VANGUARD MOON IS BLASTED INTO SPACE

Contracts For New Jr. High Awarded Here

Contracts totaling almost $1 million were awarded last night by the Snyder school board for the construction of the new junior high school to be built in west Snyder west of El Paso Avenue.

The total of all contracts issued is $997,800. Low bidders on each of the contracts got the awards. The bids were read by Fred Buford of Dallas, architect for the schools, as they were opened by Max West, board president.

General contractor is Kelley Construction Co. of San Angelo, which had the low base bid of $738,600. The board also accepted two alternates, one for bricking the gymnasium for $8,000 more and one for ceramic tile in the physical education rooms for $5,600 more. There were 12 bidders for the general contract.

Howell Electric Co. of Snyder is electrical contractor on its low bid of $56,000. It was among 10 bidders on the electrical contract.

Awarded the mechanical contract was R. W. Gray of Odessa, who had the low base bid of $183,108. The board also accepted an alternate for a sprinkler system on a part of the campus for $6,492 extra. There were 13 bidders on the mechanical.

Kelley specified 365 days for completion of the building, which will have some 85,000 square feet of floor space. The Kelley firm was builder of the Northeast Elementary School here.

In other action in the brief board meeting following the bid opening, the board approved the corrected budget for the budget year now ending. The corrected budget is $1,807,890.97 operating and $583,617.47 for the interest and sinking fund. Doug Flynn, director of business services, reported that spending, before approval by the board as corrected, exceeded the allocated amount by $7,627.97, but there were sufficient receipts to cover that.

The board also approved installation of an evaporative air conditioner in the frame structure at Central Elementary School used for exceptional children, at a cost of $25.

In their bids for the general contract, contractors gave completion times ranging from 335 to 435 days.

Base bids of unsuccessful bidders on the general contract were S. R. Duncan, Lubbock, $764,477; M. Z. Collins, Austin, $794,000; Cooper Construction, Odessa, $827,500; R. G. Farrell, Odessa, $828,000; Yates Construction, Dallas, $834,660; A. P. Kasch & Sons, Big Spring, $837,121; W. R. Grimshaw, Odessa, $839,640; Rose Construction, Abilene, $849,950; Harry E. Miller, Lubbock, $854,000; Templeton - Cannon, San Angelo, $875,600; and Shiflett Bros., Abilene, $895,585. Kasch also submitted a combined general and mechanical bid of $1,057,121.

Other electrical bidders were Boss Electric, Snyder, $63,765; Brown Electric, Odessa, $64,500; Hubbard Electric, Odessa, $66,665; Phillips Electric, Midland, $69,425; C&D Electric, Big Spring, $69,965; Tarver Electric, Lubbock, $72,462; Butcher Electric, Dallas, $74,445; American Electric, Lubbock, $77,210; Southwest Electric, Odessa, $77,896.

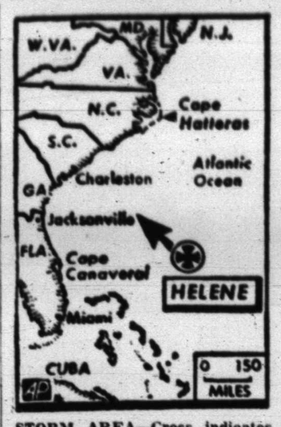

Other mechanical bidders were R. G. Farrell, Odessa, $188,708; Bowen Plumbing, San Angelo, $204,646; David Vickers, Sweetwater, $207,277; Roundtree Co., Lubbock, $221,000; Burden Bros., Dallas, $222,800; R. M. Wells, Quanah, $225,000; C. C. White, Albany, $225,450; W. H. Kuhn, Dallas, $233,850; Nuckols Air Conditioning Waco, $241,500; L. R. Bollinger, San Angelo, $242,000; Rose Bros., Irving, $242,010; A. P. Kasch & Sons, Big Spring, $245,812.

This is the second new school being built under the present $2,325,000 building program. The Stanfield Elementary School is now under construction at Forty-third Street and Avenue V.

Also under the present building program, an addition to the school warehouse at Avenue M and Thirtieth Street has been completed and a sprinkler system on the high school campus has been completed.

Work is in progress on additions and improvements to the present junior high, including expanded cafeteria, science and homemaking facilities and a new field house at the junior high practice field, which will become a junior high playing field. A new junior high practice field on the central campus has been completed.

Not yet under contract are the refurbishing of the junior high gymnasium and the addition to the school administration building.

STORM AREA—Cross indicates approximate location of Hurricane Helene which is moving toward the South Atlantic coast. It is several hundred miles east of the Cape Canaveral, Fla., missile test center. (AP Wirephoto Map)

Hurricane Heads To Atlantic Coast

MIAMI, Fla. (AP)—The Weather Bureau ordered up hurricane warnings today from Cape Fear, North Carolina, to Savannah, Georgia.

The bureau said hurricane Helene was centered 200 miles southeast of Charleston, S.C., at 11 a.m., EST.

It was still moving northwestward at 14 miles an hour.

"Safety precautions should be started immediately and completed by sunset," the emergency warning from the bureau said.

"Storm tides and high seas will flood coastal lands from Beaufort to Wilmington, N.C., and particularly from Charleston to Cape Fear, to heights of 4 to 6 feet above levels reached by normal tides for this date.

"In some local areas tides may be even higher."

The bureau said also:

"Destructive winds and dangerously high tides should begin by early this evening and are expected at the latest by 10 p.m. with maximum winds 75 to 100 miles near the center of the hurricane beginning around or shortly after midnight.

"Present indications are that the hurricane center will reach the South Carolina Coast near or a short distance north of Charleston.

"People within the reach of the forecast tides and sea floods should evacuate immediately before rising water cuts off escape."

The bureau said no important intensification of the storm's violence was expected.

The storm was reported centered about 260 miles east of edges of the gale winds at the forward fringe were estimated at 110 miles southeast of the South Carolina coast.

Cool Weather Is Due For Next Five Days

DALLAS (AP)— The Weather Bureau issued today this 5-day outlook for Sept. 26-Oct. 1:

East and Central Texas: Temperatures 2 to 6 degrees below normal. Colder at weekend. Precipitation generally heavy in showers and thundershowers through Sunday.

West Texas: Temperatures 2 to 6 degrees below normal. Cool with no significant changes. Precipitation light to moderate in showers through Saturday.

Faubus Sees Riot If Negroes Enroll

LITTLE ROCK, Ark. (AP) — Gov. Orval E. Faubus said today violence may break out again in Little Rock this year if attempts are made to enroll Negro children in the high schools when they are reopened.

The city is preparing to vote Saturday on whether to reopen the schools on an integrated basis. If they vote against that proposition, the governor said he would reopen them as private schools, and segregated.

Reporters asked at his news conference today if he expects trouble, should anyone attempt to bring Negro children to the schools. He said there might be, but he would not say whether he plans to call out the Arkansas National Guard, as he did last year.

Proceeding the news conference five clergymen read a statement they said was signed by 80 ministers backing Faubus' position on the schools.

"We believe that integration is contrary to the will of God. Our beliefs are not based on prejudice or bias, but on sound Bible interpretation; while integration is based on a false theory of the 'universal fatherhood of God and the universal brotherhood of man,'" it said.

The group was led by Rev. M. L. Moser Jr., missionary pastor of the Central Baptists Church.

Faubus said he will speak on television tonight about the referendum.

Faubus shut the schools to avoid compliance with court-ordered integration. He wants the schools to operate as private and segregated institutions.

U. S. Dist. Judge John E. Miller, sitting at Fort Smith, Ark., yesterday declined to handle the private school issue.

He dismissed petitions of the Little Rock School Board and the National Assn. for the Advancement of Colored People.

The School Board had asked if it could legally lease its schools to a private corporation. The NAACP petitioned for an injunction to prevent any such leasing.

Judge Miller said he lacked jurisdiction to rule on the questions. He said it was a matter for a three-judge court.

Wiley Branton, attorney for the NAACP, said there was a possibility he might appeal to the U.S. 8th Circuit Court of Appeals at St. Louis today.

Or, Branton said, he might sit back and wait. If any private school corporation didn't admit Negroes, he added, he might ask a court to put it under the Little Rock School Board's court-decreed program of gradual integration.

Cool Front Spreads Rain Across State

By The Associated Press

Scattered rains, sometimes torrential, fell in a wide belt Friday from the Rio Grande to the Oklahoma border.

The downpours came from a cool front stretching from Ardmore, Okla., to Mineral Wells and south into the Big Bend country. This cool front had weakened considerably and was just about stationary although it may move a little more to the southeast. Rains fell 50 miles in front and 50 miles behind the leading edge of the norther.

A second surge of cool air was moving across Colorado and should enter the Texas Panhandle Friday night. The Weather Bureau said this air mass would catch up with the stalled norther and push across the state.

Rain in the last 24 hours measured up to 5.75 inches at Plains, southwest of Lubbock in Yoakum County. New Deal got 4 inches in the same area.

Thundershowers and light rain fell early Friday at Houston and Palacios. Light rain came down on Corpus Christi and Brownsville, at Waco and Wichita Falls. Rain also fell around Beeville and Laredo.

Fog reduced visibility to zero at Guadalupe Pass; to an eighth mile at Lubbock and to a quarter-mile at Austin and Hereford.

Rainfall in the 24 hours ending at 6 a.m. included Wink 1.83 inches, Amarillo .52, Beaumont .23, Brownsville .42, Hereford 1.42, east of Kenedy 1, Corpus Christi .11, El Paso .79, Galveston .08, Houston .34, Laredo .06, Lubbock 1.18, San Angelo .07, San Antonio .19, Victoria and Big Spring .04, Wichita Falls .05, Van Horn .14, Lufkin .56, Palacios .02, Beeville .40 and Junction .28.

The Presidio area in the Big Bend had its second flood in ten days. Water from the Rio Conchos poured into the Rio Grande from northern Mexico and caused overflows that destroyed 60 to 70 per cent of the estimated 5,500 bale cotton crop.

The river had not yet fully crested. The Rio Conchos joins the Rio Grande about four miles upstream from Presidio. Redford, 16 miles east of Presidio, also had floods which put about 35 per cent of the nearby cotton acreage under water.

Far downstream, rain fell in the Lower Rio Grande Valley. San Benito reported 1.52 inches in 24 hours, Harlingen .52, Olmito .66 and Port Isabel .34.

Gunman Beats Bank Guard

FORT WORTH (AP)— A gunman pistol-whipped a 71-year-old bank guard on a Polytechnic street early today, smashing him 40 times. Doctors took nearly 200 stitches on the victim's head.

John Bosley was termed in poor condition.

The strong-willed night guard at the Continental National Bank told his story from his hospital bed.

Bosley got off work inside the bank at 12:15 a.m., he said, and took the bus home. He was walking, in plain clothes and without a gun, near his home when the man approached him.

