ROOSEVELT COUNTY DEMOCRATIC CENTRAL COMMOTTEEMEN,
By C. M. Compton, Jr.,
Attest:— Chairman.
John W. Ballow,
Secretary.

nay10-17-

TO THE VOTERS OF ROOSEVELT COUNTY:

I am presenting myself as a candidate for the office of county commissioner District No. 2 for a second term. I do so on my own merits and don't want to be elected on the demerits of anyone.

My official record has been made and is open for your investigation.

The life that I have lived among you is an open book.

I have kept the promises that I made to you in the last campaign and in doing so have saved the taxpayers several thousand dollars.

I have kept faith with the democratic administration and have cooperated with the machinery set up by the government, to relieve the poor and distressed in these hard times, and will continue to do so.

I appreciate the support and the over-whelming majority you gave me in the primary two years ago, and I will appreciate your support in the campaign and your vote on May 19.

If nominated and elected I will continue to handle the business of the county as I have in the past and give it the same careful attention that I give to my own private business.

I ask that you withhold judgment on any story that you may hear ,until you have made a thorough investigation. For there is in nearly all political campaigns some last minute dope to which a candidate has not the time in which to reply.

Respectfully,
R. L. ALLEN.

TO THE VOTERS OF ROOSEVELT COUNTY

I wish again to thank the voters of Roosevelt county for their support two years ago, and wish to serve them two years more.

I have given them the best there was in me and have missed no opportunity to serve them that I could see, yet the candidates have had ample time and opportunity to air their grievances man to man in your presence and there has been nothing brought against my record openly.

I have heard rumors that we intend to raise the valuation of real and personal property to make up for the 20 mill limit, which is idle talk and which has never nor will be considered.

I hope the voters will disregard any gossip that may be going the rounds, the truth was discussed openly and above board at our meeting.

Respectfully yours,
D. A. GORDON
Candidate for Reelection for Commisssioner, District No. 3.

Further Statement of-
J. H. BOND

Being informed that there has been some question further raised as to jailer's salary, I desire to state that the law of New Mexico provides for jailers in counties of the second class not to exceed $900.00 per annum, and Roosevelt county is in the second class, and my information is to the effect that heretofore Jailers have been paid, as provided by law, but when I came into office, and at the first budget making, there was only put in the budget $300.00 for a Jailer's salary.

I advise further that the law provides for salary of Deputy Sheriffs of the second class county not to exceed $2500.00, and it will be observed that Deputy Sheriffs is in the plural, and is necessary to have more than one deputy, and there was only budgeted for deputy sheriffs in this county, $2000.00, thereby saving $500.00 to the Tax Payers for Deputies, as provided by the salary law of this state; and $600.00 on the Jailer's salary, and as I have stated in my former statement to the voters of this county, I have not drawn one nickel of the Jailer's salary, and of such funds as budgeted for of the $300.00, went for Deputy hire, and not to me; and the records of the office will verify every statment I have made; therefore, I invite your consideration to the facts and the records, and trust you will not give consideration to misrepresentation.

Respectfully,
J.H. BOND

THE GRAPHIC ARTS CODE

The News is just in receipt of the price schedule as compiled by the National Graphic Arts Code committee at Washington, which went into effect on May 4.

This gives a price schedule which all commercial printing plants in the United States must charge as a minimum, and failure to do so carries a severe penalty.

On some classes of printing this price schedule is greater than that which has been charged by the News.

It is in line with the plan of President Roosevelt in stabilizing business, and the News trusts that its patrons will bear this in mind so that the News may meet these government requirements in fairness and justice to all.

DEALER ADVERTISEMENT

WHY do you suppose Chevrolet keeps repeating, in all of its advertizing, "Drive it only 5 miles"? Very frankly, here's the reason: Chevrolet engineers have tried out all the various makes of cars in today's low-price field. They have compared performance—on rough roads, in traffic, over hills, through sand and mud and water! And they have proved, to their complete satisfaction, the same things that hundreds of thousands of Chevrolet owners are proving in their daily driving. The Chevrolet ride simply can't be matched by any other in the low-price field. That's why we urge you to *"Drive it only 5 miles"*—and that's why we promise, *"you'll never be satisfied with any other low-priced car."*

Governor Hockenhull Moves to Keep Money in New Mexico

Saying that people are threatening to give their trade to mail order stores to avoid the sales tax, Governor Hockenhull in a letter addressed to all school teachers today asks them to do what they can to prevent this.

He also urges the teachers to patronize state institutions for their summer courses.

The governor's letter:

"I am calling your attention to one principle that I have advocated consistently, and that is to try to secure the efforts of all our citizens to buy at home and to promote thereby state unity and co-operation in our recovery.

