Teachers Of West Texas Assemble In City

Stanford Man In Feature Address

Dr. Leonard Cites New Methods Aims Toward Freedom

An analysis showing how new curriculum aims in education dovetail with the idea of giving more academic freedom for teacher and pupil alike was presented by Dr. J. Paul Leonard in address before the West Texas Teachers association here Friday morning.

Consultant For 5 States

Dr. Leonard, on the faculty at Leland Stanford university, is a recognized leader in the curriculum revision. A consultant on that work, he has assisted five states in the modernizing of educational programs. He is a co-author of several high school textbooks and an editor of education magazines.

Leonard held close attention from a capacity crowd at the municipal auditorium as he discussed the question "What Do We Mean By Freedom?" He cited goals of various curriculum revision programs, showing how these goals pointed toward the idea of greater freedom in instruction and training.

Dr. Leonard laid down the following outline in what the new curriculum means in the way of freedom for the teachers:

For Teachers

- Freedom to share with the superintendent, trustees and other officials in the formulating of school policies;
- Freedom to examine with students all phases of the social life, with the aim of improvement;
- Freedom to experiment with new organization of materials, going beyond the traditional and conventional;
- Freedom to reorganize out-moded school methods;
- Freedom to act as an individual in the community; and
- Freedom to share in community and national politics; not, however, exerting such influence in the classroom.

For the Pupil

For the pupil, Dr. Leonard said the new curriculum aimed toward these:

- Freedom to work with the principal and teacher in the problems of school control;
- Freedom to work at will without undue restraint of school environment;
- Freedom to work in an environment well supplied and equipped, from the standpoint of working materials and healthful surroundings;
- Freedom to develop as an individual under the guidance of well integrated teachers;
- Freedom to extend the search for truth under a fair appraisal of its value;
- Freedom to select subject matter to meet his needs; and
- Freedom to accept and believe whatever judgment and guidance dictate, with freedom to disagree with the teacher.

Teacher Task Held That Of Personnel

Dr. B. F. Pittenger, dean of the school of education at Texas university, told school administrators of a 24-county area of West Texas today in a luncheon at the Crawford that their task was with personnel to the end that more effective work could be accomplished in

ON CONVENTION PROGRAM

Pictured above are four of the educators who had a part in today's program of the West Texas Teachers association. At top left is Dr. B. F. Pittenger, dean of the school of education at the University of Texas who addressed a school executives' luncheon session and who talked to the general assembly this afternoon. He will talk again tonight at the municipal auditorium. Dr. A. W. Evans (top right) head of the department of education and psychology at Tech; Supt. W. B. Irvin (left below) of the Lubbock public schools; and Jos. E. Griggs (right below) Lubbock county superintendent, were among those conducting a symposium at the morning session, "The New Curriculum In Prospect and In Retrospect."

Registration Approaches 1,000 Mark

New Curriculum Is Major Topic Of Discussions

Those who guide the education of West Texas youth—teachers in two dozen counties of the Plains area—converged on Big Spring today for annual sessions of the West Texas Teachers association.

Registration neared the 1,000 mark at noon, as visitors continued pouring in the municipal auditorium, where general meetings got under way during the morning.

The teachers were here to discuss topics related to the general convention theme, "The Teacher and the New Curriculum." A symposium of "The New Curriculum In Prospect and Retrospect" was conducted by a group of superintendents at the conclusion of the morning session, following an address by Dr. J. Paul Leonard of Leland Stanford university.

Dr. Leonard spoke on "What Do We Mean By Freedom?" connecting the aims of freedom with the goals of the new curriculum.

Those conducting the symposium were Dr. A. W. Evans, head of the department of education and psychology at Texas Tech and a pioneer in the curriculum revision movement in Texas; Supt. W. B. Irvin of the Lubbock public schools; Supt. C. Blankenship of Big Spring; Supt. J. E. Watson and Jos. E. Griggs, county superintendent of Lubbock county.

Afternoon Program

Dr. Leonard's address, feature of the opening convocation, followed opening formalities which included musical selections by the Big Spring choral club. Dr. R. E. Garlin, education professor at Tech and president of the association, presided over the meeting.

Sectional meetings were conducted at luncheon gatherings at the local hotels, and this afternoon was devoted to group discussions.

The latter followed another general session at 2 o'clock, when Dr. B. F. Pittenger, dean of the school of education at the University of Texas, was to talk on "Current Trends in Teacher Education." A

Beer Vote Likely To Total Over 4,500

A total vote of more than 4,500 was indicated on the referendum on beer and wine up to 14 per cent on the basis of voting in the county to 2 p. m.

The four boxes in Big Spring were leading out with balloting at a brisk pace in registering 1,816 votes at 2 p. m.

At that time, voting was still proceeding at a lively clip in all four boxes.

Box No. 3, the largest in the county, had almost a third of its potential vote in at 2 p. m. with 833 ballots listed, and a room full ready to cast their votes.

Both No. 2 and No. 4 had passed the 400 mark with 433 and 402, respectively. No. 1, showing more

Federal Jury To Probe Whitney's Affairs

Arraignment On Larceny Indictment Delayed

NEW YORK, Mar. 11 (AP)—The immediate rearrest of Richard Whitney, five times president of the New York Stock Exchange, on a new charge of grand larceny was ordered today by State Attorney General John J. Bennett, Jr.

NEW YORK, Mar. 11 (AP)—Investigation into the tangled financial affairs of Richard Whitney, former president of the New York Stock Exchange, centered today on the pending federal grand jury probe and State Attorney General John J. Bennett, Jr.'s broad inquiry.

Whitney, through his counsel, Charles H. Tuttle, republican leader, asked and obtained a stay until Monday of his arraignment on a first degree grand larceny indictment obtained in record time late yesterday by District Attorney Thomas E. Dewey. He is accused of taking \$105,000 from a family trust fund.

Postponement of today's scheduled arraignment, was announced just before court opened by a Dewey assistant. Monday's arraignment may also be a mere formality, since the Dewey aide said the prosecutor had no objection to granting the week's delay asked by counsel. He said "he did not know what plan Whitney would make."

Broad Inquiry

The heavy-set, gruff Whitney, five times president of the stock exchange and Wall Street leader through the critical years of the depression, was charged with appropriating securities of "an aggregate value of about \$105,000" for personal loans, from a fund established by his father-in-law, the late George R. Sheldon, leaving in the fund only a single share of Bethlehem Steel, company stock with a market value of \$30.

While Whitney, silently went through the police routine of being booked and fingerprinted, and posted bail, inquiries into the collapse of Richard Whitney & Company went ahead on five other fronts, with at least two of them holding a possibility of additional criminal action.

These two were in charge of Gregory F. Woods, assistant United States attorney, and Ambrose V. McCall, the state attorney general's assistant.

In addition, the stock exchange, the securities and exchange commission and Irwin Kurtz, referee in bankruptcy, were looking into the rapidly-expanding ramifications of the case.

Vienna Virtually Under Control Of Nazi Mobs

Schuschnigg Bows To Ultimatum Saying He Wants To Prevent The Spilling Of Blood

VIENNA, Mar. 11 (AP)—With German troops reported marching into Austrian territory, the Austrian government tonight was being reorganized in a closely guarded chancellery while Nazi throngs virtually took possession of Vienna.

The swastika flag, emblem of Nazi triumph, was raised over the chancellery, seat of the Austrian government.

The government press bureau announced German troops had crossed the frontier at Passau, 140 miles west of Vienna.

Two German regiments were reported to have crossed the border at Kufstein-Salzburg and Rosenheim-Salzburg. It was reported they met with no resistance and were greeted with cheers.

Kurt Schuschnigg resigned as Austria's chancellor. There were suggestions he might assume some post in the reorganized government, possibly the presidency.

Vienna went wild with excitement. Police control virtually ceased. Many thousands, mostly Nazis, paraded through the streets.

A throng charged the headquarters of the fatherland front, Austria's only legal party, which had supported Schuschnigg's losing fight for independence.

They hauled down flags bearing the front's insignia, a double cross.

Britain Puts Out Warning To Berlin

'Grave Concern' Expressed Over Nazi Moves In Austria

LONDON, Mar. 11 (AP)—Britain today informed Germany of "the grave concern of His Majesty's government at methods being adopted" in Reichsfuehrer Hitler's drive to annex Austria.

FRONTIER POSTS STRENGTHENED

BERLIN, Mar. 11 (AP)—The strengthening of German army forces on the Austrian frontier was confirmed today by sources close to the government.

It became apparent here that any restraint Berlin may have imposed hitherto on Austrian Nazis has been removed.

"Various border garrisons on the Austrian frontier have been slightly reinforced," said a source close to the chancellor.

FRANCE CONCERNED OVER NEW EVENTS

PARIS, Mar. 11 (AP)—Foreign Minister Yvon Delbos today called in the German ambassador, Count Johannes Von Wellesch, and directed his attention to what was officially described as "the grave European situation brought on by concentration of German assault units on the Austrian border."

Official spokesmen made no attempt to hide their concern over the turn of events in Central Europe.

Recession Takes 4,000,000 Jobs

WASHINGTON, Mar. 11 (AP)—The business recession has taken a toll of 4,000,000 jobs in the last four months, federal economists estimated today, bringing the nation's unemployed to a total of about 10,400,000.

That total, based on a revision of figures prepared for the president's committee on economic security, is the highest in three years.

After reaching a peak of 10,700,000 in March, 1933, the country's unemployed dwindled to a minimum of 6,132,000 in July, 1937, just before the current recession began.

In October, the unemployed numbered 6,145,000, jumping to 7,177,000 in November, 8,080,000 in December, and 10,181,000 in January.

What Is Your News I. Q.?

Each question counts 20; each part of a two-part question, 10. A score of 60 is fair; 80, good. Answers on editorial page.

1. Who is this inventor's son and what is his job?

2. The U.S. has taken the position that if Americans do not follow his advice to leave endangered areas in China, Japan cannot be held responsible for damage to them. True or false?

3. Are "The Hunches" (a) a French revolutionary organization; (b) a southern society with Klan similar to those of the Ku Klux Klan; or (c) a secret band operating against non-believers in Italy?

4. What nation honors Woodrow Wilson as responsible to a great extent for its existence?

5. What order has Germany issued concerning American Nazi organizations?

Probing Auto License Sales

AUSTIN, Mar. 11 (AP)—Highway officials said today an investigation of possible improper license plate sales was being made in all counties and violations would be reported to highway patrolmen with requests to make arrests.

The announcement was coincident with another highway department would not send additional plates to San Jacinto county where it had been restrained from interfering or helping with registration.

Hearing on a motion to dissolve the injunction is scheduled for the Beaumont civil appeals court March 17.

The department declined to ship more plates to San Jacinto county on advice of W. B. Pope, assistant attorney general, who said it would be a violation of the temporary injunction.

State officials had contended San Jacinto county was issuing license plates to non-residents and residents in return for discounted script, a violation of law and allegedly costing the state \$4,000 daily.

Teacher Task Held That Of Personnel

Dr. B. F. Pittenger, dean of the school of education at Texas university, told school administrators of a 24-county area of West Texas today in a luncheon at the Crawford that their task was with personnel to the end that more effective work could be accomplished in

FD Puts TVA Men On Carpet

WASHINGTON, Mar. 11 (AP)—President Roosevelt told the quarrelling TVA directors today he had been convinced reluctantly that their work was impeded and real issues of public policy obscured by personal recriminations.

The president made a long statement to the three members of the Tennessee Valley Authority's board after they sat down for judgment by the president on charges that Chairman A. E. Morgan on one hand and Directors David E. Lilienthal and H. A. Morgan on the other have made against each other.

Chairman Morgan has accused his two associates of bad faith, responsibility for illegal expenditures and other things.

H. A. Morgan and Lilienthal have charged that the chairman was determined to "rule or ruin" TVA.

"It is intolerable to the people of the United States," the president told the directors in his statement, "that issues of fundamental public policy should be confused with issues of personal integrity and misconduct."

"I have called this hearing," he said, "to investigate charges of dishonesty, bad faith and misconduct."

"This is not an inquiry to determine a national power policy, a national conservation policy, a national flood policy, or any other straight matter of policy. It is an inquiry into charges of personal and official misconduct."

After asking the three directors a few questions concerning their faith in the TVA project and making his statement to them, the president recessed the hearing until after luncheon.

DEATH PENALTY ASKED FOR 19 DEFENDANTS

MOSCOW, Mar. 11 (AP)—Death for 19 of the 21 defendants in Soviet Russia's greatest blood purge trial was demanded today by Prosecutor Andrei Y. Vishinsky at the end of a bitter summation of the government's treason and murder charges.

The only two spared from death were the once esteemed soviet diplomat, Christian Rakovsky and S. A. Bessanoff, a former Russian trade delegate.

For them, Vishinsky demanded 25 years imprisonment.

PLEADS GUILTY TO FRAUD CONSPIRACY

HOUSTON, Mar. 11 (AP)—Harry V. Baker, one time vice president of the bankrupt Sterling and Baker brokerage partnership and the Sterling and Baker Securities corporation, pleaded guilty today to conspiring to defraud customers of the firm.

Baker went before Federal Judge Robert E. Ervin to change a former plea of not guilty to a general plea of guilty.

