Local Youth Seriously Hurt In Motorcycle Accident

Skull Of Marlin Karnes Fractured At Tulia Sunday

Seventeen-Year-Old High School Student Confined In Tulia Hospital After Machine Overturns

Condition Serious

Brother Slightly Injured When Motorcycle Wheel Blows Out And Throws Both Riders To Ground

MARLIN KARNES, 17-year-old Lubbock high school student, is in a critical condition today in a hospital at Tulia, as the result of injuries received Sunday afternoon in a motorcycle accident one mile north of that city.

Karnes and his brother, L. C., were returning to their home in Lubbock from Amarillo where they had been to attend motorcycle races earlier in the day. The accident occurred on the highway between Amarillo and Tulia.

Both of the youths were thrown from the motorcycle when a wheel struck a bump in the road and blew out the rear tire. As the vehicle struck the ground after its leap into the air, Marlin was thrown forward to the highway on his head.

He was rushed to a Tulia hospital where examination revealed his condition to be very critical. He suffered a badly fractured skull, a broken collarbone and minor bruises.

The brother escaped serious injury though considerably shaken and rushed by the ambulance.

The two boys are sons of Mrs. M. Karnes, 2304 Twenty-Third street.

Condition Serious
Reports last night stated that the injured youth's condition was so serious that it was not known when he could be moved to his home in this city.

Lubbock Exhibits Attract Interest

Local Displays At Kansas, Oklahoma Expositions Turn Sections' Eyes In Direction Of Lubbock

A letter received Monday from P. Murray, in charge of the Panhandle South Plains exhibit at the Kansas fair, Topeka, stated that people of that section were showing much interest in this county.

There has been a great deal of interest shown in our exhibit," Mr. Murray writes, "and I have talked to hundreds of farmers who are interested in our country."

Interest In Seed
I find that a great many farmers are especially interested in seed, as in wheat, oats, etc. I will suggest that you include in circular letters, to be mailed to inquirers, how farmers in the South Plains section secure this seed.

We have been told that we have the best agricultural exhibit at the fair and I feel that the results obtained will be entirely satisfactory."

Touring Fairs
Murray, together with other representatives from the Panhandle, is touring state and regional fairs throughout the middlewestern states with agricultural exhibits designed to interest prospective farm buyers.

E. Stinson, representing the Panhandle and South Plains at the Free State fair, in a wire received in Lubbock yesterday stated that thousands of visitors were viewing the exhibit from this section.

Chains Self In Fiery Furnace

LUMBERLAND, Md., Sept. 16. (AP)—Having crawled into a furnace and kindled a fire by chaining herself to a steel cross bar inside, Mrs. Ines Inesna, wife of John Inesna, Cumberland merchant, was found burned to death today.

Mrs. Inesna had suffered from insanity. Today she died members of her family and the body was found after a half hour search by a firefighter.

Buenos Aires to N.Y. On Bicycle

DALLAS, Sept. 16. (AP)—Vittorio Seghetti, Argentine printer who is riding and pushing a bicycle from Buenos Aires to New York, reached Dallas on his long trek today. Seghetti said that frequently he had been forced to take his bicycle apart and swim unbridged streams, carrying one piece of the vehicle at a time. He had traversed crooked precipitous mountain trails, deserts and swamps and had been threatened by bandits, he said.

He started his trip April 1. His route was through Argentina, Bolivia, Peru, Ecuador, Colombia, Panama, Costa Rica, Nicaragua, Honduras, Salvador, Guatemala and Mexico. He will leave Dallas in a few days for Chicago.

Husband On Trial For Burning Body Of Youthful Wife

Dapper Radio Mechanic Is Charged With Strangling Estranged Spouse After Fuss; Pleads Insanity

(By Associated Press)
WHITE PLAINS, N. Y., Sept. 16.—Earl Francis Peacock, 21 year old radio mechanic, was placed on trial today for the killing of his gay and pretty young wife, Dorothy. Though a long day that made talesmen restless he remained a composed and dapper prisoner betrayed only by the pallor of months in a cell.

Almost a half hundred talesmen were examined before defense counsel, admitting the slaying but building a defense of accident and insanity, and the prosecuting attorney, angling for jurors without prejudice to the death penalty, had chosen six men. One hundred and fifty talesmen first were called but supreme court justice, Arthur S. Thompson, presiding, ordered a hundred more when it became apparent that the jury selection would be slow.

Defense plans were disclosed as Sidney A. Syme, chief of counsel for the radio man, questioned closely each talesman. The prospective jurors were asked whether they would be influenced by the death penalty, the burning of the girl's body after she was strangled to death last April 21 in Peacock's Mount Vernon apartment, or by Peacock's love affair with Frances Newman, dancer, and the "alibi girl" of the case.

Talesmen also were asked "the defendant will admit that three hours after his wife's death he took her body to a lonesome spot in the woods, placed a string about her neck, and the following Saturday morning set fire to the body with kerosene. Would that prejudice you?"

The couple had been married a year.

Barr Appointed As Census Supervisor

Dr. I. E. Barr, of this city, Monday was appointed by the Department of Commerce, at Washington, as supervisor over 17 counties in this territory for the 15th decennial census of the United States, according to an Associated Press dispatch from the capital.

Counties over which Dr. Barr will have control are Kent, Cochran, Hockley, Lubbock, Crosby, Dickens, Stonehill, Yoakum, Terry, Lynn, Garza, Fisher, Gaines, Dawson, Borden, Scurry and Haskell.

Dr. Barr yesterday stated that he would appoint enumerators in each of the counties named and that each enumerator would take the census of a territory of 1,800 population.

Work on the project will start April 1, 1930 and headquarters will be located in Lubbock.

AUTO CRASH FATAL

Panhandle Fair Meet Death Near Clovis Monday

PANHANDLE, Sept. 16. (AP)—Rowena Upham, 23, daughter of the Carson county district clerk, and Earl Black of Panhandle were killed in an automobile accident near Clovis, N. M., today. Mrs. Earl Black is not expected to live and George Crossman was seriously hurt. The party was returning from an automobile trip at the time of the accident.

Defense Rests In Trial Of Rebecca Rogers Monday

Technical Testimony About Alleged Insanity Of "Co-Ed Bandit" Concluded At New Braunfels Trial

Alienists Testify

Testimony Of Physician In Three Previous Trials Is Read Into Evidence By Counsel For Defense

(By Associated Press)
NEW BRAUNFELS, Sept. 16.—Technical testimony regarding insanity was completed today in the trial here of Mrs. Rebecca Bradley Rogers and the defense rested.

Introduction of rebuttal testimony was started.

Counsel for the former University of Texas co-ed, charged with robbing the Farmers National bank of Buda, Texas, of \$1,000 in 1926, closed by reading into the records testimony of Dr. Livingston Anderson, Corpus Christi, Texas, mental expert, given in one of the defendant's three other trials in connection with the holdup. The manuscript held Mrs. Rogers was mentally unbalanced.

Former Records Used
The physician was to have testified in person but when he failed to arrive in court Otis Rogers, leader of the defense and husband of the defendant, agreed to allow the expert's testimony of the former trial be placed into the records. Dr. Anderson was in court Saturday, and it was believed he had become

Firemen Overcome In Portland Fire

Damage Expected To Exceed \$400,000 In Warehouse Blaze On Waterfront Of City Late Monday

(By Associated Press)
PORTLAND, Maine, Sept. 16.—Eight firemen were overcome by smoke, and damage that may exceed \$400,000, caused late today by a fire which destroyed a huge sulphur warehouse on Portland's waterfront and required the combined efforts of seven fire departments to control.

The Collier Plymouth of Boston was cut loose from the burning wharf with its superstructure and stern ablaze as flames curled out from under wharf pilings and billowed into high wooden runways used for transporting sulphur and coal from ship to shore.

Prevented from leaving the ship by threatening hose noosed at officers, members of the Collier's crew, composed mostly of negroes, cut the craft loose as flames curled around its hull and then cast themselves into the harbor.

Best In Rescue
Captain H. M. Morrison, of Small Point, drove his 26-foot fishing boat so close to the blazing wharf to rescue those who had jumped overboard that one arm was burned severely.

Tonight firemen had confined the fire to the destroyed warehouse and stood by to prevent its spread. Heavy clouds of sulphur smoke continued to roll over the waterfront. As the flames fed on 1,000 tons of the yellow mineral stored in a long pocket on the wharf.

Cause of the blaze was undetermined.

MAY VISIT TEXAS

WASHINGTON, Sept. 16. (AP)—The possibility has developed that President Hoover may visit Texas this fall after all.

Lubbock High School Band Lays Plans For Most Successful Season; New Officials Are Elected

PLANS for one of the most successful seasons in the history of the Lubbock high school band were laid at a meeting of the organization over the week-end. Election of officers held the center of interest and U. V. Blake was named to head the organization for the 1929-30 school year.

Other officers elected included Allen J. Dykes, vice-president and publicity manager; Hall Hillton, business manager; Hazel Fort, secretary-treasurer; and Don Abel, drum major.

Expect Best Band
"We expect to have one of the best bands this year to represent the high school and Lub-

Her Baby Not "Act Of God"

Birth of a baby is not an "act of God." So ruled Actors' Equity association in ordering Jed Harris, producer, to pay the salaries of six actors who were thrown out of work two weeks ahead of time when

the play "Coquette" was closed in Los Angeles because Helen Hayes, above, featured star, expected birth of a child. Miss Hayes is the wife of Charles MacArthur, playwright.

Tech College Admission Sought By Total Of 889 New Students This Year

First Faculty Meet Held At College On Monday

REPORTS at the first faculty meeting of Texas Technological college for the coming year, indicated that 889 new students have sent in records asking for admission and that of this number 200 are transfers from other colleges. The meeting was held in room 302 of the administration building at 3 o'clock.

Practically all of the 125 members were present.

A short talk by Dr. Paul W. Horn, president of the college, was the feature of the meeting. Dr. Horn took as his subject "The Indirect Educational Influence of the College."

Reports were heard from committees on registration, schedule, entrance examinations, artists course and athletics. Announcement was made inviting all present to the faculty reception, to be held tonight from 8 to 10 o'clock at the home of the president.

Preceding the meeting the following new members of the faculty were introduced: Miss Mildred Burch, department of biology; M. E. Ogden, department of government; C. C. Perryman, engineering; Dr. A. B. Cunningham, English; Dr. Oscar H. Kinchen, history; Dr. W. C. Holden, history; Miss Jean Dorrell, home economics; Dr. Hervey C. Hicks, mathematics; Dr. Nat Edmondson, mathematics; Charles C. DeBeauvoir, Bible; and W. T. Gaston, business manager.

Flames Take Toll Of Life, Property

Rancher Burns To Death As Forest Fires Sweep Vast Section Of Northwest; Three Others Injured

(By Associated Press)
PORTLAND, Ore., Sept. 16.—Death and destruction rode rampant today on two vast waves of flames in Oregon and Washington.

Philip Rowe, 65, a rancher, was burned to death in the Bell Mountain fire, 30 miles northeast of Vancouver, Wash., and his wife and son seriously injured in a fire that destroyed their homes. Mrs. Fred Dudley was severely burned when her ranch near Sky, Washington, was destroyed.

Forty miles southeast of Portland, in the Mount Hood National Forest, 19,000 acres were burned over, at least five residences destroyed and a hotel and two school houses reduced to ashes in fires that started a week ago.

