## STATK RUN-OFF PRIMARY WILL BE HELD TOMORROW

### EVERY DEMOCRAT SHOULD VOTE —BUT WON'T PERMIT OTHERS

The primary tomorrow is a very important election, and every democrat should vote, both men and women who are qualified. It is feared that members of other parties may attempt to vote, and every safeguard is being used to refuse the votes of persons who are not democrats.

The county chairman, Peyton B. Randolph, asks that all election officers make returns by Monday morning, so that the county committee, which he has called to meet at 2 o'clock can canvass the returns and certify the results to the state chairman on that date, so that everything will be in readiness for the state convention when it meets next week.

The members of the new county committee are:

Chairman, Peyton B. Randolph; Secretary, J. M. Adams; Plainview, No. 10.—J. M. Adams, Happy Union, No. 2.—Wm. F. Nix, Petersburg, No. 3.—Jesse Boyd, Hale Center, No. 4.—G. R. Scott, Center Plains, No. 5.—C. W. Boyd, Bartonite, No. 6.—J. J. Barton, Runningwater, No. 7.—J. A. Tarwater,

Westside, No. 8.—T. J. Johnson, Abernathy, No. 9.—H. D. Rosser, Lakeview, No. 11.—James T. Eller, Halfway, No. 12.—R. L. Hooper.

## HALE COUNTY SERVICE MEN TO RECEIVE MEDALS

Meade Griffin Appointed to Distribute Victory Medals—Bar for Each War Engagement

Meade F. Griffin of this city will be in charge of distributing the Victory medals to the ex-soldiers of Hale county. W. H. Arnold, army field clerk from El Paso, was here last week and made arrangements with Mr. Griffin for giving the medals. Mr. Griffin was a major during the war.

Mr. Griffin will be glad to furnish the necessary application blanks and all information concerning the medals.

The medal is most attractive. A ribbon of many colors is tied to the medal proper, which is handsomely engraved. For each major operation participated in the ex-soldier or sailor is given a bar with the name of the operation engraved on it. These bars are attached to the ribbons. Men who did not serve overseas receive a medal without the bars. Those who were in France but who did not take part in operations are given a bar with the word "France" on it.

## HIGHWAY ASSOCIATION MARKS PLAINVIEW ROADS

Three highways have been marked out of Plainview by representatives of the C. A. M. A. A. Hiram Gray and W. T. Hendy, of Dallas. The routes are north to Amarillo, south to Sweetwater, and east to Atlas, Okla., by way of Childress.

The sign posts of the organization not only show the direction, but they also give the name of the next town in each direction and the distance to it. The markings are a large circle on a white post. These markers are placed at frequent intervals.

Several local automobile dealers and filling station proprietors are members of the C. A. M. A. A. and it is through their efforts that the markings were made.

## CATES OF CROSBY APPEALS SENTENCE FOR 99 YEARS

Austin, Texas, Aug. 25.—Appeal was filed today in the Court of Criminal Appeals in the case of Sam Cates from Crosby county, convicted of the murder of J. W. Burton and sentenced to ninety-nine years in the penitentiary. The crime was committed March 8, 1920.

**Express Rates Increased**  
The state railroad commission has granted the express companies an increase in rates of 12 1/2 per cent, to become effective Sept. 1.

As the parcel post rate has not been increased, people should send everything possible by mail, thus saving money and patronizing the government.

**Selling Land at Abernathy**  
Clarence Schulz of the Schulz Land Co. of Abernathy, was in town Wednesday and reported land around Abernathy is changing hands rapidly. He stated that he had this week sold a section and 240 acres to two parties.

**Trains Continue Running Late**  
The train schedules are still in bad shape, and the passenger trains from the north are usually about an hour

## RESERVE OFFICERS PREDICT DECLINE

Federal Bankers Express Opinions Prices Will Soon Tumble, Economy Period Coming

Chicago, Aug. 25.—Extravagance in the working class is on the wane and a feeling of caution rules all business transactions because it is felt that a drop in prices is inevitable, according to the monthly statement of the Federal Reserve Bank here today.

The buying public, the statement said, is checking the extravaganzas which made "bonanzas" hitherto for industries and trades catering to popular desires and needs, regardless of prices.

"Caution rules in business in the eleventh district," the statement said, very good reason that mistakes cannot be made in high priced labor and raw materials without loss both of prestige and profits. Middlemen are cautious because the retailers are taking frequent soundings because they have sensed shoals in the popular purchasing power.

The key to the entire situation, it is declared, is "A dearth of liquid capital and restriction of bank credit."

This restriction resulted in a shifting of burdens and responsibility. Sales dropped and goods piled up in warehouses. These will be sold at a loss eventually, it was predicted.

The labor situation has improved though there is still some shortage, the statement declared. The housing crisis continues acute.

## Wheat Embargo to Galveston is Removed

The grain embargo at Galveston was removed Monday, and now wheat is moving through that point without hindrance.

This is good news to the Plains wheat grower and buyer, as the embargo stopped shipments except by permit.

Wheat is now selling in Plainview at about \$2.35 a bushel.

## MRS. REYNOLDS ACQUITTED OF MURDER OF HUSBAND

Lubbock Jury Out Less Than Two Hours Brings in Verdict of Not Guilty in Noted Case

Lubbock, Aug. 25.—After being out less than two hours a verdict of not guilty was returned in the Reynolds case in district court here today. The case started with the death of Samuel Reynolds while hunting in 1916 and was tried in Potter county in 1917 and his wife was given a twenty year sentence which was reversed in 1917 and on retrial resulted in a hung jury.

The case was transferred to Lubbock in 1919 and she was given five years, on a retrial she was acquitted.

## Live Stock Prices Fall

Dallas, Texas, Aug. 25.—Widely varying commercial conditions, higher prices on most commodities, further inflation of credit, an increase in business failures and depression of demand for live stock products prevailed in the Eleventh Federal Reserve Bank district in July, according to the bank's report today. Bearish sentiment marked the live stock trade all during the month, the stocker and division dropping \$1.50 less than the June top.

Lumber jumped from \$3 to \$10 per thousand feet. Shoe prices dropped an average of 14 per cent during the month, the report showed.

## Buys Home and Farm

T. O. Morris of Oklahoma City has been here this week, prospecting. He has bought the C. T. Fields residence, two doors north of the McGill rooming house, and the farm of A. Combest, near Runningwater, and left yesterday for North Texas, where his family is visiting, to bring them here. He is a chiropractor and will open an office in Plainview.

## Some Fine Peaches

A few days ago W. A. Nash sent the editor of the News a few fine peaches from trees in his orchard, and today Miss Josie Rossen brought us three very large peaches from her mother's orchard. The late spring frosts killed nearly all the peaches on the Plains, but where they were not killed the fruit is large and luscious.

## Moved Fine Hogs to Plains

Ira Ratliff, well known Tarrant county swine grower, has bought a farm west of Plainview, four miles, and has moved to it, bringing a herd of more than a hundred fine registered hogs.

## HURRAH, THE DEMOCRATIC PARTY SHOWS ITS OLD-TIME VITALITY AND PUGNACITY

### Neff and Bailey Forces Hold Separate Rallies on Streets Tonight—Bitter Speeches, Two Fist Fights

If anybody thinks the democrats are becoming effete and mollicoddlies, he simply has another think coming. The "old, unwashed and un-regenerated party" is just as aggressive and full of fight as in the days of yore, even if the partisans are not full of liquor. The party is still the party of the people, and the country is safe.

