Rivercrest Has Reason To Celebrate FFA Week

All over the United States, Future Farmers of America are celebrating FFA week. The Rivercrest High School FFA has more reason than most to celebrate.

With a total enrollment in the program of 85, Rivercrest has twelve members who received their Lone Star Farmer Degrees this year.

Damon Ward was a state winner in Ag Mechanics, a prestigious award.

John Jessee was an area winner in sheep production, David Rozell was an area winner in crop production, Jimmy Vickers an area winner of the co-op award.

Mark Hawkins won area awards in meat lab course.

The overall program, in addition to its regular courses, offers free employment training in meat lab and ag mechanics.

FFA, a national organization for students studying vocational agriculture in public high school, provides some exceptional learning experiences for its members.

This is the 54th anniversary of FFA, which is run by student-members with adult guidance.

At Rivercrest, L.P. (Pete) Taylor, Craig Ingram and Vincent Lum are the advisors for the members of the program.

The FFA program provides practical training beyond the traditional classroom approach. The instruction is made interesting by actually doing the job at hand, from welding, carpentry, livestock judging, showing animals, field trips and a large range of projects.

At Rivercrest, a meat processing lab is one of the program's features.

Students actually process meat, trimming, packing, wrapping the meat.

The FFA provides a unique opportunity to develop the potential of young people, and it is a growing, expanding and improving program.

MEAT WRAPPING—Students at Rivercrest FFA have a free employment training program. The students learn meat processing. Here students are wrapping meat cuts prior to freezing.

Rebelettes Capture Bi-District

By Britt Morgan

The Rivercrest Rebelettes cleared the second hurdle enroute to hopefully capturing their third state championship Monday night. After making a clean sweep of district 20-AA competition, the Rebelettes traveled to Gladewater and defeated district 19-AA champions, the Sabine Lady Cardinals, in bi-district action.

The contest started rather slowly as both teams showed the nervousness of post-season play. The young Rebelettes, of whom only five have played under the pressure of playoff action, jumped to a 6-0 lead, but the Lady Cardinals came back to the game twice before the end of the period. Turnovers and missed shots marred much of the first half of play as the lead see-sawed back and forth between the two teams. The Rebelettes led by six points and at the end of the first quarter, found themselves on the short end of a 24-20 score at half time.

After the break, both teams seemed revitalized and they settled down and played basketball. At the end of the third period, though, the Rebelettes were down by two. Then the Rivercrest machine cranked up and showed the style and form that had led them to the district championship. The Rebel fems instituted a mix of a two-three zone and a person-to-person press on defense and a fast break offense. They outscored the Lady Cardinals 20-10 in the final quarter and came out on top 53-45. Then the nets came down and fellow classmates and fans rushed onto the court to congratulate their Rebelettes.

Senior forward Jean Ann Norman paced the Rebelettes with 18 points, while Veronica Howerton netted 12. Freshman Carla Belcher added nine to those.

Head coach Frank Stubblefield was pleased with his squad's performance "We made mistakes, but we overcame them, and when we were down, we pulled together and caught back up. Everyone played a good game and put one hundred percent effort into their playing."

The Rebelettes travel to Huntsville Thursday to prepare for the first game of region three action. They will play either West Sabine or Elysian Fields at 8 p.m. Friday night at the Sam Houston State University gym.

The support of the school and community will be appreciated greatly by the young squad.

Judge Pesek Hears Plea

On Monday, February 1, 1982, District Judge Leon Pesek of Texarkana heard the guilty plea of David Lee Huddleston of Paris and sentenced him to five years probated for the December 16, 1981 burglary of Joe Ford's Grocery in Bogata and the January 11, 1982 burglary of Jack Shelby's Detroit Supply Company.

After hearing evidence, Judge Pesek revoked the 10 years probation of David Brem and Gary Travillion granted in June, 1981, and reduced the sentence to seven years, because of Defendants' failure to timely pay court costs, fines, and probation fees and for failure to report to the Adult Probation Officer as required.Travillion had been convicted in four cases of delivery of marihuana, and

Brem had been convicted in one case in Red River County of delivery of marihuana and had admitted in court his guilt in a similar case in Lamar County.

Lions Have Pie Supper

The Bogata Lions Club of Bogata would like to thank all the people who helped to make their old time pie auction a big success last Thursday evening. Over 100 people were in attendance heard the two bands, who gave their time and talent to entertain all the people and to help make a success of the evening.