Only a fortunate change in the wind saved the city of Estacada, 35 miles southeast of Portland from destruction. A terrific wall of flames ten miles across bore down upon the town and had advanced to within five miles of it before the wind slackened and permitted fire fighters to take a fresh stand.

In Clark county, Washington, a fire in the Yakolt area imperiled the once busy lumbering town and drove more than 200 residents from their homes. Those fighting the fire sent out an appeal for the assistance of the 900 army troops stationed at Vancouver barracks. The situation, residents said, was beyond their control.

Hundreds Attend Funeral Service For J. A. Holmes

Borger's Hectic History, Marked By More Than 20 Murders, Reaches Climax In Burial Of Gun Victim

Masons In Charge

District Attorney, Killed From Ambush By Unknown Assassin, Is Cousin Of Lubbock Woman

(By Associated Press)
PANHANDEL, Sept. 16.—Calling upon all citizens who believe in law and order to carry on the fight against lawlessness in Borger, Clifford Brawley, 31st district attorney of Pampa today stood at the grave of District John A. Holmes, of Borger, shot down by a gunman Friday night, and paid the slain prosecutor a ringing eulogy.

Brawley, a close personal friend of Holmes, declared that the "killing was a challenge to all who believe in law and order to continue the work which Holmes fought and died for." Brawley has taken charge of Holmes' office temporarily until the vacancy can be filled.

Funeral Impressive
Brawley's speech followed an impressive funeral which started at Borger, 25 miles north of here. More than 100 automobile loads of mourners joined the cortege which moved from Borger to the first Baptist church here where the Masonic order took charge. More than 200 people were unable to find space in the church and were forced

Indictment With Six Fraud Counts Facing Waggoner

Small Town Banker Billed By Federal Grand Jury For Alleged Swindle Of Half Million Dollars

(By Associated Press)
NEW YORK, Sept. 16.—An indictment, containing six counts and charging mail fraud, was returned against Charles D. Waggoner, president of the Bank of Telluride, Colo., today by a federal grand jury probing the method by which Waggoner fraudulently obtained \$300,000 credit in six New York banks.

All of the counts relate to specific use of the mails by Waggoner.

The indictment alleges Waggoner and "others" to the grand jury "unknown" hatched the scheme "on or about May 1."

The indictments show how Waggoner—small town banker, allegedly laid his scheme and carried it through to the embarrassment of six of the big banks of the country.

Waggoner made the first move in his plan late in May, the grand jury found, by writing the Chase National bank here that he might need \$200,000 in large bills in the near future and asking advice on how to identify himself if he called for the money. This was given. Then a month later he again wrote the bank, saying that a mining deal was pending which would necessitate his presence in New York within 30 or 40 days and that he would require \$200,000 in cash.

Only a fortunate change in the wind saved the city of Estacada, 35 miles southeast of Portland from destruction. A terrific wall of flames ten miles across bore down upon the town and had advanced to within five miles of it before the wind slackened and permitted fire fighters to take a fresh stand.

In Clark county, Washington, a fire in the Yakolt area imperiled the once busy lumbering town and drove more than 200 residents from their homes. Those fighting the fire sent out an appeal for the assistance of the 900 army troops stationed at Vancouver barracks. The situation, residents said, was beyond their control.

Threatening Rain Fails To Arrive

Comparatively clear skies at a late hour last night indicated that additional moisture in Lubbock and immediate vicinity would be held off, though prospects early in the afternoon promised a light yield. Rainfall Sunday shortly before midnight in the city registered .15 of an inch, while rains in varying degrees were recorded over portions of the South Plains.

Pampa reported the heaviest fall, four miles north of that city, where a cloudburst was said to have inundated roads. One road north of that city is reported to have been under two feet of water in some places Sunday night. Two inches of moisture was recorded in Pampa.

General Rain Reported
Amarillo, Hereford, Tulia, Plainview, Amarillo, Sudan, Littlefield and Clovis, N. M., reported precipitation ranging from one-fourth to two inches. A two-inch rain fell at Sudan.

Snyder reported a generous rain Sunday night and an added offering Monday morning.

Robbery Of Local Man With Deadly Weapon Is Charge

Defense Attorneys Declare Testimony Will Be Brief And Case Expected To Go To Jury Tomorrow Today

Trials Of Two Men Severed By Judge Smith; Victim Of Alleged Attack Not Completely Recovered

(Special To The Avalanche)
BIG SPRING, Sept. 16.—The jury to try S. J. Covington, Kentucky youth, who, with his brother, J. J. Covington, is charged with robbery with a deadly weapon of W. G. Coleman of Lubbock, was completed in Judge Fritz R. Smith's district court here today.

Defense attorneys, appointed by the court, indicated testimony would be brief and predicted the case would be given the jury Tuesday.

Trials Severed
Application for severance of the trials of the pair, who were indicted jointly was granted when the case was called this morning. James T. Brooks and Tracy T. Smith, sons of the presiding judge, represent Covington. They were chosen from the ranks of the local bar by drawing names from a hat.

The indictment charges the Covingtons, who said they had been working in the oil fields west of here and were returning to their home, with beating Coleman into insensibility, robbing him of approximately \$50 and leaving his unconscious form on the Texas and Pacific tracks near Coahoma the night of June 2.

Surprises Sprung In Pantages Case

Three New Developments In Murder Trial Of Theatre Magnate's Wife Enliven Activity Monday

(By Associated Press)
LOS ANGELES, Sept. 16.—Three surprising developments enlivened the second degree murder trial of Mrs. Alexander Pantages here today. The wife of the wealthy theatre owner is charged with responsibility for the death of Juro Rokomoto, Japanese, in an automobile collision here last June 16 and with driving while intoxicated.

The first two actions which created a furore among the opposing counsel as well as in the crowded court room, came immediately after court convened this morning. This had been delayed for a conference in the court room during which Chief Prosecutor James P. Costello announced that a "surprise" witness would be called who had told him of acting as "go between" for a defense witness, John Contorno, and Alexander Pantages, millionaire husband of the woman on trial. Costello said this witness, Jack B. Yellin had reported that Contorno

Fifteen Women's Societies Represented At Meeting

Local Club Women To Hear Of Plans For Inviting Texas Federation To Have Convention In City Next Year

Mrs. J. V. Conner Chairman
Of Temporary Committee
Composed Of Representatives
From Societies

Representatives of fifteen women's clubs in Lubbock met yesterday afternoon in the interest of bringing the Texas Federation of Women's Clubs to Lubbock in the annual fall convention next year.

The meeting was in the chamber of commerce rooms and was called by A. B. Davis, secretary, and Mrs. J. V. Conner.

While plans have been underway for several months to bring the convention here, a formal invitation is to be framed and offered at the Federation convention in Mineral Wells in November of this year. This invitation was discussed at the meeting and the club representatives at the meeting are to report the proceedings to their individual clubs during the next week.

Club To Visit

Club members upon the proceedings and a general meeting will be held again on the first Monday in October to perfect plans for extending the invitation. It was announced following yesterday's session.

Mrs. Conner was elected temporary chairman with Mrs. C. J. Hendon as secretary.

Clubs were represented at the meeting Monday as follows: Twentieth Century club, Mrs. J. S. Johnson; Junior Twentieth Century club, Mrs. O. L. Peterson; City Federation, Mrs. M. R. Murfee; Athenaeum club, Mrs. R. G. Shelton; Daletch Delphian, Mrs. Arthur L. Brown; American Legion Auxiliary, Mrs. H. T. Kimbro; New Era Study club, Mrs. R. H. Martin; What to Read club, Mrs. Lila Gibson; Business and Professional Women's club, Mrs. C. L. Hale; Lu Beta Delphian, Mrs. R. S. Rodgers; American Association of University Women, Mrs. William Dugan; Sorosis, Mrs. C. B. Powell; County Federation, Mrs. Vera Murfee; Music club, Mrs. Stuchard L. Douglas.

Out-Of-Town Man Meets Local Folk

Mrs. A. R. Hendricks Entertain Honoring C. L. Keithley With Bridge In Their Home

Mrs. A. R. Hendricks, 2210 16th street, entertained Friday evening in their home with a bridge party naming as their honor guest Mrs. Hendricks' brother, C. Leon Keithley, who is enrolled in the United States Naval Academy at Annapolis, Md., and who has been visiting here.

Mrs. Hendricks was assisted in entertaining by Mrs. G. E. McCelvey and Miss Donna Vaughn.

High scores in the games were made by Mrs. Vaughn and Weidon Hankins. Consolation favor went to Jess Lockhart.

Other guests included Misses Anna Spica, Gail Quinn, Geraldine Smith, Helen Womack, Ann and Mary Snyder, Clio Hendricks, Arthur Burnett, Percy Walker, J. C. Alexander, Frank Wright and C. C. Hoffman.

GROUP EXPECTED

Methodist S. S. Workers To Conduct School Here

Three representatives from the Sunday school board of the Methodist church, Nashville, Tenn., are to be at the First Methodist church here on Wednesday and Thursday and will conduct a Sunday school institute, according to announcements made yesterday.

Names of the representatives are not known here according to H. W. Richardson, who has received notification of their arrival. These board members are stopping in three points in the Northwest Texas Methodist conference he said, at Amarillo, Lubbock and Abilene.

PROGRAM HEARD

Asbury Methodist Women In Meeting Yesterday

A program was heard from "The Missionary Voice" yesterday afternoon when the Asbury Methodist Women's Missionary society met with Mrs. G. P. McCollum and talks were made by Mrs. McCollum and Mrs. L. H. Brown. Mrs. W. F. Bond conducted the devotional program.

Mrs. J. T. Pace was received as a new member and Mrs. W. T. Blevins was a visitor. There was a large attendance at the meeting.

UNIT IN MEETING

Methodist Women Meet In Business Session

A business meeting of District 2 in the First Methodist Women's Missionary society was conducted yesterday afternoon in the home of Mrs. R. C. Odum, 1812 18th street. Ten members were present.

Hundreds Of American Feminists Find Real Success As Manufacturers

BY JULIA BLANSFORD
NEA Service Writer

NEW YORK, Sept. 16.—Success stories are written daily about women who have been given positions of authority in business houses.

But the public in general has little idea of the hundreds of unpublished women who are making good in manufacturing. Increasing numbers of the weaker sex are running their own factories, managing the production and distributing ends and paying large income taxes to the government as proof of their financial security.

A single organization, the Exposition of Women's Arts and Industries, will have 25 successful women manufacturers listed when it opens the first week in October.

They are Real Executives. These women are not nominal heads of their organizations. They are the brains and often the brawn behind things. Some of them, to be sure, inherited their plants, as did Mrs. Martha Winstanley, maker of fine watches, but many have built their factories too. Some women married their business as did Mrs. A. A. Ansell. But since her husband's death she has put her mirror into thousands of hours of mechanical work and onto thousands of the best autos.

Many of the women in the Exposition, however, actually founded their own manufacturing plants and have watched them from their baby stage, blossom into the maturity of money-making enterprises. None of these manufacturers is a beginner. One, Nell Donnelly, who makes house dresses, has 20 years of manufacturing behind her.

The wide range of products manufactured by these women dispels the usual woman's page prejudice that only feminine things interest women.

Products Are Varied. The products run from men's neckties to improved, dry-sweeping street cleaners for advanced civic communities. Ryan's paints and varnishes have held national favor for years. Isabel Henes health shoes are shoeing the second generation of women whose work requires much standing.

There are many women whose products cater to the tastes of the elite. Beauty products are an outstanding example of this. Another type of factory product women have succeeded in is little, useful improvements that the average woman uses without appreciating their importance.

