Council tackles budget

City tax rate to rise

In a regular meeting of the City Council on Monday, August 10, the 1992-93 proposed budget was presented. With the budget proposal, both taxes and water rates would change.

The proposed tax rate would rise from $.6069 per $100 valuation for 1991 to .68542 for 1992. This tax rate would require a public hearing and that hearing is scheduled for August 31.

Part of the reason for the tax increase is that the tax base has decreased for last year. The city's tax base in 1991 was $42,654,490 and in 1992 is $41,040,150. This decrease of $1,614,340 increased the tax rate by approximately 3.5 cents for the city to receive the same amount of tax revenue in 1992 as in 1991. This tax rate is called an effective tax rate and is $.634650.

The proposed budget for the 1992-93 fiscal year is a $191,322 decrease from the last year. A total budget of $1,283,126 for the 1992-93 year is proposed.

The City Council has had several workshops to discuss and propose the budget. Mayor Sandy Griffin stated "Many hours of work from the council and Administrator Hassan have been put into this budget and this is a good budget for the city at this time."

Water rates to change

"Water usage is down because of the rains." "The Texas Water Commission has issued new guidelines to calculate water rates." "Everyone is supposed to be conserving water."

These are three statements made by the City Council as to reasons for "changing" city water rates.

The new proposed rates are a $6.00 base charge and $2.64 per 1,000 gallons. The present rate is a $9.00 base charge and 1.85 per 1,000 gallons. These rates are for the residents within the city limits.

The proposed rate for water usage outside the city limits is a $9.00 base charge and $3.96 per 1,000 gallons.

The base rate, according to City Administrator Aref Hassan, is to cover distribution of water costs. The per gallon charge should cover lake maintenance and water preparation costs.

The average residential user of water inside the city of Winters uses 7,000 gallons of water a month. This water bill is now $21.95. Under the proposed rate change, this bill would be $24.48. Below is a chart showing new and old rates.

The proposed rate would take effect October 1, 1992.

Gallons	Present rate	Proposed rate
1,000	10.85	8.64
2,000	12.70	11.28
3,000	14.55	13.92
4,000	16.40	16.56
5,000	18.25	19.20
6,000	20.10	21.84
7,000	21.95	24.48
8,000	23.80	27.12
9,000	25.65	29.76
10,000	27.50	32.40

Winters Area Economic Development Corporation studies possibility of prison unit for this community

In the regular meeting of the WAEDC on August 5, City Administrator Aref Hassan presented information on a 200 bed Special Needs/Parole Offenders prison.

Motion was made by Mac Sayles for a group from the corporation to be sent to Huntsville for a meeting on August 7 to secure more information regarding the prison. Those attending the meeting in Huntsville were Aref Hassan, Nelan Bahlman, Bob Prewit, and Joe Gerhart.

The group met with individuals who offered to set up a town meeting with a slide presentation and explain all the facts of a prison unit in a community. It is anticipated that at the next meeting of the State legislature additional beds will be funded for state prisons.

The Winters group is looking into making a proposal for a possible prison unit in this community.

This information was presented to the other members of WAEDC on August 12. Further information will be forthcoming.

WAEDC members present were Nelan Bahlman, Archie Jobe, Tommy Lancaster, Aref Hassan, Joe Gerhart, Randall Conner, Mac Sayles, and Gary Moore.

North Runnels Hospital drops 1992 tax rate

The North Runnels Hospital Board lowered this year's tax rate in a meeting Monday, August 10.

Having paid off the original bond on the hospital, the tax rate was lowered from $.28 per $100 valuation to a proposed $.25341 for 1992.

The proposed budget for 1992-1993 is $1,818,277 compared to 1991-1992 actual of $1,832,091.

"Having two doctors in town for a year has helped the hospital stay on its feet," Administrator Bob Prewit stated. "We will have to be watchful of the Medicare situation for the next year because of the Presidential election. If the government cuts Medicare, we will have to be careful."

