YOUR VOTE FOR CONGRESS IS AN IMPORTANT VOTE

No other place on the ballot is as important to you as the office of Representative in Congress. You are electing the man who will represent you in decisions which will vitally affect the future of this nation. You cannot afford to make a mistake. This country faces more serious problems than ever before in its history.

Can this nation devise a system whereby we can avoid these terrible wars which each generation has had to face?

Can this nation manage its financial affairs so as to pay a Three Hundred Billion Dollar debt, without causing a terrible depression or an uncontrolled inflation?

Can this nation manage the demobilization of 11,000,000 men, and solve the unemployment problems arising from reconversion to a peacetime basis?

Can we restore trade with foreign nations, so as to enable us to dispose of our surplus farm products at fair prices?

Can we reorganize our government so as to eliminate most boards and bureaus, and keep this government a democratic republic instead of a National Socialist state?

Can we pay adequate Old Age Pension and Social Security Benefits without destroying the financial stability of the government?

YES—we can solve all these problems IF we elect the right sort of men to our national Congress.

Bob Wagstaff is a native Texan, a veteran of World War I, a successful lawyer of the highest standing. His record in the 42nd and 43rd Legislatures shows him to have been an outstanding leader of that period, with the capacity and skill to accomplish things in a legislative body. His record and experience qualify him to represent the people of the 17th District.

He has never held a full-time political office, and is not a perpetual office seeker. He will bring a fresh viewpoint to the solution of the problems which confront our nation.

PRESBYTERIAN FINE WOMAN CAMP EXPECTS LAID TO REST MORE VISITORS IN OAKWOOD

The Presbyterian camp grounds at Lake Cisco, the scene of much activity the past week, will be just as busy next week, when an older group of students from the Brownwood and Fort Worth presbyteries congregate there for religious educational study, said Rev. O. L. Savage, business manager, Saturday.

The first group, which left for their various homes after the morning meal Saturday, consisted of 76 children from 12 to 14 years of age and their instructors.

The second group, made up of older children from the two presbyteries, with a different set of religious instructors, are expected to begin arriving Monday morning and will remain in camp through the week. Classes for the children are held each morning from 9 to 11 o'clock, after which they enjoy swimming and other recreations. After the noon meal there is a rest period and then come games of various kinds.

The grounds committee, headed by Joe Clements, George P. Fee and O. L. Savage and augmented by women of the local Presbyterian auxiliary, did a most excellent job of putting the camp in order for the opening of the camp, and the first group of visitors were found in praise of the camp's general setup and conveniences. The ladies of the auxiliary were also commended for the transportation facilities provided.

Carolyn Crofts, Katie Lou Atkins, Frances Ruth Halsted, Renabel Bible, Laura Lou Morris, E. L. Hazelwood, Jr., and Josephine Melvin are the "Pioneers" representing Cisco at the encampment.

UNION LAWN SERVICES BE- GIN TONIGHT

At 8 o'clock this evening the first of the summer union services will be held on the lawn of the Methodist church, the Presbyterian and the Christian churches sharing with the Methodists the sponsorship for this summer program.

The pastors, Rev. O. L. Savage, Rev. J. R. Wright and Rev. Leslie Seymour, will take turns preaching on succeeding Sunday nights.

The massed choir will be under the direction of Ernest Hiltson and Miss Ella Andrus.

George Boyd, general chairman of the committee on arrangements, says every effort is being made to assure comfort on the lawn for all who attend during the months of July and August.

LT. BILLY B. HART, son of Mr. and Mrs. John Hart of Eastland. The Eastland countian is a bombardier pilot and his fighting squadron participated in the successful and historic invasion of Normandy.

Mrs. Mary E. Huestis, widow of the late George L. Huestis, who died Thursday afternoon at her home on west Second street, was laid to rest in Oakwood cemetery Friday afternoon, following funeral services at First Methodist church. Officiating ministers were Rev. W. H. Cole of the Methodist church and Rev. J. R. Wright of the First Christian church. Green funeral home was in charge of the remains.

Palbearers were J. V. Heyser, John Hart, C. S. Karkakis, Arch Bunt, Jess McCanlies and O. W. Burkett.

A large number of friends and relatives attended the last rites for this most estimable Christian woman and pioneer resident of Cisco and Eastland county, who would have attained her 81st year in December. Floral offerings were numerous and beautiful.

