LIONS MEETING JOINTLY WITH C-C MEMBERS

Financial And Activity Reports Of Chamber Will Be Heard At Meeting

Jack Allen Is To Preside

Lions Will Join Chamber In Meeting Instead Of Holding Tuesday Noon Luncheon

Chamber of Commerce and Lions Club members will meet jointly next Tuesday evening in a regular quarterly meeting to be held in the Home Economics rooms of the Perryton High school. Dinner will be served by members of the department, starting promptly at 7:30 o'clock.

Plates for the affair will cost Chamber members fifty cents each and tickets will be offered in advance by a committee composed of Allen Hergert, C. E. Whippo, Irvin T. Buchanan, Miles Edwards and Ray Weir. It is planned for the committee to cover the entire business district of the city in the ticket sale campaign. Plates for all Lion members will be paid out of the club treasury, as no noonday luncheon will be held next week, the night meeting being substituted in its stead.

Everyone is extended a cordial invitation to attend the joint session, whether members of either organization or not, but are urged to secure tickets in advance so that reservations can be made to accomodate the crowd. The ticket sale will positively close at noon Tuesday when the final check will be made. Farmers are extended a special invitation to attend the meeting.

Jack Allen will preside at the meeting and will have charge of the program arrangements. Financial and activity reports of the Chamber will be presented and various other phases of Chamber of Commerce work will be explained.

We thank Mrs. Barber for the very kind expression of her remembrance.

ISSUES WARNING ON ADVERTISING GRAFTS

A warning has been issued by the Texas Centennial Commision to business men all over the state to be on the lookout for various advertising and promotional propositions that are being made and represented as having the endorsement or sponsorship of the commission.

According to Walter D. Cline, chairman of the executive committee, only one such endorsement has been issued, it being the official Centennial map of Texas, sponsored by the Daughters of the Republic of Texas, and the descriptive booklet which accompanies the map. All other claims of official endorsement or sponsorship are improperly made, Cline states.

"It should be understood that the Texas Centennial Commission is not endorsing, sponsoring or authorizing any appeals to Chambers of Commerce, business men and others, for funds for the purchase of advertising novelties, badges, or the like," Chairman Cline reports. Already the commission has received reports from widely separated portions of the state that various advertising and promotional grafts are being worked and Perryton business men should be on the lookout.

CLEAN-UP WILL PREVENT FIRES

CHECK FURNACES; GAS AND ELECTRICAL SYSTEM TO PREVENT FIRES

Most fires occur in dwellings. Therefore, it is only logical that fire prevention should begin at home. Many persons are unaware of the fire hazards existing in their houses and in many cases they do not know how to look for them. According to Fire Marshall R. H. Gamel, the practical means of eliminating fire hazards is to make periodic inspections.

The furnace should be inspected for defects. The time to do it is now before starting the fall or winter fire. Pipes and breechings may be burned or rusted through and in need of repair. Such pipes should be a safe distance from all combustible material or properly insulated. The chimney should be cleaned and inspected. Never use combustible receptables or pile ashes against frame walls or on wooden doors. Open fire places should be equipped with screens, as many fires and casualties have resulted from the sparks thrown from such places.

The condition of the electric wiring and gas pipes in the house should be carefully observed. Notify the electric company of electrical trouble and the gas company of gas leaks. Replace "blown" fuses with new ones—don't use makeshifts.

Teach every one of the family to be careful of fire and to watch stoves, electric irons and all other possible fire causes and every day to remove old magazines, papers and other rubbish. Keep matches out of reach of children. They should never be kept in close proximity to the stove. Don't keep gasoline in the house. Dry cleaning should be done with safe liquids or should be sent to a cleaner—never do it with gasoline or naptha. Kerosene should never be used to start a fire.

Explain to every one in the house what to do in case of a fire, how to put out burning clothing by wrapping in a rug or blanket, what to do when grease catches fire in the kitchen.

By inspecting your house and following these simple suggestions, Fire Marshall Gamel says the chances of your suffering a fire loss are reduced to a minimum. Whenever you have questions on fire prevention ask the fireman for the answers.

Mr. and Mrs. J. D. Wyman and daughter, Doris, spent Thursday night and Friday in Perryton visiting with friends. They were enroute to their home at Santa Monica, Calif., after spending the summer in Chicago.

ORGANIZES AG ASSOCIATION

COMMUNITY ASSOCIATIONS IN JOINT MEETINGS; SEND DELEGATES TO DALLAS

The community agricultural associations met Saturday at 3 o'clock in the court room for the purpose of organizing a county-wide agricultural association. These associations are to serve as an open forum of the people where all rural life problems may be studied and freely discussed; where plans for doing things together may be made and carried out by the people for the betterment of their living.

The following officers were elected for the county agricultural association: President, W. L. Anderson; vice-president, Curtis Roach; and secretary-treasurer, Mrs. W. M. Cooper.

The Texas Agricultural Association, a preliminary organization body created to take necessary steps to make it possible for the farmers and farm home makers of Texas to establish a state wide organization in Texas has informed the county agents through their president, H. G. Lucas, of Brownwood, that this organizing group has called a meeting in Dallas for December 3-6 for this purpose.

The county agents have also been informed that arrangements have been made through railroads to furnish transportation for three delegates from each county in Texas to go to Dallas at the time of the State meeing to set up such an organization as they may desire.

The delegates selected from Ochiltree county by the County Agricultural association to attend the Texas association at Dallas are: W. L. Anderson, president of community agricultural associations; Mrs. Jack Dodson, president of home demonstration council, and Miss Julia Morris of Twichell community.

Plans will be made later to defray the expenses of the delegates to Dallas.

