

THE LUBBOCK AVA LANCHE

XXVIII, NO. 49

LUBBOCK, LUBBOCK COUNTY, TEXAS, FRIDAY, SEPT. 3, 1926

PUBLISHED EVERY FRIDAY.

ATTORNEY GENERAL MOODY SUCCESSFUL IN LAST PRIMARY

"JIM," MOST RESOURCEFUL POLITICIAN IS DEFEATED

CONGRATULATED

BAPTISTS ASK HIM TO OFF IN INAUGURAL BALL

DALLAS, Aug. 30.—Like one of those square jawed heroes of a David Graham Phillips novel, Attorney General Dan Moody, who found it pretty tough paying rent on a small town law office about four years ago, now finds himself at the tender age of 33, about to be inaugurated governor of Texas, the latest state in the union.

His decisive defeat of Governor "Ma" Ferguson for the democratic gubernatorial nomination, which in Texas is equivalent to election, was spectacular enough for the closing chapters of any best seller.

The latest figures of the Texas election bureau tonight gave him 476,735 votes to the woman governor's 255,065, almost two to one.

The victory is in keeping with the other phases of his political career which has been a story book affair from the beginning.

Four years ago Moody was city attorney of a small Texas town; later he was county attorney with his office at Georgetown, Texas. The early chapters of his career tell how vigorously he prosecuted the masked floggers in his county and in doing so gained enough prominence for himself that he was asked to make the race for the attorney generalship. He won by the largest majority even given a candidate for that office.

Made Rapid Rise

The red haired attorney general took his seat when "Ma" Ferguson was inaugurated, and from then on the plot began to thicken. From the first he fought "Fergusonism" relentlessly and fearlessly. To add a pinch of romance into the story he fell in love and was married just before he made his great fight for the gubernatorial nomination.

The fact that his opponent was a woman didn't detract from the dramatic interest in the race. For when "Fighting Dan," as they called him back in Taylor, rolled up an avalanche of votes to smother Fergusonism he defeated one of the strongest and most resourceful politicians in the whole history of Texas politics—James E. Ferguson.

"Boss" Is Defeated

When Moody defeated "Ma," he defeated "Farmer Jim"—a perfect villain for a novel as regards appearance. He was an innately gifted self advertiser. He wore swallow tail coats, high hats, had ready made eye sand a shrewd face. He had the "statesmanly appearance."

For twenty years "Farmer Jim" had been boss of Texas politics. When he was impeached as governor, he replied to his enemies by running his wife for the office and electing her. Such a man Moody looked horns with—and won.

And now that he has won, the story ought to end in a tender fade-out, or a succulent paragraph full of sighs and sweet words. But it isn't. Moody today found himself at the beginning of another story. As he doubtless realized as he sat in his office, the worst is yet to come. Being governor of Texas isn't the easiest job in the world—an observation made today by the vanquished Jim Ferguson and relayed to him.

A problem was sent to him today along with the congratulatory messages. It came from the Baptists of Texas. It urged him to call off the inaugural ball, which is Texas' greatest social event. Along with the telegram the Baptists sent Mrs. Moody a letter asking her to use her influence.

And the Moodys are Baptists.

Nine Permits For Buildings Granted

Lubbock's building for September got a flying start yesterday with the taking out of permits for \$24,500 for nine residences. The total for the year passed the million dollar mark yesterday, now totalling \$1,017,520.

E. O. Smith yesterday contracted to construct six residences at an approximate cost of \$12,000. They will each contain four rooms and will be located on fourth street. H. L. Gowan is contractor for the program. Smith stated yesterday that he expected to sell the houses.

LEE McCOWAN WAS HERE FROM HOCKLEY TUESDAY

Lee McCowan, of Hockley county, was in the city yesterday. He reports everything doing nicely in his part of the country. He has been what might be called a dry streak this year, and while cotton shedded quite a bit on account of dry weather, he will make a very favorable yield. He says he has fed enough in the stacks at his place to last him two years without having to grow another stalk.

Leahy Must Face Trial For Murder

SAN ANTONIO, Aug. 31.—Habeas Corpus hearing will be held for H. J. Leahy in jail here, Friday.

Motion to quash the petition for habeas corpus hearing was denied Tuesday by Judge G. O. Brown, special judge of the 37th district court. Leahy was rearrested here following his release on bail last week from the jail at Sinton where he was being held charged in connection with the murder of Dr. J. A. Ramsey, Ma-this physician.

C. M. Chambers, district attorney of Bexar county had contested the action declaring that the only court empowered to give Leahy an examining trial was the justice court at Lagarto, Live Oak county, where a warrant had been issued for him. The warrant was served on him here.

The defense attacked the veracity of the warrant.

West Texas Dist. Convention At Henrietta

STAMFORD, Sept. 1.—The annual convention of the Red River District of the West Texas Chamber of Commerce will be held in Henrietta September 2. Plans are being made to accommodate and entertain the large delegations which are expected to attend from all neighboring cities and towns of that section.

E. H. Whitehead, publicity manager of the West Texas Chamber of Commerce and a former principal of the Henrietta High School, will be toastmaster at the luncheon which will be served at the First Christian Church. B. N. Whitaker, convention manager of the West Texas organization, is another of the speakers for the day's program. He will discuss the objects of the district convention. A. B. Spencer, a former president of the West Texas Chamber of Commerce and present manager of the Fort Worth Chamber, will speak on "The Chamber of Commerce in Practical Operation." J. A. Allison, Wichita Falls; M. Johnson, Bowie; Col. C. C. French, of the Fort Worth Stock yards company; and several prominent citizens of Henrietta will discuss the various phases of farming, dairying and poultry raising, taking up some of the problems to be met in these industries.

The entire session of the day will be held during the hours from 10:00 a. m. when A. M. Bourland, a vice president of the West Texas Chamber of Commerce, of Vernon, will call the meeting to order at the Majestic Theatre; until the close of the afternoon session, which will be held at the Clay County court house.

Band contests will be held, and the assembled bands from all visiting cities will furnish music for the program.

Doak Rainey Will Ignore Complaint

AUSTIN, Sept. 1.—Doak Rainey, assistant state highway engineer has resolved to ignore the resolution adopted by the Panhandle-Plains district convention of the West Texas chamber of commerce, asking his removal, friends asserted today.

Strenuous objection was made some time ago by West Texans as a result of Rainey's description of climatic conditions in the Panhandle section, in an article printed in the "Lubbock Avallanche" and in the "Lubbock Avallanche."

Rainey is said to have told friends that he considered his recent statement modifying the highway bulletin article as sufficient and the incident is closed as far as he is concerned.

McFarland's Name May Be Omitted

WICHITA FALLS, Sept. 1.—The right of W. D. McFarland, of Graham, nominee of the 23rd district for the state senate to have his name placed on the general election ballot in November will be tried here Friday in the 78th district court in quo warranto proceedings seeking to enjoin Mrs. Emma Meharg, secretary of state, from certifying his name as the nominee to the county clerk.

Alleged expenditures in excess of the limit placed by law are made the basis for the proceedings which were started in Wilbarger county last week and transferred to Wichita county today.

McFarland beat J. D. Parnell of this city, incumbent, in the July primary by nearly 4,000 votes.

Life City Manager Austin, Threatened

AUSTIN, Sept. 1.—Despite threats against his life for declaring war on Austin's alleged underworld, City Manager Adam R. Johnson today issued an edict announcing every effort would be bent toward ridding the city of vice, "threat or no threats."

ALLRED IS MAKING GAIN ON POLLARD

MOODY STILL LEADING FERGUSON ALMOST QUARTER OF MILLION VOTES

DALLAS, Sept. 1.—Returns to the Texas election bureau at 6 p. m. from 248 out of 252 counties in the state, including 211 complete, show the following totals for candidates in Saturday's democratic primary election:

Governor — Ferguson 268,290; Moody 486,464.

Attorney general: Allred 347,533; Pollard 354,765.

Treasurer: Ball 270,772; Hatcher 015,599.

Returns from all of the 19 counties in the eleventh district, including 15 complete:

Court of civil appeals—Davenport 25,355; Hickman 27,518.

LAND CASE REVERSED AND NEW TRIAL GIVEN

A case of much interest to local jurors is now being tried in the district court. It is M. M. Coleman vs. J. A. Putman and involves the title of some land. Two years ago the case was tried here and a verdict was rendered in favor of Coleman. Going to higher courts the case was ordered reversed and a new trial granted. It is likely that the trial will run until the last of the week.

Garbage Wagons To Get Rubbish

Monday morning the city will inaugurate the garbage service which was passed by the city commission recently. The service will extend over the entire city. A big of wagons will be placed on the service until the city is entirely cleaned up and then the service will operate regularly once or twice a week or as often as needed.

The home owners are asked to purchase a standard garbage can, not over 15 gallons and not under 5 gallons with a tight fitting lid to keep out the flies. The can must also have two handles on it so that it may be lifted into the wagon. Only kitchen garbage will be allowed in the cans and the water must be drained off before it can be hauled away. Other garbage such as cans, paper, bones and the like must be put into a box or a sack and must not weigh over 150 pounds.

W. H. Perkins, acting city manager, stated yesterday that the service would be established for the benefit of the people and they must cooperate with the wagons.

POSTAL RECEIPTS SHOW INCREASE AT WELLINGTON

WELLINGTON, Texas, Aug. 31.—The postal receipts of the Wellington post office have increased 17 per cent from January 1st to August 1st, compared with the same period of time in 1925.

With the harvest of the enormous cotton crop soon to commence, preparations have begun to handle the vast amount of mail.

Hockley County Farmers are Busy

LEVELLAND, Aug. 30.—With the greatest feed crop in the history of the Plains, the county is very busy harvesting same. Many farmers will make sufficient feed to last him for five years. Corn will make as high as 50 bushels per acre and maize will make as high as two tons per acre. Kafir and higeria will thresh as high as 60 bushels per acre.

Cotton is in its peak at this time and very little damage is reported from the army worm, however, a great deal of damage can be done to the plant, yet the yield promises as high as a bale per acre, being four to five weeks earlier than last year. September will bring in several hundred bales of cotton to the gin.

Hockley county has not had too much rain this season, just enough, and many farmers will put hundreds of acres to wheat during the early fall.

Dove Season Opens Earlier This Year

DALLAS, Texas, Aug. 31.—Reports on the eve of the dove shooting season that the birds had been poisoned from cotton spray are wholly without truth, according to J. E. Sandusky, of Cullen & Boren, sporting goods store gun department, who consulted a chemist.

Poison of sufficient quantity to kill a human would first kill the dove Sandusky said the chemist told him.

The dove season opens this year September 1 instead of September 16 as in former years. Doves are plentiful throughout North Texas, reports here indicate.

CHOIR, AGED 77 YEARS, SINGS AT DENTON

DENTON, Texas, Sept. 1.—The average age of the "Old Folks" choir which sang hymns of the Civil War here recently was found to be 77.

The age of eligibility for the choir was from 60 to 100.

Lubbock County's First Bale Ginned

Otis Roberts, who lives near Shallowater, ginned his first bale of 1926 cotton at Shallowater late Monday afternoon. So far as is known this is the first bale ginned in Lubbock or adjoining counties this season.

It was late when the cotton was brought in, so it was not sold. A premium of \$60 was given the grower, however.

ARRESTS EXPECTED IN MATHIS MURDER

RANGER CAPTAIN EXPECTED TO MAKE STARTLING STATEMENT

CORPUS CHRISTI, Tex., Sept. 1.—Admission today by Ranger Captain Frank Hamer that he had been working on the Barnes bombing mystery of two years ago and rumors new evidence in the case has been uncovered by officers working on the Dr. J. A. Ramsey murder at Mathis, give rise to a further rumor that an arrest was expected soon.

Reports came from Alice that the bombing mystery in which J. A. Barnes and his seven years old son were killed was nearing a solution.

The bomb was sent by express from San Antonio.

Former Senator is Granted Clemency

AUSTIN, Aug. 30.—Former Senator E. A. Dechard, Jr., convicted in Dallas county on two charges of forgery in connection with land deals and sentenced to six and a half years and six years, respectively, was today granted a 30 day extension by Governor Miriam A. Ferguson of a 90 day furlough which expired today.

The furlough was granted by the governor to permit Dechard to arrange his business affairs before going to the penitentiary to serve out his sentences.

Senator Dechard was in Austin today and personally saw the governor in securing extension of the furlough.

At the time he was a member of the legislature Dechard represented the 34th and 35th sessions of the senate. He was a member of the senate which voted impeachment of James E. Ferguson.

Would Have Leahy In Live Oak County

SAN ANTONIO, Tex., Aug. 30.—Steps for having H. J. Leahy returned to Live Oak county at once were taken today by C. M. Chambers, district attorney, when he filed a motion in 37th district court, to have the petition for habeas corpus set aside. Leahy had asked for a habeas corpus hearing which was set for Friday.

Leahy, who is under bond in San Patricio county on charges in connection with the death of Dr. J. A. Ramsey of Mathis, was rearrested here Saturday following new developments in the case.

Chambers' motion set forth that as Leahy was arrested here on a warrant issued by a justice court of Live Oak county, the justice court there had the sole right to give the defendant an examining trial.

Chambers was joined by Sid Malone of Beeville, district attorney of the 36th district, and N. M. Crane of Cuero. Crane said he had been employed as special prosecutor.

Sweetwater Jeweler Puts Poison in Safe

SWEETWATER, Aug. 30.—The safe in the jewelry store of J. P. Majors here has been equipped with a poison gas apparatus for protection against burglars.

Anyone tampering with the safe will release a charge of both chlorine and mustard gas, two of the deadliest gases used during the world war.

Waxahachie Farmers Combat Leaf Worm

WAXAHACHIE, Aug. 30.—During the recent high winds and dry weather period, cotton farmers adopted insecticide use of spray poisoning to combat leaf worms.

It had been found difficult to make enough of the dust poison to adhere to the plant to make the method effective.

A number of farmers constructed liquid sprays by assembling a barrel, pipes and nozzle for about \$20.

FARMERS URGED TO ARRANGE EXHIBITS

EATON INSISTS THAT FARMERS TAKE PART IN SOUTH PLAINS FAIR

Now is the time for all farmers of Lubbock county and the South Plains to gather and prepare their agricultural exhibits for the Panhandle-South Plains Fair which will be held here September 29, 30, October 1 and 2, according to D. F. Eaton, superintendent of the agricultural department.

The grain sorghum crops, the forage crops and other products are making ready to be gathered at this time and unless they are gathered in the next few days and prepared for the fair, there is danger of weather stain and other hazards which will detract from the attractiveness and the scoring possibilities of the grain, Eaton stated.

Other products like sudan, millet and many others are ready to be gathered at this time and will make the best show products if gathered at this time.

All communities in Lubbock county should have a meeting and have a committee busy preparing the exhibit. Officials of the fair association will be glad to meet with the communities at any time if notified of the meeting date. Eaton said, when full information regarding the rules and regulations for preparing the exhibit will be given and any other information and help that can be rendered by the fair association.

Word is coming from committees from the surrounding counties stating crops are good and prize winning displays are being prepared for the fair.

An agricultural exhibit is being prepared for Lubbock county for the Dallas Fair by Garnet Reeves, of the Chamber of Commerce and the best products from the community exhibits and the Lubbock county individual exhibits will be used in this display. Many other products have already been gathered for the exhibit and are already ready to be shipped to Dallas. Anyone who has exceptional agricultural products should advise Reeves or Eaton in order that the Lubbock county exhibit may have the best products from this county.

"Ma" Be Treated Kindly by Moody

DALLAS, T-x., Aug. 30.—According to close friends of Attorney General Dan Moody, the democratic gubernatorial nominee, favors John Boyle of San Antonio as permanent chairman of the state democratic convention. The convention is scheduled to be held in San Antonio September 7 and 8.

The attorney general is said to favor Cone Johnson of Tyler as temporary chairman.

It is probable that if the desires of Moody are carried out Harry Graves of Georgetown will fill the position of chairman of the democratic executive committee now held by Arthur Eldson of Hamilton.

