BLANCHE E. BEAN, EDITOR

PHONES 13 AND 14

Today in Society

The Merry Mix-Up club meets this evening with Mr. and Mrs. F. Bayless, 914 Avenue K.

Miss Dorothy Duncan is entertaining friends with a forty-two party this afternoon at 4 o'clock at her home, 702 Avenue R.

Mr. and Mrs. Russell Myrick are entertaining the 1927 Bridge club at the home of Mr. and Mrs. George C. Wolfarth, 2304 Broadway, this evening.

Mrs. Vernon Brown is entertaining friends at bridge this afternoon at her home, 2410 14th street.

The Friday Needle club meets at 2:30 o'clock at the home of Mrs. W. A. Bowen, 1911 Broadway.

The 44-42 club meets this afternoon at the home of Mrs. J. T. Hutchinson, 1517 Broadway, with Mrs. Roger Pierce, as joint hostess.

Cosmopolitan Club Is Entertained On Thursday

Mrs. E. H. Allen was hostess to the Cosmopolitan club at her home, 1615 15th street, Thursday afternoon. A business meeting was held and Mrs. Howard Logan was elected to serve as president. After the games of bridge refreshment were served to Mesdames J. P. Allen, Harry Patton, E. E. Swinell, Earl Moore, Howard Logan, K. L. Hines, H. V. Hankins, W. A. Cook, Ed Groth, of Los Angeles, Joe Logan, Mrs. Harry Patton, and high score while Mrs. J. P. Allen scored low.

Two Parties Given For Group Of Girls

Miss Dorothy Rylander was hostess to several friends last Tuesday evening when she entertained with a dinner party in her home, 1427 15th street. The guests attended a local theater and upon returning home spent a delightful evening playing music and games. The party was given in honor of Miss Marjorie Mitchell, who is leaving for Arlington to make her home in the near future. A mid-night supper was served and the next morning the girls went kodaking. Those in attendance were Misses Dorothy Rylander, Ayne Odum, Inez Jenkins, Mildred Harris, and the honoree Marjorie Mitchell.

Wednesday evening the same girls enjoyed a swimming party at the Mitchell. After returning to the N. pool at the home of the Mitchell's home a delicious supper was served on the lawn.

Loyal Sisters' Club Members Given Party

The Loyal Sisters club met at the home of Mrs. George Duvall Wednesday afternoon with Mrs. G. Mills as hostess. A professional C. Flowers used in decorating the house. After a delightful hour was spent in conversation and needlework a plate lunch was served to the members. Dances were planned. The club has agreed to adjourn until the second week in September. Those in attendance were Mesdames Ed Allen, J. R. Barber, George W. Foster, C. A. Paul, John R. Hall, G. W. Scott, J. W. Biddle, J. C. Levens, George Duvall and Mrs. G. L. Mills.

Three Churches Plan Entertainment For Tonight

The young people of three churches are to have entertainment tonight when a banquet, picnic, and ice cream social are planned. The banquet is to be given by the Senior Epworth league of the First Methodist church at the home of Pauline Holland, 2315 14th street. The banquet is to start at 7:30 o'clock and new members of the league are given special invitation to attend. The picnic is to be given by the Senior Christian Endeavor of the First Presbyterian church. All members are requested to meet at the church at 7 o'clock and from there they are going to the Experimental farm east of town. The ice cream social is to be given at the Central Presbyterian church at 8 o'clock. Everyone is invited to attend and the proceeds are to go to the Endeavor society of that church.

Lahwatan C. F. Group Has Two Meetings This Week

The Lahwatan Capt. Fire group met at the home of their captain, Mrs. H. W. Broughton, 1515 Avenue D Wednesday afternoon. A business meeting was held and it was decided that the group will conduct a social Saturday morning at 10 o'clock. The proceeds are to go to buy clothes for orphan children at Kereville. Thursday evening a swimming party was given at the N. pool with Wm. Barker, Mary Florence Knox, Edith Thomas, Martha Spurgeon, Emma Shorter, Mrs. M. C. Taylor, and Miss Mildred Taylor, the hostess, in attendance.

Mrs. W. P. Jennings Is Hostess To Guests Thursday

One of the loveliest parties of the week was given Thursday morning at the home of Mrs. W. P. Jennings, 1618 17th street, when Mrs. Jennings entertained the First Christian church, naming as honorees for the occasion her mother, Mrs. J. F. McFarland, of Ladonia, her sister, Mrs. H. L. Graves, of Dallas, and Mrs. O. E. Townsend, of Pasadena, California. Friends of the honorees were also invited. A color scheme of lavender and white was used.

A program was given which consisted of songs by Harold Row, a reading by Miss Marjorie Leaverton, and a solo by Mrs. R. L. McKnight, accompanied by Mrs. R. A. Trussell.

Gifts were presented the honorees and at the close of the morning an ice cream was served, with sweet peas as plate favors, to Mesdames L. W. Squires, D. N. Leaverton, D. A. Robertson, James H. Robinson, H. D. Phillips, R. A. Mills, J. E. Van Buskirk, Clyde Elkins, A. L. Page, J. D. Quick, Charles F. O'Neill, Tom Garrard, J. L. Squires, W. N. Lemmon, J. D. Walker, G. C. Barber, Mary Hinton, W. T. Milam, E. C. Young, J. C. Bowles, Lon Mullican, C. Y. Partain, G. W. McLeary, R. L. McKnight, R. A. Trussell, Ed Vaughn, Lucile Reynolds and children, of Waco, Miss Marjorie Leaverton, Harold Rea, and the honorees.

Applied Pussy

Even so, I caught this paragraph in the novel and thought of it a little while sniffling the wet world outside. Mary Haysky Roxby had a job in her uncle's shipyard. It was about 1899. Women did not work "outside the home" in those days—especially not women with baby sons, as had Mary.

"She worked during this time as she never worked again, in all her long life. She knew that Mark Henry Garton would turn her ruthlessly out of the firm if she proved useless. She was there to fight with naked hands and wits in a world that conceded nothing to a woman except her right to be protected from it."

IMPOSED ON? We hear a great deal today about the hardships of women in business. Now, in order to be called successful, they must make good a hundredfold more than men in the same positions. We hear dramatic tales of impositions put upon women by male superiors; of males who

The Woman's Day By Allene Summer

Just a handful of thoughts percolated on the morning car ride. I carried with me Storm Jameson's new novel, "The Lovely Ship." It is a reflection on the book that I only read a page or so. Even the greatest book ever written could not have really competed with the rainwater outside the car window.

Scarlet-winged blackbirds flew up singing from swampy beds of arum lily and wild iris. Wild honeysuckle perfumed the air and mingled with the scent of ripe wild strawberries and sweet clover, made a bouquet fit for a queen's nostrils.

I GOT ONE Even so, I caught this paragraph in the novel and thought of it a little while sniffling the wet world outside. Mary Haysky Roxby had a job in her uncle's shipyard. It was about 1899. Women did not work "outside the home" in those days—especially not women with baby sons, as had Mary.

"She worked during this time as she never worked again, in all her long life. She knew that Mark Henry Garton would turn her ruthlessly out of the firm if she proved useless. She was there to fight with naked hands and wits in a world that conceded nothing to a woman except her right to be protected from it."

IMPOSED ON? We hear a great deal today about the hardships of women in business. Now, in order to be called successful, they must make good a hundredfold more than men in the same positions. We hear dramatic tales of impositions put upon women by male superiors; of males who

take credit for a woman employee's achievements, et al. But it seems to me that there are many more working women who complain as did Mary Haysky Roxby 75 years ago that "the business world concedes nothing to a woman except her right to be protected from it."

