Big Spring Man Killed In Wreck Near Coahoma

A crash at approximately 6 p.m. Friday on FM 821 southeast of Coahoma, resulted in the death of a Big Spring resident, Louis Cliff Chamberlin, 18, 2908 Cherokee. Another local resident, Ed Morrison, 28, Howard House Hotel, was injured.

Chamberlin was the second traffic fatality in the county in three days. Jack Rhyne Jr., Kerrville, was killed near the south city limits of Big Spring shortly before midnight Wednesday. State troopers Kenneth Joyner and Bill Jennings filed a report which showed that the accident occurred when Chamberlin, driving a pickup truck, attempted to pass a car traveling north on the farm-to-market road, which intersects IS 20.

A southbound car driven by Jerry T. Thornton, 1803 Mittel, Big Spring, swerved to the side of the road in an attempt to avoid a collision with the Chamberlin vehicle but the rear end of Chamberlin's truck struck the side of Thornton's car, causing Chamberlin to lose control.

His truck rolled over twice, coming to rest against a utility pole approximately 300 feet from the point of impact.

Chamberlin and the other two occupants of the truck, Morrison and Ronnie Thompson, Coahoma, were taken to the emergency room of the Malone and Hogan Hospital. Chamberlin died about 9:15 p.m. after surgery. Morrison was admitted for the treatment of minor injuries and is reported in stable condition. Thompson was dismissed.

Services for Chamberlin will be at 2 p.m. Monday in the Nailey-Pickel Rosewood Chapel, with Samuel Martin Chamberlin, Lubbock, officiating. Burial will be in Trinity Memorial Park.

Mr. Chamberlin was born Dec. 1, 1956, in Midland. He had resided in Big Spring most of 1974 and 1975. He was a member of the Church of Christ and was employed by Harding Well Service Co.

Survivors include his father, Louis Chamberlin

Sr., Big Spring; his mother, Jerrye Chamberlin, Odessa; a brother, Samuel Martin Chamberlin, Lubbock; a sister, Sandra Lee Chamberlin, Odessa; and a grandmother, Mrs. Vernon King, Fort Worth.

COOLER

Partly cloudy and cooler today with high in upper 40s. Low tonight in mid 30s. Heavy winds from the northwest at 15-25 m.p.h. in the early morning, becoming westerly, 5-15 m.p.h. per hour later in the day.

MILITARY CONSTRUCTION MEASURE SIGNED BY FORD

WASHINGTON (AP) — President Ford has signed bills appropriating nearly \$4 billion for military construction and authorizing more than \$1 billion for the State Department and various foreign affairs activities, the White House said Saturday.

The military construction legislation provides funds for projects during fiscal year 1976 and the three-month transition period that follows. It also requires the United States to negotiate with the Soviet Union to maintain the Indian Ocean as "an Ocean of Peace."

The administration is to report on the negotiations by April 15.

Further construction of a naval base on the island of Diego Garcia in the Indian Ocean is delayed by the legislation.

The Foreign Relations Authorization Act authorizes State Department expenditures of \$818 million in fiscal year 1976 and \$94.7 million for the Foreign Service Buildings Program.

This bill further authorizes \$23 million for the Arms Control and Disarmament Agency in fiscal years 1976 and 1977 while requiring that the agency submit arms control impact analyses to Congress.

Another section authorizes increasing from \$10 million to \$25 million the size of the United States Emergency Refugee and Migration Assistance Fund. The President uses this money to meet unexpected, urgent refugee and migration needs.

An authorization bill sets a ceiling on what can be spent while an appropriation bill is approved later and sets the actual amount.

Richardson Willing To Hit Campaign Trail

PARIS (AP) — Elliot Richardson, U.S. ambassador to Britain and nominee for secretary of commerce, said Saturday he hopes President Ford is nominated to run for reelection and indicated he would be willing to campaign for him.

Asked by newsmen about the candidacy of Ronald Reagan, Richardson said: "I like and respect him but I think from the standpoint both of the nation and the Republican party that President Ford deserves the nomination for a full term and I hope he gets it."

Richardson, who served under President Nixon as secretary of health, education and welfare, secretary of defense and attorney general, said he saw no reason for staying out of the campaign if he is confirmed as secretary of commerce after hearings starting Thursday.

"I don't think there is any overriding reason why the secretary of commerce should stay out of political campaigning. The way I think (it) is appropriate for the secretary of state or the secretary of defense," he said.

'PEACE IN ASIA IS BASIC' President Inspects Alaskan Pipeline

FAIRBANKS, Alaska (AP) — President Ford inspected ice-laden portions of the trans-Alaskan pipeline Saturday after telling a flag-waving crowd the United States and China have found common ground in pledging "peace in Asia is basic."

Making the first stop of his 10-day journey to Peking and other Far East cities, Ford told about 5,000 persons, many waving American flags, inside a snow-covered hangar at Eielson Air Force Base.

"There are fundamental differences between the American and Chinese societies. We may not agree on some issues. But we have found an important area of common ground."

"Our mutual pledge to peace in Asia is basic. So is our pledge of noninterference in the internal affairs of others. I will seek to strengthen these understandings and to further advance a relationship based upon mutual respect and mutual accommodation."

Wearing overcoats, hard hats and knee-high Arctic boots, Ford, his daughter Susan, Secretary of State Henry A. Kissinger and Federal Energy Administrator Frank Zarb went by car to a pipeline pump station about 25 miles southeast of Fairbanks for a 60-minute tour.

It was Ford's first visit to the pipeline, although he has been to Alaska twice before. The temperature was about 10 degrees above zero.

Ford and his party at times trekked through 1 1/2 feet of snow to inspect tanks, buildings and elevated sections of the \$6-billion-plus pipeline, scheduled for completion in 1977.

He took off heavy gloves to shake hands with some of the 200 construction workers and engineers at the station. Susan Ford, who has worked as a newspaper photographer, snapped pictures.

"Glad you stopped by to look around," said one worker, Ray VanDerwer. "We have a lot of good fellows here."

Ford said after meeting another worker, "Looks like a good ole Texas boy, doesn't he?" At another point he said, "Kind of nice out here in the fresh air." Then he

rubbed his hands to keep warm.

He had coffee in a mess hall with E.L. Patton, president of the Alyeska Pipeline Service Co., Alaskan state legislators and

several workmen.

Security was tight. Ford was surrounded by Secret Service agents and Alaska state patrolmen and a police helicopter hovered overhead.

After going on to Anchorage for an overnight stop, Ford, wife Betty, Susan and Kissinger leave Sunday for Peking via brief refueling stop near Tokyo.

Ford planned a few remarks to a birthday party in Anchorage on Saturday night honoring Sen. Ted Stevens, R-Alaska. About 700 Alaskans were invited.

American officials have cautioned in advance that no spectacular announcements should be expected from Ford's four-day visit to the Chinese capital. There is no evidence of an early solution to differences between the two countries over the status of Taiwan, a key to the establishment of formal diplomatic ties.

Winds Push Grass Fire Northeast Of Midland

By The Associated Press

High winds gusting up to 70 miles per hour fanned a large grass fire and played havoc with trailer homes in West and Northwest Texas Saturday as Texas displayed its multifaceted weather with cold, rains, tornadoes and sunny skies.

It was all there to enjoy or suffer depending on the location.

A cold front edged into the Texas Panhandle dropping temperatures behind it and bringing along some humidity. Just ahead of it, high winds raked the Amarillo area and portions of the plains causing appreciable damage to trailer homes.

And near Midland a grass fire pushed by the wind spread over a 15-mile-long and two-mile-wide area kept firemen busy all afternoon.

The Department of Public Safety said the fire started five miles northeast of Midland and moved generally in a southeasterly direction.

A spokesman said Texas Highway 349 was closed to traffic early in the afternoon. He added: "We aren't regarding it as a big threat yet, since there is not much out there to burn except grasses."

No injuries were reported.

Police said that several mobile homes were overturned northwest of Amarillo, and a large wall in a shopping center under construction in Amarillo collapsed under the strong winds.

Some high winds hit portions of North Central

BIG JOB FOR A LITTLE LADY — Chilly winds from the west left this young Big Springer awash in a sea of leaves Saturday. Bare trees and a nip in the air "leave" no doubt that Christmas is just around the corner. (Photo By Danny Valdes)

American Civil Rights Leader Is Color Blind

UNITED NATIONS, N.Y. (AP) — Black American civil rights leader Clarence M. Mitchell Jr. is color-blind in his U.N. campaign against bigotry — likening Ugandan President Idi Amin to Hitler and attacking South African race segregation.

He doesn't find it awkward taking issue with African blacks. He says "there's a lot of romantic misconception about a universal brotherhood of people with dark skins."

Next to Ambassador Daniel Patrick Moynihan, the stocky, 64-year-old Mitchell has been the most outspoken American delegate at a General Assembly session that finds the United States talking back to its critics.

Mitchell also asked Cuba to explain its exodus of

refugees and often represented the United States in a losing fight against the resolution equating Zionism with racism.

"I have never felt uncomfortable when I am defending human rights" or talking against bigotry, Mitchell said in an interview. "All my life, I have found that the people who might get me in a corner to complain about Jews or labor unions are the same people who will go off with Jews or labor union leaders and talk about 'those niggers'."

In his latest appearance, Mitchell on Friday made a General Assembly speech that was the strongest and most comprehensive attack the United States has made officially against South Africa and its racial segregation.

Reviewing the

Big Spring Week

with Joe Pickle

Death struck twice on our highways during the holiday season. Jack Burl Rhyne Jr., 17, Kerrville, was killed Thursday when the car in which he was riding struck a stalled car abandoned on the highway at the south edge of town. Friday evening Louis Chamberlin Jr. was killed in a collision at the crest of a hill on FM 821 five miles south of IS 20 and east of Coahoma. To Saturday morning, Howard County had accounted for 10 per cent of the state's holiday traffic fatalities. That's a disproportionate share of not only the statistics, but of the sorrow.

How George Medley, Fort Worth, escaped also being a casualty is something of a mystery. His oil transport overturned Wednesday at the IS 20-Andrews Highway intersection and came within a few feet of catapulting down on the busy Interstate highway. He had to be cut out of the cab, but was only shaken.

Our United Way effort is within grasp of success. The margin now is down to about 2 per cent — admittedly the tough two. However, there are enough prospect cards out that, if worked promptly, the goal could be reached, and soon.

(See THE WEEK, Page 4-A, Col. 1)

'APPRECIATION NIGHT' FOR WEBB AFB PEOPLE

Big Spring businessmen once again demonstrate their appreciation to Webb AFB Thursday night. The Century Club is inviting all company officers at Webb, along with their wives or dates, to a giant "give away" party.

It is the second such "appreciation night" this year for Webb people. In May, the Century Club hosted new comers to a mini-rodeo and barbecue.

Festivities Thursday will include many prizes as gifts, with values in the \$25 range. There will be hard d'oeuvres to make a meal and other refreshments. Dress is casual for the night of all free entertainment. It will be in the Howard College Student Center beginning at 7 p.m.

For those needing transportation, buses will leave from the recreation center at 6:45 p.m.

The Century Club works through the Base Community Council to plan special events for Webb people. This is the third year they have sponsored this particular party.

FINLEY PROMOTED TO CITY EDITOR

Hart Is Named Editor Of Herald

W. S. (Dub) Pearson, publisher of the Big Spring Herald, has announced that Tommy Hart has been named editor of the paper. Hart succeeds Joe Pickle, who is retiring Dec. 1.

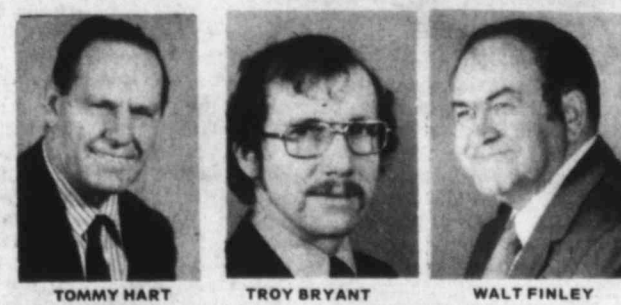

Hart, long-time employee of the paper, has been serving as managing editor of the Herald the past four years. For many years previous to his present position, he was sports editor of the paper. In that position, he was selected as Sportsman of the Year by the Texas High School Coaches Association. He also served as president of the Texas Sportswriters Association.

Hart has worked with newspapers virtually all his life, having begun his career delivering the Big Spring newspaper as a boy of 11. He was editor of a military newspaper while stationed in Santa Rosa, Calif. during World War II.

He and his wife, Elnora, reside at 1750 Purdue with their daughters, Carol, a student at Howard College, and Phyllis, a junior at Big Spring High School. Carol serves as both editor of the college paper, El Nido, and the Herald's school page, The Megaphone. She also works part-time in the women's news department of The Herald.

In other changes within the editorial department, Walt Finley, formerly the wire editor, has been elevated to the position of city editor while Troy Bryant has been appointed wire editor.

Thirty years a newsman, Finley joined the Big Spring Herald staff as wire editor Sept. 15, 1966.

TOMMY HART

TROY BRYANT

WALT FINLEY

Walt's "Big Story" was New Mexico's celebrated Cricket Cooter case. While working as police reporter for the El Paso Herald-Post, Finley was sent to Las Cruces to investigate the mystery rape, murder of the 18-year-old girl and he stayed nearly six months.

His stories triggered 65 grand jury indictments against 30 persons, a political upheaval and federal imprisonment of Sheriff A. L. "Happy" Apodaca, New Mexico State Police Chief Hubert Beasley and a highway patrolman for torturing a prisoner.

As a result of exploding this journalistic A-bomb in New Mexico, Finley was nominated for the Pulitzer Prize and was selected as the outstanding newsman in Texas by Texas Western College now UTEP. He is writing a book about the murder.

Walt, who calls himself "a frustrated baseball pitcher and sports writer," left his native Durant, Okla., to attend the University of Oklahoma where he was campus correspondent for the Daily Oklahoman and Oklahoma City Times. He entered the newspaper

"game" as sports editor of the Durant Daily Democrat.

Walt has covered the Missouri State Legislature for the Associated Press at Jefferson City, Mo. worked as courthouse reporter for Brownsville Herald, police reporter for Shreveport Journal, city hall reporter for Valley Morning Star at Harlingen, wire editor of Daily Ardmoreite, Ardmore, Okla. and business editor and civic affairs reporter for the Tulsa Daily World. He has won numerous Associated Press awards.

He and his wife, Velma, reside at 1503 Scurry St.

Bryant, 23, began working for the Herald in June, 1974 as a reporter, after working for the Quanah Tribune Chief for three years as a reporter and for the Levelland Daily Sun-News for a year as sports editor. He is a native of Lampasas.

He is a graduate of Quanah High School and attended Texas Tech University and South Plains College. While at Texas Tech, he was a member of the "Going Band From Raiderland" traveling squad. Bryant, his wife, Ann, and their daughter, Jan, 3, reside at Sand Springs.

CBers Have 'In' Thing

A glance at local crime reports reflects that the "hot" target of thieves is the CB radio receiver-transmitter for automobiles. The CB antenna often is an invitation to a rip-off. Car stereo sets have been pushed to second-class status as a marketable item by thieves.

But this is not the only threat to the CBers. The avalanche of applications for Citizen Band radio licenses is threatening to overload CB channels to the point of collapse.

The Federal Communications Commission received 204,918 CB license applications in September of this year, compared with 38,325 in September a year ago. The figures on October aren't out, but estimations are that they will top 250,000.

Right now there are more than 1,000 CB radios in the county.

George Martin, Anniston, Ala., president of the U.S. Citizens Radio Council says that people who use CB radios have to "straighten out or lose the CB channels."

One reason for the influx is that the license fee has been lowered from \$20 to \$4; other rule changes also have made it much easier. Finally, the CB has become a play thing, not just for teen-agers, but also for many adults. The "serious CB operators" say it's disgusting.

But then who is to say who is the serious and the non-serious CBer. We suppose the serious CBer is the one who radios ahead to say "watch out for Smokey at milepost 160."

Now, there's a noble prostitution of the art.

More Pull By Women

Only about one out of every 100 dentists in the United States today is a woman. This situation is in the process of undergoing drastic change, however, on the basis of recent enrollments in the nation's 59 dental schools.

According to the American Dental Association, the number of women studying for a career in dentistry increased nearly 500 per cent in the past five years—in actual numbers, from 231 in 1970-71 to 1,361 last year. Women made up approximately 6.5 per cent of the total predoctoral dental school enrollment and 11 per cent of first-year enrollment in 1974-75.

At the same time, minority students have also

registered a smaller but no less encouraging increase. The total number of minority dental students has risen 120 per cent in the past five years, from 825 to 1,823.

Gains by both groups have been made despite constantly soaring tuition costs. In the past seven years, the average tuition for a state resident in a public dental school has increased 83 per cent, from \$1,043 to \$1,908 a year. During the same period, the average cost to the institution to educate a dental student has jumped from \$7,500 to \$14,500 a year. Nevertheless, it's good to see women getting into the check at this training.

It Evens Out

Around The Rim

Walt Finley

Geologists say Las Vegas is sinking. Things balance out. San Antonio Rose.

In a brief look at the Cher show I realized why Cher continues to show her navel. It's the only thing on her body which isn't flat. ***

While I'm in the area, let me suggest that the churches will win out over Sunday night television. Most of the shows are so bad they'll drive the members back to church. ***

A plain white envelope with an Austin postmark contained this message:

Dear Mr. Finley or Ann Landers: I have two brothers — one went to Texas A&M and the other was sent to the electric chair for murder.

My mother died in an insane asylum when I was seven years old. My father is a hardened narcotics pusher. One of my sisters is a successful and highly respected prostitute, and the other is the common law wife of an executive of the American Nazi party.

Recently I met a girl shortly after she was released from the women's state prison where she had served some time for smothering her illegitimate baby.

My problem is this — should I tell her about my brother who attended Texas A&M? ***

Former Big Spring policeman, Peter A. Stone, now records management consultant for Commission on Law Enforcement Officer Standards and Education in Austin, paid me a brief visit Friday and offered a bit of advice:

"Let sleeping dogs lie. Even if you wake them up, they won't tell the truth."

Words to live by, friends. ***

Pete also told the story of the three Polish bulls who had to decide their future.

One decided to be a stock market bull.

Another chose a position as bull in a China shop.

The third said he had decided:

"I want to be a bull for heifer and heifer."

According to the National Observer, if you weigh 160 pounds, you're about 100 pounds of water, 29 pounds of protein, 25 pounds of fat, and that hog killing day.

five pounds of minerals, one pound of carbohydrate, and one-quarter ounce of vitamins.

If it weren't for your skin and bones, we'd be only a big puddle and a few lumps of chemicals.

Let's face it — your in-laws look at you that way anyhow. ***

What worries me about big-time sports, both professional and allegedly amateur, is that we treat them more like a religion than as a sport.

I thought we went down that road once before. ***

Curvaceous Carla Walker, San Angelo State coed who once defeated me in ping-pong, suggests a bumper sticker:

"Christopher Columbus — Look What You've Done!" ***

My first exclusive of 1975:

Scuttlebutt has it that Colonel Sanders is planning a new football game for New Year's Day, 1977. Furthermore, rumor has it that the colonel will invite Alabama's Tide and allow Bear Bryant to pick any team in the United States as his opponent.

It will be called "The Chicken Bowl." ***

Oops! I forgot one comment: All Big Eight football teams have a tough schedule, but this year in addition Oklahoma had a Bear to cross. ***

The Bear's top pupil, Joe Namath, is not much of one for tact.

When Joe signed with the New York Jets, he was asked by a sports writer if he took basket weaving at the University of Alabama.

"That was too tough," he replied. "I took journalism instead." ***

Walt Disney used to live in Kansas City, and he was ambitious to be an artist. So one day he went to the Kansas City Star to get a job. City Editor Pete Wellington told him he didn't have any talent and sent him away with a broken heart.

He recovered spectacularly. I slipped into the Star newsroom one snowy day in December and Mr. Wellington hired me and two weeks later steered me to a job of helping cover the Missouri State Legislature.

And baby, look at me now.

Santa Contract

Art Buchwald

WASHINGTON — A group of CIA people were having coffee out at Langley Headquarters the other morning and discussing the Church report on their covert activities.

THEY NATURALLY were outraged. "They're destroying our intelligence capability," one executive said.

"They're wrecking morale," another chimed in.

A third man said, "It's like killing Santa Claus."

"Santa Claus!" their Chief said in horror. "We forgot Santa Claus. What contingency plans do we have for eliminating Santa Claus?"

THERE WAS silence in the room. Then one of the men said, "Why Santa Claus?"

"It isn't our job to say 'Why Santa Claus?' We have to have a plan ready in case someone in the White House or the State Department decides Santa has to be terminated with extreme prejudice. What have we got on him?"

"One of our agents at the North Pole says he's planning a sneak attack by reindeer on the night of Dec. 24th."

"HOW RELIABLE is the source?"

"It comes from an elf who was fired for shoddy workmanship on Barbie Dolls."

"All right, does anyone have any suggestions?"

Someone said, "Why don't we get someone to sprinkle his boots with depilatory powder and then when he puts them on his beard will fall out? This will make him the laughing stock of the world."

"IT'S WORTH A TRY," said the

Chief. "What else?"

"How about smearing a chemical on his reins that would make him sick and lose control of his sled in flight?"

"You mean the stuff the plumbers were going to put on Jack Anderson's steering wheel?"

"It could work."

"DOES SANTA smoke cigars?"

"I don't know. Why do you ask?"

"We have some poison gases left over from the Castro caper."

"It's too complicated. This has to be simple and we can't get involved directly in any way."

"What about putting out a contract on him through the Mafia? We could get Johnny Rossini to take a shot at him when he's making a drop in Chicago."

"SUPPOSE WE SLIPPED a ball point pen containing hypodermic needle with poison on it in one of the letters?"

"He might be wise to it. There has to be some way of getting him without him knowing about it," the CIA Chief said.

"Wait a minute. I think I've got it. Last year Santa Claus made a stop at a divorcee's house in Alexandria, Va. He stayed about an hour longer than he had to, and we taped what went on. It was pretty wild stuff. If the tape ever got out it would destroy the old coot forever."

"So?"

"WHY DON'T WE take a page out of the FBI's book. We'll send Santa Claus the tape with an anonymous note. There are 23 days until Christmas. There is only one thing left for you to do. You know what it is..."

Everyone in the room smiled and said, "Ho, ho, ho."

My Answer

Billy Graham

Do you believe good Christians have to give money to the church? We have never had much money, and in these hard times it seems impossible for us to give anything away and still make ends meet. Besides, it seems like the small amount we would give wouldn't do any good anyway.

The important thing is not whether we give great amounts or small amounts, but that we give it in a spirit of joy and dedication to Christ. Remember the story of the widow who could only give two small coins, and yet Jesus said she had really given more than the rich men who had put in greater amounts. The difference was that she gave all she could, whereas the others gave simply to impress people. (Luke 21:1-4). The Bible says that we are to give "not reluctantly or under compulsion, for God loves a cheerful giver." II Corinthians 9:7. (RSV).

God asks us to give money to His work because it is necessary in order to get His work done. Even the little band of Jesus' disciples had a common treasury to provide for their needs. Do not say that your little amount would not count. We never know what effects our giving may have, because God can take even the smallest gift and use it for His glory. I believe also that God will bless us when we give. As the Living Bible paraphrases Malachi 3:10: "Bring all the tithes into the storehouse so that there will be food enough in my Temple; if you do, I will open the windows of heaven for you and pour out a blessing so great you won't have room enough to take it in! Try it! Let me prove it to you!" Remember that all you have has been given to you by God anyway.

