# ARANSAS CO. GIVES ROOSEVELT 3 TO 1 VOTE

# ROCKPORT PIRATES PLAY AT BANQUETE FRIDAY NIGHT

## 'Feud' Battle Promises to Be Season's Best

### Present Pirate Coach Formerly Mentored Banquete Squad

Friday night in Banquete the Rockport Pirates will pit their strength against a team that has won the Western Zone of District 27-B in football. The game is scheduled to start at 8:00 on the Bulldog field, and this promises to be the greatest battle of the year, due to a feuding spirit that prevails between the two teams.

Last season, Coach Wheeler of the Pirates came into the Pirate Den as mentor for the local eleven after having served as head coach of the junior squad there, and the very boys whom he coached at that time are the boys against whom the Pirates will fight Friday night. The present group of Bulldogs have neither lost nor tied a game this season, which resulted in their winning the Western Zone of this district.

The Pirates are out of the district race, but the greatest fight of the year will be between the Pirates who were defeated last season (a defeat that they are planning to avenge) by the Bulldogs, and the group from Banquete who also has a burning desire to defeat the squad of their old coach.

"I know that they are after my hide, not that of the Pirates," Wheeler said. "But the boys have caught the spirit, and are going down the line to offset that defeat we suffered at the hands of the Bulldogs last season. Anyone who misses this game will miss the hardest fought game of the season, and this should be a must for all those who love football."

Interest has been so high in this game that arrangements have been made to take the band and pep-squad, and many of the fans who have been following the Pirates this season, are making the trip also.

Those boys who will probably see action this Friday night are all of the members of the squad:

Ottie Mundine, co-captain; Russell Rowe, co-captain; Harris Pollard, Joe Johnson, Jr., Eddie Mundine, Roy Lassiter, Denny Smith, Jackie Dietrich, Dexter Wright, David Herring, Norman McLead, Kenneth Phagan, Albert Hunt, Elmer McLester, Bert Haney, Bobby Morrison, Jesus Soliz, Denzell Bardwell, Clifton Evans, Jack Davis, Joe Salch, Gene Lassiter, and Bubba Lassiter.

This group of boys are carrying the ball for Rockport High School, and it's a good bet that they'll give a good account of themselves.

## Farmers May Now Sell Turkeys On Open Market

Farmers now may sell their turkeys through regular trade channels instead of to authorized processors under partial suspension of WFA's turkey set aside order which became effective midnight, November 5. according to C. B. Hadges, District Representative, WFA's Office of Destribution, Austin.

Turkeys processed prior to suspension of the Order must be offered to the U. S. Army Quartermaster centers before they can be disposed of elsewhere. Farmers however, are no longer obligated to sell turkeys to authorized processors, Hodges explained.

Armed services still have not procured sufficient turkeys to enable them to take care of all their needs and they must continue to purchase them on the open market. Military authorities have agreed to the partial suspension so turkeys can move into civilian markets for Thanksgiving. He said the armed services will depend upon processors filling their order for future deliveries.

## Caller-Times Offers Scholarship In Journalism

A scholarship in the University of Texas to enable some young man or woman to study journalism will be awarded by The Caller-Times starting with the school year opening next fall.

The scholarship will be for $500 and it will be supplemented by a grant of $75 by the university to cover certain incidental fees. The scholarship was approved by the board of regents of the university last spring when the offer first was made by The Caller-Times.

The scholarship will be available to a student entering his sophomore year in the university. Journalism courses are not open to freshmen.

Judges will be Dean E. L. Harvin of the Corpus Christi Junior College; Charles Roster, head of an advertising agency; and Jack Blackwell, editor of the Rockport Pilot. The Caller-Times will have no voice whatever in the selection of the person to be awarded the scholarship.

To be eligible for the scholarship, a person must have completed, by the end of this school year, the freshmen year of college work in an accredited college or university and be a graduate of an accredited high school in one of the following counties: Nueces, San Patricio, Kleberg, Brooks, Duval, Jim Wells, Live Oak, Refugio, Bee, Aransas or Kenedy or attend an accredited college in one of those counties as a freshman. In addition, the university will accept only a student who was graduated in the upper one-quarter of his high school class and who maintained an average of "C" or better during his freshman college year.

The scholarship will be awarded only to a student who intends to make a life work of some form of activity in journalism. He may be interested primarily in news writing, feature writing, advetising writing or layout, advertising art work, or any other field of creative work in journalism. The judges will make their decision on scholarship and on the aptitude and interest of the applicant in journalism.

Application for the scholarship must be filed with the judges by next May 1. Application blanks will be available later and may be obtained by writing to James Skinner, promotion manager, The Caller-Times. The judges said that it was desirable that the completed applications be accompanied by samples of any journalistic work, drawings or advertisements which the applicant may have had published in any school paper or anything which he may have written for publication. It was suggested that prospective applicants start now to save clippings from their college papers to submit with their application next spring.