Many of these two types of articles have been invented and patented by women in the first place, then manufactured by them.

The "Why" of Her Invention. Mrs. Katherine Sunderland, successful manufacturer of an expensive hose protector, explained her invention simply.

"I had to reduce my stocking bill without having ugly, dark lines showing above the tops of my low shoes," she said. "My hose protector is the simple answer to a real need and its popularity proves that other women needed it too."

Sadie MacDonald, manufacturer of a face-lifting mask, got her idea when, as a vaudeville actress, she noticed a contrivance the Givine Sarah Bernhardt wore to improve her appearance.

Women from 25 to 90 buy it. Mrs. MacDonald states her reason for her product's success.

Invented Shirt Marker. Mrs. Blanche F. MacKenzie invented and now manufactures a patented shirt marker because as she stated it:

"My family disliked marking hems for me so heartily that I decided not to ask them to. The next time I made a frock, I rigged up a crude marker. It worked so well, I took it to a pattern maker for advice, got it, and find that other women must have felt just as I did about taxing their husbands' children."

Other women who have thriving plants include Amy Drevenstet, who has illustrated the famous "Bridge of San Luis Rey" who manufactures fancy boxes and decorative Christmas and other holiday wrappings; Mrs. Vera Stanley, who has worked out a new method of distribution for her nationally known fudge; Alice Price, who has a highly paid job to start her new large business in sportswear; Bertie R. Thornhill, of Lynchburg, Va., whose handbags are made in a factory where all the officials are women; Mrs. Sara B. de Forest, paints and varnishes; and Nina Nestor, who made and marketed her beauty products in Paris before starting in her now nationally known plant here.

CHILDREN HAVE PARTY
Misses Girard and Mullican Entertain Monday

Misses Maureen Mullican and Alma Girard entertained their Sunday school classes in the Episcopal church yesterday afternoon with a party at Miss Girard's home, 2219 16th street. The classes are in the kindergarten department of the school.

At the close of an afternoon of play the girls and boys fished for dolls and airplanes and were served refreshments.

Guests were David Buckingham, Charles and Dorothy Brown, Myrick Triplett, Clarence Westphal, Louis Gunn, Wanda Ruth Stiles, James Hooper Stiles, Mary Nancy Stiles, Yvonne Foy Louise Wilson, Will Harris Brownfield and Mrs. James Toy.

smokes to excess. In the average individual, the effect of a smoke was soothing rather than stimulating, he found.

So don't be too hopeful when you reach for and shun the cigarette and the chocolate respectively. It's your excess from the eighteen day diet from counting your calories. It isn't that simple.

They're manufacturers of widely varied products. Left to right: Mrs. Sara B. de Forest heads a company making paints and varnishes. Miss Alice Price left a high-salaried position to start a new thriving business in sportswear. Hose protectors are the products of Mrs. Catherine Sunderland's factory. Mrs. Blanche F. MacKenzie invented and manufactures a patent shirt marker.

Churches Will Aid College Freshmen

Information Booth Will Be Maintained At Tech For Freshmen Orientation At College

Churches of Lubbock are to assist this week in the freshman orientation at the Texas Technological college according to arrangements that have been made by a committee composed of representatives of several churches.

Miss Virginia McLean, of the First Presbyterian church, is chairman of the group and a booth is to be maintained Thursday, Friday and Saturday in the east lobby of the college administration building.

An adult worker and four students from each church are to be at the booth as follows: Friday morning, First Methodist church; Friday afternoon, First Baptist church; Saturday afternoon, First Christian church.

HOLD HONOR COURTS

Post, Seminole, Seagraves To Advance Scouts

Courts of honor will be held this week in three towns of the South Plains Area council, Boy Scouts of America. Rev. L. G. H. Williams, president of the organization, announced yesterday.

Mr. Williams will be assisted at the courts of honor by George Eaton, deputy Scout commissioner.

Post, Seminole and Seagraves Scouts will appear before courts Wednesday, Thursday and Friday respectively.

PLAN RALLY DAY

Methodists Are To Observe Special Sunday

The First Methodist church is preparing for Rally Day the first Sunday in October and committees in the Sunday school are working now to increase attendance in that division of the church.

COUNCIL MEETS

First Presbyterian Group Will Meet Tonight

The First Presbyterian educational council, of which Mrs. W. B. Price is chairman, is to meet this evening at the church.

TO ELECT OFFICERS

Central Ward P.T.A. Will Meet Thursday

Officers are to be elected Thursday afternoon at 3:40 o'clock when the Central Ward P.T.A. meets at the school.

Jennings Manager Of Lockview Farm

J. W. Jennings, formerly county agent of Lubbock county, has been appointed manager of the Lockview Farm, of the Anderson-Clayton company, located midway between Lockney and Plainview, according to information reaching this city Monday.

Mr. Jennings succeeds E. W. Thomas, who recently resigned to enter county agent work.

Serving in this and Randall counties for several years, Mr. Jennings went to Sugarland, where he was manager of Anderson-Clayton company's farm near there. He now will make his home in Plainview.

Mr. Jennings is a brother of Mrs. M. C. Overton, 1812 Broadway.

Mexico has announced that it will continue to issue agrarian bonds.

Wilson Drake, of Kress, is in Lubbock drugging to attend Tech this fall.

Jack Camp, of Pecos, has returned to Lubbock and will re-enter Tech this term. Camp received the scholarship offered for the best college citizen among the men at Tech college last spring. He will be a senior this year.

E. B. Fincher, of Amarillo, is the guest of Donald Boggs, 2009 17th street.

Bits Of News And Personal Mention

Miss Flora McGee, member of the English department at Texas Tech college, has returned from Amarillo where she has been visiting in her parents' home for several weeks.

Dr. and Mrs. Allan Carter and children, and Mrs. Albena Carter have returned to the city after spending their vacation in Colorado. Dr. Carter is head of the English department at Tech college.

Dr. W. N. Lemmon, 1809 Avenue O, returned yesterday from an extended trip to Chicago.

Dr. W. E. Cravens returned yesterday from a visit to Bonham.

Mr. and Mrs. T. C. Jennings Jr. and daughter, of Canyon, spent the week-end with Mr. and Mrs. C. L. Quillen and Mr. and Mrs. T. E. Buckner. Mrs. Jennings, Mrs. Quillen and Mrs. Buckner are sisters.

Miss Annah Jo Penfield, of the speech department at Texas Tech college, has returned to Lubbock after visiting her father for his last few weeks in Vernon.

L. J. Stevens, of the Priddy Lumber company at Midland, was a business visitor to Lubbock yesterday.

Dr. J. M. Lewis, pastor of the First Presbyterian church, and S. C. Watson, have gone to Clovis, N. M., where they will be in attendance at the El Paso Presbytery which convenes in that city through Thursday.

Mrs. Katherine Harper has returned to her duties at Tech college after visiting several weeks in Quanah.

Mr. and Mrs. A. W. Jackson, 2223 17th street, have as their guests Mrs. Jackson's mother, Mrs. H. E. Newcomb, her sister Mrs. Tom Butler, and Mrs. Floyd Hunt, all of Quanah. Mrs. Newcomb is to remain here for an extended visit but Mrs. Butler and her son are to return to their home within a few days, after visiting at Carlsbad, N. M.

Moody Is Talker At Convention Of I.O.O.F. Monday

Governor, Lieutenant Governor And Congressman Speak At 105th Annual Conclave At Houston

HOUSTON, Sept. 16. (AP)—Three distinguished members of the I. O. O. F., the governor and lieutenant governor of Texas and the congressman from this district, welcomed the world forces of Odd Fellowship and Rebekahism to Houston today for their 105th annual conclave.

Governor Dan Moody, Lieutenant Governor Barry Miller of Dallas, and Representative Daniel E. Barrett of Houston were the speakers.

6,000 Attend
The crowd which had arrived today was estimated at 6,000. Organizational work was completed and the clearing for the business sessions which will last throughout today. Preliminaries in the drill, literary and degree contests were conducted.

Since the Rebekah officers were elected for two year terms last year and Justice Morgan of Bowling Green, Ky., was automatically elevated from the post of deputy to that of grand sire, principal political interest centered in the election of I. O. O. F. deputy grand sire and the selection of the next convention city. A large number of delegates expressed the opinion that the next gathering would be somewhere in the Middle West, possibly at Indianapolis or Chicago.

Principles Praised
"The tenets of Odd Fellowship are broad enough to be fitted to Gentile or Jew," Governor Moody said. "If those principles were spread throughout the world we would have no tragedies such as recently occurred at the Walling Wall in Jerusalem."

Miller said he was not as proud of the members of the I. O. O. F. in Texas as he was of the state's physicians. He pointed to the boys and girls from the I. O. O. F. home at Corsicana seated on the platform and referred to the old folks at the home for the aged at Ennis as "our people."

The program was interspersed by elections sung by the girls' glee club from the Corsicana home. The boys' band from the home led the parade to the city auditorium where welcoming exercises were held.

"I Feel Like I Have A New Life Before Me", Says Woman
Mrs. Taylor Says She Suffered 30 Years When She Began Taking Orgatone—Now Feels Better In Every Way

"I am simply feeling so improved as far as my health is concerned, that I feel like I have a new life before me, since taking Orgatone," said Mrs. A. E. Taylor, residing at 1904 Jackson St., Amarillo, Texas, in her statement to the Orgatone representative.

"Yes, sir, I am feeling like a different woman and I want everybody to know it," continued Mrs. Taylor. "I have suffered with a badly disordered stomach and constipation for thirty years and one day of Orgatone has done more for me than any other medicine I have ever tried. I am I ought to know, real medicine when I have tried it as I have taken enough of it in my years of illness."

"I had been suffering for so many years with a very bad stomach and other troubles and my condition had become so bad that meals gave me no pleasure and I would get so dizzy and dizzy at times I could hardly stand on my feet. I all desire for food of any kind. The little I did eat caused me much misery in my stomach. I lost energy and all interest in everything."

"I tried every kind of medicine and did everything I knew of to do to get relief, but it got worse all the time. Orgatone has completely changed me around for me and I just find words to express my gratitude for it. I have been free of those terrible bloating and these sinking bilious attacks have left me as well as my appetite. My appetite is better and I can eat as much as I could and I relish my meals. I could thank the maker of Orgatone for placing this wonderful medicine in reach of suffering people."

Orgatone may be purchased in Lubbock at Bowers Drug Adv.

Golden Gate Suspension Bridge To Be Longest In The World; Gigantic Span To Reach 4,100 Feet And Will Cost Over Thirty Million Dollars Completed

BY W. A. WELLS

(AP Feature Service Writer)

SAN FRANCISCO, Sept. 16.—It's a long span which holds the title of the "world's longest suspension bridge" these days, but San Francisco's Golden Gate structure will have the honor for at least a time. Measuring 4,100 feet between towers, the central span will be more than 400 feet greater than that being built across the Hudson river in New York and twice as long as any other bridge ever built of this type.

Originally projected as a combination cantilever and suspension bridge, the decision to make it 100 per cent suspension was reached after the New York engineers had demonstrated the feasibility of constructing cables sufficiently strong to carry the tremendous weight.

When the state legislature authorized the forming of a bridge district and the levying of a tax for the preliminary work, \$300,000 was raised, but bonds must be voted to pay the cost of the actual construction. The central span alone will cost \$22,000,000 and the approaches about \$8,000,000 more.

