LAKE MAKES OIL WELL ISLAND

The aerial picture above shows water in Lake J. B. Thomas backing up around one of the oil well mounds completed long ago to protect wells in the basin. When the lake fills only a small area at the top of the mound will protrude above the water. The mound is located about four miles up the Colorado River from the dam. The lake is about one-eighth full now. (Aerial photograph by Lee Watson)

Young Democrats Take Crack At Conservatives

SAN ANTONIO, Oct. 31 (AP)—A spirited throng of young Texas Democrats stood firmly united here today to set up a state organization in defiance of senior party denunciation.

They elected Bill McKnight of Dallas state president, named other officers, adopted a constitution and loudly cheered speakers who spurred their actions.

The convention moved with the smoothness of greased machinery, only one controversy breaking out on the floor late in the day.

That came on a provision written into the constitution to require applicants for membership to declare their intention to support national party nominees.

Minority opposition to the provision bobbed up twice but was put down both times, once on a 57-18 vote of delegates and again on a 6-3 vote of clubs represented.

McKnight's election, as that of all other officers, was without opposition.

"We're not here as representatives of any fringe group or special faction within the Democratic party," he told the nearly 100 delegates mostly from Texas' larger cities.

"We are here instead as representatives of Democratic youth whose purpose it is to attain the greatest amount of good for all Democrats," he said, continuing:

"We are not here to issue condemnations of those who have so arbitrarily repudiated us, nor to indulge in carping criticism on a purely personal or partisan basis.

"We shall instead leave any condemnation to the voters of Texas and the United States who are more astute in such matters than they are given credit for being by certain politicians."

Other state officers elected were Vernon Hill Jr., Austin, vice-president; Mrs. Betty Marchak, Austin, secretary; E. A. Simpson, Dallas, treasurer; Roscoe Martin, Austin, national committeeman; and Joan Hockert, Houston, national committeewoman.

The state Junior Democratic Executive Committee was empowered to name delegates to the national convention at St. Paul, Minn., Nov. 13-14.

Resolutions endorsed constructive leadership of the Democratic party in the 83rd Congress, opposed a national sales tax, urged a step-up in national defense efforts, endorsed Democratic-proposed farm legislation, called for more acceptable labor legislation and urged a more realistic national money policy.

Two scheduled speeches were canceled. Neither Temple attorney Byron Skelton nor county judge Jim Sewell of Corsicana were able to attend.

The morning's business rolled harmoniously, apparently with most squabbles put to rest in pre-convention caucuses.

Boyd Taylor, University of Texas student from Temple, was quickly installed as permanent chairman without opposition. Miss Norma Mills of San Antonio was chosen secretary; Dean Johnson of Houston, parliamentarian; and Harlan Boren of Austin, reading clerk.

Ralph Yarborough of Austin won applause by telling the youths to stand their ground against what he called "a Republican gag attack."

"Don't feel that you're martyrs," he said. "Don't be discouraged. Hold on to your organization.

Shivers Lauds SCS Changes Being Sought

AUSTIN, Oct. 31 (AP)—Gov. Shivers said today he believes the proposed reorganization of the U.S. Department of Agriculture "will benefit Texas and the soil conservation districts."

Shivers endorsed Secretary of Agriculture Benson's reorganization plan, which eliminates regional soil conservation offices. Shivers' views were in a letter to James Cartwright Jr., of Terrell.

Cartwright, chairman of supervisors of the Kaufman, Van Zandt and Rockwall Soil Conservation District, had written Shivers expressing "alarm" over the reorganization.

BENEFIT FOR TEXAS

Shivers said he felt Texas will benefit because the reorganization will allow "technical advice to be available directly in the state offices of the soil conservation service as well as in our own state agency, rather than having the regional offices which merely add one more bureau."

The governor said many Texas citizens have written him about this matter.

He said he had often written Benson and members of his department about the soil conservation program.

TRUE FACTS

Shivers quoted a paragraph from a letter written to him by Benson which gave, in the governor's opinion, "the true facts most of our Texas people seem to be interested in."

Benson's statement said: "Quite a large number of letters have been received from Texas citizens who are alarmed about their understanding of our proposed reorganization of SCS. All of these letters indicate a misunderstanding of the proposal.

"Most of them say that they understand that we are putting soil conservation work under the supervision of the extension service. This is definitely not a part of the plan nor is it contemplated. Most of the letters also express fear that we are minimizing soil conservation, which is not true; in fact, the contrary is the case."

Poor Showing Again In Prisoner Talks

PANMUNJOM, Sunday, Nov. 1 (AP)—Red China, infuriated over yesterday's humiliating 438 to 21 rejection of communism by kicking, screaming North Korean prisoners, quickly cast a shadow last night on the future of the interviews.

In an unusually swift reaction, Peiping radio only four hours after the tempestuous interviews ended accused the Indian command indirectly of double-dealing.

The charge, as swiftly denied by Indian officers, was that the Reds had asked for prisoners to be brought from Compound 35 but that they came from 34, 35 and 37.

It seemed possible that the Reds were raising a new issue aimed at stalling the explanations rather than have the world witness more than 96 per cent of the Chinese and North Korean captives turning down communism.

The interviews were due to resume Monday after a Sunday recess today.

The Reds had been banking on the 7,890 North Koreans for a propaganda angle after the first 921 Chinese interviewed out of the 14,702 in custody had yielded only 20 willing to go back to Red rule.

The Communists evidenced that by refusing to interview any more Chinese while demanding that the North Koreans be brought out even at gun point for the persuasion talks.

Yesterday the Reds got their answer—curses, spitting and threats "We will come back and kill you all."

Saturday's explanations were a passionate, often violent series of battles for the prisoners' alliance. Some lectured the Reds and taunted them by inviting them to "throw off that filthy uniform and come out of the south door of this tent with me."

"You dogs, you sons of dogs" many shouted. "You traitors—you want to sell us to Russia. You are the dogs of the foreign barbarians We will come back and kill you all—you and your (Premier) Kim Il Sung."

Some of the interviews were as short as 30 seconds if the prisoners showed uncontrollable violence, and the North Korean instructor did not insist.

But if the prisoner was calmer or showed the least interest, the Indian chairman allowed the Reds to take almost as long as they liked. Several interviews ran over one hour and a half.

John L. Lewis Flays At Ike

WASHINGTON, Oct. 31 (AP)—John L. Lewis' United Mine Workers charged today that most of the commissions set up by President Eisenhower to study national problems are just devices "to stall and avoid decisions."

The Mine Workers Journal, which generally reflects the views of Lewis, said in an editorial the voters who elected the Eisenhower administration and the Republican Congress "expect them to assume the responsibility which they so eagerly sought and to stop stalling around with commissions ... to avoid the issues."

"What the administration wants to do, it does, regardless of commissions," the editorial continued, "but what it wants to put off, it puts off by using the commission gimmick as an excuse."

President Eisenhower's announced intention in establishing various commissions was to get the most competent advice possible in formulating the administration's policies in such fields as housing, inter-governmental relations and agriculture.

The editorial said perhaps the "outstanding current example of government-by-commission" is in the realm of agriculture.

"The farmers want action on the campaign," it said, "and they are not going to be satisfied with a pledge the GOP gave them in the commission."

The same, the editorial added, goes for labor "and for other groups that want action."

Lewis supported Adlai Stevenson in the 1952 campaign.

Time Limit Is Set For Reds

PAMUNJOM, Sunday, Nov. 1 (AP)—U.S. Envoy Arthur H. Dean, who has said he would give the Reds 10 days to two weeks to make clear if they really want a Korean political conference, tomorrow leads into the decisive stage of the so far futile talks.

The first six days yielded nothing but sharp differences. The two sides were in recess today.

Dean, representing the 16 Allied belligerent nations in Korea, remained optimistic in the face of an adamant Red stand that the first order of business must be acceptance of Russia, India, Burma, Pakistan and Indonesia as neutrals at the conference.

Dean has no authority to widen the scope of the conference beyond that of actual belligerents.

Monday Dean is expected to pursue his appeals that the Reds cease their insistence and get on to the choice of a time and place for the conference.

So far the Reds have flatly rejected Dean's suggestions and charged they were "tricks."

Out-Of-County Car Registrations Are Being Hit In Dallas

DALLAS, Oct. 31 (AP)—Dallas is coming up on the list for a crackdown on out of county car registration, a state highway department investigator said today.

Lowell Lindgren, investigator for the motor vehicle division of the department, said he would begin filing charges in the justice courts here about Nov. 10.

Lindgren said he will file charges also in the next few months in Hopkins County.

Similar campaigns have been started in Wichita Falls, Austin, Houston, Waco and other population centers of the state.

WEATHER

NORTH CENTRAL AND WEST TEXAS: Partly cloudy Sunday and Monday; no important temperature changes.

EAST TEXAS: Mostly cloudy Sunday and Monday; some light rain Sunday; no important temperature changes; moderate to locally fresh northeast to north winds on the coast.

Benson Meeting Strong Oppostion On Changes

WASHINGTON, Oct. 31 (AP)—Secretary of Agriculture Benson already beset by farm price troubles, may now have to abandon his plans to reorganize and trim down the Soil Conservation Service.

Capitol Hill sources, alarmed by the flood of mail denouncing the reorganization proposal, said today that Benson has been advised in the plainest terms to drop the matter for the time being.

The controversy over Benson's proposal appeared to have no direct connection with current unrest over falling agricultural prices. But Republican farm spokesmen in Congress were nonetheless alarmed by it at a time of political uncertainty over next year's congressional elections.

Rep. Hope (R-Kan), chairman of the House Agriculture Committee, is known to feel there has been so much confusion over the reorganization plan that it should be shelved at least until Congress returns in January.

Hope has been mentioned as possibly the next secretary of agriculture should Benson fall victim to farmer and congressional dissatisfaction over his policies. Benson, however, has said with the backing of President Eisenhower he does not intend to resign.

Sen. Young (R-ND), who has publicly called for Benson's resignation and has accused the administration of lacking a program to cope with falling farm prices, told a newsman today:

"This situation can't continue indefinitely. It could cost Republicans a sizeable number of seats in the House and possibly give Democrats three additional senators from the Midwest."

The razor-thin numerical difference in Congress now is: in the House—218 Republicans, 214 Democrats, 1 independent and 2 Republican vacancies; in the Senate —48 Democrats, 47 Republicans and 1 Independent.

Young reported "a great many of the Midwest Republicans in the House and Senate are very unhappy."

Young is chairman of the Senate appropriations subcommittee that handles the farm money bill and also ranks next to the chairman on the Senate Agriculture Committee.

He said he plans "no formal request" for Benson's resignation either to the President or to Benson himself, but still thinks Benson ought to quit.

Young said he regrets "speaking hastily" in North Dakota recently when he said it would help Midwest Republican candidates if President Eisenhower did not campaign for them.

"I still think Eisenhower is a great President even though he's had some awfully bad advice on agricultural matters," Young said. "I believe his administration will be a successful one."

Another experienced farm legislator, Sen. Clinton P. Anderson of agriculture under former Pres- (D-NM), who served as secretary ident Truman, agreed with Young that farm belt discontent could return control of Congress to the Democrats.

"Farmers are sore with a slow burn," Anderson said in a separate interview. "They think campaign promises have not been kept and that's more dangerous politically than a quick rash of anger."

Chinese Attack Repudiation Of 'Confessions'

TOKYO, Sunday, Nov. 1 (AP)—Communist China today furiously attacked sworn statements of 10 American airmen who repudiated germ warfare "confessions" and charged the United States was attempting to use the United Nations "to wash themselves clean of this outrageous crime against humanity."

A Peiping radio broadcast, heard in Tokyo, made a heated reply to the State Department move during the week to label the Communist propaganda campaign a pack of lies.

There was no immediate comment from the U.N. Command on the latest Red outburst.

From the outset the State Department and U.N. Command has denied the use of bacteriological warfare in Korea and since the return of airmen who signed the purported "confessions" has used the statements to refute the charges.

The Red broadcast, quoting an editorial in the Peiping People's Daily, official Communist newspaper, claimed the fliers' statements had been "extorted" after their repatriation under the threat of being charged with treason.

Peiping quoted U.S. Atty. Gen. Herbert Brownell and Defense Secretary Charles E. Wilson as saying that American prisoners who collaborated with the Communists "may face charges of treason" or court martial and that some of their actions cannot be condoned.

Peiping asserted that all American prisoners who made depositions on germ warfare "received good treatment" and quoted Col. Walker M. Mahurin of Fort Wayne, Ind., as saying he had "no complaints whatsoever" just before his repatriation.

Showers Push Year's Total To 14 Inches

A tenth of an inch of rain fell here Friday to bring the year's total rainfall in ten months to 14 inches.

The rainfall from January through October was more than had fallen here during the last two years. By this time last year, Snyder had 12.34 inches, and by this time in 1951 10.17 inches had fallen.

Snyder had more rainfall in 1950 just before the beginning of the severe drouth here. By the end of October in 1950, a total of 21.19 inches had fallen. No rain fell during the last three months of that year. The average for the first 10 months here is 18.62 inches.

Friday's rain brought the total for October to 3.7 inches, which is 1.4 inches more than the average for the month and the most that has fallen here during October since 1945, when 4.02 inches fell.

Temperatures were moderate Friday, falling to a low of 51.

Milk Strike Is Settled In City

NEW YORK, Oct. 31 (AP)—Milk began flowing again to 12 million New York-New Jersey metropolitan area residents today with settlement of a six-day strike.

Home deliveries were being restored gradually and full service was expected by Monday.

A milk price boost was predicted to help cover costs of an $8.50 a week package pay increase won by 13,000 milk truck drivers and plant workers of the AFL Teamster Union under their new two-year contract.

Irving R. Wisch, chairman of the industry negotiating committee, said he "would guess offhand, without studying it, the price increase will be ½ cent per quart wholesale and retail."

The present price for home delivered milk averages about 27 cents a quart.

Samuel J. Cohen, union attorney, said the milk workers would get a $7 weekly pay increase and other benefits. Inside plant workers have been getting $82 a week and outside workers up to $115, including commissions.

Each worker now will get $5,000 of group insurance, compared with $2,500 previously. Another clause of the agreement provides for three-week vacations after five years to supplement the previous provision of two weeks after one year.

Break Comes In La Crosse Abduction Case

LA CROSSE, Wis., Oct. 31 (AP)—The first real break in the week-old search for a pretty schoolgirl came today: Police Chief George Long announced searchers had found her abductor's shoes.

Long said the tennis shoes were found along Highway 14, about 13 miles southeast of the city. He said they matched prints found in the blood-spattered yard of a home from which 15-year-old Evelyn Hartley was snatched a week ago tonight.

Terming the find "one of the best clues we've had so far," Long said the shoes were dispatched to the State Crime Laboratory immediately.

The development came just as hopes were fading for a quick solution.

"We need a good break to develop something," says District Attorney John Bosshard. The FBI has declined his request to enter the case since there is no evidence of kidnaping.

But it's almost certain Miss Hartley was taken forcibly from the home of Viggo and Madelyn Rasmusen last Saturday evening. Stains outside the home and on an adjoining house in the newly developed residential district have been diagnosed as type A blood, the same as Evelyn's.

Similar bloodstains were on a pair of girl's panties found under a viaduct two miles from the Rasmusen home. A pair of trousers, also bearing the type A stains, have turned up too. But neither find has enlightened investigators much. They planned to go to St. Paul to question a Chicago youth held there on a stolen car charge, but Minnesota officials already indicated the prisoner was in Chicago last weekend.

Cleared completely was Dr. Richard T. Hartley, Evelyn's College professor father, who took a lie test because, said Bosshard, "like all persons who are linked to this affair in any way, Dr. Hartley was of course under scrutiny."

The girl was a Texan, a native of Beaumont.

Reds Outlawed By Cuban Head

HAVANA, Cuba, Oct. 31 (AP)—The Cabinet today approved a decree outlawing all Communist political activity in Cuba.

The announcement came from the palace of President Fulgencio Batista after a Cabinet meeting ended at dawn.

No details were given. A statement to the press said the action was taken in accordance with the decisions of the inter-American conference at Bogota in 1948 and with those of the American foreign ministers meeting in Washington in 1951.

It said the Cabinet approved a decree "declaring prohibited and unlawful, in the fullness of national sovereignty, political activities or interference by members of the Communist International."

The Batista government already has broken diplomatic relations with Soviet Russia and banned the Communist daily newspaper, Hoy.

The ban on Communist activities at this time was considered significant since the governments of the Western Hemisphere are studying anti-Communist measures to be discussed at an inter-American conference to be held at Caracas, Venezuela, next March.

Heavy Rains In Parts Of State Saturday

By The Associated Press

Fairly heavy rains fell Saturday in parts of South and Central Texas and along the coast.

In the rest of the state precipitation was negligible or absent altogether. No rain was reported in the West Texas drought area.