The broker and five associates were indicted March 2 by a federal grand jury on the heels of an investigation into a bankruptcy loss of \$1,070,000 to Sterling and Baker security customers.

FARMERS TO DECIDE AT POLLS SATURDAY ON COTTON QUOTAS

The last of a series of explanatory conferences on the federal farm program and marketing quotas fixed by the secretary of agriculture was to be held at 10 a. m. Friday on the eve of a referendum Saturday on the quotas for cotton.

Good crowds have heard discussions in several rural areas under the supervision of O. P. Griffin, county agent. Consequently, a large vote is expected in the balloting in the district courtroom here Saturday.

Several cotton producers, said Griffin, have presented themselves for certification as producers during 1937 so that they may qualify to vote in whatever county they might be in on Saturday.

At College Station, George Slaughter, chairman of the Texas Agricultural Conservation committee, said that "all producers who shared in the proceeds of the 1937 cotton crop will be eligible to vote. This means that landlords, tenants, share croppers, farmers who own their own farms, banks, companies, or corporations, or any other individual organizations connected with a farm producing cotton last year have one vote each."

Slaughter explained the term "marketing quotas" to mean that each cotton farm will be given a cotton acreage allotment, which will be the same as the acreage allotment determined for the farm under the 1938 agricultural conservation program.

Should two-thirds of the cotton producers vote for cotton quotas, both the cotton quotas plan and the agricultural program for 1938 will be in effect. In event more than one-third of the cotton producers voting in the referendum are against the cotton quotas, only the conservation program, similar to that of the past two years, will be in effect.

Runaway Boys Are Injured

HOUSTON, Mar. 11 (AP)—Two small boys, Merle Dreddy, 15, and Leo Dreddy, 13, cousins, who said they ran away from their Pickenburg, La. home Wednesday, were injured today in a railway yard.

The boys said they were in a box car loaded with pipe and a switch engine bumped the car, unloading an avalanche of heavy pipe on them.

Two Injured In Highway Crash

Bill Carnett of Los Angeles, and Harold McPherson of Groveton, Texas, were in Big Spring hospital for treatment of injuries received Thursday evening, about 6:15 o'clock, when their car and a truck collided near the Caden refinery east of the city. Carnett and McPherson and another companion were bound for Los Angeles, when they collided with an eastbound truck. It was reported a fire on the truck blew out, causing the truck to swerve into the path of the car. Carnett received a broken left arm, McPherson receiving lacerations about the head and body. The other companion, whose name was not learned, was unhurt. Driver of the truck, Mr. Crawford, also was uninjured.

HOLLYWOOD, Mar. 11 (AP)—Spencer Tracy, likeable mug from Milwaukee, and Luise Rainer, a shy Austrian brunette, were hailed today as the No. 1 stars of the 1937 film year.

Seventeen gold statuettes, the "Oscars" symbols of outstanding achievement in the industry, were passed out last night by the Academy of Motion Picture Arts and Sciences. And the two that counted most—for the best acting—went to Tracy and Rainer.

Recovering at a hospital from an operation, Tracy got the news from his wife that his characterization of a Portuguese sailor in "Captains Courageous" had been rewarded.

"It's the nicest thing that's happened to me in my whole life," he said.

Miss Rainer, a bird-like little figure in a light dress, with her black bangs windblown across her forehead, was present at the

Payne Returns From Roswell All Smiles

Jim Payne, who seems to be going back to operate the Roswell, N. M., West Texas-New Mexico league franchise after all, paid a visit to this city the first part of the week and returned with the announcement that everything is "hunky-dory." He said he city's rabid baseball fans met him at the gates and gave him another key to the city which should go well with the one he received last year when he took the game into Roswell for the first time.

It seems that certain members of his organization weren't so popular with Roswell fans and when all the trouble came up and Payne kicked in with suspensions and whatnot old Gus Q. Fan was right chipper.

This thing is assured. Either Payne will operate the Roswell franchise again or Hobbs will become a member of the WT-NM organization and leave Roswell out in the cold and odds are much better than they were on the Admiral at Hialeah last Saturday that the flag will fly over the Roswell field again this season.

Unsteady Situation

Another development in the loop's news finds that Josh Billings' lack in at Cleveland, N. M., yet it might be just a mere formality that the outfit will go through to install him as chief, but nevertheless, his name is still not on the dotted line.

League President Milton Price has not yet called the year's second meeting as he was expected to do at the first of the week but indications are that the confab will take place in Big Spring Sunday, March 20.

Price, incidentally, intends to ask for a little information on all the league trouble and, at the same time, do a little explaining on some matters on his own hook.

Both Jack Hutcherson and Fletcher Withers, leaders in Big Spring and Midland, respectively, are expected to return to West Texas from their trip to Los Angeles, California, by Sunday.

Fincher has his National Baseball school players all signed, secured and ready to deliver but no word has been heard from Hatch who was expected to bring back at least four signed contracts.

Judging by their names and their names alone, Jack will have to go a long way to better Withers who seems to have signed up all the Poles and Italians in southern California.

Pitchers' Nightmares

There were 20 home runs with the bases loaded in the American league last season, according to the records, with Joe DiMaggio of the New York Yankees coming in for more than his share of the grand slams by connecting with three with the sacks populated.

Probably his greatest individual swing of the season came off Bob Feller July 18 in Cleveland when he waited until the ninth inning to smash a fast ball over the fence with three bases aboard. His swing was the ball game, 5-1.

DiMagg also hit them out with the pockets crammed on July 5 and Oct. 2, the last day of the season.

The National loop was good for 17 four-run homers with Alex Kampouris of Cincinnati and Dolph Camilli of the Phillies connecting with two each.

Incidentally, as long as Jimmy Wilson, Phillies manager, can dispose of players like Camilli for 50¢ as he did last week to Brooklyn, then he's setting pretty as the National's leader.

Dolph is 29 years old and by no means the No. one custodian of the senior circuit.

Eight fans interested in tonight's brawl between Maxie Baer and Tommy Farr may be interested to know that there is a tragic connection to Camilli and the Livermore ex-champion. Frankie Wilson was clubbed to death one evening eight years ago in a California fight with Baer. Camilli's mother was also the parent of Frankie.

Don't plunge too heavily on Farr tonight, either. Flitana is due for a surprise, we believe, when Maxie takes the ring, a surprise that will

17,000 DUE TO WATCH BAER AND FARR

bringing a victory to the Californian within five rounds.

The public has never really understood Baer and probably never will. When he first started up the ladder he had the makings of one of the most colorful fighters of all times. Press agents built him up and forced him to do several things he really didn't want to do. All that is over and forgotten and Maxie will be fighting to keep fighting.

The bout will be broadcast over the blue network of the National Broadcasting company at 9 p. m.

LOCAL PUGS TO ANGELO TONIGHT

Local battlers were scheduled to leave for San Angelo this afternoon where they have been booked to battle on Don Legge's AAU ten-bout program tonight in the San Angelo Athletic club.

The trio were Alton Bostick, welter; Red Womack, bantam; and Johnny Owens, feather. J. C. Wallace, middle, had been invited but declined the offer.

Bostick's opponent will be David Williams of Abilene. Womack will oppose Cecil Knox, scrappy San Angelo brawler while Owens will take the ring against Jimmy Smith, San Angelo.

Bostick showed his wares in the Concho City along with three other local battlers and marked up a three-round technical knockout.

Sammy's Quint, Wacoans Play For Title

All-Stars Win Over E. M. Kahn; Padgett Licks Dr. Pepper

DALLAS, Mar. 11 (AP)—Sammy's all-stars of Dallas and the Tom Padgett quintet of Waco will clash here tonight in the finals in the Southwestern A.A.U. basketball tournament. E. M. Kahn and Dr. Pepper, both Dallas clubs, will play for third place.

The all-stars defeated E. M. Kahn 40-32 last night. The Padgett cagers eliminated Dr. Pepper 46-44. The last 30 seconds of play spelled victory for the Wacoans when Loy Gilbert, forward, scored a free throw. With 10 seconds remaining Grady Vaughn, guard, hit another free throw.

BERG AND MILEY IN GOLF FINALS

BELLEAIR, Fla., Mar. 11 (AP)—Patty Berg went after her fifth victory of the winter golf season today, but at best she was only an even money choice to succeed.

Opposing her in the finals of the Belleair women's event was Marjorie Miley, playing some of the best golf of her career. On their season records, Miss Berg was an odds-on favorite, but Miss Miley's play this week had been the brightest in an improving field.

Miss Miley fired a 78 yesterday in defeating the six times national champion Glenna Collett Vare, one up.

Patty swept through a 6 and 7 decision over Bernie Wall of Oshkosh, Wis.

Man O'War, 18 Years After, Still Champ To Caretaker—

'The Greatest Horse' Is Almost 21

By KEN WHITE
LEXINGTON, Ky., Mar. 11 (AP)—Man o' War comes of age March 29. And the way we get it from Will Harbut, Man o' War is still the greatest horse alive.

Man o' War was foaled March 29, 1917. Technically, of course, he was 21 January 1, for every registered thoroughbred becomes a year older in the record on the first of the year, no matter if he was born December 31.

"They ain't never been a horse like Man o' War," says Will. "And furthermore, they ain't never likely to be one."

Will is Man o' War's personal valet. He has a chest like a potat barrel, a toothpaste-ad smile and a drawl you could slice with a butter knife.

On Samuel D. Riddle's Faraway farm near here, the big negro per-

Maxie In 1st Gotham Start Since K.O.

Welshman Still Betting Favorite, Holds One Decision

NEW YORK, Mar. 11 (AP)—Max Baer and Tommy Farr pop out of the files of the "holium" department and tangle for 15 rounds or less in Madison Square Garden's ring tonight.

Tommy is a 7 to 5 favorite to repeat his 1937 London victory over Max. Baer, who was knocked out by Max in the 15th round of the fight which was the last of the affair will undoubtedly be those unsuspecting members of the fistful faithful who sit and watch the thing. Promoter Mike Jacobs figures some 17,000 cash customers will contribute to a gross gate of \$75,000—but he'll settle for less.

Max, you remember, used to be the world heavyweight champion. But Jim Braddock took the bubble away from him, and Joe Louis gave him a complete going over, from top to bottom, in Baer's last New York start.

Farr is the British empire titleholder. That sounds imposing, but to win that honor, the scarred Briton outpointed Ben Ford in 15 rounds, and Ben is the lad who was manhandled quite thoroughly by Max Schmeling and stopped cold in nine rounds by Baer.

Since coming to this country several months ago, Tommy's only victory has been for his pocketbook. He collected \$60,000 for losing a 15-round decision to Louis, and cut himself another neat piece of change for finishing on the short end against Braddock.

Nowak Sent Back To Giant Training Camp

Rookie Was Coaxed Into Cleveland Camp Monday

NEW ORLEANS, Mar. 11 (AP)—That 19-year-old rookie second baseman, Bill Nowak, resumed his commuting today between the New York Giants and the Cleveland Indians.

But this time he had a little legal advice on where to get off the train and where to hang up his hat.

Stepping into the Giants-Indians territorial battle over the young gentleman from Detroit, Judge William Bramham, minor league czar, told Nowak in a telegram last night to haul himself off to the Jersey City club, a Giant's farm.

"And if anyone tries to stop you from reporting," said the judge, "you are to let me know."

So Nowak, who probably has covered more ground this week than any other rookie in the big league camps, took a train for Baton Rouge, La., where literary William Terry, Giants manager, was waiting with his baseball team.

Last Monday Nowak was training with Terry and the other Giants. He disappeared in the dark of the night and next day was stopping grounders with the Indians in their training camp in this city, which is about 100 miles from Baton Rouge.

FORSAN GIRLS LOSE IN AAU TOURNAMENT

GREENVILLE, Mar. 11 (AP)—Eight high school girls basketball teams play here today in eliminations for the finals tomorrow in the state A. A. U. basketball tournament.

The pairings: Celeste and Mequitta; Bailey vs. Allison; Meadow vs. Elysian Fields, and Cookville vs. Miller Grove.

Bailey eliminated West 15-10 last night. Mequitta disposed of Wolfe City, 20-34.

In consolation games, to be played at Lone Oak, will be Hereford vs. McKinney; Emory vs. Friendship; Caddo Mills vs. Lone Oak, and Leesburg vs. Van Horn.

Miller Grove advanced with a victory over Forsan while Celeste was defeating Courtney.

Yank Manager To Test New Combination

Henrich Goes To RF, Selkirk To Left And Hoag Into Center

By the Associated Press

ST. PETERSBURG, Fla.—A new outfield alignment for the New York Yankees with Tommy Henrich in right field and George Selkirk in left flanking Joe DiMaggio is planned by Manager Joe McCarthy. Myril Hoag will play center until DiMaggio signs his contract.

McCarthy believes "Selkirk can play any field" and that Henrich's great arm will cut down runners at third base.

TERRY SIGNS LES POWERS FOR JERSEY CITY JAIANT
HAXON ROUGE, La.—Bill Terry has shown he is not entirely settled on his 1938 first baseman by wiring Les Powers his terms had been accepted. He said he was forced to do it because Travis Jackson wants Powers for Jersey City—but the first baseman will work out with the New York Giants.