I know infinitely more working women who complain of not being given enough work, enough responsibility, enough recognition as competent workers, than the other kind.

MRS. EDISON'S PIECE Mrs. Thomas Alva Edison, another of these wives of great men who are rarely heard from, contrast her life in the days when they had no electric lights, no bath tub, et al. with the present day of multitudinous conveniences. She remarks that she is not sure that "modern conveniences" are a loss for "housewife to woman." She comments, "what a lot of time saved from housework is spent in bridge!"

I agree with Mrs. Edison as to the labor-making of many so-called labor-saving devices. But I can't see a lot of sense in the last remark. I really can't see just how or why spending time and energy cleaning lamp chimneys, trimming wicks, and filling lamps with oil, or sweeping with a broom, or scrubbing floors on one's hands and knees, is doing any more good to the worker herself, to her family or her community than playing bridge or indulging in any other frivolities.

PA'S AND MA'S TURN "The age of the child has run its course," some sage remarks, adding it counts and things are to be provided through the sacrifice of parents, the family will patiently become an unbalanced institution." Which sounds to me as sensible as anything heard in some time.

Mrs. G. L. Ford Gives Party To Club Wednesday Members of the Wednesday Needle club were entertained by Mrs. Gus L. Ford, 2311 18th street, this week. At the close of a very pleasant afternoon banana ice cream and cake were served to the following members and guests: Mesdames V. Thomas, F. M. Macklin, E. L. Klett, C. M. Ballenger, C. J. Wagner, H. A. Davidson, E. D. Jennings, and Mrs. Bransford, of Dallas.

Mrs. Charles Pickett of Post, is visiting Mrs. A. M. Howard, 1635 18th street.

Waterproof paper is being used in making raincoats, school bags, beach slippers, kitchen aprons and a variety of other useful articles.

Liquid oxygen for use by aviators in altitude flights is contained in a new vacuum bottle invented in France.

Ben S. Allen, of Chicago, is a business visitor in the city.

Rev. Chas. E. Metcalfe and daughter Loretta, of Handley are visiting Mr. and Mrs. Chas. Metcalfe, 1420 10th street. Rev. Metcalfe is Mr. Metcalfe's father.

Mr. and Mrs. W. H. Porter, 2718 8th street, have as their guests for the week Mrs. J. E. Vickers, of Chicago, and children.

Mr. and Mrs. T. A. White and children are leaving today for Ft. Worth where Mr. White will be in a district managers' conference of the southwestern Bell Telephone company for a few days. After the conference they will spend a month with friends and relatives in Stephenville.

Miss Theresa Everheart is visiting her brother, Floyd Everheart in Sherman this week.

Mrs. Carl Dwyer of Sinton is in a local sanitarium.

Quinn Buck of Crosbyton, was a visitor in Lubbock.

Mrs. E. A. Parks of Tahoka is in a local sanitarium.

D. M. Phipps of Lubbock was a visitor here yesterday.

Luella Benson Given Birthday Party By Mother

Mrs. N. L. Benson, 1302 Avenue J, entertained on Wednesday at this week with a party honoring her daughter, Luella's tenth birthday. After games were played Mrs. Benson served ice cream and cake to the following: Hilda Davis, Mary Elizabeth Barber, Betty Mills, Virginia Milam, Vera Louise Shaw, Yvonne Mae Warlick, Arline Harris, Johanne Mullins, Martha Ann Moore, Maxine Hensler, Jeanette Kelly, Letta Mae Harris, Nigha Tom, Dorothy Duncan, Alfene Duncan, Marjorie Burdett, Lucille Burdett, Helen Campbell, Harrell Rea, Charles Holt, B. F. Shepherd, Franklin Mast, Doris Reynolds, Ft. Worth, Wanda Norton, Mollie Norton, and Jim Corne, Norton, of Breckenridge. Mrs. Benson was assisted in entertaining by Mrs. Holt.

Mrs. Riggs Is Hostess To Her Daughter Marilyn

Marilyn Riggs was honored Wednesday afternoon when her mother entertained in honor of her fifth birthday. Many games were played on the lawn and late in the afternoon refreshments of ice cream and cake were served to the following little guests: Jack Giles, Kathleen Moore, Jean Anne Ransin, Mary Alice Maedgen, Winifred and Dalton Woods, Jack and Polly Peters, Harold and Shirley Parsons, Betty Alice Gordon, Dorothy and H. L. Allen.

LITTLE HOPE SEEN FOR EARLY FLIGHT

SOUTHAMPTON, England, July 28. (AP)—It is considered that there is little chance of Captain Frank Courtney starting on his projected trans-Atlantic flight before Sunday as weather reports received here indicate that stormy conditions are likely to prevail 1,200 miles west of Valentia, Ireland, for the next 5 days.

Waterproof paper is being used in making raincoats, school bags, beach slippers, kitchen aprons and a variety of other useful articles.

Liquid oxygen for use by aviators in altitude flights is contained in a new vacuum bottle invented in France.

How You Can Keep Pretty In Summer

BEAUTY EXPERT GIVES INGREDIENTS OF GOOD LOTION TO CLEAR AWAY TAN OR SUNBURN

BY MME. ANNE GERARDE For NEA Service

Nothing detracts from summer beauty more than a red or too deep brown tan. To bleach the face use the following lotion, applied with cotton, every night and left to dry on the face:

2 ounces of lemon juice.
2 ounces of spirits of camphor.
1 ounce of glycerine.
2 ounces of peroxide.

An ounce of prevention is really worth a pound of cure in the matter of tan. Therefore, I suggest that in conjunction with the bleaching lotion, you use one of the anti-sunburn creams which are on the market before you go out for tennis, golf or other outdoor sport. These prevent the sun's rays from penetrating. Buy one with a quinoline base.

Tomorrow: Sagging Mouth Muscles.

Local Briefs

James E. Clark, director of research of the Southwestern Advertising Company, of Dallas, is in Lubbock today on business.

Gordon Cobb, of Brownfield, was a visitor in Lubbock yesterday. He was a student in the Tech during its first year.

Mrs. D. A. Davis and children, of Spur, are in Lubbock and planning to make their home here in the future.

Mr. and Mrs. A. W. McKee and daughters, Ruth and Frances, and Miss Kate Prosser left yesterday for Carlsbad and other points of interest in New Mexico for a short vacation.

Ben S. Allen, of Chicago, is a business visitor in the city.

Rev. Chas. E. Metcalfe and daughter Loretta, of Handley are visiting Mr. and Mrs. Chas. Metcalfe, 1420 10th street. Rev. Metcalfe is Mr. Metcalfe's father.

Mr. and Mrs. W. H. Porter, 2718 8th street, have as their guests for the week Mrs. J. E. Vickers, of Chicago, and children.

Mr. and Mrs. T. A. White and children are leaving today for Ft. Worth where Mr. White will be in a district managers' conference of the southwestern Bell Telephone company for a few days. After the conference they will spend a month with friends and relatives in Stephenville.

D. M. Phipps of Lubbock was a visitor here yesterday.

The Morning Avalanche Menu for the Day

BREAKFAST—Fresh prunes, oatmeal, cream, crisp broiled bacon, creamed eggs, toast, milk, coffee.

LUNCHEON—Salmon and green pea salad, egg bread, soup, cream pie, milk, tea.

DINNER—Broiled Spanish mackerel, baked new potatoes, beet greens garnished with hard cooked eggs, banana and orange salad, brown Betty, milk, coffee.