This was well proven in Plainview today and tonight. This morning two well-known citizens and a hot fight on the street over Neff and Bailey, and tonight there were two red-hot rallies—the Neff people holding forth at the bandstand and the Bailey people up Broadway a half-block away. The Neff meeting had the

## RUSSIANS TRYING TO SAVE ARMIES FROM THE POLES

FORCES RELEASED FROM FINNISH FRONTIER RUSH TO RESCUE OF COMRADES

Warsaw, Aug. 26.—Fresh Bolshevik forces released from the Finnish frontier have been rushed toward Grodno in an endeavor to check the Polish advances and if possible rescue thousands of the red army hemmed in by the Poles, according to tonight's military information.

Bolsheviks who have escaped the Poles are overrunning the east Prussian frontier to such an extent that German military authorities are said to have called out extra border forces to guard the scattered points and prevent further crossing.

At several places the Germans, it is asserted, fired on the reds, driving them back into Poland, where thousands are being surrounded by the Poles in their northern sweep.

The official communication tonight says the Bolshevik committee from Soldau, which escaped into Prussia, has been delivered to the Polish troops by German authorities and taken before a field court martial. Detachments of the first and fifth Polish armies continue to clear out the northern regions of the remnants of the Bolsheviks, many of whom threw away their arms and are wandering through the forests.

## NINETEENTH AMENDMENT SIGNED BY COLBY

Suffrage Act Now Part of the American Constitution—Can Vote in November

Washington, Aug. 26.—Without pomp or ceremony, Secretary Colby signed today the proclamation declaring the woman suffrage amendment to "all intents and purposes a part of the constitution of the United States."

The secretary's signature was affixed to the proclamation at his home at 8 a. m. shortly after he had received from Governor Roberts of Tennessee, the certificate that final favorable action had been taken by the legislature of that state, completing the required thirty-six. The quiet manner in which Mr. Colby acted was a disappointment to some suffrage workers, who had hoped to make a ceremony of his act. They united in statements later that with the secretary's action nothing can be done to prevent women from voting in November.

## Plainview Playing at Roswell

The Plainview Elks base ball team is at Roswell, N. M., playing with the Roswell team.

In yesterday's game the Plainview team walked off the field and refused to play longer on account of a ruling of the umpire in the second inning, the Plainview team being ahead at the time. One of the players wires that the refusal to play was justified, as the decision was "robbery."

## GIBBS BUYS McBRIDE STOCK OF GROCERIES

Will Continue the Business at Same Stand—Has Two Grocery Stores

Messrs. Gibbs of the Plainview Produce Co., and Gibbs Cash Grocery, have bought the grocery store of J. B. McBride, next to the Third National Bank, on the north side of the square. They will move the stock of the Gibbs Cash Grocery to the newly purchased store, and continue the business.

Mr. McBride informs us he will become a member of the real estate firm of Price & Sloneker.

The Gibbses will continue the Plainview Produce Co. store at its present place and the other will be a separate store.

## WILL ERECT FILLING STATION AND GARAGE

W. L. Thomas Will Put Modern Brick Buildings on the Old Slaton Corner

We are informed that W. L. Thomas, who bought the old Slaton residence property at the corner of West Ninth and Broadway, will move the residence off the lots and build an elegant gas filling station on the corner, and a large modern brick garage adjoining it.

## WILL LIKELY BUILD MODERN BRICK APARTMENT HOUSE

NEW CITIZENS FROM OIL DISTRICT CONTEMPLATE EXTENSIVE BUILDING PROGRAM

Messrs. Charles Pridgen and Lewis J. Bird from Wichita Falls, W. E. Spencer from Cisco, and W. L. Thomas, who has lived here for nearly a year, have bought the half-block of land on the west side of Broadway, between Ninth and Tenth streets, and plan an extensive building program on it. We understand they paid \$16,000 for the property.

They will erect a two-story brick garage and an oil filling station at the corner of Ninth street, and possibly another brick building, and likely in the near future erect a modern apartment house on the corner of Tenth street. The residence now occupied by D. L. Miller and family will be moved from the premises.

These gentlemen have organized the Plainview Land & Development Co., with offices in the old Eller building. Mr. Spencer and family occupy the J. C. Goodwin residence, west of Wayland college, which they bought several months ago; Mr. Pridgen and family recently bought the J. H. Abney home on West Eleventh street, and occupy it.

## BOY SCOUTS WILL SPEND NEXT WEEK IN CAMP

Will Hike to Tule Canyons—Program for Each Day—Will Have a Big Time

The Boy Scouts, about thirty strong with Scout Master Offlighter in command, will leave Monday morning for a hike to the Tule canyons in Swisher county, about thirty miles distant, where they will spend the week in camps, and will engage in many Scout games, drills and swimming, covering all phases of Scout outdoor work.

The annual hike of the Scouts is an important affair and is looked forward to with much interest. At a recent meeting of the Kiwanis club a donation was given the Scouts for their week's camping.

The following program for each day has been announced, and Wednesday and Saturday the camp will be open to visitors:

6. Reveille, flag salute, wake up drill, morning wash up.
7. Breakfast, tent clean-up, air blankets.
8. Assembly, policing the grounds, sanitary and health infection.
9. Instructions in Scoutcraft, drill.
10. Swimming.
- 11.30. Wash up.
12. Dinner, tent inspection, pennant award.
- P. M.
- 12:45. Quiet hour, letter writing.
2. Scout games, hikes, stalking, exploring trips.
4. Swimming and water sports.
- 4:30. Drill.
6. Evening colors.
- 6:20. Supper.
- 7:30. Camp fire stories, stunts.
- 8:50. Tatoo—call to quarters.
9. Taps—all lights out.

## THIRTY-EIGHT TEACHERS PLAINVIEW SCHOOL FACULTY

SESSION WILL BEGIN SEPT 13 UNDER CORPS OF ABLE TEACHERS

The annual catalogue of the Plainview public schools will soon be printed and circulated. The schools will open Monday, Sept. 13, with a faculty of thirty-eight persons, a list of them appearing below, all places having been filled except a librarian in the high school and the fifth grade and music teacher in Lamar school.

The high school has sixteen teachers nearly all of them holding university degrees. The Central school has fourteen teachers and Lamar school eight.

Supt. W. E. Patty informs us that an exceptionally strong faculty has been secured, and the best year's work in the history of the school is in prospect. The school's affiliation with the State University is very high.

## Central School

W. E. Patty, superintendent; E. B. Sparks, principal, mathematics; T. C. Bigham, history; H. H. Floyd, science; Miss Loubeth King, English; Miss Beulah Duensing, Latin; Miss Leah M. Musgrave, domestic science. Miss Daisy Bowen, Spanish and commercial. Miss Bertha K. Duncan, mathematics, Miss Madie Davis, English; Miss Gladys Gregory, history; Miss Maribel Quinby, piano and violin director of orchestra; Miss Annie Smith, expression; Miss May Bell Riddle, primary.

