Local Reporters Do Good Job

Mrs. O. B. Hopwood, local news reporter and representative for The Talco Times for the past ten years, took a little time off recently to go to Houston and make the acquaintance of her first grandson.

Assisting Mrs. Hopwood in gathering news and selling subscriptions is Jackie Winn, who needed only half a unit of doing four years' high school work in three. Jackie was told the job of writing the local news last week rested entirely upon her sun-blistered shoulders.

Like the thoroughbred that she is, she filled one page of last week's edition with locals and personals, and wrote a story about the Senior Class trip to Galveston.

Mrs. Naoma Barton, who also looks after subscriptions and sells The Talco Times at the City Drug Store, did some pinch hitting during Mrs. Hopwood's absence. There may have been a few duplications in the several hundred items printed, but all our subscribers will agree they did a swell job.

Tie Vote Recorded On Bond Issue

Advocates and opponents of a \$10,000 street paving bond issue ran a dead heat in the election Saturday in Hughes Springs.

Fifty-four taxpayers cast their ballots for it; exactly the same number of others voted against it. Another election will be held.

LOCAL PEOPLE ENROLLED AT COMMERCE COLLEGE

Enrolled at East Texas State Teachers College at Commerce are thirty-six from Titus County.

Enrolled from Talco are Raymond C. McFerra, William Guy McGill, James Bowie, Mrs. Loreta Couch Foster, Mrs. Mozella Hughes, Mrs. James Rosson Norman and Mrs. Mildred M. Carlisle.

Talco and Lone Star Split Two Game Series

By JACK WINN

Talco Oilers and Lone Star steelers split their two game series, Talco winning the first 3-2 and dropping the second 11-6. Talco, by splitting the series, clung on to top position one game ahead of Lone Star, with Winnboro in a close third.

Ray Tucker scattered 9 hits to best McDaniel in one of the most thrilling games that has ever been played in the league. With one out and two men on base in the ninth inning, Tucker struck out Hedrick and forced George Washington to pop out to Pinky Griffin at second and end the game. It was Tucker's fourth win of league play against no defeats. Washington, one of the best hitters in the game, was unable to get a hit in five tries off the slants of Tucker.

In 104 degree weather Sunday afternoon, the Oiler defense faltered for the first time this year, and the Oilers were defeated for their first loss at home this year. Five errors were committed, three in the first to start the downfall of Guy Broussard in his first starting role of the season. Wayne Shaw led the Oilers in hitting with a double and a home run. Dub Hedrick's homer with the bases loaded was the big blow of the game. Hedrick also hit for the circuit with the bases loaded against the Oilers in their other series.

Winnboro Beats Talco 6 to 5 in Ten Innings

By JACK WINN

Winnboro Oilers pulled into one-half game of Talco, who clung onto top place in the East Texas Amateur Baseball League, Tuesday night by defeating Talco 6-5 in ten innings.

It was a see-saw affair all the way. Bill Seabaugh led off for Talco and promptly put the Talco nine in the lead with a home run, but the lead was short lived, as Tom King, the first Winnboro batter up in the second inning, led off with a homer to tie the score one all. Winnboro coupled a walk, a sacrifice, a single and an error for two more runs in the fourth. Talco scored two in the sixth to knot the score at 3 all.

Talco scored in the seventh to go ahead, but Winnboro scored two in the bottom of the seventh to lead 5-4. Talco scored one in the ninth to tie it up at 5 and 5. Talco failed to score in their half of the tenth. The first batter for Winnboro, King, grounded to short for one out. Babe Bryce walked, went to third on McGrady's single and stole home with the winning run on Broussard's high pitch to Duerson, who was pinch hitting for Kiker.

R. F. Parker of Talco, who has been minister of the Church of Christ in Deport, has resigned. A large crowd attended the Sunday night service, which was his farewell sermon. He will be minister of the Church of Christ at Bogata and will begin his new work on Sunday, June 15.

During his four years ministry of the Deport church, he has done wonderful work with the congregation. The church has grown spiritually and in membership under his teaching and guidance. Members and friends regret his leaving the Deport church.

As a token of appreciation for his untiring service, the congregation presented the Parkers with three lawn chairs as a parting gift at Bible study on Wednesday evening of last week.

Tomato Harvest Expected to Open Near June 25

Tomato growers in Red River, Lamar, Cass and Bowie counties will begin shipping their tomatoes about June 25 to July 1, and their acreage this year is about half a normal crop, states J. F. Rosborough, horticultural marketing specialist of A. & M. College.