Open-broiled bacon is sure to prove popular. The bacon should be placed on a rack over a pan. The regulation broiler of the average gas range fits the oven, but if one does not have this, an ordinary flat broiler can be supported on a pan so that the bacon cooks in the oven. The broiler receives the bacon "drainings" and the bacon is held quite above them.

When the cream sauce, sour cream pie will be a treat.

One cup sour cream, 1-2 cup sugar, 2 eggs, 1-4 teaspoon salt, 1 cup seeded raisins, 1-2 cup finely diced apples, 2 tablespoons flour, 1 teaspoon cinnamon.

Beat yolks of eggs until light. Add cream, mix and sift sugar, flour, salt and cinnamon. Add raisins and apples and mix thoroughly. Add to eggs and cream. Mix well and turn into a pie dish lined with pastry. Bake ten minutes in a hot oven. Reduce heat and bake until firm in a moderately slow oven. It will take about 30 minutes. Beat whites of eggs until stiff and dry Beat in 4 tablespoons sugar and 1-4 teaspoon vanilla. Cover pie with meringue and bake in a slow oven for eight minutes. Serve cold.

AMERICAN TOURISTS

Liners leaving this port on Saturday for Europe carried thither some 9,000 American tourists. That number does not represent the maximum of a day for the present travel season by any means but it has its interest, since normally the eastward rush dies down about mid-July. This year differs from most others. It appears likely to witness a prolongation of the marine procession of tourists and dollars to the places of Old World pilgrimage.

There remains the trip of the American Legion to its September rendezvous in France. In connection with this occurrence it seems fair to presume that many relatives and friends of Legion members will make a late start for Europe, in the intention of meeting on the other side. The tourist run has already been heavy, indeed, though one cannot yet definitely say whether the figure of 300,000, the number of Americans for which Parisian hotel folk made plans at the outset of the season, will be reached or approximated.

Doubters of the prospect of exceptionally heavy touring has unfavorable effect of the rise of French francs. Naturally not all who go abroad set foot on French soil, and not all who set foot there intend to make it their chief country of sojourn. None the less France for various reasons, the memories of the war not least, attracts a very great part of the throng. Theoretically these visitors might have held back to some extent on learning that a dollar worth some 37 francs in 1926 would squeeze out only a little over 25 francs in 1927. Actually persons bent on a trip for pleasure, particularly the spenders of dollars, calculate less than when they set themselves to figuring out normal expenses. And most of them have felt satisfied that in many cases the dollar would go further even now in France, as well as in any one of the several other countries, than it could be made to stretch at home. Moreover as all indications have shown—records of income tax, of home purchase of expensive things, of the numbers of investors—this country has today more inhabitants able to afford a trip abroad than it ever had before.

THE SPECIAL ELECTION

We think that the Texas Legislature made a great mistake when they called for an election on four proposed Amendments to be held Monday, August first. In the first place it comes at a time of year that a great many people in Texas are prowling about on vacations and are not thinking about voting. In the second place it is what is known as an off year in Texas politics. Thousands of voters in Texas do not pay their poll tax in this state except every other year, and the year in which they pay and get a receipt is the year that the general election is held. The year that state and county officers are elected. This year there will be thousands of people who will not be entitled to vote because they have not paid their poll tax, and then thousands of others will not vote because there is little interest in the amendments, and they will not take the time to go to the polls to vote. However the amendments put before the people are important ones. Some of them we believe should be given the support of the people and some of them to our mind is doubtful. All of them are well meaning, but we doubt if practical.

The first one proposes to increase the pay of state legislators and to raise the governor's salary from \$4,000 to \$10,000 a year. The second provides for some changes in the judicial system among other things, creating a supreme court of nine members and abolishing the present commissioners who assist the supreme court judges.

The third proposes an entirely new system of taxation.

The fourth would abolish the fee system for county officials, placing them on a direct salary basis.

Amendment No. 3, the tax amend-

ment, which is of most importance. In

general it provides that the legislature may classify all property for purposes of taxation. Under its plan the legislature, after classifying the property, would designate certain classes which would be taxed to provide state revenues. These classes could not, then, be taxed either by counties, cities or school districts. The latter could tax only such classes of property as were left alone by the state. The danger of such a system lies in the fact that no limit of any kind is placed on the state's powers of taxation. It may best be illustrated by an example, which, although exaggerated, is not impossible. Suppose the legislature classified property and then decided that enough money for state purposes could be raised by taxing corporations only. The corporations would have to bear the entire cost of the state government and the county, city and school taxing bodies could tax all other classes of property. Then let us suppose, that the state found it did not have enough money and decided it would tax, in addition to corporations, merchants, manufacturers, all real estate, leaving nothing but personal property for the other taxing bodies to touch. Such a plan would mean that personal property would have to be taxed beyond all limits or else, cities, counties and schools could not raise enough money to carry on their businesses.

To carry on the illustration and show by a ridiculous example just how much power the legislature would have under the proposed amendment. It could, if desired, classify property according to whether it was owned by bald-headed men or red-headed men, and could tax either or both. But other features enter into this new tax proposal. The state would have to assess property and collect taxes. It has no organization for that. One would have to be created, presumably at Austin. Your property would be assessed by strangers who do not know local values. If you had an objection to make to the valuation you would have to go to Austin to make it, and your railroad fare in most cases would be as much or more than any reduction in values—if you got a reduction, which is not likely. Furthermore, the state would add to the taxes the cost of sending its assessors and collectors all over the state. It is a dangerous measure, this new tax proposal, and it is not enough for a person to be against it. That attitude won't count unless he goes to the polls and votes against the amendment. Amendment No. 1 is also of extremely doubtful value. Its change of pay for the legislators would mean approximately an increase of \$250,000 a year. It is well known that the legislature now has too many members to be an efficient body. It is unwieldy. The increase in pay is not enough to insure that the quality of membership would be raised any. Even if it were there would still be too many members to do efficient work. The proposed increase in pay would be nothing more than extra cost to the state. It would not better present conditions in the legislature.

If a change is wanted there, let the number of legislators be reduced so that a compact, efficient body of men is obtained. Then pay that small number of men in proportion so that the best material would be attracted to the legislature. Good legislators and good legislation at a cost that would be worth while. As to the pay of the Governor we are heartily in favor of the governor being paid more, there is nothing quite so ridiculous in Texas as the pay the governor of this state receives. The very idea of the Governor of Texas. The biggest state in the Union drawing the measly little sum of four thousand dollars. Thousands of men in Texas draw more salary than that, and do not have to spend thousands of dollars each year to be elected to the job.

HOME OWNERSHIP

It is a wonderful thing—a sort of permanent adventure—to have achieved a house, garden, and fields of one's own. To have and to hold, to cultivate and to improve. It's fine to pay rent but it does not give great joy; to pay taxes, however much one is loath to part with the money, ah, that is an adventure that makes a couple hold up their heads and feel themselves part owners of every schoolhouse, road, and other public utility. It's a successful tilt with Dame Fortune. No malcontent gets any sympathy from them—their own land, small or large thought it be, and they are for building up the community. Tenancy is the mother of "Oh, what's the use?" and ownership begets "Let's do it." The home of one's own many mean long plodding, self-control in resisting the temptation to turn into many a pleasant by-path but, oh, how well worth while in one's own house at the end of the road.

Oh, one could go along forever, talking about the occupations, the prizes of opportunity that woman has dared and won.