Those reporting rainfall: Austin .96, Brownsville .61, Dallas .02, Houston .83, San Antonio .49, Waco .40, Beaumont .28, Corpus Christi .01, Del Rio .03, Fort Worth .08, Galveston .70, Victoria 1.42, College Station .29, Palacios .54, Mineral Wells .24 and Tyler .11.

The forecast was for more' sporadic light rain for most of the state through Sunday.

West Nations Wait Russians' Answer On Minister Meeting

WASHINGTON, Oct. 31 (AP)—The United States, Britain and France are preparing a solid diplomatic front for a proposed foreign ministers meeting with Russia at Lugano, Switzerland, a week hence. The trouble is, though, that no one this side of the Iron Curtain knows whether Moscow will accept the proposal.

United States officials expect an answer any time now. Russia has been put under heavy pressure to agree to negotiate on Germany and Austria but no one here believes that Moscow will accept the Lugano proposal outright and unmodified. If the Reds do it will mark a change in their policy line, which would be surprising but by no means impossible.

Moscow passed up an earlier Western suggestion for the Big Four foreign ministers to get together at the Swiss resort Oct. 15. It sent a lengthy note taking the line that while the Big Four might well meet and debate German problems, what was really important was arranging for a Big Five meeting which would bring Red China into a general conference on world tensions. The West rebuffed that idea.

When Secretary of State Dulles, British Foreign Secretary Eden and French Foreign Minister Bidault met in London two weeks ago, they agreed on a new note which was promptly dispatched to Moscow suggesting that since the Reds had passed up the Oct. 15 date for Lugano they should consider the same proposition for Nov. 9.

Essentially the proposition is that the Big Four powers which occupy Germany should take steps to provide political freedom throughout that country, hold national elections, unify the country and negotiate a peace treaty with the new German government.

That would mean lifting the Iron Curtain from East Germany. The Soviets have proposed a different plan for working through the present East and West German governments, which the Western powers find unacceptable.

The United States, Britain and France have also insisted that the foreign ministers should conclude an Austrian independence treaty. Russia has taken the line that work on that long-stalled pact should at this stage be carried on through diplomatic channels.

Western and particularly American leaders are convinced that the relatively new government in the Kremlin, handicapped by resistance in East Germany and Eastern Europe since mid-summer will not seriously negotiate a German or Austrian settlement at this time. Any meeting of the Big Four therefore, has already been discounted as a diplomatic and propaganda battle so far as the West is concerned.

Communications Barred For All Parties In Pending Suit

A temporary restraining order enjoining parties to a pending civil district court suit from communication with each other except through legal counsel was issued Friday afternoon in the case of Sallye I. Stephenson, by next friend Frank Stephenson, vs. Claud Wilson and wife.

Granting of the injunction prohibits communication, directly or indirectly, and any type of molestation of person or property between Mrs. Sallye I. Stephenson, a 75-year-old widow, and her son, Frank D. Stephenson, and Mr. and Mrs. Claud Wilson, Jr., except by attorneys representing them.

The injunction hearing, halted Monday when an attorney was jailed for contempt of court but resumed Friday morning, was brought by Mr. and Mrs. Wilson against Frank Stephenson. It was filed in connection with the main case, a suit by which Stephenson is attempting to recover a small house and lot sold the Wilsons by Mrs. Sallye Stephenson for $600.

Stephenson contends he is seeking recovery for the sole benefit of his mother, who he testified several times was of unsound mind. This testimony is disputed and denied by Mrs. Sallye Stephenson and other witnesses. Mrs. Stephenson presented the court affidavits disclaiming any and all interest in recovery of the property and disclaiming she had anything to do with filing the suit.

WORTH OF HOUSE

Stephenson's position in the suit is that his mother was deprived of the full value of the house when she sold it to Wilson for $600 and that the house was worth much more. Testimony of Mrs. Stephenson was that the house had been worth more but that prior to its sale it had been stripped of plumbing, lighting, and other items.

In Monday's session Stephenson testified that he had stripped the house of plumbing and electrical wiring, a thing his mother had objected to but that he did so because the plumbing leaked and the wiring was a fire hazard. This stripping was a factor in a prior suit between the mother and son.

Testimony Friday was to the effect the house had been stripped more than once. Mrs. Sallye Stephenson said that prior to the sale of the house, she sold a Mr. Yoder from Ballinger one of the plumbing fixtures which she said had been taken out of the house by someone. She said the fixture, a toilet commode, was no good but that the man wanted it, and she sold it to him for $25.

This property was a part of the property under dispute as to ownership in the prior suits and was awarded to Mrs. Stephenson in a compromise settlement out of court at a time when the original suit had been brought back to trial after the original suit had been declared a mistrial.

CLAIMS INSANITY

In Monday's session, Frank Stephenson testified his mother was of unsound mind at the time of the two previous trials. In cross-examination, Armstrong asked Stephenson whether he was aware of such at the time of the recalling of the original suit, and Stephenson said he was. Armstrong then asked whether Stephenson went into a compromise settlement with a person of unsound mind, while knowing her mental condition. Stephenson said he did.

Stephenson testified that he once obtained the signature of one physician on papers to commit his mother to a mental institution and that he carried the papers for months but could not get another doctor to sign them. He said they were useless with only one signature.

Mrs. Stephenson testified Friday she was still satisified with the sale of the property. She and her son have long been opponents in legal matters concerning their property here and have been in court here three times concerning it, the main current case pending as the fourth.

The injunction order presented the court by Garland Armstrong, attorney for the Wilsons, was modified by the judge to allow attorneys for the parties to communicate in behalf of the parties in event of attempts to settle disputed differences.

Otherwise the parties are even prohibited from coming onto each other's properties and from communication directly or indirectly by agents, servants, or employes.

Testimony in the injunction hearing included accusations of threats to kill and injure from several witnesses and testimony by Mr. and Mrs. Frank Stephenson that they believed the mother was insane.

REGISTERED NURSE

Friday morning, Mrs. Christine Stephenson, wife of Frank Stephenson, testified that her experience as a registered nurse qualified her to state that Mrs. Sallye Stephenson was a paranoid and suffered from a psychoneurotic condition which caused her to imagine illnesses and distrust her closest friends and relatives.

On cross - examination, Mrs. Frank Stephenson said her testimony had been her opinions based on experience in working in a psychopathic ward in a hospital and were not based on professional training in psychiatry. She said she had no medical degree.

Friday afternoon, under cross-examination, Stephenson testified that he had been a patient in the Veterans Hospital at Waco, but he said his confinement there was only for treatment of a bodily ailment. He denied repeatedly that he had been committed by order of a county probate court for mental treatment. In questioning Stephenson, Armstrong asked whether Stephenson did not know that only treatment of mental or nervous diseases was administered at the Waco hospital. Stephenson said he went there because other VA hospitals were overcrowded.

During the hearing Friday, Armstrong presented an "amicus curui" ("friend of the court") instrument by which he alleged bias of jury in the testimony of Stephenson and cited the district attorney calling for the latter's attention to the allegation. Armstrong's position in this matter was that Stephenson was inconsistent in his testimony in the three different cases held here.

In Monday's session, (Frank) Sentell was ordered fined in jail for three days for contempt of the court because of a dispute. He was released on $500 bond set by the state supreme court Tuesday night when he filed a writ of habeas corpus. The court set Nov. 11 as date for hearing the appeal on the contempt order.

FIRST PERMITS FOR LAKE USE ISSUED

Two different types of recreation licenses for use at Lake Thomas went on sale here yestereday. One of the permits covers hunting, fishing, swimming, and picnicking. The other license covers boat launching. Each costs $5 per year. R. A. Schooling, left, member of the Colorado River Municipal Water District board of directors is shown issuing the first licenses from left to: Phil Burns, Robert Elder, Herman Vandiver, Leroy Hessler, G. C. Coleman, and Collie Fish. (Lee Watson photograph)

HALLOWE'EN COSTUME CARNIVAL

Some of the costumes worn to the veteran's clubs' Hallowe'en Carnival Thursday night are shown above at the country store booth in the clubhouse. From left are Susan Craven, daughter of Mr. and Mrs. J. E. Craven, Jr., Mrs. U. J. Holland, Mrs. Craven, and Holland. (Lee Watson photograph)

Police Classes Are Set Here

A police department school will be held here during the next two weeks sponsored by the Snyder police department and Scurry County sheriff's department, Walter Suttle, police chief, said.

Class time for the school will be from 3 to 5 o'clock in the afternoons, and the classes are open to members of the departments and members of law enforcement agencies in neighboring towns and counties, Suttle said.

Classes Monday, Tuesday and Wednesday will be on traffic law taught by Harry Leach, training specialist with the Department of Public Safety, Austin.

The bureau of education of the Department of Public Safety will direct the school and furnish instructions.

Thursday's class will be on driver's license law taught by Angus Davis, lieutenant in the driver's license division of the state department and Friday's class will be on motor vehicle inspection taught by G. W. Busby, chief of the motor vehicle inspection division.

The following week classes in accident investigation will be given by James C. Shaw, training specialist, on Monday and Tuesday, and traffic law enforcement will be taught by T. C. Laws, chief of the bureau of education on Wednesday.

Safety responsibility will be the subject of instruction by J. B. Alderdice, chief of the safety responsibility division, on Nov. 12, and the closing address will be given Nov. 13 by Joe S. Fletcher, assistant director of the department of public safety. Certificates will be presented after the last class.

Daughter Of Former Snyderites Is Killed

Linda Taylor, 6-year-old niece of Mrs. Nellie Smith, 3800 Noble Drive, was killed in an automobile accident in Pomona, Calif., Wednesday.

She was the daughter of Mr. and Mrs. Charles Taylor of Los Angeles, former residents of Snyder who moved from here about 15 years ago.

The parents were seriously injured in the accident, Mrs. Smith said.

Funeral services will be held in Los Angeles Tuesday.

Mrs. Smith said that she returned from Los Angeles Oct. 18, where she had attended the funeral of her father, E. M. Taylor.

Cpl. Eddie Don Floyd Spending Leave Here

Cpl. Eddie Don Floyd is to arrive here today to spend a 30-day leave wit hhis parents, Mr. and Mrs. E. L. Floyd, 2811 Thirty-second Street.

Cpl. Floyd arrived in California Oct. 23 after a tour of duty in Korea with the First Marine Division. Another son of Mr. and Mrs. Floyd, Sgt. Clint Eldon Floyd, is to be returned from Korea in December.

New Election Date

HAVANA, Cuba, Oct. 31 (AP)—The Cuban Cabinet announced today the fourth date which has been set since last year for a national election—Nov. 1, 1954.

Two Minor Accidents Are Investigated Here

Two minor automobile accidents in Snyder were investigated by police Friday and yesterday, Marvin Brister, police sergeant, said.

One of the accidents occurred late Friday at Avenue W and Twenty-fifth Street involving a 1953 Chevrolet pickup driven by George Chirs Beck, Bristoe, Okla., and a 1951 Ford car driven by Raymond Nathaniel Addison, route 2, Snyder.

Damages estimated by investigating officers to total about $150 were caused to a Sunray Oil Crop. pickup driven by Arthur Fredrick Seidel, 34, of box 1168, when it was in a collision at 9:20 yesterday morning between Avenues L and M on Twenty-fifth Street. The other vehicle involved was a Chevrolet car driven by Samuel Washington Angel, 61, of 1311 Twentieth Street. Damages to the Angel car were estimated by investigating officers to be about $80.

College Training Of Workers Picking Up

WASHINGTON, Oct. 31 (AP)—The Commerce Department said today 17 out of each 100 working people from 18 to 64 years of age have had some college training.

Controversial Matters Aren't Due At Meeting

A report of a committee appointed by the city council last month to study the proposed animal ordinance will not be made at the council meeting tomorrow night, Dr. Hugh J. Stennis, member of the committee and director of the Scurry County Health Unit, said.

The report had been requested by the city council after a number of citizens attended the council meeting to protest passage of the second reading of the ordinance.

Second reading of ordinance No. 100 regulating and licensing dealers in junk and second hand goods is on the agenda of tomorrow night's meeting, however.

Bids on construction of water mains extending from the city water plant to the south and southwest parts of town will be opened.

Bids will be called for if plans and specifications of a water filtration plant, booster station, and ground storage tanks and pumps are approved by the council.

The plans have been prepared by Freese & Nichols, water engineers of Fort Worth, and will be studied by the council during the meeting.

Southwestern Bell Telphone officials have given no notice of their intention to present any new proposals at the meeting in their efforts to secure increased local telephone rates, Shelley said.

There are about 697,000 miles of federal highways in the United States.

Russian Movies Grow

MOSCOW, Oct. 31 (AP)—Ten big movie houses are under construction in Moscow, the press announces. About half the films shown here currently are Soviet-produced. Most of the imported films come from Czechoslovakia, Hungary, Poland, Bulgaria and East Germany. The few American and British movies shown here are old ones.

HIGHER SPEED RECORD

Lt. Col. F. K. (Pete) Everest, 33, of California's Edwards Air Force Base, stands beside his F100 Super Sabre fighter after exceeding the world speed record. He averaged 754.98 miles an hour in two passes over the desert near the Salton Sea in the fastest flight ever made by a production fighter plane. The fastest previous mark was set earlier this month by a Navy Skyray that flew 753.4 miles an hour.

Slave Girl Is Wed To Sailor

MIDDLESBROUGH, England (AP)—A smiling Iraqi slave girl and the handsome Englishman who smuggled her to freedom got married today. And it looks like love has found a way to foil the immigration law.

Raven-haired Jean Kawahkib, who once swept floors in a Basra coffee house, walked out of the local jail last night and down the aisle of the parish church this morning. Her bridegroom was Thomas Flynn, 22-year-old ship's steward who got her out of Basra disguised as a boy.

Both are on bail from prison—Jean to appeal a two-months sentence for illegal entry and Tommy to appeal a three-months stretch for helping her.

To get to Britain, Jean spent 44 days locked in Tommy's tiny cabin aboard the freighter Queen Maud. They tried to marry in Basra but couldn't get permission.

Jean, who says she was once sold on an Arab slave market, was a candidate for deportation after British court imposed the jail sentence. But legal authorities said today's wedding offers a sure road to British citizenship.

The wedding over, Jean flung her arms around her husband's neck. With tears in her big brown eyes she whispered:

"Tommee darling, we'll never be separated again."

Guilty Plea By Woman

Lurlene James, 34, Negro woman, was sentenced yesterday to 10 days in jail and fined $25 plus court cost of $23.50 when she pleaded guilty to a county court charge of aggravated assault.

She was convicted of a similar assault against a man last December and fined $25 plus cost. The recent assault was against a Negro woman. Both assaults were with a knife.

About 550 kinds of rats are known, three of which have become serious pests for man.

Texas Powers To Win Over Methodists 16-7

DALLAS, Oct. 31 (AP)—Texas power broke its shackles in a slashing second half today to whip fumbling Southern Methodist 16-7 and stay in the race for the Southwest Conference football championship.

Skillfully piloted by sophomore Charley Brewer, the blasting Longhorn backfield hammered SMU unmercifully to roar back from a 7-6 half-time deficit and win going away.

Phil Branch, great Texas guard who vied with the mighty Carlton Massey and Dougal Cameron for defensive honors, booted a field goal from the Southern Methodists nine midway of the final period to put a halter on any hopes the Methodists might have held.

The game was played in an intermittent drizzle of rain with 51,000 in the stands.

Delano Womack scored the first Texas touchdown in the second period with a 4-yard line blast. Duane Nutt passed to Jerry Norton for eight and the SMU score a little later. Then in the third period Texas smashed 62 yards with the kickoff to the deciding touchdown made by Cameron in a 7-yard line smash. Branch kicked one extra point. Sam Stollenwerck converted for SMU.

The defeat dropped Southern Methodist from a tie for the conference lead and burst the bubble that had grown at SMU with three straight victories under a new coach, Chalmer Woodard.

Baylor beat Texas Christian 25-7 at Waco today to take over undisputed first place in the conference championship race.

SMU had a wide edge over Texas in the first half and gave the Longhorns the opportunity to score with a fumble. But in the last half the Methodists never had a chance. Texas ran through them like they were a sieve.

The Methodists made their last real bid midway of the third period when they moved to the Texas 39 but the ever-present Branch bobbed up to intercept a pass.

Another fumble, this time of a lateral, gave Texas the ball on the SMU 48 early in the fourth period and with Brewer, the Lubbock sophomore, passing twice for 37 yards in the drive, the Longhorns swept to the SMU two from where, on fourth down, Branch stepped back and kicked the field goal.

Texas roared 144 yards on the ground and 71 in the air. SMU got 61 rushing and 125 passing.

Texas	0	6	7	3	—16
SMU	0	7	0	0	— 7

Texas scoring: Touchdowns, Womack, Cameron. Field goal, Branch. Conversion, Branch.

Southern Methodist scoring: Touchdown, Norton. Conversion, Stollenwerck.