## November Tire Quota Is Increased

The November quota of new automobile tires allocated by the War Production Board will be 1,850,000 or 250,000 more than in October, it is announced by the Office of Price Administration and War Production Board. "As near as we can tell this quota should satisfy normal November replacement needs of eligible "B" and "C" ration holders," Max McCollough, Deputy OPA Rationing Administrator said. He pointed out that the ration quota this month makes it "clear that recapping will still be necesary for most motorists if they are to keep their cars in operation." Unfilled "B" and "C" tire applications, needed increases in dealer inventories and a higher production rate are required before "A" ration holders can expect new tires.

## Eugene McElveen Assigned to Tank Landing Ship

Clinton Eugene McElveen, whose family resides at Rockport, is preparing for duty with the amphibious forces aboard an LST—Landing Ship, Tank—one of the biggest ships in the Navy's invasion fleet.

He has been assigned to the crew of an LST at the Amphibious Training Base, Camp Bradford, Va., where he is going through the sternuous training required of bluejackets who man beach-hitting tank carriers.

Heavier than a modern destroyer the 300-foot LST lands assault troops and equipment directly onto enemy beachheads, under the protective bombardment of heavy warships and Navy planes.

Despite its size and weight, the landing vessel is designed to navigate shallow approaches to hostile beaches, spilling its troops and tanks ashore through huge bow doors.

Camp Bradford, where he is stationed, is one of a group of bases operated by the Amphibious Training Command of the U. S. Atlantic Fleet along the eastern seaboard. The Bradford base alone is readying thousands of Navy men to operate the ships of the amphibious fleet, fast growing toward its year-end goal of 80,000 new landing craft.

## New Chemical Makes Sea Water Drinkable

WORCHESTER, Mass.—A new chemical which removes the salt from sea water and makes it drinkable was demonstrated here recently by the Permutit Co. before the New England Sewage Works Assn.

The chemical is in briquets the size of a small candy bar. Enough of them can be carried by a flier to provide 14 days of drinking water. A briquet is dropped into a plastic bag filled with seawater and within 20 minutes it has precipated the salt, which is filtered out as the flier sucks the water through a plastic tube.

Permutit plants are now engaged in producing kits for the 2,00.000 lift rafts which form part of the equipment in the knockdown fight with Japan.

## Yank Soldier Meets Father In Italian Zone

CHICAGO.—An American soldier from Chicago trudged into the little town of Castel St. Vincenzo, about halfway between Naples and Rome and was led to a certain home where he met an elderly man named Anthony Colantonio.

"How do you do," said the host, in perfect English.

"Don't you know me?" the young soldier asked.

The elderly man paused a moment. Recognition came over his face, and in a moment the two were shedding tears as they embraced.

The soldier was Pvt. Fred J. Colantonio, and the elderly man was his father whom he had not seen in fourteen years. After the death of his wife—Fred's mother—the elder Colantonio returned to Italy in 1930 where he took over the farming lands of his father.

## Legionnaires Buy Farm As Haven for Veterans

ARNOLD, Pa.—The local American Legion Post has brought three farms totaling 240 acres near Tylersburg as a haven for men discharged from the armed services.

The post spent more than $10-000 on the property, farming machinery and livestock for the novel rehabilitation project.

Any veteran may go to the farm for either a short visit or to remain as a paid member of the agricultural crew. While nearby forests and streams offer recreational hunting and fishing, the promoters believe routine farm work at the prevailing wage would give a livelihood and sense of self-sufficiency.

Postmaster George Simon, director of the post's farm program, said the facilities will be available to all World War II veterans who would benefit by them. He explained that the Legionnaires feel conditions will be simular to those after the last war and want a way to help carry the load for those men returning incacitated or unable to adjust themselves.

OLD JUDGE SAYS...

"Now that you mention it, Judge, I can see this really has been a 'war of jobs'."

"Yes it has, Fred, and *the biggest job of a* is the one being done by our armed forces across the sea... *the actual physical fighting* that is bringing victory closer day by day."

"And here at home, Judge, our job has been to supply our men abroad with the ammunition and equipment they need to finish their job. And to provide the money to buy these supplies through our purchase of War Bonds. By and large, I think we've taken our job seriously, too."

"You're right, Fred, we have. But there's one more big job we've got to do for our men over there. That is to abide by their wishes that this country should be kept the same way it was when they left it...not changed around while they're away and can't express their opinions."

"In all fairness, Judge, that's a simple request no one can afford to disregard."

## Veteran South Pacific Fighter Now Sells War Bonds in U. S.

Proudly wearing her combat record on the side of her fuselage, this veteran of 30 months in the South Pacific is back in the United States for a well-deserved rest. "Old 66" was one of the first American fighter planes to be shipped out to the Pacific after Pearl Harbor and was in the first group to land on Guadalcanal.