He warns that tomatoes should be allowed to mature, that they weigh about five more pounds per bushel than those pulled too green, and are less easily skinned and bruised.

First few cars shipped from Jacksonville last week brought 7 to 12 cents per pound. Since the shipping season will be later than usual, tomato growers should provide some means for protecting the tomatoes from sun-blisters when lined up at packing sheds. A feed sack covering for the load which is to remain in line at the packing sheds for several hours, will be helpful in reducing sun-blisters, he said.

Bogata's tomato packing sheds, slightly damaged by a recent storm, have been repaired and are in good condition for handling of this year's crop.

Lone Star Steel Will Entertain on Fifth Birthday

Fifth anniversary party of Lone Star Steel Co. will be held July 4, according to E. B. Germany, president of the huge industrial plant which has provided this portion of the state with a tremendous economic revival. Germany said that company officials are busy working out details for what promises to be one of the most interesting holiday celebrations ever held in East Texas.

Tentative plans call for a principal speaker of national importance. On this portion of the program, Mr. Germany said, employees who have been with Lone Star for more than five years will receive handsome service pins. Late in the afternoon, a free barbecue will be served.

At night, the program will be continued at Steeler Stadium in nearby Daingerfield, home of the Lone Star Steelers, entrants in the Northeast Texas league. At the ball park, a thrilling fireworks display will be touched off just before the First Annual Steel-town Classic gets under way. The Classic will be between the Steelers, 1951 champions, and an all-star team to be selected from the other five teams in the league. Manager Yank Howell, of Pittsburg, will select and pilot the Stars.

"We look for the largest crowd ever to attend one of our anniversary parties," Mr. Germany said, "and we are making plans to handle the big crowd quickly and efficiently. This is an all-East Texas program, and we invite our good friends over the entire area to be with us."

Bogata Bean Crop Moves to Market

Bean crop of early planting that did well despite rain and cold weather, is moving to market in the Bogata area. Price range is from 5c to 10c per pound.

Some growers had to replant, due to weather conditions, and these beans will not be ready for the market until later.

Kimball Products Co. of DeKalb, guaranteed a price of 5 cents per pound to growers, and in many instances supplied the seed.

It is estimated that about 75 acres are devoted to beans. Over 100 acres were pledged, but some did not replant, following unfavorable weather conditions.

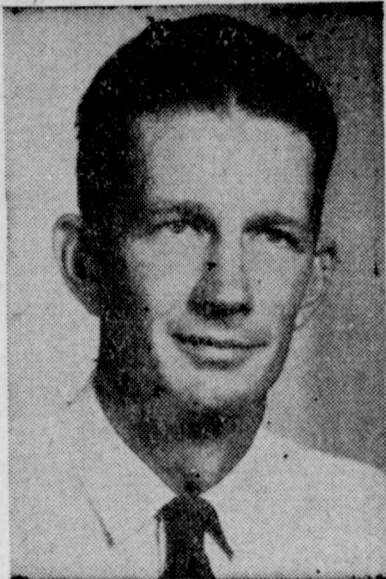

PERFECT BOY!
Willie was doing penance in the corner.

"I can't help it if I'm not perfect," he sighed. "I never heard of but one perfect boy, anyway."

"Who was that?" asked his mother, thinking to point a moral.

"Dad," came the silencing reply, "when he was little."

—AND TEACHER?

After a photographer had taken a class picture, the teacher tried to persuade the children to buy one. She said, "In the future you can say, 'there's Johnny. He's a sailor. And there's Sue. She's a nurse.'" Just then a little voice popped up from the back of the room and said, "And there's teacher. She's dead."

WRONG INTERPRETATION

"Mike writes that he's been in the hospital but is getting around with a jeep . . . whatever that is," said Mrs. McBride.

"Why, it's an automobile," replied her friend.

"Glory be," said Mrs. McBride, "and I thought it was a female Jap."

Seeking a Raise

Instead of coming right out in the open and voting themselves an increase in pay, members of congress who now receive \$12,500 annually with \$2,500 of it exempt from federal income taxes, raised their salaries by legislation providing for deduction of living expenses while they are in Washington. Suppose they now vote income tax deductions of living expenses for everyone. They are the birds who concocted present income tax laws, and should take their medicine along with all other people—and that includes their \$2,500 increase which they declared tax exempt. But just try to get a member of congress to acknowledge he voted for the bill. Again we remark, we should clean house at Washington in July.