WISH FULFILLED — Jose Gallicchio, 76, millionaire Argentine rancher, posed with his bride, Michiko Furukawa, 34, at their wedding reception in Tokyo, Japan, following their marriage in a Roman Catholic church. Marriage ended Gallicchio's quest for a Japanese bride. "Feminity and kindness" of Japanese women had impressed him, Gallicchio said. More than 300 Japanese women, ranging in ages from 17 to 45, had written to him when word leaked out that he hoped to acquire a Japanese wife. "It was love at first sight," he said. (AP Wirephoto by radio from Tokyo)

3 Rockets Work Well

By JACK KING

CAPE CANAVERAL, Fla. (AP) —A weather probing Vanguard satellite was blasted into space today and preliminary instrumentation showed the rocket's three engines performed normally.

That meant the huge rocket blazed some 300 miles high in space, probably reaching a speed of 18,000 miles per hour.

An official announcement said, however, that it was not yet known whether orbital height was obtained. This should be determined within about 2½ hours.

The first word on whether the United States had placed a fourth satellite in orbit was expected to come from the National Academy of Science in Washington in two hours.

The 72-foot, bullet-shaped rocket housed a 20-inch, 21½-pound satellite which, if orbited successfully, could spot large storm masses such as hurricanes and typhoons as they build up around the earth.

This was the seventh try at shooting a composite three-stage Vanguard, with only one success chalked up to date.

It was also the first time a Vanguard had been fired successfully in two months. During the interim the slender missile was checked out from top to bottom and a few minor adjustments made in the first two stages.

An attempted launching of this same rocket was scrubbed last week when an electrical breakdown caused automatic engine cutoff a split second before liftup. The mighty Vanguard engine ignited then with a flash but shut down just as quickly when the trouble developed.

The main mission of the "seeing eye" moon was to measure the movement and disposition of cloud cover around the world to aid meteorological studies. Two light-sensitive photoelectric cells were carried in the satellite to do the job.

The 22,600 pound rocket climbed slowly aloft at 10:38 a.m., EST.

It began to accelerate rapidly as it rose steadily into the cloud-filled Florida skies.

The sleek missile was bucking a brisk westerly wind as it roared skyward.

After about 10 seconds the olive-drab and white missile ended its vertical flight and curved toward the Southeast.

It was a tiny white dot in the sky as it darted in and out of the clouds.

After about 2½ minutes burnout was expected from the first stage engine and the second stage was due to ignite at an altitude of about 28 miles.

The lift-off appeared perfect to news observers watching from an observation tower about a mile and a half from the launching site.

If all went well, the 50-pound spent third stage rocket would trail the satellite into an eliptical orbit after attaining a velocity of 18,000 miles an hour. Thus, a total of 71½ pounds would be in orbit.

Because the payload was heavier, the latest satellite was not expected to match the imposing orbit gained by the only hitherto successful Vanguard which began a 200-year journey through space last March 17. That satellite is swinging as far out as 2,460 miles and as near as 407 miles in its 2-hour-14-minute trip through orbit.

Scientists hope that today's basketball-sized satellite will identify severe storms as they develop. In consecutive passes it possibly could produce facsimile weather maps or even a crude image to distinguish between types of clouds and earth terrain features such as coastlines and mountains.

The newest American moon, the third of its size aimed toward orbit, is designed to record and transmit the variations in intensities of light reflected from earth.

Clouds reflect 30 to 80 per cent of the sun's light while cloud-free parts of the earth reflect only 10 to 20 per cent. Because outer space is black the cells will react only to the relative light of the earth.

The data received will be applied to the overall meteorology of the earth, possibly improving long-range weather predictions.

The satellite's instruments will operate only during the daylight portions of the orbit, scanning the clouds and earth's surfaces in strips 200 miles wide. The information will be stored on a miniature tape recorder and related in a one-minute broadcast to 11 "minitrack" stations around the globe.

Quemoy Gets Fresh Supplies Despite Red Artillery Fire

By JAMES CARY

TAIPEI, Formosa (AP)—Fresh supplies poured to Quemoy's defenders by air and sea amid heavy Communist artillery fire today.

The buildup came as the Chinese Nationalists announced another aerial victory that boosted their claimed kills to 29—without a Nationalist loss—since the Aug. 23 flareup of the offshore war.

Pilots reported one MIG17 shot down and another possibly damaged in a battle late yesterday off Swatow between four of their American-built Sabre Jets and 16 of Red China's Soviet-supplied fighters.

The first Nationalist ship convoy to cross Formosa Strait since Monday sailed through a Red barrage and sent amphibious vehicles racing to Quemoy's beaches with cargo to replenish garrison stocks. Four correspondents witnessed the operation on a flight back to Taipei.

Transport planes parachuted high-priority supplies to the island overnight through skies peppered by bursting shells. It was the third such operation in three nights.

Though the supplies are flowing again, the big questions are how much is getting through and how long the blockade-hunkering can be kept up.

These are vital questions because American policy of containing the Formosa Strait war seems now to hinge on denying the Reds the chance to starve out Quemoy.

Warships of the U.S. 7th Fleet are escorting the convoys. Destroyers made the run today with the supply ships. Newsmen sighted two or three flying the American flag. The warships stayed well outside the three-mile limit.

Sources close to President Chiang Kai-shek let it be known they feel even the present massive supply effort eventually will fail.

They contended the United States must choose between a firm declaration to defend the islands, and thus perhaps persuade the Reds to abandon the blockade, or face the prospect of an eventually enlarged war with bombings by both sides.

They suggested that both Quemoy and Matsu should be placed under the wing of the present U.S.-Nationalist defense treaty, which now guarantees American assistance against attack on Formosa and the Pescadores only.

Hundreds of tons of supplies are needed daily for current use and to maintain reserve stocks. Two weeks ago almost nothing was getting through. But recent statements of both Chinese officials and American advisers indicate things are looking up for the island, five miles off Red China.

Nationalist Vice President Chen Cheng declared publicly the Red blockade has been broken. But military officials are not that optimistic.

A new obstacle to the supply line is the monsoon season, just beginning, which produces mountainous waves in Formosa Strait.

Undercover Agent Shoots LCB Man

GLADEWATER, Tex. (AP) — Gregg County officers pressed their investigation today of the shooting and serious wounding of a state Liquor Board supervisor here yesterday.

The supervisor, John Hoyt with headquarters in Longview, was shot in the stomach when he went to a Gladewater motel to investigate a report that two men posing as Liquor Board agents were registered at the place. His condition today was described as fair.

Billy Means, 25, of Dallas, an undercover agent for the board, was questioned in jail at Longview. He was charged with assault with intent to murder. He said the shooting was an accident.

Justice of Peace Mack Harrison said he had not set a bond for Means.

A. R. Cartlidge of Austin, assistant to the chief of the enforcement division of the liquor board, came here to investigate the shooting. He questioned Means.

Means and Ed Hall, 25, of Dallas, two undercover agents with three months experience, had been sent to Gladewater from Austin without Hoyt's knowledge. Hall was in another cabin at the motel when the shooting occurred.

E. A. Gordon, head of the Liquor Control Board's enforcement division in Austin, said Means and Hall were on a secret mission in Gladewater and declined to discuss the nature of the assignment.

Hoyt, stationed in nearby Longview, and agents John Stevens and W. D. Lawless, first went to Hall's cabin. He had been asleep and told Hoyt he would talk to him as soon as he put on shoes.

The three East Texas officers then went to Means' cabin, knocked, and told him they were officers and wanted to talk to him.

Dist. Atty. Ralph Prince of Gregg County said Means opened the door, stuck out a pistol and shot Hoyt. "I got excited and shot him," Prince quoted a statement written by Means. "I saw his pistol, badge and big hat and knew he was an officer."

Earlier, Means was quoted by Neal Clark of the Gladewater Mirror as saying that he had a gun in his hand when he cracked the door to see who had knocked. He claimed Hoyt pushed the door with his foot and that the gun discharged.

Debbie Puts Fisher Home Up For Sale

HOLLYWOOD (AP)—For sale: Three-bedroom home in Palm Springs with elegantly furnished guest house and swimming pool.

That's the gist of an ad Debbie Reynolds is running in a Hollywood trade paper for the desert resort hideaway where she and Eddie Fisher and their children spent many holidays.

The couple's three-year marriage collapsed under pressure of reports that the singer was dating Elizabeth Taylor.

GM Claims General Strike Staged

By CHARLES C. CAIN

DETROIT (AP) — General Motors Corp. today accused the United Auto Workers Union of staging what it said amounts to a general strike in advance of the Tuesday morning deadline set by the union.

Vice President Louis Seaton, head of the GM bargaining team, told newsmen the company believed the series of hit-and-run walkouts which idled over 45,000 workers at 20 GM plants across the country today were condoned by UAW leaders.

Walter Reuther, UAW president, replied that GM simply was reaping the fruits of action in canceling out contracts several months ago when they knew such action would result in a large amount of resentment among the workers.

The union Thursday night warned its members to avoid their cars in the parking lot and picket line incidents. Two such outbreaks were reported yesterday on the eve of Reuther's personal entry into the last-ditch talks.

GM, biggest of the auto makers and with 250,000 UAW members among its 325,000-man work force, gave no indication it planned to sweeten its offer of a three-year contract with concessions almost identical to those on which Ford and the UAW settled Sept. 17.

Chrysler, which like GM has not settled with the UAW, had over 26,000 workers idle in local walkouts. Ford reported nearly 12,000 still out in disputes over local work conditions.

The seriousness of the work stoppages was emphasized when Chrysler announced it had postponed public introduction of all but one of its 1959 models because of what the firm called "the erratic labor situation."

The most serious incident occurred at the Detroit Cadillac plant, where more than 3,500 workers stayed off the jobs with several hundred forming picket lines. The violence developed when Dr. Douglas J. Wood, Cadillac medical director, attempted to drive out of the executives' parking lot.

GM spokesmen said more than 150 pickets thronged about Wood's car, kicked in the side panels and smashed the windshield and side windows. The doctor, who was uninjured, backed into the parking lot again and later left in a taxicab by a side entrance.

More than 20 other Cadillac executives, including General Manager James Roche, remained in the plant for more than an hour after the incident and finally left and went home by taxi.

In the other incident, some supervisory workers at the suburban Warren Technical Center told police the distributor wires on their cars were torn loose by persons unknown while several hundred pickets from the plant's 3,300 workers ringed the plant.

The UAW said its first knowledge of the two alleged incidents came from GM negotiators shortly after they began a night bargaining session. UAW Vice President Leonard Woodcock interrupted the meeting to send two of his top aides to the Cadillac plant to warn pickets not to take part in any incidents.

Woodcock said the union would make a thorough investigation of the alleged violence and if it found the reports were true, would take steps to make certain there was no repetition.

Reuther led his bargaining team to GM headquarters after failing Wednesday in his drive to get a settlement from Chrysler.

