Men, Money Rushed To Louisiana Disaster Area

By BILL CRIDER

NEW ORLEANS, La. (AP) — President Johnson pumped men, money and materials into hurricane-torn Louisiana today as the New Orleans coroner slashed his estimate of the probable death toll.

The White House dispatched $2 million as a token start toward helping rejuvenate the tragedy-stricken state, where 52 were known dead.

Plans were afoot to convert Louisiana's antipoverty program into a war on Hurricane Betsy. A million dollars was earmarked to put the Youth Corps to work cleaning up the debris.

Sixty freight carloads of surplus foods were sent by the Department of Agriculture.

The flood tides and fierce winds of Hurricane Betsy inflicted the greatest destruction on Louisiana in the state's storm-scared history.

Coroner Nicholas Chetta, confessing "an embarrassing situation," told newsmen late Monday night that he had been misled by poor communications into preparing for several hundred dead from downriver Plaquemines Parish.

Chetta said he finally reached the isolated parish by telephone at 10 p.m. and only then could Plaquemines authorities tell him the true story: only 20 — not 200 to 250 — bodies would be sent to New Orleans today for the coroner's care.

Chetta said he did not know how the rumors started about 200 to 250 deaths. "This was probably promulgated by an unofficial official," the official said. Chetta said the information was relayed to him by amateur radio operators.

"This is a good embarrassing situation," he said, but added "I'm very happy" the earlier high estimates did not materialize.

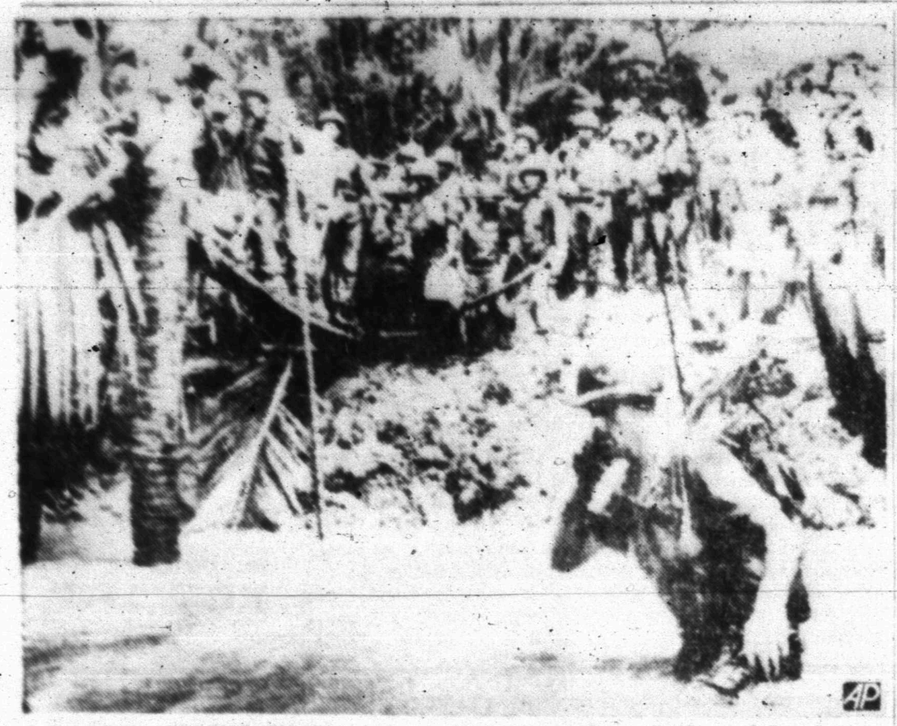

Ships, planes and divers searched a stretch of the Mississippi River at Baton Rouge, 85 miles upstream, for a sunken barge loaded with deadly chlorine.

The barge, with four tanks of the poisonous liquid welded to its hull, disappeared with scores of others when Betsy swept past Louisiana's capital city.

The cash damage toll from the destructive storm remains a matter of guesswork. Estimates range upward to a billion dollars.

S. B. Turman, head of Lykes Bros. Steamship Co., said shipping damage alone may give Betsy the dubious distinction of being classed as the worst maritime disaster in peacetime history.

The Red Cross raised its damage total to 1,029 homes destroyed, 26,352 with major damage, 133,115 with minor damage, 630 trailer homes destroyed, 1,147 heavy damage, 2050 small businesses destroyed or heavily damaged, 1,147 pleasure and commercial boats destroyed or damaged.

Thousands Due Call In Viet Nam Buildup

By FRED S. HOFFMAN

WASHINGTON (AP) — Thousands more Army infantrymen are expected to be shipped to South Viet Nam in a continuing build-up beyond the 125,000-man troop level announced by President Johnson.

Defense sources indicated that the remainder of the 1st Infantry Division is likely to follow one of its brigades already in Viet Nam.

Dimensions of the additional build-up in Viet Nam are unclear. Final presidential decisions may still be pending.

However, knowledgeable sources said they look for a substantial increase in U. S. troop strength in Viet Nam.

An estimated 11,000 members of the 1st Infantry Division still are at Ft. Riley, Kan. There have been a number of indications they may be getting ready to move out.

Among other things, it is reported the Army will train a new division, probably an infantry outfit, at Ft. Riley. That post can accommodate only one division-size force at a time, sources said.

In addition to more infantrymen, it was indicated the Army probably will send combat support and logistics elements to Viet Nam. These, too, likely would be numbered in the thousands.

The bulk of new troop movements to Viet Nam probably will involve Army forces, sources said. The movements probably will be spread out over weeks and even months.

Secretary of State Dean Rusk pried up the lid on the build-up situation Monday when he told newsmen on Capitol Hill the prospective troop level in Viet Nam has been raised above 125,000.

Arrival of the Army's 1st Cavalry Division, a helicopter-borne airmobile outfit, is under way. When completed, it will bring U. S. troops strength in Viet Nam close to the 125,000 mark.

Evacuation Set For Americans

WASHINGTON (AP) — The U.S. Air Force will airlift some 1,100 to 1,300 Americans, mainly women and children, from West and East Pakistan today, State Department officials said.

The airlift will start at 8 p.m. EST from the Lahore area of West Pakistan.

Lahore is about 10 miles from the Kashmir war front and within earshot of artillery fire.

At least six C130 transports will fly in from Tehran, Iran.

A few hours later about eight C130 transports from Bangkok, Thailand, and Clark Air Force Base near Manila in the Philippines will begin the evacuation of 500 to 600 Americans from the Dacca region of East Pakistan. These Americans will be flown to Manila.

U.S. authorities said that most of the evacuees would be women and children who are the dependents of U.S. government officials and workers in Pakistan.

There will also be some American officials who are classified as nonessential because the fighting with India has made it impossible for them to carry out their jobs. Most of these are employes of the agency for International Development, officials said.

U.S. Ambassador Walter C. McConaughy had sought for one week to obtain the approval of the Pakistan government for American planes to land and remove the Americans from the danger zones.

A U.S. Embassy spokesman in Tehran said Pakistan's delay in giving permission was a measure "to avoid panic, and because of the lack of spare jet fighters to escort the U. S. Air Force planes."

India Claims Victory; Talks Peace

By CONRAD FINK

NEW DELHI, India (AP)—India declared today it had won its military objectives in two sectors of West Pakistan. Authoritative sources said Prime Minister Lal Bahadur Shastri was seriously considering a cessation of hostilities.

There was no assurance that Shastri and U.N. Secretary-General U Thant, now in New Delhi, would be able to agree on a formula for halting the war, however. Nor was there any indication Pakistan was ready to talk peace.

Thant was reliably reported to have told U.N. workers in New Delhi that despite their differences, India and Pakistan in recent days have shown an interest in stopping the bloodshed that began Sept. 6.

Thant, who has visited Pakistan, appears to have won strong backing from the big powers, especially the Soviet Union and the United States. Soviet Communist party leader Leonid Brezhnev today called again for an end to the fighting. The United States is reported ready to cut off economic aid to the subcontinent until the fighting ceases.

C-C Panel Plans Huge Trade Event

Plans for perhaps the biggest trade promotion ever held here were discussed this morning at a meeting of the Snyder Chamber of Commerce Retail Merchants Committee.

Date for the event has been set for Oct. 16, and efforts will be made to involve all local business establishments in the promotion.

Although details still are in the planning stage, the feature events will include a big merchandising event (probably a "sidewalk sale") and a new automobile show which will find all local car dealers exhibiting 1966 models on the square.

Jay Rogers, chairman of the committee, outlined the general plans for the event, and several committee members made suggestions for detailed arrangements.

Rogers said the committee probably would have at least four more meetings to finalize details between now and the Oct. 16 date. Les Francis and John Thomas, representing automobile dealers at this morning's session, reported that the dealers already had started work on plans for the automobile show and they are anxious to coordinate it with activities planned by retail merchants.

Rogers reported that the merchants committee hopes to pay off the final obligation for Christmas decorations this year and then move to include repairs, replacements or additions in the regular Chamber of Commerce budget henceforth.

Increase Due In Crude Oil Sales

AUSTIN (AP)—Purchasers of Texas crude oil have advised the Railroad Commission of plans to buy 2,518,980 barrels daily next month, an increase of 28,429 over September.

The Bureau of Mines forecasts an October demand of 2,745,000, an increase of 50,000.

Parley On Coliseum Is Postponed

A conference with architects on the proposed coliseum project was postponed Monday by Scurry County Commissioners.

The postponement was announced after the architects informed the commissioners court that it would be a few more days before additional studies of the project could be completed. The additional studies were scheduled after bids opened Sept. 2 ran approximately $300,000 higher than had been anticipated.

The firm of architects, Barnes, Landes, Goodman and Youngblood of Austin, told county commissioners yesterday that they planned to have another conference Wednesday with H. A. Padgett of Lubbock, who had the apparent low bid on general construction for the project. The architects hope to shave enough costs from the project to bring the total figure within the bond issue authorized for construction of the coliseum.