Moody has indicated that he will not favor planks in the San Antonio convention attacking Governor Ferguson although it is expected that many county conventions will send delegations instructed to vote for the immediate resignation of Mrs. Ferguson.

TRUCK KILLS MAN

HOUSTON, Sept. 1.—J. C. D. Harkider was killed today when struck by a large truck.

Two other pedestrians were injured slightly in automobile accidents.

Pardon Mill Now Running Capacity

AUSTIN, Aug. 30.—Governor Miriam A. Ferguson returned to the executive offices today and as one of her first acts since the runoff primary last Saturday, when she was decisively defeated for re-election by Attorney General Dan Moody, granted 18 clemency proclamations. Six full pardons were among the proclamations bringing the grand total of such pardons for her term to 2,325.

Former governor James E. Ferguson spent most of the day in the executive offices interviewing visitors, most of whom were said to be seeking pardons or paroles.

Ferguson, when asked about his threat to seek court action to prevent the name of Moody from being placed on the general election ballot answered that:

"There is plenty of time to consider this matter."

White and Negro Killed in Cave-in

FORT WORTH, Texas, Sept. 1.—A negro was killed and white man injured in a cave-in during excavating operations here Wednesday.

Ed Hemphill, sixty, negro, was trapped when the earth fell and was killed. Herbert Smith, 25, was buried up to his neck with a large rock resting on his chest but was extricated safely after rescuers had worked for 45 minutes to uncover him and get the negro's body. Smith's injuries are said not to be serious.

Midland to Meet Bus Competition

AUSTIN, Sept. 1.—To meet motor bus competition the Texas Midland Railroad, operating from Paris to Ennis, has adopted a new policy in serving the public along its line in the matter of passenger transportation, according to Railroad Commissioner Lon Smith.

The company has ordered ticket offices uptown at Paris, Cooper, Commerce, Greenville and Terrell where tickets are sold and baggage checked.

In addition, passengers on reached to the hotels.

Traveling destination points are delivered to the hotels or at any point in the business district on buses operated by the Midland Railroad free of any charge to the passengers.

This is the first railroad in Texas to adopt such a policy to meet the ever increasing competition of motor buses, it was said at the office of the Railroad Commission.

TWO TRIPLETS A MONTH AT OLNEY

OLNEY, Aug. 30.—For the second time in less than a month triplets have been born in Olney.

Several days ago a trio of boys were born to Mr. and Mrs. Perry, two of them dying a few minutes after birth.

The first set of triplets in the history of the town were born to Mr. and Mrs. G. S. Mahler three weeks ago.

Man is Held For Shooting At Colorado

COLORADO, Sept. 1.—Henry (Slick) Handa, a negro about 45 years old, was shot and instantly killed with a 38-calibre pistol about 10:30 yesterday morning in the negro section of this city. Marcus Snyder, a well to do cattle man of Sierra Blanca and formerly of this city, voluntarily surrendered in connection with the shooting. He waived an examining trial and was released on \$5000 bond.

Snyder made no statement. It was reported that the negro had been working on Snyder's ranch near Sierra Blanca for the past 14 months and that several nights ago while Snyder was away, a negro man was prowling about the house. Mrs. Snyder caught him in one of the rooms but he fled.

The report further goes that the negro then caught a tiger and came back to Colorado, his old home town. Snyder returned to his Sierra Blanca home yesterday and then came on to Colorado late last night. It was when he met Handa this morning that the shooting took place.

The body remains in a local undertaking establishment while the authorities are trying to locate some relatives to claim it.

Houston Picture Operators Strike

HOUSTON, Sept. 1.—Twelve motion picture houses closed their doors here today as a protest against the increased pay demanded by motion picture projector operators.

Pay increases totalling \$12.50 per week for the first and second movie operators were asked by the local union.

Theater owners refused to grant it in signing the new year's contract on the ground that the increase was based on the seating capacity of the houses and not on their earning capacity or their admission prices.

Following a series of conference the operators and the owners were deadlocked. A strike was called among the operators at noon and the owners announced that the theaters were closed.

Big Bend is Gathering Cotton

ALPINE, Texas, Sept. 1.—Cotton picking in the Big Bend counties is progressing nicely, the first bale this year in the Big Bend counties was produced in Presidio county. The outlook continues bright for a bale to the acre on an average, on farms along the Rio Grande, all of which are irrigated. The leaf worm has made its appearance in all three of the Big Bend counties—Jeff Davis, Presidio and Brewster—but it is believed that very little damage to the cotton will result. The crops here are better than in previous years.

Wet Gas is Fatal To Well Drillers

AMARILLO, Texas, Sept. 1.—"Wet gas," a poison dangerous in oil fields, is believed to have caused the death of W. B. Hawk, driller from California and A. C. Underwood, tool dresser from West Virginia, who bodies were found today in the cellar of a Bayshore Oil company's well near Pampa.

The well is making ninety million feet of gas.

NEW HOTEL OPENS DOORS TO PUBLIC GUESTS NUMEROUS

MANY VISITORS REGISTER ON DAY OF OPENING

IS PRIDE OF CITY

MOST MODERN HOSTELRY IN ALL OF THE SOUTHWEST

"Lubbock's Crying Need," in the shape of a new 120 room, six-story, fire-proof hotel, was officially opened to the public yesterday and several patrons from all parts of the state in its first day of business. Dallas, Houston, Austin, Wichita Falls, Brownwood, Ft. Worth and several other places were represented in the list of registrants at the hotel last night. Also in the list, in fact, the first man to register after the building had been accepted by the board of one Spencer A. Wells, manager of the Hemphill-Price Company, giving his address as the capitol of the South Plains.

The formal opening of the hotel will not be held until after the fifteenth of September. At that time an elaborate opening is being planned by those in charge. At present the house proper is open for business and will introduce the finest service known in the Panhandle and South Plains in hotels.

All the rooms of the six floors are complete and ready for use with the exception of a few minor things in a few places. The banquet hall, was opened last night to a formal entertainment and will be the scene of many others in the near future. Friday night the Tech students of the city will gather for a big banquet and dance. Other festivities have been planned for the hall.

September 18 will see the house as host to the Annual Peddler's Jubilee. Several hundred traveling salesmen of the state will gather here in their annual celebration. Elaborate details are being planned for the entertainment of the legions of the grip.

The Hotel Coffee Shop is now serving meals and the best food obtainable is the only kind, used according to manager LaFon. The guests were permitted in the rooms for the first time last night and a number of the rooms were taken. Rich furnishings may be found in the lobby and the mezzanine floor. According to several yesterday, no other hotel in the state has as fine furniture as the lobby of the Lubbock. The center of the lobby contains three large sofas with floor lamps, rugs and smoking sets properly arranged. The mezzanine floor has similar furniture with a fine piano.

Day clerk is none other than H. (Swede) Kling, formerly of the Lubbock Inn and famed for his popularity and friendship with hotel patrons over the state. Kling is highly satisfied with the bright prospects of the hotel and is greeting his friends with that same conquering smile for which he is famous.

Barber Shop Open

The Hotel Barber Shop will open today with the best equipment of any shop on the South Plains. Spacious, white and neat, with expert men. W. E. Davis has the most modern six-chair shop in the state. Individual towel service will be one of the main features of the shop, according to Mr. Davis. Included in the wealth of equipment is the Sun Aero machine. It is a patented dryer which gives the sun-drying effect in all facial and scalp treatments, being the only one in a barber shop in Lubbock. A manicurist will also operate in the shop.

The basement of the hotel is devoted mostly to sample rooms, which will give the merchants and salesmen excellent facilities for bargaining.

The Hotel Drug, which is to be operated by J. O. Smith, will be open in a few days, according to Mr. Smith yesterday. Workmen are now busy installing furniture and arranging fixtures. Two other rental spaces have not yet been announced by the management.

Moody Wins With Heavy Majority

DALLAS, Tex., Aug. 30.—With reports from 248 counties out of 252 in the state in, and 138 of those complete, the Texas democratic primary runoff showed the following results:

Governor: Ferguson 268,290; Moody 476,735.

Attorney General: Allred 347,533; Pollard 354,765.

Treasurer: Ball 261,431; Hatcher 301,710.

Returns from 18 out of 19 counties in the eleventh district including nine completed showed the following results for judges of the court of civil appeals: Davenport 25,355; Hickman 27,518.

SOCIETY, CHURCH and CLUB NEWS

EDITED BY
Mrs. Percy Spencer
PHONE 487
1625 15TH STREET

Miss Elizabeth Scott, daughter of Mr. and Mrs. G. R. Scott, and Mr. Roy J. Watson, of Newcastle, were married at 8:30 Wednesday morning in the home of the bride's parents, 1901 Main street. The ceremony was marked by a charming simplicity the bride having only one attendant, Mrs. Ernest Lee, formerly Miss Alice Bledsoe.

Mrs. Richard L. Douglass very sweetly sang "O promise Me" before the bride and groom. Miss Marjorie Leland accompanied Mrs. Douglass and also played the wedding march. The soft strains of the "Venetian Love Song" were heard during the ceremony. L. G. Wilson, III, small son of Mr. and Mrs. Maple Wilson, was ring bearer. Miss Scott and Mr. Watson met under an arch covered in fern and flowers, where the words of the ceremony were said, the Rev. J. W. Watson, officiating.

For the wedding the bride wore a gown in a beautiful shade of blue, combined with exquisite cream lace. She carried an arm bouquet of premier roses and fern. Her going away suit was fawn colored, with blue crepe blouse, the accessories harmonizing.

Mrs. Lee wore green georgette, and carried an arm bouquet of gladioli and fern.

Mr. and Mrs. Watson left in their car immediately after the wedding for Newcastle, where a completely furnished new home awaits them.

Mrs. Watson leaves a host of friends who will look forward to her promised visits home. Mr. Watson is a cotton buyer, of Newcastle, where he is deservedly popular.

Miss Stanton Honoree At Shower And 42 Party

One of the major parties of the week was given Wednesday afternoon complementing Miss Mary Alice Stanton, who will be married next Thursday to Campbell Anderson. The party was given in the home of Mrs. Sam T. Davis, with Mrs. O. B. Trinkle as joint hostess. Forty-two was played and the guests received Miss Stanton with many beautiful gifts in the form of a miscellaneous shower. Little Miss Molly Davis dressed in deep yellow, made the presentation speech, as she delivered the girls in a huge laundry basket drawn in a little wagon, both covered with gold crepe paper. "Most people when they see the laundry basket and wagon, know what to expect," she said, "but it's not true this time. For this little wagon bears a basket of nice useful gifts, for you, Miss Alice. Now you just open and see, if you don't believe me." The gifts were opened and admired by all the guests.

The colors of gold and white were used in all the appointments of the party, golden glow and marigold being used in the decorations. The centers of the refreshment tables were gold and white, and the two course luncheon also carried out these colors. The course was of gold and white brick cream and gold and white marble cake.

The guest list included Mesdames W. W. Koyler, W. C. Rylander, F. A. Norman, Ed. Armstrong, J. L. Dow, A. B. Ellis, H. W. Sims, A. B. Davis, W. L. Raugh, Rosella Rushing, H. W. Stanton, Fred Spikes, F. E. Wheelock, Raymond George, C. S. Middleton, J. D. Peters, Alfred Eubanks, J. H. Bryan and Misses Mary Alice Stanton, Glenn Stanton and Sue Bryan.

Comanche Visitor is Honoree at 42 Party

Mrs. B. E. Ater charmingly entertained a few of her friends Monday afternoon complementing her mother Mrs. J. T. Gosby, of Comanche. Forty-two was the diversion offered, and after the games the hostess served cream and cake.

The guests present were Mesdames J. T. Gosby, J. G. Biffle, H. P. Bradley, J. N. Bishop, Robert Saunders, Moore Smith, Olen Melton, A. L. Ater, C. A. Pauler, A. H. Travis, W. E. Robinson and Miss Willis Lykes of Sweetwater.

No Worms in a Healthy Child
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S LAXATIVE CATHARTIC acts regularly on two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or digest the worms, and the child will be in perfect health. Pleasant to take. One per bottle.

T. E. L. Class Has Fine Meeting Sunday Morning

The T. E. L. Class of the First Baptist Church had splendid attendance Sunday morning. Two visitors were present.

Mrs. Fann taught the lesson and brought the class a wonderful message on "Ideal Human Relationships."

Mrs. Fann gave a short talk on "Who Is Our Neighbor?" The regular business and social meeting will not be held this week as usual on first Wednesday, but will be held in the class room Wednesday of next week at which time it is hoped Mrs. Studeman, class teacher, will be home and can meet with the class and aid in the collection of officers.

Mrs. Hart is Honored With Shower and Farewell Party

Mrs. Martin Hart, who is leaving Lubbock to make her home in Amarillo, was complimented with a handkerchief shower and game party Monday evening at the home of Mrs. J. E. Parson. The party was given by the members of the American Legion auxiliary, of which Mrs. Hart was secretary and a very active member.

Bridge and forty-two were played. Mrs. Broughton winning high score and Mrs. Peter slow score in bridge. Mrs. Holt winning high and Mrs. Rupe low in forty-two. The high score prizes were Italian pottery vases and low prizes were attractive wall pockets.

Chicken salad, cheese wafers, potato chips, olives, macaroons and iced tea were served to following members and guests: Mesdames Martha Hart, N. L. Peters, H. W. Broughton, F. H. Childress, W. B. Brown, Amos Heward, T. H. Carter, O. A. Terry, H. L. Pharr, J. C. Smith, C. M. Holt, F. D. Rupe, H. D. Woods, E. J. Parsons and H. L. Allen.

Enjoy Charming Party At Quick Home Thursday

Miss Mary Eleanor Quick and Miss Annie Lu Barrier very charmingly entertained their friends with a forty-two party Wednesday morning at the home of Mrs. J. D. Quick, 1401 Main.

A color scheme of orchid and yellow was used in the decorations of summer flowers. A two course luncheon was served with nasturtiums, orchid phlox, and larspur as plate favors. Small baskets of candies were given each guest during the games.

The guests present were Mesdames Annie Snyder, Lou Alice Watson, Lucille Ben, Mary Lou Campbell, Elizabeth Adams, Peggy Whipple, Willis Docherty, Felice Docherty, Geraldine Smith, Mildred Buckingham, Ruby Arnett, Lucille Moxley, Thelma Scott, Waverice Stoker, Alice Barr, Louise Bates, Virginia Murray, Sallie Bean, Kate Boyd, Mary Lou Bayless, Marjorie Leaverton, Katherine Mills, Fay Hunt, Marjorie Mulligan and Lillian Earnest of Fort Worth.

Mrs. Martin Pres. Of Camp Fire Guardians Association

Mrs. R. H. Martin was elected president of the association of Camp Fire guardians at a meeting of the guardians held Monday afternoon at the home of Mrs. W. B. Price, chairman of the board of sponsors of Lubbock Camp Fire Girls.

Mrs. C. M. Holt became vice president; and Mrs. S. A. Henry was elected secretary-treasurer. The association will meet at two-thirty the first Friday afternoon of each month, at the home of Mrs. Martin. Mrs. Holt was made chairman of the program committee, and Mrs. G. M. Cosby was appointed as chairman of the committee on constitution and bylaws.

The organization took place after a meeting of the guardians who were invited by Mrs. Price to hear Miss Ruby Lattimore, national executive of Camp Fire work, who is spending her vacation near Lubbock. Miss Lattimore discussed the outstanding points of camp fire and told of the best ways of working with the girls. The guardians found her talk very helpful and expect to hear her again before she leaves West Texas. Miss Lattimore will speak to all the girls of the organization at a meeting to be arranged soon.

HAMILTON JENKINS ENTER-TAINS S. S. CLASS
Hamilton Jenkins was host to the members of Miss Adkinson's class of the Baptist Sunday School Monday evening at his home. Hamilton is president of the class and gave his hosts a most delightful evening. Games were enjoyed and watermelon served.

To Cure a Cold in One Day
Take LAXATIVE BROMO QUININE (Tablets). It stops the Cough and Headache and works off the Cold. E. W. GROVE'S signature on each box. 25c.

