NEW HOSPITAL FOR WEST TEXAS TO BE OPENED SUNDAY IN FORT STOCKTON BY DR. W. D. CRADDOCK

Fort Stockton, March 27.—The Craddock Hospital, newest in West Texas, will be opened formally on Sunday, March 30, from 2 until 5 o'clock.

It will be housed in a new fire-proof building just completed by Dr. W. D. Craddock, former Alpine and Monahans surgeon who moved here last year. While the hospital is owned and operated by Dr. Craddock, it will be an "open hospital", to which physicians of this entire area may send or bring their patients and conduct their own practice or surgery.

Newest equipment has been installed in the operating room, delivery room, laboratory and X-ray. Separate nursery is also provided. Seven modern patient rooms are provided, and new equipment of latest and best design has been installed throughout the building.

A feature of the hospital is the circular operating room, with a curved section of glass brick on one side to admit natural light.

Men who have become 21 years of age since October 16, 1940, are not required to register for Selective Service training unless or until another registration day is proclaimed by the President. Nevertheless, they may volunteer.

This announcement was made today by General J. Watt Page, State Director of Selective Service, because of the numerous inquiries being received at State headquarters and by the local boards.

General Page pointed out that the President's proclamation specifically designated October 16, 1940, as the date for the "first registration under the Selective Training and Service Act of 1940," and that the Act provides for subsequent registrations only at the call of the President. Likewise the Act and proclamation were specific in limiting the first registration on October 16, 1940, to men between the ages of 21 and 36 years on that date.

"The law is clear, therefore," he said, "that any man who was not 21 years of age on October 16, 1940, will not be required to register until the President calls for another registration. However, any male citizen or declarant alien between the ages of 18 and 36 years may volunteer for Selective Service training, unless he is a registrant who has received his order to report for induction."

On the other hand, Director Page pointed out, a registrant who has passed the age of 36 years since October 16, 1940, remains liable for Selective Service training.

Terrell County Local Board has a call for one selectee for April 2nd, 1941, which has been answered by James "Buck" Murrain who has volunteered for induction. "Buck", as he is known by his friends, is the son of Mr. and Mrs. R. H. Murrain, a prominent ranch family of this community.

Roland Windell, formerly of San Antonio, has accepted a position with the Sanderson Wool Commission Company as secretary and treasurer. Mrs. Windell and son will move here after the school year is completed. Mr. Windell was formerly with the Lykes Steamship Co.

Herbert Cates of Bracketville is here this week visiting in the home of his sister, Mrs. Marvin Kelly and Mr. Kelly.

Mr. and Mrs. Johnnie Williams spent last week-end in San Antonio.

Mrs. J. M. Corder will be hostess at the next meeting Wednesday, April 2nd.

LIBRARY READY FOR PUBLIC USE

The Board of Library Directors met Wednesday afternoon at 3 o'clock at the high school at which time representatives from a number of the civic clubs reported their willingness to provide continuous support for the library.

The Terrell County School and Community Library is now ready for public use with two shelves completed. As new books arrive their titles will be published so people will know what books are available.

During the summer months one may check out books or use the reading room from 3 o'clock until 5 on Thursday afternoons.

Anyone wishing to donate books will please notify one of the club organizations. Someone will call for the books and turn them over to the book selection committee.

Although the work of the library is progressing rapidly there is still much to do in the way of making bulletin boards, shelves and securing of books.

GOVERNOR W. LEE O'DANIEL TO OFFICIATE AT OPENING TEXAS SCOURING AND WOOL MANUFACTURING FIRM

Of interest to Texans, and particularly to the wool and mohair growers of this state, is the grand opening April 3rd of a scouring plant at Marble Falls, Texas, by the Texas Scouring and Wool Manufacturing Corporation, according to Caleb F. Adams, San Antonio, their representative.

"Texas produces one-fifth of the nation's wool and 80 percent of the American mohair output," said Mr. Adams, "but until recently the growers have had to ship their product to the East to be scoured, paying the freight charges on the dirt and grease that make up about 60 percent of the weight, while they are paid only for the amount of cleaned wool, minus the cost of scouring and grading.