A&M SET BACK 41-14 BY PIGS

By CARL BELL

LITTLE ROCK, Ark. Oct. 31 (AP)—Dazzling Lamar McHan marshalled Arkansas' single wing power to its greatest heights tonight as the Razorbacks stampeded a favored Texas A&M football team 41-14.

The gifted senior tailback ran for two touchdowns, passed for two more, and kicked four extra points in less than three quarters as Arkansas surpassed its entire point-production for five previous games.

McHan, completing 11 of 13 passes for 184 yards and rushing for 73 more yards, completely outclassed the Aggies' Don Ellis in their duel for the Southwest Conference's individual total offense leadership. McHan went into tonight's affray trailing Ellis by five yards and came out in front by about 100.

But it wasn't all a case of McHan by any means. The fired up Arkansas line outcharged the heavier Aggies all the way and a parade of Porker backs, some of whom were playing their first game of the year, continued to deal misery after McHan's unit retired in the third period.

The defeat was A&M's second in conference play and killed whatever hopes the Aggies might have had for the championship. It was only Arkansas' second victory in six outings, and until tonight the Razorbacks had been able to muster only 33 points.

Rice Beat By Kentucky 19-13

HOUSTON, Oct. 31 (AP)—A 45-yard touchdown run on a pass interception by halfback Joe Platt midway in the third period proved to be the difference tonight as Kentucky's hard-charging Wildcats took an intersectional battle from Rice Institute, 19 to 13.

Platt's run, behind a convoy of blockers, gave Kentucky a 19-7 lead but Rice came back early in the final period to turn a fumble recovery and a pass interference penalty into a touchdown that placed the Owls within striking distance.

Kentucky, trailing 6-7 at the half, had jumped into the lead minutes before Platt's run on a 32-yard pass from quarterback Bob Hardy to halfback Steve Mellinger after taking an Owl fumble on the 35.

Fullback Kosse Johnson plunged over for Rice's final score after a pass interference penalty against Kentucky in the end zone had put the ball on the one.

Georgia Tech Throws Vandy

NASHVILLE, TENN., Oct. 31 (AP)—Georgia Tech overcame a shaky start to roll over and around Vanderbilt 43-0 today in a versatile display of power, speed and passing.

The Engineers, ranked eighth among the nation's college football teams, scored two touchdowns in the opening quarter, two more in the third and wound up its scoring with another pair in the final stanza.

Burton Grant booted a field goal from the Vanderbilt 7 to complete the day's scoring.

Coach Bobby Dodd emptied his bench before the game was over, with reserves playing most of the final portions.

The game-ending touchdown started with one second to play and covered 59 yards on a pass from Grant to Joe Hall, a fourth-stringer.

Southern Cal Hit By Oregon

PORTLAND, Ore., Oct. 31 (AP)—Southern California, the West Coast's last undefeated team, fell before lightly regarded Oregon, 13-7, in the Pacific Coast Conference's surprise game of the day.

Southern California, ranked No. 7 in the nation in the weekly Associated Press poll, mustered only two sustained drives against a hard-charging Oregon line.

With linebacker Ron Pheister slamming into the ball-carrier on almost every play, Oregon stopped the first Southern California drive—a 75-yard march—on the Oregon 5.

The other drive also went 75 yards but that time halfback Aramis Dandoy went over on an end sweep in the third quarter.

Irish Win In 2nd Quarter Spurt 38-7

SOUTH BEND, Ind., Oct. 31 (AP)—tion's No. 1 team, poured a four-touchdown, second quarter broadside into inept Navy and then coasted with reserves for a 38-7 defending Class AAA champ and a leading contender for that title this season.

The victory gave the Big Spring eleven a 3-0 district record, and it put the Buckaroos in second place with 2-1. Whether Big Spring will remain on top depends upon Lamesa, which will host the team next week; Snyder, which is host the following week, and Sweetwater, which is host for the final game Thanksgiving Day. It was Big Spring, called one of the weak teams in the district last year, that surprised the might Sweetwater team into a loss.

The Steers were successful Friday night in stopping the 'key to Breckenridge's power — the passing of Kenneth Ford. Most of the passes thrown slipped out of the hands of the receivers in the rain. The Buckies completed only three passes for 27 yards, far below their season average.

The two teams battled scoreless until midway in the fourth quarter, when Halfback Carlisle Robison sailed 39 yards for the Big Spring touchdown. Two nearscores by the Buckaroos were passes, tossed into the end zone to receivers who could not hold the slick ball.

The Steers limited the Buckies to 88 yards on the ground while gaining 320 for their own team. Breckenridge was forced to punt five times. Billy Dendy averaged 31.6 yards on those. Big Spring punted once.

Sweetwater, with a 26-0 win over Vernon, and Lamesa, with its 21-14 defeat of Snyder, both tied up with Plainview for third place in the district, while Vernon fell down to just above Snyder in standing.

Halfback Frank Smith led the Mustangs to their win over Vernon. After a scoreless first quarter, Smith caught a pass from Harold Hobbs in the second period to put the Sweetwater team out front. The play covered 76 yards. Hobbs converted to make the halftime score 7-0.

In the third period, Sweetwater made a 48-yard drive to a TD, with Quarterback Freddie Armstrong carrying the last 10 yards. Smith broke through tackle in the fourth quarter for a 39-yard run to score.

Armstrong threw a 35 - yard touchdown pass in the last play of the game. Smith caught it for the score. Time had already run out when Hobbs added the extra point on a kick. Vernon recovered six Sweetwater fumbles and threatened the Mustangs' goal line several times.

Plainview was idle Friday. While Snyder will have an open date next week, Sweetwater will go to Breckenridge, Plainview will be at Vernon, and Big Spring will journey to Lamesa.

Bears Pass Over TCU Frogs 25-7

By DAVE CHEAVENS

WACO, Oct. 31 (AP)—Cotton Davidson's precision passing gave Baylor's unbeaten Bears an overwhelming 25-7 victory over Texas Christian before a homecoming crowd of 30,000 here today.

Davidson threw three touchdown passes as the nation's No. 3 team took a firmer grip on the top spot in the rugged Southwest Conference, winning its sixth straight game. Baylor went into the game ranking 10th in the nation on pass offense.

The teams played on even terms throughout the first period, and Baylor's first touchdown came early in the second on a dash by fullback Allen Jones. A pass from Davidson to sophomore end Excell Amyett gave Baylor its second touchdown, and the third was on a 30-yard peg from Davidson to L. G. Dupre.

Dupre took a short pass over the line from Davidson late in the game for Baylor's fourth touchdown after Texas Christian went into the air to score on a 63-yard throw from quarterback Ray McKown to Ray Taylor.

Davidson completed 11 passes of 19 tries for 149 yards, including the three touchdown throws. He handled the ball deceptively to give his fleet running mates a chance to pile up substantial yardage on the ground when it was needed.

Amyett caught one touchdown pass and played a fine game at end for Baylor.

Another standout on the Baylor line was 215 pound tackle James Ray Smith — singled out as lineman of the week for his fine play last week against the Texas Aggies. Smith's defensive work was methodically and bruisingly tops today.

Fumbles were costly for Texas Christian. At least two promising drives came to nothing when they lost the ball. And Baylor's first touchdown was set up by a poor pitchout from McKown to Clinkscales who lost the ball to Clarence Dierking on the TCU 12. Jones then scored for Baylor on a slashing run around right end.

Army Tied By Tulane 0-0

NEW ORLEANS, Oct. 31 (AP)—Battered Tulane rose from five straight defeats today to gain a scoreless tie with heavily favored Army and interrupted Army's bid for national football ranking.

The game was a battle of stout lines which kept fired-up backfields in check except for one deep penetration by each team.

Tulane got to the Army 8 on the passing and running of quarterback Pete Clement in the fourth period. Clement's field goal attempt was blocked by Army end Bob Mischak.

Army got to the Tulane 10 in the first period on quarterback Pete Vann's passing but bogged down after a five-yard penalty which wiped out a Vann-to-Mischak scoring pass.

Army, a two-touchdown favorite, looked potent at midfield but could not shatter Tulane's defense on crucial fourth-down plays.

Army threatened to turn the deadlock into a final-minute triumph on Vann's accurate passing. Throwing from the Tulane 30, he led Tulane defensive backs a rugged chase until Clement intercepted one in the final seconds.

Tennessee Explodes In Third Quarter To Run Over N. C. 20-6

CHAPEL HILL, N. C. Oct. 31 (AP)—Favored Tennesee crammed three touchdowns into less than 11 minutes of the third period today after a ragged scoreless first half to whip North Carolina, 20-6 for the fifth year in a row.

Igniting the explosive quarter were scoring runs of 62 and 20 yards by Tom Tracy, the Volunteers' sophomore fullback.

The victory was the third against two losses and one tie for the Vols, who spoiled homecoming day for 27,000 Tar Heel fans by handing North Carolina its third loss in a row.

Bama Knocks Georgia 33-12

ATHENS, Ga., Oct. 31 (AP)—Alabama swamped Georgia, 33-12, today behind the touchdown passing of Bart Starr and the brilliant long-distance ball lugging of flashy halfback Corky Tharp.

The defeat spoiled Georgia's homecoming celebration and Athens' farewell look at the Bulldogs' heralded passing combination, Zeke Bratkowski and John Carson.

Tharp set up one score with an 88-yard punt return to Georgia's two and a 63-yard scoring scamper. Starr threw for three touchdowns—a 2-yard heave to Joe Cumming, a 31-yarder to Bobby Luna and a 5-yarder to Bill Oliver. Substitute center Vince DeLaurentis scored the other on a 38-yard return of an intercepted Bratkowski pass.

Auburn Gets Impressive Victory Over Florida

AUBURN, Ala. Oct. 31 (AP)—Led by star quarterbacks Bobby Freeman and Vince Dooley, Auburn edged further into the bowl picture today with an impressive 16-7 victory over Florida.

The victors moved 47 yards in the first period before fullback Charley Hataway drove the final two for the opening marker. The next Auburn touchdown came on an 80-yard run by Freeman.

Another Auburn drive, stopped at the Florida 16, was culminated by Joe Davis' 26-yard field goal.

Florida	0	0	0	7	— 7
Auburn	6	7	3	0	—16

Clemson Romps Over Wake Forest By 18-0

CLEMSON, S. C. Oct. 31 (AP)—Sophomore quarterback Don King passed and ran Clemson to an 18-0 Atlantic Coast Conference football victory over crippled Wake Forest before 18,000 today.

King accounted for 73 yards passing on a 97-yard touchdown drive in the second period. Late in the same period King hit end Dreher Gaskin with a pass 14 yards away in the end zone. Midway in the third period King steered his team in a 63-yard scoring March.

Purdue Takes Another Win

CHAMPAIGN, Ill. Oct. 31 (AP)—Mickey Bates and J. C. Caroline melted Purdue's defenses today with sizzling slashes that, combined with a Boilermaker fumbling outbreak, led to a 21-0 Big Ten football victory for Illinois.

A crowd of 57,210 saw the undefeated Illini continue atop Big Ten standings with their third straight conference victory. For Purdue, which last week pulled he season's biggest upset by toppling mighty Michigan State by 6-0, it was the second conference loss.

Minnesota In Victory Over Pitt. 35-14

MINNEAPOLIS, Oct. 31 (AP)—Minnesota carved Pittsburgh with buzz-saw efficiency as Paul Giel delivered three touchdowns to guide the resurging Gophers to a 35-14 victory today in a nationally televised football game.

The All America Gopher tailback shook out the brawny Pitt line's early stubbornness with two touchdown smashes in the second quarter, then wheeled 25 hip-swinging yards for a third quarter score to crack open the game.

Giel retired from the game after injuring his leg slightly on his final touchdown, but the rapidly wilting Panthers caved in under a relentless Minnesota offense which unfurled a brilliant passing attack.

Giel flashed 65 yards with a Panther punt early in the second quarter to the Pitt 5 and cracked over two plays later from the 2. Pitt retaliated with a 57-yard march following a kickoff, sending fullback Bobby Epps over from the 2 to tie the score.

Stung by the touchdown, Minnesota drove 81 yards against the clock and Giel hacked over from the 2.

Pittsburgh couldn't cope with sota's superbly executed passing forays in the second half. Giel capped a long march with his twisting 25-yard run in the third quarter. Reserve left half Dale Quist hammered over twice, from the 2 and the 4 in the fourth quarter, and the Gophers added their other points on a safety.

COYOTE HIGH SCORER

E. L. Franklin, six foot, four inch 175-pound back for the Borden County Coyotes, leads that team in scoring this season. The Coyotes, who will meet Courtney next Friday night at Gail in their last football game of the season, has won three games and lost three. Franklin is a sophomore. The six-man team is coached by Paul Mosley. (Dub Everett photograph)

Red Raiders In Hard Fought Miss. St. Win

JACKSON, Miss. Oct. 31 (AP)—A magnificent Texas Tech line and a stable full of tricky plays blasted favored Mississippi State 27-20 today and gave the loser's great quarterback Jackie Parker the worst day of his football career.

Parker, All - America candidate and SEC leading scorer, was rushed and battered for the entire game. Only in the last few minutes did he show anything of his touted form.

Six roughing penalties — four of them against State — symbolized the vicious line play in the game.

Tech scored once in each quarter on the forward running of halfback Bobby Cavazos, fullbacks Rick Spinks and James Sides and the tricky ball-handling of sophomore quarterback Jack Kirkpatrick.

The Texans scored on their opening kick-off drive with Don Lewis climaxing an 85-yard march from the two.

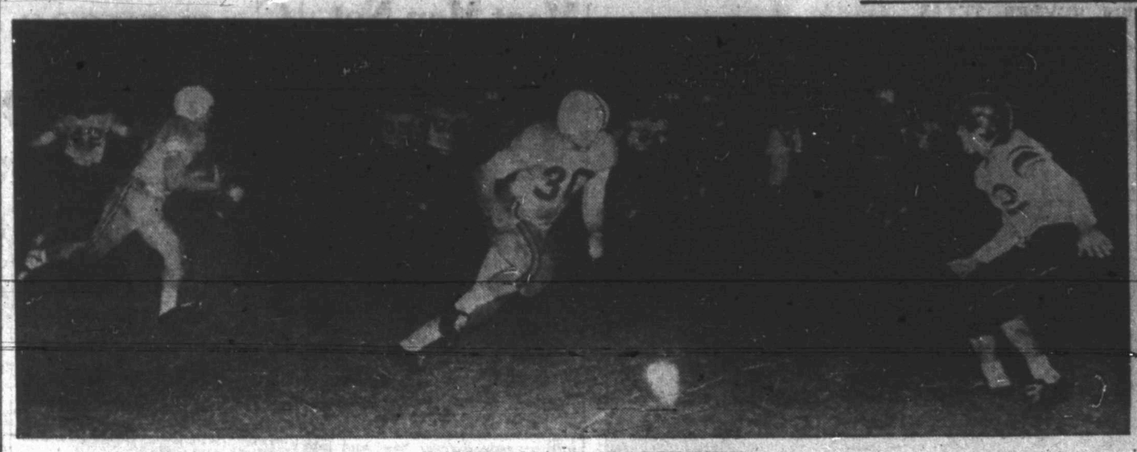

Other Tech scores came on a nine-yard dash with a fumble by Spinks, a one-yard buck by Janes, and a 36-yard ramble by Sides. Kirkpatrick and Spinks kicked three conversions.

State halfback Donald Joseph scored twice, once on a 35-yard run and the second time on a 26-yard pass from Parker. State halfback Arthur Davis made the other touchdown after taking a nine yard pass from Parker in the end zone.

Texas Tech	6	7	7	7—27
Mississippi State	0	0	7	13—20

Texas Tech: Touchdowns, Lewis, Spinks, Janes, Sides. Conversions, Spinks 2, Kirkpatrick.

Mississippi State: Touchdowns, Davis, Joseph 2. Conversions, Parker, Glasgow.

LAMESA'S STAR RUNNER

Johnny Jones, left, the quarterback who is Lamesa's best passer and runner and one of the team's best defensive players, sweeps right end for 19 yards to set up Lamesa's first score against Snyder in Friday night's game here. Fullback Conrad Alexander, center No. 30, heads in to block Snyder's Gerald Crawford, right. Snyder linebacker Jackie Grimmett, left No. 42, tries to catch Jones, who was finally stopped on the Snyder eight-yard line, but Lamesa scored two plays later to tie up the game 7-7. The team finally downed Snyder 21-14. (Lee Watson photograph)

Sun Pipeline No. 1 Leads In Keg League

Sun Pipeline No 1 retained its one-point lead in standings of the men's bowling league last week when it downed R. H. Lee Service 2,580 to 2,519.

The Lee team was knocked out of third place with the loss. One of three teams that had been tied for second, Goss Hotrodders, was dropped to third in a loss to B&B Televisors 2,728 to 2,554. The B&B team is still tied for second with Williams Jewelry, which defeated Sun Pencilpushers 2,542 to 2,480.