GUYMON GAME SCORELESS TIE

TEAMS UNABLE TO SCORE IN GRID CONTEST LAST FRIDAY PLAYED IN GUYMON

The Perryton Rangers and Guymon struggled through 4 quarters in the grip of a scoreless tie last Friday afternoon when the local gridsters invaded the Oklahoman's camp, the game ending 0 to 0.

The Rangers held the advantage in ability to gain yardage but were repeatedly held for downs by the stiff Guymon defense when within scoring position. The game ended with the Rangers inside the Guymon one yard line having struggled for three downs attempting to score, the final whistle ending the contest.

Ivan Rexroat, Guymon player, received a serious neck injury in the game, which will probably put him out for the rest of the season.

Hold Funeral Services

Last Rites For L. B. Ranson Held Friday Afternoon; Burial At Ochiltree

Funeral rites for L. B. Ranson were held at the First Baptist church last Friday afternoon at 3:00 o'clock with Rev. W. B. Hicks, pastor of the first Methodist church in charge assisted by Rev. J. M. Sibley, Baptist pastor. Burial was made at Ochiltree cemetery.

Hundreds of friends filled the large church auditorium to pay their last respects to the deceased, who was numbered as one of Perryton's leading citizens, taking an active lead in Chamber of Commerce, Lions Club and civic work.

Special musical numbers presented at the services included vocal solos by Mrs. Carl Ellis and H. P. Lorenz, and by the Lions club quartet composed of Jas. E. Barbour, C. W. Claybaugh, J. Malvin Jackson and Addison Cutter. Mrs. Jas. W. Wilson was the accompanist.

Active pall bearers were Curtis O. Roach, W. E. Perry, J. B. Cartwright, Jr., Liel Lewellen, C. C. Bull and H. P. Lorenz. Honorary pall bearers were W. B. Lilly, R. C. Johnson, R. T. Shindler, Arch Talley, Glenn Tarbox, O. H. Black, Miles Edwards, M. M. Cudd, Calvin Flowers and R. H. Prewitt.

As a tribute to the deceased, all of the Perryton business houses closed during the services. Ranson met his death as the result of a car accident, last Wednesday afternoon, near Laverne, Okla.

He was married to Miss Bessie Pearl Kyle in Waxahachie on October 15, 1919. To this union two daughters were born, Sybil, age 14, and Janet nearly three years of age.

They moved to Perryton in June, 1927, as wholesale agent for The Texas Company and have been in charge of this agency ever since.

He leaves to mourn besides his widow and daughters, his mother, Mrs. Florence Ranson, Waxahachie; three sisters, Mrs. George Rothrock, Marlow, Okla., Mrs. Bussey Thompson and Mrs. Frank Noel, Waxahachie; two brothers, R. B. Ranson, Lipscomb, and Charlie Ranson, Dallas, and a host of friends.

LYNX FAVORED IN GRID SCRAP

PLAY NON-CONFERENCE GAME HERE FRIDAY AFTERNOON AT 3:00 O'CLOCK

Perryton's hard-fighting Rangers pit themselves against a revived Lynx eleven from Spearman, Friday afternoon at 3:00 o'clock at Ranger field when the two teams meet in a non-conference prelude to the traditional battle fought each year.

The Lynx have the edge on paper for the first time in several years with a 7-7 tie against the Borger Bulldogs to their credit in addition to the 56-0 clouting handed Stratford a week earlier. Perryton lost to Borger 18-6 two weeks ago.

Out of the nine games played between the two teams, the Rangers won five, the Lynx annexed three and one was a tie. Here is the record:

Year	Rangers	Lynx
1927	22	0
1927	13	6
1928	45	0
1929	40	0
1930	6	19
1931	0	6
1932	0	6
1933	6	6
1933	13	0

The annual Ranger Lynx classic is by far the outstanding gridiron tilt of the north plains and approaches the ultimate in excitement and enthusiasm.

It is considered probable that Coach Burke will send the same lineup into the game Friday as he has used so far:

Morris—LE
Hergert—LG
Jones—C
Nowlin—RG
Ferguson—RT
Correll—RE
Tucker—QB
Wakefield—HB
Butler—HB
McWilliams—FB

Here's luck to our Rangers and their gridiron success Friday.

Gets Texaco Agency

Mrs. L. B. Ranson Is Checked In As Wholesale Agent For The Texas Company

Mrs. L. B. Ranson has received the appointment as wholesale agent for The Texas company in Perryton, following the death of her husband who has held this post for the past seven years, and has been checked in by company officials, according to announcement made this week by F. E. Murrell, district representative, Amarillo.

Assisting Mr. Murrell in making the transfer were Dan O'Connell, Dallas, assistant district manager in charge of operation, and Jimmie Little, Houston, company auditor.

Friends of Mrs. Ranson extend to her their very best wishes in her undertaking, and predict the greatest of success. The business is not new to Mrs. Rranson who has been actively engaged in the agency affairs, while assisting her husband at the wholesale station during the past several years. The detailed knowledge gained while she acted as bookkeeper will prove very valuable to her in managing the business.

SUMRALL LEADING SERVICES

MANY ATTENDING BAPTIST REVIVALS IN PROGRESS IN EVERY COMMUNITY IN THIS COUNTY

With Rev. D. D. Sumrall, Amarillo, district evangelist for the Baptists, leading the services in the Perryton Baptist Church, the county-wide revival sponsored by the local church got off to a big start last Sunday. Evangelist Sumrall fired the opening gun in this great gospel battle from the pulpit of the Perryton church on Sunday morning.

Services are being held here twice daily, in the afternoon at two-thirty, and in the evening at seven forty-five. Rev. Sumrall is a forcefull and inspiring preacher of the word of our Lord. The local meeting will continue for two weeks.

