## Four City Council Members Will Be Elected Saturday

Wellington voters will name four members of the City Council in an election Saturday, April 1, with 11 candidates from which to make selections.

Three places to be filled are regular terms. The fourth is an one-year-unexpired term.

Voting will be in the Club Room of Bura Handley Community Center between the hours of 8:00 a.m. and 7:00 p.m.

Twenty-four absentee ballots were cast by the Tuesday evening deadline, said Mrs. Lorene Jenkins, city secretary. This is one of the largest number in recent years.

Two incumbents are asking re-election to regular terms: Lyndon Crelia and Wayne Cudd. Others running for the regular two-year terms are Loyd Vines, Jack Needham, Willie Gragson, David Caison, Don Hendrix, A.C. Shipley, and James A. Thomas.

There are two candidates for the unexpired term, Ralph Owens and Larry Adams. The vacancy was created by the resignation of Robert Owens earlier in the year.

Each candidate was asked by The Wellington Leader to tell something of his background and each was given an opportunity to make a statement concerning his candidacy if he wished. Here are their replies:

L.B. Don Hendrix is 34 years old and a farmer. He has owned property in Wellington since 1970 and lived here since 1975. He is a member of the Church of Christ and Kiwanis club. Hendrix is a Captain in the United States Army Active Reserve.

"It is imperative that our city council seek out and use all available means for city improvement. As an elected member of that body, I will explore and make use of all avenues for the betterment of our city," Hendrix said.

James A. Thomas, 41, has lived here since 1947. He is a ginner with the Farmers Co-op Gin. Thomas is a member of Greater Mt. Zion Baptist Church, president of the Men's Progressive Organization and president of the Brotherhood of his church.

Ralph Owens, who is running for the short term, is 34 years old and has lived in Wellington all his life. He is owner of Owens Farm Supply, a member of First Baptist Church and the Volunteer Ambulance Service. He is a past president and vice president of the Chamber of Commerce.

Owens served four years on the City Council and he is on the steering committee for the Community Block Grant program.

Loyd Vines, 47, is a farmer and has lived in the county 29 years. He belongs to First Baptist Church.

Vines served one-term as a City Councilman and was a volunteer fireman 5 years, although he is not a fireman at present. He is a former city employee.

He said he feels his previous experience as a city councilman and as a city employee would better qualify him for the job.

Willie Gragson, 40, is an engineering technician and has lived in Wellington 14 years. He belongs to First Baptist Church and has been president of the Wellington Cemetery Association two and one-half years.

"I am interested in the community as a whole and would work to that end," he said.

Lyndon Crelia, 43, is a pharmacist and owner of Parsons Drug. Altogether, he has lived here 10 years, at two different times. He returned here four years ago. He belongs to First Christian Church and is a past director of the Chamber of Commerce. He has served two years on the City Council.

Crelia said he had no statement concerning his candidacy.

A.C. Shipley, 79, is a farmer and has lived in the county 50 years. He is active in First Baptist Church. Mr. Shipley said he belongs to no organizations and has no statement concerning his candidacy.

Wayne Cudd, 59, has lived in Wellington all his life. He is owner of Cudd Brothers Trucking.

Cudd is a past president of the Texas Motor Transportation Association, the organization of independent truckers, and is currently on its advisory board. He is a

member of First Methodist Church, a past president of the Chamber of Commerce, a member of the Elks Lodge and is completing his third term as a council member. He had no statement concerning his candidacy.

Larry Adams, 20, has lived in Wellington all his life. He is in business with his father, Sam Adams.

He belongs to First Methodist Church and the Kiwanis Club. Adams said he had no statement concerning his candidacy.

Jack Needham, 52, has lived all his life in Wellington. He is owner of Jack's Body Shop. Needham belongs to the Church of Christ and Lions Club and has been a member of Veterans of Foreign Wars 30 years. He served as secretary-treasurer of the Wellington Booster Club and treasurer of Wellington Cycle Club. He did not make a statement concerning his candidacy.

David Caison, 31, is another who has lived all his life in Wellington. He is a farmer and belongs to First Baptist Church.

Caison is president of the Skyrocket Booster Club and a past president of the Softball Association.

"I want to represent all the people with no personal vendetta," he said.

### CLEAN-UP

A city worker loads debris Tuesday from dilapidated buildings that are being torn down in the northeast "flats" area of Wellington. Lots are being cleared of junk, streets paved and homes repaired under a grant from the Department of Housing and Urban Development. Clean-up, paint-up and fix-up activity is underway in every block in the area.

## Three School Board Members Will be Elected on April 1

Voters in the Wellington school board election will choose two men for regular terms and one for a two-year unexpired term, Supt. E.W. Clement reminded. The election will be held at the same time as the city and hospital board elections, Saturday, April 1, from 8:00 a.m. to 7:00 p.m.

There will be two voting boxes, at Wellington, in the foyer of the high school auditorium, and at the Dodson American Legion building.

Nine candidates are running for the three places, the largest number in recent years.