A recently issued telephone directory for Talco shows 119 names of subscribers. This is the largest number it has ever contained. Maybe there will be many others when a modern telephone system is installed at Talco.

Texas State Fair proposes to pick the best chile cook in a contest to be held Oct. 5, first Sunday of the fair. Chief judge will be Joe E. Cooper, Dallas newspaper man and author of a book to be published this fall about chili, entitled "With or Without Beans." Contest calls for chili with or without beans and prizes are \$50, \$25 and \$15. We hope the judges will be peppered with entries. If this editor now possessed the cast iron belly and digestive system he owned when a Dallas newsboy and ate chili for breakfast around 3 a. m., he'd like to serve as one of the judges. He still likes chili with or without beans.

SPEAKING**

BURT LOCKHART
in Pittsburg Gazette

What most of us fear in this age of prosperity is getting back to "normal."

An old-timer is described as one who remembers when a baby-sitter was called mother.

Many more people would belong to the church if only the Ten Commandments were repealed.

The trouble with the world is that too many people are fighting for their wrongs instead of their rights.

People who talk much never have time to run down to the nearest apothecaries' shop to weigh their words.

A bathing beauty down at Galveston says she doesn't believe in taking off tomorrow what she can take off today.

Just about the time we feel that the world is getting back to its senses along come those party raids by college boys.

Newly-weds who are building new homes should not overlook the fact that electric switches are not the only kind they will need.

"About the time you're important enough to take two hours for lunch," says an editor, "your doctor limits you to a glass of milk."

When politicians discard the democratic way and substitute steam rollers they should be the last to criticize our European brothers.

There will be more hope for the world when it stops relying so much on the still, small voice of conscience and demands a loud speaker.

A week-end is that part of the week that is used for getting somewhere, only to find after you get there that you barely have time to "fill her up" and get back home.

Texas always does things in a big way. As if two delegations are not enough, she is sending four to Chicago. One convention is insufficient—she demands double-headers.

Mrs. Jim Morris was hostess to the Book Lovers Club Friday, June 6, the president, Mrs. Williams, presiding. The club prayer given in unison with Mrs. Eva Jones giving the club motto. Roll call was answered with the history of an antique on display or in their family. The program for the day was arranged by Mrs. Edd Neugent, as she was not able to be present. Mrs. Eva Jones had charge of the games with Mrs. Williams in charge of program. Mrs. Cato gave reading, "Building a Home in the Wilderness," with Mrs. Carter describing the home and furniture of the pioneer. Mrs. Smith read a poem entitled "I Will Know What You are Talking About Then." Mrs. Williams gave an interesting description of courtship and marriage in the pioneer days.

Delicious refreshments were served to Mmes. Williams, Reed, Cox, Carter, Hill, Cato, Blackburn, Jones, Smith, Hood and one visitor, Miss Jane Wilson. The next meeting will be June 20 with Mrs. Morse hostess and Mrs. Dick Hood program director.

**Want Direct Vote
Name President**

Austin. — Many Texas voters want a more direct voice in deciding who the president of the United States is.

They are demanding some kind of binding, preferential primary in picking the party candidates, and they would like to see the electoral college system go out the window.

They have no confidence in the convention system which leaves them feeling stranded and voiceless after the May precinct conventions in presidential election years.

After his death in 1783, the name of Joe Miller, an English comedian, was attached to a jest book, and is today still associated with stale jokes.

NO EXCUSE

"I'd like to be excused from jury duty, Judge," said the neat, elderly man in a Rochester, N. Y., court. "I'm deaf in one ear."

"I'm sorry," answered the judge, "but you will have to serve. In this court, we hear only one side of the case at a time."

WHEN THE CABLE BREAKS

All day the weary elevator operator had been patiently answering questions the department store shoppers had thrust upon him. Just before closing time, a voice piped up: "Suppose the elevator cables broke, would we go up or down?"

The operator's patience gave way. "That, my dear lady," he snapped, "depends entirely upon the kind of life you've been leading."

Cotton Oil Mill At Clarksville In Liquidation

Clarksville Cotton Oil Co. is in process of liquidation. Physical assets have been sold. For fifty years it was one of the leading industrial establishments of the county. Decline of cotton production was the contributing factor. Farmers are turning from cotton to beef and dairy cattle.

Half century ago Red River County was one of the largest cotton producing counties in Texas, and its long-staple cotton was internationally known.