Now in fourth place are the Sun Valvetwisters, who beat Pasotex 2,593 to 2,531, and standing fifth is Snyder Wholesale, which downed the Independents 2,608 to 2,578. The Sun Pickhandles are now tied with the Lee team for sixth place after defeating Sun Pipeline No. 2, last place team, 2,722 to 2,708.

Victor Dieke of the Valvetwisters rolled high series of the week with a score of 603.

Games this week match the two second place teams, the Televisors and Williams teams, Tuesday night, along with the Valvetwisters and Independents. Wednesday night the first place team, Sun Pipeline No. 1, will meet the last place team, Sun Pipeline No. 2, and Snyder Wholesale will play the Pickhandles. Thursday night games are Pasotex vs. Lee Service and the Hotrodders vs. Pencilpushers.

Close Race At Top Of Fem Bowling League

Modern Beauty Salon is now only one point behind the leader of the women's bowling league, Gordon's Drive-in.

The Gordon's team last week was in the lead by two points. It downed Sun Oil No. 1 2-497 to 2,418, while the Modern squad defeated Sun Oil No. 2 2,621 to 2,303.

Now in third place is Friendly Flower Shop, which had been tied for third last week with D&H Super Market, but downed that team 2,460 to 2,398.

High line of the week was rolled by Carla Clark of the Modern team with 191, while Jean Green of the same team had high series of 478.

Tomorrow night, Modern will meet Friendly Flowers at 6 o'clock, while Gordon's will play Sun No. 2 and D&H will meet Sun No. 1 at 7:30 o'clock.

Nurses Convening

AUSTIN, Oct. 31 (AP)—Miss Marion Sheahan, nursing services director of the National League for Nursing, will address the Texas League for Nursing at its convention here Nov. 5-7.

South Carolina Folds Before Maryland 24-6

COLLEGE PARK, Md., Oct. 31 (AP)—Coach Jim Tatum stuck to his practice of using his best team for only half of the game today as undefeated Maryland had a tougher time than usual to make stubborn South Carolina its seventh victim, 24-6.

Maryland's second and third teams played out the last 15 minutes after their front lines had set them up for the win.

South Carolina	0	6	0	0— 6
Maryland	14	3	0	7—24

South Caroline scoring: Touchdowns, Wohrman; Maryland scoring: Touchdowns, Felton, Hanulak, Vereb, conversions, Felton 2; Bielski; field goal, Bielski.

Tigers Take Third Straight Loss In District 1-AAA Play

The Snyder Tigers took their old familiar place at the bottom of District 1-AAA Friday night after suffering their third loss in as many loop games. The game was played before a small homecoming crowd of 2,000 persons after a shower had soaked Snyder.

The Tigers fell to the Lamesa Golden Tordadoes, who took their first district win here 21-14 after moving from behind and fighting off a desperate Snyder attempt to catch up after Lamesa had plunged ahead.

The Tornadoes held together for the best goal line stand against the Tigers this season, keeping them six inches away from the goal for two downs and preventing the Snyder eleven's tying the game a second time after Lamesa had taken the lead.

Halfback Bob Burnett raced across the goal line twice in the second quarter for the two scores that permitted the Lamesa squad to overtake the Tigers, and Quarterback Johnny Jones heaved a long pass to End Buddy Hale for another touchdown to give his team a 14-point lead before the Tigers began their comeback.

STARTED STRONG

The Tigers dominated the first quarter of the game, forcing the Tornadoes to punt from their own 34 after they had received the kickoff and covering a Lamesa fumble to end a 30-yard drive by that team. The Tigers, after punting once themselves early in the period, took over after Tackle Frankie Minton had recovered the Lamesa fumble on the Lamesa 43 and went into the end zone in four plays, with Halfback Gerald Crawford sweeping right end behind a Minton block for the last 22 yards. Steve Blair added the extra point to put the home team ahead 7-0.

Lamesa moved down to the Snyder 24 late in that quarter but lost 10 yards when Keith Pinter nabbed Jones when he was trying a left end run.

On the first play after the Tigers took over the ball in the second period, Crawford fumbled and Lamesa Guard Lawrence Hill recovered on the Snyder 35, and the Tornadoes began their drive to the goal line. Burnett went around right end two yards for the score after Jones and Fullback Conrad Alexander had set up the touchdown on runs. Halfback Kay Dunbar kicked the extra point, and the teams were tied up 7-7 three minutes deep in the second quarter.

A pass interception paid off in another Lamesa touchdown two minutes later. Snyder Quarterback Bernie Hagins heaved a long aerial intended for Reagan White, but Jones picked it out of the air and slipped down on the Snyder 41. He passed to Hale to put the ball on the 35, then he went around left end on the next play, lateraled to Burnett, and Burnett carried the rest of the way. Dunbar converted and the Tornadoes led 14-7.

NOT ENOUGH

End Royce Pierce intercepted a Jones pass late in that quarter to start another Snyder drive. The Tigers went from the Lamesa 39 to the six-inch line in six plays, then Baxter tried the middle for two plays behind the heavy Snyder line, but the Tigers could not pierce the Lamesa defense. Lamesa took over there and had time for one play before halftime.

After Baxter had returned the second half kickoff to his own 37, the team gained to midfield, where Baxter fumbled. Lamesa got nowhere after recovering and punted to the Snyder seven, where the ball fell dead. The Tigers moved out to the 25, punted, and the Tornadoes started a drive from their own 36 and scored in four plays. Jones passed Hale for the tally 30 yards after he had set up the score on a 27-yard pass to Burnett.

Early in the fourth period Blair recovered a fumble by Alexander on the Snyder 45. Fullback Jackie Grimmett went through right tackle 40 yards to the Lamesa 15, and the team was on the one-yard line five plays later. Alan Snead, who split time with Hagins at quarterback during most of the game, scored on a sneak, and Blair added the point.

Lamesa later tried five passes in a row and finally got to the Snyder 15 before losing the ball on downs. With three minutes to go in the game, Joe Baxter took over at quarterback, and the team tried to move into Lames territory on passes. Baxter attempted five passes, completing two to White and one to Snead for a total of 34 yards, lost 18 yards when he faded back for another pass, then got the final pass intercepted by Doyle Fancher. Lamesa held the ball for three plays and stalled away the remaining seconds in the game.

HELD BY LAMESA

The Snyder team got inside the Lamesa 20-yard line only three times, twice when it scored and once when the near-score occurred. It was held by the Lamesa team, either losing on downs, having passes intercepted, fumbling, or punting, out, twice inside the Lamesa 40, once across the 50, twice on the 50, once between its own 40 and 50, once inside its own 40, and three times inside its own 30.

Lamesa pierced the Snyder 20 five times, three when it scored, once when it lost on downs on the 15, and once when it fumbled on the 19. The opposing team gave up the ball on downs, fumbling, interceptions, or by punting out twice between the Snyder 40 and 50, once on the 50, once near its own 40, and twice inside its own 40.

Defensive standouts for Snyder included Minton, Blair, and Smith who each recovered a Lamesa fumble; Pierce, who made the one pass interception; Jackie Grimmett, Douglas James, Keith Pitner, and Reagan White, who got in the most tackles.

Grimmett led Snyder ground gain with 119 yards in nine carries for an average of 13 yards per carry. Following was Crawford with 107 yards in 15 carries, an average of 7.1 per carry. Baxter's passes to White and Snead in the last minutes were the only ones completed in the game. Baxter attempted five, Hagins tried three, and Snead attempted three.

Jones attempted all 18 Lamesa passes, connecting with Hale for four for a total of 73 yards, two to Burnett for 31 yards, one to Weldon Garrett for 10 yards, and one to Seth Hyatt for 11 yards.

Northwestern Couldn't Hold Back O. State

COLUMBUS, Ohio, Oct. 31 (AP)—Ohio State's comeback Bucks spotted Northwestern a first period touchdown today and then came back with spectacular power and passing to defeat the Wildcats 27-13 before a throng of 80,562.

Howard (Hopalong) Cassady was the big gun in the Ohio attack. He scored two touchdowns, passed for a third and picked up 120 yards in seven plays. He ran 67 yards for the last touchdown in the fourth quarter.

After Northwestern had gone ahead 6-0 in the first quarter on a seven-yard pass, Dick Thomas to Joe Collier, Hopalong plunged one yard in the second quarter for the equalizer.

Ohio struck for two scores in the third. Bobby Watkins climaxed an 89-yard drive by going the final three. Cassady wound up Ohio's next march with a 25-yard scoring pass to Tom Hague.

Behind 20-6, Northwestern struck back with an 80-yard scoring march on which fullback Bob Lauter went a yard for the score.

Northwestern	6	0	0	7—13
Ohio State	0	7	13	7—27

Northwestern scoring: Touchdowns, Collier, Lauter. Conversion, Rondou.

Ohio State scoring: Touchdowns, Cassady 2, Watkins, Hauge. Conversions, Weed 3.

Oklahoma Has Easy Time Dumping Kansas In 34-0 Free-For-All

MANHATTAN, Kan., Oct. 31 (AP)—Oklahoma's magnificent Sooners racked up five touchdowns — at least one each quarter—today to defeat the Kansas State Wildcats, 34-0, and moved nearer their sixth straight Big Seven Conference football title.

The game, before a record Kansas State Crowd of 22,500, shoved the Oklahomans into the Big Seven lead with three victories against no defeats. It was Kansas State's first loss in four conference games.

Despite the score, Kansas State made things tough for the Sooners. Except for their last touchdown which came on an 18-yard march after a fumble recovery, the Sooners had to knock hard for their scores.

Oklahoma	7	7	6	14	—34
Kansas City	0	0	0	0	— 0

Oklahoma scoring: Touchdowns, Grigg 2, Herndon, Ging, Baker; Conversions, Calame, Lake 2, Santee.

Virginia Takes Beating From Duke In Norfolk

NORFOLK, Va. Oct. 31 (AP)—Halfback Lloyd Caudle slashed over for three touchdowns today as Duke's finest football team of the postwar era, using its first stringers only two quarters, defeated weary Virginia 48-6 before an Oyster Bowl crowd of 21,000.

Only in the first half did the five-times-beaten Virginia put up more than token resistance.

WHAT THE V.F.W. MEANS TO THE OVERSEAS VETERAN

As a Veteran . . .

The V.F.W. is always on guard against any effort to destroy your established legal rights as an honorably discharged veteran.

These rights include your entitlement—under certain conditions—to care and treatment in government hospitals, disability compensation or pensions, government insurance, burial allowance, pensions for dependents, preference credits for civil service employment, etc. Founded in 1899, long before other major veteran organizations were formed after World War I, the V.F.W. was demanding fair treatment for the nation's disabled and needy veterans. Thus was born the basic pattern of the "G.I. Bill of Rights."

By becoming a member of the V.F.W. you help keep the organization strong enough to protect—not only the nation's disabled veterans and the widows and orphans—but also those rights which are vital to your own security.

Veterans are Good Citizens! Be a V.F.W. Member and be a Better Citizen! Join the V.F.W. Now!

VETERANS OF FOREIGN WARS OF THE UNITED STATES

ROGERS MEN'S WEAR
East Side Of Square

This wall is the remains of a 75-year-old corral located 16 miles southwest of Snyder and about a quarter of a mile northwest of the point where Bull Creek empties into the Colorado River. Emmett Trevey, who lives northwest of Snyder and who spent his childhood in a home only a few hundred feet from the corral, said he believes it was built by C. C. Slaughter, famed cattleman of the late 1800s. (Staff photograph)

Rock Wall Corral May Be Earliest Landmark

Most areas of Texas have numerous landmarks to remind residents of the days of the early settlers, but Scurry County has an almost complete lack of landmarks.

There is, however, one old structure in the county that is estimated to be at least 75 years old, dating as far back as the first settling here.

It is about 16 miles southwest of Snyder and slightly more than a quarter of a mile northwest of the point where Bull Creek dumps into the Colorado River.

The landmark is an old rock corral, built just a few yards above the banks of Bull Creek, on land now owned by Mr. and Mrs. H. H. Cary.

BUILDER UNKNOWN

Emmett Trevey, who now lives northeast of Snyder and whose family moved to Scurry County in 1897 and settled on the land on which the corral stands, said the corral was there when his family moved there and that the family could not find out who built it nor how long it had been there.

Trevey said, however, that old timers in the area believed the corral was built by Col. C. C. Slaughter, famous Texas cattleman who died in Dallas several years ago.

Slaughter, who owned a vast herd and for several years moved the herd on free grazing land, is known to have established a large ranch on the South Plains in the late 1800s. He originally came from Palo Pirto County.

BIG PROJECT

The rock corral was well built, and all of it except a small part which has been torn away by hand is still standing. The corral is square, about 125 by 150 feet. The rock fence is three to four feet thick and four to seven feet high, constructed from flat rock that came from the creek or river bed, indicating that numerous days were required for the builder to complete the project.

The corral was used by the Trevey family in later years, so wood fences were added on the inside of the corral to divide it into sections, while one of the two entrances have been opened since the corral was built. Nearby are half-buried rocks in lines hinting that a wing of the corral once stood adjacent to the landmark.

EARLY RELICS

About 300 yards north of the corral are signs of where a house once stood. Trevey said that when he was a young man he found many relics no longer available in stores, which showed the property was occupied many years ago.

The area around the corral was not settled until the 1890s, when a land rush filled the country with settlers. Until that time, buffalo hunters and cattlemen who moved their herds when the grass was graded short or when water ran low were the only white inhabitants.

Oilmen To Discuss Cut In Production

HOUSTON, Oct. 31 (AP) — Over 6,000 oilmen gather in Chicago Nov. 9 to talk industry trends and problems.

The American Petroleum Institute members face many industry headaches.

Domestic production has slumped sharply. Storage tanks are all but overflowing.

Independent operators have become alarmed over imports. Practically all operators, large and small, are concerned over failure of prices to keep pace with spiraling costs.

PRICE CUTS

Surplus oil has endangered a June crude price hike, the first general hike since 1947. Some executives have recommended price cuts.

Domestic production last December averaged a record 2,633,700 barrels a day but last week averaged only 6,220,250.

Texas' daily allowable last November was a record 3,372,252 barrels and actual production exceeded three million. A new, 2,803,528 allowable becomes effective tomorrow and the state's actual November output should average around 2,525,000 barrels a day. Production normally runs about 10 per cent below the allowable.

CUTBACKS ORDERED

Cutbacks also have been ordered, or are being discussed, in such states as Oklahoma, Kansas, New Mexico, Arkansas and Louisiana.

Opponents of imports found some encouragement in API's statistical report for last week. Imports had declined to 851,200 barrels a day, lowest since Aug. 22. The daily average for the four weeks ending Oct. 17, however, was 1,032,100.

Stocks of the four big products last week totaled 365,480,000 barrels, compared to a year earlier 330,386,000. Gasoline was up 22 million, kerosene three million and light oil 11 million. Heavy fuel oil stocks were down from year earlier totals by 1.4 million barrels.

A recent study by the American Association of Oilwell Drilling Contractors reflects the concern by oilmen over increases in operating costs.

The report indicates labor costs for drilling have increased 98 per cent since 1941, with equipment and miscellaneous costs up 88 per cent and total rotary drilling costs 92 per cent higher.

Revenue for each foot drilled was said to be only one per cent above 1941 and the average depth of 1953's wells was said to be 42 per cent greater than 12 years ago.

Soviet Store On Red Square

MOSCOW (AP)—Red Square, the scene of communism's greatest spectacles and the site of the Lenin-Stalin tomb, will soon be invaded by bustling women carrying shopping baskets.

Smack across from the gold spired Kremlin and looking right at the red-and-black marble tomb, the Soviet Union's biggest department store will be opened. Under the Reds, there had been no shops in the square until now.

Hundreds of men and women are working day and night to get the big store finished by Nov. 1. That is six days before the greatest date in Communist history, the anniversary of the Bolshevik Revolution, this year the 36th.

This year, with the great store done, there will be two symbols in Red Square.

One will be the great traditional parade before the Kremlin and the tomb, honoring communism's history.

And on the other side will be the store, which to many Russians will symbolize Premier Georgi Malenkov's call for the improvement of living standards.

The store building formerly was used for offices. It is vast by Soviet standards, with 473,000 square feet of floor space. (Macy's in New York, for comparison, reports about two million square feet).

Shoppers will be able to buy food, clothing, shoes, fabrics, furs, jewelry, perfumes, radios and bicycles.

Meat Men Not Alarmed Over Beef Support

CHICAGO, Oct. 31 (AP)—Meat industry men are taking quite a cool view of any proposed cattle price support program.

No new program has been advanced, for one thing, and until it is "we have nothing to stick our teeth into," one said.

Another noted there already is some support in the market through government purchases of beef and beef products. Since July 1 these purchases have been around 200 million pounds, nearly 25 million last week alone.

These purchases go into export channels through the Foreign Operations Administration (FOA) for utility grade carcass beef and into school lunch and other domestic programs for canned beef and hamburger.