(This picture was received through the courtesy of the Sacramento Air Service Command.)

"Old 66" has a logbook which shows 200 combat missions and 600 combat hours. She is credited with shooting down two Jap Zeros, sinking a Nip destroyer with a direct hit by a 500 pound bomb, and destroying four enemy transports carrying vital supplies to enemy island bases during her 129 bombing missions with the 67th Fighter Squadron.

In the period from December 1942 to February 1943 when American forces were waging a final offensive to clear the Japs from the 'Canal, "Old 66" was flown two, four and even as many as six hours a day for days on end. Most of her missions were strafing and dive-bombing and any soldier or marine who fought on the 'Canal will testify to the great job the Airacobras did to the Jap troops and installations.

"Old 66", an Airacobra, was retired from combat for a while and used as a rescue plane, dropping life rafts to airmen who were downed in the Pacific, but just before returning to the States she made a final mission over Rabaul and dropped a 500 pound bomb directly on the Tobera runway.

Built in Buffalo, New York, by Bell Aircraft Corporation, "Old 66" is now being used to help sell War Bonds to buy new fighter planes which will go to the Pacific to carry on her glorious record.

# DIG FOR IT - - - Buy More WAR BONDS!

FOR our men in France and on Pacific islands, it's dig or die. It's dig and dig deep, now, for all of us if our sons and our neighbors' sons are to stand forth and win at this critical hour. Truly, they're all we have—and we're all they have.

Their simple willingness to endure hardships for our sake demands great sacrifice in return. The least we can do is to back them in their faith in us with every cent that can be spared beyond what is needed to keep body and soul together. The more you invest now the sooner they'll return to take up their lives where they left off. So, we say—shorten it with War Bonds! Keep faith with the men on the fighting fronts!

And remember—your son and your neighbors' sons are fighting for a way of life that must be preserved for them here on the home front. Your investments in War Bonds will pay for the new farm machinery you and the boy will need when peace comes. He'll be counting on you for this, just as he's counting on your support now. Don't let him down.

**5 REASONS FOR INCREASING YOUR WAR BOND PURCHASES**

**1.** The tempo of this war is hitting its highest point. Government expenditures for war are at the peak. MORE MONEY IS NEEDED . . . NOW!

**2.** In proportion to WHO HAS THE MOST MONEY, individuals are not buying their share of War Bonds. America must correct this situation.

**3.** War Bonds provide the farmer and rancher with the financial reserve he must have to survive the ordinary ups and downs of farming as a business.

**4.** Money will be needed urgently at a future date to replace and repair farm equipment, machinery, and buildings. War Bonds will provide it.

**5.** War Bonds are the safest investment in the world, return a good rate of interest, are easy and convenient to buy . . . from bank, post office, rural mail carrier or Production Credit Association.

**For America's Future, for *your* Future, for your children's Future**

## Piano Used By Swing 'Greats' Sold for $45

JACKSON, Mich. — Strictly speaking, the battered piano from Ocean Beach pier dance hall was not worth any more than the $45 the small boy paid for it when he answered the ad.

But its sentimental value, plus its probable effect of making the boy want to practice his music, was far greater, because this particular piano had been played by almost every top-notch orchestra leader in the business.

Benny Goodman's band started to fame using that piano in 1935. Goodman's group included Tommy Dorsey, Gene Krupa, Harry James, Sonny Dunham and Vido Musso—and was worth $225 a week. Just a year later Goodman was getting 1,000 a night. Count Basie, Fats Waller, Paul Whiteman with Ramona and Roy Bargy, Kay Kyser, Guy Lombardo, Glen Gray, Cab Calloway, Wayne King Henry Busse, and other greats beat out the rythm on its 88 keys.

Ravages of the weather combined with difficulties of repair, forced destruction of the dance hall and sale of equipment, but owner Leo Steinem sai dhe would rebuild after the war, and the new piano will be autographed by every name band—making it worth something more than $45.

## 1919 German Pistol Acquires 1944 Holster

BLENCOE, Ia.—Sgt. Carl Atkinson, Blencoe, Ia., who captured several Germans on the night before the Armistice in the last war, brought back to this country as a souvenir a pistol taken from one o fhis prisoners.

He gave the gun to his brother-in-law, O. H. Hale, Blencoe, remarking, "Some day your son will have to go back to finish the job."

When Hale's son, Sgt. Harold Hale, went overseas he took the pistol with him. Recently he wrote

"The Luger pistol fits it perfect-from a Nazi.

"The Luger pistol fits it perfictly," he said.

'PUSHES UP' WAR DATE

MONTP7LIER, Vt. — Vermont has been fighting the war three months longer than her sister states. To facilitate payment of a bonus promised to the Vermont National Guard, the State Legislature declared that a state of war existed against the Axis after President Roosevelt's order to the Navy to "shoot-on-sight" at Nazi U-boats.