MUNGO-GOMEZ BATTING BETS IN AIR AGAIN

CLEARWATER, Fla.—One of those Mungo-Gomez batting bets is in the making. The Brooklyn Dodgers' fireball ace has made nine hits in 12 trips to the plate in intrasquad games and is batting .750. He's just about in the mood to make another of those long-odds bets with Gomez that he will out-batter the Yankee hurler by 100 points.

HARRIS PUTS AL SIMMONS IN CLEANUP POSITION
ORLANDO, Fla.—Al Simmons, who batted only .270 for the Washington Senators last year, has been assigned tentatively to the cleanup position in the batting order. Simmons has been pepping the fences in batting practice and says Manager Bucky Harris, "is the ideal fourth place hitter if he can make a comeback."

Stanford Favored

SAN FRANCISCO, Mar. 11 (AP)—Angelo "Bank" Luisetti and his Stanford teammates will be favorites here tonight in the first game of their playoff basketball series with University of Oregon for the Pacific Coast conference championship.

Baylor's Bill Patterson Has 'A' Average

Bear Grid Ace Passes Studies With Flying Colors

DALLAS, Mar. 11 (AP)—Burly Babe Ritchie, the Lubbock youngster who battled his way to the semi-finals of the National Golden Gloves heavyweight division and then decided he wouldn't go back to Chicago and scrap again, has changed his mind. He'll be in the ring in the Windy City tonight, trying for a finals berth.

Houston's blooming fight game got a stiff jab the other night that could hurt. Kid Azteca, the Mexican who ranks as the world's fourth best welter, the one the fans came to see, wasn't in shape to be in the same ring with Kenny Lee-Salle, report said. Brainy Ed McKeever, Texas Tech's star quarterback, has compiled a "quarterback's Bible" which he presented to Tech's signal callers.

Tyler baseball officials punched the wrong typewriter key in sending a letter to Fred Thompson, husky pitcher. The letter said to report on March 8, which Thompson did. Officials meant March 21. The problem was finally worked out when the moguls put Thompson to work on the park! Jim Mosolf, the former Dallas outfielder who quit baseball, will take his post behind a dental chair.

Channing, county seat of Hartley county, has only eight girls in high school but a basketball team was formed and they won 18 of 24 games played. The girls scored 637 points against their opponents' 464.

In case the fans are wondering whether Bill Patterson, Baylor's brilliant bomber, will be around next grid season because of scholastic requirements, he just marked up an "A" average in his studies. And Hub Kirkpatrick, the Bruin basketball player who set a new conference scoring mark, has a "B" plus average and teaches a Sunday school class.

Mack Warns Of Athletic Suprise

Is In Market For The Men Club Needs

Asks Fans Not To Expect Too Much Of Him This Year

LAKE CHARLES, La., Mar. 11 (AP)—The Philadelphia Athletics, once a proud team, haven't a chance in the world of climbing out of the American league depths this year, admits their 75-year-old manager, Connie Mack. But he is determined to build himself another championship club before he quits.

Connie has surprised everybody by his remarkable physical comeback since he came to training camp. He lost 30 pounds off his already spare frame during the winter and there was fear that the patriarch would find another active

Golfers At The CC Sunday

Local Club Will Be Scene Of Mixed Foursomes

Golfers who will compete in this season's Sand Belt golf league will converge at the Big Spring country club Sunday for a series of mixed foursomes beginning at 10 a. m.

Representatives from four West Texas cities met with a local committee last week and elected officers for this year's organization and lined up Sunday's matches.

Coming into the league for the initial time will be Crane who is expected to have golfers on hand here for the events. That city's malleable welders took the place of Lamesan who dropped out of the circuit after four year's operation. Midland, Colorado, Odessa, Stanton and Big Spring will be represented at the Sunday meeting.

Garner Awards Cage Letters

GARNER, Mar. 11—Coach Floyd Burnett of Garner high school announced Thursday that he had lettered eight members of his 1938 basketball crew.

The Thomas twins, R. C. and R. V. Jones, B. Brown, Jeffcoat, Brown, Denton and Walker were awarded the numerals.

The Billies will lose the Thomas duo by graduation at the finish of the school semester.

The Garner quintet was defeated by Forsan for the county championship by a count of 30-25.

The Garner girls eagles brought their season to a successful close last week, winning 35 of 36 games played.

Fem letters were awarded to E. Chapman, Long, Smith, Newcomer and Harland. Only Newcomer will be lost by graduation.

Every girl on the regular team made an all-tournament team during the season, it was discovered. The fems capped honors in the finals of the county championship by stopping the strong Forsan entry in the final battle, 27-24.

Track Drills In Ward Schools Begin Monday

Seek To Start Youngsters At Early Stage

City Meet May Be Held Next Month, According To Pat Murphy

High school's athletic director, Pat Murphy, will get his spring machinery working Monday afternoon when youngsters, ten years of age and up, report for a try at the track and field teams of the various ward schools of the city.

Teachers of six Big Spring institutions, including the Kate Morrison school, will assist in helping train the youths for future participation in track and field events. The seven grade classes will conduct a separate training schedule from the ward schools. Events open to the seven graders will be the 50-yard dash, 100-yard dash, 220-yard dash, 440-yard relay, broad jump and high jump.

The fifth and sixth graders will be distinguished by 15-year age limit. The 50-yard dash, 100-yard dash, 440-yard relay, broad jump and high jump will be open to these classes.

A ten-year age limit will apply to third and fourth graders. Four events, 50-yard dash, 200-yard relay, broad jump and high jump will be permitted to those students.

Two entrants from each division will be allowed in the 50 and 100 yard dashes but there will be no limit placed in the other fields.

A city meet with all six schools taking part will probably take place around April 1, Murphy said.

Permanent records, to be placed on file at the high school, will be set up following all meetings, giving next year's young athletes something to fan for.

The Texas planning board says some landowners in that state have entire mountain ranges and rivers on their ranches and one has 40 miles of navigable rivers on a farm.

Mineral Wells Into Oil Belt

AUSTIN, Mar. 11 (AP)—The Inter-scholastic league executive committee today authorized transfer of Mineral Wells from District 7 to 3 in the Class A football conference.

The change takes the school out of competition with Fort Worth teams and places it in the "Oil Belt" district, which is divided into two sections.

Because of its location, it was expected Mineral Wells would be assigned by the District 3 committee to the eastern division which includes Breckenridge, Eastland, Stephenville, Ranger, Brownwood and Cisco. The western division has Sweetwater, Abilene, San Angelo and Big Spring.

Application for the transfer was made some time ago.

Spanish galleons of the 15th-17th centuries served both as war and merchant ships.

Political Announcements

The Daily Herald will make the following charges for political announcements (cash in advance):

District Offices \$25.00
County Offices 15.00
City Offices 5.00
Precinct Offices 5.00

The Daily Herald is authorized to announce the following candidates, subject to the action of the democratic primaries in July, 1938:

For Representative 91st
Legislative District:
DORSEY B. HARDEMAN

For District Judge:
(70th Judicial Dist.)
CECIL COLLINGS
PAUL MOSS
CLYDE E. THOMAS

For District Attorney:
(70th Judicial Dist.)
MARTELLE McDONALD
WALTON MORRISON
BOYD LAUGHLIN
Donald D. (Don) Traynor

For District Clerk:
HUGH DUBBERLY
(Reelection)

For County Attorney:
JOE A. FAUCETT

For Sheriff:
JESS SLAUGHTER
(Reelection)
W. D. (Walter) COFFEY
FLOYD (Pepper) MARTIN

For County Judge:
CHARLIE SULLIVAN
(Reelection)

For County Treasurer:
T. F. SHEPLEY
MRS. J. L. COLLINS
R. A. (BOB) MARSHALL

For County Clerk:
R. L. WARREN
(Reelection)
LEE PORTER

For County Superintendent:
ANNE MARTIN
(Reelection)

For Tax Collector-Assessor:
J. F. WOLCOTT
(Reelection)

For Commissioner, Pet. 1:
A. A. LANDERS
J. E. (Ed) BROWN
(Reelection)

For Commissioner, Pet. 2:
G. W. (Wyatt) EASON
ARCH THOMPSON
(Reelection)
W. A. (LON) PRESCOTT
ELMO P. BIRKHEAD
H. T. (THAD) HALE

For Commissioner, Pet. 3:
H. H. RUTHERFORD
(Reelection)
J. S. "JIM" WINSLOW

For Commissioner, Pet. 4:
J. L. NIX
ED J. CARPENTER
(Reelection)
Albert (Dutch) McKinney

For Constable, Prec. 1:
JIM CRENSHAW
(Reelection)
A. C. (Andy) TUCKER

Man o' War
20 victories in 21 starts

sonally looks after the grooming of his charge. He likes to recite the record of the horse that lost only once in 21 starts as a 2- and 3-year-old and since has sired well past 250 thoroughbreds.

Does Big Will love that horse? Sitting there in the tackroom beside a purring stove, Will looks up

from his polishing. It's Man o' War's saddle he's "dusting up a bit." Each stroke is a caress. "I don't want to be famous no-how. Man o' War's famous—that's enough."

"Look At Them Legs"

Across the concrete drive, in a spotless white barn bordered in green, Man o' War munches his hay.

Big Will leads the way. "Gentlemen," he says, "you are looking at the greatest horse of all time."

"His teeth is perfect, his wind is perfect, his disposition is perfect—and, gentlemen, look at them legs. Ever see legs like that on a horse Man o' War's age?"

Man o' War entered the stud in 1921, and is still in demand. His foals, through last year, averaged race earnings of \$8,386. They won 846 races, placed in 732 and showed in 645. The average per foal stands at the top among averages of 37 leading sires listed in available records.

"Big Red" has sired two Kentucky Derby winners—War Admiral (1937) and Clyde Van Dusen (1929).

Man o' War himself, so honored in the Bluegrass as Lexington American Legion post was named after him, never won the Kentucky Derby; did not, in fact, ever race in Kentucky.

Purses Were Smaller

He suffered his only defeat when, as a 2-year-old, he ran second in the Sanford Memorial at Saratoga.

Man o' War earned \$249,465 in his two years on the track, but Big Will says if purses had been the same in "Big Red's" day as now he would have won \$600,000.

"Big Red" does about seven miles of road work daily this time of year. A little jaunting, a little walking, a little galloping.

Man o' War's day starts at 4 a. m. He thick mattress of straw is changed first thing, then he breakfasts on oats, timothy and clover.

Big Will grooms him at 6:30. As soon as he comes back from his workout, Big Will grooms him again. At 11 he gets his oats and hay and some bran.

From a little after 12 until 3 Man o' War preens in the paddock, then Big Will leads him back in for you guessed it!—a third grooming. It's time then for oats and hay again.

Six o'clock is "lights out" time. A night man watches the famous sire's every move until he is relieved at 4 a. m.

There will be a birthday party at Faraway farm March 29.

Big Will—he'll be there. And he'll be saying:

"Gentlemen, you are looking at the greatest horse...."

campaign too strenuous. But he's got 10 pounds of it back and, by his own admission, is eating like a horse.

He was bright-eyed and chipper as he sat in the lobby of another of those old-fashioned hotels he seeks to locate instinctively in any city, and spoke of his plans.

"My club's coming along," he about ready to support another said. "It's not ready yet to beat

any of the six clubs that finished ahead of us last year, but in another season or two we're liable to surprise everybody and jump up several notches.

"But I'm not going to wait too long. I'm preparing to go into the market for the men I need. My town is living up again and is about ready to support another championship team."

Our Best Wishes To...

TOBY'S

... Big Spring's Newest Store!

We Furnished the
MATERIALS
For Toby's Store

Toby's New Apparel Shop Is Making Its Bow To The Big Spring Public Today

Store At 123 East Third Will Specialize In Smart Styles At Medium Price; Owner Well Known

With a complete line of women's and girls' apparel and accessories, Toby's new store at 123 East Third street will be formally opened Saturday to the people of Big Spring and territory.

The city's newest shops for women and girls is to specialize in smart styles at medium prices and is working under a new purchasing arrangement calculated to keep it abreast of fashion every day of the year.

Toby's takes its name from Dave Tobolowsky, its operator. Toby, as he is known over West Texas where he has been in the women's apparel business for years, is well known in Big Spring, having spent four years here in charge of a similar shop to the one he now is opening. He also operated that type of store at Abilene, Amarillo and Breckenridge.

In opening his new store, he said that he "picked" Big Spring because it is the best business town in this region, and because he has found through long experience that the people of Big Spring and area are the most friendly and cordial of any he has known.

Toby's has more than 500 new dresses, a large stock of smartly styled coats, hats, and all accessories. By arrangement with a New York purchasing agent, he will receive regularly latest styles. "These come to me as they appear on the market," he said. "I have an understanding with my agent that he is to ship them to me immediately. This forestalls periodical shipments of new and seasonal merchandise."

The store is opening in a completely remodeled space previously occupied by the Thorp Paint and Paper store. It has an attractive front and spacious display windows. The interior, finished in tan and duobonnet, is roomy, yet well arranged.

FIVE ACCUSED OF KILLINGS AWAIT JURY'S ACTION

RIO GRANDE CITY, Mar. 11 (AP)—Five special deputy constables accused of slaying three men have been lodged in jail at Hebbronville to await action of the Starr county grand jury here. The grand jury convenes Monday.