This kind of program met with approval by one source who said consumption is the only safe way to remove beef from the market. To set any kind of storage program, he said, would run into losses because of spoilage and deterioration.

On the other hand, it was noted, if price support were tried at the live cattle level it would almost certainly call for compulsory grade and yield requirements which would carry through from the ranch to the feedlot to the stockyards and possibly quotas or allocations broken down by regions, market areas and finally farms or ranches.

Some commented there is more concern about cattle prices now than previously because the country is in the middle of the heavier marketing season which set in around Sept. 15 and is likely to have tapered off by Dec. 15.

The current slaughter of beef is the highest since 1947 and comes after a general drop in prices extending over the last 18 months.

H. M. Conway, director of research for the National Livestock Producers Assn., predicts higher prices late this winter and early in the spring. He said consumers would be paying higher prices for better grades of finished beef and that a seasonal shortage of lower grades and classes also is in prospect.

"The comeback in the cattle market should be more pronounced before Jan. 1 and continue on a strong basis during the winter and early spring," said Conway.

The Illinois Agricultural Assn. said also that profit margins in prospect for cattle feeders likely would encourage greater beef finishing operations and a consequent better demand for feeder replacement cattle.

The farm organization said it was generally opposing to supporting cattle prices, for one reason because it felt such a program would be "impossible to administer."

New Kind Of Tragedy From Icebox Found

MILWAUKEE (AP)—Karen Jane Mueller's delight in swinging on an icebox door turned to tragedy yesterday when the icebox tipped over, crushing her skull.

The 4-year-old girl's mother, Mrs. Alice Andersen, lifted the icebox enough to free the child's body. She summoned a policeman who called an ambulance. The girl was pronounced dead at County Emergency Hospital.

Korea has 10 major all-weather ports says the National Geographic Society.

Congress Staffers' Jobs Offer Variety

WASHINGTON (AP)—The staff of Rep. Martin Dies, Texas congressman at large, must deal with matters in all parts of the state.

Mrs. Helen Holmes Kayser of Tyler is running Dies' office here alone during the Congress recess. Gladys Flanaga, also of Tyler, is in charge of his interim office in Lufkin, the Dies home.

Mrs. Kayser is widely known in East Texas for helping start the Tyler Rose Festival in 1933.

The widow of Lawrence Kayser, has worked at the capitol for 18 years. She previously was with former Rep. John Rankin of Mississippi and others.

"There's variety in the job working for Mr. Dies, and I like it," she commented.

A veteran among the male secretaries serves for one of the five West Texas congressmen.

He is Zeno Phillips, right hand to Rep. Omar Burleson of Anson. He is now running Burleson's Abilene office.

For years Phillips was with Ed Gossett when he represented the Wichita Falls district. When Gossett became counsel for the Southwestern Bell Telephone Co., he persuaded Phillips to go with him.

After two years away from Washington, Phillips returned to Congress work as Gossett's top aid. Phillips interrupted his work to serve with the Navy's Sea Bees in the Pacific during the war.

Working in Burleson's office during the recess are Miss Kitty Cunningham and Corenlia Van Horne. Both are residents of Washington.

The head of the staff of Rep. Walter Rogers of the Panhandle is Dee Dodson of Pampa. Dodson was court reporter in Pampa for five years before coming to Washington in January, 1951, when Rogers entered Congress. Dodson was in the Army and later secretary to one of the three American commissioners when the Allied forces moved into Hungary.

Born near Plainview, he became a court reporter there before moving to Pampa.

Also on Rogers' staff are Mrs. Florence Fletcher of Amarillo and Mazie Bledsoe, a reserve lieutenant commander in the Navy WAVE.

Mrs. Marita Fanning of El Paso heads the staff of Rep. Ken Regan of Midland. A son, Pat, is with an oil company in Midland. She has a daughter, Mrs. Robert Pinson, in Dallas.

In charge of Regan's Midland office is Mrs. Gertrude Ruff. Mrs. Glenna Loughran, formerly of Pecos and El Paso, does work here for Regan.

Miss Dorothy Van Felt of Lubbock heads the staff of Rep. George Mahon of Colorado City. She is in his Lubbock office during the recess. Working there with her is Miss Savannah Tunnell of Tahoka.

Running the Washington office are Miss Martha Enochs of Lubbock, Msis Helen Boyle of Washington and Mrs. Mary Francis of Texarkana.

Joseph Swanner of Brownwood is top aide to Rep. Clark Fisher of San Angelo. His wife, the former Regina Brooks of Brownwood, works for Rep. John Lyle of Corpus Christi. They met at Howard Payne.

Others on Fisher's staff are Mrs. Lilliam Kelly Benedict of Pampa and Miss Stella Guggenheim of Washington.

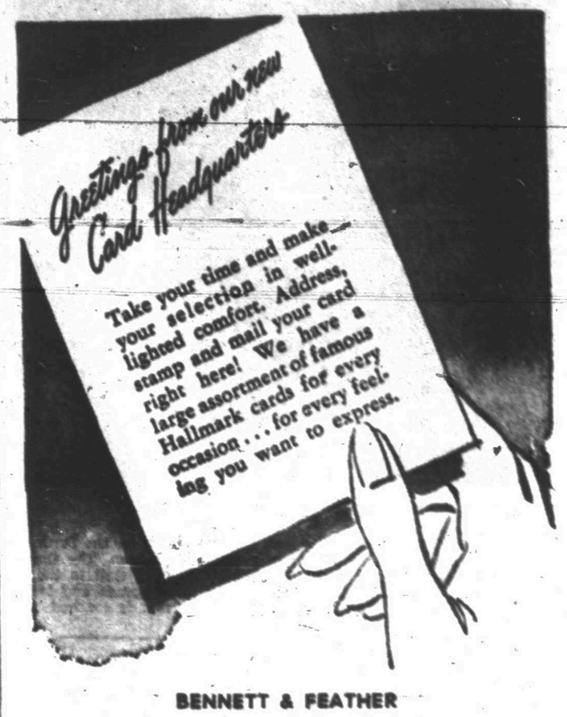

U.S. Is Called Hasty

AMMAN, Jordan (AP) — Jordan newspapers accused the United States of being too hasty in resuming economic aid to Israel.

Man Held Here On Warrant From Kansas

W. D. Pepper of Snyder, about 40 years old, was being held in the county jail Friday after arrest on a misdemeanor warrant from El Dorado, Kan., according to the sheriff's department here. The department said it was holding Pepper for Kansas officers who were to come to Snyder to take custody of him. Officers here said he had been charged with misdemeanor swindling.

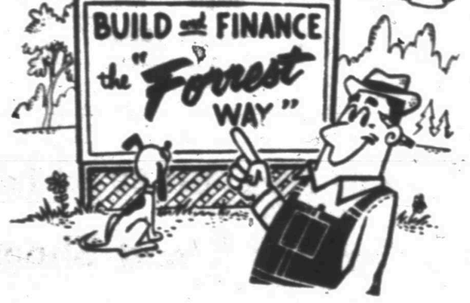

The ability of a child to focus his eyes for reading may appear as early as the age of 5 but may be postponed to 7 or 8.

Twenty-Nine Counties In West Texas Are Set For 95 Tests

A total of 95 tests for oil, including 12 wildcats and 76 field projects, were scheduled in 29 District 7-C and District 8 counties during the 40th week of the year.

The number compares to 95 tests, including 12 wildcats and 83 field projects, spotted the preceding week.

Totals for the year now stand at 2,416 field test and 724 wildcats, a grand total of 3,130 tests for oil and a weekly average of 78.25.

Totals for the first 40 weeks of 1952 were 3,052 field tests and 663 wildcats, a grand total of 3,715 tests for oil and a weekly average of 92.87. A total of 4,384 field tests and 800 wildcats, making 5,184 tests in all, were staked during the initial 40 weeks of 1951. This was an average of 129.6.

Eleven counties in District 7-C gained 38 applications to drill, including nine wildcats, while 18 District 8 counties gained 57 applications to drill, including nine wildcats.

District 7-C wildcats were: Crockett three; Runnels, two; Irion, Kimble, McCulloch, Reagan and Schleicher, one each.

District 7-C field tests were: Coke, 13; Runnels, five; Crockett, four; Reagan, three; Schleicher, two; Concho and Upton, one each.

District 8 wildcats were: Reeves, three; Dawson, Ector, Howard, Kent, Mitchell and Yoakum, one each.

District 8 field tests were: Andrews, nine; Gaines, seven; Cochran and Garza, five each; Crane, Hockley, Pecos and Winkler, three each; Howard and Terry, two each; Ector, Midland, Mitchell and Ward, one each.

DRILLING REPORT

Blanco Oil Co. and Newman Brothers Drilling No. 1 S. M. Swenson and others, Northwest Kent wildcat, is drilling in dolomite and shale below 3,327 feet.

In North Howard County, Texas Pacific Coal & Oil No. 1 Little is drilling in Pennsylvanian lime below 8,817 feet.

Tri-Service No. 1 Towns, East Dawson wildcat is drilling in lime and shale below 8,060 feet. Hunt No. 1 Nix is drilling in shale and sandy lime below 7,113 feet. Fuhrmann No. 1 Connally Esmond is drilling in sandy lime below 7,848 feet.

The Texas Co. No. 1 Patterson, Borden prospector, is drilling in lime below 3,406 feet.

South Terrell Test Resumes Operations

R. E. Freeman No. 1 Lydia R. Barksdale, cable tool operation in South-Central Terrell County which has drawn widespread attention, was making hole below 8,465 feet in shale on last report.

The project has been shutdown for the past several months due to rig trouble.

Estimated top of the Strawn is 7,845 feet. Elevation is not available.

Location is 660 feet from north and 1,980 feet from east lines of section 30-A2-GH&SA, and three miles east of Dryden.

Bishop Homer Tomlinson stands in his cell after being arrested when he tried to destroy a Church of God shrine on a mountainside near Murphy, N.C. Tomlinson, 61, heads one faction of the church; his brother another. Tomlinson stayed in jail only about an hour and then was released without bond.

New Pay Zone In Andrews

Anderson Prichard Oil Corp. and J. C. Barnes of Midland have completed the No. 1-I University as a flowing discovery from the Ellenburger to open a new pay zone in the Prichard field of Northeast Andrews County.

The new pay opener flowed 24 hours for a potential of 703.3 barrels of oil with no water through a one-quarter-inch tubing choke. Production is from open hole at 13,475-487 feet, which had been treated with 500 gallons of acid. Gas-oil ratio was 744-1, with gravity of the oil 47.2 degrees.

The No. 1-I University is one-half miles south of Anderson Prichard and Barnes No. 1-E University, the Devonian producer which opened the field. That prospector had oil in the Ellenburger, but operator was unable to complete it there due to mechanical problems. The No. 1-I University is 660 feet from north and west lines of the southeast quarter of section 7-7-University Lands survey and 14 miles northeast of Andrews.

Central Ector Field Project Gets Water In Ellenburger Test

The first Ellenburger failure has been reported for the Headlee multipay field of Central-East Ector County.

Texas Gulf Producing Co. No. 1 Sander was to be tested in the formations above the Ellenburger, starting with the Simpson, after the last drillstem test made water.

That test was in the Ellenburger from 13,446-497 feet. Tool was open two and one-half hours. Gas surfaced at end of the test. Recovery was the 1,000-foot water blanket used, cut with mud and gas, 4,368 feet of drilling fluid with a sulphur odor.

Operator will test all formations above the Ellenburger which indicated shows on electric log.

Location is 660 feet from west and south lines of the northeast quarter of section 8-41-T2s-T&P, four miles northeast of Odessa.

The project is a northeast step-out to production.

Radio Plays Bigger Part In Oil Industry

By CHARLES HASLET

WASHINGTON, Oct. 31 (AP)—Radio is playing a big role in the oil and gas industry these days.

Most drilling rigs now have radio senders and receivers. So do many pipeline systems.

Drillers use radio to keep in touch with supervisors and truck drivers. If trouble develops in a drilling operation, they can get in touch quickly with operating engineers. Or they can put in a hurry up order for needed supplies.

On the pipelines, radio is used to coordinate repairs and the movement of oil.

RADIO PATROLS

Many pipeline companies also are using radio equipped vehicles and micro-wave equipment. Workers who patrol many miles of pipeline use mobile equipment to notify central offices of breaks or other trouble.

The Communications Commission has granted 4,848 authorizations for stations in the petroleum radio service which has allocated frequencies.

Each mobile fleet license includes from one to 500 mobile units. The commission estimates it has authorized operation of more than 20,000 transmitters.

STARTED IN 1949

The petroleum radio service was created in 1949 and since then it has grown rapidly. Some 389 applications are pending.

Sinclair Pipeline Co., recently had 151 base stations and 204 mobile units; Phillips 67 base and 599 mobile units; United Gas Pipeline Co., of Shreveport, 42 base and 300 mobile units and Esso Standard 7 base and 530 mobile units.

Sun Oil uses 38 base stations and 144 mobile units in its Gulf Coast and Southwestern divisions and says the advantages are many.

Most stations in the petroleum radio service use 50 watts power but some use up to 250 watts.

The capital investment in these radio facilities runs into millions.

TANKERS USE RADIOS

Tankers also use marine radio frequencies which the industry wants to protect against any encroachment.

"Imports of Eastern Hemisphere oil have accounted for most of the increase in United States imports since 1950," the Independent Petroleum Assn. of America said.

"This indicates a growing dependence of the United States for this vital raw material on sources of supply further and further away from the United States.

"In contrast, military authorities have stated that our security as to oil depends first upon domestic supply; second upon supplies from other Western Hemisphere countries; and last, upon Eastern Hemisphere sources."

Completions Are Down From 1952 Slightly

AUSTIN, Oct. 31 (AP)—Drillers brought in 207 oil wells this week.

The Railroad Commission said completions for the year total 8,604 compared with 8,797 a year ago.

Gas wells were brought in totalled 27, making the year total 917 compared with 683. There were 148 dry holes. Wildcatters found 10 oil wells, one gas, and 80 dry holes.

The total average calendar day allowable rose 10,230 barrels from Oct. 24 and stood at 2,974,296.

Scurry Drilling Drops Again

Permian Basin drilling activity continued at a steady pace throughout October, with a total of 503 rotary rigs in operation compared to 508 a year ago.

Scurry County drilling activity continued to decline, with six rigs running on Oct. 25. That was down one from the previous count made Oct. 10 by Reed Roller Bit Co.

Andrews County continued to lead other counties in the West Texas portion of the Basin, with Lea County, New Mexico, still at the top of the area. Lea County listed 90 rigs, with Andrews County 63. Midland County, rated third on Oct. 10, lost three rigs for a total of 25 and fifth place. Ector and Gaines, with 31 and 29 respectively, topped Midland for third and fourth place.

A partial list of the counties covered by the survey with rigs in operation on Oct. 25 and Oct. 10 follows:

Borden	5	6
Coke	21	17
Dawson	7	10
Dickens	1	1
Garza	1	1
Howard	12	12
Kent	6	5
Mitchell	6	7
Nolan	6 (partial)	5

Diamond M-Canyon Field Gets Location

M. L. Mayfield of Houston has staked location for the No. 1 C. T. McLaughlin in the Diamond M-Canyon field 15 miles southwest of Snyder.

The drillsite is 2,310 feet from north and 2,200 feet from west lines of section 179-97-H&TC, and on a 40-acre lease. Contract depth is 6,900 feet, with drilling to begin at once.

Hockley Wildcat Quit

Great Western Drilling Co. No. 1 H. B. Newton, wildcat in Southeast Hockley County, has been plugged and abandoned on total depth of 7,020 feet in the lower Clear Fork.

The failure was drilled 330 feet from south and east lines of section 105, block A-135, R. M. Thompson survey and one and one-half miles southeast of Anton.

Deepest Eddy Wildcat Tests For Production In Unidentified Zone

Richardson & Bass No. 1 Harrison-Federal, wildcat and indicated deep discovery in Southeast Eddy County, New Mexico, has been shutin after preliminary production test.

The possible new field opener flowed gas at the rate of 1,527,000 cubic feet per day and distillate at the rate of four barrels per hour for an unreported length of time.

Production was through perforations in casing from 12,320 to 12,335 feet opposite an unidentified formation.

This wildcat was drilled to 16,705 feet, setting a new depth record for the Permian Basin of West Texas and Southeast New Mexico, before being plugged back.

If the project is completed from the present test of perforations, from 12,320 to 12,335 feet, it will be the deepest producer in Eddy County.

Location is 660 feet from north and west lines of section 12-25s-30e.

Ellenburger Offset Planned In Reagan

The Texas Co. has spotted location for an east offset to Ellenburger production in the Big Lake-West multipay field of South-Central Reagan County.

The test will be dug as No. 2-A State of Texas, 663 feet from south and 1,980 feet from west lines of section 4-11-University Lands survey and three miles northwest of Big Lake.

