NUMBER 46

SELLING OF MUNICIPAL LIGHT SYSTEM BIG PROBLEM ANNUAL CHAMBER OF COMMERCE BANQUET WEDNESDAY, DEC. 15

WORLD ELECTION OF NEW OFFICERS FOR COMING YEAR, 1927

ANNUAL BUSINESS MEETING WILL BE COMBINED WITH GET TOGETHER MIXER—WILL PLAN PROGRAM FOR ORGANIZATION DURING YEAR

Arrangements are being made to seat 100 diners at the annual banquet and business meeting of the Perryton Chamber of Commerce, next Wednesday evening, December 15, at the school house, according to W. T. Fleson, secretary of the organization, and it is thought all probability this number will have to be increased.

Business men and property owners in Perryton in this vicinity are being asked, whether members of the organization or not.

TESTING RANGE WITH NEW WELL

TO SPUD BY DECEMBER 15 AND REACH CONTRACT DEPTH OF 3500 FEET IN 100 DAYS

A contract was entered today between the Three Way Oil company, Inc., and H. N. Conley, of Amarillo, by which the latter agrees to drill the first test well for this local organization. The location is just over the line in Texas county, Oklahoma, in the vicinity of Range.

Mr. Conley is an experienced driller, having spent five years with the Prairie Oil and Gas, three years with the Sun Company and six years with the Texas Company. He owns several strings of tools, and expects to have a rig up, tools swung in and ready to spud in on this job by December 15.

Officials of the Three Way and Mr. Conley believe that, barring real serious handicaps, such as a severe blizzard, or protracted rainy spell, this well should be completed in 100 days from the day it is spudded.

The contract calls for a hole 3,500 feet deep unless oil is found in paying quantities at a lesser depth. The drilling contractor, Mr. Conley, seems to have an abiding faith in this venture. He owns acreage in the vicinity of the Three Way test, and is taking a big stock in the company.

The officers and stockholders of the Three Way Oil Company, Inc., are elated over the prospects of getting a well put down on this acreage in so short a time, and are confident that their efforts will be crowned with success. It is made up of Spearman folks, and if their driller hits the pay it will mean great things for Spearman.—Spearman Reporter.

C. A. Bransgrove and children at the Fulton Creek neighborhood were Perryton visitors on Saturday of last week. Mr. Bransgrove is now able to get around on crutches after being laid up for several months with a badly fractured leg.

Mr. and Mrs. E. C. Bill and son are here from Garden City, Kansas, making the annual audit of the books of the Perryton Equity Exchange. The Bills have been doing the auditing for the Equity for the past four or five years and are experts in their line. They will be here about three weeks.

Mr. and Mrs. Joe Meese and little daughter are now citizens of Perryton. Joe lived in Perryton several years ago. He and his brothers operated a shoe and harness shop here in the building now occupied by Rifenberg's Store. Mr. and Mrs. Meese have been living in Florida for several years. They have been at Beaver since their return in August. Joe will work at his trade of plastering and stucco work.

SHALL WE SELL THE LIGHT PLANT?

The question as to whether the City of Perryton shall sell the electric light and power plant to the Inland Utilities Co., of Kansas City, Mo., will come before the voters on Friday, December 17th. The city council, composed of some of the most successful and conservative business men of the city, at a recent meeting entered into a contract with the above corporation for the sale of the property and the election has been called for the approval or disapproval of their action. If the voters of Perryton decide, by their ballots, that we shall sell our light and power plant, then the contract already entered into becomes binding, both on the City of Perryton and the Inland Utilities Co. But on the other hand, if the voters turn down the proposition, said contract becomes nothing but a "scrap of paper" and everything will go on as heretofore.

This is a matter for every citizen and voter to decide for himself or herself. There are countless and convincing arguments to be presented on both sides of the question. Let every voter give thoughtful and serious consideration before casting their ballot. The Herald is not and will not attempt to say how any person should vote. We have tried to present both sides of the case in a fair and impartial manner. Vote your honest sentiment, but by all means vote, and thus fulfill the obligation which every citizen of Perryton owes to Perryton.

SESQUI PRIZE TO WEST TEXAS

AGRICULTURAL EXHIBIT IN EAST WINS GOLD MEDAL FOR WEST TEXAS OVER WHOLE WORLD

West Texas scores again. The West Texas Chamber of Commerce agricultural exhibit at the Sesqui-centennial Exposition in Philadelphia has been awarded the gold medal in competition with exhibits from practically every state of the Union.

Judging of the exhibits was made at the close of the Sesqui and announcement has just been made of the award. The West Texas exhibit won first place on the basis of scope and variety of products and ingenuity of arrangement and display, according to a letter received from the Sesqui officials, who complimented most highly the achievement of the West Texas Chamber of Commerce in winning the award. The silver medals of award went to North Carolina and Ohio. Arkansas took the bronze medal.

The West Texas Chamber of Commerce exhibit has attracted great attention since the opening day of the big exposition. B. M. Whitaker, exhibit manager of the organization, went to Philadelphia and personally supervised the exhibit.

The West Texas exhibit featured agricultural products of West Texas. A big star, emblematic of the Lone Star State, was made of maize and other grain sorghums to constitute the centerpiece of the exhibit. Nine mounted sheep and goats flanked the exhibit on either side and the background was a huge horse made of grain, sorghums. Fruits, vegetables and canned products were constantly supplied throughout the season.

POSTPONE PLAY UNTIL AFTER HOLIDAY SEASON

The play, "The Prince of Liars," which was to be given Friday evening by home talent players under the auspices of the Parent-Teachers association has been postponed until after the holiday season according to Miss Ruth Abramson, the director. The exact date for the presentation of the play, a clever farce comedy, will be announced later, but it will not be until sometime near the middle of January.

SURVEYING R. I. NORTH OF RIVER

TWO DIFFERENT ROUTES ARE UNDER CONSIDERATION FROM RIVER TO LIBERAL OR MEADE

The Rock Island surveyors reached Liberal on Tuesday of last week with their preliminary survey on the branch which they are now building from Amarillo through the oil fields. The line as run joins the present Rock Island line less than a mile west of Liberal, the stakes connecting with the right-of-way at a point some 300 or 400 yards east of the first crossing west of Liberal.

The preliminary survey crosses the Beaver river on the J. E. Harbaugh ranch in section 4, township 2, range 18, Texas county, approximately due east of Guymon and thence northeast to within a few hundred feet of the new town of Baker in 29-5-19. Baker is the new town a few miles southeast of Tyrone. It is on the new railroad which is being built from Forgan through Turpin to Hooker. From Baker the route runs in a straight line to Liberal.

It is understood that the surveyors are now running a line from about 800 yards east of Baker, north to a switch on the main line of the Rock Island, about 5 1-2 miles west of Liberal. These surveys are all tentative. We understand that this same party of engineers have orders to survey a line from Meade, Kansas south to Beaver, Oklahoma, thence to connect with the Rock Island north of the Canadian river in the vicinity of Stinnett. This route would probably come through Perryton. A party of Rock Island officials were in Beaver last week in conference over this project.

Wiley and Peck Curry, who have been at the bedside of their brother, left for their home near Sayre, Oklahoma, Sunday. Fletcher Curry, of Hobart, Oklahoma, another brother, and a sister, Mrs. Roberts of Post City, Texas, left Tuesday of this week. "Chick" Curry, who has been seriously ill, with pneumonia, is greatly improved, but his father and brother, Carl, will remain here until he is entirely out of danger.

S. S. Mallett of the south of town was shopping here last Tuesday.

INTEREST AT MASS MEETING TUESDAY BUT NO DECISION IS MADE

L. W. RADER OF INLAND UTILITIES COMPANY ANSWERS MANY QUESTIONS BUT DOUBT STILL REMAINS IN MIND OF MANY CITIZENS

Much interest was shown in the public mass meeting called Tuesday, to discuss the proposition of the selling of the municipal light and power system to the Inland Utilities company and although there was much discussion on the matter, no decision was made.

The proposition which is to be brought to the vote of the people on Friday, December 17, will decide the

BUICK AGENCY CHANGES OWNERS

P. T. SHERMAN AND JAS. W. WILSON PURCHASE INTERESTS OF C. E. FORBES AND LEASE

A deal was made the latter part of last week whereby C. E. Forbes sold the Buick agency and the stock and business of the Forbes Garage to P. T. Sherman and Jas. W. Wilson. The new owners are both garage and auto men of many years experience.