## Lamar School

Paul Morgan, principal, seventh grade; Miss Melba Wiley, sixth grade; and drawing; fifth grade and music to be supplied; Miss Evelyn Lane, fourth grade; Miss Dora Bell, third grade; Miss Goldie Rigler, high second grade; Miss Lora Lane, low second grade; Mrs. Frances Neal, first grade.

## PRUDENTIAL INSURANCE CO. GETS \$25,000 JUDGMENT

J. M. Graham Must Pay Note Given Company for Stock Years Ago

Monday in district court in the case of J. M. Graham vs. the Prudential Life Insurance Co. of San Antonio an agreed judgment was taken against Graham for about \$25,000.

Eight or ten years ago agents for the insurance company came to the Plains and sold considerable stock in the company to well-to-do farmers, taking their notes for a larger part of the purchase money, these notes being sold to other parties. Later on account of certain alleged things connected with the affairs of the insurance company, the farmers who bought stock refused to pay the notes, claiming they had been swindled. One or more cases were tried, the farmers getting judgment for cancellation of notes, but as a similar case from elsewhere was on appeal before the supreme court, it was decided to wait until the court's decision was made. We understand the court held the notes were legal and must be paid—hence, the agreed judgment in the Graham case. We are not advised as to what will be done in the other cases.

B. A. Williams vs. Hattie Williams, divorce, granted.

Lois Pack vs. J. E. Green, suit over-valuation of contract on sale of land; judgment for defendant.

R. C. Rallings vs. Jacob H. Edger, transferred from Lamar county, judgment for defendant.

The cases of John J. Ellard vs. Reuben M. Ellard, for a settlement of their partnership affairs, are set for trial next Monday.

## No Higher Intrastate Rates

While the railroads yesterday put on 20 per cent increase in all interstate passenger rates, the intrastate or in Texas rates will not be increased, as the state law declares 3c is the highest rate permissible in the state. The railroads have gone before the interstate commerce commission to contest the matter.

Undertakers of Plainview as well as doctors said when asked about the costs of being born and dying that the prices haven't gone up nearly so much

as they have in other parts of the state. The cost of a coffin is about \$150, and the cost of a casket is about \$300.

If you jump in a river, and your body isn't found, the cost will, of course, be less.

But, taking everything into consideration, you will be doing well to get by for \$300 as the cost of your last party.

## GOING DOWN TO TEXAS

Tune: "Battle Hymn of the Republic."

The farmers of the Central States they all sing this song,  
And join in the chorus a hundred thousand strong.  
They are going down to Texas in a mighty big throng,  
For the people are catching on.

Chorus.

They're going, going down to Texas,  
Going, going down to Texas.  
They're going, going down to Texas,  
For the people are catching on.

The trains they are so crowded that they cannot take  
them all;  
Some people try to turn them, but they can't make the  
stall.  
Some people try to turn them, but they can't make the  
stall.  
For the people are catching on.

Chorus.

Some bankers try to scare them but they cannot make  
the bluff—  
Farmers are drawing out their money, indeed it does seem  
tough,  
They're going down to Texas, where they know they raise  
the stuff,  
For the people are catching on.

day night.

A hard rain on Monday about the  
time a woman is putting her wash  
on the line is enough to make her for-  
get that she went to church twice on  
Sunday.

Jazz at dances is going out of  
style, in fact jazz music is soon to be  
abolished from everywhere. Yet,  
some people are so pessimistic as to  
think the world is not growing bet-  
ter.

It is estimated that American tour-  
ists will this year spend a half-bil-  
lion dollars in France, or more than  
the interest on the entire ten-billion  
dollars the allied countries owe the  
United States on the war debt.

Another Plains jury has tureed a  
woman loose who was charged with  
murdering her husband. We know  
nothing about the facts in this case,  
but it is a cinch that a woman can  
bump off her hubby whenever she gets  
tired of him and no Plains jury will  
convict her. As for that matter,  
juries on the Plains hold murder very  
lightly, and rarely ever convict a mur-  
derer, and when they do only give  
a light or suspended sentence. Three  
things are responsible for this sad  
state of affairs—the lawyers are per-  
mitted to bring in all sorts of evi-  
dence that often has no bearing except  
to confuse the jury, the jury is usu-  
ally made up of weak-kneed jurors  
who are easily pulled around by law-  
yers, and the laws have been con-  
structed by courts so much that any  
sort of a defense passes muster, and  
permits red-handed murderers to go  
scot free. But, there is a Judge where  
excuses don't pass, for he has declared  
that no murderer shall enter heav-  
en.

The editor of the News has given  
up hope of ever getting that million  
dollars from his investments down  
in the oil regions. First, the drill  
was lost in the hole, then in fishing  
for the drill the fishing tools were  
lost and had to be fished for, after  
which the fishing-fishing tools were  
also lost and had to be angled for.  
Most everything but oil has been  
gotten out of the hole. In fact, all  
that seems to still be in the hole  
are the stockholders.

### THE DOWN-TRODDEN (?)

A socialist paper spills a lot of tears  
over "the condition of the down-trodden  
wage-worker."

All piffle! There is no such thing  
as "the down-trodden wage-worker"  
in these United States. The wage-  
worker is enjoying prosperity and  
happiness, and works less than most  
anybody.

The wage-worker works only seven,  
eight or nine hours, at high wages.  
When his day's work is done he goes  
home with the sun high in the sky,  
and has several hours of time at his  
disposal without a worry anent his  
work. He gets a good night's rest,  
hence he should be happy, healthy  
and with the wages most of them get  
should by exercising economy and  
thrift soon be in good financial cir-  
cumstances if not wealthy.

It is the employer and owner who  
needs the sympathy of the kind-heart-  
ed these days. The employer "stays  
on the job" for several hours after  
the wage-earner is gone, and maybe  
works twelve to sixteen hours a day.  
He has to worry over making the  
business go, spends sleepless nights,  
and possibly never has a minute he can  
call his own. He must meet the in-  
creased cost of materials, labor, etc.,  
and must buck the game or go down  
into bankruptcy. Many employers  
would like to change places with the  
wage-earner, for they would not have  
to work half as hard or long, get more  
pleasure out of life, live longer and  
as the bankruptcy courts show would  
gain financially.

Get ready to attend the Northwest  
Texas Fair to be held the last week in  
September. It is going to be a great  
show.

The bunch on the corner have re-  
markable memories. Some of them  
recollect about ten times more than  
they ever knew or ever happened.

It is the practical joker who gets  
maddest when the joke is turned on  
him. It is the swindler who roars  
loudest when he gets swindled. It is  
the profiteer who squeals when he gets  
hit tail caught in a crack. Each has a  
yellow streak. This brought out in  
the squeal that is now going up from  
the sugar speculators, who some time  
ago bought heavily of sugar and have  
been hoarding it for higher prices.  
The world has this year made the  
greatest sugar crop in its history, and  
sugar is being dumped into the United  
States. Prices are going down rapid-  
ly. The greedy speculators stand to  
lose heavily. They are crying to the  
government to "stabilize sugar prices,"  
so that they can get from under. The  
government will not help them, as a  
high official says "Speculators and  
others caught in this crash must bear  
their losses resulting from their spec-  
ulative activity." That's right. Let  
'em suffer. They hoped to rob the  
consumers, and got caught at their  
own trick.