One candidate is running for re-election, Frank Coleman, Jr. Other candidates for regular terms are Bill Lindsey, Earl L. Bartlett, and Kirby Campbell, Robert Pow-

ell and Rodney Kane. Seeking the short term are Paul Spillman, Harold W. Moore and Denzil Lacy.

Each candidate was asked to supply a little background information and give a short statement concerning his candidacy if he wished to. Here are their replies.

Bill Lindsey, 33, has lived in the county all his life except for four or five years when he was in law enforcement at Memphis and Midland. He is a farmer and belongs to the Church of Christ.

"I would like to serve the community. I am interested in kids getting a good education and in keeping the school on a sound financial basis," Lindsey said.

Harold W. Moore, 42, is a farmer and raises livestock. He grew up here but was a

teacher and coach for 17 years, 16 years of that in Pampa. He returned four years ago.

Moore has served as a lay preacher at the Wheeler Nazarene Church 8 years.

"I still feel an interest in young people and their concerns, and I would like to be of service to them in any capacity. I feel that through the school board I could be of service to the youth and the community," Moore said.

Robert Powell, 38, has lived here all his life except three years in the armed service. He is head of transportation at Owens Salvage Co.

Powell is a member of the Church of Christ and secretary of the Men's Progressive Organization. He said he had no statement concerning his candidacy.

Kirby Campbell is 35 years old and a farmer and rancher. He has lived here his entire life except for the time he was in military service. He belongs to First Methodist Church.

"I am not going to politic for the job. I want everything to be fair and everything to be on even keel," he said.

Denzil Lacy, 38, also has lived in the county all his life, except when he was in college and teaching. He is a member of First Baptist Church and is

active in the American Agriculture movement. He also belongs to Farmers Union and the Farm Bureau. He is a former teacher and coach. Lacy said he did not have a statement about his candidacy.

## Greenbelt Electric Notified Tuesday of Low-Interest Loan

Senator Lloyd Bentsen was advised Tuesday, March 28, that the Rural Electric Administration has awarded a low interest \$410,000 loan to Greenbelt Electric Co-op, Inc.

The loan has a special 2 percent interest rate.

Funds from the loan were intended to be used to finance services for additional consumers, but David Pruitt, Greenbelt manager, said Tuesday afternoon that it will

be necessary to use most of it to pay financial obligations to co-op incurred during the recent ice storm.

The storm damage will cost Greenbelt around one-half million dollars, Pruitt indicated.

The loan announced Tuesday was set up to finance services for 149 additional consumers, 18 miles of distribution line and various improvements to the system.

Pruitt said that in the near future the necessary steps will be taken to prepare a loan application to cover this work.

Pruitt became manager of Greenbelt in January and the devastating ice storm came only a few weeks later.

"We had to use money from our general fund that was earmarked for other purposes to finance the ice storm," he said. That money will have to be repaid.

There were improvements to sub-stations, made before the storm.

"We're looking at \$700,000 to \$800,000 we have had to spend since the first of the year," Pruitt said.

"We deeply appreciate the Rural Electric Administration, headed by David Hamill, who has reacted so quickly to get the money down to us. They understood our predicament," he added.

## Volleyball Tournament To Open Thursday Night

The annual three-day Young Homemakers volleyball tournament will open Thursday evening, March 30, and continue through Friday and Saturday nights. There will be both men's and women's divisions.

Games will start at 5:30 p.m. each evening and each will last 30 minutes. The last should be played about 10:00 p.m. First round games will be finished Thursday, and finals in championship and consolation brackets will be played Saturday.

There will be only one game played at a time, Mrs. Brown said. Men's and women's games will alternate.

Individual trophies will be awarded all members of the first, second, third and consolation teams for a total of 48.

Jimmy Black will officiate. The concession stands will be open, and only home-made foods will be served; ice cream, Frito pie, cookies, brownies, etc. There will be coffee and pop.

Admission will be 75 cents for adults and 50 cents for students, and proceeds will be used by Wellington Young Homemakers for their scholarship fund. This is awarded each year to a graduating senior girl.

## Whaley Places Farm Problem On Government

Foster Whaley, Democratic candidate for State Representative, told Wellington Kiwanis Club members Friday, Mar. 17 that much of today's farm problems can be credited to what government has done to farmers as well as what it has failed to do for them.

He said that we have had almost three decades of a bi-partisan cheap food policy.

The government price freeze on live cattle by President Truman created the worst price disaster in the early '50's this country had seen at the time. Then the Nixon freeze on beef prices in 1973 triggered more bankruptcies in the cattle business than this nation had known to that time.

Whaley cited the fact Secretary Butz had encouraged fence row to fence row planting—then Nixon placed an export embargo and sent grain prices into a tailspin. All of this was an effort to appease consumers.

Whaley said the grain reserve government program to place three hundred million bushels in storage will pretty well assure the fact that wheat prices will go no higher than \$3.83 per bushel as long as the loan rate is only \$2.25. This is slightly over 70 percent of parity. Whaley said, "If our wheat and other grains were sold in the world market at parity, farmers of this nation could earn five billion dollars more for their grain products."