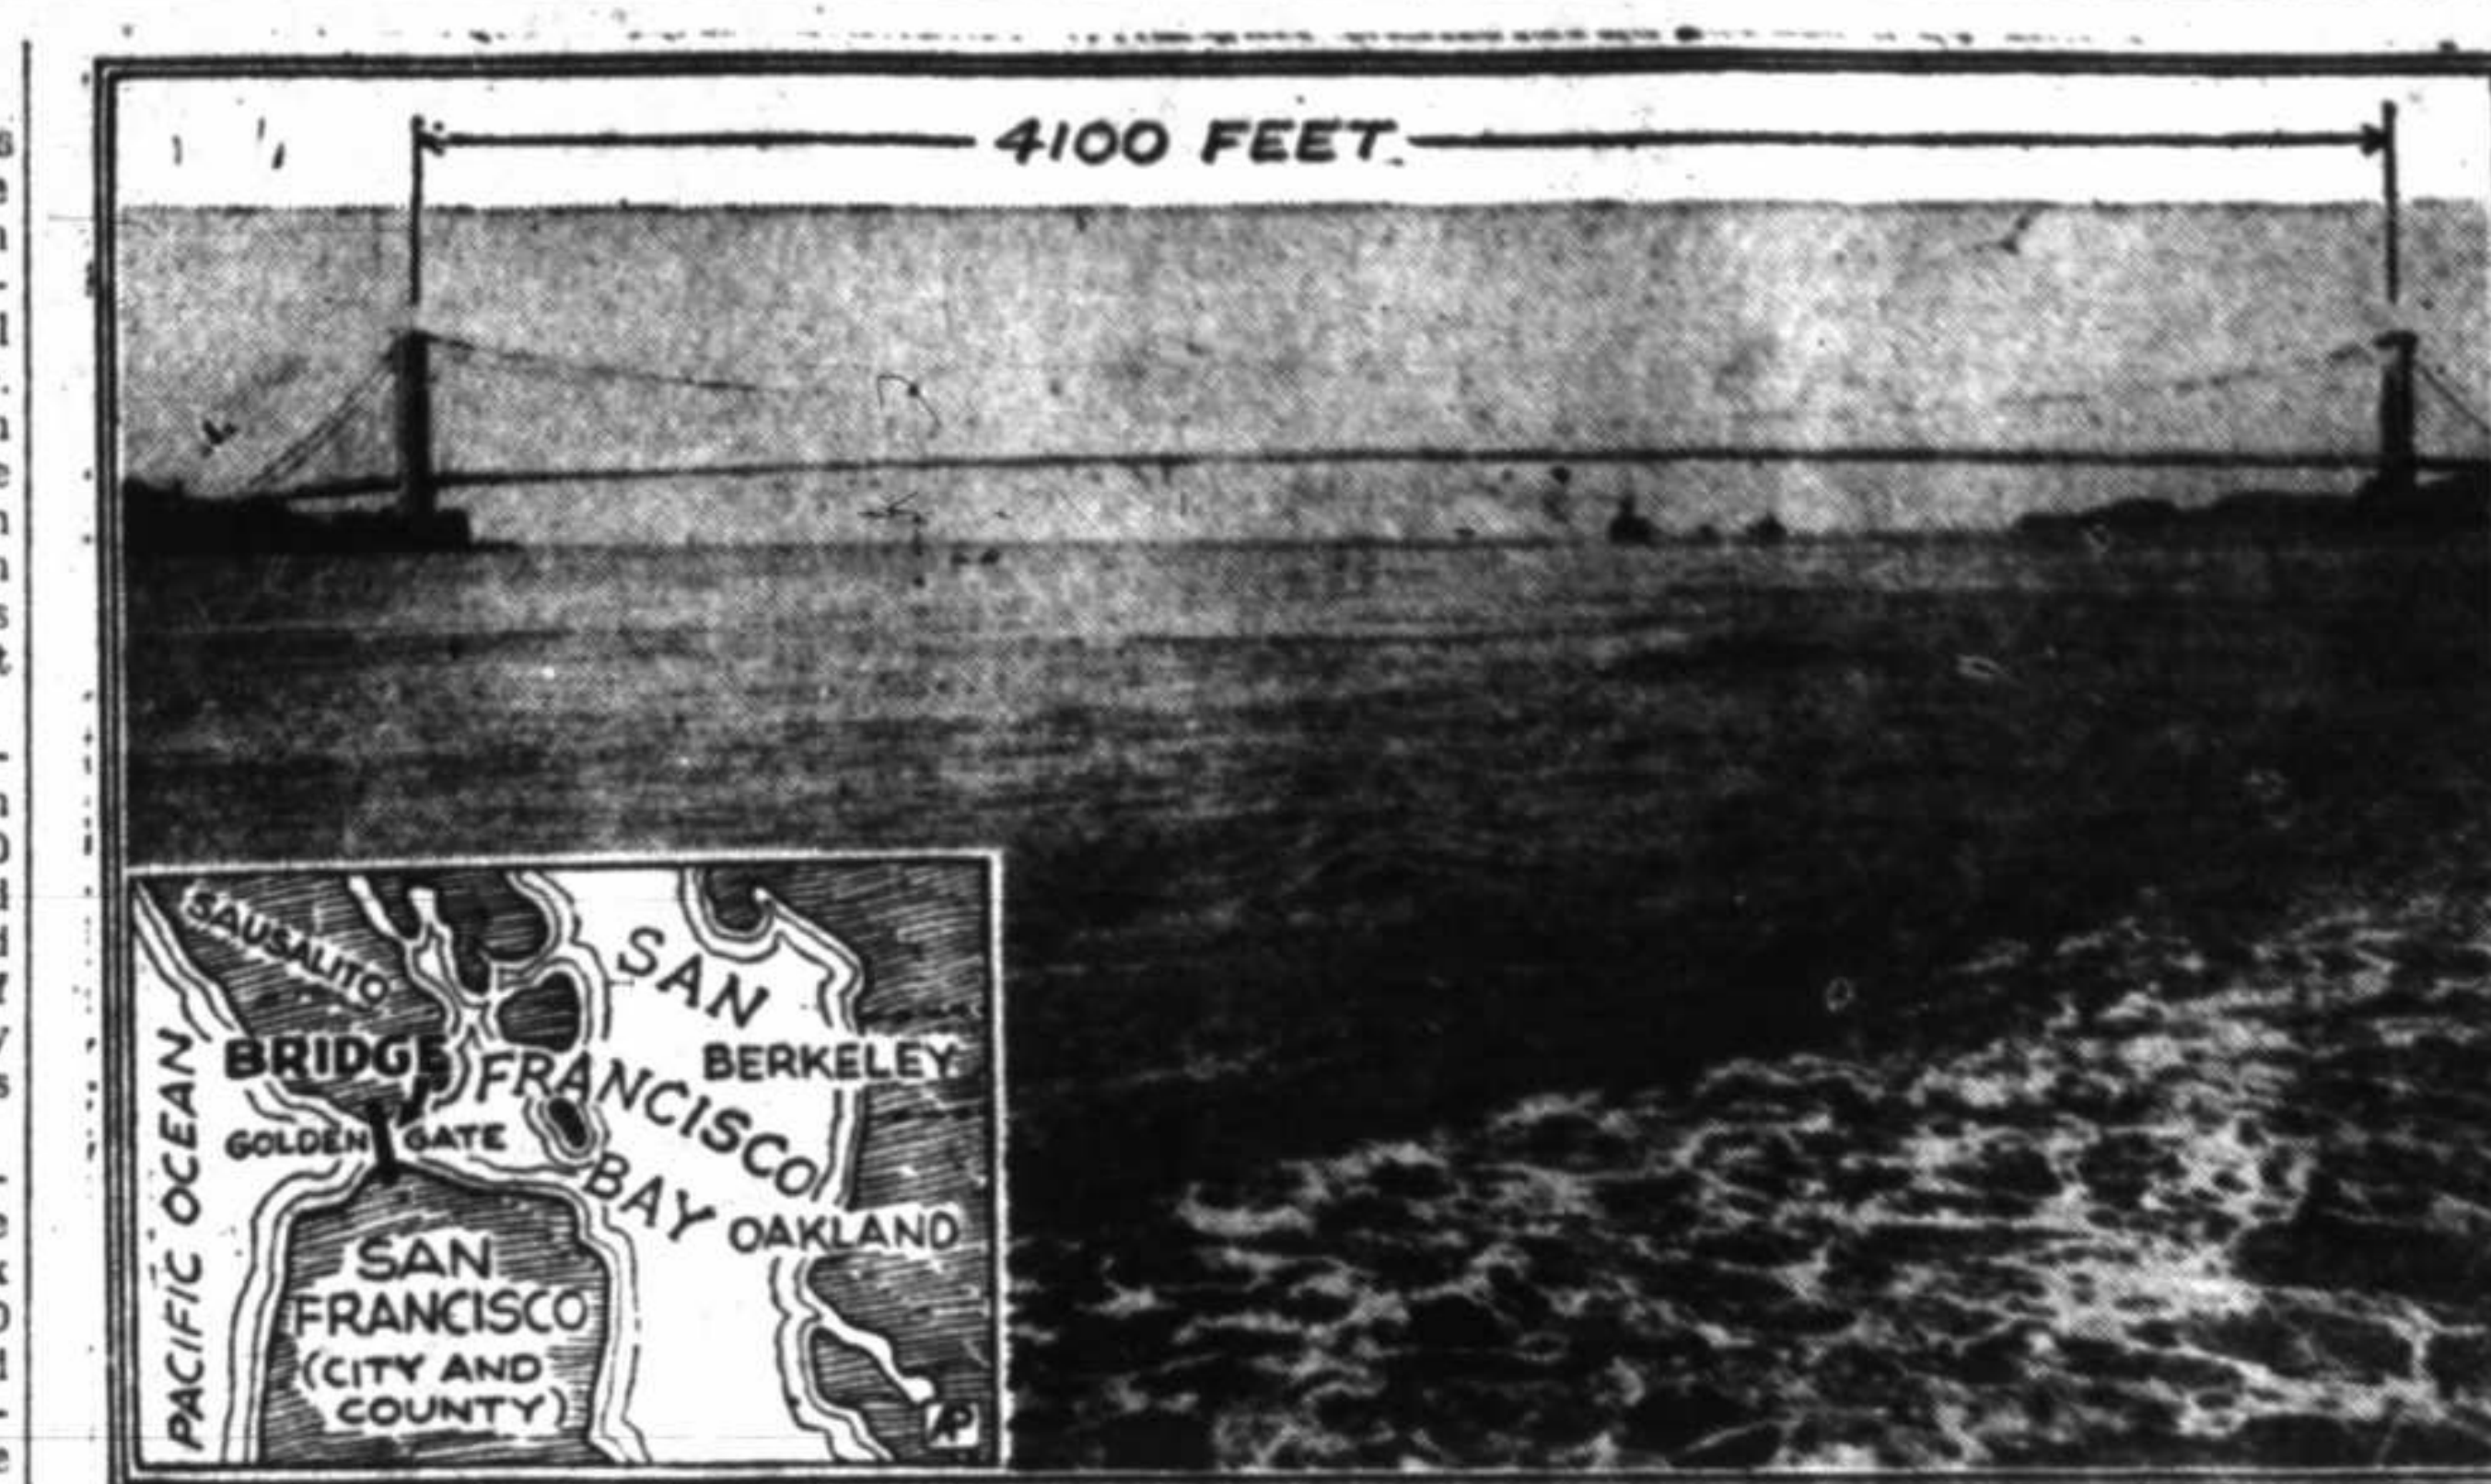

The relatively small cost of the big bridge, compared to that under way in New York and others such as the Philadelphia structure, is due in great part to the fact that the government owns the abutting property and it was not necessary to condemn a right of way for purchase. Also, there will be no lower deck, as in the case of the Hudson structure, to accommodate rail traffic.