Operator will drill the new project to 9,600 feet, starting at once.

Wildcat Staked In North-Central Howard

Hanco Oil Co., Ltd., of Dallas No. 1 Buchanan is to be drilled as an 8,000-foot Pennsylvanian wildcat in Central-North Howard County.

Operator has set location 660 feet from north and east lines of section 10-41-t2n-T&P. That site is one mile west of the East Vealmoor field and separated from that field by a 7,708-foot dry hole.

Would Postpone Change

GARDEN CITY, Kan. (AP)—Rep. Clifford Hope (R-Kan), chairman of the House Agriculture Committee, said today he favors postponement until Congress convenes of the soil conservation portion of the Agriculture Department reorganization plan.

HOSPITAL NOTES

The following admissions and dismissals at Battenfield Hospital are those whose names were released by the hospital.

Admissions: Mrs. G. C. Miller, 2806 Avenue D; M. A. Boyd, 2401 Avenue M; Thomas F. Ware, 2418 Twenty-eighth Street; Walter M. Suttles, 409 Thirtieth Street.

Dismissals: Mrs. Orr James Prude, Fort Davis; Mrs. W. M. Crowley, 1406 Twenty-first Street; Mrs. W. W. Fowler, 3006 Thirty-seventh Street.

Yoakum Country Gets Location For Wildcat

Felmont Oil Corp. of Midland has staked location for the No. 1 Kendrick as a wildcat in Central-West Yoakum County.

The prospector is to be at the center of the northeast quarter of section 455-D-John H. Gibson survey. It is one mile southwest of Honolulu Oil No. 1 Weems, an active operation in the Broncho-Devonian area.

The No. 1 Kendrick is on a farmout from Honolulu. In assuming the obligation to drill it, Felmont secured a lease on the west half and southeast quarter of section 455, a total of 480 acres.

Northwest Lea Test Fails In Deep Zone

The Ohio Oil Co. has plugged and abandoned No. 1-B-10352 State as a failure on total depth of 9,765 feet in lime and dolomite.

The failure was drilled as a wildcat in Northwest Lea County, New Mexico.

Drillstem test was taken from 9,690-765 feet. Tool was open two hours. Recovery was 1,000-foot water blanket and 30 feet of drilling mud with no shows.

Location was 660 feet south and east lines of section 17-13s-33e.

CLASS OF 1910 HOLDS REUNION HERE FRIDAY

After more than 43 years away from high school, the Snyder High School graduating class of 1910 got together here Friday during homecoming activities at the school. The group attended the reception for ex-students at the school and later had a dinner at the Country Club. Shown above is a photograph of the class the year of graduation, while that below is one taken Friday. Eleven of the 14 original class members were present. Shown above seated on front row, were Mable Clark, now Mrs. A. M. Belsher of Snyder; Earnest Taylor of Snyder, Louisa Porter, now Mrs. Roy Stewart of Snyder; Rob Strayhorn of Rotan, Connie Noble, now Mrs. Bernard Longbotham of Snyder; and Nellie Wilson, now Mrs. Jim Mebane of Snyder. On the second row were Cora Sturdivant, now Mrs. Arthur Yonge of Lubbock; the late Viola Ellis, who was later Mrs. Roy Teague; Ella Baze, now Mrs. J. L. Suits of Petersburg; Hugh Taylor of Snyder, Dr. D. C. Lee, who now lives in Hot Springs, Ark., Miss Alice Graham, now of Eugene, Ore.; Mattie Pearl Nelson, now Mrs. A. D. Erwin of Snyder; and Ada Huffman, now Mrs. H. L. Davis of Rotan. Below are the same students, except for three. Mrs. Teague is deceased, while Miss Graham and Dr. Lee could not attend. They are shown in the same arrangement as they were when the first picture was taken. Front row are Mrs. Belsher, Earnest Taylor, Mrs. Stewart, Strayhorn, Mrs. Longbotham, and Mrs. Mebane. On the second row are Mrs. Yonge, Mrs. Suits, Hugh Taylor, Mrs. Erwin, and Mrs. Davis. Mrs. Yonge was valedictorian of the class, Mrs. Davis was salutatorian, and Earnest Taylor was class representative.

Yarbrough's Contribution Is Published In PTA Magazine

"The perpetuation of democracy is not as simple as withstanding a war of aggression, nor winning a war of conquest," Dr. Cecil L. Yarbrough, superintendent of schools, has written in the current issue of the Texas Parent-Teacher.

The article concerns the purpose of education, emphasizing the intensity of its necessitation in view of current world conditions. The article called "Educating for What?," follows:

"We are now at the crossroads of history. The future of not only the United States but of mankind throughout the world is greatly dependent upon the events of the next fifty years. The path of human progress can be directed toward the principles of individual rights or toward the opposite idea of godless dictatorship. For if democracy is to prevail in the world, it must become imbedded into the hearts of ourselves and of our fellow men throughout the world. The perpetuation of democracy is not as simple as withstanding a war of aggression, nor winning a war of conquest. The real destiny of humanity will be decided in the battle for men's minds, not only in America but throughout the world.

"We, in America, must ask ourselves the questions—are we making democracy work? Are we giving the principles of democratic living a fair chance in our families, in our churches, in our schools, in our communities, and in our civic and government institutions? Educating for what? Through education we must first purify our own souls and oil our democratic machinery for effectiveness. Our job is to see that we and our children understand and practice democratic living and democratic government, and that we believe in it not only for ourselves, but for our neighbors, and for the person across the tracks regardless of color, religion, or previous mistakes.

"We must come to rely more fully on group decisions based on a strong faith in the worthiness of mankind and his ability to make wise choices when the facts are known. We must understand the techniques of living together democratically so effectively that we can out-produce, out-live, out-sell, out-educate, and out-fight, if necessary, the agents of any other way of life. We must become proficient members of a free society willing and able to take our share of responsibility and more if necessary. We must learn to adjust productively to such a society which subscribes to the belief that the incentives and opportunities available to all mankind under representative government are greater than under any other form of government.

"The fundamental purpose of education is to train students to make their maximum contribution to society. The problems of a complex society create internal conflicts, and the persistent threats which confront freedom - loving peoples throughout the world require trained voters and statesmen. Education is an agent of a democratic society and endeavors to develop as fully as possible the many productive capacities of all of that society's citizens.

"The school has a responsibility not only to train its children for productive adjustment to a democratic society but to indoctrainate its pupils with an understanding of the principles upon which our government is based and upon the essentials of democratic living in the home, the community, and the state. It is necessary for the student of today to understand his country's strengths and weaknesses for he must improve the bad and cherish the good. Each student must realize the responsibilities which rest upon his shoulders as well as the privileges which are his as an individual citizen. Each student must acquire a sense of values which will enable him to make intelligent choices in exercising those privileges.

"The school can do little, however to instill principles of good democratic living, develop a sense of values, respect for law, acceptance of responsibility and recognition of individual rights unless it is aided and abetted in the home and community. We must do this job together. No part of the educational program can serve its best purpose unless it meets a definite need in the community and has the understanding and support of the parents. It is the joint responsibility of the school, the home, the church, and the community to provide students with the encouragement and leadership necessary to their effective development and adjustment to the world of today and the responsibilities they must face in the world of tomorrow.

"Educating for what? We are educating to preserve a fundamental principle of life in which we have faith. We are educating to improve and [illegible] our institutions, to broaden our understanding of them, to develop our various capacities for greater contribution to them, to strengthen our faith in them, to perfect our love for them, and to further our sense of destiny that the human race must go hand in hand along democratic pathways if it is to survive. We are educating to provide our young people the encouragement and leadership necessary in their honest search for truth to the end that they may find for themselves the fundamental values of life to which they can become dedicated.

"Upon each of our shoulders and upon each of our children's shoulders rests the weight of hope for many hundreds of millions of children yet unborn who deserve the right to a free, productive and happy existence. It is for these also, to further their claim to a wholesome life, that we educate."

Worthless Check Fine

A fine of $28.50, including court cost, was paid yesterday morning for Ray Crouch of Odessa, for whom a plea of guilty had been entered on a county court charge here of swindling by worthless check.

Crouch was charged with giving a worthless check for $5.90 to Fish & Newton Hardware on Sept. 4.

DWI Sentence Given

Derward McDaniel, 33, of Snyder, paid a fine of $50 plus court cost of $23.50 assessed when he pleaded guilty Friday to a county court charge of driving while intoxicated. He was assessed the mandatory three days in jail and given credit for jail time from the time of his arrest Wednesday by city police.

Mrs. FDR To Speak

MONTREAL, Oct. 31 (AP)—Mrs. Franklin D. Roosevelt will deliver the Eighth Annual War Memorial address and receive an honorary LL. D. degree at Macdonald College Nov. 6.

The ancient Romans kept pigeons on a large scale.

Sick Leave Is No Problem In County Offices

The county government here has no provision—so far as rules are concerned — for granting sick leaves to its employes, a survey of officials shows.

"When employes get sick, they just stay home and recuperate, then come back to work," one official said, "and I don't know of any cases where such a practice has been abused here."

Some counties, however, have rules governing the amount of time per year that can be used for sick leave, and employes are docked for absence in excess of the granted leave time.

There are only three offices in the county (except those of the county commissioners) which employ more than one person each in addition to the elected officials. These are the offices of the tax assessor-collector, the county clerk, and the sheriff. Each reported little sickness and consequently little absence.

Jim Ikard, tax collector, said that only occasionally an employe of his office would be absent because of sickness or a death in the family. When such occurs, whatever leave seems to be reasonable and necessary is granted, he said, adding that the practice had not been abused.

Practically the same report came from the sheriff's department, where it was also said that, because of the nature of police work, the deputies usually worked overtime more than enough to make up for whatever time was missed because of illness.

In the case of employes of the commissioners, leave is usually granted in the same manner if the sickness is of short duration. Pat Moore, commissioner of precinct 3, said that employes who work by the day are usually carried on the payrolls undocked if the sickness is not for more than a week or so. He said he had not known of any recent abuse of the practice.

For the most part, the practice here is similar to that of most business employers in Snyder.

Red Zone Catholics To Be Allowed Aid

COLOGNE, Germany, Oct. 31 (AP)—Josef Cardinal Frings, archbishop of Cologne, has announced that the Communist East German government will permit the shipment of Christmas aid supplies to needy Roman Catholics in the Soviet zone. Money, food and medical supplies will be collected and shipped to the Russian zone Nov. 11.

Negro Held On Warrant

Edgar F. Hartfield, Snyder Negro, has been arrested here on a warrant from Cameron, where he is charged by felony complaint with removal of mortgaged property, according to the sheriff's department here.

Officers from Cameron are to take custody of Hartfield tomorrow.

TSTA Convention

AUSTIN, Oct. 31 (AP)—Speakers for the convention of the Texas State Teachers Assn. at Dallas Nov. 26-28 was announced today by President R. L. Proffer. They include Sen. Lyndon Johnson, and State Sen. A. M. Aikin Jr.

Pioneer Puts District Man Over Snyder

Wayland W. Beene, Pioneer Air Lines district traffic and sales manager for Midland - Odessa-Sweetwater-Big Spring, will assume the same duties in Snyder, Harding L. Lawrence, vice-president of traffic and sales, has announced.

Beene, a native of Roby, joined Pioneer as a transportation agent in the Midland-Odessa station in June, 1948. In December, 1950, he was advanced to the post of district traffic and sales manager for Pioneer to cover the Midland-Odessa-Big Spring - Sweetwater territory.

A graduate of Roby High School, Beene served from July, 1941, to July, 1947, in the U.S. Navy in the Communications Branch.

In his present post, Beene is in charge of all traffic and sales activities for Pioneer in his West Texas territory, Lawrence said.

DENTAL PUPPET SHOW

A dental health puppet show was given here for primary school children last week under the direction of the Scurry County Health Unit. Mr. and Mrs. Charles Myler are shown above giving three first graders from Central Primary school a close look at one of the puppets. The pupils are Reed Robinson, Judy McCormick, and Darlene Pylant. (Lee Watson photograph)

JAYCEES IN GARBAGE STAND BUSINESS

A stand to hold garbage cans will be sold by the Junior Chamber of Commerce as soon as the new garbage ordinance goes into affect requiring covered cans. The stand permits chaining the lid of the can to a bracket and keeps the bottom off the ground. The club has 100 of the stands to sell for $3.95 each. Shown demonstrating the stand are J. E. Craven, Jr., city sanitarian; Dr. Hugh J. Stennis, director of the Scurry County Health Unit; John Boren, Jaycee president, and Joe Dave Scott, Jaycee member. (Lee Watson photograph)

Benson Would Keep Farmers From Dependency On U.S.

WASHINGTON, Oct. 31 (AP)—Secretary of Agriculture Ezra Taft Benson sees himself as a man with a mission—and he shows every intention of sticking with it in the face of bitter opposition.

That mission is to turn economic and political tides which he believes are carrying the nation's farmers to a position of being completely dominated by and dependent upon the government.

In Benson's view, his Cabinet job is not far different from the one he held as one of the 12 apostles of the Church of Jesus Christ of Latter-Day Saints before he was drafted by President-elect Eisenhower to take over the agricultural post.

The goal of his church as well as the goal of his present job, Benson said, is to help build men of freedom, industry and character.

It has been the fate of Benson's recent predecessors to face critical farm problems. But none became controversial characters in quite so short a length of time as the new secretary.

Before consenting to take the Cabinet post, Benson made sure that President Eisenhower understood where he stood.

"If I am left free to administer this office to restore the dignity of the individual in agriculture and the spiritual values left us by our founding fathers, I accept," Benson said.

The President assured him of that freedom. It was this mission Eisenhower apparently had in mind when, in recently defending Benson from critics, the President described his farm chief as a "dedicated man."

The new secretary was well grounded in agriculture. He had been trained in agricultural colleges, had served the state of Idaho as a farm marketing specialist, had operated his own farm and had been executive secretary of the National Council of Farmer Cooperatives.

He is dead set against subsidies to farmers. He opposes use of government price supports as a method of assuring farmers a desired income. He dislikes government production and marketing controls. All of these economic instruments are mainstays of present federal farm programs.

Shortly after taking office, the GOP farm chief set forth his philosophy in a "general statement on agricultural policy."

"Freedom is a God-Given, eternal principle vouchsafed to us under the Constitution. It must be continually guarded as something more precious than life itself," he said.

"It is doubtful if any man can be politically free who depends upon the state for sustenance. A completely planned and subsidized economy weakens initiative, discourages industry, destroys character and demoralizes the people."

Declaring that rural people are a "bulwark against all that is aimed at weakening the American way of life," he confidently looked to farmers for support in making his mission a success.

As a farmer and farm leader, Benson had opposed continuation of price ceilings on cattle after World War II, just as he now opposes price supports for livestock. Then as now, he wanted government intervention in the marketing processes held to a minimum.

But today, nine months later, he finds himself and his ideas under attack. Some farmers and farm leaders as well as several political leaders are demanding his resignation.

His critics insist upon keeping subsidies, price supports and controls. Some want to place more dependence on these measures than at present.

But Benson is standing firm. He says he will not quit under fire unless the President asks him to. Plainly disturbed by the clamor against his views, he nevertheless still believes that a majority of farmers are back of him in a fight which must be waged no matter what scars it might cause.

His desire to abolish the present high-level crop supports is in line with the intent of Congress when they were first established, but this fact has largely been overlooked.

They were authorized by Congress shortly after the start of World War II when another secretary of agriculture, Claude Wickard, faced a farm crisis of another character—the prospect of possible food shortages for this country and its allies.

Congress told Wickard to boost price supports to provide incentives for greater food production. The supports were to carry over for two years after the war, to give farmers time to readjust production to normal peacetime levels But as expiration dates approached, Congresses have extended them, the last time until the end of the 1954 crop year.

Many farmers have come to believe that only through use of high-level supports, subsidies and controls can they be assured of prosperity.

Largely overlooked, or misunderstood or rejected, have been Benson's ideas that is possible to have a prosperous agriculture without government price and income props. He says more can and should be done to broaden farm markets, both at home and abroad. Knock down trade barriers, he says. Do more research work to find new uses for farm products.

Education, he says, can help farmers cut production and marketing costs and leave them with just as much profit as do higher prices with less efficiency.

Benson's misfortune has been that he has sought broad changes in farm policies at a time when prices and incomes were declining and surpluses were piling up. Farmers have been inclined to attribute the good times of recent years to such measures as high-level price guarantees.

If foreign markets were as favorable now as they were in the war and earlier postwar years, he might have better luck making changes.

OTHERS ARRESTED

Bawdyhouse Charge Filed Against Anderson Davis, Sr.

One of the best known Snyder bootleggers, Anderson Davis, Sr., was charged in county court here Friday with operating a bawdy-house and permitting prostitutes to ply "their vocation."

Davis, who was on appeal bond in a bootlegging conviction, was arrested and jailed here Thursday night, and the bawdyhouse charge was filed the following day.