### VICTORY AT LAST

Tennessee was the thirty-sixth, and  
necessary, state to ratify the nine-  
teenth amendment to the federal con-  
stitution and full woman's suffrage  
has become an actuality.

The women have for seventy years  
been waging a campaign for full suf-  
frage, and they won because their  
cause is right.

In the days before the feet of the  
Nazarene pressed the roadways of  
Palestine, woman was considered a  
beast of burden, a being who had no  
rights that man needed to respect.  
There are some men in these glaring  
twentieth century days who still hold  
to this old doctrine.

But, the Nazarene exalted woman-  
hood, and woman begun to rise and  
demand her rights. It has been a long  
and tiresome fight, but the newer and  
better generations have given her in-  
creased power and privileges, until  
now she has become a full-fledged  
citizen of the greatest country the  
sun ever shown upon.

Since boyhood the editor of the  
News has favored woman's suffrage.  
He has never for a moment conceded  
that his mother, sister and wife had  
any less right to vote than his father,  
brothers and himself. He has always  
known that woman would exalt rather  
than degrade the ballot. Womanhood  
always stands for the right, the clean  
and the pure, for "God, home and  
country."

The evil elements have always op-  
posed woman's suffrage, because they  
were evil and well realized she would  
use her vote and influence to their  
undoing. The liquor interests have  
been the most active opponent of wo-  
man's suffrage, because they knew  
the vote of the women would be for  
prohibition.

With women exercising full suf-  
frage a new and better era will come  
to America. "The uncrowned queens"  
worked, prayed and sacrificed during  
the war, and they will be just as ef-  
fective in time of peace as in war in  
promoting the good of their country.

If the editor of the News had not  
already known that the old liquor  
crowd was supporting Joe Bailey, the  
kind of campaign the Bailey side has  
been using for the past few days, just  
before the election, would prove it is  
doing so. Bailey says he believes in  
"old time things," if so, he should be  
blessed, as his campaign this week is  
of the same sort pulled off by the  
whiskey and vicious crowd in cam-  
paigns of twenty years and more ago.

While in Texas there are few and  
on the Plains no business failures, the  
financial report shows that during the  
month of July more firms and indi-  
viduals went into bankruptcy of any  
month since November, 1918, and the  
heaviest indebtedness since January  
1916. Frenzied finance and high liv-  
ing is given as the reason. Everybody  
has money and many are speculating  
in a reckless way—and are of course  
losing out. People drawing high  
wages are living like princes and  
princesses, never thinking of the to-  
morrow or of the people who are sell-  
ing then things on credit. The News  
is optimistic all the time, but it can-  
not see how the wild way things are  
going on can continue to do so much  
longer. Nothing but a financial blow  
up can seemingly stop the mad rush.

### IN A MINOR STRAIN

There should be lots of money in  
raising cabbages, for you can either  
eat or smoke them.

By the time the wooden wedding  
anniversary comes around, a wife  
realizes that she married a block-  
head.

We pity some men. Worrying gives  
them dyspepsia and dyspepsia causes  
them to worry.

A female writer complains about  
the way "amateur mothers" raise  
children. Does a woman have to  
have ten or fifteen to be a profes-  
sional?

According to statistics approximat-  
ely 7,500,000 passenger automobiles are  
in use in the United States today. This  
is about one for every fourteen per-  
sons, compared with one for every  
2,180 persons in the rest of the world.

Those European nations it seems  
had rather have Uncle Sam's cash  
and food than his counsel and advice.

If Job had lived these days and been  
forced to wait for a delayed train he  
would have doubtless ruined his rep-  
utation for patience.

It is a little awkward for a democ-  
rat to get used to a Roosevelt, but  
the more we read what Frank Roose-  
velt, the democratic vice presidential  
candidate is saying, the better pleased  
we are with him. Cox and Roosevelt  
are proving a strong ticket.

### SUCH IS LIFE

C. Chaplin banks more each week  
for tossing lemon pies than W. Shake-  
speare collected for a year's production  
of work that never can die.

Playing baseball (as he does it) nets  
Babe Ruth more than the finest educa-  
tion he could have acquired in 20  
years of study. Ask any college pro-  
fessor.

Jack Dempsey earns more in one  
battle with his right and left than J.  
Coarsar spent in conquering all Gaul.  
One feminine diver earns more coin  
of the realm sporting in a six-foot  
tank on the vaudeville stage than C.  
Columbus received for placing a new  
world on the map.

Ponzi collected more on a get-50-  
per cent transaction than Alexander  
Hamilton received for putting the fi-  
nancial foundation under the United  
States of America.

Yet there are some parents who  
continue to think strange that their  
little boys cannot be persuaded to re-  
gard the school room with the proper  
amount of admiration and love.

If you begin paying the farmer as  
much for food he produces as you do  
the speculator for not producing the  
food you want, you couldn't coax farm-  
ers' sons to city jobs.

If they ever took to paying college  
presidents salaries as large as they  
hand to college football coaches, what  
a scramble there'd be to drink at the  
fount of learning.

Ty Cobb, it may be added, has made  
more money playing baseball than the  
U. S. A. ever paid to any president  
during his entire term in the White  
house.

Possibly the Prodigal son, when he  
resorted to eating husks, was trying  
to get even with the food profiteers of  
that "far country."

The recent copious rains on the  
Plains insured excellent row crops.  
Now, the sunshine and warmer weath-  
er have come to make a big cotton  
crop. Can you beat the Plains as a  
farming country?

More building operations are now  
in progress in Plainview than in any  
other town in Northwest Texas. The  
sound of the trowel, saw and ham-  
mer is heard every day. A real city  
is being built.

Another reason for the high cost  
of living is that in the old days at  
man bathed in a 50c wash tub in the  
kitchen and these days he spends  
\$2,500 for a bath room and tiled tub.

The best yield of wheat in Okla-  
homa this year was \$102.02 an acre,  
and the best in Iowa \$91.08. The best  
yield in Hale county so far reported is  
\$127.40. Hale county beats 'em all  
when it comes to farming. Wheat  
is making the Plainview country rich.

A member of the society for pre-  
vention of cruelty wants circuses to  
be prohibited from imprisoning ani-  
mals in cages. We hardly think a  
circus would be a success if all the  
animals were turned loose and allowed  
to prow about the tent.

With the price of print paper five  
times what it was four years ago,  
printers' wages more than two times,  
and everything else that goes into the  
making of a newspaper, doubled and  
trebled, the owner of a newspaper  
must these days work twelve to six-  
teen hours to keep from going busted.  
The newspaper business is some stren-  
uous game in this year, 1920.

The story comes from Lockney that  
a revivalist who is holding a meeting  
there called upon the editor of the  
Beacon last week to admonish him to  
lead a better life, and remarked, "My  
friend, life is uncertain. If you were  
struck by a bolt of lightning today  
would you be prepared?" What differ-  
ence would it make?" returned the  
hardened editor. "Lightning never  
stops to investigate."