He said government figures that showed the U.S. sold over sixty-three percent of all the feed grains and 41 percent of all food grains that went into world trade in the last marketing year. He said that the U.S. has the power to set world prices.

## Dry Land Farmer

# GLENN CONRAD

## He drove his tractor over 700 hours last year!

Glenn Conrad has been a full-time farmer all his life except for the time he spent in school and the two years he served in the Peace Corps. He's a farmer's farmer from a family of farmers.

While still a little shaver, Glenn was introduced to farming on his dad's John Deere two-cylinder model D tractor. Since then he's been through the good years and bad.

He now works about 2,000 acres near Claude, Texas. Part of the land is his, part of it his dad's, and he leases some of it. Last year Glenn planted 700 acres to wheat and 500 acres to maize. The remainder laid out.

Hail got about 40% of his wheat crop last year and 20% to 30% of his grain sorghum. And, come harvest, he faced the same low, unfair prices as did every other farmer in the 66th District.

When elected as your State Representative, Glenn Conrad will continue to farm. But he will be assisted by his brother, so that he can spend all the time needed to represent you properly in the statehouse.

Even though the State Legislature cannot write a national farm program, Glenn will use the prestige, authority and influence that the office of State Representative commands toward getting a national farm program that provides some equity between the farmer's cost of production and the price he gets for his crop.

Glenn believes that our State Legislature must be careful not to impose unnecessary burdens on farmers. And, that it must do everything possible

to give Texas agriculture a competitive edge in the marketplace. He will be a positive influence to see that agriculture gets a fair shake in Austin.

With a degree in Agricultural Economics from Texas Tech and a lifetime of experience in practical farming, Glenn is well qualified to work for the best interests of agriculture and businesses related to agriculture.

He believes that action on the state level can help develop profitable markets for our farm products and pledges to do his dead level best to bring this about.

It would, however, be a gross miscarriage of responsibility to neglect other vital state issues with a preoccupation with the national farm program. The representative from this district must also have a thorough knowledge of, and deep concern for, such important issues as taxes, roads, water, energy, and the improvement of our educational system and an equitable plan for funding it. And, he must be concerned with the health care of all people in the 66th District, especially for the welfare of our older citizens. To neglect these vital state issues under the guise of solving the national farm program would be irresponsible.

Glenn Conrad is a common-sense kind of fellow who won't promise you the moon. But he's not afraid of work, and you can be sure that he'll be in there pitching to get the things done that you need done in Austin.

Glenn Conrad deserves your vote and whole-hearted support.

# Sharon Childers, Reece Bowen Wed in Formal Rites Saturday

The sanctuary of First Christian Church was the setting for the wedding of Miss Sharon Ann Childers and John Reece Bowen, which was performed at four o'clock Saturday afternoon, March 25.

Tom Anderson, minister of the Church of Christ, officiated.

Parents of the couple are Mr. and Mrs. N.E. Childers, 709 Floydada Street, and Mr. and Mrs. James R. (Bear) Bowen, who live east of Wellington.

Vows were spoken against a background centered with a swedish steel arch entwined with emerald leaves and gypsophila. Spiral candelabras with emerald were at each side, and the aisles were marked with bridal candelabras entwined with foliage and tied with satin wedding bows. The memory candle completed the altar arrangements.

Wedding music was presented by Mrs. Tommy Campbell, organist, who also accompanied Mrs. Billy Wilkerson as she sang.

The bride, given in marriage by her father, wore a formal wedding gown of sheerganza and re-embroidered Cluny lace over bridal taffeta, designed with high neckline, empire waist, and long bishop sleeves. The bell skirt featured fullness at the back. Inserts of lace enhanced the neckline, bodice, sleeves and skirt, with a border of matching lace at the hemline. Back fullness of the skirt ended in a sweeping chapel train. Her veil of imported illusion edged in lace, fell from a lace coif. Her cascade bouquet was a delicate cloud of gypsophila, white daisies and miniature mint green carnations.

The bride was attended by her sister, Mrs. Monte Ferguson, as matron of honor, while the bridesmaids were Mrs. Gary Van Bakel of Amarillo and Miss Lenora Oatman of Canyon.

Their formal length mint green gowns were designed with high necklines, empire waists and long sleeves. They wore white picture hats and carried natural wicker baskets of gypsophila, yellow and white daisies, and mint green carnations.

and groomsmen were Ted Harris and Kyle Janes. Monte Ferguson, brother-in-law of the bride, and Bill Tyler of Olney, brother-in-law of the groom, ushered and also lighted the candles.

## Association of W's Plans Membership Tea Sunday

The Association of W's, Wellington Club, will hold a membership tea Sunday, April 2, in the home of Mrs. Bob Weatherly, to which everyone over 16 years of age is invited. Calling hours will be 2:00 to 4:00 p.m.

Mrs. Weatherly is president of the organization here.

Members will explain the purpose of W's (Women Who Want to Be Women) Sunday to those not familiar with it. They will tell of the work proposed here.

Officers have explained briefly that the association is educational in nature, seeking to inform women on issues which affect the moral and spiritual welfare of the family, and to determine specifically the things each person can do and to unite their efforts for greater affectiveness.