The UAW already has a contract agreement with Ford, other member of the Big Three, and is preparing now for a secret ballot among 98,000 Ford workers on acceptance of the three-year contract which would provide workers with an additional 24 to 30 cents an hour over the life of the contract. The UAW's National Ford Council approved the pact yesterday. Ford workers now average $2.62 hourly.

GM and UAW sources said considerable progress has been made in settling differences on insurance, death benefits and health insurance but the main issues—wages, supplemental insurance pay and severance pay were still to be resolved.

First Rio Grande Valley Citrus Moves

WESLACO, Tex. (AP)— What was believed to be the first truck load of citrus fruit to leave the Lower Rio Grande Valley this season was shipped from here late yesterday.

The citrus, ruby red grapefruit, was shipped to San Antonio from the Charles Rogers and Sons shed. It was grown by Joe Daniels of Alamo.

WEATHER

SNYDER TEMPERATURES: High Thursday, 93 degrees; low, 61 degrees; reading at 7:30 a.m. today, 65 degrees; precipitation, trace.

East and South Central Texas: Mostly cloudy with scattered showers and thundershowers through Saturday. Cooler in interior Saturday.

North Central Texas: Mostly cloudy with scattered thundershowers this afternoon and tonight and in southeast Saturday. Cooler tonight and Saturday.

West Texas: Mostly cloudy and cool with scattered thundershowers this afternoon and mainly from Pecos Valley eastward tonight and early Saturday.

Football Rally Is Turned Into Riot

TEXARKANA, Ark. (AP) — About 150 students turned a high school football rally into a riotous melee here last night and attacked cars driven by Negroes and whites.

No injuries were reported although one white woman said she was slapped by one of the youths.

The demonstration erupted at Broad and State Line Avenues—the latter being the border of Texas and Arkansas. It involved students of Texarkana, Ark., High School and Texarkana, Tex., High.

About 300 students demonstrated in much the same manner during a pre-game rally in 1956.

The trouble began on the Arkansas side of the city and police dispersed the youths. The crowd then retreated across the street to Texas and yelled curses at the Arkansas officers.

The small Texarkana, Tex., police force struggled with the youths for about an hour. Reinforcements arrived and the officers broke up the mob.

A newsman at the scene said the students ripped radio aerials off six or seven autos of Negroes and smashed the car windows.

At least two cars containing white persons also were attacked. A white woman, Mrs. Fern Clem, reported she was slapped by a student.

The newsman said the mob would wait for a Negro car to come along and then attack it.

One car carrying a white man was a small foreign vehicle. Some students picked it up bodily wheels spinning, with the frightened driver inside. The car sped away when the youths put it down.

Officers reported two students, whom they did not identify, were arrested and charged with malicious mischief.

The downtown section was virtually bare of Negroes within a short time after the demonstration began.

A check of hospitals in the city showed no one had been treated for injuries which might have been connected with the riot.

Police said they believed, however, that a number of students had received minor injuries in the clashes with Negroes.

PUBLIC RECORDS

FILED IN CIVIL DISTRICT COURT:
Stella Kimbrell vs. A. D. Kimbrell, divorce.

MARRIAGE LICENSES ISSUED:
Mary Frances Lee, 20, 1809 Avenue M, and Raymond Lloyd Isbell, 16, Box 1522.
James Sparks Fisher, 34, Skyline Motel, and Lona Frances Parker, 32, 2612 Thirtysixth Street.

WARRANTY DEEDS RECORDED:
Mary R. Towle to Lucille Kubala, one acre in section 182-3-H&N, except minerals.
Juanita Hickman and Mr. and Mrs. H. E. Hickman to W. H. Harbour, lot 20, block E, Highland Park addition, except minerals.

NEW VEHICLES REGISTERED:
Eiland Motor Co., from Eiland Motor Co., 1958 Oldsmobile two-door.
Earl Boyer, Rotan, from Wilson Motors, 1958 Ford pickup.

TODAY'S MARKETS

STOCK AVERAGES
Compiled by The Associated Press

	Ind	Rails	Util	60 Stks
Previous day	284.1	121.4	84.3	192.8
Week ago	283.6	120.7	84.3	192.5
Month ago	274.3	111.2	81.5	184.7
Year ago	248.2	103.9	70.7	165.5

FORT WORTH (AP) — All livestock steady. Cattle 200; calves 100; fat cows 19.00-21.00; medium to good calves 22.00-26.50; same stock steer calves 26.00-30.00.
Hogs 25; medium to good 21.00.
Sheep 25; no test.
NEW YORK (AP)—Cotton was 10 to 45 cents a bale lower at noon today. October 35.58, December 36.03, March 36.54.
CHICAGO (AP)—Butter 452,000; eggs 9,000; both unchanged.

NEW YORK (AP)—Drugs made big upward strides in a stock market that was slightly ahead on average in fairly active trading early this afternoon.

Some drug issues rose close to 8 points. Key issues in other groups were content with gains ranging to a point or so. There was a sprinkling of fractional losers.

Parke, Davis continued to soar on a 3-for-1 stock split proposal and enthusiasm spread to other drug stocks.

Aircrafts recovered a bit. Nonferrous metals were active and higher. Rails, with carloadings at a new high for the year, improved. Motors, steels, and building materials were mixed.

Trading was brisk among drugs as they moved ahead. Warner-Lambert and Parke, Davis gained close to 5. Pfizer added more than 3. Schering and Merck rose about 2 apiece while Sterling drug advanced more than a point.

Loew's was fractionally higher as a proxy fight became possible. Martin Co. spurted ahead suddenly, rising more than a point, following publication of a Wall Street report that higher earnings are expected. Consolidated Edison was up a fraction as it announced arrangements for a 100 million dollar credit.

High-priced Du Pont added about 2. Gains of around a point or more were scored by Gulf Oil, American Tobacco, Allied Chemical, Texas Gulf Sulphur and Textron.

General Motors eased. U.S. Steel and Bethlehem were firm.

The U.S. Treasury's attractive new offer of short term securities caused the shorter end of the government bond list to recede. Intermediate and long range bonds were irregular.

STUDENTS ASK SCHOOL BE OPENED—A group of Norview High School students at Norfolk, Va., demonstrate quietly under a sign proclaiming: "We want Norview to open now." The school is one of six white secondary schools whose opening has been postponed pending outcome of desegregation litigation. (AP Wirephoto)

Patty Rites Set Saturday

Funeral services will be held in Stamford tomorrow for John F. Patty, 75, brother of Mrs. Nell McKinley of Snyder, who died yesterday.

Services will be at 2 p.m. tomorrow at the First Baptist Church in Stamford, with burial in Highland Cemetery there under direction of Kinney Funeral Home.

A farmer, Mr. Patty died after being hospitalized Sept. 2 with cancer in a Stamford hospital.

He was born in Fannin County July 25, 1883. He was married Dec. 29, 1912, at Avoca to Annie Meil.

Other survivors include the widow; three sons, O. C. Patty of Odessa, Desha Patty of Lueders, and Darvin Patty of Stamford; one daughter, Mrs. Ollie Register of Stamford; one brother, Ernest Patty of Plainview; three other sisters, Mrs. Nannie Sharp of Leonard, Mrs. Maggie Macon of Levelland, and Mrs. Ett Gross of Corpus Christi; eight grandchildren, and three great - grandchildren.

No Injuries In Collision

No one was injured yesterday afternoon in a two-vehicle collision on a farm-to-market road northwest of Snyder.

The accident, which occured at 2:30 p.m., was 2.4 miles northwest of town on the farm road leading north from near the Trail Drive-in Theater.

Involved were a 1958 Chevrolet pickup owned by Universal Oil Well Service and driven by Tommy Ray Arnold, 26, Route 2, Box 288, an employe of Universal, and a 1958 Chevrolet dump truck owned by Mrs. W. D. Dunn of Sweetwater and driven by Levi Head, 47, of Sweetwater.

There was only minor damage to the vehicles, according to Gordon Johnson and Arthur Dyson, highway patrolmen who investigated.

Prison Term Levied In Forgery Case

Ernest James, south Avenue M, yesterday afternoon was found guilty of forgery by a jury in 132nd District Court, and the jury set the penalty at three years in prison.

James was convicted of forging a $3 check with the name of Willie Miles and passing it to J. L. Head Service Station on April 17, 1957.

Prosecutor in the case was Wayland G. Holt, district attorney. Robert R. Patterson was court-appointed defense attorney.

The jury was out less than 30 minutes after the arguments.

Juryors were Bill Atwood, foreman, Theo Lamb, Lester Gladson, Carl Voss, Jr., F. G. Hoefer, J. W. Burleson, O. P. Tate, Jr., Delbert Hirst, Jake James, Mrs. Billy Longbotham, Gilbert Richter, and Audrey Head.

Auto Production In Kansas City Halts

KANSAS CITY, Mo. (AP) — Automobile production has stopped in metropolitan Kansas City, largest car assembly point outside Detroit.

The Ford Motor Co. announced yesterday it is furloughing 1,200 workers at its Claycomo, Mo., plant because of a parts shortage. It said the shortage was created by strikes of United Auto Workers members at various Ford primary production plants on local issues since Ford signed an agreement with the UAW.

More than 5,000 other workers have been off their jobs because of walkouts by UAW locals at three General Motors plants in this area.

BIRTHS

Mr. and Mrs. Max Peterson, Box 44, Hermleigh, are parents of a six-pound, 15-ounce son, born at 8:17 p.m. yesterday in Cogdell Memorial Hospital.

Lynn Bari Loses Custody Of Child

LOS ANGELES (AP)—Custody of their 10-year-old son John has been taken from actress Lynn Bari and given to her former husband, movie producer Sid Luft.

"I am convinced that this mother would prefer to be relieved of the care and responsibility of this child," Superior Judge Wallace L. Ware said in making the order yesterday.

"How could he say that? I've just lived for John!" the actress sobbed, throwing herself into the arms of her present husband, Dr. Nathan H. Rickles, as the judge left the courtroom.

Luft testified he and his present wife, singer Judy Garland, feel the boy should be in a public school and their home. Miss Bari said the boy is in a boarding school because he was failing in public school.

HOSPITAL NOTES

COGDELL MEMORIAL

ADMISSIONS — Mrs. Leurence Webb, Route 2, Box 74; Warren Sturgeon, 2904 Thirty - fourth Street; Cecil Vaught, 2400½ Thirty-second Street; Vickie Allmand, 3725 Sunset; Juanita Collins, 2605 Avenue O; Dorothy Peterson, Box 444, Hermleigh.

DISMISSALS — Loyd Devenport, 2503 Avenue M; Royce Patterson, Fluvanna; Mrs. Tommy Hodges and baby, Route 3; Kathy Stokes, Route 3; Helen Wadleigh, 3305 Fortieth Street; Will Selman, Snyder.

Hermleigh FHA Has Game Concessions

HERMLEIGH — The Hermleigh High School Future Homemakers of America are raising money through concession sales at local football games this fall.

