Slap The Japs With Junk Is Slogan

Lamesa High School Pupils To Start Registering For Fall Term Tuesday Sept. 1

Lamesa High School pupils will enroll for courses and class assignments next week with the senior candidates appearing on Tuesday at 9 a. m. Juniors enroll on Wednesday, sophomores are asked to report on Thursday and Freshmen pupils meet with Mr. McCollum on Friday.

Elementary pupils are not required to enroll early but will follow the schedule of reporting announced at the close of school last year as indicated on their promotion cards and for new pupils the publish ed schedule according to grade.

Pupils appearing for the first time in Lamesa Schools should present grade and book cards from the school formerly attended as aids in enrollment.

Replacement instructors in the Lamesa High School include the following:

J. H. Bardwell, Sciences; Lee Alexander, Sciences; J. K. Cloyd, Physical Education and Coaching and History; Miss Elizabeth Davis, Librarian; Miss Gwendolyn Gordon, Spanish and English; W. R Hakes, Mathematics; Mrs. J. C. Walling, Homemaking; Miss Alene Salser, Girls Physical Ed and History.

Replacement teachers assigned to the Lamesa Elementary School include the following; Mrs. J. H. Bardwell, Miss Myrtle Crouch, Mrs. Vida James, Mrs. Naomi Holder, Mrs. Lowell Littlejohn, Mrs. Mary Jo Marshall, Mrs. Suttle Purcell, Miss Gertrude Riebold, Miss Marie Seeliger and Mrs. Ruby Sprawls.

There has been an unusually high percentage of teacher changes because of resignations of former teachers who have entered war work or who have changed to other schools.

Lamesa National Bank Elects New Cashier

The directors of the Lamesa National Bank have announced the election of D. W. Massengale as Cashier of said bank. Mr. Massengale has accepted the position and will move to Lamesa with his family sometime prior to September 15th, at which time he has indicated he will begin his new duties.

Mr. Massengale for a number of years has been vice-president and cashier of the Bank of Commerce, McCloud, Oklahoma. He has had many years of experience in the banking business, and comes to Lamesa highly recommended, and with a host of friends who predict for him success in his new position. Mr. Massengale succeeds Lanan Bissett who resigned about thirty days ago.

1942 Football Training Starts Tuesday, Sept. 1

Coach J. K. Cloyd will meet the football team candidates to issue equipment and begin the 1942 season training on Tuesday, September 1. Eqiupment will be issued from the Field House on McCollum Field.

The first football game is with Tahoka on the night of September 11 and will be played in Lamesa.

Mr. Ferdinand Goes To Market

Mr. Ferdinand, a real good Jersey Bull, gentle and no fence breaker, who has made his home at the Tom McBrayer place in the Five Mile community for beveral years, changed his place of residence recently. The change in ownership was brought about through the good offices of the Classified Columns of The Dawson County Courier.

"Everybody in the county must read your paper," Mr. McBrayer said, in an interview with a representative of the Courier last week. You too, can profit from the Courier Classified Columns. Give these wonder workers a chance to work for you.

First 1942 Bale Purchased By George Norman

To George Norman, manager of Higginbotham-Bartlett Company, goes the honor of buying Dawson Counties first bale of cotton for the 1942 season. The cotton was purchased from J. M. Coats, grower, who lives 8 miles south of Lamesa. A $50.00 War Bond was presented to Mr. Coats by the Lamesa Chamber of Commerce as a prize.

After spirited bidding by local business men, the cotton was sold by auctioneer, E. E. Barron to George Norman for 21.25 cents a pound. Mr. Coats received approximately $150.00 for the bale.

The cotton was ginned by Tinsley Gin Company last Thursday morning and sold by E. E. Barron, well known auctioneer, at 3 p. m. Saturday, August 22, on the public square in Lamesa.

Dr. John Bennett Reported Not On Casualty List

Mrs. Ocie Yeager informed the Courier this week, that she had received a letter from Mrs. John Bennett of San Antonio. Mrs. Bennett stated that she has had a communication from the Red Cross in the Philippines saying that her husband, Dr. John Bennett was not on the casualty list, and that he was either a prisoner of the Japanese or had escaped to the hills where fighting is still going on.

The Bennetts formerly made their home in Lamesa.

County H. D. Council To Meet Saturday

The County Home Demonstration Council will meet on Saturday, August 29 at 3 o'clock in the office of Miss Mattie Phenix, Home Demonstration Agent.

Members of the Council will discuss a program whereby food production and conservation information may be taken to all parts of the county.

Mrs. Hoyt Sires of the Welch community, will give a report on the annual Convention of the Texas Home Demonstration Association which she attended August 18, 19 and 20th in Fort Worth.

The Year Book Committee of the Council will meet at 10:30 a. m. Saturday morning, to draft plans which will be presented to the Council in the afternoon.

Albaugh Well Drilling Below 1,000 Feet

Ray A. Albaugh-T. L. Higginbotham No. 1, Dawson County's only active wild cat was drilling ahead below 1,000 in red and gray shale.

This well is being closely watched by the major companies as it is located on a geophysical feature that has been closely worked by the various companies from time to time.

Ten inch surface pipe was set and cemented at 184 feet; and some of the markers, possibly the salt or anhydrite, should be reached by Saturday or Sunday.

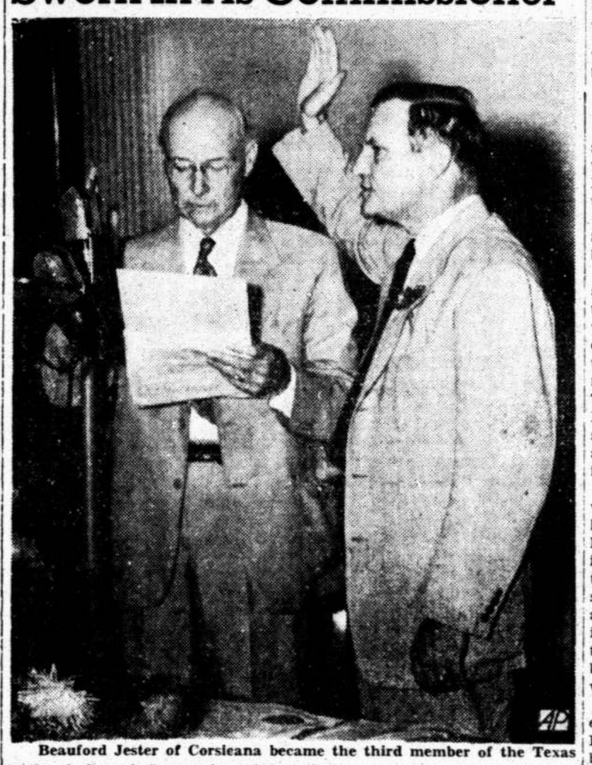

Continental Oil Company No. 1, Dan Auld, northwestern Terry County wildcat was drilling ahead below 5,768 in gray lime. Magnolia Petroleum Company - Powell No. 1, Martin County's deep wildcat, 8 miles north of Stanton, was coring below 8,306 feet in black sandy shale.