Mr. Sherman who is a brother-in-law of the Wilson brothers of this city, comes to Perryton from St. Joseph, Mo., where he has been connected with the automobile business for the past 15 years. For the past several years he has been assistant manager of the Hudson-Essex agency. Prior to going with the Hudson agency, he was with the Chalmers and Buick agencies. Mr. Sherman is a man of pleasing personality, he has made a success of his business elsewhere and we feel that he will be a valuable addition to the commercial life of Perryton and surrounding community.

Jas. W. Wilson needs little introduction to our readers. He has been a resident of this county for the greater part of the past 18 years most of which time he has been engaged in the car business. For the past few years he has been connected with the Johnson Motor Co., local Ford dealers. Mr. Wilson knows the automobile business, he is a live wire and a public spirited citizen.

This new firm will endeavor to render real car service, employing nothing but expert mechanics. They have taken a lease, with an option to buy, on the Forbes building. They will continue to carry a full stock of Buick automobiles and parts. Mr. Forbes will devote his time for the next few months to the improvement of a part of his farm land in the southwest part of the county.

BOX SUPPER AT PLAINVIEW

MRS. W. W. RAZOR AND PUPILS PLAN GOOD PROGRAM TO WHICH ALL ARE INVITED

A box supper and program will be given at the Plainview school on Thursday evening, December 16th. The funds will be used for school purposes. Mrs. W. W. Razor, instructor at the school, with the pupils and patrons, is now busy making preparations for this affair which no doubt will be the most successful of any entertainment in the history of the school. The Plainview school is located five miles north of Perryton on the State highway. A cordial invitation is extended to all to attend.

action taken by the city council in signing a contract of sale with a consideration offered of \$60,000 for the municipal light system, subject to the vote of the tax-paying citizens of Perryton.

L. W. Rader of the Inland Utilities company was on hand at the meeting and satisfactorily answered a number of the problems confronting the voters in this election.

Probably the most important matter decided was whether or not the central power plant would actually be constructed in Perryton instead of in the oil fields where cheap gas fuel could be obtained, placing Perryton on a high voltage line.

In this connection Mr. Rader explained, that the Inland Utilities company is owned entirely by the Fairbanks-Morse company, the largest manufacturers of diesel engines in the world, whose equipment is now being used in the city plant. That they would discard equipment of their own manufacture and buy steam equipment from competitive manufacturers to enable them to use the cheap gas fuel seems highly improbable.

Furthermore Mr. Rader stated that they feared no competition, whether steam turbine or hydro-electric, and was willing to prove that the Fairbanks-Morse diesel engine could produce energy as cheap or cheaper than any other type of engine.

It was also stated that electrical engineers had proven that it was impractical to high line electrical energy over forty miles. Beyond that point it was a losing proposition which would also argue against the construction of a high line from the oil fields.

A telegram received by Mr. Rader Tuesday afternoon, from Topeka, Kansas, bears the following communication.

L. W. Rader, Perryton, Texas. Refer article Perryton paper we are guaranteeing to make Perryton central station and to generate current there for district to other towns in that district this telegram confirms that agreement.

(Signed) The Inland Utilities However a number of other objections present themselves. The light plant has always shown a revenue to the city instead of being an expense. This revenue has helped to maintain the municipal water system which is not being sold. To some it seems illegal to sell the revenue end and hold the losing end of the municipal property.

The fact that the light plant has and is paying a revenue is well established. That the Inland Utilities company believes it will be a profitable venture for them is assured by the fact that they made an offer to buy. This presents another question. Why should a money making business be sold when no reason presents itself?

The fact that a large corporation desires that property is not sufficient reason for sale when the plant is in good shape, well equipped and (Continued on last Page)

LETTERS TO SANTA CLAUS

Dear Santa

Perryton, Texas

Dear Santa Claus:

How are you this winter? I am fine this winter. I am still going to school this winter. I thank you for toys that you brought me last Christmas. For this Christmas I want a Weeden steam engine that costs \$3.98 in the catalogs. Orvel wants one to. Orvel wants a three car train and candy, oranges, and some nuts, and he wants a cow.

Leo Meek

P. S.—Do not forget my little friends.

WHY THE FARMERS COMPLAIN

Since the World War murmurings of discontent have been heard from time to time among the farmers. They contend that the prices of farm products have not risen fast enough to keep pace with their cost of living.

Some figures recently made public by the National Industrial Conference Board indicate the farmers are correct in their contention.

These figures show the farm owner-operators, taken as a group by itself, and allowing them out of their farm income a return of five and one-half per cent on their investment—which is the lowest rate their money would earn if invested in farm mortgages—realized but \$440 per farm owner-operator as the return on labor and management during the crop year 1925-1926.

This is less than half the tenants farmer's average income and less than a third of the average annual earnings of other occupational groups for the same period.

In the following table are given the index numbers of the average return to farm operators, owners and tenants combined, on their labor expended on the farm, compared with the average earnings of workers in other occupational groups, including industrial wage earners, railroad workers, clerical help, public employees, clergymen and school teachers, and the effect of the cost of living in city and country as affecting the purchasing power of their respective earnings:

Crop Year	Average Labor Return per Farmer	Average Earnings of Other workers
1914	100	100
1924-25	150.0	204.2
1925-26	156.5	209.6

Crop Year	Farmer's Cost of Living Index	Urban Cost of Living Index
1914	100	100
1924-24	164.3	164.9
1925-26	169.7	169.2

Crop Year	Farmer's Average Real Labor Earnings	Other Workers Average Real Earnings
1914	100.0	100.0
1924-25	91	123.8
1925-26	92	124.0

The country generally should begin to realize pretty soon how truly our farming industry is the basis of our national prosperity and of most of our business in small towns.

The figures given here are significant. The farmer faces a condition, not a theory.

FAIRVIEW ITEMS

Sister Ruth Woodrum preached at the Fairview school from Thursday night to Sunday evening. Her sermons were fine and we hope to have her back with us soon.

Willie Tedder and wife are visiting with Mr. Tedder's sister, Mrs. J. D. Williams and family.

Miss Edith McLain spent Sunday with home folks.

W. L. Collins and Crawford Sims left last Sunday to take Dwight Sims and Veneta Collins back to their school at Alva.

J. D. Williams and family took dinner with Mr. and Mrs. Shotwell last Sunday.

Clifford McDaniel spent Sunday with Loyd Collins.

Miss Lela Woodrum took dinner with Miss Ora Collins last Sunday.

The Thanksgiving program and box supper at Fairview was enjoyed by an extremely large crowd.

Miss Edna Williams left last Monday for Dalhart to visit with her sister, Mrs. Lillian Eaton and family.

Miss Ruth Eason spent Thanksgiving at home with her parents.

PEOPLE OF AMERICA USE MODERN CONVENIENCE MOST

Telephone statistics show that during the first twenty years of existence, the rate of growth of the telephone in the United States and Europe was approximately the same, there being about twice as many telephones in the United States at the end of that period as there were

in Europe.

During the past thirty years, however, the growth in the United States has been little short of astonishing as compared with Europe, and today there are practically 15 telephones per 100 inhabitants as compared with less than 2 in all of Europe.

Another way of visualizing this difference in development is to say that the United States with a population of 115,000,000 has 61 per cent of all the telephones in the world, as compared with Europe with a total of 446,000,000 but only 28 per cent of the telephones.

NO FOOD IN SACCHARIN

The use of saccharin in the manufacture of food products is not tolerated by the United States Department of Agriculture, which enforces the Federal food and drugs law, for the reason that such ingredient is a coal tar product, injurious to health and has no food value whatever.

POTATO NOT PARTICULAR

For potato culture gravelly or sandy loam soils, if well supplied with organic matter, are in general the most desirable. The potato, however, is not so sensitive with respect to soil as are some other crops. Under suitable conditions a satisfactory crop may also be grown on a fairly light sandy soil and a medium heavy clay soil, provided the heavy soils are also satisfactory if properly drained and well supplied with available plant food. A reasonably good crop may be expected from any soil outside of blowsand and heavy clay, provided the climatic conditions are favorable and the soil is well supplied with organic matter and available plant food.