Mr. Duncan Gives Boundaries of the Districts of City Schools Which Will Begin Monday, September Thirteenth

The following is a tentative assignment of the children of Lubbock to the several schools. Patrons will understand that it is impossible at this time to tell just where the boundary lines between the districts in every case will be. We attempted last spring to ascertain from the enrollment then where the lines should run, but, of course, the enrollment this year may be very different from what it was last year, so patrons living on the border lines of the districts are kindly asked to be patient if their children have to be changed from school to school during the first few weeks.

J. M. Gordon Jr. and Bride Visiting Parents

J. M. Gordon, Jr., eldest son of Dean and Mrs. J. M. Gordon of the Texas Tech, and Miss Della Crow of Chattanooga, Oklahoma, were married Sunday afternoon in Chattanooga, and arrived in Lubbock Monday afternoon to spend a week or two with Dean and Mrs. Gordon. The bride is the daughter of Mr. and Mrs. Walter Crow of Chattanooga. Miss Crow received her A. B. degree in the University of Oklahoma in June of this year.

Mr. Gordon received his A. B. degree from the University of Tulsa in 1922, and a B. S. from the medical school in 1924. This year he finished his junior work in the school of medicine in the University of Oklahoma. He will return to the university this fall and finish his degree in medicine in 1927. During the summer he has done work in the office of Drs. Lain and Roland, specialists in x-ray and skin diseases in Oklahoma City.

George M. Hunt School
Pupils in the 1st to the 5th grades, inclusive, residing south of Broadway, east of Ave. Q, and west of the Santa Fe.

K. Carter School
Pupils in the 1st to the 5th grades, inclusive, residing north of Broadway and west of the Amarillo line of the Santa Fe.

Dupre School
Pupils in the 1st to the 5th grades, inclusive, residing south of Broadway and west of Ave. Q.

Sanders School
Pupils in the 1st to the 6th grades, inclusive, residing east of the Amarillo line of the Santa Fe.

Mexican School
All Mexican children all over the city.

Dunbar School
All colored children all over the city.

Outlying Ward Schools
Pupils in the 1st to the 7th grades, inclusive, in the territory of Southwest, Northwest, Northeast and Northwest Wards will attend the schools in their respective territory.

Kindergarten
There will be only one kindergarten maintained this year and it will be in the Geo. M. Hunt School. This kindergarten will accommodate sixty children and the tuition will be two dollars per month. The reason that we are not providing another kindergarten is because the people did not show sufficient interest last year in this phase of the work to justify it.

Classification of Pupils
Grade pupils will not be classified until Monday morning, Sept. 13, at 9 o'clock. High school students who have been classified will be classified on September 9 and 10 at the high school and junior high school buildings.

M. H. DUNCAN, Superintendent.

Canyon Pair Wedding Of Interest To Many Friends

On the morning of August 15 at her home 12 miles north of Lubbock, Mrs. Thomas Cox gave her eldest daughter, Leola, in marriage to William Roy Sides.

The home looked very cool and inviting with vines and flowers in the yard and cut flowers in great profusion throughout the receiving rooms, making a beautiful and well-remembered happy occasion. They were preceded by Everett Hicks and Miss Irene Cox, where they met Rev. Brooks, who united them with a beautiful and impressive ceremony in the presence of only a few close friends. The bride wore a handsome dress of pink crepe, romance silk and carried an arm bouquet of pink roses and fern. Miss Cox's dress was pastel georgette and lace.

Mr. and Mrs. Sides left immediately after the ceremony for a trip through Clovis, Orchards, white mountains, camping in a cabin and enjoying the Carlsbad cavern and other interesting places in New Mexico.

Miss Leola has many friends in Lubbock county, having taught in the schools at Caldwell and Hardy. Mr. Sides has lived in Lubbock but a short time but has made a very favorable impression on all who know him. He was in business in Canton, Texas, before coming here. While Miss Leola was in her town as home demonstration agent, and cupid favored them there.

Many beautiful and useful presents came to them from friends in Van Zandt county. The Burns Van Zandt company, floral, sent beautiful flowers. All who were present say it was a very charming home wedding.

Those attending from a distance were Mrs. Lula Sides, Canton, mother of the groom; Miss Irene Cox, Childress, sister of the bride; Rev. Brooks, minister for the Church of Christ at Lubbock; Everett Hicks and Miss Thelma Stephenson, Lubbock; Messrs. Blackman and Brown.

Ratcliff, has returned to her home at Bangs, Texas.

Mrs. I. F. Holland and two sons returned home Sunday from Los Angeles, Cal., where they have been visiting for the past month.

Martin A. Hart, local attorney, is moving to Amarillo where he will open a law office there. He and Mrs. Hart will leave this morning.

Mr. and Mrs. H. L. Williams and family are spending the week in New Mexico visiting Ruidoso, Carlsbad, and other places before returning to Lubbock.

Ira Norris, brother of Mrs. Clarence Ratcliff, came through Lubbock on his way to Amarillo after his best girl. They were married in Amarillo and came back for a visit with his sister.

Mrs. L. S. Mast has as her guest Mrs. C. O. Collins and niece, Miss Lillian McGee of Fort Worth. Mrs. Collins is a daughter and Miss McGee a grand daughter of Judge John R. McGee of Lubbock.

Rudolph Caffey of Anson was here visiting friends. He has just closed a meeting with Rev. R. B. Freeman at Groom. Caffey has charge of the song service under Evangelist Freeman.

C. L. Svenson and wife arrived here the first of the week from Minnesota. Svenson will be a member of the engineering faculty of the Tech the coming year.

Ray Mowery returned the first of the week from Ames, Iowa where he has been attending school. He will be a member of the Tech faculty this year in the school of agriculture.

A wire received yesterday by Garland Woodward from Fort Worth stated that a baby girl was born to Mr. and Mrs. Robert Higgins yesterday morning. Mrs. Higgins is under the care of her brother, Dr. Herbert Thompson.

Marjaret Metzenauer, noted contralto, will appear here the coming year on the Artist's course which is being conducted by the Tech and high school. Dr. Horn stated yesterday that the Lubbock people would be very fortunate in hearing Miss Metzenauer as she is one of the leading singers of the United States.

(From Wednesday's Daily)

Capt. Lynn A. Boyd, of Austin, was a visitor here yesterday.

W. R. Davis, of Houston, is here attending to insurance matters.

Mr. and Mrs. Vogt Williams, of Dallas, were registered at the Lubbock Hotel for the past few days.

Dr. and Mrs. L. P. Smith have as their guest this week, Miss Blanche Woodward, of Tyson, Oklahoma.

Rev. Edgar Eckridge and wife are visiting in the home of Mr. and Mrs. H. W. Richardson, 1813 15th street.

Ben Smith, editor of the Slaton Times, was here for a few hours yesterday looking after business in connection with his newspaper.

I. F. Holland, county tax collector, is in Corpus Christi attending a state convention of tax collectors. He will spend several days there.

Martin Jarrett, of Jarrett's Fashion Shops, Amarillo and Lubbock, was a visitor here yesterday with his partner, Harry Meyers.

John Young, for Houston and points in the eastern part of the United States for an extended tour.

Miss Sue Bryan returned Tuesday morning from Hale Center, where she has been visiting in the home of Mr. and Mrs. Elmo Caudle. She was also a guest of Miss Patsy Caudle.

Mr. Carl L. Svenson and mother, Mrs. M. M. Svenson arrived here the first of the week from Bridgeport, Connecticut and are at home at 2421 9th street. Mr. Svenson is a member of the engineering faculty of the Tech.

Out of town court jurors in court this week are: W. H. Jackson, C. V. Young, M. F. Klattenhoff, T. D. Johnson, S. A. Abbott, T. J. Blume, T. W. Covington, W. T. Gentry, W. Smart, Julian Nesbit and T. A. Johnson all of Slaton; Claude Hightower, Idaloo; D. B. Jarvis, Slide.

Dr. W. A. Jackson and wife returned Monday from Waco where they have been for the summer. Dr. Jackson was a member of the Baylor faculty while there. They are now at home, 2223 14th street but will move into their new home in Ellwood in about ten days.

A. M. Robertson, federal farm labor man, went to Big Spring yesterday, where he will study the cotton crop condition. He will return here tomorrow and call a meeting the latter part of the week to determine the labor question of the cotton crop of this section.

Mrs. N. E. McKay and three children, of Humble, Texas, who have been visiting her parents, Mr. and Mrs. J. M. Slagle, returned home Tuesday. Mrs. Slagle accompanied them. A. T. Slagle of Edmond, Oklahoma, returned home Monday after visiting with his parents, Mr. and Mrs. J. M. Slagle for the past few weeks.

H. O. Waters, Mrs. Waters and their two daughters, Willette and Edith, returned Tuesday afternoon from Florida, where they have been spending a few days visiting in the home of Mrs. D. H. Collins, who is a sister to Mrs. Waters.

Mr. Waters reports the crop conditions very favorable, and says

there are no signs of worms in the cotton, and feed looks good. It will be several weeks before there is any cotton to amount to much opened in that part of the country.

(From Thursday's Daily)

Mr. and Mrs. J. R. McComas and daughter, Lorenda of Petersburg were in the guest.

Dorothy Duncan has gone to Ft. Worth to attend the wedding of her cousin, Miss Lillian Norris, who is to be married to Chas. Blanchard Weaver of Wheaton, Illinois. Dr. Frank J. Norris, father of the bride will speak the ceremony.

Lynian Ashby of McLean arrived in town Tuesday and will remain here and go to the Tech.

M. L. Brashear, the newly elected County Commissioner of Precinct 3, was in the city yesterday. Mr. Brashear was winner of the second primary by a majority of more than 70 votes.

Mrs. J. M. Farris and children of Floydada are the guests of Mr. and Mrs. J. A. Burris, 1919 16th street.

S. J. Redman was here yesterday from Abernathy.

Boyce Cardwell was here yesterday from Plainview looking after business in this city.

Charlie Burrus of Abilene was mixing his former friends and visiting relatives here yesterday.

O. L. Johnson of Vernon, Texas, was here yesterday, and will soon move to Lubbock. He has accepted an important position on the Lubbock Morning Avalanche and will move here with his family soon after the 15th of this month.

Oliver McElroy of Lella Lake arrived in town yesterday. He will manage the Tech band again this fall.

Wm. Long returned yesterday to

Los Angeles, California, after spending several days with his parents at Shallowater.

Professor R. C. Harrison and son returned yesterday from Austin where he spent a week visiting and doing work in the state library.

Mr. and Mrs. W. L. Stangel had as their guests for several days last week, Commander and Mrs. T. R. Canon, and little son of Annapolis, Md. Commander Canon left Sunday for Philadelphia to join a hospital ship which sails for a several months cruise to Guantanamo, Cuba. Mrs. Canon and little son will remain in Lubbock for several weeks.

Mr. and Mrs. Arnett Bynum and children, and Miss Mozelle Treadway visited Lubbock friends Wednesday and attended the circus.

Mr. and Mrs. Henry French of the Lou community, Terry county, were Lubbock visitors yesterday.

J. P. Nystel, secretary of the Abilene chamber of commerce was here Wednesday. He came down to take his son home. He has been in one of the local sanitariums for some weeks, but was not sufficiently recovered to take away from the institution, so will remain for a few days longer.

Mr. and Mrs. E. A. Hankins have just returned from a month's trip in Pine Bluffs, Ark., and other points, where they visited Mr. Kankins' parents and other relatives.

To Stop a Cough Quick
take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues.

A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The Healing effect of Hayes' Healing Honey to stop the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the combined treatment is 35c. Just ask your druggist for HAYES' HEALING HONEY.

Buy Your Boy A Real Suit

Real Values these—regular values too—not bought for the occasion—but carried steadily in our stock for mothers who want sturdy stamina and boyish style combined with economical price.

Perfection Clothes Real Boy's Wear

have done a bit of good work in designing the Nelson, the well-cut double-breasted, and the Hanley, the two-button sack suit.

Both offered with two trousers, both with vests, and both well tailored in tweeds and chevrons in the season's foremost fabric shades.

HAS HAD HIS FLING IN POLITICS, HE SAYS, AND WILL BE GLAD TO RETURN TO PRIVATE LIFE; STRIKES AT KLAN

AUSTIN, Aug. 31.—Former Governor James E. Ferguson, Texas politician extraordinary, celebrated his fifty-fifth birthday anniversary yesterday by issuing a statement for the press.

Ferguson has remained officially silent since the runoff primary Saturday in which his wife was defeated for re-nomination for governor by Dan Moody, youthful attorney general.

"I've had my fling of ups and downs, as it were, and at the age of 55, I find myself contented by a philosophy that tells me the worst never happens only in our minds," said Ferguson.

The former governor declared "Fergusonism" which Moody fought in the primary campaign was not dead and that the Ku Klux Klan "can't form" and elected Moody.

"So far as holding office is concerned, I have had my fling," the statement said, setting at rest the question in Texas as to whether Ferguson would again enter politics actively. "I really feel as a private citizen, I have just reached the point where I can be of real service to my state. Instead of this continuous campaign Jim Ferguson for what he hasn't done, it will be somebody else to take the cross and the flag and defend it, possibly, their citizens."

Ferguson said the Ku Klux Klan, "can't form" in the run off primary and elected Moody. "By the way, the Klan is in San Antonio, and there are at least 3,000 of them," said Moody.

"Was Klan Vote?" This is the question Ferguson analyzed the vote in the run off.

For Ferguson 127,000; for Moody 131,775. Ferguson said the Klan vote was not a factor in the election.

"If Moody is finally elected, the people will have a chance to try out the virtues of the machine government, and no more should be shown in the way of a fair and honest administration of state affairs," Ferguson said.

Ferguson said that the Klan vote was not a factor in the election. "They just believed the way they voted," he said, "and anybody who thinks Ferguson is dead in Texas, just believe that over the number of the machine had of political people who did not get any of money, who did not take any orders from the Ku Klux and who did not take orders from the big business crowd, the oil companies' money and the devotion of Jim Evans, the Ku Klux emperor, formed the crowd that is supposed to have given Moody his 221,000 majority."

Slaton Paving is Now Being Laid

SLATON, Sept. 1.—L. H. Howard, paving contractor, poured the first truck load of concrete yesterday on the initial seventeen block of paving now under way in Slaton. A stationary Koching mixer, with a capacity of 2,000 yards of concrete per day, is being used for the work.

The first concrete was placed on north Ninth street, at the intersection of Garza. Additional paving will be laid for three blocks down Ninth at this time, that the highway may be opened up through the city.

Contract will be let for fifteen additional blocks of paving, according to Mayor W. H. McKinnham, within the next few days. The new paving will be of brick and concrete, with four-inch face and two and one-half inch brick top.

It is to extend from Tenth street, along Garza avenue past the county park to Seventeenth street; out the street to the new high school building, from Lubbock to Jean, along south Tenth; and from Seventh to Ninth streets on Lynn.

The city has \$11,000 in the paving fund which will be used to make this extension; the city paying one-fourth and the property owners paying three-fourths of the total cost. With the completion of this work, Slaton will have thirty-two blocks of paving.

FINE STOCK BEING BROUGHT TO DAWSON COUNTY NOW

LAMESA, Aug. 30.—W. A. Williams, secretary of the Chamber of Commerce, informs us this week that they have their bull circle all ready to go now. Eight registered heads of the highest grade have been ordered from E. C. Lancaster, the famous breeder of Telford, Texas, and they should arrive at an early date. These bulls will be distributed out among the farmers of Dawson county. They are from tested dams and are of the finest quality.

"DIAMOND DYE" ANY GARMENT, DRAPERY

Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple, any woman can dye. Just dip to tint or boil to dye. Rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings—everything!

See Diamond Dye—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton, or mixed goods.

Clay County Will Have Moody Rally

HENRIETTA, Sept. 1.—Clay county will turn out en masse Saturday for a Dan Moody rally and to witness Representative Puben Loftis pay in election bet to Attorney Frank L. Holliday, former legislator.

Loftis, who bet on Governor Ferguson, will be obliged to don a rube's harness and pull Holliday around the court house square in a little red wagon.