Chlorine Still Poses Death Threat

BATON ROUE, La. (AP) — Military divers expanded their probe of the silt-laden Mississippi River today in the search for a deadly cargo of chlorine.

The silt was so thick that the divers had to feel their way along the botton for a barge apparently sunk by Hurricane Betsy last Thursday.

Tricky currents hindered the divers.

The Navy sent planes equipped with sensitive detection devices swooping over the river.

At the same time a sonar-equipped destroyer steamed into mine sweeping patterns.

The chlorine was contained in liquid form under pressure in the big steel barge. Chlorine — potentially a deadly killer — is a valuable industrial chemical used in making such materials as plastics and dyes. The chemical converts into a lethal gas when released from pressure.

The hunt is concentrated on an eight-mile stretch of the mud-filled river just south of the new Mississippi River bridge near downtown Baton Rouge.

One diver "came up with a fistful of corn — but no chlorine."

The potentially lethal chlorine is sealed in four huge tanks welded to the steel barge. The President and Secretary of Defense Robert S. McNamara ordered the full resources of the federal government thrown into the search.

White House sources said that the 600 tons of chlorine in four separate tanks aboard the missing barge could kill up to 60,000 persons.

POSITIONS REVERSED—A remark at the opening of their press conference brings laughs from Astronauts L. Gordon Cooper, left, and Charles Conrad. Cooper told the group present that during the long training period and the eight-day orbital flight of the Gemini 5, his and Conrad's seating positions were opposite of those at the conference, and it might be difficult for them to adjust to the new seating arrangement. (AP Wirephoto)

Johnson Greets Gemini Heroes

WASHINGTON (AP) — With four boys clowning in the background, President Johnson welcomed to the capital today record-setting astronauts L. Gordon Cooper Jr. and Charles Conrad Jr.

Conrad's four boys, ranging in age from 4 to 10, grinned and fidgeted behind the presidential desk as Johnson presented the astronauts with the Exceptional Service Medal of the National Aeronautics and Space Administration. The astronauts were honored for their eight - day Gemini 5 flight last month that set a record for manned orbits in space.

The medal presentation in the presidential office was the briefest yet for returned space heroes.

There was a third Exceptional Service Medal winner, Dr. Charles Berry, director of space medicine at the Manned Space Flight Center in Houston, was honored for contributions to space medicine.

Cooper and Conrad were cited for "outstanding contributions to the technology of manned space flights."

In a sense, the Conrad boys stole the show. Three of them perched behind Johnson's desk, one sitting in the presidential chair. The fourth stood nearby watching a White House stenotypist record what was said at the ceremony.

The presidential call was to be followed by lunch with the Space Sciences Board of the National Aeronautics and Space Administration, a motorcade to the Capitol and a welcoming reception at the House of Representatives.

During the day Cooper and Conrad also hope to find out more about their 12-day, six-country goodwill tour that begins Wednesday with a trip to the congress of the International Astronautical Federation at Athens, Greece.

Other steps will be at Izmir and Ankara, Turkey; Addis Ababa, Ethiopia; Tananarive, Malagasy Republic; Nairobi, Kenya, and Lagos and Kano, Nigeria.

No itineraries have been announced for the hastily arranged tour. A NASA official said most of the details have been left to the American officials in each country.

Because of the desire to stress the peaceful aspects of space exploration, the astronauts will travel in civilian clothes although Cooper is an Air Force lieutenant colonel and Conrad is a Navy commander.

The astronauts' wives and the Cooper daughters, Camala, 14, and Janita, 13, will make the trip, but the Conrads' four sons will remain in Houston with relatives.

Peace Plea Tops Pope's UN Agenda

By BENNET M. BOLTON

VATICAN CITY (AP)—Pope Paul VI today opened the Vatican Ecumenical Council's final session, telling the Roman Catholic bishops he is going to the United Nations in New York to plead for peace "which in these days is being wounded and is bleeding."

The pontiff spoke at a ceremony in St. Peter's Basilica before nearly 2,500 of his bishops gathered from around the world for the fourth and concluding council session.

"May peace among men triumph — that peace, which in these days is being wounded and is bleeding between peoples so sorely in need of peace," said the Pope.

He said he was going before the U.N. General Assembly on Oct. 4 "to bring with respectful homage to the representatives of the nations assembled there a message of peace."

Registration Set Tonight

Registration for adult education classes has been set for 6:30 p.m. today in Room 124 at Snyder High School.

The regular class schedule will be 7 to 9 p.m. on Mondays and Thursdays, it was announced this morning. Earlier it had been planned to have the classes on Tuesdays and Thursdays, but it was found that fewer conflicts would result with sessions on Monday evenings instead of Tuesday.

Also it was announced that arts and crafts classes would be available. If there is sufficient interest classes will be organized in audio-lingual, Spanish, woodworking and metal shop, typewriting, bookkeeping or shorthand.

Cost of tuition will be $20 per person for a class of 11 or more students.

2 Factors Cited As Cause Of Major School Problems

Two major factors contribute most to confusion in public schools today, and local boards must take steps to cope with them if they are to retain their place in public education, local teachers and businessmen were told last night.

Dr. Daniel R. Davies, vice president of the Consulting Division for Research and Development of Croft Educational Services, was the speaker at the annual businessmen - teacher banquet sponsored by the Snyder Chamber of Commerce. The banquet meal was served in the Snyder High School Cafeteria and the program was presented in the SHS auditorium. Some 600 persons attended.

Dr. Davies, who is serving as consultant to the Snyder Board of Education on school board policies and administrative regulations, said the amazing increase in knowledge and rapid growth of enrollment in schools reminded that knowledge has increased at such a rapid rate educated student.

and school curricula have undergone such vast changes that it is impossible for governing boards of laymen to keep abreast of the various courses now required for a complete education.

At the same time, vast size has pushed many schools into an era of impersonality, Dr. Davies said, which has led to unrest. He cited the fact that publicized disagreements between teachers, administrations and boards usually are found in metropolitan areas where teachers have little opportunity to become acquainted with each other and practically no opportunity to become acquainted with school administrators.

He suggested that these problems can best be attacked by clearly defining responsibilities with boards setting goals and establishing policies, and then relying upon professional staffs to move toward the objectives set by the board. Ultimately, the results will be checked by the product — the educated student.

Dr. Davies appealed to teachers to maintain the highest professional standards, and at the close of his presentation asked local teachers to endorse "A Teacher's Dedication," which he described as a professional pledge similar to the Hippocratic oath subscribed to by the medical profession.

Banquet entertainment was presented by the Snyder High School Madrigal Singers, under direction of Jim Casey and accompanied by Jane Womack.

Bob Crowell was master of ceremonies, and guests were welcomed by Bill Seale, President of the Snyder Chamber of Commerce. Dr. Robert Clinton, superintendent of schools, responded to the welcome, and Harold Bennett, president of the school board, introduced Dr. Davies. The invocation was given by Don Browning, minister of the East Side Church of Christ, and the benediction by Jim Robinson, who accompanied his parents to Washington, will remain be- the pastor of Colonial Hill Baptist Church.

Dear Abby...

By ABIGAIL VAN BUREN

DEAR ABBY: Do you think it's unreasonable for a wife to ask her husband please to phone her if he knows he is going to be late for supper? My husband is sometimes anywhere from one to three hours late and I worry myself sick. He forbids me to call his office because he doesn't want to look like a "little boy" who has to report in. I realize that in his line of work he is asked to stay longer to work after the office closes, but he has telephones all around him and it would take only a minute to call me and relieve my mind. Will you please comment on this, Abby?

TIRED OF WAITING

DEAR TIRED: When one knows one will be late, untold hours of anxiety could be spared by a telephone call. I once heard of a young man who, after cooling his heels for over an hour in an outer office, was finally invited into the Big Boss' office for that final job interview. Halfway through the interview the young man asked, "May I please use your telephone, Sir, to let my wife know I'll be late?" The Big Boss replied, "Go ahead — the interview is over. Report to work on Monday. A man who is THAT considerate of his wife can't be a poor risk."

• • •

DEAR ABBY: Last night we had two couples in for dinner. One man brought a transistor radio, tuned to the baseball game. When I announced dinner, he brought the radio to the dinner table with him, and it blasted away all during dinner. After dinner we played cards, and he kept that thing alongside him, still going strong the entire time. Is this to be condoned, even in this age of casual manners? He reads you. Please give your opinion. Thank you.

HURT HOSTESS

DEAR HURT: Strikes and balls don't mix very well with spades and hearts. Your guest was off base and should have been thrown out during the first inning.

• • •

DEAR ABBY: I am 22 and plan to be married next spring. I live with my brother, who is 21, as our parents are dead. I have always dreamed of having a lovely church wedding and have already started to make plans. Recently a lady suggested that it would be too presumptuous of me to have a church wedding. She said that since I have no parents, John and I should just go away and be married quietly and alone. I was so hurt by this advice. If I finance it and my brother gives me away, and some relatives "stand up" for me, couldn't I have a nice church wedding, too?

SPRING BRIDE

DEAR BRIDE: The "lady" who gave you that advice is sadly uninformed. There is nothing "presumptious" about your having a church wedding. Proceed with your plans, and may everything good be yours.

• • •

CONFIDENTIAL TO WORRIED HUSBAND IN BEAUMONT: Apparently your wife has been bending her elbows in the wrong joints. Drive her to work in the morning and keep the car.

Gin Figures Reported

MERCEDES, Tex. (AP)—The Lower Rio Grande Valley harvested 4,581 bales of cotton last week. The Valley Farm Bureau reported Monday that the area has handled 391,616 bales this year, an increase of 51,000 over 1964 and 113,000 bales more than in 1963.