LEAVES FOR ARMY

Dan Davis, owner of Piggly Wiggly Store, left Tuesday for Fort Sill, Oklahoma, to serve in the armed forces.

BOMB THE JAPS WITH SCRAP!

Sworn In As Commissioner

Beauford Jester of Corsicana became the third member of the Texas Railroad Commission at formal installation ceremonies in the hall of the house of representatives where Presiding Judge F. L. Hawkins of the Court of Criminal appeal, left, administered the oath of office.

Twenty-One County Men To Leave September 4 For Induction Into Army

Twenty-one more Dawson County men will leave on Friday, September 4, for induction into the United States Army, according to a report released by the local draft board. This September 4 call is a supplemental call, to make up recent quotas which were not filled.

The men leaving and their order numbers are:

402 Alfredo Gusman.
721 Robert Lewis Carter.
781 Perry Scarbough Selam.
922 Carroll Winford Tune.
938 Herman Oliver Hunter.
1021 Harvey Clifton Albright.
1045 John Polan Hall.
1138 Edward Bynum Garland.
1187 James Samuel Price.
1226 Elzie Lee Spivey.
1239 Fred Dossey.
S-1409 Rayon Clay Hester.
S-1528 Ronald Earl Tolbert.
1622 John Henry Childress.
1625 John Thomas Sanders
1819 Aubrey Lee Davison.
S-1850 James Venson Aten.
1922 Loyd McDonnell.
10 589 Mack Bacom Moore.
1126 Thomas Miller.
10 677 John Pinson Johnson.

Price Ceiling Clinic To Be Held In Lamesa

Plans are now underway for a Price Ceiling Clinic to be held in Lamesa early in September. The Lamesa early in September, the clinic will be held under the direction of M. A. Browning, of the Department of Distributive Education of the University of Texas, Austin.

Thirty-six of these Price Ceiling Clinics are to be held throughout the State of Texas, and will be held here, if one-hundred people will attend.

The clinic will be held in the evening, the date to be announced as soon as definite plans are made.

Revival Meeting At Grandview

A revival meeting will start at the Grandview school house on Sunday, August 30, with Rev. Leon Frazier of Lamesa doing the preaching. Rev. Gerald Moore of Sudan will lead the singing.

Everyone is cordially invited to attend each and everyone of these service. Rev. Elbert Keith is the new pastor of the Grandview church.

Warning Given To All Draft Registrants

The local Draft Board is warning all registrants that they must keep in touch with the local draft board, as action is now being taken on all registrants, and it is absolutely necessary to know every mans whereabouts at all times.

The board futher states that it cost only 1c to send the board a post card, when the penalty for not doing so, can be 5 years in the penitentiary or a $10,000 fine.

In the past there has been a number of men who have left this county and have not notified the draft board. The local board has been lenient with such men, and made every effort to locate them, but in the future the board will be forced to turn them over to the Federal District Attorney for action.

Air Raid Wardens To Be Shown Motion Pictures

Two motion pictures have been scheduled for Lamesa to be shown to the Air Raid Wardens, Auxiliary Firemen and any other members of the Civilian Defense organization as well as the public. These pictures will be shown in the elementary school auditorium on Thursday evening September 3, at 8:30.

Although these pictures were intended primarily for Civilian Defense workers, the public is urgently invited to attend this program. They portray clearly, in a manner to interest and educate, the duties of Air Raid Wardens and Auxiliary Firemen. The common types of bombs and methods of fighting are demonstrated. The public generally will be interested in the precautions against fire hazards. Some of these shots were made in England under actual bombardment.

W. V. P. BAKER GOES MODERN

It has been observed by this writer that W. V. P. Baker, pioneer and highly respected citizen of Lamesa and Dawson County, has installed a new windmill at his place in the north part of the city. It would be interesting to know just how long Mr. Baker has used the old mill. We are of the opinion that it would set some kind of record for service.

Stockholders Of Farm Loan Ass'n To Meet Sept. 5

Farmers and ranchmen in Dawson, Borden and Gaines counties who make up the Lamesa National Farm Loan Association will hold their annual stockholders' meeting in the District Court Room on September 5, 1942, it was announced by J. E. Barron, secretary-treasurer.

The year 1942 marks the "silver anniversary" of the establishment of the Federal Land Bank system, which is made up of local farmers' cooperative credit organizations throughout the country. The Lamesa association, one of the 300 in Texas which own the Federal Land Bank of Houston, has more than 600 stockholders-members and a large attendance is expected at the meeting.

The condition of the Association will be given in detail to the stockholders present and every stockholder should be interested in knowing the condition of the Association and its operations as the Association has served the Farmers and ranchmen of this section during the past 24 years as the Association was organized in 1918, and has benefited many families and the whole community as well.

The Future Payment Plan offered to Federal Land Bank and Land Bank Commissioner borrowers will be discussed in detail and every borrower should know the benefits to be derived from the plan, that they may take advantage of same to create a reserve to protect them against future reverses.

Mr. Barron stated that he hoped every stockholder of the Association would put forth a special effort to attend the meeting this year.

New Three-Place Gliders Now In Use At Field

A number of three-place Gliders have been received at the Lamesa Glider School and are now in service, army officials report. Two place Gliders only have been in use at the school up to the present time.

A large number of students of the Glider School have been moved to the Lamesa Migratory Camp due to the lack of housing facilities in town.

The buildings at the Lamesa Glider Field are rapidly being completed, and all are expected to be finished by September 15.

BOMB THE JAPS WITH SCRAP!

SCRAP MATERIALS

The armed forces of the United States, together with their Allies of the United Nations, are at the present time engaged in the first offensive action of the War, in the Pacific Area. The capture of the Solomon Islands from the Japanese is in a large measure due to the results obtained in Previous Scrap Material Drives. This is also true of the recent Commando raid at Dieppe on the French Coast in which the American Ranger force played a part. The importance played by scrap materials in our war effort cannot be over emphasized at this time.

Every man, woman and child in Dawson County is urged to give the fullest cooperation in the present drive for all types of scrap materials.

Remember to BOMB THE JAPS WITH SCRAP, SATURDAY, AUGUST 29.

Good Rains Are Reported Over Trade Territory

Reports coming in from all over the Lamesa territory confirm the prediction made in the Monday issue of the Courier regarding the general nature of the rainfall. Reports ranging from one inch to three or four inches have reached this office from all parts of the county. It is thought by many that sufficient moisture has been received in all parts of the trade territory, as well as surrounding counties to assure a bumper crop. Most people are of the opinion that plenty of sunshine is the one thing needed now. Leaf worms are still active and some damage is expected from this source.

Estimates on the Dawson County cotton crop vary all the way from forty to sixty thousand bales, depending largely on the climatic conditions prevailing in the next few months.

New Water Well To Be Drilled

Army Engineers are this week making a survey of land belonging to D. L. Adcock, southwest of the Lamesa Glider School, where water wells will be drilled for the schools use, Mayor Charnell Jobe reports.

The recent water well drilled on the Glider School site cannot be used, due to the water becoming salty. The new wells will be drilled approximately two miles from the school, and the water piped to the site.