REMEMBERING...

By BILL D. BROOKS

Hog Killing

Soon after the first good, hard freeze it was time to kill hogs. Relatives or friends from nearby would come over early that morning. Water was heated in several cast iron pots out by the windmill. All the necessary equipment was collected and put in place: a large scalding vat (sometimes a tilted barrel was used), a scraping table, usually made from wagon side boards, a single tree, cotton sacks and assorted knives.

The hogs were killed and bled at the hog pen, then brought up to the tank.

Boiling water was put in the scalding vat by the scraping table. A cotton sack was draped over the table and down into the vat. The carcass of the hog was placed in the vat, scalded, then rolled out on the table by using the cotton sack. The hair was removed from the skin by scraping with butcher knives. The carcass usually had to be dipped back in the vat a time or two during the scraping process.

When all the hair was removed, a single tree was hooked into the leaders of the back legs and the carcass was hoisted with a block and

tackle, hind part first, into a vertical position. The head was removed and the carcass was gutted. The guts looked pretty bad and smelled worse but nothing was thrown away, all the parts were good for something. The carcass was then cut in half and taken to a table where some parts were removed to be eaten fresh and others were set aside to receive the curing agent.

The curing agent could be "boughten" or could be made at home from one of many different recipes. Sometimes plain salt was all that was used. One popular cure was made (or so I'm told) with four ounces of salt peter, four ounces of pepper

and five pounds of salt. You made a thick slurry of the brown sugar and covered the meat with it, then applied the salt generously. That recipe was enough for two hundred pounds of meat.

The curing agent stayed on the meat for about ten days, enough time for it to go into the meat. After that the meat was washed and a thin layer of fresh salt was rubbed on. Then it was hung from the rafters in the smoke house, where it stayed until it was to be used.

The things I remember as a boy when hog killing was done was getting to watch, fetching things or helping start the fire. Later in the day the lard was rendered off, that is, all the fat was cooked out. Hog skins were fried in it in the big pots. I remember they could be eaten right there as soon as they cooled. What a treat!

One time it was so cold our tank had frozen over. We kids decided to "skate" on it, with just our shoes, of course, we didn't have any skates. The others were staying near the edge but I was brave and decided to go straight across the middle. To this day, I've never been fond of swimming in ice water. When I crawled out on top of the ice, I expected the grownups to come running to help but they didn't. They had to stay with their work. I ran fast to the house. Ice was frozen all over my clothes when I got there. It took most of the day sitting in front of the fire for me to warm up. It also took most of the fun out of that hog killing day.

HOG KILLING

And remember above all else that God does not simply want to be Lord of our money. He most of all wants to be Lord of every area of our lives.

Uncle Sam May Backstop NYC

NEW YORK (AP) — President Ford injected the federal government into the New York City fiscal crisis this past week, but the nation's financial markets showed little reaction.

After weeks of moving with the ebb and flow of news about the city's financial picture, the stock market registered only a narrow gain on Wednesday. By then it was apparent that the President was going to announce an aid program that night.

ANTICIPATE NEWS But advance buying on the belief that aid would come did bring the market to its highest levels in four months.

The municipal bond market also registered gains in anticipation of Ford's announcement that the would support federal loans to the city.

Otherwise, the Washington scene produced a good news-bad news situation. Trade surplus figures were up to \$1.08 billion for

WEEKS BUSINESS

- Market anticipates action but rallies only mildly
- Municipal bond market, however, buoyed by prospect
- Trade surplus up to \$1.08 billion, economic index down
- New car sales up 33 pct. in November, still not a peak
- Government may bail out Chrysler's British operation

October, but the index of leading economic indicators was down.

The index is designed to give advance word on economic trend and the second monthly decline in a row could foreshadow some rough spots ahead.

CAR SALES UP New car sales during mid-November showed another advance from last year's depressed levels.

The automakers registered a 33 per cent increase in sales, but that was still below the levels of some earlier years.

Another sign that the car companies aren't out of the woods yet was the production schedules announced for

next month. While they intend to produce 54 per cent more cars than in the month last year, the companies are still below earlier production levels.

The top executives of Chrysler Corp., which has seen the most trouble in the auto slump, were back in Britain this past week to try and work out the future of its money losing British subsidiary.

A company spokesman said an announcement from the British government could be expected shortly. Among the options for the subsidiary is a government takeover.

Seeks To Avoid Repeat

Dr. G. C. Thosteson

Dear Dr. Thosteson: Recently I had severe pains across the kidney area and in the bladder area. After urine tests and X-rays I was told I had a small kidney stone in the upper part of the bladder. After two weeks and severe pains it dissolved.

I sure would like to know what to do in the future. I still have soreness. I'd like to avoid another attack. — Mrs. J. W.

If the stone showed in the bladder by X-ray you most likely passed it rather than having it dissolve of itself. Kidney stone pain is one of the most severe a person can suffer. I easily sympathize with your wish to avoid another similar attack.

I'll try to offer some hints. However, you'll find a more complete discussion in my booklet on kidneys. For a copy send 25 cents to me in care of the Big Spring Herald, enclosing a long, stamped, self-addressed envelope.

Causes of stones are many. An infection in the urinary tract is one. When tissue becomes so damaged that it cannot assist in removal of wastes, calculi (stones) can form. Checking the source of any infection would be the only preventive against this. Excessive ingestion of calcium itself can promote

some types of stone formation. If gout is present, and if the stones contain urates, then other foods (purine-containing) are suspected.

A functional obstruction of the urinary flow can be a factor, allowing the calculi material to crystallize and form stones. Over-activity of the parathyroid gland (which governs calcium metabolism) is another possibility to be considered.

So the chemical make-up of the stone is important in proper diagnosis. Since you don't know this, the important thing is to pursue the matter with your doctor.

In any event, ample fluid intake is important. By this is meant about three quarts a day. It's a variation of the old "grass doesn't grow in a busy street" idea. Usually, stones will not "grow" in an adequately functioning urinary system.

Dear Dr. Thosteson: Is there any harm to the unborn child if the mother flies in an airplane during her pregnancy? — Mrs. C. M.

It is a matter of practical judgment. You wouldn't want to travel in such an isolated atmosphere (as in a plane traveling along distance a mile or so above the ground) if delivery is

imminent. However I am not aware of any immediate damage to the fetus resulting from air travel.

Dear Dr. Thosteson: I am 30 years old, and I suffer with gall stones. I know they are working on something to dissolve them. How long do you feel it will be before they have this type of cure? I'd like to avoid the surgery. — J. A. R.

It's still experimental. It may be some time before such treatment is available for general use, if ever.

Dear Dr. Thosteson: Will you explain once and for all to my sister that vinegar will not make you lose weight? She is 22 years old, is 5 feet, and weighs 160 pounds. — Miss R. J.

Here is a question for your sister, who evidently thinks it does: How?

Are you having a gall bladder problem? To find out how the gall bladder works and what kinds of trouble to look for, read Dr. Thosteson's booklet, "You and Your Gall Bladder." Write him in care of the Big Spring Herald, P. O. Box 3999, Elgin, Ill., 60120, for a copy, enclosing a long, self-addressed, stamped envelope and 25 cents.

Henry—The Target

Marquis Childs

WASHINGTON — In his last two years as Secretary of State Dean Acheson was attacked by a form of congressional and public assault that had become known as McCarthyism. Something like this same attack from a variety of quarters is being directed at Secretary of State Henry Kissinger.

IT IS AS though we could exorcise all our troubles in the world by putting the principal agent of foreign policy to the stake.

The Pike committee has cited him for contempt for refusing to surrender private documents of low-level officials bearing on policy decisions. When Congress returns from the Thanksgiving vacation, the House may or may not support its erratic intelligence committee.

But more than the conflict over such relatively minor matters is the effort to undermine the Kissinger policy of trying to bring at least a pause in the nuclear arms race. Waved about is the allegation of a missing letter that, if it could be found, would show that the United States has condoned serious violations of the current nuclear agreement by the Soviet Union.

I BELIEVE that the facts about this cloak-and-dagger mystery, of a piece with the fantastic revelations out of the past, are as follows: First, no one has ever been able to find such a letter. It cannot be found despite an exhaustive search in the

files of the National Security Council, in the President's personal files, in the files of former Secretary of Defense James Schlesinger nor anywhere in the Pentagon.

SECOND, those familiar with the charges the missing — or nonexistent — letter makes are convinced they are minor violations. These matters involving the wizardry of modern weapons are so abstruse as to be almost beyond the understanding of the layman.

But apparently at one point the United States briefly made use of advanced radar in a way that was technically a violation of the Soviet agreement. This was taken up by the Soviets. Having been discovered after about two months, a protest to Moscow brought an end to the violation.

THE MYSTERIES of telemetry, the reading of the other side's most secret reports on testing, have also played a part in the give-and-take here at home and in Moscow over the nuclear agreement.

The prospect, and a grim prospect certainly, is that the whole matter of an agreement on offensive nuclear weapons, tentatively reached when President Ford met with Communist Party Chairman Leonid Brezhnev in Vladivostok a year ago, will go by the board. That can mean a year's delay, as the politics of detente or no detente resound loudly on the hustings.

BRIGHT NEW SIGNS — The City of Big Spring has placed colorful new signs in Comanche Trail Park including this one designating the site of the original Big Spring where Indians once gathered for water.

Suspension Is Temporary

B. L. Eggleston, Big Spring, has been suspended as a registered livestock dealer for allegedly violating payment practices of the Packers and Stockyards Act, the U.S. Department of Agriculture, USDA, said Saturday.

Eggleston who purchases livestock in western Texas, consented to issuance of the order and waived oral hearing, said USDA. He neither admitted nor denied the charges in an administrative complaint filed by USDA's Packers and Stockyards Administration.

The record in this case is open to the public. Copies of this order, P&S Docket 5173, may be obtained from the Information Office, Packers and Stockyards Administration, USDA, Washington, D.C. 20250. Again, it is emphasized that the order or record cannot constitute a court finding on the accuracy of the charges.

Temporary Pacer

Temporary pacing of the heart may be useful for some patients suffering from acute heart disease or other medical problems.

Such pacing is done by machines external to the body, either until a decision can be reached to implant a more permanent pacemaker or until the acute illness has passed.

Professionals at Big Spring State Hospital will participate in discussions of "Temporary Pacing" Thursday, beginning at 12:30 p.m. Area physicians and health industry personnel are invited.

Fifty Foreign Student Pilots At Webb Eye Nation's Capital

Fifty foreign student pilots at Webb AFB traveled to the nation's capital recently, as part of the Department of Defense information program.

They included two from Bolivia, 10 from Chile, 25 from Iran and 13 from Kuwait.

This one tour fulfills all objectives of the information program which calls for the foreign trainees to become familiar with American life style. They visited United States government and

judicial institutions, observed the political system in action and saw agriculture methods in action along their travel route.

Briefings during their tour helped the students understand the economy, labor and management, some phases of education at the Smithsonian museum and Library of Congress as well as social welfare programs.

It was the largest group of foreign officers to visit at any time, but, currently there are more cadets and officers in training here than at previous times.

While they were guests at a luncheon at Bolling AFB, along with officials from the embassies of their countries, the students also visited their embassies.

At the Capitol, the Master at Arms secured passes to the Senate gallery for the group. They heard a discussion between senators from Florida and New York of a proposed Treasury bill.

It was a privilege allowed only with special permission. They toured the major points and a highlight was the Kennedy Center for Performing Arts. They saw many gifts donated by

foreign countries including those from their own countries.

"We heard many favorable comments," said 2nd Lt. Vincent A. Arnold, the chief of Foreign Military Affairs. One student said, "Now I feel like I've really been in the United States."

Apply Before Jan. 1 For Fish Stock

AUSTIN, Tex. (AP) — The Parks and Wildlife Department reminded Texans with private ponds today that they have only until Jan. 1 to get in their applications for largemouth bass, channel catfish and sunfish.

The three species are free of charge if the pond has never been stocked with the fish or if fish that were previously stocked have been removed.

"In the past, private pond owners had until June to make requests for catfish and sunfish," said hatchery coordinator Ted Lowman. "But increased demands for fish to be stocked in the state's 350 public reservoirs have strained the department's 400 acres of hatchery ponds."

In 1974-75, some 2.7 million fish were delivered for stocking in private waters, which amounts to approximately 12 per cent of Texas' total fish hatchery production for the year, the department said.

One Dies In Denton Shooting

DENTON, Tex. (AP) — Police found Johnny Jones, 25, shot once and dying on a sidewalk early Thursday.

Officers said he died enroute to a hospital. A man was arrested later.

Food Stamps 'Deal'

WASHINGTON (AP) — Critics of the Agriculture Department's food stamp program agreed in federal court Wednesday to allow a new system to go into effect Jan. 1 that would hike allotments by \$2 to \$24 a month.

The new plan is designed to take into account the buying patterns of low-income families.

Justice Department lawyers said they would file with U.S. District Judge John H. Pratt a stipulation under which the Agriculture Department must notify state and local program administrators by Friday of its decision to implement the new "Thrifty Food Plan."

The stipulation came after the Food Research and Action Center, which had challenged the plan, decided against attempting to block it from taking effect.

Ronald H. Pollock, director of the center said after the brief session with Pratt that he has not decided whether to sue USDA again, when the plan actually goes into effect.

Wednesday's court session was the result of a Pollock motion before the U.S. Court of Appeals early in the month to block implementation of the new allotments until arguments on the substance of their makeup were resolved.

Under the law, the allotments must be adjusted each Jan. 1 and July 1 to reflect changes nationwide in the cost of food.

Record Sales To Bolster Building Fund At BSSH

The proposed gazebo and landscaped recreation area at Big Spring State Hospital came a step closer to reality this week when it was announced that all proceeds from sale of a record album will be donated to the building fund.

The album, "Reach Out, America!" was recorded by a local singing group, the "Nuts and Bolts," and pressed by a record company in Nashville, Tenn.

Don DeLeuw, president of the Volunteer Services Council, which is sponsoring the project, said local delivery of the albums has been promised for Dec. 5, in time for Christmas giving.

Songs on the album are

Priced at \$5, the record features 10 songs which range from contemporary tunes to familiar melodies that have long been American favorites.

Local artist, Mike Paul, created the jacket cover for the album.

Directed by Charles Parham, with accompaniment by Emilee Beckham, the singers include Susan Dawes, Julian Patterson, Margie Hill, Joyce Bradley, Patty Parham, Gayle Bledsoe, Emmett McKenzie, Cliff Chapman, Jim Shelton, Ken Sprinkle, Joe Dawes and Marilyn Newsom.

Songs on the album are

"Amazing Grace," "Dixie," "Take Me Home, Country Roads," "Top of the World," "Calcutta," "Dry Bones," "Far Away Places," "I Love Paris," "Star Spangled Banner" and "He Ain't Heavy, He's My Brother."

Only 1,000 albums were produced, and some have been pre-sold, leaving a limited number available to the public during the December sale. Mrs. Margaret Baum, volunteer coordinator at the hospital, said no more albums will be available after those on hand are sold.

Orders may be placed by calling the Volunteer Services office, Big Spring State Hospital, 267-8216, Ext. 308.

Local Area Families Needed To Host European Visitors

NEW YORK — Big Spring area families are needed to host English-speaking European visitors as guests in their homes for a 10-day period during 1976, it was announced today by the American Host Foundation.

American Host is one of the few non-governmental programs designed to show the American way of life to foreign visitors by pairing them up with American families, and has been endorsed by the American Revolution Bicentennial Administration as a nationwide home hospitality

program for the Bicentennial year.

Now in its fifteenth year, American Host has opened doors to better understanding for more than 9,000 European visitors who have passed on their new understanding of America to their colleagues and friends.

Being a "Host Family" is open to anyone who has the desire to increase understanding and friendship between Americans and Europeans. Host Families are required to provide a private room, meals for the guest, the opportunity to meet their friends and neigh-

bors and to see places of interest in the area.

American Host arranges all transportation. Host Families are asked to meet their guest upon arrival in their area. Visitors and Host Families have an opportunity to correspond for at least a month before meeting.

Arrangements for participating as a Host Family can be made by writing to: American Host-Meet the Americans, Hotel Commodore, Suite 2100, Park Avenue at 42nd Street, New York, New York 10014, 212-683-6567.

Women Priests Action

SOUTHFIELD, Mich. (AP) — Women are being underutilized in the Roman Catholic Church and should be allowed to attain priesthood, says a leader of a Catholic Women's Ordination Conference.

The three-day meeting, which opened Friday, has attracted 1,200 registrants from a wide area of North America. The conference is subtitled, "Women in Future Priesthood Now: A Call for Action."

"When this conference was born, we realized that the issue of women's ordination for the priesthood needed to be faced by the Roman Catholic Church," Mary Schaefer of the Canadian Catholic Conference told reporters Friday. "We believe that until some women are ordained, women are being underutilized."

"We believe it is not impossible for women to become priests," said Miss Schaefer, who is also a member of the group which organized the women's conference.

Another leader, Sister Kathleen Hughes, said liturgical celebration is an integral part of the conference being held in this Detroit suburb.

'PAYCHECK CEASE-FIRE' Agree To Seek Changes In Wealth Distribution

BEIRUT, Lebanon (AP) —

Premier Rashid Karami announced Saturday that Moslem and Christian government leaders have agreed to seek fundamental changes in the distribution of power and wealth in Lebanon in hopes of ending the eight-month-old civil war. He said Palestinian guerrillas would be included in negotiations.

Informed sources said the agreement between Karami, a Moslem, and Christian President Suleiman Frangieh was the fruit of intense mediation efforts by former French premier Maurice Couve de Murville.

Frangieh, making his first nationwide broadcast since the civil strife broke out last April, called for a "national reconciliation" to rebuild amity and reconstruct the Lebanon that we love.

The war-torn capital was relatively quiet as hostile militias observed a "paycheck cease-fire" to enable workers, and gunmen, to collect their pay.

Police said two persons were killed in street clashes during the day while 21 persons kidnapped by rival gangs were released.

Karami said the agreement was reached at a cabinet meeting under Frangieh earlier in the day. He said the government decided to work for a consolidation of the cease-fire, the 13th in eight months, as a prerequisite to negotiating basic changes. He said:

"His six-man cabinet would be expanded to include additional portfolios representing the various political groupings and religious factions in the country."

"The constitution would be modified to redistribute 'the national wealth among citizens.'"

Under Lebanon's existing political system, the 40-per-

cent Christian minority dominates the government and the military. The Maronite Christian community also controls most of Lebanon's banks and commerce.

A major demand of the Christians has been that the leadership of the Palestinian guerrillas who use the vast Palestinian

refugee camps in Lebanon as staging areas for raids against Israel be brought under government control. The Palestinians have actively backed the Lebanese Moslems with both arms and men.

Karami said the planned dialogue would include the leadership of the Palestinian guerrilla movement.

SOUPI'S GONE SOUTH — Soup, the bald duck, has found a home in sunny Florida. Mrs. Kathi Miller of Tampa read about Soup and his owners' search to find him a home in an AP story in the Tampa Tribune. "I thought it would be nice to give him a home," said Mrs. Miller. So through the Louisville Courier Journal, Mrs. Miller contacted the owner and drove up to Sligo, Ky., and brought Soup south to Tampa.

Twenty Persons Killed In Traffic Accidents

By The Associated Press

Traffic deaths over the Thanksgiving holiday weekend climbed sharply Saturday with numerous one-car accidents reported by state police.

The Associated Press began its tabulation of the violent deaths from all causes at 6 p.m. Wednesday and will continue the count until midnight Sunday.

Late Saturday the death toll stood at 33 with 20 persons killed in traffic accidents.

Here is how some died: The bodies of a woman and her young granddaughter were found at the woman's Houston home Friday.

Police said Vada Hall, 66, had been stabbed several times. The cause of death of the child, Renay McDaniel, 3, was not immediately determined.

A 2-year-old Beaumont child was pronounced dead on arrival at a Beaumont

hospital Friday night. Police said Jacob Davis apparently had been beaten, but an official examination on the cause of death was pending.

Victor Villa, 26, of El Paso, died Friday night when his car and another vehicle collided in El Paso's lower valley area. Police said

Villa's car traveled about 90 feet after the collision, then flipped over twice before coming to rest against a fence. Six persons riding in the other vehicle sustained minor injuries.

A Fremont man, John M. Powell Jr., 18, was killed late Friday night when the pickup he was driving failed to negotiate a curve at an intersection near Fremont in South Texas.

Two unidentified young women were killed Saturday morning when their pickup truck overturned on Texas 18 near Fort Stockton. A baby was injured in the crash.

The hard work of Capt. Dick Risk and his Webb Air Base Bicentennial Committee has been rewarded with rapid acceptance by the American Revolution Bicentennial Administration. Just one more involvement of local folks in our celebration.

Tid-bits: The talented Lakeview students of Mrs. Mary Ivery Montgomery will perform "A Needle Fights for Freedom" for the Everready Civic and Art Club. Sonia Swindell called from Big Spring State Hospital for help in locating bicentennial decorations to use at a Permian Basin Medical Society meeting. Whatever she uses, we are glad the area visitors will be exposed to her '200th birthday enthusiasm.

Larry Willard will be our prime contact with the Big Spring Chamber of Commerce next year. Darryle Hoberg gave us lots of support in '75, so Larry will be filling some large shoes. We have no doubt he can do it!

Don't be shy! Don't keep us in the dark! If you have bicentennial news, call Janell at 7-5745 or Johnnie Lou at 7-6311. We want to know! Remember, bicentennial horn-tooting is our business.

Policeman Shot, Killed

FORT WORTH, Tex. (AP) — Patrolman Henry P. Mailloux was shot and killed when he stopped a robbery suspect in a car on the city's south side Saturday.

Police said they found two pistols in the street near the suspect's car. One apparently belonged to the officer and the other was presumed to be the death weapon, they said.

Capt. Jack Bicknell said Mailloux radioed police headquarters that he was stopping a car because its license plates matched those of a car reportedly used in an armed robbery Friday night. Mailloux was recommended for a department commendation in May for restraining a man from leaping from a bridge into the path of a train.

The last Fort Worth policeman killed in the line of duty was William Vernon Welch, killed May 21, 1973 when he walked in on an armed robbery.

Mailloux is survived by his widow and a daughter.

Struck, Killed

HOUSTON (AP) — Sue Simmons Harper, 53, was killed Saturday when she was struck by a car while attempting to walk across a highway in suburban Pasadena.

BOMB WON'T GO BOOM

Officers Capture Extortion Suspect

MONROE, La. (AP) — Law officers captured a Ouachita Parish resident Saturday and charged him with trying to extort \$150,000 from the City of Monroe by planting one bomb and threatening to blow up public buildings.

Monroe Police Chief Charles Gaushe said Johnny Dorch, 32, was not given a chance to resist arrest. He was taken to St. Francis Hospital after he became violent.

The police chief said a rifle, a handgun and ammunition were recovered from the suspect's car.

"We have no hard evidence at this time that anyone else was involved," said Gaushe, but he added the investigation will continue.

Joseph Sylvester, special agent in charge of FBI operations in Louisiana, said Dorch was charged with violation of the Hobbs Act, a federal extortion statute. The charges were filed by the U.S. Attorney in Shreveport, he said.

The first threat was made Wednesday when an anonymous caller phoned a Monroe television station, demanded \$150,000, and said he had planted a bomb in a trash can outside a local restaurant.

"This one won't go boom," said the caller, but explained that later bombs might explode in churches and public buildings.