New Trial Of Case Ordered

Sheriff's deputies this morning began rounding up prospective jurors for a new trial of the Patricio Martinez case.

The case, originally tried Monday, ended in a "hung jury," and Judge Sterling Williams, presiding judge of 132nd District Court, ordered a new trial. Thirty-two veniremen were summoned this morning, from which a jury of 12 will be selected to hear the new trial.

Martinez was charged with burglary of a private residence from which he allegedly took a television set and sewing machine. He pleaded innocent to the charge.

Also this morning George Wayne Webster was handed a two-year probated term after he pleaded guilty to a charge of theft over $50.

In County Court Monday, bond of $500 was set on Luther Tucker after he entered a plea of innocent to a charge of possession of alcoholic beverages.

Lincoln P-TA Slate

The Lincoln School P-TA will hold regular meetings on the second Tuesday of each month this school year, it has been announced by Ernest Brandon, president, and Daniel L. Johnson, principal.

Graham Makes 2nd Trip To Surgery

ROCHESTER, Minn. (AP)—Evangelist Billy Graham was resting in satisfactory condition today after a second trip to surgery.

Dr. Graham, 46, underwent surgery last Thursday for a prostate gland condition. He was taken back to surgery Monday for cauterization of what a Mayo Clinic spokesman said was "a tiny blood vessel."

The spokesman said bleeding occurs in about one in a hundred such cases and is not considered serious.

It was expected Graham would be released from the hospital late this week.

Boy Will Shave; Return To Classes

CLEVELAND, Ohio (AP) — Samuel Bell says he is ending his rebellion against a ban on beards and is going back to school with a bare chin.

Bell, 15, was suspended last week from Cleveland Heights High for refusing to shave off a small growth of hair he had been cultivating on his chin for more than two months. He said he would shave the beard today and return after a three-day absence from classes.

Lincoln Grads In College

A 1963 graduate of Lincoln High School has had his scholarship renewed, another Lincoln graduate has received a new scholarship and five of six of the last graduating class of Lincoln High School will be attending college this fall.

Mabel R. McLaughlin, who graduated in 1963, has had his Ford Foundation scholarship at Bishop College renewed in the amount of $700. McLaughlin is a sophomore at Bishop, and had a grade point average of 3.6 in his freshman year.

Jessie Faye Crayton, a 1960 graduate of Lincoln has entered Jarvis Christian College on a $979 NDS scholarship.

Of the six 1965 graduates of Lincoln, L. J. Brooks and Pearlie Joe Scott are enrolled at Jarvis, Mary Helen Goosby and Woodruff L. Powell are enrolled at Bishop and Emma Lonine Garrett is enrolled at Lubbock Christian College. Billy Norris the other 1965 graduate is scheduled to enter military service late this month.

Library Hours At Lincoln School Set

Scurry County's Branch Library at the Lincoln School is now open three evenings each week for adults as well as students.

The hours are 6 p.m. to 9 p.m. on Monday, Tuesday and Thursday each week. Mrs. Lois Powell is the librarian and her assistant is Lonnie Mae Dottison.

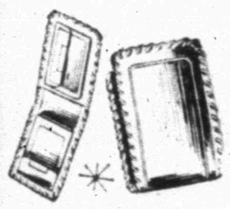

Weed Is Costly Foe

WASHINGTON (AP) — The weed is a $5 billion annual farm problem. An Agriculture Department survey places crop losses from weeds at an annual average of $2.5 billion. On top of these losses, farmers spend $2.6 billion annually on control measures.

Mr. and Mrs. Maurice Duncan, Terry and Susan, Mrs. Halley Browne, Joyce and Janice, Mr. and Mrs. Vernon Todd, Verna and Janice attended the football game at Gail Friday night between Borden High and Sterling City.

Mr. and Mrs. Ola Powell of Shannon, Tex., have been recent visitors of Mr. and Mrs. Don Powell, Mike, Bobby, Tanya and Steven.

Mr. and Mrs. Vernon Todd were in Lubbock Thursday to see their new grandson, Michel Keith, born Thursday to Mr. and Mrs. Donnie Dove. The paternal grandparents are Mr. and Mrs. Jimmie Dove of Ira.

Mr. and Mrs. Doug Powell, Duaine, Jay Don and Sharlena of Wichita Falls visited Monday and Tuesday with the Don Powells.

Palette Club Makes Donation

The first meeting of the 1965-66 Palette Club was held Thursday afternoon at 2:30 at the Martha Ann Woman's Club. Mrs. Delbert Hirst was hostess.

The president called the meeting to order and talked on the new programs to be presented this session. After roll call and reading of the minutes an open business discussion was held. The club voted to donate $10 to the Scurry County Association Retarded Children's Cottage, and to hang paintings for them to enjoy, which will be changed about every six weeks.

Offices for the coming year are: Mrs. Gordon Dysart, president; Mrs. James McCaleb, vice president; Mrs. R. B. Sears, secretary; Miss Joy McGlaun, treasurer; Mrs. Glenn Huffman, reporter; and Mrs. Jim Boothe, parliamentarian.

Refreshments were served to 13 members.

WOMEN'S CALENDAR

TUESDAY

Central Elementary P-TA will hold an open house at 7 p.m.

Toperettes meet at Stanfield cafeteria.

Scurry County Registered Nurses Club, 7:30 p.m. in hospital dining room. Dr. John Hamblen will speak on "Dental Problems." Hostesses, Helen Nixon, Nell Spence, Ethel Wadleigh and Oma Lee Spears.

Family night at Country Club. Buffet at 7 p.m. with regular activities at 8:30 p.m.

Art Guild Starts New Club Year

The Art Guild Club met recently in the home of Mrs. Silas Devenport for the first meeting of the 1965-66 club year. The meeting was called to order by the new president, Mrs. R. H. Melton.

Other new officers for the club are: Mrs. C. C. Johnson, vice-president; Miss Ethel Mae Sturdivant, recording secretary; Mrs. Devenport, treasurer; and MdffMrs. Myron Roe, secretary.

After the business session, Mrs. Golda Thorpe and Mrs. Delia McPherson gave a program on Federation. It was a review of progress of programs and projects of Federated Clubs and their goals. The resolutions passed at the State Federation meeting this year were read and discussed.

Fifteen members attended the meeting.

Thomas Hoober of Lancaster, Pa., has been reelected captain of Dartmouth's swimming team. He's a junior.

Travis FHA Names Officers

A meeting was held Friday morning to elect officers of the F.H.A. of Travis Junior High School. They are: Iva Clayton, president; Bonnie McComb, vice president; Veronica Davis, secretary; Tanya Arnett, treasurer; Sharon West, reporter; Betty Jones, parliamentarian; Karen Jones, historian; Lou Cox, song leader; Alice Williams, degree chairman; Jacque Stewart, program chairman; and the group selected Gary Nunnery as their Romeo.

The chapter objection for the year will be "To help each family member recognize his abilities and strive for their full development". Each month the girls will work on a different project toward this goal.

Sandwiches and cold drinks were served.

Hood County Reunion Set

The Bar-B-Q Party house in McKenzie State Park, in the city of Lubbock, Texas, will be the meeting place of residents and former residents of Hood county, Texas.

All former residents now living in West Texas and Eastern New Mexico are expected to attend, Sunday, September 26, 1965. Those attending are asked to bring a lunch and spend the day reminiscing with old friends.

A short business meeting is to be held at 1 p.m. with election of officers scheduled.

The party house will be open by 9 a.m. for those driving from a distance and those not attending church. Lunch will be spread at noon.

NEW WAY TO A BEAUTIFUL BUSTLINE

Los Angeles—Are you a woman whose figure is on the good side but might look perfect if your bustline were improved? You'll be thrilled by the new easy way science has discovered for you to acquire this kind of figure perfection. If your bra size is less than 32 and larger than 36, A or B, then this new idea is not for you. If your bra size falls within this range, then you can realize a new, youthful, naturally rounded bust silhouette without special exercising or heavy, unnatural padding.

Young Secret is an all-new kind of weightless wonder bra constructed of science fibers. One startling innovation is the manner in which this bra, once put on, feels just like you. It actually moves as if it were you and looks perfectly natural in every possible way.

The bra itself is of a beautiful clipped nylon lace over a polyester fiberfill that will retain its natural shape for the life of the bra. The straps are comfortably stretchable and easily adjusted. The band is also stretchable for maximum freedom and comfort. This bra gives your figure everything that's possible with a bra.

"Young Secret" bras are the peak achievement of a California designer group. They are available in white and beige, sizes 32, 34, 36 A and B cup sizes and can be found in this area at

Grappling With Dollar Drain Is Frustrating Experience

BY ADREN COOPER

WASHINGTON (AP) — The U.S. balance of payments problem has been compared to a balloon — you mash it in one place and it pushes out somewhere else.

This description by Secretary of Commerce John T. Connor illustrates the frustration some government officials feel in grappling with the dollar drain.

Twice within a two-year period government officials conquered segments of the problem only to have trouble appear in another sector.

The United States has been running a deficit because government outlays for military operations overseas and foreign aid, and private expenditures abroad for imports, investments, loans and tourism are greater than the receipts from foreigners.

The problem stems, in part, from the great wealth and a high standard of living in this country. Our tourists have more to spend; our bankers have more to lend.

Sometimes actions to correct the payments imbalance run counter to national policy — overseas military operations, for instance — and they are usually ruled out.

Here is a sampling of some solutions which have been suggested:

How about shutting off foreign aid? This would keep several hundred million dollars at home but it would make only a dent in the payments deficit, which ran $3.1 billion last year.

Officials say that 80 per cent of foreign aid is in the form of U.S. goods and therefore does not represent a drain on the dollar. They say this figure will be increased to 90 per cent.