Chief Deputy Sheriff Octavio Sanchez said there was "no trouble brewing here," but that county officers and state rangers had agreed it was best to transfer the prisoners.

The shooting occurred Sunday and the transfer was made Tuesday, it was revealed.

NORTH AMERICA IS TOPIC OF STUDY

Colorful North America is being studied by the fifth year group at South Ward.

Amid igloos, deserts and cacti, northern forests, southern farms, and such colorful scenes from Canada and Alaska, Mexico, and the United States; the South Ward fifth graders are thoroughly enjoying their social study unit—burning wood sketches, molding and painting Mexican pottery; painting gayly-colored pictures, posters and booklets.

ITINERANT CASE REACHES JURY

HENDERSON, N. C., Mar. 11 (AP)—Clarence Fairbanks, 24-year-old itinerant who said he slew his showman-employer, Steve Good, in self-defense, may learn his fate late today.

Arguments to the jury continued at his trial today, and as each side was limited to three hours, it was expected the case would reach the jury early in the afternoon.

Good, a native of Cason, Texas, was found hacked to death with an axe in his truck-trailer home January 6, and his pretty young wife was badly cut up.

Fairbanks, the only defense witness, admitted he killed Good, but said he did not strike Mrs. Good, who, he said, he heard scream in the front part of the trailer before Good came out and lunged at him with the axe.

Rev. Schurman Is Named Curator For Howard Payne

Rev. G. C. Schurman, pastor of the First Christian church of Big Spring, has received appointment as curator at large for Howard Payne college, a Baptist institution at Brownwood. While living at Brownwood Dr. Schurman helped to found the museum of the college, and made a substantial contribution of a collection of prehistoric artifacts that he had collected from all over the world. His duties under the new appointment will not interfere with his work as pastor of the church here. It will be his task to keep a lookout for any museum pieces in his territory and appraise their value and authenticity, and try to secure them for the college collection.

Radios Installed At North Ward

During the 1936-37 term the Parent-Teacher organization decided to equip the North ward school with radios. Last week this goal was accomplished. Now in every classroom in this school there is a radio.

One may ask the question: Why have radios in the school since there is no time on the air given to a "school program" or "a children's program" during school hours. But the public would be surprised to see how eager the children are to turn on the radio. Since newspapers and magazines are lacking in many of the homes of our boys and girls, the news broadcasts, stories and musical programs which come over our radio are listened to with interest.

The creation of the Texas Radio Council with a membership representing various organizations, including the schools and colleges, should succeed in obtaining programs that will be of interest to the school radio audience.

SOUTH WARDERS WIN
The South Ward basketball players defeated the West Siders 12 to 10 Monday afternoon after school. Ray White of South Ward made every field goal for his team except the one Winifred Cunningham tossed in.

BAPTISMAL SERVICE TONIGHT AT FOURTH STREET CHURCH

A baptismal service will be held this evening at the close of the regular preaching hour in the current revival meeting at the East Fourth Street Baptist church. A large attendance was reported at last night's service, and there were five additions to the church. Since the revival was opened by Evangelist W. Y. Pond, there have been 143 additions.

Rev. Pond will speak tonight especially to young people's groups, using the topic, "Jesus, the Way of Salvation." The service begins at 7:45.

The revival will continue through Sunday night.

Garner Girls Drill For Volley Ball Year

GARNER, Mar. 11—Volley ball practice is now under way at the Garner high school with Miss Alene Salsar handling the coaching reins.

Prospects are bright for the Billie's this season since most of the regulars of last season's county championship girls' aggregation have returned to action.

Mike A. Barrett was the mentor of the team in 1937.

Mooney Fight For Freedom Is Again Futile

Bill In California House For Pardon Is Voted Down

SACRAMENTO, Calif., Mar. 11 (AP)—A dramatic fight by Tom Mooney before the California state assembly to win a legislative pardon failed today.

A unique bill to free Mooney from San Quentin prison, where he is serving a life term for the 1916 San Francisco Preparedness Day bombing which killed ten and injured 49 people, met the same fate as every other attempt in his 21 year fight for vindication when the assemblymen refused to stay in session after 12:35 a. m.

After hearing Mooney himself repeat his oft-told story that he was "framed," the assembly voted 39 to 35 to free him, two short of the necessary majority of 50 members. Since two assemblymen have died there are actually only 78 members but the speaker ruled 41 was necessary for a majority.

Then began a long night session during which the sergeant-at-arms tried to round up four missing members. The bill finally failed when the assembly voted 28 to 23 against remaining in session longer.

Assemblyman Ellis E. Patterson promptly announced he would bring the measure up for reconsideration at today's regular session when all members were expected to be present. Opponents predicted he would fail.

GUFFEY BREAKS WITH PARTY IN BACKING CIO

WASHINGTON, Mar. 11 (AP)—Senator Joseph E. Guffey split with Pennsylvania's democratic state committee today to support C. I. O.'s Thomas P. Kennedy for the gubernatorial nomination.

"In Pennsylvania the democratic party cannot win without labor and labor cannot win without the democratic party," Guffey said, in announcing his support for one of John L. Lewis' right-hand men.

The formal statement by the senator who has been Pennsylvania's democratic leader for years touched off excited speculation in the politically-minded capital.

Guffey has been a leading supporter of President Roosevelt and his policies.

ONE DEAD, EIGHT HURT IN AUTO COLLISION

GLADEWATER, Mar. 11 (AP)—A collision near here last night killed Louis Goslin, oil well driller, and injured eight. The driver of the other automobile, L. C. Hounsell, switched for an oil company, was in a critical condition.

Hounsell's wife, Blanche, and their four children, ranging in age from one to seven years, suffered minor injuries.

Norman Lou Gillam and Ray Mackey, in the automobile with Goslin and three others, were injured slightly.

Student SCHOOL ACTIVITIES Parent-Teacher

Modern Education Aims At Supplying Needs Of Children Facing Changing Conditions

Integration Of Homemaking Education In Elementary School Discussed By Director Of Local System

THOMAS E. PIERCE
Director Elementary Education
Big Spring

Changes in any social institution like the home, the school, or the church are difficult to see, because they usually come slowly and progress unevenly. At one time they grew in size, at another in material things, and at another in responsibilities placed upon them by the community. To get a perspective of types of progressive changes going on in the elementary schools, suppose we look back at the schools of a typical Texas community in the early 1900's—that is, about 30 years ago.

I might draw for you a picture of the interior of the schools of those days. They were rectangular rooms filled with rows of stationary seats. They were planned for sitting and receiving an education rather than for busy movement about and getting one. One writer has said that those old school rooms seem to have been planned for old people who wanted to be left alone to sit and dream. In those schools there were no libraries, no work shops, and little or no working space other than the desks.

Active Learning
But the new schools are equipped with materials for active learning. Many books rather than a single textbook develop habits of curiosity and research. Elementary schools as well as high schools have libraries. Whole classes find material for their reports. An elementary class which is studying kinds of food, how and where such food is grown, and in summarizing its study on charts will need work tables and work tools. The children do much less sitting still to listen and much more active drawing, cutting, arranging, explaining, and constructing. The present-day theory of learning which insists that we learn to do only by doing brings about a curriculum of things to do, things to experience, things to plan, things to accomplish, and very suitably classroom method consists of providing opportunities for worthwhile doings.

Obviously, the point of view of the educational program has been changed from that of mastery of subject matter to that of supplying the needs of growing children in very complex and rapidly changing social and economic conditions. The goals are stated in terms of desirable qualities of personality and character. With the objectives or goals determined, experiences or subject matter is chosen which will be needed for their accomplishment.

I like to classify such subject matter as education for family living. All people experience home life of one kind or another continuously from birth until death. It then becomes the privilege of the elementary school to represent present life, life as real and vital to the child as that which he experiences in his home, in his neighborhood, and in his school playground. His experiences must be satisfying at each level and help him function better. The child is our standard, and the curriculum should conform to his requirements. We expect our children to live together normally, to learn and to develop naturally, and to do the things characteristic of their age level. We hope boys and girls

are adjusting themselves and are developing interesting personalities as we guide their experiences. In the progressive growth and development of the child, he passes from the self-centered infant gradually to the recognition of the worth of others. At this time emphasis should be placed on sharing. In his emotions he passes from love of himself to love of parents, of family and group to mating and parenthood.

Before the child's entry into school, he has known the affection, the protection and security of the home. When he enters school, he finds himself surrounded by boys and girls who must necessarily use much of the same equipment in which he is interested. Heretofore he has had the problem of getting along with only the neighborhood boys and girls. In the modern elementary school we attempt to help the child become more independent, secure, and self-reliant by making the school environment at least a little similar to his home situation. His aid is sought in making and keeping his school home attractive and livable. As a concrete example I cite you to the work tables, chairs, hanging and storage space designed especially for the comfort of the school child at varying ages.

Must Know Homes

No school can realize its fullest potentialities without a thorough knowledge of the homes of its children. Through them we know the strengths and weaknesses of the children of our school and can guide the experiences accordingly. What child does not enjoy being able to do alone those things which adults have done for him? Our elementary teachers capitalize this point and give the children an opportunity to perform such duties as hanging up their wraps, going to the toilet, avoiding traffic, and developing health habits, etc. If the school is all that it should be, the child can find his interest and develop it creatively and self-critically. The teacher sees to it that the child knows success, learns to take both success and failure, and behaves acceptably toward success of his fellow associates.

No better training for home living could be found than in a situation requiring the sharing of common equipment, and in the careful use of such equipment. Such cooperative living is pure democracy. Yet every child should experience working alone on a problem.

The love of family life can well be emphasized by caring for school pets. A mother dog and her puppies may not only teach parental love, but may be the beginning of sex education.

The "Gang" Age

The gang age is characterized by great activity and exploration. Children of this age are further developing those experiences begun in the early primary years. For instance, in making the school home more attractive and livable, the children might include the cost of such procedure, consider the lighting of the room, and develop some skill in jobs like painting, mounting pictures, etc. They are especially interested in making things for the room, as a calendar, curtains, book ends, pictures, etc.

In the school and in the home boys and girls can experience and practice enjoyment of the companionship of the group, initiating, planning, executing, and evaluating experiences in group living and recreation.

Occasionally the actual preparation and service of simple food for club parties might occupy their time. They may set tables, decorate, and entertain guests. Again they may collect costumes and scenery for plays.

Interested In Environment
The pre-adolescent is interested in activity, in knowing more about his environment. Things mean more to him than do relationships. Yet we must not lose sight of our opportunity to assist him in facing adolescence with its complicated social adjustment. Normally these children will be assisting with home activities. Therefore we might as well give them experience in the use and care of tools used to save labor and to improve home life. Naturally leisure time will have to be considered. Modern inventions and cooperative enterprises and their costs will need to be studied. From such a study the child will acquire an appreciation for the complexity of family life. Too, he may become interested in improving school living conditions.

In order to interest children in participating in the regular home activities, the school might set up a home like atmosphere with equipment similar to that used in the children's homes and give them experiences in planning, preparing, and serving meals such as they would at home. Other family rooms at school might be used much as they would be at home.

I can not call to mind a single unit in the elementary school in which there is not some need for education for family living. If our homes are to be happy and smooth running cooperative enterprises, then our elementary schools must offer those experiences that will cause children to live fully and richly at each level and assure them emotional comfort in the schoolroom and on the school playground.

NEW STUDENTS

Johnnie, Gloria, and Sylvia Jo Moore, who moved from Wink, Texas to Big Spring, enrolled in the South Ward School this week.

Interesting Sights Promised The Visitor To Third Year Room At The Central Ward School

By S. M. MCLENDON
Central Ward

Would you like to spend a pleasant half hour? I am sure you would, if you visited our room. You would see a collection of bird nests, one of which is a vireo's nest. In it are some eggs which may have been laid by a lazy coward that didn't want to incubate her own. Apparently the vireo had remade her nest over the bird. There is also a collection of bird pictures and a real "Burrowing Owl" that was stuffed in the room just this week.

A chart showing cotton, from the seed through the blooming stage, mature boll, and to the seed again, is on one side of the room. It is not made of just pictures but of the real thing brought in by an observing and interested child. There is a picture which has this title "His Mother was a Moth—But He Chews Tobacco." Have you guessed what it is? Yes, the tomato or tobacco worm as it is called. We had a real live one which we fed until it burrowed into the ground and made a cocoon. We are now waiting for it to change into a large moth. We have three jars containing cocoons of several kinds of caterpillars. These are due to hatch anytime now. We also had several cocoons of flies but they have already hatched.

From Flowers To Tadpoles
On our window shelves are flowers of many kinds. Some have been rooted from cuttings and some we have grown from the onion-like bulbs which we planted last October.