John S. Stringer Given Promotion For Heroism

John Samuel Stringer, 31-year-old Machinist's Mate First Class from Lamesa, Texas, has been promoted to Chief Machinist's Mate as a reward for heroism of 17 officers and men who served on the USS Quail. This stout little minesweeper performed with distinction before the Japanese overran the Philippines. In the final hours before Corregidor fell, Stringer and his shipmates followed their commanding officer in a daring 2,000-mile dash to Australia in a 36-foot motor launch.

The honor, announced today by the Eighth Naval District Public Officer in Dallas, were not for this fete alone. Their decorations and promotions were also in recognition of their courage in braving enemy artillery fire and machine gun strafing to scuttle the Quail and prevent it from falling into Japanese hands.

The crew also aided the Army when it called for volunteers to repair Corregidor's crumbling barricades, and cared for the wounded.

ATTEND FUNERAL OF RELATIVE AT RIO VISTA LAST WEEK

Mr. and Mrs. J. C. Hart, Mr. and Mrs. Carl Hart and Mrs. Don Altman returned Monday from Rio Vista, Johnson County, where they attended the funeral of Mr. J. C Hart's sister, Mrs. J. M. Cooper. She passed away on last Friday night from an illness of four years, and was buried Sunday afternoon.

BOMB THE JAPS WITH SCRAP!

Bond Sales In Dawson County At Low Ebb

Dawson County citizens purchased $14,587.95 in War Bonds during the month of July. This amount was $49,000.00 lower than the quota for that month. Unless we make a last minute rally the month of August may go on the record as being equally as bad as July.

If this County did not have the wealth to purchase War securities this showing would not be so bad, but the people of Dawson County are able to buy their share of bonds. It is true that the farmer will have his greatest purchasing power this fall, but there are many of our citizens on monthly incomes that should be making regular purchases. Many that are buying stamps and bonds are cashing them in at an early date. This practice should be condemned as anyone can see that the purpose of the selling program is killed by this practice.

Every citizen should be reminded again that we are in a hard war, one that promises to be of long duration, and that we want to win this war and can only do so by furnishing men, machines and hard work. Our County has offered the cream of its young manhood and now is drawing upon its older groups, but our County is falling down in a miserable way in spending its dollars to help equip these men in a fashion that will make them as formidable as the enemy.

After reading our sales for the year every citizen that loves America should go and buy every dollar that he can spare in securities that not only will give him protection but will give him one of the safest investments in the world.

January	$57,639.60
February	33,114.00
March	44,100.00
April	40,176.00
May	43,380.00
June	34,200.00
July	14,587.95

Our years quota is $541,600.00. Our total sales to date amount to $267,198.05. We are running about sixty days behind. Folks lets not have to be pushed about this matter. Go now and make those purchases that you have been intending to make, but keep putting off.

F. T. McCOLLUM, Dawson County Chairman
War Savings Staff.

Saturday Will Be Scrap Rally Day In Lamesa

$100 Will Be Awarded In Prizes To Organizations Bringing In Most Scrap

Every piece of scrap metal and scrap rubber in Dawson County should be in the hands of a junk dealer by Saturday night, August 29, as that day has been designated as Scrap Rally Day by Governor Coke Stevenson for the State of Texas.

It has been estimated that thousands of pounds of scrap iron, steel and other precious metals are lying idle in Dawson County. It is the patriotic duty of every citizen of this county to cooperate in this drive by turning in all scrap metals and rubber around their homes.

Community organizations have a chance to win cash prizes in the Scrap Drive ending Saturday night. The organization turning in the most scrap will be awarded first prize of $65.00 and the one turning the second largest amount will be award $35.00. As no formal entry was necessary it is not known how many organizations of the county are now at work.

Farmers have long been one of the most important sources of scrap metals and other waste materials, which are now vitally needed by the nations war industries. It is, therefore, every farmers and ranchers duty to see that these metals, lying forgotten on their farms, are made available to the government. Although scrap iron and steel are the most important, other metals, such as brass, copper, zinc, lead and tin are needed.

We are facing a crisis in our war production program. Unless we immedialy salvage at least six million tons of scrap iron and steel, and great additional quantities of rubber and other materials, we are not going to meet our production quotas, and our boys and our Allies are not going to get the materials they need in time. The situation is serious. Everyones help is needed now.

Twelve Colored Men Leave For Army In Sept.

Seven Dawson County colored men will leave Lamesa on September 2 for induction into the army the local Draft Board reports. These men and their order numbers are: 10372 Johnnie Cleveland; 10464 Sam Banks Jr; 10661 Isiah Porter; 10737 Walter Moore; 10797 Mike Runnles; 10815 Leon Boston; 10828 Clarence Martin.

On September 4 five more colored men will leave for the army. They are: 10116 O. D. Blake; 10176 Fred Collins; 10187 Lige Barker; 10312 Wallace Washington; and a transfer 53-A Leonard Coleman.

REPORTS FOR DUTY

Ralph Fry, who far the past several years has been employed at the First National Bank, received his call from the Navy to report to Big Spring, Tuesday. From Big Spring, Mr. Fry went to Norfolk, Virginia, where he will receive his training.

BOMB THE JAPS WITH SCRAP!

DARBY'S SALLY ANN WHOLE WHEAT BREAD

Toasted dry and crumbled in dish and served with milk and sugar is a delicious— CEREAL

Say—"Sally Ann To Your Grocer"

YOU'RE RIGHT tootin'

William Allen White, Editor of the Emporia (Kansas) Gazette, and celebrated American journalist and author.

Santa Fe

Says William Allen White "The Sage of Emporia" about America's Railroads

"You ask me whether I think the American railroads are doing their jobs in this grave crisis. Well, I would say, you're right tootin', they are and tootin' is the word!

"I live six city blocks north of the Santa Fe main lines. All trains between Chicago and Galveston, between Chicago and Los Angeles and San Diego east or west, go right by my door and you should hear them toot. Try to sleep with your south windows open on a summer night and you will certainly hear them toot . . .

"It's a continuous procession of swift passenger trains laden with soldiers and long grumbling, rumbling freight trains often with two engines and all night they sound like some cosmic rooster crowing to spell the dawn of the day of doom for America's enemies.

"No other service in the United [illegible] doing such a swell job as the American railroads. They were ready for it. When the warning came in '39 after we repealed the embargo clause of the Neutrality Law, the railroads knew what was coming. They are now equipped with cars and with rails. Their roundhouses are full but not clogged. They keep the wheels moving.

"The American capacity for organization under crisis never was exemplified so splendidly as the American railroads have proved their worth and excellence. It is a great job well done. It is a sort of thing that Americans do better than anything else. Our hard common sense, our indomitable purpose to achieve, all these are back of our effort. The railroads have done their work without friction with either labor or capital. They have responded to a great emergency with splendid intelligence.

"And are they doing their job? Yo[illegible] just right tootin' they are!"

Let's All Pull Together

[illegible]asingly, under war conditions, the [illegible]roads must furnish mass transporta[illegible], military and civilian, for the nation. [illegible]he load is already great—and growing [illegible]eadily. Military movements come first, [illegible]without question. You can do much to [illegible]elp us maintain adequate rail service for civilian needs as well, in these ways: When you travel, make your reservations and buy your tickets early; cancel re[illegible]tions promptly, if necessary; check [illegible] personal baggage not actually needed in passenger cars; and spread the travel load by avoiding week-end and holiday rush periods. When you make shipments, order freight cars only to your actual current requirements; load them to capacity; and release them promptly.

