LUBBOCK, LUBBOCK COUNTY, TEXAS, THURSDAY, OCTOBER 27, 1921

NO. 19

BUSINESS CONDITIONS IMPROVING IN ALL LINES OF LUBBOCK BUSINESS

THE FARMERS ARE FINDING A MARKET FOR ALL THEIR COTTON AND BY-PRODUCTS

WEATHER IS IDEAL FOR GATHERING CROPS

The Yield of All South Plains Crops is Entirely Satisfactory and Harvesting is In Full Swing—Cotton is Averaging Between A Third and a Half Bale to the Acre

The weather continues fair and warm and cotton is coming in at a steady stream. Every gin in the entire South Plains section is running both day and night. There is an abundance of pickers reported from all over the entire section, and an average of one hundred per day continues to arrive in this city from Central and South Texas.

There has not been one bad day since the cotton season opened up. The continued warm, clear weather, assisted by good, steady winds from the south, has opened the cotton field in a way that passes all former records. Many crops are being gathered with one picking. A light frost the last nights of September dried the stalks enough to practically clear them of leaves, but not enough to damage the grade of the cotton. The result is a clean sample, easy to pick, and a quicker ginners to be of a high grade, firm, mature and heavy. The lint turnout is running above the average, but the staple is reported to be generally a little shorter than the average for previous years. The price ranges around 18 cents paid on the street from day to day. Cotton seed prices range from \$26 to \$30.

The yield throughout the section is averaging fully 20 per cent above all estimates at opening of picking season—the present average being estimated at from one-third to one-half bale per acre, depending upon the section. One-third of a bale is possibly a good average for the four or five cotton counties of the South Plains section.

Business conditions show a decided improvement with the steady movement of cotton. The banks' loans and discounts are declining, and deposits increasing. The most effective relief, however, is the loosening of the general situation through the payment of the many small outstanding lumber, implement and such minor accounts that put more money into circulation throughout the community in such a way that \$1 is paying \$10 worth of obligations before it finds its way back into the account of any one man for anything like a definite stay.

All retail merchants report steady sales of better grade merchandise. The sales in one of the larger dry goods stores totaled more than \$1,000 more for the first 15 days of October than the entire sales for the month of October last year.

To sum up the situation: Cotton is moving in ideal shape, business is improving, but there is no need for additional help.

Parents-Teachers Held Important Meeting Last Fri.

The Parent-Teachers' Club met at the Grammar school Friday, Oct. 21. Owing to the fact that the last meeting was a called meeting and the dates getting mixed only a small number of the members were present. Mrs. Rylander was called on for a report on the lunch proposition. She reported that the Sup't. acceded to the request from the club that the children be allowed to eat lunch in their rooms. This is a great improvement over the old plan and the club voted thanks to Sup't. Dupre.

The question of the scarcity of censors in the rooms was next discussed and the club decided to request the teachers to collect from their pupils sufficient funds to supply the rooms with censors.

The committee on drinking fountains for the Primary School reported that only a small amount had been collected from the patrons of this school. This is the most important thing the club has undertaken and is absolutely necessary for the children's health and comfort. It is therefore to be hoped that every patron of this department will respond heartily and at once with the small donation of 25c which is all that is being asked for at present.

Miss Crane and Mrs. Haynes tied for the picture this month.

A beautiful picture hangs in the room of the teacher, for one month, who has the most mothers present at the Parent-Teachers' Club.

HALE CENTER BOY IS KILLED IN RUNAWAY

Guy Reed, 12, son of Dock Reed, who lives twelve miles west of Hale Center, was killed Saturday afternoon when a team he was driving to a disc harrow, ran away with him.

Jack McGinnis arrived in Lubbock Wednesday to take the position as book keeper with Ed Wilson grocery company. Jack is an old Lubbock boy and is well-known here.

Remains of Mich Brooks Buried Here Last Sunday

The remains of Mich Brooks, one of Lubbock boys, who paid the supreme sacrifice on the battlefields of France, were received here last Friday and funeral services were held on the court house lawn Sunday afternoon under the auspices of the Allen Brothers Post, American Legion. Several thousand people assembled on the lawn, to pay tribute to the memory of this departed soldier, who was popular with thousands of people who knew him before he entered the army service, and many attended who never knew him, but because of the fact that he was a brave and true soldier and died in the defense of a worthy cause.

The ceremony which characterizes the American Legion in the burial of a comrade was followed out in full, Rev. Bowen, who is chaplain in the American legions read a passage of scripture and commented briefly on the history of the young man from the time he entered the service till he met death on the battlefield.

The body was then taken to the Lubbock cemetery, where it was laid to rest by the side of his father who died when he fell from the Farmer's National Bank building, and the remaining part of the service was completed at the grave. The longest funeral procession that probably has ever been seen in this section of the country followed the remains to the cemetery, which showed a deep interest in the funeral of this young man, and marked the esteem in which his memory is held by the people of this community.

Deceased was born at Lorena, Texas, October 25, 1895, and moved to Lubbock at the age of 18, and resided here till his enlistment in the army on the 14th of September, 1917. At the age of twelve he joined the Methodist church and was a sweet good character always kind and cheerful, obedient to his parents and kind and good as a brother, a true friend and ever ready to serve and was therefore a real favorite both with relatives and friends. He was a member of the Masonic lodge and an Odd Fellow.

He had chosen as his profession the telephone business and was a member of the crew in Lubbock for awhile and was later made manager of the Telephone company at Crosbyton, and it was there that he laid down the tools as a civilian and joined the ranks of Uncle Sam to fight the Kaiser and his forces. He enlisted on the 14th of September and was trained at Camp Travis, where he held the position of Military Police for some time and was then made Corporal in Company C, 315 Signal Battalion. He went overseas in June 1918, and was soon at the front. His duties was to keep the line of information, and it was while at work on the telephone lines that he met death at the hands of the enemy. He leaves his step-mother, Mrs. A. L. Brooks and two sisters, Mrs. C. J. Chase and Mrs. Geo. Dotson, of this city, to mourn his death, besides hundreds of warm friends, who join us in extending the bereaved the deepest sympathy.

EAST AND WEST COME TOGETHER IN LUBBOCK

It has a long time been known that Lubbock was the hub of the plains, but circumstances would indicate that she is the hub of an even greater territory than the Plains, when the east and the west met in this city one morning last week and is still sticking.

Monday of last week when the High School assembled Miss Evelyn Reed, of San Jose, California presented herself for enrollment in the Lubbock school and Miss Stella Seitz of Abbeville, South Carolina, was enrolled in the school, which circumstance indicates that Lubbock is really more than the hub of the Plains, and is entitled to the distinction of being the hub of the United States. Come to Lubbock.

REV. PICKENS WILL PREACH AT CANYON SUN.

Rev. F. R. Pickens, the new preacher in charge of the Lubbock circuit will preach at Canyon next Sunday at eleven and at night at seven-thirty. The Fifth Sunday will not be his regular appointment there, but as he has no regular appointment for the Fifth Sunday, so has arranged to preach there next Sunday. His work at the present time includes Canyon, New Hope, Woodrow, Slide, Shellwater, Grovesville, Littlefield and Sudan.

COUNTY JUDGE BROWN FAVORS ISSUANCE OF BONDS TO IMPROVE HIGHWAYS IN LUBBOCK COUNTY

In an address before the Rotary Club Wednesday noon, Judge P. F. Brown spoke of the roads in Lubbock, and gave the club some valuable information regarding the roads and their condition and the amount of money expended in each precinct. He states that the county during the past twelve months had spent about \$12,000 on the public roads in the county or about three thousand dollars to the precinct. He stated that there had been about seventy miles of new road opened up in the county during that time. He stated that the difference in the condition of the roads was very noticeable, and was mostly due to the nature of the soil and the different circumstances that was peculiar to each precinct. He stated that Mr. Wheeler had been able to put most of his roads in good condition with the expenditure of about \$3300. On the other hand he referred to the road between Lubbock and Slaton, and stated that it was about as bad a road as we had in the county, and it should be the best as there is much more travel over it. He did not blame the Commissioner for it, and explained that all the money assigned that precinct for road work had been used on the hill on the Canyon near Slaton, and expressed the opinion that this was about as bad place as could be found on the Canyon to put a road and did not believe that it ever would be made a good road without the expenditure of a tremendous amount of money yet, and while he did not say so, the general tone of his address on this subject was that it was also useless as Slaton had a good road North across the canyon also, and that the only remedy might be better spent on other roads, where more people would be served.

At this point Judge Brown voiced the sentiment of the club in the statement that it would take a great deal more money to keep the roads up than the taxes from the source from which it comes now, would amount to, and the only solution to this question was to issue road bonds and fix the roads right, which would be cheaper in the long run. Surfaced roads are that only remedy for the roads in this county, according to Judge Brown's opinion, and to do this it will take a lot of money, and the bond route is the cheapest and the best plan.

Judge Brown stated further that counties to the East of us and all along the main highways are voting bonds and improving their roads and Lubbock should get busy and do something along this line at once. When we vote bonds we get our portion of road tax money which the state gives us, as well as getting a federal aid also, which would mean a great deal to this county toward financing the road question.

Lubbock county has come to the point where it will be necessary to spend a lot of money on the roads if we would have them anything like as good as other counties and the sooner we get at it in the proper way, the less we will waste in patch-work.

FUNERAL OF JOHN R. RALLS ATTENDED BY A LARGE CONCOURSE OF FRIENDS FROM ALL OVER THE STATE

The funeral of John R. Ralls, founder of Ralls, and one of the most influential citizens of the Plains country was attended by the largest number of friends and relatives, and fraternal brotherhoods that has ever been seen in Ralls, and possibly of any person on the plains.

The funeral was held last Friday afternoon, conducted by the masonic lodge and assisted by the Odd Fellows' lodge of his home town and joined by members from all nearby towns, where lodges are maintained.

The procession was long, and was headed by the Masonic Order, followed by the Odd Fellows and then by friends, too numerous to count, and an estimate of the number would likely not be anything like accurate, but running far into the thousands. Floral offerings came from all parts of Texas, Oklahoma and New Mexico, as also did admiring friends. The passing of this good man from the ranks of the progressive plains developers, town builders and people who love to go about doing good, will long be felt by the people of the great South Plains.

John Robinson Ralls, founder of our town, and one among the most enterprising and progressive citizens of West Texas, is dead, and for the loss of this good man the Banner mourns. As stated in last week's paper, Mr. Ralls suffered a stroke of apoplexy Wednesday. While at the time it appeared that the breaking down of his health was serious, his host of friends still hoped that he might be restored to his usual vigorous strength. But such favorable termination of his illness was disappointing as reports from his bedside gradually growing worse—that the inexorable decree of fate had willed that his work on earth was done, and that the great Architect, who plans and directs the lives of us all, had decreed that his activities be transferred to another and higher sphere, and on Wednesday his soul, finding the body no longer habitable, winged its way to that borne where millions of travelers along life's journey have disappeared, and we feel that he is enjoying that reward that is promised all just men.

John Robinson Ralls, the eldest son of Mr. and Mrs. John Robinson Ralls, was born in Monroe County, Ga., Nov. 13, 1862. There he grew to manhood and received a practical business education.

While a young man his father departed this life, leaving him to assist his mother in caring for the other four children, namely: Mrs. Isaac Winsip, Macon, Ga., Mrs. R. J. Blacklock, of Columbia, S. C., E. M. Ralls, of Comanche, Okla., and P. B. Ralls, of Ralls, Texas.

At about 21 years of age he moved to Texas and resided at Fort Worth, Bowie and Belcher. Later he moved to Ryan, Okla., where he engaged in the mercantile business and ranching for many years. He purchased hundreds of acres of South Plains land about 16 years ago, and moved to Old Emma, where he engaged in ranching, then came the railroad through the center of this land and he founded our beautiful little city, which proudly bears his name.

He with his brother, Maton, were converted in 1894, at Ryan, Okla., and joined the Cumberland Presbyterian church.

In many ways he was a great character and great citizen, considerate of others and especially so of the poor.

He was a member of the Elks, Odd Fellows and Masonic fraternities, being a 32nd degree Mason. Thus ends the earthly career of our friend and brother.

He was 58 years, 11 months and 6 days old at the time of his death. The remains were interred in the Ralls cemetery today (Friday). The funeral services were held at the family home. At 12 o'clock sharp all business ceased, every store was closed, and the gins shut down. At 1 o'clock a long line of school children entered our streets, marching through the main business section and turning west at the Guaranty State Bank to the Ralls home. These were followed closely by a long procession of Odd Fellows and Masons, who went for the purpose of conferring the last honor on their deceased brother. On coming near the home the procession was cut asunder, the line on the left going in at a gate on the left, and those on the right going in at a gate on the right. The cars which had taken another route were parked up and down every adjoining street. More than 1500 people were present; the yard was packed and many were unable to gain entrance.

Perhaps never before in the history of West Texas has such a great crowd been present at a funeral. John R. Ralls was universally loved and respected by all who knew him, and in his death not only our town has sustained an irreparable loss, but this entire section of Texas will feel the loss of a sustaining and guiding hand.

The honorary pall bearers were: T. E. Bowers, Ralls, F. M. Reed, Ralls, R. L. Travis, Ralls, Henry Sherwood, Crosbyton, Sterling Dawson, Lorenz, E. P. Earhart, Lubbock.

Senator W. H. Hedges spent Tuesday in Amarillo on legal business. Chas. L. Fickett and A. E. Barnall of Post City were business visitors in Lubbock Wednesday.

SOUTH-PLAINS FAIR STOCKHOLDERS TO INCREASE CAPITAL STOCK

ENTHUSIASTIC MEETING LAST TUESDAY SHOWED THAT LUBBOCK IS STRONG FOR PERMANENT FAIR

Friends Gather Neighbor's Cotton Without Charge

Come to Lubbock! For twenty-one years with scarcely a miss each issue of the Avalanche has bid you to do this. Many fine things have been told you about the opportunities of the Lubbock country—the town and the entire section. Of the prosperity and health that awaits you, of the noble people who will be your neighbors when you come. Here is what a typical community of the South Plains believe is "neighborly."

Mrs. G. T. Crawford, wife of G. T. Crawford, a farmer of the Canyon community, was taken seriously ill a few days ago. A serious operation was necessary. She was brought to a local sanitarium and her condition was so serious that her husband remained by her bedside.

During the days when it was hard to determine whether his wife would survive or not he still remained and it was not until a day or two ago that her condition became better and the period of danger passed.