The prisoner, Rachel Fern Baker, was being held for parole violation on a former escape conviction from Oklahoma.

Baker is described as 5-foot-2 and 135 pounds, brown hair and green eyes. She was barefoot and wearing a blue jail shirt and cut-off shorts when she escaped at approximately 5:30 p.m., the reports said.

OIL BIDNESS . . .

By Reg Boles ©1992

I've decided to turn over a new leaf.

It has been mentioned a few times to me as of late that I sound like I am asking the government to bail out the domestic petroleum industry.

I initially recoiled at such an accusation, because I don't feel that way at all . . . or, at least, I don't think I do. That started me to thinking.

I may be going off the deep-end on this thing about the domestic industry being forlorn and forgotten. I may need to listen to some of my own adivce.

That advice would be to stop being depressed, or it will become a depression. You may recall words to that effect about 18 months ago in this very column.

I said that we all should stop expecting the worst about the economy, or it would go down the tubes just because our lack of confidence stopped us from building, spending, and growing.

Well, the same goes for the domestic petroleum industry.

I hereby change my tune.

From now on, I am going to stop whining and start following the captilalists' credo: if it ain't making money, better fix it or do something else.

This simple principle works because it puts capital and people where the natural demand in the economy wants and needs them. The centrally planned economies in the former Soviet Union didn't work because this rule wasn't followed.

Instead, those systems relied on governments to determine where a certain product or service was required. This doesn't work, but if markets are allowed to work, the profit motive will cause people to determine what kinds of products and services pay. Those that pay are what the members of an economic system really want and need, thus everything is taken care of in good time.

A little over-simplified, but you get the point.

So, I am going to start talking more about the positive opportunities in the oil patch and less about the problems. That doesn't mean there aren't some inequities that need to be corrected by the government, but it does mean the petroleum industry will profit (there's that word, again) more by doing what makes money and less by worrying about the inequities.

It would do the whole economy good if we would stop harping on the negatives and start doing something that makes money. Start a business, improve your efficiency in your current job, be a more enthusiastic salesman for yourself and your employer, go out on a limb and invest in a good idea of company, etc . . .

Let's get started right here in the oil patch. There are properties to be bought and developed. There are others to be out-hustled for that lease or prospect. There is gold in them 'thar hills! We have to look for it first, though. That means failures, but it also means successes. May the hardest working people win.

Uh oh. Looks like my 'turning over a new leaf' did not include me stopping my preaching. Bear with me . . . addicts take time to rehabilitate.

From The Well

by
Pastor Jim Hanson
St. John's Lutheran Church

In a recent article in a magazine I read, the author relates, "I've learned that non-prescription medications are now available for the treatment of hemorrhoids, vaginal yeast, constipation, diarrhea, and morning breath." He goes on to ask, "What about something to cure anger?"

What about anger? Some people seem to be angry most of the time. There is the story about a woman with a fiery temper. She died. As her casket was lowered into the grave, a storm suddenly arose. The wind howled, lightning flashed and struck a nearby tree. Her husband quickly looked up to heaven and said, "She has arrived."

I've had my problems with anger. Sometimes it has really gotten a hold on me. On one counseling session years ago, a Christian psychiatrist told me, "Jim, I agree with everything you said. About the national church. About the plight of the pastor. About what's happening in politics. About what is happening to our standards." But he added, You've got to do something abut your anger. It's eating you up."

He was right of course. And since that time I have learned some things about anger. One thing I have learned is that when I am angry, is important to say so, to speak it out, to say, "I am angry." Every time say "I am angry," it modifies the feeling of anger. It releases the hold f anger on me. As I speak it out, naming the feeling of anger, the anger eems to run out of gas.

