The Woman's Day

By Allene Sumner

Although custom has tried to sponsor wedding rings for men three and again, somehow few men seem to wear them. The average interpretation is that men refuse to wear them because they do not want to wear them. The average interpretation is that men refuse to wear them because they do not want to wear them.

WHY IS IT?

We talk a great deal about "the economic independence of women" these days, but there are even more women dependent on fathers for their spending money than those who earn their own, and the ones who do earn their own aren't quite so educated to the point of buying engagement rings for their sweethearts. Women are a little bit "light" with money for all except the strictly necessary and utilitarian purpose of "dress and beauty" and to achieve a secure future in the shape of a husband.

TWO-YEAR HAMS

Back in Martha Washington's day no housewife would think of serving a ham which had not been in the curing process for at least two years, and which came to the table a symphony of "nose and spices and nutmeg, cranberry and apple with sugar and nutmeg, cranberry with sugar and more spices, a primi donna of the ham afterward. An obvious comment is "imagine any housewife today monkeying like that!" You're right, they wouldn't, and why wouldn't they, and why does it signify that our tables are any the less? We can have two-year-cured hams straight from a commercial concern which specializes in ham-curing, or we can have a food which is fully as appetizing and nutritious as Mattie's hams, something which would have been utterly unknown to her. Food preparation has been taken almost entirely from the individual kitchen in the day of specialization, and I don't see that either women or hams are much harmed by the change.

TURNIPS AND WIGS

A woman of Missouri sent a fine and an unknown note to the farmer from whose garden she stole a turnip when a child years ago. A Cleveland school girl took poison because her hair was falling out and she was told she would have to wear a wig. There is surely something wrong with heredity, some or school training that can produce girls with so abnormal an emphasis on the unimportant. I don't see any advocating dishonesty, but the spectacle of a woman brooding for years over a turnip theft, does not seem any more normal or

Duke Moreman Given Party Wednesday On Birthday

PHONES AND SHAMPOOS

All the to-do about television, the little invention, you know, which permits you to see the person to whom you are talking over the phone, leaves me quite cold as to the marvels of the world's progress. In fact, I hope and pray that this one "improvement" doesn't go through, just as I have always prayed that "the talking movies" wouldn't materialize. The real value of the movies, it has always seemed to me, is to permit us to escape the usual cackly, raucous voices of the stage. To be sure, we get the voices behind us from Sou and Lou, the movie talkers, but they are up some or later, and "live drama" via the silver sheet is peace and quiet. Now comes the bathing of "the television men" which will make it much more difficult to grab the extension phone when in the bath-tub, when in the throes of a shampoo with towel swathed about the pale, when in bath-robe, when soaping, when filling the, when trying to be sweet when we're mad as a hatter, when being dignified when we want to giggle. Hell! pipe down on this "television" stuff.

TRAFFIC ENFORCEMENT

There is much written and much said about traffic laws in the United States these days. The average traffic cop is looked upon as a fellow who is trying to arrest some one, and is actually looking out for some one to pounce upon.

Auto Barbers Give Cleaners A Sound Diamond Drubbing

With singing drives and hard smashes in every corner of the Matador baseball park the Auto-Barbers turned in the initial game with a free for all slugger winning from the City-Lubbock Laundry aggregation with heated score of 22 to 2 yesterday afternoon. The Auto-Barbers appeared to be much heavier in their hitting than any other city hoop organization and should they collect a reasonable proportion of the hits accounted for in the yesterday classic in every game this season they will be hard to keep from the top.

Johnny Ater, centerfielder for the Auto-Barbers, tuned in three for three yesterday one for the full circuit with two men on bases and Jack Miller, infielder of the merchants and slavers, crashed out a homey against the offering of "Slick" Harrison, Laundry moundman, also.

R. V. Gayley, moundman of the tomorrow's aggregation, held the washers to four hits and one run for the three innings he worked. Manager, Clarence Carl Hunt, fast ball artist, to the mound in the last inning was hit for a triple from the stick of Perdue, right fielder of the cleaners, to score "Possum" Adair for the Laundry's last corner.

CARDINALS GET THE MEASURE OF PIRATES

(By The Associated Press)
PITTSBURGH, May 5.—St. Louis made it two out of three games defeating Pittsburgh today, 4 to 2. The veteran Alexander was master of the Pirate batsmen. He allowed only seven scattered hits.

The score was one all going into the sixth inning. The Cardinals opened up and tallied twice on Holt's triple and singles by Holt, Torley and Bell, coupled with Wright's error and Snyder's rap. They added another in the seventh on a double by Alexander and Holt's single. Hefey muffed Wright's fly in the eighth and the runner reached second. He was eleven home by Grantham's long single. Lloyd Warner collected three of the Pirates' seven hits.