Police found an apparent pipe bomb in the trash can, as the caller had said. Demolition experts from Ft. Polk said, the device could

INJURED IN BLAST — Linda Miko of Pennsylvania rests in a Dublin hotel room Saturday after she and her mother Mary were injured in one of two terrorist bomb blasts that exploded in a hail of glass in the main terminal of Dublin airport. Police report that one person was killed and eight injured in the bombings.

Bombs Injure Two Americans

DUBLIN, Ireland (AP) — Two terrorist bombs sent a hail of glass flying through the main terminal of Dublin airport Saturday, killing one man and slightly injuring eight other persons, including an American woman and her daughter, authorities reported.

Police pursued theories that the bombings were the work of either Protestant extremists from Northern Ireland or of the Irish Republican Army.

Suspicion focused first on the IRA and later on Protestant militants after a car with license plates from Belfast, Northern Ireland, was reported near the airport with "suspicious looking objects" inside. But a Belfast police spokesman said later the car had been found in Dublin and "was not involved in any way."

British press reports theorized that the bombs might have been planted by Protestants in retaliation for recent bombings in London and the killing Thursday of anti-terrorist crusader Ross McWhirter.

A man using an IRA code word said the London attacks were the work of the IRA.

Police said the two airport bombs, estimated at five pounds each, went off 47 minutes apart in separate men's lavatories in the airport terminal building.

The first explosion caused most of the casualties. The area had been cleared by the time the second device exploded, but police combing the evacuated building for further hidden devices reported finding the body of a man.

Among those in the building at the time of the first blast were Mary Miko and her daughter Linda, who authorities said were from Pennsylvania. Their ages and home town were not immediately available.

An airport spokesman said the women were only slightly hurt and returned to the International Hotel near the airport, about seven miles outside Dublin. He said they were resting.

James Egan, a taxi driver, was in one of the lavatories a few seconds before the first bomb went off.

"Women and children started screaming," Egan said. "I saw an old man and a young man carried from the toilet. If the blast had hit the terminal's main bar beside the toilet it would have been pure hell."

Burda said he was fascinated by the public's interest in sharks generated this summer by the movie, "Jaws."

So he decided that "every Iowa student should have a chance to tell his or her mother 'I've eaten shark meat.'"

Burda ordered the fish from a wholesale supplier. The whole shark cost about \$40.

He said he hopes to display the 50-pound fish in a portable horizontal freezer before it is turned into shark steaks.

DEATHS

Jack Rhyme Jr.

LAMESA — Services for Jack Burl Rhyme Jr., 17, Kerrville, who was killed in an automobile crash at 11:30 p.m., Wednesday in Big Spring, were held at 4 p.m., Saturday in Brandon Funeral Home, with the Rev. James Rhyme, San Angelo, officiating.

Burial followed in the Pride Cemetery in Terry County between O'Donnell and Welch.

Young Rhyme was a junior in Kerrville High School. He was a passenger in a north-bound vehicle being driven by his stepfather, Donald Duckworth. The Duckworth family was en route to Lamesa to observe Thanksgiving with relatives.

Survivors include his father and stepmother, Mr. and Mrs. Jack Rhyme Sr., Dalhart; his mother and stepfather, Mr. and Mrs. Donald Duckworth, Kerrville; a sister, Mrs. David Townsend, Arizona; a half-brother, Donald Mark Dupris, Kerrville; and his grandmother, Mrs. Myrtle Koonce, Lamesa.

M. O. Chaney

LAMESA — Funeral for Maxie Odell Chaney, 85, a Lamesa resident the past 18 years, was held at 11 a.m., Saturday in Brandon Funeral Home here, with the Rev. Alvis Cooley, pastor of the Lamesa First United Methodist Church, officiating.

Burial took place in Lamesa Memorial Park. Mr. Chaney died at 1:25

a.m., Friday in Medical Arts Hospital following an extended illness.

A retired farmer, Mr. Chaney moved to Lamesa from O'Donnell.

Mrs. C. N. Jones of Lamesa, a sister-in-law, was among the survivors.

Mrs. Sullivan

Mrs. Carl B. Geraldine Sullivan Sr., 30, died Thursday night in Los Angeles, Cal., following a lengthy illness.

Mrs. Sullivan was a native of Denton, Tex. She married a former Big Spring resident. Funeral was held Saturday in Los Angeles.

Among survivors is her mother-in-law, Mrs. C. B. Sullivan Sr., Big Spring.

Mrs. Smith

SNYDER — Mrs. Harley A. Smith, 52, Snyder, was dead on arrival at a Snyder hospital at 8:45 p.m., here Friday.

Peace Justice Bobby Goodwin ruled death was due to strangulation. She apparently choked to death on a piece of meat.

Services were held at 2 p.m., Saturday in Colonial Hills Baptist Church here, with burial in Hillside Memorial Gardens. She was born in Tuscola.

Mrs. Arner

Mrs. Missouri Arner, 90, mother of two Big Spring people, died Saturday morning in Ryan, Okla. Funeral arrangements are pending at the Grantham Funeral Home in Ryan.

Among survivors are a son,

Frank Arner Jr. and Mrs. J. B. Ewing, both of Big Spring.

Mrs. L. Wade

Mrs. Louis Wade, 63, Winters, sister of Raymond Blackmon of Big Spring and Mrs. Orville Green, Sand Springs, died in a Winters nursing home at 8:05 a.m., Friday.

Services will be at 2:30 p.m., today at the First Baptist Church in Winters. Burial will follow in the Lakeview Cemetery.

Elbert Long

Elbert Henry Long, 61, who moved back to Big Spring about two months ago, died in a local nursing home at 4:15 p.m., Friday.

Services will be at 10 a.m., Monday in the Nalley-Pickle Rosewood Chapel. Officiating will be the Rev. A. L. Gatewood, pastor of the Salem Baptist Church. Burial will be in the Trinity Memorial Park.

Mr. Long was born Dec. 30, 1913, in Springfield, Mo. He first moved to Big Spring in 1931 and farmed in the area until 1947, when he moved to Kansas City, Kan. He was employed there as a clerk with the Santa Fe Railroad.

Survivors include two sons, Elbert Long and Donald Long, both of Big Spring; a brother, Jess Long, Kansas City, Kan.; a sister, Mrs. Viola Tucker, Kansas City, Kan.; and five grandchildren.

Palbearers will be Edgar Phillips, E. M. Newton, G. C. Broughton, A. L. Holley, Bill Swindell and Hubert Gilbert.

GOODFELLOWS DONATE TOYS

'We Don't Celebrate Christmas At Our House'

HOUSTON (AP) — The couple, under the spell of a distilled elixir common to holidays, though no less tonsorially splendid, swayed uncertainly against one another outside the darkened office building. He was a man of no small station but he giggled aloud then quickly caught himself with feigned embarrassment.

"See here," he bellowed with mock authority, "you must stand still else I shall never fasten this thing."

He struggled impatiently with the garment, a new fox shawl bestowed upon the shivering young woman, but at last he surrendered. "I'm afraid," he belched in his finest baritone, "I have had too much cheerdeer." And they both laughed.

The man, older and more

tired, and his companion, a young woman of indefinite role, at last vanished into the deepening night.

On the morrow would come, as anticipated by all, Christmas 1911.

Late shoppers had purchased their last trinkets hours before. Gay strollers were gorged with food and bottled joy as they wandered from office parties, bound for a cherry fire and the kinship of loved ones.

They walked along Texas Avenue's near deserted sidewalks, few glancing up into the lighted newsroom of the Houston Chronicle.

Some did notice, however, a child beneath its yellow windows—a shoeshine boy—but they looked away and strode briskly past as if hearing some urgent

petition. An occasional motor car clattered over the brick street, past the freezing child, and he listened until that, too, had become but a part of the night.

The wind burned his feet with cold and he had no coat but he was determined to man his post until earning enough for modest gifts for his family. The cold stiffened his numbered fingers and he curled them tighter around the few pennies in his grip. He knew his goal was yet not reached.

Above him, inside the warm, yellow-lit room, Chronicle reporters were busy. City editor George Kepple had worked beyond his hours that Christmas Eve for he was a tough editor whose eyes were known to silence king and knave alike.

At last, Kepple buttoned his vest with deliberate motions then topped his old head with a hat and bade a good night. Outside, he pulled his coat collar tight against reddening cheeks and then he saw the small boy huddled against the building.

Kepple approached the waif with a singular intent and solicited a shoeshine. Not given to small talk, he watched the boy in silence but after a time something moved within his breast.

"Looking forward to Christmas?" he asked.

The boy paused for a moment and looked at Kepple's cloaked shoulder.

"We don't celebrate Christmas at our house," he said.

There may have been more which passed between the lad and the salty editor but in no time the two had made their way back inside the Chronicle newsroom where Kepple passed his hat among reporters. They reached deep into their pockets, each mining among his beer funds—a sacred cache among journalists.

It was near midnight when the pair parted but when they did the lad took home enough for a present for his family at Christmas.

The next year, Kepple and his reporters—the Goodfellows as they came to be known—launched a campaign to collect toys for Houston's needy children.

And thus it ever has been. Last year, 45,218 children received toys purchased with contributions from Chronicle readers.

Kepple never saw the full fruit of his kindness that Christmas eve 64 years ago. He died Sept. 13, 1937.

MISHAPS

First National Bank parking lot: Frances Earnest Aberegg, Rt. 1, Box 322, Helen Whitley, Box 701, 1:15 p.m. Friday.

Lancaster and N. W. 4th: Patricia Louise Timberline, 505 N. Bell, Arthur G. Garvey, Fire Dept., Webb AFB, and Charles Jefferson (parked), 313 N. E. 10th, 3:51 p.m. Friday.

1400 block of E. 3rd: Terry Stewart, Lewisville, Danny W. Lewis, Old Gail Rt., 11 p.m. Friday.

800 blk. South Service Road: Tommy Leonard, Fort Worth, Earl Hiram Marsh, San Angelo, 7:39 a.m. Saturday.

STEP (Selective Training Enforcement Program) was cited by city officials as a success. The number of mishaps at key intersections, patrolled by off-duty officers, is said to be down. This is a lot more significant figure than the increase in traffic fines from \$9,589 to \$21,021.

Public hearings were inaugurated here last week on the objectives for distribution of additional HUD funds, if granted to the city. Earlier, the city had asked for \$300,000 to be used primarily for sewer and water extensions and for a minor amount for old building demolition. This

Admission price is \$2 for all performances, two of which will be at night. Jolyn Mikow directs the play, which boasts a cast of 20.

King To Change Ironfisted Rule

MADRID, Spain (AP) — King Juan Carlos is preparing to oust nearly all members of the Spanish government and replace them with more liberal cabinet ministers, informed political sources said Saturday.

But Jose Antonio Giron, head of an estimated 200,000 veterans who fought for Gen. Francisco Franco in the Spanish Civil War, plans to attack changes in the regime.

The king, entering his second week of rule and pushing to liberalize the nation after 36 years of ironfisted rule under Franco, probably will keep conservative Premier Carlos Arias Navarro, at least temporarily, as a sign of continuity to go along with the cabinet shakeup, the sources said.

Arias met privately for two hours with the king Friday in their first formal meeting. A high government source later denied published reports the premier had resigned.

Arias, who will be 67 next month, is said by aides to want to resign although his term has three years to go. He will stay on, however, they added, if Juan Carlos asks him to do so.

The sources said the 37-year-old monarch, Spain's new head of state following Franco's death Nov. 20, wants a minimum of 15 of the 19 members of the present cabinet replaced. No posts were specified. Government informants described replacements as "new

liberal political elements." Juan Carlos faces a key decision by Dec. 6 to replace Parliament President Alejandro Rodriguez de Valcarlos. He could combine a cabinet shuffle with the new appointment, the sources said.

Torcuato Fernandez Miranda, vice-premier when Premier Luis Carrero Blanco was assassinated by Basque separatists two years ago, was reported to be the king's choice to head parliament.

The parliamentary leader also heads the 17-member Council of the Realm, the king's chief advisory body. Juan Carlos also was reported concerned by the council's conservative composition, all of whose members were named by Franco.

Newspapers speculated openly on potential new government leaders. Included were Pío Cabanillas, fired one year ago as information minister by Franco for a too-liberal press policy, and Antonio Barrera, the nation's economics expert who quit the cabinet in protest over Cabanillas' ouster.

Political leaders said Manuel Fraga, who returned from Britain as Spain's ambassador two days before Franco's death, was being tipped as vice-premier to serve under Arias and handle political reform.

The cabinet now has three vice premiers, and Fraga as the No. 2 man in a new cabinet, would be in good position to take over eventually from Arias, politicians said.

Heritage Museum Attracting Traffic

Traffic has been heavy at the Heritage Museum during the Thanksgiving holiday period. Non-residents of Big Spring showed up in large numbers.

Mrs. Agnes Currie donated several colored slides of dresses worn by First Ladies of every administration from George Washington's time through the present. The dresses are exhibited in the First Ladies Hall in the National Museum of History and Technology in Washington.

Mrs. William Howard Taft presented the first dress to the Smithsonian Institute in 1912 when she was First Lady.

Former First Ladies and their descendants from all over the United States then began to donate dresses to the collection and presidents' wives who followed Mrs. Taft into the White House followed suit.

The slides will be shown upon a request made by clubs or for any group which desires to see them. Mrs. Janell Davis has made a recording on sound describing each dress, who is wearing it, and the dates it was worn.

Those wanting to reserve the film can contact Gerri

Atwell, museum curator. Among new and renewed memberships issued recently include:

IF 'RIP-OFFS' CAN BE REDUCED

CB 'Boom' Due To Linger

By STARBUCK WOOLF

1st Voice: "Hey, this is the 'Frito Bandito'. Is the 'Count' out there cruising anywhere?"

2nd Voice: "Say 'Frito', this is 'Duke'. What's happenin'?"

1st Voice: "Hey man, you seen the 'Count'?"

2nd Voice: "Negatory, 'Frito'. What's your so anyway?"

1st Voice: "Creepin' along in the line at the Jet."

3rd Voice: "Frito, it's me, the 'Count'."

1st Voice: "You're not the 'Count'."

4th Voice: "No, I'm the 'Count'."

1st Voice: "If you're the 'Count', what's your whole handle?"

4th Voice: "Uh... (long pause)... 'Count Dracula'?"

1st Voice: "Wrong."

5th Voice: "Here I am 'Frito'... the 'Count of Monte Crisco'."

1st Voice: "All — right

'Count', whereyats?"

5th Voice: "FM 700 and Mars."

1st Voice: "Lookout!"

5th Voice: "Whoa!"

1st Voice: "Hey, you seen 'Flipper'?"

5th Voice: "Yeah, saw him on Gregg. His CB was ripped off last night, though. No ears."

1st Voice: "Tough Luck! What about 'Pontoon'?"

5th Voice: "He's out at the Jet, too, 'ol buddy. But his CB was swiped today on the school parking lot."

1st Voice: "Umm! Hey, seen 'Butterball Express'?"

5th Voice: "No, but he lost his ears last week at a service station."

1st Voice: "Man, know what you mean. Seems the minute you turn your back, somebody swipes your CB. 'Scuse second, gotta throw my cig out the window... (silence)"

5th Voice: "Frito? Hey man... calling Frito... come in Frito! Hey, Bandito...uh-oh. (silence)"

(Photo by Starbuck Woolf)

"OH NO, NOT AGAIN!" — Hodecker Fumley woefully grabs his head, overacting his frustration and dismay during a dramatization recreating the morning he awakened and found his 14th CB radio missing. "I could write a book," Fumley says.

mostly by younger people, 16-19 years of age.

"But," he hastened to add, "there are probably several groups taking them, not just one group."

Capt. Jones stated that an average of four CBs a day are stolen in Big Spring. That's 120 a month! That's a lot!

Why are so many stolen? "They're easy to steal," he said simply.

Jones compared the current rash of CB thefts with the vogue of hub-cap stealing of many years ago, and the tape-deck stealing craze that followed it. Evidently, CBs are not only the "in" thing to have right now, but the "in" thing to steal. Jones added that all the other cities and towns are having the same problem... an unabated pullulating of CB thefts.

The police department cannot be blamed for the continuance of the thefts. CBs cannot be protected as well as most other public properties.

Capt. Jones offered some hints on how to prevent the theft of your own CB radio:

1) Lock your doors (At least that slows down the thief).

2) Take down the serial number of your CB.

3) Mark your CB with some identifying mark, such as your Drivers License number or your Social Security number.

4) Get one of the many car burglar alarm systems now

on the market.

5) Rig your CB to remove easily, so you can take it out of your car when you're not in it.

Terry Allison of the local Radio Shack suggests "sliding brackets" (\$7.95), which allow you to pop your CB in and out very easily.

"But you better make sure you take it out," he warned, "or you're asking for trouble." He meant that a "sliding bracket" would facilitate matters for a thief as well as it would for you.

If you want a CB radio, and believe me, sooner or later you will want one, ("a chicken in every pot, a CB in every car" — that time is quickly approaching), then you better prepare yourself to guard it until the crooks find something better to steal (like maybe each other's cars). But until then, just worry about thinking up a more clever handle than your neighbor.

CB TALK

1. Bars — a CB radio
2. Smokey — the highway patrol
3. Bear in the grass — highway patrol car parked along the side of the road
4. Your 26 — your present location
5. Plain Brown Wrapper — brown, unmarked patrol car; also, plain white wrapper; plain blue wrapper, etc.
6. Smokey's taking pictures — highway patrol has radar
7. Smokey's giving green stamps — highway patrol is giving someone a ticket
8. Pumpkin — flat tire
9. Tijana Taxi — patrol car with all the markings and lights (also Christmas lights)
10. 4-Wheeler — a car that has four wheels (what else?)
11. Go-go Girls — term used in cruising
12. Stepped on — someone broke in on your conversation
13. Starbuck — that's my handle, get your own.

LITTLE ROCK, Ark. (AP) — Gov. David Pryor and his wife, Barbara, have separated, the governor's office announced on the Pryors' 18th wedding anniversary.

Neither Pryor, 41, nor his wife, 37, could be reached for comment.

A statement issued Friday said Mrs. Pryor would live at

the couple's recently purchased home on Lake Hamilton near Hot Springs and the governor would remain at the governor's mansion in Little Rock.

The statement said nothing about divorce.

The Pryors' three children — David Jr., 15; Mark, 12; and Scott, 9 — will remain at the governor's mansion at least temporarily, the statement said.

Mrs. Pryor was hospitalized last February for what official an-

nouncements described as exhaustion. Aides to the governor said Mrs. Pryor began undergoing psychiatric counseling.

Pryor, a Democrat, was elected governor last year.

'Red Admiral' Purged From Portugal's Council

LISBON, Portugal (AP) — A former cabinet minister was jailed Saturday, another was sought for arrest and two pro-Communist admirals were purged from the top leadership as moderate-line military rulers moved to crush opposition after an abortive coup.

The arrest of Maj. Antonio Arnao Metelo, former interior minister, brought to more than 100 the number of soldiers held in Oporto's Cusioas Prison where a seven-man military commission began its official investigation into Tuesday's uprising.

Military sources said there would be still more arrests, and a warrant was issued for Maj. Jose Costa Martins, a former pro-Communist labor minister who authorities said was implicated in the plot to impose an ultra-leftist government.

There were unconfirmed reports that more than 30 civilians had also been detained in a spreading search for suspects.

At the same time, the ruling Revolutionary Council announced that two more members of the nation's supreme decision-making body had been purged, strengthening the hold of moderate-line officers.

Ousted were Adm. Antonio Rosa Coutinho, known as the "red admiral" for his backing of Communist party positions, and Adm. Armando Filgueiras Soares, the navy chief of staff.

Their dismissal followed the purge from the council of army chief of staff Gen. Carlos Fabiao and military security chief Gen. Otilio Saraiva de Carvalho, both of whom encouraged left-wing dissidence in the armed forces and anti-government action in the streets.

Reflecting the council's

search for stability, the new heads of the army and navy were non-political professionals, as military sources described them.

As the leadership tried to restore cohesion to the divided armed forces, and Premier Jose Pinheiro de Azevedo announced the center-left government was satisfied it now had the required military backing, Portuguese authorities were faced with a new colonial problem as a guerrilla movement in distant East Timor announced it was making a unilateral declaration of independence.

Foreign Ministry sources said the government was caught by surprise when Fretilin — an acronym that stands for Revolutionary Front for an Independent East Timor — informed Lisbon by telegram Saturday morning that East Timor was no longer Portuguese.

At the same time, two pro-Indonesian factions — the Timor Democratic Union and the Apodeti party — jointly declared the 400-year-old colony part of Indonesia.

All three factions have been fighting a civil war since mid-August, and have accused Portugal of violating a recent agreement between Indonesia and Portugal on settling the conflict in Timor, 350 miles north of Darwin, Australia.

Ousted were Adm. Antonio Rosa Coutinho, known as the "red admiral" for his backing of Communist party positions, and Adm. Armando Filgueiras Soares, the navy chief of staff.

Reflecting the council's

Burglary \$2,180

Burglars made off \$2,180 worth of furniture electrical equipment the home of Tom No. Caylor, some time bet a.m. Nov. 23 and 1 Friday.

According to reports, Mr. and Mrs. left home Nov. 23 to trip out of town. Friend had been asked by the police to check the house and police of the burglary.

Burglars smashed glass from the back of the house, entered absconded with a sofa.

ABOUT 40,000 CITY EMPLOYEES WILL EITHER BE FIRED OR WILL RETIRE

NYC Crisis Over, Problems Haven't Been Solved

NEW YORK (AP) — Although the crisis is over, the problems haven't been solved.

New York City still has to balance its budget, enact more layoffs and service cutbacks and complete a massive refinancing operation.

Construction programs are being cut back, Congress has to approve the aid program supported by President Ford, lawsuits are pending in opposition to various parts of the city's restructuring plan and city residents can expect even more tax increases.

OUT OF WORK Here are some of the problems that New York City still faces now that it has been pulled back from the brink of default:

—The city has to balance its budget by June 30, 1978, which will require \$6.8 billion in cash or savings, much of which is committed under agreements with banks and pension funds.

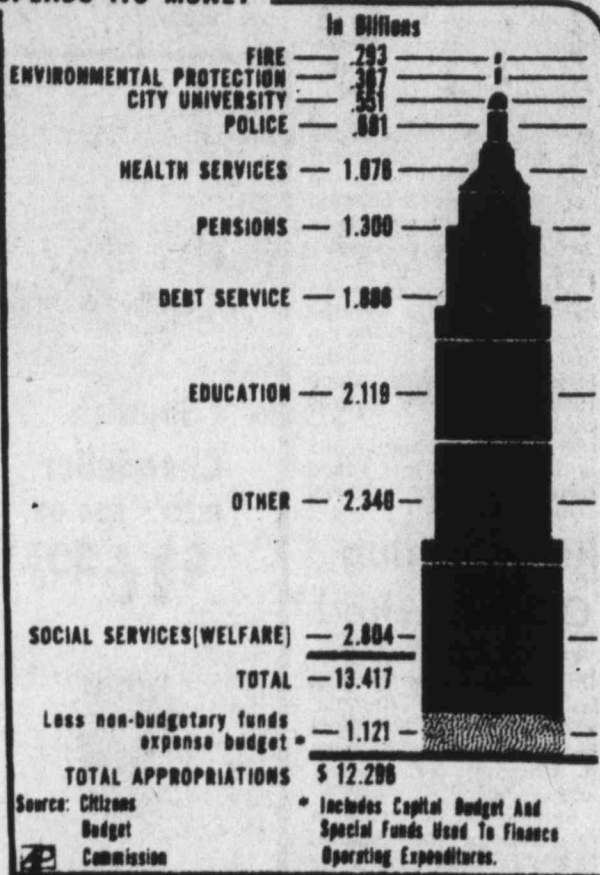

—Approximately 40,000 of the more than 250,000 city employees will either be laid off or will retire and their jobs will go unfilled. It has not yet been determined where these cuts will be made.