"Texas wool is of a very fine grade," Mr. Adams continued "and if the producer has the opportunity of having his wool scoured locally, he can get the market price for the cleaned wool without paying freight on excess weight. This will make a difference of thousands of dol-

lars in the income of Texas wool growers.

"The Texas Scouring and Wool Manufacturing Corporation has purchased the finest wool scouring equipment it is possible to buy, and is in a position to scour wool to any degree of consistency that may be desired by the wool manufacturers. This machinery was purchased in Boston and New York and shipped to Marble Falls. The installation has just been completed. On the opening day in Marble Falls, the wool growers will have the opportunity, for the first time, to see the actual processing required in scouring wool.

"Lanolin grease, which is in great demand, will be reclaimed as one of the activities of the firm in the very near future. Inasmuch as from 15 to 18 pounds of wool grease exists in each 100 pounds of unwashed wool, there is a tremendous volume of business in this line which has heretofore been forfeited. Lanolin is worth from 17 to 20 cents per pound, and in shipping the wool to the East,

for scouring, this valuable by-product has been lost. This in itself amounts to several hundred thousand dollars per year in extra income, which should be allocated to the various wool growers.

"The importance of this industry can no better be emphasized than by the fact that our honorable Governor, W. Lee O'Daniel, will officiate at the opening and will make a dedicatory address pertaining to the future of this business in Texas.

"A grand festival has been prepared for the occasion with entertainment and a free barbecue. You are all cordially invited to attend these ceremonies. Mr. Adams concluded with the statement that he will have representatives stationed at various points throughout the building to explain more in detail the operation of the business to those who are desirous of further information. Also, convenient places for registration will be provided where each wool grower may give his name and address, which will be placed on an active mailing list.

Although Attorney General Gerald Mann has ruled that the so-called Fair Trade Act will repeal a most important section of the sacred Texas anti-trust laws, sponsors of the muzzled retail price-fixing act have not yet withdrawn their bill and reports are they will push it if it strips the consumers of Texas of every bit of protection they now have against price-raising exploitation. LIFE OF A SENIOR

Billie Corder

The honorable Mr. Campbell Robinson Kerr was born on June 23, 1923, in El Paso, Texas. He now resides in Sanderson, Texas, goes to school, has starred in football, basketball, and track. Mr. Kerr is well-liked (he hopes) and especially by one certain little blonde, also a senior. (That ain't the half of it though—it's pretty mutual.) He likes well-seasoned Mexican dishes, slim brunette dishes, (she help me—that's the very thing he said!) and the funnies. His favorite movie stars are Gary Cooper and More Gary Cooper. Campbell wants to be a rancher when he gets big (what do you call him now?), and hopes to get prepared for the undertaking in A. & M. The other ambition is to be married. Such marital minded seniors as through the halls of S. H. S. While basking in the carefree life of a young bachelor, he enjoys all sports—chiefly taking part in rodeos. Campbell usually enters in the roping events and usually does jolly well in them. His favorite color is red and yet he just can't stand real red lipstick. It is hard to get off! Other boy-cotted things are jitterbugging and cheap liquor. He likes staying up late and "Rancho Grande". (At this point Mr. Kerr promptly shut up, and despite coaxing and pleading, he steadfastly maintained a deathly silence. We extend our regrets that this amazing annual of a man's life has so suddenly been ended.—Editor's note.)

EVERY SCHOOL AND EVERY BUSINESS HAS ONE OR TWO

In a school full of bright, self-respecting students, there are very likely to be one or two completely lacking in good common sense. And that goes for business, too... particularly the beer retailing business.

Out of thousands of beer retailers who conduct respectable, law-abiding businesses, there may be a few "dunce" retailers who disobey the law or permit anti-social conditions.

These few unwashed retailers are a menace to the future of the beer industry... and also of the benefits beer has made possible. Right here in Texas, beer provides employment

for 31,165 persons, supports an annual payroll of \$22,076,182 and contributed \$2,273,968.64 last year in state taxes.

It is the brewers' responsibility to make good beer—the retailers' responsibility to sell beer in wholesome surroundings—and the legally constituted authorities' responsibility to enforce the laws. All of these, working together with the public, are needed to protect the future of beer.