AT YOUR SERVICE—*Why not talk over your transportation problems with your Santa Fe representative? He'll be glad to help you with practical suggestions.*

Franklin Dennis and Miss Gladys Russell spent Sunday in Lamesa.

Cloy Coston and Miss Jacklene Conner of Lamesa visited in this community Sunday.

Indiana was discovered by La Salle in 1671 and constituted part of New France.

HE PREFERS COEDS WITHOUT MAKE-UP

BOWLING GREEN, Ohio, (AP) —American co-eds would be wonderful if they weren't "always trying to act" says R. Fernando Alegria, graduate student from Santiago, Chile. "They should be themselves ipstead of trying to impress —I don't know whom," the 24-year-old South American explained.

Algeria objects to "the uniformity with which college girls dress." He prefers no make-up.

A delegate in 1938 to the second World Youth Conference for Peace, Alegria returned to the United States two years ago after graduation from the University of Chile. Since obtaining a master's degree at Bowling Green State University last August, he has been at the University of California in Berkeley on a teaching fellowship.

He is back at Bowling Green this summer to write fiction and literary criticism and hopes to popularize Spanish - American literature in this country.

The greatest known depth in the Atlantic Ocean is 30,246 feet, at a point north of Puerto Rico.

CARD OF THANKS

We wish to express our sincere appreciation to our many friends for their expression of sympathy. For the beautiful floral offering, to the ladies who served the nice lunch and to the Odd Fellows who offered their services at the death of our husband, father, and grandfather. May you all have just such friends in your hour of sorrow,

Mrs. J. W. Napper, children and grandchildren.

TO MY MANY FRIENDS

God in His infinite wisdom is raising me up again. I am grateful. And, to my friends, who have been so wonderful to me with their kind deeds, and sweet words, which have cheered me on to try to make the grade.

I want all of you to know all the rest of my life I shall cherish every one of you.

Lovingly
Mrs. Mamie (Looney) Eager

THANKS TO THE VOTERS OF PRECINCT 1

I wish to thank the voters of Precinct 1 for the splendid support, awarded me in the run-off election last Saturday. I will do my best to make a good commissioner.

J. A. (Alvin) Hogg.

CARD OF THANKS

Words cannot express my appreciation for the votes and confidence given me in returning me to the office of County Treasurer. I want every person to know that I appreciate the votes, and will do my best to be a good public officer.

Mrs. Roxie A. Gaines.

ITS NOW CPL. WILKES

Thomas H. Wilkes has recently been pushed up a notch at the Lubbock Army Flying School, and is now a corporal. He is the son of Mr. and Mrs. E. V. Wilkes. He enlisted in the Army February 4, 1942 and is on duty in the personnel section.

Mechanics Are Needed By U. S. Army Air Force

Attention, men of Lamesa and its area! Attention men who work with tools!

Here is an opportunity to get into military service and be stationed near your home, at the same time doing your part to serve your country.

The U. S. Army Air Forces is now hand picking ground crew specialists to enlist for "on-the-job" training and work as aircraft mechanics, aircraft armorers, aircraft radio mechanics and operators.

Midland Army Flying School is securing applications from qualified men in this area. Information may be obtained from Lieutenant Raymond A. Fitjar, at MAFS.

A good mechanic or radioman can qualify for these opportunities: to serve as a specialist in the Army; to earn promotions rapidly; to train "on-the-job"; to build for the future; and to win the coveted Air Crew's Wings.

Lieutenant Fitjar pointed out that for the first time since War began, experienced mechanics and radiomen are being hand-picked for direct enlistment in the Army Air Forces. He added this is an opportunity for men to pick their branch of service, for sooner or later they will be saying: "It's up to me now! Where can I serve best with my skill and tools?"

Men of these trades are apt to go rapidly forward in the Army Air forces as specialists: airplane mechanics (all kinds), appliance servicemen (oil burner, electric refrigeration, household appliance, etc.) armorer or gunsmith, automobile mechanic, bench assembler, bicycle repairmen, farm mechanic, instrument maker, instrument repairman, jeweler, locksmith, radio mechanic, radio operator, sheet metal worker, telegrapher or welder.

Types of servicemen needed are: Aircraft Mechanics to inspect, check, service and repair airplanes and engines, including instruments, controls, electrical systems, propellers, landing gear — and some can be aerial engineers.

Aircraft Radio Mechanics — to adjust and repair various types of transmitting and receiving radio equipment as members of the ground crew.

Aircraft Armorers — to inspect, adjust and repair armament equipment: aerial machine guns, cannon, synchronizers, gun sights, gun cameras, bomb racks. Some can become aerial gunners part of the Air Crew.

Aircraft Welders—to fuse metal parts by means of electric or acetylene welding apparatus to farricate or repair metal airplane parts.

Aircraft Rario Operators — to operate transmitting and receiving radio equipment (partly in code) and make adjustments and minor repairs. Some can become aerial radio operators—part of the Air Crew.

Aircraft Metalworkers — to cut and form sheet metal, used in the assembly and repair of aircraft parts, fitting, and structural members using hand tools and metal-working machinery.

Applicants should apply to Lieut. Raymond A. Fitjar, recruiting officer, at Midland Army Flying School, immediately. Telephone number is 900, extension 440.

Wheat Insurance Deadline, Aug. 31

If you want to insure your 1943 wheat crop, you'd better hurry to your county AAA office and get your name on the dotted line.

For Monday, August 31, is the last day on which applications for Federal all-risk wheat crop insurance can be obtained under the new plan in which the producer insures his crops for the next three years, E. R. Duke, Texas wheat crop insurance supervisor, warned this week.

To date 3,387 applications for insurance have been received in the state office, but several thousand more are expected.

Meanwhile, 1942 insured producers who had crop losses have been receiving indemnity payments. Duke reports 5,493 claims totaling 941,249 bushels have been paid to Texas producers so far.

Physical Checkup For All Children Urged By Dr. Cox

The State Health Department urges all parents to have their children undergo a thorough physical examination before entering school.

The importance of such examinations can not be over-emphasized according to Dr. Geo. W. Cox, State Health Officer, who declares that the health of a child has a direct bearing on his progress in school.

"It is advisable to have school children examined several days or even weeks before school begins," Dr. Cox asserted, "so that minor ailments can be corrected and any possible serious ones placed under treatment."

Dr. Cox advised parents to take their children to a dentist for a thorough dental check-up and cautioned that an examination of the eyes be not neglected.

"In the old days it was considered only necessary to have school children provided with necessary books and some new fall clothing," Dr. Cox said, "but today we recognize that it is more important to be sure that his health has been properly safeguarded."

Immunization for protection against communicable disease should be affected before a child enters school, where he spends most of his time indoors with a large group of children, which facilitates the spread of infectious diseases. The student who has been immunized and whose health is under the observation of the family physician, whose eyes have been examined for corrective treatment, and whose teeth have been cared for by a competent dentist stands a much better chance of success in school than does the student who is handicapped by one or more phisical defects.