—Individuals holding city notes are now deciding whether they will hold onto them or turn them in for Municipal Assistance Corp. bonds. The state legislature has approved a plan under which the principal on the city notes won't be paid for at least three years, but the exchange of the \$1.6 billion in short-term debt has been

called one of the most complicated deals in the history of municipal financing.

LOAN PROGRAM —The city halted work on 46 construction projects this

HOW NEW YORK CITY SPENDS ITS MONEY

EXPENDITURE BREAKDOWN FOR CITY — Chart itemizes expenditures by the City of New York for the 1975-1976 budget year.

Menu Plain For Reign In Spain

MADRID, Spain (AP) — The food budget for King Juan Carlos and his family last summer was an austere \$1.43 per person per day, Spain's top cook said Saturday.

Juan Duran Camp, who has cooked for the royal family in Barcelona and Majorca, was quoted in a Valencia newspaper as saying Spain's First Family eats "as in any of the country's middle-class houses."

Duran Camp, officially named "Spain's top cook" by the Ministry of Information and Tourism, said he was astonished when Juan Carlos picked him as his family's cook during their holidays last summer.

"Never before had I seen such austere cooking," he said. "It was a military austerity involving from Juan Carlos to the last servant."

But the king of one week broke the rule Thursday when he entertained 120 dignitaries at a palace banquet honoring his ascension. The food bill came to about \$25 per person.

Salley Chitlin Strut Conducted

SALLEY, S. C. (AP) — Thousands turned out to consume 6,000 pounds of chitlins Saturday at the 10th annual Salley Chitlin Strut.

For those not attuned to chitlins — and that includes many southerners and residents of Salley itself — there was barbecued chicken and pork.

Chitlins — more formally called chitterlings — provide cash to finance the fire department and civic improvements for this town of 570 about 40 miles southwest of Columbia. An appreciative town council plans to erect a monument to the pig who supplies the big drawing card.

"You don't bite the hand that feeds you," said Mayor Jack Able. Chitlins are the small intestine of a hog, boiled until tender and then battered and deep-fried until crisp. Although the smell

when they are cooking can make strong men tremble, chitlins have their boosters.

"Yes sir, I eat chitlins," said Eva Cooper. "I just love that brown, crispy taste, the good flavor and all."

Other Salley residents have reservations about eating them. "If I was hungry enough — or starving — I guess I'd eat chitlins," said 15-year-old Joy Jackson, this year's Chitlin Strut queen.

"Just the idea of chitlins turns my stomach," said Betty Adams. "I tried chitlins the first year they had the festival here, and I couldn't stand them."

This year's strut got started with a morning parade with Rep. Butler C. Derrick, D-S.C., serving as grand marshal.

—Congressional approval of the \$2.3 billion a year loan program proposed by President Ford has to come before Dec. 11, the day the city faces default on its obligations without outside funds. House leaders have said the Ford bill should pass easily there, but Senate leaders are expecting some opposition.

—Lawsuits have been filed against some of the key parts of the refinancing plan, particularly the moratorium on redemption of city notes and use of pension fund money.

MORE TAXES —New York City residents just had their income taxes and other levies increased and city real estate taxes are also likely to go up.

Additionally, New York State still has its own problems to work out and this will probably mean higher state taxes for the nation's highest taxed residents.

New York Gov. Hugh Carey said that the President's loan program "does not mark the end of our difficulties. Painful burdens remain ahead for us all."

Carey described the future problems as "the work of rebuilding and restoring confidence in New York City."

This is indeed a critical problem. All of the aid programs put together have been aimed at having the city's house in order on July 1, 1978. At that time, if the

city is to avoid a new round of brinkmanship it must be able to resume operations in the municipal bond market and other normal channels of obtaining money.

Ford told his nationally televised press conference that he decided to offer aid to New York City because, "New York has bailed itself out." He said that the cutbacks, layoffs, higher taxes, note moratorium and other efforts had convinced him that the city did not need the supervision of a bankruptcy judge to straighten out its affairs.

But Ford also said that these steps would enable the city to balance its budget in the present fiscal year ending June 30, 1976.

This is not the case, however. The programs were not designed to completely eliminate deficit spending this year.

Even the size of this year's deficit remains unclear. City Comptroller Harrison J. Goldin has said it will come to \$900 million. But this still includes some of the budget gimmickery that brought the city to the brink of insolvency and it is estimated that more conservative accounting methods would show a deficit closer to \$3 billion.

The main problems ahead for the city then are implementing the plan that has been drawn up. That plan is a highly

complicated one with many parts contingent on another part being carried out.

For example, the unions representing municipal employees have agreed to invest \$2.5 billion from their pension funds in new city and Municipal Assistance Corp. bonds, but this is contingent on the passage of the federal loans.

The \$6.8 billion plan to balance the city's budget is also based on three other assumptions:

WELFARE —That the city's spending will be reduced by \$270 million in each of the next two fiscal years on top of the \$200 million reduction this year. The budget started out at \$12 billion before the cuts. —There will be no increases in salary scales for municipal workers and some workers will agree to a postponement of wage increases already scheduled. However, the state has passed legislation that will mandate the wage freeze for workers who don't take them voluntarily and this is now being challenged in the courts.

—The city's expenditures for welfare and Medicaid will remain constant for the next three years. But the standards for receiving welfare are set by federal and state law so the number of persons entitled to it can vary. Thus, some programs that the city has control over may have to be cut back.

Quake Spurs Tidal Wave, Brief Volcanic Eruption

HILO, HAWAII (AP) — The strongest earthquake in 100 years hit Hawaii's largest island Saturday morning, triggering a tidal wave and a brief volcanic eruption that spewed molten lava 30 feet in the air.

One man was killed, another was missing and 19 persons were taken to island hospitals with injuries suffered in the quake, officials said.

Ranger Chris Cameron at Volcanoes National Park said the dead man was an unidentified camper at the park. He said 34 persons, including 10 Boy Scouts, were evacuated from a seaside campground.

Nine of the 10 scouts were injured, none seriously, hospital officials said.

The quake registered 7.2 on the Richter scale — a major quake reading — and was followed by sharp aftershocks throughout the morning.

Windows were broken in businesses and homes throughout the island and many small buildings collapsed. Highways were blocked in many areas by landslides, lava flows and deep cracks from the quake and tidal wave.

A number of boats were destroyed or heavily damaged at harbors throughout the island.

A restaurant and several homes were destroyed or heavily damaged by the tidal wave. Residents of coastal areas were evacuated and police sealed off downtown Hilo, the island's largest city with 26,000 residents, to

prevent looting. Glass and Christmas decorations were scattered in the streets.

The earthquake triggered an eruption in Kilauea Volcano. Molten lava jumped 30 feet into the air from a half mile crack in the crater floor during the 90-minute eruption. A second outbreak was reported on the rim of Halemaumau Firepit, a part of Kilauea Volcano.

A spokesman at the U.S. Geological Survey's volcano observatory said the eruption apparently was caused by the volcano's crater floor being pinched by the pressure of the tremors, causing the lava to be squeezed out.

The most severe damage was reported at Punaluu Village at the southern tip of Hawaii Island. The island is about 200 miles southeast of Honolulu.

No Hat In Ring, Connally Says

DALLAS (AP) — Former Texas Gov. John B. Connally says he will not lead a third party candidacy for the 1976 presidential nomination, the Dallas Morning News reported Saturday.

Connally was quoted earlier in the week by the Conservative Digest as saying he might run for a third party ticket.

"That isn't so," the News quoted Connally in a telephone interview from Connally's Houston home. "They're reading something into it I didn't mean."

ON THE JOB — A well dressed pooch in downtown Tokyo plies his trade as indicated on the sign at left. The sign says the dog will bow deeply for anyone who gives him money. Failing that, he will shake hands with the contributor.

Burglars Stage \$2,180 Caper

Burglars made off with \$2,180 worth of furniture and electrical equipment from the home of Tom Nord, 622 Caylor, some time between 8 a.m. Nov. 23 and 3 p.m. Friday.

According to police reports, Mr. and Mrs. Nord left home Nov. 23 to take a trip out of town. Friends who had been asked by the Nord to check the house notified police of the burglary Friday.

Burglars smashed the glass from the back door of the house, entered, and absconded with a sofa, two

chairs, a coffee table and two end tables with a total value of \$1,500. The intruders also took a combination AM-FM radio-turntable-eight track tape-unit worth \$350, a police scanner radio worth \$250 and an Indian rug worth \$80.

Police said the burglars were systematic and selective in what they stole. There were also several radios, electric clocks and a television set in plain sight in a room which were left untouched.

Police were unable to contact neighbors to determine if there had been a witness to the burglary.

GARDNER HOME
... as it is today

Visions Come True For Strahorn, Cole

EDITOR'S NOTE: This is the twelfth in a series about early Big Spring homes certified by the historic commission. All homes approved were built prior to 1915 and verified for certification by Mrs. Carol Hunter.

By MARJ CARPENTER

D. P. Strahorn had visions of Big Spring growing out to South Mountain, which of course, has come true. However, his visions, along with those of William Cole, were back in 1906. At that time, most of the community was huddled around the railroad.

Strahorn and Cole bought property from acreage owned by a governor of Georgia, heirs of Joseph Brown. The land was out toward South Mountain and the two far-seeing gentlemen knew that some day it would be a residential area.

They divided the 25 acres into lots, alleys and streets. Strahorn then built himself a home in 1906 on what is now 1600 Owens.

David Strahorn, who is the youngest of the four children, now resides in Snyder. He was born in the home featured in today's story and recalls very little about the house because he was quite small when the family moved out.

However, his cousin, Roy Hendricks of Snyder, at one time lived with the family and reminisces about his boyhood years at 1600 Owens.

Hendricks recalls digging the storm cellar on the north side of the house. He also recalled that he liked

sleeping upstairs because it was so cool.

The Snyder resident recalled that back in 1907 when there were board sidewalks downtown, that the area was originally kept clean by the hogs. As progress continued the hogs were banned and for the first time, the city was faced with the need for garbage pick up.

The Strahorns sold the residential addition and their home to W. J. Gordon in 1909. It was recalled that Lucy Strahorn cried when the family left Big Spring and her home at 1600 Owens. She dearly loved both.

The house later fell into disrepair and was overgrown with weeds and vines. In 1947, Mrs. Robert

M. Gardner saw exciting possibilities in the house. She and her husband purchased the residence at a time when old homes were not popular and many of their friends asked them, "Why did you buy that old house?"

Mrs. Gardner said the house reminded her of one that she had lived in as a child on Main Street and that she believed that an old house offered space and cheer.

Today, the Gardners have a vintage home since they have updated the sturdy two story white frame house. The marvelous grounds surrounding it have been a haven for the Gardner grandchildren, Robin and Christopher Daniels.

Name Gospel Hour Speaker

S. Sgt. Jesus M. Ferrand, a licensed Southern Baptist minister, will be the guest speaker for this week's Gospel Hour at 5:30 p.m. today in the Webb Chapel.

SSgt. Ferrand plans to a "testimonial message" from Romans, chapters seven and eight.

He is the chief of the administrative communications branch here.

The services are open to the public.

Deadline Missed By Sportsweek

The second edition of Sportsweek will not appear in The Herald until next Sunday.

Printed in Atlanta, Ga., the tabloid, devoted to sports news originating in the South and Southwest, was not shipped in time to be included in today's edition.

Hopefully, Sportsweek can be offered to Herald readers on a weekly basis starting Dec. 7.

CRITICISM NOT JUSTIFIED Drilling Industry Changes Dramatically

HOUSTON (AP) — Oil and gas operators are making use of more drilling rigs at present than at any time since early 1962.

But some contractors are drawing a bit of criticism because the average rig is not drilling as many wells as was the case five years ago.

Ed McGhee, executive vice president of the International Association of Drilling Contractors, says such criticism is not justified.

McGhee acknowledges the current wells-per-rig average is below that of 1970 but says such an average does not reflect other vital factors such as well depths.

In five years, the average well depth has increased from just above 5,000 feet to more than 5,300 feet.

And, McGhee adds, general conditions within the drilling industry have changed dramatically in just five years.

The darkest days of a prolonged slump in domestic drilling operations were approaching in 1970. An average of only 1,028 rotary

rigs were in use that year compared with a record 2,686 in 1955. And the average was to drop to only 976 in 1971.

The comeback did not gain momentum until late 1974, but more than 1,750 rigs have been at work throughout November, the highest average since 1962.

"Put yourself back into the shoes of the 1970 contractor," McGhee suggests.

"Only 1,000 rigs are working and the count is still headed downward. Rigs are being stacked at so fast a rate the men displaced from them exceed normal attrition. Trained men are actually leaving the industry for lack of jobs. Naturally, you have experienced people in all positions."

McGhee said the oil producer also had experienced drilling supervisors assisting contractors and frequently let multiple-well contracts that permitted experience from one well to be applied to the next.

LAX SECURITY Will Replace Lottery Staff

ALBANY, N.Y. (AP) — The entire staff of the state's lottery system has been disbanded in the wake of a report citing "needless opportunities for fraud," lax security and a variety of serious problems.

Gov. Hugh Carey, who suspended lottery operations Oct. 22, said he will replace the current lottery staff with new people. He said a special team headed by outside experts will revamp the lottery, but he gave no date as to when it would resume.

The lottery had generated about \$20 million in revenues for the state this fiscal year before Carey suspended operations following disclosures that hundreds of thousands of tickets with duplicate numbers had been printed and distributed for a special \$1.4 million drawing on Oct. 31.

That revelation came shortly after lottery officials acknowledged that no winners had been picked for some weekly \$250,000 drawings because numbers from unsold tickets were put into the pool from which winners were drawn.

Carey said Friday he was firing or reassigning to other state agencies all 318 lottery division staffers, including its \$300,000-a-year director, Jerry Bruno, who was given the lottery post in April after playing a key role in Carey's 1974 gubernatorial campaign.

Bruno, 49, a well-known

campaign advance man who began his political career with the presidential campaign of the late John F. Kennedy, said he was being made a "sacrificial lamb."

Carey announced the lottery overhaul on the recommendation of an independent management consulting firm he hired after freezing lottery operations.

The firm, Arthur D. Little, Inc., of Boston, Mass., "concluded that an overhaul was necessary to restore the security of the lottery and the public's confidence in the games."

The Little report found "a variety of problems of a very serious nature." In particular, it noted that the responsibility for computer programming lay not with the lottery division, but with the state racing and wagering board.

Job Training Opportunities For Big Spring Women Offered

MCKINNEY — The Job Corps program is currently providing job training opportunities for young women ages 16-21 from Big Spring.

Young women interested in applying for the Job Corps program have been asked to talk with representatives of the local Texas Employment Commission Office in Big Spring.

Most young women entering the Job Corps program from Texas are enrolled at the McKinney Job Corps Center in McKinney, Texas.

The Center, which provides twenty different job

training programs, is located thirty miles north of Dallas.

Presently there are 168 young women from the State of Texas enrolled at the McKinney Center, which has a capacity of 650 young women.

Vocational offerings at the Center which are available to any young woman from Big Spring include Cashier-Checker, Credit Clerk, Sales Clerk, Stock Clerk, Receptionist-PBX Operator, Machine Operator, File Clerk, Typist, General Office, Clerk Typist, Accounting Clerk, Key Punch Operator, Waitress,

Bus Girl Line Server, Cook, Nurse Assistant, Ward Clerk, Welder, Stock Person, and Warehouse & Materials Handler.

The Job Corps Center in McKinney, which has long been rated as one of the outstanding Job Corps Centers in the nation, is operated by the non-profit Texas Educational Foundation, Inc., under contract to the U.S. Department of Labor, Manpower Administration.

The McKinney Center has trained and placed 6,650 young women from twenty different job training programs offered.

Eyes Of Textile Industry Turn To Texas High Plains

Activities scheduled for the first two weeks of December in the Lubbock area furnish additional evidence that the eyes of the textile industry are turning more and more to the Texas High Plains.

On Dec. 1, three representatives from the Investa Foreign Trade Company of Prague, Czechoslovakia, accompanied by an official from the Czech Embassy in Washington, will be visiting the Textile Research Center at Texas Tech. Investa is one of the world's most important and progressive manufacturers of textile machinery.

On Dec. 2, W. Gordon McCabe, Jr., group vice president of J. P. Stevens & Company Inc., will bring cotton buyer Foy Fisher and five of the company's mill

superintendents to look over the High Plains crop, visit gins and acquaint themselves with Lubbock's new open-end spinning plant, Feather Yarns, Inc. Stevens, based in Greenville, S.C., is one of the U.S. leaders in open-end spinning and the mill superintendents are those from plants involved in the production of yarns on the open-end system.

The following week, Dec. 9, the Cotton Committee of the American Textile Manufacturers Institute (ATMI) will hold a breakfast meeting in Lubbock, followed by a tour of harvesting and ginning operations and the Feather Yarns plant. The 30 members of the ATMI committee are top officials of 27 textile manufacturing companies that account for over half the cotton consumed in the U.S.

each year. They are meeting in Lubbock at the invitation of James Parker, Director of the Textile Research Center at Tech.

The increased attention being paid to the High Plains by people in the U.S. and world textile industry, according to Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc., is directly related to "the growing interest in open-end spinning, the expanding physical plant and activities of Tech's TRC and the continued production on the High Plains of from 15 to over 20 per cent of the U.S. cotton crop each year." PCG is joining other individuals and groups as hosts to the distinguished High Plains visitors.

The ATMI Cotton Committee has broad responsibility for all matters

concerning the textile industry's interest in cotton fiber, such as trading procedures and rules, quality, supply and arbitration. It is also responsible for national policies regarding cotton and advises the ATMI Board of Directors on cotton related matters. Fifteen or more of the 30 committee members are expected to attend the Lubbock meeting, according to Staff Secretary Donald J. May.

The Textile Research Center at Tech is becoming an increasingly important factor in the textile world, especially where open-end spinning is concerned. Construction of a new wing at the Center, adding 12,500 sq. ft. of floor space, is scheduled for completion in the Fall of 1976. The new space will be used for an

open-end spinning laboratory, larger and more complete knitting facilities, three chemistry laboratories and additional fiber testing.

Dr. Thomas Is Honored

ABILENE — Dr. J. D. Thomas, professor and head of the Department of Bible at Abilene Christian College, has been named to the first edition of "Who's Who in Religion." The edition is for the 1975-76 school year.

The first edition will contain more than 16,000 biographical sketches of

outstanding men and women who have made significant contributions to the religious professions.

Dr. Thomas joined the ACC faculty in 1949. He received the bachelor's degree in Bible and Greek from ACC in 1943, the master's degree in church history from Southern Methodist University in 1944 and the doctorate in New Testament and early Christian literature from the University of Chicago in 1957.

He directed the annual Bible Lectureship at ACC for 18 years and has also directed numerous preachers' and elders' workshops. He has been a frequent contributor to various religious periodicals and has published numerous books. He is married to the former Mary Katherine Payne, and they have two children — Hannah, Mrs. Dwayne Kissick, and John Paul; and six grandchildren. He serves as an elder for the College Church of Christ in Abilene.

Questionnaire

A survey team from Batelle Columbus Laboratories, Columbus, Ohio, will be conducting a study to characterize the socio-economic interface between Webb AFB and the neighboring communities beginning about Dec. 1.

As part of this study Air Force personnel will be conducting a base wide socio-economic questionnaire survey within the next 45 days. This survey will be used to define the economic and social interdependencies which exist between the base and the communities.

Military and civilian participants will be selected on a random basis. Their participation will be voluntary and all individual responses will be combined for use in group statistics.

This local study is part of a series of studies being conducted for the Air Force by three private firms.

Houston's Bond Rating Big Campaign Issue In Runoff

HOUSTON (AP) — Houston's "AA" bond rating has become a major campaign issue for Tuesday's runoff election in which a second-term bid by mayor Fred Hofheinz is challenged by Frank Briscoe, a former district attorney.

Hofheinz, 37, the son of a former mayor, contends the city's fiscal condition is so strong its growth can continue without need for a tax increase.

Briscoe, 49, who left office as district attorney in 1966 to make an unsuccessful race for Congress, argues that a report by Standard & Poor, a

bond rating firm, is an indictment of the taxing and spending policies of the Hofheinz administration.

Hofheinz led the five-man race in the city's Nov. 4 general election, receiving 113,404 or 47.4 per cent of the votes. Briscoe was second with 75,600 or 31.6 per cent.

The third man in the race, Dick Gottlieb, a former city councilman, now has endorsed Briscoe but has not taken an active role in the runoff. Gottlieb, defeated by Hofheinz in a close 1973 race, had 47,491 or 19.8 per cent of the November vote.

The bond rating con-

trovercy developed after Standard & Poor, which does not extend "AAA" ratings to the nation's 10 largest cities, submitted a report on \$16.9 million in public improvement bonds Houston sold Nov. 19.

The report noted that Houston had cash surpluses of \$7.1 million in 1973 and \$13.4 million in 1974 and added, "We are maintaining our AA high grade rating on Houston's general obligation bonds due to the strong economic and tax base and employment picture."

The report added, however, "We see continued pressure on the operating budget for fiscal 1976. Either a tax increase or new revenue sources should be sought."

Briscoe contends such a statement is not only an indictment of the Hofheinz policies but is an indication Houston is headed for the same financial problems afflicting New York.

Briscoe has said he will reduce water and sanitary sewer rate hikes for which Hofheinz obtained city council approval last year. Hofheinz has defended the rate hikes as needed to permit the departments to operate on a self-sustaining basis.

Party affiliations do not figure in the city election but both Hofheinz and Briscoe are Democrats.

Only three other races will be determined Tuesday, one city council position and two school board positions.

Two Pilots Parachute After Bombers Collide

OMAHA, Neb. (AP) — Two pilots parachuted to safety after an apparent collision and the explosion of two B-57 bomber planes that were approaching a runway at Offutt Air Force Base.

"They were making their approach and then just disappeared from the radar," said Sgt. Tom Pierce, public information officer.

He said the Air Force will appoint a board of officers to investigate Friday's crash.

The two planes had taken off from Sawyer Air Force Base, Mich., and their arrival at the Strategic Air Command (SAC) headquarters at Offutt "wasn't scheduled," Pierce said.

There were no explosives reported aboard the twin-engine jet planes, which were based at Forbes Air Force Base, Kan., and attached to the Kansas Air National Guard, a SAC spokesman said. The planes were on a routine training mission, the spokesman added.

Lt. Gary H. Keller of Topeka, Kan., was

hospitalized with "acute leg injuries" and was listed in satisfactory condition. Capt. Willie Nolen of Kansas City, Kan., was hospitalized with "no apparent injuries."

There were no other crew members in the planes, which normally carry two persons.

Bomb Damages Embassy Office

MEXICO CITY (AP) — A terrorist bomb exploded outside a Soviet embassy office Saturday.

The blast damaged the entranceway of the embassy's commercial affairs office and shattered at least 50 window panes in a six-block radius, police said.

A bomb blast the day before wrecked Cuban Ambassador Fernando Lopez Muino's black limousine in a residential section of the capital.

The bomb, which police blamed on a Cuban anti-Castro group, was wired to the ignition system and went off when the ambassador's driver started the engine.

HOUSTON (AP) — Personal satisfaction was all that could be from Baylor's 25-7 So Conference football over Rice Saturday.

Baylor's Bubba Hicks kicked for goals including a record-tying 60-yard Franklin came back the game despite injuries to break single-season record.