The most interesting thing to be found is our aquarium. It is an ordinary enamel mixing bowl about four inches deep. You would be able to spend your entire half hour just watching the interesting things we have in it. The first thing you would notice is the marsh grass and moss growing at one side. Then you'd see the tadpoles and the snails. There are long jelly-like things that seem to have small white dots in them. The children know from observation that these jelly-like things are snail eggs. By observing carefully we found that the water snails have eyes at the base of their long feelers and that our land snail has eyes in the tip of its feelers. There are several kinds of snails in the bowl; one red, one black, and many small pond snails. Some are as big as a pin-head. We have had the tadpoles since the first week in September when they were hatched from eggs. The larger tadpoles have hind legs now. If you look closer you will see other insects which somehow resemble a crayfish, but are not crayfish. They are fourths of an inch long and about one-eighth inch wide. Do you know what a dragon fly nymph looks like? We know because we found the shell of one of the crayfish looking insects on the side of the bowl and near it a dragon fly with its wings still crumpled.

If you have a half hour to spare and the prospects seem boring just come visit our room and see if you don't believe it will be interesting and exciting just ask any third year pupil, from Central ward.

SWITZERLAND HOLDS PUPILS' INTEREST

The pupils of the fourth year at South Ward, are very interested in an imaginary trip to Switzerland. The beauty of this small free democracy, with its lofty Alps mountains, and its beautiful flowers on the slopes and in the valleys, is quite entertaining to the young visitors.

Here you see a stretch of blue water, which is one of Switzerland's many lakes. There you see a goat boy with his herd of goats climbing slowly up the mountain slopes. In the distance you see a train winding its way around the snow-capped mountains, and finally see it disappear into a long tunnel.

These familiar Swiss scenes are being depicted on the sand table—the stage at the foot of the mountains, the St. Gathard tunnel with the train climbing to its entrance, the goat boy leading his faithful flock to the grassy slopes on the mountains. These make a colorful corner in the schoolroom.

POSTOFFICE STUDIED AT SOUTH WARD

The children of the second year at South ward taught by Mrs. A. C. Smith, are making a study of the post office this week. Bobby Gene Cornelson, Mary Evelyn Johnson, Mary Louise Davis, Wendell Strahan, Kenneth Thompson, Billie Gene Younger, Dorothy Mae Landrum, and Edmond Nostes have each made some interesting post-mark collections in connection with this study.

TRANSFERRED

Shirley Lee Witt transferred from the second grade of South Ward school to the second grade of North Ward.

VISIT IN SNYDER

J. H. Greenlee and W. T. Strang, Jr., were in Snyder for a brief visit Thursday evening.

Supervised Correspondence Work Offered High School Graduates

The Texas Technological college, division of extension, has proposed a plan of supervised correspondence work for high school graduates to be offered at the high school in Big Spring, if there is a demand for this course, which will be supervised by Superintendent W. C. Blankenship.

Students will be offered course in English, Foreign Language, Government, History and Mathematics supplemented later by other courses. Each class must have at least ten, and not more than fifteen students; each student will pay an enrollment fee of \$12, and an examination fee of \$1 for each three-semester hour course. Each class group will be required to have eighteen group meetings, one for organization, sixteen for conference and work, and one for final examination.

J. F. McDonald, director of extension,

Band Queen To Be Named

Annual Concert Is Scheduled For March 25th

One of the highlights of the school year is the annual band concert and the election of the band queen. The concert has been set for March 25 and in conjunction with this concert the band queen will be elected. Tickets, which are 10 cents for students and 25 cents for adults will go on sale Monday, March 14. Each 10 cent ticket will count 10 votes and each 25 cent ticket will count 25 votes.

A great deal of interest was aroused the first year the band queen contest was held. The result was that the former Dixie Billeard was the winner after a whirlwind campaign put on by her supporters. The next year Jacqueline Paw was elected by the members of the band and is again a heavy favorite this year. Other girls that were nominated Thursday morning by the student body are, Mary Jo Russell, Jean Jackson, Ruth Ann Dempsey, Marie Dunham and Pauline Sanders. All these girls will have a box at the high school where you may vote either with pennies or dollars.

PICTURE SHOW AND HOUSE OF BLOCKS PART OF PROJECT

In the study of contrasting climates, children in the third year at South ward are making a picture show, in which the four seasons of our community are shown in contrast to that of a wet hot climate, a hot dry climate, a low temperate climate, and a high mountain climate.

Children in this class are taking turns on working out a house built of blocks. Large pieces of pasteboard are being colored and made to represent books telling about climates of these countries from which we gained our information.

The pupils of the fourth year at South Ward, are very interested in an imaginary trip to Switzerland. The beauty of this small free democracy, with its lofty Alps mountains, and its beautiful flowers on the slopes and in the valleys, is quite entertaining to the young visitors.

Here you see a stretch of blue water, which is one of Switzerland's many lakes. There you see a goat boy with his herd of goats climbing slowly up the mountain slopes. In the distance you see a train winding its way around the snow-capped mountains, and finally see it disappear into a long tunnel.

East Warders Form Council

Report Made On Other Activities Of Student Groups

The sixth year group is doing a great deal of interesting work as well as play. Cliff Prather suggested a council and it was approved by teachers of the various ward schools.

It was decided that the representatives would meet once a month at the central ward school building. The purpose for this council will be to find out what different schools are doing for recreative art period.

Another interesting item is the Group Life Units of the sixth year. The boys and girls will be taught how to cooperate and also be taught how the work of nature and the dairy goes. They will make booklets to show part of their work.

A bat was brought into the third year room by a group of boys Friday, March 4. The entire room enjoyed looking at it and having stories of the bat read to them. Then they drew pictures of what they thought the bat looked like.

The first year pupils are interested just now in beginning the study of farm animals and how the farm helps us.

The fifth year pupils are interested just now in making and studying things pertaining to "American Progress." For instance, they are building houses of long ago, and houses of today. Also constructing stage coaches and covered wagons which were used years ago. And by way of comparison, they construct modern airplanes, cars, etc.

The girls of this year are especially interested in studying the modes of women's dress from year to year dating several years back. They make jointed dolls together and dress them in clothes which they have made and in styles appropriate to the fashions of the different years.

The sixth year has organized a newspaper which they call the "East Ward Journal." It is published every other week. It is sold for five cents a copy. The members of the staff are: Editor, Mary Nell Shattuck; associate editor, Cliff Prather; printers, Mollie James, Miriam Yell; joke editor, Billie Cain; society, John Anna Terry; cartoonists, Gordon Watson and John Bill Harrell; believe it or not, John McIntosh; editor of story, Jo Ann Edwards; sports, Terrell Thompson and George Hanaard; paper dolls, Anna Jane Hanael.

First Year Group Functioning As Garden Club

Sand table and numerous seed boxes represent the activities of the First Year Garden club, in the science unit of the West ward school. Friday this group cut the "eyes" from Irish potatoes and planted them in boxes previously obtained and painted by the boys.

Also the Nature students planted beans "soaked and unsoaked" in order to compare the length of time required for the tiny shoots to creep to the light.

Mrs. Agnell's reason for selecting this unit is given in a verse from "A Garden" by Helen Welsheimer:

"A child should gather beetles
While down upon his knees
Watch cabbages and pea pods
Perform their mysteries.
His soul will stretch in stature
Inch after inch, I know.
If he may have a garden
And watch the turnips grow."

Paint For Charity
CAMBRIDGE, Md. — Women weary of staging bridge parties to raise benefit funds came to the aid of the Cambridge-Maryland hospital with brushes instead of playing cards.

They held "painting bees" to give the building a new coat of paint. Volunteers met at the hospital twice a week and did the work themselves.

Study Of 'Cowpath' Tells Of Milk's Importance

In connection with their unit work, pupils in the second year at West ward have taken up study of "The Cowpath" (milk).

Following the path of the cow in history proves the importance of milk food in the progress of civilization. The cow has always been a useful companion to man on his travels into new and unknown lands. She can find her own food and also provide man with milk.

The first cows to cross the Atlantic ocean came with the Vikings, those men who sailed from Norway to Iceland and Greenland and then to the coast of North America, which they called Vinland.

The second shipload of cows to cross the Atlantic ocean came with Christopher Columbus on his second voyage to the West Indies. They were called the Spanish Longhorns and were put ashore on the island of Haiti. Some of the descendants of these cows were carried to the mainland of Mexico in 1525. They were such strong, heavy animals that many of these Longhorns were brought over to the new country by the Spanish explorers.

The story of cows in other lands tells that there were no domesticated in the Americas except dogs and llamas of South America. The Spanish Longhorns were the third kind of animals to be tamed and used by people in this western hemisphere.

These Spanish cattle roamed through Mexico and came into the plains of Texas. It was these wild, long legged, hardy cattle that started the cattle industry in the United States in 1820. Great droves of these wild cattle struggled with the buffalo for pasturage of the western plains. The Longhorns won the land, because Indians and white men killed so many buffalo.

PLAY TO BE GIVEN TO FINANCE WORK OF CAFETERIA

The West ward Parent-Teacher association is sponsoring a play to be given soon. Proceeds will be used to carry on the work of the underprivileged children's cafeteria.

At present 26 meals are being prepared five days each week. The Lions club, the county and the city so have made this cafeteria possible and will continue their support until the end of the school year.

The play scheduled is titled "Fixing Aunt Fanny," and the cast will be composed of local teachers. These will include Ruby Guldge, Weldon Wright, Joe Raliff, Mrs. Della K. Agnell, Mary Nell McCord, Runa Edwards, Billy Wornack, Sarah McCendon, Brent Jackson and Maxine Moore.

Physical Ed Group Playing Softball

Boys' P. E. classes are playing softball now, and this will continue until about April 10. This game is played by all classes, a total of 240 boys taking part. At the end of this period, a softball tournament will be held. Classes are arranged so that freshmen and sophomores are in one class and juniors and seniors are in another.

Freshmen and sophomores meet on Monday and Wednesday, and juniors and seniors on Tuesday and Thursday. In the tournament, Monday and Wednesday sections will play a round-robin, and Tuesday and Thursday sections will play round-robin. These games are played after school hours, and the teams winning in these two divisions will play off a seven-game series.

After softball, will come spring games of horseshoe pitching and washer pitching. Every boy in the classes will take part in these events. The boys will have their partners and pitch off the winner during class period. Where winners are declared, then a tournament similar to that in softball will be held.

The boys show a great deal of interest in these events, and a tournament play there is very much competition. Toward the end of school, the winners in these events have been promised an outing.

Students Will Give Radio Programs

Series On KBST Each Wednesday At 2:30 P. M.

"Voice of the Public Schools" will be heard regularly thirty minutes each week, Wednesday, 2:30 p. m.

This program will be presented by Big Spring high school next Wednesday. This program has been arranged by KBST primarily for the purpose of acquainting students in public schools of this section with radio program technique.

All schools in this area, including Garden City, Ackerly, Stanton, Pecos, Coahoma, Colorado, Westbrook, Lamesa, Garner Moore, Elbow, Andrews, Spangenberg, Sterling City, Midland and others are being extended invitations to participate in this program series.

The program of the Big Spring public schools will be arranged through a public relations committee composed as follows: Superintendent W. C. Blankenship, Principal George H. Gentry and Director of Elementary Education Thomas E. Pierce, forming a central committee, and the following head teachers acting as chairmen of local committees in each school: J. N. Routh, West Ward; Miss Letha Anderson, South Ward; Mrs. J. J. Throop, East Ward; Miss Lola Carden, North Ward; John R. Hutto, Kate Morrison school.

The programs are to be drafted so that each school will be allotted one program period of thirty minutes. Students will act as announcers and masters of ceremonies in presenting the program, comprised entirely of talent from the student body of the school presenting the program.

Elementary Science Far From Boring To This Class

Elementary science is a bore? Not so with Miss Cresswell's fifth year class in the North Ward school. The students, under Miss Cresswell's guidance, have constructed an indoor garden. This garden contains gold fish, turtles, canaries and a variety of flowers. The latest contribution is a pair of love birds.

The students get quite a thrill in watching the different kinds of life thrive in this indoor yard. A lesson in elementary science originates from this garden each day. Yesterday while Johnny, or Mary, was feeding the fish, a weevil was discovered in the fish food. The children were interested at once. Questions were asked rapidly. How did the weevil get in the food? Where did it come from? Will it ruin the food? Would the gold fish eat the weevil and if it did would it kill the fish? Then one of the students suggested they find out all they could about the weevil. The adult weevil was brought forth and examined by the students. After the examination of the weevil by the naked eye, it was then placed under a microscope which had been brought from home by one of the students. One of the larvae was placed under the microscope, and a careful examination was made.

Further study was made on the habits of the weevil and its harm to the different grains.

One day while watering the flowers, lice were seen on some of the plants. Other plants that seemed to be free of the insects were put under a tripod magnifier. The children were surprised to find that these flowers were covered with lice that were too small to be seen with the naked eye. And here was another lesson in elementary science.

After softball, will come spring games of horseshoe pitching and washer pitching. Every boy in the classes will take part in these events. The boys will have their partners and pitch off the winner during class period. Where winners are declared, then a tournament similar to that in softball will be held.

The boys show a great deal of interest in these events, and a tournament play there is very much competition. Toward the end of school, the winners in these events have been promised an outing.

BAKERY, CREAMERY VISITED BY PUPILS

The children in the second year at South ward, taught by Miss Cummings, have visited Darby's bakery and Dairyland creamery in connection with the study, "How Our Neighborhood Secures Food." They also have made a food store, where they take turns at being groceryman and learn to make change.

the preparation of citizens for life in a democracy.