This county-wide devival includes daily services in each of the following communities: McMillen, New Hope, Waka, Farnsworth, Lone Tree, Alfalfa and Huntoon. Pastors from neighboring counties are leading the services in these community meetings. These services started simultaneouly at three o'clock on Sunday afternoon and will continue for one week unless the interest justifies a longer period. Services are being held both morning and evening at some of these places but most of them only have an evening meeting. It is very likely that all-day services will be held at all points Sunday.

In the local church, the choir is under the direction of Mrs. W. J. Brewer, who is also arranging for special music for the revival. The Junior choir, under the leadership of Miss Margaret Prewitt, will sing on each Friday evening during the meeting.

Special nights will be announced as the meeting progresses. On Monday evening, the Pep Girls of the Perryton high school will be guests of honor at the services. A special section will be reserved for them, and they will sing a number of their school songs. Rev. Sumrall is scheduled to speak to the pupils of the school at the regular chapel hour this morning.

Attendance at Sunday School last Sunday was 215, with 250 set as the mark for next Sunday. The B. T. S. attendance on Sunday evening was 146, the next to the largest, if not the largest ever present; 165 has been set as the goal for next Sunday.

Prayer meeting services for men and women were started on Wednesday evening at 7:15. These will be held just preceding the regular revival services during the remainder of the meeting. The schedule for Sunday is as follows: Sunday School at 9:45 a. m., Sermon at 11:00 a. m.; B. T. S. at 6:45 p. m.; Sermon at 7:45 p. m.

Mrs. Harold Thrush visited from Friday until Sunday in the B. C. Hurn home in Higgins. Mr. Thrush went for her Sunday.

BUYERS WIND-UP IN COUNTY SATURDAY

Two Additional Days Granted In Order To Examine And Appraise Cattle Listed

Buy At Yards Saturday

Present Outlook Indicates That Cattlemen Will Not Offer All of 1,000 Allotted

Federal examiners and appraisers are busy this week in Ochiltree county going through the cattle offered for sale to the Administration under the additional and final allotment of 1,000 head assigned this county in the drouth relief program.

Owing to the distribution of the cattle listed by eighty owners and located in all parts of the county, the federal men will be unable to complete their work in the first four days, of the week set aside for this purpose.

They will complete their work in the county on Saturday noon, and owners of cattle listed that have not been inspected will bring their stock to the stock yards in Perryton on Saturday afternoon, where the final wind-up will be made. The buyers will be unable to get to every owner, and in some cases, the owners were not at home when the buyers called.

One thousand head was allotted to Ochiltree county, but from present indications it appears that not over 800 head will be offered for sale.

Markets Hand Lotion

Mrs. W. J. Brewer Producing "Velvet Hands" Lotion For Local Market

"Velvet Hands", a new lotion will be found in local stores for the first time, this year produced and marketed by Mrs. W. J. Brewer who is the originator of the formula for its manufacture.

Mrs. Brewer has been making the lotion for several years for her own use and for friends and it was only during the past year that she decided to produce it commercially. The hand lotion is especially recommended for this particular climate and those who have used it declare it to be superior to the many other lotions on the market.

"Velvet Hands" is sold in all of the Perryton drug stores and at Edwards' Toggery, according to Mrs. Brewer.

CONSTITUTIONAL AMENDMENTS

Voters of Texas will go to the polls on November 6, to vote on eight constitutional amendments. It is the duty of every citizen to inform themselves on the text and true meaning of these proposed changes in the state constitution so that they may vote intelligently either for or against. There are few of us that have given any study whatsoever to these amendments as to what effect, if any, their passage or rejection will have upon our personal interests, or the interest of our county, community or city. These amendments were published in full in four recent issues of the Herald. We have a number of these extra copies on hand and would be glad to give them to any person or organizations interested. We suggest that all clubs, such as civic organizations, community agricultural clubs, etc. assign this important topic for discussion at some meeting before the election.

MAYORALTY ELECTION

It is time for voters of the City of Perryton to give serious thought toward the selection of a Mayor, and a city alderman. Mayor Dave Shanks will be forced to resign, effective on December 31, 1934, to take the office of county Judge. There has been a vacancy on the city council since last April, when M. R. Coffee, who was elected, failed to qualify on account of the office interfering with his duties as appraiser for the HOLC. Both of these offices are important and should be filled with men who have the interests of the citizenship at heart and are not letting the financial consideraion overweigh their duty to their municipality.

THE GASOLeNE TAX

A study of the report on gasoline tax collections for the fiscal year ending August 31, recently issued from State Comptroller George H. Sheppard's office, shows that collections were higher last year than ever before.

Of the $33,984,848 income from the four cent tax, one fourth or $8,496,212, goes to the public schools of the state. Another one-fourth, $8,496,212, goes into the fund for the refunding of county road bonds that were taken over by the state when the state assumed responsibility for the construction of state highways and retirement of county bonds issued for the purpose of building state highways. The gasoline tax payments of the preceding year, which were $4,136,845 short of the fiscal year just ended, were sufficient to pay the interest and only 30% on the principal of these county bonds. This year, according to Mr. Sheppard, they will be able to pay the interest due, and at least one-half of the principal maturities.

The remaining one-half of the tax collections goes directly to the state highway department for the maintaining and building of our state highway system.

LEGISLATIVE EXPENSE

Our representative, B. L. Rogers, Farnsworth, got all "het up" over our remarks in this paper last week as to the cost of the present 43rd legislature. No, Bird there wasn't anything personal in what we had to say, we really didn't think that you were personally responsible for the expense of the three special called session, but you sure didn't lose any time in rallying to the defense of your chief, "Farmer Jim". But anyhow, Bird immediately got busy and wired Austin and received the information that the present legislature so far is not the longest or most expensive. That the 42nd was the longest and cost $1,085,000, while the present thus far has cost approximately one million dollars. If we were wrong about a small matter like $85,000 when we are talking about a million, we willingly apologize, but again, we state, we don't hold Bird responsible for everything that goes on down there in the Ferguson citadel.