FORMER DAWSON COUNTY MAN DIES IN OKLAHOMA

W. C. Claybrook, a former citizen of Dawson County, passed away at his home, August 15, in Boyd, Oklahoma. Funeral services were held August 16, at Boyd.

LAMESA NEGRO SCHOOL HAS NEW PRINCIPAL

Women's Study Club Complete Plans For Coming Year; First Meeting Sept. 11

The Women's Study Club of Dawson County will begin their years work September 11 with a breakfast.

A special meeting was held Tuesday afternoon at 3 o'clock at the home of Mrs. W. K. Crawley for the purpose of completing the plans for the coming year for the Club. The women on the committee who attended the meeting were Mesdames A. E. Jacobs, V. O. Key, Henry McQuien, J. W. McDonald, C. E. Ault, Roy M. Smith and Mrs. Crawley.

Officers for the Study Club for the year are, Mrs. Roy M. Smith, president; Mrs. J. W. McDonald, vice president; Mrs. W. K. Crawley, recording secretary; Mrs. V. O. Key, corresponding secretary; Mrs. Dixie Kilgore, treasurer; Mrs. Clyde Adams, reporter; Mrs. E. T. Bailey, Federation Councilor.

MISS IRENE TANNERY WEDS LIEUT. PATRIC A. RIDGWAY

Announcement is being made of the marriage of Miss Irene Tannery, daughter of Mr. and Mrs. Z. Z. Tannery of 2630 Twenty-third Street, Lubbock, Texas, and Lieut. Patric A. Ridgway of Fort Wayne, Va., and formerly of Fort Kamehameha, Honolulu, Hawaii.

The couple were united in marriage Wednesday at the home of the officiating pastor, Rev. R. M. Hocker of Midland. A reception followed the service.

Lieut. Ridgway has lived in Lamesa and also in Lubbock for several years.

The couple will be at home near Fort Monroe, Va.

The meeting will be presided over by Mrs. J. W. McDonald, president of the Federated Society.

Cheese Can Be Served In Many Tempting Ways

Agricultural Marketing Administration ofifcials announced domestic cheese is included as a Victory Food Special.

Commodities designated as Victory Food Specials are selected from foods in "super-abundance." By consuming Victory foods, other vital foods needed for the war effort can be supplied in suficient quantities to our fighting forces and the United Nations.

Local homemakers are urged to serve cheese to prevent waste of this vital food and at the same time stretch family budgets.

CHEESE RECIPES

Following are several suggested recipes using cheese.

Cheese Sauce

2 tablespoons fat
1 1-2 tablespoon flour
1 teaspoon salt
I cup milk (or 1-2 cup evaporated milk and 1-2 cup water)
1 cup cheese, grated, or chopped fine.

Melt fat stir in flour until smooth. Add liquid and salt. Cook stirring constantly until thick and smooth. Add cheese and cook at low temperature until cheese is blended smoothly into the sauce.

Macaroni and Cheese
(Serves 6)

1-2 pound uncooked macaroni
4 tablespoons fat
4 tablespoons flour
1-2 teaspoon salt
2 cups milk (or 1 cup evaporated milk and 1 cup water)
1 1-2 cup cheese, grated or chopped fine
1-2 cup dry bread crumbs or cracker crumbs.
2 tablespoons butter or oleomargine.

Break macaroni into one-inch pieces. Cook in large amount of rapidly boiling water until tender. Drain and separate macaroni in cold water to remove excess particles of starch. Stir flour and salt into melted fat. Add liquid and stir until smooth. Add cheese and cook at low temperature until smooth. Combine macaroni and cheese sauce in a well-greased baking dish or pan. Coat bread or cracker crumbs in melted butter or oleomargine. Sprinkly buttered crumbs over macaroni and bake in moderate oven (not over 400 F.) for about 30 minutes.

Cheese Loaf
(Serves 6)

1 cup spaghetti
2 cups grated cheese
1 cup rolled oats or bread crumbs
1 1-2 cup milk (or 3-4 cup evaporated milk and 3-4 cup water
2 eggs
1 teaspoon salt

Break spaghetti into one-inch pieces. Cook in boiling water until tender. Drain and separate spaghetti in cold water to remove excess particles of starch. Mix spaghetti rolled oats (or bread crumbs), milk, and beaten eggs. Pour into greased baking dish or pan and bake in a moderate oven (not over 350 F). for about 40 minutes.

Do You Have Peaches; No Sugar Well Dry Them

"The greater number of methods used to preserve food, the more interesting our daily meals can be made," says Mattie Phenix, the County Home Demonstration Agent Drying, the oldest method of preservation, yet one that has been neglected in recent years, is economical, takes less equipment and materials and the dried food may be stored in fewer containers and can be transported easily.

The drying of peaches may be the solution to saving peaches for those whose supply of sugar has not been adequate enough to can them.

This is how to dry them: Select a high quality fruit, wash, split in half, remove the stone and place on trays in single layers. Sulphur for 15-20 minutes if peeled, and 3 hours if the peaches are unpealed. The sulphuring of fruit prevents discoloration and checks chemical changes which effect the natural flavor of the fruit. The sulphur is placed in a paper in the proportion of 1 teaspoon to each pound of fruit. Twist the ends of the paper, light them, and so place the trays of fruit over the burning sulphur so the fumes will come in contact with each piece of fruit. Quickly place a tight box or barrel over the trays.

Food taken from drying trays is not uniformly dry. Portions which are more moist than others may cause mould to develop, so to obtain an even degree of moisture, place the products in deep containers and stir each day for 8 to 10 days. This is known as conditioning. If the food is too moist after conditioning, return it to the dryer.

Dried products should be heated before storing. Fifteen to 20 minutes in an oven at a temperature of 150 degrees F. to 180 degrees F. is sufficient. Then the products are ready to be stored. Place them in glass jars which may be sealed; cellophane bags which may be sealed; tin containers with tight fitting lids; or sacks which are coated with wax.

Dried foods must be stored where they are always dry. For example, use the attic or pantry if it does not receive moisture from the kitchen. Most foods will remain in good edible condition for a year or more if stored in a cool, dry place.

When preparing the dried foods, wash thoroughly in cold water and then soak then several hours or over night in warm water. Then cook the products in the water in which they were soaked.

Hospital News

Mr. and Mrs. E. C. Jones are the parents of a baby boy born August 19.

Mrs. J. C. Williams of Seminole was a medical patient at a local hospital here this week.

Mr. and Mrs. Homer Barron are the parents of a baby girl born August 21.

E. C. Lewis of Greenville is here visiting his daughter, Mrs. M. E Boren this week.

Mrs. O. E. Little, of Roswell, N. M., spent the week-end here visiting her sister, Mrs. A. G. Waugh.

Dry Grass And Weeds Dangerous Fire Hazards

A plea for fire safety, issued jointly by Fire Chief James Sumpter and Marvin Hall, State Fire Insurance Commissioner, points to the extreme hazards created by dry grass and weeds.

Chief Sumpter stated that vacant lots covered with weeds and grass at this time are a serious menace to all surrounding buildings.