The FHA girls sold food at the junior high game here Sept. 18, and are selling snowcones at all high school games played at Cardinal Field.

Profits derived from the concession sales will be used later on this school year for club-sponsored projects.

Girls participating in the concession work are Beverly Thompson, Jane Beeks, Virginia Williams, Linda Vest, Geneva Walton and Billie Ruth Irvin.

U. S. Warning System Near Completion

DALLAS (AP) — Gen. Thomas White, Air Force chief of staff, said today that the nation's warning and control system for defense against jet aircraft is "already 90 per cent complete."

White told the Air Force Assn. in a prepared talk that the system "continues to be modernized and improved."

White included in the defensive forces the distant early warning line completed a year ago, the Aleutian and eastern DEW line extensions now under construction, the North American radar systems and picket aircraft and ships.

White said prompt congressional funding action had made it possible to accelerate strategic air command alert and dispersal, ballistic missile development and installation of the electronic sage missile control system.

"We have gained from six to 12 months on the construction of certain facilities," he said.

Scientist Hugh Dryden forecast that the nation's civilian space program would become fully self financing within "a relatively short time."

Snyder Schoolmen Attend Workshop

Two men from the Snyder schools attended a workshop for administrators held in Abilene yesterday by a West Texas area of the Texas Association of School Administrators.

They were T. E. McCollum, superintendent, and Pat Falls, director of instruction.

R. E. Harris of the Texas Education Agency was main speaker, telling of a study program adopted by the agency for the year.

The area split into two divisions for further organization, with Knox, Haskell, Stonewall, Scurry, Fisher, Jones, Mitchell, and Nolan counties in the west division. Connor Horton, superintendent at Rule, is study group chairman for the west zone.

Dulles, Lloyd In Huddle On Crisis

UNITED NATIONS, N.Y. (AP) —Secretary of State Dulles conferred with British Foreign Secretary Selwyn Lloyd today on the Formosan crisis. It was their second meeting on the Far East in 24 hours.

There was no word on the nature of the exchange.

Dulles saw Lloyd Thursday night after declaring that the United States will "make no retreat in the face of force" on Formosa.

In a speech before the Far East-American Council of Commerce and Industry in New York last night, Dulles charged that Red China—aided by Soviet arms, supplies, and moral support — is "threatening war against us in the Formosa area."

"The United States is not prepared to retreat in the face of armed force," he declared. But, he added, "our position is otherwise flexible."

Dulles said the United States welcomed Peiping's willingness to resume the U.S.-Red Chinese talks and was prepared, "in accord with our United Nations Charter obligation, to settle the dispute by peaceful means."

"We believe that the Soviet Union, if it wanted to see a peaceful solution, could make that possible," he said.

The secretary spoke amid indications that the gloom into which the Formosa crisis had plunged Washington was lifting slightly.

Spirits were bolstered by a pentagon estimate that Nationalist China is strong enough to hurl back any Red Chinese invasion attempt against Quemoy without U.S. armed help.

There was a feeling in U.N. circles that the Reds were easing their pressure in Formosa — perhaps in the face of a solid Western front.

Both Britain and France joined in supporting American efforts to get a cease-fire in the crisis.

Pushbutton Weather Report Erroneous

NEW YORK (AP) — Somebody pushed the wrong button, and a Weather Bureau test Teletype message predicting a blizzard Thursday night went on the air Thursday. Thousands of telephone calls followed the broadcast.

The temperature was about 75 degrees at the time.

At station WRCA, when the message was received, everyone knew it was only a test, but somehow the wrong control was set.

The test message is part of an emergency warning system.

RELAXED LOOK—This overblouse is of the new drip-dry fabric Morlura. Simple elegant lines with jewel neck, band bottom, short sleeves and a flattering bow trim at neck and waist. It needs little or no ironing and comes in a multitude of colors. Just right for that Fall wardrobe.

WOMEN

Vinyl Fabrics Hide Mistakes

By VIVIAN BROWN
AP Newsfeatures

You can cover up your decorating mistakes these days instead of tearing your hair out or going to a psychiatrist to calm your shattered nerves.

A marred wall or a scarred table top or a door that has been scuffed and kicked by tiny feet may be treated to a fancy overcoat to hide the nicks, offering easier cleanability as a dividend. In some instances, you can do your cover up just before the company comes.

Walls have been treated to new glamor, not only with the wonderful paper murals, now available, but with plastic textured and plain coverings, in colors, simulating brick or bamboo, and other familiar materials.

Sheets of rigid washable vinyl in 2 x 4 sheets for instance, may be installed quickly and easily over any surface — paper, plastic, plaster, without tools by the home handy woman. Just apply adhesive to the backing and press on the wall. The bamboo makes a lovely dado treatment for sunroom, dining room or living room also.

Vinyl fabric is available, too, by the yard through local distributors — wallpaper and paint stores and mail order houses. The fabric runs to 54 inches, and may be used lengthwise or horizontally, as in the instance of covering a door. If it is applied outside the door, seams should be inside the door. Textured patterns may be butted successfully so seams are unnoticeable.

Adhesives are water-soluable usually. If there is a moisture condition, such as in bathrooms and kitchens, special waterproof adhesive is recommended.

If you plan to cover a flush door with vinyl, check the door frame to make sure there is clearance on the edge to take the thickness of the vinyl material. If covering a new door, fit it into the frame first and make hinge recesses. If the door is new or in use, if the fit is too tight, plane the door edges down slightly after removing the door from the frame. By removing the bottom hinge pin first, then the top hinge pin, the door may be lifted out of the frame. (When replacing the door, insert the top hinge pin first, then the bottom.)

Remove hinges and hardware from the door. Place the door on two wooden horses and sand smooth. If the door has been painted remove loose or peeling paint. Sharp door edges should be sanded to a smooth roundness.

Measure the fabric, carrying it around both sides of the door and leaving plenty of room for overlap on all edges. If the door is less than 25 inches wide, the fabric may be used vertically and the door covered without piecing. Wider doors require butting of seams whether fabric is run lengthwise or horizontally.

Your scarred table tops may get a new lift with ceramic tile, formica, adhesive backed paper that comes in a variety of patterns, marble, glass or Japanese grass cloth, depending on how the tables are used.

VFW Auxiliary In Visit To Hospital

Members of the Ladies Auxiliary of the Veteran's of Foreign Wars Post of Snyder entertained patients in Ward No. 6 in the Veteran's Administration Hospital, Big Spring, Wednesday night.

Billy Jean Lock, a member, said that 10 members of the auxiliary and six members of the VFW post attended.

Refreshments were served to the patients in the ward, and afterwards cigarets were distributed throughout the hospital by the auxiliary.

Mrs. Ross Carroll Hostess To Altrurian Daughters Club

The Altrurian Daughters Club met Wednesday afternoon at the Martha Ann Woman's Club with Mrs. Ross Carroll as hostess.

The business session was conducted by Mrs. Bill Atwood, president. Mrs. Harold Brown gave a report on the Democratic convention held in San Antonio recently. Mrs. Brown was on of the group of delegates from curry County.

The program was presented by Mrs. Ophelia Blackard who narrated and showed slides of a recent trip to Hawaii. Some of the colorful slides shown were of the beautiful flowers, which grow in abundance, the mountains, beaches, churches and the many hotels at Wakiki Beach.

Mrs. Blackard made a tour to the pineapple fields and the experiment station, located in the midst of the pineapple field. She visited the Dole pineapple factory where 7,300 people are employed during peak seasons. The cannery and related activities cover 59 acres in the heart of Honolulu. Dole annually packs 300,000,000 cans of pineapple products from fruit picked on 30,000 nearby acres.

Numerous souvenirs were shown, among them were materials woven on the islands, hand carved ivory beads and a hand carved ivory figurine.

Refreshments were served to 12 club members.

WOMEN'S CALENDAR

FRIDAY

Altrunian Club meets at 3 p.m. at Martha Ann Woman's Club with Mrs. Giles Bowers, hostess.

El Feliz Club meets at 3 p.m. with Nellie Cotton, 2008 Twenty-seventh.

SATURDAY

Children's story hour at Scurry County Library, 9:30 to 10:30 a.m.

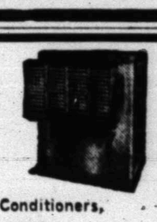

SUNDAY

Luncheon at the Martha Ann Woman's Club 12 to 1 o'clock. Reservation deadline 5 p.m. on Saturday.

Doughnut Goblins

What jolly little demons--these smile-awhile doughnut goblins. In a wink, 1 round gumdrop cut in half, gives a bright-eyed glow to plain, bakers' doughnuts. Right in the center, there's a gumdrop nose. And down below, a smiling mouth--made from half a ring gumdrop with one edge cut jagged to give a toothy grin.

Fill Special Place, Urges Novelist

By TIM SMITH

BUFFALO, N. Y. (AP) — "We all have our special place," said Taylor Caldwell. "No one of us is average."

She frowned as she spoke. On the other side of the sitting room table her husband watched her over his glasses, approving quietly.

"I have a place that no one else can fill and so do you," she went on. "That's what I try to tell in my stories."

The world seems to think she tells them well. Her 18 published novels have sold millions of copies.

The novels of Taylor Caldwell are joint productions of husband and wife, Mr. and Mrs. Marcus Reback.

"My husband does all the research," she explained. "We talk over the plots, of course."

"My wife's writing is inspirational," Reback said. "The plots are mostly hers and she does the writing. I do the background. Most of our books are about business and industry. These require a great deal of study to get the details."

Probably their best known novel is "This Side of Innocence" published in 1945. It has reportedly earned them a half million dollars from the film rights alone.

Only one of their books, "Time No Longer," failed to make the bestseller lists. This was published in 1941 under the name of Max Reiner — their only book not signed Taylor Caldwell.

Taylor Caldwell was a long time winning her present surefire reputation.

Although she had been writing steadily from early youth, she was 37 when her first sale, "Dynasty of Death," was made. It was a tale of family conflict for control of a munitions firm.

Janet Taylor Caldwell Reback was born in Manchester, England, 56 years ago. Her family moved to Buffalo when she was 6.

She met Reback while both were working in the U. S. Immigration and Naturalization Service office in Buffalo. They were married in 1931.

It was shortly after their marriage — her second — that the team of Reback and Reback went to work turning out novel after novel.

Reback's work took him frequently to New York. With his suitcase packed with manuscripts instead of clothes, he would spend his spare time making rounds of publishing firms. After several unsuccessful years, "Dynasty of Death" was sold in 1938.

Since then, the publishers have come to them.

"I start out with a handful of characters and a vague idea," Mrs. Reback said. "As I write, other characters pop into the story and often characters who were minor to start with begin to dominate the story.

"I go to work about midnight and write until five or six in the morning. I can't stand the bright daylight — it's so depressing. My husband goes to bed at midnight.