ANOTHER CALLED SESSION

Governor Ferguson on Monday issued a call for the 43rd legislature to convene in a fourth called session on Friday, October 12. Questions to be considered are remission of penalty and interest on delinquent taxes; development of the Brazos and Colorado river projects; provision of funds for the Texas Centennial; provision of additional relief money; and any other things that the governor might submit.

The remission of penalty and interest on delinquent taxes has gone too far. It should be stopped. Our tax laws need revising, eliminate the 10 percent added penalty that goes into effect one day after the taxes go delinquent and arrange the penalties on a graduated basis This will speed up payment of taxes that go delinquent. Under present laws, the longer the taxes go unpaid, the smaller the percentage of penalty. The custom of remitting penalties and interest puts a penalty on the man that pays his taxes when they are due and in reality increases the delinquent roll. The development of th Brazos and Colorado river projects are not of direct interest to this section, unless they involve remission of taxes. If such is the case, we are "agin" any such legislation. Adequate funds for the Texas Centennial should be provided without delay and the financial needs of the relief rolls should be met.

CANCELLING ROAD BONDS

With the election for the cancellation of $370,000 of the $400,000 authorized road bonds of Ochiltree county coming up on November 6, 1934, in conection with the general election, we think it not amiss that County Judge Oscar C. Flowers and the Commissioners of this county be given a few words of praise for their efficient and economical administration of this bond issue.

The $400,000 was authorized by the voters on April 16, 1932. Since that date only $30,000 in bonds has been sold, the proceeds going for the purchase of right-of-way and building fence on Highways No. 117 and No. 4. In addition to the $30,000, the Commissioners' Court has expended approximately $20,000 of the regular tax funds of the county for this same purpose. Of the $30,000 bonds issued and sold, $5,000 has already been redeemed by the county.

At the time the large bond issue was voted, the proponents were reasonably certain that none of the isssue would ever be required for the actual construction of highway, as it appeared at that time that some plan for the construction of all state highways by the state highway department would be adopted. The viewpoint of those that favored the bond issue was justified shortly after the election was held when the state took over the building of all state highways and also assumed the outstanding bond issues of counties where the proceeds were used for constructing state highways. As a result of this ruling, counties were required only to furnish right-of-way and fence same.

The taxpayers of Ochiltree county have been very fortunate in having as its executive board, such men as Judge Flowers, and Commissioners W. G. Yeary, H. C. Brillhart, W. R. Norris, and the late R. A. Fuller, who by their business administration of the highway program have shown such results. Few men with such a large sum at their command would have been so economical.

HIGHWAY COOPERATION

The highway meeting held at Plainview Friday was called for the purpose of discussing and making plans for the filling of the gaps in the cardinal highways of the Panhandle. This was a very commendable aim, but after attending the meeting, we have reached the conclusion that those who were really "behind the guns" in the calling of this meeting, had but one purpose, and that was the securing of a resolution against the reappointment of Judge W. R. Ely, Abilene, to the state highway commission.

Ochiltree county joins with many other Panhandle counties in endorsing Judge Ely and regardless of what Amarillo may say, we know for a fact that many counties of the Panhandle approve the retention of Judge Ely on the commission for they know that practically all highway building in the Panhandle has been done since he has been on the commission, that he has been fair to West Texas and the Panhandle, and he has ever worked toward a connected system of highways in the Panhandle.

There is probably not a county in Texas that has received every highway improvement that they have asked for. We haven't in Ochiltree, but we feel that we have received our share of the highway money, just as is the case with many other counties.

Getting down to plain words, Ochiltree county will be found one hundred percent behind any organization that truly represents every section of the Panhandle and not an organization that is interested in one particular section of the Panhandle. One of the most important highways in the Panhandle is Federal No. 83, which runs from Candaa to the Mexican border at Laredo. This highway enters Texas, north of Perryton and runs south through Lipscomb, Wheeler, Collingsworth, Childress and on down into Texas. This highway does not go through Amarillo, hence it is never considered and seldom mentioned in any of the highway "pow-wows" sponsored by that city.

T. E. Johnson in his column, "Plains Speaking", in the Sunday Amarillo News-Globe, states that the one big difficulty in getting adequate relief for this section is the lack of united opinion on any program that arises. Why is it that Amarillo does not get whole hearted cooperation from much of the Panhandle? It is because Amarillo seldom interests herself in any proposition that is not of direct benefit to Amarillo. Amarillo was "teeth and toe nails" for this section of the Panhandle in the designation and hard surfacing of No. 117. Why? Because No. 117 is a direct highway affording a connection into Amarillo. When Amarillo can overcome this "selfish interest" attitude toward the Panhandle as a whole, then and only then will she get that cooperation that she wants and should have as the capital city of the Panhandle.

GAS TAX STEALING

Due to the efforts of Comptroller George H. Sheppard and his force of 50 field men in their state-wide drive against gas tax thieves, the returns to the state from the four cent gasoline tax were boosted o $33,984,848 for the fiscal year ending August 31. This is an all-time high total and $4,136,845 above last years collections. In their drive against evasions of the tax payment, 91 felony and 71 misdemeanor charges have been filed.

The State of Texas is determined that this law shall be enforced. Field men have been quietly working in this and other counties obtaining data of tax evasions and some of our good farmers who think they are doing something "smart" when they operate their automobiles and trucks with gasoline upon which they have claimed exemption from the four cent tax on the grounds that it was used for agricultural purposes, are likely to find themselves facing a criminal charge.

We have not one iota of sympathy for any person who gets themselves into such a jam. It is just "plain stealing" from the gasoline tax fund which goes, one-fourth to the schools and three-fourths for roads.