How about bringing some troops home from Europe? In the case of West Germany, where many of the U.S. forces are headquartered, there would be no saving since the government there has agreed to match dollars spent with purchases of military goods in this country.

However, moving troops out of some other countries — were it militarily feasible — would have an effect on the payments situation.

Some bankers and economists contend that raising U.S. interest rates would attract more capital to the United States. Administration officials argue that this would put a damper on domestic economic growth.

And Secretary of the Treasury Henry H. Fowler says it would not produce the desired result because Europeans would raise their rates still higher.

Early this year, a tax on foreign travel of $100 per trip was considered but finally rejected as an unpopular direct control.

Controls on direct business investment were rejected in favor of a voluntary program. The approximately $70 billion worth of U.S. investments abroad eventually will be a plus factor because some of the profits return to this country.

A voluntary program to curb bank loans was highly successful, but, again, there may be an adverse "feedback." Shutting off this flow of capital may hamper U.S. exports if foreigners do not have enough cash or credit for purchases.

Finally, there is the theory that eliminating the deficit will set up a bigger problem: a shortage of international money, and, consequently, a worldwide recession.

Fowler is trying to set up an international conference to discuss this potential hazard and perhaps to find a way to make the world less dependent on the dollar.

Soil Moist For Seeding

WASHINGTON (AP) — The Agriculture Department reported today that moisture conditions for the 1966 winter wheat crops, now being planted, are the best in several years for many Great Plains areas.

The agency said seeding of the crop is about a week ahead of last year in Texas.

Western Kansas and Oklahoma have the best moisture supplies in several years. In areas of these states planting has been delayed by rain.

Moisture was reported favorable also in Northern New Mexico and Eastern Colorado.

Fall seeding of the crop is beginning in Nebraska and South Dakota, but these states had below normal rainfall in August.

Premier Is Feted

PARIS (AP) — Polish Premier Jozef Cyrankiewicz was honored at a dinner Monday in the French Foreign Ministry.

His hosts were Premier Georges Pompidou and Foreign Minister Maurice Couve de Murville.

Offshore Rigs Heavily Damaged

NEW ORLEANS (AP)—Damage to offshore oil drilling equipment caused by Hurricane Betsy is estimated in the millions of dollars. Rigs were evacuated before the storm and no lives were lost.

One of the casualties was a Shell Oil producing platform designed to withstand what coastal residents call a "100-year storm"—a kind so bad it comes only once in a century. The platform, installed two weeks ago south of the mouth of the Mississippi River, buckled under 150-mile-an-hour winds.

Gulf Oil Corp. in Houston said two of its producing platforms were gone, along with a platform rig.

Zapata Offshore Co., working for Chevron Oil Co., had about given up hope for its $6 million drilling rig, the Maverick.

A Chevron official said Betsy was more costly than last year's Hilda, which caused $200 million damage, but it was impossible to give an accurate dollar estimate.

Humble Oil and Refining Co. officials said their buildings on Grand Isle took a severe battering and five of the firm's 12 offshore derricks were out.

Dixilyn Corp. executives reported loss of an oil production platform and heavy damage to two storage tanks in Eloi Bay; two oil supply stores were under water at Venice; Atlantic, Tidewater, Continental and Cities Service storage facilities at Grand Isle were wrecked along with Dixilyn's Grand Isle base.

In addition, oil slicks indicated about 12 pipeline breaks in the offshore fields, most of them connecting lines.

Lease tanks were scattered and several separators used to divide oil and gas were tilted on their sides.

Resigns GOP Post

SAN ANTONIO (AP) — Mrs. Glenda Hill is resigning as state Republican committeewoman. "I feel I must devote more time to my family and home," she said Monday.

Tiger Lil Makes Bond

MIAMI, Fla. (AP) — Lillian Reis, known in professional dancing circles as Tiger Lil, was free on $5,000 appeal bond today after being convicted on six counts involving narcotics violations.

Judge Jack Turner sentenced the former dancer Monday to two years on each charge, with the terms to run concurrently.

Miss Reis, 36, mother of two daughters, faces a nonjury trial Friday on charges of illegal possession of drugs.

She also is free on appeal bond for a Pennsylvania conviction involving the theft of about $400,000 from the home of coal baron John B. Rich. Rich said the loss was about $20,000, mostly in jewels, but police placed it at the higher figure.

Roll Call Is Main Business Of This Session Of House

By HARRY KELLY

WASHINGTON (AP) — The House completed one of the oddest sessions in its history early today after spinning its wheels through a record - smashing 22 roll calls without taking up a single bill.

It finally called it a day 12 hours and 31 minutes after its noon opening, making it the longest session since April 8, 1964.

What happened was that Republicans and some Southern Democrats tried to use the rule book to derail the Democratic express.

The result was a twisted parliamentary track, some steamy words and repeated cries of "Point of order, Mr. Chairman — a quorum isn't present."

With each roll call requiring about 25 minutes, much of Monday's sessions was devoted to the droning of names.

The previous record was 15 roll calls in one day in 1952.

Although not a single bill was passed, the big Democratic majority still delivered the freight, or at least some of it.

The House approved resolutions under the new 21-day rule to bypass the Rules Committee and bring up four bills later in the session.

The bills would raise the pay of federal employes, create a foundation on the arts and humanities, strengthen enforcement of the Equal Employment Opportunity Act and amend the Bank Holding Act.

When the witching hour came and went, however, the House decided to put aside three other similar resolutions and call it quits.

Heart of the coalition's objection was the way the resolutions had been brought to the floor in a block of seven.

It charged the procedure was an unfair slap at the Rules Committee, that it was an improper use of the 21-day rule — adopted to limit the Rules Committee's power to bottle up bills — and suggested it was mainly a fancy maneuver in the squabble over home rule for the nation's capital.

To drive home the objections, the coalition demanded that the journal of the previous meeting be read in full, rather than in the usual abbreviated form.

With most of the Republicans and Southerners making themselves scarce when points of no quorums were raised, the reading of the journal was interrupted so often it took more than six hours.

Girl Details Killing Of Four Men

FLAGSTAFF, Ariz. (AP) — Sixteen-year-old Dixie Radcliff says she followed her boy friend, an admitted killer of four, because "I loved him too much to leave him."

Miss Radcliff, daughter of an Amesville, Ohio, minister, said she couldn't bear to watch as the men were killed.

Authorities released Monday the girl's statement on how two New Hampshire men who befriended her and Donald Melvin Boggs were slain.

She said Robert Willis, 23, and Halvor Johnson, 28, both of Newport, N.H., gave them a lift in their car after she and Boggs abandoned a pickup in Oklahoma.

The girl, who was charged with murder Monday in the two deaths, disclosed the beating of a man in Ohio and the theft of two cars before the fatal beating of H. N. Flory, of San Antonio, Tex., which authorities say Boggs has admitted.

Flory's body was discovered in the San Marcos River in Texas. Officers said Boggs also had admitted the slaying in Utah of Warren Lenker, a Brigham Young University student from Elizabethville, Pa.

The Radcliff girl was remanded to Superior Court Monday after a hearing in juvenile court. Two murder charges were filed against her after the hearing.

Judge Laurance T. Wren ordered her to face the charges as an adult after conferring with county psychiatric social workers and studying Miss Radcliff's statement.

Boggs, of Londonderry, Ohio, was to have been arraigned Monday but Wren postponed it after appointing J. Thomas Brooks as Boggs' counsel.

The girl's father is the Rev. Pearl Radcliff.

Service Today For Mrs. E. B. Barrett

Mrs. E. B. Barrett, 76, former music teacher at Gail Canyon Community and other Scurry County communities, died Sunday at her home near Trenton.

Mrs. Ben Weathers, a niece, and Mr. Weathers were at Trenton to attend the funeral service today.

Mrs. Barrett's husband was a former representative from Fannin County and had been a teacher in Grayson, Borden and Scurry Counties.

Scholarship Awarded To Milton B. Diggs

Milton B. Diggs, son of Mr. and Mrs. E. P. Diggs, 301, Thirty-Sixth Street, has been awarded a music scholarship to Sul Ross College at Alpine for the coming year. Diggs is a 1964 graduate of Snyder High School, and has attended summer classes at Sul Ross with a 2.7 average for his summer work.

During his summer enrollment he had roles in two summer plays. Diggs' major is speech.

Linda Diggs, a sister of Milton Diggs, teaches elementary classes in Big Spring Public Schools. At age 20, she graduated from Hardin-Simmons in 1963.

Cardinal pitchers Curt Simmons and Ray Sadecki won four games each from the Phils last season.

POT ROAST ESPAÑADA

Among the items this recipe calls for are tomato juice, red wine (optional), bay leaf, oregano, green chile peppers—all of which complement the rich flavor of the meat. Bring a touch of Spanish cuisine to your table with Pot Roast Española!

Pot Roast Espanada

4 tablespoons fat; ½ cup flour; 1 teaspoon salt; ¼ teaspoon pepper; 3 - 5 lbs chuck roast; 1 medium onion, chopped; 1 clove garlic, minced; 1 cup tomato juice & 1 cup red wine or 2 cups tomato juice; 3 tablespoons vinegar; 1 bay leaf; 2 teaspoons oregano; 1 can green chile peppers

Heat fat in heavy skillet or Dutch oven. Rub roast with flour mixed with salt and pepper; brown evenly on all sides. Add chopped onion and brown lightly. Add remaining ingredients. Cover tightly, simmer gently 3 to 4 hours or until tender. Add more liquid during cooking if necessary and turn roast if it has a tendency to stick. Makes 2 servings per pound of roast.

Hobbs Panthers Have Speed, Experience For 4-B Race

HOBBS — Football fans of District 4-B are looking forward to the Oct. 22 clash between Ira and Hobbs, the top two rated teams in the District. Pre-season prognosticators said the winner of the game (to be played at Ira) will cop all the District marbles.