FROZEN PIPES

The middle of a frozen pipe should never be thawed first. Work toward the water supply. To thaw a waste or sewer pipe work upward from the lower end to permit the water to drain away.

CO-OPERATIVES GROW

The number of farmers' co-operatives has increased from less than 1,000 in 1915 to approximately 12,500 in 1926. During this same decade the volume of business done by farmers' co-operatives has grown from \$635,888,000 to about \$2,400,000,000 and the number of farmers who are members of co-operative associations has increased from 651,000 to nearly 2,000,000. The agricultural co-operatives today are marketing one-fifth of the farm products of the country.

Rangers Win From Follett, 14-0 In Post Game

PERRYTON PLAYS LIKE CHAMPIONS

FOLLETT CANNOT STAND CRASHING OFFENSIVE OF RANGER SQUAD IN FRIDAY'S BATTLE

Perryton Rangers in a crashing offensive combined with a brilliant aerial attack, administered defeat to the visiting Follett team, last Friday, in a post season game, the closing one of the season.

Playing a scoreless game during the first half, "Runt" Deer snatched a long pass out of the air during the third period for a thirty yard gain and the first Ranger touchdown. Deming crossed the Follett goal line the second time early in the final quarter, Smith kicking both goals for the extra points.

The lineup that started the game was as follows:

Bruner	L. E.	Harrison
Lewis	L. T.	Kahoe
L. Black	L. G.	Arthur
Berdley	C.	Laubhan
W. LaMaster	R. G.	Patterson
R. Black	R. T.	Capt. King
Todd	R. E.	Russell
Smith, Capt.	Q. B.	Cope
Deming	R. H.	Harris
Richardson	L. H.	Crites
Shrader	F. B.	Heil

Captain Smith kicked to the 28 yard line, Follett returning 6 yards. On the first down Follett attempts a pass which is intercepted by Richardson, the ball going to Perryton on the Follett 47 yard line. Shrader fumbles and loses 6 yards. Smith goes around right end for a 10 yard gain. Shrader plunges the line for 3 yards. Shrader hits the line again for another 3 yard gain and a first down.

Richardson goes through line for 3 yards. Deming fumbles on an end run but gains 6 yards. Pass, Richardson to Smith nets 19 yard gain and a first down putting the ball on the Follett 7 yard line. Deming goes through line for 2 yards. Failure to get signals causes a fumble, Deming recovering for a 9 yard loss. Deming gains 1 yard around end. A pass on the last down is incomplete and the ball goes to Follett on their own 14 yard line.

Follett makes a first down in four plays with Heil making most of the gains. A bad pass from center costs Follett a 5 yard loss. A brilliant run around right end by Heil for 16 yards is stopped by Smith who is injured in the tackle. Play resumed after time-out again loses 6 yards on a bad pass from center.

Follett is forced to kick. Rangers breaking through, block the punt, but Follett recovers the ball on the 50 yard line. On the first down Shrader and Harris collide, knocking Shrader unconscious. Perryton substitutes Deer for Shrader and Donley for Smith Richardson playing quarter. Three times Follett fail to gain and on the last down their kick is again blocked by Ranger line men breaking through, again recovering but the ball never crosses the line of scrimmage and is given to Perryton.

Deming races around end for 6 yards. Deers hits line for a yard as the quarter ends.

Play resumed on the Follett 38 yard line with Richardson pounding the line for a 6 yard gain and a first down. Deer goes through for 2

yards. Deer hits line again for 3 yards. Perryton substitutes McLarty for Donley. Richardson gains 3 yards. Pass Richardson to Todd is complete but fail to make yardage, Follett taking the ball on downs.

Heil gains 4 yards on an end run. McLarty plunges through line and throws Follett for a 3 yard loss. Follett punts to Todd on the Ranger 15 yard line, who returns 3 yards.

On the first down Deer gets loose for a 15 yard run around end and a first down. Deming makes 4 yards through tackle. Todd hits line for 1 yard. A forward pass is blocked. Deer plunges the line on the last down failing to make a first down by only a few inches, Follett again taking the ball on downs.

Beardsley breaks through the line and tosses Follett for a 3 yard loss. Heil makes a 21 yard gain around end giving Follett another first down. Follett hits the line for a yard. A long double pass is incomplete. Heil carries the ball on the next two downs and makes a first in ten. Perryton substitutes Sullock for LaMaster.

Another Follett pass is incomplete. Heil makes a first down and a 16 yard gain. A bad pass from center forces Heil back, Bruner throwing him for an 8 yard loss. Heil gains 8 yards as the half ends.

At the beginning of the second half, Smith and Shrader both return and Deer goes to right end. Follett kicks off to the Ranger 9 yard line, Deer returning 6 yards. Deming goes through the center of the line for a 23 yard gain and a first down on the opening play. A back of the line pass from Deming to Richardson to Shrader brings another first down after a 16 yard gain, netting nearly 40 yards in two downs.

Deming hits line for 3 yards. Shrader makes 9 yards through line for a first down. Black recovers a fumble on the first down, losing 1 yard. Deming gains back 2 yards. Follett substitutes Wilson for Morris. Pass Richardson to Shrader complete for 3 yards. With the ball on the 29 yard line, with only one more down and 6 yards to go, Richardson makes a beautiful pass to Deer who is racing down the field. Deer snatches the pass out of the air by his fingertips and falls across the Follett goal for the first Ranger touchdown. Smith adds a point from placement.

Follett kicks off to Richardson on the Ranger 31 yard line who returns 8 yards. The Follett defense stiffens and Deming, Shrader and Bruner fail to gain, Bruner fumbling and Follett recovering. Follett loses a yard and gains two on the first two downs. A bad pass from center loses 19 yards for Follett, Black recovering the ball for the Rangers.

A Perryton pass is incomplete. Pass Shrader to Richardson gains 17 yards for the Rangers with Deer giving the runner some good interference. A forward pass is incomplete. Richardson makes 2 yards through line. Shrader goes through for 7 yards. A 4 yard gain by Shrader gives the Rangers a first down. Richardson makes a 2 yard gain. Shrader gains 7 yards, taking the ball to the Follett 2 yard line as the third period ends.

Richardson hits line when play is resumed in final quarter and is prevented from making touchdown by striking goal post, throwing him back and causing him to fumble. Beardsley recovers the ball. A measure shows that a first down has

been made. Richardson fails to gain through line. Deming faces around left end for a touchdown. Smith kicks goal.

Smith kicks off to the 23 yard line Follett returning 5 yards. A line play brings no gain for Follett. Two passes are attempted, both of which are incomplete, for which Follett received a 5 yard penalty. Follett punts 31 yards to Deming who returns 4 yards. Deer makes 3 yards. Shrader adds another yard. A pass is incomplete. Shrader punts outside on the Follett 15 yard line.

A Follett pass is complete for 10 yards, Perryton receiving a 15 yard penalty for interfering with the pass, putting the ball on the 40 yard line. Follett loses 4 yards. In the next two downs they gain 5 yards, forcing a punt on the last down, Follett recovering the ball on the Ranger 29 yard line.

Richardson crosses line for 2 yard gain. Deer makes a first down when he tears around end for 15 yards.

Perryton substitutes McWilliams for Black. Perryton is penalized 5 yards for delaying the game. Richardson makes a yard through the line.

Shrader makes a 53 yard run through the center of the line, twisting, swerving, stiff-arming and side stepping the entire Follett team until Heil downs him on the Follett 5 yard line. Deming fails to gain through line. Richardson loses 4 yards. Shrader fails to gain on the third down as the game ends. Score Perryton, 14, Follett 0.

SUMMARY: Touchdowns, Perryton 2, Follett 0; Try for points, Perryton 2 completed, Follett 0; Kickoffs, Perryton 2 for 69 yards, Follett 2 for 70 yards; Kickoffs returned, Perryton 14 yards, Follett 11 yards; Punts, Perryton 1 for 32 yards, Follett 5 for 118 yards, average 23 3-5 yards; Punts returned, Perryton 16 yards, Follett 0; Forward passes, Perryton 10, completing 5 for 70 yards; Follett 6 completing 1 for 10

yards; Perryton intercepted one pass Follett 0; First downs, Perryton 14, Follett 5; Ball lost on downs, Perryton 4, Follett 1; Penalties, Perryton 2 for 20 yards, Follett 1 for 5 yards; Offensive plays, Perryton 55 for 321 yards, Follett 38 for 125 yards; Yardage lost on offensive plays, Perryton 21 yards, Follett 48 yards.