The Golden Gate bridge will hang on cables between two towers. The cables will be built of three inch strands bound together to the thickness of three feet. The floor will be about 200 feet above the water at mean tide.

Objection of the war department

on military grounds, which was an obstacle to the construction of the San Francisco-Oakland bridge, does not lie against the proposal to span the Golden Gate. It is said, as the depth of the water, ranging from 300 to 350 feet, and the strength of the current in the gate channel would prevent the bridge's becoming a barrier to navigation even should it fail.

Two bridges, one eight miles long, already have been constructed across San Francisco bay, south of Hunter's point, and President Hoover has authorized the appointment

A bridge is planned to span San Francisco's famous Golden Gate. Although the design has not been determined, except that the bridge is to be of suspension type, the artist's conception gives a rough idea of how it may appear.

of a commission to consider the wisdom of permitting the building of the bridge to the Alameda-Oakland-Berkeley side of the bay.

OKLAHOMA BANK ROBBED
OKLAHOMA CITY, Sept. 16.—Three robbers held up and robbed the First National bank at Minco this afternoon and escaped with an undetermined amount of money. A report received here said the trio fled toward Oklahoma City in a green sedan.

PHILADELPHIA, Sept. 16.—A flight of two factious for control of the Philadelphia republican organization, held for years by Senator-elect William S. Ware, will be decided in a primary tomorrow.

SYDNEY, N. S. Sept. 16.—The escape of his schooner Bow-doin from icebergs that bore down on her on August 18, was described today by Donald B. MacMillan as the closest shave he ever had in 21 years of Arctic exploration.

The ship had left Maine and was sailing off Frobisher Bay when it was caught in heavy ice near Lockland Point. For 12 days the Bowdoin was immovable in the grip of the ice pack, although clear water was only 100 yards away.

On the twelfth night, the field ice began to break up, and the surrounding bergs began to move at about four miles an hour.

"It was a fearsome sight," Mr. MacMillan said. "The great bergs, some of them from 300 to 300 feet in height, were plowing through the field with a tremendous commotion, piling up the shattered ice and all the time coming steadily down upon us."

While the commander cautiously attempted to maneuver the ship through the loosened ice, the Bowdoin was suddenly lifted bodily and carried over on her beam ends on a large floe by pressure of the surrounding ice. Slowly, the pressure slackened and the ship slid down into open water.

After sliding by towering ice

mountains with only inches to spare, the Bowdoin swung behind a large berg and rode securely down the coast in the open water in its wake.

After refueling the ship, the party will return to Wiscasset, Maine, the starting point of the expedition.

YOUTH SUICIDES
Fifteen-Year-Old Boy Takes Poison After Quarrel

CANYON, Sept. 16.—Stewart Jennings, 15, died here last night from poison after a quarrel with his sweetheart.

Jennings was said to have turned in his school books Friday. Saturday he sent a note to a boy friend with instructions that it be opened at 10 p. m. Sunday. He died shortly after 8 p. m.

COOPER NOMINATED
Hoover Chooses New York Man For Commerce Post

WASHINGTON, Sept. 16.—William L. Cooper of New York was nominated by President Hoover today to be director of the Bureau of Foreign and Domestic Commerce in the Department of Commerce.

Cooper will succeed Julius Klein, who has become assistant secretary of the department.

Cooper is serving as commercial attaché in the foreign service of the commerce department at London.

SWITCHMAN KILLED
DALLAS, Sept. 16.—F. D. Beeson, 51, a switchman for the Cotton Belt railroad was killed be-

neath the wheels of his own train today when he and J. R. Love, another switchman were knocked from the train while it was switching.

Jury Selected In Suit Of Simpson Against Lubbock

Recovery Of \$1,745 Said To Have Been Premium On Funding Bonds Asked In Third Trial Of Case

A jury was selected and the taking of testimony started yesterday afternoon in the case of George L. Simpson versus the City of Lubbock for recovery of \$1,745, amount alleged to have been paid as premium for \$340,000 of funding bonds, charging violation of contract. Two reversals of the case have been made by upper courts. The case is being tried in the 25th district court before Judge Clark M. Mullican.

Only one witness was called to the stand at yesterday afternoon's session, this being City Secretary W. H. Rodgers. The deposition of another witness was also presented. Practically all of the afternoon was occupied in the presentation of documentary evidence and records from the city offices. No defense witness has yet appeared on the stand.

May End Today. Judge Mullican last night stated that indications were the case would occupy all of Tuesday and perhaps longer.

The case grew out of sale of \$440,000 of warrants, amount of outstanding indebtedness of the city, following the voting of \$650,000 worth of funding bonds here in April of 1927, according to Mr. Simpson's charges. The plaintiff alleges that he entered into contract May 20, 1927, with the city for purchase of the warrants at par and accrued interest, except about \$125,000, the plaintiff states.

Further, the plaintiff states that the agreement was made to the effect that he would pay such par and accrued interest, and the further sum of 1 percent on the said sum of about \$125,000 and exchange same for a like face value of such bonds at the state comptroller's office and that the defendant would repay to plaintiff at once, interest on the warrants.

Agree On Forfeit. Mr. Simpson in his pleading, agreed to forfeit \$7,500 in case of failure to comply with contract. He charges that the city later sold to J. B. Oldham and W. A. Myrick \$340,000 worth of the warrants. The plaintiff alleges that he paid a premium of \$1,745 on the above amount of warrants in order to prevent forfeiture of \$7,500 bond.

The case was appealed to the Amarillo court of civil appeals and the supreme court at Austin in each case the appeals resulted in reversals, the upper court according to attorney for the plaintiff, holding that the city of Lubbock had the right to enter into the contract and that it was the city's duty to assemble the warrants for Mr. Simpson.

E. L. Klett is representing the city in the case, while R. A. Bowder represents the plaintiff.

County Court In Session Monday

Eight-Week Term Starts With Judge Robert Bean Presiding; Appearance Docket Will Be Set Today

The Lubbock county court convened Monday for an eight-week term, before Judge Robert B. Bean, at which time the civil docket for the term was set. Appearance dockets will be set this morning, while the criminal docket probably will be set each Monday for the following week.

The third and eighth weeks have been set aside as criminal jury weeks, while the remainder will be composed of civil cases.

Civil Docket Given. The civil docket, as set Monday, follows:

First Week, September 17—Jolnick Appliance company vs. Fred Owens.

Second Week, Sept. 24—Elmo Wall vs. C. E. Parr.

Third Week—Criminal jury week.

Fourth Week, October 1—Walser and Bray vs. T. C. Calley; October 9, J. J. Richards; October 9, J. and T. Cousins vs. Max T. Morris.

Fifth Week—Criminal jury week; commissioners' court, October 13, Totten vs. Slaton Home Mutual; October 17 Johnson vs. O. C. Medlock; October 18, First National bank vs. A. A. Bratcher.

Sixth Week, October 21, Myron M. Nastrom et al. vs. Eastham; October 22, Laura Morris vs. T. C. Calley et al.; October 24, Duncan vs. Stockard; October 26, Alva Ackers vs. C. B. Powell.

Seventh Week, October 28—Commissioners' court.

Eighth Week—Criminal jury week.

Mother's Thirty-Mile Flights Carry Daughter To Colorado University; Known As "The Flying Co-Ed"

DENVER, Sept. 16.—Commencing 30 miles between her home here and the University of Colorado at Boulder, she has won for Miss Grace Joseph the title of "Flying Co-Ed."

The plane the young woman uses is that of her mother, Mrs. A. F. Joseph, who has arranged to make the trip whenever the daughter desires to spend the night at home.

Miss Joseph can rise in Denver at 7 o'clock and make an 8 o'clock class in Boulder. The Josephs live not far from the flying field here. Actual flying time is only 17 minutes.

Distribution in Lubbock and throughout the South Plains is being made of catalogs announcing the Terry Catalogue fair at Brownfield, to be held September 27-28.

Twenty-seven pages are contained in the book, outlining in detail the various departments, rules and prizes.

Has Advisory Board. Advisory board of the Terry County Fair association is composed of the following: Morgan Copeland, general chairman; Ben Hurst, Tom May, Cecil Smith, Jack Stricklin, Jim Miller, Arnett Bynum, Chris Quante, Claude Hudgens and Albert Anderson.

Superintendents Listed. Division superintendents are J. E. Shelton, general manager; Roy B. Davis, general superintendent of all exhibits; A. L. Burnett, club and community exhibits; John B. King, individual agricultural exhibits; Ray Brownfield, general superintendent of livestock; W. F. Young, dairy cattle; T. L. Verner, swine; Earl Cadenhead, beef cattle; Hugh Snodgrass, horses and mules; J. Z. Clements, poultry; G. R. Arnett, 4-H club exhibits; Mrs. W. B. Downing, canned fruits, jellies and vegetables; Mrs. S. H. Holger, textiles; Mrs. J. L. Miller, culinary; Mrs. John B. King, pot plants and cut flowers.

There will be a grand fireworks display each night and the Texas Technological college band, under direction of Harry Le Maire, will give concerts during the afternoon and night of September 28.

Claim Fair Gate Fee To Buy More. Byron Dickinson Says 50 Cents Will Go Farther In Buying Entertainment Than Ever Before

"The people of the Plains will find that their fifty cents will go farther in buying entertainment at the fair this year than it ever has before," Byron C. Dickinson, president of the Panhandle South Plains fair, said Monday.

"Fifty cents will take you to every thing on the grounds with the exception of the carnival shows," Mr. Dickinson stated. "And the word 'everything' applies to a free football game each afternoon, six vaudeville and circus acts twice daily, fireworks each night, and many other forms of special entertainment as well as all the exhibits in the agricultural building, the industrial building, the machinery building, the livestock barns, the poultry building, the women's building, and other exhibits over the grounds."

Record Expected. Many improvements this year are expected to attract a big number of new people to the fair to smash the 1928 record attendance of over 120,000 people.

"We are offering the people of West Texas a real fair for a total cost of fifty cents and we are expecting a big attendance," Mr. Dickinson said.

Wheat Selections Planted In Hale

Professor H. J. Bower To Make Scientific Study Of Rot On Wheat Roots; Heavy Loss Results

One hundred and four different selections of wheat have been planted on the farm of Dr. J. R. Stewart, 10 miles northeast of Plainview, by Prof. H. J. Bower, professor of agronomy at Texas Technological college, who returned Sunday from Hale county.

The wheat was planted as the beginning of a scientific study of root rot of wheat. This disease has been prevalent on the South Plains for the past five or six years, but no attention was called to its disastrous results until the past season, nor any effort made at combating it.

Caused Loss. This disease has caused considerable loss to wheat growers in the southern part of the Panhandle where both the planting is done early and the climate is milder.

Assisting Prof. Bower in the project was Hurley Fellows, plant pathologist of the United States department of agriculture. This department furnishes the 104 wheat varieties used in the planting.

Prepares Exhibit. Prof. Bower is preparing the Texas Technological college exhibit for the Tri-State fair at Amarillo, and expects to go to that city with the exhibit next Friday. The exhibit will contain representatives of special soils and crops of the South Plains section.