In the meantime Mr. Crawford had a field of cotton-white and growing whiter each day. No one was there to pick it however, and the loss that might ensue from a result of delay in gathering, on top of going through the year, suffering the same depressed condition as others, would be almost a disastrous one.

But last Tuesday morning his neighbors of the Canyon community forsook their own fields of cotton and in that one day gathered four bales for Mr. Crawford. They were ready for the gin and for sale when Mr. Crawford went to his farm the latter part of the week.

That's not an extraordinary experience in West Texas and in the Lubbock country, but it is always a great experience—one that helps to tie you soul and body to the greatest section of country in the world. Come to Lubbock.

Rev. C. N. N. Ferguson, pastor of the Methodist church, sent here by the recent Annual Conference at Amarillo, accompanied by his wife arrived in Lubbock last Thursday afternoon and was given a warm welcome by the board of Stewards and the church membership in general at the church that night. After a short session of the board of stewards, at which time they finished up their work of the past year, the new pastor was introduced to a large audience, after which Rev. Ferguson addressed the people by a few brief remarks and a general get acquainted service was held, at the close of which a delectable refreshment course was served, of ice cream and cake.

Rev. Ferguson preached two stirring sermons Sunday at eleven and at night, and is entering upon the years work in this city, with a good deal of energy, and the people are rallying to his leadership, and we are sure that there will be a great work done in the Methodist church the coming year.

Rev. Ferguson is a pastor of wide experience, and comes to Lubbock, after many years of successful pastoral work throughout the Panhandle and West Texas, having served at Amarillo, Plainview, Clarendon and other important places before coming here.

The Avalanche welcomes him and his good wife to our city, and feel sure that his work will be greatly appreciated while in Lubbock, as it has been every where he has been.

Rev. C. N. N. Ferguson Arrived Thurs. Warmly Received

At the close of the 1921 Fair more than 500 premiums were paid to eleven counties from a premium list totaling \$8,200 with a deficit of approximately \$950 including lumber bills and wiring costs of approximately that amount. In short the Fair this year, in spite of the trouble we had with the delay of the Carnival, said its operating expenses but did not take care of the necessary permanent improvements that were made to care for the additional entries.

At this time the Fair association owes approximately \$2800 and has buildings and improvements to the value of more than \$8,000. The plan to raise an additional \$15,000 is for the purpose of retiring the outstanding obligations and to double the capacity of the present Stock sheds, erect a Judging and sales pavillion and to erect an Agricultural Building as large and well equipped as the present main buildings, to paint the present buildings and make additional improvements in the way of moving the Grand Stand, a new race track and additional fencing to handle the crowds for next year.

A new board of Directors and Executive Fair for 1922. The South Plains have shown their desire to participate in a Real Sectional Fair, the city of Lubbock and her citizens pledge the whole West their very best efforts to make and maintain the South Plains Fair as a truly representative Fair of this section.

The Board of Directors include: E. L. Kleet, President, E. L. Robertson, Geo. W. Foster and B. M. Holland of Slaton, Vice Presidents, with E. C. Simmons, L. C. Ellis, Lewis Moore completing the Directors. O. L. Slaton was retained as Treasurer and Curtis A. Kain, as Secretary until the coming year.

The Secretaries of the Home Service section of the American Red Cross, met in Amarillo last week, attended by a large delegation from over the state and a good representation from the headquarters at St. Louis.

Mrs. M. Fulton, of Lubbock, who is secretary of the Lubbock division delivered an address at the meeting, which was highly complimented by the St. Louis officials. Mrs. Fulton resigned her office as secretary and a new secretary will be sent to Lubbock from St. Louis to take her place, and to have charge in the November drive to secure funds for the local chapter for the coming year.

(Continued on Page 2)

Things don't happen by half way in Lubbock. The Panhandle South Plains Fair Association was incorporated two years ago with a Capital Stock of \$10,000 and an ambition to stage an annual Fair of the First Class. It is believed that we had Buildings enough to care for such a Fair for several years to come—by making the necessary improvements from year to year painting them and improvements to the grounds. But the 1921 Fair knocked that idea definitely out of the minds of every citizen that has watched the development of the Fair.

There was but one of two things to do—and these two things were very definitely put up to the Business men, citizens. Fair Officials and Chamber of Commerce directors Monday afternoon at the Annual Meeting of the Stockholders in the Justice Court room. The choice was to be made between either closing the Fair or doubling the Capital Stock. The Fair officials felt that it would be impossible to attempt to handle the Third South Plains Fair with the present equipment and they recommended that we eight provide sufficient buildings to care for the exhibits or else close the Fair until provision could be made for such enlargement.

It is useless to say what the bunch decided to do. Somebody made a motion that the Capital Stock be doubled but O. L. Slaton in speaking on the motion declared that there had never been any one thing started in Lubbock that offered such great possibilities not only for the city and county of Lubbock but for the entire section of the South Plains and West Texas as the great Fair and that he did not believe that an additional \$10,000 would provide buildings enough to care for next years Fair. He moved that the previous motion be amended to read an increase from \$10,000 to \$25,000 and that every business man and citizen of the city get behind the Fair and make it the greatest institution in the entire South Plains of Texas.

To summarize the actual facts of the Fair the following report is given starting in the summer of 1920 and ending with the present Fair:

An original amount of \$10,200 was subscribed to the Fair Stock and buildings to the total cost of \$11,500 were erected on the Fair grounds. This stock was subscribed upon the absolute assurance that it would never pay one cent dividend, or interest or refund in the way of special privileges, admission or any other direct return to the stock holder. Of this amount \$8,900 was paid in and the balance was not collected—about half of that balance can yet be collected.

At the close of the 1920 Fair checks were paid to 407 exhibitors from seven counties on a premium list of \$3,400. After all accounts were settled as far as the money would allow there was a balance owed by the fair of \$1818 that was carried over by the Long Bell Lumber Yard, the McAdams and the Bowman Lumber Companies and a bill to the Western Windmill.

At the close of the 1921 Fair more than 500 premiums were paid to eleven counties from a premium list totaling \$8,200 with a deficit of approximately \$950 including lumber bills and wiring costs of approximately that amount. In short the Fair this year, in spite of the trouble we had with the delay of the Carnival, said its operating expenses but did not take care of the necessary permanent improvements that were made to care for the additional entries.

At this time the Fair association owes approximately \$2800 and has buildings and improvements to the value of more than \$8,000. The plan to raise an additional \$15,000 is for the purpose of retiring the outstanding obligations and to double the capacity of the present Stock sheds, erect a Judging and sales pavillion and to erect an Agricultural Building as large and well equipped as the present main buildings, to paint the present buildings and make additional improvements in the way of moving the Grand Stand, a new race track and additional fencing to handle the crowds for next year.

First Monday Will Be Featured by Lubbock People

The special inducements being inaugurated by practically all merchants of Lubbock by offering special prices on all kinds of commodities as features of First Monday in each month is bringing to the attention of the farmers of this territory the value of a First Monday trade day.

The first co-operative effort made by the merchants of recent date was made on the last First Monday and the response given by the people at large has encouraged them to the extent that special efforts will hereafter be made.

If you have anything you want to sell or trade, or if there are things you want to buy, the First Monday Trades day in Lubbock will be the time and place to get results.

The Avalanche of this week carries many special features being offered for First Monday buying.

Lubbock Man Is Chosen As Livestock Coach

Canyon, Oct. 22.—Prof. F. R. Phillips, in charge of vocational agriculture at the West Texas State Normal College, announces R. C. Mowery of the Vocational Agricultural Department of the Lubbock High School has been chosen by Director Davis, as special coach for the boys who represent Texas at the Southern Live Stock-Exhibition in Macon, Ga., on November 2.

Director C. L. Davis, of Austin, chose Mr. Mowery after a careful selection from over a hundred men. Mr. Mowery won high honors at the Live Stock Exhibition in Chicago last fall when he, with two other students, represented the Texas A. & M. College in live stock judging.

Mr. Mowery will be at Texas A. & M. one week trying out the many applicants for places on the team and will select four men to make the trip to Macon for the contest. Prof. J.

LOCAL ITEMS OF INTEREST AROUND LAMESA

Dawson County Journal: M. Shaw, manager of Dawson County Abstract Co., returned Wednesday from Fort Worth, where he had been in attendance in the Texas Abstractors Association, which held its 14th annual convention on the 17th and 18th of October.

Mr. Lewis D. Fox, president of Texas Abstractors Association, offered a silver loving cup for the best prepared abstract presented to the association, which abstracts were examined by three leading attorneys of Fort Worth.

The Dawson County Abstract Company did not win first honors, but we are glad to say Mr. Shaw won third place, and lost the loving cup by only \$1-100 of 1 per cent. Tom Green County Abstract Co. won first place, Hillsboro Abstract Co. second place, and three being so close together it was very difficult to distinguish the winner.

Married—At the court house last Saturday, County Judge J. R. Lowrie officiating, Mr. Elby Bowman and Mrs. Edna Weed were united in matrimony. Both are well and favorably known here. They will make their home in New Mexico.

Owen Jones met with an accident at the Farmers' Gin last Saturday, having an army prett badly injured. We are glad to say that no permanent injury will result.

The report for the year closed last Sunday showed 96 members added and \$4,100 collected by the Baptist church. Bro. M. O. Grant has been pastor one year.

Lamesa has passed the 5,000 bale mark, and is now rapidly climbing up to 6,000 bales. The price has fluctuated considerably during the past week. Thursday morning our buyers were paying 18 cents. There are many fields in Dawson county as yet untouched.

LOCAL NEWS FROM THE SEMINOLE SENTINEL

E. E. Keese, who lives north of Seagraves, having farmed in that community the past year, and made an exceptionally good crop of cotton, corn and other products, is planting 100 acres in wheat this fall.

Mr. Keese is from Knox county, and states that he believes Gaines county soil will grow good wheat, and is enthusiastic enough over the possibilities that he is giving it a test on his farm this fall.

His experiment along this line will be watched by the farmers in this section, and if favorable results are obtained, no doubt much wheat will be grown here.

While Mr. and Mrs. T. I. Parker and child were riding in a buggy early Thursday morning, during the thunderstorm, Mrs. Parker, and the team they were driving were struck by lightning and instantly killed. This happening a mile east of Seagraves. Mr. Parker and child are reported to have been slightly burned and considerably shaken up by the bolt. The deceased was carried to Odonnell for burial Friday.

Puckett Bros., of Amarillo, purchased 1200 steer yearlings from Smith & Ricker, of near Lovinton. These steers will be pastured on the Jno. C. Hart ranch, southwest of Seminole.

Foy Proctor and R. A. Taylor purchased 400 yearlings and two-year-old steers from J. L. Taylor, west of Lovington.

E. R. Crews sold 400 three-year-old steers to Guy Waggoner, of Fort Worth. These steers were shipped at Seagraves last week.

Andy Williams purchased 100 cows from the Oklahoma Stock Yards National Bank. P. W. Dalmont purchased 500 steer yearlings, and John Dunagan purchased 200 cows and calves from the above bank.

NEW CITY DIRECTORY SHOWS AMARILLO GROWTH

Amarillo's estimated population is 17,159, an increase of 783 over the figures of 1920, according to the new city directory published by the Hudspeth Directory Company, now being distributed in the city. The book contains 9,644 names of individuals, firms, and companies, an increase of 596 or slightly over 6 per cent.

The directory contains an alphabetical list of citizens, business and professional firms, street directory, a complete record of the State government and its institutions, including members of the legislature and the County officials of the State; a directory of the city and county governments, churches, educational institutions; secret and benevolent societies and other organizations; also a complete business directory and buyers guide.

Information gathered by the publishers of the directory show that housing conditions have improved during the year, yet there is a demand for residences and business houses that cannot be satisfied.

HEADACHE? BACKACHE?

A Beautiful Woman is Always a Well Woman

Bird Song, Ark.—"For nearly two years I suffered awfully with feminine trouble, which was caused by lifting heavy things, and seemingly I had five or six other complaints added to it. I suffered with the lower part of my back and had headache nearly all the time. I began to think there was nothing that would do me any good without an operation, but I thought I would try Dr. Pierce's remedies first. I took one bottle of Dr. Pierce's Favorite Prescription and one of 'Golden Medical Discovery', also used a box of Dr. Pierce's Purifying Lotion Tablets and one of the 'Healing Suppositories' and took the little 'Pleasant Pellets' to regulate my bowels and I felt like a new woman."—Mrs. Maggie D. A. G. McAdams, of the A. G. McAdams Lumber Co., of Texas, with headquarters in Dallas, was in town this week for a few days. He is visiting the various yards of this part of the state, studying the lumber situation. He says business conditions are returning to normal, especially the building industry is showing a decided improvement.

WHEAT TO BE PRINCIPAL CROSBY COUNTY CROP

According to A. C. Mayberry, of Rails who was here last week attending the bedside of his son Jody, who recently underwent an operation for appendicitis in a local sanitarium, said that wheat will be the principal Crosby county crop for 1922. Mr. Mayberry raised a crop of eighty acres of cotton this year and will gather easily twenty bales of cotton. Most of the cotton being the Acala long-staple he received a great price for it. Last year only about one-fourth of his field of cotton was picked as the cost of gathering was more than the price he could receive for it.

Mr. Mayberry is preparing ground for one hundred acres of wheat for the coming year and will also plant a small acreage to cotton.

UNITED STATES PRESIDENTS HAVE ALL SHOWN INCLINATION TO SAVE FROM THEIR SALARY EARNINGS

Most of the Presidents since Hayes have had money enough or means of earning enough to permit them to live comfortably, says Richard Barry in Leslie's.

Mayes is said to have saved \$44,000 a year during his term as President. At that rate, he had at the end of his term some \$176,000, which, invested at 5 per cent would give him an annual income of \$8,800.

How's This?

Garfield was in office only five months before he died, but his successor, Arthur, is believed to have saved \$50,000 during his three and a half years in office. Cleveland was a poor man when he went into the White House, but he retired to private life with a comfortable estate, due largely to wise investments of his savings. Harrison is said to have spent but about half of his salary.

McKinley Paid Off His Debts
McKinley went to the White House in debt, but during his five and a half years in the Presidency he paid his debts and saved enough more to provide adequately for Mrs. McKinley after his death.