With the season a week old the forecast is beginning to look good. Hobbs opened its schedule Friday with a resounding 36-14 triumph over Lueders. Ira blasted Mertzon 30-0.

If the Panthers of Hobbs win the crown, it will be because of boys like Kenny and Jimmy Martinez, Jerry Hodges, Gary Nettleton and Tommy Lay. All of these boys were standouts on the track team. Hodges and Lay have been clocked in 10.2 in the 100 yard dash.

Panther Coach Bernard (Boxie) Weems admits his team has good speed. "That and depth are our strong points this year," he said.

"We've had more experience this season than at any time since I've been here," explained Weems, now in his third year at the Panther helm. The Hobbs mentor learned his football at Rotan, where he played under Snyder's Horrace Bostick. After graduation from McMurry College in Abilene, Boxie, as he likes to be called, coached three years at Spring Town before taking over at Hobbs.

Hobbs was Co-Champ along with McCaulley the first season Boxie coached the team, and last year the Panthers finished third with a 3-2 district and a 6-4 season mark.

With 11 returning lettermen, including four offensive starters, Hobbs has the know-how to improve on its record and challenge for the District championship. Kenny Martinez (HB), Hodges (E), Lay (HB) and Arnold Reyes (C) all were regulars in 1964. Joining these stalwarts on offense are two Martinez boys — George, 140-pound Junior quarterback, and Maurice, 143-pound Junior end.

Hodges, Lay, Nettleton, Kenny and Maurice Martinez and Richard Wright are defensive starters. Wright is a 155-pound Senior guard. Nettleton was second in the district in the 880 and Hodges is a better than average quartermiler.

About the only weakness is a lack of size. The team weight averages only about 138 pounds per man. Coach Weems said the Panthers employ a tight T and two types of spread formations.

Other returning lettermen are Windle Cave (148), Allan Faulkenberry (143), Jimmy Martinez (141), Turo Martinez, (135), and Randy Williams (141) Newcomers are Ross Aguilar, Maurice Clement, Ronnie Kincaid and Vollie Shipp. These four boys are Freshmen. They played on the Hobbs Junior High School team which was undefeated in eight contests.

They may be little, but they've got the know-how and the speed to use it.

HOBBS' PANTHERS are strong contenders for the District 4-B football championship this season. The team opened its season Friday night with a convincing 36-14 triumph at Lueders. This week the Blue and Gold travels to O'Brien. Members of the team are, from left to right, Front Row, Vollie Shipp, Jerry Hodges, Tommy Lay, Maurice Martinez, Arnoldo Reyes and Maurice Clement; Middle Row, Windle Cave, Turo Martinez, Ronnie Kincaid, Kenny Martinez, Ross Aguilar, and Jimmy Martinez; and, Back Row, Allan Faulkenbery, Randy Williams, Gary Nettleton, George Martinez, Richard Wright and coach Bernard (Boxie) Weems. (Staff Photo).

QB CLUB TO SEE FILMS

The Snyder Quarterback Club will meet at 7:30 p.m. today in the high school cafeteria to see game films of the Andrews - Snyder football game, according to an announcement by J. D. Hinton, club president. He also said club members will hear a scouting report on Stamford — the Tiger's foe Friday night.

In addition, a special film on Southwest Conference highlights, made by the Humble Company, will be shown to members.

Full Football Slate On Tap

A full slate of football games involving Snyder teams are on tap this week including the second outing for the Tigers. They go into action at 8 p.m. Friday in Stamford, seeking their first victory of the 1965 season.

Lamar's 8th grade team opens its home season Thursday in a 7 p.m. clash with Runnels of Big Spring. The 9th grade team of Lamar also meets Runnels — at 8 p.m. Thursday in Big Spring. Travis' 8th grade unit journeys to Sweetwater for a 6:30 p.m. contest Thursday. The only Saturday night affray involving local teams is a 7:30 affair between the Snyder and Big Spring B elevens there.

Area games find Wall at Ira, Hobbs at O'Brien, Wylie at Hermleigh and Gail at Forsan.

Other teams of District 3-AAA will seek to get on the victory path while Sweetwater, the only loop winner last week, faces a rough test at Abilene. Lamesa hosts tough Andrews, Brownfield entertains Hobbs, N. M., Levelland is at Canyon, Littlefield visits Plainview and Lake View is at Mason.

Tulsa Seeks AAA Berth

TULSA, Okla. (AP) — The St. Louis Cardinals gave their blessing Monday to efforts by Tulsa Oiler owner A. Ray Smith to seek a Triple A Pacific Coast League berth for his Double A Texas League club.

"As long as Mr. Smith is willing to go Triple A, we will go right along with him," declared Cardinal farm director Sheldon Bender, adding, "the Pacific Coast League wants him too."

The Cardinals reportedly would like to see Tulsa, which drew 215,000 during the season, in the PCL and recently acquired Little Rock in a Double A league, either the Texas or Southern.

But Smith may find changing leagues a little difficult. He must first get the Texas League to release the franchise and then get the PCL to accept it.

Texas League President Hugh Finerty and General Manager Elton Schiller of the Texas League's Albuquerque club have expressed opposition to losing Tulsa.

GRID TICKETS GO ON SALE

Tickets to the Snyder-Stamford football game scheduled for Friday night at Stamford arrived here this morning and have gone on sale at the School Administration building.

A total of 200 reserved seat tickets, plus a group of student tickets were sent here for advance sale. The reserved seat tickets sell for $1.25 each and student tickets are 50 cents each.

The tickets will remain on sale here until Friday noon.

SPORTS

SWC 11's Ready For Grid Openers

By The Associated Press

Southwest Conference teams generally will be in good shape for Saturday's opening games—even Texas, which has been having more than its share of injuries.

The Longhorns open the season for the league Friday night when they play Tulane at New Orleans. And prospects are that even the two injured halfbacks—Phil Harris and Jim Helms—who are favoring pulled muscles, will be ready.

Another thing Texas is positive about—there is nothing to reports that Hurricane Betsy damaged the Sugar Bowl so badly the game will be called off. The field was damaged, to be sure, but it's good enough to play on.

Coach Frank Broyles of Arkansas was worrying more about his defense than injured players as the Razorbacks prepped for Oklahoma State Saturday night. He said the defense "is not as ready as it should be for the first game."

Quarterback Jon Brittenum was back in pads Monday but tackle Jim Williams, who has a broken hand, may not be ready to go. Brittenum had a pulled groin muscle.

Just what Texas A&M is cooking up for Louisiana State at Baton Rouge Saturday night is known only to the Aggies. They practiced in secrecy Monday, with the field enclosed by canvas.

Baylor will have eight sophomores in starting roles Saturday at Auburn. The Bears have quite a few out with injuries but none recently and there have been no new ones this week.

Texas Tech drilled for its opener with Kansas at Lubbock Saturday night and Coach J. T. King saw to it that there were no injuries by banning contact work. Everybody came through Saturday night's scrimmage without serious trouble.

Southern Methodist greeted the return of quarterback Mac White after three days of idleness because of a charley horse. Defensive tackle Ronnye Medlin was the only Mustang with an injury but he'll be ready Saturday night against Miami.

Rice again had Mickey Holder running at quarterback. He had been out since the opening of practice with a sore shoulder. End Mike Wood, who has been treated for an ulcer, also is expected to return by the time of the game with Louisiana Tech Saturday night.

Texas Christian's first two teams were in top shape and the only loss to injuries was third string quarterback Larry Peel. Peel may be out for the season with a cartilage tear.

TCU opens the season Saturday at Lincoln against Nebraska, the team that's rated No. 1 in the nation.

Big Spring Rated No. 4

DALLAS (AP)—Texarkana for the first time is No. 1 in Texas schoolboy football.

The Tigers were rated at the top in the Dallas News poll because they made a miraculous comeback with 20 points in the fourth quarter to beat Galena Park 26-22.

The rankings by classes:

Class AAAA—Texarkana, Port Arthur, Spring Branch Memorial, Big Spring, San Angelo, Spring Branch, San Antonio MacArthur, Amarillo, Dallas Bryan Adams, Dallas Woodrow Wilson and Baytown (tied).

Class AAA—Pharr-San Juan-Alamo, Cypress-Fairbanks, Dumas, Brownwood, Nacogdoches, Austin Lanier, Deer Park, San Marcos, McKinney, Donna and Palestine (tied).

Class AA—Alpine, Port Acres, Winters, bellville, Gladewater, Dublin, Denver City, Seagoville, Plano, Jacksboro and Cameron (tied).

Class A—Three Rivers, Jefferson, Forney, East Chambers, Coahoma, Goldthwaite, Springlake, Wylie, Wills Point, Easter Bernard.

Sun Boils Starch Out Of British

By BOB GREEN
Associated Press Sports Writer

TULSA, Okla. (AP) — A blazing Oklahoma sun boiled the starch out of Briton's challenge in the U.S. Amateur Golf Championships and left the English bulldog a bit droopy and bedraggled today going into the final practice rounds.

Even the dogs had deserted the rolling, 6,917 yards of the Southern Hills Country Club when a wilting, once-favored band of Englishmen trudged through their last practice session in record 103-degree temperatures.

"If the weather stays like this, you can count us out," Joe Carr, captain of the British Walker Cup team, said Monday.

The 65th National Championships open on the par 35-36—71 layout Wednesday under a new format — medal instead of match play. Four rounds of 18 holes each are scheduled through Saturday, with a field of 150 cut to the low 60 and ties after Thursday's second round. Continued hot weather is forecast.

The British challenge appeared to be the strongest since the 1930s after their surprising tie with this country's best in the Walker Cup matches at Baltimore two weeks ago.

In fact, figuring that the winner almost certainly will come from the Walker Cuppers — either British or American — the English appeared to have a 50 per cent chance of taking it.

Not so, says Carr.