First the election turned out differently. Holliday, attired in P. V. L's would have been required to push Loftis around the square in a wheel barrow, according to the terms of the wager.

UPSET STOMACH, GAS, INDIGESTION, TAKE 'DIAPEPSIN'

The moment you eat a tablet of "Dian's Diapiesin" your indigestion is gone. No more distress from a upset stomach, gas, indigestion, heartburn, palpitation, or any other ailment. Correct your digestion for a few cents. Each package guaranteed by druggist to relieve stomach trouble.

Police Chief is Granted Pardon

OKLAHOMA CITY, Okla., Sept. 1.—The pardon sentence which has been handed over the head of Richard "Dick" Herwig, chief of police of Fort Worth, Texas, has been granted.

Herwig was convicted of conspiracy in connection with the death nearly three years ago of Alfred Thompson, Okla. county legislator, and sentenced to 15 years in prison. He was granted a full pardon today by Governor Trippe, following the recommendation of such action by several state officers who investigated the case.

In a petition asking clemency, Herwig charged that his conviction followed persecution by the Ku Klux Klan. He was tried twice, his first trial resulting in a hung jury, and the second, held in February, of this year, resulting in a conviction.

MISS BEULAH COLE

Will begin a class in Art September 6. Four separate courses will be given:

1. Photograph Coloring.
2. Landscape Coloring.
3. Painting on Fabrics, using Paints.
4. Painting on Fabric, using Crayons.

Each course a high type of work, requires only a short time to complete, and is inexpensive. For further information as to enrolling, address me, Box 1661.

Storing Cotton Seed Regulations

WASHINGTON, Aug. 30.—Regulations for the storage of cotton seed under the United States Warehouse Act have been promulgated by the Secretary of Agriculture, effective immediately. This action has been taken after extended investigation relating to the storage of cotton seed and the kind of structure and equipment required for proper storage.

Under the regulations only what is generally known as "prime" cotton seed may be stored. The regulations do not apply to seed stored for seed stock purposes, but solely to that stored for commercial purposes.

Department officials say that while the regulations may seem drastic to some, it is felt that any less strict regulations would tend to defeat the prime purpose of storage under the law. That purpose is to ensure that cotton seed as for any other product, stored under the warehouse act, is stored under proper conditions.

Under the regulations, seed must be stored in a structure which is fireproof, and which is capable of being kept at a constant temperature of 60 degrees Fahrenheit.

While the Federal Reserve Board has been asked to issue regulations for the storage of cotton seed under the warehouse act, the Federal Reserve Board has not yet issued any regulations.

Under the regulations, seed must be stored in a structure which is fireproof, and which is capable of being kept at a constant temperature of 60 degrees Fahrenheit. The regulations also require that the structure be capable of being kept at a constant temperature of 60 degrees Fahrenheit.

BUTLER BROTHERS OPEN SHOW ROOM

FULL LINE SAMPLES CARRIED IN BASEMENT OF NEW HOTEL LUBBOCK

With the opening of the Hotel Lubbock yesterday came another opening for Lubbock and the South Plains. Butler Brothers of Dallas, represented by F. W. Givard and O. W. Longloze, opened a sample room in one of the basement rooms of the hotel. The room is devoted entirely to holiday goods and will be the means of hundreds of South Plains buyers within the next months.

Realizing the volume of business which the South Plains will have this fall, the company which has houses

in Chicago, Dallas and many other places over the United States, sought to meet the needs of the South Plains merchants in the easiest manner. The sample room which contains every available sample of toys and Christmas novelty goods will be established here until the fifth of October. During this period, the merchants of nearby towns of West Texas and the South Plains will be invited to place their orders.

According to Givard, if the business is large enough this fall, a permanent sample room will be established here by Butler Brothers. The establishment of the temporary sample room goes to show the confidence placed in this section by large firms.

Piles Cured in 6 to 14 Days. Druggists refund money if PIAZOPOLMENT fails to cure hemorrhoids, blind, itching or protruding piles. Varnum's hemorrhoid ointment. Piles cured in 6 to 14 days.

Warning to Farmers

Cotton Worms Are Here

Get them or they will get your crop.

THE THOMPSON INSECT MACHINE

Can Save Your Crop

This machine brushes the worms and other insects from the plants into pans of oil where they die instantly. It also sprays the plants with poison solution which kills the remaining worms. You have two chances to get them and no danger to you from inhaling a poisonous dust.

SUGGESTS SUBJECT FOR LOCAL SCHOOLS

How many of the school children of the schools of Lubbock and Lubbock county are familiar with the community in which they live? How many of the men tell you the mayor of their town is? How many of them can tell you anything about the government of the city or the county or the state? How many of them can tell you the outstanding historical facts about the city, county or state? They are probably able to do complicated problems in mathematics; can probably translate passages in French, Latin or German; can probably give you the facts and dates concerning the early history of England and Egypt and maybe something in this connection regarding the United States. But when it comes to important everyday things right here at home, it is doubtful that many of them can discuss intelligently any one of the things mentioned. Now that the school term is at hand it might be well for the trustees and teachers to think over these questions. It is very important that the pupils know something of the sciences, something of the history and geography of the world at large and be able to recognize and translate one or more of the foreign languages. It is also highly important that they know about their immediate surroundings. The majority of the pupils who obtain their education in the schools in this vicinity are going to be citizens of this community for years to come. Only a comparative few will ever have occasion ever to solve these problems in higher mathematics. It will also probably be seldom that they will be called on to translate Latin, French or German. On the other hand they are going to be confronted with problems which directly concern this community—their home. They are going to be called upon to give information regarding this or that right here at their very door. For this reason it is highly important that more attention be given these things. So far as is known there is no special course in the schools of this section which undertakes to acquaint the pupils with facts that bear upon their everyday lives right here at home. Maybe it would not be a bad idea for the teachers of each class to devote an hour or two each week getting these facts before their pupils. Give them the facts regarding the history of their own community; give them the facts regarding the prominent men of this section; give them facts about public men who are serving in office and the political parties with which they are affiliated. These things, together with other branches they get in their textbooks will tend to make a well rounded and well informed citizen. It will mean a more liberal education for them and put them in a better position for the demand which will be made upon them in years to come when they become the guiding hands of the community.

NEW VALUES

Day by day our sense of value changes. Day by day we come to detest what we once admired and to admire what we once detested. The fast moving chimera we call life, is so ever changing in its kaleidoscopic effects that we become dazed, blinded and we awake to find that the morals, the ideals and values of yesterday are no longer applicable to the new order and we reluctantly adapt our ideas, morals and values to changed conditions. Nothing could illustrate this more clearly than the comparison offered when Rudolph Valentino, film actor and President Emeritus Elliot, of Harvard University, both died within a few hours of each other. Valentino was a moving picture actor, 31 years of age. Dr. Elliot was a noted educator, 79 years old and a man who had been the public eye all of his life. Yet, every newspaper in the country, almost without exception, devoted more space and more prominent space to Valentino's death than to Dr. Elliot's. And, not only in this country, but abroad also, English newspapers and French newspapers used vast quantities of material on Dr. Elliot. But, you say, the fame of Dr. Elliot is lasting; that of Valentino ephemeral. But can you prove it? Ten years from now will people remember Elliot more than Valentino? And as for material success, Valentino died possessing an estate in California, cash and other possessions valued at nearly one million dollars. Could Dr. Elliot claim the same. There's no use fighting it. Our values are changing. We pay moving picture actors more than we do educators because we value them more and we are more affected by the death of the former for the same reason. Perhaps it's a false step on the part of the human race for it represents the trend in a complete change of values that must be recognized and in some manner combatted.

BACK TO SCHOOL

Hundreds of students in Lubbock will be going back to school within the next few weeks, and it is interesting to speculate upon the benefits to be derived from their studies. That the acquisition of education equips an individual for better service is not denied, but an education, in itself, will make a better citizen, is open to question. The curriculum of schools are receiving greater attention every year, whether the school be a lo-

cal graded affair or a university. Many thoughtful people have come to the conclusion that most of our schools do not pay enough attention to the life that the student will have to live when he gets out of school. In a community where many children will be unable to go to college it behooves the local authorities to provide as far as possible, for the future welfare of the scholar by equipping the boys and girls for the actual duties of life. This means helping them towards making a living. We are naturally proud of our schools, and the current thought of the educational world that views curriculums with alarm is not aimed so much at the present school carrying out present educational ideals, as it is the ideals themselves. The question of whether these are the correct aims of schools. And there is a considerable body of opinion that holds necessary for a broader training along the line of moral and civic duties than is now the rule.

PROFESSIONAL TENNIS

Even the most sincere friend of amateur sport must be moved by Suzanne Langlon's defense of her entry into professionalism. During the 12 years she has been the tennis champion, she says, she has earned millions of francs for tennis and paid "thousands of francs in entrance fees to be allowed to do so." At one match this year there was \$150,000 taken in at the gate. I have worked as hard at my career as any man or woman has worked at any career. And in my whole lifetime I have not earned \$5,000, and not one cent of this by my specialty, my life study—tennis. I am 27 and not wealthy. Should I embark on another career and leave the one for which I have what the people call genius? Or should I smile at the prospect of poverty and continue to earn a fortune, for whom? The money that she and her fellow amateurs make, she explains, goes to the owners of clubs, and does tennis itself, no good. As the attraction is increased by the players' fame, the admission prices are raised until "only the socially prominent" can afford them. The public does not profit any more than the players. The money goes into private pockets. Suzanne doesn't see why she doesn't profit by her arduous career and special talent, while benefitting the sport by making it possible for the general public to attend big matches. It is a hard argument to refute.

THAT CHANNEL SWIM

Critics have loudly claimed that Miss Gertrude Ederle was favored by wind and tide and accompanying tugs in her successful swim across the English Channel, must certainly find themselves silenced by the failure of six other swimmers to negotiate the difficult passage. These swimmers had every opportunity of taking the same course as did Miss Ederle, of taking the same advantage of wind and tide as she is supposed to have done, and of being accompanied by as many tugs as they desired. There is only one answer. The channel defeated these six swimmers because they were not of channel fibre. Miss Ederle was and therefore she made it. Meanwhile swimming enthusiasts throughout the country are cooking with interest upon the offer of the owner of Catalina Island, California, of \$25,000 to the winner of the 20-mile swim to that island from the mainland in open competition and according to the rules to be promulgated in the near future. Here would be a splendid opportunity for Miss Ederle to show her mettle in active competition with both the best men and women swimmers of the world. It might become a great swimming classic, and certainly, for this time alone, it would possess much interest for all those interested either in swimming as a sport, or in Miss Ederle's career. We shall hope that the details of the swim are soon arranged and that Miss Ederle takes part in the event.

THOSE ISLANDERS OF OURS

American people who are essentially a continental and inland people, are always having a wrestle with some island problem. When it isn't Cuba, it's Yap, and when it isn't Yap, it's Hawaii, and when it isn't Hawaii or any other pot wished on us for our merits or our sins, it's the Philippines. Also, for a nation that is supposed to have solved its religious problems, we end to be strangely involved in religious controversies. Now we have both kinds of trouble at once. There is no hard feeling, unquestionably, between the Filipinos and the Mohammedan Moros. But it rather looks as if the intensity and seriousness of it have been overestimated. There are 11,000,000 people in the Philippines, of whom more than 10,000,000 are classified as Christians. There are only about 400,000 Moros, with a total non-Christian population of not more than 670,000 in the Moro area. The two classes seem to have gotten along fairly well, in spite of some natural friction, until enterprising Americans discovered that the Moro islands were good rubber-growing land and that it would be simpler to get concessions from the Moros alone than from the ruling majority of the islanders. There may be some other way to handle the rubber problem.

PACIFIST STEEL

It is good to hear Baron von Krupp, who will control the great German "steel trust," some day, saying that he is opposed to warfare and therefore will never use his great steel plants to manufacture munitions. If the steel magnates of the world are agreed on this, future wars would be impossible. Yet, it is not entirely reassuring. Aside from the fact that other steel works, in Germany and elsewhere, might not agree, there is always the chance that an idealist like young Krupp might change his mind. When Christian ministers almost invariably take sides in case of war, or mere threats of war, and use their spiritual ammunition in behalf of their country, in spite of the Scriptural admonishments, what is to be expected of the steel men?

So Think We

We think one way of being a public benefactor is to trade at home.

We think it is just about time now for some wise guy to bloom out and tell us just what kind of weather we are going to have in 1927. Possibly the same guy told us last year about this time that we were not going to have any summer in 1926, will tell us something else.

We think that Miss Alli Bi is still blamed for a lot of things, by a lot of folks.

We think that fellow who was kind enough to say to one of our friends yesterday that he expected this column would not appear again this morning because we would not have Ma to pick at, will be surprised to know that she is not the only pebble on the beach, and that she was not the only woman that was ever defeated for governor. Two were eliminated the first primary.

We think that feathering one's nest is not much of a job sometimes, but explaining to the folks where you got your feathers is the hardest job, usually.

We think there would not be so many divorces if the young folks would figure the difference between paying attention and paying bills.

We think in order to help fill this column, we might suggest to do your Christmas shopping early.

We think the reason that people cannot believe all that they see in the newspapers is because the newspapers have to depend upon you for the information they get.

We think one need not find fault with the farmer for not knowing how many bolls of cotton is necessary on each stalk to produce a bale of cotton to the acre, for there are thousands of cotton experts who are no smarter especially if they do not know how many worms there are in the country.

We think that oil has made more stock salesmen rich than it has any other class of folks.

We think that Lubbock local markets on produce should be the highest on the South Plains.

We think that quite a number of criminals who are in the penitentiary will not serve their time.

We think that if we had as bad a name as some of the folks in this great state of ours, we would change our name too.

We think that R stands for Oyster month, S stands for subscription month, and a mighty fine time to pay subscriptions.

We think that the reason that a newspaper reporter sometimes makes mistakes is because if there is more than one person sees or hears of what the report-writer, there will be at least that many different reports.

We think that there is one thing about politics, one can sometimes hear what the other fellow thinks of you, which would hardly be possible under any other circumstances.

We think that some of the folks who were seized by the spring garden fever should also plant a fall garden.

We think that the wise husband will never argue very long with his wife. It may be alright to start an argument, but they should know just how far to carry it.

We think that when some of the fellows refer to the good old days, it must have been when they did not see their best girl more than once a week and not so much of her then.

We think that many men fight their way to the top of the ladder only to become dizzy when they get there and take a tumble.

We think that most wives think their husband is certainly lucky, and the average husband seems to think that some other

fellow is lucky in the choice of their life mate. As for us, we certainly beat some guy out of his good luck.

We think there should be a lot of pleasure in business for nearly every sport known to man is now made a business proposition.

We think that a fellow is very unimportant in this world if every mail does not bring you a list of questions from some source that you expected to answer intelligently.

We think that what a lot of folks do not know about driving an automobile would fill a good big book, and it does fill some of the hospitals.

We think that about all some people accumulate in life is rheumatism.

We think that a lot of fellows spent several dollars to go to the circus that owes bills that they cannot pay. But bills come every day, while the circus may not come but once a year.

We think that most all of the family difficulties are the results of misunderstandings now, or a little further back down the line.

We think if most people would look for the good in every one else there would be very little trouble among the people, and we would not have time to see the bad points.

We think it is quite appropriate for building permits to show a material increase, when the marriage license records show an increase of marriages.

We think that a lot of men who sue for a divorce should be given one and then the woman should be paid alimony of a couple of hundred dollars per month. That would take the taste for divorce out of their mouths quicker than anything else.

We think that if Lubbock is going to be the best city on the plains, the fellows who are responsible for making the prices on produce are going to have to see that the prices here are equal or a little better than the prices anywhere else within a hundred miles of here.

It Is Reported

That there is a probability of College Avenue being paved. This would be a great thing, and we believe the city and the property owners will connect every street that touches it.

That the fellows who park in the county court yard had a hard day explaining how it all happened that their candidate was defeated, or how he won so easily.

That it will be pretty hard for some of the curb stoners who have had the excuse that there is no work for them to do, if the fields will soon be ripe upon the harvest, and laborers will be needed.