Mrs. Huestis was born near Stephenville, Erath county, December 11, 1863, and was married to Mr. Huestis on March 20, 1884, at Stephenville. Her maiden name was Mary E. Longacre. Mr. Huestis, who died Sept. 16, 1932, age 79, was born on Prince Edward Island, off the coast of Canada, and came to the United States when seven years of age.

Soon after their marriage, Mr. and Mrs. Huestis drove from Stephenville to Eastland county in a covered wagon and settled about seven miles northwest of Cisco, where they lived for many years before moving to Cisco. He was active in the cattle business until his death. Both were devout members of the Methodist church, and the parents of 14 children, 12 of whom are living. There are also 38 grandchildren and 14 great grandchildren.

The twelve surviving sons and daughters are as follows: Walter B. Huestis, San Jose, Calif.; Mrs. Pearl Clark, Merkel; John B. Huestis, Tulare, Calif.; Steve J. Huestis, Henry Huestis, Forsan, Tex.; Mrs. R. R. Walker, Lubbock; Mrs. L. N. Hutton, Houston; Ted Huestis, Odessa; Ed. Smith, Paul and W. R. Huestis, Cisco.

SECOND RATION READY IN CAN- NING SUGAR

The Eastland county ration board Saturday began accepting applications for a second canning sugar allotment which will complete the 25 pounds of sugar awarded each person this year for canning purposes.

First such sugar was awarded in five pound lots on Stamp No. 40 in book four and more recently canners have filled out forms and attached spare stamp No. 37 for each 10 pounds allotment sought. The last 10 pounds per person will be awarded when an applicant takes ration books to be stamped at the board.

Those persons who have not yet filled out forms for the first 10 pound sugar allotment are eligible to fill them out now for amounts up to 20 pounds per applicant on each spare stamp No. 37. They need not take their books in for stamping.

THREATEN NEW YORK.

MADRID, July 1.—The Berlin correspondent of the Madrid newspaper Ya Saturday reported on the latest brainchild of the secret weapon department of Paul Joseph Goebbels' propaganda ministry. The German flying bomb will soon be used against New York by still another secret device — the crewless sub marine — he reported.

SUPER-KIDS—Captured in Normandy, these two Nazi boys appear to be no more than 14 years old, but maintain they're 18. Scores of youthful zealots have been rounded up in the Allies bag of more than 10,000 prisoners since D-Day landing operations were begun.

GREATEST POLITICAL CAMPAIGN

WASHINGTON, July 1.—This time it's not Roosevelt, but his opponent, who goes into the campaign with a competent, fast-clicking, business-like organization. The Roosevelt machine, facing what probably will be the toughest fight, creaks along like any wartime jalopy. None of the top-notch politicians who used to run it are still around. The old master himself is at the wheel, but he's short of skilled mechanics. Hannegan, Democratic chairman, hasn't yet presided over a national campaign. Frank Walker is still here to advise and counsel, but he's no Jim Farley. White House secretaries — Jonathan Daniels, Jim Barnes, Dane Niles, Steve Early, Eugene Casey — aren't noted for political acumen. Jimmy Byrnes and Fred Vinson, their eyes on economic problems, haven't been able to head off the Southern revolt against Roosevelt — which started in Byrnes' own state. In contrast, the Sprague-Jackie-Brownell machine gave an exhibition of efficiency in recent months that has seldom been equaled. There'll be new faces in the picture as Dewey broadens his campaign organization, but these three, with Paul Lockwood and Jim Haggerty, will have the top jobs in running the show. However, Jackie may be less prominent than he has been; there are reports he's slipped a bit in the Republican camp. In any case he'll have an important job as New York State chairman, trying to swing those 47 election votes for Dewey.

Look for Dewey's campaign speeches on domestic affairs to be based on careful research; he has an able staff of fact-diggers and writers who have the stuff to turn out a product equal to that of Moley and Co. produced for FDR in 1932.

Mayor Ed Kelly of Chicago, snubbed by Republicans in opening day ceremonies, prepares to pull all the stops in making Democrats' stay in Chicago enjoyable. Usual entertainment features, conspicuously missed at GOP meet, will be revived with new frills. Kelly even promises cool weather.