Roosevelt saved money while he was in the White House. He received

legacies from his father during his lifetime which totaled nearly \$200,000, but at his death he left an estate of half a million dollars, more than half of which was saved by him during his term as President, or received by him for his writings. Taft went to the White House in debt, as did McKinley; in four years he was out of debt and had saved money.

Wilson Bought \$150,000 Home
Woodrow Wilson had practically nothing before 1912, but in 1921 he bought a home in Washington for \$150,000, paying for it in cash or its equivalent. He is planning to spend a similar amount on a country home, and he casually refused an offer of \$150,000 for an article on the Peace Conference. He is evidently much better off than the college professor at Princeton, who, 20 years ago, applied for a Carnegie pension. Mrs. Wilson had a small fortune, but no such amount as the ex-President has today.

Associates of the ex-President estimate that he saved \$50,000 a year for eight years. Here is \$400,000, which, added to the income from his books, an income greatly accelerated by his increased prominence, should enable him to live well during the rest of his life.

President Harding has manifested a tendency toward personal economy during his few months in the White House, which indicates that he, too, will save something out of his monthly check of \$6,250.

RID LUBBOCK OF GAMBLERS

There are a number of slick gamblers in Lubbock, according to reports, who prey upon the unsuspecting people and young men of the community, and who are leading many of the young men of the city astray. If the officers cannot catch this crowd and put an end to their depredations, there should be other means used to clean up the town. There is raid after raid on crap games by negroes and possibly a few white folks, but the ring leaders are still at large, and as long as they are this gambling game will continue. This condition brings to memory of an incident that occurred in Kansas some years ago: During the early part of 1920, criminals of every sort overran the city, causing a veritable reign of terror. Finally the leading citizens' organizations decided that the only way to get relief was to take things into their own hands. A law enforcement association was formed, its motto being: "Clean Up Kansas City."

There has been a steady improvement in the situation ever since. During the first five months of 1920 there were 19 murders and 1183 burglaries. During the same period in 1921 there were but nine murders and 695 burglaries, about a 50 per cent cut in these two classes of crime. Highway robberies and auto thefts showed a like decrease. The moral of this city is just this: There is no reason why the people of any other town cannot do what the people of Kansas City have done if they will act with the same energy and intelligence. The people of Kansas City have shown what an outraged public sentiment can do when genuinely aroused, in spite of the negligence of public officials.

The Avalanche would not say that it is negligence on the part of officials, but they seem to be unable to cope with the situation, and conditions continue to grow worse, until it has reached a stage where it is becoming alarming, and something must be done.

People of Lubbock, are we going to stand by without doing something to rid the town of this undesirable class of people?

DEATH DEALERS

Roscoe Times: Why people will leave dynamite lying around where children can get hold of it has always been a mystery to us. It is almost an every week occurrence that someone is maimed for life with either the dynamite or the cap with which it is set off. Just last Sunday near Champion some children found something they did not know what it was and struck it with a hammer, it exploded and seriously injured one child and very seriously injured a woman. Explosive should not be kept where children can get hold of it.

Dynamite and similar deadly explosives should be sold only by licensed dealers who keep an exact record of every purchaser's name and business and location. The freedom with which dynamite is hauled around or left to be stumbled over is a crime. One might as well scatter disease vultures promiscuously as leave deadly explosives where they may slay the unwary. There are laws now which is supposed to lend some protection to the public in the matter of the explosive traffic. But they seem to be of a piece with numerous other statutes designed for the protection of human life—indifferently administered. We have become so used to death by violence it is considered somewhat infantile or cowardly to set a high value upon a person's right to live. Murderers, bludgeoners, drunken chauffeurs, bomb planters and all manner of lethal idiots and criminals prey upon human life without creating much resentment against themselves. To kill somebody or cause somebody's death is so common an occurrence that nobody pays much attention to it except the newspaper reporters, and even then, they have to make it rather lurid to get it read.—State Press.

And viewing it from a spiritual and moral standpoint there are just about as many death-dealers as we find in the physical world. The ruination of character of boys and girls of the community is much more common and is becoming more and more so in every community than ever before in the history of the world. Professional gamblers, cigarette fiends, and solicitors for immoral purposes, boot-legging and many other forms of evil that is continually paraded before the young people of this community as well as other sections of the country.

These kind of fellows should have the special attention of the people of the community, and our law-abiding and moral-loving people should create such a sentiment against this that would break down the practice for ever in the community, and make the existence of such class of folks so uncomfortable that they would not only leave the community, but would be glad to do so.

The announcement is made by the Terrell Publishing Company that their main offices will be moved from Austin, Texas, after November 1st to Sweetwater. This company owns a number of newspaper plants throughout the State, besides the Daily and Weekly Sweetwater Reporter. Wm. M. Woodall, is president of the company and for some months has been actively in charge of the plant at Sweetwater, and has made some wonderful improvements in it, and still further improvements are promised. New equipment is being added and the capacity of the plant greatly increased.

The Lorenzo Enterprise came to our desk this week enlarged to a six column folio, which is a great improvement over the former paper. It has much more good local news and a better line of advertisements and we are sure the people of that little town will appreciate the improvements made by Editor Quinn.

THE DIVERSIFIED FARMER THE PROSPEROUS ONE

The spirit of both the business men and the farmer of the West is ever progressive and which many of our older sections may well follow with advantage, as shown from letters received by officials of the United Campaign for Better Agriculture from the Snyder Chamber of Commerce, which is putting on a campaign for 100 chickens, four cows and three sows on every Scurry County farm, and from which there is expected to be derived a million and a half dollars to Scurry County farmers within the next one to two years. This is safe and sane farming and if a home garden is added, will practically make a living at home for every farmer, money saved is money made, and every dollar kept at home from these products gives added purchasing value to the cotton dollar, to be expended in the farmer's home market. With approximately 40,000 Texas farms on which there is not a cow, and possibly an equally large number without chickens, hogs or a home garden, all Texas would do well to follow this lead. This year has demonstrated that Texas is better off without all cotton. Let us maintain and make permanent the advantages gained by continued diversification.

AS LUBBOCK GROWS

The Avalanche has watched with much interest the growth and development of the City of Lubbock, as well as the surrounding country, and we are glad to have a part in the development of this section. We have believed in the town and the people, believing that they were of proper stuff to build a town, and they have not disappointed us. The old town has grown and grown. The country has developed and become a great livestock and farming section, and it promises to become the most important part of the State. The Avalanche has tried to keep pace with the town. We have at all times endeavored to fill the newspaper requirements of the town, and as the city is now beyond the weekly stage, we go to twice a week November the first and on that date the first semi-weekly edition will appear, and continue from that time as a semi-weekly paper published Tuesday and Thursday of each week, until the time comes for a daily. How soon that will be will largely depend upon the growth of the city and the development of the country surrounding us, and the wishes of the people of this section. The Avalanche proposes to be the Lubbock paper, whether weekly, semi-weekly or daily. Read our ad in another place in this issue for further information about the semi-weekly. It will pay you to read it.

Get behind the Lubbock Athletic Association. The crowd that attended the football game last Friday between the Lubbock Hi and Big Spring Hi, made a most creditable showing. The Lubbock team appreciated the interest and played for all there was in them, and won a decisive game. It helped to boost them along. They go into another game Saturday with Floydada. This promises to be another good game as the Floydada team is considered a good one and every Lubbock citizen should show their interest in the Lubbock boys enough to attend the game, and help them financially as well as giving your moral support. Pep up to the Lubbock team. Lubbock has a good one and is a winner. Don't forget the game Friday.

Nolan county has employed a county Home Demonstration agent. We believe this is a good investment for the county, and there should be an effort made to replace one in this county. The educational advantages gained by the work in the homes of the people is worth many times more than it costs to say nothing of other advantageous features. This is likewise true of the county agent. This man is being kept on the job this year by private subscription to take care of the county's part, but as all of the people are entitled to his services and receive them when called upon, we believe that the salary should be provided for by the county.

The Avalanche has been wondering why the fellow in whose car a jug of whiskey was found one day last week, got his car and went on his way without further molestation. We understand this happened. Was he not a violator of the law? Was he not subject to prosecution just the same as some other fellows who have been caught with booze in their possession? Will somebody please answer this inquiry. We just want to know! We have been unable to figure it out to correspond with the the circumstances.

Donley County Commissioners have voted unanimously for retaining the County Agent and the Home Demonstration Agent. Donley County people believe in this work, and the County Commissioners feel that where the people want it they should have it, and we think so too. Lubbock County people want this service! Why not give it to them?

Start now to strike from your list the things you know you can't do, the things you can't do quite so well as somebody else—and do your utmost to enlarge on the things you know you can do. That's the best rule we know on "How to Succeed."

L.H. Middleton of Fort Worth, has announced he will be a candidate for governor of Texas at the next election. "Give the working man a chance" will be his campaign slogan, he stated. Middleton is a carpenter contractor here, and at one time was assistant manager of one of the prison farms.

We see no difference in the man who violates the laws of the land whether he be a millionaire or a pauper. He is a law breaker and should be dealt with in the same manner. Such is not the case, however, and the man without means seems to get the worst of the deal.

Keep in mind that Lubbock needs more school buildings.

F. G. Robertson entertained his old boyhood friend, J. Pierce, Friday, who has home in the old historic city of Huntsville, where they were both born and raised.

Speaking of the Ku Klux Klan activities in his section, he told the following story: The officers were fully convinced there was a quantity of bad whiskey being made by a negro in the vicinity of the city and being sold to the young boys of the neighborhood, but they could not get a line up on them.

Since the Ku Klux organized they had not only located the negro and his still, but gave him the tar and feather suit that was coming to him, but one night posted up cards along the highway which read "Other stills operating in this community must be placed out on this highway, within the next 25 hours or you will get what the negro got."

The result was that FIVE stills were waiting at different points along the south highway, next morning to be gathered into the hands of the law.—Sweetwater Reporter.

Plainview is the only town in 7 states, we know of that casts a waterworks superintendent that can climb a thorn tree forty feet high with an aggravated wild cat under each arm and come out with out a scratch. He would make a good tax collector for a number of Independent School Districts that we know about.—Lorenzo Enterprise.

Only about twenty-five newspaper men and few members of their families were present on "press day" at the Dallas fair Monday. The fair association has treated the newspaper of the state so shabby by trying to "work" them out of advertising space that they "have it in" for the fair and no longer care much about it. Considerable space in the Texas Press Association Bulletin, issued Oct. 1 was used in criticizing the fair association, and urging newspapers not to give the fair any free publicity to the fair—yellow-steamed and are not treating newspapers fairly.—Plainview News.

The Banner long ago realized the free advertising graft the State Fair was perpetrating on the country newspapers, and everything sent us has been consigned to the waste basket. The State Fair management has shown very little consideration

for the Plains country, and we feel under no obligations to boost it.—Ralls Banner.

The Lubbock Avalanche will be issued twice a week commencing the first week in November. Lubbock has grown to a town in size which Editor Dow feels is entitled to a semi-weekly and he never fails to meet every requirement in his line in his territory. Here's hoping the semi-weekly will meet with greater prosperity than has come to the weekly.—Ralls Banner.

COMMENTS ON AVALANCHE SPECIAL

The Lubbock Avalanche issued a special edition on September 22, boosting the Panhandle South Plains Fair to be held at Lubbock Oct. 4, 5 and 6. The paper contained 128 pages and was in every way a masterpiece—the largest and finest newspaper ever printed on the Plains, or in West Texas for that matter.—Dawson County Journal.

Editor Dow of the Lubbock Avalanche announces that he will change his paper from a weekly to a semi-weekly November 1. The Avalanche has always been recognized as one of the best county papers in Texas and the town of Lubbock. Such a paper as the Avalanche could not be published in any but a community of live, progressive people. But there are many splendid towns that do not have a paper of outstanding merit like the Avalanche. Hence, it is only fair to assume that Lubbock is fortunate in having a progressive and successful newspaper publisher like Editor Dow. There is perhaps no section of the country that can boast of a press equal to that of the Panhandle. Perhaps no other section has as many semi-weekly papers as the Panhandle. A country in judgment very largely by the character of its newspapers and the Panhandle can well afford to be judged by its daily, semi-weekly and weekly papers. Congratulations to Lubbock and Editor Dow.—Amarillo Tribune.

Mr. Joe Williams, who about a year ago went from this section to Lubbock, Texas, sends us a special edition of the Lubbock Avalanche. The issue is printed in 16 sections, 8 pages in the section, and is a special fair edition. Lubbock has a population of four thousand, but this edition would do credit to a town of many times that size. The edition contains an enormous amount of ad-

vertising and the ads bear the mark of an artist. This special edition reflects much credit upon the Avalanche and upon the little city of Lubbock as well. It was a big undertaking and is far ahead of anything we have seen in the Volunteer State, where prosperity still reigns, though not manifested through the newspapers to any great extent.—Sparta (Tenn.) News.

J. C. Holt, of Lubbock, was here Saturday and made a visit to the Leader office. He was down to attend the funeral of his father, A. J. Holt, which occurred Friday, mention of whose death was made last week in The Leader. Mr. Holt is a printer on the Lubbock Avalanche, which is owned and managed by Mr. Dow, one of the best newspaper men in Texas. The Avalanche recently got out a special edition of 128 pages. We learn that no hurry was put on this work, but that was started along about the middle of July and just built till the last pages were up, and then the paper went out in great shape. One hundred and twenty-eight pages is a great paper. There were 10,000 papers printed.—Stamford Leader.

Colonel Clark M. Mullican is leaving the latter part of this week for Kansas City, where he will attend the National Convention of the American Legion. He goes as one of the five delegates from Texas, elected by the State Convention recently held at El Paso. The allied nations are sending representatives to the National Convention among whom are Field Marshal Foch of France, Field Marshal Diaz of Italy, Admiral Lord Beatty of England and others. General Pershing will represent the American Army. Many matters of importance to the future of the ex-soldier will be considered by this Convention.

We still have several hundred copies of the Special Edition of the Avalanche on hand, wrapped ready for mailing. We will be glad to furnish you any number desired as long as they last for the cost of postage. Come in and get them and let us put them out where they will do some good for this section of the country. Your friends will appreciate a copy of this big paper whether they expect to come out here or not, so come in and get all you want. The postage will cost you seven cents each.