Over 30 pies were donated to the cause and more sandwiches were received than could be sold, so the excess sandwiches were donated to the Red River Haven Nursing Home to be enjoyed by the people there.

All in attendance at the auction enjoyed bidding on the pies as some sold for as much as $30, with the average pie bringing $15. The Lions cleared approximately $400 for the center to continue work, in order to further help the community.

County Appraisal Board Hears Report

The Red River County Central Appraisal District Board of Directors met in regular monthly session Thursday night at the office in Hignight Square on East Main Street, Clarksville.

Those Board members present included Mrs. Dixie Herrington Thompson, president; Russell Carpenter, secretary; Cornelia Dickey; and Lloyd Smith. Absent was Joe E. Russell.

The evening was spent largely in hearing reports of various activities and in discussion of matters presented by Chief Appraiser Gary Lesniewski.

Bill Rose and Charles Coleman of the Southwestern Appraisal Company reported on the reappraisal program now in the final stages in the County.

The appraisers said they had included more than 1,000 square miles in Red River County in the program which began in December, 1980. They said about 65 percent of all parcels have now been re-evaluated, with all urban areas completed. Some 35 percent of the actual area of the county has been covered.

The spokesmen said three appraisers are now working in the field in the District area and stated more would be assigned to Red River County in March.

The Southwestern representatives said that they anticipated no problems in meeting the tentative deadline of May 1st for completion of the new tax rolls.

The appraisers were also highly complimentary of the cooperation shown them in their appraisal work by the property owners.

Lesniewski reported on the processing of the exemption forms. He said that, as of Feb. 9, the office staff has processed 1,407 homestead exemptions, 383 ag-use exemptions, and 35 veterans exemptions.

The Board also approved a blanket fiduciary bond for the Chief Appraiser, his staff, and Board officers.

AUCTION—The Bogata Lions held a pie auction Friday night to raise money for their projects. Auctioning the home baked goodies were Chanda Morris, Charles Guest and Melanie Williamson. (Staff Photo by Linda Tabb)

A Silver Lining for fluctuating electric bills!

Your monthly budget planning can be easier to manage when you use the Texas-New Mexico Power Company Average Billing Plan. With the Average Billing Plan you will pay about the same each month. Your past 12 months electric costs are used to figure your average monthly electric bill. You will know about how much you will pay each month. And you don't pay any extra for the convenience of using the Average Billing Plan. You only pay for the electricity you use. Add sunshine to your budget. Switch to the Average Billing Plan.

Here's how it works:

FIRST MONTH
MOST RECENT 12 MONTHS ACTUAL USE ÷ 12 = AVERAGE BILLING AMOUNT

EACH MONTH THEREAFTER
MOST RECENT 12 MONTHS ACTUAL USE ÷ 12 + 15% OF ACCUMULATED DIFFERENCE* = AVERAGE BILLING AMOUNT

* 15% of accumulated difference is added when prior to the current bill, the calculated amount for electricity used is more than the accumulated amount billed under the Average Billing Plan.

NOTE: If you have less than 12 months history at your present address, the "average" will be based on the number of months available.

THE BIBLE SPEAKS

BY LAWRENCE W. ALTHOUSE

THE RIGHT MOUNTAIN

Background Scripture:
John 4: 7-26

Devotional Reading:
Psalms 96: 1-9.

Of course the Samaritan woman by Jacob's well at Sychar didn't realize to whom she was speaking. Nevertheless, we can hardly escape the feeling that she missed the opportunity of a lifetime. Confronted by the man whom she was later to recognize as God's Messiah, instead of asking a truly profound and troubling question, she contented herself with a question that was trite and insignificant: "our fathers worshipped on this mountain (Mt. Gerezim); and you say that in Jerusalem is the place where men ought to worship" (John 4: 20).

Who Is Right?

It was not a unique issue: for centuries the Jews and the Samaritans had carried on this dispute. The right place to worship, said the Samaritans, is Mt. Gerezim. Certainly not, retorted the Jews, God's Holy City is Jerusalem and only Jerusalem. In a sense the dispute could be likened to two small children protesting, "My mountain is better than your mountain!" Recognizing that Jesus was possibly a prophet, the woman was curious to see how he would settle this ancient dispute.