"CITATION BY PUBLICATION"

THE STATE OF TEXAS:
TO THE SHERIFF OR ANY CONSTABLE OF OCHILTREE COUNTY, GREETING:

You are hereby commanded to summons J. E. Rice, by making publication of this citation once in each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Ochiltree County, Texas, to be held at the Court House thereof, in Perryton, on the second Monday in November, 1934, the same being the 12th day of November, 1934, then and there to answer a petition filed in said court on the 15th day of September, 1934, in a suit numbered on the docket of said court number 330, wherein J. C. May is Plaintiff and J. E. Rice, and Lester Bauman are defendants, said petition alleging in substance as follows:

That on the 28th day of June, 1930, the defendant herein J. E. Rice, made, executed and delivered to this plaintiff his forty (40) certain promissory notes, each for the sum of Fifty Dollars ($50.00) bearing date on the day and year aforesaid, payable to the order of plaintiff at Perryton, Texas, said notes becoming due one on the 15th day of each month, beginning on September 15, 1930, and thereafter until paid, with interest at the rate of six percent per annum thereon from date until paid, and providing for ten per cent attorney's fees on the amount of principal and interest then due as Attorney's fees if placed in the hands of an attorney for collection, or if suit is brought on same, whereby defendant, J. E. Rice, became liable and bound to Plaintiff and promised to pay him the sum of money in said notes specified, together with all interest and attorney's fees due thereon, according to the tenor and effect thereof. Said notes provided that failure to pay any one of said notes at maturity matures all of the notes of said series of forty (40) notes. Plaintiff would respectfully show to the court that notes numbers one (1) to nineteen (19) both inclusive, have been paid and notes numbers twenty (20) to forty (40), both inclusive, are not paid either as to principal or interest or any portion thereof, and that all of said notes numbers 20 to 40 are past due and unpaid, and that there is now due on same covering principal, interest and attorney's fees Fifteen Hundred Thirty-seven Dollars and Thirty-one Cents ($1537.31).

That plaintiff has placed said notes in the hands of his attorney for collection, and has contracted and agreed to pay him the ten percent stipulated in said notes, the same being reasonable and the usual and customary fee.

That said notes numbers twenty (20) to forty (40) both inclusive, are past due and unpaid, and defendants, though often requested, have hitherto failed and refused and still refuse to pay same or any part thereof, to plaintiff's damage in the sum of Two Thousand Dollars.

Plaintiff would respectfully show to the court that to secure said notes the defendant J. E. Rice, executed to plaintiff a chattel mortgage dated August 12, 1930, covering the following described property, to-wit:

One Five Horse Boiler; One Three Horse Motor; One American Junior Tumbler; One Troy Washer; One Twenty-Eight inch Extractor; One three tank clarifying system; One eight-eight press; One Singer Sewing Machine; Danny Stem Iron; One Rhodes Electric Hatman; as well as all other equipment used in the Newway Cleaning Shop, located in the Holland Building in the City of Perryton.

The Lien retained herein on the Rhodes Electric Hatman is subject to lien as purchase price in the approximate sum of $300.00.

That said chattel mortgage is a first, prior chattel mortgage lien and is a valid and subsisting and unsatisfied lien and he herein seeks foreclosure on same. Said chattel mortgage was duly filed of record in the office of the County Clerk of Ochiltree County, Texas, on August 12, 1930.

That the defendant, Lester Bauman, is asserting and claiming some interest in and to said above described property, which interest, if any, is inferior to the lien and rights of plaintiff herein and is made a party defendant due to said asserted claim of interest in and to said property.

WHEREFORE, Plaintiff prays the court that defendants be cited to appear and answer this petition, and that he have judgment for his debt covering principal and interest and attorney's fees for costs of suit, for foreclosure of his chattel mortgage lien, and for such other and further relief, special and general, in law and equity that he may be justly entitled to and in duty bound will ever pray.

Herein fail not, but have you before said court on the said first day of the next term thereof, this Writ, with your return hereon, showing how you have executed the same.

WITNESS, Irvin R. Buchanan, Clerk of the District Court of Ochiltree County, Texas.

Given under my hand and the seal of said Court in the City of Perryton, Texas, this the 10th day of October, 1934.

CHRISTIAN SCIENCE

"Are Sin, Disease, and Death Real?" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on **Sunday, October 14.**

The **Golden Text** is, "The Lord is our Judge, and the Lord is our lawgiver, the Lord is our King; he will save us" **(Isaiah 33:22).**

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Whether is it easier to say to the sick of palsy, Thy sins be forgiven thee; or to say, Arise, and take up they bed, and walk?" (Mark 2:9).

The Lesson-Sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Sickness, sin, and death, being inharmonious, do not originate in God nor belong to His government. His law, rightly understood, destroys them. Jesus furnished proofs of these statements" (page 427).

Claimed Sunday is no longer a day of worship, but a good many people in Texas are always down on their knees Sunday, changing punctured tires.

Pity is expressed for many big city children who never saw a cow or a calf, but many farmers of this country will say they wish they had never seen one.

WHEAT SUPPLY IS SUFFICIENT

DESPITE SHORT CROP, DOMESTIC REQUIREMENTS CAN BE SUPPPLIED WITHOUT IMPORTING

STILLWATER, Okla.—Despite a short crop of wheat in the United States this year, the supply is ample for domestic requirements with the exception of hard red spring and durum wheats. The world carryover of wheat is slightly larger than it was last year, although the United States' supply has been drastically reduced, according to Current Farm Economics bi-monthly farm review published by the Oklahoma A. & M. College.

Dominant factor in the wheat situation this fall is the short crop caused by the severe drouth. In 1934 Oklahoma produced 37,674,000 bushels of wheat compared to 33,095,000 bushels in 1933, and a yearly average of 52,641,000 from 1927 to 1931. In 1934, the United States produced 493,000,000 bushels of wheat, compared to 527,978,000 bushels in 1933, and an average of 886,000,000 bushels from 1927 to 1931. This represents a 28 percent decrease from the Oklahoma average, and a 45 percent reduction in the crop of the entire United States.