This group, which supports

the pro-life movement, nation wide, had its beginnings in a series of informal meetings in homes. Plans for an association coalesced when several interested members attended the gathering of the National Pro-Life Rally in Houston on November 19.

They met in opposition to the National Women's Conference held in Houston at the same time, which was the official group of the International Women's Year.

The principal speaker was nationally known Phyllis Schlafly.

Upon returning from the pro-life rally, one Wellington woman said: "We were so impressed with the number of godly people who still have respect for the American flag. We are representing a lot of people who think as we do."

It is a constitutional monarchy, with Wellington as its capitol city. The climate is mild, and rainfall varies between 20 and 200 inches, Mrs. Lewis continued.

Mrs. Ila Orr presided at the meeting, and Mrs. Fletcher White gave the opening prayer. The meeting closed with members praying for a special revival.

Refreshments were served to ten members.

There were 9 children in the Burns family, who moved to Hollis from Frederick, Okla., about 1920.

### Mrs. Sims at TFWC Events

Mrs. B.M. Sims, second vice president of the Texas Federation of Women's Clubs, returned recently from the Gulf Coast where she was the guest speaker at two district TFWC conventions.

She spoke first at the San Jacinto District convention in Houston, then was in Port Arthur as speaker for the Magnolia District Convention.

Her subject at both was "Federation is a Good Deal in Any Language."

Additionally, Mrs. Sims was taken to a number of points of interest and especially to see historical buildings and homes which are preserved or restored privately or as designated historical buildings.

## The Alligators Chomp

The fight, of course, isn't over yet, but there's every indication that the farmers have won at least a minor victory in Washington by convincing legislators to reopen considerations of farm relief action.

And in doing so, they have learned a key lesson in modern American politics, a lesson illustrative of the plight we find ourselves in if we truly believe in a representative democracy where things are done in deliberate manner.

Farmers have learned what the blacks, brown and women long ago learned—the squeaky wheel gets the grease in Washington.

Things in Congress seem to be done more by fiat than by plan, more because of panic than reason, more through haste than deliberation.

Clearly, when minority groups must form to provide impetus for legislative consideration, the cart appears before the horse. Initiative is in the hands of the minority, not in the Congress.

Thus, it was not until the American Agriculture Movement tramped to Washington to focus attention on the plight of the farmer that interest spread in legislative relief.

Two questions spring to mind: why must people take to the streets to demand legislation their own representatives should perceive as needed; and why shouldn't a government which advocates widespread local and state-level planning have enough foresight to predict trouble on the horizon?

The answer, we suspect, is embodied in what has become a general principal of government these days. That principle is that legislation or planning are not needed until things are so bad only legislation can cure them. It's called the squeeze-them-till-they-yelp principle.

Congressmen and bureaucrats, see, are inured now to the idea that only when something yelps is it alive and worthy of interest. Through decades of civil rights marches, protest rallies, Washington sit-ins, shout-ins, love-ins, and mug-ins, those in representative positions have learned that he who governs best governs only sporadically and to the whim of whoever it is who's yelping at the time.

If one is continuously fighting off the alligators, as the saying goes, it is hard for him to remember his original goal was to drain the swamp.

We need only review the legislative record in energy planning to perceive the veracity of our principle. President Carter wanted a comprehensive energy program, a plan for the future, an outline for survival. What he got was something resembling the legendary hyra, a head attached for each yelping alligator which had an interest or a fear. What started out as a vision of continuity, of comprehensibility ended up riddled with tooth marks and claw prints.

Government today responds, rather than leads, feints rather than standing forthrightly.

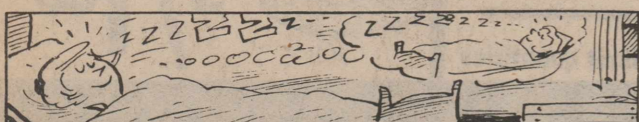

We don't really know how to solve this situation. We can only say that as the farmers have learned how the system works, how to get things done, so will other groups (if everybody by now isn't pretty familiar with it) and our problems will multiply.

## Footing The Bill

The so-called middle class in America is having a hard time footing the bill for a college education for their children, even though most of them have planned ahead and have made some financial provision for this well ahead of time. The savers and the planners and those who pay their own way are penalized by our tax laws and by our government planners these days. An income tax change would help cut the cost of the Basic Educational Opportunity Grant Program which now costs the taxpayers \$2.1 billion each year and the Guaranteed Student Loan Programs which costs an additional \$540 million, plus the College Work-Study Program which costs another \$435 million in federal subsidies. There are millions of Americans with college age children who would like a hand up instead of a hand out from the federal government.

Harold Hudson in The Perryton Herald

Your first dream after falling asleep usually lasts for 10 minutes.

Some say that whatever one is doing at first sight of the new moon, he will continue to do all month.

AUSTIN—There's a major crime a minute—or every 46 seconds, to be precise—in Texas.

Department of Public Safety records for 1977 show the crime rate decreased by 1.3 per cent, but violent crime is still on the rise.

Felony theft, the single most prevalent crime, decreased seven per cent, according to DPS Director Wilson E. Speir.