The apostle Paul says three things about anger in Ephesians 4:26. irst he says, "Be angry." Go ahead, feel your anger. Say it out loud, I am angry." It's OK. Butsecond, he adds, "Do not sin." Don't express our anger by hurting another person with angry words or physical ouse. And third he says, "Let not the sun go down on your wrath." Make sure you get rid of it, by expressing it, by saying it, "I am angry." tored up anger turns sour. It spoils. It turns into the corroding acids f resentment and hated when we hold on to it. We don't need acid in ur lives. We need love. And that, after all is the cure. John says it, "lerfect love casts out fear" in I John 4:18. Let the anger out and let God in.

Spirit Filled Happenings

By Jan Thompson
Guiding Light Spirit Filled Baptist Church

It was just a few weeks back that our Bible Teacher, Jo Miller, brought to our attention the fourth chapter of Matthew; what a great lesson it was.

Jesus had just been Baptized in water by John and the Holy Ghost came upon Him. The voice from heaven had spoken, "THIS IS MY BELOVED SON, IN WHOM I AM WELL PLEASED." God speaking. Then comes the temptation from the tempter himself, satan.

Notice if you will, the Spirit led Jesus into the wilderness to be tempted by the devil. He was led into the wilderness for no other purpose but to be tempted. It was not just to get away for a vacation, nor was Jesus led into the wilderness just to get away from other people; He was led by the Spirit to be tempted. He went into the wilderness to prepare for a ministry that was to bring Him to the cross. Forty days of fasting was now at an end, and here comes the pains of hunger, the desire for some of mama's good home cooking and a cool drink of that fresh well water out in the back yard.

Look at verse three . . . Now when the tempter came to Him, he said, "If thou be the Son of God command these stones become bread." Can you see this picture with me? Here is a man that has just come off a forty day fast, and yes he is very hungry (verse two) and the first thing he is tempted with is food, the IF . . . Don't you know that Jesus knew who he was. Sister Jo said it in this way, "Jesus could have said, look here satan, don't you know who I am, don't you know who it is you're talking to?" It was evident that satan did have a few doubts for he had said, "If . . . thou be the SON of GOD turn these stones into bread." Yet down deep he knew that this man he was tempting was a bit different.

Being tempted by satan is still one thing you can look and see in your life. That is his job. The job of satan is to bring you down low if he can. If you have Jesus in your life, you can neither fail nor fall for satan's tricks because greater is He that is in you than he that is in the world.

Your temptations can be overcome if you make up your mind to live a life for Jesus and not let satan get to you. There is a way to be a winner, and that is to be in Church each time the doors are open for worship.

You are invited to worship where the Lord will always be exalted and the devil will be put down. Guiding Light Spirit Filled Baptist, Church 1017 North Cryer, is where the mighty works of God are still in operation. Sunday at 9:45 and 11:00 a.m. then at 6:00 p.m. with Bible study on Wednesday at 7:00 p.m. Pastor Thompson preaches the ole fashion gospel right from the Word of God.

We'll never fail, never fail
Hip, hip, hooray!

Parent/Guardian:

The Winters school serves meals each school day. Children may buy lunch for 1.50 and breakfast for 1.30. Children may also get meals free or at a reduced price. 1.65 (Grades 7-12)

If you now get food stamps or AFDC for your children, your children can get free meals. If your total household income is the same or less than the amounts on the Income Chart below, your children can get free meals or reduced price meals. A foster child may get free or reduced price meals regardless of your income. The reduced price is 40c for lunch and 30c for breakfast.

TO GET FREE OR REDUCED PRICE MEALS FOR YOUR CHILDREN, YOU MUST COMPLETE AN APPLICATION AND RETURN IT TO THE SCHOOL. WE CANNOT APPROVE AN APPLICATION THAT IS NOT COMPLETE.

HOW TO APPLY

If you now get food stamps or AFDC for the children you are applying for, the application must have the children's names, a food stamp or AFDC case number for each child, and the signature of an adult household member.

If you are applying for a foster child, the application must have the child's name, the child's "personal use" income, and an adult signature.