THE LUBBOCK AVALANCHE

JUNIOR CHAMBER OF COMMERCE HELD IMPORTANT MEETING WEDNESDAY-LUNCHEON FRIDAY NOON

A special meeting of the Junior Chamber of Commerce directors was held in the Chamber of Commerce office Wednesday morning at 8:30 that lasted for an hour and a half. The most important matter attended to were:

Membership Luncheon Friday Noon. For the purpose of arousing greater interest in the Lubbock-Floydada foot ball game Sat. afternoon. The Junior Chamber of Commerce thru the Rotary Club has underwritten the cost of the High School foot ball squads uniform costing approximately \$170, and are behind the High School foot ball bunch to the limit.

This coming game is one of the most important of the season and the Junior Chamber of Commerce is going to see that there is a representative attendance at the game Friday afternoon. The High School athletic are not receiving the support and encouragement that they are entitled to in our city and the Junior bunch declare that things have got to change for the better along this line.

Adopt Constitution and Incorporate. The stated purpose of the Junior Chamber of Commerce constitution and charter is the best statement of the duties and obligations of a citizen of any city that has been made in a long time. A full copy of the Constitution and By-Laws will be published at a later date.

It was expressly brought out in this meeting that there should be no place in this town for any man over 18 years of age that is not a member of either the Junior or Senior Chamber of Commerce. And the continued activity of this organization will have that very result according to predictions.

The Trade Excursion Committee was thanked for their untiring and efficient work in connection with the Trade Excursions organized and directed by this Body and discharged until next year at which time bigger and better trade trips are assured.

The Membership Committee promises to get into action and line up the rest of the young men in the city into this organization. The dues are \$1 per month and the privilege of attending the monthly luncheon goes with membership—provided you pay your own luncheon charge. It is a great bunch of young fellows, full of pep and vigor and if you are between 18 and 30 you belong with the bunch. Joe Griffith always carries application blanks for membership.

If you are not a member and you want to line up with the bunch come out to the New Merrill Friday at 12 and get into action—there will be plenty of pep and business to make you appreciate the value and fun of being with the bunch. They are not all work nor all play—but a happy mixture of the two that will result in a great deal of profit to the young men and great progress for the city.

Membership Basis. The basis of membership is as follows: Junior Members in the Junior Chamber of Commerce \$1 per month. Individual membership in the Chamber of Commerce \$2.50 per month. Smaller grocery stores, barber shops, tailor shops etc., etc., \$5 per month. Drug stores, larger groceries, smaller garages, etc., etc., \$7.50. Larger garages, lumber yards, shops, etc., etc., \$10 per month. Furniture, larger Dry Goods, and Hardware stores \$15 per month and banks \$25 per month.

The Wheeling, Va., Chamber of Commerce Record says: "I pay my dues—because: "I have pledged to do my part towards the support of the organization. "Because the other man pays his. "Because the more promptly I pay my dues the better results I can look for. "Because we are paying the Secretary to devote his time to promote the welfare of our city, and not as a collector. "Because I do not wish to accept community welfare gratuitously or as charity. "Because the Chamber of Commerce is the main spring in making our city what we want it to be. "Because the Chamber of Commerce is active, alive, and doing the things to make my city a better place in which to live and do business. "Because I owe it to myself, my family, and my business to pay my dues. "Because the Chamber of Commerce needs it. "Because Wheeling needs the Chamber of Commerce."—Exchange. "Are you a Citizen—or do you just live here?"

NOTICE. This is to notify the public that the undersigned, on October 15, 1921 has sold, conveyed, and delivered all his right, title and interest in and to the "Merrill Hotel" in the town of Lubbock, to Messrs. Cahill and Sietz, a firm composed of Maurice Cahille and Sietz, and in transactions with said Merrill Hotel you will take notice of this change of ownership. J. H. MOORE.

J. P. Markham, engineer for the water works and sewerage system of Slaton, was in town Tuesday. Mr. Markham stated the contract for this work was let last week and as soon as arrangements could be made, the work would begin on same.

Mrs. M. Fulton left Tuesday, to visit her mother in Appleton, South Carolina, who is in feeble health. Mrs. Fulton expects to be away for several weeks.

NEWS ITEMS FROM THE LORENZO ENTERPRISE

The Farmers Gin Co. and the Fullers Oil Co. are running both day and night in order to give the farmers advantage of the beautiful weather they are having to gather cotton. Both these gins are running two shifts and together are grinding out about 150 bales each day.

Joe Bob Stevens, a ninth grade student of the Lorenzo high school believes in working as well as learning. During the vacation days when most of the other boys were willing away their time in various ways, Joe Bob was busy working a cotton crop. He rented land northwest of town from H. C. Pearson and put in his spare time taking care of his crop. He takes pickers back and forth in a car, before and after school now, and has it to town by hooking the car on to the wagon. He has gathered and sold five bales, which have brought him around \$125 per bale and will probably get four or five more the second picking.

Rev. Harlan J. Matthews, pastor of the First Baptist Church of Plainview will preach here at the morning hour, the fifth Sunday in this month. Rev. Matthews will have an interesting and special message and every one is invited to come out and hear him.

We regret to report this week that Mrs. Amanda Grice is critically ill. Dr. Wagner of Lubbock was called to her bedside Wednesday night and the services of a nurse have also been secured. Her many friends trust that her usual good health will be restored to her when she will probably be restored to her usual good health.

LOCAL NEWS ITEMS FROM RALLS BANNER

A child of Mr. and Mrs. E. J. Wilkes, who live in the League 4 community, is suffering with diphtheria. This dread disease threatens to become an epidemic in League 4 and every precaution should be taken to prevent it spreading among the children.

The many friends of Mr. and Mrs. Paul Bedingfield here will learn with sorrow of the death of their little daughter, Pauline, which occurred at Alamogordo, N. M., this week. The heart felt sympathy of our people is extended to them in their sad bereavement.

The grippe, in a light form has made its appearance in our town. R. B. Ingle and a number of others have been confined to their homes during the week with it.

SOME ITEMS OF INTEREST FROM CROSBYTON REVIEW

Rev. H. C. Gordon, the new Methodist pastor for Crosbyton, arrived with his family first of the week and will occupy his pulpit at the usual hours next Sunday. Let us all go out and give him a rousing reception for his first service. Rev. J. E. Yates, circuit rider for the Crosbyton Circuit, has also arrived with his family and they are domiciled in the south part of town. These men are to be leaders of the moral forces of this vicinity for at least the next twelve months.

We regret to hear that Mrs. J. M. Reed is quite ill at her home in town and may have to be carried to the Lubbock Sanitarium for treatment.

Mrs. J. W. Lemmons returned to her home near Lubbock yesterday, after a few days pleasant visit to her sister, Mrs. J. L. Glover at this place.

There is a little scare of scarlet fever in town and it has been reported that there are several cases, but after making diligent inquiry we can locate only one case—Olivia, the little daughter of Mr. and Mrs. J. J. Taylor, who became ill first of the week, and who is improving as we go to press. The little daughter of Mr. and Mrs. J. N. Mabe out at the dairy is also reported ill with the fever, but we have been unable to confirm the report.

LOCAL ITEMS FROM THE LYNN COUNTY NEWS

Tuesday of this week the city of Tahoka was visited by a delegation of live wire Brownfield citizens, who came over via the automobile highway route for the purpose of inspecting the local water and light system, with the view of installing the same equipment at Brownfield.

Those composing the party were: Morgan E. Copeland, cashier of the Brownfield State Bank; Tom May, manager of the Magnolia Petroleum Co.; Ed Moore, capitalist and alderman of the city of Brownfield; Fred Smith, manager of the Cicero Smith Lumber Co.; and Jack Stricklin, editor and proprietor of the Terry County Herald, the official newspaper of the city of Brownfield and Terry county.

A deal was consummated this week whereby A. L. Jones, B. F. Montgomery and others purchased the Edwards Bros. Coal and Grain business located on the R. R. tracks one block north of the station. Mr. Jones also purchased the residence of Jack Edwards in the east part of town. The new firm will be known as the Tahoka Coal & Grain Company. The new owners have already taken charge.

The local gin plants have been having considerable trouble of late keeping in running condition, resulting in many farmers taking their cotton elsewhere to get it ginned. This is to be regretted and it is hoped that the local gin crews will not experience any more serious trouble in keeping their plants going day and night, if it so requires that amount of time to gin the cotton that is brought here.

Mr. O. F. Beatty of Floydada, was a visitor in Lubbock the past week. Mr. Beatty has been attending the bedside of his daughter, Mrs. Pratt, also of Floydada, who recently underwent an operation in one of Lubbock's Sanitariums. We are glad to report Mrs. Pratt is doing splendidly. Mr. Beatty is an old time resident of Floyd County and is often called "the man who taught them how to raise cotton on the Plains." He has been very successful as a cotton raiser, has several hundred acres in the fleecy staple each year, and his advice is often sought by the new comers regarding the best methods to employ in raising this particular crop. Come to see us again Mr. Beatty.

NEW COOK BOOK CAUSES BAKING REVIVAL

A new cook book which has just been published for free distribution is responsible for a sort of home baking revival in this town. This book the "New Dr. Price Cook Book" is so crowded with good old-fashioned, as well as new and unusual recipes that every homelover in town has been trying them out to see how really good they are! The index covers recipes for griddle cakes, waffles and biscuits, pies, loaf, layer and angel cakes, cookies, crullers, doughnuts, old-fashioned shortcake, and many other good things.

For those who have not yet been able to procure a copy of this wonderful book on home baking—that is so easy for every housekeeper, even the most inexperienced to follow—we add that it may be procured free of charge from the Price Baking Powder Factory, Chicago. If interested in good home baking (and what housekeeper is not!) it will pay to write for it.

J. A. Smylie, cousin to S. C. Wilson, spent a few days in Lubbock, first of the week. He returned to his home in Sabin, Texas, Tuesday.

Texas Farm Bureau Is Trying Hard To Improve Agricultural Conditions Throughout the State of Texas

Dallas, Texas, Oct. 22.—"The object of the Farm Bureau shall be to create countywide organizations, to advance and improve the agriculture of the County to cooperate with the State College of Agriculture and United States Department of Agriculture in the employment of the County Agent or Agents; to develop

a definite program of work that will bring to the County a better economic, social and educational condition so as to make farming more profitable and country life more attractive."

This is the way John W. Coverdale, Secretary of the American Farm Bureau Federation defined the function of the County Farm Bureau in his address for the Farm Bureau meeting on Farm Bureau day at the Texas State Fair.

According to Coverdale the Farm Bureau is not engaged in fighting any legitimate organization or business interest. "The American Farm Bureau Federation is an organization whose aims are to serve agriculture as effectively as the Chamber of Commerce serves organized business."

"The objects of the American Farm Bureau Federation are to develop, strengthen and correlate the work of the State Farm Bureau Federations of the Nation; to increase and promote cooperation of all representative agricultural organizations in every effort to prove facilities and conditions for the economic and efficient production, conservation, and marketing, transportation and distribution of Farm products; to further the study and enactment of constructive agricultural legislation; to advise with representatives of the public agricultural institutions cooperating with Farm Bureaus in the determination of Nation wide policy, and to inform Farm Bureau members regarding all movements that effect their interests."

Discussing the work of the department of research of the American Farm Bureau Federation, Mr. Coverdale said, "The reason the farmer is not buying today is that he has a 65 cent dollar. The American Farm Bureau research department tells us that on Sept. 1 the farmer's dollar would buy at wholesale only 65 per cent as much of the commodity needed in his farming operations as it would in 1913, and yet industry tells us that they have reached bottom in their prices. This report, however, shows the farmer's purchasing power increased 5 per cent over May 1st conditions. More work of the departments reveals the fact that on September first:

The wheat farmer's dollar was

worth 72c; the corn farmer's dollar was worth 41c; the hog grower's dollar, 66c; the beef cattle man had a 54c dollar; the lamb grower had a 75c dollar; the wool grower a 51c dollar and the cotton grower on Sept. 1 a 63c dollar which is a little better at the present time.

"With these conditions existing, there is reason for the average farmer to do considerable figuring before making a purchase. There are four things necessary to increase the buying power of the farmer's dollar at this time, namely marketing, finance, instructive information and legislation. Marketing is the most important."

"The American Farm Bureau Federation as an organization cannot engage in commercial activities. It seems, however that the one big job for the farmers is to sell his products in a business like way and if he does that he will be able to buy satisfactorily. Every merchant is a service station and the success of his business depends upon the service he renders the people of his community

and just so long as that service is efficient and the people of the community are happy and contented he need fear no competition."

Mr. Coverdale then referred to the various commodity marketing organizations that are contemplated by the Farm Bureau Federation and said: "It is our hope that the Texas Farm Bureau Cotton Marketing plan may be made uniform over the cotton belt." He then discussed finance as a fundamental problem and referred to the opportunity for service by the Federal Reserve Bank which had not been realized up to the present time. "Nevertheless," he said, "a study of our National financial economy convinces us that the Federal Reserve is worthy of the staunchest support of every banker in the State. A careful study of the situation throughout several months by the American Farm Bureau Federation through its various committees results in the advice to all country bankers to become members of the Federal Reserve system."

Mr. Coverdale referred to the work of the American Farm Bureau Federation he said that the legislative officers in Washington under the direct supervision of President Howard, an Iowa farmer, and our executive committee of 12, are rendering fine service for the farmer especially since the organization of the agricultural blocs of the Senate and of the House.

"We do not lobby. We present facts. We get the will of our people and speak with authority. The whole cooperative marketing program is based on a sound, thorough analysis of business conditions. Our representative program is builded from the thoughts of the sane, safe, agricultural interests of the country. Our organization is builded with the same thought in mind and if these conditions can be righted it will mean not only more products on the farm but better equipment, better homes, better schools and better churches and above all a better class of citizenship when the farmers of our 49 states once learn that Together We Win."

Dallas, Texas, Oct. 22.—Gerald Fitzgerald, President of the Texas Tomato Growers Exchange reports that the temporary organization set up this year to handle sweet potatoes in East Texas is functioning already and that from five to six cars of potatoes are being shipped every day now and that these shipments will increase later on.

There will be a total of about two thousand cars shipped this year by the potato growers exchange. The average daily shipment for the season will be about 10 cars.

The Texas market is partial to Porto Rican sweet potatoes according to Mr. Fitzgerald, while Nancy Halls are preferred outside of Texas.

A few Porto Rican's have been shipped to the Denver market.

Next year it is planned to organize a Sweet Potato Growers Exchange covering the States of Louisiana, Arkansas, Oklahoma and Texas.

This five year contract is similar to the one now in force with the Texas Growers.