That there is more building going on in Lubbock than any other five towns on the South Plains, and still some folks will tell you that there is nothing doing in Lubbock.

That a train with a headlight and a man with a light head met at a railway crossing recently. The train still had the headlight.

That many people are planning to have fine exhibits at the fair this year. This is as it should be, as there will be hundreds of people see this fair for the express reason of learning about what will grow in this section of the state.

That crop conditions are best on the South Plains of most any other section of the Plains.

That it is very difficult to find a residence in Lubbock that you can rent.

That a certain legislator will introduce a bill to amend the statutes where it reads that a man's home is where his wife lives. A fellow would look silly trying to make his home in

an automobile or at a bridge party, and that is the only possible conclusion a person can reach as to where some women stay.

That there will be an election to fill a vacancy in the City Commission. The city folks will have another chance to vote and select their man for this job. Vote or forever keep your mouths shut about the fellow that is chosen.

That there is a woman in Lubbock who never quits talking when she has told all she knows.

That there are five million people in New York. There has been quite a few arrivals evidently since O. Henry wrote of his "Four Million."

That since a St. Lou's man secured a divorce that he is gradually recovering his voice. Doctors claim that it is the result of using frequently. We presume from that he did not get a word in edgeways.

That Phoenix, Arizona, romped all over Wichita Kansas, and got their bacon to the ratio of nine to nothing.

That a man always misses something when he arrives at a lecture late. Well, that does not apply to the husband who arrives at home late. He usually gets everything.

That since Jim Ferguson made the announcement of the number of klans in Texas that will want a robe as soon as Dan is in office, the price of cotton went up.

That some smart fellow has figured it out that only one in a million finds an ideal mate. Judging from what we see and hear sometimes, there are not very many who happen to be the millionth ones in this country.

That the Germans are going to change their way of counting the hours. Instead of using two shifts of twelve hours each, they will count from one to twenty-four. That will mean that daughter's beau should leave promptly as the clock strikes "23."

That a constitutional amendment is needed to prevent eating. We think that most every fellow's constitution restricts it anyway after a limited time.

That the cotton buyers of this city would not even make a bid on the first bale of cotton that came here yesterday. If this is the case, Lubbock is not getting much out of her cotton this year, but we feel sure that there must have been some reason for it.

That not a candidate in the recent races will agree with the old saying that there is such a thing as "cheap politics."

That Olathe could not stand up under the pressure of the South Plains team from Lamesa and was given a drubbing to the tune of seven to two.

That some folks are still griping about sending the ball club to Denver. Anyone who has never made any mistakes or who have never made an investment that did not double up on profits is one who has never made many efforts. Only a very small percent of the teams could win, and it just happened that Sled's team was not the one this year.

That there are still many weeds in Lubbock that should be cut. Let's clean up for the opening of the schools and the Tech and the fair. We should not allow the visitors who will come to these institutions to find this town dirty and ragged. Let's give the old town a thorough cleaning before fall.

That the school facilities for the Mexicans in Lubbock are very poor. We believe that since these people are here we should provide better school facilities for them.

That there will be more counties have exhibits in the South Plains fair this fall than ever before. This is as it should be, and we hope there will be a hundred percent of the South Plains counties here.

Freshman Week At A & M College

COLLEGE STATION, Texas, Aug. 30.—Freshman Week at the A. and M. College of Texas, designed to introduce new students to college life under the most favorable circumstances, will be inaugurated this year beginning September 13, announced Dean C. E. Friley of the School of Arts and Sciences and Registrar of the college. The registration date for freshmen has been changed from Wednesday, September 15, to Monday, September 13. A diversified program, instructional and instructive, in nature, will be rendered during the week, to which attendance by the 800 freshmen expected this term will be required. A partial list of the exercises on the program includes the following: Monday: registration of new students; Tuesday: address of welcome, President T. O. Walton; College customs and traditions, Colonel Ike Ashburn; psychological tests and religious life at the A. and M. College of Texas, given under the direction of the Y. M. C. A. secretary and student pastors; Wednesday: military training and discipline, Colonel F. H. Turner, professor of military science and commandant of cadets; mathematics tests, and English tests; Thursday: physical examination of new students; Friday: formal opening of the fifty-first annual session of the college. Physical recreation will be provided under the direction of the department of physical education of the college every afternoon during the week and entertainment features, including movie pictures, will be provided at night.

DANDRUFF MEANS HAIR COMING OUT GIRLS ACT NOW!

Save Your Hair! Double Its Beauty In Just A Few Moments

"Danderine" Makes Your Hair Fluffy, Glossy, Wavy and Beautiful. Within ten minutes after an application of Danderine you can not find a single trace of dandruff. One application dissolves every particle of dandruff; invigorates the scalp, stops itching and falling hair. Furthermore Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow strong and beautiful. Bobbed hair has made the girls aware of the dangerous effects of dandruff, which is now more apparent than ever since the hair is short. Danderine is a sure way to get rid of dandruff and immediately doubles the beauty of your hair. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance. Get a small bottle of Danderine from any drug store or toilet counter for a few cents and keep that dandruff out of your hair and off your shoulders.

WELLINGTON GIVES DAY TO SALESMEN

WELLINGTON, Aug. 31.—The Knights of the Kix or the peddlers of Texas and Oklahoma have been designated a day at the Collingsworth County Fair this year. Thursday September 16th will be their day and local merchants will be host to every peddler visiting the fair. Special lemonade will be served, and hot dogs will be fed to the boys. Friday Sept. 17th will be Boy Scouts day and any boy scout will be admitted free on that day, other days are Sept 16th, Wellington Day, Old Soldiers day, Old Settlers day, American Legion Day, Fraternal Day, Friday September 17th, Oklahoma Day, Donkey County Day, Wheeler County Day, Childrens County Day, Old Fiddlers Day, and Saturday will be Farmers Day, Hall County Day, All Texas Day, and All College Day.

MOTHER!

Child's Best Laxative is "California Fig Syrup"

Hurry Mother! Even constipated, bilious, feverish, or sick, colic babies and children love to take genuine "California Fig Syrup." No other laxative regulates the tender little bowels so nicely. It sweetens the stomach and starts the liver and bowels without griping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits. Insist upon genuine "California Fig Syrup" which contains directions.

POLICE CHIEFS ATTACK TEXAS SEARCH AND SEIZURE LAW—AIDS BOOTLEGGERS

EL PASO, Sept. 1.—Texas police chiefs charged on their convention floor here today that the state's search and seizure law protects bootleggers and hom brevers. They named a committee to ask the next legislature to modify the law.

Detective Chief W. F. Kessler of Houston said that more than half of the Houston people are enjoying protection from search under the state law and are making home brew.

Several members asserted that if the law were repealed homes would have ample protection against "crazy headed" officers by the constitution of the United States.

In urging the more general use of the law, Bobby Ellis, Beaumont, first vice president, explained the simplicity of the system.

"Ink and a piece of paper are all that is needed to take finger prints," he said.

C. W. Trammell, Dallas, police chief, was named president for the ensuing year. Other officers elected are: W. F. Kessler, chief of detectives, Houston, vice president; J. K. Ellis, superintendent of special police, M. K. & T. Railway, Fort Worth, second vice president; Thomas Armstrong, police chief of El Paso, third vice president; B. W. Pilcher, Texas, sergeant at arms.

George Smith, Dallas, was renamed secretary and his 7 year old son, Hurley, was named mascot.

Port Worth was chosen for the 1927 meet.

The chiefs who have spent three days in El Paso, were preparing to leave for their homes following a grand ball in their honor at their hotel headquarters Wednesday night.

Juarez and El Paso officials joined hands in entertaining the visiting delegates, all members of the organization and the El Paso police department, and members of their families, being guests of Mayor Almeida and Chief Martinez of Juarez Tuesday.

LATER REOPEN DOORS

SAN ANTONIO, Sept. 1.—Motion picture theaters in San Antonio were reopened today after being closed for a few hours while projection machine operators debated whether to strike. Every theater in the city was affected except the Aztec, which had signed an agreement a few months ago.

Theater managers agreed to increase the pay of operators and stage hands temporarily pending final adjustment. More stage hands are to be employed.

Avalanche Want-Ads Get Results

Big Firm Helps Local Merchants

How one of the largest manufacturing concerns in the county co-operates with their dealers to keep local business in the hands of local concerns, was interestingly brought out in a talk with one of our leading tire merchants last week.

The company to which he pointed particularly for its work in this direction is The United States Rubber Company, which has perhaps gone further along these lines than any other tire concern.

There are several reasons, aside from the very good point of keeping home money at home, why our own local tire stores are the logical place to buy tires rather than the mail order houses.

Tires need looking after by an experienced tire man. He must have a well equipped and well stocked shop and be able to tell whether a tire is doing its work properly, and if not, why not.

For instance, an expert tire man can tell whether tires are wearing unduly because of the wheels being out of alignment and can correct the trouble in time.

If improperly equalized brakes are causing tire wear, the tire man can tell that and warn the owner.

This sort of service you cannot

expect when you buy tires from mail order houses.

The United States Tire Company started eleven years ago to educate people to their interest in supporting the legitimate home town tire dealer.

In addition to running its own educational campaign in local papers without interruption for eleven consecutive years, the company encourages the dealer to supplement it with advertising of his own and helps him to do it. Under certain conditions it even shares the expense of the dealer's own advertising.

Recent improvements in production methods now enable the United States Rubber Company to market, through the local dealers, tires of known quality, bearing the company's trade mark and full warranty, for as little money or even less than the cost of mail order tires or off-brand tires of uncertain value.

PIONEER CITIZEN OF CROSBY COUNTY HERE

J. B. Moses of Crosby county, who is one of the old timers in that county, was here yesterday.

Mr. Moses has been a citizen of Crosby county since 1905, still owns a road farm in that county. He resides in Ralls at the present time, but was the time a resident of Emma, one of the first towns in that county. Mr. Moses brings a wonderful report of the crop condition in that section, and says that they have the best crops they have had for seven years.

Scouts Asked to Call For Badges

Forty eight of the boy scouts who received merit badges at the Post Memorial camp were Lubbock boys. Of the total number several of the boys received a high as 9 and 10 badges.

Scout Executive Palmer stated yesterday that the badges had arrived and the boys are requested to call at the scout headquarters for the badges. A fee of fifteen cents is being charged to pay for the cost of the badge.

The following boys are asked to call for them:

C. T. Jackson 1, 15c; G. W. Foster, 1, 15c; Eugene Knox 4, 60c; Robert Maxey 2, 30c; Lennis Baker, 5, 75c; Roscoe Bayless 1, 15c; V. R. Dockery 4, 60c; Arlie Morrison 5, 75c; Geo. Hardberger 4, 60c; Boren Atwood 3, 45c; Frank Eaton 7, 1.05; Wilton Yynn 5, 75c; Frank White 3, 45c; Eugene Adair 5, 75c; L. Heddings 2, 30c; Chas. O'Neill 1, 15c; Earnest Elliott 2, 30c; Geo. Pierce 2, 30c; Henrie Mast 7, 1.05; Harmon Jenkins 4, 60c; Frank Easley, due 45c; John Hopper 10, 1.50; Jordan Cunningham 3, 45c; A. B. Davis 5, 75c; L. C. Tatum 1, 15c; Leslie Yates 5, 75c; Winfield Overstreet 9, 1.35; Lomer Nelson 2, 30c; Ordin Forbes 8, 1.20; Roscoe Clark 2, 30c; Lynn Gordon 4, 60c; Earl Calloway 4, 60c; John Vickers 4, 60c; J. D. Jenkins 6, 90c; Culver Hill 6, 90c; Edgar Neal 2, 30c; Finner Tubbs 8, 1.20;

Manson Allen 2, 30c; Alfred Adkisson 8, 1.20; Sam Henry 7, 1.05; Rob. O'Hair 3, 45c; Earl Turner 8, 1.20; A. J. Holder 1, 15c; Wesley Doak 8, 1.20; K. Carter 1, 15c; Ben Atchenson 5, 75c; Murray Balenger 1, 15c; James Whiteside 2, 30c.

SUBSTANTIAL AID IN BUILDING SCHOOLS FOR NEGROES

In the construction of buildings for Negro schools in the South with the assistance of the Julius Rosenwald Fund during the year ending June 30, 1926 North Carolina stands first with 74. South Carolina is next with 64, and in Kentucky the smallest number, 6, were erected. Of the 493 buildings aided by the fund, 479 were schoolhouses and 14 were teachers' homes. The buildings, principally in rural sections, ranged from 1-teacher to 14-teacher schoolhouses, and in the aggregate accommodate 60,120 pupils and 1,33 teachers. The average area of land per building is about 3 acres.

SEACRAVES EDITOR HERE YESTERDAY

R. B. Haynes, editor of the Seagraves Signal, was a visitor in this city yesterday. He was returning home from a trip up on the north plains. He reports a great deal of oil activity around Miami, where he had been spending a few days looking over the oil fields.

Let us do your Job Printing.

Captain Lynn Now Checking Up Guard

Capt. Lynn A. Boyd of Austin is here for a few days checking up on the local national guard unit. He is making a survey of the problems here with a possible change in view. A new armory is wanted and also the stables for the horses will be changed.

It is the purpose of the investigation to place the stables and the armory in connection and several parties are being conferred with relative to renting the needed buildings.

The armory is located at present on Avenue J and the stables are at the fair grounds. Captain Boyd hopes to have a new armory for the local company before he leaves the city.

August is Banner Wedding Season

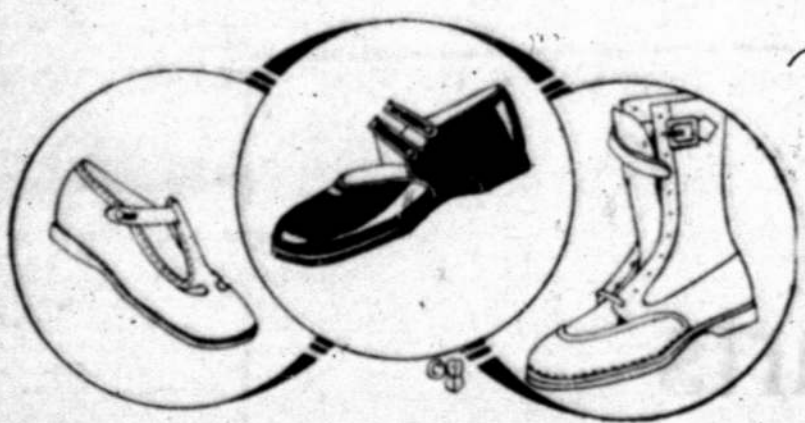

Instead of June brides, it's August brides in Lubbock county. Forty six of them this month, according to the records in the office of the county clerk. August had the largest number of marriages than any other month in the year. The total for the year 282. Seven couples were issued licenses yesterday.

School Preparation Event

Yes, Monday is Lubbock's co-operative Dollar-Trades-Day! Easter's will offer marvelous bargains for that event. But in addition to Dollar Day items this store will feature merchandise especially for School preparation. Anticipating the requirements for such merchandise as this, Monday will give us an opportunity of presenting what we believe the most impressive savings for school needs of this year. So please keep this in mind.

\$ DOLLAR DAY ITEM \$

- 2 pair Chiffon Hose \$1.00
for
(Men's, Women's & Children's)
- 8 yards 92 inch Gingham guaranteed Fast color \$1.00
for
- 4 yards English Prints \$1.00
for
(This is the best quality)
- 3 yards Plain Sateen \$1.00
for
- House Aprons—sizes 16 to 46 \$1.00
- 4 pair Leather Palm \$1.00
Gloves

CHILDRENS SHOES

Specially Low Priced

\$1.25 to \$4.50

IT'S useless to ask a child to be careful of his or her shoes when cool Autumn days are just ahead with their boundless opportunities for hard play.

The better, surer way is to purchase durable, sturdy shoes that will withstand the roughest wear. You'll find exactly these qualities in the fine slippers, pumps, oxfords and "highs" we are featuring here. We feel certain you'll look with favor on the prices.