"I'm on cloud nine just thankful that good last game," said whose 60-yarder, a SWC record set in Arkansas' Bill McC means a lot to me blocked field goal bad snap which del timing and a guy go and hit."

Hicks referred to 59-yard attempt in quarter that would have given him the SWC for most field goal game.

Franklin, who entered game needing 40 yards to reach 100 on rushing record, two right knee on the fir the game and late extended his left ki in the second quarter returned in the game minute and finished yards to set a school record of 1,112 yards.

"That offensive line took care of me," "It's great, great, great bunch."

The game meaningless to championship as Baylor Coach Gra whose Bears v championship last; he was happy to find victory.

"I was very pleased our young men to come from the kind of had last week that of zip out of then said. The Bears Southern Methodist the last minute of pi Baylor finished t with a 3-6-2 record mark in conference Rice finished with:

Hicks On Cloud 9

HOUSTON (AP) — Personal satisfaction was about all that could be gleaned from Baylor's 25-7 Southwest Conference football victory over Rice Saturday, but Baylor's Bubba Hicks and Cleveland Franklin got plenty of it.

Hicks kicked four field goals including an SWC record-tying 60-yarder and Franklin came back late in the game despite two knee injuries to break Baylor's single-season rushing record.

"I'm on cloud nine and I'm just thankful that I had a good last game," said Hicks whose 60-yarder tied the SWC record set in 1970 by Arkansas' Bill McClard. "It means a lot to me. On the blocked field goal we got a bad snap which delayed the timing and a guy got outside and hit it."

Hicks referred to a missed 59-yard attempt in the fourth quarter that would have given him the SWC record for most field goals in one game.

Franklin, who entered the game needing 40 yards to set the Baylor one-season rushing record, twisted his right knee on the first play of the game and later hyper-extended his left knee early in the second quarter. But he returned in the game's final minute and finished with 48 yards to set a school rushing record of 1,112 yards.

"That offensive line really took care of me," he said. "It's great, great... they're a great bunch."

The game was meaningless to the SWC championship race, but Baylor Coach Grant Teaff, whose Bears won the championship last year, said he was happy to finish with a victory.

"I was very pleased with our young men to come back from the kind of defeat we had last week that took a lot of zip out of them," Teaff said. The Bears lost to Southern Methodist 34-31 in the last minute of play.

Baylor finished the season with a 3-6-2 record and a 2-5 mark in conference play. Rice finished with 2-9 and 1-6

marks. Rice Coach Al Conover, who also closed out a frustrating season said: "What can you say? We didn't have enough to play (because of injuries) and the ones who did play didn't play hard enough."

Cougars Finally Win Out

HOUSTON (AP) — Angry, frustrated Houston broke an eight-game losing streak with a 42-30 season-ending victory over Tulsa Saturday night, inspired by touchdown passes of 13, 18 and five yards by quarterback David Humann who was getting his first start of the season.

Humann, a senior playing his final college game, hit Eddie Foster for a 15-yard touchdown play in the first quarter and threw 18 yards on the same slant in pattern to Robert Laverne for another score in the second quarter.

The Hurricane pulled to a 30-23 deficit in the third quarter on a 52-yard touchdown pass from Ronnie Hickerson to Steve Largent and a 53-yard run by Ricky Watts.

But Humann uncorked his third touchdown pass, a five-yarder to freshman running back Randy Love with 12:59 left in the game, to keep Houston ahead in the wild second half. But that did not end the frantic scoring pace. Watts twisted and scratched 33 yards for Tulsa's final score with 4:54 left in the game, climaxing a 97-yard drive that took only seven plays. The Cougars came right back and drove 80 yards in four plays and Daryl Thomas scored on a 24-yard run with 3:24 left. Humann was tackled trying to pass for the top point conversion.

Miners Stay Undeclared

EL PASO, Tex. (AP) — The University of Texas at El Paso, behind the sharpshooting of Gary Brewster, blew past Midwestern State University here Saturday night, 75-54.

Brewster, 6-8 forward, scored 18 points in the initial half and led the Miners to a 46-23 halftime advantage.

The Indians of Midwestern were able to stay with Miners for about five minutes and then UTEP steadily pulled away. Brewster led all scorers with 22 for the night. Gary Blount hit 14 for the Indians with LeRoy Shaw and Herbie Brisbane each adding 12.

UTEP is now 2-0 on the year and Midwestern slipped to 2-2.

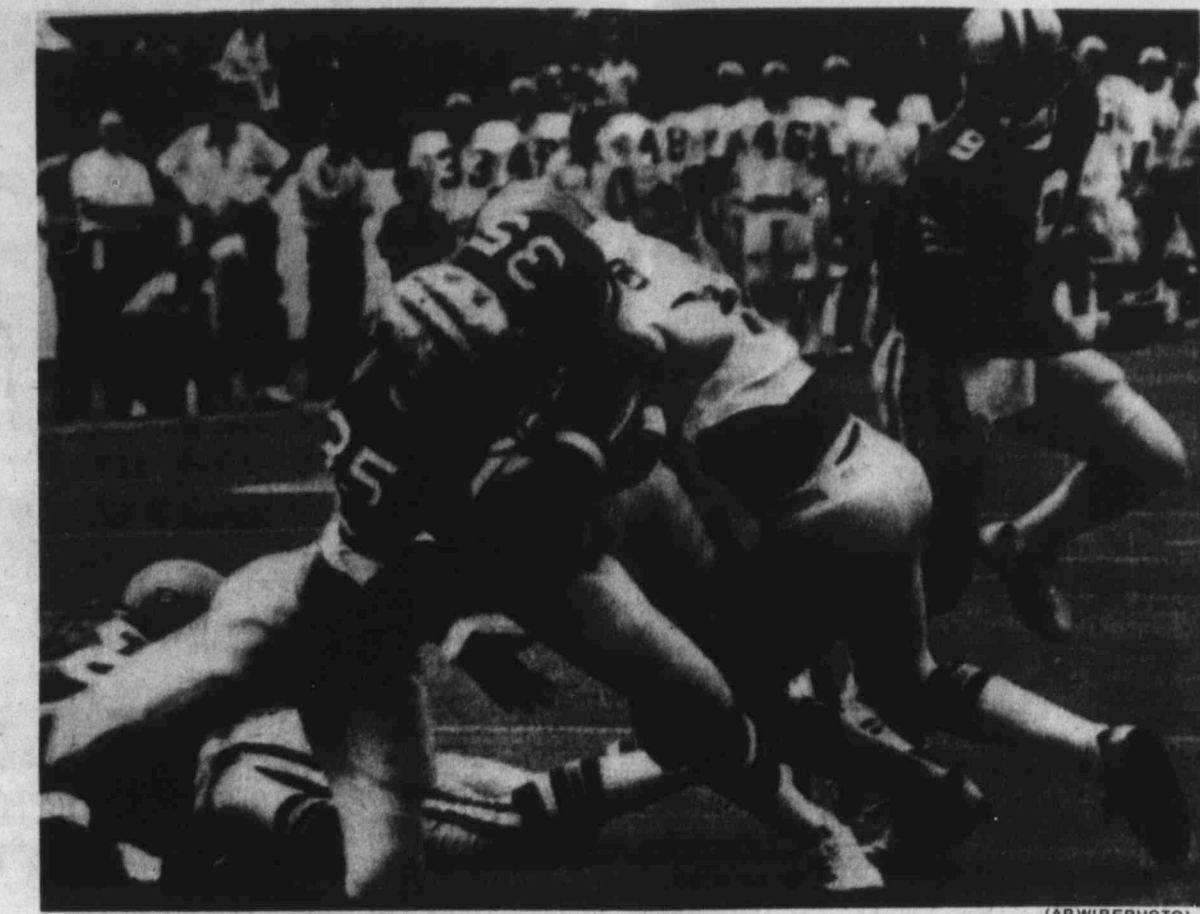

Livingston Headed Toward Pioneer At Wichita Falls

By The Associated Press
Wittenberg, going after its second title in the last three years, and Itasca, which narrowly lost in the championships a year ago, will clash next Saturday for the National Collegiate Athletic Association Division III title.

In Division II play, Western Kentucky, New Hampshire, Northern Michigan and Livingston, Ala., advanced to the semifinals with victories Saturday.

Freshman Dave Merritt bolted for touchdowns of 64, 5 and 25 yards while piling up 151 yards rushing as eighth-ranked Wittenberg crushed Millsaps 55-22 Saturday. The victorious Tigers held Millsaps to just four yards rushing as they rolled to a 55-0 lead before the Majors tallied three late touchdowns.

Itasca, which lost the title game to Central Iowa 10-8 last year, was sparked by quarterback Jerry Boyes and Halfback Dave Pitzer in a 23-14 victory over Widener Saturday. Boyes rushed for 123 yards on 21 carries and

RICE TOUCHDOWN — Rice University's fullback Billy Neal, 35, cracks outside his left tackle from the one yard for a touchdown in the first quarter of the Southwest Conference game at Houston Saturday. Baylor University's Gary Johnson, 78, and Tim Black, 60, tried to stop the touchdown.

Bears Salvage Frustrating Season With 25-7 Rice Win

HOUSTON, Tex. (AP) — Baylor's Bubba Hicks kicked four field goals including a record-tying 60-yarder and freshman Steve Howell gained more than 100 yards Saturday to help the defending Southwest Conference champions Bears salvage a disappointing season with a 25-7 victory over Rice.

The Bears, who wrapped up the SWC title by defeating the Owls last year, fell behind 7-0 on a one-yard touchdown run by Rice's Billy Neal in the first quarter before Hicks, a senior from Waco, started his kicking sideshow.

Baylor, which lost three fumbles in the first 8:34 of the game, tied the score late

in the first quarter on a one-yard burst by quarterback Mark Jackson.

Hicks then put the Bears into the lead for good early in the second quarter with his 60-yarder, which tied the SWC record set by Arkansas' Bill McClard in 1970 against Southern Methodist.

Hicks added field goals of 27, 19 and 34 yards in the second and third quarters to tie the SWC record for most field goals kicked in one game. He shares the record with Texas Christian's Bruce Alford and Texas Tech's Don Grimes.

Jackson tacked on a nine-yard touchdown pass to tight end Sam Harper midway through the fourth quarter. The touchdown was set up by a 46-yard interception return by Baylor's Michael Nelms, who also picked off two other passes by Rice's Tommy Kramer.

Howell became the first Baylor freshman runner to gain 100 yards in a game. He replaced starter Cleveland Franklin, who left early in the second quarter with a knee injury, but then returned in the game's final minute to set a Baylor one-season rushing record.

Rice closed its season with a 2-9 record and 1-6 conference mark. Baylor finished with a 3-6-2 season record and a 2-5 mark in conference play.

Howell finished the game with 135 yards on 29 carries in relief of the injured Franklin.

Franklin had 30 yards on five carries when he left the game. Baylor officials said he likely would not return but, in the final minute, Franklin came back to gain 18 more yards to finish with 48 yards for the game and

NMMI Shocks Western Texas

ROSWELL, N.M. — New Mexico Military Institute bounced Western Texas College from the ranks of the unbeaten here Saturday night in the finals of the Wool Bowl Basketball Tournament, 71-56.

NMMI remains undefeated at 6-0 while Western stands at 5-1.

Fighting to keep up with the St. Louis Cardinals in the tight NFC Eastern Division chase, Dallas (7-3) hosts the New York Giants today at 1 p.m., in Texas Stadium.

The contest will be telecast regionally by CBS, though, Dallas is to be blacked out.

Last week, the Cowboys stopped Philadelphia 27-17, while the Giants lost at Green Bay, 40-14. Bill Ansperger is in his second season at New York, where his record stands at 5-19.

Steve Ramsey will fill Charley Johnson's starting quarterback role when the Broncos bump into San Diego at Denver today. Johnson of Big Spring has been sidelined because of a sternum injury picked up in the Atlanta contest.

The Chargers are 0-10, while Denver stands at 4-6. Denver won an earlier season contest over San Diego, 27-17.

When game wardens check hunting camps the most frequent violation they come across is failure to properly tag deer and turkey.

And one of the most common excuses they hear is "Well, I've got a hunting license, I was going to get around to tagging my deer before we went back to town."

Good intentions — and wardens like to think most hunters have good intentions — don't count. They are obligated to write a citation if they find deer or turkeys which are not properly tagged.

Since the season opened Nov. 15, Park & Wildlife Department wardens across the state have filed some 248 citations for failure to properly tag deer. Such violations can carry up to a \$200 fine.

When an automobile collision appears unavoidable, top Winston Cup NASCAR driver Bobby Isaac offers the following advice: "Get a firm grip on the steering wheel and hit the brakes."

Isaac, who holds 37 Grand National victories, said, "The average motorist probably suffers the most injuries when his hands are jolted from the wheel by the impact of an accident. Without something to hang onto, the driver flops around the inside of the car which tends to cause injury to his head or arms."

"By getting a strong grip on the wheel, a driver has a better chance to survive without injury, and the firm grip also allows him to remain in control of his car should it continue to travel after an accident."

ABC Sports and the NCAA have signed a two-year contract for exclusive coverage of college football during the 1976 and 1977 seasons, Roone Arledge, president of ABC sports announced.

ABC Sports has aired college football for the past 10 consecutive years and had a 20 per cent increase in its viewing audience during the 1975 football season.

The new contract includes coverage of 13 national and 28 regional appearances with each market receiving 20 games during the '76 and '77 seasons. Coverage of all three NCAA divisions is included.

NCAA members had been limited to three basic appearances over a two-year period. The new contract permits a college to have four basic appearances. The pact also permits ABC to continue scheduling telecasts under the "special exception" clause of the NCAA TV plan, which permits a college to appear on the series five times during the two-year period.

WHAT'S IT WORTH DEPARTMENT — Big Spring's Jerry Knoepfel, University of Texas-El Paso safety, finished fourth for the season in Miner individual defense totals, 285. Linebacker Hal Barnett was tops with 485.

LAST KICKOFF FOR SHUG — Auburn Univ. football coach Ralph "Shug" Jordan, left, and Alabama coach Paul "Bear" Bryant chat on the sideline before Saturday's game in Birmingham. Jordan will end his days as a coach with this game. He has been head coach at Auburn for 25 years.

Jordan's Last Game Ends Unhappy, 28-0

BIRMINGHAM, Ala. (AP) — Richard Todd ran for two touchdowns and threw passes for two more Saturday as fourth-ranked Alabama smashed Auburn 28-0 Saturday, spoiling the coaching finale of Ralph "Shug" Jordan.

Todd brought his team's lethargic attack to life in the second half with three long scoring drives as the Sugar Bowl-bound Crimson Tide

won easily after a poor start. Todd scored on runs of 33 and 14 yards in the third quarter, fired a 17-yard touchdown pass to Jerry Brown in the first quarter and closed the scoring with a 24-yard toss to Ozzie Newsome in the final quarter.

The victory in the nationally-televised game was the 10th straight for Alabama since an opening 20-7 loss to Missouri. It gave the Tide an unprecedented fifth straight Southeastern Conference title and tied a record of 20 straight conference victories set by Tennessee 35 years ago.

Jordan, who announced before the season started that his 25th year would be

his last, ended with one of the poorest seasons of his career, 3-6-2.

Derby Remains In Contention

LONDON (AP) — Derby rallied from a two-goal deficit and beat Middlesbrough 3-2 Saturday and kept the lead in the race for the English soccer championship. Archie Gemmill scored the winning goal with nine minutes remaining.

Derby has 27 points from 19 games, one point ahead of the Queen's Park Rangers and West Ham. The Rangers topped Stoke City 1-0 and West Ham defeated Arsenal. Norwich upset Liverpool, another strong contender for the title, 3-1.

WITH OPEN ARMS — Auburn's Bill Cunningham, 25, greets Univ. of Alabama's Johnny Davis, 38, with open arms to end a 13 yard run by the Tide back in the 1st quarter of Saturday's game in Birmingham. The run was in the Tide's 1st scoring drive.

FIFTH TIME

Orr Out

BOSTON (AP) — The superstar career of Boston Bruins defenseman Bobby Orr was interrupted for a fifth time by knee surgery Saturday. It was the second time this season Orr had been put through surgery on his left knee, and it is expected to idle him at least seven or eight weeks.

Don Cherry, coach of the National Hockey League team, said "if anybody can come back, I know Bobby can." Cherry was reached at his hotel room in Chicago, where the Bruins were to face the Black Hawks Saturday night. "I'm just sick about the whole thing," he said of the lightning chain of events which had Orr on the team plane to Chicago Friday afternoon and under the surgeon's blade in Boston less than 24 hours later.

The coach said "there was no indication at all" that Orr was skating with torn cartilage in his left knee when he scored a goal and set up another Wednesday night in the Bruins' 6-4 victory over the New York Rangers. "That game in New York was actually the best skating game of the 10 since he's been back," said Cherry. "I really didn't know anything about it until he came to me on the airplane Friday."

Orr's complaint was a recurring pain in his left knee, which had undergone three of his previous four operations since the defenseman's career began in the 1966-67 season. Cherry suggested Orr get off the plane, which was moments from taking off, and visit Dr. Carter Rowe.

By noon Saturday, Rowe had completed the surgery—casting question marks on the future of the 27-year-old Orr who has won the league's Norris Trophy as top defenseman for the last three years and owns every major NHL award, including leading scorer.

Russians Close Out Game Tour

WICHITA, Kan. (AP) — The Russian basketball team went home Saturday after beating some of America's finest college squads, tasting turkey for the first time and hearing their coach predict the United States would regain the Olympic championship.

The coach, Vladimir Kondrashin, and his players also devoured a lot of pumpkin pie and pizza.

The Russians closed out their 14-game tour Friday night, edging Marymount College 78-75, giving them a 9-5 record. They couldn't cope with such ranked teams as No. 1 Indiana, No. 3 Maryland, No. 4 Marquette, No. 5 North Carolina and No. 17 Providence.

In a sense, they saved the best for the last. It was in Salina, Kan., that the Soviets got a taste of home. They saw seven inches of snow and experienced temperatures that dipped to zero. And they saw the flat wheat fields, all of which reminded them of their native land.

The first glimpse of the snow caused Mikhail Selantev to shout, "Siberia! Siberia!" Selantev's home is in

Siberia, where the mercury occasionally tumbles to 50 below zero.

What will the Russians remember most about this trip besides beating such U.S. basketball powerhouses as 7th-ranked Notre Dame and No. 12 Alabama?

To a man, they agreed. It was the turkey, the pizza, the pumpkin pie and those places that Americans referred to in the past as the dime stores.

Most will remember, too, the parting prediction of Kondrashin: "The U.S. will win the 1976 Olympics. Yugoslavia will be second and Russia third."

The Russians went wild shopping. Even a few hours before Friday night's game, they still were in it in Salina, a town of around 39,000. They also visited the Eisenhower Museum at Abilene, Kan.

They made the trip without an interpreter. A couple of the Russians speak a little English, including Ivan Edeshko, who scored two baskets in the final 15 seconds for a 63-62 victory over Alabama, and Vladimir Arsamaskov.

The tour's best crack came at Marquette, where the game began at 12:01 a.m. and was witnessed by a sellout crowd of 11,500.

Asked if they had ever heard of Marquette Coach Al McGuire, one Russian replied: "Is that the basketball we're using tomorrow night?"

The tour was taken mainly to develop the country's younger players. The Russians will begin preparations immediately to defend the Olympic championship they won in Munich in 1972 by beating the United States.

Can the Russians do it again despite the prediction of Kondrashin, who coached them in 1972 and has won three international championships in the past five years?

Don't bet they can't. A spokesman said, "Five or six world calibre players at home were unable to make the trip."

Smallest Crowd Ever Sees Navy Mop Army

PHILADELPHIA (AP) — Special team players Jeff Hoobler and Bob DeStafney set up first half touchdowns Saturday that fired Navy to

its third straight victory over Army, a 30-6 thumping before 81,576, the smallest crowd ever to see the service classic at 100,000-seat John

F. Kennedy Stadium. Navy's seventh triumph of the season, the most for the Middies since the 1963 Cotton Bowl team won nine games, never was in doubt after senior Larry Muczynski's 27-yard field goal gave them a 3-0 lead midway through the first period.

Coach George Welsh's future Naval officers got 17 points in the second quarter on the first of Bob Jackson's two short touchdown runs. DeStafney's 42-yard run with a blocked punt and Muczynski's 31-yard field goal. Johnson finished with 133 yards on 25 carries.

Welsh went to his bench early in the second half in an apparent effort not to embarrass the outclassed Cadets, who lost their ninth straight game of the season after winning the first two. Army's lead in the 76-game series melted to 36-34, with six ties.

Even with the second and third unit players on the field much of the final two periods, Navy added to its total on a 28-yard field goal by Muczynski, and Jackson's two-yard touchdown.

ARMY STOPPED — Greg King 43, of Army is stopped by Navy players, within a few feet of Army's goal line during annual Army-Navy football game in Philadelphia Saturday. On the next play Army scored their only score of the game. King is from Fort Meade, Fla. Navy won 30-6.

Tech Defeats Kansas State

LUBBOCK, Tex. (AP) — Rick Bullock scored 32 points, pulled down 9 rebounds and blocked 2 shots in leading Texas Tech to a 66-58 victory over 14th-ranked Kansas State in the opening college basketball game of the season for both teams Saturday night.

Bullock was the only player in double figures for the Red Raiders, who showed a balanced offense with seven other players hitting the nets.

Kansas State had four players in double figures, led by guards Mike Evans with 20 and Chuckie Williams with 13.

The Raiders took the lead for keeps with 2:50 left in the first half when Bullock drove for a layup and held a 37-32 lead at halftime. The Raiders opened up a 13-point lead early in the second half and then traded baskets through the rest of the game.

LEAGUE'S FUTURE IN DOUBT St. Louis Discusses Franchise Merge

SALT LAKE CITY (AP) — Two officials of the St. Louis American Basketball Association team came here Saturday to continue discussions aimed at merging the club with the Utah ABA franchise.

The attempts to combine the two financially weak franchises were seen as an effort to keep both of them from folding. Officials of the two clubs were expected to meet Saturday, but no announcement was anticipated.

Bill Orwig, general manager of the Utah Stars, confirmed Saturday that discussions have been going on between the Stars and the Spirits of St. Louis for about a week. He said Stars owner Bill Daniels had been seeking local investors for the possible merged team, which would remain in Utah.

Orwig said in a telephone interview that he was waiting to hear from Spirits officials. Two Spirits owners—Ozzie Silna and Don Schupack—were in Salt Lake City, according to other team officials.

Meanwhile, Harry Weltman, president and

general manager of the St. Louis team, said he was disappointed at the crowd of 4,176 at the Spirits' game Friday night. The team plays in a facility that holds 19,000 and is averaging less than 2,500 persons per game.

Silna was quoted in St. Louis as saying Friday, "It is possible we'll make a decision after tonight's game." He could not be reached after the game for comment.

Merger of the two clubs would reduce the ABA to seven teams.

Two ABA teams — Baltimore and San Diego—have folded since Oct. 15, throwing 22 basketball players out of work and throwing the league's future into doubt. Merger of the Utah and St. Louis clubs would cost another 11 players their jobs.

The Utah team nearly folded 10 days ago when club officials said they didn't have the necessary funds to meet the payroll. The money was found, however. And the St. Louis team lost between \$1.5 million and \$2 million last year when it had better attendance and a lower

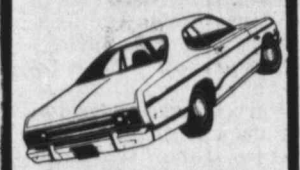

payroll than it has this year. Another ABA team, Virginia, nearly missed a payroll two weeks ago. And talks are still going on there in attempts to put together a financial package which would keep the team going through the season.