Ervin Blevins and Miss Otta Thompson were married Saturday at the Court House by Justice Smith. The groom is from Sherman and the bride from Quanah, Texas. The young couple met in Lubbock Friday by agreement. They expect to make Lubbock their home.

WINTER IS COMING—PREPARE NOW for the cold rains and storms of Winter—they will soon be here.

Build good livestock protection and get them through the winter on less feed and in better flesh.

This young cattle and she-stuff suffer and shrink most when exposed to bad winter weather, but full fed cattle also need protection.

Winter seldom fails to furnish a two weeks' spell of bad weather, when open lot cattle on full feed don't gain a pound. The feed loss at such times, on two loads, would exchange for enough lumber to build a shed.

Wish you would see us about this, while it's good building weather. We have excellent plans to show you, and the right material to build any kind or size shed you need.

PLAINS BOYS ARE IN A. & M. JUDGING CONTEST

Tulia, Oct. 20.—Major Fred Hale, son of W. B. Hale of this city and Otto Dinwiddie, son of W. C. Dinwiddie, also of this place, are representing A. & M. College of Texas on the stock judging team at the Texas State Fair. These boys made the National Junior Team last year and Senior Team this year, which speaks well of the work being done by them in the animal husbandry department of the college.

No Worms in a Healthy Child
All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILD TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or digest the worms, and the Child will be in perfect health. Pleasant to take. 50c per bottle.

TO GAIN A GOOD REPUTATION.

The way to gain a good reputation is to endeavor to be what you appear. That is precisely the manner in which Chamberlain's Cough Remedy has gained its reputation as a cure for coughs, colds, croup and whooping cough. Every bottle that has ever been put out by the manufacturers has been fully up to the high standard of excellence claimed for it. People have found that it can be depended upon for the relief and cure of these ailments and that it is pleasant and safe to take. 15-44.

Tired

"I was weak and run-down," relates Mrs. Eula Burnett, of Dalton, Ga. "I was thin and just felt tired, all the time. I didn't rest well. I wasn't ever hungry. I knew, by this, I needed a tonic, and as there is none better than—

CARDUI

The Woman's Tonic

"I began using Cardui," continues Mrs. Burnett.

"After my first bottle, I slept better and ate better. I took four bottles. Now I'm well, feel just fine, eat and sleep, my skin is clear and I have gained and sure feel that Cardui is the best tonic ever made."

Thousands of other women have found Cardui just as Mrs. Burnett did. It should help you.

Last Norfleet Swindler Brought To Justice Sat.

"Here's Mr. Hamlin." It was J. Frank Norfleet of Hale Center, Texas, speaking. Beside him was a prisoner—Reno Hamlin.

Just like he brought back Joe Furey from Jacksonville, Fla., Norfleet came into Sheriff Smith's office Saturday afternoon with Hamlin, alleged accomplice in the fake stock market scheme in which Norfleet lost \$45,000.

Tarrant County officers practically had given up hope of having Hamlin brought here from Oklahoma City where he was arrested, until after he had faced similar charges in Atlanta, Georgia officers offered a \$100 reward for Hamlin, while there was no reward from this county.

As soon as Norfleet got news of Hamlin's arrest he took the first train to Oklahoma City. He identified Hamlin, but he didn't stop his negotiations until he had procured Hamlin's release.

Not So Spectacular. Just as Norfleet was the captor of Joe Furey, ringleader of the swindle, he caused Hamlin's apprehension, although the arrest of the latter was not as spectacular as Furey's capture.

Norfleet devoted months to the Furey search. Having lost his money, he toured fourteen States and went into Mexico searching for the man who had tricked him. In a gunplay at Jacksonville, Furey failed to escape. He later made a leap from a fast moving train, but was recaptured and brought here.

Recently Norfleet heard that Hamlin was in Oklahoma City. He obtained photos of the man for identification purposes. He Hamlin's photo to Flynn, formerly sheriff in Lubbock County, but who since has been made a police official of Oklahoma City. Norfleet sent the request that he watch for Hamlin.

A few days ago Hamlin was arrested on a misdemeanor charge. Flynn identified him by his picture and wired for Norfleet. Flynn accompanied Norfleet and the prisoner to the Tarrant County jail. Their arrival was a surprise to officers here.

Hamlin insisted on every word of the indictment being read when Deputy Sheriff Jim Hardcastle took charge of him here.

"And your bond has been set at \$20,000," Hardcastle said to him. Hamlin gasped at the large bond. The bail is one of the largest set in a criminal case here in months.

With Hamlin's arrest, four of the men who are supposed to have negotiated the stock market swindle have been brought to justice.

E. J. Ward and Charles Gerber were the first to be convicted of the offense. They got ten years each. Gerber went to the State penitentiary. Ward, transferred to Washington on a similar charge, killed himself.

Then came the arrest of Furey. He pleaded guilty in two cases and got ten years each. Judge Hoesy refused to run the sentences concurrently, giving him a total of twenty years.

Hamlin already has been indicted here. His trial probably will take place in the next few weeks Assistant District Attorney Tolbert said Saturday afternoon.—Star-Telegram.

NEXT DOSE CALOMEL MAY SALIVATE YOU

It is Mercury, Quicksilver, Shocks Liver and Attacks Your Bones

Calomel salivation is horrible. It swells the tongue, loosens the teeth and starts rheumatism. There's no reason why a person should take salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel. It is a pleasant vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Calomel is a dangerous drug, besides it may make you feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No salts necessary. Your druggist says if you don't find Dodson's Liver Tone acts better than treacherous calomel your money is waiting for you.

SUDAN NEWS OF THE PAST WEEK

Miss Wiley was here from Muleshoe in the interest of a class in expression. She intended to devote a part of her time to her class already organized in Muleshoe; the remainder will be spent in Sudan. Miss Wiley offers a splendid opportunity to pupils wishing to broaden their literary course.

Mrs. P. E. Besen motored to Lubbock Friday. Miss Eva Franks returned to Sudan with her.

H. J. McCarty is ready to begin work on the new well for the school. This well will fill a long-felt need by all.

Mrs. W. G. Lenderson has returned from Amarillo.

Mr. E. B. Andrews entertained a few of his intimate friends with an informal dance on Friday evening, October 21.

Miss Alice Godsey left for Idalou Saturday morning.

Mr. P. E. Besen returned from Dallas Monday morning.

Miss Gertrude Tremain spent Sunday with home folks in Littlefield.

Mrs. Mark Wright left for Llanas Tuesday morning. Mrs. Wright has been the guest of her son, Kellis Wright.

Mr. Howard Paul of Amarillo was in Sudan on business this week.

Mr. Bounds and wife, of near Lubbock, left this week in their car to spend the winter in New Mexico and Arizona.

THE NEWS OF THE WEEK FROM NEW HOPE

My! Old winter tells us he has come to stay awhile with us. How these mornings make us shiver.

Messrs. Alfred Eoff Will Dry and Alby, of Winters, Texas, were dinner guests at the home of Mr. and Mrs. S. P. Eoff Thursday. They were looking at the country and looking for work. Mr. Dry returned home Saturday and the others are working here.

Mr. Lyma Wylie was in town Saturday.

Mr. and Mrs. L. N. Barber of the Wilson community, passed through this vicinity Sunday evening, enroute home from a visit with relatives in the Shallowater community.

Mr. S. C. Borland took a bale of cotton to town Saturday.

Mrs. J. C. McDale and children and sister, Vinetta Eoff, attended church at Lubbock Sunday, and were dinner guests at the home of Mr. and Mrs. J. L. Floyd.

Mrs. A. Emms and daughter, spent Saturday afternoon with Miss Gitthie Nunley.

Mr. Stephenson had the misfor-

tune of getting a tooth pulled when he ran into a telephone line. We would advise him to "duck" his head next time.

Mr. Fred Barton of the Wilson community, passed through this vicinity Saturday, enroute to Lubbock. He returned to the home of S. P. Eoff and spent the night.

Messrs. S. D. Pate and Stephenson, each took a bale of cotton to town Monday.

Mrs. J. C. McDale and children, Lorena, J. C. Jr., Stella Mae and Flossie Lauenia were Lubbock visitors Saturday morning.

Mr. and Mrs. S. P. Eoff and three sons, Calvin, Alfred and Ealy and daughter, Vinetta were visiting and shopping in town Saturday afternoon.

Mrs. A. Emms and daughter, Blanche and Mrs. M. Rhoades were Lubbock visitors Monday afternoon.

Mr. Cordis Stephenson was in town Sunday.

Mr. and Mrs. S. P. Eoff and son, Alfred accompanied Mr. Fred Barton to his home at Wilson, Sunday.

Mr. E. T. Mathews was in town Saturday afternoon.

Mr. and Mrs. M. Rhoades and Mrs.

COTTON CROP ABOUT FORTY PERCENT GATHERED

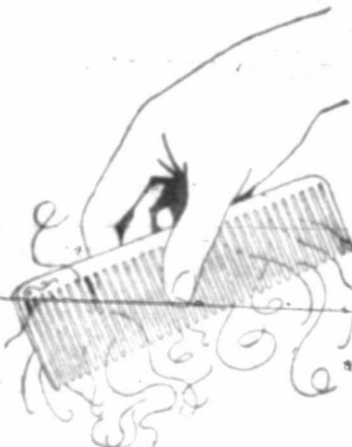

In making the rounds for news, several farmers from over the county were interviewed and the general opinion from each is that the cotton crop of the county could not all be gathered and marketed for another month, or much before the first of December, allowing for the present weather conditions to continue, which has been an ideal fall for the cotton farmer.

The yield is much better than it was thought to be at the beginning of the season, being estimated now, with only about 40 per cent marketed that the average yield throughout the county will be at least one-third of a bale per acre. The staple is said to be the best in the state. Pickers are plentiful and farmers having no trouble in getting it gathered.

One man, Pete Dockery, was killed and two others, Hulet Cox and Steve Cornelius, were injured in an automobile collision that occurred in Amarillo last Saturday night.

We Serve You

SERVICE!

We like to put it in capitals that way because we believe it is the most important thing in the battery business.

Of course we can't make a new battery out of an old one, or a good battery out of a poor one, or a long-lived battery out of a short-lived one. There are limits even to battery service.

But we can make any battery last longer and serve better if you give us a chance. We can make the Willard Flooded Rubber Battery do both—and it already holds records for long life and reliability.

We can always do more with a battery if we get a chance right at the start, although we are ready to help anytime. Come in!

You'll say, too, that we give—

WHAT IS A ONE-CENT SALE?—It is a sale where you buy an item at the regular price—then another item of the same kind for 1c. As an illustration: The standard price of Rexall Tooth Paste is 25c. You buy a tube at this price, and by paying 1c more, or 26c, you get two tubes. Every article in this sale is a high-class standard piece of merchandise, just the same as we sell you every day at regular prices and have sold you for years.

A NEW WAY OF ADVERTISING—This sale was developed by the United Drug Co., as an advertising plan. Rather than spend large sums of money in other ways to convince you of the merit of these goods, they are spending it on this sale in permitting us to sell you a full size package of high standard merchandise for 1c. It costs money to get new customers, the loss taken on this sale will be well spent if the goods please you.

Farm Data On Six Additional Panhandle Counties Has Been Given Out by The Department of Agriculture

Washington, Oct. 22.—The Department of Agriculture today gave out figures on farming in six additional Texas Panhandle counties having a total of 2,266 farms. The counties were Swisher, Lynn, Garza, Parmer, Yoakum and Terry.

Previously figures had been given out for thirty-six counties, having 17,821 farms. The figures today complete the forty-two Panhandle counties, showing a total of 20,087 farms.

A previous statement showed that this is the only considerable farming section in the nation where there was an increase in farming in the last ten years. It was also described as the

purest Caucasian section of the nation. Out of 20,087 farms only seventeen are operated by negroes.

Four of the counties for which figures were announced today showed remarkable gains in farming. These four were Lynn, Swisher, Garza and Parmer.

Lynn County farms increased from 200 in 1910 to 674 in 1920. Farm values increased from \$3,175,690 in 1910 to \$16,818,722 in 1920, a percentage of 240.7.

Swisher County farms increased from 619 in 1910 to 572 in 1920 and values increased from \$6,811,100 to \$14,494,945 or 111.28 per cent.

Garza County farms increased from 31 with a value of \$2,183,596 in 1910 to 425 with a value of \$6,076,702 in 1920.

But for percentage increase in farm values Parmer County sent all records not only of Texas, but of the nation crashing. This county showed a percentage gain in values of 351.6 per cent, although the number of farms increased only from 161 to 212. Its values in 1910 were \$1,837,346 and in 1920 \$6,461,008.

Terry County farms increased from 235 in 1910 to 274 in 1920, while values went up from \$3,621,055 to \$9,461,262 or 161.3 per cent. Yoakum County had only two more farms than in 1920, yet values went up \$825,300.

Swisher County, according to the new figures displaces Randall for seventh place as a Panhandle wheat growing county, showing a production in 1919 of 791,271 bushels, as compared with 19,158 in 1909.

Swisher also replaced Floyd, which was fourth in oat raising on previous figures, raising 439,484 bushels in 1919 as against 16,010 in 1910. Swisher milo and kafir in 1920 amounted to 727,000 bushels as compared with 80,261 in 1910. Cattle in Swisher increased from 12,517 head in 1910 to 28,264 in 1920.

Lynn County raised 1,017,968 bushels of kafir and milo in 1920, compared with 10,492 in 1910; 111,

721 bushels of corn as compared with 4,320 in 1910 and 9,969 bales of cotton as compared with 101 in 1910. Cattle increased from 11,182 to 17,509.

Garza's principal gain was in cotton, which jumped from 124 bales in 1910 to 6,706 in 1920. It also showed increases in kafir, milo, corn and wheat. It showed a decrease in cattle, having 26,852 in 1910 and 19,545 in 1920. Parmer County gained in kafir, milo, wheat corn and oats. Its cattle increased from 2,905 in 1910 to 10,819 in 1920.

DYED HER SKIRT TO MAKE CHILD A DRESS

Each package of "Diamond Dyes" contains directions so simply any woman can dye or tint her old, worn, faded things new. Even if she has never dyed before, she can put a new rich color into shabby skirts, dresses, waists coats, stockings, sweaters, coverings, draperies, hangings, everything. Buy Diamond Dyes—no other kind—then perfect home dyeing is guaranteed. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

PANHANDLE CATTLE BRING TOP PRICES AT K. C.