Also on Friday, a Negro man and a Negro woman were arrested in bed together in a house owned by Davis and charged with vagrancy in justice court. They pleaded guilty, and were fined $38 each, including cost, and are serving time in jail in lieu of payment.

A fourth party arrested was Irene Hemphill, a numerously convicted bootlegger who claimed in open court yesterday to be passing herself as Davis' wife, although the couple have never been legally married. Davis paid her fine of $38, including cost, assessed when she pleaded guilty to a charge of vagrancy.

The couple arrested in bed by sheriff's deputies were a Negro man named Douglas James and Bernice Grant, a Negro woman previously convicted on numerous misdemeanor charges.

Davis pleaded innocent to the country court charge against him, and bond was set at $500. The charge alleged he "did unlawfully keep, and was then and there concerned in keeping, and did then and there aid and assist and abet in keeping, a bawdyhouse there situate; the said house being then and there a house kept for prostitution, and being then and there a house where prostitutes were then and there permitted to resort and reside for the purpose of plying their vocation." The charge was prepared according to legally recognized and accepted form.

Punishment in event of conviction is without range or option at $200 fine, court cost, and 20 days in jail.

Davis has a bootlegging conviction on appeal. In it, he was fined $2,500 plus court cost. He has been convicted many times.

BIRTHS

Mr. and Mrs. C. J. Herdes, Snyder, are the parents of a daughter weighing six pounds, 12 ounces, born at 4:55 a.m. yesterday in Battenfield Hospital.

Mr. and Mrs. Wade Davis, 2709 Avenue Q, are the parents of a 10-pound, five-ounce daughter born at 3:05 a.m. yesterday in Battenfield Hospital.

Train Kills Woman

HOUSTON (AP)—Police were trying today to identify a Latin American woman about 70 years old who was crushed beneath a freight train shortly before midnight last night. The woman was dragged 160 feet by a Southern Pacific freight carrying 84 cars.

MEN TO BE LUXURIES

Golden Age When Women Can Run Everything Coming

By HAL BOYLE

NEW YORK (AP)—Any man alive today was born just a generation too soon.

He knows he is living in a woman's world, but it is only the threshhold of what lies ahead, and the poor critter won't live to reap the real benefits. He is like a starving tramp looking wistfully through a restaurant window watching a chef broil steaks other people will eat.

I am glad to throw in the towel and admit it's the hand that stirs the ladle and rocks the cradle that now makes the world go round. It's no crying towel either.

Think what a rich, full existence the ordinary man will have in the golden age of woman's rule—say about the year 2,000—when the girls will be fighting for our favors, when a husband will no longer be a necessity but a luxury, as highly prized by the lassies as a diamond bracelet is today.

That's when you really begin to live—when you move out of the bread-and-butter meal check class into the heady luxury field. And, men, we're on the way. Our sex is coming into its own at last, the day when the girls will bargain for our favors.

The mistake women are making is that they are letting us find out their true strength. The signs multiply.

Already ten million married women are out working and toting home paychecks. The Metropolitan Life Insurance Co., just put out some figures indicating that any woman who wants to avoid becoming a widow had better start courting a lad five years her junior, and maybe ten years younger if she wants to be on the safe side.

A Philadelphia heart specialist, also hailing the durability of women, said they can drive cars better than men, stand shock better, and lose more blood, and he added:

"They can hold down a job, take care of a home and family, and, at the same time, guard the supposedly strong male."

Well, why should any sensible man go on working and fretting around and whinnying in eagerness for the right to be put into harness and pull the plows of the world. Maybe it's woman's destiny to replace the tractor, which replaced the horse. Do we want to stand in the way of destiny?

Plaintiff Wins Court Contest

A jury returned a verdict favoring the plaintiff in Thursday's civil district court damage suit of Roy V. Lashaway vs. James E. Smith and Roy Campbell.

Lashaway, represented by Ross Hemphill, Snyder attorney, was seeking award for damages in the amount of approximately $2,300. He alleged damage to two house trailers in his yards, which were struck by an automobile after a collision between cars driven by the defendants.

The jury awarded Lashaway judgment against Smith in the amount of $2,175 plus court cost. No judgement was made against Campbell.

The accident occurred at the intersection of Avenue K and Twenty-fifth Street on March 23. Lashaway is a house trailer dealer.

Campbell was represented by Ben F. Thorpe. Smith had no legal counsel and testified he had no funds for such.

Joseph Jenks, one of the workers at Saugus ironworks in Massachusetts is believed to have made the dies for the Pine Tree Shillings.

It is estimated that only one in nine oil wells drilled in unproved territory produces any oil.

Homecoming Celebrated At High School Friday

Rose Marie Roe, shown being crowned above by Lee T. Stinson, president of the school board, was selected as Homecoming Queen of Snyder High School Friday night. She was crowned during half-time ceremonies at the Snyder-Lamesa football game here. Miss Roe won over four other nominees for the position. She was escorted by Joe Davis. She is a senior. (Lee Watson photographs)

One of the earliest graduates of Snyder High School is Mrs. H. P. Brown, center, from the class of 1903. The first students graduated here were in the class of 1902. Two members of the 1904 class are Mrs. Ella Cooper, left, and Mrs. John R. Williams, taking a cup of coffee from Miss Jane DeWald, one of the hostesses at the tea Friday afternoon. Standing next to Miss DeWald is Mrs. Joe Stinson, who graduated from Snyder High School in the class of 1907.

THE SNYDER DAILY NEWS

VOL. 4, NO. 158 SNYDER, TEXAS, SUNDAY, NOVEMBER 1, 1953 SECTION TWO

The five nominees for Homecoming Queen are shown above with their escorts just before it was announced Miss Rose Marie Roe had been selected queen. From left are: Jimmy Bennet, Jane Houston, Ralph Price, Barbara Nichols, Joe Davis, Rose Marie Roe, Buddy Drum, Margaret Trevey, Ray Courtney, and Mary Alice Richardson. A party for ex-students was held at Ballards Cafe after the football game, and a student party was held in the high school cafeteria.

The honor of having twice graduated from Snyder High School is held by Dick Webb, left, who was valdictorian of the 1905 class, then returned to school to graduate again in 1906 after another grade had been added to the expanding school. Mrs. Webb is seated center. The couple's daughter, Mrs. Buster Pilcher, is standing. She is also a graduate of Snyder High School. A grandson, John Richard Webb, right, is now a student in the Snyder school system.

Both students and ex-students were brought together at the tea Friday afternoon for the exes. Some of both are shown here. From left are Mary Jim Stinson and Susan Houston, student hostesses; Mrs J. C. Massingill, Miss Oleta Ikard and Mrs. Carolyn Reon, ex-students. More representatives of earlier graduating classes than the more recent classes were present.

The unbelted waistline of this Vera Maxwell inspiration promises flattery for figures of all sizes. The skirt is cut to flare in a smooth, beautiful line without a trace of bunchiness and play up the fit of the waist area. You may make it without sleeves in satin for evening wear, or with its sleeves for a variety of occasions. If you choose a soft fabric, a skirt lining will add swish to the finished garment. The pattern, No. 1040, comes in sizes 10-18, with size 12 requiring four yards of 50-inch material. One and seven-eighths yards of 39-inch fabric will make the skirt lining. To order the pattern, send $1 to Spadea Syndicate, Inc., Box 535, Dept. 163, GPO, New York 1, N.Y.

Bar Auxiliary Meets With Mrs. Martin

Mrs. J. Ray Martin and Mrs. George R. Killam, Jr. were hostesses to the Snyder Bar Association Auxiliary which met Thursday night in the home of Mrs. Martin, 3726 Dalton Drive.

Decorating the living room was a bouquet of flowers brought by Mrs. Renal Rosson.

Ten members and one guest, Mrs. Susie B. Heiele of Chicago, were present.

Motor vehicle traffic in the United States exceeded half a trillion miles for the first time in 1952.

25 YEARS AGO

(Taken from the files of THE SCURRY COUNTY TIMES for Nov. 1, 1928.)

Thursday evening, Oct. 25, the entire citizenship of the Ira community turned out to their new auditorium in the beautiful new brick school building for a general housewarming service. . .

Judge Horace Holley was introduced as the man who learned to teach school at Ira and who lived many years in that community. He gave an outline of the growth and development of the Ira community. . .presenting in a vivid way the past, present and future of the school system there. Starting back in 1898 in a half dugout, which later burned, then going to a one-room frame structure. . and to this masterpiece which they now have, he paid a fitting tribute to the school board and all others connected with the new building.

• • •

The annual Scurry County teachers' Institute will open in Snyder Friday morning and continue two days. Borden County teachers who were presumed to meet at Colorado have asked consent to come here and will join in the program which promises to bring 165 rural school teachers together. 135 from Scurry County and 30 from Borden county. . .

• • •

Next Thursday promises to be a big night in Snyder as Stinson Brothers' Drug Store have announced a special Western Union wire will be connected at their store No. 1 that will give official elections returns, starting at 7:30 p.m.

Bulletins on Smith and Hoover will be given every 15 minutes, and in addition to Texas results, national results will be turned loose from the larger zones of population. The service will last as long as customers want to remain and is entirely free to the citizenship of not only Snyder but all of Scurry County and surrounding communities as well.

• • •

The Sadler shows opened here Monday night with a cold, drizzly rain starting late in the evening that made it impossible to place sure footing for the crowds to get from the main street to the city lots. Yet more than 500 plowed and slid through a maze of mud and water to see their favorites in the opening number. . .

The show is here under the auspices of the fire department.

• • •

With more than 60 scouts and six scoutmasters present, representing many towns of the eastern section of the Buffalo Trails council, a highly interesting and successful scout rally was conducted at Snyder Saturday under the supervision of Scout Executive F. D. Craft. It was the first big scout rally ever held here since the organization of the Buffalo Trails Area.

• • •

The announcement of the marriage of Miss Ellen-Buice Johnson and Garrett Harrell, which was made known last Friday, came as a complete surprise to their many friends. Miss Johnson and Mr. Harrell were married in Colorado at the Methodist parsonage on Monday afternoon, Sept. 17, with Rev. Hines, pastor of the Methodist Church, officiating. Lewis Blackard was the only attendant.

The bride is an attractive young lady, loved and esteemed by all who know her. She is the only daughter of Dr. and Mrs. W. R. Johnson. She has blossomed into young womanhood in this city among a host of friends both old and young. After graduation from Snyder High School she attended school at Sullens in Bristol, Va., State University at Austin and Simmons University at Abilene.

The groom is the son of Mr. and Mrs. C. J. Harrell of this city and is well and favorable known by everyone in Snyder. He attended Simmons University in Abilene.

Mr. and Mrs. Harrell are at home on their ranch near Camp Springs. The many friends of this popular young couple extend to them their best wishes for happiness and success.

The eyes of about half the children are not yet ready for reading at the age of 6½ says the Better Vision Institute.

MR. AND MRS. ARTHUR CRONK
. . . at home in Lubbock

Church Ceremony Unites Miss Riley And Mr. Cronk

Mr. and Mrs. Arthur Cronk are at home in Lubbock following their wedding in the First Methodist Church here Oct. 23. The Rev. W. W. Adcock officiated at the double ring ceremony.

Mrs. Cronk is the former Miss Marguarite Eulene Riley, daughter of Mr. and Mrs. A. R. Riley, route 2. The bridegroom is the son of Mr. and Mrs. T. J. Cronk, also of route 2.

The bride, who was given in marriage by her father, wore a light blue frosted taffeta dress with black accessories. Her flowers were split white carnations.

A gold taffeta dress with black accessories was worn by the mattror of honor, Mrs. Douglas Horn of Snyder.

Ronnie Riley, Snyder, served as best man and Douglas Horn, Jr., as ring bearer. Flower girls were Linda Horn, Snyder, and Sherry Lynn Altaffer of Odessa.

At the reception given in the home of the bride's parents after the ceremony, Miss Bobby Riley registered guests and Mrs. L. B. Altaffer presided over the refreshment table.

Out-of-town guests at the wedding were Mr. and Mrs. K. B. Altaffer of Odessa.

Mrs. Cronk attended Snyder High School. Mr. Cronk is a student at Texas Technological College.

Gift To Youth Center Planned By Local Club

Two representatives were appointed to decide on gift items for the youth center and a book was reviewed at the regular meeting of the Altrurian Daughters Wednesday in the home of Mrs. Marcel Josephson, 3781 Avondale.

Mrs. Ophelia Blackard and Mrs. P. W. Cloud, both former youth center board members, were appointed to meet with the Junior Chamber of Commerce in regard to needed youth center furnishings. The club plans to make a gift to the center.

Mrs. W. R. Clements reviewed "Women in the Modern World" Central theme of the book, written by Dr. Mirra Komarosky, is how to educate women for their role in our present day society.

Dr. Komarosky stated in her book that through questionaires she has found that women want these things stressed in higher education: preparation for family life; preparation for vocation, and academic and personal counciling. The husband's attitude is the crucial factor in the success or failure of the employed homemaker, and the time has come when all colleges, include those for men, must offer a course on marriage and the family, the book said.

Women should also be taught to recognize the fact that no job can equal in importance the task of rearing children to be worthy men and women. In closing, Dr. Komarosky appeals to women to take pride in their roles of homemakers. A woman's education is never wasted, regardless of her work. Society is urged to accept the challenge of working with the modern woman in carrying on the task of making a better world, Dr. Komarosky said.

Nineteen members and one guest, Mrs. E. L. Anders, were present.

Calvin R. Lanes At Home Here

Mr. and Mrs. Calvin Ray Lane are at home at 3311 Avenue G following their marriage Oct. 24.

Mrs. Lane is the former Miss Barbara Janette Brown, the daughter of Mr. and Mrs. W. W. Brown, 1412 Thirtieth Street.

The Rev. L. V. Ratliff, pastor of the Union Baptist Church, performed the ceremony in the church.

Mr. Lane is employed by an oil well servicing company here.

Groups Hold Dance

The Snyder chapters of the Future Farmers of America and the Future Homemakers of America gave a dance at the rodeo grounds Thursday night, following a wiener roast for both clubs at the park.

About 75 were present.

Helps For Homemakers

Send your questions to "Helps for Homemakers," Snyder Daily News, or call 3-5486.

Rice is featured in these two main dishes, which are quick and easy to prepare. Both are just what economy-minded housewives are looking for—low in cost, good to look at and good to eat.

TOMATOES BROILED ON CHEESE RICE

3 cups hot cooked rice
¼ cup shredded green pepper
1 cup grated American cheese
⅛ teaspoon pepper
Dash of Tabasco sauce
½ cup water
3 medium tomatoes
1 teaspoon salt
6 teaspoons mayonnaise

Mix together the rice, green-pepper, cheese, pepper, Tabasco sauce and water. Spread over a greased shallow baking dish. If desired, peel tomatoes. Cut tomatoes in half. Arrange with cut side upon the rice. Sprinkle salt over tomatoes. Top each with one teaspoon of mayonnaise. Place under broiler for about five minutes or until mayonnaise browns. Serve at once. Makes six servings.

* * *

Heat together one can of condensed cream of mushrooms soup and ½ cup of milk. Add about 2 cups cooked turkey or chicken which has been diced. Allow to cook until piping hot. Serve this creamed mixture over hot rice to which some cooked green peas and diced pimentos have been added.

* * *

Soften lipstick stains on the best dinner napkins with cold cream and then launder as usual.

MR. AND MRS. C. H. CALLIS
. . . celebrating at open house

C. H. Callises Celebrating Fiftieth Anniversary Today

The daughters of Mr. and Mrs. C. H. Callis will honor their parents on the couple's 50th wedding anniversary with an open house from 2 to 4 today at the home of a daughter, Mrs. J. L. Fargason, 1105 Twenty-sixth Street.

Mr. and Mrs. Callis were married in Collin County Nov. 1, 1903. Mrs. Callis' home at the time was Callis, named for her husband's father. Mr. Callis, a native of Collin County, brought his bride to West Texas and settled on a farm he had bought a year earlier in the Camp Springs community.

Mrs. Callis' family moved to Texas in 1898. Although a small girl when she left her native Kentucky, Mrs. Callis recalls many incidents. She remembers her elation at the thought of coming to Texas, because that would mean no more knitting of stockings and gloves. "The girls took their knitting to school and sat on top of the rail fence at recess and chatted and knitted," Mrs. Callis recalls. School in those days was a five-month term held during the spring and summer. During the winter months such entertainments as corn husking, quilting bees and cotton pickings were enjoyed. In cotton pickings, the lint to be used in quilts was picked off the seed by hand.

Mrs. Callis says the family sheep furnished wool for their clothing. They sheared the wool, washed it, carded, spun the thread, and wove the material.

The most exciting thing she remembers was during the presidential campaign of William McKinley and William Jennings Bryan. A group of Sparksville, Ky. Democrats threatened to kill any person who drove around the square with a picture of McKinley. Mrs. Callis' father, the late W. R. (Dad) Sparks of Snyder, drove the three-team wagon bearing a log cabin with a big picture of the Republican nominee on the side. Not a shot was fired, but the Sparks family spent what seemed to be an eternity of anxious waiting.