If you do not list a food stamp or AFDC case number for all children you are applying for, then the application must have the children's names, the names all household members, the amount of income each person got last month and where it came from, the signature of an adult household member and that adult's social security number or the word "none" if the adult does not have a social security number.

Verification: Your eligibility may be checked at any time during the school year. School officials may ask you to send papers showing that your children should get free or reduced price meals.

Fair Hearing: You may talk to school officials if you do not agree with the school's decision on your application or the results of verification. You may also ask for a fair hearing. You may do this by calling or writing:

Name Business Manager Phone 754-5574

Address P. O. Box 125 - Winters, Texas 79567

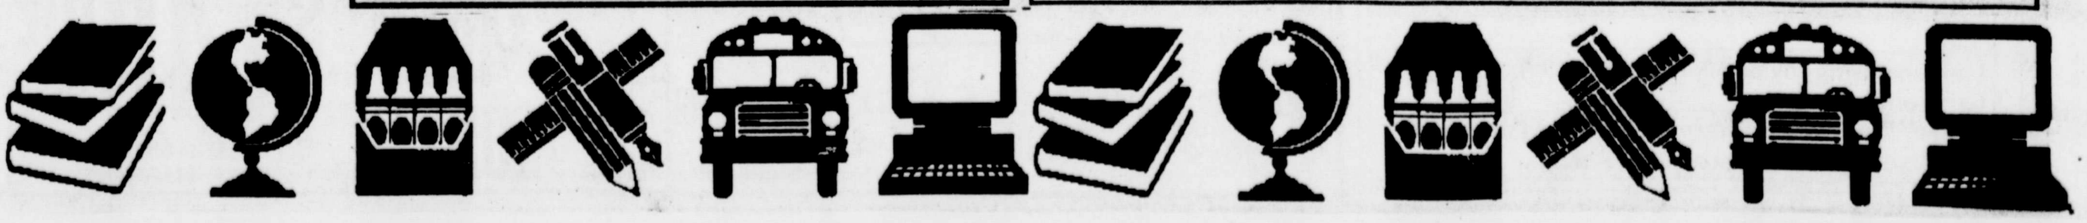

Reporting Changes: If your children get free or reduced price meals because of your income, you must tell the school if your household size decreases or your income increases by more than $50 per month or $600 per year. If your children get meals because you get food stamps or AFDC, you must tell the school when you are not getting AFDC or food stamps for them. You may then fill out another application giving income information.

Confidentiality: School officials use the information on the application only to decide if your children should get free or reduced price meals.

Reapplication: You may apply for meals anytime during the school year. If you are not eligible now but have a change in status, like a decrease in household income, an increase in household size, become unemployed or get food stamps or AFDC for your children, you may then complete an application.

Handicapped: Meal substitutions at no additional cost for children who meet the definition of "handicapped" will be served, provided a physician has submitted a statement attesting to this fact and prescribing a substitute.

Parents should help build strong rapport with child

If your child shrugs when you ask him how his school day went, ask again.

"Don't accept a child's answer that nothing happened. The child was in school for five hours. Something must have happened," observes Sister Maria Ciriellio, assistant education professor at The Catholic University of America.

Drawing a youngster out about what is happening in class shows him that his parents share his interests and care about acamdemic performance, she says. That is especially important if working parents have less time to go on field trips, visit classrooms or volunteer for school activities.

Regular conversation about school can build rapport so the child will reveal both good and bad news.

And go beyond asking about tests and marks. "Draw your child out on topics discussed in classes, songs practiced in music, and games played at recess. And add your thoughts," she advises.

"If school is important to parents, it will be important to children."

NOTICE OF EFFECTIVE TAX RATE
1992 Property Tax Rates

This notice concerns 1992 property tax rates for City of Winters. It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's *effective* tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's *rollback* tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per $100 of property value.