According to the United States Department of Agriculture, the world wheat crop, exclusive of Russia and China, is likely to be about 319,000,000 bushels less than last year—a reduction of nearly 12 percent. Most of this reduction is in Europe including the countries of the lower Danube basin, which normally export large quantities of wheat. The crop in Northern Africa and Asia is slightly larger than last year, while in the Southern Hemisphere it is about 105,000,000 bushels less than last year.

The carryover of wheat in the United States on July 1, was estimated at 290,000,000 bushels, compared to 393,000,000 bushels a year earlier. The carryover, plus the production, amounts to 78,000,000, while the normal domestic consumption of wheat in the United States, amounts to about 625,000,000 bushels. This would leave a carryover of 156,000,000 bushels at the end of the year which would be the lowest carryover in this country since 1929. The world carryover of wheat, appeared to be about 15,000,000 bushels larger on July 1, 1934, than it was a year ealier. This increase is in continental European countries. Wheat available for export in the World, will be considerably less than it was a year ago.

While the total supply of wheat in the United States is sufficient for domestic requirements, there may be a shortage of hard red spring and durum wheat, if allowance is made for some carryover of these classes of wheat at the end of the season. However, it seems likely that the supply of hard red winter wheat, which is the principal class produced in Oklahoma, will be somewhat larger than needed for consumption and carryover, unless there is an extensive substitution of this variety for hard red spring and durum wheat.

The short crop of wheat has resulted in considerable rise in price in the United States. The average farm price in Oklahoma on August 15, was 89 cents per bushel. This was the highest farm price since April, 1930 with the exception of July, 1933, when the price was exactly the same. This price is somewhat higher than the 1910-1914 average farm price in Oklahoma. This is considerably below parity, however, because prices on things the farmers buy are considerably higher than they were during the pre-war period. Present prospects seem to indicate that wheat prices might retain much of their recent advances, for the remainder of the season.

Seventy-five New Chevrolets To Be Used as Courtesy Cars at Miami Convention

American Legion delegates from Chicago to the national convention at Miami, Fla., October 22-25, will make the trip in a motorcade of 75 new Chevrolets. Five trucks will follow the caravan carrying baggage and band instruments.

Curing Lamb At Home

Meat Specialist at Oklahoma A. & M. Describes Best Method After Testing Several

Stillwater, Okla. — Methods for curing lamb as a means of varying the often monotonous meat diet of the family on a "live at home" basis have been worked out by the animal husbandry department and the school of home economics at the Oklahoma A & M College.

By curing lamb, points out J. A. Beall, meats specialist at A. & M., the farm family doing home butchering may have something other than pork for its winter meals.

Methods Tested

Directions for curing lamb, recommended by Beall after considerable testing of various methods, are:

"Best results are obtained by chilling the carcass 12 to 48 hours at about 35 degrees Fahrenheit. This is equal to one or two days in cold winter weather. If the days should turn warm, over-night chilling will suffice.

"The following formula is most desirable from the standpoint of shrinkage, flavor and uniformity of cure, and is sufficient to cover 100 pounds of meat: 8lbs. salt, 2 lbs. sugar, 2 oz. saltpeter, 6 gal. water.

Curing Process

"Thoroughly mix the salt, sugar, and saltpeter. Rub a small amount of this mixture on the outside of each cut and lay loosely in a scalded hardwood barrel or stone jar. Weight the meat down with a hardwood board and clay bricks to prevent floating when the water is added. Dissolve the remaining salt mixture in the six gallons of water, which has previously been sterilized for five minutes by boiling, and then thoroughly cooled. Pour this over the meat, making sure that all pieces are well covered.

"Allow the racks, loins and breasts to remain in cure 14 days and the legs and shoulders 30 days for complete curing. However, the cuts may be taken from the brine and consumed at anytime. It is advisable to use the thin cuts first.

Needs Careful Storage

"After the lamb has remained in cure the allotted time, remove and soak for two hours in lukewarm water, hang up to dry over night and give a light smoke. Lamb has a tendency to absorb more smoke flavor than pork, therefore precautions should be taken against smoking too heavily. A very light straw color of the finished product is preferable.

"Cured lamb, if stored for a long period of time, will become dry, hard musty and unpalatable. It may be stored for a few weeks under farm conditions, but it must be wrapped in heavy white paper immediately after smoking, and buried in air-slacked lime. The pieces should be completely surrounded by lime and not allowed to touch each other. The lime box should be kept in as cool and dry a place as can be found. A well shaded granary or store-house, or a dry cave is very desirable."

TERRACING OF LAND INCREASES WHEAT YIELD

Data secured from the Panhandle Experiment Station show that terracing has increased the grain yield of wheat and milo from 20 to over 100 percent, says Harley A. Daniel, Acting Director of Experiment Station, Panhandle A. & M. College, Goodwell, Oklahoma.

The yields of wheat during 1934, grown on terraced areas of approximately 35, 70 and 140 feet in width were increased 110, 75 and 50 percent respectively over the adjacent unterraced plots. The vertical interval between these terraces was three inches, six inches and twelve inches. The advantage of the closer spacing appears to be due to the better distribution of saved moisture for the use of the crop. Since the soil used for this experiment was very uniform the increased yields are no doubt due to the additional moisture supplied by saving the water that would have run off, Daniel says.

A total grain yield increase of 32.6 percent secured by terraces over an eight year period (1926-1933) was recorded by H. H. Finnell, (Panhandle Experiment Station Bulletin No. 53) on heavy silt loam soil at Goodwell, Oklahoma, under a normal rainfall of 17.8 inches. The land on which these results were obtained has a natural slope of one percent or less.