"The sales tax has just been put in operation, at quite an expense to the state, for the specific purpose of rendering aid and permitting our schools to function in a normal way. We believe the teachers of the state appreciate this and will co-operate to make the law effective.

"Information is reaching us that some people are threatening to go out of the state to trade in order to avoid the sales tax. You can do considerable to correct this, as that would be defeating the very purpose of the act. Each time a sale is made and tax is paid, the money goes directly to the school fund.

"I am also informed that some of our teachers are planning to go out of the state for their summer school training. This would be as bad in effect as the citizens going out of the state to buy to escape the tax. If you will remain in the state and take your summer school work, you will be helping to leave your money in the state and thereby supporting our own institutions, and also supporting the sales tax. It is hoped that every teacher in the state will decide to remain here and either teach or take some training in our splendid institutions. We are counting on the teachers to show the way and to set the example in this stressful time."

Mrs. D. W. Jones and daughter, Miss Mary and Mrs. Leonard Kimmons spent Sunday with Mrs. Minnie Kimmons. Mrs. Nonnie Mae Jones and Miss Murrill Kimmons in Portales.

Mr. and Mrs. J. M. Williams of Amarillo, Texas, will be week end guests in the W. F. Cradodck home this week.

Congressional Reflections

BY DENNIS CHAVEZ
Congressman From N. M.

The Wheeler-Howard bill, H.R. 7902, which is termed a "new deal" for the Indians is now before the house and it is interesting to notice the letter the President sent to Mr. Howard, chairman of the committee on indian affairs in which he says, in part "The Wheeler-Howard bill embodies the basic and broad principles of the administration for a new standard of dealing between the federal government and its Indian wards' It is, in the main, a measure of justice that is long overdue.***Certainly the continuance of autocratic rule by the federal department over the lives of more than 200,000 citizens of this nation is incompatible with American ideals of liberty.***I do not think such changes can be devised and carried out without the active cooperation of the Indians themselves.***It allows the Indian people to take an active and responsible part in the solution of their own problems."

The House of Representatives on Tuesday, May 1, passed the Revenue Tax bill which is intended to provide $154,000,000 additional revenue. Senator Couzens of Michigan offered an amendment which was accepted by the senate, providing for a ten per cent increase on personal income rates, but this was rejected by the house and it is expected that the senate will not insist upon its restoration. This measure has long been debated in both houses but has now gone to the senate where final congressional action is expected to be taken. The Philippine Islands have occupied a peculiar place in our minds and hearts since our annexation of them 36 years ago when the American fleet, commanded by Admiral Dewey, entered Manila bay flying the flag of liberty and of justice for all oppressed people in the world, and so far this reason the sponsors of this revenue bill allowed for the importation of oil from those islands on a three-cent basis, while oils coming in from all other countries will be charged five cents.

The list of names that have been carried in the papers of those who have been buying silver is most interesting. These gentlemen, long students of governmental activities, realize the effect any silver legislation would have on the present silver market. It is obvious that the buying of silver is predicated upon the assumption that the present congress will pass legislation which will provide for additional use of the "white gold." The President, and members of his cabinet, has repeatedly let it be known that he does not want a silver bill passed at this session, but the proponents of such legislation are numerous in both houses and they are hoping to secure the passage of some legislation that will accomplish, in part at least, their objectives. The Dies bill, recently psased by the House and now before the senate, may be the vehicle on which the friends of silver will ride. This bill as discussed recently in this column, is not a monetary bill at all, but only provides for the exchange of our surplus farm commodities for silver with foreign nations who have need of these commodities and who have an abundance of silver.

Visitors to my office this week have been Mr and Mrs. N. B. Phillips of Las Cruces, Mr. W. W. Nichols of Clovis, Mr. H. C. Neuffer of Albuquerque and Mr. Sam W. Agee of Silver City.

PUBLIC HEALTH

Conducted by Dr. J. R. Earp Director, New Mexico Bureau of Public Health.

KITCHEN COLDS

The quickest way to spread a cold or a sore throat through the whole family is to take it into the kitchen. A few germs sneezed or coughed or even breathed into a warm pudding will very quickly grow into a powerful host able to infect all who partake of the meal.

Germs get into the kitchen not only in the noses and throats of those who work there but also on the dishes that are carried in to be washed. Unless they are sterlized the germs on one person's dishes may be brought back to several other people on dishes that seem to be clean.

On May 7 last the state board of public welfare amended its regulations governing food handling establishments by adding the following paragraph to the list of methods by which dishes may be properly sterlized:

"Complete imersion in clean water, containing not less than 100 parts per million of available chlorine, for not less than three minutes."

To secure this strength of chlorine proceed as follows: Take three ounces of chlorinated lime and add to one quart of water. Keep this stock solution in the dark and make it up freshly every ten days.

From the stock solution take two tablespoonsfuls and add same to one gallon of water used for rinsing the dishes.