Girls' Sizes—Boys' Sizes
Infants to Maturity

School Days are Here

To the hundreds of Masses going to school, to college, at home or afar, we most cordially invite you to come and see the comprehensive selection of Autumn's most select Dresses. For every occasion we have them, elaborate ones, plain ones—each a distinctive model, personally selected by our buyers, priced to make friends for Easter's store.

Sure of the fabrics! Sure of the style and tailoring! These are things we tell you now and when you come to view them you will agree with us.

\$6.50 to \$49.50

NEW, MEDIUM PRICED FALL MILLINERY

Probably you are wondering now whether it is too early to buy your Autumn hat. If so let us tell you that people are coming and buying daily from our stock. It is bigger than usual and offers a wider range of selection both as to styles and prices.

MISS ANNE MALLARD, MILLINER
BALCONY OF EASTER DRY GOODS CO.

BOYS' SCHOOL CLOTHES

Here Mothers will find knicker suits that are made as good as men's—and sizes are here in a multitude. The values are predominant. . . . Not only sonny's suit, but his cap, hose, underclothing, gloves and shoes, all have been selected with the main idea of serving the thrifty Mothers who will wish to make every dollar go as far as possible.

TEACHERS

10%

SAVING FOR YOU!

Joining Lubbock's welcome to the Teachers who will attend the Institute here this week, we are going to try and make you feel that we do appreciate your coming and to you we will deduct 10 percent on all purchases you make at our store while in the city. Be sure and tell clerks your name, residence address and at what school you will be employed.

YOUR
SEWING
NEEDS
ARE
HERE

Monday we are going to make some reductions—not on fabrics you have already seen, but some of the newest patterns offered this season especially preferred for sewing needs at school time.

These reductions will be evident on Gingham, Percales, Suitings, Silks, and Woolens.

Please ask to see the new piece goods Monday when in the store.

Easter Dry Goods Company

Hubert Hopper Has Major Operation

Hubert Hopper, local scout and prominent speaker of the high school, underwent an operation yesterday at the West Texas hospital for appendicitis. He has been suffering for some time with the malady.

During the district interscholastic meet which was held here in April, he was attacked with it and lay in bed suffering the day before the finals in declamation in which he won out. He was selected to represent Lubbock in the "My Home Town" contest at the West Texas Chamber of Commerce at Amarillo and was stricken a few days before the convention. He went however and made a good showing.

Up to late last night he was resting fine.

Tech College Has Free News Bureau

In keeping with the rapid rise of the school and with the progress made by other colleges of the state, Texas Tech now has a free news service and publicity department. The department will give information concerning all departments and schools of the college to the leading daily and weekly newspapers of the state. All events and news of the school will be sent out daily.

Harry Montgomery has been appointed manager of the department by the faculty. He is former editor of the school paper, The Tornado, and is a well qualified man for the position. He won the \$100 scholarship for the best grade in English among the boys last year and has quite a bit of newspaper experience having been a member of the Memphis Democrat staff for several years.

Montgomery is already at work and the papers of the state are now receiving first hand news of the school.

Logan Grocery is In New Building

Another business of Lubbock goes into larger quarters. W. L. Logan, who has been operating a grocery fast south of the high school building, moved into his new brick building yesterday. The store is modern in every way and is being fitted with a complete stock of goods. Logan has been a resident of Lubbock for several years and is improving his business to keep up with the progress made by the city. He has a thriving trade with residents of that section of town.

Two out of every three Canadian families own their own homes.

TIME INFORMATION TO BE DISCONTINUED

The Western Union has for many years been the information bureau for the correct time, to the people of this city, and this service has been given cheerfully and accurately, but since the city has grown to its present proportions, it has become a very great task to furnish this information. So many are the requests that some times as many as two hundred calls an hour have been answered for the time alone. The company finds that this takes the time of one employee who is supposed to be handling transportation of messages, to the extent that it delays the work in the office, and it becomes necessary that this courtesy and service be discontinued. The manager of the local Western Union office requests that you please not call the Western Union office for the time, as it is the orders of headquarters that this service be discontinued, and the information will have to be denied you.

NEW JERSEY CHILDREN SEEK HIGHER EDUCATION

Ninety thousand children are enrolled in the public high schools of New Jersey, and every 10 years since 1890 the high school population of the State has doubled. Seventy per cent of those who complete the elementary course enter the high school. From 35 to 40 per cent of all graduates of four-year high schools enter institutions of higher learning, and about 40 per cent receive some form of vocational training. About 40 per cent of women graduates of four-year high schools of New Jersey expect to enter the teaching profession.

30,000 Pounds of Poison Sold Here

Over 30,000 pounds of poison were sold to the farmers of Lubbock and adjoining territory yesterday according to D. F. Eaton, county agent. The car of 60,000 pounds was unloaded continually all day long yesterday and late yesterday afternoon only a small amount over 25,000 pounds remained yet to be sold.

Eaton declared that he felt sure that the poison would be used by the farmers here. Several large orders were sent out yesterday to towns in adjoining counties in answer to hurried calls for the arsenate. It is thought by many that the worms will be under control in a few days and the cotton will begin to mature fast.

Habitual Constipation Cured in 14 to 21 Days

"LAX-FOS WITH PEPSIN" is a specially prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly and should be taken regularly for 14 to 21 days to induce regular action. It stimulates and regulates. Very Pleasant to Take. 60c per bottle.

Car of Poison is Being Distributed

Lubbock county farmers now have poison and plenty of it. A car load with approximately 60,000 pounds stood on the track early yesterday morning ready to be unloaded and dumped on the worms in the fields. Men were busy all day yesterday unloading and distributing the poison to the farmers.

According to D. F. Eaton, county farm agent, the worms are still doing great damage, and the poison should be applied at once. Eaton stated that he expected all the poison to be used here by the farmers and that it would be distributed in the next few days. He stated that those farmers needing it should come and get it at once, as the supply would more than likely be limited.

Orders were sent yesterday by trucks to Amherst and Crosbyton. The worms are beginning to damage the cotton in those sections also. Brownfield has used over 70,000 pounds in the past several weeks, and report that the poison does the work.

Eaton stated that regardless of the worms, the outlook for the farmers was brighter this year than in several years. In the Pecos valley where he has been visiting, he reported that the cotton there is in fine shape but the worms are just beginning to work.

The poison is being secured by the farmers here for 14 cents a pound and in most cases three pounds is being applied to the acre. Eaton stated yesterday that the worms would be killed out right away if the poison was applied now.

Leaf Worms Doing Damage in Texas

Texas has the severest case of leaf worms she has ever had according to Dean A. D. Leidigh of the school of agriculture of the Tech yesterday after returning from San Antonio and other points in south and central Texas. Leidigh declared that in many cases in and around Austin, the cotton fields were practically destroyed by the worms. East of Austin was the place being effected most.

"We saw worms all the way from San Antonio," Leidigh said, "most of them were in spots however." The farmers all along the way are poisoning and trying to get rid of the worms. Lubbock and the South Plains will probably be effected in the same way if the poison is not applied. The poison is being bought only by the farmers here, and it is expected that the entire car will be disposed of in the next day or so.

Begun over \$50 worth of merchandise, a Chicago lawsuit has already cost more than \$3,500.

GIFTED STUDENTS ENJOY YEAR OF FOREIGN STUDY

Nine specially qualified juniors working for their degrees in American colleges were sent out last fall for a year of study in colleges and universities in England, France, Germany, and Spain by the committee of foreign study and travel of the American Council of Education. Gifts by a group of interested persons made possible scholarships of \$1,000 each.

So satisfactory has been the plan that it has been decided to award at least seven scholarships this year. The committee also encourages individual students to go abroad at their own expense for a year of study and American institutions are urged to make provision for giving a year of foreign study and travel to specially promising students unable to finance themselves. A student to be eligible for the committee's scholarship must not be less than 18 years of age, must have been in residence at an American institution approved by the council, and must expect to return to America for the fourth year to take the degree. There are no limitations as to the country or institution, or the field of study that may be chosen.

CHRISTIAN CHURCH IS HOLDING CONVENTION

Delegates from churches in forty counties will meet here today in convention, and will be in session till Thursday evening. There will likely be in attendance 150 to 200 delegates, and the first session will be held at two o'clock this afternoon. At six o'clock a luncheon will be spread on the church lawn, and the evening session will begin at seven o'clock. Three sessions will be held Thursday, and the business will be wound up in the afternoon followed by a worship service in the evening.

PENILESS AMERICANS

PARIS, France—The estimation that there are 3,000 peniless Americans in Paris, without money or work have been made by The Invidien, which believes that they came to Paris to enjoy life and after their savings had gone could not find work and had no friends to help them.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value. Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c.

102 Fines at City Hall During Month

The police department have had a rather slack month in August, yet 102 fines were paid into the coffers of the city treasury. This makes an average of over three fines a day. Of the total amount, the fines for running over the stop signals were larger, 57 fines being paid in, two more were caught who have not yet paid. Speeding fines came next with 15 being paid in at a cost of \$5 each. Numerous other fines included, 7 for hour parking violation, 2 for reckless driving, 2 for drunkenness, 3 for vagrancy, 6 for gambling and 3 for disturbing the peace.

Music Store Moved Into New Quarters

To make room for the ordered additional space for the postoffice, the South Plains Music company moved into their new quarters yesterday just one door north of the postoffice. More space is available in their new location and the company will be able to give better and more efficient service. It is the plan of the management to keep a complete supply of all kinds of musical instruments.

The Postoffice Drug company will occupy the place vacated by the music concern. Workmen are busy improving the floor and making arrangements for the fountain of the store.

The postoffice will be moved up and more space given to the mail room when the drug store vacates. According to Postmaster Vaughn yesterday nothing had been heard from the postal department regarding the move but he is expecting orders in a few days.

Izard Driverless Station is Moved

In order to obtain larger quarters the Izard Driverless Car station is moving to 1106 Main street. They have been located at 803 Broadway for the past several months and have enjoyed a thriving business. The new headquarters will be the bus depot and a modern waiting room will be installed.

Izard stated yesterday that in order to take care of the heavy fall business several new cars for the station would be bought sometime in the future. It is probable that a new bus will be put on the line also to take care of the increase in the numbers of the students this year.

The Christian Science Monitor remarks that "this can-opener seems to have surpassed its bottle opener as the handiest tool in America." But doesn't the Monitor know that the most popular implement is one that combines both these useful tools?

The Quinine That Does Not Affect the Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE (Tablets) can be taken by anyone without causing nervousness or ringing in the head. L. W. GROVE'S signature on each box.

Articles and Local News about South-Plains Farmers; Prepared by Welton Winn, Practical Farmer

What The Farmers Tell Us

Mr. Ray Smalley, who lives in the suburbs of Lubbock, was in Saturday. He has 55 acres in cotton; is fairly good; had not been bothered by pests and would make a fairly good crop if nothing happens to prevent it from now on. He has 55 acres in feed crops, including some nice corn which is the best he has made since he has been here during the last three years. Mr. Smalley plants his corn in wide rows, say about six feet wide and grows peas between the corn rows; he makes more corn by that method and has a fine crop of peas in addition to his corn. We saw his crop last year. He had very good corn, a fine crop of peas on the same land. His corn was about as good, if not the best corn we saw last year, and the peas were immense. Smalley is one of our up-to-date farmers; does not try to work the universe, but really cultivates the land he does farm. He has a large garden and sells lots of vegetables here in Lubbock. He tells us he is just back from a trip up in Wyoming where he visited some relatives. He said crops all the way up to that country are good. They made fine wheat crops and had received a fair price for the wheat. He said it was interesting to see the fine irrigated farms, where they grow large crops of beets and potatoes. Sugar beets is one of their money crops as is the potato crop. The farmers in the grain growing sections where he visited have their land already prepared for another grain crop.

A. Massey, who lives in Sudan, was in the city Saturday. The crops are fine; the cotton crops are excellent, no pests of any kind have bothered the cotton so far. The feed crops are good as could be desired, especially the corn crop. He said they have the largest acreage of corn they have ever had, and the corn is the best they have had in the last three years. The recent rains will insure all the late feed crops. Some farmers, he said, have as much as 100 acres in corn and are now delighted with the crop. The farmers around Sudan are giving attention to poultry and find that it pays well to do this, as their poultry and eggs bring cash all along during the year. Then they have good cows, or most of them have and sell quite a lot of cream each week, which helps them out with their finances. Taken all together that is a fine farming district and the farmers are in fairly good financial condition.

J. B. Potts, who lives in the Canyon community, was in the city Saturday. When asked about his crops and the weather, they have had a very little rain until two weeks ago, but his cotton is good, really the best he has had in three or four years. He has had no fleas or worms so far. He thinks the dry weather was a help to his crop, in preventing pests. His feed crops are good, including some corn which has made almost without rain. He said there had not been any rain or the corn during the growing period, but the good preparation and good cultivation was the cause of the good crop. He has some felter that had not had any rain on it since it was planted, until two weeks ago, and it is now heading out and has made a fine crop. His red top came in in the same lot and has made a fine crop; his cane is the pure, certified red top cane, which always commands a good price on the seed market.

W. J. Roberts, who lives in the Canyon community was in Saturday. He said he has been in the dry streak until two weeks ago, when they had a good rain. His cotton is fairly good, but had been damaged some by the fleas. His cotton has smaller stalks than usual but the stalks are well loaded with bolls. His feed crop is fine, has some fine corn but only a small patch. His crops are fine for such a dry time as they had out in that particular community, but his crop is very satisfactory as a whole.

J. I. McDonald, who lives near the Reuben school, was in Saturday and told us about his crop. He has 250 acres in cotton. It is good, no fleas nor worms so far to do any damage. His feed crop is fine; has seven acres in corn that is real good; it is as good as he has ever raised since he has been on the Plains. His maize crop is now ready to be headed and his kafir and biger is about ready for cutting. Mr. McDonald was all smiles as he had bought his farm last winter and will start right off with a good crop.

J. J. Bonds, who lives northwest five miles, was in Saturday. He had just looked over his cotton carefully that morning, and did not find any worms bothering the cotton. His feed crop is fine; had small crop of corn but what he had is very good. Mr. Bonds said his cotton is beginning to open and with fair weather for ten days or two weeks it would be opening up rapidly.

Our townsman, M. M. Crawford, has just returned from an extended trip to El Paso and Hot Springs, New Mexico. He said all over the country there had been lots of rain and that grass and crops are good.

Ward Grim, who lives at Monroe, and who, some of his friends claim, is the father of that progressive little village, was in Monday. Mr. Grim said the cotton crop is good around Monroe; the worms have done no damage so far and they have had no fleas on their cotton. The crop is very promising at present and the feed crops are excellent. They have

had all the rain they will need for a long time. He said they do not grow wheat in his community but further north they grow quite a lot of wheat. He did not think that the farmers in his community will plant wheat this fall.

O. M. McCaughan, who lives west 12 miles, was in Monday and when asked about his crop said his cotton is good, no worms had bothered it, and his feed crops are excellent. He thinks he is safe for 50 bales of cotton this fall. He has a large crop of feed and says he hardly knows how to save all his feed crops. Mr. McCaughan lived in the city for about two years, was busy all the time, but was not getting along very well, so he secured this farm and moved out on it and has made an excellent crop and feels all right to be back on the farm again. He says the farm is the best place to live where one understands farming or will learn to farm.