Ninety per cent of crimes were committed in cities and just 23 per cent were cleared by arrests.

Both Texas DPS statistics and those compiled by the Federal Bureau of Investigation were similar.

For the first time in five years, serious crime declined nationwide. Still, there was a sharp increase in the number of rapes and other crimes of violence against people.

The nationwide major crime rate dropped four per cent last year, the FBI concluded.

DPS statistics compiled by sheriffs and chiefs of police showed:

—There were 1,708 murders in the state last year—a nine per cent increase over 1976. Over the nation, murders increased one per cent.

—Rape increased in Texas by 15 per cent, nationally 10 per cent.

—Robbery increased by 9.5 per cent, aggravated assault 18.7 per cent, burglary 3.6 per cent and car theft 12.9 per cent in Texas.

### Ballots Held Up

A district court ruling temporarily held up printing of May 6 Democratic ballots containing a referendum issue on whether consumer loan interest rates should be raised.

Texas Consumer Finance Association filed suit to block the referendum, contending it is the work of

Sen. Bill Patman of Ganado in an effort to influence legislation. Loan groups are planning to raise interest rates on consumer loans.

Judge Herman Jones set a hearing Monday morning on the request for a temporary injunction, warning that he wanted to hear arguments on law only, not politics.

### Worst Year

Last year was the most deadly in history for drivers on the state's highways.

Traffic accidents killed 3,698 persons, compared with 3,692 in the record year 1973 when the speed limit was still 70 miles an hour, according to DPS Director Speir.

Speir said speed is still the major problem in highway crashes, since 79 per cent of all drivers travel above the present statutory 55 mph limit.

The DPS chief called for these steps by the legislature:

—Outlawing radar detectors or "fuzz busters" sold on the open market to drivers to warn them of speed traps ahead.

—Strengthening driving while intoxicated laws to provide mandatory 90-day suspension of drivers' licenses on conviction.