Boiling the dishes for not less than five minutes is another method which satisfies the requirements of the regulations.

When dishes have been sterlized it is better not to dry them but to let them dry themselves. That is from the point of view of hygiene. If they must be rubbed to give them a polish then be very sure that the cloth used is quite clean. Also the hands which hold the cloth.

Keep all flies out of the kitchen. Have the windows screened. Kill the flies which get in through the doorway either with a swatter or with a dose of fly spray. Look at our New Mexico privies. Then you kill know why New Mexico flies are especially to be feared.

POTPOURRI

Beaver Dams

The beaver builds its dams for home sites, and genuine engineering is employed. They often cut down trees two feet in diameter to secure material. The trunk is then cut into lengths, and limbs and twigs are utilized. Stones and earth help complete the job. Young beavers live with their parents two years before embarking "on their own."

Burl Johnson for Tax Assessor

TO THE VOTERS OF ROOSEVELT COUNTY, NEW MEXICO:

In presenting my candidacy as candidate for Tax Assessor for your consideration in the Primary election on May 19, 1934, permit me to say that I consider the qualifications and honesty and ability of the man should be considered by the voters in selecting their officials. I desire to state that I have held the position of Tax Assessor, and those who know of my administration I think will tell you that I was efficient and thoroughly qualified, and I would like for you to consider my qualifications in general in connection with my experience as a Tax Assessor, and as to whether or not from my qualifications and honesty, I can render the efficient service to the people.

I desire to state further that I have been a resident of Roosevelt County, New Mexico for 28 years, during which time I have been a close observer and closely associated with business conditions, and values of property, both real and personal in Roosevelt County, New Mexico; therefore, having the experience and knowledge, I am in a position to say that if elected, that I will give to each and every tax payer, a fair and equitable rate of assessment according to law, classifications and value of the property, and under the existing laws, the interest of the tax payers can best be protected by having some one in this office with the knowledge, experience and qualifications that can assist in the proper classification of the property, whereby that all may pay an equitable, but not an unjust tax. To those that do not knew me best, I solicit you to investigate my qualifications, honesty and ability to administer the affairs of the office, and I assure all that if I am honored with this position, that I will give the same fair and impartial consideration to all, and will endeavor at all times to hold the cost to a minimum consistent with efficiency.

Thanking you in advance to give my candidacy a fair consideration, I beg to remain.

Very truly yours,
BURL JOHNSON
may10-17.

TO THE VOTERS OF ROOSEVELT COUNTY:

As it will be impossible for me to see each voter before election day I take this means of asking you to give me a fair and impartial consideration as a candidate for this office.

I have been a resident of this county 23 years, coming here at the age of 21. I spent 18 of those years on a stock farm and the past five have been spent in the Portales Valley on a farm where I am living at present. I have always tried to live up to a standard whereby a good citizen is measured and I feel like I owe what I have accomplished aloug this line to my neighbors and friends. The wonderful support that was given me two years ago by the voters of Elida and the rural boxes has not been forgotten and I consider their loyalty a testimonial of my character and fitness for this office.

I wish to thank the voters of the Portales box for their support and I believe that during the past two years the people have investigated for themselves just what I stand for and I am asking again for your vote and influence strictly upon my merits.

Owing to the numerous rumors regarding my deputies I wish to say I have not made any promises and if I am nominated and elected I will do my best to select men who will meet the approval of the public.

If I am the successful candidate I will try to conduct the affairs of the office in an economical and efficient manner.

H. BEEBE,
Candidate for Office of Sheriff, Roosevelt County.

EDITOR'S NOTE:—In running the above last week, a gramatical error made "deputies" read "difficulties." The News is glad to make this correction.

VOTE FOR

W. A. Stephenson

As I am at present teaching and for that reason unable to see all the voters personally, am taking this means of telling you that your vote and influence will be appreciated very much.

I have a degree from the Las Vegas Normal University and have twelve years experience in rural schools; the last six years situated at Dora, where I have done my best to give service.

I have tried to keep abreast of the times by attending school, nine summers during the last twelve years, all of which has been in our own state.

I like to succeed in any position and in any undertaking, and if nominated and elected, will treat all alike regardless of size.

My aim will at all times be to give one hundred cents of education for each dollar spent.

Thanking you for any consideration you may give me, I am,

H. O. MINICK

Who has never held a public office, a farmer most of his life, and also spending much time in the school of experience elbowing with many fellowmen in the various pursuits.

I have no barbed hooks to cover with political bate but seek this office strickly and alone upon the basis of an honest deal for all the people.

I trust it will be my pleasure to meet all the voters of this county but as time is too short and this will likely be impossible, I trust that you who read this will give me a careful consideration and go to the polls next Saturday, May 19 and vote for him, whom you think is best fitted to serve you as tax assessor.