Officials: Bruner, referee; Cope, umpire; Hergert, linesman; Irvin, timekeeper.

THE GAME FROM THE SIDELINES

With as good a team as Follett had on the field last Friday, will someone advance a reasonable theory to explain why Follett refused to play Perryton during the regular Football season, forfeiting the Interscholastic League game?

Heil, Follett's fullback, played a

spectacular game and was man on the visiting team gain consistently.

"Runt" Deer is rightly named a "deer" in a football "deer" on his feet. And he had to stretch out some the forward pass that Rangers their first touchd

Fate played against "Harrison. In his last football high school he was preventing making his first touchdown striking the goal post as plunging over the line, knocking back.

Shrader exhibited the "college football men are when he raced through Follett and a broken field for a gain in the last few minutes game.

er, "Huh, you puts it mild. That's the worst child ever I seen in my 'hole life. In fact, Elder strick'ly, between ourse's, we regards him ez de w'ite sheep of de family."

A Warm One for Her Customer
Customer: "You don't seem very quick at figures, my boy?"
Newsboy: "I'm out o' practice, siz. You see, most of the gents say: 'keep the change.'"

Breaking it Gently
Murphy, one of the best railroad engineers the road had, met with a fatal accident and his best pal was called upon to break the news to Murphy's wife. Wanting to break it gently, he proceeded in this fashion:
"Mrs. Murphy, do you know that Lincoln is dead?"
"Why, yes, of course."
"Well, so's your old man!"

Wife to absent minded husband:
"Can't I trust you to do anything right? First you sit in the lurch, then you miss the trolley—then you lose the key—and now you've given the tickets to Willie to tear up for confetti!"

Hopeless
Mother, reprimanding: "Now don't let me tell you again, Jimmy."
Jimmy: "I'm afraid I can't stop you."

Guaranteed Cure
Hubby: "I wish some one would tell me how to kill off all these weeds!"
Wife: "Why don't you try cultivating them like you do the flowers."

Taking Inventory
Why are you counting your fingers?
"I just shook hands with an ex-convict."

Deer For Two
"I think we must invite Mr. Herdman to dinner soon."
"Certainly. Do you know where he cannot come?"

SPEDDY
"I wish gentlemen who had had the population in a two-foot were making a noise," gasped Sam, "why the hell don't they follow us so 'speddy' boy, said Mose. "I wish them 'buckshot'." "I wish one day two elderly men JAZZ—Tempo, Too

Two were discussing sotto voice, the manners of a new and not very gentlemanly member. "What do you think of him?" "Very remarkable," remarked, thoughtfully. "I wish I could hear that soup gurgled and symphonized on my soul that's the best I've ever heard it yodel."

Colour of Real Skin
"I wish of a thriving coloured man in Jacksonville was the same of his flock." "I wish," he said, "I hears very much of your youngest son. I wish he doesn't seem to do you no good." "I wish," he rejoined this parishioner.

SCHOOL VACATION OF TWO WEEKS

SCHOOLS IN PERRYTON INDEPENDENT SCHOOL DISTRICT TO CLOSE FOR HOLIDAYS DEC. 17

All schools in the Perryton Independent School District will dismiss Friday afternoon, December 17, 1926, for the Yuletide vacation and will meet again for work Monday morning, January 3, 1927, after having had two weeks rest.

Pupils should hold in mind, however, that the final examinations for the first term of school will be given the second week of school after the holidays. The many failures last year should be a warning to all pupils that an average of 70, at least, should be made in each subject. Better work is being done now than was being done this time last year, but there are still too many who do not seem to care about their grades.

We want every pupil to have a carefree, joyous Christmas and come back to school with a new determination to succeed in whatever he or she may undertake. Make better grades; be more punctual; more respectful, and of greater service at the school than he or she has ever been before.

W. B. IRVIN, Supt.

TIME

The Juniors of the "Perryton Hi" do not waste any time during the school hours. From nine to twelve a. m., and from one to four p. m., the Juniors are engaged in some means of deriving something from their textbooks or from class work.

If any member of the Junior class finds their work tedious they do not give up or throw their books aside, but they study out the principles involved or seek the explanations from their teachers.

The Juniors realize that they do not have a minute to waste, if they are to make anything of themselves.

We have only just a minute—Only sixty seconds in it, Forged upon us, can't refuse it, Didn't seek it—didn't choose it, But it's up to us to use it. We must suffer if we lose it, Give account if we abuse it, Just a tiny little minute—But sternity is in it.

—Gertrude Witt

PROGRESS

Last year we were Freshmen, Just as green as we could be, The most Freshmen are very smart We could never be told or made see.

Now this year we are Sophomores,

Picture Framing

All kinds of Picture Framing done. Agent for W. M. Valher pictures and other sundries.

G. R. Wilson

Although not so smart you know, We really have more common sense But still have lots further to go. Verse 3, continued when we are Juniors.

Last Wednesday the chapel program was given by Miss Lander's pupils, the fourth grade. She seems to have quite a few very talented pupils, especially in music.

The ninth grade English class section number IV are very much interested in the classic "Treasure Island," which they are studying in class.

LOST AND FOUND

LOST—4 hours of sleep over English mid-term theme.

FOUND—A new way to learn history—method: study and study.

—Contributed to the world by R. E. McMillen.

WANTED—More honor students. —Miss Hutchinson

It is advised that some of the Sophomores arise about twenty minutes earlier each morning so that there will not be so many tardies.

Miss Mitchell was out of school a day and a half last week on account of illness.

Mr. Holderman is still out of school and will not be able to return until after the holidays.

Do You Remember When—

A mischievous boy, in school, was made to sit with some girl for punishment. — It was punishment, too. But, in this day and time, it is not punishment but fun. This distinguishes the difference in generations.

One of the principles of science states that "the lesser cannot contain the greater," but science, evidently, knows nothing about a woman's foot.

The impossible does some time seem to happen. A few days ago the ninth grade English class felt that it had at last made one instructor see the merits of the class. Miss Hutchinson informed the class that she was sure it, as far as each member, was concerned, was a "walking encyclopedia of fact." As the class straightened in the seats and began to look quite wise, she finished the

statement with, "but I think all the pages have been lost or torn out."

What Would Happen IF—

Mr. Cook would quit saying, "Pick up the paper folks."

Vance Apple came to geometry on time.

Mr. Carver quit saying, "Let's all sit in separate seats."

Miss Abramson forgot to open all the windows in the study hall.

The teacher was explaining the mysteries of the subtraction of algebraic symbols to his class. "In order to subtract things they must be of the same denomination. You could not take A's from B's and you could not take three pears from four peaches or eight horses from ten cats could you?"

After a minute of consideration, Bob Smith put up his hand.

"All right, Bob, what is it?"

"Couldn't you take three quarts of milk from three cows, teacher?"

The Seniors are ahead in the popularity contest and the Juniors will appreciate all votes given them.

The Juniors are working on their mid-term themes to be handed in before Christmas.

MISS LANDER'S CLASS ENTERTAINS IN CHAPEL

The program was as follows:

Jazz orchestra directed by Mr. Hyde. Not very loud but very effective.

Reading—David Shanks, Jr.

A Pantomime—The entire class very graphically illustrated "Home Sweet Home."

Selection—Orchestra

Only 4 more days until all Reading Reports are due.
Only 9 more days until the Term Themes are Due.

BOOKER WILL PLAY PERRYTON A GAME OF BASKETBALL IN THE PERRYTON GYM FRIDAY, DECEMBER 10, AT 7:00 P. M. COME! COME! COME!

The concert given Friday night, December 3, was well attended.

Lawrence Smith was not able to attend school Monday on account of injuries received in the football game

Friday. WE WALLOPED FOLLETT!

Pat McCoy has withdrawn from school.

The Foods II girls served two breakfasts to the football boys last week. These are given to show the students the correct table manners and to teach them how to entertain. It will be very helpful later in life.