"Your chaps may be used to this heat. We're not."

Willie, Juan Boost Giants Into 2½ Lead

By MURRAY CHASS
Associated Press Sports Writer

500 plus 22 plus 11 equals 2½. And that's the largest lead any National League team has had in a month.

The San Francisco Giants continued opening up the once-hectic race Monday night, defeating Houston 5-1 behind Willie Mays and Juan Marichal and moving 2½ games in front of the idle Los Angeles Dodgers.

Mays clouted the 500th home run of his major league career while Marichal gained his 22nd victory of the season. Combined, they sparked the Giants to their 11th consecutive triumph, one less than the longest winning streak in the majors this year.

The home run for Mays, his 47th this season, came at the start of the fourth inning on a 3-1 pitch from Don Nottebart. It tied the game 1-1 and triggered a four-run rally that put San Francisco ahead to stay.

After Mays drove his homer into the center field stands — he hit the first in his career in 1951 against Warren Spahn in New York's Polo Grounds — his teammates mobbed him and congratulated him. Then they went out and secured the victory for Marichal.

It was the third in four decisions for the 26-year-old right-hander since he was suspended eight days for hitting catcher John Roseboro of Los Angeles on the head with a bat.

Marichal, who has lost 10 games, was booed by the Houston fans, but that didn't bother him as he scattered eight hits, tying Sandy Koufax as the winningest pitcher in the majors, completing his 24th game and reducing his stingy earned run average to 1.79.

In the only other NL games, pittsburgh dropped Cincinnati 3½ games behind by winning 8-4 and Philadelphia edged Milwaukee 4-3, sending the Braves five back.

Valentine Wins Gun Club Shoot

Tommy Valentine won the first place trophy in the Canyon Gun Club "Shooters Choice" Sunday with a score of 100 with nine bullseyes. He competed with a .222 Remington Magnum.

Gene Bowlin and Bill Emerson tied for second with scores of 100 with eight bullseyes. Bowlin was declared the second place winner after a group measurement was made. He also fired a .222 Remington Magnum as did Emerson.

The "crying towel" award went to Billy Don Martin, who shot an 87 with no bullseyes.

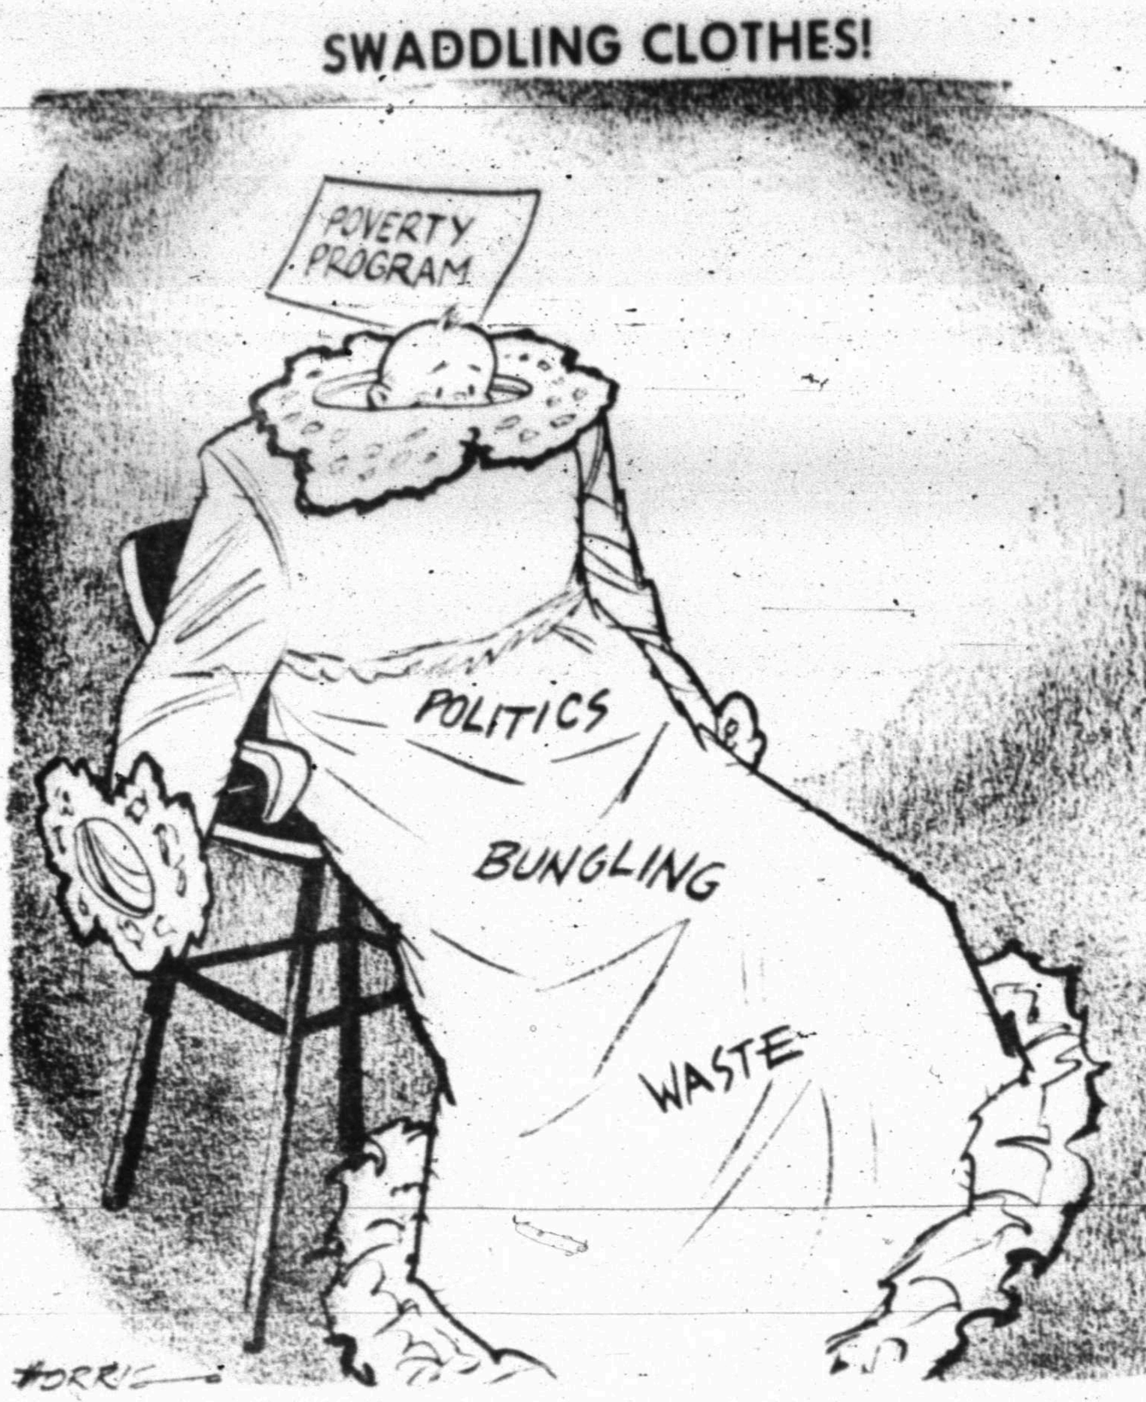

The next Canyon Gun Club shoot will be held at 1:30 p.m. Sunday, Sept. 26. It will be a Raymond Busby Trophy Trap Shoot with 25 birds at 16 yards. Awards will go to the top three shooters.

SWADDLING CLOTHES!

War Marks Spot Where People Were Denied Vote

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON (AP) — In two different places there was talk about letting the people vote on the kind of government they wanted. But that was long ago, and it never happened. And now there is war in the two places.

Maybe there would have been these wars anyway, for they had other roots, too, in deep antagonisms and ambitions. And it doesn't make much difference now that the two leaders who said no to the vote of the people are both dead.

Their successors, in India and Viet Nam, have the same attitude.

When the Communist-led Vietnamese crushed the French in 1954 an agreement was worked out at Geneva with Britain, France, the Soviet Union, Red China, North Viet Nam, Laos and Cambodia taking part.

The United States didn't sign. It was acting as an onlooker. The agreement divided Viet Nam into North and South, with the Communists getting the northern part. The South Vietnamese were left to set up their own provisional government.

But by 1956, according to the agreement which set down some other conditions also, all the people of the two Viet Nams were to be allowed to vote on the kind of single government they wanted for the whole country.

Meanwhile, in 1955 in South Viet Nam, a republic was created with Ngo Dinh Diem president. When the time came for that nationwide vote in 1956 he said no. His explanation was that he had not signed the Geneva agreement. The United States, which hadn't signed, either, backed him up.

It was hardly his only reason. The Reds might have won the election. The North Vietnamese outnumbered the South Vietnamese only by about 16 million to 15 million.

But the Reds had tight control over the North Vietnamese and a lot of sympathizers in South Viet Nam which, besides, was badly split into factions.

In 1958, about two years after the vote was to have taken place, the Red guerrillas slowly started their war against South Viet Nam. Eventually they took over most of the countryside.

By the time Diem was overthrown and killed in 1963 the United States was well on its way to getting up to its neck in the war, as it is now.

India's Prime Minister Nehru, who died last year, had a problem similar to President Diem's. India, while Britain held it, was made up mostly of Hindus and Moslems, with the Hindus far outnumbering the Moslems.

When India got independence in 1947, the minority Moslems didn't want to be totally dominated by Hindus. In the fuss that followed, a couple of chunks of India were broken off to become the independent state of Pakistan.

There's still a mixup. In the Moslem-run Pakistan, with a population of about 100 million, about 10 million are Hindus. In India, with 450 million people, about 50 million are Moslems.