	Last year's tax rate:		
	Last year's operating taxes	$	258,870.00
	Last year's debt taxes	$	.00
	Last year's total taxes	$	258,870.00
	Last year's tax base	$	42,654,490.00
	Last year's total tax rate	$	.60690/$100
	This year's effective tax rate:		
	Last year's adjusted taxes (after subtracting taxes on lost property)	$	260,117.00
÷	This year's adjusted tax base (after subtracting value of new property)	$	40,985,670.00
=	This year's effective tax rate	$	.63465/$100

(In the first year a hospital district or city collects the additional sales tax it must insert the following lines unless it made its first adjustment last year:)

–	Sales tax adjustment rate	$	NA/$100
=	Effective tax rate	$	NA/$100
x	1.03 = maximum rate unless unit publishes notices and holds hearing	$	.65368/$100
	This year's rollback tax rate:		
	Last year's adjusted operating taxes (after subtracting taxes on lost property)	$	432,156.00
÷	This year's adjusted tax base	$	40,985,670.00
=	This year's effective operating rate	$	1.05440/$100
x	1.08 (or add $.08 for schools) = this year's maximum operating rate	$	1.13876/$100
+	This year's debt rate	$	.00/$100

(A school district must insert the following lines)

=	This year's rollback rate before adjustment	$	NA/$100
+	Rate to recoup lost revenue	$	NA/$100
=	Adjusted rollback rate	$	NA/$100
=	This year's rollback rate	$	1.13876/$100

(A hospital district or city that collects the additional sales tax (including one that collects the tax for the first time this year) must insert the following lines:)

-	Sales tax adjustment rate	$	.39732/$100
=	Rollback tax rate	$	.74144/$100

SCHEDULE A: Unencumbered Fund Balances

The following balances will probably be left in the unit's property tax accounts at the end of the current fiscal year. These balances are not encumbered by a corresponding debt obligation.

Type of Property Tax Fund	Balance
General Fund	$20,000.00

SCHEDULE B: 1992 Debt Service

The unit plans to pay the following amount for long-term debts that are secured by property taxes. These amounts will be paid from property tax revenues (or additional sales tax revenues, if applicable).

Description of Debt	Principal or Contract Payment to be Paid	Interest to be Paid	Other Amounts to be Paid	Total Payment

	Total required for 1992 debt service	NA
–	Amount (if any) paid from funds listed in Schedule A	
–	Excess collections last year	
=	Total to be paid from taxes in 1992	
+	Amount added in anticipation that the unit will collect only ___% of its taxes in 1992	
=	Total Debt Service Levy	

SCHEDULE C: Expected Revenue from Additional Sales Tax

(For hospital districts, cities, and counties with additional 1/2 cent sales tax)

In calculating its effective and rollback tax rates, the unit estimated that it will receive $172,039.00 additional sales and use tax revenues.

This notice contains a summary of actual effective and rollback tax rate calculations. You can inspect a copy of the full calculations at the City Hall, 310 S. Main, Winters, Texas.

Danny Long

Danny Long, Mills County Extension Agent has been selected by the National Association of County Agricultural Agents to receive the N.A.C.A.A. Distinguished Service Award. The D.S.A. is the highest award given by the N.A.C.A.A. It is a highly prestigious award that is awarded to less than 3% of the agricultural agents in the nation annually.

Danny was selected to receive the D.S.A. because of his highly successful Extension educational programs in Mills county.

Danny will officially receive his award at the N.A.C.A.A. annual meeting in Little Rock, Arkansas during the week of August 9-13, 1992. He will also be recognized along with the five other Texas D.S.A. recipients at the Texas County Agricultural Agents Association annual meeting in El Paso during the week of August 2.

Danny Long has served 23 years with the Texas Agricultural Extension Service. Most of those years as County Extension Agent-Agriculture in Mills County.

In 1987 Danny was named the Mills County Citizen of the Year which is an example of the quality extension programming Danny provides for the residents of his county.