"It is idle talk of reducing govern-  
mental expenses if the nation has to  
be armed to the teeth, and vast armies  
and navies will be necessary if the con-  
certed plan of international peace  
fails. The guarantee against war is  
a credit against which a debit charge  
must be made, and after all this is  
the very crux of the controversy over  
the league of nations. There can be  
no result worth while unless the na-  
tions of the earth assume a definite  
obligation. The mere promise of this  
country to place its responsibility on  
the shifting sands of congressional ca-  
price is a travesty to human intelli-  
gence. We are seeking to shake our-  
selves free from the cost of war and  
yet the task in readjustment along the  
line of constructive economy is faced  
at the very outset with the question  
of what our military and naval policy  
shall be."—Gov. James M. Cox.

Thirteen inches of rain at Lamesa.  
Mrs. W. P. Hatchett of Lamesa left  
yesterday for her home in Lamesa,  
after a week's visit with her daugh-  
ter, Mrs. Jim Phillips.

She said the week before she came  
thirteen inches of rain fell at Lamesa.  
Crops in that section are as fine as  
could be wished for.

Mr. and Mrs. E. E. Roos of Ama-  
rillo are here.

Mrs. Sue Burton of Quitaque is in  
town today.

## JOE AND THE GERMANS

The recent world war imposed by the Ger-  
man nation, was the most dangerous and  
brutal attack ever made on the world's civil-  
ization, and when it came time for Joseph  
Weldon Bailey to say so,—he closed his head  
until it was safe to talk, then opened the  
flood gates of his wonderful oratory, along  
with known republicans, in a direct attack on  
the Democratic administration, for its splen-  
did part in repelling the attack referred to.

In the recent primary election in Cook  
county, where Joe is supposed to be best  
known, the Germans voted for him, about ten  
to one, as against the three other good dem-  
ocrats then in the race. The Germans throug-  
out Texas understand Joe and in tomorrows  
battle of ballots will be for him and every  
good American in Texas should cast his or  
her ballot for their Democratic friend. The  
HON. PAT M. NEFF, for governor.

## AUTOMOBILE MOST FAMILIAR MACHINE

"People generally are more familiar with the automobile than with any other piece of machinery," says Mr. Blair, of Hart & Blair, local dealers in Chevrolet passenger and commercial cars.

"It is seen on the streets of every city. On the farms and ranches and in sparsely settled regions, everyone knows the automobile and its purpose.

"It has become the great passenger and commercial transportation medium.

"Only specialized workers know the machinery of the railroad intimately enough to operate them. But the automobile is quickly mastered by thousands of new owners every day.

"The total number of automobile drivers in the United States greatly exceeds the number of cars—more than 7,500,000. Others who have never driven a car know something of its operation through riding as passengers.

"With all its usefulness, the automobile is not a complicated machine.

"Medium-weight cars, in particular, are designed with the greatest simplicity and fewer parts. It is easy to care for such an automobile as to drive it. And this in great measure accounts for their popularity.

"People have learned that to keep this type of car running and get the utmost service from it requires only the application of common sense."

## SILVERTON

Aug. 20.—Homer Simpson and Miss Pearl Bonor were married at Tulla last Saturday evening, and started the next morning with friends for a trip to the mountains.

M. C. Myers and Miss Pearl Welch were united in the bonds of wedlock last Wednesday evening, Rev. E. H. Clary officiating.

The Ozark Trail Pyramid at this place is now under construction and will likely be completed by the end of the week.

R. M. Peace and wife and Son, Robert Riley, were over from Plainview yesterday in the interest of the Dort and Paige car agency.

A few days ago T. F. Richardson while on the way to Plainview had some car trouble which necessitated his leaving the car on the road, and when he went back after it the casings had all been taken off of it, and the ud chains and other articles found loose about it had been taken. It will cost Mr. Richardson about \$100 to again get the car in running shape.

J. G. Whitacre and wife (formerly Miss Abbye Burson) of Hale Center are here visiting relatives and friends.

L. D. Witcher, a well known farmer who lived about two miles this side of Quitaque, died at his home Tuesday afternoon and was buried in the Silvertown cemetery Wednesday afternoon under the auspices of the Masonic Lodge.

Jack Wofford of the Quitaque community and Miss Lily Kitchens of the Lakeview community were married last Monday.

R. H. Brashear and Miss Elzela Perdue, John G. Robinson and Miss Elinor Fairris were married at the Methodist parsonage last night, Dr. E. E. Robinson performing the double ceremony.

All are members of prominent families of the town and are very popular young people.

Mr. Brashear is the son of Mr. and Mrs. M. F. Brashear and his bride is the daughter of Mr. and Mrs. J. L. Perdue.

Mr. Robinson is the son of Dr. and Mrs. E. E. Robinson and his bride is the daughter of Mr. and Mrs. Geo. S. Fairris.

They have the best wishes of their legion of friends.

## Informal Reception

Miss Flora Meadows, honoring Miss Iece Littleton of El Paso, Miss Lorena Patty of Waco, Mrs. Geo. Hutchinson of Fort Worth, and Mrs. J. B. Wallis, was at home from 3 to 5 Wednesday afternoon to many guests who called.

Golden glow was used extensively throughout the reception rooms. Misses Katherine Willis, Lula Malone and Eleanor McGowan presided at the punch bowl, assisted by Mildred Power, Mary Ruth Matthews and Lucile Meadows.

Mrs. R. H. Knoohuizen sang, accompanied by Mrs. Guy Jacob.

Iced watermelon was served in the dining room by Mrs. C. A. Pierce and Mrs. Meadows.

## Masquerade Party

Thursday evening from 7 to 10 Charlotte Coleman entertained her friends with a masquerade party. Games of various kinds caused evening to pass rapidly. Iced punch was served to Margaret Dorsett, Juanita Largent, Virginia Keys, Alma Dargent, Harriet Hall, Adabell Pace, Thelma McGee, Louise Graves, Maurine Mathes, Naoma Blockson, Adedale Slaton, Luella Lamb, Marie Luna, Pearl Hatcher, Minnie Webb, Mary Pauline Pritchett, Elizabeth Goode, Moselle Marlin and Howard Towery, Oran Auld, Byer and John Slaton, Roy Oswald, Hubert Scott, Arthur Hatcher, Granvell Lipscomb, Rex McGowan, W. The onthly meeting of the Library board will be held at the public library Wednesday afternoon at 3 o'clock.

## Miss Rice of Canyon Honored by Hostess

Miss Pauline Rice of Canyon was the honoree at a dinner Friday evening, given by her hostess, Miss Ruth Harrison.

Golden glow and cut flowers were used for decorations, the color scheme being yellow and green.

The dinner was in courses, and covers were laid for Miss Zola Campbell, Beulah Lee Jackson, Ollie B. Muse, the honoree and the hostess, Messrs. Thomas Brahan, Billy Bromley, Edgar McClendon, Dick Oliver and Odell Carlton.

## Kiwanis Club Charter Delivered At Enjoyable Banquet

Last night at the Ware Hotel the charter of the Kiwanis club was delivered by the district governor, Edward Howell of Oklahoma City, who came here for the purpose. About 115 covers were laid for the members of the club and their wives and friends.

With H. S. Hilburn as toastmaster, there were responses from Mr. Howell, who delivered the charter and told of the principles, work and aims of the Kiwanis clubs. He urged that Plainview be represented at the district meeting to be held in Oklahoma City Sept. 6-7.

R. A. Underwood, R. H. Knoohuizen and A. E. Boyd also spoke. Mrs. Geo. Wilson sang with Mrs. Guy Jacob as accompanist, Mrs. T. A. Caldwell gave readings, and the Judia 4 Jazz orchestra played during the evening. The club was organized something more than two months ago.