On the Quimby farm, operated by C. F. Selman we found some real wonders. He has 120 acres in cotton which is very good, not a weed to be seen in the entire crop. Some of the cotton on this farm was on land that has been in cotton three years in succession, but the good, deep cultivation had to some extent overcome that difficulty. It had been cultivated with discs on two-row go-devils and that frequently, so as to kill all blue weeds, and any other thing that would use up the moisture. Mr. Quimby thinks that the discs cut the little surface roots and cause the cotton to put on more fruit and make less stalk. The cotton showed it had been properly managed as it is well loaded with grown bolls from the ground up to nearly the top of the stalks. The other cotton mentioned showed the same results with stalks loaded from the ground to near the top of the stalks with grown bolls. This will make a good crop whatever happens from now on. A fact, a good crop is already made. We next went into the feed crops of Mr. Selman and were shown five acres of a new feed called Promo. This has very heavy white heads; looks a little like kafir, but a much heavier crop this year. This is a new feed plant originated at the Chulavita station by the National Government in connection with the state station there. It is high bred and is destined to surpass any other feed plant yet produced. They have experimented there for the last 12 years and this is the first time they have put this out and Mr. Quimby was very lucky to secure this seed for his interested farmers. This crop of plant is thought to be the greatest growth reaper of the entire southern family. This crop is estimated to produce two and a half tons of heads per acre. We saw some very fine kafir that was planted 15 days earlier than another crop which is new to us, called Chilote, which is far better than the kafir, which has to this time been considered the most drought resisting plant of the sorghum family. This crop will make at least two and a half tons per acre. This plant kept green while other plants showed the lack of rain during the long drought referred to. Mr. Selman has 16 acres of the Watson Improved or Acacia cotton but has not come up to the Half and Half cotton so extensively used in this country. He had small crop of corn which was fairly good. The experiment stations have done some good work working out the merit and kind of plants that we have just mentioned. What the farmers should do, is to keep up with the weather and utilize the good things found and given out by the stations that are really doing good work.

Leslie McNeely, who lives at Amberst, was in the city Saturday with a truck load of fine melons. He has a 24-acre truck farm adjoining the town of Amberst, which he irrigates and grows a big lot of melons and sweet potatoes and peanuts. He irrigates part of this farm and grows tomatoes and various other truck crops, such as onions, cucumbers, cantaloupes, peas and beans. Mr. McNeely has a fine herd of Jerseys and sells lots of cream each week besides he has a flock of White Leghorns which he finds is a very profitable line of business, as his young wife takes great interest in this department. He will begin shipping out melons from now on. He has some neighbors who will join him in the shipping business. There are fine feed crops around Amberst; twice the acreage in corn they have had before, and a good crop is now assured. The cotton crop is good and they have had no worms so far to bother the cotton, so they are sure of a good crop of cotton. Mr. McNeely is a very energetic young man, and has great faith in the Plains as a farming and dairy country. He thinks any young man with determination and industry can soon own a home here on the Plains.

Eugene Emory was in the city Saturday. His crop is good. His land is mostly rented out and has only a small crop of cotton at home, but there are only a few worms out his way, only on one corner of his cotton crop. His feed crops are fine, his maize is now ready to head. He has 25 acres each of kafir and biger and that too is ready to cut. Mr. Emory plants two rows of maize and leaves one all the year and he finds that this plan produces better crops all the year. He has a hot pot corn that was planted this way, and has had practically no rain on this corn since it was planted or in other words, had no rain for nine weeks,

and the corn was made when the rain came. This proves the possibilities of growing crops with very little rain where the land has been properly prepared and the cultivation has been of the right sort. He is a firm believer in fine stock; has a nice herd of Poland China hogs. He has five fine sows and thirty-seven shoats that weigh from 90 to 100 pounds. He has some fine Jersey cows, mostly young ones, and recently bought one of the finest young Jersey bulls that could be had in this part of the country. He is a Register of Merit strain, from the well known herd of Mr. Guy, of Crosbyton. This bull cost \$260 at one year and one month old. Mr. Emory believes in raising the best of any kind of stock that he can get, and he has a high priced breeder's bug. He has one of the finest bred Jacks to be found in this part of the state, and has a nice string of young mules coming on, from colts to yearlings, and his neighbors are taking the same course and are breeding quite a lot of mules in his community.

We had an invitation to visit the nice small herd of hogs owned by our townsman, C. H. Park, manager of the Patterson Feed Store of this city. Mr. Park has G. Burk associated with him in the hog business. They now have fifty-eight nice porkers and one fine brood sow. They have them on a sudan pasture and are feeding some of the Purina feeds along with the pasture, and some milk is being fed by Mr. Burk. These men see such a great need for more hogs in this county they have entered the business to try and help supply the demand for pork this fall and winter. They are arranging a nice place for their hogs and will, no doubt, succeed in making a demonstration, showing that the hog business will pay well in this country. There is five acres in this pasture with these hogs on it all the time, besides two Holstein cows and three-fourths of the five acres is now heading out; this shows what a wonderful pasture sudan makes for all classes of stock. Mr. Burk has a fine flock of White Leghorn chickens that he finds very profitable. He has at present 500 small ones about the size of quail.

J. M. Sanford, who lives one mile west of Amberst, was in the city Saturday. It had been rather dry that way for several days, but the cotton had not made much stalk but is well loaded with bolls. There are no fleas nor leaf worms in his neighborhood. The feed crops are fine; will make enough feed for all purposes. Mr. Sanford is just back from a trip down in San Saba county, and said the fleas have about ruined the cotton crop there. The feed crops are fine. The cotton crop in Concho county is good, had not been damaged as had the cotton in San Saba county.

S. M. Lawson was in the city, at his barn last week with another car of Jersey cattle, which he is shipping up for sale, up north of Amarillo, in the near future. This sale will be held at White Deer, Sept. 2nd. These were a nice looking group but there were several young heifers in the lot from one year to twenty months old. Mr. Lawson said it is getting to be a hard matter to buy these good Jerseys as they seem to be getting scarce all the time. He has great faith in the Plains, especially the South Plains, as a dairy section. He will have one or more cars of good cows here for sale within the next sixty days. He thinks it will only be a question of time when farmers will give much more attention to the dairy business here on the Plains. With such an abundance of cheap feed the dairy business will materially increase in the near future.

OTHER SECTIONS OF THE STATE HEARD FROM

J. L. Smith, who lives at Texarkana, passed through the city last week on a trip to Texas county, where he has a big lot of melons and sweet potatoes and peanuts. He irrigates part of this farm and grows tomatoes and various other truck crops, such as onions, cucumbers, cantaloupes, peas and beans. Mr. McNeely has a fine herd of Jerseys and sells lots of cream each week besides he has a flock of White Leghorns which he finds is a very profitable line of business, as his young wife takes great interest in this department. He will begin shipping out melons from now on. He has some neighbors who will join him in the shipping business. There are fine feed crops around Amberst; twice the acreage in corn they have had before, and a good crop is now assured. The cotton crop is good and they have had no worms so far to bother the cotton, so they are sure of a good crop of cotton. Mr. McNeely is a very energetic young man, and has great faith in the Plains as a farming and dairy country. He thinks any young man with determination and industry can soon own a home here on the Plains.

Lon Greer, who lives in the Three Lakes community in Lynn county, was in the city Saturday with some produce for sale. He has 100 acres in cotton and 50 acres in feed crops. The crops are fairly good; no worms in his cotton nor any in that immediate neighborhood. The feed crops are fine and the recent rain will insure some late feed crops. There is not much corn planted in his section but what they have is fine. Mr. Greer has some fine chickens and is handling several breeds and is pleased with his poultry business. There are very few hogs in that country. He has some fine Jersey cows and sells lots of cream each week.

We met A. C. Rich and son on the streets last week. These men live in Grayson county and were here prospecting and making preparations for

FARM GOSSIP

What Makes Life Successful

It is not uncommon to hear those around you speak of how big such and such a man is in the eyes of his countrymen and you will naturally think of the man referred to as one of the real successes.

In the minds and eyes of many prominence and riches means success; but a man may be both rich and prominent and still his life an utter failure.

The ones who know him best are those who are most competent to judge as to whether the man is a success. It has often been said that no man is a hero to his wife or stenographer and surely these intimately connected with a person should really know.

Real success in life constitutes the rendering of some service either to mankind in general or to a limited circle. You no doubt are familiar with many rich men who live a life of selfishness and greed and make a family circle a miserable group. He may be a good fellow and considered a success by those who know him not, but the measure of happiness in his life really tells the tale. Money is not all and summing the thing up a few words we would say the man who has made a good home for his wife and children is a success whether he has saved a dollar or not.

Luncheon Groups for Farmers

In practically every city and town of the United States and many other countries of the world business and professional men have organized groups generally known now as service clubs.

These clubs have proven a great value to their members and often to the town in which they locate. Interest of the members is generally maintained and group action is easier to get.

In North Carolina farmers are beginning to organize a new type of

community club based upon the same idea.

These clubs are called Farmer Leaders' Luncheon Clubs and Dr. Clarence Poe of the Progressive Farmer says:

"It has been amply demonstrated in the towns that you can not get people together for civic purposes unless you get them to eat together, but that getting them to eat together and then work together for all community purposes is one of the outstanding successes of the last few years. Rotary clubs, Kiwanis clubs, Lions clubs, Civitan clubs—they have sprung up all over the country and have done incalculable good in getting men of our towns and cities to know one another, to immeasurably enlarge their fellowships, and incalculably increase their power for community progress. During the next ten years I expect to see this idea very greatly developed in our country districts. Already it is working with great success in a few rural communities. The plan usually is to have about a dozen farmers and meet monthly at the homes of the members in alphabetical rotation. The host in turn furnishes a dinner, which is followed by discussion of farm problems and a business meeting for co-operation in buying and selling and general farm business."

One of the problems of the grain farmer in the past has been the disposal of his straw. Of course some are using quantities of it for feed and others have found market for their products at a more or less profitable figure but it has been and is still the practice in some sections to burn the old straw piles just to get rid of them.

Now Professor W. H. Sanders, of the Kansas State College, is experimenting and using them as fuel.

He is using an ordinary hay-baler equipment with channel irons and has prepared a straw bale six by eight inches in cross section which can be used in an ordinary furnace having the rock grate.

Each briquette has a heat value equal to that of the same weight of wood and about one half that of coal. These when burned in a common grate were practically smokeless and when tested in a steam heating plant were found that from 63 to 70 per cent of the heat of the straw was utilized.

There are a number of things that will have to be worked out before the idea will become practical but it is thought that the possibility of developing these straw briquettes for fuel is great. Professor Sanders finds that he must still use wire on these small bales and it is some trouble in handling the ashes with the wire remaining in them.

However, experiments are now being made to use some kind of material to keep the packed straw compact so that the wires may be disposed of.

It will be very interesting to watch the outcome of this new use for straw and perhaps some of the other fuel may find a real competitor as an outcome of these experiments.

Small Grains as Winter Cover Crops

Small grains are used very extensively as a winter grazing and cover crop. Owing to their many fibrous roots, that form a network throughout the soil, they gather in all the plant food that becomes available throughout the winter, and when plowed under the entire mass of stems and roots soon decay and give back the plant food they contain to the crop that follows in the spring. Owing to the rooting system of the small grains, they are very desirable to prevent winter washing of the soil.

Winter barley and oats are grown successfully as a winter cover and grazing crop over most of the state. This is especially true throughout all the central section. Oats are possibly the most popular as a winter crop in the eastern and southern section, while wheat is the leading winter grain in the northwestern section. Rye will prove the most successful winter grain crop on any poor land. It makes better winter growth than does the other grains in the poor sandy section of the east, west and central Texas, and also produces the best growth on the poor clay soils of the state.

When planted for winter cover crop and grazing alone, small grain may be sown at least twice as thick as when sown to produce seed. Wheat and rye may be sown at the rate of 2 to 3 bushels per acre, oats at the rate of 4 or 5 bushels and barley 3 or 4 bushels per acre. Thick planting will give more grazing per acre and produce more roots and stems to be turned back as humus in the spring. If the grain is sown with drill, it is best to sow one-half the amount in one direction then the remainder at right angles to this. This method will insure an even distribution of the seed and will make a closer sod.

If it should be desirable to leave the thick planted grain for seed, it may be thinned out in the spring by raking it off using small sweeps or back beams of cultivator.

Planting winter legumes with the fall grain increases the amount and quality of grazing, and increases the amount of humus turned back into the soil.

An Item of Special Interest to Pecan Growers

In looking over one of our exchanges we picked up some points of interest to all who have planted pecans during the last several years. This information is given in a bulletin from the New Mexico Experiment Station. They are trying out the pecan business in our sister state; one thing they find is that pecans have their hardest time during the first two years. They find with good care during these two years they then take hold of the ground and begin to make more rapid growth. One peculiar thing we noticed was that they secured quite a lot of the plants from Florida and Indiana.

The New Mexico station management seem very zealous in their work and will increase it from year to year. They are now studying the best varieties and give approval of the Indiana variety for one reason, that is, they say that variety coming from the north bud out much later and are less likely to get killed. They gave very timely advice to all who are interested in pecan growing, that is, to avoid killing the trees, and especially the young ones, they have found that the irrigation should be stopped say about now, so that the young trees will have time to harden the wood before cold weather comes. They have found where the young trees had been heavily irrigated until late in the fall they made rapid growth and were so tender that severe frosts that came early had killed to the ground, several of their trees.

What About Grain Sowing for Fall

We called attention last year about this time to the importance of sowing some grain in these large cotton fields. Then there was about the finest season we had seen at that time of the year in a long time. Today, we have nearly the same conditions, with the forecast of more rain by the weather forecasters. Now with this good condition we think it would be a fine thing to plan to plant several thousand acres of the cotton fields in wheat this fall as soon as the time arrives. Where cotton has been well cultivated, that is, the cotton lands, it is now in good condition for sowing in oats or wheat. The situation is one of encouragement at present, while it is claimed that there is a surplus of wheat in parts of the country the demand is good and the price reasonably high. Many of our growing countries have very short crops and the export demand is good and will be good we think. But the main reason is that we have a large lot of land that has been planted in cotton until it has begun to show the need of a change and to rotate this land now with wheat we think would be the very best thing that could be done with it at present. The parties who took this course last fall made good crops of wheat and sold it at very good prices. We gave some reports recently from some farmers over east of the city who want their neighbors to join with them in planting wheat so that the proper machinery can be secured for the safe harvesting of the crop. With the latest machinery, the combines, it does not require such an outlay for machinery to harvest the crop.

All these things considered, we think this is a fine time to consider the importance and probable profit in planting wheat this fall. As a pasture proposition we prefer rye to either wheat or oats, but where oats will go through the winter they make excellent grazing for all classes of livestock and come in early in the spring as a feed crop.

AN EARNEST REQUEST MADE

We want to ask all who secured any of the seed corn from us for planting in the spring, to give a report on it whether it proved good or otherwise. The only interest we had in the corn was to encourage the growing of corn in this county. We feel sure from the reports we have had, from those who planted this corn, that it will prove to be a great variety for this county. There are many others who have asked about it and we are anxious to get as much of this seed as can be saved, so that all who are really interested in corn growing can secure at least some of this variety. We are inclined to believe with the description we have had of this corn and with the experience of those who have given it a trial, that it will prove to be a great help in developing the growing of more corn in this county.

It was recommended as standing the dry weather of last year even better than maize or kafir. We can not take one season and make up our minds on one trial but there are other things that commend this corn to our consideration, that is, of being practically free from worm damage which if true, will be a wonderful help in making good crops some years when these worms are very bad. Now we hope all who secured any of this corn will call and give us a report on their crop.

Dr. Arthur Keogh of St. Paul saved the life of a boy by breathing air into his lungs until a hospital was reached after an automobile accident.

Our Visit to the City Irrigated Farm Last Sat.

We made a special visit to the city farm operated by T. H. Bowen, Saturday. We visited this farm early in the spring and was impressed with it at that early date, and had heard that the crops were now excellent. The corn was a real sight to see. It is the best corn crop we have seen in a long time. It has had plenty of water ever since they got the arrangement made to turn the water on the crop. This crop is estimated to make all the way from 45 to 60 bushels per acre. The feed crops are fine; there is not much chance to tell just how much it will make per acre. They have some very fine red-top cane. The cotton is immense. These men have other cotton that they did not get the water on; it is well loaded with bolls and is a fair crop at present. The melon crop is fine, as is also the cantaloupe crop; they are as fine as could be wanted. They have other crops that show what advantage irrigation is. There is 14 acres of this corn and about 10 acres in cotton but not all the cotton has had the water turned on it.