Dr. Pittenger, scored autocratic school administration and was successful of systems that lack any semblance of centralized authority. The basic plan of administration, he said, should be between the two extremes.

This ideal, believed Dr. Pittenger, should be in encouraging and expecting teachers to assist in planning and submission of advice for program and curriculum, and in centralization of responsibility in the execution of the plan when fixed.

"An autocratic school," declared the speaker, "is an impossibility in a democratic community. Democracy in the schools can be best measured in the contribution to students in their advancement, to the limit of their abilities, toward democratic citizenship."

G. D. Hoffcock, deputy state superintendent, said that new teacher requirements were resulting in a strengthening of the profession. It was, he thought, overcoming the "lack of all trades" among teachers. The trend, as he viewed it, is definitely toward specialization, the elimination of "fly-by-night," of "stepping-stone" teachers, and toward inducing the public to look upon the profession with more seriousness.

PAINTERS TO BE BANQUET GUESTS

Thorp Paint store of Big Spring and Stevens-Thorp Paint store of Midland are joint hosts for a banquet to be given in honor of painters of Big Spring and West Texas tonight at 7:30 o'clock from the Settles mezzanine. Approximately 70 painters from this section are expected to attend. Specialists from the P-G Paint and Varnish company will also attend.

'Family Firm' Tax Killed

House Refuses To Reinstate Special Levy Provision

WASHINGTON, Mar. 11 (AP)—The house passed the tax bill and sent it to the senate today after declining to reinstate a special surtax on family owned and closely held corporations.

WASHINGTON, Mar. 11 (AP)—The house killed today an attempt to put back in the tax revision bill an administration proposal for a special surtax on family owned and closely held corporations.

Speaker Bankhead announced that the roll call vote was 233 to 153.

The action paved the way for a vote on final passage of the hefty revenue measure.

Republicans and rebelling democrats refused for a second and final time to include the "13" surtax on closely held companies in the bill. They have contended it would subject legitimate business enterprises to a punitive tax in an attempt to reach a few firms that might be used for tax avoidance purposes.

Backers of the surtax said it was a means of obtaining equity in taxation and wiping out some of the tax advantages which they said closely held firms have had over those with wide stock ownership. The tax would have affected all corporations with net incomes in excess of \$75,000 whose stock was owned by members of a family or a group of no more than ten associates.

New Mexico Farmers Stage 'Hopper' Dance

YATES, N. M., Mar. 11 (AP)—Unlike Rome's fiddling emperor, Harding county musicians are tuning up for a fiddling rather than to accompany dancers.

Tomorrow night farmers and their wives will gather in the school house of this Northwestern New Mexico community and to the tune of scratching fiddles at 50 cents a couple will inaugurate the first "anti-grasshopper" dance in this insect-ridden area.

Yates farmers will use the dance money to defray costs of transporting government-furnished poison to the egg-infested area.

Cities Granted Liberal Powers On Bond Issues

AUSTIN, Mar. 11 (AP)—The supreme court enunciated a liberal policy regarding a city's bonding powers in a decision today overturning Attorney General William McCraw's ruling that Houston could not issue additional bonds aggregating about \$3,000,000.

"Reasonably stable and sure" revenues from sources other than ad valorem taxes should be considered in determining whether a city can afford more bonds, the court said.

"Franchise taxes, parking meter revenues, occupation taxes, fines and things of that kind may fluctuate," Justice Richard Criss wrote, "and such revenues are in a sense uncertain; but so are all human institutions and all sources of revenue, public and private."

Wasserman Tests To Begin Monday For TU Students

AUSTIN, Mar. 11 (AP)—University of Texas students today neared realization of their anti-aphylla campaign with an announcement by school health officers voluntary Wasserman tests would begin Monday.

Climaxing a campus drive and with approval of the board of regents, the test will be made available immediately instead of next September, the announcement said, because private laboratories in San Antonio have been made available for testing blood samples.

The university will expand its laboratory equipment next fall when large scale tests will be available. Under the temporary arrangements no more than 20 students will be tested daily at a fee of \$1 each.

A student vote resulted in 3,771 favoring tests and only 40 opposed.

BTU REVIVAL TO CLOSE TONIGHT

The B.T.U. revival at the First Baptist church moves into its final day this evening with study courses at 7:30 p. m. In the Thursday evening meeting there were 128 in attendance. Young people led with 77 attending and juniors were next with 30.

W. C. Taggart, who has been directing the revival, leaves this evening for Abilene but Fernetta Foley, Abilene, will remain through Sunday when there will be an association gathering at Stanton.

Britain

(Continued from Page 1)

ope which heightened anxiety over delays in the formation of a new French cabinet, attempted by Leon Blum, the socialist leader.

ITALY WONT JOIN ENGLAND, FRANCE

PARIS, Mar. 11 (AP)—High officials of the foreign office declared today that Italy had refused to join France and Britain in "any action whatsoever" to defend Austrian independence.

A spokesman for Foreign Minister Yvon Delbos said that, even without Italy, France was determined to act in a "most vigorous manner," providing Britain supported her. He ruled out protests as "worse than useless."

The spokesman added that Count Johannes Welbeck, German ambassador to France, whom Delbos had called in earlier, had told the foreign minister flatly that "Germany will not make the slightest concession in regard to Austria."

CANDIDATE ISSUES A NEW 'FORUM'

AUSTIN, Mar. 11 (AP)—A second "forum" has found a place among Texas political publications.

It is "Farmer's Texas Forum," to be published at Waco in the interest of the gubernatorial candidacy of Rep. Clarence S. Farmer of Fort Worth. The Ferguson Forum, edited by former Gov. James E. Ferguson, has been circulating for many years.

The first issue of the new "forum" states that it "comes to aid the aged, the farmer, the trucker and to help Texas prosper." Farmer, who will have state campaign headquarters at Waco, favors liberal old age pensions and removal of the 7,000-pound truck load limit.

Mrs. H. B. Dunagan Dies In Dallas

Mrs. H. B. Dunagan, Sr., Midland, died in Dallas this morning. It was learned here today. Mrs. Dunagan is a former resident of Big Spring.

Burial will take place in Midland Saturday afternoon.

Three triumphal arches erected by the ancient Romans to celebrate victory still stand in modern Rome—the arch of Constantine, of Septimus and of Titus.

MARKETS

LIVESTOCK

PORT WORTH, Mar. 11 (AP)—(USDA)—Cattle 1,400; calves 1,100; market active and steady to strong in all classes; most fed yearling steers 7.00-7.50; killing calves 6.25-7.00; weaners 5.00-5.50; yearlings and calves 6.00-7.25. Hospital Notes

Big Spring Hospital
Eldon Lilley of route 2 Big Spring underwent an operation for appendicitis at the hospital Thursday night.

S. C. Cowley of Forsan was brought to the hospital Thursday night for treatment.

Marvin Zerul, three-months-old son of Mr. and Mrs. S. L. Vann of Stanton, is in the hospital for treatment.

S. L. Hull of Route 2, Big Spring, is in the hospital for treatment of an eye injury.

Nelda Joe, two-year-old daughter of Mr. and Mrs. Bud Turner of Coahoma, is in the hospital for treatment of pneumonia.

Jimmie, one-year-old son of Mr. and Mrs. Stanley Claiborne, who has been in the hospital for treatment of pneumonia, was improved Friday afternoon.

W. W. Witt, Hobbs, N. M., Chrysler sedan.

Ann Hewitt Gay Asks Divorce

SAN FRANCISCO, Mar. 11 (AP)—Mrs. Ann Cooper Hewitt Gay, young heiress who was the principal figure in a sensational sterilization damage suit two years ago, will ask Superior Judge T. I. Pittpatrick today for a divorce from the garage foreman she married last October.

In her complaint 23-year-old Mrs. Gay charged she underwent "gratuitous mental suffering" during her short marriage with Ronald M. Gay. She said they were temperamentally incompatible because of differences in environment and rearing. The 20-year-old garageman who remarried recently he had "been a husband and at the same time a stranger in her home," said he would not contest the action. He did, however, file a formal answer denying his wife's complaints.

The two married October 8 at Grants Pass, Ore., and separated in January.

Teachers

(Continued from Page 1)

other address of the afternoon was "The N. E. A. and the Teacher," by T. D. Martin, enrollment secretary of the National Educational association.

Public invited.
Tonight, in the municipal auditorium, Dr. Leonard and Dr. Pittenger will speak again, the former talking on "What Are Our Children Thinking About?" and the latter on "The Teacher in the Modern School."

The program, scheduled to start at 7:45 is open to the public and all school patrons are urged to attend.

Further discussions on the convention theme will be in order Saturday morning, before the convention closes with a business session at 11 o'clock.

Sectional Conferences
Those who teach in the classrooms were to enter into thorough discussions of various phases of the new curriculum and their own relation to it in a series of sectional conferences starting at 2 p. m. The intermediate section was to meet at the First Presbyterian church, with P. J. Marcom, Levelland, in charge. On the program are Charles E. Fike, Lubbock, Dr. Doyle D. Jackson, associate professor of education at Texas Tech, Lucille Liljedahl, Lamesa, Pearl Watson, Lubbock, and Sarah McClendon, Big Spring.

Bonnie K. Dyer, Texas Tech, was to be chairman of the primary section, introducing program parts by Dr. Agnes True, director of curriculum in the Lubbock schools, Mrs. S. M. Smith, Mrs. O. C. Hart, Mrs. Gene Gardner, Mary Fawn Coulter, Mrs. Bob Sparks, all of Big Spring, and Opal Sloan, Lubbock, and Charles E. Fike, Lubbock. These meetings were to be held in the East Fourth Baptist church.

High School Group
A wider scope of activities was to be studied by the high school group under the direction of R. W. Matthews, Lubbock, in meetings at the First Baptist church. Chairmen of the various sub-sections were to be R. L. Burdette, Lubbock, Mrs. Opal Thomas, Spur, Ester Sorenson, Lubbock, D. M. Howell, Lubbock, K. T. Miller, Shallowater, F. T. McCollum, Lamesa, and Mrs. W. O. Low, Big Spring.

Others having parts in the sectional sessions were: Carolyn Thompson, Lubbock, Ray Chapelle, Texas Tech, Lora Farnsworth, Big Spring, Mrs. Stella Winston, Spur, Doris Buchanan, Texas Tech, Alice Strawn, Quail, Fannie Mae Rees, Floydada, Eleanor Ragle, Lamesa, Martie Pindexter, Texas Tech, Mrs. L. M. Hargrave, Wolfforth, John R. Freeman, Lubbock, Reta Dubenport, Big Spring, Carrie A. Shannon, Levelland, Mrs. Marian Ayres, Lubbock, O. J. Laas, Plainview, Charles Hatchett, Lamesa, Carl H. Willingham, Lubbock, Maud Dean, Slaton, Henry Norris, Lamesa, Floyd Honey, Lubbock, and Mrs. Ethel Lawson Terrell, Lubbock.

MUNGER ENTERS PLEA OF GUILTY

HOUSTON, Mar. 11 (AP)—A plea of guilty has been entered by C. R. Munger on charges of conspiracy to violate the federal securities act. Munger, office manager of Sterling and Baker, bankrupt brokerage firm, was released under \$5,000 bond.

Federal Judge Robert T. Erwin deferred sentence until the trial of five others, set for Monday, is completed. Among the defendants are Frank Sterling, president of the firm, and Harry V. Baker, vice president. Three other employees also are under indictment.

Blind Flying Devices Suggested To Bureau

WASHINGTON, Mar. 11 (AP)—Two new and entirely original devices for blind flying were suggested today to the bureau of air commerce.

I. R. Metcalf, a bureau engineer, told the National Aeronautic meeting of the Society of Automotive Engineers that a correspondent suggested crossing homing pigeons with parrots and using the offspring to tell airplane pilots how to get home.

Blind flying could be made even simpler, the correspondent said: "Put a box of skunks on the airport with a small boy and a stick to stir them up. Then just fly nosing into the prevailing wind."

Workers Charge Intimidation

HOUSTON, Mar. 11 (AP)—A national labor board hearing into charges of unfair labor tactics at Haytown moved into the final hours of its first week today as C.I.O. oil workers testified they had been intimidated by Humble company foremen and supervisors at the huge Baytown plant.

C. A. Panington, truck driver for the oil company, testified his immediate superior had called garage employees before him in 1936 and told them to "kick around and try to kick up some kind of gun," when the employees threatened a walkout. He said the men were warned not to try to get their jobs back if they failed to show up for work when the threatened strike became effective.

Other oil workers testified they voted more than once in the election to determine the bargaining agency for the Baytown plant, Humble's largest in Texas.

The union has charged the Humble Employees Federation, presiding bargaining agency, is dominated by the company.

State Supervisor Featured Speaker At Lodge Meeting

Mrs. Estes, state supervisor, was the featured speaker at a meeting of the Royal Neighbors Lodge Thursday evening at the W.O.W. hall. She discussed the conventions to be held at Pecos and at San Angelo soon.

The local chapter will send drills to both meetings. The group voted to purchase new uniforms by the next meeting.