The initial report that a St. Louis-Utah merger was being discussed came from The Salt Lake Tribune, which quoted sources as saying the move was contingent on Salt Lake City business interests raising \$600,000 by Saturday. The paper said the surviving team would be owned 70 percent by St. Louis interests, 20 percent by Daniels and 10 percent by local investors.

Orwig declined to discuss specifics of the merger talks, and there was no way to tell on Saturday if the money had been raised.

A spokesman for the broadcast arm of the Church of Jesus Christ of Latter-day Saints (Mormon) declined comment on a television news report that the firm, Bonneville International Corp., had offered to invest \$100,000 in the team.

Hawks Completely Bewilder Cowboys

By CLARK LESHNER
Howard College Head Coach Harold Wilder's recognized "run and gun" pattern worked so well as the Hawks completely bewildered Hardin-Simmons JV, winning 128-93, here Friday night.

The small crowd in attendance was no doubt contributed to the national telecast of the UCLA-USC football contest.

HC has now extended its winning formula to six in a row as well as going over the century figure seven times.

The Hawks are 9-1 for one month's work.

Marvin "Cowboy" still holds the lead role in the Hawk scoring, all games played, zeroing in for 28 points, tying his second lowest output for the season.

Johnson, though, was hard-pressed by his partner Larry Erves, forming a hard-core one-two punch, canning 24.

The Hawks had the game so well planned from start to

finish that the entire 15-man roster saw considerable time on the court.

Erves' alertness enabled the Hawks to start off fast, and when Johnson finally found the floor range at 11:53 of the first half, no thoughts were left as to who would be the winner.

At halftime, HC was way out in front, 64-47. Daryl Scoggin, had the honor of collecting the Hawk 100th point, second straight game. The 6-6 first-year post-man showed late poise which

earned him 16 points.

A Scoggin field goal also gave HC its biggest point margin over HSU, 109-69.

With HSU only bringing six players for the game, the five foul limit by mutual agreement was not enforced as Howard Henderson and Glen Wrap went one over.

Jerry Williams led Cowboy scorers with 24 points and Wrap, only one behind, 23.

The Hawks will now devote time to the Western Conference, except for the ABC Classic, starting Monday, hosting New Mexico Military Institute.

IT'S MINE — Howard College's Harold Johnson holds possession of the ball as he is closely guarded by Hardin-Simmons JV's Jerry Williams. The Hawks raced to their sixth straight win here Friday night, 128-93.

DUSTER REPORT Statistics Not Always Helpful

The Webb AFB Dusters season record may not show any improvement this week, but statistics don't always tell the story.

Player-coach Curtis Marshall and the rest of the Webb cagers, returned from the road trip with high hopes of turning their season around, despite the two disappointing losses last weekend that dropped them to 0-8 on the season.

In the San Antonio tournament, the Dusters suffered an opening round loss to Saldanas Foods, 113 to 97 and a loser's bracket game to Air Training Command title contender Lackland, 110-92. Although dropping both contests, they were by far the best showing by the Dusters this year.

In double figures as the base squad neared the century mark for the first time this season.

Just how much the Dusters, who averaged only five turnovers in each of last weekend's games, have improved, may be seen here. The Dusters will host the Reese Rattlers at 7 p.m., Dec. 6 and at 1 p.m. on Dec. 7.

Both games are open to the public and there is no admission charge.

Hill Believed Aboard Plane That Crashed

LONDON (AP) — British race car driver Graham Hill, the 1966 winner of the Indianapolis 500 and a two-time world champion on the European Grand Prix circuit, was listed as being aboard a small airplane which crashed near here Saturday night, killing all aboard.

Police said all six persons aboard the plane were killed. But they said they could not confirm that one of them was Hill because, while he was listed as being aboard, the bodies were burned beyond immediate recognition.

Police officials said Hill, 46, a top driver for a decade in Formula 1 cars, was supposed to be aboard the Piper Aztec which was making an instrument approach to a small airfield near London.

Registered Boats Near Half Million

AUSTIN — The number of boats registered in Texas is rapidly approaching the half-million mark.

Boat registrations at the Parks and Wildlife Department as of Oct. 31 totaled 486,154.

According to P&WD official John Ebell, most of those registered are less than 16 feet in length — 324,461. In the 16 to 26-foot classification, Ebell's records show 156,427 boats registered. There are 5,557 boats from 26 to 40 feet long and only 689 from 40 to 66 feet in length.

The Texas Water Safety Act requires that each boat powered by an engine be registered with the Parks and Wildlife Department.

Tight Race Indicated In Western Struggle

ABILENE — The Western Athletic Conference opens its play for keeps Monday night and indications are it won't be a one-team race like it was a year ago.

Western Texas College of Snyder went through the

campaign without a loss — a rarity in itself. But the Westerners may have been one of the best junior college team in Texas history as they went on to win the national championship.

Coach Mike Mitchell's

cagers were undefeated going into Thanksgiving weekend play, but so were Amarillo, the pre-season favorite, and New Mexico Military Institute.

Also to be reckoned with is Howard College, which has lost only one game, to strong College of the Mainland by a point.

Marvin Johnson of Howard College is averaging over 33 points a game for the Hawks after the first nine games. Amarillo has good balance as Darrell Hollimon averaged 22 points, Alonzo Campbell 20 and Mike Creighton 18 after the first four outings.

And South Plains has been impressive, too. It won five of its first seven games, losing to strong Navarro and McLennan.

Odessa's only loss was that 10-pointer to Howard College going into last week.

But Monday, the past is forgotten, Amarillo goes to Midland to welcome that college into the conference, while Western Texas opens its title defense at Clarendon. Frank Phillips goes to New Mexico Junior College, Howard College hosts NMII in the feature game and Odessa hosts South Plains.

NMII has one of the most impressive wins, whipping Seminole JC, 75-69. Seminole usually is highly regarded nationally.

Sports Shorts

LONDON, Ont. (AP) — The heavily guarded penalty box at London Gardens was the scene of a crime just prior to Friday's Ontario Hockey Association Major Junior A game between the London Knights and Kingston Canadians.

Concerned league officials have insisted on extra police protection in the penalty box area since fighting erupted between fans and visiting players at games earlier in the season.

But unnoticed by police, someone managed to steal a pair of pucks from the penalty box, delaying the game for several minutes while officials looked for a new supply.

NEW YORK (AP) — The Metropolitan Amateur Athletic Union conducts the first of three development track meets next Friday night, opening New York's indoor track and field season.

Three meets are scheduled in Madison Square Garden with the first one the Wanamaker Millrose Games Jan. 30. The others are the U.S. Olympic Invitational on Feb. 20 and the AAU national championships Feb. 27.

NEW YORK (AP) — Dave McAvoy and Ed Backus have been elected captains of the 1976 Columbia University football team, it was announced today.

McAvoy is a wide receiver and Backus a defensive back. Both are juniors.

HARTFORD, Conn. (AP) — Mike Byers, a veteran World Hockey Association right wing, was given his unconditional release Friday night by the New England Whalers.

Byers had four goals and three assists in 17 games this season and General Manager Coach Jack Kelley said he was unhappy with his performance.

Byers, 29, had been placed on waivers but was not claimed by any WHA team for the \$100 waiver price.

CHARLOTTEVILLE, Va. (AP) — A heart attack has claimed the life of Louis A. "Lou" Onesty, 67, track and cross country coach the last 22 years at the University of Virginia.

Onesty, survived by his widow, Mrs. Margaret Mitchell Onesty, and a son, Louis A. Onesty Jr., collapsed and died Friday while working at his home.

Funeral arrangements are incomplete.

A 1931 graduate of the University of Richmond, Onesty was a three-year letterman in track and basketball and was captain of the track team.

African Open Singles Champ

JOHANNESBURG, South Africa (AP) — Annette du Plooy of South Africa beat countrywoman Brigitte Cuypers 6-2, 3-6, 6-4 in the singles final of the South African Open Tennis Championships Saturday.

For Mrs. du Plooy, 30, it was a remarkable comeback to tennis in winning the title she held 12 years ago.

Miss Cuypers, 19, put up a strong battle, but she couldn't overcome the sixth-seeded Mrs. du Plooy. The winner scored well with drop shots against the ninth-seeded Miss Cuypers.

Eagles Manage To Pull Out 16-15 Decision Over Buffs

DENTON, Tex. (AP) — North Texas State running back Sears Woods scored two touchdowns in the fourth quarter as the Eagles came from a 15-0 halftime deficit for a 16-15 college football victory over West Texas State University Saturday.

Woods' second touchdown from one yard out capped a 59-yard drive by North Texas and brought the Eagles to a 15-15 tie with 2:41 remaining in the game. Leed Khoury converted the extra point for

the victory.

The victory gave North Texas a 7-4 season record, their best since 1969. WTSU finished at 5-6 for the season.

West Texas scored all of its points in the first period as North Texas punter Don Fechtman had trouble with the wind.

One of Fechtman's punts went for minus nine yards as the gusty 35 miles per hour wind caught the ball in the air and sent it back to the Eagle 16. On the next play,

halfback Bo Robinson blasted up the middle for a West Texas touchdown.

Bruce Wyre also kicked field goals of 52 and 27 yards in the first quarter for the Buffaloes. They also got a safety when North Texas cornerback J.T. Smith intercepted a pass at the four and was tackled in the end zone.

North Texas cut the margin to 15-3 as Khoury kicked a 47-yard field goal in the third quarter. The Eagles got their first touchdown on the first play of the fourth quarter on a three-yard run by Woods.

Pan American Starts Off With 75-68 Cage Victory

FORT WORTH, Tex. (AP) — Marshall Rogers and Gilbert King paced Pan American University to a season-opening 75-68 college basketball victory over Texas Christian here Saturday night.

Rogers hit 22 points and King added 20. Chuy Guerra added 12 for the winning visitors.

Gary Landers took scoring honors for the Horned Frogs with 18 points, while Lynn Royal added 12.

Pan American led by as many as 18 points in the first half, but TCU closed to within six with three minutes left. However, the Broncos went into a delay game in the second half to preserve the victory.

TROJANS DROP FOURTH IN ROW

Bruin Defense Stout

LOS ANGELES (AP) — UCLA has given Ohio State something to think about. Now all Woody Hayes has to do is figure out what it is.

The 14th-ranked Bruins earned a place in the Rose Bowl for the first time in a decade and a rematch with Ohio State with a tense 25-22 victory over Southern California despite an incredible 11 fumbles.

same league mark as California. But the Bruins defeated Cal earlier and earned their first appearance in the New Year's Day Classic since Jan. 1, 1966 by winning their last three

games of the season.

The Buckeyes whipped UCLA 41-20 earlier this season although there were some bright spots for the Bruins. For example, no one else has scored three touch-

downs against the Buckeyes this fall.

Southern Cal, bound for the Liberty Bowl with a 7-4 mark, got 286 yards total offense against the Bruins — 136 of it on the ground by Ricky Bell, who finished the regular season with 1,875 yards — six short of Ed Marinaro's NCAA single season record.

"I really thought we played our best game of the season," said Bell. "It wasn't good enough, though, was it?"

It was John McKay's final Los Angeles game as USC coach, and his fourth consecutive defeat since announcing he would join Tampa in the National Football League. In his 16th season at Southern Cal, McKay had never before lost four in a row at the school.

"A lot has been made of our losing streak since I announced I was going into professional football," McKay said. "I don't think it was such a big deal. I just thought this team was better than it is; I guess it isn't."

McKay shook his head about all the UCLA mistakes and the Trojans' inability to take advantage of them, then concluded:

"UCLA must be awfully good if they can beat us fumbling 11 times."

Sciarras, who ran for 85 yards and passed for 86, said the Bruins seemed to become more tense in the second half, when eight fumbles occurred, even though they led 18-14 at halftime.

Sciarras said it all proves how good UCLA really is.

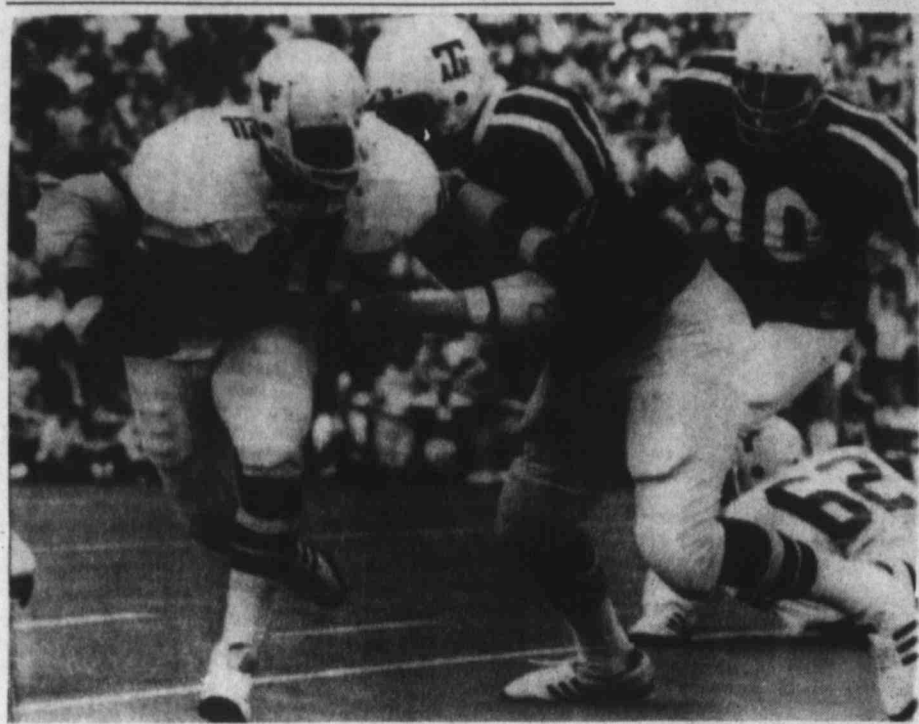

SCRAMBLES TO VICTORY — UCLA quarterback John Sciarras (15) scrambles away from a USC defender and heads down field for a six yard gain during section Friday night in Los Angeles. Sciarras led the Bruins to a 25-22 victory which gave them a ticket to the Rose Bowl where they will face Ohio State.

Cougars Face First Losing Season In 11

HOUSTON (AP) — For the past decade, University of Houston football fans have gloated about how their Cougars would do against Southwest Conference competition.

They pointed to Bill Yeoman's 87-46-6 record and the veer option offense he developed into one of the most prolific ground-gaining alignments in the game's history.

The Cougars set an NCAA record 562 yards per game average in total offense in 1968 and have consistently finished among the top 20 ranked teams in the nation.

Comparing the Cougars to SWC competition heightened in 1971 when Houston was

admitted to the SWC and fans eagerly awaited the 1976 season, the first in which the Cougars would compete for football championship.

Suddenly, 1976 is almost here and the Cougars, after posting an 8-3 record in 1974 and battling North Carolina State to a tie in the Astro-Bluebonnet Bowl, are faced with their first losing season in 11 years.

Houston's offense, in years past synonymous with eye-popping yardage statistics, has dropped back to normal standards and their record dropped to 1-8 going into Saturday night's finale against Tulsa.

Yeoman describes the Cougars' downfall in one word — youth. There are 16 freshmen on Houston's first two units. Donnie McGraw was the only senior to start

on offense in the UH final game.

Not being able to hold onto the football has been another cause for the Cougar offense to sputter to 333 total yards per game. Houston has fumbled 47 times in nine games and lost 29.

"We've contributed greatly to our demise," Yeoman said. "Not to discredit our opponents, but we've never been so generous in our history."

Last week's 33-22 loss to Florida State, which had won only two games, was typical of Houston's fumbling. The Cougars lost four of six fumbles.

Houston's demise has caused at least one starter, often tackle David Brooks, to quit the team and others may have thought about it. But freshman tackle Theodis Williams, who sees brighter days ahead in trying to keep the team together.

"Some of the guys have wanted to quit," Williams said. "But we won't let them — me, David Hodge, Robert Oglesby, Chuck Brown and Sammy Privett."

"We don't know each other that well yet but we should win seven or eight games next year and we could have a super team the year after that."

Yeoman is hoping Williams' optimism is contagious.

Tourney Outlined

GARDEN CITY — Competition gets under way at 8:30 a.m., next Thursday in the Annual Garden City Invitational Basketball Tournament.

The meet, in which boys and girls contingents will take part, continues through Saturday night with championship games scheduled at 6:30 p.m., and 8 p.m.

Consolation round and third place winners will also be determined in each bracket.

Boys' pairings: Irion County vs Eldorado, 10 a.m.; Grandfalls vs Rankin, 1 p.m.; Iraan vs Hermleigh, 5 p.m.; Reagan County JV vs Garden City, 8 p.m., all on Thursday.

Girls' pairings: Irion County vs Stanton, 8:30 a.m.; Grandfalls vs Rankin, 11:30 a.m.; San Angelo Lake View vs Hermleigh, 3:30 p.m.; Reagan County JV vs Garden City, 6:30 p.m., all games on Thursday.

Consolation finals will be at 11:30 a.m., and 1 p.m., Saturday. The third place contests will be unreeled at 2:30 p.m., and 4 p.m., Saturday.

EXHIBITIONS: Florida 101, Athletes in Action 62; Yugoslavian Nationals 78, Brigham Young 75; Soviet Union 78, Marymount, Kan. 75.

Kent State Falls Down

SOUTH BEND, Ind. (AP) — All-American forward Adrian Dantley scored 25 points Saturday to lead seventh-ranked Notre Dame to a 90-61 college basketball victory over Kent State in the season opener for both teams.

Dantley, the nation's second leading scorer last year, was held to 10 points in the first half by an aggressive Kent State zone defense that weakened when fouls began mounting against the Golden Flashes.

Cortez Brown led Kent State with 19 points while carrying four fouls through most of the game. He fouled out with three minutes to go, one of three Kent State players to draw five fouls.

Held to a 38-31 lead at the half, the Irish penetrated Kent State's zone defense in the final period to roll up 52 points.

Brask Shares Classic Lead

CHRISTCHURCH, N.Z. (AP) — Bill Brask Jr. of San Diego, alone in the lead after two rounds of 69, soared to a 74 Saturday for a 54-hole total of 212 and shared the top spot with charging Hal Underwood of Del Rio, Tex., in the \$25,000 Otago Charity Golf Classic at St. Clair Dunes.

GRIESE LEAVES HOSPITAL — Bob Griese, Miami Dolphins quarterback, his foot in a cast after an operation for his injured big toe, leaves Marcy Hospital at Miami, Fla., Saturday. Griese said he was probably out for the season.

(AP WIREPHOTO)

DALLAS TRIP STILL COULD BE SIDETRACKED

Aggies Pin Longhorns

COLLEGE STATION, Tex. (AP) — University of Texas Coach Darrell Royal hopes Texas A&M wins the national championship and A&M linebacker Ed Simonini thinks the No. 2 ranked Aggies deserve the title after their victory over the fifth-ranked Longhorns.

But Arkansas Coach Frank Broyles, who was a commentator for the nationally televised showdown Friday, still has something to say about the issue. He disagrees with both Royal and Simonini.

The rampaging Aggies moved within one game of an

unbeaten season and their first trip to the Cotton Bowl since 1967 with the 20-10 victory over the Longhorns but they still could be sidetracked on their trip to Dallas.

A&M is 6-0 in the Southwest Conference, but if Arkansas, 5-1, beats the Aggies next Saturday, the Razorbacks will go to the Cotton Bowl.

"I feel we've got the best team," the aggressive Simonini said. "When it comes down to us winning

the next two games, including the Cotton Bowl, I think we are No. 1. I wish there could be a playoff if that happens."

A&M leads the nation in total defense and against the rush. Texas, which entered the game with the leading scoring offense in the nation, was held to 113 rushing yards.

"I would like to see something happen to Ohio State so that if they (Agiess) take care of their business, we would have another

national champion down here," said Royal, whose Longhorns were national champions in 1963.

"We were just more determined today, but this is not over yet," Aggie safety Jackie Williams said. "We still have to beat Arkansas."

A&M quarterbacks Mike Jay and David Shipman participated in A&M's victory. Jay led the Aggies to a 10-7 halftime lead, and Shipman took over in the second half after Jay suffered a back injury.

"I don't know exactly what is wrong with me," Jay said. "But if it is physically possible, I'll be ready for Arkansas. That's what I came here for."

The loss ended Texas' regular season with a 9-2 record but the Longhorns will play in the Astro-Bluebonnet Bowl Dec. 27 against Colorado. They may have to face the Buffaloes without starting quarterback Marty Atkins who re-injured his knee in Friday's game.

The Aggies are assured of at least an SWC co-championship and a bowl berth regardless of the outcome of the Dec. 6 game. The loser of the game will go to the Liberty Bowl.

Morton Knows Poke Defense

DALLAS (AP) — New York Giant quarterback Craig Morton makes his first Texas Stadium appearance Sunday since he was traded by the Dallas Cowboys and former Coach Tom Landry hopes the Giant receivers continue their deep sleep.

Dallas, struggling for a National Football League playoff berth in the National Conference Eastern Division just one game behind St. Louis, was a heavy favorite to hand the Giants their fourth consecutive loss.

New York fell 40-14 to Green Bay last week and receivers dropped seven of Morton's passes.

"It was the worst performance of any team I've ever been associated with," said Giant Coach Bill Arnsparger.

Although Dallas has beaten the Giants twice in New York with Morton at the helm Landry still worries because Morton knows the Cowboy defense so well.

"Craig is very capable and he does know our defensive scheme," said Landry.

The Cowboys also know Morton's weaknesses which include, according to assistant coach Ernie Allen, the inability to scramble away from a rush.

"Craig likes to backup in the pocket, he has a good mind, and can read coverage," said Allen. "But he can't stand a pass rush. He can be trapped because he doesn't scramble well."

Dallas has a wide edge over the Giants in their overall series with a 17-9-2 record but New York has always played well in Texas Stadium, beating the Cowboys there in 1972 and 1974.

The Cowboys stayed on the ground in a 27-17 victory over Philadelphia last Sunday as Roger Staubach effectively mixed Robert Newhouse's runs with short screen passes to Preston Pearson. Staubach was bothered by a sore shoulder which is much better this week.

However, Pearson, the only player on the team who wasn't drafted, was a

questionable starter because of a bruised kidney.

Dallas' defense has surrendered a total of over 100 points in the last four games with dramatic let-downs in the fourth quarter each week.

"We've played so many close games I think it has just become a habit for our defense to letdown when we get far ahead," said Landry. "We've got to start playing consistent defense or I'm afraid we won't make the playoffs."

Dallas was 7-3 and New York 3-7 going into the 1 p.m. CST kickoff before a less than capacity 65,000 in Texas Stadium.

Cuero Hurdles Class Obstacle

By The Associated Press
Cuero won its 43rd game in a row and hurdled another big obstacle on the way to its third consecutive Class 3A Texas schoolboy football title Friday night.

The Gobblers whipped unbeaten Gregory-Portland 9-3 and advanced into next weekend's semifinals against Jacksonville, which beat Rockdale 26-21. Ennis, which beat South Grand Prairie 22-12, will play the winner of Saturday night's Lubbock-Estacado-Pecos game in the other 3A semifinal.

Cuero joined three other top-ranked teams in The Associated Press' final schoolboy poll in the playoff victory column. Class 2A's Cameron slugged McGregor 33-0 and Seagraves of Class A nipped Crowell 6-3 in regional games and Big Sandy of Class B smashed Axtell 55-0 Thursday night in a quarterfinal playoff.