Time has brought changes, soil depletion and Johnson grass being the major cause of the change.

Alcorn Has Plan for Making All 4 Delegations Happy at Chicago

Editor's note: Achin Alcorn, philosopher on his Johnson grass farm on Sulphur, will get no where with his suggestion this week, which won't be the first time he hasn't gotten anywhere.

Dear Editor: The way I understand it, Texas is gonna send four delegations to the national political convention in Chicago next month, two from the Democrats and two from the Republicans, and while I have heard a lot of unfavorable comment on this, I do not look at it that way.

I think maybe Texas is just ahead of the rest of the states. I have been thinkin about the Presidency for a good while lately and have come to the conclusion it's too big a job for one man.

What we ought to do is nomin-

ate four candidates instead of two, and elect a pair of Presidents instead of one. Naturally it would thus take four sets of delegates to achieve this, and you can see Texas ain't so dumb after all.

With two Presidents, one for foreign use, one for domestic, or one for the conservatives, one for the liberals, or any other way you wanted to split their time, dependin on the situation at the moment, everybody would be happy. Of course this might require two separate Supreme Courts, and also two U. S. Treasuries—one for the people who are opposed to spendin, one for those in favor of it. Wouldn't be any use in havin two Congresses, the one we got is already pretty generally split anyway. One tax collection agency would probably be enough too. It's enough for me.

If you think this idea has any merit, you ought to get busy on it, because if we let things ride like they are as sure as anything only two of the four Texas delegations will get seated at the Chicago conventions and for the next four years we'll have to limp along with one president.

Yours faithfully, A. A.

Rainfall Heavy in Western Area

Dark, swirling clouds over southern Red River and northern Franklin and Titus and eastern Lamar brought a hard downpour of rain late Thursday evening of last week that amounted to about half an inch.

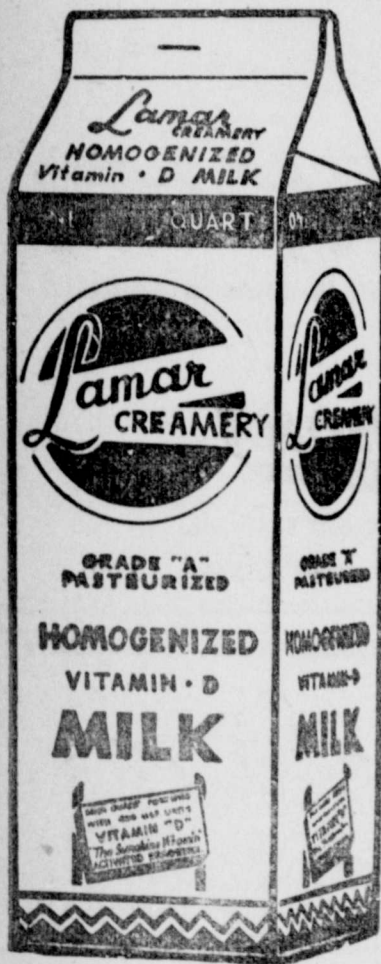

Further west in Lamar, Fannin and Delta counties as much as four inches of rain was measured in some places and both Sulphur and White Oak were bankfull Friday.

Rainfall this year is about 25% greater than last, but not as much as fell in 1950.

"Good Neighbor Policy"

Remember one time when I told about the old loose-stone wall that separated Easy Roberts' property from Handy Peterson's?

That was when they decided they really didn't need the wall between them in the first place—so they simply stopped repairing it.

Now I hear where a fellow, who bought the old Johnson place, wants to buy all those stones. It seems he figures a stone wall is just what's needed on his property.

From where I sit, if that fellow wants to build himself a stone wall,

that's his business. But if it's not really serving any useful purpose he may sooner or later discover—just like Handy and Easy did—that he'd be just as well off without one. Even some old-fashioned walls of prejudice are disappearing—like those that would deny a person's right to a friendly glass of beer now and then. Most Americans are learning that "walls" can get in the way of the persons inside as well as the persons outside.

Finds Door Knob In Chicken Snake

Versie Reid, who resides on the Jim Rollins place south of Deport, had been missing eggs from a hen nest at his home for several days. In an effort to fool the robber, he placed a white door knob in the

nest. Soon afterwards, it too, was missing, but nearby he discovered a large chicken snake, which was killed. Noticing a lump in the snake, he cut it open to discover the snake had swallowed the door knob nest egg.