Refreshments were served to Mrs. Estes, Mrs. Lord of Tyler and Mrs. Boll of Houston, guests, and the following members: Mrs. J. T. Byers, Mrs. J. E. Pond, Mrs. W. M. Gage, Mrs. E. W. Burleson, Mrs. Emily Hall, Mrs. R. J. Barton, Mrs. Don Mason, Mrs. E. F. Tyson, Mrs. Roy Wilson, Mrs. E. C. Masters, Mrs. Billy Robbins, Mrs. J. S. Nabors, Mrs. Lee Holly, Mrs. Emmitt Hull, Mrs. T. J. A. Robinson, Mrs. L. S. Bonner, Mrs. Johnnie Beneghetti and Miss Evelyn Holly.

A call meeting is set for Wednesday afternoon at 2 o'clock at the hall. All members are urged to present for a discussion on drill practice.

Sunrise Breakfast Is Attended By Large Group

Approximately one hundred young people of the East 4th Baptist church attended a sunrise breakfast at the city park Friday morning. The entertainment was the climax of an attendance contest conducted during the revival meeting by two groups of young people.

Following the breakfast, those attending played tennis and softball. Evelyn Bone, educational director of the church, had charge of the entertainment.

Young people attending the breakfast are members of the chorus singing at the revival each night.

FLEET PREPARES FOR MANEUVERS

SAN PEDRO, Calif., Mar. 11 (AP)—Operating in wartime radio silence, the United States fleet loaded food and fuel today aboard more than 100 ships in the San Pedro-San Diego area for the sortie into the Pacific next week in spring maneuvers.

It was an all-day parade as 1,800,000 pounds of fresh foodstuffs and 800,000 barrels of oil and gasoline were ordered moved from shore to battleships, cruisers, aircraft carriers and auxiliaries. Departure of the first fleet units was unofficially reported set for Monday.

NEEDS DOCTOR FOR THE FIRST TIME AT AGE 100

ATLANTA, Tex., Mar. 11 (AP)—Alice Cook, an aged negro woman who lives near here, celebrated her one-hundredth birthday this week with a physician in attendance.

She said it was the first time in her life she had required medical aid. The physician added her ailment was "minor" and that he expected her to recover rapidly.

Awards

(Continued from Page 1)

Old Chicago. A broken bottle kept Miss Brady at home last night, but friends telephoned her the good news.

Leo McCarty's direction of "The Arval Truth" earned him the statuette annually awarded the tri-magnum-wielder.

Even Charlie McCarthy, the wooden wisecracker, was remembered.

The academy decided Edgar Bergen, Charlie's vocal master, should have a small wooden "Dr. Case" for his outstanding comedy creation.

WORK TO COMBAT POSSIBLE FLOOD

PITTSBURGH, Mar. 11 (AP)—Cautious residents of the vast Ohio valley heard predictions of a "floodless" spring today but remembered the surprise St. Patrick's Day flood of 1889 and went ahead with emergency plans to combat possible highwaters.

From the tips of the finger-like tributaries in Western Pennsylvania and West Virginia to communities fronting on broad lower reaches of the river, army engineers and rivermen advanced preparations for the mobilization of boats, foods and other supplies.

TO KANSAS
Harry Williamson left Thursday for Hugerton, Kansas, where he will work for the Bill Clay Driving company.

Meteorologists in India plan to use balloons about five feet in diameter to obtain data on monsoon air currents and facilitate weather forecasting.

Spode

BILLINGSLEY ROSE

The lacy daintiness of the jewel shape has a special appeal to the bride.

Arabesque in style—the rose painted in center, gives it an English feeling. Combined with the rich, creamy color of the ware, the whole is a pattern of rare beauty.

CHEAP ELECTRICITY MAKES ENTERTAINING EASIER

It's astonishing how easy it is to fix the most delightful lunches if you take advantage of Reddy Kilowatt's electric service and let it do the work for you. You can serve any one of a dozen different types of delicious meals right at the table—no running back and forth to the kitchen, no fuss, worry or bother. All you do is plug in your percolator, toaster, grill or whatever other table cookery appliances you prefer and in a jiffy your guests will be enjoying as fine a lunch as they ever tasted.

Ann Hewitt Gay Asks Divorce

SAN FRANCISCO, Mar. 11 (AP)—Mrs. Ann Cooper Hewitt Gay, young heiress who was the principal figure in a sensational sterilization damage suit two years ago, will ask Superior Judge T. I. Pittpatrick today for a divorce from the garage foreman she married last October.

In her complaint 23-year-old Mrs. Gay charged she underwent "gratuitous mental suffering" during her short marriage with Ronald M. Gay. She said they were temperamentally incompatible because of differences in environment and rearing. The 20-year-old garageman who remarried recently he had "been a husband and at the same time a stranger in her home," said he would not contest the action. He did, however, file a formal answer denying his wife's complaints.

The two married October 8 at Grants Pass, Ore., and separated in January.

BIG SPRING GREETINGS

WESTEX TEACHERS

The Herald joins all other elements in Big Spring in extending a welcome today to the hundreds of West Texas teachers gathered here for an annual study of topics pertinent to their work.

A new organization is the West Texas Teachers association, but it already has proved its worth in bringing before the instructors of our youth men high in the nation's educational councils, men who can pass on important knowledge designed to make our schools more efficient, our public education system more profitable to youth and to the nation.

More and more are the standards of the teaching profession being raised, and more capable men and women thus are required to fill the profession's ranks. Education, like everything else, undergoes constant transition to keep abreast of the times, and the teacher who does not understand and go along with this transition is not meeting the requirements of the profession.

It is to achieve this understanding and set the pace of progress that the instructors gather in such conventions as that now under way in Big Spring. This host city extends the pedagogical cordial greetings, expresses the hope their conference will be pleasant and profitable, and urges their return on any occasion.

USED CAR WEEK IS A SUCCESS

Success of National Used Car Exchange Week, in which newspapers cooperated with automobile agencies and manufacturers in pressing the sale of used cars, has already borne fruit. Detroit reported yesterday that three of the major producers of cars had stepped up production to meet increased demand as a result of the movement of used cars out of dealers' floors. Reports from dealers said sales of used cars had been "phenomenal."

Suggestion for the movement is supposed to have come from President Roosevelt's recent conference with bigwigs of the industry. It has been carried on with large newspaper "spreads" in all parts of the country, the newspapers lending extraordinary cooperation in helping dealers get used cars into the hands of new owners.

Presence of these cars—millions of them still possessing a great deal of usable mileage—blocked the sale of new cars and contributed to the close-downs and curtailments which recently afflicted the manufacturing plants.

Success of National Used Car Exchange Week is proof that there is still plenty of outlets in this country for salable articles in spite of the much-publicized recession in business. It is also a tribute to the cooperative spirit and forethought of manufacturers and dealers and the pulling power of newspaper advertising.

Mrs. FDR In El Paso, To Leave For Coast

ALBUQUERQUE, N. M., Mar. 11 (AP)—Mrs. Franklin D. Roosevelt resumed her cross-country journey westward today after telling an Albuquerque lecture audience that "peace begins at home."

"Until we're ready to set our own house in order," she said in an appearance here last night, "why should we expect to set the world in order?"

The first lady left by train late last night for El Paso, from where she will go to the west coast.

HASH FOR WEDNESDAY

A Race of Heroes

We are more and more impressed with the honesty and impartiality of German Justice.

The Reverend Martin Niemöller whose chief offense has been to believe that the spirit of Martin Luther is a Germanic spirit, was tried by a German court and found guilty last Wednesday of having discussed and criticized government measures from the pulpit and having thus violated a decree for the protection of the people, which was issued in 1933 following the Reichstag fire. The court found him guilty and sentenced him to seven months in prison, but since he had already spent eight months in jail awaiting trial, the court ruled that his sentence had been served.

So the next day he was arrested by the secret police and sent to concentration camp at Sachsenhausen-Oranienburg without any indictment and without any suggestion of further trial. German justice is conducted according to the heads-I-win-tails-you-lose formula, which has the advantage of making it just as dangerous to be acquitted as to be condemned.

Since justice has already been defined in Germany as anything that aids Germany, and since Germany has become, by decree of its rulers, the Nazi party, and justice therefore becomes anything that aids the Nazi party, there is a certain logic in this procedure.

But the case of Martin Niemöller raises speculations in one's mind about "the heroic principle" which the Nazis believe should animate the Germanic race, who alone are supposed to really understand it. To our poor, confused, anachronistic, western minds, a man who risks his career, his freedom, the economic security of his wife and children, and life itself, for principles in which he believes, appears heroic, and Martin Niemöller, who risked his life for his country on the most dangerous of the naval services—and, who, during the last three years, has risked it again in the service of the religion which he believes in—seems to us to be all of a piece, the "integer vitae" praised by Horace, and adored through two thousand years of western history.

In fact he awakens our admiration for Germany, and the German spirit, and suggests that that country and that spirit may really be heroic.

But we find that we have bestowed our admiration in the wrong place. The heroic German, according to the Nazis, first makes himself deaf, dumb, and blind, then disconnects any intelligence he may have, gives his conscience a strong injection of morphine, and begins to march, while his voice loudly repeats the national slogans in which, in his comatose condition, he has been carefully rehearsed.

All this may be useful to the German nation, although I doubt it, but why is it called "heroism," or the "incarnation of the heroic principle"? Or is every so-called "heroic age" merely a barbaric age?

Martin Luther said: "Here I stand, I cannot do otherwise," meaning if you draw and quarter me, this is my belief. Nazi Lutheranism changes the meaning to be: "Here I stand, I cannot do otherwise—because there is a pistol at my back and my leader has told me that everything we are doing is in the interests of our race and nation."

Nevertheless, the Nazis are breeding, if not a race, at least a distinguished company of heroes, whose number Pastor Niemöller has now joined. They are in the concentration camps and prisons of Germany.

The Devil Can Quote

The president's advice to newspapers on Friday to use the Fifteenth Psalm as a lead for their stories, whatever they might be, was dangerous. The correspondents took it either as a sly reminder of their own shortcomings or as an answer to some of the president's critics, the upright man in the Psalm quoted by the president being "he that backbiteth not with his tongue, nor doeth evil to his neighbor, nor taketh up a reproach against his neighbor."

But it is extremely dangerous to quote the Bible in support of one's prejudices because the other side can always find just as appropriate a quotation.

The critics of the administration might choose to reply with a quotation from the 15th chapter of Job:

"Should a wise man utter vain knowledge, and fill his belly with east wind?"

"Should he reason with unprofitable talk? or with speeches where with he can do no good?"

"Thine own mouth condemneth thee, and not I: yea, thine own lips testify against thee."

"Art thou the first man that was born? Or wast thou made before the hills?"

"Hast thou heard the secret of God? and dost thou restrain wisdom to thyself?"

"What knowest thou that we know not? What understandest thou that is not in us?"

"With us are both the gray-headed and very aged men, much older than thy father."

"Are the consolations of God small with thee? Is there any secret thing with thee?"

"Why dost thine heart carry thee away? and what dost thine eyes wink at?"

"That thou turnest thy spirit against God, and ledest such words as go out of thy mouth?"

Secretly Arrived At
 It is announced that Lord Perth, on behalf of Great Britain, is undertaking negotiations with Count Ciano, on behalf of Italy. The conversations will take place in complete secrecy. No news is to leak out as to what is being discussed, or what issues are being raised, for at least three or four weeks.

We thus return to the pre-war system of secret diplomacy. Maybe the post-war system of open discussions at Geneva has not been all that the optimists hoped for, but what little progress toward conciliation and stabilization was made in the last 15 years, was accomplished this way. Lord Perth and Count Ciano are discussing matters that are of profound concern to everybody in Europe, but nobody is to know anything about what is going on. The method being pursued was recommended by

But it is extremely dangerous to quote the Bible in support of one's prejudices because the other side can always find just as appropriate a quotation.

The critics of the administration might choose to reply with a quotation from the 15th chapter of Job:

"Should a wise man utter vain knowledge, and fill his belly with east wind?"

"Should he reason with unprofitable talk? or with speeches where with he can do no good?"

"Thine own mouth condemneth thee, and not I: yea, thine own lips testify against thee."

"Art thou the first man that was born? Or wast thou made before the hills?"

"Hast thou heard the secret of God? and dost thou restrain wisdom to thyself?"

"What knowest thou that we know not? What understandest thou that is not in us?"

"With us are both the gray-headed and very aged men, much older than thy father."

"Are the consolations of God small with thee? Is there any secret thing with thee?"

"Why dost thine heart carry thee away? and what dost thine eyes wink at?"

"That thou turnest thy spirit against God, and ledest such words as go out of thy mouth?"

Secretly Arrived At
 It is announced that Lord Perth, on behalf of Great Britain, is undertaking negotiations with Count Ciano, on behalf of Italy. The conversations will take place in complete secrecy. No news is to leak out as to what is being discussed, or what issues are being raised, for at least three or four weeks.

We thus return to the pre-war system of secret diplomacy. Maybe the post-war system of open discussions at Geneva has not been all that the optimists hoped for, but what little progress toward conciliation and stabilization was made in the last 15 years, was accomplished this way. Lord Perth and Count Ciano are discussing matters that are of profound concern to everybody in Europe, but nobody is to know anything about what is going on. The method being pursued was recommended by

HASH FOR WEDNESDAY

A Race of Heroes

We are more and more impressed with the honesty and impartiality of German Justice.