After all, the thing that venturing on the highways has done for man or woman has been to make the world one in thought, and in sympathy. Human beings, like circles, touch at one point and that point is the heart. If one doubts it, let a neighbor, whether he be on the next farm or in the floods of the Mississippi Valley, venture into that dark valley of the shadow of death, and see the outpouring of helpful sympathy. On the road of life's adventure our various paths touch and cross. Sometimes the meeting and passing is in the valley, sometimes on the uplands, but each contact, each smile, and handshake is an adventure that makes the way richer, fuller, and more worth while.

OUT OUR WAY

IT IS REPORTED

It is reported that Germany is constructing a 100 passenger plane.

It is reported that the cost of living in Germany is forty per cent over that of the war time and in France it is over four hundred per cent.

It is reported that the hog and cattle market is getting better every day. Good time for the farmer and the stockman to begin to think of his interests.

It is reported that in Asia an earthquake killed more than one hundred thousand people about May 16 and now the outside world is just hearing about it. Asia is a larger country than we thought it was.

It is reported that Lubbock is free from infantile paralysis. Out came gossip stirred up some excitement in Lubbock when it was rumored that several cases were in Lubbock, but the city health officer denies it.

It is reported that the U. S. and Japan are losing hope in the naval treaty at Geneva as no agreement has been met with.

It is reported that the West Texas Gas Company will build a large warehouse in Lubbock to care for the needs of the gas supplies in Lubbock.

It is reported that forty people were drowned yesterday on Lake Michigan while cruising on a small boat.

It is reported that over 22 million dollars worth of improvements are being made on the South Plains to date which includes construction of new railroads, gas lines, hard surfaced roads and many other civic improvements.

OPINIONS

FARM INCOME

While President Coolidge at Rapid City listened to the presentations of spokesmen for distressed farmers, his Secretary of Agriculture at Washington was engaged in giving out another set of figures bearing on farm income, or lack of it.

Both these sources of supply concur to think that the farmer, as has indeed been conceded for some years, does not receive all that he ought, as compared with other professions. But the Department of Agriculture and the statisticians of the Corn Belt Federation, whose figures are published simultaneously, none the less differ widely. The department finds that the farms in 1926 made a net income of some \$2,448,000,000, or \$400 on the average for each of some 6,120,000 farms in the country. The federation finds that the farmer is producing corn at a cost of 45 cents a bushel more than the present market price; wheat at a dollar more of cost to him than the present market; oats at a loss of 35 cents a bushel; hogs at a loss of 45 cents a hundredweight.

The farmer may not be making what he should, but the department at least shows him to be making something. Why, then, this discrepancy? It arises largely from two differences in figuring. The federation reckons \$1,000 a year as a fair income to each farmer; it also reckons that he must receive a return of 5 per cent on his investment in real estate and of 7 per cent on his investment in other property.

The government reckons the total of all farm capital not far from \$30,000,000,000 or \$10,000 to the farm. It apparently allows some \$750 a farm to the Department of Agriculture figures for 1926, as returns applicable to capital. What valuation the Corn Belt Federation may put on farm investment does not appear in the figures now pub-

lished. Much depends, evidently, on this matter of the valuation to be placed on farm capitalization. As for allowing an average return of \$1,000 as the proper earnings of each person operating a farm, that figure is open to serious question.

No one knows how many farms are run on a part-time basis, nor how many are run incompetently, or in the face of adverse individual conditions when they should be closed down on the standard farms the operator ought not doubt to average \$1,000 but that is another matter.

In this discrepancy the federation would seem to be at fault. One can well understand that farmers who get too little may ask too much in the hope of getting enough. But the public wants to know what they really ought to get. In respect particularly to farm valuation, if something systematic is to be done by legislation the public should first have a more exact valuation of farm lands. It has already in large measure obtained such a valuation of railroad properties. The public will probably not concede that the seemingly inflated farm land prices of 1919 should form the basis of a present valuation.

Yet, regardless of farm distress, has resulted in part from the inability of owners to pay charges on debts incurred by land purchases in that inflation. If farmers bought farms too high seven or eight years ago, in a speculative spirit, the public is entitled to know that before any tentative measure of relief at public expense or risk is passed to enable farms to own a return on valuations. When we come to reckon land values, however, east of reproduction, though it may help in valuing railroads, it may not help in valuing farms. The farmer's land is not reproducible land. Earning power of land before the war, with allowance for subsequent change in the value of the dollar might supply a fair valuation basis. But do not forget that many farms have been valued on that basis—reckoning high.

We think that there is one day this fall that the stores of Lubbock should definitely be closed right and that is the day the Manders clash with the Texas Aggies.

We think that real estate transfers are numerous in Lubbock each week—another good indication that the economy of this city are still in an optimistic mood.

We think that it is getting near time for some of those home grown watermelons to be showed up on the local markets.

We think that every Lubbock citizen should get behind the South Plains Cooperative campaign and make one of the most successful campaigns in the history of Lubbock and the South Plains.

We think that 'tramp, tramp' song will have to be changed to 'tramp, tramp' since the army is going to walk on rubber heels.

We think that it seems Great Britain and a few of the others are considerably off their usual heads.

We think that the ladder of life always seems to be a little less short of reaching our pet ambition.

We think that 'tramp, tramp' song will have to be changed to 'tramp, tramp' since the army is going to walk on rubber heels.

By Williams

SO THINK WE

We think that a man who can work hard all day every work day in the year, and then go home to his wife and children and behave himself every night in the year is the best kind of a citizen a country can have but that the time is not coming when every year.

We think that more precaution should be considered in the flight of ends. The casual flying of one's hat out the life of a cavalryman recently at El Paso.

We think that Lubbock's building program has to be in the perspective of the future. The business man can rarely overcome the resistance of a judgment as formed about when he does not know as much, because he prefers to take the chance this his recommendations are deserved.

And so we would plead that the young men look well to the impression he is making on his seniors. Be sure that the use of leisure time and money is such as to command the good opinion of older men. No business man likes to entrust his money to a young man who apparently does not know its value, who gambles it away, contributes to the support of his father, pays a fine of the municipal library or the "hacker's" misadventure.

We think that there is one day this fall that the stores of Lubbock should definitely be closed right and that is the day the Manders clash with the Texas Aggies.

We think that real estate transfers are numerous in Lubbock each week—another good indication that the economy of this city are still in an optimistic mood.

We think that it is getting near time for some of those home grown watermelons to be showed up on the local markets.

We think that every Lubbock citizen should get behind the South Plains Cooperative campaign and make one of the most successful campaigns in the history of Lubbock and the South Plains.

We think that 'tramp, tramp' song will have to be changed to 'tramp, tramp' since the army is going to walk on rubber heels.

South Plains Press

THOUGHTS FOR YOUNG MEN

The following from the Children's Post is a condition that prevails all over the country, and it is a matter that should not attract the attention of the boys of this community as well. There is a lot to be taken into consideration when it comes to the making of manhood, and the getting and holding of responsible position. The Post gives this story:

About twenty-five young men of children made application recently for an important position, with nationwide ramifications and offering almost unlimited opportunity for advancement, had created a new "job" for some one.

The position involved the handling of considerable sums of money and the necessity of a bond. It did not require previous experience. The officials of the company considered all applications and was compelled to employ a young man who did not live in Children's Post. They would have much preferred a Children's Post man.

An official of the company made this statement to the editor: "Observation of the use of their time and money by the young men who applied for the place had practically all to do with their rejection. Some of them we did not believe to have the necessary educational qualifications, though most of them could not meet that condition. The thing that dismayed us in considering them for the place was that too many of them were the young men who hang around the drug stores in the evenings, watching codes, looking at the girls, wearing the flannel clothing and in debt, otherwise giving evidence of taking no thought for tomorrow and its opportunities. It is unbecomingly said," said the official, "that so many of our local young men (told to measure up to the simple requirements of this position) that is so full of promise for the successful applicant."