House Campaign Investigating Committee will hold its first meeting in Chicago July 19, when majority members gather for Democratic convention. Chairman Anderson expects to discuss organization, plans for later hearings in Washington. Clamor for investigation of CIO activities has died down since Senate hearings, but if it's renewed, committee will take a look.

Demand for more ships, more shipyard workers, made by top officials in last few days, is significant. It reflects the speed with which we're moving in the Pacific, indicates we're not going to wait till European invasion fleets are free for duty there.

Another war in 10 years, Germans in South America are promising their friends. And since the plan calls for an early attack on the United States, emigration of German "experts" on agriculture, industry, business, to South American countries is being arranged, say travelers just returned. German army officers, disguised as experts, will follow.

INCREASING RESISTANCE BY JAPS ON SAIPAN; NEW AT- TACK ON GUAM BY AMERICANS

SAN FRANCISCO, July 1.—A German news broadcast of a Tokyo dispatch today reported a new American attack on Guam as U. S. forces drove slowly north on Saipan against increasing resistance. An Allied communique said Liberators shot down eight of 29 Japanese fighter planes in a raid on Yap Island in the western Carolines.

The German broadcast said three U. S. cruisers or large destroyers and 80 planes shelled and bombed Guam yesterday. There was no confirmation from Allied sources.

The fighting on Saipan, described as the bloodiest battle of the Pacific, has cost the lives of 1474 Americans and 4951 Japanese, Adm. Chester W. Nimitz disclosed.

With only half the island conquered, the American casualties since the invasion of the Marianas June 14 already are three times as heavy as those suffered in the Tarawa campaign.

The total American casualties up to June 29 were 9752 of which 7400 were wounded and 878 are missing. The Marines suffered the heaviest losses with 1289 killed, 6377 wounded and 827 missing.

Long range bombers of the Far Eastern Air Force, hitting Yap Island for the fourth straight day, dropped 63 tons of bombs on the airdrome. The communique said pillars of smoke rose 2000 feet from the fires set in the enemy installations.

Other heavy bombers attacked Sorol Island, 160 miles southeast of Yap, and Peleliu airdrome on Palau, 560 miles east of the Philippines.

In Yunnan Province, Chinese combat patrols cut Japanese communications on the Burma Road while main forces on the Salween front pushed the enemy back at Tengchung to drive within two miles of the stronghold.

Gen. Joseph W. Stilwell's Chinese forces in northern Burma continued to mop up isolated Japanese pockets in the Mogaung area, killing 190 more of the enemy.

MOSCOW.—Front dispatches said Saturday that remnants of a demoralized German army are pouring into Minsk, now outflanked from the northwest, and that the roar of battle is echoing throughout the city's outskirts.

(The British radio announced at noon Saturday that Russian troops have surrounded Minsk and taken possession of the leading rail and road routes to Warsaw from Minsk.)

Storm troops and the Gestapo were reported trying to create some kind of order out of the battered, frightened Nazi legions defending the capital of White Russia, now Hitler's most important bastion on his eastern front.

Three Soviet armies converged rapidly upon Minsk from the northeast, east and southeast. Gen. Ivan Cherniakhovsky's 3rd Army streamed through the thick forests northeast of the city over numerous bridges now stretched across the Berezina river.

The army paper Red Star revealed that the main crossing was made over a bridge which guerrillas held in a pitched battle until Red Army troops arrived.

The Red Star dispatch said Soviet cavalry moved through the forests north of Minsk and outflanked the city from the northwest. Correspondents reported hundreds of demoralized Germans surrendering before they reached the city.

ALLIED HEADQUARTERS, LONDON. — Elements of seven German panzer divisions — 1400 tanks and 84,000 men at full strength — smashed repeatedly, but futilely, at the British wedge southwest of Caen Saturday and front dispatches suggested that Marshal Erwin Rommel may have taken over personal command of the enemy forces.

Lt. Gen. Christopher Dempsey's 2nd British Army hurled back at least three sharp enemy thrusts, the last admittedly with difficulty, in daylight yesterday and beat off still other increasingly heavy counter-attacks last night and this morning, a spokesman revealed.

(A London broadcast said at least seven German tanks were knocked out during an unsuccessful four-hour German counter-attack near the base of the British wedge this morning.)

More than 250 British Lancaster and Halifax 4-engined bombers, making one of their rare daylight raids, almost obliterated an enemy armored force concentrated near Villers-Bocage, 13 miles southwest of Caen at 8 p. m. yesterday with more than 1100 tons of bombs.