All but two of the Class 4A regionals were to be played Saturday night. The only 4A playoff action saw Dallas Carter oust Fort Worth Eastern Hills 21-13 and Houston Kashmere trun

Houston Lee 42-7 Thursday night.

The defending Class A champion, Grapeland, stayed in the playoffs Friday night by beating Ore City 18-14. Celina, which shared the B title with Big Sandy in 1974, advanced to the semifinals by blanking Gorman 21-0 Thursday night.

Class 4A Regionals: Dallas Carter 21, Fort Worth Eastern Hills 13; Houston Kashmere 42, Houston Lee 7.

Class 3A Quarterfinals: Ennis 22, South Grand Prairie 12; Jacksonville 26, Rockdale 21; Cuero 9, Gregory-Portland 3.

Class 2A Regionals: Childress 21, Olton 8; Elgin 21, Alpine 6; Decatur 35, Kaufman 14; Gladewater 21, DeKalb 14; Cameron 33, McGregor 14; La Grange 35, Hondo 12; Hebbronville 23, Refugio 22.

Class A Regionals: New Deal 13, Sanford 6; Seagraves 6, Crowell 3; Delton 28, Whitney 12; Holliday 19, Princeton 0; Grapeland 18, Ore City 14; Groveton 26, Timpson 8; Schultenburg 25, Brazos Consolidated 7; Falls City 50, Stockdale 0.

Class B Quarterfinals: Groom 24, Jayton 13; Celina 21, Gorman 0; Big Sandy 55, Axtell.

TCL 3A Finals: Dallas Jesuit 28, San Antonio Central Catholic 7.

Area Craftsmen To Display At 4-H Bicentennial Fair

4-H COOKS — Samples of tasty dishes will be offered to shoppers at the 4-H Arts and Crafts Fair by members of the local 4-H clubs. Recipes of the dishes will be offered for 10 cents apiece. Taking a test taste of two of the dishes are, from left to right, Karen Earls, Ronnie Wegner, Lonnie Hodges and Sherri Callihan.

Soon the notices reminding shoppers of the rapid approach of Christmas will begin to appear. Christmas gift buyers only have a week to wait for the 4-H Arts and Crafts Fair cosponsored by the Bicentennial Commission of the Chamber of Commerce.

The fair will be held Saturday from 10 a.m. to 6 p.m. and Sunday from 1-5 p.m. in the Dora Roberts Building at the Howard County Fair Grounds.

The Howard County 4-H Clubs are organizing the crafts fair.

D & M Garden Center will provide a patio setting near the concession stand. A red, white and blue Christmas tree will be featured.

Children attending the fair will be given bicentennial colored balloons by hostesses in old-fashioned dresses.

Artists and craftsmen from Big Spring, Midland, Lubbock, San Angelo, Odessa, Snyder and New Mexico will be displaying their handiwork. Items to be on sale at the booths include oil, acrylic, watercolor, sponge and tile paintings, decoupage, picture frames, macrame, pottery, turquoise jewelry, Indian jewelry, Christmas decorations, wire jewelry, leathercraft, wood carvings, musical instruments, lapidary works, baked goods, gingham and calico prints, antique books and many other types of arts and crafts.

Denver Pettit and his associate, Bill Horton, will demonstrate their hand-crafted violins and will provide musical entertainment for shoppers.

The 4-H clubs will offer a Tasting Corner. Samples of home-cooked dishes will be available. Recipes may be purchased for 10 cents apiece.

A concession stand will feature sandwiches, drinks and baked goods.

Admission to the fair is free. A few booth spaces are available. To reserve a booth or for more information, contact the Howard County Extension Office at 267-6671.

BICENTENNIAL FAIR COORDINATORS — The Howard County 4-H Clubs and the Bicentennial Commission of the Chamber of Commerce are sponsoring the fair. Members of the commission and 4-H adult leaders have been working closely to offer shoppers a variety of

arts and crafts. Pictured from left to right are Mrs. Jeanette Snodgrass, Bicentennial Commission; Mrs. Jeanette Nichols and Mrs. Jacquetta Arbuckle, 4-H adult leaders; and Mrs. Margaret Lloyd, Bicentennial Commission.

PLANNING BOOTHS — Artists and craftsmen are collecting their works to display and sell at the Arts and Crafts Fair. Showing a few of the to be offered items are

Overdue Historical Marker To Honor First Area Settler

By MARJ CARPENTER

Howard County has official designated historical markers at very few locations in a county that is rich in early area history.

The present committee is applying for additional markers and their most recent request is a marker to honor W. T. (Bud) Roberts, first settler in the area in 1877.

The present markers include one in the city park honoring Marcy's route, one in honor of the Old Comanche Trail, one at Moss Creek, one near Forsan honoring the first oil well in the county, Fred Hyer No. 1 and another on the Finch Building constructed in 1882 by the Earl of Ayleford.

Some of the information sent in for the application includes a history of "Uncle Bud" as he was called in Howard County.

William Travis was the first boy born to William and Rachel Riggs Roberts. Five boys and two girls were born to this couple. They were not able to attend school but "referred" to the blue-backed speller and were taught by their mother to read and to write.

The father of the family had fought for the Confederacy in the Civil War. His oldest son, William, was 13 when the father left during the war and he assumed the responsibilities of caring for the family as well as looking out for neighbors whose men were away at war.

INHERITED FARM

At the age of 13, these responsibilities included slaughtering the pigs, grinding the meal and driving cattle on the trail. While home on leave, the father died suddenly of a hemorrhage and the burden of the family fell upon young William Travis' shoulders again. Rachel Roberts remarried after a time and the oldest son was given his inheritance, a forty-acre cotton farm.

His future bride, Mary Thompson, was born in 1855 in Williamson County. Her mother and father died and she was raised by grandparents, and she had some formal schooling in Georgetown. She married William Travis Roberts Feb. 23, 1870 when she was 14 and he was a day short of being 21. They went on a cattle drive to Kansas soon after they were married with Mary as the cook.

They moved back to his forty acres. It was hard work and Mary hated it. She rolled the cotton seeds in ashes and walked in front of the oxen dropping the seed as William Travis came behind and planted. They soon traded their 40 acres for a few head of longhorn cattle and moved to Brownwood. Then they moved to Runnels County where they lost most of their herd to rustlers.

The young couple had heard of Moss Springs from buffalo hunters. William Travis and one of his brothers visited the spring in 1877 hunting free range. Young W. T. told his brother, "No one else will ever come to this place."

He returned with his wife and three children, who had been born in 1873, 1874 and 1876. They built a dugout with a fireplace at the back for Mary to cook on. They used the spring for their refrigerator and stored milk, eggs, butter and meat near it's cool water. Milk was provided by longhorn cows.

FILED TOO LATE

Roberts waited until his family was settled to file for the land and then found the land had been filed on by sheep man. The family moved about a mile and a half from Moss Springs and found water merely by taking a spade and digging into the side of the bank. Planks were placed in an L shape to keep the sides from caving and the water boiled up and made a basin. It was the first well in all of West Texas.

They built a lean-to with cedar poles covered with canvas. This house later blew away during a storm. Mary and the children were blown through the roof, but were only bruised. They then built two small unconnected plank houses. Mary Roberts carried water from the spring well across the creek.

They never had any trouble with Indians, but Mary hid her children in caves numerous times when W. T. was away in order to evade them.

Buffalo bones lay everywhere near the spring and when the T & P Railway arrived in 1881, the bones were stacked and shipped to points where they were used in the refining of sugar and the residue used in fertilizer.

The sale of the bones gave W. T. enough cash to buy the first wagon sold in the county for \$85. They also built the first wire fence in the county in 1882. They lived near Signal Mountain and Beaded Mountain where Indian paintings and beads were found in quantity.

STILL ON RANCH

Three more children were born. Two died when they were one and four years old. Their last child, Leora, Mrs. Bud Flanagan was born Sept. 15, 1890, and is still living on the Roberts' ranch.

They raised some white faced cattle and saddle horses. Men in the area claimed that Roberts never raised a poor horse and that his old B5 brand on a horse was all the guarantee they needed.

The terrible winter of 1886 with drifting snows followed by a summer when "the suffocating heat and withering dryness became unbearable" caused many ranchers to move on.

That year the cattle survived on mesquite beans. The Roberts had built a new three room home on the other side of the creek and survived the drought, but when it struck again in 1893, they were forced to seek grass and water in Oklahoma, leaving a family to look after their home here.

They went to Oklahoma and homesteaded there. They came back and forth, part way by wagon and part way by train. Finally they sold their cattle and horses in Oklahoma and returned to Texas in 1899.

A hard worker, Roberts acquired 12 sections of land by taking a section and paying it out. He raised a good crop of corn one year, but was afraid the country would be filled with farmers if they knew how easily it could be grown, so he told strangers, that the cobs and shucks had been shipped into the area.

DORA ROBERTS

Everybody began to refer to him as "Uncle Bud." Many relatives visited him, including a cousin, John Roberts. John was so poor that when Mary washed his clothes, he had to go to bed because they were all he had.

John accumulated some land and in 1900 married a widow, Dora Griffin. Their combined ranches later became the famous Roberts oil field. The resulting Dora Roberts Foundation has meant much to the betterment and progress of Big Spring.

When Mary was in her fifties she fell and broke her hip. She refused to go to the closest hospital in Abilene and the rest of her life walked with a crutch. She died when 59.

Uncle Bud stayed on the ranch, rode his saddle horse along the ranch fence every day checking his cattle and horses.

He lived until he was 91. By then he was a director of the West Texas National Bank that later merged with First National.

He was looked upon with respect and advice.

He was from a rough breed that first began the final settling of Howard County.

Miss Kolden Weds Lonnie Gillihan

Miss Julie Jacqueline Kolden and Lonnie Ray Gillihan exchanged wedding vows in a ceremony held Saturday afternoon in the St. Paul Lutheran Church with the Rev. Carroll C. Kohl officiating.

The bride is the daughter of Mr. and Mrs. Earl D. Kolden, 1400 State Park Drive. The bridegroom is the son of Mr. and Mrs. Rayford H. Gillihan, 1705 Thorpe.

Two vase arrangements of large yellow mums and daisy poms enhanced the altar. Mrs. Frank Long, organist, provided nuptial selections.

The bride wore a formal-length dress of Chantilly lace over satin designed in princess lines. The bodice was styled with a high fitted collar. The long fitted sleeves were of sheer lace. A white satin bow marked the waistline. Mother of pearl sequins enhanced the dress and chapel-length ruffled godet train. Her veil of illusion was edged in wide lace and fell from a pearl tiara.

She carried a cascade bouquet of yellow sweetheart roses, white daisies and gypsophila.

Miss Michele Josette Kolden attended her sister as maid of honor. She wore a formal-length dress of yellow brocade styled with a sweetheart neckline and chiffon sleeves. She wore a yellow flower bow in her hair.

Mrs. Dean Spencer, sister of the bridegroom, and Miss Glenda Reynolds were bridal attendants. They wore green brocade dresses styled identically to the honor attendants' dress. They wore green flower bows in their hair. All the attendants carried nosegays of yellow daisies and gypsophila.

Bruce Abbe of Austin was the best man. Groomsmen were Dale Dean Kolden, brother of the bride, and Gary L. Gillihan, brother of

the bridegroom. Jerry Jason Kolden, brother of the bride, was the ring bearer.

Prior to a wedding trip to Ruidoso, N.M., the newlyweds were honored at a reception in the parish hall of the church. Miss Mandy Barriball registered guests.

Mrs. Liesel Little, Mrs. Phillip H. B. Edwards and Mrs. George Colgin served refreshments from a table laid with a white cloth and centered with an arrangement of yellow gladioli, white carnations and candles.

Both Mr. and Mrs. Gillihan are graduates of Big Spring High School. Gillihan attended Howard College and is presently employed in Irving as a mechanical draftsman. The couple will live at 821 S. Nursery in Irving.

Out-of-town guests attending the wedding were Mrs. Liesel Little, Charles Little Jr. and James Little, all of Livingston, Tenn.; Mr. and Mrs. George Colgin, Weatherford; Mr. and Mrs. Weyland Gillihan, Fort Worth; and Lee Aspelin, Houston.

MRS. LONNIE RAY GILLIHAN

ENGAGED — Mr. and Mrs. James Duncan, 6 Indian Ridge, announce the engagement of their daughter, Sue, to Russ Rutledge. He is the son of Mr. and Mrs. W. T. Rutledge, 604 Elgin. The couple will be married June 17 in the First United Methodist Church with the Rev. William Fleming presiding.

Sorority Plans December Events

The Alpha Kappa Omicron chapter of Beta Sigma Phi met Tuesday evening in the home of Mrs. Debbie Larson with Mrs. Charla Huckabay presiding.

Mrs. Lou LaRochelle read a letter of thanks from the Veterans Administration Hospital for the sorority project of serving refreshments monthly to the veterans.

Mrs. LaRochelle reminded the members of the shopping spree to Lubbock on Dec. 6.

Mrs. Carolyn Dyer reminded the members to prepare wrapped Christmas gifts to be distributed at the

Nursing Inn on Dec. 13.

Members brought canned goods and Thanksgiving surprises that would be included in the Thanksgiving basket donated to a local family.

Mrs. Jan Sims encouraged members to volunteer as elves to help Santa when he visits Dec. 15-20 in individual homes. He will visit each evening from 6-9 p.m. by appointment only.

Mrs. Huckabay presented the program on "Women We Are Indebted To."

The next meeting will be in the home of Mrs. Lou LaRochelle at 7:30, Dec. 9.

Vietnamese Couple Weds In Homes

Quach Ai Dong and Dang Hoang Nghi, both originally from South Vietnam, were wed last Sunday in a Buddhist ceremony and a civil ceremony.

The mother of the bride is Mrs. Cam Thi Tu of 1300 Mobile, Big Spring. Parents of the bridegroom are Mr. and Mrs. Dang Trung Hieu of Saigon, South Vietnam.

The Buddhist ceremony was held in the home of the bride's mother. A civil ceremony was performed in the home of the bride's brother-in-law and sister, SSgt. and Mrs. Donald Knisley, 197B Hunter, immediately following the religious ceremony.

The bride wore a formal-length dress of lace. Both the bride and bridegroom wore white rosebuds. She carried

a Vietnamese style bouquet of red gladioli.

Tran Thi Hang Nga and Ho Kim Chuyen attended the couple. Both wore pink rosebuds.

Following the civil ceremony, a traditional Vietnamese dinner was served by the bride's immediate family in honor of the newlyweds.

Attending the wedding from out of town were Do Thi Kim Lien of Seattle, Wash. and Gordon K. McDonald of San Angelo.

Couple Weds Friday In College Baptist Church

Miss Shariyn Barbee and Mike Carroll exchanged wedding vows in a candlelight ceremony held Friday evening in the College Baptist Church.

The bride is the daughter of Mr. and Mrs. Charles Barbee, 2710 Cindy Lane. Carroll is the son of Mr. and Mrs. Sherrill Carroll, 1307 Baylor.

Dr. Jimmy D. Law united the couple before a column arch adorned with greenery, gypsophila and blue carnations, accented with wedding bells, bows and white doves. Spiral and branched candelabra flanked the arch. Baskets of white gladioli, white mums with salal foliage completed the altar decorations.

Mrs. Donald Richardson, organist, and Doug Smith and David Norvelle, vocalists, provided wedding music.

The bride chose to wear a Victorian style princess gown of peau de soie. The stand-up collar and bodice were overlaid with re-embroidered lace and seed pearls. The long tapered sleeves of lace were accented with seed pearls and edged with lace ruffles. The skirt was trimmed with lace appliques and bordered with a wide ruffle of lace. The dress featured a chapel-length train. The bride's three-tiered veil of tulle was edged with lace and attached to a headpiece of lace and seed pearls.

The bride's cascade bouquet was of white carnations and blue silk roses accented with gypsophila tied with blue and white satin streamers.

Miss Cynthia Upton served as maid of honor; Miss Cathy

Homemakers

Meet At Final Touch

Mrs. Beverly Madry displayed bath and bed accessories to members of the Young Homemakers during a meeting held Nov. 20 in the Final Touch Shop.

Mrs. Linda Dick was the hostess.

Plans were completed for the Christmas party planned for 7:30 p.m., Dec. 5 at Coker's Restaurant. After dinner, members will exchange white elephant gifts.

Mrs. Bruce Allen and Mrs. Bill Sullivan were guests.

MRS. MIKE CARROLL

Hicks, Miss Amy Barbee and Miss Kaye Elston were attendants. They wore formal-length dresses of royal blue shimmering crepe. The dresses were styled with empire waistlines and long tapered sleeves. The necklines and sleeves were accented with self ruffles. They carried colonial nosegays of blue rosebuds and white carnations accented with gypsophila and white satin streamers.

Gary Rhoades of Denison was the best man. Greg Barbee, Pat Carroll and Terry Cosby of Brownwood were groomsmen. Ushers were Ken Carroll, Chris Mangum, Ruben Alaniz and James Rhoades.

Flower girls were Tami Burnsed and Dawn Smith. Altar taper lighters were Miss Melanie Rhoades and John Gary Rhoades.

Miss Trina Shoemaker of Lubbock registered guests.

A reception honoring the newlyweds was held in the activity building of the church following the ceremony.

Mrs. Bill Blalack, Mrs. Cliff Balzer, Mrs. L. H. Alexander and Miss Laquita Ross served refreshments from a table covered with a white organdy cloth enhanced with the bridesmaids' bouquets centered around a praying hands figurine.

Both Mr. and Mrs. Carroll are graduates of Big Spring High School and Howard College. They will attend the University of Texas at the Permian Basin in January. She is employed as a secretary at the College Baptist Church. He is employed by Carroll Auto Parts.

Kinder Gym & Swim Class Begins Tuesday

The Big Spring YMCA will begin a new class of Kinder Gym and Swim Dec. 2nd at 1:15 p.m. at the YMCA facility at 8th and Owens.

Kinder Gym and Swim is for children 3 to 6 years of age, and will consist of gym activities using mats, balance beam, trampoline and group games in a recreational atmosphere, under the supervision of a competent instructor.

An open recreation swim

in the Dora Roberts training pool with water 34 inches deep and constant temperature of 90 degrees will conclude the 45 minutes gym and swim activity.

Parents should phone the YMCA at 267-8234 for registration and more information.

MRS. FREDDIE WATT III

Couple Weds In Midland Church

Miss Tammy Sue Eberle and Freddie Watt III were wed in an evening ceremony held Nov. 15 in the Bellview Baptist Church of Midland with the Rev. Elbert Smith officiating.

Parents of the couple are Mr. and Mrs. Pete Mills of Midland and Mr. and Mrs. Fred Watt Jr. of Big Spring.

The bride wore a formal-length gown of white peacock soie satin fashioned with a fitted empire bodice overlaid with silk illusion. A deep yoke of illusion edged in lace and a mandarin collar of lace enhanced the bodice. Long, full sleeves were gathered into deep cuffs edged in lace. The bodice, yoke and sleeves were accented with appliques of re-embroidered lace, beaded clusters and sprays of pearl beads. The A-line skirt and train were bordered in lace and beading. Her chapel-length veil of silk illusion edged in matching lace was gathered to a lace Camelot cap. She carried a cascade arrangement of pink carnations, white daisy poms and gypsophila.

Miss Cathy Burris attended the bride as maid of honor. Bridesmaids were Miss Vivian Coon and Miss Vickie Jones. The bridegroom's father served as best man. Greg Ryan and David Eberle, brother of the

bride, were the groomsmen. A reception was held in the fellowship hall of the church following the ceremony.

The bride is a graduate of Midland High School. Watt has attended Howard College and is employed by Standard Sales of Big Spring. The couple will reside in Big Spring.

Dr. Key Honors Wife On 15th Anniversary

Dr. Larry Key honored his wife on their 15th wedding anniversary Wednesday evening with a surprise buffet supper at La Posada.

The couple was married in the state of Washington 15 years ago. A special toast was pronounced honoring the Keys.

A Mexican buffet supper was served. The serving tables were centered with ceramic floral arrangements.

Close friends of the couple attending included Mr. and Mrs. Jerry Key, Dr. and Mrs. Keith Thomas, Mr. and Mrs. Raymond Stallings, Mr. and Mrs. Al Stephens, Mr. and Mrs. Ellis Britton, Mr. and Mrs. Jerry Spence, Mr. and Mrs. Tony Ortiz, Bob Moore and Mrs. Mariagne Edwards.

Wild Game Cleaning Important For Safety

BY SHERRY MULLIN

County Extension Agent

Compliance with a new law requiring hunters to keep wild game in edible condition after the kill and following basic cooking guidelines can mean safe, high quality meals with less pressure on the food dollar. The Texas Legislature passed a statute requiring that "a reasonable effort be made to retrieve all wounded game animals or game birds and these animals or birds shall become a part of the legal bag limit."

This law also requires that all game animals, game birds and game fish taken into possession must be kept in an edible condition and it sets a penalty of \$25 to \$200 for violations. This means that a hunter who shoots a dove which falls into a thick weed patch and then makes no attempt to retrieve the bird will be in violation of the law. And a hunter who kills game and leaves it in the trunk of his car until it spoils also will be in violation.

Proper handling in the field centers on proper cleaning and quick cooling. Hunters generally agree that proper cleaning demands a well-placed shot in vital area that does not rupture intestines or paunch.

Since quick cooling delays spoilage, the animal should

be drawn immediately after killing. Move it so its head is uphill. Make a ventral cut from the base of the tail to the breast bone and roll out the viscera. Avoid slashing the intestines or stomach. Wipe the body cavity with clean cloths or paper towels—but do not use water.

Hanging the carcass will hasten cooling. Protect meat from flies and dust with muslin or cheesecloth bags which let air circulate. Heavy tarpaulins and airtight game bags keep body heat in and slow down cooling.

Proper loading and transporting the animal is essential to handling, most hunters caution. Carrying the animal still wrapped in the protective cloth on top of the car is recommended. Also, on cool days, the car trunk is a safe place. But avoid carrying animals on car or truck hoods and fenders, since heat from the sun and car motor can ruin all previous good care.

Once the animal has been handled properly in the field, the cook should remember some basic rules for preparation: Dry heat, such as oven roasting, broiling, pan-broiling, and frying, is suitable for young, tender game. Basting with additional fat may be necessary if the meat is lean.

Dear Abby

Second Spouse Sick Of Playing Second Fiddle

DEAR ABBY: I am 27 and my wife is 24. It's Eldora's second marriage. She was married for eight years to a man who was 15 years older than she was, and they had one child.

Abby, I really love Eldora and her son, but we've been married only four months and she's left me five times! She stays away about a week each time. She packs up and says she's going to her mother's.

The last time she left, I found out she went back to her ex-husband.

When she came home, she told me they had lived as man and wife again, and she thinks she loves him more than me because he is the father of her child. Also, she says he is a much better lover than I am. (How is that for an insult?) On the other hand, she says he is a jealous man who treats her rough and likes to run with other women.

I love Eldora and would do anything to keep her home, but how can I arrange it? This running back and forth is no good. Please help me. Maybe I need someone to tell me to kick her fanny out for good.

DEAR ABBY: I am only 13, I have made up my mind to do something I think is very important. Before reading your column I never even gave it a serious thought, but now I would like to donate my kidneys and eyes to someone else after I die.

Juveniles need kidneys, too, and cannot use adult ones, so in case I die before I become an adult, I'd like to leave whatever organs are still usable to some child who needs them.

Abby, I am not planning on dying soon, so please don't feel sorry for me.

DEAR ABBY: To become donors, minors need the consent of their parents or guardians. And, Laura, please tell your parents for me that they have a beautiful daughter!