This column has repeatedly pointed out the fact that business men are constantly observing the boys of this city as they grow up. The habits of the boys are usually known to the business man. They may say nothing to the boys—most of them do not—but they are silently forming opinions, and when the time comes for discussion as to the fitness of one of the boys for an important post, the business man discovers, as did the corporation official, that his mind has already been made up from the bits of criticism which the boy's day-by-day life has offered. The business man can rarely overcome the resistance of a judgment as formed about when he does not know as much, because he prefers to take the chance this his recommendations are deserved.

And so we would plead that the young men look well to the impression he is making on his seniors. Be sure that the use of leisure time and money is such as to command the good opinion of older men. No business man likes to entrust his money to a young man who apparently does not know its value, who gambles it away, contributes to the support of his father, pays a fine of the municipal library or the "hacker's" misadventure.

BAD BOOKKEEPING

The medical part of a large city hospital had been reorganized and was at the opposite side of the picture in the business man, in secure financial position, who sets examples like the above to the young men of his town, and who is pointed at by them as justification of their course. "Mr. Manso does everything I do, and he seems to be well enough regarded by everybody," they say. And the mouth of the would-be Mentor is sealed thereby, so far as the effectiveness of his advice is concerned. The adult business man's example can easily start another man's son on the wrong path. Sometimes it's his own son. What a tragedy!

The position involved the handling of considerable sums of money and the necessity of a bond. It did not require previous experience. The officials of the company considered all applications and was compelled to employ a young man who did not live in Children's Post. They would have much preferred a Children's Post man.

Tuskers Appear Rabbits From Air

KHARTUM, Egypt, (AP)—The air route mapped out above the wilds of Africa over which airplanes are to fly in the service between Khartum and Kisumu is at such a height that elephants appear about the size of rabbits.

Captain Gladstone, director of the North Sea Transport Company, who has made numerous trips preliminary to inauguration of regular commercial service, relates that during a flight over the country between Bor and Shambel he noticed a large number of animals which appeared to be black sheep or rabbits.

He descended to have a better view and then realized that what he had sighted were elephants—about a thousand of them.

As the noise of the motor came nearer the herd stampeded and scattered in all directions, leaving behind one of the largest bulls. It tossed his trunk into the air and defiance looked his body back and forth in apparent rage at the intrusion of his native haunts by a great bird.

Airplane crew the distance between Khartum and Khartum in four days in comparison to the 14 days' journey required by rail and steamer. Regular service is expected to be started in the fall or as soon as the machines for the route have been completed.

FLOYD BOND VOTE CLOSELY WATCHED

CITIZENS WILL DECIDE IF
COUNTY WILL PAVE THE
LEE HIGHWAY

LOCKNEY, July 28.—Citizens of Lockney and west of Floyd county are watching the vote of the voters of the county on the Lee Highway.

The Lee Highway, which is to be paved, is a 24-mile road from Lockney to the west.

Decision On Funds Handling Delayed

ROCK SPRINGS, July 28 (AP)—After hearing the demurrer of the defendants in the case of A. E. Aiken against the Citizens Committee which had charge of the distributing of the relief fund given the city following its disastrous storm of April 12, Judge Joseph Jones, presiding, reserved his decision until 9 o'clock Friday morning.

The demurrer of the defendants contends that the distribution of the funds and the work of the committee are a matter over which neither the district court nor any other court has jurisdiction.

The court room was filled during the day and while there was no demonstration of any kind the situation is tense.

Should Judge Jones sustain the demurrer of the defendants then the case would be thrown out of court and a refiling of the case along some other different lines would be resorted to should there be a desire to carry the matter further.

Should Judge Jones overrule the demurrer then the taking of testimony would be in order.

The petition of Mr. Aiken, the plaintiff, alleges that the relief committee mismanaged and misappropriated the money and that members of it paid themselves an unreasonable amount.

Nachtrab Facing 11 More Charges

AUSTIN, July 28 (AP)—Eleven indictments charging forgery and obtaining of money by false statements were returned today against L. J. Nachtrab, former division highway engineer, by the Travis county grand jury investigating alleged "grand padding" and other activities which the attorney general's department claims cost the state more than \$15,000.

Nachtrab is already under bond to answer to five recent indictments charging forgery of highway warrants. He was indicted the first time with S. C. Tompkins, formerly division chief clerk under him and H. J. Joseph, allegedly carried as a "dummy" on the payroll.

The grand jury returned until August 8th. Further investigation of highway department payrolls probably will be made.

HENDRICKS POOL EXTENDED

The Hendricks pool in Winkler county was extended one and a half miles to the north Wednesday by the Southern Crude Purchasing Company's No. 1 A. 1. In section 44, block 26, public school lands, which was flowing 40 barrels hourly from a total depth of 2,311 feet and two feet in the pool, driving to the distance from other producers it is now expected to cause a big drilling campaign as it is feared would result from the bringing in of the Texas No. 1 Hendricks Union.

Empire test drilled in Callahan producing. The rank wildcat of Empire Gas and Fuel Company, on the Johnson farm in Callahan county, the first deep producer of the county, which has been shut in for several days, was opened up and permitted to flow for four hours, and made 42 barrels of fluid an hour. Fifteen per cent of the fluid was water.

POSTER TEST IS MAKING 170 BARRELS AT 2,850

Decreased Loads Shown By Roads

(By Associated Press)
DALLAS, July 28.—Railroads serving southwestern territory report for the two weeks ended July 23 a decrease of 3.1 per cent in carloads with revenue freight and a decrease of 18.4 per cent in loaded cars received from connections as compared with the same two weeks last year. R. C. Andrews, district manager of the car service division of the American Railway association, said:

In his report on conditions for two weeks ending July 14, Mr. Andrews in the Fort Worth market—40 per cent more, from 42 per cent more and sheep approximately the same as for the corresponding period last year.

A decrease was noted in coal shipments, while cement was slightly ahead, and a similar smaller volume is reported in sand, gravel and stone, as well as forest products. Despite the flood's destruction of many acres of sugar cane in Louisiana the outlook for a good crop of what was left is favorable, with a reduction forecast for sugar beets, and a slight increase in rice production is predicted.

Watermelon and cantaloupe shipments from Texas, according to reports from the report, and citrus and other fruits and produce are moving in small volume.

No shortage in car supply or shipping facilities have been reported.

SALE OF GORDON'S SHADOW CLOX HOSE Regular \$3 Value \$2.25

This is positively the lowest price for which these hose have been sold anywhere.

Do not confuse Shadow Clox with embroidered Clox, for Shadow Clox are woven into the hose by an attachment to the machinery and are not raised. The embroidered clox is much shorter and is raised.

You may have them in Black Clox or the self same color or clox running down. They're made of a very sheer chiffon, and the newest summer colors are included at the sensationally low price of

MARLAND MAKES NEW HOWARD COUNTY TEST

BIG SPRING, July 28.—The oil activity seems to be gaining in Howard county, new locations being made daily. The Marland Oil company of Texas, has made a new wild-cat location on the Haynes farm, four miles south of Big Spring, on section 20, block 22, Twp. 1 north. The closest production to the well being at least ten miles.

The Peer Oil company also made new location on the center of N. W. quarter of section 29, block 20, T. & P. survey.

Robert Clemmings and Miss Mary Davis of Glasgow closed in a stolen car, but were caught before the ceremony was performed.