"We're working on a biography of St. Luke right now. I've wanted to write about him since I was a little girl. It's only half on paper but the rest is all filed away in my mind so I don't have to worry about it.

"I've been called everything from a 'female Balzac' to the 'housewives' scribbler'. Actually, more of my readers are men. They like books about business and industry. We get a lot of mail from businessmen. They want to know how I know so much about those things."

She smiled at her husband. "Of course, I don't know anything about them myself," she said.

Why is it that her books are so popular?

"Well," she answered, "there's a lot of warmth and action in them. And the characters are ones that people can easily identify themselves with.

"Every person that ever lived has been different, special and unique. Everyone sends out 'ripples' that affect others. That's why it's so important never to hurt anyone."

With another novel, "The Sound of Thunder," due at the bookstores in October, the half-completed biography of St. Luke on the way and a projected story based on the life of financier Hetty Green, Taylor Caldwell promises to be sending out 'ripples' for a long time to come.

A Treat For The Beginner

YOU'LL like the ease in sewing when you make this neat daytimer in your most becoming shade. Ideal for the beginner.

No. 1599 with PHOTO-GUIDE is in sizes 12, 14, 16, 18, 20, 40, 42. Size 14, 34 bust 4 yards of 34-inch.

Send THIRTY-FIVE CENTS in coins for this pattern — add 5c for each pattern for first-class mailing. Send to IRIS LANE, (care of this newspaper), Box 438, Midtown Station, New York 18, N. Y.

Save The Brush

Rubber base paint doesn't harden near as quickly on the base of a wet paint brush as it does on a dry one. So before starting a paint job with rubber base paint, dip your brush in water and squeeze. You will find washing the brush much easier after the painting is over.

Foil Paint Hands

Want to make removing of paint from your hands an easier job after painting is completed? Then before you start the work rub linseed oil on your hands and under your fingernails. After the job is finished, soap and water will easily remove both the paint and the oil.

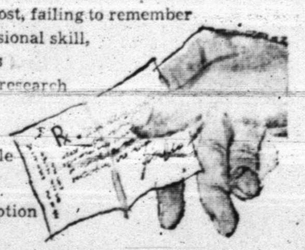

Sewing Trick

Cut off the crotch of baby's outgrown rompers and hem across the bottom. In just a few moments you have a shirt in this manner that baby can continue wearing for usually the rompers get too short before getting too small elsewhere.

A PRICELESS RECIPE

In a health emergency, the little slip of paper on which your physician writes his prescription is priceless. You wouldn't part with it under any circumstances.

However, once the emergency has passed, human nature being what it is, you are apt to forget how valuable the prescription really was. Maybe you even grumble a little at its out-of-pocket cost, failing to remember the doctor's professional skill, the countless hours of pharmaceutical research and many other factors that made the "recipe" possible in a health crisis.

Permit our prescription department to fill your next "recipe for health."

The Bandwagon Falters

The Detroit Free Press suggests that recent disclosures that certain television quiz shows are "rigged" may be fuel enough to spark renewed efforts on the part of those who seek pay TV.

The newspaper in the auto city said the TV industry is now "harvesting a bumper crop of public indignation, not only because it has been suggested that some of the most popular programs are spurious frauds, but because of the increasingly unimaginative offerings."

The inference is that once someone in TV "hits upon a hit" others adopt the same theme, until ultimately everyone gets into a routine and the freshness is gone.

Thus, if TV can produce enough responsibility to match its sensational possibilities in the field of entertainment and communications, and figure out a way to keep the public interest, it will find its permanent niche.

The "pay television" referred to above has been proposed to give viewers an opportunity to back their program selections instead of relying on those provided by organizations that too often are found wanting in the realm of taste and substance.

Whatever the outcome, the bandwagon approach apparently is becoming a shaky vehicle, and one that needs some bolstering. Pay TV could do that.

Four-Year City Terms Proposed

AUSTIN (AP)—Sweeping proposals to revise terms for city officials are at stake at the Nov. 4 general election.

Since the Texas Constitution was adopted in 1876 city officials have served two year terms. A proposed amendment would stretch this to four years and provide for automatic resignations under certain conditions when an official becomes a candidate for another office.

In 1954 an amendment was tacked on inaugurating 4-year terms for county officials.

Three of the nine proposed amendments to be submitted to the voters have these key provisions:

1. Extend terms of elective and appointive city officers from two to not more than four years. An official would lose his job immediately if he announced for any other office with more than a year remaining on his term. An election within 120 days would be mandatory to fill a vacancy.

2. Any district, county or precinct official serving a 4-year term would have to resign before running for another job with more than one year remaining. Vacancies would be filled as at present.

3. Vacancies in the office of county judge and justices of peace shall be filled by the commissioners court only until the next general election.

The amendment concerning automatic resignation of office will not apply to United States and state senators and other elected state officials with terms exceeding two years.

Those who favor the permissive 4-year term point to the staggering expense of 2-year elections both to the taxpayer and to the candidate who has his campaign expense on top of a filing fee. Their view is that the 2-year term is not long enough for the official to become familiar with his duties and to make long range plans.

Proponents think the automatic resignation feature will keep the officials on the job and not out searching for greener pastures elsewhere at the public's expense. Opponents say in the business world this theory doesn't apply and power to the man who can get a more important job.

Some think filling vacancies by election instead of appointment gives voters better control of government while others believe the appointment system has stood well the test of time and is the most practical.

Eight years in office would be practically guaranteed as Texas voters almost always give an official a second term, critics fear. They think the 2-year term encourages citizens' interest and participation in local government.

At present a district, county or precinct official may run for another office without first resigning the one held at the time. If defeated, he would merely continue to serve out the term.

Opponents of the amendment say it discriminates against district, county and precinct officials by its failure to also apply to senators and state officials with long terms.

The amendment filling vacancies for county judges and peace justices is looked upon with favor by some voters as a safeguard for citizens. Their position is that voters deserve the right to elect their own replacement without having to wait up to four years.

Critics think division of the 4-year term would give neither the appointee nor an elected replacement sufficient time to properly fulfill the duties. They also feel there would be little incentive for a candidate to run for an unexpired term as the cost of campaigning would be the same.

Russian Farm Is Like Our Factory

By BEVERLY DEEPE

They call it a farm. But it isn't. It is really a gigantic factory in which workers are continually hounded to meet American production standards.

More than 18,000 people work on a huge, 32,000-acre factory-farm east of Stalingrad that I visited as a member of the U.S.-U.S.S.R. student exchange program.

Their big objective, the director said, is to have each Russian produce more than the average individual American farmer.

"We have to look at the United States in this field and we have to take them on," he said. "By means of peaceful competition, we want to achieve the level of American agricultural production and then overtake this level."

"But," I asked, "what will you do with the surpluses after overtaking the U.S. farmer?"

The director laughed. "Ask the minister of agriculture," he replied.

Workers live in five haphazard little communities on the farm, mostly in four-room homes of wood or peeling stucco owned by the government. About 10 per cent live in state-owned apartment houses.

Kaskalen is one of the comunities—a listless town where a white stucco Palace of Culture for nightly movies and dances is still under construction. There are no churches.

An Aqua Volga, resembling a 1955 Ford, rolled down the asphalt main street. But just outside the village, small donkey carts carried dusty men over dusty roads.

Women with smiling Oriental faces brought quart tins to the shops for their daily supply of milk.

The state owns the farm and pays the workers' wages. The farm meets the production quotas set by the state and sells any surplus to the state.

Each farmer has three quarters of an acre which the state lets him cultivate as he pleases. Each farmer also has permission to raise a few cattle.

Otherwise, they are the human tools who operate the state's tractors, combines and other machinery for the benefit of the state.

There are 3,500 unskilled workers who cultivate the corn, harvest the grain, hoe the 3,000 acres of garden crops and plant the sugar beets on this one farm. They also tend the dairy cows, goats, horses, pigs—and 300 camels.

The farm has more than 6,000 children who attend various schools and the agricultural institute.

Before leaving, the diector took us to the four-room, crumbling stucco home of a farm mechanic—described as "one of the professional people"—and his wife and three daughters.

We entered a reception room where a rubber plant filled about a fourth of the space. There was also a settee covered with white muslin, a chiffonier, a short-wave radio and a vase of artificial flowers.

A rubber doll sat on the cardboard bed in the corner. The walls were decorated by a clock, a barometer and a painting of a watermelon done by the housewife.

The kitchen was about 9 by 15 feet. An aluminum pot was boiling on the single-burner, electric hotplate. There was a white-washed iron stove about four feet high and an enamel sink two feet wide with a single cold water tap.

There was also a low cupboard with peeling wine-colored paint and a worn wine oilcloth. There were no windows.

The parents slept in a single-sized iron bed covered with a lace bedspread and needlepoint pillows. A foot-operated, treadle-type sewing machine stood near the window. Embroidered samplers decorated the walls.

No Love In 47 Years Leads To Divorce

KANSAS CITY, Kan. (AP) — Mrs. Ida May Connell, 65, mother of five children, was granted a divorce from George Edward Connell, 70, in District Court.

She testified that she no longer loved her husband.

"When did you stop loving him?" she was asked.

"Right after we were married," she replied.

The couple was married in 1911.

Film Shooting In Ireland Is Hectic

By EDDY GILMORE

DUBLIN (AP)—This is a story about a Scotsman who organized an airplane trip to Dublin to watch an Englishman direct an American in a film about Ireland on a location built by an Irish Jew.

The Scot is Jock MacGregor.

The Englishman, producer-director Michael Anderson.

The American, James Cagney.

The Irish Jew, Louis Elliman, who has constructed a miniature Hollywood 12 miles south of the Irish capital.

The film, "Shake Hands with the Devil."

It was a mad day, featured and interrupted by everything from Eamon de Valera to whispered suggestions of sabotage.

The morning began with a news conference in the skies. 16,000 feet above the Irish Sea. The conference was given by beautiful Dana Wynter, just in from California.

No cheesecake dummy, Miss Wynter discussed everything from medicine to mink with a degree of quick intelligence that stunned 47 British journalists asking the questions.

To one who queried, "Do you think that sex is here to stay?" Miss Wynter replied:

"Well, if it isn't, neither am I."

At Dublin Airport the chartered plane was met by kilted colleens playing bagpipes and beating drums.

This was followed by a conducted tour of Dublin.

"Here is the statue of that great Irish patriot, Charles Stewart Parnell," said the guide with a brogue as thick as a Liffey fog.

Cagney hove into view.

"My ancestors came from Cork," he said, "and I've come to the conclusion that I love Ireland."

He was followed by that talented Irish character actor, bearded Noel Purcell, noted for many roles. "Welcome to Ireland," roared Purcell.

Philadelphia-born Walter Seltzer, the producer, was host to a huge luncheon beneath a circus tent.

In the evening the Irish Tourist Board gave a reception. A reception by the Irish Tourist Board means the guests are on the receiving end of a large amount of Irish whisky.