The debate that was scheduled for discussion in the civics class for Monday failed to have much weight either because of the lack of preparation or the lack of experience. There was neither much discussion or was the decision of much interest. It was decided that more experienced and better equipped judges should decide what was the better for the community.

Leon Shrader was the star of the Follett game Friday.

FRESHMAN NEWS

Saturday night, December 4th, the Freshman class, together with a few who were not in the class, enjoyed a party which was held at the home of Evelyn Fulton. Games were played and refreshments were served. Every one reports a fine time and we are looking forward to a time when we can have another such party.

Mr. Carver, our teacher, has purchased a home from Mr. Fulton, who has moved into his new house. We are proud of Mr. Carver as a teacher, therefore we are keeping close track of him.

Borger Not So Wicked Just Another Oil Boom

It is not one-half as bad as some of the Panhandle towns where the oil boom is just an over-riding struggle to new conditions. Borger is not a beginning of what Cromwell, Smackover, and other boom towns were during their boom days.

"Amarillo, 'Pride of the Plains,' who claims more oil fields and subdivisions than Florida has grapefruit and suckers, strives mightily to keep pace with her growing-out-of-bounds population and influx of crooks and promoters.

She doesn't know what it's all about, but is doing her best to look wise and uncoincided. Shoot to Kill Chief Blackwell, once a Texas ranger, captains the local police force from lowly harness bull to the finger-print expert of which Amarillo is so proud.

Amj shoot to kill or "make sevens" has become their motto. Amarillo has her troubles; traffic, dirt, mud, water, excessive high rents, new buildings, new faces and a general routing of the white face cattle from the plains to be replaced by derricks, dry holes in Moore county and acreage promotion.

And now comes the younger set to add another wrinkle to Amarillo's already furrowed brow. They have taken up the use of Marihuana or "loco weed."

Smoking parties have been discovered by the police and a general round-up of peddlers and smokers is now attracting heavy interest. It's a great life way out southwest in the Panhandle.

To Hold Election Borger is preparing to hold an election and perhaps then real stories of blood may be forthcoming, as there is only one voting place for about 100 eligible voters. Despite this nearly 2,000 have signified their intention of voting.

Amarillo will endeavor to explain perhaps in the near future, why she picked on Borger and Oklahoma will pick up larger contracts for oil field trade.—By Jimmy Olsen, Oil Editor, in Okmulgee Daily Democrat.

CHEVROLET SHATTERS ALL PRODUCTION RECORDS

Again shattering all production records in the history of three-speed automobiles, the Chevrolet Motor Company, this month, closes its greatest year with an output of 728,697 cars—an increase of more than 40 per cent over the previous record year.

The unparalleled public favor which has attached itself to the Chevrolet car has enabled the company to exceed by 209,637 cars its own record of 1925 when 519,060 un-

its were produced. Under pressure of the most sensational demand the great organization has ever witnessed, factory wheels turned at a record clip through the year building a Chevrolet car every 12 seconds of each working day. Daily production averaged 2,450 cars and reached a high monthly level in September when daily output averaged 3,381 units.

Out put for the year far exceeds that of the combined total production in the first ten years of Chevrolet production, 1912 to 1921 included.

"Production records, which Chevrolet has been able to establish very consistently are especially gratifying primarily because they reflect the increasing public confidence in the organization and its product," said W. S. Knudson, president Chevrolet Motor Company. "We thoroughly appreciate this tribute to the Chevrolet car and we shall strive to merit the continued high endorsement, which the motoring public has conferred upon our product," he declared.

Chevrolet established a new monthly output mark in September. This achievement followed several months of record-breaking production. April, May and June with respective production of 71,157; 74,617; and 77,241 each established successive records. July production was restricted somewhat to permit the tooling and other changes necessary to effect several further improvements in Chevrolet models. August production then snapped up to 76,515 units, only 699 fewer cars than were built in June, which stood as Chevrolet's high record month until out-distanced by September.

With production capacity for 1927 greater than ever before, Chevrolet, next month enters on what promises to be a new record year for the world's largest manufacturer of three-speed transmission cars.

Dr. Frank Crane Says

Don't Overload the Imagination

The trouble with most writing and stage productions is that they stifle the imagination by overloading it. There are those who hold that it is better to read a play than to see it acted, for when you read your imagination can picture the scene, whereas when you see the play all the work of your imagination is done for you.

A suggestion to the imagination is better than too much. The Orientals understand this and their scenery in the play is of a suggestive kind and is not realistic. For instance, when a boat is to be depicted a real boat is not brought on the stage, but some contraption that can suggest a boat.

A little girl gets more fun out of an old rag doll than she does out of a fancy doll that can open and shut its eyes and conceal a phonograph which talks. A boy gets quite as much fun out of riding astraddle of a broomstick and calling it a horse as he would out of riding a horse.

A great part of the fun of any kind of play consists in using the imagination and like every other faculty, the imagination gets more pleasure when it is stimulated to activity than when it is loaded down by outside pleasure. It is better for the health to take exercise than to have massage. It is better to make your own exercise than to have someone make it for you.

In the same way it is better to use your imagination than to use that of someone else.

This has a distinct reference to style, for a style is better that is full of suggestions than one which is full of descriptions. Let the mind do its own flying and do not carry it in the aeroplane of your own abundant talk.

THE WORLD GOES ON

A scientist tells us that the world will not end for at least 999,998,000,000,000 years.

So it appears that there will be time for a number of generations to carry on the accumulated knowledge and folly of their fathers and to make experiments of their own—the sum of which process is known as progress.

Whether the scientific gentleman may be mistaken a few months one way or the other does not much matter.

The importance of the statement is in its psychological effect.

The idea that the world will spin on, bearing countless generations of changing men, is in itself a stimulating one.

The old conception of a world that would end in a few years was a paralyzing one.

If the world would surely end in a short time, men of former times asked themselves, why keep any accurate record of history? Why carry on extensive scientific experiments? Why bother about changing social conditions greatly? Why begin long-time projects of improvement when there would be no time to complete them?

The idea that the world will go on, on all practical purposes, forever, tends to turn men's minds to the problem of making it a better place to live in.

It will force them to face the prob-

lems of getting along amicably with one another, which means the elimination of war.

It will force them to turn their attention toward the combatting of disease and the installing of new sanitary improvements to safeguard health.

The same scientist says the earth has been in existence about two trillion years, or something one-five hundred thousandth of the length of time it will continue beyond us.

This makes us realize that civilization is just beginning, that mankind is taking the first faltering steps on a long career.

It mitigates the despair occasioned by the child-mindedness of the crowd, the lack of progress in mankind and the insanity of the late war.

The idea that the world will continue indefinitely is humbling, stimulating and encouraging.

It may inspire awe, but it will never stifle into stagnation as did the conception of the world as a temporary thing in which the end was eternally imminent.

MIAMI SELLING PLANT

City Council Votes to Sell the City Plant to Borger Company For \$50,000

The city council at Miami, voted last Friday night, to sell the municipal light and water plant to the Panhandle Power and Light Company for a consideration of approximately \$50,000.

The Panhandle Power and Light company, only recently completed the first unit of their plant, four miles northwest of Borger. The city election will be held early in January to vote on the proposed sale.

NOISE CUTS LIFE. THAT VIOLENT FLAME. WORLD MONEY LENDERS. FARMERS NEED CANALS.

Dr. Bundeson, Chicago's Health Commissioner, says human life would last seven years longer, on the average, if nerve-destroying noises were eliminated.

We think, we are "used" to a certain noise, but use as much energy conquering noise, crowding it out of the brain, as in doing real work.

Millions of brains are cut down 30 to 60 per cent in efficiency by noise. Absence of noise means greater efficiency, less wear in machines. But men pay no attention to their own machinery, worn away by noise every day.

And to complain of noises is considered effeminate. If unnecessary noise were accurately classified with assault and battery, life would be longer.

When the Bible says jealousy hath

a most vehement flame; it doesn't exaggerate. Horrible testimony given by a doctor as to the killing of Mrs. Mills, in the Hall-Mills murder case, proves it.

The unfortunate woman, after three bullets had been fired into her head, was dreadfully mutilated. Her throat was cut twice, her tongue cut out, and there were other horrible wounds inflicted on the dead body. The tongue is supposed to have been cut out because the woman's singing had charmed her clergyman from his straight and narrow path.