But one of the loveliest places in the world, Kashmir, became one of the sorest. There, wedged in between India and Pakistan, with 77 per cent of the people Moslems in a population of 4 million, Kashmir was run by a Hindu maharajah who tried to stay aloof from both India and Pakistan.

But when Moslem tribesmen from Pakistan poured into Kashmir in 1947 and began looting and burning villages, he decided to join India which sent in troops to help him. Pakistan sent in troops to help its tribesmen.

The fighting lasted a year until the United Nations got a cease-fire. When the shooting stopped one-third of Kashmir was on Pakistan's side of the cease-fire line. The rest was on India's side.

The United Nations suggested that all the people of Kashmir be allowed to vote to decide whether they wanted to join India or Pakistan. Nehru agreed, provided Pakistan pull out its troops first. Pakistan wouldn't withdraw unless the Indians got out.

Then Nehru suggested partitioning Kashmir along the cease-fire line, a move which would let Pakistan have only one-third while India got two-thirds. Pakistan refused, and for an obvious reason:

Knowing that 77 per cent of the people of Kashmir were Moslems, and assuming they'd vote to join Moslem Pakistan if given the chance, Pakistan insisted they be allowed to vote.

Boyle Has New Theory About Cats

By HAL BOYLE

NEW YORK (AP) — There is a lot of nonsense abroad about cats.

For example, when you get a cat for the first time, all your friends who are cat lovers, warn you sagely, "Cats are a lot different from dogs. You can train a dog, but you can't train a cat."

This is ridiculous. Any domestic animal can be trained. The difference is only one of degree.

With dogs you simply decide what you want them to do, and then teach them to do it. With cats you work the other way. You find out what they want to do, and then don't bother trying to teach them anything else. The system is infallible.

As a result of applying this theory, I feel that the cat in our house, Lady Dottie, is perfectly trained.

At first I made the mistake of trying to train Lady Dottie as if she were a dog. For one thing I set out to teach her to stay out of the way.

What I failed to realize was that she didn't want to stay out of the way; the social needs of her nature required just the opposite — that she get in the way of people. It was her way of stressing her importance.

By capitalizing on this rudimentary discovery, I have successfully trained Lady Dottie so that she is now in the way at all times.

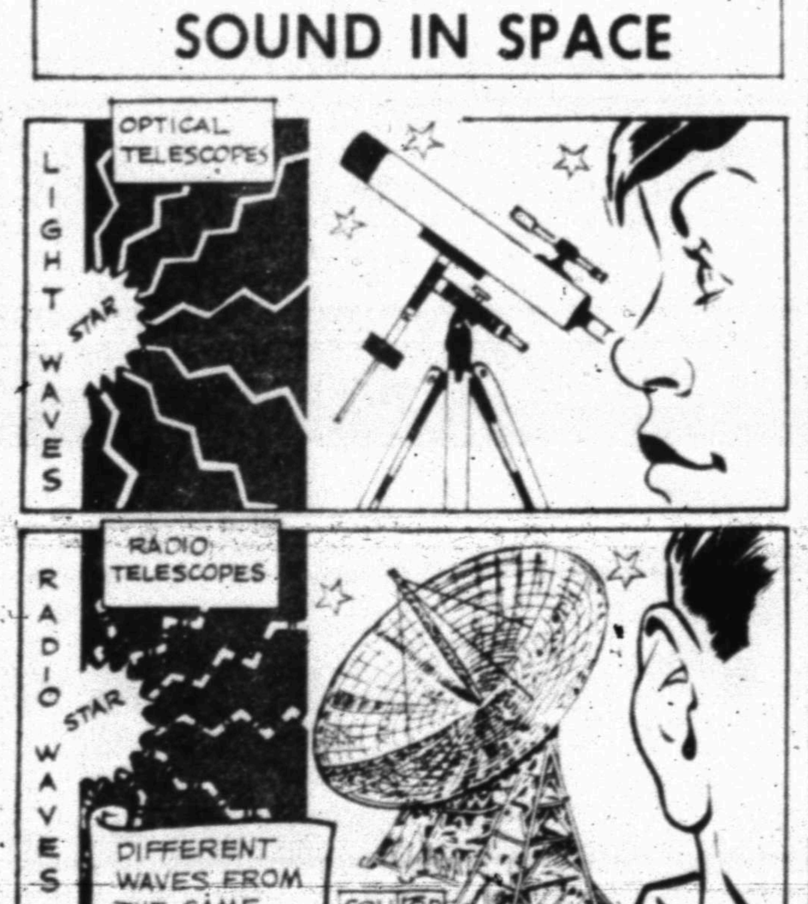

If I want to sit on the sofa, she is there. If I want to sit in the only decent easy chair that has a reading lamp by it, she is there. If I want to go to bed, she has beat me to it. If I want to go to the bathroom — well, why should I admit that I am the only man in our neighborhood who has to share his bathroom with a cat?

Friends who visit us sometimes say, "How ever do you put up with Lady Dottie? She's always in the way."

They just fail to realize what a thorough job of training I have done on her.

Cats, like children, show off only when they choose. But, also like children, cats can be trained to do anything they want to — if you only approach the problem with love and patience.

Junior Editors Quiz on SOUND IN SPACE

QUESTION: How do scientists hear stars and other things in space?

• • •

ANSWER: We usually think of telescopes as instruments we look through (symbolized by upper picture) so as to enable us to see such exciting things as the rings around the planet Saturn.

But in recent years another kind of telescope has been invented, called a radio telescope. It collects radio waves instead of the light rays gathered in by optical telescopes. Light waves and radio waves are similar, but they differ in their rate of pulsation, or frequency. The same star can give off both kinds, these waves being able to come to us from enormous distances away. But don't make the mistake of thinking that sound waves can travel through space. Sound waves only travel through some kind of matter, like the earth's atmosphere. When we speak of sounds coming from space we mean radio waves picked up by a radio telescope (bottom picture) which, using a large reflector, focuses them on an antenna in the center. The signal is then led into a receiver set. Here it can be converted to sounds in the same way a radio changes electric signals to sound. Radio astronomers do more than just listen, for the signals can be recorded on graphs or tape, from which many facts about outer space can be gathered.

• • •

FOR YOU TO DO: It will help you, in learning the difference between radio and other telescopes, to find out what "frequency" means. Look it up in a dictionary or encyclopedia. 9-14

(Ralph Taves Bollard of Beaver Dam, Wisconsin, wins today's combined prize of Compton's Illustrated Science Dictionary, plus $10 cash for this question. Mail yours on a postcard to Junior Editors ...)

US Studies Control Of Hurricanes

By BARRY SCHWEID

WASHINGTON (AP) — The federal government is moving in the wake of Hurricane Betsy to try to lessen the impact of future hurricanes.

If it is successful, the storms will be detected earlier, tracked more accurately — and, possibly, seeded into harmlessness.

But all this may be a long way off, a report presented Monday to President Johnson by Secretary of Commerce John T. Connor indicated.

The report, essentially an account of what the brand new Environmental Science Services Administration is doing or would like to do about the weather, made these major points:

1. The government must explore the possibilities of controlling the weather.

2. The Commerce Department is speeding plans for U.S. participation in a world "weather watch"—an international pooling of weather information.

3. A special federal survey group soon will recommend an improved system of warning the nation of weather hazards.

On this last point, the government's weathermen — like Air Force chiefs at the Pentagon — talk about "fail-safe facilities."

In essence, the problem is how to get warnings to the people when a power failure has knocked radio and television stations off the air.

Discussing the report with newsmen, J. Herbert Hollomon, assistant secretary of commerce for science and technology, spoke of arrangements for "back-up power for communications media," but neither he nor the report spelled this out.

Hollomon said the Hurricane Betsy warnings had saved hundreds of thousands of lives. Presumably more lives could be saved if the Weather Bureau could keep the warnings going into homes when the hurricane presses in and ravages power facilities.

Boy's Death Blamed On Bulldog

DALLAS (AP)—Police said a bulldog chained in a neighbor's fenced yard apparently killed 2-year-old Mark Dale.

Officers joining in a search for the missing youngster found the mauled body Monday four doors down the street from the home of his parents, Mr. and Mrs. Billy Dale.

Patrolman B. J. Perry said the dead child lay just beyond reach of the animal and "there was blood on the dog's collar and around its mouth." Marks in the dirt indicated a struggle, officers said.

Perry said the dog, a 3-year-old female, was one of two owned by Mr. and Mrs. Kenneth Parker and it showed no sign of agitation. It was taken to an animal shelter.

The Parkers asked that the dog be destroyed, Perry reported.

"They said it had played with their children frequently and had never even snarled at them," the patrolman said.

Cadet Killed In Air Crash

BREWTON, Ala. (AP) — A Marine cadet was killed and another student pilot parachuted to safety Monday after two T28 Navy trainer planes collided in the air and crashed 3 miles west of here.

One of the propeller-driven planes burned as it fell into a swampy, wooded area.

Marine cadet Jose Rodriguez, 23, son of Mr. and Mrs. F. H. Rodriguez of Laferia, Tex., was killed. He was a student pilot at Whiting Field, near Milton, Fla., an auxiliary of the Pensacola Naval Air Station.

Ens. Peter Locke, 24, of Los Altos, Calif., parachuted and was picked up by a helicopter.

The two planes were flying in formation when they collided.

LIGHTEST MEXICO

BY JOHN ABNEY

MEXICO CITY — A cheerful day to all the pessimists because today we have some pretty Abysmal news to brighten things up for you. I don't mean the Democratic convention or anything about that cartoon with half the donkey walking away from the other half.

What I refer to is the birth rate in Mexico. The nation's population is now running 5,015 new inhabitants off the production line every day. And when I looked it up in the Farmer's almanac, it said this meant 1,830,849 more people for Mexico this year.

Mind you, that is only this year. Last year the daily rate was a mere 4,812. Next year there will be a lot more grown-ups and the rate will increase.