Halfway through the pouring, an Irish girl started playing an Irish harp.

In the midst of her encore, De Valera arrived from Lourdes in an Irish airliner.

An airline official dashed in and announced the plane couldn't take off because "a part is missing."

"Sabotage," muttered someone.

Tigers Take On Dangerous Steers

DOUBLE DUTY MAN—Ronnie Giles, above, has been a valuable man in the Tigers forward wall this season. The senior 203-pound tackle excells on both offense and defense. Giles will start both ways in tonight's game at Big Spring. (Lee Watson photograph)

Teams Even In Overall Series

BY BUCK FRANCIS

BIG SPRING, Sept. 26 — The Tiger footballers, with four players still unable to suit up, will go after their third victory of the season here Friday night when they battle the ever - dangerous Big Spring Steers of District 4-AAAA.

A crowd of more than 5,000 is expected for the 8 p.m. kickoff.

The four Tigers who'll have to watch tonight's game in street clothes because of various ailments are center Bill Rinehart, guards Tony Anger and Jackie Pevehouse, and halfback Johnny Drake.

Halfback Jimmy Allen, end Barry Walker, and guard Joe Fowler, who missed the Andrews game last week, are back in the fold.

It still wasn't determined this morning whether or not Allen would get the doctor's OK for full-time duty.

Allen is still recuperating from a head injury he suffered in the season opener with Borger. Jimmy will definitely suit up tonight and, as last week, will attempt kicks for extra points when a kicking situation arise.

If Allen doesn't start tonight, sophomore John Weaver will again open in the Tiger secondary. Dick Hayes will move to Allen's right halfback position and Weaver will start at Hayes' left half position in case Allen is kept out of tonight's action.

The other two backfield spots will remain the same, Richard Mahan at quarter and Paul Stanley at full.

There are no changes from last week in the forward wall. Kenny Drake and Bill Dubose will open at the ends, Ronnie Giles and Terry Lee at tackles, Mickey McGrew and Tommy Minton at guards and Devane Jones at center.

Fowler will replace Minton and Eddie Watson will go in for Stanley on defense. Watson will play middle linebacker.

The Tigers' big problem tonight is stopping the Steers' powerful fullback, Wayne Fields. The big 200-pound Fields is in this third year as a Steer regular. He has been the leading Steer ground gainer against the Tigers the past two years.

Fields has netted 134 yards on 30 carriers for a 4.4 average against the Tigers the last two years. He picked up 76 yards on 16 carries last season and 58 on 14 his sophomore year, both times high in the Steer ranks.

Tiger scouts say Fields is better than ever this season.

Another Steer that has caused the Tiger coaches some sleepless nights this week is tackle Chubby Moser. Moser is a terror on defense and a terrific blocker, according to scout reports.

Big Spring opened with a convincing 26-0 win over San Antonio Edison but was surprised last week by Ysleta, 14-8.

The Tigers have won both their starts, 14-6 over Borger and 34-12 over Andrews.

An estimated 1,500 fans are expected to follow the Tigers to Big Spring for tonight's non - district clash.

The Steers and Tigers are all even in their past rivalry, each owning four victories in eight games played. The Tigers will be seeking their fourth straight win over the Bovines tonight.

Blue Devils Sweep Pair At Lamesa

LAMESA -- Snyder Junior High's Blue Devil football teams kept their goal lines uncrossed for the season here Thursday with a pair of shutout victories over Lamesa Junior High.

Snyder 7th rolled to a 46-0 victory while the Blue Devil 8th graders triumphed by 18-0.

Coaches Bill Hartsfield and Ned Underwood of Snyder 7th played their reserves the entire second half. Snyder 7th led 30-0 at halftime.

Five Snyder 7th graders got in on the scoring act. Ygnacio Benitez scored two touchdowns on runs of 4 and 5 yards, both in the first quarter. Other Blue Devil 7th graders scoring touchdowns were Benny Minor on a 10-yard run in the first period, Marcus Boyles on a two-yard run in the second quarter, Bob Hart on an 8 - yarder in the third, and Ronnie Fisk on a 30-yard dash in the fourth after he had blocked a Lamesa punt.

Fullback Edward Schulz ran three conversions over and Hart added two on runs for the other 10 Snyder points.

Abe Gonzales was the Blue Devils' outstanding defensive performer.

Snyder 8th scored once each in the first three quarters for its 18-0 victory.

Dean Howard went over from the Lamesa three for the first Blue Devil 8th score. Luke Nigliazzo followed up with a 3-yarder for six points in the second and Bob Pena closed out the day's scoring with a five - yard line smash in the third.

Guards William Robinson and Riley Boothe, tackle Carl Good, end Mike Godwin and linebacker Jimmy Taylor were bulwarks on defense for the Snyder 8th graders.

Standing out offensively for the Blue Devil 8th outfit were fullback Pena and guard Pete Greene.

Coaches Ace Amos and Charlie Sparks of Snyder 8th agreed that Thursday's performance was the best their charges had turned in this season.

San Angelo B Nips Snyder B, 13-12

San Angelo "B" choked off repeated Tiger "B" threats in the second half to notch a squeaky 13-12 decision at Tiger Stadium last night.

Fumbles and penalties were costly to Coach Jim Stehley's lads. One Tiger "B" touchdown was called back although the locals went from the point of the foul to a touchdown minutes later.

With Franklin Moore and Larry Patterson at the throttle, Tiger B took to the airlanes 21 times, completed 11 for a whopping 166 yards. One of the Tiger B aerials went for a TD. Moore hit Jesse Crawford with a 34-yard toss for six points that opened the night's scoring late in the first quarter.

A pass set up the other Tiger B score, also. Patterson hit Wayne Berry with a screen pass that covered 58 yards and a potential touchdown in the fourth quarter but a Tiger was caught shoving at the Bobkitten 20 and the TD was nullified. The pass, however, was good for 38 yards and put the Tiger B in scoring position.

After the shoving penalty moved the ball back to the 35, Tiger B went right from there to a touchdown. Patterson stepped off the last seven yards.

The local Yearlings tried to run both of their conversion tries across but were stopped short of the doublestripe each time and as it turned out that was the difference of the ball game.

San Angelo scored both of her touchdowns in the second quarter. Ronnie Stephens, Bobkitten halfback, became the San Angelo hero when he booted the ball between the uprights after the second TD that put Angelo out front, 13-6.

That's the way it stood until Snyder B scored with 8:05 minutes left in the game to pull within one point and then missed their victory chances by not adding the points-after.

Fullback Dale Helms capped a 60-yard drive for the first Bobkitten score and quarterback Jerry Grider hit Stephens with a 24-yard pass for the second tally, the latter coming with 1:01 minutes left in the first half.

The statistics were just about even in the game. San Angelo held a slim edge in first downs, 17-16, but the locals netted the most yards from scrimmage. Snyder gained 121 yards on the ground and 166 in the air for 287 yards total while San Angelo netted 224 yards on land and 38 in the air for 262 total.

The victory was costly to the Bobkittens as starting center John Gill suffered a broken collarbone.

Score by quarters:

SNYDER B	6	0	0	6—12
San Angelo B	0	13	0	0—13

Tiger Frosh Clips Big Spring, 24-0

BIG SPRING — Snyder's Freshman footballers rode the flying heels of Spencer Dyer to a 24-0 victory over the Runnels Junior Hige 9th graders here Thursday night.

Dyer scored two touchdowns for the Snyder Frosh, and kept the Big Springers rocked back with several long runs during the game.

It was a costly victory for the Snyder boys, however. Fullback David Gan suffered a broken collar bone on the third play from scrimmage. Gan had carried the ball twice for substantial gains when the mishap occurred.

Dyer scored in the first quarter on a 36 - yard touchdown gallop and then climaxed a 60 - yard drive when he broke over from 10 yards out in the third period.

Steve Free scored the third touchdown, which came in the third quarter. Free plunged over from his quarterback position after Joshua John had set up the score by returning a Big Spring punt 65 yards to the 5 yard line.

Mike Morris ran over for extra points twice, and Eddie Phy carried over for the extra two following Free's touchdown.

Bill Weaver and Butch Browning turned in some aggressive play in the Snyder Frosh line.

Big Spring never staged a serious threat. Runnel's closest approach to TD land was the Tiger Frosh 25.

BUCKIN' THE LINE

By BUCK FRANCIS
News Sports Editor

SNYDER HIGH SCHOOL will be well represented at the Breckenridge-Levelland game tonight at Big Spring.

You see, the next two games on tap for the Tigers after tonight's game with Big Spring will be Levelland and Breckenridge. Consequently, Tiger coach John Conley is dispatching two teams of scouts to Breckenridge tonight, one set to scout each of the two teams.

At least that cuts down on the expenses.

It doesn't happen very often where a team can scout its next two foes on the same football field and on the same night.

We hesitated to fill out our ballot sheet on this week's football games yesterday after last week's terrible weekend.

We just barely kept our head above water if you want to call staying above .500 keeping your head up. No perfect scores either but we did come close on one. Our prediction of the Breckenridge-Wichita Falls game was 28-22 Breck but the Buckies let us down as they won by only 26-22.

The Tigers certainly fooled us, too. We predicted a 15-14 win over Andrews (and with tongue in cheek) but as you know the Bengals came out much better than that (34-12 in case you've forgotten the exact score).

Steers Gunning For Tigers

Tonight's Tiger foe, Big Spring, is certainly going to be tougher than Andrews, you can bet on that. The Steers are expected to be "fired up" for the Bengals and when you catch a team like that there's trouble "a brewing."

The Tigers aren't in much better physical condition this week than they were last week at Andrews. It hadn't been declared at this writing whether or not halfback Jimmy Allen would be allowed to play tonight. And center Bill Rinehart definitely is out as is guard Tony Anger.

End Barry Walker and Halfback Johnny Drake are back in uniform although Drake may be held out of action tonight to give his knee a little more time to heal.

So, you can see the Tigers are far from top physical condition.

But we aren't getting off the Tiger bandwagon yet. No matter how much the odds are stacked against them, the Bengals seem to have that extra something that pulls them through.

Tonight we'll say:
Tigers 20, Big Spring 14.

Breck, Ira, TCU, A&M To Win

Elsewhere along the trail we see 'em like this:

Breckenridge 34, Levelland 20.
Sweetwater 29, Stamford 12.
Lamesa 26, Kermit 14.
Monhans 28, Colorado City 6.
Lake View 14, Del Rio 6.

Amarillo 8, San Angelo 6.
Littlefield 13, Brownfield 0.
Midland 20, Galena Park 16.
Arkansas 16, Tulsa .
Texas Tech 28, West Texas 14.
Ohio State 22, SMU 16.
Stanford 16, Rice 14.
Texas A&M 14, Houston 12.
Baylor 21, Hardin-Simmons 14.
TCU 22, Iowa 14.
Oklahoma State 22, North Texas 12.
McMurry 22, Flagstaff 6.
Chattanooga 20, ACC 12.
Oklahoma 28, West Virginia 8.
Texas 27, Tulane 7.