### Staked Plains Baptist Association To Meet in Hale Center

The Staked Plains Baptist Association will meet with the Hale Center Baptist church Tuesday, at 10 a. m., September 14th.

We are very anxious that a full representation of all the churches shall be elected and sent to the meeting.

Dear brother preacher, please do your best to have all the churches represented by messengers and letter

and a collection for association missions, and come in the spirit of Christ, whom we serve.

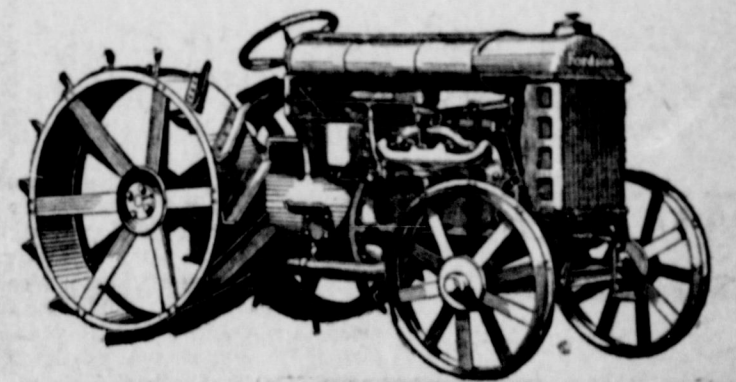

G. L. BRITAIN, Chairman. Mission Board Staked Plains Baptist Association.

### Holiness Revival

The Holiness revival under the big tent, being conducted by Evangelist Callis from Kentucky, is being well attended and much interest is being manifested. To date about fifteen conversions are announced.

The meeting will likely close Sunday, with services practically all the day.

### SHOWS EFFECT IN RAISE IN FREIGHT RATES

Santa Fe Officials Says Per Unit Additional Cost Will Be Little Over Old Rates

"No railroad man will deny that the freight increase will be paid by the public," declared T. B. Gallaher, general freight and passenger agent for the Panhandle and Santa Fe Railway, in discussing the increase in rates yesterday. However, in Mr. Gallaher's opinion, now is the opportune time for a reasonable presentation of facts showing to what extent the new rates will effect the individual consumer. To that end certain illustrations prepared in his office may be helpful to those who are trying to figure out what the increase will mean to them.

"It goes without saying," said Mr. Gallaher, "that an increase of 50 cents per ton in the freight rate of coal will become a part of the selling price. And an increase of 50 cents per ton in the freight rate on a number of raw materials entering into the manufacture of finished articles will have an effect on the cost of producing such materials, and also the finished products. These figures are used for comparative purposes.

"But one can well challenge the statement that the increased freight rate should result in an increased selling price of a pair of shoes," continued Mr. Gallaher. "The increased freight on shoes from St. Louis to Amarillo is about two and one-tenth cents; on a yard of dress material the increase is so small it can scarcely be traced; and on many other articles the increase is nominal. No one could challenge the statement that the size of the total increase will be based on to the public. As to whether it will be properly distributed, that is, as among producers, middlemen, retailers and consumers, is a question which every one should reckon with and deal with as the facts in the case may warrant."

Mr. Gallaher has made computations in accord with the decision of the Interstate-Commerce Commission showing the freight increases in cents on 22 commodities in general use in Amarillo to be as follows:

- Pair of shoes from St. Louis, 2.1 cents.
- Pair of shoes from Boston, 3.1 cents.
- Men's suits of clothes from Chicago, 1.9 cents.
- Men's suits of clothes from New York, 6 cents.
- Ladies' suit from Chicago, 2.3 cents.
- Ladies' suit from New York, 3.7 cents.

Men's hats from Chicago, eight-tenths of a cent.

Pound of coffee from New York, four tenths of a cent.

Men's hats from New York, 1.2 cents.

Pound package of breakfast food from Battle Creek, three tenths of a cent.

Hundred pound sack of flour from Minneapolis 13 cents.

Bushel of potatoes from Red River district, 19.5 cents.

Box of apples from Oregon and Washington 21 cents.

Pound of beans from Michigan three tenths of a cent.

Pound of lard from Chicago, three tenths of a cent.

Dozen bars of soap from Chicago, 1.7 cents.

Pound of sugar from Colorado, two tenths of a cent.

Pound of cane sugar from New Orleans, three tenths of a cent.

Pound of tea from San Francisco, five tenths of a cent.

Pound of canned goods from California, three tenths of a cent.

Pound of bacon or ham from Kansas City or St. Louis, three tenths of a cent.

### Jefferson Had a Platform

Cleveland Press:

Speaking of platforms, Thomas Jefferson, first of the Democrats wrote as good a platform as any. It contained nine planks and ninety-eight words. Jefferson called it "A Decalog or Canone for Practical Life." and here it is:

1. Never put off till tomorrow what you can do today.
2. Never trouble another for what you can do yourself.
3. Never spend your money before you have it.
4. Never buy what you do not want, because it is cheap; it will be dear to you.
5. Pride costs us more than hunger, thirst and cold.
6. We never repent of having eaten too little.
7. Nothing is troublesome that we do willingly.
8. How much pain have cost us the evils that have never happened.
9. Take things always by the smooth handle.

## Young Man, Young Woman Are You Going to College This Fall?

Then you will be interested in a school that offers the following advantages:

1. A standard four year college curriculum leading to a Bachelors degree, and especially equipped to offer advanced instruction in Agriculture, Art, Expression, and Music in addition to the usual college courses.
  2. A faculty of fifty "hand picked" specialists in the various fields of learning.
  3. A Department of Music unexcelled in the whole Southwest, giving private instruction in voice, piano, string instruments, band, and orchestra besides instruction in public school music.
  4. A Department of Expression that takes rank with the best in the country.
  5. A Department of Agriculture equipped with splendid laboratories and sufficient land for work in horticulture and stock farming. We have a herd of high bred dairy cows, a few fine hogs, and a poultry yard.
  6. A school plant that represents the last word in school architecture, consisting of an Administration Building, a dormitory for women, and infirmary, a metal shop for manual training, and a heating plant; conservatively valued at \$1,250,000 and easily surpassing all other institutions within three hundred miles.
  7. A dormitory for women that has every modern convenience at a minimum of expense, under the direction of as fine Christian influence as can be found anywhere.
  8. A Kindergarten in charge of trained experts, used as a demonstration school for Kindergarten teachers.
  9. A common school of nine grades under expert instructors used as a demonstration school for grade and high school teachers.
  10. A Manual training department that offers courses in all forms of wood and metal work and printing.
  11. A Director of Athletics and Physical Education for both men and women and the very best equipment for these departments including a beautiful indoor swimming pool, shower baths, and unexcelled gymnasium, six tennis courts, a baseball and football field, a race track, etc.
  12. A library of 10,000 volumes, unexcelled in quality and administered by trained librarians.
  13. The religious life of the school is distinctly invigorating. Devotional exercises are held daily for the entire student body. The Y. W. C. A. maintains a paid secretary who gives general direction to Christian activities. In addition, the Baptist and Methodist churches will have paid secretaries here during the coming session.
  14. Expenses very low—no tuition (except for private instruction) free texts, books, cheap board.
- There is no need for the young people in the Panhandle and Plains to go away from this section for college advantages, when all of the above unexcelled facilities are to be found in the West Texas State Normal College, Canyon, Texas.