"Because fire can be started easily in such places," he said, "we must exercise extreme caution to prevent fires due to carelessness. Grass fires spread rapidly, and can easily result in excessive damage to adjacent property.

"If we make certain that all matches, cigars and cigaretts are 'blacked out' before they are discarded, we can prevent many fires. Make certain that children do not have an opportunity to play with matches. Avoid starting any kind of fire where there may be a chance of it spreading to grass covered lots.

"However, if a grass fire is discovered, lose no time in turning in an alarm. Don't give it a chance to spread before calling the fire department.

Commissioner Hall reported that grass fires have shown an alarming increase over the state during the past few days.

"Fire hazards created by dry grass are more serious now than in several years," Hall declared. "This is true in both city and rural areas, and it presents a problem for every fire department in Texas.

"We can ill afford the cost of a 'scorched earth policy' at a time when all our resources are needed by our armed forces and the forces of the United Nations. It behooves all of us to prevent the outbreak of every fire."

Mrs. Grace England left Wednesday for Lubbock and Ardmore, Oklahoma, where she will visit with relatives and friends.

Mrs. Raymond Bryant of Midland are visiting here this week with relatives and friends.

Mrs. Wiley Temple of Fort Worth is visiting here this week with her husband.

Mrs. Chas Cathey of O'Donnell spent Wednesday in Lamesa visiting with friends and attending to business.

Chuck Jacobs, who has been attending the University of Texas, Austin, this summer is visiting here with his parents, Mr. and Mrs. A. E. Jacobs. He will remain here for several weeks before resuming his studies at the University this Fall.

Mr. and Mrs. Jap Randle returned Saturday from a two weeks vacation which they spent on the Stevenson ranch at Junction, Texas.

Treasury Dept. Express Thanks

August 7, 1942

Mr. Robert L. Wade, Editor,
Dawson County Courier,
Lamesa, Texas
Dear Mr. Wade:

Your unstinted contributions to the United States War Savings Bond program, both in freely publishing columns of publicity and in devoting much of your time and that of your staff to securing sponsors for official Treasury Department War Bond advertising have been tremendously helpful to this important phase of our Nation's war effort. We think it only appropriate that we take this occasion to tell you of the Treasury Department's appreciation.

As you are so well aware, sponsored advertising is the only method the Treasury Department has for promoting investment in War Bonds through newspapers, and it is only through continued voluntary and patriotic contributions on the part of your advertisers that we can keep in front of the people the urgent necessity for "everybody saving at least 10% in War Bonds every payday."

From time to time additional mats will be released to you, and we feel sure, you will present them to your advertisers as they are presented to you: for careful consideration in the light of the Nation's need.

As it is impossible for us to express our thanks personally to all the sponsors of War Bond advertising I should be very grateful if you would convey to your advertisers the Treasury Department's appreciation for the very real contributions they have made and will be making in the future to the success of the War Bond program.

Sincerely,
E. W. Sloan,
Executive Director,
War Savings Staff.

EDITORS NOTE: Robert L. Wade, long time former employee of the Courier, is now stationed at Camp Roberts, California, undergoing training for an officer in the United States Army.

Dr. A. H. Smith left Wednesday for Philadelphia, Penn., to visit his son, Frank Smith, who is serving in the U. S. Navy there.

BUY WAR BONDS — STAMPS

Ernest Kuble returned Tuesday after a months vacation in New York, Washington, D. C., and other points of interest.

Lt. Robert Smith of Alamagordo, N. M., spent several days here visiting with friends and relatives.

Mrs. Ralph Fry accompanied by her mother, Mrs. Alpha Dugger, and Mrs. Oll D. Harris left Thursday morning morning for Temple where Mrs. Fry will receive medical treatment.

WISDOM IS WISER

BLYTHEVILLE, Ark. (AP)—John Wisdom was not so wise when he left his car parked on a dark street. He returned to find all the tires and wheels stolen.

FARM NEWS from YOUR COUNTY AGENT

TEXAS EXTENSION SERVICE — FOOD FOR FREEDOM

Cotton is the one crop in the state that furnishes the three F's, "Food, Feed and Fibre," states B. J. Baskin, County Agent of the Texas A. & M. College Extension Service.

Cotton furnishes 70 per cent of the fibre needed to operate the spindles of all the spinners in the United States. Cottonseed oil furnishes over 20 per cent of all edible oils we use; it is used in making salad oils, oleomargerine, cooking oils and fats. Cottonseed meal and cake, a high protein feed, is used as a basic feed in balancing the rations of dairy cattle, beef cattle and swine. Cottonseed meal is also used as a nitrogenous fertilizer. Today cottonseed meal is also being used as a source for the production of a type of flour that maybe used by diabetics. Cottonseed are also fed by farmers to replace cottonseed meal. Cotton linters, of which we have a normal production of about 750 million pounds, have no equal as a base for making explosives. Cotton linters are also used as a base for making of many "cotton substitutes, such as rayon, etc."

No other crop does all of these things. No other crop can do all of these things. Little wonder then that we call cotton "King Cotton."

Farmers compelled to use white arsenic and sal soda as a source for their poisoning material to control leafworms are cautioned to use diligent care, states B. J. Baskin, County Agent of the Texas A. & M. College Extension Service.

White arsenic, which is converted to sodium arsenite in the boiling, will burn cotton. It will burn it the same as too much lye or sal soda. Care must be exercised in (1) operation of the spraying equipment and (2) coverage of the leaf.

Farmers are cautioned to adjust the pumps on their spray machines so that the poison material will come out as a fine fog or mist. This breaks the material down into such small particles that danger of burning cotton is reduced to a great extent.

To insure adequate coverage of each cotton stalk it is necessary for the tractor to travel at much slower speeds than usual. Coverage should be such that each stalk is well-wetted. Farmers can determine if they are securing adequate coverage by adding small amounts of lime to the barrel. The lime will show up when the spray material has dried, and then it is easy to determine the proper coverage is being obtained, states Mr. Baskin.

"I have the best crop of cotton ever, already set on my farm located just south and east of the 'Y' on highway south of Lamesa, says Jack Walls. My stand is very good. The size of the stalk is not too good. But the stalk is loaded from top to bottom. And each day it seems to be better. I am glad that I have those terraces.

Delivery of 4-H Boys steer calves for the 1942-43 winter feeding demonstrations started this week, states B. J. Baskin, County Agent of the Texas A. & M. College Extension Service.

The quality of the calves being purchased this year is better than for the past two years. The calves are not quite as growthy, and are carrying more flesh and "bloom." With the good feed in sight and calves of this type and quality it is reasonable to expect the Dawson County 4-H Club Boys will show a better group of calves late next winter or early in the spring.

Many farmers will begin planting of small grain for winter pasture, states B. J. Baskin, County Agent of the Texas A. & M. College Extension Service. Early planting of these small grains assures the producer of good stands, heavy growth before winter and adequate pasture for dairy and stocker cattle.

We have had much smut in our small grains for the last two winters, futher states B. J. Baskin, County Agent. This smut can be controlled by treating seed barley and seed oats with one ounce of the new improved ceresan, a mercury-copper compound, per bushel. Treating of these small grains will materially increase the stands, vigor of the plant growth and the yields next spring.