Rain Halts Pee Wee Tilt

Rain halted yesterday's Pee Wee football game at halftime with the Hot Shots leading the Rams, 6-0.

The game will be completed at a later date.

Speedy Drew Bullard raced 45 yards for the game's only touchdown before play was halted. Bullard also sped 55 yards to another touchdown earlier but it was mullified by a penalty.

The Rams were deep in Hot Shot territory when the half ended.

Rain began falling just as the teams left the field for the halftime intermission and after a 20-minute wait period, the coaches of the two teams agreed to play the second half at a later date, picking up where they left off yesterday.

Tomorrow's games will pit the Rams and Frogs at 9 a.m. and the Bulldogs and Hot Shots at 11 a.m.

BIRD QUIZ

QUESTION: Does a pelican store food in its pouch?

• • •

ANSWER: The pelican is a graceful bird on water or in the air, but it waddles awkwardly once it gets on land. Adding to the clumsy appearance is the large pouch on the underside of its bill.

Contrary to popular opinion, the pelican does not store food in this pouch. Instead, it uses it as a scoop to catch small fish. The pouch also doubles as a serving tray for the bird's young. The pelican passes partly digested food from its stomach to the pouch and the young pelican puts its head in to get this food.

Pelicans live together is large colonies and often help each other fish. White pelicans swim together in a line, beating the water with their wings. In this way they drive the fish ahead of them and then swoop down and scoop them up.

• • •

FOR YOU TO DO: If you have an opportunity, watch a pelican hunt his food, or get a bird book from the library and learn about pelicans.

• • •

(Buff Henry of Oak Ridge, Tenn., receives $10 for this question. Do you have a good one? Send it on a postcard to Violet Moore Higgins, AP Newsfeatures, in care of this newspaper. Tomorrow: How do trees grow?) 9-26

Little Rock Voters To Take Next Step In Controversy Tomorrow

By ROBERT FORD

LITTLE ROCK, Ark. (AP)—Little Rock voters tomorrow take their next critical step in the nation's white-hot integration controversy when they register their preference between integration or segregation of the school system.

The referendum results and steps expected to follow are critical for those Southerners who consider a private school plan the last-ditch maneuver to keep Negroes out of all-white schools.

Gov. Orval E. Faubus, who ordered the referendum, says he will open the four high schools he closed Sept. 12 regardless of the ballot outcome.

He has said that if integrationists win he will permit all Little Rock schools, with their 20,308 students, to desegregate without further interference.

If segregation forces win, the next step in Faubus' plan is to open the high schools as private institutions with a corporation operating them on a segregated basis. The high schools had an enrollment of 3,698 before students began transferring out of the district.

Regardless of the balloting results, immediate court challenges are expected.

The ballot reads:

"For racial integration of all schools in the Little Rock school district.

"Against racial integration of all schools in the Little Rock school district."

The referendum will not instantly solve some problems. For instance:

What does the losing faction plan to do next?

And exactly how many voters reside in the school district?

W. H. Laubach, Election Committee secretary said, "We won't make an exact count unless the governor requires it." Presumably Faubus would call for a total only if the referendum results are close.

This could become a necessity because of the law setting up the referendum.

It reads: "If a majority of the qualified electors of the district. . . ."

Most referendums require only a majority of those voting to decide an issue.

Should the integration forces cast the larger vote tomorrow, they will have to go to court to win because of the "qualified electors" restriction on deciding the victor.

A recent Arkansas state court ruling has an apparent direct bearing. A judge held that a majority is sufficient to decide an issue, and that any "majority of qualified electors" restriction is not legal. The ruling involved a local option election on dog racing.

The School Board, fearing federal contempt action against its members, sought a decision from U.S. Dist. Judge James E. Miller on whether it can legally lease the schools. Miller refused to rule, saying it involved constitutional questions requiring a three-judge tribunal.

State laws leave responsibility for school leasing to the School Board, not the governor. And the Little Rock board has shown signs of balking at Faubus' program.

Assuming the private corporation obtains a lease from the School Board and opens the four institutions, the U.S. Justice Department is expected to strike with new court action.

Justice Department attorneys are known to feel that any such private operation will violate federal court desegregation orders if (1) tax money supports the schools under Faubus' tuition plan or otherwise, or, (2) it can be proved that the operation is only a maneuver to avoid integration orders.

Faubus repeatedly has asserted that his private school plan is safe from this attack, since federal and state tax money long has been used for aid to purely private schools.

Ike Says Closing Of Schools Removes Fundamental Right

WASHINGTON (AP)—President Eisenhower says the closing of some schools to avoid integration has dealt a material setback to "a fundamental human right—the right to a public education."

Eisenhower also said yesterday such school closings in Virginia and Arkansas have set back progress toward achieving the "ideal of the equality of man."

"I fervently hope that soon the schools will reopen and that progress toward our goal will resume," the President added in a letter to J. Albert Rolston, head of a group working to reopen schools in Charlottesville, Va.

Virginia's Gov. J. Lindsay Almond Jr. commented that he wished Eisenhower had "considered the disastrous consequences of the tragic situation" before the Supreme Court ruled. The federal government supported arguments for integration before the court.

Eisenhower's letter was in reply to a telegram sent by Rolston seeking an expression from Eisenhower.

Schools in Charlottesville and Front Royal Va., and Little Rock, Ark., have been shut down in conformity with Virginia and Arkansas state laws requiring such closings to avoid integration under federal court order.

Eisenhower told Rolston chairman of the Charlottesville Committee for Public Education, he deeply regrets these school closings.

"The direct consequences to the children in those schools and the eventual consequences to our nation could be disastrous," he said. "Their education seemingly has no present prospect of early resumption. For this cessation, they are given a reason which is contrary to one of the generally accepted basic ideals of our country.

"Most of us in the United States, as part of our religious faith, believe that all men are equal in the sight of God. . . . Just as we strive to live up to our fundamental convictions, we constantly strive to achieve this ideal of the equality of man.

"We had been making progress — substantial progress — toward that goal. The closing of the schools, however, represent a material setback not only in that progress, but in what we have come to regard as a fundamental human right—the right to a public education. . . ."

Government Seeks Another Huge Loan

By FRANK CORMIER

WASHINGTON (AP)—The government wants to borrow another 3½ billion dollars to pay its mounting bills. To get the money, it's willing to double the interest it offered just seven weeks ago.

The rise in interest rates on government securities reflects a return to tighter money conditions—a move spurred by the Federal Reserve Board in hopes of keeping inflationary pressures at bay.

The Treasury announced the terms on which it will borrow money needed to boost its supply of ready cash. The latest tabulation shows an operating cash balance of about four billion dollars—less than a three weeks' supply.

Officials said they will need to raise still more money late in November or in December—perhaps another three billion dollars. Over the full 1959 fiscal year which ends next June 30, the Treasury will have to finance a predicted deficit of more than 12 billion dollars.

On Monday the Treasury will offer to the public:

1. About a billion dollars of 13-month Treasury notes, to be sold at par and carry interest of 3½ per cent.

2. About 2½ billions of 219-day special Treasury bills, to be sold at a fixed price of $980.23 per $1,000 of face value. On that basis, the bill will yield 3¼ per cent a year.

Some Wall Street experts said they were surprised by what they called the generous terms offered by the government. They suggested the result would be a general increase in yields on short-term securities.

Interest rates on comparable government issues reached a peak of 4 per cent in August 1957. Rates later dropped sharply as the Federal Reserve Board eased restraints on the money supply to fight the recession.

On Aug. 6, of this year, the Treasury sold an eight-month tax anticipation certificate yielding 1½ per cent.

Since then, the Federal Reserve has reversed its easier policy on credit and there has been addd evidence of an economic recovery.

Mickey Must Pay Support

LOS ANGELES (AP) — Jayne Mansfield's strongman husband Mickey Hargitay was denounced in court last night and ordered to pay $300 monthly support to his daughter by a former marriage.

Hargitay, former Mr. Universe, was in court to answer a petition by his former wife Mrs. Mary Hargitay that the child support payments for Tina, 9, be raised to $415 a month from $20 a week.

Said Superior Court Commissioner John P. Oliver: "He (Hargitay) is more interested in his own pursuits than in his own flesh and blood.

"It's a sad commentary that in the time this man has had $69,000 pass through his hands he has paid $800 for his child, whom he testified he hasn't even seen since December of 1956."

Earlier testimony disclosed that Hargitay under a contract received 10 per cent of Miss Mansfield's income. Hargitay said he had paid as much as $250 monthly support for Tina.

Cliburn Pays For Welcome

NEW YORK (AP) — Pianist Van Cliburn—first musician ever to receive a ticker-tape welcoming parade up Broadway—has turned over to the city the prize money he won in last spring's Moscow music festival.

Handing over the $1,250 check yesterday, Cliburn specified that the city's Commerce and Public Events Department use the money on behalf of creative artists and cultural welfare.

The 24-year-old Kilgore, Tex., pianist said the parade last May honored not only himself but all musicians. He added: "Now musicians can take their place beside athletes."

Phillip Crosby Weds Las Vegas Showgirl

LAS VEGAS, Nev. (AP)—Phillip Crosby, 24, son of Bing Crosby, and Sandra Drummond, 20, Las Vegas showgirl, were married yesterday in St. Anne's Catholic Church.

Bing wasn't there but he sent his blessings.

Four months ago Phillip's twin Dennis married Pat Sheehan, who appeared in the same Tropicana Hotel show as Miss Drummond.

Sandra, who says she's quitting show business, told newsmen: "I want lots of children—I don't care how many."

CHURCH NEWS

SNYDER AREA CHURCH NOTES

Revivals, Promotion Day Set By Some Churches Here

A revival meeting began last night in one Snyder church, a training union revival starts in another Sunday, and one church will close its revival meeting Sunday.

Methodist churches here are having rally day and promotion and most Baptist churches are having promotion Sunday.

• • •

Avenue D Baptist

The Avenue D Baptist Church will close its revival meeting Sunday night. The Rev. H. D. Christian, pastor of the First Baptist Church at Seminole and evangelist in the meeting, will speak at both the 11 a.m. and 7:30 p.m. services Sunday.

Sunday is also promotion day in the 9:45 a.m. Sunday school and 6:30 p.m. training union.

Don Jones of the First Baptist Church of Colorado City, who is leading music in the meeting, will also sing on the 7:45 a.m. Good News broadcast on KSNY.

• • •

Grace Lutheran

At the Grace Lutheran Church, the Rev. Walter Lentz, pastor, will speak on "The Humble and the Humiliated" at the Sunday 10:45 a.m. service at West Elementary auditorium. Sunday school is at 9:45 a.m.