Seventy-five sound films were made in Germany in the last year.

The Netherlands now has more than 115,000 automobiles.

New "Irish Landlord" Role Of Former Governor Alfred E. Smith Appealing

BY DONALD C. BOLLES. (Feature Service Writer.) NEW YORK, Sept. 16.—The man who came up from the tenements of America's metropolis to be governor of New York and knock at the door of the White House is to be a ruler again.

An "Irish landlord" is what Alfred E. Smith calls his new role as the virtual head of a city of 60,000 persons that now is in the making but a ruler nevertheless.

It will be a unique community, a city within a city housed in a veritable citadel of brick and steel from whose topmost peaks he may look down upon the city of his birth.

Compact City. It will be a compact community whose heights will exceed its width covering only two of the most costly acres of Manhattan but threatening the clouds with its 85 stories.

A \$20,000,000 home of his new constituency is planned by the former governor as president of the Empire State Office Building corporation, which will erect the largest office building in the world. It will rise within 18 months upon the site of the world famous Waldorf-Astoria hotel on Fifth avenue.

From one who sought escape from the maelstrom of public life after a long and distinguished career, the democratic presidential candidate appears to have tackled the kind of a task in which he will find many problems with a familiar tinge.

Welfare Uppermost. As governor the welfare of his constituency was uppermost in his mind. As an "Irish landlord" the success of the gigantic business undertaking will depend much upon the same considerations: the welfare of his people. Water and electric power, finances and taxes are problems from which he finds no escape in his new role.

Announcement of his new business plan signified that the time for play was over. At 54 he has rolled up his sleeves and entered upon a place of activity in the business world.

Since his unsuccessful bid for the presidency, Mr. Smith has been leading a quiet life with his family in a comfortable suite in the Ellis hotel in New York after brief sojourns in famous vacation spots in the south and east. He has devoted his time to rest and writing working on his autobiography "Up to Now."

The bodies of Ralph Wiley, second engineer, and Captain Charles Brown were found during the week-end.

Body Identified. The first of the bodies recovered today was taken from the lake about 200 yards south of the south pier here, and the other two were found in shallow water about two and one-half miles south of here. One body was tentatively identified as that of Theodore Jorgensen of Owen, Wis. Two of the three bodies bore life preservers.

The sixth body to come ashore from the wrecked freighter was found this morning off Sunset Terrace, three and one-half miles south of here. It has not been identified.

Seventy-five sound films were made in Germany in the last year.

The Netherlands now has more than 115,000 automobiles.

Ham Closes Four Weeks Religious Campaign In City

Oklahoma City Evangelist Leaves For Kentucky As Revival Ends; Personal Offering Of \$2,300 Given

Closing a four-weeks revival campaign in this city Sunday night, Rev. M. P. Ham, of Oklahoma City, was given personal offerings for the campaign totaling \$2,300. The last collection Sunday night yielded \$900.

A total of \$7,000 was contributed during the revival as receipts for incidentals, which defrayed expenses of all departments of the revival and paid salaries of members of the Ham revival party. These aggregated \$4,700.

Off For Kentucky. The evangelist left Sunday night for Danville, Ky., where he is scheduled to open a revival.

Reviewing many of his own experiences in pointing the way for those steeped in sin, the revivalist spoke at the last service on the subject of "How Shall We Escape From Sin? Is There a Salvation?" He related how many of his converts had been transformed from sinners into the spirit of Christ.

6,000 Attend. An audience of 6,000 persons heard the closing address. All available seats were filled, while about 1,500 persons stood outside the tabernacle.

PAINT IS COSTLY U. S. Spends \$30,000 On Mail Box Painting

WASHINGTON, Sept. 16. (P.)—Hail, rain, snow and the insidious effects of salt air cost the United States postoffice department \$30,000 a year for repainting mail boxes.

Corrosion of the elements is the chief enemy to Uncle Sam's special letter receivers. They must be repainted once a year. In sea-coast towns even this vigilance fails to keep them slightly.

Brass boxes have been installed in Atlantic City and a few other coast towns, as brass is proof against salt air corrosion. Steel withstands the elements better than cast iron. Prior to 1923 the U. S. mail boxes were made of cast iron, but the larger ones now in general use in cities are made of steel.

Some years ago smokers marred mail boxes by scratching matches against them. As most smokers now carry lighters or safety matches this cause of defacement has largely disappeared.

The government still has to cope with the chronic "leaner," however.

160th Dividend

THE REGULAR quarterly dividend of \$2.25 per share will be paid on October 15, 1929, to stockholders of record at the close of business on September 20, 1929.

Public School Registration Reveals Increase. Entering the third week of the 1929-30 session, Lubbock public schools now have a total enrollment of 4,500, Supt. M. H. Duncan announced Monday.

The present registration figures show a slight increase over the corresponding date of last year. The total enrollment here is expected to exceed 5,000 by the end of the 1929-30 school year.

"— as advertised"

How many times you see those two words in the course of a day's shopping: "This article for sale—as advertised."

And those two words are as welcome as they are familiar, for they form a bond of confidence between the merchant and yourself. They are his guarantee to you of worth and value.

Here is an article that has been described in your newspaper. Its merits have been told; possibly, too, its price. You know exactly what you will get when you buy it. You know its quality, its utility; you know how it fits into your needs. And when you buy it, you know you are getting not some unproved substitute but the specified article—as represented.

It is easy to understand why that phrase, "as advertised," creates a feeling of confidence. You have learned to depend upon consistently advertised products. You know that the maker has confidence in them, else he would not spend money calling your attention to them day after day, and month after month. You know that they have been approved by the most critical of investigators—the buying public. And above all you know from experience that buying goods "as advertised" is the best investment you can make.

It pays to read the advertisements.

FIVE TEACHERS ADDED Plainview Has Increase In School Enrollment

(Special To The Avalanche) PLAINVIEW, Sept. 16.—Five teachers were added to the faculty of the Plainview schools this week following the opening last Monday when a large increase in enrollment made the addition to the faculty necessary.

Teachers selected were Miss Agner Bice, Plainview; Alma I. Peek, Sherman; Mrs. George Murphy, Plainview; Miss Jewel Shelton, of Sweetwater; Mrs. W. R. Lee, Plainview. All are for grade positions.

Free To Women

Regular \$1.00 Treatment Sent Free. Only One To Each Family

Three out of four women suffer from ovarian pain, female complaints, dragged down feeling, backache, headache, bearing down pains, flashes of heat, white, painted and irregular periods, growing prematurely old.

A marvelous new glandular treatment has been used with such results by over 20,000 women that for the next thirty days Dr. DePew offers to send a full dollar treatment, postpaid, no C.O.D., no cost, no obligation, free to every woman who writes. Only one to each family.

Dr. DePew's remedy is based on discoveries in glandular activity and apparently obtains results not possible with old methods of vegetable or mineral preparations. Women report: "I don't have any pain any more." "Am looking younger every day." "Feel like a new woman."

Dr. DePew has set aside 1,000 free treatments for this month, so be sure and write today. No matter what your age or condition, Dr. DePew is anxious that you make this remarkable test of this convenient home treatment to secure immediate relief.

Simply send name, a postcard will do, and remedy will be mailed in plain wrapper. Dr. DePew believes you will be surprised and delighted. Address: Paul St. John, exclusive distributor, 335 Main Bldg., Kansas City, Mo.—Adv.

ONE MINUTE PULPIT

Have mercy upon us, O Lord, have mercy upon us; for we are exceedingly filled with contempt. Our souls are exceedingly filled with the scornings of those that are at ease, and with contempt of the proud.—Psalm cxlii, 3, 4.

THE TRAFFIC SITUATION

When the electric traffic system was installed in Lubbock The Morning Avalanche was of the opinion that it was not essential. Now we cannot help but wonder how we ever got along without it—which is purely an admission that we were wrong in the first place.

The Morning Avalanche thinks now that we need more traffic lights. There should be one at Avenue Q and Sixteenth street, another at Main and Avenue J, Thirteenth and Avenue J, and probably at Avenue Q and Broadway. And, while on the subject, it might not be amiss to point out that sooner or later some arrangement will have to be made to better care for the streams of traffic at College avenue and Broadway, at the principal entrance to Texas Technological college.

Traffic is daily becoming more dense here. It is a subject which, from coast-to-coast, challenges the best brains in the various municipalities, and while Lubbock has been solving its problem efficiently we must expect to improve continually.

PATRIOTS FOR PROFIT

There are many honest-minded citizens who, because of their concern for national defense, do not concur with President Hoover's policy on naval construction. They fear the executive policy is detrimental to the safety of the nation, which is a legitimate reason for opposing that policy.

But there are others whose quarrel with the views of the White House on armaments is inspired by mercenary motives. They are enemies of their country and unworthy of the protection they demand. They preach naval construction for national defense but they desire it for private gain.

The Shearer suitors in the latter category a number of shipbuilders and steel manufacturers until they purge themselves of the suspicion. President Hoover is apparently more than suspicious of their guilt and public opinion seems to agree with him on the point. But it occasions neither surprise nor alarm because the public has always assumed that much of the big-navy talk was propaganda of lobbyist origin.

This skepticism is unfortunate because the people have only their naval officers to turn to for authoritative information on naval defense requirements and they are placed under the suspicion of venality. The taxpayer who asks reasonable economy and defense must discover which are the advocates of national defense and which are the advocates of mere profit for the shipbuilders and steel manufacturers and of promotion for naval officers.

TARIFF INCONSISTENCIES

Senate debate on the proposed new tariff is on, affording the first opportunity for unrestricted discussion of this radical and boundless bill.

There will be an attack. That is certain. And it will take the form of an attempt to hold the rate changes to agricultural products, as promised by the president and his party, but for several reasons the move may not prove successful and chiefly because no matter how enlightened republicans senators may be on the harm which the present tariff proposals may wreak on general business they have a special-interest in certain rates that apply to their home products.

But the effort to have the tariff restricted to limited revision of the industrial schedules still stands a good chance of success by proving from income tax returns just how unwarranted are the increases sought in so many cases.

As a third point of attack the radical change in the flexible provisions of the proposed law has been chosen. This would have competitive conditions used as the basis for fixing the rates, but have been reduced in very few instances and only on insignificant items.

Whether the affirmatives or negatives win in this senatorial debate, there is certain to be exposed to public gaze no little perfidy and deception.

SALUTING THE LADIES

The proper salutory salute for the president of the United States is 21 guns or vice president 19. How many guns should be fired for a congressman? The right answer is none. And how many for a congressman? Same answer.

But Representatives Edith Nourse Rogers and Ruth Bryan Owen have just demonstrated anew that every rule has its exceptions—especially where women are concerned. Both have been accorded official salutes at army posts, and it is too late to take them back. The reverberations are still echoing somewhere in the vast uncharted spaces of the universe, even though the shots, unlike those of the Minute Men, were not heard around the world.

There is an old rule, it seems, that senators and representatives traveling officially on government vessels are regarded as ranking, respectively, with major generals and brigadier generals for purposes of assignment to staterooms and places at table. The commander of a military post, misled by this tradition, accorded to Mrs. Rogers the honor of a brigadier general's salute of eleven guns. Hearing of this precedent, the commander of a Florida post playing host to Mrs. Owen ordered that she receive a similar honor, and there was a brief celebration which sounded like the Fourth of July.

The war department, after learning what all the shooting was about, has made it known that the army is not authorized to burn powder in honor of any member of congress, though a committee on official business is entitled to have a few guns shot off. But the ruling comes too late. The cannon have thundered for two feminine members of congress—eleven distinct bangs for each—and no brigadier general in all his glory could ask for more.