Hovering over the massed tanks in a 12-minute procession less than 4000 feet from the ground, the RAF's heavyweights dropped their entire weight of explosives, presumably including block busters on an area no larger than a football field—an average of one ton of explosives for every five square yards.

Visibility was excellent and returning crews reported they "got what we wanted."

A SOBER FOURTH.

Usually the Fourth of July is taken as a matter of course. The freedom it expresses is taken for granted, and we think less about it for ourselves than for people still in bondage, in less fortunate countries.

But this Fourth is different. It comes at a time when most of the civilized world (including the United States), by some fault or trick of fate, is obliged to fight for self-government and individual rights as if it had not already possessed them. Malevolent forces loose in the world aim to establish complete regimentation and restore the collective slavery of primitive times, with one or two strong nations at the top and the rest of mankind in servitude.

Honor, religion, personal and national faith, the virtues inherited from ancient times and improved through centuries of ethical progress, all these are scorned by political and military dictators seeking to dominate the world's future.

Of course they will not succeed. This great onslaught against modern civilization, launched by the Germans and Japanese, who sought to master the earth as the bad angels of ancient tradition sought to drive the good angels from heaven — they are already visibly losing in their wicked enterprise. Law, order and collective decency in general will not fail if sober-minded men and women think deeply and keep the faith.

We are winning a great war for the world — but at great cost. The Fourth of July this year will be, perhaps, half rejoicing for our assured freedom and half sorrow for the brave men who paid the cost with their lives and bodies.

SWIMMING.

There is no greater fear, perhaps, than that of a person who has never learned to swim, finding himself suddenly and unexpectedly in water over his head. Almost every day, at this time of year, there are tragic reports of drownings. Most of them would not have occurred if the victims had taken one of the simplest precautions in the world—learning to swim.

Few people who have never acquired this particular skill, or mode of locomotion, realize how simple it really is. The first essential is a will to learn. The second is a patient friend who will take charge of the novice, show him the necessary strokes, and oversee his early efforts. Almost any boy or girl of ordinary energy and courage can learn in a few days, and it is not really hard for a middle-aged person who has the same physical and mental qualifications.

The main requirement, as in many other forms of human effort, is to "let yourself go." The fellow who can master his fears and at the same time use his head, as well as his arms and legs, will be swimming in a few days. The learning period should be in shallow water, where the necessary movements can be mastered. Then keep the head low in the water, and the rest will be easy.

And, in conclusion, let us remind that there is no better or safer place in the world to acquire swimming skill than at Lake Cisco's most unusual swimming pool—unusual in size and unusual in that pure fresh water is constantly passing through it from Lake Cisco. In what is termed the wading pool, for small children, the water is one and a half feet deep. Then there is a wide expanse of water that gradually deepens until about five and a half feet is reached. The larger, deeper pool has an average depth of 12 to 16 feet.

CHURCHES

Church of the Nazarene.

JOHN NEWMAN AND MISS ROWCH WED.

Miss Marie Rowch, daughter of Mr. and Mrs. H. J. Rowch of Eastland, became the bride of John Newman of Fort Worth on Friday evening, June 23, in a single ring ceremony at which Rev. George W. Fender officiated, in the home of the bride's brother-in-

law and sister, Mr. and Mrs. J. E. Adams at Arlington.

Miss Mary Ward of Ranger was maid of honor and Pfc. Robert Rowch of Bryan Field, Tex., brother of Miss Rowch, was best man. The bride wore a becoming two-piece suit of powder blue alpaca with white accessories and corsage of white carnations.

Following the ceremony an informal reception was held at which sixteen immediate relatives and friends were present and whose names were registered in the dainty bride's book.

Mrs. Newman is a graduate of Olden high school and is now employed at Fort Worth National bank. Mr. Newman is an employee of Globe Aircraft Corporation. Mrs. Newman is a granddaughter of Mrs. Della Davison of Cisco.

The young couple are at home at 515 South Lake street, Fort Worth.

LIEUT. A. GUTGESELL WEDS MISS PORTER.