In 1979, Danny received the Texas Plant Food Institute County Soil Fertility award. In 1983, he received the Texas Agricultural Extension Service Superior Service Unit Award. In 1989, he received the County level award Texas section for the Society of Range Management.

Danny is a strong supporter of the Texas County Agricultural Agents Association and has held membership in the association throughout his career. He previously served as alternate director for his district in T.C.A.A.A. and currently serves as director for extension district 9 T.C.A.A.A. members.

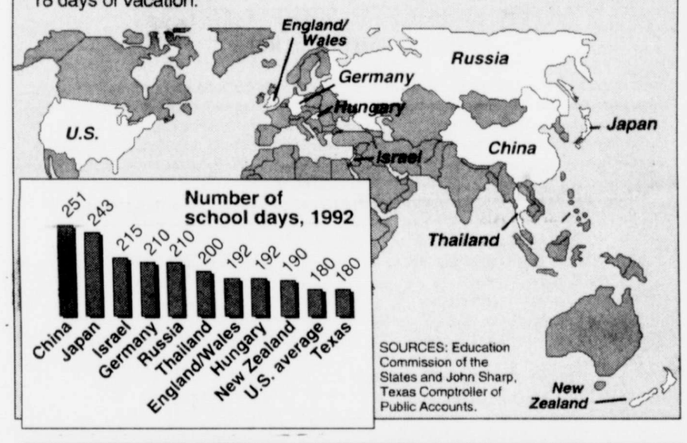

Danny is a graduate of Tarleton State University. He and his wife, Becky, reside in Goldthwaite. He is also a Winters High School graduate.

Danny has three daughters, Tassie Hammond of Goldthwaite, Mindy Long of Stephenville and Jenny Long, a junior at Howard Payne University in Brownwood.

Danny and Becky are the son-in-law and daughter of C.R. and Cassie Knight of Winters.

Winters resident to serve in the U.S. Peace Corps

Russel D. Stone, son of Len and Cynthia Stone who reside in Irving, has been accepted into the Peace Corps. Russell is the grandson of Maurine Davis of Winters.

He will be departing for Guatemala on October 19 after completing orientation sessions in the United States. As a Peace Corps Volunteer, Stone will work as an Agricultural Diversification Extensionist. He will base his work on a socioeconomic survey, which he will complete, to assist with soil use and improvement, treatment of diseased plants, and improved planting, crop storage, food preparation and marketing techniques.

A graduate of Winters High School, he attended Texas Tech University graduating in Agricultural Communications in 1991. Stone previously worked as a Sorghum Research Assistant, an Agricultural Features Writer and a Pest Management Scout.

Currently almost 6,000 Americans of all ages and occupational backgrounds serve as Peace Corps volunteers. There are over 60 different types of development programs in 90 countries around the world.

Guatemala is located just south of Mexico. It is about the size of Tennessee and is bordered by Belize and the Caribbean Sea to the east, Honduras and El Salvador to the south, and the Pacific Ocean on the southwest side. Spanish is the official language but four other languages are also spoken there, Quiche, Cakchiquel, Mam and Kekchi. The Peace Corps opened its program there in 1963 and currently there are 244 volunteers serving there.

Peace Corps officials note that a college degree is necessary for most assignments. However, an individual with at least three years of full-time work experience, in a relevant field, may qualify for service. In addition, one must be a United States citizen, in good health, and willing to commit a minimum of 27 months to overseas service.

Applications are now being sought for winter and spring assignments. Individuals interested in obtaining more information on Peace Corps opportunities should call: (214) 767-5435, extension 613 or toll-free, (800) 527-9216, extension 613. Or write: Peace Corps, P.O. Box 638 400 North Ervay, Dallas, TX, 75221.

Grady Bryan participates in Russian Evangelistic Outreach program

Grady Bryan, son of Sealy and Nancy Bryan of Winters, is participating in the Summer '92 Campaign of the Russian Evangelistic Outreach. The program is based in San Angelo, under the leadership of the West Angelo Church of Christ.