To us today the whole dispute sounds silly. Indeed! Whose mountain is the "right" one? How ridiculous! Yet, at the same time, the question has a contemporary ring to it and, if we substitute the word "church" for "mountain," the question can be as embarrassing to us as it should have been to the Samaritan woman. Oh, we may not state it so plainly as "Which church is the right church?" but we raise it nevertheless.

Or, perhaps, we assume we know the answer: "My church is better (or "truer," "more Biblical," "more holy," etc.) than yours."

False Doctrine

Layman Beecher was a famous preacher in New England during the 18th century. It is told that he became very disturbed when a somewhat unorthodox (in his judgment, at least) church was begun in the same neighborhood as his. His judgment against the neighboring congregation was that it taught "false doctrine." Thus, when one day the church burned to the ground, on the following Sunday in his sermon, Beecher declared that the fire was God's judgment of the church's false doctrine.

Before the week had ended, however, Beecher's church burned down too!

We need to let Christ tell us again what he said to the Samaritan woman when she asked her silly "which mountain?" question: "The hour is coming, and now is, when the true worshippers will worship the father in spirit and truth" (John 4: 23). The true worshipper is the one who doesn't worry about "which mountain?" or argue over "which doctrine," but knows that "God is spirit" and thus worships him "in spirit and truth" alone.

BUDDY'S WORKSHOP

Taping the Line Aids When Sawing Plywood

Is there a special technique to sawing plywood? I find that I have little trouble if I can cut through without stopping but I get into trouble if the saw binds. When this happens, I usually wind up damaging the plywood exterior.

Plywood and other woods covered with a thin veneer are susceptible to splintering. If the saw is removed in mid-cut, the thin outer layer of the veneer can be separated. This may be prevented by covering the line of the cut with a wide strip of clear (cellophane) tape.

My dryer is little more than a year old and seems to work perfectly, yet there are times when clothes are not completely dry. I follow setting instructions carefully, so the problem must be something simple. Is there anything I could do before seeking professional service?

Check the venting system to see if it is dirty or clogged. If it is a permanent installation, insert a stiff wire (or straightened coat hanger) into the damper outside the house and remove any accumulation of lint or other obstruction. If a flexible hose is used in the venting system, remove the hose and determine if it is obstruction-free. Replace the hose in a straight line to the outdoor vent. Sags or dips in the hose may not only collect lint but also hold water, which could overheat and cause the protective system to stop dryer operation.

Attend the Church of your choice this Sunday.

CRIME STOPPERS

Drug traffickers are robbing our kids of their future. Over 17,000 Texas high school seniors are daily drug users . . . an alarming statistic that merely scratches the surface.

Kids from age twelve to seventeen are the victims. Their innocence earns these criminals easy money. Now is the time to shut down this business in Texas. It won't be easy. Dealers are just the bottom of the drug dealing pyramid. These pushers get their drugs from the kingpins . . . those at the top of the network . . . the drug traffickers.

Drug dealing to minors is a hideous crime and these criminals must be stopped. A joint effort by law enforcement and concerned citizens is necessary in declaring war on drug traffickers.

There are no absolute answers but a major step has been taken. Governor William P. Clements and the Texas Legislature have created a statewide anti-crime hotline through the Crime Stoppers Advisory Council. This hotline is designed to aid law enforcement in a crackdown on drug traffickers.

For the month of February, the Crime Stoppers Advisory Council is focusing its statewide "Crime of the Month" on drug trafficking. Any citizen having information about major drug trafficking is asked to call the Texas Crime Stoppers Advisory Council at 1-800-252-TIPS. Cash rewards are available for information leading to the arrest and indictment of criminals. Citizens do not have to reveal their names, just their information, and they will be given a unique code number for identification purposes.

Texas Legislators and our Governor have helped provide the criminal justice system with the punch it needs to find drug traffickers and put them behind bars. But they can't do it alone. Call 1-800-252-TIPS today with any information on major drug trafficking in Texas. Help stop this growing menace to young people of our state.

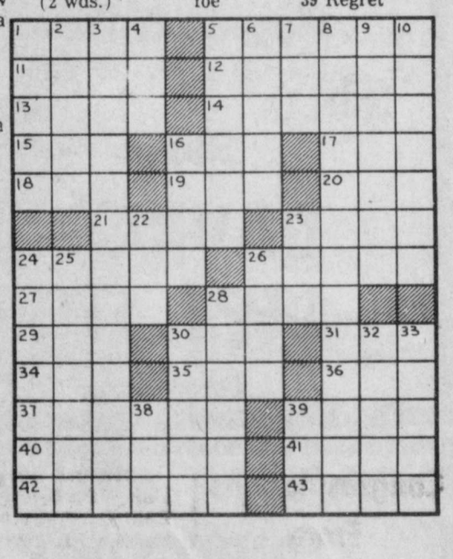
TODAY'S ANSWER



When Our Trees Go Down In Flames, Our Dollars Go Up In Smoke.