And pretty soon — well, the whole country will be full of people.

The General Board of Statistics has been studying the situation but so far all they have come up with is a set of figures. I am terribly sorry to say I have contributed to this condition, although not lately. A couple of years ago I attended a psychiatrists convention here and discovered what causes it. And I almost fainted.

The Board of Statistics keeps books like a regular industry, and they can tell you what the birth rate was in 1902 and what it probably will be in 1980.

They can have 1902. Even in 1938 when I came down, things were not so overwhelming. It is 1980 that has me scared silly. Of course Mexico is a pretty big country and will bust after it reaches a certain point.

What this means to me is two things: (1) I am going to have to move around fast to keep seeing all the old, off-beat places before you drive into a mass of neon and hamburger emporiums and (2) people here are not concentrating on work and business transactions as they should.

Why a century from now you go for a walk in the country and there will be no country. Nothing but one endless city clear up to the snow line on the ex-volcanoes and every time you put your face in a restaurant or hotel door there will be a sign saying "No Vacancy."

What will a 148-year-old boy do in a case like that? The gorgeous stretches of quiet beaches (now) will look like Coney Island on Labor Day and even the coconut palms will be full of tree houses.

My colleague, Dr. Speedy Gonzalez, believes the government will be crowded clear off the mainland and have to operate on a group of rafts chained maybe a mile at sea.

And he says you will have situations like one fellow will shout at another, "Hey, get your car outta my bedroom." So the other fellow will say, "Where'll I put it? There were thirty eight children born in my garage last night and we already got twelve families living in our apartment."

Confidentially, I have my eye on that nice valley on the back side of the moon where Dick Tracy goes. The one where they have atmosphere, a sub-tropical climate, giant snails that are the National Moon Dish and a nice easy life like we have now in Mexico.

It ought to be the answer to a lot of problems. If we can just get the moon people to stay interested in work and not go fooling around with statistics.

CATCHING UP WITH TWIN—Mary Freeman, left, and her twin sister Nancy talk with a doctor in Dallas at the University of Texas Southwestern Medical School. Some 10 months ago, Mary underwent a kidney transplant from her sister. At the checkup Mary reported that she is fast gaining on her twin. She has added 30 pounds and grown five inches in height. The girls are the daughters of Mr. and Mrs. D. C. Freeman of Fort Worth. (AP Wirephoto)

Harvest Of Cotton Crop Speeds Up

AUSTIN (AP)—Texas' cotton harvest picked up momentum last week, reaching the 23 per cent mark, the U.S. Department of Agriculture reports.

The blackland cotton harvest hit 17 per cent as fields dried following showers.

Scattered showers over the state were light and of little benefit to ranges and crops, the department said in its weekly report.

Sorghum combining, becoming more active on the Low and High Plains, lags about two week behind last year.

Rice harvest was speeded to the capacity of driers by fears that Hurricane Betsy would strike the Texas coast.

The department said range and livestock conditions are generally good but supplemental feeding was necessary in several areas.

High Plains carrot harvest increased, and cantaloupe, cucumbers and tomatoes were available from the Bovina-Muleshoe area.

South Texas planting of cabbage, cauliflower, carrots, broccoli and lettuce continued.

Rio Grande Valley citrus fruit are sizing well, the report said.

Fischer. Quints Closely Guarded

By GEORGE MOSES

ABERDEEN, S.D. (AP) — A traveler driving into Aberdeen from the east sees a big billboard that reads:

Welcome to Aberdeen, home of—

Not until he gets near the billboard can he see the rest of it: "—Fischer 'quints'."

A lush field of corn blocks out this reference to Aberdeen's five most famous inhabitants, who reached their second birthday today.

The quint-eclipsing corn is an odd but apt symbol of the kind of adjustment this northeastern South Dakota city of 25,000 has made to the Fischers.

Aberdeen became a famous town the morning that James Andrew, Mary Margaret, Mary Magdalene, Mary Catherine and Mary Ann were born to Andrew J. Fischer, then a $76-a-week shipping clerk, and his wife, Mary Ann. St. Luke's, the red brick hospital that kept the youngsters alive in their first critical days, became the eye of a hurricane of scrambling newsmen.

There were those in Aberdeen, as there would be in any town, who saw fortune along with fame — an eager world beating a lucrative path to the quints' door.

But today, as the quints turn a healthy, happy and normal-as possible 2, there is no path and no door.

Further, today's birthday party will be a private one, behind the doors of the 17-room, $100,000 ranch home a mile southwest of Aberdeen which the quints made possible.

A year ago Aberdeen folks — most of whom have not to this day seen the quints — might have wished for a public whoop-up. Today Aberdeen is resigned to, adjusted to, or sympathetic to — depending on who is doing the talking — the wall of privacy behind which the Fischers have retreated.

Whatever there may have been of early dreams of easy tourists dollars, lured to Aberdeen by the quints, have vanished. If the quints have made even a small bulge in the Aberdeen economy, it is not apparent to the casual visitor.

The four girls and their brother have never been put on public display. Mrs. Fischer occasionally takes them along when she does an errand downtown, but it's a rare sight, and they stay in the car.

"I saw them once," bubbled a girl drug store clerk. "Mrs. Fischer was just pulling away from the curb, and I almost hit her. They were all in the car."

A tourist who wants to get as close as he can — and several do — can take a paved highway half a mile south of Aberdeen and turn west on a gravel road. The two-story, red and cream Fischer home is easy to spot because no South Dakota farmer would build one that big.

Rites Set For General Truscott

WASHINGTON (AP) — Full military honors will be accorded Texas-born Gen. Lucian Truscott Jr., a hero of World War II, in burial rites Wednesday at Arlington National Cemetery.

Truscott, 70, died Sunday. He was a native of Chatfield.

Truscott took part in the invasions of North Africa and Italy. He was known for his insistence that his officers stay with their troops at the front.

To Produce New Rubber

AKRON, Ohio (AP)—A new synthetic rubber will be produced at Goodyear Tire and Rubber Co.'s recently expanded Beaumont, Tex., plant.

Robert Workman, general manager of the Goodyear chemical division here, said the new polyisoprene rubber, called Natsyn 400, is light and uniform in color, has little odor, can be cured at uniform rate and costs less to produce than other types of polyisoprene.

All three types of Natsyn produced by Goodyear duplicate the molecular structure of natural rubber, Workman said, but there are differences in production.

Natsyn is used in footwear, athletic equipment, automotive parts, hose, rubber bands and other molded and extruded products.

Baby Boy Born To Mrs. Ringo Starr

LONDON (AP) — Mrs. Ringo Starr gave birth to a son Monday and her Beatle husband pronounced him "a little smasher."

Ringo and the former Maureen Cox, a hairdresser from the Beatles' hometown of Liverpool, were married in February. She was one of the Beatles' fans four years ago when she was 15.

Governors Plan Technique For Luring Tourist Dollar

SEA ISLAND, Ga. (AP) — High-priced and sometimes nebulous techniques for luring tourist dollars seem headed for a joint effort by Southern states who are already among the most successful at it.

Gov. John B. Connally of Texas, chairman of the 81st annual Southern Governors Conference, announced a resolution will be introduced Wednesday aiming at some form of joint campaign to boost the South in general rather than particular states.

Gov. Hulett C. Smith of West Virginia said such a joint campaign is far from new. He displayed a full-color magazine ad jointly boosting Arkansas, Louisiana and Mississippi as the "changing middle South."

"The question is not whether Southern states should advertise, promote and develop a tourist trade together," Smith said. "The question is really where do we start? How far do we go? And how do we finance the venture?"

The subject of the voting rights law — a red flag to some of the Southerners — bristled through a press conference by Gov. Paul B. Johnson of Miss. appd and Gov. Robert McNair of South Carolina.

McNair said South Carolina would file a legal attack on the law within a few weeks. He said it would be filed either in the District of Columbia court or directly before the U.S. Supreme Court as a state action.

Both governors called the law discriminatory and said it sets a double standard because it bans literacy as a voting test in their states plus a few others but does not challenge literacy tests in New York, for instance.

Krueger Is Granted Change Of Venue

KINGSVILLE, Tex. (AP)—Dist. Judge J. D. Todd granted a change of venue from Kingsville to Brenham Monday for the murder trial of Paul Eric Krueger. No trial date has been set.

Krueger, 17, of San Clemente, Calif., is free on bond. He and a companion, Phillip Angles of Hollywood, Calif., were charged in the shooting deaths of three Corpus Christi fishermen near Kingsville April 13.

Angeles has been committed to the state school for boys at Gatesville.

Marijuana Grows At Police Headquarters

BALTIMORE (AP) — Marijuana is growing in a window sill flower pot at Baltimore police headquarters.

It's legitimate. Raising marijuana plants is a hobby of Capt. Joseph F. Carroll, head of the police narcotics bureau.

If You Did Not Finish High School, Why Continue Under This Costly Handicap?

What? You didn't finish

HIGH SCHOOL?

Established 1897 — Our 68th Year

IF YOU ARE 17 OR OVER (or married) and did not finish H.S., you can study at home in your spare time and actually earn an American School High School Diploma which can be validated by The State Dept. of Education. Credit will be allowed for subjects completed in resident school. THE ELECTIVES include Shorthand, Typing, Bookkeeping, Medical Secretary, Home Management, etc. Also included in the ELECTIVES are: Automotive, Diesel, Electrical, Radio, Electronics, Building, Drawing, Metal Working, Arts & Crafts. You can prepare for job security, a better job and College entrance examinations. Our graduates have entered over 500 colleges and universities. Low monthly payments include new books and instructions. Why waste another year? Mail coupon below, today, for free booklet that tells how. Remember, better jobs go to H.S. Graduates. DON'T WASTE ANOTHER DAY! Progress as fast as your time and abilities permit.