Daniel believes that level terracing and contour listing should be encouraged in the high plains of Oklahoma, in order to save the run off water, help prevent wind erosion and consequently increase crop yields. If the land is contour listed the width of the terrace area may be rather wide, because each lister furrow acts as an individual terrace.

The width of the terrace area should vary with the type of soil and the slope of the land. The heavy clay soils will require more terrace ridges than a sandier soil of the same slope.

Mrs. Frank Drake of Pleasant Hill community, Craig County, processes 80 jars at a time in her outdoor hot water canner, reports Irene Wyant, home demonstration agent. Mrs. Drake uses a large metal barrel set over a pit which serves as a firebox. The bottom row of jars rests on a false bottom; the second row rests on a rack on top of the first, and so on until the barrel is filled. A tub is used as a cover.

Tomato vines which set on no fruit during the hot weather now are loaded in the garden of Mrs. Ethel Eyers, Beaver county, reports Bernice Sloan home demonstration agent. Mrs. Eyers built a dirt tank from which to irrigate, made windbreaks of sacks on the south side of the garden and pruned and trellised the tomato vines.

Drouth hasn't beaten the people of Lone Oak community, Coal county, says Jennie Alice Clyer, home demonstration agent. The unusual display of canned goods, handwork, fresh vegetables and grains at the community fair here this month is proof that home demonstration club members are not asleep. Many of the exhibits went on to the Coal county fair and competed for a place in the state fair collective exhibit.

Every one of the 17 home demonstration clubs of farm women in Seminole county made a complete exhibit of canning budgets for a family of five, 21 jars, and a complete unit exhibit of clothing, Lemma O. Maloney, southwest district home demonstration agent, reported. There were 22 individual canning budgets of six jars and 17 thrift exhibits. All clubs exhibited three handmade rugs and four articles made of sacks. There were more than 2,000 ears of good corn shown and horticulture exhibits were large and good.

PLEDGE MILLION GLASSES JELLY FOR WELFARE WORK

More than one million glasses of jellies and pams have been pledged in the American Legion Auxiliary's national jelly making campaign, it has been announced by Mrs. Hugh Shotwell, who is in charge of the local Auxiliary Units participation in the campaign. A total of one million glasses is expected to be reached before the campaign closes in the fall.

The jellies and jams are being made by Auxiliary women throughout the country as part of their contribution to the relief of the needy during the coming winter. The products of the campaign will be distributed in the Auxiliary's welfare work among the families of World War veterans and contributed to relief agencies. The local Unit has pledged 150 glasses as its part in the activity.

Statement of Policy

Indianapolis, Ind., Oct. 8.—It was pointed ou at national headquarters of the American Legion here that a tentative staement of policy has been generally approved in area conferences and by deparment conventions, looking to its adoption by the national convention in Miami, Oct. 22-25, which would make the enactment of universal service in time of war a major objective of the Legion the coming year.

Its keynote is that the inequalities of the World war, which resulted in placing the veteran in a class below those who stayed at home, and that such inequalities will not exist in any future war if the principle of universal service is put in the basic law of the land. It also was stated at national headquarters that any Legionnaire's expressed opinion regarding the embargo on arms was a personal opinion and not official.

Millions To Oklahoma

Agricultural Administration Has Placed Almost $18,000,000 In Farmers' Hands

Wheat and cotton adjustment programs of the Agricultural Adjustment administration had brought a total of $17,968,304 60 into Oklahoma farmers' hands up to July 31, an audit made as of that date and just completed shows. Adjustment administration officials at Washington reported to E. E. Scholl, acting director of extension, Oklahoma A and M. college, that this included $13,162,456.05 in cotton payments and $4,805,848.55 in wheat payments.

Since July 31, Scholl pointed out, cotton adjustment payments, second wheat payments and corn-hog payments have been made rapidly, so that the next audit will show a much higher total of payments to Oklahoma farmers who have cooperated in the emergency surplus-reducing phases of the Adjustment program.

Texas and Beaver counties ranked first and second in wheat adjustment payments. Texas county wheat farmers were paid $609,276.36, while in Beaver county the wheat payments were $438,276.36.

Avoid Scarlet Fever

State Health Officer Says Disease Is A Very Grave Menace To School Children

Austin, Texas—"Scarlet fever still continues to be a menace to children," said Dr. John W. Brown, State Health Officer, in discussing diseases common to children. "Many cases are slight, but they may infect others who may become seriously ill. It is treacherous and undesirable, and the only good thing about it is that if one can avoid it until grown, the chances of never getting it are excellent.

"Scarlet fever is spread by the transfer of the infection in the discharges of nose and throat, ears, or abcesses of persons ill with the disease and those who are carriers of the infection. The handling of articles soiled by the patient may cause the disease.

"Children under ten years of age are usually susceptible to scarlet fever. Children becoming suddenly ill with fever, sore throat, vomiting and showing a fine red rash should have medical attention and be immediately quarantined to prevent the spread of this disease. The appearance of scarlet fever in the home should be immediately followed by a rigid quarantine for at least three weeks. The public should be warned against exposing young children to those exhibiting acute catarrhal symptoms of any kind. Take no chances—be on the safe side.

"The use of potent scarlet fever antitoxin is of value in shortening the course of the disease. The antitoxin should be administered within three days of the onset. Scarlet fever antitoxin lessens the complications, such as heart and kidney diseases, discharging ears and infected sinuses that often occur after scarlet fever. Scarlet fever can be prevented by first giving the Dick test to all children and the administration of scarlet fever toxin to all children that are susceptible.

That subsequent to the execution and delivery of said certificates said Lacy Paving Company as the owner and holder thereof, in due course and for full value negotiated and transferred same, and this plaintiff in due course and for full value became and now is the owner and holder of said certificate, and the debt and liens evidenced thereby.