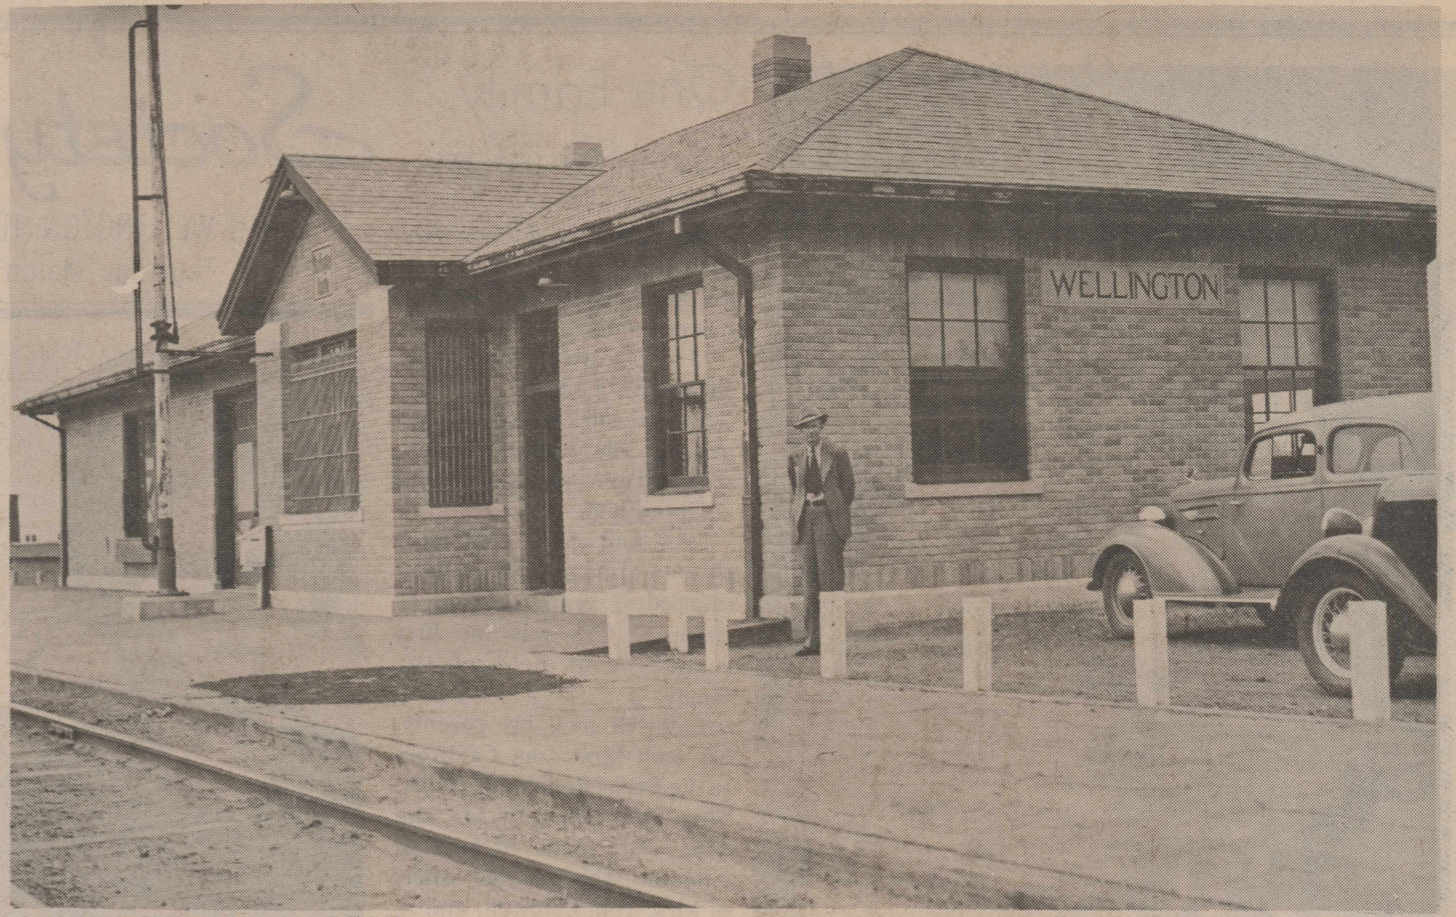

—Doubling the 1,494-member DPS force to improve enforcement activities.

—Revision of the breath test law for suspected drunken drivers to allow other types of tests.

### Courts Speak

The State Supreme Court upheld lower court rulings against former Texas Tech basketball star Greg Lowery who sued school personnel for \$783,000 claiming that playing while injured cost him a professional contract.

—Upheld demotion of a Carrollton fire department officer for failure to investigate a complaint concerning an animal inside the walls of a residence.

—Held Harris County not liable for damages due to an employee's loss of an eye in a shooting accident which occurred while he was not on county business.

—Ordered payment of workers compensation death benefits to survivors of a Haskell County drive-in grocery manager who was shot accidentally.

The Court of Criminal Appeals granted a new trial for a former Amarillo policeman who received a death sentence for slaying of an ex-legislator's 16-year old daughter.

The court also reversed a

45 year sentence given a Hunt County man for robbery.

AG Opinions

A one-year irrevocable union dues checkoff agreement between a union and a member is made valid by a state law, as long as the employee has given written consent to his employer. Attorney General John Hill said in a recent opinion.

In another opinion, Hill said a lessor of mobile

homes is not a dealer or salesperson under the law unless the lease contains a provision conferring an option to purchase the home.

Short Snorts

State water development bonds totalling \$25 million were sold in Austin last week at an effective net interest rate of 4.8487 per cent. A syndicate headed by First Boston Corporation of New York was the successful bidder.

# Quail Ex-Students Come from Over Southwest

Quail ex-students came from most of the southwestern states and as far as California to attend the annual reunion and banquet Saturday, March 25, and to see the new buildings which are a part of the proposed school plant.

This was the first reunion since the old school was destroyed in a tornado May 16, 1977, and the banquet was held in the new vocational ag shop.

Lonetta Neeley Ingram was master of ceremonies. There was no program to give more time for visiting. Ex-students were introduced by classes.

Hazel Needham Ray of Burbank, Calif., who graduated in 1943, received a gift of coming the greatest distance.

During the short business session, Ben Carson was elected president for the 1979 reunion; Alvie Clay of Hedley, vice president; Rita Boen Owens, secretary; and Pam Langley Neeley, reporter.

Carson reported on the Loyal Fund, which was begun a few days after the old school was destroyed. It is now just under \$12,000, and he urged ex-students to make contributions. The fund will be used toward construction of the new buildings.

The proposed school plant was described by Donald Langley, board president, described what would be included when buildings are finished. The foundation slab will be laid in the immediate future for the cafeteria, which will be between the present north and south buildings. The gymnasium, 100' X 100', will be located behind the south portion of these buildings. There will be an additional 40' foyer, and beneath this will be a basement which can be used as a shelter from storms and as storage, explained Langley.

The remainder of the evening was given over to visiting and reminiscing.

Those who registered were:

Guest speaker at a National Defense meeting of the La Paisana Chapter, Daughters of the American Revolution, was Army Captain Dennis Cudd. He grew up in this county, and with his wife, the former Judy Crawford, and two sons, again lives in Wellington.

Capt. Cudd served two tours of duty in Vietnam and one in Panama. His interesting information was given from the viewpoint of the army and his own opinions. He called attention to the fact that about the time that the Allies signed the NATO agreement, the Communist countries signed the Warsaw Pact, drawing a competitive line of nations that still exists. According to army statistics, the Warsaw Pact countries outnumber the NATO nations in number of troops, tanks and fighter planes, but NATO excels in nuclear weapons, and that is most important. Actually China reports more troops than the total of the above group, but it is impossible to verify their figure on any data, the speaker pointed out.

Hopeful information was presented by Capt. Cudd when he spoke about the complete change of tactics. Light machines, such as jeeps, can carry very accurate

laser-guided missiles out of range of the mammoth tanks, and destroy one with each missile. Too, the nuclear superiority of the NATO nations is a very important factor. Attention was called to the present activity of Cuba.