Mr. and Mrs. Leon Petrows of Marbles danced on their 90th wedding anniversary, each being 100 years old.

Connections at Lamesa for Midland and Odessa at 10:30 AM, and at Big Spring for San Angelo at 8:00 AM, and at 12:00 PM.

For Joyful
Breakfasts

Old Fashioned
Fried Mush
Enriched with

Deming's
QUALITY
CANNED SALMON

Happy smiles attend the breakfast in home or by campfire where DEMING'S, the world's Quality SALMON, is served in this delectable way:

Add 1 teaspoon salt to 1 quart boiling water, then stir in a cup of cornmeal, stirring constantly. Cook five minutes over direct fire, then 1 hour in double boiler. Add 2 cups DEMING'S Quality Canned SALMON, flaked, and season. Cook a few minutes longer, pour into pan and chill. When desired for serving, cut into 1/2 inch slices and serve in butter to a golden brown.

Try any Brand of canned SALMON under the DEMING name, in half a dozen varieties of this toothsome seafood, au gratin with cheese, in a fluffy soufflé, creamed on toast or just as it comes from the tin.

To insist on DEMING'S (DEMING & GOULD) is to enjoy quality in the "King of Food Fish," direct from the cold, deep waters of Puget Sound and Alaska to your table, in vacuum-packed, hermetically-sealed tins. Tender, rich, high in PROTEIN (Nutriment) content, easily digestible, healthful in IODINE and MINERALS.

DEMING'S Quality Canned SALMON is the best Food Value at the Least Cost of anything in cans.

Send in this coupon for DEMING'S Free Booklet, made for your recipe cabinet, giving 50 Free-Winning ways to prepare DEMING'S on every occasion.

LOCKNEY TO VOTE UPON SEWER BONDS

FIFTY FIVE THOUSAND IS
ISSUE PLANNED FOR
BUILDING SYSTEM

LOCKNEE, July 28.—Lockney voters go to the polls on August 15 to determine whether the city will issue \$55,000 worth of bonds for the purpose of installing a sewer system in the city.

Work on the city's \$30,000 water system is well under way and should be completed in the next 30 days. Construction work on the main building of the Lockney cotton plant is practically finished and more buildings are now under way for that plant.

The brick work on the Dymington building, a two-story structure, is practically finished and the building should be ready for occupancy within the next three weeks.

Residences Built. A new brick veneer residence is now being constructed by Jack Dymington of this city along with two others that have just started or practically completed. Local contractors predict a let-up in business building activity with residence building on the increase. Lockney's building program for 1927 has surpassed already that of any previous three years with prospects for a gain during the latter part of the year.

Workers are plentiful, with practically two men for every job and very moderate wage scale is being paid.

PROSPECTS ARE OPTIMISTIC

PRODUCTION UNDER 1926 BUT
BETTER PRICES EXPECTED
FOR GRAIN AND COTTON

Inquiry made by representatives of the Santa Fe Railway in the twelve states served by its lines from the Great Lakes to the Gulf of Mexico and the Pacific Ocean brought encouraging information about the crop situation for this territory as a whole.

While it is expected that total yields in many states will be under that of 1926 because of unfavorable weather early in 1927, the feeling is general that prices are going to be above those of last year. The above growing stuff has shown marked improvement in the last few days. The weather is satisfactory over the entire territory. Summer approaches with better weather signals than usual.

What Situation Improves. With a possibility that the winter crop of the United States will run nearly 100,000,000 bushels, the yield of 1926, the attention of the country is challenged by the harvest in progress in the southwest where eleven states are being harvested. The Santa Fe reports June 28 that the total in the Santa Fe states 337,600,000 bushels, and in the United States 542,000,000 bushels.

A slump of from 20 to 25 per cent in prospects in the Southwest since May 1 is due to as many causes of trouble as ever confronted wheat crops, including drought, rust, Hessian fly, greenbug smut, and hail; but with all these, sections described will take credit for a fair yield of good quality wheat.

Texas and Oklahoma are approaching the end of their harvest, and Kansas is well under way. The other states are starting to cut, or getting ready to cut.

The combine harvester accounts for half the acreage in Kansas, Texas and Oklahoma. Blowers and headers are used elsewhere. Mills and elevators are filling rapidly. The railroads have so far been able to prevent congestion, due to advance preparation.

Big Spring Wants Viaduct Crossing

BIG SPRING, July 28.—The business men's luncheon club in this city today officially endorsed a move to secure a viaduct across the T. & P. tracks at Grace street. E. W. Higgs, civil engineer of the Texas Pacific railroad, displayed a drawing and estimate of a viaduct suitable for the highway crossing and street crossing at Big Spring.

City Manager Montan stated that a city of Big Spring would consider a cooperative proposition in which the state, county and railroad would participate the cost to be equitably distributed.

R. T. Piner, cashier of West Texas National bank and member of city commission, announced the viaduct issue to be voted upon August 9, calling for the paving of one or more blocks of residence property. According to Mr. Piner, the base for this paving will be five blocks, the bridge is likely to be Uvalde Rock Asphalt applied.

Peter Stinkovich, an organ grinder of Wilkeson, Ky., was fined \$10 for not putting his name on his sign.

Mrs. R. T. Simpson and son, of Dallas, are visiting in the city of Mr. and Mrs. Joe H. Webb, 90 Avenue L.

PREMIUM LIST OF FLOYD FAIR IS OUT

THOUSAND COPIES TELLING
OF INCREASED PLANS
ARE MAILED

FLOYDADA, July 28.—One thousand copies of the premium list for the Floyd County Fair to be held in Floydada September 22, 23 and 24 are being mailed out by the secretary of the fair this week. The catalogue contains a complete list of the premiums offered in the different departments and an outline of the program for the three days.

One of the best attractions of the fair this year will be the community exhibits. Four communities have already signed a contract to exhibit sixty days in advance of the fair. The most liberal premiums offered by a free fair are being offered this year. First place will receive \$75, second \$50 third \$25, fourth \$20, and every community exhibiting and not receiving one of the above premiums will receive \$10.

Two free trips to the state fair will be awarded in the girls 4-H club work. The first will be awarded by the Floyd County Hesperian and the second by the Fair association. One trip was given last year by the Hesperian and the interest created caused the premium to be offered again this year.

Other features of the fair will be the home demonstration exhibits, the flower and art show, and individual agricultural exhibits.

GLORIA SURPRISES HER 'LEADING MAN'

UNIVERSITY OF TEXAS GRAD,
CHOSEN TO PLAY WITH
MISS SWANSON

Gloria Swanson motion picture star, likes nothing better than surprising other people.

Here is one she gave John Boles, son of a Texas banker, which brought him the leading male role in "The Love of Sonya." He is six feet tall, has a strong athletic physique and is described by Harriette Underhill, the motion picture critic, as the handsomest man in films today.

Boles intended to study medicine after graduating from the University of Texas, but the world war and later study of voice under Oscar Seagle, and John de Reszke changed his plans. His stage career includes "Little Jesse James," "Mercenary Mary" and "Kitty's Kluge."

MAY MOVE COUNTY SEAT.—Petitions for an election to move the county seat from Houston to Carbon will be circulated by business men of Carbon and Gorman. It was decided at a meeting here Wednesday.

Joseph Curran, Indianapolis, Ind., dropped dead while carrying a coffin at a friend's funeral.

Fishing Easy in Black Hills

There's nothing complicated about catching fish in Rapid creek, where President Coolidge fishes, according to little Betty-Joe Buell, granddaughter of Judge Buell of Rapid City, S. D. Here Betty is shown landing a nice trout.