Kansas City, Oct. 22.—A few months ago Panhandle stockers had to be especially fine to bring \$5 a hundred but that mark has been passed, also the \$7 mark. John A. May, owner of the famous Box T ranch near Canadian, Texas, sold his yearling heifers at \$7.75 and yearling steers at \$7 on this market during the past week. This is a new high mark for this season on cattle of this class. The Box T cattle are known all over the United States and many of the calves from this famous herd have been good enough to be used as bulls in New Mexico, Arizona and parts of Texas.

BUSINESS BETTER IN LUBBOCK AND ITS TRADE TERRITORY

W. E. Livingston, sales manager for the Rolston Peruna Mills Co., of Dallas, spent a few days in town this week in the interest of his company.

Mr. Livingston stated to a representative of the Avalanche that he finds business conditions in the territory better than any other part of the state he travels in. He thinks this is due to the fact especially in his line of business, that there is more attention being paid to the dairy business in this section. The farmer is finding out that the dairy cow is an adjunct to the family larder and bank account. He thinks the time will come when the farmers will take as much interest in their dairy herd as they do in any other part of the farm.

Judge J. M. Boren, county Judge of Garza county, was in the city Saturday on legal business. Judge Boren is one of West Texas pioneers and has watched this country grow from the "wild and woolly west" into a civilized country equaled to any part of the state.

To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues.

A box of GROVES' O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Groves' O-Pen-Trade Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the combined treatment is 50c.

Just ask your druggist for HAYES' HEALING HONEY.

Work on the new brick home of Judge W. H. Bledsoe, on west 12th street, started again this week. Work was stopped on account of the delay in getting brick. It will be a modern seven-room house with all conveniences.

George Carter's Hudson Super Stolen Sunday

Sunday night about midnight, the Hudson Super Six, belonging to George Carter was stolen, and an attempt was made to get away with it, but because of a chain of circumstances unfavorable to the would

be auto thieves, the car was abandoned about two miles west of Lubbock and recovered during the following day but the thieves are still at large, with no clue as to their identity.

Mr. Warlick, who resides a little over two miles due west of Lubbock related the following experience in connection with the incident, Monday morning. He said about midnight he was awakened by the noise of a car which was running at a rapid speed. They had taken the wrong road out of Lubbock and got tangled up against wire fences and

railroads and could not very well get through, so they came back by his house and he stepped out in the yard and asked them what was their hurry, whereupon they put gas to the motor and off they sped in the direction of town in an effort to get on the right road again. About a half a mile east of Mr. Warlick's home they saw the light of a car coming in their direction, and Mr. Warlick surmised they thought an officer or some one was on their trail, and they abandoned the car and escaped through a maize field, leaving the stolen car in the middle of the road. The car they met was Mr. Bullion returning from a visit to Tahoka, and was perceptibly unaware that they were trying to make away with the car, which is the funny part of their maneuvers.

The car was recovered Monday morning when officers were notified of its disappearance.

Notice by Publication in Probate THE STATE OF TEXAS

To the Sheriff or any Constable of Lubbock County, Greeting:

You Are Hereby Commanded to cause to be published (in a newspaper of general circulation, which has been published continuously and regularly for a period of not less than one year in your County) at least once each week for at least ten days previous to the return day hereof, copies of the following notice:

THE STATE OF TEXAS

To All Persons Interested In Estate of Lucy Mandy Miller, deceased, notice is hereby given that J. R. Miller has filed an application in the County Court of Lubbock County on the 19th day of October 1921, for Application for Probate of Will and for letters testamentary which said application will be heard by said Court on the 21st day of November 1921, at the Court House of said County, in Lubbock, Texas, at which time all persons who are interested in said Estate are required to appear and answer and contest said application, should they desire to do so.

Herein Fail Not, but have you before said Court, on the first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Lubbock, Texas, this 19th day of October 1921.

A REMARKABLE RECORD

Chamberlain's Cough Remedy has a remarkable record. It has been in use for colds, croup and whooping cough for almost half a century and has constantly grown in favor and popularity as its good qualities became better known. It is the standard and main reliance for these diseases in thousands of homes. The facts that it can always be depended upon and is safe and pleasant to take are greatly in its favor when it is wanted for children. 15-4t

THREE DEATHS AT PLAINVIEW LAST WEEK

The Plainview Herald reported the following deaths in that city last week:

J. M. Harrison died at the family home one block east of the Lamar school, October 19th, at 2:30 p. m. He leaves a wife and several children, one of whom, living in Utah came to Plainview to be present at the funeral. The funeral services were held Thursday afternoon at 3 p. m., at the Baptist church, Rev. Harlan J. Matthews officiating. Interment was made in the Plainview cemetery.

Little Margaret Lange, 6 years old, died at the Plainview Sanitarium last Wednesday following an operation for appendicitis. She was the daughter of Mr. and Mrs. Henry Lange of Nazareth, Briscoe county. Funeral services were held at Nazareth Friday, October 21st, the Plainview Undertaking company being in charge of the funeral arrangements.

The 10-month-old infant child of Mr. and Mrs. J. E. Jackson, living ten miles south of the city, died at an early hour Monday. Interment was made in the Plainview cemetery last Tuesday afternoon at 2 p. m.

While stepping off the front porch of his store a few days ago, E. J. Ford received a painful strain in his right foot. He was laid up for a few days; but is now able to be at his store again.

H. B. Price and Walter Jones from Lebo, Kansas, are here for the purpose of inspecting the 3000 steers from the Spade ranch which they have bought. These steers will be delivered Nov. 1st and shipped to Kansas.

TWO CLAUDE PERSONS SUFFER BROKEN LIMBS

Claude, Oct. 20.—Mrs. Mary Arrington, 80 fell at the home of her daughter, Mrs. David Dodge Tuesday afternoon and broke her right arm, dislocating the same shoulder by the fall. Prompt medical attention has given her relief.

Armour Tredway of Bluffdale suffered a broken leg above the ankle near here Wednesday and was brought here for medical attention.

The boy's leg was broken when he was run over by a large truck. A string of trucks were passing through this section of the country and the boy was granted permission to ride upon one of them. Later he decided to ride upon the second truck in the line, it is said, and in making the change from one to the other he fell to the ground and the loaded vehicle passed over him.

PARENTS AS EDUCATORS

By Emma B. Dashley.

Excursions. "Come, let us live with our children," said Froebel. I know of no better way to do this than by taking them into the realms of Nature. Children's lives are very near to Nature herself. Happy excursions into the woods and fields make children more receptive to Nature's influence, but their eyes need to be opened. Therefore, if mothers will try to interpret the life of the flower, tree, bird, and other wonders, in a simple way it will inspire the child to make new discoveries as he goes along. Then as he comes into sympathy with the things about him, he will feel the unity of life.

Excursions into nature are considered an important part of the Kindergarten program, and it may interest mothers to know how we

make these excursions and what we do. We begin our walk early in the fall. We notice all the flowers of this season, the asters, golden-rod and gentian. We gather the autumn leaves and press them, then mount them in artistic arrangement.

A little later we go to the fields for the purpose of gathering material for stringing, such as joint-weed, rose higs, acorns, thorn apples and berries. These can be used in many attractive combinations which delight the children. At this time we also notice that Nature is preparing for her long winter's rest. The flowers have ceased blooming and have brought forth seeds. We call the child's attention to the protection of these seeds which mean new life, and we tell how they are carried by the wind, insects, animals, or man and are planted to reproduce the species.

About this time the caterpillar is crawling around, looking for a place to build a cocoon. In the Kindergarten

ten we try to have some caterpillars in order that the children may watch the transition of the caterpillars into butterflies.

We have talked of the birds leaving for the south and we have noticed the empty nests. We have observed the squirrels gathering their winter stores. We have seen the farmer busy with his harvest. Now, we call attention to the fact that all Nature, having foreseen the coming of winter, and having prepared for the cold, seems to rest.

While the children take great pleasure in the fall excursions, the spring has new beauties in which they delight. All the world is now awake, all life is unfolding.

In the freshness and beauty of the springtime, is found new charm, a new source of enjoyment. The birds are singing, and the flowers don their brightest colors. Do you wonder children love to be a part of this, as they roam through the meadows and woods, gathering flowers and learning Nature's lessons?

In the spring we begin a more decided study of the birds. The children learn the marking and names of many of the birds found in our vicinity, from charts which we have in the Kindergarten. They also learn the calls of a few of the birds. Then our first spring excursion their eyes are wide open to see how many birds they can recognize. If they go out into the country later with their parents they are able to use the knowledge gained and come back to the kindergarten telling of the new birds they have seen.

We gather wild flowers in the early spring, and the children learn their names. Then we play games bringing in the names and characteristics of these flowers, from which the children derive great pleasure, as well as the beneficial effects of the drill.

On our excursions we also take the children to the fish ponds that they may see the life there, the goldfish, the frogs, and the water-flovers. We gather eggs of the frog or toad and bring them to the kindergarten to watch their development. The toad's eggs develop very rapidly and the children are wonderfully interested in them. The interest spreads beyond the kindergarten into the grades, and many of the older children come in every few days

to see what change has taken place. We gather enough eggs so that each child may take home two or three tadpoles to watch the further development there. They need little care, only a few cracker crumbs each day, and a change of water once a week. This helps to awaken in the child the thought and feeling of nurture.

Aside from the actual knowledge gained on these excursions, the children become observing and interested in nature. They have learned their first lessons in biology, and will not soon forget them.

TWO YOUNG MEN FROM PLAINVIEW ARRESTED

Two young men, registering at the Merrill hotel as H. W. Williams and Tim Perkins, from Plainview, came in Sunday morning and secured rooms at the hotel.

About 10 o'clock Sunday morning, Sheriff Wilson of Plainview came in and arrested the young men who were charged with robbing a picture show of \$300.00 some time Saturday night. The money was found in a suit case belonging to one of them. They were carried back to Plainview where the charge of theft will be preferred against them.

Plainview Rotary Club Receives Charter Friday

George C. Holmgren of San Antonio, district governor for the 18th District, International Rotary, at noon Friday at a banquet at the Ware Hotel, presented the official charter to the Plainview Rotary Club. "President Jim" Anderson accepting for the local club.

Practically a full attendance of local Rotarians was augmented by good representation from the Rotary Clubs of Lubbock and Amarillo.

H. C. Pipkin of Amarillo Rotary spoke for this club, congratulating the Plainview club upon its splendid membership and its accomplishment, and himself upon the fact that he had made the inspection in Plainview preceding the installation of a club here and had recommended favorably that a local club charter be issued here.

Mr. Pipkin emphasized the responsibilities of the local Rotary club. He assumed that each citizen of Plainview is a citizen by choice, that indeed if he is not he is a mere sojourner and to be pitied. Having elected Plainview as his home, Mr. Pipkin said, he owes Plainview something in citizenship. He should ever be alert to build a greater city, to reconstruct the weak spots, to look to the educational development, the physical well being and the moral uplift of his city. Having performed well these demands of citizenship he should look to additional service to his county, his South Plains-Panhandle district, and to his state and nation. Mr. Pipkin pointed out that to be a good Rotarian a man must be a good citizen.

For the Lubbock club A. B. Conley, Jr., extended good wishes to the Plainview club, stating that Lubbock is proud of its Rotary club and of the club here. He told of the distinction of having at Lubbock the only 100 per cent Rotary bride in this district. Mrs. Curtis A. Keen, wife of the secretary of the Lubbock club, the wedding of these young people having been held at the recent state meeting of Rotary at Waco. Mrs. Keen responded with a few remarks on how she is "spiced on Rotary."

—Plainview Herald.

Those attending from Lubbock, were A. B. Conley, Jr., Mr. and Mrs. Curtis A. Keen.

LOCAL ITEMS OF INTEREST FROM CALDWELL

(Delayed)
We are having some pretty weather now for cotton picking. Some of the farmers are just about up with cotton picking.

There were several visitors out from Lubbock Sunday evening, we did not learn all their names. Among them were Judge Foster and Judge Maynes. Judge Foster and another one of the party made us some good talks, which was appreciated by all and resulted in several professions of faith.

Mr. and Mrs. Henry F. Shaw were visitors in the McDonald home Sunday evening.

Mr. G. P. Malone, sister and her husband, Mr. S. D. Braswell from Mountainair, N. M., have been visiting with them a few days.

Singing was enjoyed by a large crowd at the home of S. L. Landrums Sunday night.

Miss Viola Parker visited with her sister, Mrs. M. R. Shaw Saturday night and Sunday.

The NEW EDISON

is the only instrumentality which can bring the full beauties of true music to your home

THIS fact has been established over two thousand times before over four million people, in direct comparison tests between the New Edison and the living artists.

The New Edison is the *only* phonograph that *dares* this acid test of direct comparison.

Now the New Edison takes another forward step! Mood Music! The power of music to sway our minds and moods has been recognized by the thinkers of all ages—but it has remained for Mr. Edison to evolve a plan by which you can benefit from good music beyond mere entertainment.

It Soothes, Refreshes, Cheers!

Mood Music helps you control your mental and physical well-being. It soothes you when you are nervous. Refreshes you when tired. Cheers you when sad. In a 32 page booklet, this wonderful new way of using music is fully described and over 100 selections are classified according to the effects they produce upon a listener. Fill out the coupon and get your copy of the booklet, "Mood Music."

Three Days of Mood Music Free!

If you do not own a New Edison, we will gladly loan you one on three days' free trial—so you can learn what Mood Music and the New Edison will do for you.

About Mood Music

Mood Music is the result of a two-year research by Mr. Edison into the effects of Music. The psychological work was under the direction of Dr. W. V. Bingham, Director of Applied Psychology, Carnegie Institute of Technology, and other psychologists. The remarkable discoveries, which they made, through countless experiments, are now in booklet form for your practical use.

CLEBURNE BANK PRESIDENT CHARGED WITH EMBEZZLEMENT

Cleburne, Texas, Oct. 20.—Patrons of the safety deposit vaults of the National Bank of Cleburne, which closed its doors a few days ago, today discovered that securities and Liberty bonds which had been deposited in the vault had disappeared. Several patrons missed various amounts in securities.

A mass meeting has been called for 10 o'clock Friday morning, at which business men and citizens of Cleburne will consider the situation and take steps such as may be indicated by the facts to be developed in the meeting.

Late this afternoon complaint was made by A. J. Wright, a business man of this city, before the County Attorney of this county, charging S. B. Norwood, president of the bank, with embezzlement and theft. Nor-

wood has been absent from the city since the failure of the bank. Wright is one of the men who claims that securities have disappeared from his safety deposit vault in the National Bank of Cleburne.