**Oil Struck Near Turkey**  
Information has been received here that the Texas-Virginia Co., which has been drilling near the Ox-Bow crossing on the Little Red between Turkey and Memphis, struck a pretty good vein of oil last Friday afternoon between 2100 and 2200 feet, and drilling was stopped at once awaiting orders from headquarters at New York. M. E. Tomson had a sample of the oil with him here Monday, which he said they got

from the slush pit where it had been bailed out. He was enthusiastic over the situation, as he says the striking of oil there, gives greater assurance that it will be found in the well they are drilling near Turkey. He says they are now drilling between 700 and 800 feet in that well, and getting along nicely.—Silverton Star.

## SOUR STOMACH INDIGESTION

**Theford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.**

East Nashville, Tenn.—The efficiency of Theford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver.

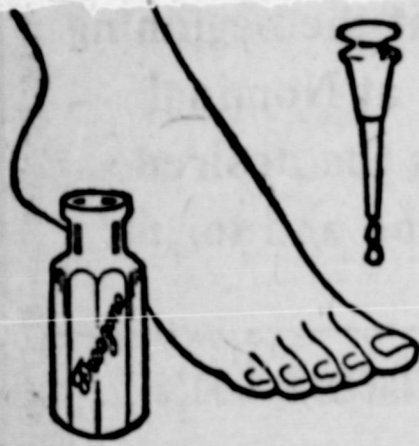

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Theford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Theford's. E. 13

## TEXAS RAILROADS WON'T ACCEPT STATE RATES

Seek to Enjoin Texas Railroad Commission from Enforcing Orders—Want Higher Rates

Austin, Aug. 23.—Texas railroads are not willing to accept rate advances allowed on interstate traffic by the Texas railroad commission and will apply to the interstate commerce commission for relief. N. A. Stedman, Austin attorney for the principal roads, announced today, following a conference with other attorneys for these roads.

Mr. Stedman said that on Aug. 26, when increased rates allowed by the Texas railroad commission and the interstate commerce commission became effective, Texas railroads have decided to apply the 35 per cent increase on freight rates allowed by the latter to all rates embraced in the Shreveport order, which includes some intrastate rates. The 33 1-3 per cent advance allowed by the Texas commission, he said, will be applied in intrastate rates not involved in this order, while passenger rates will be allowed to remain as they are, pending the decision of the interstate commerce commission.

The application to the interstate commerce commission, said Mr. Stedman, will request that increases allowed on interstate traffic be applied to intrastate rates. These increases are: Thirty-five per cent on freight rates, 20 per cent on passenger rates with a 50 per cent surcharge on Pullman fares, 20 per cent excess baggage charges. The Texas commission allowed a 33 1-3 percent raise in freight rates and the increase requested on excess baggage. The railroads contend that complete jurisdiction over intrastate rates has not been returned to the Texas railroad commission since the railroads went under federal administration.

## SOUTHERN GROWERS ARE FACING CRISIS

President of Cotton Association Deplores Action of Gamblers—15c Maybe

St. Matthews, S. C., Aug. 25.—The south is faced to face with a calamity—conditions even far worse than prevailed in 1914, J. Skottowe Wannaker, president of the American Cotton Association, declared today.

"By a powerful organization of bear and spot gamblers backed by powerful vested interests in America and abroad, the price of cotton is being steadily hammered down, regardless of the fact that there is an enormous increased demand for raw cotton and although adequate supply of raw cotton is of the most serious concern to the world today," he charged.

"This combination is boasting that they will force prices to 15 cents a pound—that is following a period in which the mills have made ungodly earnings." Wannaker then outlined his plan for a gigantic export corporation to control cotton production.

## VALUE OF EDUCATION

The time is fast approaching when the old familiar school bell will summon the boys and girls from their three months of vacation back to their quest for an education, and to those of us who are no longer privileged to be care-free school children, will bring fond memories of the days when we trudged along to school with our slate and other paraphernalia.

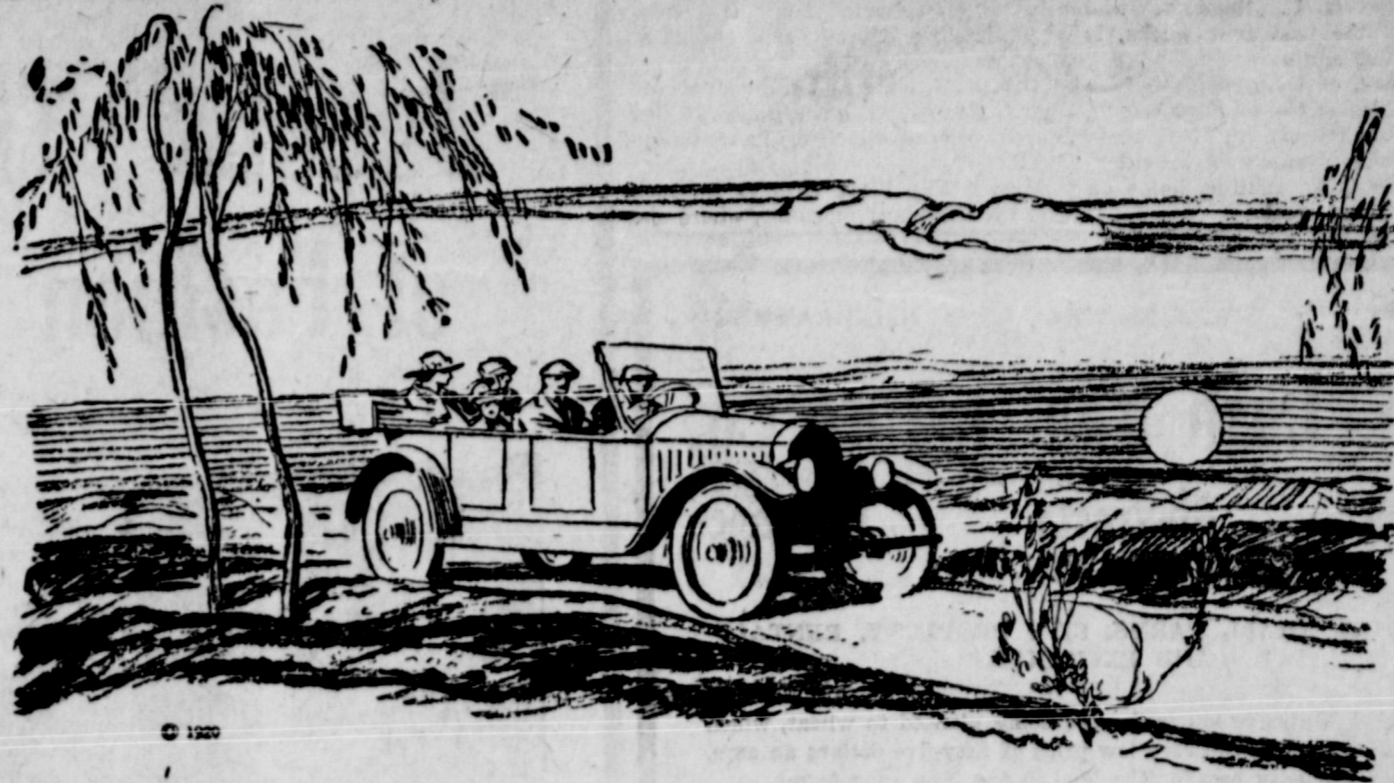

The temptation for young people to drop out of school and go into the business world at once is now very great, because of the high wages paid even to the unskilled laborers. But our boys and girls ought to look further than the present and should consider more than dollars in the hand right now.