That default has been made in the payment of installments maturing up to and including the 28th day of October, 1933, and though demand has been made for payment, to pay the same or any part thereof Defendants have failed and refused, and by reason of default in the payment of the installment due October 28, 1933, Plaintiff elected to declare said certificate due and payable and has placed same in the hands of its attorneys, Coke & Coke, and has become bound and has promised to pay said attorneys a reasonable attorney's fee, to wit, the sum of $250.00, which is but fair and reasonable compensation.

PREMISES CONSIDERED, Plaintiff prays that Defendants be cited to appear and answer, and that upon final hearing said certificate be established as a valid and subsisting liability against the Defendants herein named, and that it have judgment against such Defendants for the full amount thereof, principal, interest and Attorney's fees, and that said certificate be established as a first and paramount lien against the real estate in such certificate described, and that Plaintiff be decreed foreclosure of its said lien, and that it have order of sale in terms of law, and that said property be sold under foreclosure in satisfaction thereof, and the proceeds applied in satisfaction of its judgment, and that it recover its costs, and for all other relief, legal or equitable, to which it may be entitled under the law and the facts.

PERRYTON ADOPTS STATE-WIDE FIRE DRILL PLAN

Hereafter Perryton school pupils will observe the state plan of signals during fire drills. This plan has been explained to students and will be inaugurated at once. Three bells or a series of three bells will cause the pupis to leave the building. One bell will cause them to stop during the exit. Three bells will continue the march and two bells will return them to their rooms.

Perryton schools are proud of their ability to empty all buildings safely in less than a minutes time. Pupils are not allowed to carry anything with them that might cause them to stumble or injure others in case of crowding. An average of two drills per month is supposed to be held. BOYD, OKLA. ITEMS

Mrs. J. H. Pierce Reporter

Beautiful balmy weather we are having just now. Wheat that has had time to come up is doing fine.

The Farm Women's Club met Friday, October 4, with Mrs. Edna Perdue. Miss Sloan and thirteen members and one visitor were present. Miss Sloan gave a very helpful demonstration on making a gas-tank sink. There seems to be quite a good many discarded gas tanks over the community, as well as other places, and any one with a little work and an old gas tank could soon be the possessor of a very convenient sink. The Boyd club is working on an exhibit to be sent to the Guymon fair.

Mr. and Mrs. J. A. Haworth visited Mrs. Haworth's father, J. M. Buchanan, Sunday afternoon.

Mr. Haworth preached at Camrick, Sunday morning.

Miss Bessie Carter, Miss Pauline Lowe, Jim Reynolds and Richard Coburn of Hardesty visited Sunday at the home of Mr. and Mrs. H. W. Gates.

Miss Nellie Trimmell was a Sunday dinner guest of Miss Ruth Gates.

Mr. and Mrs. Frank Brooks were Sunday visitors of Mr. and Mrs. Ed Claybrook.

After talking all day to anyone who will listen to them, many people complain there is no free speech any longer.

Those who run for office should look out they don't run out of gas when too far from any filling station.

READING FUN IN STORE FOR BOYS

Here's important news for the boys of America. THE AMERICAN BOY—YOUTH'S COMPANION, the nation's quality magazine for boys, has been reduced from $2.00 a year to $1.00. The three-year rate, formerly $3.50, has been reduced to $2.00.

"For a long time we have been seeking a way to reduce the cost of THE AMERICAN BOY to readers," states Griffith Ogden Ellis, editor. "Recently we have effected savings that make the cut possible, and we think boys will agree that the new price is big news on the reading front. We hope boys will help us to spread the good news by telling their friends."

Along with the cut in cost the magazine's publishers are planning a magazine that will continue to set the pace in fiction, articles, and departments. The favorite characters of millions of boys will appear through THE AMERICAN BOY in new stories. Douglas Renfrew, of the Royal Canadian Mounted, Blackrack, the red-and-gold collie, and Redhead Jim Tierney, the detective, will give the reader many exciting hours in the months to come.

William Heyliger, whose true-to-life, gripping vocational stories have won him wide acclaim from parents and librarians, as well as the hearty approval of boys, is working on new stories. Staff writers are busy reviewing famous coaches and athletes and world-renowned explorers to bring boys the color and thrill of sports and travel.

In short, THE AMERICAN BOY under its new price, will continue to give boys a magazine that measures up to the best standards of adult magazines. Send your subscription to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Michigan. Enclose your name and address and the proper amount of money, and THE AMERICAN BOY will soon be headed your way, loaded with reading thrills.

Good School Grades

No parent is justified in blaming a child for poor grades unless every precaution has been taken to learn if the fault is really that of the child—Defective vision quite often is the cause—the child has no way of knowing what is wrong. At the start of every school year, eyes should be tested and proper glasses fitted if needed. Our Optometric service charge is very moderate. We do not recommend glasses unless actually needed or to correct faulty vision.

Don't Gamble With Fire — PREVENT IT!

THE WHOLE NATION IS COOPERATING IN THIS FIRE PREVENTION WEEK CAMPAIGN!

There is nothing quite so disasterous as fire—for once burned, it is gone forever. True, inurance may protect the financial loss, but nothing can overcome the material loss.

That is why the Perryton insurance agents are cooperating in this Fire Prevention Week campaign. The object of this occasion is to remind the public of the seriousness of the lrage fire loss in this country both as to life and property, and bring to the attention of everyone the fact that nearly all of this destruction could be avoided if greater care were taken and children and grown people were thoroughly educated in the handling of fire and taught the importance of extreme carefulness.

Give your property a thorough inspection this week. See that all trash and rubbish is removed. Before you start a fire in your heating plant this winter, see that it and the flue is in perfect condition and repair all defects. You will be well repaid for your trouble in peace of mind, knowing that your home or business is protected at least from your own carelessness.