Tonight the church's youth choir will meet for rehearsal at the home of Mrs. Victor Deike, 3000 Thirty-ninth Street. Mrs. C. R. Dansby is director.

On Saturdays at 11:45 a.m. Rev. Lentz presents Religion in the News on KSNY.

• • •

First Baptist

Speaker Sunday at the First Baptist Church in the absence of the Rev. G. M. Cole, pastor, who is conducting a revival meeting at the First Baptist Church at Lancaster, will be R. Virgil Mott, director of music and religious education for the church.

His subject at the 11 a.m. service will be "Our Religious Educational Activities in Our Church." Mott, who has 18 years of laboratory experience in the religious education field, will discuss major organizations of the Southern Baptist Convention and the church here. Special music will be a solo by Wayland Holt.

Sunday evening will be youth night, and at the 7:30 p.m. service young people will occupy the choir, give testimonies, serve as ushers and furnish special music. At 6:30 p.m. Wednesday an all-church supper will be held in the new fellowship hall.

• • •

Trinity Methodist

The Trinity Methodist Church has scheduled a rally day program for 7:30 p.m. Sunday, when teachers and officers of the church school will be installed and promotion certificates and attendance pins will be presented.

At the 11 a.m. service, the Rev. Elton Wyatt, pastor, will speak on "Here Am I - - Use Me." The choir's anthem will be "Take My Hand, Dear Father."

Intermediate and senior MYF are to meet at 5:30 p.m., the junior choir at 6 p.m.

• • •

First Methodist

Rally day and promotion are set at the First Methodist Church Sunday, and a goal of 500 has been set for the 9:45 a.m. Sunday school hour.

At the 10:55 a.m. service, the Rev. Harry Vanderpool, pastor, will speak on "It's Time to Use Our Heads." The combined junior and adult choirs will sing "Hark, Hark My Soul," with Mrs. Barbara Vanderpool and Mrs. Gwen McLaughlin as soloists.

At the 7:30 p.m. service, there will be old-time gospel hymns, an altar time of prayer, special musics by the junior choir, and the sermon by the pastor.

• • •

Colonial Hill Baptist

Sunday is promotion day at the Colonial Hill Baptist Church in both the 9:45 a.m. Sunday school and 6:45 p.m. training union.

At the 11 a.m. service, the Rev. Jimmie Nelson, pastor, will speak on "Korah's Rebellion."

His subject at the 8 p.m. service will be "Devine Doorkeeper."

• • •

25th Street CC

"A Man from the Lord and His Message" will be the subject of Glen Pace, minister at the Twenty-fifth Street Church of Christ, at the Sunday 8:45 and 10:55 a.m. services.

He will speak on "God's Purpose in the Church" at the 7 p.m. service.

• • •

Bethel Baptist

The Bethel Baptist Church will begin a training union revival Sunday, which will continue one week.

Miss Nella Casement of Sudan, Kan., will lead the revival. Formerly of the training union department of the Baptist General Convention of Texas, she has had 17 years in training union revivals and enlargement campaigns. Services will be at 7 p.m. nightly.

At Sunday services, the Rev. W. L. Cass, pastor, will speak on "Building for God for Tomorrow" at the 11 a.m. service and "Broken Vows" at the 8 p.m. service. The church meets at Northeast Elementary School.

First Christian

"On Being a Christian" will be the sermon of the Rev. John Reaves, pastor of the First Christian Church, at the Sunday 11 a.m. service.

The choir's special music will be "Walk Beside Us."

• • •

St. John's Episcopal

The Rev. Donald Hungerford, vicar at St. John's Episcopal Church, will speak on "The Second Commandment" at the Sunday 11 a.m. Morning Prayer service. Guest organist will be Mrs. Jane Womack.

Holy Communion will be at 7:45 a.m., Sunday school at 9:45 a.m.

• • •

Church Of God

The revival meeting opened last night at the Snyder Church of God, with the Rev. Jimmy Bruce of Denton as evangelist.

Services will be held nightly at 7:30 p.m. from now through next week and at 11 a.m. Sunday, according to the Rev. William Hopper, pastor.

Rich, Poor About Even On Children

ANN ARBOR, Mich. (AP)—The rich get richer and the poor get children, goes an old saying. But the new word at the University of Michigan is that this isn't quite true.

A research study here says both income groups are having about the same number of children.

This is especially the case of city people, says Dr. David Goldberg, of the University of Michigan Institute of Public Administration.

Goldberg spent a year going over records compiled by U of M's Detroit Area Study and other statistical agencies.

He found that early in marriage close home and kinship ties are the main factors in considering additional children.

Later, he said, after two or three children have arrived, the question is similar to that of purchasing a luxury item—"Can we afford it?"

The pattern for large or small families also depends on whether the husband or wife is the chief decision maker.

"Men are primarily influenced by such factors as status and income," Goldbert said. If a man is earning $12,000 and thinks he can afford more children, the couple will have them if the main decision is up to him.

A woman, Goldberg said, is influenced by such factors as whether she likes to spend her leisure time around the home.

Cheryl To Remain With Grandmother

SANTA MONICA, Calif. (AP)—Cheryl Crane will remain in the custody of her maternal grandmother Mrs. Mildred Turner, a Juvenile Court has ruled.

The 14-year-old daughter of actress Lana Turner has been in her grandmother's custody since last April, when she killed her mother's lover Johnny Stompanato.

Hearings Are Delayed Until Elections

WASHINGTON (AP) — Seeking to avoid political implications, a House subcommittee investigating federal agencies has suspended hearings until after the November elections.

"Matters with political implications are bound to come up and produce some turmoil," Chairman Oren Harris (D-Ark) said in announcing the delay. "Sometimes people misconstrue things."

At the same time he told newsmen he saw nothing wrong in the actions of two other Democrats in connection with a television channel award under study by the subcommittee.

The two are David L. Lawrence, mayor of Pittsburgh and Democratic candidate for governor of Pennsylvania, and Sen. George A. Smathers (D-Fla).

Lawrence has acknowledged writing a letter to a member of the Federal Communications Commission in connection with the award of TV Channel 4 in Pittsburgh. He said he was seeking more channels for his city. Smathers said he arranged an appointment with another FCC commissioner for a friend, but took no other action in the matter.

Spivey Speaker On Daily Devotions

The Rev. R. Charles Spivey, pastor of the First Presbyterian Church, will be speaker next week in the Daily Devotions program on KSNY.

The program is presented at 9:15 a.m. weekdays, scheduled by the radio committee of the Snyder Ministerial Alliance.

Episcopal Slates Class On Faith

The Inquirer's Class has been scheduled for 7:30 p.m. Tuesday at the St. John's Episcopal Church.

The class has a series of instruction presenting the faith of the Episcopal Church to any interested, according to the Rev. Donald Hungerford, vicar.

Methodists To Meet

A number of Snyder Methodists will attend a meeting in Big Spring next week for an inter-board school.

The school is for all boards and commissions of the churches.

It will be held from 1 to 9 p.m. Thursday.

Family Night Set By Trinity Methodist

A family night event has been scheduled by the Trinity Methodist Church for Monday night.

It will be held at 7:30 p.m. in Towle Park.

Other activities at the church next week will include a meeting of the official board at 7:30 p.m. Tuesday, choir practice at 7:30 p.m. Wednesday.

Says American GIs Working As Slaves

LOS ANGELES (AP) — Imprisoned American GIs are working as slave laborers in Soviet coal mines, says a former prisoner.

John H. Noble of Bloomingdale, Ill., said some have been held as long as 14 years. They were former German prisoners taken by the Russians in the closing days of World War II, he told the National Exchange Clubs convention yesterday.

Noble said the U.S. government has been hampered in efforts to release the men because it is unable to prove through records that they are alive.

Tidelands Arguments Postponed

WASHINGTON (AP) — The Supreme Court has postponed indefinitely the hearing of arguments in the government's suit against Texas and four other Gulf Coast states over boundary lines for submerged lands.

The court previously had scheduled arguments to begin on the oil-rich lands Oct. 13 and to continue for 13 hours, or about three afternoons.

Late yesterday, the tribunal announced arguments would be deferred until further notice by the court.

No reason for the deferment was forthcoming immediately.

In the suit, filed some months ago, the Justice Department contends the seaward boundaries of the states are limited to three miles from their coast line.

Texas and the other states claim up to 10½ miles of the ocean shelf.

Besides Texas, involved are Louisiana, Mississippi, Alabama and Florida.

A specila gun that shoots balls of ice as large as 2 inches in diameter at speeds in excess of 600 m.p.h. is used by General Electric engineers to test the "beating" a CJ805 jet plane engine will take in a hailstorm.

Two Wheel Chair Victims To Marry

CHERRYVALE, Kan. (AP) — Mrs. Barbara Morris of Cherryvale and Boyd Oliver of Elk City, Kan., plan to marry in December although both will spend the rest of their lives in wheel chairs.

Mrs. Morris, divorced mother of three children, was stricken with polio in October 1952. Her children are 6, 7 and 9 years old.

Oliver was paralyzed by injuries suffered in an automobile accident 15 years ago.

They met while attending a trade school and rehabilitation center at Okmulgee, Okla.

LET THIS CUP PASS FROM ME Matthew 26:39

Even the Son of God could not always have His way. The cup did not pass. *He drank it in calm, deliberate and majestic mood.* God did not take away the cup but He did stand by in loving sympathy. *In drinking that bitter cup Jesus became the Saviour of the world.* God gave Him strength for the heroic deed and through His suffering He became perfect. You and I hold back and cry the same prayer. We tremble at the ordeal ahead and our faith shrinks when we know we must suffer the fate... lift the heavy load. But suffering seasons God's children and links them to Him for high adventure and noble service through His church.

REPENTANCE

(Question) "What is involved in true repentance?"

(Answer) There is more to repentance than just fear of the consequence of sins. One may also regret he sinned but the regret may be due to the fact that his guilt was detected, such as Judas. (Matt. 27:3) One may be convicted of his sins and still not repent. The Jews were convicted (Pricked to the heart) but were told to repent when they asked what they must do. One may reform his life but not repent. The reformation could be that he desired better health, or better relationship with his family. A fine example of repentance is found in Luke 15:11-32. The prodigal son turned from his father's house and wasted his inheritance in sinful living. Later, coming to himself, he realized that he had sinned against his father and against heaven. He turned from his sins, confessed them to his father God and was restored. The bible calls this "a sinner who repented." Note carefully this definition. Repentance is—

(1) A change of one's mind.
(2) Prompted by Godly sorrow.
(3) Resulting in a reformed life.

The prodigal saw his own state of life and realizing that he had sinned against his father, made the decision to return. He did return and renewed his life of Godliness with his father. Many people repent of some of their sins and then continue in the practice of others. Genuine repentance however, is a complete surrender of our will unto God's will. It is the hardest of all God's commands because it involves the breaking down of our own stubburn will.

(Address letters to Mr. Pace in care of the 25th Street Church of Christ)