GROVER ALEXANDER
Long young ago, when you and I were young, Maggie, they called him "Alex The Great" but today he is "Alex The Greater." The veteran Cardinal ace yesterday gave his teammates a finer hold of the National League lead when he gave the Pirates seven scattered safeties and bent them 4 to 2.

Westerners Beaten By Slaton Tigers

The Westerners met with difficulties again yesterday afternoon at Slaton and went down in defeat before the Slaton high school Tigers by a score of 10 to 9. Owens, pitcher, for the Tigers was effective against the locals and shifted eight men and allowed only four hits in the five innings in which he worked. He was ratted by Tunnell who was touched for 5 hits by the Westerners.

Because of the wind, Coach Von Tungen, of the locals, started Kennedy, a pitcher also, but was forced to send in Ridge after the Slatonites had romped on Kennedy in the first two frames.

Brothers and Ater took the hitting honors for the locals, getting two 3-base hits while Culler and Cannon, of the Tigers, hit for four bases.

The Westerners will journey to Amherst this afternoon where they will face the Amherst nine.

LOUISVILLE, Ky., May 5.—The Lexington contingent joined in training here for the Kentucky derby in workouts today, but the receipt speakers and fast workers didn't create any dissension among the clockwatchers. HARRISON DEATH

(Continued from Page 1)

Home, 2004 Main street today pending the arrival of a brother, Frank Harrison, who is a teacher in the University of Texas. Other relatives are expected today also.

Immediately following Mr. Harrison's death, word was sent to President Paul W. Horn, who is in Austin. He went over to the residence to the family and is expected to arrive here today.

Classes in the college are to be temporarily suspended following the funeral arrangements.

The following personal tribute was paid to Professor Harrison by Dr. John C. Granberry:

"It is making no invidious comparisons to say that there was connected with the Texas Technological college no more brilliant and promising man than H. C. Harrison. As head of English in the Southwest Texas State Teachers college, at San Marcos, he has already won distinction, and President Horn selected him for the leadership of the English department of the Tech at the very start.

"No instructor at the Tech has made a deeper impression on his students. His was extraordinarily magnetic and inspiring as a teacher.

"In the field of scholarship he was known as probably the greatest authority on Walt Whitman in the state of Texas, and perhaps in the southwest. In those parts he was unequalled in his sympathetic knowledge of present-day poets. Many of us have often been charmed by his unique, elegant readings of a man. His winning personality, his wonderfully human insight and sympathy, his independent and unconventional spirit, the profundity of his thought and nature, and his ever-spreading wit, are well known to those whose privilege it is to have been associated with him.

"His loss is irreparable."
DR. JOHN C. GRANBERRY.

DR. SCOTT GUEST OF DR. PAUL W. HORN

Dr. A. C. Scott, of Temple, is to be here Saturday and Sunday as a guest of President and Mrs. Paul W. Horn. He will be the keynote speaker at the New Mexico state medical convention which meets at Carlsbad and will visit with Dr. Horn, his close friend. While here he will visit the college and Saturday night he will preside at a reception given by the student and his wife at the cafeteria. Faculty members and physicians of the town are to be guests. At this meeting, he will speak on "Qualities in the selection of people for important positions."

LITTLE ROCK, Ark., May 5.—A grand jury investigated the lynching of John Carter, negro, and subsequent disorders by a mob here last night. Governor Martineau ordered state troops to remain on guard duty in the city.

The order was issued after he had summoned Mayor Charles E. Moyer and Sheriff J. M. Hays to the capitol and discussed the situation with them. The governor said it was not within his province to remove any officials from office even should he believe their failure to act justified it.

Carter was hanged and riddled with bullets by a mob of several hundred men following his capture

Daily Market

GOTTON LOSES NEW YORK, May 5 (AP)—The cotton market today lost part of yesterday's advance, under realization promoted by relatively easy Liverpool cables and rather a more hopeful view of crop possibilities in some parts of the flooded area. July contracts sold off to 12.70 and closed at that figure, the general market closing barely steady at net declines of 12 to 17 points.

The opening was easy at decline of 11 to 16 points under selling which appeared to be stimulated by the earlier showing of the English market and reports of reaction in the market for Egyptian cotton futures at Alexandria. Offerings were quite heavy but appeared to be readily absorbed at about the initial prices, and the mid-day market stiffened up on prospects of a renewal of showers with possibly the western and central sections of the belt toward the end of the week. There were also reports of additional overflows in Louisiana, which no doubt promoted covering of fresh buying and prices worked from 12.70 to 12.84 for July and from 12.15 to 12.42 for December or about 7 to 10 points higher. These prices attracted more realization, however, and the market eased off again, reaching the lowest levels of the day for some positions in late trading, when May sold off to 12.50 and December to 12.16. The close was at about the lowest figures of the day.