It also takes two to make a trade as well as a quarrel. If there are no buyers there will soon be no sellers.

Yancy is willing to pay off those war debts. He will never who blame us for lending her money.

On the Firing Line at the Nation's Capital

ARKANSAS SENATOR DISCUSSES REMARKS THAT AMERICA IS NOT AS PROSPEROUS AS IT THINKS IT IS OR OUGHT TO BE

BY CHARLES F. STEWART
Central Press Staff Writer

WASHINGTON, Sept. 16. — Not as prosperous as we think we are?—and ought to be.

Prof. T. E. Gregory, of the London School of Economics, recently denied that we are. "With America's enormous natural resources," quoth he, "the miracle is not that you are so well off, but that you are not vastly better off."

Senator Thaddeus H. Caraway, of Arkansas, pondered the learned Briton's utterance for a long moment before expressing himself concerning it.

Then, "Of all the criticisms of the American people that I never did expect to hear," he observed, "I certainly least expected to hear that particular one."

"I am no economist, to be sure," admitted the senator, "but I surely would have given it as my lay opinion that this nation has developed material prosperity up to the maximum, if ever a nation did, anywhere on earth, in all history."

"At the expense of all the finer things of life? Oh, of course. At the expense of the spiritual? Absolutely. At the expense of everything—except the piling up of wealth. No doubt about it. What do our colleges teach? Culture? Breadth of vision? The wisdom of the ages? Not a bit of it. They teach us how to make money."

"But, Professor Gregory to the contrary, I do think that we have learned that lesson thoroughly—yes, and that we have put it into practice—that, having made no end of money already, we are in a fair way to make all there is of it."

"It is that that I would worry about, if I were a British economist."

Some folk suggest that we are over-extended—over installations on too many of the modern conveniences we revel in—our automobiles, our homes as a secondary consideration, our furniture, our radio sets, our electric refrigerators and vacuum cleaners and washing machines, the clothes we wear, the very dental work we chew with.

Is it prosperity to be in pawn thus—even for such luxuries as bygone royalty never dreamed of?

"Only a foundation of genuine prosperity," answered the senator, "could support so gigantic a superstructure of credit. The superstructure of the foundation that it rests on."

"The federal reserve board has tested it, too—tried hard to shake it. Solid."

How long will it last?

"It appears to be permanent," said the Arkansas senator.

"Understand me," he added, "I speak of the country as unprecedently prosperous—not everyone in it."

"Our prosperity is not very equitably distributed. Agriculture is not prosperous. The farmers produce enough. It entitles them to be prosperous. But most of what they produce is taken away from them. Still, those who take it become more prosperous, just in proportion as the farmers become less so. It all stays in the country."

Nevertheless, not so good!—for agriculture, anyway—at least according to Senator Caraway. But the new farm board will speedily remedy the situation—what?

The senator laughed sardonically. "The identical element which is now feeding on agriculture," he asked, "will it do anything to stop itself from feeding? No. No. It will continue to feed, while it has the power, until nothing but a dry bone remains."

HORRORS! The poor farmers! "They had their chance," rejoined the Arkansas senator, "and spent it on religion—and in piling up a big majority for the side that Mrs. Mable Walker Wilderbrandt describes as prohibition's enemy."

No need to inquire as to Senator Caraway's politics.

Your Health

FRUIT IS HIGHLY ESSENTIAL TO ANY WELL-BALANCED DIET

EDITOR'S NOTE: Here is another article in the "Know Your Food Values," by Dr. Morris Fishbein.

BY DR. MORRIS FISHBEIN
Editor Journal of the American Medical Association and of Hygiene, the Health Magazine

The fruit growers have aided the physicians in recent years in educating the public as to the value of fresh fruits, cooked fruits and prepared fruits in the diet.

The fruits go a long way to supplement bread, meat, cereals and even vegetables. They provide bulk and aid movements of the intestines, they yield vitamins and valuable salts and they have considerable caloric value.

An apple yields 100 calories, some iron and some vitamins A, B and C. It is quite rich in carbohydrate but relatively poor, about one-fourth as good as the poorer vegetables, in protein. A large banana also gives about 100 calories and some iron and vitamins and it contains about twice as much protein relatively as the apple, but about the same amount of carbohydrate.

It takes a whole cantaloupe to give 100 calories and cantaloupe appears on most reducing diets for that reason. It is filling without high caloric value. Dates and figs have laxative qualities, they are rich in protein and carbohydrate. Three dates or one and one-half figs will give 100 calories. Pears and peaches are about like apples, but they usually have calcium and phosphorus that the apple does not so often provide. The orange has calcium and iron and plenty of vitamins A, B and C, and one orange gives 100 calories.

It takes three or four plums or prunes to give 100 calories. They are helpful for their laxative quality. They have calcium and iron and the prune is known to provide vitamins B and C. A cup of raspberries or strawberries will provide 100 calories. It will have calcium, phosphorus and iron, and will be helpful for vitamins B and C. All of the fruit juices help the reaction of the body toward an alkaline point which is valuable for health.

The watermelon is rightly named. A two-inch slice of watermelon weighs 800 grams or about one and three-quarters pounds. Of this there will be two grams protein, one gram fat and 22 grams carbohydrate. The caloric value of the whole thing will be 100 calories. There will be some iron and some vitamins A, B and C. The rest is water.

"I wish," said the earnest editor, "you'd take this article clarifying the Russian-Chinese situation and write an article clarifying it."

Team Work—But Not The Way He Expected

Anniversary Notes

CONSTITUTION SIGNED

The convention of delegates from 12 of the 13 states in the Union signed the Constitution of the United States on Sept. 17, 1787.

Rhode Island alone was unrepresented at the convention sessions in Independence Hall, Philadelphia, under President Washington. Four months' work was required to complete the Constitution, with the exception of the amendments, in the form in which we have it today.

The delegates work was promptly approved by Congress and at the close of the following year had been adopted by 11 of the states and placed in operation among them.

The other two states, North Carolina and Rhode Island, ratified the Constitution and entered into the American Union in 1789 and 1790, respectively.

The Constitution replaced the Articles of Confederation by which the ill-fated union of the 13 original states was held together from 1779 to 1789. The articles vested no real authority in the common representatives of the several commonwealths.

LOWRY GIVEN POST

EL PASO, Sept. 16. (AP)—The appointment of Col. R. C. Lowry, United States reserve, as general traffic manager of the Corporation Aeronautica de Transportes, was announced here tonight by Theodore T. Hull of Los Angeles, president.

TEN MINERS KILLED

BELGRADE, Jugoslavia, Sept. 16. (AP)—Ten miners were known to have been killed and many seriously injured in an explosion in a coal mine today at Ritalj near Zajecar, on the Bulgarian frontier.

W. H. Graham, of Farwell, spent yesterday in Lubbock on business.

Today's Poem

SINCERITY

I know you "I" not so strong, my friends,
But yet—neither am I.
Nor do we find in average men
All "Virtue" might imply.
It matters naught if you distrust
The truth I've written here;
The vital thing to both of us
Is that you be sincere.The greatest sin, O friend of mine,
To me it does appear
Committed daily by mankind
Is being insincere.
I care not who you may believe
Nor how absurd it seems
So long as you do not deceive
Yourself about these things.If through my words or friendly
deeds
I glorify your day—
If I anticipate your needs
And drop a rueful way—
And if you come to me and say:
"I'll prove my loyalty,"
I'll answer you the same always:
"Then be sincere with me."I know your faults, realize your
weakness—
Because—the same have I.
I do not judge you by my creeds
Nor ask you to comply.
I do not care to moralize.
I have but this thought left:
You know who pays when you "I"
unsway.So be true to yourself.
—Roe Gainer, Slaton.

FALLS TO DEATH

LAREDO, Sept. 16. (AP)—Falling from an old rig near Hebbronville, J. M. Simmons, 28, a native of Mississippi, was killed today. His skull was crushed.

Bird life in London is decreasing, rooks, jackdaws and other species having left Kensington because of the impossibility of obtaining food there.

Quotations Of Real Merit

"Being honest is simply showing proper consideration for the property of others, whether it be time, money or goods"—L. A. Downs, president Illinois Central Railroad.

"The influence of money is paramount in the American churches. Nothing can be done without it. People say, 'That is the great Mr. So-and-so's church' rather than 'That is St. Mary's.' As the case may be"—Herbert Parrish, American Mercury.

"The economic independence of the modern girl has made her look on marriage as a partnership about which she talks as freely as she does about any other calling which may attract her"—Mary Dunning and Charles Franklin Thwing (Review of Reviews).

"Favorable is the only thing well taught on our campuses today"—Hamilton Holt (Forum).

"The obstacles of being rich are two: the trouble of saving and the trouble of finding a medium for investment"—John J. Raskob (Ladies Home Journal).

"The things that pinch the conscience of the man of the world are his miscalculations and his gauds, not his premeditated crookedness"—Rev. Dean Inge (North American Review).

BEER BRIBERY TRICK

Pro Agents "Hush Money" Interests Britons

OXFORD, England, Sept. 16. (AP)—Bribery of prohibition agents in the United States is a subject that never grows stale in British newspapers, but Englishmen have become so accustomed to reading about it that it no longer startles them.

Now, however, comes a member of the newly appointed British commission to investigate the liquor traffic and divulges the disquieting news that there is a relation between beer and bribery, even in England.

There are brewery salesmen, B. T. Hall of the commission told an audience here, who do not hesitate to bribe the refreshment committee of a workmen's club.

The club members want their beer, and they want good beer, and they leave it to the committee to buy good beer. Then enters an unscrupulous brewery salesman and tactfully leaves a one pound note with the committee, confidently expecting it to favor his brand of beer over the output of more upright and probably more capable breweries.

"It is this sort of thing," said Hall, "that brings democracy into contempt."

Fifteen Injured In Sewer Blasts

NEWBURG, N. Y., Sept. 16. (AP)—Fifteen persons were hurt, one probably fatally, in a series of explosions and fires originating in a sewer in Water street here today.

Two men and two women, employees at the book store of William S. Greene, were missing an hour after the blast, and firemen were searching the ruins of the building in the belief they had been burned in the wreckage.

AIRPORT APPROVED
McAllen, Tex., Sept. 16. (AP)—Voters of McAllen today endorsed a proposal by the city commission that 181 acres northwest of town be obtained for a municipal airport.

The Innocent Cheat

By Ruth Dewey Owens
AUTHOR OF "RICH GIRL—POOR GIRL," ETC.THIS HAS HAPPENED
HELEN PAGE feels unhappy when the girls at the boarding school tease her about giving up dancing and parties and being Miss Simplicity just to please her handsome guardian, LEONARD BRENT, with whom they "accuse" her of being in love. And her roommate calls her a fool after they see him at the Ritz one day with another woman.

Realizing her school-girl infatuation for him, Brent exacts her promise to do anything he asks her to, and says he will tell her about her parentage after she graduates.

One day Brent spies a gold locket on a beggar who has fallen in an alley. He bends over to take the locket and hears mumbled words which cause him to try to save the old man. But he dies before Brent can verify any dates or facts except that his name is CHARLES OWENS NELLIN; that his wife is dead and that he has hidden his daughter from her wealthy grandfather, CYRIL K. CUNNINGHAM, of Yonkers.

