foot screen, soda fountain, concession stand, and free admission to all children under 12 are other features. Opening feature is "The Big Cat," a technicolor western . . . . Something new in orchestras will be seen Saturday night when the Hollywood Sepia-Tones, all-girl colored group, will appear at Tony Garza's Pavilion Hall (at the Elliott School cut-off from US 277.) Spectators are cordially invited, says Garza.

It Almost Reads Your Mind!

Oh, how restful and easy and relaxing it is to sit at the wheel of a 1950 Cadillac—and cruise down your favorite highway!

Men write from all sections of the country to say that they drive their Cadillacs hundreds of miles each week—for the sheer joy of driving.

You'll never believe it until you try it—for it's an unbelievable experience.

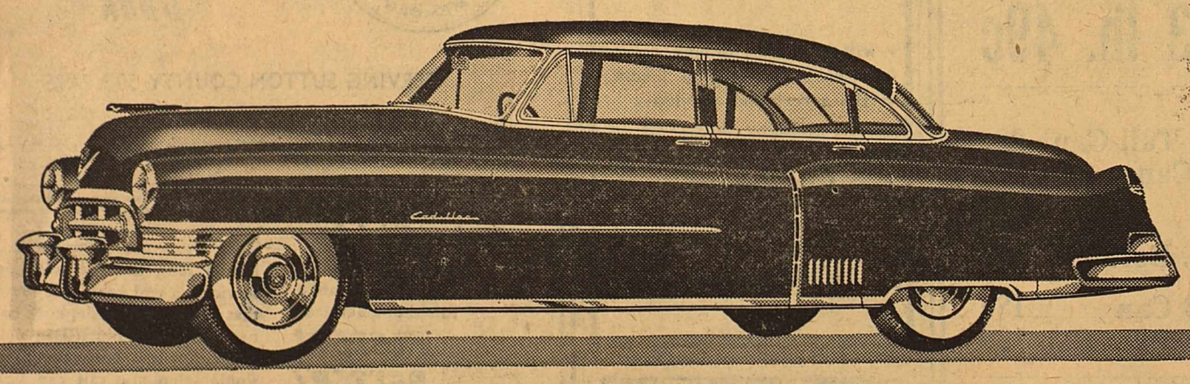

The moment you get behind the wheel, you sense that something out of the ordinary is about to happen.

And then you're away—so quietly, and smoothly that only the objects along the road give you a sense of motion.

The great motor—so miserly of gasoline that a single tankful is usually enough for a full day's drive—sends back a thrill each time you touch the throttle. You ride as if on a magic carpet. And you hear only the soft rush of the wind—streamlining past like a lullaby.

And how easy it all is! The steering wheel seems to foresee the curves and turns. The big, powerful brakes are as soft as velvet. And the marvelous balance imparts a sense of security that puts you completely at ease.

Yes—it's a wonderful experience—which you ought to try for yourself. One hour at the wheel—and we're sure you'll feel—that it almost reads your mind!

YOUR HEALTH

"Now is an excellent time for school children of all ages to make a trip to their dentists' offices," Dr. Geo. W. Cox, State Health Officer reminds Texas parents. Since school progress is influenced by the pupil's health, which is in turn affected by mouth conditions, it is wise to visit the dentist during the summer vacation and ibtain any needed treatment before school starts.

"It is dangerous to assume that there is no need for dental attention simply because a child does not complain of a tooth ache or the parent does not notice any cavities. Only careful examination by a dentist can justify such a conclusion.

"Children entering school for the first time are particularly in need of dental attention. Usually they are at the age when the first four permanent teeth, the sixth molars, appear. Because these erupt before the shedding of any baby teeth, they are often mistaken for baby teeth. Since these are important teeth they should receive early and regular attention by the family dentist.

"Postponement of a visit to the dentist may result in pain and discomfort for the child later on. To avoid such suffering and to prevent the developing of conditions that may require more extensive dental services at a later date, parents are strongly urged to take their children to the dentist for an examination now. Prompt action will allow time to complet any needed corrections before school opens."

THIS TASTES GOOD IN TEXAS

Chicken Paprika

3½ to 4½ lb. stewing chicken cut pieces
½ cup finely minced onion
4 tablespoons butter
3 tablespoons paprika
1 bud garlic, finely minced
¾ cup chicken stock
1 teaspoon sugar
½ teaspoon pepper
1 cup sour cream
1 teaspoon salt

Fry onions until golden brown in one half of the butter. Remove onions, add remaining butter, brown chicken on all sides. Add seasonings to chicken, return onions, add stock. Simmer 2 hours over low flame. Add sour cream fifteen minutes before serving. Serve over fluffy rice. Yield: 6 servings.

COMPLETE MENU
Chicken Paprika - Fluffy Rice
String Beans
Cucumber and Celery Salad
Hot Biscuits
Butter or Margarine

Are you the LAZY TYPE?

If you have even the smallest lazy streak in you (and who hasn't) here's some good news:

We've discovered a way to save money, lots of money, *without moving a muscle!*

It's the *Payroll Savings Plan.* Once you sign up (a very slight exertion at most) you don't ever have to do another thing!

Every payday the amount of money you designate is put away for you—without any effort on your part. You don't even have to take your hand out of your pocket!

Also without any strain (but with much pleasure)—you'll get back four bucks after ten years for every three you invest.

And if you buy these Bonds in denominations like...say... $100—think how much easier they'll be to add up!

All in all, buying U. S. Savings Bonds through the Payroll Savings Plan is one of the *easiest, wisest, surest* ways to save money.

Come on, join up today.

Automatic saving is sure saving — U.S. Savings Bonds

SERVING SUTTON COUNTY 50 YEARS

Modern Chief Say:
Douse-em Smoke Signals! Long Distance Telephone Service:
FASTER! BETTER! COST LESS.

This wampum-wise warrior knows long distance telephone service is a real value. He knows that long distance telephone connections are completed in mere minutes or less. He knows that a single telephone call can be a *complete* transaction — saving time and in many cases saving money. And he realizes that long distance telephone rates are especially low after 6:00 p.m., and on Sunday.

So follow honest Injun, and switch to long distance telephone service today.