Miss Alexander Weds In Marshall Baptist Church

Miss Jill Diane Alexander became the bride of Ronald Edward Jones in a Thursday evening candlelight ceremony held in the Galilee Baptist Church in Marshall.

The Rev. O. C. Rollins, pastor of the church, united the couple before an arch entwined with greenery and white flowers.

Two arrangements of red and white gladioli and white daisies marked the arch. Six Swedish steel candelabra entwined with greenery flanked the arch.

The Rev. James Reeves organist, furnished wedding selections during the ceremony.

The bride is the daughter of Mr. and Mrs. Curtis Alexander of Marshall. Parents of the bridegroom are Mr. and Mrs. Eddie Jones of Loraine.

Mrs. Jones is a graduate of Pemberton Senior High in Marshall and of North Texas State University in Denton. She is employed as a speech therapist for Big Spring Independent School District.

Jones is a graduate of Loraine High School and is a senior physical education and speech major at McMurry College in Abilene.

The bride chose to wear a traditional style gown of white crystalline designed with an A-line silhouette and a fitted bodice. The bodice was enhanced with a ring neckline and Venise lace appliques. The sheer bishop sleeves were also accented with lace. An attached train fell from back of the empire waistline. The train and skirt were appliqued in Venise lace flowerettes.

Her veil of silk illusion edged in matching lace drifted to finger-tip length from a Juliet headpiece fashioned from Venise lace. She carried a cascade bouquet of white roses and red carnations tied with white streamers.

Miss Annette Marie Jenkins of Marshall attended the bride as maid of honor. Bridesmaids were Miss Marilyn LeFaye Richardson, Miss Melva Clark, Miss Loretta Williams, all of Marshall and Miss Carol Jones of Loraine, sister of the bridegroom.

The attendants wore formal-length gored red skirts and beige crepe blouses designed with jewel necklines trimmed in lace. They carried bouquets of red carnations and daisies tied with red and white streamers. Red and gold rose headpieces adorned their hair.

FOR BEST RESULTS USE HERALD CLASSIFIED ADS

MRS. RONALD EDWARD JONES

Kenneth Rose of Loraine was the best man. Curtis Alexander of Houston, brother of the bride; Vernon McKinney and Joseph Franklin, both of Marshall, and Dana Mayfield of Kilgore were groomsmen. Ushers were John and David Hodge.

Shawn Hydson was the flower girl and Gregory Hydson was the ring bearer.

Following the ceremony, a reception was held in the lower auditorium of the church in honor of the newlyweds. Refreshments were served from a table covered with a white lace tablecloth centered with a cupid eperne vase holding an arrangement of red and white carnations and daisies. Mrs. Addie L. Alford and Mrs. Belinda Black served.

Relatives attending from out-of-town were Franklin Alexander of Wheaton, Md.,

brother of the bride; Horace Slade, Dallas, Ms. Lucy McKenzie, Dickinson; and Miss Gaye Jones, Loraine, sister of the bridegroom.

U.S.-Russian Exchange Doctor Says He Wasted Year Of His Life

By GEORGE A. KRIMSKY
The Associated Press
MOSCOW (AP) — Paul East is a young American doctor who got a rare opportunity to work in the Soviet Union for a solid year under a detente-inspired agreement between the two countries to cooperate in the field of medicine.

With this year now up, East says he is taking home a better understanding of Russia's language and customs, a handful of Soviet medical forms, a few more friendships — and the firm conviction that he wasted a year of his professional life.

He said he has told his Soviet hosts that in light of his experience he would not recommend that another American doctor follow in his footsteps.

Soviet health officials, in turn, feel they lost a lot more than they gained from East's working visit and have suggested they would like more say in choosing the exchange scientists the United States sends here.

East, a 30-year-old public health specialist and also an

attorney, came here in Nov., 1974, to study how the Soviets compile and report their cancer statistics. Before he left this month, East said he achieved "perhaps 1 per cent" of his goal. The Russians, he said, simply did not want him to have the information.

East said he wrote a 60-page report to U.S. health officials, recounting a tale of deception, ignored requests and broken promises.

Soviet officials, who rarely give interviews to the Western press on controversial issues, apparently judged the complaints serious enough to comply with a request from The Associated Press to hear their side of the story.

Basically, they did not deny that they prevented East from obtaining information about how the Soviet statistical system works. Rather, they contended that it was none of his business.

Dr. Nikolai N. Blokhin, a surgeon who heads the cancer research institute where East worked, said he

resented what he called an American "inspector" coming here to check out Soviet practices and would not have invited him if he had known that was the doctor's purpose.

East said his intentions were spelled out in a program approved in advance by U.S. and Soviet officials, but he conceded that the Soviets may not have understood the ramifications.

Blokhin said that East had an undisguised mistrust of Soviet data which breached an implicit faith between the U.S. and Soviet sides in their agreement to cooperate.

"If I went to America, even in my position, I would consider it rather tactless to doubt the figures given to

me, to say that things don't seem well organized, to say that I want to see for myself where you are getting the figures from," Blokhin argued.

East said that U.S. methods of compiling cancer statistics are open to Soviet or anyone else's scrutiny.

Pursuing the faith issue, two other Soviet health officials who were interviewed said the American and Soviet sides orally agreed at one of their initial meetings not to question each other's "raw" data. A U.S. health authority in Washington with firsthand knowledge of those meetings said that is not true.

"No self-respecting Western epidemiologist is prepared to pay attention to

mere results if it is left to the imagination of the reader how they were obtained," East said.

Epidemiology, the field East pursued here, is the study of population patterns to determine possible causes of disease.

East said he was told by one Soviet cancer specialist that some census information is regarded as classified here.

East concluded: "I have to assume they have something to hide."

He said the Soviets may fear that exposing their cancer data system will either reflect poorly on the system or show a greater incidence of cancer in this country than they are willing to admit.

BEARING UP — Water drips from head of a grizzly bear as it surfaces from a dip in the grotto pool at Seattle's Woodland Park Zoo. At this time of year it might be called a cool dip!

If you are not presently covered by a company-paid retirement plan, you can now start one of your own.

You can contribute up to \$1,500 per year and deduct that amount from your earnings for income tax purposes.

BIG SPRING HERALD

SECTION D BIG SPRING, TEXAS (79720) SUNDAY, NOVEMBER 30, 1975 SECTION D

Movin' On Poses Big Woes For VA

One out of every five among the 214 million Americans changes his address by moving each year, and at least half of these moves are potential problems for the Veterans Administration, Jack Coker, VA Regional Director, has observed.

Almost half these people

are veterans, their dependents or their survivors, and the continuing migration can produce massive headaches at Veterans Administration records centers, Coker said.

To avoid delays in benefits checks and confusion in other veteran records, VA urges all veterans or others entitled to VA benefits to promptly notify it of any changes of address.

Even if a veteran is not presently receiving benefits, Coker pointed out that it will save time and eliminate possible error should they be sought in the future if the veteran's records always reflect his correct address.

With files on more than 29 million living veterans, duplications of thousands of names are common and an incorrect address only serves to increase the possibility of error or delay in processing claims, Coker said. There are 1,594,000 veterans in Texas.

In the case of veterans currently receiving benefits, the new address and the date of the move should be provided VA as far in advance as possible, Coker said.

Lt. Krekorian Bridge Winner

Lt. James E. Krekorian, 1905 Wasson Rd., Big Spring, is among winners at the 1975 Fall North American Bridge Championships of the American Contract Bridge League Nov. 21-30 in New Orleans.

He scored among the Master Point award winners by leading a section of the two-session Individual event in which 432 players were entered.

More than 4,000 players are listed among the participants in the 10-day meet at which five major North American titles and 12 lesser rank tournament championships were up for award.

The Fall Championships are one of the three major tournaments held each year by the ACBL, the non-profit membership organization for the conduct of competitive bridge play throughout the United States, Canada, Mexico and Bermuda. Some 5,000 clubs throughout the continent provide weekly play for 240,000 tournament bridge players.

Master Points are the principal awards at ACBL games and tournaments and provide a means of establishing individual ranking of all players on a standard scale recognizing accomplishment and skill.

Big Spring Great City For 'Dudes'

Big Spring is obviously a great city for "Dudes." This is apparent as a result of an announcement by I. B. Barney, Chapman II of Fort Worth, the nation's largest private operator of Dairy Queen restaurants.

His Coronado Plaza Dairy Queen at 2600 Gregg Street in Big Spring ranked eighth in the top 10 among all the Chapman organization's 51 DQ restaurants in the recent fall week-long "Dude" sandwich promotion.

This Big Spring DQ, one of three such Chapman fast food shops here, sold 1,822 "Dudes" in the one week, an average of 260 plus per day. James Marks is the manager of this pace-setting Big Spring restaurant, owned by Dairy Queens of West Texas Inc., one of four DQ corporations of which Chapman is the majority stockholder and president.

To Attend Vital Statistics Meet

County Clerk Margaret Ray plans to attend the Texas Conference on Vital Statistics in Austin Monday and Tuesday.

How to select the right nursing home.

We Americans are not just living longer, we're living more useful, productive lives.

But an increasing number of the chronically ill, the old, the convalescent, need some place other than the hospital and their home where they can receive personal health care, round-the-clock attention and the opportunity to continue to live their lives with meaning.

As your community extended health care facility we want to help you make the right decision. Here are some guidelines: see your family physician to determine the kind of care needed; feel free to visit our facility; ask us for our costs in writing and financial advice about Medicaid; examine all of our facilities; check our food quality; verify our safety features; and finally, observe how our residents spend their time.

There's a lot more to selecting the right nursing home. We want to help. If you have any questions, please call or visit us.

Big Spring Nursing Inns, Inc.

LIMITED WARRANTY
Montgomery Ward will replace this battery at no cost to the original owner if it fails to accept and hold a charge in non-commercial passenger car use during the Free Replacement Period shown.

FREE REPLACEMENT PERIOD:	24	16	12	9	6	3	Months
TOTAL LIMITED WARRANTY PERIOD:	60	48	42	36	24	18	12 Months

After this period, to the end of the Total Limited Warranty Period shown, Montgomery Ward will replace the battery, charging only a prorated amount for the time since purchase, based on the current regular selling price less trade-in.

Batteries in commercial use are warranted on a similar basis for one-half of the specified periods.

Return battery to any Montgomery Ward location for service under this warranty. Evidence of date of purchase required in all cases.

Dependable cranking power, up to 305 amps. 36-mo. warranty incl. 9-mo. free replacement period.
\$8 off 48-mo. warranty battery.
Extra heavy-duty with up to 450 cranking amps. 16-month free replacement.
\$6 off 6-, 12-volt VW battery.
Dependable start power. 36-mo. warranty includes 9-month free replacement.

Your Daily HOROSCOPE from the CARROLL RIGTER INSTITUTE

SUNDAY, NOVEMBER 30, 1975

GENERAL TENDENCIES: A day in which it is wise to think deeply of a plan of action whereby you can gain your most cherished desires. You will understand difficult factors facing you.

ARIES (Mar. 21 to Apr. 19) Your intuitive faculties are working and curately today and you understand and how to gain your aims. Use gentle tactics.

TAURUS (Apr. 20 to May 20) Meeting with allies and talking over how to make a new enterprise successful is wise. Strive for more harmony at home.

GEMINI (May 21 to June 21) Take time to show appreciation to persons who have done you many favors. Study your tasks for the coming week.

MOON CHILDREN (June 22 to July 21) Engage in recreational activities that will lift your spirit and make you forget worries. Relax tonight.

LEO (July 22 to Aug. 21) Be sure to study the details of a new plan you have in mind. Don't neglect to attend a family gathering in the afternoon.

VIRGO (Aug. 22 to Sept. 22) Study philosophical matters that appeal to you. Handle correspondence that is helpful in business and personal life.

LIBRA (Sept. 23 to Oct. 22) Plan time to give your financial affairs today and figure out a way to add to present income. Obtain right advice.

SCORPIO (Oct. 23 to Nov. 21) Come to the right decision about an important matter is concerned. Take steps to increase your circle of friends.

SAGITTARIUS (Nov. 22 to Dec. 21) Help busy planning activities for the future that will give you more advantage. Come to an understanding with mate.

CAPRICORN (Dec. 22 to Jan. 20) Know what it is you really desire in your personal life. Be more social or you could lose out where it counts most.

AQUARIUS (Jan. 21 to Feb. 19) Attending to community tasks and much to add to your prestige at this time. Come to the aid of a good friend.

PISCES (Feb. 20 to Mar. 20) Study better ways to advance in your line of endeavor. Be more thoughtful of mate and increase harmony in the home.

JOHN V. JAMES

Savings Bonds Leader Named

John V. James, president and chief executive officer, Dresser Industries Inc., Dallas, is appointed Volunteer State Chairman for the Savings Bonds Program in Texas by Secretary of the Treasury William E. Simon, effective Dec. 1.

He will head a committee of business, banking, labor, government and media leaders who — in cooperation with the U.S. Savings Bonds Division — assist in promoting bond sales throughout the state. James succeeds Reginald Brack, senior vice president, Braniff International, Dallas, who has received the "Award of Merit," Treasury's highest award for volunteer service.

James is a graduate of the Wharton School of Finance, University of Pennsylvania. He joined Dresser Industries in 1957.

WASHINGTON (AP) — Department of Health, Education and Welfare records show that 28 Texas doctors are among 207 physicians in private practice nationwide who received \$100,000 or more from the Medicaid program last year.

But John A. Svahn, acting administrator of HEW's Social and Rehabilitative Service (SRS), says "The fact that these physicians received the stated amounts from the Medicaid program should not be construed as any evidence of wrongdoing."

Svahn added that the amounts listed do not necessarily represent "earnings" or "profits."

One of the Texas physicians, Dr. E.J. Mason of Dallas, called the HEW

Mod Specialists Plane Pros Bid Webb Bye

Thirteen years and more than 6,000 aircraft ago, a team of specialists arrived at Webb AFB from Dynallectron Corporation. Last week they moved out after beeping up the rear spars on the final Cessna T-37.

That final modification marked the last of many changes done to the T-37 and Northrop T-38 aircraft from all Air Training Command, ATC, bases. It was a "Tweet" from Vance AFB, Okla., which closed out the contract.

Some other work completed over the years included a three-position flap modification on T-38s, adding distance measuring equipment to T-37s, a forward carry-thru spar on T-37s, main landing gear modification on T-38s and a concurrent change on T-38s of the navigation system, (AIMS) and angle of attack, (AOA) instruments.

Specialists at the Webb "Queen Bee" site, also worked on aircraft from the Tactical Air Command and the National Aeronautics and Space Administration. The crew size varied from 100 to the 11 who closed the shop. Don Chapin, the program manager, said there were about 76 assigned when he arrived three years ago.

"I hate to see them go," said Msgr. John R. Hayes, of plans and scheduling. "They gave us outstanding cooperation, completed their work when scheduled, were very pleasant and we enjoyed working with them," he said.

Kerrville Inviting Craftsmen

The Texas Arts and Crafts Foundation is now taking applications for invitation for the 1976 Texas State Arts and Crafts Fair from resident Texas artists and craftsmen. The fifth anniversary edition of the official state Arts and Crafts Fair will be held in Kerrville on the Memorial Day weekend May 29-30-31, 1976. Deadline for entry is Jan. 1, 1976. The Fair is fast becoming one of the outstanding showcases of artistic talent in the country, with over two hundred of the finest artists and craftsmen in Texas displaying their work in the atmosphere of an old fashioned country fair. Sheltered in colorful striped tents on the tree-covered campus of Schreiner College, the fair provides a relaxing day or weekend for the fair visitor.

The Texas Arts and Crafts Foundation, a non-profit organization, is dedicated to the betterment of the arts and crafts of Texas. Consequently, the largest part of the fair is dedicated to the producing Texas artisan. But the arts and crafts that shaped early Texas are not forgotten. Historic crafts are searched out and brought to the fair for actual demonstrations in the Pioneer Village section of the Fair.

For artist application packets, brochures or other information, please write: Texas Arts and Crafts Foundation, P.O. Box 1527, Kerrville, Texas, 78028.

Capt. Stafford
To Take Course

Capt. Millard D. Stafford, chief of security police here, has been selected by the Air Training Command to represent Air Force Security Police at the 104th session of the FBI National Academy at Camp Quantico, Va.

The session begins in January and is similar to the training received by future FBI agents. Stafford will return to Webb after completing the course.

California Site More Like Pampa Than Pampa

ALLENSWORTH, Calif. (AP) — A squalid reproduction of dust bowl Texas has sprouted in Central California for a movie version of the life of balladeer Woody Guthrie.

This small, time-ravaged

community in the heart of the dry San Joaquin Valley was chosen to portray Pampa, Guthrie's Texas home in the late 1930s.

The cast and crew of "Bound for Glory" total 250, headed by David Carradine, former "Kung Fu" star, in the role of the legendary minstrel, and director Hal Ashby, whose latest film is "Shampoo."

Each day they trek by bus from Bakersfield 40 miles to the south, winding up in this barren, windblown and treeless community founded in 1908 by Col. Allen Allensworth as a haven for blacks.

Allensworth, a former slave, served in the Civil War, the Spanish-American War, and the Philippines Insurrection, rising to

become the highest-ranking black in the U.S. Army at that time.

He organized Allensworth as an opportunity for ex-slaves to cash in on California's bounty, but shrinking water supplies dried up his dreams and left the town virtually uninhabited. It is now a state park, but has not been developed for lack of funds.

The movie company chose Allensworth after finding that the real Pampa had become unsuitable for use in the film.

Over the entrance to the movie set is a rickety wooden arch declaring that this is Pampa—"At The Top of Texas."

And the magic of movies has actually converted the area to the Depression-era town that spawned many of Guthrie's attitudes and feelings for life that wound up in his haunting music.

Five ancient homes were dragged from a neighboring county and vintage cars cloaked in dust litter the site. Crew members bring their own up-to-date accommodations with them, including trucks, generators, wind machines and a mobile commissary to feed the Hollywood crowd.

Carradine says he had little trouble in preparing himself for his role as the man who became a legend in American folk music.

Carradine met with Guthrie's son Arlo, a noted singer in his own right, and other members of the family to get "a better feeling for the kind of person he was."

"We all identify with him," Carradine said during a break in filming. "He's an archetype American and people think of him as that. But more than that, too. He's a real person."

HIGHEST EVER — Stunt experts risked life and limb by going over an 85-foot cliff in a wagon while filming a scene in Universal's "The Blarney Cock." The wagon jump is the highest ever attempted, according to the studio. The jump was made in Puerto Vallarta, Mexico.

Bunker Reruns See Daylight

By JAY SHARBUTT
AP Television Writer
NEW YORK (AP) —
Daytime television's ratings

race should get quite lively when CBS pits daily reruns of its hit "All in the Family" nighttime series against NBC's high-rated "Another World" soap opera.

The half-hour "Family" series, the nation's top-rated show for six out of eight weeks this season, will start its repeats at 3 p.m. EST each day, when NBC's hour-long "Another World" begins.

While it's not the first time a network has put repeats of a nighttime situation comedy in its daytime lineup, it is the first time a series from producer Norman Lear's successful nighttime series emporium has been scheduled for daytime television.

It's a bit ironic, since CBS — as well as NBC and ABC — rejected Lear's new "Mary Hartman, Mary Hartman" comedy-soap opera series as a Monday-through-Friday show for daytime viewers.

Lear, who is proceeding with the series anyway and syndicating it to stations, said in an interview last September that CBS turned it down after he balked at basic changes he said CBS wanted made.

He said Fred Silverman, CBS' program chief when he proposed the series, wanted "Hartman" as a once-a-week nighttime show that ran an hour and was taped before a studio audience.

But Donald "Bud" Grant, CBS' daytime programming chief and the man responsible for scheduling "All in the Family" repeats for daytime TV, said rejection of "Hartman" as a daytime series was his idea, not Silverman's.

It was a matter of "pure program judgment," he said. "There was a practical and production problem associated with 'Mary Hartman,' which I think was an overriding and impossible problem to lick."

Star, 76, Keeps Face Of Youth

NEW YORK (AP) — "I've been in the public eye for so long I guess I'm a curiosity," said Gloria Swanson. "People wonder how I still look good after all these years."

That 76-year-old face does look good — smooth and fresh as a schoolgirl's, framed by side-parted brown hair. Solid white teeth flash through crimson lips. There's that distinctive mole, those delicately diabolical eyebrows arched over clear blue eyes and spiked, fluttering fake eyelashes.

"It's hereditary, all in the genes," Miss Swanson demurs, dashing the hopes of beauties who will be septuagenarians one day. "But no one can't have skin like a baby's bottom if they're going to stuff that hole in their face with chocolate and banana splits."

The legendary movie queen is a passionate advocate of pure food and good diet and a zealous foe of sugar. She says the countless evils of demon sugar have been exposed by her friend, William Dufty, in his book, "Sugar Blues" which Miss Swanson is helping to promote.

Dufty, a very thin, ascetic-looking man of 59, resembled a big bodied buddha until she alerted him to the dangers of sugar about 20 years ago during a brief encounter, Miss Swanson said.

He sat quietly nearby while Miss Swanson, wrapped in a white and black-embroidered caftan, snuggled into a large stuffed chair in her Fifth Avenue apartment and held forth, almost nonstop, on her favorite topic.

"If you have knowledge, you must share it with other people," she said. "My concern for good health has been a life belt for me. I feel a debt to the public and will spend my life trying to help them."

Gene Kelly: Try Musicals

LOS ANGELES (AP) — Now that television viewers have seen "That's Entertainment," the question is renewed: Why doesn't Hollywood bring back the movie musical?

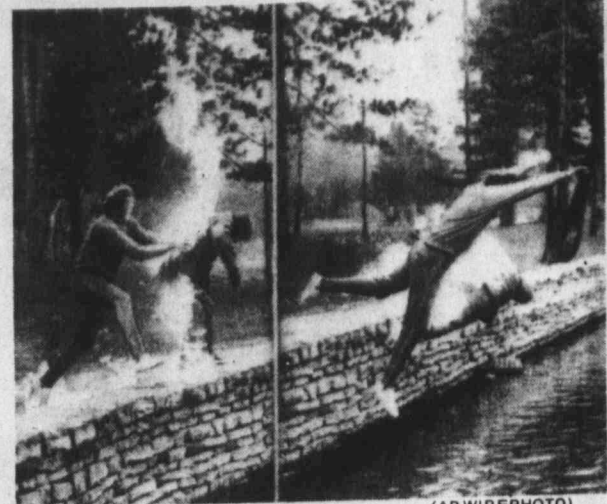

Gene Kelly thinks it can be done.

"Producers say that musicals cost too much nowadays," observes Kelly. "But I don't see why they can't make intimate musicals. Noel Coward wrote shows for two or three people, and they were hits. 'Lili' was an intimate musical, so was 'Les Girls' and even 'My Fair Lady.'"

"Except for the Esther Williams spectacles and the Busby Berkeley extravaganzas, most of the musicals that the major studios made weren't terribly expensive. Fred Astaire and I feel the same way. The big numbers we did in pictures were those we danced with one other person or by ourselves. When you get involved with big choruses, you're not using the screen as well as you should."

No one is better equipped to talk on such matters than Gene Kelly. Not only did his daringly athletic style bring new dimension to film dance; he also directed and choreographed some of the most memorable musicals.

Recently he has been directing and appearing in new sequences for the MGM sequel, "That's Entertainment, Too."

HOT SCENE AND COOL DIP — Stunt man Dwayne McLean in the film, "Breaking Point," has five seconds of flaming glory before being pushed into a pond by actor Bo Svenson. The scene was shot on location in Toronto, Canada.