Posing as a newspaper man searching for a story, material Brent learns much about the history and habits of the eccentric old millionaire from the corner store gossip who tells him that the daughter had eloped with Nellin and the father had disinherited her. He had heard that the mother was dead but did not know where the child Evangeline was.

NOW GO ON WITH THE STORY CHAPTER VIII

Brent regarded the lodging house proprietor with avid interest.

"No," he said, in response to the man's statement that Nellin or Owens, as he knew him, would not again frequent his sleeping place. "Has anything serious happened?"

"Oh, not so very. The old fellow's better off. You'll find him down at the morgue."

Brent was not prepared for this and plainly showed his surprise in his expression, but he thought fast before speaking and his voice was level, almost cold, when he said: "Well, no doubt he was not the man I'm looking for, and after all, it's not of any great importance. Just an old fellow I'm interested in. Sorry to have troubled you."

"No trouble at all," the other assured him.

"So," Brent reflected on his way back to his hotel. "Nellin was using his middle name, Owens. Lucky break for me."

He did not feel that it was necessary to go to the morgue and have a look at Owens' body but on second thought he decided it was better to do so rather than leave the matter as one untended.

And when he had viewed the body and allayed all doubt that Owens was indeed Charles Nellin he felt in his mind, felt that his plans were strengthened by the permanent removal of Nellin. There was scarcely a chance now, that Cunningham or his attorney, Greaves, would learn of Nellin's death.

There had been a few things more that he wanted to know about the Cunningham heiress and the musician. But he satisfied himself by refreshing his memory with the tale Nellin had told him the night before.

Out of the morgue, and breathing much easier, he put down a note or two of major interest and trusted the rest to memory. The age of the Nellin offspring fitted splendidly into his scheme. A year younger than Helen. No need to jot it down.

And fortunately, from all he could learn, Cunningham was not in possession of precise information concerning the birth of the child. A year's difference in the age that would suit Brent's purpose to give the girl was not likely to be questioned. But whatever risk there was had to be taken. Helen's age could not be changed without arousing her suspicion or at least drawing forth questions from her.

Brent settled this point in his mind without hesitation and also decided to see Helen as soon as possible. It would be necessary, now that his plans were changed, to start undoing the campaign he had been at pains to conduct in the past—his campaign to win Helen to unserving allegiance to him and blinding acceptance of his wishes.

He had been highly satisfied with it but he foresaw that it was going to be a bit difficult to make his past attitude fit the one he must assume for the present. But that, again, was a shame more familiar than the age that Helen accepted. No name worth playing was without risks and hazards, in Brent's opinion.

Helen, when he surprised her by coming unannounced, welcomed him with delight. His manner to her was just a shade more familiar than before. But he said nothing to her, then, of the story he meant to tell her when she graduated.

As that event loomed nearer Helen grew radiant with expectancy and happiness. Brent, gradually, dropped all allusions in exalted manner that Helen believed promised the fulfillment of her dreams. She felt herself displacing all other interests in his life.

Together they would travel all over the world, and whether or not that glorious day ever dawned on which he would tell her, with new meaning, that he loved her, she could never be unhappy again.

She went through commencement in something of an emotional daze. And when at last she was seated beside Brent and on her way to New York, out of school, with a world of romance ahead of her, she felt unbidden tears stealing into her eyes. But they were tears of joy.

Brent sensed that she was struggling to suppress her emotion. He took the wheel firmly in his left hand and laid the other over hers where they rested on her smart cord bag.

"Happy?" he asked softly.

"So happy I'm afraid," Helen answered.

"But my dear, if you only knew what your life really should be like I'm afraid you wouldn't be able to contain yourself. You have a right to a wonderful heritage, Helen."

Helen fixed her wide eyes upon him in silent interrogation. So much of her life had been filled with mystery and she had been so thoroughly drilled not to ask questions that she did not think to take advantage of the change in the man who had been responsible for her training and voice her questions.

"But first," Brent went on, "before I tell you about that, I must explain to you, Helen, that I've been keeping something from you. Something about myself."

Helen caught her breath in sudden dismay. There was a solemn, heavy note in Brent's voice that frightened her.

"I've led you to believe that I need you," he said, and then, as though he were compelled against his will to complete his confession, he hastened to add: "because I couldn't bear to think that you might grow away from me. I guess I wanted to be the only man in your life, Helen, and I thought I could do it by making you will subservient to mine."

Helen continued to stare at him, all but speechless. "But Leonard..." she began, and stopped. Brent had cut her off. Besides, she was at a loss for words.

"But I can't go on with that," Brent avowed. "In fact I haven't been thinking about those lines for some time. You've noticed a change in me, haven't you?"

Helen nodded. "A great change," she said softly.

"There are two reasons for it," Brent told her. "First there is my promise to you to tell you about your mother and father when you graduated from school."

"Frankly, I was struggling eternally with the temptation not to tell you at all and to let you believe that I was the only person you had to turn to when you left school. But that is impossible now, ever had I decided to deceive you. He paused and managed to look forlorn and troubled."

"Leonard!" Helen cried. "There isn't anyone but you!"

Brent shook his head. "That is not all my dear," he said dejectedly. "I haven't even such right as I had before to lie to you. You see, I've met with bad luck on the market."

Helen broke in with a cry of sympathy but Brent's confession flowed on. "Oh, I haven't lost everything," he exclaimed with a touch of weariness. "But I've not enough left to live as I had planned, traveling about with you, keeping up the force of being your guardian while all the time..."

His voice seemed to choke with the poignancy of his feeling. He slumped a little in his seat and resolutely set his face straight ahead.

Helen's heart ached with sympathy for him, but not so much that she could feel the happiness that, a part of his confession caused to well forth from it.

He had never talked to her before like this, never intimated that he was desperately in love with her. "I'm sorry," she said breathlessly, "for your sake, Leonard, but we don't have to go traveling to be happy."

She smiled at him wistfully, appealingly, but he did not turn to look at her.

"I did not possibly make up to you what you would lose if I kept you in ignorance of your birthright," he said sharply. "You may not be able to obtain it, and you may not wish to have it, but I'd never forgive myself if I deprived you of the opportunity to seek it."

"Leonard!" Helen protested, "you're talking in enigmas. Tell me what it means."

For a while Brent did not speak. Then he said very quietly: "Yes, I will."

(To Be Continued.)

Experts To Talk Crime And Prison

TORONTO, Sept. 16. (AP)—Problems of crime prevention and the treatment of prisoners, as affected by modern conditions will be discussed by experts when the American Prison congress meets here September 20-25.

The delegates will be wardens and other officers connected in executive capacities with penal institutions in Canada and the United States, with social workers and public officials who come in contact with this phase of public work.

It is expected that contrasts will develop between the viewpoints of administrators of the prisons of the two countries, for Canadian methods are known to be much more conservative than those of the United States, especially as they affect the liberty and privilege accorded inmates.

Cooperation with the American Prison association are kindred bodies, including the Warden's association, the Chaplains' association and the National Conference of Juvenile agencies. The Canadian department of justice and the Canadian Prisoners' Welfare association are also working with the association sponsoring the congress.

CARLSBAD, N. M., is expecting a great number of Panhandle and North Plains delegates to the W. T. C. convention to pass through the city on their way to El Paso in October. The Carlsbad Irrigation project and the Carlsbad Cavern will be two items of much interest to the visitors.

Colombo, Ceylon, has just ordered all taxicabs to carry taximeters.

REAL ESTATE

FIVE ACRES TRACTS
A few five-acre tracts for sale, southwest of college campus, on good terms. 100 acres of land to trade for city property.

URGENT PREPARATION
Of Egg Exhibits
Members Home Demonstration Clubs Are Asked To Start Work On Displays For South Plains Fair

Members of Lubbock county home demonstration clubs are urged to start preparations for the egg exhibit to be held at the Panhandle South Plains fair, September 30 to October 6, inclusive, in an announcement made by Miss Louise Baird, county home demonstration agent, Monday.

"All eggs should be brought to the agricultural building the opening morning of the fair," Miss Baird said.

To Be 44 Dozen
There will be included in the exhibit 44 dozen eggs, both white and brown, chosen from each of the eleven clubs in the county. The exhibit will be prepared by the County Federation of Women's Clubs, working in cooperation with Home Demonstration clubs and the fair association.

Each year women of the county have tried to promote a special and new feature. Last year exhibits were made of canning and the year before of better kitchen equipment.

The eggs will be scored on the following points: uniformity of shape, uniformity of color, uniformity of size, shell texture, condition and quality.

Disqualifications will be made for double yolk eggs, stale eggs as evidenced by abnormal size of air space, blood rings or blood clots, eggs shown out of class, any egg not weighing the average of 56 to 57 grams for the class or weighing over the average of the high limit in the class.

FREE CLINIC IN BERLIN
BERLIN, Sept. 16. (AP)—The treatment of facial deformities such as moles, freckles, crooked noses, pimples and pox marks is no longer to be the prerogative of the rich here.

A public cosmetic clinic for impetuous men and women whose facial deformities prevent them from securing employment has been opened.

Promoters of the institution believe there are thousands of capable and willing workers everywhere whose facial deformities prevent them from finding work.

South Africa has an auto-sales war.

Sparrows Trapped
Joe Hess Catches 1120 Birds
An army of English sparrows, sufficient in number to destroy several gardens, have been captured and destroyed by Joe Hess, 2111 Fourteenth street.

During the last three months Joe Hess has trapped 1,120 of these birds.

"They became so destructive that something had to be done," said Mr. Hess. "They were destroying all garden plants until I started trapping."

ST. JOHNS SINKS
ST. JOHN, N. B., Sept. 16. (AP)—Word of the sinking last night of the American fishing schooner Josephine de Coster off Cape Sable was received today in a radiogram from a marine department agent at Seal Island. The crew was saved, the message from J. C. Chesley said.

Reactions In Cotton; Bulls Active
Early Advance On Buying Promoted By Rain Prospect
Selling Movement Followed By Reactions In Local And Southern Trading In Wall Street Monday
NEW YORK, Sept. 16. (AP)—Early advances on buying promoted by prospects for more or less general showers in the south where dry, warm weather would be considered favorable, were followed by reactions under southern and local selling in cotton today. December contracts after selling up to 18.97 or 17 points, net lower, reacted to 18.77 but recovered a few points of the loss closing at 18.83 compared with 18.80 at the close of Saturday. The general market closed steady at net advances of 1 to 3 points.

The opening was steady at an advance of 3 to 11 points and the market sold about 12 to 19 points higher during the early trading on covering or rebuying by sellers of late last week. The forecasts was for showers which were thought likely to do some harm to the crop, but the demand tapered off after the advance to 18.64 for October and 19.25 for March contracts.

Price Works Off
October worked off to 18.45 and March to 19.05 or about 18 to 20 points of the high level, but the demand tapered off after the advance to 18.64 for October and 19.25 for March contracts.

Everybody Is Talking

ABOUT The Wonderful Tire Values AT J. F. Frye Chain Tire Stores

ALL OVER THE SOUTH PLAINS

The consumer says! I have always wanted to use Federal Tires and Tubes for I know they are best. and to think that now I can buy them for less than I formally paid for mail order or other unknown Tires.

Our competitors say! It can't last. They are selling for less than wholesale cost.

We say! Selling more Federals than ever before. It would be impossible for us to do this only we are eliminating every unnecessary expense. Small overhead, no credit losses and quick turn-over. You do not pay—what some one else has failed to pay.

CHECK YOUR TIRE TROUBLES AT ONE OF OUR CHAIN TIRE STORES!