Mr. Callis farmed until 1907, when he bought a general merchandise store at Camp Springs. He later moved the store to Snyder. The Callis family moved to Hermleigh in 1925 and Mr. Callis was mayor there at the time the city water works was installed. They moved back to Snyder in 1928 and have lived at their present address since. Mr. Callis was in a wholesale oil business until his retirement a few years ago, and Mr. and Mrs. Callis now operate a children's nursery in connection with a kindergarten owned by their daughter.

Daughters of the couple in addition to Mrs. J. L. Fargason are Mrs. W. C. Fargason of Hermleigh and Mrs. Harry S. Lee, Mrs. Clifton Gilmore and Miss Ida May Callis of Snyder.

The hostess and her parents will welcome guests at the open house. Miss Callis will preside at the register. Mrs. Jerry Robertson, Mrs. Jack Snody, Mrs. A. D. Groseclose, Jr., and Mrs. J. L. Fargason, Jr., will serve the three-tiered cake and punch. They will be assisted by Mrs. W. C. Fargason, Mrs. Lee, Mrs. Gilmore and Mrs. Mitchell McMath, a sister of Mrs. Callis. The table is to be spread with a handmade lace cloth and centered with yellow chrysanthemums in a bronze bowl.

Junior Chemise Dress

Such a wonderful design for the younger set, we've included two different versions. Its a sack or chemise dress with inset yokes and gathers. Convertible collar also can be worn open. Short sleeve with cuff or plain very short sleeve. Sweetheart neckline included.

Woman's World, But She'll Not Lay Claim To It

OKLAHOMA CITY (AP)—Weaker sex?

Rubbish! says Dr. William G. Leaman Jr., Philadelphia heart specialist, who stunned Oklahoma Clinical Society delegates (mostly male) with the bold statement:

"Women are smarter than men"

This weaker sex "myth," he said, just permits the ladies to live a less exerting life and outlive their male counterparts by an average of six to seven years.

"The man beyond 50 can't resist the temptation to shovel snow," said Leaman. "Men like to show off, to prove they are big and strong."

He said by keeping alive the weaker sex idea, women don't have to overexert themselves to prove they still have their old vim and vigor.

It is extremely rare, he said, to make a diagnosis of heart disease in a woman under 40 who has neither high blood pressure nor diabetes. However, when a woman does have the same heart ailment as a man, she tolerates it better.

Added proof to explode the age-old myth of female weakness was offered.

"Women can lose more blood.

"Women can stand more shock.

"They are far better drivers (sic).

"They can go into a profession and hold their own provided men don't give them an inferiority complex.

"They can hold down a job, take care of a home and family, and, at the same time, guard the supposedly stronger male."

As a finale, Dr. Leaman added: "It is a woman's world if she wants to admit it and claim it. But perhaps she would be unwise to do so."

Dr. Leaman is chairman of the department of medicine at the Women's Medical College of Pennsylvania.

Guajardo-Anzaldua Vows Said Monday

Miss Betsy Guajardo became the bride of Amado Anzaluda Monday afternoon in a single-ring ceremony read by the Rev. James W. Sonderman in St. John's Catholic Church in Hermleigh.

The bride is the daughter of Mr. and Mrs. Juan Salas of Roscoe. Mr. Anzaldua is the son of Mrs. Ygnacia Anzaldua of Brownsville.

Nuptial music was played by Miss Ethel Rose Hurdsnurcher of Hermleigh. Attendants included John Guajardo of Hermleigh.

A reception in the home of the bride's grandparents, Mr. and Mrs. Jose Garcia of Hermleigh, followed the wedding. The couple is to live on the Ernest Parrott farm near Wastella, where Mr. Anzaldua is employed.

Modern Iran is the ancient land of the Medes and the Persians.

MR. AND MRS. C. H. CALLIS
. . . celebrating at open house

C. H. Callises Celebrating Fiftieth Anniversary Today

The daughters of Mr. and Mrs. C. H. Callis will honor their parents on the couple's 50th wedding anniversary with an open house from 2 to 4 today at the home of a daughter, Mrs. J. L. Fargason, 1105 Twenty-sixth Street.

Mr. and Mrs. Callis were married in Collin County Nov. 1, 1903. Mrs. Callis' home at the time was Callis, named for her husband's father. Mr. Callis, a native of Collin County, brought his bride to West Texas and settled on a farm he had bought a year earlier in the Camp Springs community.

Mrs. Callis' family moved to Texas in 1896. Although a small girl when she left her native Kentucky, Mrs. Callis recalls many incidents. She remembers her elation at the thought of coming to Texas, because that would mean no more knitting of stockings and gloves. "The girls took their knitting to school and sat on top of the rail fence at recess and chatted and knitted," Mrs. Callis recalls. School in those days was a five-month term held during the spring and summer. During the winter months such entertainments as corn husking, quilting bees and cotton pickings were enjoyed. In cotton pickings, the lint to be used in quilts was picked off the seed by hand.

Mrs. Callis says the family sheep furnished wool for their clothing. They sheared the wool, washed it, carded, spun the thread, and wove the material.

The most exciting thing she remembers was during the presidential campaign of William McKinley and William Jennings Bryan. A group of Sparksville, Ky. Democrats threatened to kill any person who drove around the square with a picture of McKinley. Mrs. Callis' father, the late W. R. (Dad) Sparks of Snyder, drove the three-team wagon bearing a log cabin with a big picture of the Republican nominee on the side. Not a shot was fired, but the Sparks family spent what seemed to be an eternity of anxious waiting.

Mr. Callis farmed until 1907, when he bought a general merchandise store at Camp Springs. He later moved the store to Snyder. The Callis family moved to Hermleigh in 1925 and Mr. Callis was mayor there at the time the city water works was installed. They moved back to Snyder in 1928 and have lived at their present address since. Mr. Callis was in a wholesale oil business until his retirement a few years ago, and Mr. and Mrs. Callis now operate a children's nursery in connection with a kindergarten owned by their daughter.

Daughters of the couple in addition to Mrs. J. L. Fargason are Mrs. W. C. Fargason of Hermleigh and Mrs. Harry S. Lee, Mrs. Clifton Gilmore and Miss Ida May Callis of Snyder.

The hostess and her parents will welcome guests at the open house. Miss Callis will preside at the register. Mrs. Jerry Robertson, Mrs. Jack Snody, Mrs. A. D. Groseclose, Jr., and Mrs. J. L. Fargason, Jr., will serve the three-tiered cake and punch. They will be assisted by Mrs. W. C. Fargason, Mrs. Lee, Mrs. Gilmore and Mrs. Mitchell McMath, a sister of Mrs. Callis. The table is to be spread with a handmade lace cloth and centered with yellow chrysanthemums in a bronze bowl.

Junior Chemise Dress

Such a wonderful design for the younger set, we've included two different versions. Its a sack or chemise dress with inset yokes and gathers. Convertible collar also can be worn open. Short sleeve with cuff or plain very short sleeve. Sweetheart neckline included.

No. 2986 is cut in sizes 8, 10, 12, 14, 16. Size 12: Dress with collar, short sleeves with cuffs, 2¾ yds. 54-in.

Woman's World, But She'll Not Lay Claim To It

OKLAHOMA CITY (AP)—Weaker sex?

Rubbish! says Dr. William G. Leaman Jr., Philadelphia heart specialist, who stunned Oklahoma Clinical Society delegates (mostly male) with the bold statement:

"Women are smarter than men"

This weaker sex "myth," he said, just permits the ladies to live a less exerting life and outlive their male counterparts by an average of six to seven years.

"The man beyond 50 can't resist the temptation to shovel snow," said Leaman. "Men like to show off, to prove they are big and strong."

He said by keeping alive the weaker sex idea, women don't have to overexert themselves to prove they still have their old vim and vigor.

It is extremely rare, he said, to make a diagnosis of heart disease in a woman under 40 who has neither high blood pressure nor diabetes. However, when a woman does have the same heart ailment as a man, she tolerates it better.

Added proof to explode the age-old myth of female weakness was offered.

"Women can lose more blood.

"Women can stand more shock.

"They are far better drivers (sic).

"They can go into a profession and hold their own provided men don't give them an inferiority complex.

"They can hold down a job, take care of a home and family, and, at the same time, guard the supposedly stronger male."

As a finale, Dr. Leaman added: "It is a woman's world if she wants to admit it and claim it. But perhaps she would be unwise to do so."

Dr. Leaman is chairman of the department of medicine at the Women's Medical College of Pennsylvania.

Guajardo-Anzaldua Vows Said Monday

Miss Betsy Guajardo became the bride of Amado Anzaluda Monday afternoon in a single-ring ceremony read by the Rev. James W. Sonderman in St. John's Catholic Church in Hermleigh.

The bride is the daughter of Mr. and Mrs. Juan Sales of Roscoe. Mr. Anzaldua is the son of Mrs. Ygnacia Anzaldua of Brownsville.

Nuptial music was played by Miss Ethel Rose Hurdsnurcher of Hermleigh. Attendants included John Guajardo of Hermleigh.

A reception in the home of the bride's grandparents, Mr. and Mrs. Jose Garcia of Hermleigh, followed the wedding. The couple is to live on the Ernest Parrott farm near Wastella, where Mr. Anzaldua is employed.

Modern Iran is the ancient land of the Medes and the Persians.

Homes of the Famous

1833. The JUMEL MANSION, New York City. Built 1765.

AP Newsfeatures

A new, revolutionary spirit in building with a new principle expressing it, was originated in Italy by Andrea Palladio, spread through France into England and, by 1700, had reached America. Heretofore, most houses were built in accordance with the purpose each was to serve, with utility outweighing beauty, while this new style advocated building with strict regard to a symmetrical exterior appearance. Wealthy Americans were now able to give attention to gracious living, and to beauty as well as utility. So "Good Architecture" became standardized from Maine to Georgia. Books on architecture were published and eagerly read by prospective builders. The Jumel Mansion, a classic descendent of this style, was built in 1765 by Robert Morris for his bride, Mary Philipse; later was George Washington's headquarters; from 1810, was the home of Madame Jumel, who entertained in regal style, and in 1833, of her second husband, Aaron Burr. This splendid edifice, now open to the public, is one of the three surviving Pre-Revolutionary buildings on Manhattan Island.

Air University Ready To Go

MONTGOMERY, Ala. (AP) — The Air Force is ready to set up a West Point of the air as soon as Congress says yes.

There is even a possibility it may not be necessary to await ongressional authorization before starting an experimental air academy on a small scale.

These possibilities were discussed at a briefing by Lt. Gen. Laurence S. Kuter, commanding general of the Air University, for visiting aviation writers.

The university, at nearby Maxwell Air Force Base, is not an academy, but a military graduate school for officers.

Kuter said officers on the Air University staff "hope that legislation now before Congress to establish an air academy will pass."

"We would expect to provide much of the staff for such an academy," he said. "We have drafted a curriculum and other details, and are ready to put them into operation."

Brig. Gen. Dale Smith, the Air University's director of education, added that plans are to enroll 250 students in the first class, "and we are prepared to start with the freshman class at any time."

A bill now before Congress, sponsored by Rep. Vinson (D-Ga) and supported by the Defense Department, would authorize an air academy of 2,500 students, an enrollment equal to that of the military academy at West Point.

The bill also would authorize establishment of a smaller interim cademy. It is such a temporary academy which some experts believe the Air Force already has the authority to set up.

Good Defense, But For Wrong Offense

HARTFORD, Conn. (AP)—George Quayle, 32, stepped before City Court Judge John J. Bracken yesterday to prove he did not pass a traffic light at Pearl and Ann streets.

As evidence he produced detailed maps, accurate measurements of the intersection and statistics on braking times and distances.

"These prove I couldn't have passed the light at Pearl and Ann streets," uayle said.

That's true, said the judge, but found Quayle guilty anyway.

The judge pointed out Quayle was charged with passing the light at Asylum and Ann streets, not Pearl and Ann Streets. Sentence was suspended.

Some recent graduates, as well as early-day graduates, were at the party in the high school cafeteria Friday afternoon honoring ex-students of Snyder High School. Mr. and Mrs. D. N. Buchanan, left, are 1942 grads, and Mrs. Z. W. Davis, third from left, is a 1947 graduate. Mr. Davis is at right. (Lee Watson photograph)

SOCIETY SCRIBBLINGS

Exes Renew Acquaintances At Tea Friday Afternoon

Snyder High School exes and alumni mingled in a festive spirit at the homecoming reception Friday afternoon.

Among the proudest of the exes were members of the class of 1910, sporting white mums carrying ribbon streamers imprinted with their year of graduation. One returning member of the class was Mrs. J. L. SUITS, now of Petersburg, who was Ella Baze during her high school days. Mr. Suits who came to Scurry County in 1899, worked for early-day newspapers here.

Talking with Mr. and Mrs. Suits were Mrs. BERNARD LONGBOTHAM, also of the 1910 class, and Mrs. INEZ BROWN, a member of the class of '20.

Down from Hobbs, N.M., for the homecoming was Mrs. NATHAN SCARAMELLA, class of '31, the former Geraldine Morrow. She is a guest of her sister, Mrs. CLIFFORD HALE, class of 41'. With them was Mrs. C. L. WILLIAMS, class of '34.

Mrs. H. P. BROWN, a 1903 graduate of the school, was among the early arrivals. Mrs. Brown, who had been married four years before her high school graduation, might well be a recordmaker in that respect. Her daughter-in-law, Mrs. HAROLD BROWN, a Colorado City high school alumni, found several of her former classmates among visitors.

Mrs. JIM SHARP, the former Kay King, took advantage of the reception to renew acquaintances after living in Riverside, Cal., recently. She and Mr. Sharp are now living in Snyder again.

Members of the class of 1928, Mrs. J. D. SCOTT and CHARLES COOPER, were searching the crowd for others from their class. They finally located Mrs. JACK PHILLIPS, one of the exes who helped provide musical entertainment during the afternoon. Other pianists included Mrs. NOVIS RODGERS and Mrs. M. M. O'REAR.

Among the graduates of the 1940s were Mrs. J. C. WILLIAMSON and Mrs. BERNARR SMITH, nee Frances Bentley, of Brownfield. Mrs. WAYNE GLADSON and her sister, Mrs. JIMMY HOGAN from Water Valley, were members of the classes of '40 and '43.

Arrangements for the gathering were made by the student council, with Mrs. THELMA LESLIE, Miss VIRGINIA GROVE and Miss KATHERINE NORTHCUTT, faculty members, acting as hostesses. J. M. KAYSER is student council director.

WATSONS MOVE

Mr. and Mrs. JOE WATSON, of Richland Hills, Fort Worth, were in Snyder last week rounding up details of their move from Snyder about two weeks ago to Fort Worth. Waston was owner of Burton Bros. Electric Co. here before it was sold to Boss Brothers this fall. Watson had purchased the business from Burton Bros., Fort Worth, last spring after having managed it for them for three years. He is working with Burton Bros. in Fort Worth now. Mr. and Mrs. IVAN GATLIN purchased the Watson home, 3006 Thirty-ninth Street.

AFTER GAME

Dr. and Mrs. ROBERT F. WASSON, 300 Thirty-seventh Street, were hosts at a Mexican buffet supper Friday night after the football game.

DRIVE SUCCESS

Scheduled to arrive in Korea last week were 2,180 pounds of clothing donated by Snyder residents for relief work there. The clothing collection was handled by Snyder's United Council of Church Women, with Mrs. M. M. MARTIN acting as chairman.

Having Baby Brings Havoc

PHILADELPHIA (AP) — Mother and baby are doing nicely—but the rest of the family . . .Oh

Mrs. Stanley Smith, 21, started it all off by telling her husband she was going to have her baby in a little while. Smith took it from there.

He and friend Anthony Luce took off in Luce's convertible to get a doctor.

Too late, the baby arrived—so Smith's brother Charles took off in his car to get Smith. He found him at the doctor's office, delivered the message and started back home. Halfway there he collided with a Reading Railroad freight train.

Along came Stanley and Luce in the other car and brother Charles hopped in and away they went — for two blocks, where Luce's machine collided with an oil truck, then with a tractor trailer, then caught fire.

Police and firemen arrived, extinguished the blaze, and saw brother Charles off to Northeast Hospital, where he was treated for minor injuries.

P. S. It was a girl.

The ferret is one of the few mammals which can be infected with human influenza.

Kinsey Report Called Demoralizing To Troops

LOS ANGELES (AP)—Dr. Kinsey's "Sexual Behavior in the Human Female" was more demoralizing to American troops in Korea than Red propaganda, says John Morley, a lecturer who recently returned from the Orient.

The Kinsey Report, Morley said at a civic meeting yesterday, told 200,000 Americans overseas that "one out of every four American wives has been unfaithful."