BOLES PLAYS THE ROLE OF GLORIA'S GAS SHOWING FOUND IN KING COUNTY TEST

Two tank wildcats in King county, about 30 miles east of Lubbock, are showing gas.

Patterson and others, No. 1 Patton, in section 44, block A. R. M. Thompson survey, has about 1,000,000 feet in the top of a sandy layer at 2200 feet.

White Eagle Oil and Refining Company No. 1 Burnett, in the Thompson survey, is showing gas at 2,850 feet.

MILLIKEN SENTENCED.—LOCKHART.—Convicted by a Caldwell county jury of the murder of Mrs. Virginia Petty of San Antonio, A. V. MILLIKEN, Wednesday was sentenced to die in the electric chair on September 22.

Two days after he ordered his grave dug, Fred Fisher, of Charlotte, N. C., died suddenly of heart disease.

Slaton Crops Are Progressing Well

SLATON, July 28.—Crop conditions in this section are excellent. Weather favorable to the best possible advancement of cotton and feed crops has been continuous since the first rains came enabling farmers to plant. Although planting was delayed somewhat before seasonable moisture fell, farm leaders believe the crop outlook is so bright that the territory is likely to have one of the best agricultural years in history. Cotton is surprisingly advanced toward maturity and feed crops are now heading on many farms.

LADYBUG FARMS ARE NEW COLORADO PROJECT

COLORADO SPRINGS, Colo. (AP)—Farmers of the future may receive market quotations reading: "Hippodamia convergens, \$5 a quart," if plans for the starting of a lady bug farm near here are carried out.

Since the near plague of ladybugs in July, 1925, when bushes after bushes of the harmless insects were taken off trees in the Pike national forest, the research department of the service has found this region suited to the raising of the insects. To orchardists, melon and onion growers the

Announcement of Interest to Music Teachers, Lovers of Music and Piano owners.

See How Your Ice Is Manufactured

The best argument we secure for the quality of our ICE comes from those who have seen it made.

The modern manufacturing methods used and the sanitary conditions that prevail throughout have made them enthusiastic boosters for the ICE we deliver to Lubbock homes.

It has inspired confidence, and if you haven't had the pleasure of taking this interesting journey through our ice plant, you should by all means do so at your earliest convenience.... see how the ice you use is made.

THE PENNY PRINCESS

COPYRIGHT
1927 BY NEA Service

by Anne Austin

BEGIN HERE TODAY

VERA CAMERON, efficient private secretary for the Peach Bloom Cosmetics Co., expects a promotion to position of secretary to the president, Mr. Cameron, and is disappointed to learn another girl is given the place. When she inquires why she is ignored, he tells her frankly she is too much of a slave driver for a man as old as he is; that he wants someone with brains but who is also human. However, he tells her she is to be made assistant to the new advertising manager, JERRY MACKLYN.

When Vera reports to Jerry for work the same morning, her morale as a perfect private secretary receives a severe jolt. Macklyn asks Vera to write him a confidential report on the use of Peach Bloom cosmetics, based on her experience. When she has to admit she has chastely refrained from everything but cleansing, cream and powder he is amazed. He has a sudden inspiration. He proposes to transform her into a beauty with the company cosmetics, photograph her in every stage of the transformation and use her photograph in the advertisements. Vera leaves him, her cheeks blazing with anger.

NOW GO ON WITH THE STORY CHAPTER V

"Well, what do you think, Miss Proctor? Am I crazy or can we make a beauty beauty of this girl?" Jerry Macklyn demanded, his eyes darting from the embarrassed Vera to the cool, professional, pretty little demonstrator of Peach Bloom Cosmetics.

Miss Kitty Proctor looked at her boyish-bobbed head and surveyed Vera critically from head to toe with calculating but friendly black eyes, cunningly enlarged and brightened by Peach Bloom Star Lash.

"Sure! It will take a lot of work, but it can be done. I'd start right in with a course of facials first, using our Peach Bloom Skin Food and Peach Bloom Bleach, to get rid of those freckles you know, and to tone up the skin. He hair would have to be bobbed, of course."

"Oh!" Vera wailed, her hands flying to her long braids, as if to defend them against vandals. "I'm not the bobbed-haired type."

"Oh, shut up! You don't know what type you are!" Jerry Macklyn interrupted her with brutal rudeness, alleviated with one of his wide grins. "Go on, Miss Proctor. Shoot the works!"

"And the color of her hair is terrible," Miss Kitty Proctor continued, nibbling at a highly manicured forefinger reflectively. "We've got a swell line of hair tint—"

"I won't have dyed hair!" Vera cried passionately. "I'll be so ashamed that I'll probably commit suicide when they do come out."

"Say, wait a minute!" Jerry Macklyn held a hand on her arm, and halted her in the lobby of the Fifth Avenue building. "If you really don't want your pictures to be used, why are you going through with this stunt. It's not

"There you are, Miss Proctor. There's your model! Can we do it?" Lord! Jerry breathed reverently. "Look out or you'll be falling in love with a picture," Kitty Proctor giggled. "Wonder who she is? Stafford cut off the caption."

"One of those imported movie stars, I suppose," Jerry mused. "But I'll tell the world she's the slickest article I ever looked at! Green eyes, too! That's what made us remember the picture."

"Aren't you going to let me see?" Vera demanded icily.

"Your curiosity amazes me. I might even say it pains me," Jerry laughed, taking out his pocketbook and depositing the picture tenderly and reverently in one of its folds.

"I know just the man to give her that job," Kitty Proctor told him, ignoring Vera as if she did not exist. "With that picture to go by, he can give her a permanent and a bob that will make her look like that girl's twin sister. Now, Mr. Macklyn, how are we going to work that stunt? She's going to need a lot of work done on her, and I suppose she'll be busy during the day."

"I should say she will!" Jerry agreed. "We're going to be snowed under with work. This is just one of my bright ideas, and I'm bursting with a million others. You're not going to put her out of commission, temporarily while you work on her, are you?" he asked anxiously. "By the way, Miss Proctor, this whole thing is to be kept a dead secret until I'm ready to submit my series to Canfield."

"Let me see," Kitty Proctor considered, drawing her plucked brows into a thoughtful frown. "We'll let the permanent and the bob go till the very last thing, so the bunch here won't get wise. Where do you live, Miss Cameron?" she whirled upon Vera.

"With my aunt, at Seventy-ninth and Riverside Drive. But I don't want her to know a thing about it until I'm made over," Vera confessed. "She'd leave the life out of me. Oh, I think the whole thing is silly and impractical."

"Don't think so damned much," Jerry Macklyn frowned at her. "What were you going to suggest, Miss Proctor?"

"Well, I don't know how it would strike Miss Cameron, but my girl friend, who has been paying half the apartment rent, is in the hospital—"

"I don't know that," she said, looking at her. "I don't know that Miss Cameron would like to hide out while she's getting her treatments. I could let her have my girl friend's room and I could give her the treatments my

self. I've got a lot of beauty parlor equipment in my place."

"How long would it take?" Vera asked weakly.

"Well, Kitty Proctor considered those freckles aren't going to come off in one night, and your hands and nails and skinned a lot of work. I should say it could be done in three weeks. If you put yourself absolutely in my hands. Of course you'd go right on working during the day, and about all anyone would notice would be that your complexion was clearing up. At the end of that time you could get your permanent and your bob, and be all ready to step out as a new person. You'll be new all right. I can guarantee that. And if I decide to peel your face—"

"Oh, it doesn't hurt, and it's much quicker than the bleach pack. You'd have to stay in the house for three days, but I guess Mr. Macklyn could manage without you from Friday night to Tuesday morning."