You, too, can help the cause of moderation by (1) patronizing only reputable places where beer is sold; (2) and reporting any violation you may observe to the duly constituted authorities.

BEER...a beverage of moderation

A REPORT to America

The Ford Motor Company's business has always been to serve the needs of the American people. In providing them with low-cost transportation for the past 38 years, we have developed one of the country's largest and most useful industrial units. During a national emergency, we feel that these facilities should be devoted without reserve to our country's needs. Toward that end we started rolling months ago, with these results:

- 1 A \$21,000,000 Ford airplane engine factory, started only 6 months ago, is nearly completed. Production will start with an initial order for 4,236 eighteen cylinder, air-cooled, double-row, radial engines.
- 2 We are building a new \$800,000 Ford magnesium alloy foundry, one of the few in the country. It is already producing lightweight airplane engine castings.
- 3 Army reconnaissance cars—military vehicles of an entirely new type—are rolling off special Ford assembly lines at the rate of more than 600 a month. We have produced Army staff cars and bomber service trucks.
- 4 The government has given the "go-ahead" and work is now under way for the fast construction of an \$11,000,000 Ford plant to produce bomber airplane assemblies by mass production methods.

- 5 Several months ago work was started, on our own initiative, on an entirely new 1500 horsepower airplane engine especially designed for mass production. This engine is now in the test stage and plans are being developed for producing it in large quantities when and if needed.
- 6 A Ford aircraft apprentice school has been established, to train 2000 students at a time.

That is a report of progress to date.

The experience and facilities of this company can be used to do much of the job which America now needs to get done in a hurry.

Our way of working, which avoids all possible red tape, enables us to get results and get them fast. This benefits users of our products and workers who produce them.

We are ready to make anything we know how to make, to make it to the limit of our capacity if need be, to make it as fast as we can go, and to start the next job whenever our country asks us to. And to this end, we know we have the full confidence and loyal support of the workmen throughout our plants.

SNOOPER
HEARS NOTHING SEES NOTHING TELLS ALL

We wonder why Bernice and Jeep blushed so in assembly Monday morning?

I wonder how all the kids know where Campbell Kerr is every minute of the day? They may be able to tell by watching Joyce's eyes.

I hear Bernice and Doris weren't doing so well in tennis Saturday until Jeep and Bill showed up, and then low and behold they won.

Gosh, Joyce, look what I see at this very moment. Campbell is talking to Billie Jo Corder alone in the bookkeeping room.

That's all right Campbell, Joyce got even with you. She was looking for Wayne Hine-man from Marathon last Friday.

Lois Mae Bassett was a ray of sunshine the other morning when she read a letter on the bus. Oh, these wonderful men!

When Bill Cargile was on the track the other day, he did the job well. When he was off the track, he also did very well, didn't he Reba Burleson?

Well, Well, Alice, so you finally got your wings! I bet you didn't spend 72 hours in the air to get them. I bet they came in ten minutes of a moonlight night.

Don't I'm ashamed of you. Giving Clara Alice your sweater to keep her warm. Can't you take a hint?

Ahem! Mr. Rogers what are you going to do about this? Marzee and Lois Mae were rating Givens Miller and Bill Burnham from Marathon last Saturday.

J. D. seems to like Betty Smith. Just ask her where she got her lock.

Dear Patrons who read this

column: We wish that some of these girls would make up their futli' minds about who they like best.

Here's a flash on Campbell Kerr and Billy Joe. Campbell is holding a deep smile while Billie Joe is engaged in one of her gruesome grins. Oh gosh, Joyce, hurry up and get back to school.

It seems that Lois Mae and Alice have more competition in the from of Marzee and Vima. What a man!

My, it seems like Edna Mae was happy during the bi-county meet. The cute little boy from Alpine couldn't have had any thing to do with this (or could he?)

Dear Students: In conclusion of this column, we hope

that we can find everyone as happy in the district meet. Not only was the meet a success, but everyone's romance as well.

Roy Rogers Excellent In Newest Western Picture Coming Sat.

"Colorado," a gripping new western from the Republic lot will make its local showing at the Princess Theatre Friday, April 4, and will chal kup another feather in the cap of Roy Rogers, singing cowboy star who, in a relatively brief pace of time, has vaulted into the top ranks of the screen cowboys.