The Reverend Martin Niemöller whose chief offense has been to believe that the spirit of Martin Luther is a Germanic spirit, was tried by a German court and found guilty last Wednesday of having discussed and criticized government measures from the pulpit and having thus violated a decree for the protection of the people, which was issued in 1933 following the Reichstag fire. The court found him guilty and sentenced him to seven months in prison, but since he had already spent eight months in jail awaiting trial, the court ruled that his sentence had been served.

So the next day he was arrested by the secret police and sent to concentration camp at Sachsenhausen-Oranienburg without any indictment and without any suggestion of further trial. German justice is conducted according to the heads-I-win-tails-you-lose formula, which has the advantage of making it just as dangerous to be acquitted as to be condemned.

Since justice has already been defined in Germany as anything that aids Germany, and since Germany has become, by decree of its rulers, the Nazi party, and justice therefore becomes anything that aids the Nazi party, there is a certain logic in this procedure.

But the case of Martin Niemöller raises speculations in one's mind about "the heroic principle" which the Nazis believe should animate the Germanic race, who alone are supposed to really understand it. To our poor, confused, anachronistic, western minds, a man who risks his career, his freedom, the economic security of his wife and children, and life itself, for principles in which he believes, appears heroic, and Martin Niemöller, who risked his life for his country on the most dangerous of the naval services—and, who, during the last three years, has risked it again in the service of the religion which he believes in—seems to us to be all of a piece, the "integer vitae" praised by Horace, and adored through two thousand years of western history.

In fact he awakens our admiration for Germany, and the German spirit, and suggests that that country and that spirit may really be heroic.

But we find that we have bestowed our admiration in the wrong place. The heroic German, according to the Nazis, first makes himself deaf, dumb, and blind, then disconnects any intelligence he may have, gives his conscience a strong injection of morphine, and begins to march, while his voice loudly repeats the national slogans in which, in his comatose condition, he has been carefully rehearsed.

All this may be useful to the German nation, although I doubt it, but why is it called "heroism," or the "incarnation of the heroic principle"? Or is every so-called "heroic age" merely a barbaric age?

Martin Luther said: "Here I stand, I cannot do otherwise," meaning if you draw and quarter me, this is my belief. Nazi Lutheranism changes the meaning to be: "Here I stand, I cannot do otherwise—because there is a pistol at my back and my leader has told me that everything we are doing is in the interests of our race and nation."

Nevertheless, the Nazis are breeding, if not a race, at least a distinguished company of heroes, whose number Pastor Niemöller has now joined. They are in the concentration camps and prisons of Germany.

The Devil Can Quote

The president's advice to newspapers on Friday to use the Fifteenth Psalm as a lead for their stories, whatever they might be, was dangerous. The correspondents took it either as a sly reminder of their own shortcomings or as an answer to some of the president's critics, the upright man in the Psalm quoted by the president being "he that backbiteth not with his tongue, nor doeth evil to his neighbor, nor taketh up a reproach against his neighbor."

But it is extremely dangerous to quote the Bible in support of one's prejudices because the other side can always find just as appropriate a quotation.

The critics of the administration might choose to reply with a quotation from the 15th chapter of Job:

"Should a wise man utter vain knowledge, and fill his belly with east wind?"

"Should he reason with unprofitable talk? or with speeches where with he can do no good?"

"Thine own mouth condemneth thee, and not I: yea, thine own lips testify against thee."

Annual Kid Party Featured By High School Pep Squad

Two Cutest Kids Are Selected By Party Guests

Dressed in colorful kid costumes, members of the Big Spring high school pep squad met at the Girl Scout hut Wednesday evening for the group's annual kid party.

Red Womack and Mary Jo Russell were awarded the titles of the two cutest kids present.

A picnic lunch was served, provided by the girls and then the group attended a movie.

Those present were:

Josephine Mittel, Thomas Tubbs, Maurice Bladon, Dorothy Smith, Stella Robinson, Otis Graft, Billie Bess Shive, Weldon Bigony, Marguerite Reed, Raymond Lee Williams, Mary Nell Edwards, Odell Womack, Maurice Rowe, Tommy Gage, Virginia Combs, Durwood Stiggs, Marie Dunham, J. O. Simpson, Emma Mae Rowe, Harold Neel, Vivian Ferguson, Bill Fletcher, Florence McNew, Jack Shiff, Mamie Wilson, Homer Adams, Jodie Tompkins, Norman Priest, Margaret Jackson, Tabor Rowe, Jean Jackson, Berlie Fallon, Tommy McCray, Charles Stagg, Billie Gene Tingle, Bob Lovin, Frankie Martin, Howard Hart, Odene Sewell, Harold Bethell, Jean Dublin, Wayne Martin, Kathleen Underwood, Jack Lane, Gary Lamun, Chae Smith, Carolyn Smith, David Lamun, Anna Belle Edwards, Marie Baker, Mary Jo Russell, Billy Robinson, Champe Phillips, Bill Inkman, Patsy Stalcup, "Dopey" Anderson, Wanda McQuinn, James Underwood, Mary Frances Robinson, J. T. Langley, Mary Freeman, R. L. Crew, Ruth Ann Dempsey, Bobby Savage, Gloria Conkey, Johnny Miller, Emily Stalcup, Beth Boynton, Geneva Langley, J. W. Key.

Mrs. Richard J. Parker of El Paso, who will speak to Big Spring women Sunday at 3 o'clock p. m. at the East 4th Baptist church on "Woman's Fight for the Cause of Righteousness."

Mrs. Parker has worked in Cuba, Old Mexico and various parts of the United States. She attended the great world convention in Washington, D. C., last June which attracted seven thousand women from thirty-seven countries. Those things pertaining to the upbuilding of the Kingdom were considered at the six-day convention.

Every woman in Big Spring is invited to hear the lecture.

Homemakers' Class Entertained With Monthly Social

Mrs. M. C. Lawrence and Mrs. Gene Crenshaw entertained the Homemakers' class of the First Christian church with a social Thursday afternoon at the Lawrence home.

After a business meeting presided over by Mrs. C. A. Murdock, refreshments significant of the St. Patrick colors were served to Mrs. George W. Hall, Mrs. T. E. Baker, Mrs. R. J. Michael, Mrs. C. M. Shaw, Mrs. J. L. Miller, Mrs. Earl Read, Mrs. Glad Glenn, Mrs. E. L. K. Wright, Mrs. W. W. Inkman, Mrs. P. C. Robinson, Mrs. J. H. Stiff, Mrs. Harry Lees and Mrs. Murdock.

Clever Prizes Given At Bingo Party Of The Knit-Wit Club

Clever prizes were given to those winning high score in bingo games played following a session of knitting when the Knit-Wit club was entertained Wednesday by its sponsor, Mrs. Lloyd Harris.

Mrs. Lonic Coker and Mrs. Magie Lewallen were guests of the club. Members there were Mrs. Carl Madison, Mrs. Leonard Harris, Mrs. Robert Satterwhite, Mrs. Wayne Seabourne, Mrs. Glen Harris and the hostess, Mrs. Satterwhite is to be the next hostess.

Chalk Club Is Scheduled For Party Friday

HDC Meets With
Mrs. J. P. Shave
This Week

Chalk Demonstration club is staging a recreational party Friday evening at the Chalk school with each member inviting a guest, according to plans made this week when the group met with Mrs. J. P. Shave.

Mrs. O. A. Ruffin, bedroom demonstrator, said scarfs finished with Swedish weaving should be about one and a half inches smaller all around than the drawer or other articles of furniture they are being made to fit. Swedish weaving was the new demonstration at the meeting but Italian drawn work was also further discussed.

Mrs. A. R. Rude opened the meeting with "Current Events of the Day" and several topics were quoted from newspapers and radio. In the business session the club decided to give the home demonstration council \$2.00 to help defray expenses of a party held Friday night. A potato relay race was held as an entertainment feature under the direction of Mrs. B. D. Caldwell, recreational leader.

Mrs. J. D. Gilmore and Mrs. Harris Jones were guests. Others present were Mrs. C. L. Eldred, Mrs. Albert Hohertz, Mrs. O. N. Green, Mrs. R. H. Jones, Mrs. Caldwell, Ruffin, Mrs. Rude, Mrs. Shave and one new member, Mrs. J. N. Turner.

ROGERS 1938 CAPTAIN
COLLEGE STATION, Mar. 11—Owens Rogers, letterman quarterback from Mart, has been appointed 1938 Texas Aggie football captain. Coach Homer Norton has announced.

The curly-headed Rogers, one of the most popular players on the squad, will be a senior this fall.

Candle Service Used To Install Class Officers

T.E.L. Members
Enjoy Social At
Copeland Home

Impressive candle lighting initiation ceremony was employed by Miss Fernetta Foley, student of Hardin-Simmons university, Thursday afternoon when she installed new officers of the T. E. L. class of the First Baptist church.

In the ceremony, Mrs. J. W. Cain, the new president, was presented a tall burning candle from which the other officers lighted tapers. The service was closed with the reading of the poem, "What Kind of a Member Are You?" and a piano selection by Miss Foley.

Class members met at the home of Mrs. J. R. Copeland for the initiation service and social hour. Mrs. H. I. Squires and Mrs. Cain assisted her as hostess.

Mrs. A. L. Souders had charge of the social hour which included the playing of games and contests. Mrs. K. S. Beckett spoke on the importance of voting on the liquor question Friday and Mrs. J. H. Greene recited the poem, "I Know Something Good About You."

Other officers installed included Mrs. J. H. Greene, first vice-president; Mrs. A. L. Souders, second vice-president; Mrs. E. N. Ralph, social fellowship vice-president; Mrs. W. W. Grant, ministerial vice-president; Mrs. Bennett Story, stewardship vice-president; Mrs. Viola Bowles, secretary; Mrs. L. Grau, treasurer; Mrs. J. P. Dodge, publicity chairman, and Mrs. Squires, Mrs. D. E. Stephens and Mrs. R. C. Hargrove, group captains.

Green and white colors of the St. Patrick motif were used in refreshments served to Mrs. Inez Lewis, Mrs. L. M. Gary, Mrs. Carl Lassiter, Mrs. E. E. Bryant, Mrs. Libbie Layne, Mrs. R. V. Jones, Mrs. R. C. Hatch, Mrs. G. R. Stephens, Mrs. Creed C. Coffee, Mrs. Ida Gentry, Mrs. A. T. Lloyd, Mrs. C. A. Amos, Mrs. Walter R. Douglass, Mrs. W. B. Buchanan, Mrs. Claude Darden, Mrs. Roy Green, Mrs. Ralph, Mrs. Bowles, Mrs. Beckett, Mrs. Grau, Mrs. Cain, Mrs. Souders, Mrs. Hargrove, Mrs. Grant, Mrs. Greene, Mrs. Dodge, Mrs. Louise Squires and the hostess.

Mrs. John Robinson To Guide Activities Of West Ward P.T.A.

West Ward P.T.A. activities for the next year will be guided by Mrs. John Robinson who was elected president of the organization at a meeting Thursday afternoon.

Other officers selected included Mrs. Bart Wilkinson, first vice-president; Mrs. Marian Anderson, second vice-president; Mrs. H. G. Jenkins, secretary; Mrs. T. B. McGinnis, treasurer, and Mrs. R. E. Lee, reporter.

Superintendent W. C. Blankenship gave a discussion on "School Days." At the close of the meeting, members of the association stood in silent appreciation for the services rendered by the out-going officers.

Mrs. Sam Baker Scores High At Party Given For Matinee Bridge

Mrs. Sam Baker scored high; Mrs. Leon Smith received low and Mrs. Charlie Badwick binged Thursday afternoon when Mrs. S. A. McCombs was hostess to the Matinee bridge.

The St. Patrick theme was evident in the table covers, tallies and score pads. Refreshments in the green and white colors were served to Mrs. Elmer Boatler, Mrs. Joe Cline, Mrs. Tom Donley, Mrs. Ha Farley, Mrs. Byron Housewright, Mrs. Wayne Matthews, Mrs. Pauline Rutledge, Mrs. Geo. Tillinghast, Mrs. Alton Underwood, Mrs. Smith, Mrs. Baker and Mrs. Badwick.

Dinner Served To Four Aces Club By Miss Irene Knaus

Dinner was served to members and guests of the Four Aces club Thursday evening by Miss Irene Knaus at her home. Bridge followed the dinner with Mrs. Matt Harrington scoring high and Mrs. Hayden Griffith receiving high-cut prize.

Mrs. Frank Boyle and Mrs. Griffith were guests of Miss Knaus. St. Patrick theme was employed by the hostess throughout the dinner party with hats and shamrocks as favors.

Members there were Mrs. Ben LeFevre, Mrs. Ward Hall, Mrs. Harrington, Mrs. Loy Acuff and Misses Agnes Currie, Enid Avriett and the hostess.

Attend Medical Meet

Dr. and Mrs. T. M. Collins will leave Saturday for Dallas to attend the district medical meeting.

MORE FARM CHECKS

Twenty-nine additional farm payment checks Friday brought \$25,388 to Howard county producers. This pushed the number of checks to more than 700 and the total payments in excess of \$90,000.