"All right," Vera gasped and took the plunge. "I'll do it. I'll move to your apartment tonight. If that's convenient for you. I'll have to see my aunt first—"

too late, you know, to back out. "I can't back out!" Vera told him desperately. "There's a reason—but I can't tell you."

"Take off those winduppanes," Jerry ordered her gruffly. "I want to see what your eyes look like when you cry. Here!" And regard less of passerby who eyed them curiously, he reached up and yanked off her spectacles for the second time that memorable day.

Vera's green eyes shimmered at him behind a magnifying lens of tears.

"Whew!" Jerry Macklyn whistled, whipping out a handkerchief and mopping his suddenly damp and burning eyes. "You had a decent womanly pity for poor susceptible males."

"Are you susceptible?" Vera pressed herself by asking. "Did you ever see a red-headed Irishman who wasn't?" Jerry retorted. "But say, young woman, why didn't you tell me the truth in the first place—that you were in love with another chap that you wanted to hook with the real beauty I promised you?"

"Why should I have told you that, even if it had been true?" Vera demanded.

"Why? You ask me why?" Jerry growled, with mock bitterness. "Here I get all set to turn you in to my own ideal of feminine beauty and you floor me with the news that it's all for someone else. Is that nice—now I ask you?"

"I thought it was all for the Peach Bloom Cosmetics company," Vera laughed.

"That's right. Put me in my place," Jerry urged her glumly. "Vera's heart was wickedly light when she took her spectacles off again. Automatically she adjusted her spectacles after Jerry had slammed the door upon himself in his private office, and began to type fast and furiously on the last of the letters that her new boss had managed to dictate between the more exciting events of that extraordinary day.

Outwardly she was the same girl who had entered the offices of the Peach Bloom company that morning. But the extent to which she had changed inwardly could have been accurately gauged by a mind-reader. For Vera Cameron was saying to herself, while her mouth dimpled and her green eyes sparkled behind her yellow-tinted spectacles:

"Let him take all the silly pictures he wants to! I'll vamp him into not running them! It will be good practice. I'll need it if I'm going to be ready for Schuyler in the middle of June. Schuyler—dear!"

(To Be Continued)

Vera decides to take a few lessons from her aunt in the art of captivating men. She has her first one in the next chapter.

NEGRO MUST DIE

DENTON—Jesse Brinkley, alias Willie Robinson, negro, Wednesday was sentenced to death in the electric chair on September 1 after a jury here had found him guilty of the murder of J. C. Terrell, Justin farmer.

CARPENTER KILLS SELF

GALVESTON—A man identified as Xenophon Profitit, Houston carpenter, was found dead in a hotel here Wednesday. An empty bottle which had contained poison was found beside him.

TEXAS WILL GROW BETTER STAPLES

ALL STATE ADAPTED FOR RAISING GRADES NOW IN DEMAND

COLLEGE STATION, July 28.—Improved varieties of cotton, producing a good quality of staple with a length from one to one and one-eighth inches, can be grown profitably in virtually every cotton-growing section of Texas, D. T. Kilough, agronomist, Experiment Station, said in a discussion at the special cotton session of the Farmers Short Course, A. and M. college of Texas.

"Results of tests conducted at the substations of the Experiment Station, located at various points over the state, show that a number of the better varieties of cotton produce higher yields of lint which is longer and of much better quality than the lint of gin-run or oil mill cotton seed."

Better Staples Needed

"The cotton mills manufacturing better grades of cloth are in need of relatively large quantities of cotton having a staple length of one to one and one-eighth inches and are paying a premium for such cotton on the central staple markets. This quality of cotton can be produced from mixed seed, such as we often find in gin-run or of oil mill seed, owing to the fact that the fibers of cotton grown from these inferior seed are frequently of varying lengths which makes such cotton unsatisfactory for use in the manufacture of high grade yarns."

"One of the best ways for a farmer to receive the premium paid for staple cotton is for him to co-operate with his neighbors in the growing and selling collectively of one well-adapted variety of cotton on the community basis. In this way, it is possible to keep the seed pure in ginning, since it will all be of the same variety, and the cotton will be produced in sufficient quantities to be delivered in large bale lots direct to the buyer who is often able to pay a premium for it."

"The grazing animals of the farm may well be regarded as living factories that are continuously manufacturing flesh, wool, mohair, milk and numerous other valuable products for the benefit of man," he continued. "The machinery of this vast factory is run by 'vegetable fuel' which in general, can not be directly utilized as food by man. Having this prodigious livestock manufactory, we don't eat it by proxy, for most constitutes no unimportant part of our diet."

"Without ample pasture feed of good quality, it is quite as impossible to succeed in the production of meat and dairy products as it is to maintain economical fertility of the soil. The highest type of agriculture is invariably found in those regions where pasture crops and livestock are prominent. A good pasture is an asset and credit to any farm, a poor one may be a distinct liability and it is a reflection on the owner."

"Some of the points to be considered in judging the value of a pasture are density, palatability and digestibility of the plant cover, and the permanency of the stand; distance the animals must travel to obtain food and water, earliness of the feed and its ability to carry stock through the normal grazing season. Pastures are classified as annual, temporary, or permanent, according to the nature of the plant cover and the use of the land."

"The grazing animals of the farm may well be regarded as living factories that are continuously manufacturing flesh, wool, mohair, milk and numerous other valuable products for the benefit of man," he continued. GRAZING LEADING IN LAND USAGES

ALMOST THREE-FOURTHS OF STATE AREA DEVOTED TO THIS PURPOSE

COLLEGE STATION, July 28.—Of the total land area of Texas comprising nearly 168 million acres, 123,500,000 acres, or 73.4 per cent, are devoted to grazing, G. W. Farnes, beef cattle specialist, Extension Service, told those attending the livestock session of the Farmers Short Course, A. and M. college of Texas. Of the remaining 44,500,000 acres, or about 18.6 per cent, are classed as improved land in farms; 16,900,000 acres, or 6 per cent, represent forest land; and 2,300,000 acres, or 1 per cent, are taken up by highways, rail road, property, towns, cities, river beds, etc.

"While no figures are available to show just how many acres are devoted to grazing in the state, it is probable that for all time Texas will continue to have a

larger area devoted to grazing than to the production of crops," Mr. Farnes said.

Animal "Factories"

"The grazing animals of the farm may well be regarded as living factories that are continuously manufacturing flesh, wool, mohair, milk and numerous other valuable products for the benefit of man," he continued. "The machinery of this vast factory is run by 'vegetable fuel' which in general, can not be directly utilized as food by man. Having this prodigious livestock manufactory, we don't eat it by proxy, for most constitutes no unimportant part of our diet."

"Without ample pasture feed of good quality, it is quite as impossible to succeed in the production of meat and dairy products as it is to maintain economical fertility of the soil. **Our
Final
Offer**

Beginning Friday the 29th we are instituting our Final effort to dispose of all remaining seasonable goods. In all cases it will be very evident that we have forgotten profits—and even the cost to us. Odd lots, small lots, broken sizes, etc., of all seasonable goods **MUST GO!** We cannot afford to keep our shelves filled with broken lots or odds and ends—we are receiving Fall merchandise daily. Note that we have grouped all items and priced them lower than seems possible. Come Friday or as soon as you can and make selection as delay means lost opportunities in the limited stocks offered for this Sacrifice—the Final—Wind-up of Summer Merchandise.