Rogers, the young and good looking ranch lad who got his first boost in the entertainment world playing with the popular "sons of the Pioneers" Orchestra, is at his best in the current role of the Pinkerton detective of Civil War days who is sent to Denver to investigate subversive activities on the part of agents of the Confederate army.

George "Gabby" Hayes, the loveable bearded comedian who furnishes comedy relief for all the Rogers pictures, again garners his good measure of laughs in "Colorado." He portrays Roy's pal and side-kick who journeys to Denver with him to protect him—first of all—from designing women, and then from peril at the hands of Indians, Confederate spies, avalanches, and natural disasters of all kinds.

Maudie Eburne scores as "Etta Mae," the frontier widow who almost succeeds in changing Gabby's opinion of the feminine sex by adroit practical application of the old adage that the way to a man's heart is through his stomach.

Pauline Moore is the leading lady—a lovely and talented one, with a brilliant screen career awaiting her in the immediate future.

The best way to get to the top is by being the best man at the bottom.—V. H. Jones.

Last Meeting of Church Year Held By Auxiliaries

The Presbyterian Auxiliary met in the church Monday afternoon at three o'clock for the last meeting of the church year.

Officers of the past year gave reports of work accomplished, basing each report upon a scripture passage containing the word "love," since the theme of the year's work has been "Love in Action." As each gave her report she placed a red heart upon a large poster of the two hemispheres, thus symbolizing the work of the church throughout the world. The circle chairmen, Mrs. John Harrison and Mrs. Joe Nichols, together then placed a complete circle of hearts around the entire world globe.

Mrs. R. D. Holt, president, was in charge of the program, Mrs. W. E. Grigsby leading an impressive devotional service on the subject of "Stewardship of Time" At the conclusion of the program Rev. John W. Byrd, pastor, installed the new officers for the coming year. They are as follows:

President, Mrs. R. D. Holt; vice president, Mrs. John F. Nichols; secretary, Mrs. J. H. Loehausen; treasurer, Mrs. Seth Davenport; historian, Mrs. W. E. Grigsby; foreign missions, Mrs. W. E. Lea; home missions, Mrs. R. S. Wilkinson; Christian education, Mrs. N. E. Charlton; religious education, Mrs. W. C. Vaughan; Presbyterian home missions, Mrs. W. H. Savage; spiritual life, Mrs. Jack McKee; literature, Mrs. Joe Nichols; social service, Mrs. C. L. Sims; pastor's aid, Mrs. John W. Byrd and social activities, Mrs. Joe F. Brown.

Other members present were Mrs. M. J. Shurley, Mrs. R. E. Corder and Mrs. S. L. Stumberg.

Miss Jessie Bob Ryan of San Angelo spent Saturday and Sunday with Mr. and Mrs. J. T. Dillard. Mrs. Sam Johnson accompanied her as far as San Angelo on her return to Abilene after spending a few days with the Dillards.

which he signed into law March 24.

It looks like the Governor's disagreement is with himself.

In other matters the House proceeded this week with businesslike regularity. They placed a curb on the sale of prescription liquor in dry areas of the State, limiting each physician to 100 liquor prescriptions a month and each drug store to a liquor stock of not over ten gallons. It was brought out in debate that some drug stores in dry areas had filled over 9,000 liquor prescriptions in a month, and some whisky doctors had written as many as 500 prescriptions on a Saturday night for "sick folks."

The House decided that Texas is not ready for an independent

Oil and Gas Commission separate from the Railroad Commission. The measure proposing the appointive body was voted down today, after proponents failed to show there was any real need for the change, other than that the oil men wanted the right to rule themselves. This might be a good thing for the oil men—but the House was thinking how good it would be for Texas.

On the other hand, representatives voted to make the present prorator law permanent, which is one victory for the major oil companies.

The passing of a great Texan was noted in a formal resolution of respect for Claude B. Hudspeth, former Representative Senator, Congressman, who died in San Antonio last Wednesday. West Texas representatives praised the character and achievements of this outstanding citizen and the entire House, paid tribute in a memorial to him.