Southern forests are more than homes for our wildlife and playgrounds for our people.

Much more.

They play a big role in our economy. As demands for wood and paper products increase, the role becomes even bigger.

Today the South provides nearly one-third of the nation's wood. Within four decades, we'll be expected to furnish more than half. This, of course, represents thousands of jobs and millions of dollars to our people and communities.

When our forests burn—by accident or arson—jobs and money are lost. And prices go up on the thousands of items made from wood and paper.

Please do all you can to help stop Southern forest fires. Be careful in the woods and report anything suspicious to your sheriff or local forestry agent.

Now, more than ever, we can't afford lost jobs, lost income or higher prices.

LETTERS

Dear Editor:

As you probably know, the x-students of Talco High School held a school reunion last June and plan to have another reunion this June. As a member of the class of 1952 I was somewhat disappointed when only one other member of my class attended the reunion. I would like to contact as many of my old classmates as possible to encourage them to attend this year's reunion. My main problem is that during the past 30 years I have lost contact with most of them.

My first step is to get names and addresses. That is the purpose of this letter.

Please send names and addresses to:

IRS Encourages Taxpayers To DoReturns

Most taxpayers who use the 1040A form when filing their 1981 Federal income tax returns should be able to prepare it themselves, the Internal Revenue Service said.

Last year 41 percent of U.S. taxpayers used the short Form 1040A when filing their returns.

In urging 1040A filers to try to do the 1040A themselves, the IRS points out that the form contains only 18 lines, and comes with easy to understand, step by step instructions explaining how to fill it in.

Form 1040A can be used by taxpayers whose income consists only of wages, salaries, tips, interest, dividends, and unemployment compensation for the taxable year. Form 1040A filers also must have a total income of $50,000 or less.

The IRS stressed that under certain conditions, for example, when itemizing deductions, claiming adjustments to income or a tax credit, taxpayers cannot file Form 1040A. The tax instructions taxpayers received in the mail cover this information.

Mrs. Vola Ward led the Bible Study when the Baptist Women met Monday morning at the First Baptist Church in Bogata. "Tell Me the Story of Jesus" was sung by the group and Mrs. Glen White and Mrs. James Montgomery presented a skit.

Theme for the study was Success and Material Possessions: Are They Owners? with scripture from Luke 12:16-21.

Red River Haven Celebrates Valentine Day And Birthdays

Valentine's Day and the February birthday party were celebrated together on Friday, February 12, in the chapel of Red River Haven.

Celebrating birthdays were Della Moore, the oldest resident of the month at 97; Annie Pruitt, Walter Alsobrook, Lelia Smith, Ollie Gill, Madge Burns, Raymond Nixon, Pearl Medlock, Jean Harrington, Vandorne Wicks and Clyde M. Smith.

"Happy Birthday" was sung to the group and a gift from the nursing home was given to each.

Abraham Lincoln's life was described by Donna Robinson and Ginger Foster told about George Washington's life. "America, The Beautiful," played by Joyce Smith, was sung by the group to commemorate these men.

Different theories concerning how St. Valentine's Day celebrations began were explained by Robbie Hawkins. "Let Me Call You Sweetheart," "Clementine," and "Bicycle Built For Two" were sung by the crowd in celebration of Valentine's Day.

Ruth Harrison, Oscar Elliott, Pearl Moody, Sam Marsh, Stella Davidson, Alfred Kelley, Nona Reppond, Carrie Vaughn, Doris Rodgers, Bettie Williams, Rosa Wallace, and Jessie Hunter chose sides to play games of "Heart Shuffle" and "Pop the Balloon." Each team won one game each and were presented individual chocolate hearts.

A jar of chocolate kisses was placed in the lobby for residents and employees to guess the number. Resident Hontas McDonald and Brenda Griffin, an employee, guessed the exact number-90. They were each presented a heart shaped box of chocolates.

The group of residents and employees enjoyed refreshments of red punch and white cupcakes with red heart decorations.
