It will be a joint installation and charter presentation program. Dinner will be served for Jaycees and their ladies and other guests. a custom-built car!

Just for the thrill of it, look at the list
of new features. And for an even bigger
thrill—your biggest thrill of the year—
see the '49 Ford, "The Car of the Year",
at our showrooms Friday!

THINGS KEEP Electrically

That just about sums up the advantages of electric refrigeration. "Things keep." Yes, everything keeps with electric refrigeration. Milk stays cool and wholesome...cooling salads, vegetables and fruits stay crisp and tasty in an electric refrigerator. All foods keep better all the time...protecting your family's health day after day.

In fact, electric refrigeration is just about the homemaker's best friend. If you don't have electric refrigeration... make sure you have it for the hot summer ahead. And remember, cheap electricity in the area we serve is at your service for better living electrically.

We have nothing to sell but good electric service. Near-by appliance dealers can show you a choice of makes and models in electric refrigerators.