"I am certainly well pleased with the results I am getting by dusting with calcium arsenate for leafworm control," states R. E. Jones, whose farm is located in the Munger Community. "We save on water hauling, get an even distribution of our dust and kill leafworms of all ages, sizes and degree of infestation."

"My Sears gilt is coming right along," says J. C. Freeman, 4-H Club Boy of the Higginbotham Gin Community," and I am proud of her. This gilt is a great-granddaughter of Waveline on the sires side, and also a great granddaughter of New Hope on the dam's side. She is growing into one of the best type gilts possible."

Rains throughout the area cancelled the Annual 4-H Club Camp that was to have been held August 25 and 26. "We will hold this camp over the weekend at an early date," states B. J. Baskin, County Agent of Texas A. & M. College Extension Service, "The Annual 4-H Club Camp is one of the main attractions with our Club Boys, and we are going to hold the Camp.

In British Guiana, a tributary of the Karanang River drops over a precipice to a ledge 1,400 feet below.

Most of this community received a heavy rain fall the first of this week which helped the crops greatly.

Mr. and Mrs. R. H. Stricklin and daughter. Billy Joe and Mrs. Bill Orson made a business trip to Lubbock Saturday.

Mrs. Melvin Rankin and daughter of Lubbock are visiting in the home of Mr. and Mrs. John Hogg this week.

Mr. and Mrs. H. A. Shipp and family attended the graduation of Miss Hazel Shipp of Lubbock last Friday.

H. E. Truitt of Wellman is visiting his parents, Mr. and Mrs. I. T. Truitt this week.

Sgt. J. J. Southard of Fort Sill, Oklahoma, who has been visiting his mother, Mrs. J. W. Southard returned last Thursday.

Mr. and Mrs. J. C. Riley and family of Carlsbad, N. M., who have been visiting Mr. and Mrs. I. T. Truitt returned home Monday.

Mr. and Mrs. Jessie McCasland and family and Mrs. McCasland all of McCarty and Mr. and Mrs. J. P. McCasland of Munger visited in the home of Mr. and Mrs. Earl Calhoun and daughter Sunday.

Mrs. Austin Blackman of Lovington, N. M., visited in the home of Mrs. J. W. Southard last week.

Miss Rachell Hogg who has been attending Texas Tech, Lubbock, is visiting her parents, Mr. and Mrs. John Hogg.

I. T. Truitt who underwent major surgery last week at Merkel was moved home Saturday and is doing nicely.

Mr. and Mrs. Clarence Bankhead and daughter left Monday for Los Angeles, California, where they will visit relatives and friends.

Mr. and Mrs. E. B. Hindman received word this week that their son, Melvin who is in training in Iowa is seriously ill.

Mr. and Mrs. Elmer Miller and son, Carlis Jean, who have been attending sohool at Commerce has returned here, where they will teach school this winter.

Mr. and Mrs. Sam Allen entertained for the farmers who planted their crop when Mr. Allen was ill last Tuesday evening with a barbecue. Those who attended the affair were, Mr. and Mrs. Bryon Southard, and daughters, Mr. and Mrs. Edd Grissom and family, Mr. and Mrs. Bill Schooley and son, Mr. and Mrs. Roy Truitt and family, Sgt. J. J. Southard, Ira Jeter, Jr., Marbley Ray, Riley of Carlsbad, N. M., and the hosts Mr. and Mrs. Allen.

Mr. and Mrs. M. M. Shearer and son and Mrs. Willard Tapley returned Saturday from a visit in Oklahoma.

FIVE MILE — Amelia Foster

Mr. and Mrs. Bee O'Neil and children of Lubbock spent the week end in the Cowger home.

Mr. and Mrs. Fuller Sealy of the eastern part of the state are visiting with his parents, Mr. and Mrs. R. E. Sealy.

The church is having a program Friday night in celebration of a good church year.

Mrs. Jones is spending a few days with her daughter, Mrs. Cowger and family.

Brother Brand, Mr. Moseley, L. R. Earnest, Mr. Lobstein and Mr. Cowger attended the District Brotherhood meeting in Big Spring Monday evening.

Mother Cornett of the Klondike community visited Mr. and Mrs. Geo. Cornett Sunday.

Wheat Farmers To Vote Third Straight Year

Sometime before June 10, 1943, Texas wheat farmers will vote in their third national wheat marketing quota referendum.

Purpose of announcing the marketing quota proclamation at this early date is to get word out to all farmers now planning their fall wheat seeding operations, B. F. Vance, administrative officer of the AAA in Texas, announced.

"With the present war emergency like it is and the urgent need for certain type of commodities other than wheat, I hope Texas wheat farmers will divert as much acreage as they possibly can to other warcrops insofar as it is possible," he said.

He explained that wheat is a valuable warcrop, as shown during the first World War when there wasn't enough of it, but that present supplies were so heavy that the nation was hard pressed to find adequate storage even though large amounts were being fed to livestock.

Diversion of wheat acreage to war crops, storing wheat on the farm and marketing it wherever possible in the form of livestock and poultry were cited as special contributions wheat farmers could make to the war program.

Quotas are announced for an approaching year whenever it appears the total supply of wheat will exceed a normal year's domestic consumption and exports by more than 35 per cent.

Due to successive large crops and decreased exports, the 1943 wheat supply not only will exceed domestic consumption and exports by 35 per cent but probably will be twice the size of these outlets, Vance said.

V-Mail Service Popularity Now Increasing

The Post Office Department announced today that the V-Mail Service, inaugurated on June 15, 1942, is now past the experimental stage, with each week showing large increases in the number of letter mail ed to American soldiers overseas.

The War Department has increased its facilities to handle promptly the volume expected in the future.

Facilities for photographing and reproducing V-Mail to and from the United States and the British Isles, Australia, India, Hawaii and other points are now in operation. A similar service is being planned for Iceland and other points where the volume may warrant.

Pointing out that V-Mail provides a safe means of communication with members of our Armed Forces, the Post Office Department gave assurance that the film (upon which the communications are reproduced) are given the most expeditious dispatch available. Because of the small space taken up by the rolls of film, they often can be carried on ferry planes or bombers.

Every pound of weight which can be saved on air transports overseas said the Department, means that an equivalent amount of weight can be allotted vital military material.

In recognition of this, and in an effort to insure delivery of mail to as many men as possible at overseas destinations when space is limited, the War and Navy Departments have directed that V-Mail be given priority in dispatch over all other classes—including—air mail —when transportation facilities under control of those departments are used.

V-Mail letter sheets have been distributed at all post offices; and have been provided all military and naval personnel at overseas points through Army and Navy post offices and military channels.

Private firms and individuals have also been permitted by the Post Office Department to reproduce the letter sheets. The sheets also will be available soon to all stores selling stationery.

V-Mail Service provides for the use by patrons of a special letter sheet form which is a combination letter and envelope of uniform size and design.. The patron writes his message, completes the name and address of the addressee and the return card in the space provided, folds, seals, and mails the letter in the usual manner. Patrons are warned that only the inner or letter side of V-Mail letters are photographed, and should be careful to show complete address of the person to whom the message is sent in the panel provided therefor above the space for the message. It is preferable to print the address in large block letters. Enclosures must not be placed in the letters.