FARMERS AND PRODUCERS MUST LEARN MORE ABOUT CONDITIONS IF THEY FIX PRICES

"The farmer or the spinner will ultimately fix the price for each year's production of cotton. All other factors entering the various phases of marketing are only temporary and speculative in influence, the law of supply and demand being the final governing factor," says E. F. Shropshire, Secretary-manager of the United Campaign for Better Agriculture.

"That the farmer, the producer;

I AM A HAULER

My business is to haul the things you want in the quickest possible time and with the utmost care.

IF DELAY WORRIES YOU

Get hold of your phone and quicker time than you would imagine the things you want hauled will be, anywhere, anytime.

JNO. W. AUCUTT
The man who hauls things

and the spinner, the consumer, are the determining factors of cotton values is evident, both however being governed by the law of supply—"the amount produced by the farmer" and demand—"the amount that can be consumed by the spinner," plus the surplus produced, or minus the required amount.

"If the farmer produces just enough cotton to meet requirements, fair prices are obtained, and the history of cotton production is that small crops have always brought the farmer more money than large ones. If more is produced than is needed, the surplus fixes the price of the whole crop; not at a fair value, for what is required by the channels of commerce, but at the cheapest possible price at which the entire crop can be obtained.

"The farmer's greatest opportunity to have a real say in the market value of his cotton is at the time of planting, and the force of his voice is largely governed by the acreage planted in cotton and of other crops to sustain him.

"The spinner's time comes after the crop is produced, and is governed by the amount produced; the demand for cotton products and economic and financial conditions throughout the world.

"The farmer, with rare exceptions, year in and year out, has merely planted and produced, without giving due consideration to factors that control his efforts, being governed more largely by the amount of credit extended by his merchant and banker and the acreage that he and his entire family can cultivate.

"The spinner, on the other hand, has made a most careful study of his industry, but utilizing the best brains

that money can obtain; knows the factors governing and will not operate unless a profit is obtained.

This contrast is made for the purpose of showing more forcefully the advantages gained by diversified farming, as practiced this year—1921, the force of the farmer's voice for fair values and the strength of ample food and feed crops to sustain him and the smallest advance by merchants and bankers in years to hinder him.

With these facts before us, the great menace of, and heavy damage done by the boll weevil this year, confronting us, and with the knowledge of a shortage in food and feed production, and that the present acreage in cotton is sufficient, under normal conditions of weather and insect pest, to produce an adequate amount to meet the world's requirements for some time to come, the farmer should be slow to increase his cotton acreage for 1922 and bring a return of the disastrous conditions of 1920.

Lubbock Defeated Big Spring in the Friday's Game

Last Friday the Lubbock Hi Foot Ball team met Big Spring in the local field, and defeated them in a fast game, 20 to 0.

Big Spring came to Lubbock undefeated, but went back home with a nice juicy goose egg presented by the Lubbock squad. The Big Spring team was heavier in weight but were not as swift as the Lubbock bunch, and although the visitors were strong on line plays, Lubbock boys ran away from them, passing up the interference without much trouble.

In the last quarter of the second half Lubbock boys made the 3rd touch down, but there seemed to be some question as to the manner by which it was made, and though it was believed by Lubbock people that it was legitimate in every way, rather than have a dispute or contest on the subject it was not counted, which reduced the score from 26 to 0 to 20 to 0, in favor of Lubbock at the end of the game.

A large delegation came from Big Spring with the team and were very confident of a victory over the Lubbock boys, but it was soon seen after the game started that the visitors had little show for scoring against the Lubbock boys.

Some of the boys on both sides were pretty badly skinned up, but no serious injuries, and the game passed off very satisfactorily.

The Lubbock School conducted a parade through the business section of the city, which was quite unique, and the entire school showed a wonderful lot of enthusiasm and pep, and gave the Lubbock team a lot of genuine support.

One of the unique features of the parade was a goat led by one of the school boys, and a banner carried by another boy on which was painted: "We have got Big Spring's Goat, come out and help us keep it," and they did, and still have it.

The following clipping from the Big Spring Herald, which was printed the day the game was played, was issued before the result of the game was known in quite amusingly. The cotton acreage must not be increased, for should normal weather and damage by insect pests prevail, an increase in acreage is likely to cause a return of the disastrous conditions of 1920. Every farm must be made self-supporting, so far as soil and climate will permit, by increased food and feed crops, gardens and orchards, and by an increased number of poultry, hogs and livestock, and of better breeds on each farm.

"The farms of Texas are demanding diversification and rotation of crops, and heavy losses by root rot in the black land belt, is evidence of it; the depleted condition of the sandy soil demands it, and the increased damage by boll worm and weevil warn us that our best interests will be safeguarded by it. Now is the opportune time for the co-operation of every individual and business interest of the State for better agricultural conditions and fair prices for the products of this State, which can be more easily obtained by continued diversification. We urge a meeting of every farmer, banker and business man be held at the courthouse in each cotton producing county of the State Saturday, November 19, 1921 at 1 p. m. for the purpose of discussing the above and other problems confronting us and repledging ourselves to a safe and sane agricultural program for 1922 and not to increase the present cotton acreage."

Canyon, Texas, Oct. 22.—The Canyon Buffaloes won a hard-fought football game over Abilene Christian College by a score of 35 to 0 today. At no time in the game was Canyon's goal in danger as the A. C. C. boys never crossed the fifteen-yard line.

The first quarter was featured by line plunges and forward passes by the Canyon boys but no score was made by either side. Canyon registered a score near the opening of the second quarter.

Childress, Oct. 22.—The Plainview High School football eleven lost to the Childress grid squad by a score of 24 to 14 here this afternoon in a brisk clash.

Tulia Defeats Hereford 28 to 0.
Tulia, Oct. 22.—Tulia High School defeated Hereford High Friday afternoon by the score of 28 to 0 in a game featured by the aerial work of the local squad.

The touchdowns were all made by long passes. Individual stars for Tulia were Bivens, quarter; Gardner half, and Lindley, end.

Officials of game—Fielder referee Oliver, umpire and Ward lineman.

The total report for the four gins of Lubbock report 2,950 bales ginned up to Tuesday night, Oct. 25th. This is in excess of the same date last year by about 600 bales. It is estimated by the four gins that about 60 per cent of the cotton of Lubbock county has been ginned.

Detroit Vapor Oil Stove

—Most women think an oil stove does not deliver enough heat for all kinds of baking. This is because they have never seen this oil stove. —No matter what you may think, here is one oil stove that will cook or bake anything perfectly.

—It is entirely different. The RED STAR burners are the secret of its remarkable efficiency. They are wickless. They generate gas from kerosene or gasoline. They leave no odor or smoke and give 19 hours of perfect heat from each gallon of fuel.

—This perfected burner makes the RED STAR equal to any city gas range—in efficiency, cleanliness and in economy.

—Come in and see it in operation. It will give you a new understanding of what you can accomplish with this oil stove.

Texas Live at Home Campaign to Start November 19th

Dallas, Texas, October 20.—The United Campaign for Better Agriculture has designated November 19th as Texas Live at Home Day, according to E. F. Shropshire, Secretary, who states as follows:

"This year of all years, has demonstrated and proven beyond doubt that every interest of our State is much better off financially by the reduction in cotton acreage and increased food and feed production. The present extent of diversification must be maintained and increased. It is our road to permanent prosperity. The cotton acreage must not be increased, for should normal weather and damage by insect pests prevail, an increase in acreage is likely to cause a return of the disastrous conditions of 1920. Every farm must be made self-supporting, so far as soil and climate will permit, by increased food and feed crops, gardens and orchards, and by an increased number of poultry, hogs and livestock, and of better breeds on each farm.

First Term of District Court in Hockley County

Monday morning, October 24th, at 9:00 o'clock, Sheriff Jim Stroud called the first term of District court held in Hockley county. The county seat of Hockley county, after futile attempts at naming the same, or at least a name that was acceptable to Uncle Sam, has recently been christened "Leveland," a very appropriate name we think.

Judge W. R. Spencer, Court Stenographer, Franklin D. Brown, District Attorney, Gordon B. McQuire and District Clerk, Geo. P. Smith, were present when Sheriff Stroud made the declaration. The first hard work, was to empanel the Grand Jury. This was soon accomplished and enquiry, returned "no indictments found," and were discharged by the Court. It was not necessary to empanel a petit jury, as no cases have yet been filed in the new county.

About two dozen people were present at the first session of the Court. This number included the officers of the Court, and a few visitors. The Court House was the only Hotel available in the new county seat, and the officers of the court spent the night there, and all report "a splendid night's rest." Mr. Bowers, the store-keeper furnished the good chuck, served in the good old western style.

Hurray for Hockley county—we're proud of her as a future agricultural county, and glad to claim her as one of the sister counties of the South Plains.

EXECUTIVE BOARD TO MEET IN BALLINGER

ROTARY ITEMS.

(By L. T. Martin.)
H. C. Pipkin of the Amarillo Rotary Club made a very interesting and instructive talk before the Plainview Rotary Club, Friday of last week. Rotarian Pipkin has the reputation as being the best boys work chairman in the 18th district. Dolf Conley, Mr. and Mrs. Curtis Keen, Mr. C. W. Lamer of Salina, Kansas, and L. T. Martin attended the luncheon of the Plainview Rotary Club Friday at which time George Holmgren district governor of Texas Rotary Clubs presented them with their charter. Mrs. (Kathleen) Keen responded in a very pleasing manner, as the Rotarian Bride, at the Plainview Rotary luncheon. They have a mixed quartette of trained voices who rendered some of the finest music at the Rotary luncheon in Plainview last week it has been the pleasure of the writer to hear in some time. It was a real treat. Not only that but they promised the writer if extended an invitation they would come to Lubbock and sing for us. We want them to come. Let's have them at our first open meeting. Those who were unable to go to Plainview missed a real treat.

Mr. and Mrs. C. W. Lamer, who have been visiting Dolf and family for the past week, returned to their home at Salina, Kansas Monday.

John Dalrymple returned from a trip to Shreveport, La., and Jefferson, Texas, Wednesday. He attended Rotary luncheon at Shreveport, and took on a paving contract at Jefferson with usual profit.

Mrs. A. B. Conley accompanied by Miss Ruby Mae Rush, who has been visiting at the Conley home for some time, left Tuesday morning for a visit with her daughter, Marian at Waco.

President Walter leaves Saturday for a business trip to Beaumont. Rotarian J. W. Jennings returned from Dallas, Wednesday. He is in charge of the Lubbock County exhibit, at the big fair. He explains that the reason Lubbock County did not get first place, that some one stole a part out of some of his exhibits, which cut a number of points and he was entitled too. The fact that the exhibit appealed to the visitors of the fair is what counts and we will take back another exhibit next year and take a little extra so if some of the farmers over in east Texas or Oklahoma have to steal a little seed we can still keep the exhibit up to the required amount to take the prize.

Neil Wright, went hunting and brought home a fine covey of Mile-o-mo birds. Said he had them for breakfast.

Dr. J. T. (Tom) Hutchinson, returned Wednesday from the north where he has been doing special work both at Chicago and the Mayo Brothers.

Acy May was in Ropes Tuesday on business, so it is reported. You can always tell when Rotary day comes if you will watch President Walter and Medlock. They put on a white color on Rotary day.

Following were the visitors at Rotary Luncheon Wednesday: E. F.

Fay of Walter Myrick; Judge P. F. Brown of Roscoe Wilson; Sam Denman of Neil Wright; J. Horas Kraft of Medlock; S. A. (Jack) Blawett of Curtis Keen; Chas. P. Maedgen of A. V. Weaver; Dr. J. T. Krueger of Earl (Skeeter) Hunt; S. D. Boyle of Daddy Dickinson; E. A. Morgan of L. C. Montgomery. Come again gentlemen, we enjoy having you with us.

Amarillo Rotary Club has extended an invitation to Plainview and Lubbock Rotary Clubs to be their guests on November 3rd. As many as can are urged to accept the invitation and to report to Secretary Keen, so he may inform them the number from Lubbock who will attend. Remember the date.

Judge P. F. Brown made a very interesting talk in regard to County affairs. He informs us that the officers of Crosby and Lubbock County have established a permanent line between the two counties that is agreeable to both counties. In discussing the good roads problem, he says it is the policy of the Commissioners Court to not make more highways but to make better highways.

He was assured by the chairman of the day, Roscoe Wilson that the Lubbock Rotary Club will be pleased to get in behind the commissioners to further this work.

Rotary Luncheon will be held at the Elk Cafe; next Wednesday. Don't forget the time and the place.

Andy Wilson was called to load some cattle just at the luncheon hour Wednesday and had to miss the meeting. Sorry you could not be there Andy. We missed you.

No Neil Wright did not tell me about the Mile-o-mo birds. In fact I could not get any news items out of him at all this week. If any of you birds (no matter what kind you are) want these items to be snappy give me your news items.

Pendleton Nixon, a young man 17 years old, died in Lubbock Wednesday after an operation. The body was taken charge by the Rix Undertaking Co., who prepared it and was shipped to his home in Clyde, Texas. The body was accompanied by an aunt.

R. J. Beard and wife of Fort Worth spent several days in the city visiting relatives. Mr. Beard being a brother to W. L. Beard of this city, and a nephew of L. F. Johnson of near this city. Mr. Beard is also a representative of the Southwestern Engraving Company at Fort Worth, and was looking after business matters for the firm while in the city.

Clint Edwards is here from Lubbock, visiting his parents. He is one of the best, all-round printers in all Texas, having learned his trade on the Daily Courier-Gazette and Weekly Democrat-Gazette. He will be here for a week. He has been at Lubbock for some five or six years. We are always glad to see Clint.—McKinsey Gazette.

T. J. Estes and wife will leave in a few days for Little Rock, Ark., where they expect to spend the winter. They will return in the spring, and Mr. Estes states that Mr. Walton and family who have been residing in that state for some time will return to Lubbock, to make their home. Mrs. Walton is a daughter of Mr. and Mrs. Estes.