Other Irrigated Sections Heard From

While at the irrigated farm we have just mentioned, we met some gentlemen from Hagerman, New Mexico. Mr. H. W. Hays was one of the party we met. He is an experienced irrigation man. He said the cotton crop was new to most of the farmers over in that state, but they are pleased with their crops this year. This is their first year irrigating cotton, but they think it will prove to be a very profitable crop from now on. The corn crop is fine this year. They will make from 45 to 50 bushels per acre without irrigation. They have a good crop of alfalfa there, and their seed crop of alfalfa was excellent. They do not always make good seed on their alfalfa crops, but this season had been favorable and they will get a good seed crop in addition to the fine hay they have. They have fine apple orchards in that part of the state. They have found that where there is such a heavy crop as they have this year, it pays to pull off one-third to one-half the apples early in the season and by this plan they make much larger and better apples.

Now Is a Good Time to Plant the Fall Gardens

At this period is a fine time to plant fall gardens. There are many things in the vegetable line that do exceedingly well here, planted in the fall. These are radishes, mustard, lettuce and some varieties of beets and varieties of turnips. They are not only good human food but make fine feed for milk cows. Then rye is a fine feed to grow for cows and especially good for poultry. We have found that where the water states they are giving much attention to growing winter vetch which is a winter legume, that furnishes good grazing for all classes of livestock and at the same time materially improves the land on which it grows. They are forced to do this in those old states, to build up the right-down land, so that it will produce better crops, but here we have fine rich land. However, we should be very zealous to keep this land up to its present high standard of production. Then we should all, without exception, plant at least one or more trees, during the planting season. There should be plans made now for the fall planting. Economy is said to be the best way to get ahead, so we should now arrange for all these important things in advance of the time to plant them. We think every family on these Plains, who own even a small block of land, plant at least one pecan, and one walnut this fall, ten times that number would be much better. But should at least plant many this would add several thousand useful trees to our present stock.

Luncheon Club Gives Reception

ALPINE, Sept. 1.—Hon. Thomas Love of Dallas, was the honor guest at a luncheon today at the Holland Hotel, given for him by the Brewster County Chamber of Commerce. Harry G. Watson was Toastmaster, and Senator-Elect Love was introduced by his old friend, Joe D. Jackson. Mr. Love had been taking his summer vacation in the Davis Mountains, and Alpine was glad of the opportunity of entertaining the distinguished personage. Mr. Love was very enthusiastic about the delightful climate here, and he stated that the scenery in the Davis Mountains is as beautiful as scenery anywhere. He visualized a railroad line where he visualized a railroad line for 80 miles into the most picturesque section of the "Alps of Texas," which vision, the people here would like very much to see in reality, sometimes at no distant date. Hon. Love also spoke of Sul Ross State Teachers' College in the highest of terms. He expects to see the institution grow into a large educational institution in a reasonable time.

Institute at Canyon Opens With 960 Enrolled

CANYON, Sept. 1.—With 960 teachers from twenty-three counties already registered, the Panhandle Plains Institute, opened this week with the largest attendance in its history and probably the largest institute held in Texas. F. E. Savage, head of the training department of the West Texas State Teachers' College is conducting the institute and an imposing array of Texas and out-of-state talent has been brought to Canyon to discuss public school problems with the teachers who will serve the public schools of the Panhandle during the coming months.

Armstrong, Briscoe, Carson, Castro, Collingsworth, Dallam, Deaf Smith, Floyd, Gray, Hansford, Hartley, Hemphill, Hutchinson Lipscomb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman and Swisher counties are present and part of the teachers of Wheeler county are present.

Armstrong National Authority Opens Program

Dr. W. D. Armstrong, of the State Teachers' College, at Greeley, Colorado, and national authority on intermediate education, opened his series of lectures with the subject "An Outlook or a Backlook" in which he discussed the hold of tradition and custom upon thinking and pleaded for education, freedom of speech and tolerance. Dr. Armstrong said "We are in the habit of thinking that if a thing has been used a long time it is probably the right thing, when the chances are that the longer a thing has been in use the poorer it fits present day conditions with their constantly changing demands." Armstrong will be heard with interest whenever he appears.

Texas Educators on Program

The teachers of the Panhandle-Plains region are having opportunity this week to meet many of the outstanding figures of Texas education.

Dr. L. E. Heinmiller, head of the department of education at Kingsville Teachers' College, Professor J. P. Buck of A. and M. Miss Laura V. Hammer and Sup. W. A. McIntosh of Amarillo, Dr. R. Thompson, Amarillo, Mrs. S. M. N. Marrs of the Texas Congress of Mothers and Miss Katherine Haquist of the Texas Board of Health at Austin, representatives of the state department of education and the Texas State Teachers Association, Dr. B. F. Fronsbarger of Denton, among those appearing on the program.

4 Chrysler Cars Sold Yesterday

The new Chrysler is becoming one of the most popular cars in the southwest, and sales are rapidly increasing. Four cars were sold by the Joe Hilton company Tuesday, and others have been spoken for. The Chrysler is made in four sizes—50, 60, 70 and 80. One of the big 80s was purchased yesterday by the Lone Star Stage company.

CLASSIFIED ADS

FOR TRADE—We have several used pianos in good shape that we would like to take in good milk cows on as part payment. The balance can be arranged to suit you. Barrier Bros. Music Dept. 49-1f

MOODY IS LEADING FERGUSON ALMOST BY 250,000 VOTES

DALLAS, Aug. 31.—Returns to the Texas election bureau late Tuesday from 248 out of 252 counties in the state, including 190 complete, show the following totals for candidates in Saturday's democratic primary election:

Governor: Ferguson 261,948; Moody 483,898.

Attorney General: Allred 344,591; Pollard 353,867.

Treasurer: Ball 267,272; Hatcher 398,297.

Returns from 18 out of 19 counties in the eleventh district, including 13 complete; court of civil appeals, Davenport 25,088; Hickman 27,214.

O'DONNELL GINS ARE READY FOR COTTON

O'DONNELL, Aug. 30.—With the biggest crop in the history of the South Plains country in sight O'Donnell's six gins are in perfect tune and it will only be a few days until they will harmonize in humming a song that will mean millions to the farmers. A visit to each of the gins found them ready to go at a moment's notice. With not only six gins to begin the season's run, in thirty days there will be seven to take care of the crop. J. P. Bowlin placed a crew of men to work on his plant Tuesday and by the end of September he promises to have it ready to do his part in preparing the great crop for market. His gin will consist of four 80 says of the Continental type and the plant will be equipped throughout with the latest in gin machinery.

While it was thought the Brown gin in the north part of town was the acme of perfection in equipment, yet the manager, Mr. Brown, has spent around \$8,000 in overhauling the plant in the addition new machinery and improvements for the convenience of the patrons.

WILL ENLARGE DALLAS STEERS STADIUM

DALLAS, Sept. 1.—Construction of 7,000 additional seats at Steer Stadium was started Monday morning. When completed the seating capacity of the stadium will be more than 20,000, with room to accommodate several thousand on the playing field.

Two sets of seventeen uniforms, white for the home games and gray for the road games, were ordered by Charlie Maxvill, vice president of the Dallas Baseball club. The uniforms will be identical with the ones now worn by the Steers.

The temporary bleachers in right field will be moved back to enlarge the field to its normal size. The fence in right field will be torn down and a wire screen erected just behind the bleachers.

The improvements will extend the stands around the entire field, giving the field the appearance of a bowl.

SLATON SLATONITE BIRTHDAY CELEBRATES BIRTHDAY

SLATON, Aug. 30.—Last week marked the close of fifteen years continuous publication on the part of The Slatonite. The first issue of the paper was published the first week in September, 1911. The owner and publisher then was L. P. Loomis and associates, and a five column four or six-page paper was the output each week.

W. Donnell purchased the plant of Mr. Loomis in 1919 and continued the publication till his death which occurred on the 8th of November, 1923. He left the plant and business to his widow, who has continued the publication, and it is now under the management of R. W. Collier, Jr., who is piloting it along in good shape, and making for it the success that it deserves.

Last Thursday a birthday and industrial edition was published marking the fourteenth year of its activities in Slaton.

ANNUAL CRUSADE STARTS AGAINST DOVES

BALLAS, Texas, Sept. 1.—The annual crusade against doves started today, the date of the opening of the dove season in this section of Texas.

Hardware dealers reported a heavy sale of ammunition.

The season for quail does not open until December. Farmers report a large number of these birds this year.

MA GRANTS DEFICIENCY FOR HOSPITAL SUPPORT

AUSTIN, Sept. 1.—Gov. Miriam A. Ferguson Tuesday granted a \$4,000 deficiency appropriation for the Wichita Falls State Hospital for support and maintenance, necessitated by the recent removal of 400 patients to the institution from an abandoned institution in Austin.

BOY LOSES LIFE IN EFFORT TO SAVE DOG

SAN ANTONIO, Tex., Aug. 30.—Irby Lee Jackson, 12, was drowned late Monday in the Concho river here. According to Julius Gray, companion of Jackson the former had gone into the water to save his dog. Gray attempted to save the youth but failed and had to be rescued by John Davis and Noah Dodson, who recovered the body of the drowned youth.

TO OPEN NEW PRODUCE HOUSE IN SUDAN

SUDAN, Aug. 30.—Mr. Davis, con-

School Board to Lengthen Dresses

ARCADIA, Kans., Sept. 1.—Galluses are coming in and belts are going out along with bobbed hair, lip sticks, rolled hose and short skirts next Monday when the younger generation of Arcadia starts to school.

Two members of the school board openly have avowed indorsement of a proposed set of regulations governing the dress, not only of students but of teachers.

The suggested rules are to be introduced Monday morning at the school board meeting by their author, F. A. Jewell, a member. Here they are:

No dresses shall be worn to school which are shorter than six inches below the knee.

Use or possession of lip sticks or rouge on the school grounds either by students or teachers is prohibited.

No slang phrases or immodest language shall be employed.

Wearing of belts by boys is prohibited, their use to be supplanted by suspenders.

There are two other members of the school board besides Mr. Jewell, but as one of them, a woman, is in favor of the rules, it is likely that they will be adopted. The other member, J. T. Fowler, a business man expressed himself today as follows:

"You can say for me that I don't care how short they wear their dresses, or how short they cut their hair."

Mr. Jewell sticking to his course, said:

"Girls of today by their abbreviated skirts are causing a general demoralization of the community."

DRILLING WILL BE RESUMED AT CEDAR LAKE

SEMINOLE, Aug. 31.—Drilling on the well east of Seminole, near Cedar Lake, has been at a standstill for the past week on account of being out of fuel oil. However, a car of oil was received at Lamesa on Thursday afternoon's train, and drilling will be started immediately.

The drill is now down to a depth of 2180 feet, and we understand the drillers feel that no great obstacles are anticipated, and that the contracted depth of 3250 feet will be reached in a short time.

As to prospects for this well no one knows what the outcome will be, but those in charge are still hopeful of bringing in production.

BUILDING PERMITS

Lubbock's building permits are gradually climbing toward the million dollar mark. The total now is \$993,120 and is being increased daily. The month of August saw \$178,910 of new buildings and residences go up in Lubbock.

GIRLS! USE LEMON TO WHITEN SKIN

The only harmless way to bleach the skin white is to mix the juice of two lemons with three ounces of

Orchard white, any drugist will supply for a few cents. Shake well you have a whole quarter-pint of the most wonderful skin whitener, softener and beautifier.

Massage this sweetly fragrant lemon bleach into the face, neck, arms and hands. It can not irritate. Famous stage beauties use it to bring that clear, youthful skin and rosy-white complexion; also as a freckle, sunburn and tan bleach. You must mix this remarkable lotion yourself. It can not be bought ready to use because it acts best immediately after it is prepared.

OPERATION AVOIDED!

Vian, Okla.—"I had pain in my left side and couldn't get a long breath. I had palpitation, was constipated, nervous, sick to my stomach—everything was wrong. One doctor told me I would have to be operated. My husband said, 'I know Dr. Pierce's medicine helped you before so I am going to get it again.' He got me some of the 'Prescription' and 'Golden Medical Discovery' and one vial of the Pleasant Pellets, and today I can wash, keep house for seven in the family and hoe the garden. I never get tired praising Dr. Pierce's remedies."—Mrs. Cora Martin, Route 2, Box 67. Sold by all dealers. Send 10c to Dr. Pierce, Buffalo, N. Y., for a trial pkg. tablets.

CORPUS CHRISTI TO CELEBRATE OPENING OF PORT

CORPUS CHRISTI, Aug. 31.—"Pre-war stuff" is the term applied to rates that will prevail to Corpus Christi during the two-day celebration in connection with the opening of the water port there, September 14 and 15. The term is used because rates will be as low as 75 per cent of one-way fare reminding one of the days before the war when low excursion rates prevailed.

The first day of the celebration will be for the benefit of the public at large while the last day will be more especially for the entertainment of the distinguished visitors who have accepted invitations to attend the ceremonies. These consist of senators, congressmen, Army engineers, state legislators and other public officials.

Corpus has invited the entire State of Texas to celebrate with her on this occasion.

FEDERAL LABOR BUREAU MAN IS AT SLATON

SLATON, Sept. 1.—A. M. Robertson, special representative of the Farm Labor Division of the U. S. Department of Labor, visited the Slaton Chamber of Commerce to perfect arrangements for the delivery of cotton pickers to this section when they should be needed.

He urged the farmers to list their names with the local commercial organization, along with the number of pickers needed, that the Government Employment agency might have some central body to work through.

Mr. Robertson made an inspection tour of growing cotton near Slaton. He reported no evidence of ravages from leaf worms, but suggested that a close watch should be kept over the fields since these insects can destroy a field of cotton within a few days. Poison, to counteract the damage of the worms, can be had through the Chamber of Commerce.

NEW EQUIPMENT FOR WELLINGTON PAPER

WELLINGTON, Aug. 31.—The Collingsworth Standard, local newspaper has installed a new model 14 Linotype machine, with all the modern improvements, which give range of type from 6 to 36 points. The addition of this new equipment makes the Standard one of the best equipped weeklies in the Panhandle.

METHODS OF BUSINESS ESTABLISHMENTS IN HIGH SCHOOLS

A standard calculating machine in teaching commercial arithmetic was introduced last session in the accounting department of James Monroe high school, New York city. As no textbook co-ordinating use of the calculator with the regular course was available, daily lessons had to be carefully graded and a special method of presentation worked out. Though use of the machine was limited to 10 minutes per day, its value in class room work was proved in checking up work of students, saving time in class, providing drill in certain topics, and in training students in accuracy and speedy operation of a machine now in general business use, as well as in promoting interest in commercial arithmetic.

TOTAL OF STATE FUNDS REPORTED \$10,968,563

AUSTIN, Sept. 1.—With the close of the fiscal year tonight, the accounts in the office of State Treasurer Gregory Hatcher showed all State funds to aggregate \$10,968,563. This includes the general revenue which showed a balance of \$7,488,135, and the other funds, numbering approximately 90, aggregate \$3,482,428.

Hair Beauty

Thick, Gleamy Hair in a Moment

Girls! Try this! When combing and brushing your hair, just moisten your hair brush with a little "Danderine" and brush it thru your hair. The effect is startling! You can dress your hair immediately and it will appear twice as thick and heavy, an abundance of gleamy, wavy hair, sparkling with life, incomparably soft, fresh, youthful.

Besides beautifying the hair, a 35-cent bottle of refreshing, fragrant "Danderine" from any drug store will do wonders, particularly if the hair is dry, thin, brittle, faded or streaked with gray from constant curling and waving which burn the color, luster and very life from any woman's hair.

MOTHER! DON'T 'PHYSIC' A CHILD

To Dr. W. B. Caldwell, of Monticello, Ill., for 47 years, it seemed cruel that so many constipated infants and children had to be kept constantly "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty oils.

While he knew that constipation was the ATAGES cause of nearly all children's little ills, he did not believe that a sickening "purge" or "physic" every little while was necessary.

In Dr. Caldwell's Syrup of Pepsin he discovered a laxative which regulates the bowels. A single dose will establish natural, healthy bowel movement for weeks at a time, even if the child was chronically constipated. Dr. Caldwell's Syrup of Pepsin not only causes a gentle, easy bowel months before another dose is necessary. Besides, it is absolutely harmless, and pleasant that even a cross, feverish, bilious, sick child gladly takes it.

Buy a large 60c bottle at any store that sells medicine and just see for yourself.