The horrible case will again remind men that whoever stirs up jealousy stirs up danger. They have been reminded of it, often enough for five hundred thousand years, by blows on the head with sharp flints, by poison in the Middle Ages, by pistols later. But they never seem to learn.

Wall Street is very proud of having "supplanted London as the world's money lender." This year the United States will lend more than a thousand million dollars in gold to foreign borrowers. In three years past this country has lent Europe four thousand million dollars. Gratifying, of course, but when will they get their money back?

London as world money lender charged usually moderate and al-

ways legal, rates of interest. Our financiers lend money to Europe on a basis that makes the borrower pay at the rate of 13 per cent for the first year, as much as 7 and 8 per cent thereafter.

The usurer in many States loses principal and interest. Some of those American lenders will get unpleasant replies later when they ask for their principal. Meanwhile it is profitable for middlemen that get the "rakeoff."

All farmers and some Congressmen are wondering what "can be done for the farmer?" The farmer says: "Guarantee me a definite price for my crops." Common sense says that invites overproduction, such as now breaks the price of cotton.

With wheat at \$1.40, farmers will increase their acreage by 15 per cent. How much wheat would they plant were the price \$2.49, which the farmers feel they ought to have? And where would the Government get money to buy the surplus \$2.49 wheat?

Farmers can help their wheat situation by backing Secretary Hoover's plan for a canal to the Gulf through the Mississippi Valley and another from the Great Lakes to the Atlantic ocean.

That would make every bushel of wheat worth from six to eighteen cents more.

Since the war railroads have raised rates six to eighteen cents a bushel, and surplus American wheat on its way to Liverpool pays the tax.

Argentine and Australian wheat

has the six to eighteen cents advantage per bushel over American wheat at Liverpool, where the price is made.

A nine foot canal from the lakes to the Gulf would send freight in barges carrying a thousand tons, as against box cars carrying fifty tons hauled by a tugboat instead of a locomotive. And ten such barges, carrying ten thousand tons, would require no more men than one of the old-fashioned river boats carrying one hundred and fifty tons.

PARTY ALLEGIANCE AS A CORRUPTING FORCE

Governor Ross, who has been given an indefinite vacation by the people of her State, is now appearing before the public on a larger scale. The other day she addressed the women of New York State upon citizenship. She expressed the idea that party loyalty which makes possible chicanery or corruption is misguided and indefensible. The State and the Nation must come before the party.

In Texas the official view is otherwise. In Texas the party member must presume that the party can do no wrong. Not only must he presume that, but he must agree in advance to support whomsoever the party may name. The successful nominee may be a man whom the voter knows to be a fit candidate for the penitentiary. But that makes no difference. If he enters the primary he faces the pledge which seeks to bind him to support a putative felon, if need be. The pledge is much defended in

Texas. But breeches in party loyalty elsewhere are sometimes praised heartily hereabouts. For example, California support of Woodrow Wilson is generally indorsed in Texas. But Wilson carried California with Republican votes—not with Democratic votes. Thus it comes about that in Texas, where there is practically but one party and where the Democratic party needs no protection, we seek to prevent bolts, while at the same time we look with favor upon bolts in other states, provided they are bolts to the Democratic party instead of away from it.

Of course, California requires registration preceding the primary. And that is proper. But the only chance to convert the heathen, politically, is to leave the heathen free to leave their idols. And the only chance to prevent forces of heathendom from capturing the party, bag and baggage, is to leave open, in case they do capture it, the doors for party men to walk out and so make the cuckoo invasion futile, and therefore unlikely. Putting the country above party keeps both clean.—Dallas News.

DID YOU EVER STOP TO THINK?

By Edson R. Waite, Shawnee, Okla.

THAT newspapers go into every home.

That they carry messages from the business concerns as to what they have in the way of service and goods.

THAT they make it possible for you to sit at home and select what

you want in the way of goods of any kind.

THAT they keep you posted prices and advise you of new arrivals.

THAT merchants who gain advertise them for your fit.

THAT this opportunity is before you. Keep posted the ads and buy where the best are.

AUCTION FARM SALE

We will sell at Public Auction at the old F. P. Rogers farm, located 13 miles southwest of Perryton and 3 miles northwest of Farnsworth on—

Tuesday, December 14

THE FOLLOWING DESCRIBED PROPERTY:

—CATTLE—

- 100 Hereford Cows with Calves
- 20 Yearling Heifers
- 20 Hereford Cows, heavy springers

—SHEEP—

- 950 Rambouillet one to two year ewes, bred to lamb at various times

—HOGS—

- 2 Duroc Jersey Brood Sows
- 2 Duroc Jersey Gilts

—HORSES—

- 1 Bay Work Horse, weight 1400
- 1 Brown Work Horse, weight 1400
- 2 Grey Mares, age 7 and 8, weight 1250
- 2 Black Mares, weight 1100
- 2 Black Horses, weight 1100
- 2 Yearling Fillies

—MULES—

- Several Head of good young Mules, Broke and unbroke

In addition to the above, there will be on sale a considerable amount of live stock which we are unable to list at this time. WE PROMISE YOU A REAL SALE.

Terms—All sums under \$10.00 cash. On sums over \$10.00 six months time will be given on bankable notes to bear 10 per cent interest from date. 5 per cent discount for cash on sums over \$10.00. All property to be settled for before being moved.

LUMBER—HARDWARE
 PAINT HEADQUARTERS

President Coolidge To Preside Over Greatest Road Conclave

Billions To Be Spent On Highways and By-ways. Every State to Gain In Immense Program.

OLD SPANISH TRAIL--The No Snow Route From Coast To Coast--A Fine Example of Good Road Building.

Written Especially for The Ochiltree County Herald
A. A. HOOPINGARDNER

Good roads have become the paramount subject in every township, municipality, county and state. Good roads legislation will be of major importance in every state legislature next spring.

Boards of trustees, county commissioners, state and federal highway directors will bend every effort to make 1927 the banner good-roads year.

For 55,000 miles of improved highways are on the program for the United States in 1927.

With federal aid, state aid and local levies and bond issues, very few counties will not be included in the sweeping plans to "drag the people out of the mud."

Majority of the states have gone forward as fast as possible with highways, inter-state and inter-county highways have been built at a cost of billions of dollars. Several states which pioneered in good roads are now rebuilding, widening, opening new "feeders" into main arteries.

Still there are a number of states, and dozens of communities, where good roads are still to come. It is in these districts that the intensive campaigns will be made and the combined power of state and county authorities will be used to start, at least, the cry for better roads.

The first gun in the gigantic road building campaign will be fired when the American Road Builders Association holds its annual conference at Chicago January 10-15, 1927. President Coolidge is to open the conference, and every governor in the United States will be there in person or be represented.

It is at this convention that detailed plans will be unfolded.

H. G. Shirley, of Richmond, Va., president of the association, says the 55,000 miles of good roads will be built at a cost of one and a quarter billion dollars.

This amazing expenditure will be spent in all parts of the country. East and west, north and south, will be joined by new or improved trans-continental routes.

Two Famous Transcontinental Routes

The two outstanding routes at present are the Lincoln Highway, through the northern tier of states, and the Old Spanish Trail through the south. This latter route, 2714 miles long, connects San Diego, Cal., with St. Augustine, Fla., extending along the boundary of Mexico and the Gulf of Mexico. The highway passes through California, Arizona, New Mexico, Texas, Louisiana, Mississippi, Alabama and Florida.

Ninety per cent of its long mileage is exceptionally well maintained. It is ideal for motorists who are looking for an extensive fall tour free of snow and mean motoring weather. They will find the Old Spanish Trail unparalleled for scenery, climate and good roads.

PRETTY WELL FIXED

A survey made recently by the Radio Corporation of America, shows that 44 per cent of the 26,000,000 American homes have phonographs, that 54 per cent have motor cars and that 69 per cent of the residences and offices have telephones.

GET THE HABIT. Use a Stylo Pen-cil Pen. Just like writing with a pen-cil. You can get them at Stewart Printing Co.

KNOW TEXAS

Texas produced about 5,500,000 bales of cotton this year and at the prevailing price it is worth almost as much as last year's cotton crop.

Texas wheat crop this year was 34,238,000 bushels or approximately five times that of last year.