Miss Theda Bess Porter, granddaughter of Mr. and Mrs. R. T. Porter and Mr. and Mrs. H. S. Stubbfield, became the bride of Lt. Alfred Gutgesell, son of Mrs. Melita Gutgesell, Akron, O., in a ceremony held recently in the chapel of First Baptist church at Lubbock. Dr. C. E. Heneford officiated for the candle light, double ring ceremony before an embankment of calla lilies, palms and fern. Miss Rotha Cunningham

Keep Cool With Coffee

THIS is it! Tips in satisfying refreshment...iced coffee. A tall, frosty glass in your hand...the cooling clink of ice in your ear...and a grand flavor for your parched summer palate. But only good iced coffee can bring you this taste thrill. When you start with good hot coffee, good iced coffee is easy to make. There are only two methods, but a few rules should be kept in mind. To enjoy iced coffee at its very best, start with good hot coffee, and then follow through like this: Pour hot, double-strength, freshly-made coffee into a glass filled with ice. The double-strength coffee makes up for dilution caused by ice. To make double-strength coffee, place in coffee-maker the regular amount of coffee normally used for brewing hot coffee, but only one-half the amount of water. Do not put twice the amount of coffee with the usual amount of water, as this doesn't permit proper extraction. The only other way to make good iced coffee is to pour pre-cooled regular-strength coffee over ice. Immediately after brewing, pour reg-

dam decorated the altar. Miss Beth Floyd sang "Because" and "I Love You Truly" accompanied by Miss Imogene Webster, who also played the wedding music.

The bride wore a wedding gown of white lace over white taffeta and her finger tip veil fell from a coronet of orange blossoms. She carried a white prayer book on which was placed a single orchid surrounded with clusters of gardenia. Miss Charlie Bob Morris was the bride's maid of honor and Lt. J. G. Hingle was best man. A reception was held following

the ceremony in the F. R. Friend home which was attended by immediate relatives and a few close friends.

The young couple have gone to Lincoln, Neb., where Lieut. Gutgesell will take further training as a B-17 pilot.

WOMEN ARE WORKING SIDE BY SIDE WITH THEIR MEN.

Woman has always carried on her side of the work and has never faltered in her duty as she saw it. No task has been too hard for her, regardless of its demands or magnitude, despite the lack of weight or muscular power.

Today women are doing men's work in factories and offices. They are helping gather the immense wheat and vegetable harvests with which America seems blest once more. No task is too menial, no hours too long to dampen their dauntless spirits.

Here's to the women of America who are going "All-Out" for the defense of their country, their homes, and to make it easier for their sons who are facing the guns of the enemy.

Will Cisco be going "all-out" for their town unless they go over the top with the Fifth War Drive? You answer.

YOUR VOTE FOR CONGRESS IS AN IMPORTANT VOTE

No other place on the ballot is as important to you as the office of Representative in Congress. You are electing the man who will represent you in decisions which will vitally affect the future of this nation. You cannot afford to make a mistake. This country faces more serious problems than ever before in its history.

Can this nation devise a system whereby we can avoid these terrible wars which each generation has had to face?

Can this nation manage its financial affairs so as to pay a Three Hundred Billion Dollar debt, without causing a terrible depression or an uncontrolled inflation?

Can this nation manage the demobilization of 11,000,000 men, and solve the unemployment problems arising from reconversion to a peacetime basis?

Can we restore trade with foreign nations, so as to enable us to dispose of our surplus farm products at fair prices?

Can we reorganize our government so as to eliminate most boards and bureaus, and keep this government a democratic republic instead of a National Socialist state?

Can we pay adequate Old Age Pension and Social Security Benefits without destroying the financial stability of the government?

YES—we can solve all these problems IF we elect the right sort of men to our national Congress.

Bob Wagstaff is a native Texan, a veteran of World War I, a successful lawyer of the highest standing. His record in the 42nd and 43rd Legislatures shows him to have been an outstanding leader of that period, with the capacity and skill to accomplish things in a legislative body. His record and experience qualify him to represent the people of the 17th District.

He has never held a full-time political office, and is not a perpetual office seeker. He will bring a fresh viewpoint to the solution of the problems which confront our nation.

Times Are Changing Fast--

... and so are governments, religions, economic principles and even human nature, whether we like it or not. Likewise, revolutionary changes have taken place in the field of land titles. In the old days most titles were simple and good, but today the records are voluminous and the changing times have clouded many titles. So don't buy real estate without knowing something about the title and always insist on a dependable abstract.