## COKER 5110

### A great dryland cotton

Coker 5110 performs better under stress conditions and makes more lint with less water than any other cotton we know of on the Plains!

With exceptional drought resistance, Coker 5110 is ideally suited to the Plains area around Lubbock and south; it also performs well in the New Mexico and other areas adjoining the Texas Plains.

### Vigorous grower

Coker 5110 has excellent seedling vigor — a quality that's essential if you're to produce high yields when moisture is limited. It has shown good tolerance to both fusarium and verticillium wilt. Makes a slightly larger boll than most cottons, and has shown good storm resistance. An excellent stripper cotton, it features above-average fiber quality.

TURNOUT	— 20 to 25%	MATURITY	— Medium
STAPLE	— 1 1/16" to 1 3/32"	DISEASE RESISTANCE	— Good tolerance to both fusarium & verticillium wilt
STRENGTH	— 78,000 to 85,000 p.s.i.		
MIKE	— Usually 3.5 to 4.3		

CLOIS BYARS, Vernon, Tex., says, "Coker 5110 stripped easier and made me more money per acre on grade & staple than other varieties."

JERRY NISLAR, Lubbock, Tex., (Photo) told us, "My Coker 5110 averaged 750 lbs./acre. The staple averaged 34, 'Mike' 3.9 & Grade 41."

## Quail Class of '58 Notes Anniversary

Five members of the Quail graduating class of 1958 gathered for their 20th anniversary reunion Saturday afternoon, March 24, preceding the general reunion Saturday night.

One other member, en route to the reunion, was delayed by the Mid-West Snow storm, and another could not come because of a festivity relating to his daughter's wedding.

Present were Ronald Cummings of McLean, Troy Harrison of Amarillo, Loyd Ray Langford of Lubbock, Dale Ratliff of Hugoton, Kansas, and Edith Messer Hill of Claude. Also present were the two class mothers, Mrs. Dollie Mae Wilson and Mrs. C.D. Messer, and the two sponsors, Mrs. Ben Ratliff and Mrs. Mary Lee Waits of Scottsdale, Arizona.

Guests were Mrs. Harrison, Mrs. Langford, Shellie Hill and C.D. Messer.

Another member of the class, Gano Wilson, who could not attend the class reunion, joined several members for the general reunion Saturday night. He is a coach and

teaches in the Estelline Schools. He is married to the former Elaine Yarbrough of Wellington and they have two small children.

Donald McGill, who is in construction business in Rockford Ill., started to the reunion but his airline flight was delayed due to heavy snowfall in the middle west, and he did not reach here until Sunday. He called his brother, Walter, with a message for the class.

James Colson lives in Amarillo, but he sent word that an entertainment for his daughter, soon to be married, would prevent his coming.

Cummings teaches in the McLean Schools. He has bachelors and masters degrees from West Texas State University. He and his wife have three children.

Harrison is an auditor in the Amarillo office of State Comptroller Bob Bullock. He and his wife have two daughters. He also holds bachelors and masters degrees from WTSU.

Aaron is executive officer with the Hugoton State Bank, Hugoton, Kansas. He is married to the former Patsy Aaron, and they have three children. Aaron is a freshman in WTSU and Carmen is 15. Their youngest is a four-year-old daughter.

Mrs. Hill is an abstractor at Armstrong County Abstract Co. Her husband, Bill, manages the Phillips 66 Station at Claude and they have one daughter Shellie.

Mrs. Waits, who left here in 1960, is a counselor in Scottsdale, Arizona, High School. The reunion coincided with her return from Washington D.C. where she attended a national convention of school counselors, in which she is active. En route home, she stopped to visit her parents, Mr. and Mrs. John Bishop of Quail and to attend the reunion.

Mrs. Wilson took the visitors through the new Quail school plant.

## Deadline Set For Women's Softball Teams

The Wellington Women's Softball Association is starting plans for this year's schedule, according to Joy Belew.

"So far, there are only two local teams signed up--Cherokee Inn and Hiett and Hiett Construction. Teams from the surrounding area are welcome," said Mrs. Belew.

The deadline for teams to enter is Saturday, April 1, for other teams to enter this year's league, and no teams will be admitted after that date, Mrs. Belew emphasized.

Those wishing to enter should contact Mrs. Belew or Louise Powell.

## Five Teams Enter Softball League

The Wellington Men's Softball Association met Thursday, March 23 to continue plans for this summer's league.

Five teams have entered: Langford's Conoco, Martin's Seed, Wellington Co-op, Owens Farm Supply and The Rangers. Rosters must be turned in by Thursday March 30 at the meeting to be held at the VFW Dining Room at 7:30

p.m. said Alton Belew, president.

The City Council has agreed to furnish the Ball Park with new concrete floors for the dugouts and new chain link fence will be put up.

Clean-up work began Monday, March 27 at the park. The old chicken wire fence and dug-outs were torn down by the league. All work is expected to be finished within two weeks.