The corn crop of Texas this year amounts to 108,612,000 bushels or almost four times as much as last year.

Texas produced 83,700,000 bushels of oats this year or more than six times as much as last year.

On crops other than cotton Texas farmers will collect this year more than \$100,000,000 in excess of their crop returns for last year.

Self-Fed Hogs Don't Overeat

When hogs of any age have constant access to self-feeders there is practically no danger of their overeating, says the United States Department of Agriculture. This is of considerable importance in the case of sows which are suckling their litters. An additional advantage of the self-feeder system is the freedom from overcrowding at the feeders which is usual when hand feeding is practiced.

RABBIT

Rabbits are good cooked in any way chicken is cooked—fried, or baked, when young and tender—stewed or en casserole in gravy, if older. Left over rabbit meat is good for croquettes, hash, shepherd's pie, salad or in any dish where you could use chicken.

Christmas Cards at Herald Office

SWEET POTATOES AND APPLES

Did you ever try sweet potatoes and apples cooked together? First cook the sweet potatoes in their skins in boiling salted water for about 15 minutes. Pare, core, and slice the apples. Skin and slice the sweet potatoes. Place alternate layers of sweet potatoes and apples in a buttered baking dish sprinkling each layer with sugar and dots of butter. Add a little water, and bake until the apples and potatoes are soft. Brown sugar is liked by many people for this combination.

THOUGHT RAILROADS DEVICE OF SATAN IN OHIO, 1828

In Lancaster, Ohio, in 1828, a debating society of young men applied for the use of the school house. The school board answered: "You are welcome to the use of the school house in which to debate all proper questions; but such things as railroads and telegraphs are impossible and rank indefinitely. There is nothing in the word of God about them. If God had designed that his intelligent creatures should travel at the frightful speed of 15 miles an hour by steam, he would have clearly foretold it through His holy prophets. It is a device of Satan to lead immoral souls down to hell."

A Gift for Everybody

The Remington Portable Typewriter

MEETS every requirement of personal writing. The world's lightest writing machine with standard keyboard—tips the scales at only 8½ pounds net. The most compact of all typewriters—fits in a carrying case only four inches high.

A Remington Portable makes the most practical, the most useful of all Christmas presents—the kind of gift which is sure to inspire gratitude.

Come in and let us show it to you.

Nation's Youngest?

Margaret Joyce of Alma, Nebr., is the youngest school teacher in Nebraska to hold a state certificate. Only 15 years old, Miss Joyce is a graduate of high school and is now teaching in a rural school. If you know of a younger teacher this newspaper would like to receive name and age.

HOME CURING OF PORK

The cotton situation is causing farmers to think of the possibilities of hog production also the production of food and food for themselves and their livestock. The records that over half the farms in Texas have no hogs and we do not believe that it will be possible to get all the farmers to produce hogs for home consumption, especially during the time of depressed hog prices until they learn how to do a good job of curing their own meat, advises E. L. Eudaly, Extension Service Specialist, A. and M. College of Texas.

Curing pork is not only a matter of making it keep. It must be put up in such a manner that it will make a desirable food. Not only must it be tasty when first cured, but it should stay that way for twelve months. Mr. Eudaly does not think that the dry salt method fulfills these requirements. Sugar curing by the brine process, he says, is always followed by folks once they have learned to use it.

There are several formulas for making this brine, the following being a good one:

- 10 gallons water
- 20 pounds salt
- 10 pounds brown sugar
- 5 ounces salt peter

Bring the water to a boil, then add the salt. Stir this about a minute, then add the sugar and salt peter. Continue to stir until all is dissolved. Allow this to cool and the brine is ready.

It is preferable to kill the hog in the afternoon. Cut up the meat and rub salt on it, spread it out and allow to stand overnight. In the meantime, make the brine as directed and allow it to stand over night.

The next morning, pack the meat in a barrel. Pack the hams and

shoulders first, with the skin side up, then pack the side meat with skin side up. Put a weight on the meat and then pour the brine over it. Let it stand in this manner for three weeks. At this time, take out the side meat and hang up to drip. Weight the hams and shoulders down in the brine again and leave it there another ten days. After this time, take these out and hang up to drip, smoke it and then wrap it. This is usually done by wrapping first with newspapers and then cotton sacking. Be sure to sew the cloth on tight so that no bugs or flies can get to the meat. Sew on a strap to hang the package with. Hang it in a cool place and you will have as good meat as you can buy during the entire year.

C. E. Pattison of the Union neighborhood was a Perryton visitor last Monday.

Office supplies at Herald Office The Herald \$1.50 a year in advance.

William Beebe

When Jules Verne stretched his imagination and wrote 20 Leagues under the Sea, people said unkind things about his sanity. Now Wm. Beebe, Director of Research in New York Zoological Society plans to dive down one mile in the Atlantic. He will use a cylinder 8 feet long, 3 feet in diameter that will withstand a pressure of 1 1/2 tons per square inch.

For Sale

Believing that she can attain the heights of stardom in movie world, but lacking financial backing, Charlene Meredith of Los Angeles has incorporated herself for \$50,000 and is selling stock. Dividends will depend upon her success.

Attorney Jack Allen attended court at Hansford the fore part of the week.

An eight pound boy was born to Mr. and Mrs. W. H. Dunlavy on Wednesday morning of this week.

Miss Thelma Taylor returned Thursday from Richmond, West Virginia where she has been visiting her sister, Mrs. Iza Williams, and other relatives.

Mrs. Ralph Apple was here the latter part of last week visiting with relatives and friends. Mr. and Mrs. Apple are now living at Bernadillo, N. M., having recently moved to that point from their former home at Summit Point, Utah. Mrs. Apple went from here to Fairview, Oklahoma where she visited in the home of her parents.

J. S. Talley returned from Wichita where he accompanied a cattle shipment.

Miss Marguerite Rayzor was ill last week but is again attending school.

These Improvements are Important

There are two general classes of motor car improvements. Those made primarily for their effect on the public—and those made primarily for their effect upon the car.

You will perceive at once that Dodge Brothers new five-bearing crankshaft, two-unit starting and lighting system, air cleaner and other recent improvements, are the sort that represent genuine value.

They are sound and substantial betterments, producing definite and marked results, and as such they are typical of Dodge Brothers methods and product.

Important Facts About Used Ford Cars

Everyone who thinks of buying a used car usually asks himself, "How can I tell what sort of usage it has had and what condition it is in now."

The average buyer simply can't tell either by looking at a car or by taking a short ride. Unless he is a very good mechanic, trained in detecting mechanical conditions he must take the dealer's word that the used car he buys is worth the price he pays.

That is why it pays to buy one of our guaranteed reconditioned Fords. Every used Ford we take in is thoroughly inspected by our expert mechanics and all necessary reconditioning done with genuine Ford parts.

We do not attempt to hide mechanical defects by filling up the part with extra heavy oil and grease. When we find a defect we correct it. The parts we put in are made in the Ford factory by the same men and mechanics that made the original car. We actually renew the car with these new parts and when we offer the car for sale, we tell you exactly what renewing has been done.

The prices we ask for our renewed cars are very moderate. We do not try to make any profit beyond the cost of handling because we know that if we sell you a good used Ford at a low price, you will come back to us for your new Ford.

Come in and see the used Fords in stock. All are good value and all carry our personal guarantee of satisfaction.

WHAT'S DOING IN WEST TEXAS

REPORTED BY PUBLICITY DEPARTMENT OF WEST TEXAS CHAMBER OF COMMERCE

Skelly—Development in Skelly, new townsite located eight miles north of White Deer, is going by leaps and bounds. A \$60,000 structure is one of the latest announcements, to be built by the Acme Fishing Tool company of Parkersburg, W. V. Gas is being piped through the town, and a water supply is being completed.

Whiteface—Construction work on a two story brick and tile hotel has started here. Eleven rooms upstairs will accommodate the hotel trade, and the down stairs will be equipped for a store building.

Stamford—Word has been received at the headquarters office here that numerous organizations and individuals throughout west Texas are endorsing the cotton acreage reduction program set forth by the special cotton committee of the West Texas Chamber of Commerce.

Harrel Chapel—Organization of the Harrel Chapel Community Club was made at a social gathering here recently. Meetings are to be held at least once a month at which times a social in connection with a constructive program will be arranged.

