J. W. KING, SR.

Only a few weeks now until Spring, the time when we get out of doors and plant things. Flowers, shrubs and trees make the countryside beautiful.

Mr. Lyndon Johnson has a campaign going for the beautification of the United States which is a worthy undertaking. Many spots in the country that could be very attractive are marred by junk yards and other rubbish. Let's join in helping to make our country more beautiful by removing from our highways and streets all old cars and other rubbish.

Speaking of Spring reminds us that it won't be long until the baseball program for the boys of the community will get under way. Which reminds us further that we need to get things organized to carry on the program before the time arrives. A well organized program is always much better than a haphazard one.

Changes Made In Social Security

According to Erven Fisher, District Manager of Social Security in Big Spring, an important change concerning the disability provisions was made in the 1965 amendments to the Social Security Act.

He advised that so much information has been published about Medicare that many people are unaware that other important changes have taken place.

Before the amendments, a person had to have an illness or injury which was expected to continue indefinitely or result in death. Now, a worker can meet this requirement if he has a severe impairment which has lasted, or is expected to last, for as little as 12 continuous months. This is the first change in the definition of disability in the eleven year history of the disability program.

Anyone who has previously filed for disability and was denied because his condition was expected to improve in the near future, should recontact his social security office. He may now be eligible for payments under the change.

Fisher emphasized that many claimants for disability benefits are turned down because they have not worked long enough in employment where they paid social security taxes. The work requirement has not changed. In addition to meeting the disability requirement, a person still must have worked and paid in to the social security program for about five years during the ten-year period before he became disabled.

Grown-ups, do you remember when you took a red apple to school for the teacher? Or the first flowers from mother's garden? You will be welcome. It will not only be fun, but the privilege to see how the schools

of today are meeting the challenge of today will be pleasing to you. Make plans to visit your school, if you have children in school, or if you do not, you are welcome.

Then added, "Their effective operation depends on a wheel whose center is fixed. Without this fixed center, the effectiveness of the wheel is impossible. Let us apply this truth to life, for without a firm belief in Christ, our lives are purposeless and meaningless."

It is located between great oceans and great continents. The Republic of Panama stands too, between lifeless traditional religions and vital Christianity.

The speakers told about Baptist mission work there in the country, about 400 miles long and 10 miles wide. Many languages are spoken there, English and Spanish, which is required in school and they are required to send their children until the age of 15, although one half of the people still cannot read nor write. Catholic is the dominating religion.

Those reviewing the book brought the people to life in their very vivid descriptions of the county, people, and their life there, etc.

Mickey Chamness of Denver City spent the weekend with his parents, Mr. and Mrs. Wesley Chamness.

AUSTIN — Texans who failed to pay their poll tax have another chance to register for a vote in the 1966 elections. This time it's "for free!"

Registration period extends from March 3 through March 17. Any citizen eligible to vote can sign up with his county tax assessor-collector and his name will be placed on the poll list at no charge.

So reads the "emergency" provision in the new voter registration act just passed by the Legislature and signed into law by Gov. John Connally.

Hereafter, free registration will take place from October through January each year.

There is one possible hitch: Atty. Gen. Waggoner Carr fears that names of those who sign up during March won't be available for local election already slated on bond issues, local option liquor questions, etc. He asked the three federal judges who banned the poll tax to put off their order until March 26.

Estimates of the number of

Texans who will take advantage of the free right to vote vary widely -- from 50,000 to 1,000,000. Any figure approaching the latter could make a substantial difference in the outcome of many local and some statewide elections. Indications are that the number of new voters will be nowhere near that high, however.

All who paid poll taxes by Jan. 31 will be entitled to vote as usual, without re-registering.

PECOS SULPHUR BOOM — Land Commissioner Jerry Sadler compares reaction to the recent Pecos County sulphur discovery with California's Gold Rush days of 1849.

He said "operators are moving in both day and night attempting to locate and file claims on state-owned land . . . to mine sulphur."

Sadler declined to accept 50 cents an acre per year for sulphur lease, he stated, leading sulphur operators paid up to \$2,000 an acre bonus for five-year leases in a recent federal sale off the coast of Texas.

State School Land Board re-

jected a rash of filings under an 1895 claim law. Board set a sulphur lease sale, along with oil and gas bidding, for May 3.

APPOINTMENTS ANNOUNCED — Governor Connally appointed Hill County Attorney Steve Latham of Hillsboro to succeed Sam Johnson, resigned, as judge of the 66th District Court of Hill County. Latham formerly practiced law in Wichita Falls.

Governor chose former District Attorney Dan Walton of Houston as judge of Harris County's Criminal District Court No. 4 succeeding the late Judge A. H. Krichamoor.

Connally's appointees to the new Texas Air Control Board are Clinton Howard of Irving, Henry J. LeBlanc Sr. of Port Arthur, Herbert Whitney of Corpus Christi and Dr. Wendell Hamrick, John Files and Dr. Herbert McKee, all of Houston.

Bob Cheatman of Texarkana and Clifford Hensley of El Campo were named by the Governor to the Texas Real Estate Commission.

WATER DEBATE RE-HEARD — Supreme Court of Texas has taken under advisement a long-standing dispute between city of San Antonio and cities in the Guadalupe River basin.

San Antonio is appealing a 1957 Texas Water Commission decision denying the Alamo City's application for 100,000 acre feet of water a year from Canyon Dam near New Braunfels and awarded 50,000 acre feet from the reservoir to Guadalupe-Blanco River authority for municipal use downstream.

Attorneys for San Antonio claimed the city must import 138,000 acre feet for its needs by 1980. Meanwhile, Guadalupe basin will have a surplus over necessities of 180,000 acre feet.

GBRA attorney denied any surplus is in sight. He said some cities, including Seguin and Port Lavaca, already have suffered from serious shortages.

Major legal point involved is whether the Commission can delegate the GBRA rights to release water to unspecified municipal users, while denying San Antonio's application to pipeline water from another basin for high priority city and domestic needs.