Reactionary sentiment was more or less in evidence during the day, but selling was restricted by the uncertainty of the weather outlook and realizing was absorbed by fresh buying on the declines.

Local traders consider much will depend upon the character of weather conditions the next few weeks as to the crop outcome in the central valley, and it is expected the market will be very sensitive to developments in this connection.

Private cables reported hedge selling with local and London liquidation in the Liverpool market, but slight improvement in demand for cotton cloth from India, with good clearances at the Shanghai auctions.

Exports today 35,191, making 5,223,543 so far this season. Port receipts today 10,130. U. S. port stocks 1,338,052.

COTTON HAS SETBACK

NEW ORLEANS, May 5 (AP)—The cotton market at times today continued the advance which characterized yesterday's session and brought all late deliveries above the 16 cent line, but unfavorable influences in the form of profit taking and advices that the flood danger above Vicksburg had passed, pushed prices down until at the close they were nine to ten points below the previous close.

At the start Liverpool was lower than due and the market here opened 12 points down. The decline continued after the call July trading down to 12.65 and October 12.31. The forecast for showers in the belt and good values in Liverpool, carried July up to 15.92, October 14.15 and December 12.32, 10 to 13 points above yesterday's close.

Towards mid-session realizing set in and all the morning gain was lost. Prices continued to ease off during the afternoon but received some slight support near the end, but the close was within a point or two of the lowest. Exports for the day totalled 36,137 bales.

WOOL SLOW

BOSTON, May 5 (AP)—Dealers are reporting a little more interest in Texas 2-3 blood, 27 1/2 strictly combing wool. A few large worsted mills are in the market for this grade. The range of grease prices is rather broad. A sizeable quantity of choice Ohio 2-3 blood 50's has brought 42 cents in the grease, but small sales range from 41 to 42 cents.

WOOL POOL SOLD

SALT LAKE CITY, Utah, May 5 (AP)—The Jericho Wool pool, the largest in the country, was sold today to representatives of Kraper and company, Inc. of Boston. The pool of approximately 250,000 pounds brought 39 1/4 cents a pound. Loading and shipping will start today at Jericho, Utah.

CATTLE STRONG

CHICAGO, May 5 (AP)—Cattle receipts 12,000; steady; best heavy steers 12.75; red steers 12.00; 12.00; best Holsteins 7.00; value light kinds 9.50 @ 10.50; strong weights 11.50 @ 12.50. Hog receipts 25,000; 10 and 11 lower than yesterday's average; top 10.55; better grade light hogs 16.25 @ 16.50; 219 to 240 pounds 16.15 @ 16.25; 249 to 325 pound butchers 16.00.

County Due For A Good Farm Season

Plenty of rainfall to supply the needs of farmers and stockmen on the South Plains during May, especially as this relates to Lubbock county, is a reasonable certainty. It is shown in the monthly report of weather conditions here during April issued from the state experiment station. The county is due rainfall of 2.11 inches during the month to bring precipitation for this year to date to the average normal for the period, the report shows.

Only four-tenths of an inch of rain fell during April, while the normal precipitation for the month is 1.92, a difference of 1.62 inches lacking during April. Between January 1 and April 30 only 1.56 inches of rain fell here, while the normal for the four months over a long period of years is 4.92, a difference of 2.11 inches.

While it is not to be presumed that rainfall is governed by records alone, it is admitted that records kept over a long period of time as the ones at the station have, will reveal fairly accurately the antics of the weather man in the past, and records reveal that past records show very little variance in rainfall from year to year at this season.

The report also shows that people of this city sweltered under a maximum temperature of 92 degrees, while the minimum temperature during April was 29 degrees, three degrees below freezing. These two extremes prevailed for only a short time, however. The report shows: Maximum temperature, 92 degrees.

Minimum temperature 29 degrees. Mean temperature 62.63 degrees. Mean departure from the normal 4.84 degrees. Maximum relative humidity 77.5 percent. Minimum relative humidity 21.5 percent. Mean relative humidity 44.64 percent.

Total wind run 5858 miles. Normal wind run 7263.38 miles. Total evaporation 7,287 inches. Number of clear days 14. Number of partly cloudy days 15. Number of cloudy days 1. Total precipitation .46 inches. Normal precipitation 1.921 inches. Total precipitation January 1, to April 30, inc. 1.56 inches. Normal precipitation above period 4.93 inches.