Hereford—New phone equipment which will increase efficiency of the local plant will be installed here soon according to announcement from officials of the company. A board of 105 drops which will be used to handle toll and rural lines is to be added in addition to a number of new phones.

Matador—A resolution has been adopted by the Motley Chamber of Commerce and the citizens of Matador to endorse the petition of the Q. A. & P. R. R., to consolidate the Motley County R. R., with their line and thus abolish the two line differentials now paid on all freight handled at Matador.

Littlefield—President Arthur P. Duggan of the West Texas Chamber of Commerce has announced that work of that organization for securing passage of another state tax survey resolution will not be diminished even though the first bill for a survey was vetoed by the governor. The Legislative Bureau of the West Texas Chamber of Commerce is renewing its efforts to insure passage of a similar resolution by the Fortieth Legislature providing for a state survey that will lead to remedies for uniformity and equality of taxation.

McCombs—A forty ton cold storage plant is to be erected here. The plant will be installed by G. E. Frazier of the Frazier Ice and Fuel Company.

Winters—As one of the three major planks adopted by the Winters Chamber of Commerce for the year, the organization has decided to devote every effort to assist the West Texas Chamber of Commerce put over their re-affirmed program of diversification and "living at home" for West Texas farmers.

Wheeler—An order has been passed granting a franchise to the Panhandle Power and Light Company for erection of a high line to pass through Mobeetle and Wheeler.

Kerrville—An inspection tour of various poultry plants in the Hunt vicinity around Kerrville, Camp Verde, Center Point, Comfort, and smaller communities in the lower part of the county, has been started here as the initial step of the re-

cently consolidated egg circles of this district to stimulate poultry raising in the Upper Guadalupe valley. The tours will combine instructive visiting with lectures by poultry specialists at each point.

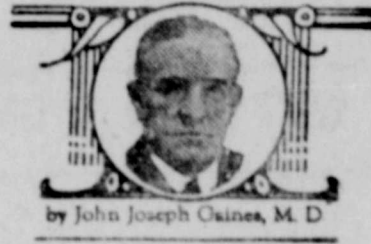

FILE FOR COMPENSATION

Ex-Service Men Urged to Get Papers Registered Before December 31, 1926.

Ex-service men who have not filed for their adjusted compensation have until December 31 to get their papers properly registered. All who have not made their filings are urged to do so at once.

Application blanks may be procured from the secretary of the Chamber of Commerce, who will be pleased to assist anyone filling out the application, eligible for this compensation.

About Your Health Things You Should Know

by John Joseph Osines, M. D.

YOUR FRETFUL CHILD

The peevish, fretful baby is known to most parents. Given a new toy, or a piece of candy, he accepts it for the moment—to cast it aside and resume his ill-tempered habit.

To assume that such a little one is only exercising a naturally bad disposition is a pitifully erroneous conclusion. The trouble is, he is not healthy, and no amount of spanking will cure him.

No child in perfect health will fret—unless his clothing may be so fitted or adjusted that it hurts him or makes him uncomfortable. To punish a baby, or to accuse him of being the possessor of a bad "temper" just because we didn't know what ails him, shows how incompetent even some mothers may become.

In case the baby is fretful, bear in mind that his digestive tract is the first thing likely to have gone wrong; see to it that his food is of the right kind, and given at proper times. Do not over-feed, as you are so prone to do so yourself. It is baby's business to grow—and growth is painless; he will grow as you give him half a chance.

If you cannot find the cause of baby's fretfulness and apparent ill-temper, that doesn't mean that there is no cause for it. Don't let him grow into a spindling, ill-nourished, fault-finding neurotic, as he may do—if you and your family physician do not keep in touch closely.

"Doping" babies with soothing syrups has long been under the ban; no intelligent reading mother will re-

sort to such lazy criminal tactics; see that your baby is all right inside—then outside. There are no other sides to a baby.

THE MANIFOLD MENU

Yes, I mean just that. You may see it demonstrated in the "company dinner," whereat people sit down and reverently return thanks (sometimes) for the intimate presence of their worst enemy. If you take the trouble to itemize at any of these feasts, you will discover fifteen or twenty formidable articles of diet roaring their defiance at the half-dyspeptic stomachs.

Appetite, frail at best, and subject to all sorts of intemperance by our master that slays remorselessly. The human being that holds his appetite in subjection is a hero worthy of a medal. I once made a professional call to a patient in Dubuque, Iowa; it was winter—the temperature below zero. I partook of noon-dinner with the family, reluctantly dreading the "company dinner." Imagine my surprise to behold the table set with the following: a well-done beef-roast, a loaf of rye bread, four baked potatoes and (horrors!) a pint bottle of beer!—one at each plate. There may have been a tomato-relish or a small dish of pickles—I forget; a simple custard was the desert.

The simplicity of this diet impressed me so that I have never forgotten. It was a German family, very well-to-do. Never had a member of this family suffered from a digestive disorder. So far as the malt drink was concerned, it was my first and only experience of that kind.

The healthy man or woman who would remain so, does not need more than two or three articles of food at a sitting, the plainer the better. And the farther we wander astray, the more abrupt the fall.

LETTERS TO SANTA CLAUS

Dear Santa

Santa Claus, Peoples Supply Co. Dear Santa: I want the largest set of dishes you have got and a small oil stove. One big stocken full of toys, a doll with curly hair, small broom, and etc. Yours Truly Corlene Yankley

UNION SCHOOL NOTES

In the contest, the Blues obtained the most subscriptions for The Ladies Home Journal, The Saturday evening Post and The Country Gentleman. The Greens, the losing team, gave the Blues a party on Monday night. The Greens entertained us royally. Delicious refreshments were served.

Mr. Hutchinson, our county agent, and Miss Hudson, our county demonstrator, were here at our 4H Club meeting, Thursday, December 2nd. As it was a fine day, we had the club games out of doors.

Miss Ramstead, the Red Cross nurse, was with us, Thursday night and Friday.

Our basketball boys and girls played Blue Mound Friday afternoon, December 3. The score was 16-26 in favor of Blue Mound boys and 2-14 in favor of our girls. The grade boys played also. The score was 5 to 26 in favor of our boys.

Mr. and Mrs. M. A. Cook and family, and Mrs. Cook's father and mother, Mr. and Mrs. Joel Nelson of near Gray, left Wednesday morning for southern Texas, where they will spend the winter.

The Boyish Bobbed Girl

Lacks Sweet Modesty of the Old Fashioned Girl but Resents Lack of Respect

She had a boyish bob and her lips were rouged. Her skirt was exceedingly short and her entire make-up stamped her as the latest word in the up-to-date flapper. She sat near the door at the rear entrance of the crowded street car, and was chewing gum vigorously. As we watched her we felt sorry for her, she seemed so desirous of being a boy and there was nothing of the sweet old-fashioned girl in her appearance. At a certain street corner an old lady bent with the weight of years and juggling a market basket boarded the car. She was simply an old, old woman, burned out and tired at the end of life's journey. There was no empty seat in the car and the old woman put her basket down on the floor and lurched for a strap. Not a young man among the many seated there took notice of the latest passenger. We glanced at the girl with the boyish bob and saw a glitter of

contempt in her eyes. In she jumped up from her seat and helped the old woman to her feet. She went back and got a basket and put it at the feet of the old woman. Then the lass with the boyish bob and the extremely short skirt and raked youth with a glance of Two of them felt the burden and offered the girl their hand hung onto the strap and declined to accept the offer. We decided you never saw a girl may dress like a fool and still possess a heart. The old-fashioned chivalrous young men is rapidly disappearing and the sweet modesty of the old-fashioned girl is also passing out women will never read where they will cease to lack of respect for their chinsion Labor Review.

C. W. Barker was a Peitor last Saturday.

Mrs. Vern Wilson of community was shopping Saturday.

HERE'S A WAY YOU CAN MAKE YOUR CHECKING ACCOUNT SERVE BETTER
Everyone wants the best possible service out of every tool—and since a checking account is a financial tool, it too, should be made to serve you well.
The way to make this financial tool serve you best is to keep a cash reserve of several hundred dollars in your checking account.
That's the way to have a fund of cash for business opportunities. That's the way to get ahead. And that's the practice of successful business men.
Keep \$400 or \$500 in your checking account. It pays.