The present unequal conditions under which the common janitor receives a larger salary than the ordinary school teacher, do not encourage the interests of education. But such conditions will not always exist and even under these circumstances it pays to give yourself an education. Every college graduate who has the proper amount of "grit" and "go" will find a responsible, fair-paying position waiting for him or her. And the beauty of an education is that it fits one for promotion and advancement.

But education means more to a boy or girl than furnishing a means of gaining a livelihood. Education broadens the mind, widens the field of vision, and makes one enjoy living more. Especially should the boys and girls who have completed the high school course, carry on their work in college. Lack of finances should be no drawback, because in this day and time any boy or girl who wants an education had enough will find a way of earning expenses while going to school. A high school education means much but the training and knowledge of the world with a few years in college means much more.

So, young man or woman, think carefully before you decide to drop your educational career.—Vernon Times.

Labor is Becoming Plentiful News from the large cities are to the effect that there is becoming a surplus of labor, and the number of unemployed is growing. Laborers are seeking work for the first time in four years, and are becoming less particular about the kind of jobs they take, and are more reasonable in the wages they ask. Bankers say the era of hysterical wages and extravagant spending is about over, and conditions are rapidly getting back to normal.

THE women should certainly be thankful for the automobile. It has given them a chance to see a lot more of their husbands.

they're beginning to insist on knowing what they are getting.

And the more they insist, the better it will be for us.

But it has done a great deal more than that.

We want our customers to know what they are getting.

It has brought people closer together, given them new interests, swept away old prejudices.

That's why we represent U. S. Tires—so there will be no doubt about it.

What affects one man now generally affects a good many of his neighbors in the same way. And they have a better chance to get together and talk things over.

Whatever the size of your car, you know that the U. S. Tire you put on it is the best kind of tire its makers know how to make.

It's had its effect on the tire business.

U. S. Tires are guaranteed for life, without any limitation of mileage.

When automobiles were new people were willing to buy any kind of a tire. Now

That ought to mean something to the man who has thought about tires.

## CAN'T DO THE WORK

It's too much to try to work every day against a constant, dull backache, or sudden darting pain in the small of the back. Be rid of it. Try Doan's Kidney Pills. Your neighbors recommend them. Ask your neighbor.

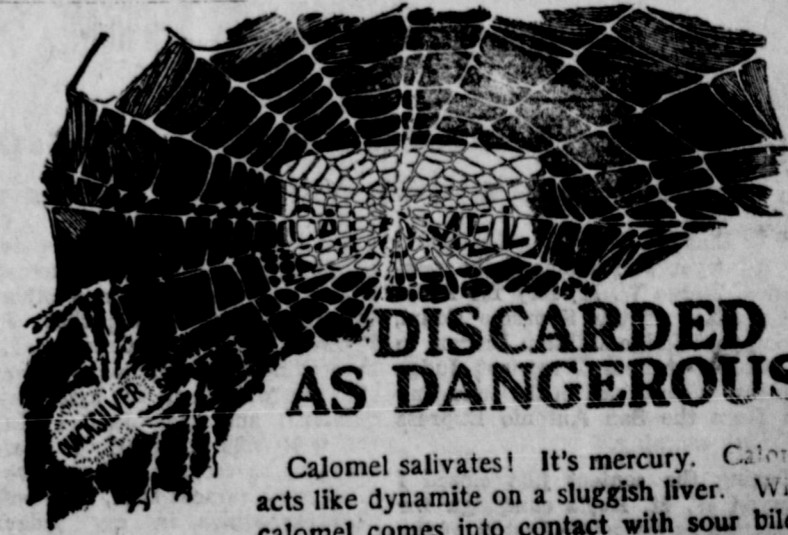

Mrs. R. L. Doruff, Plainview, says: "When I first began using Doan's Kidney Pills my back and kidneys were in an awful condition. At times I couldn't do my work and couldn't get around for a week or two at the time. There was a steady, bearing down pain through the small of my back and when I stooped over sharp, knife-like pains would catch me in my back, so I could hardly straighten up. I suffered day and night from this trouble and every muscle in my body was sore. I often became so tired, I could hardly stand up and suffered quite a bit of the time from headaches. My kidneys didn't get right at all I saw Doan's Kidney Pills advertised and bought two boxes at R. A. Long's

## DISCARDED AS DANGEROUS

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

## Take "Dodson's Liver Tone" Instead!

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents, which is a harmless vegetable matter for dangerous calomel. Take it promptly and if it doesn't start your liver and straighten you up faster and quicker than nasty calomel

and without making you sick, you just go back and get your money. If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It is harmless, pleasant and safe to give to children; they like it.

**JUDGE KEY'S MANAGER NOW FOR JUDGE  
PIERSON FOR SUPREME COURT**

**In Interview Given to the San Antonio Express He Gives  
Some Reasons Why He Will Support Pierson**

News that Dudley K. Woodward, Austin lawyer who managed the campaign of Judge W. M. Key for Associate Justice of the Supreme Court, will support Judge William Pierson in the run-off primary against Judge Hawkins, is contained in the following item from the San Antonio Express of Friday morning.

"During the contest just closed I managed W. M. Key's campaign for nomination as Associate Justice of the Supreme Court. It now appears that he has been eliminated, and in the run-off between Judge Pierson and Judge Hawkins, I shall vote for and support Judge Pierson, because as between these two gentlemen, I believe Judge Pierson is better qualified and that it is a matter of genuine public importance that he be nominated.

"Judge Hawkins is a man of strict integrity and high character, but his record upon the Supreme Court during his seven and one-half years of service there, forces me to the conclusion that, temperamentally and otherwise, he is not qualified for the position which he holds. During the period between Jan. 7, 1913 (the date upon which Judge Hawkins qualified) and June 20, 1920, covered by volumes 152 to 221, advance sheet No. 1 of the S. Finley Harbut of Brownwood is

Chief Justice Phillips has written 204 opinions of the court (exclusive of dissents, concurrences and others not decisive of the case); that Justice Brown, Yantis and Greenwood, each succeeding the other in the order named, have written in the aggregate 182 opinions, and that Justice Hawkins has written 28 opinions. If these figures are correct, and they have been made with utmost care, they reflect a situation, which, in my judgement, renders it imperative that Judge Hawkins be superseded.

"Judge Pierson is a man of equally high character, an eminent lawyer of wide experience, and for a number of years past has served with credit to himself upon the District Court, where he has demonstrated his ability to transact the public business with accuracy and dispatch. I am convinced that, if elected to the Supreme Court, he will prove himself to be a distinguished member of that great body. He has conducted his campaign in such a manner that his success leaves no traces of bitterness, and it will be a pleasure as well as the discharge of a public duty to give him my support.