V-Mail letters are photographed on micro-film by automatic machines at the rate of 2,000 to 2,500 per hour and the film rolls containing 1,500 letters each are transmitted to destinations. Reproductions are then made by other automatic machines and delivered to the addressee in individual sealed window penalty envelopes.

When V-Mail letters are addressed to places where micro-film equipment is not in operation, the letters are transmitted to destination in original form by the most expeditious means available. Even in these instances savings in weight and space are accomplished since there are approximately 97 V-Mail letters in a pound, whereas, ordinary letters average 40 per pound.

The War, Navy and Post Office Departments all cooperated in developing this Service, largely with a view to decreasing the volume of mail to be carried overseas and providing an expeditious service.

The public is urged to use it at every opportunity.

Women Needed For Positions At Army Schools

According to O. R. Rodden, area manager of the United States Employment Service, there is a great need for women to work as bookkeepers, typists, stenographers and filing clerks at Sloan Field, Midland and at the Big Spring Bombardier School. These positions pay from $110 to $150 per month. All who are interested in employment contact Mr. Rodden at his office at 105 1-2 East Second Street, Big Spring.

There are also jobs for men with different skills.

Women are now being trained for Aircraft sheet metal work at Big Spring for the Consolidated Air Corporation of Fort Worth. Women must be between the ages of 19 and 31 to be eligible for this work.

Big Farm Tire Meeting To Be Held In Lubbock

Mark McGee, Director, Office of Price Administration, has called a South Plains wide farm tire meeting in Lubbock for Tuesday afternoon, Sept. 8, at 1:30 o'clock, to consider ways and means of moving this year's cotton crop from the farms to the gins.

Mr. McGee will, personally, be in charge of the meeting and will have with him the heads of the departments dealing directly with tire allocation and rationing.

All members of county rationing boards, representative farmers from every school district and voting precinct on the South Plains, editors, bankers, county farm agents, are being urged to attend this meet- County Judges, Mayors, and others, ing.

The moving of the South Plains cotton crop from the farms to the gins this year is the greatest problem that has ever confronted the people of the South Plains. A survey shows that a large percentage of the trailers and trucks to be used in hauling cotton from the farms to the gins are without tires. It is a definitely established fact that tires for all trailers and trucks cannot possibly be obtained.

The purpose of the September 8 meeting is to advise farmers and others interested (and everyone is interested) of the actual situation regarding tires and to try to work out ways and means to get the cotton crop to the gin.

The meeting has been arranged by the Lubbock Chamber of Commerce, and is urging section wide attendance at the meeting.

BOMB THE JAPS WITH SCRAP!

J. R. Weaver Gives Report On Cotton Crop

J. R. Weaver, one of the largest cotton farmers in Dawson County, if not the largest in West Texas, reports very fine cotton on his farms near Lamesa. According to Mr. Weaver, a survey made this week by local cotton raising experts, revealed that a 1900 acre field just north of town on the Brownfield road, gives promise of yielding around a bale to the acre. A system of counting the boles, for a given distance on different rows in the field, has been worked out in which it is claimed, that the yield per acre can be ascertained.

In addition to having thousands of acres of cotton, Mr. Weaver also is an extensive grower of row crops. These crops consist mainly of Martin Type Maize and Kaffir Corn, which can be harvested by machinery The difficulty of obtaining labor for the old method of harvesting is the reason given for the extensive growing of this type, by the majority of Dawson County Farmers.

County Farmers Urged To Plant Fall Pastures

In a meeting of the county committee of the Dawson County ACA, August 25, the question of fall pasture for the farmers of Dawson County was discussed in order that farmers may increase production of milk, eggs, and meat to aid in the war effort. We are giving two examples of a farm with 150 acres in cultivation, with 5 or 6 cows, 200 hens, and one or two brod sows. We feel that no better plan could be followed to increse production than to follow one of the following plans since the county has a fine season at this time.

Example No: 1:	
Cotton	49.0 acres
Soil conserving	30.0 acres
Grain sorghum	71.0 acres
This could be divided in this way:	
Cotton	49.0 acres
Grain sorghum	71.0 acres
Mixture (to be grazed)	10.0 acres
Millet (to bundle)	5.0 acres
Sudan (for grazing)	15.0 acres
Example No. 2:	
Cotton	49.0 acres
Soil conserving	30.0 acres
Grain sorghum	71.0 acres
This could be divided in this way:	
Cotton	49.0 acres
Grain sorghum	61.0 acres
Wheat mixture (harvested)	10.0 acres
Sudan (grazed)	15.0 acres
Millet (to bundle)	5.0 acres
Cane or peas or both	10.0 acres

In example No. 1, the wheat mixture could be grazed and followed by sudan or peas and earn a soil building practice of 75c per acre for sudan left or $1.50 per acre for peas, and count on your 20 per cent.

In example No. 2, the wheat mixture could be harvested and the producer would plant 10.0 acres less grain sorghum.

Wheat mixture can be planted without a wheat allotment. It must be a mixture of 50 per cent wheat and 50 per cent or barley, or 50 per cent of oats, or barley rye or oats may be planted without the mixture. The seed for this mixture may be purchased at any seed house in Lamesa for $1.75 per hundred pounds and up, owing to the quality.

The committee thinks that Dawson County farmers could in no better way aid in winning the war more than to increase the production of milk, eggs, and meat; and there is no better way to increase production than to sow some fall pasture for your cows, sows, and hens. Now is the time to arrange your planting for 1943. The same percentage figures will apply to larger or smaller farms to care for your individual needs. We feel a plan of the kind will give you the cheapest and best feed for your poultry and livestock possible, and recommend same through the A. A. A. program.

Joe M. Peterson, Chairman
Dawson County Committee.

J. R. Leuenberger and son J. R. Jr, spent Tuesday in Amarillo attending to business.

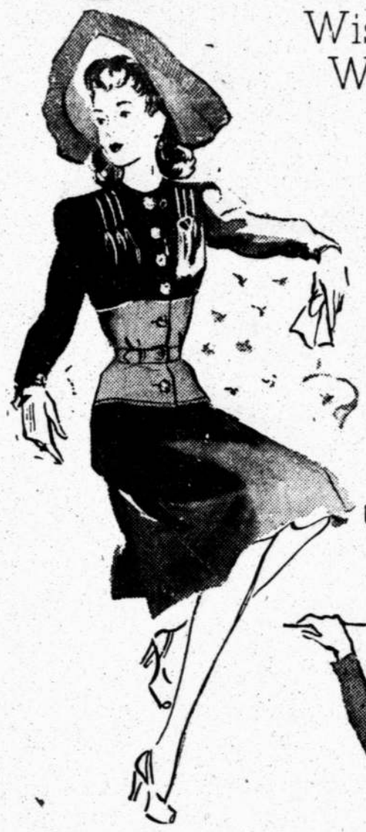

Dr. and Mrs. S. Z. Frazier spent the week end in Dallas attending to business.