## NOTICE

### LEGAL NOTICE

General Telephone Company of the Southwest has filed tariffs with the Public Utility Commission of Texas to implement the Federal Communications Commission's telephone equipment registration program (FCC Docket 19528). The tariffs have an effective date of April 15, 1978. The proposed changes will reduce rates for extension telephones and 25 foot long cords; will restructure one-time charges for service connection, moves and changes, increasing some and reducing others; and will offer reduced monthly rates for one-party business and residence customers who provide their own primary telephone instrument. The proposed changes in rates, with some increasing and others decreasing, will reduce General's gross revenues from its Texas operations by \$2,565.00.

## Methodist to Hear Former Pastor Sun.

Guest preacher at First United Methodist Church Sunday, April 2, will be a former pastor, the Rev. Hubert Thomson of Canyon.

He will fill the pulpit of his grandson, the Rev. Tom Thomson, who is to conduct revival at Sudan.

After the service, a covered dish luncheon will be held at the old parsonage to honor the Rev. and Mrs. Thomson and give them an opportunity to visit with friends.

Rev. Thomson was pastor of the Wellington church in the mid-1940s. He was transferred to Canyon, where he was pastor of First Methodist Church 5 years. It was also his home while he attended West Texas State University.

Since returning there, Rev. Thomson works with the senior citizen organization which he has served as vice president, and with the Spry Club, one of its branches.

He continues to hold revivals in Methodist churches, serve as an interim pastor and fill in for pastors on vacation or otherwise absent from their churches.

All but one of Rev. Thomson's pastorates were in

REV. HUBERT THOMSON the Panhandle, after he joined the Northwest Texas Conference 48 years ago, in 1930.

## SCD Holds Greenbelt Contests Here April 5

Salt Fork Soil and Water Conservation District will sponsor its annual Greenbelt FFA district land and grass judging contest Wednesday, March 5, when teams from 11 schools are due to participate.

At the end of the contest, district directors will cook a hamburger supper for the boys in Ellison Park, according to Tommy Powell, SCS district conservationist.

Winners of the contests here will compete in the area contest to be held later in the spring.

"There are indications that we will have more participation this year," Powell said. "Some of the teachers are bringing more teams and there is a possibility of picking up two chapters that haven't sent teams in recent years."

Contest will judge 40 varieties, telling whether each plant is poisonous or non-poisonous, native or introduced, annual or perennial, and of warm season or cool season growth.

This contest will be held at the Wellington FFA building.

Land judging teams will study soils at four sites near town. They will judge soil depth, texture, slope, permeability, erosion, and with all of this they will come up with a capability classification, Powell explained. They will then recommend a conservation treatment for the land.

John Carson of Quail, board chairman, will present ban-

ners to first, second and third place teams in each contest, and ribbons to the three high individuals in each.

Dan Henard, Jr., vice-chairman, will assist with the plant contest. Others on the board are Earl Patterson, secretary, John Brim and Doug Coleman.

Teams are expected from Wellington, Quail, Samnorwood, Hedley, Clarendon, Childress, Paducah, Memphis, Estelline, Valley and Lakeview.

Lennie Morgan is visiting this week in Austin with Phyllis Sullivan.

### FFA WINNERS

Samnorwood FFA land judging team placed third in the Sweetwater invitational meet Saturday, March 18, scoring 702 points. With ag instructor Jimmy Brown, left are Dale Turner, Ricky Bentley, Johnny Oldham and Mark Tarver. Oldham was second high individual with 260 points out of a possible 280. They competed against approximately 30 teams and approximately 2,000 boys took part in all events.

## Thinclads Third at Memphis

The Skyrocket track team placed third in the Cyclone Relays at Memphis Saturday, March 25, scoring 70 points.

First place went to Boys Ranch with 94 points, and other teams were 2, New Deal, 75; 4, Clarendon, 61; 5 Panhandle, 59; 6 (tie) Memphis and Motley County, 56; 8 Crowell, 15; 9 Petersburg 5; 10, Claude 4; and 11, Balley, one.

The 440 yard relay placed second with time of 46.3. Team members are David Baumgardner, Richard Garcia, James Thomas and Robert Chambers. Other winners were:

120 high hurdles: 5th, Craig Needham, 16.1.

100 yard dash: 5th, Baumgardner, 10.6.

440: first, Chambers, 52.6.

3. Chris Lynch, 55.1.

330 intermediate hurdles: second, Robert Powell, 44.7.

220 dash: 5th, Ricky Jones,

23.8; 6th, Tim Anderson, 23.9.

Mile relay: Wellington third, 3:30.2. Team members: Kevin Hall, Powell, Marty Warrick and Chambers.

Shot: 5th, Dane Dodge, 47.6."

Long jump: first, Chambers, 20'7".

Coach Phil Bailey's track team has only two seniors this year, in contrast to the predominately senior team last year. These two are Craig Needham and Dickie Moore. The remainder are sopho-

mores and juniors. On the 440 relay team, only Garcia and Chambers ran last year and they were fill-ins.

The mile relay team of Hall, Powell, Warrick and Chambers has no seniors.

Coach Bailey is giving his team no spring break as they are working out every morning at 10:30. As they will not have another meet until April 14 and 15 at the Amarillo Relays, this schedule is also due to continue for the next two weeks.