Grady left for Kiev, Ukraine from Dallas on July 6, 1992. He will return to Dallas on August 20, 1992.

He has written of experiences thus far in the "Freedom Chronicle" of the Russian Evangelistic Outreach. Grady writes "The Ukranian people are simple - not simple minded, but simple in life." He estimates that their lifestyle must be similar to that of Americans 40 years ago. Grady feels that his experience has been "richly blessed."

A 1986 graduate of Winters High School, Grady attended the Old Norton Church of Christ. He has been involved in the ministry for several years. During the summers of 1985, 86, and 87, he was the Youth Minister for the Ninth Street Church of Christ in Ballinger.

Traveling abroad during the summer of 1988, he worked with a mission team at Kitake, Kenya in East Africa. Grady then served as the Youth Minister for the West College and 3rd Church of Christ in Lockney, Texas during the summers of 1989 and 1990.

Grady graduated from Abilene Christian University in 1990. In April of 1990, he was ordained as a Minister of the Gospel to teach God's word by leaders of the Ninth Street Church of Christ in Ballinger.

Presently, Grady teaches freshman English at Texas Tech University in Lubbock, Texas. He is one of the ministers at the Quaker Avenue Church of Christ in Lubbock, and he hopes to finish work on his Master's Degree in English during the 1992-93 school year at Tech.

Storage payments resume for reserve

The nonstorage earning period for reserve wheat ended June 29, entitling farmers to resume earning the 26.5 cents per bushel storage payments on their reserve wheat, according to B.J. Colburn, Chairman of the Runnels County ASC Committee.

"This will not limit producers ability to market wheat in the reserve at their discretion," Colburn said.

Reserve wheat storage payments stopped January 28 when market prices for wheat reached $3.82 per bushel, 2 cents over the reserve storage-stop trigger level. The payments were discontinued until prices fell below 95 percent of the wheat target price and remained below this level for 90 consecutive days.

"March 30 was the last day that the wheat market price equaled or exceeded 95 percent of the target price," said Mr. Colburn. "Therefore, June 29 marked the end of the 90-day nonstorage earning period."

The ASCS official explained that a moving five-day average price is determined each day for wheat by adjusting daily weighted average major terminal market prices using a monthly adjustment factor.

The program is designed to remove grain from the market until prices reach more desirable levels.

NOTICE OF PUBLIC HEARING ON TAX INCREASE

The City of Winters will hold a public hearing on a proposal to increase total tax revenues from properties on the tax roll in 1992 by eight (8%) percent. Your individual taxes may increase at a greater or lesser rate, or even decrease, depending on the change in the taxable value of your property in relation to the change in taxable value of all other property.

The public hearing will be held on August 24, 1992 at 6:00 p.m.

FOR the proposal: Aldermen Spill, Loudermilk, Murray, and Esquivel

AGAINST the proposal: None

PRESENT and not voting: None

ABSENT: None

The statement above shows the percentage increase the proposed rate represents over the $.63465 tax rate that the unit published on August 13, 1992. The following table compares taxes on an average home in this taxing unit last year to taxes proposed on the average home this year. Again, your individual taxes may be higher or lower, depending on the taxable value of your property.

	Last Year	This Year
Average home value	$20,000	$20,000
General exemptions available (amount available on the average home, not including senior citizen's or disabled person's exemptions)	$-0-	$-0-
Average taxable value	$20,000	$20,000 proposed
Tax rate	.60690/$100	.68542/$100 proposed
Tax	$121.38	$137.08

Under this proposal taxes on the average home would increase by $15.70 or twelve (12%) compared with last year's taxes. Comparing tax rates without adjusting for changes in property value, the tax rate would increase by $.07852 per $100 of taxable value or 12.93% compared to last year's tax rate. These tax rate figures are not adjusted for changes in the taxable value of property.