GRAMMAR SCHOOL NOTES

Mable Clinton, formerly of Durant, Oklahoma, entered the seventh grade Monday. Several pupils have entered the sixth grade, the past week; Alton Abbott from Abilene, Texas, and Leon Harvey of Snyder, Texas, Fourth grade; Mildred Clinton, Durant, Oklahoma, and Lucile Miller, Clovis, New Mexico, Third grade; Everett Nichols, Plainview, Texas, Jack Davis, Sulphur Springs, Texas, Owen Parish, Pannin, Texas, Lavelle Abbott, Abilene, Texas, Sam Rhoden, East Ward, Lubbock County, and Norman Seitz, Sherman, Texas.

Mesdames Hufstader, Harvey Hicks, J. G. Keaster, J. E. Vickers, Rev. and Mrs. W. A. Bowen visited the school this week.

One of Mrs. Haynes' fourth grade reading classes entertained for Miss Suggs' fifth grade, Friday, giving a dramatization of one of their reading lessons.

The two seventh grades had a very interesting Arithmetic match Tuesday morning which ended with Mr. Bishop's room several points ahead.

The sixth grades staged a play in which the three rooms competed for honors. Mrs. Sowder's room being successful, gave it for the seventh grade next morning.

Report cards will be handed out next Friday.

immediate improvements in this respect. In second place, there is almost entire absence of public spirit and public morality.

China has problems without end. Illiteracy superstition and traditions hold her fast in bondage to the past, while the old problems still remain unsolved. She faces the difficult and complicated problems of modern civilization.

There are only 5,000 effective missionaries at work in China—about one to every 66,000 souls. Can Christianity win in China under these almost impossible handicaps?

China has an area of 4,278,352 square miles, the largest of any country in the world with the sole exception of Russia. She has a population of over 400,000,000, the largest of any single country in the world—fully one-quarter of that of the whole globe.

China can grow everything producible in the United States and many other things besides. She can feed and clothe herself if given modern methods and machinery. The Chinese were the creators of their own civilization. There was more from whom they could borrow; none to criticize their achievements. Had the race disappeared from the earth it would be regarded today as one of the greatest of the world had ever known. Looking upon the Chinese as a living, present-day people, we find that they are keen business men, the keenest of all Asia. They are excellent laborers, patient, industrious, sober, enduring; they can stand any climate and any kind of work. There are no signs of racial superiority among them. Physically, mentally, they are vigorous; but, China has not developed any leader in recent generations, and there is no sign of

HIGH SCHOOL NOTES

(By Cappers Bowen)

On Friday, Oct. 15th, the Lubbock foot ball team played Big Spring High School dismissed at 3 o'clock so that there would be plenty of time for the game. A procession was formed on 13th Street which paraded through town. The Seniors, decorated in class caps and pennants and making plenty of noise, led the procession. The parade then led to the Fair Park where the game was played. The game was hard-fought from beginning to end. Every advance was stubbornly resisted. Lubbock scored twice during the first quarter and again during the second quarter. Big Spring played hard, but was unable to score. The game ended with Lubbock winner, 20-0. This makes the season's score 201-14. Lubbock should be proud of her team and its record. Give them your support and interest. Come and see the game with Floydada, Saturday the 29th.

A week or two ago, a girl from California and another from North Carolina entered school here. Annual Husbandry has been added to the High School courses this year. Mr. Mowery, a member of the Texas A. & M. International Stock Judging team of 1921, is instructor. The school has obtained drawing instruments and Mechanical Drawing has been added to the Manual Training work.

Mr. Mowery, the Animal Husbandry teacher, left last Saturday for A. & M. to instruct the stock-judging team of that school. He will be gone for two weeks.

Mr. Thomas Howard, a member of the Senior class, is at the Lubbock Sanitarium, dangerously ill with Bright's disease. A good deal of embarrassment was caused among certain pupils when Mr. Dupre read out in chapel the names of those that were under in their grades.

C. M. Noey of Clarksville, Texas, who has been on the South Plains for some days looking for a location, decided Lubbock county the best part of the Plains. He decided to locate and bought 100 acres of the W. T. Thaxton farm, 5 miles north of town and sent for his family, who will arrive in a few days to make this their home.

Judge G. E. Lockhart, of Tahoka, was transacting legal business in Lubbock, Tuesday afternoon. Judge says the cotton has been coming in fast the past two weeks, the yield is good and fair prices are being received.

J. H. Bagley of Southland was transacting business in Lubbock last Monday.

Albert Rutherford from Big Spring was a Lubbock visitor this week.

Mrs. Tom Clayton and Mrs. Don Clayton of Mule Sho, Texas, were shoppers in Lubbock this week.

Chester Hubbard from Slide was a business visitor in the city Tuesday.

Rix Furniture Company Buys Valuable Property

The Rix Furniture and Undertaking Company recently purchased from Doctors Hutchinson and Peebler two twenty-five foot lots on West Broadway at a consideration of \$7,000.

This property is located directly west across the alley from the tin shop opposite the Leader building. We are informed that the new owners bought the property in view of the rapid development of the city with intentions of building there in the future.

Lots east of the property, that is two of them, are owned by K. Carter, local dry goods merchant, who will build a fifty-foot, two story structure there in the next few months, according to good information and will move his business from its present location on the north side of the square to the Broadway building.

HALE COUNTY FARMER BELIEVES IN HOGS

J. C. Homan, who lives in the western part of the county, was in the News office yesterday. He says wheat planting is in progress in his part of the county, and the acreage will not be quite so heavy as last year. Most of those who are not able on account of the dry weather to sow all their winter wheat will plant spring wheat.

Mr. Homan told of two years ago selling forty-two hogs for \$1,200, at 18c a pound. During the past year he sold forty-five hogs, about the same kind and weight, for a little more than \$800, the price ranging from 6c to a little more than 9c. However, he declares "the hog is my

This Is Visit the Laundry Week

When thousands of people in all walks of life depend upon the laundries of the country for cleanliness—then they should be interested enough to make an annual visit to their respective laundries and see the conditions under which their clothes are returned to them daily, white, pure and clean.

You Are Invited to Visit The LUBBOCK LAUNDRY CO.

This is your own laundry. Your governor has designated this week as "visit-the-laundry week." It is national and throughout the United States people are going to see the conditions under which the "clothes of the nation" are kept spotless. The management of the Lubbock Laundry pride themselves upon the many improvements made in the past year. It will be a revelation to you to see what has been done. **Only Two More Days in which to celebrate "VISIT-THE-LAUNDRY Week" Are You Coming? You Are Welcome!**

The streets of Lubbock were crowded Saturday with shoppers, and the merchants in some instances were putting on extra help to handle the crowd.

DALHAM COUNTY MAKES 3RD ATTEMPT TO VOTE BONDS

For the third time the commissioners of Dalham County have called election to determine whether or not Dalham County shall issue \$175,000 worth of bonds for building a new courthouse in Dalham County. Last summer such an election carried by a small majority and later the attorney general refused to approve the record and the bonds could not be issued. Later an election was called and it was found an error had been made in the time provided for the notice of the election, hence this third attempt to get the bonds issued. The present dilapidated building which is being used as a courthouse has recently been braced up and reinforced by a large steel and concrete pier erected from the ground outside of the building at an angle of forty-five degrees, tending to support the structure which appears in danger of falling over.

Citation by Publication THE STATE OF TEXAS

To the Sheriff or any Constable of Lubbock County, Greeting: You Are Hereby Commanded to summon Mazie McKinley, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, if there be a newspaper published therein, but if not, then in any newspaper published in the Seventy-second Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said seventy-second Judicial District, to appear at the next regular term of the District Court of Lubbock County, to be holden at the Court House thereof, in Lubbock, Texas, on the second Monday in December, A. D. 1921, the same being the 12th day of December, A. D. 1921, then and there to answer a petition filed in said Court on the 6th day of January, A. D. 1921, in a suit, numbered on the docket of said Court No. 1410, wherein H. B. McKinley, Jr., is Plaintiff, and Mazie McKinley, is Defendant, and said petition alleging that plaintiff has been an actual bona fide inhabitant of Texas, more than twelve months and a resident of Lubbock county more than six months prior to filing his petition herein. That he was lawfully married to defendant on the 9th day of April 1920, and lived together as husband and wife until the 10th day of April 1920, when defendant left plaintiff to return to her former home in Hill county, Texas, for the purpose as she told this plaintiff of getting her personal effects and thereafter returning to plaintiff in Lubbock, Texas.

That soon after defendant left this plaintiff to return to her former home, she notified plaintiff that she did not intend to return to him, and thereupon, plaintiff started an investigation to ascertain the cause of her said conduct and thereafter learned that at the time of her said marriage to the plaintiff herein, she was the wife of one — Robinson, who resides in Hill county, Texas, and whose given name is not known to plaintiff and she could not legally become the wife of this plaintiff.

That since the 10th day of April, 1920, this plaintiff has never seen defendant and has not lived with her as his wife since said date, and since ascertaining that she is the wife

SOCIETY NOTES

The Maggie and Jiggs 42 Club. Mr. and Mrs. Conner, Mr. and Mrs. Wright entertained the Maggie and Jiggs 42 Club last Tuesday evening at the home of the former. An attractive Halow'en color scheme was developed throughout the evening and the weird forms of black cats, jack-o'-lanterns and witches appeared about the doors and the windows of the entertaining rooms. 42 was enjoyed until an exceedingly late hour, when a delicious salad course was served. We are glad to have Miss Gladys McSpadden as guest.

Mesdames W. R. Cavett of Shreveport, La., and C. H. Thompson of Denver, Colo., have returned home after visiting with relatives in this place.

Mr. Arthur Elliott of Slaton, was a Lubbock visitor Tuesday. Mrs. Fred Smith of Topeka, Kansas is visiting her parents, Mr. and Mrs. W. H. Meador.

Mr. and Mrs. SoRelle of Fort Worth, are visiting in the home of Mr. and Mrs. M. C. McCrummen.

Hallow'en Party. The Mission Band, of the First Christian church will entertain Saturday evening with a Hallow'en party at the home of Mr. and Mrs. Lon A. Mullican, 1502 Ave. L.

These little folks have pledged themselves to raise one hundred dollars and will appreciate your presence and patronage on that night.

Crimm-Bessent. Miss Inez Crim of Canyon and Mr. Byrel Bessent were united in marriage at the Cumberland Manse on last Sunday afternoon at five o'clock, with Rev. Collins officiating. Their many friends wish for them a happy and prosperous married life.

Honors Mrs. Fred Smith. Mrs. McCurreyhan of Slaton, entertained last week with Bridge, honoring Mrs. Fred Smith of Topeka, Kansas.

Guests from Lubbock were, Mesdames Fred Smith, W. H. Meador, J. T. Hutchinson and Fred Oliver.

Double Dozen Club. Mr. and Mrs. G. C. Wolfarth delightfully entertained the Double Dozen Club on Friday evening of last week complementary to their cousins, Mrs. W. R. Cavett of Shreveport, La., and C. H. Thompson, of Denver, Colo.

Beautiful yellow chrysanthemums and suggestions of Hallow'en were used throughout the reception suite as decorations. After an hour of progressive forty-two a delicious salad course was served. The out of town guests were, Mrs. W. E. Cavett of Shreveport, La., Mrs. C. H. Thompson of Denver, Colo., and Mrs. Nichols of Plainview.

Nail-Chism. Miss Jewell Nail was given in marriage to Mr. Wesley Chism at the home of the brides' parents on Sunday morning at nine o'clock with the Rev. A. A. Collins officiating.

Mr. and Mrs. Chism are among Lubbock's younger set and have a host of friends who wish them much happiness throughout their married life.

friends on last Thursday evening in honor of their house guests, Mesdames W. R. Cavett of Shreveport, and C. H. Thompson of Denver.

Progressive forty-two was the delight of the occasion and at the close of the evenings merriment a delicious refreshment course was served.

Thursday Needle Club. Thursday afternoon of last week, was thoroughly enjoyed by the members of the Thursday Needle Club, with Mrs. Overton as hostess and Mrs. Rylander as joint hostess.

The usual diversion of needle work was enjoyed until a dainty salad course was served to Mesdames Germaine, Reed, Martin, Murray, Maedgen, Robertson, Mast, O'Hair, Benson, Denman, and Pearce. The next meeting of the club will be with Mrs. Johnson as hostess and Griffin as joint hostess.

House Party. Mesdames W. R. Cavett of Shreveport, and C. H. Thompson of Denver, and G. C. Wolfarth; Mr. and Mrs. S. C. Arnett, Mr. and Mrs. Nell Wright, and Mr. and Mrs. W. A. Bacon enjoyed a two days house party last week in the lovely ranch home of Mr. and Mrs. T. C. Ivey who lives about eighty miles from town.

Everything conceivable that promises a good time was provided for. Only those who have visited Mr. and Mrs. Ivey can understand their efficiency as host and hostess.

Merry Bidders Entertain. The Merry Bidders and several invited guests were delightfully entertained in the home of Mrs. K. Carter, last Wednesday afternoon. Mrs. Raymond George acting as joint hostess. The afternoon was one of rare pleasure for those fortunate enough to be present. SOUTH PLAINS FAIR. STOCK HOLDERS VOTE TO INCREASE CAPITAL STOCK. (Continued from page 1)

til sixty days ahead of the next Fair when a Special Fair Secretary will be secured to handle the Fair activity thru the actual dates of the Fair.

In addition to these Directors an Advisory Director will be chosen from each of the cities of the South Plains and a special meeting will be held of these joint board in the early Spring to lay out the definite policies, plans and programme of the coming Fair. It is a \$1 fine in Lubbock for anyone to call the Fair a Lubbock Fair—it is already bigger than Lubbock and we admit the fact by calling it the South Plains Fair—Some are suggesting that we drop the South and call it simply a Plains Fair in that it really covers the entire Plains of Texas, New Mexico, and parts of Oklahoma. It will never be a Try-State Fair—but a sectional Fair of the first class that arms nobody from any state or section.

Committees will be at work the coming week on doubling the old stock subscriptions and soliciting new stock holders in the Panhandle South Plains Fair Association. In buying a share of this stock it is understood that you are never to get one cent from dividends, payments, interest on your money, special passes, privileges or anything of that kind. It is purely and simply for the purpose of building up a real Fair in a real way that will truly represent the great section that it endeavors to serve.

No man than can afford a share of this stock should be without one. They represent your appreciation of your responsibility to yourself, your city and the South Plains section. It is an opportunity to do something that will stand for good, progress and the growth and advancement of the entire section. Any man that owns land in this section will get his money back in increased land values. Any business men will get returns on increased usess—and any man that lives in the section without having some kind of business being here—ought to move.

Take advantage of the opportunity to put this Fair over in a big way—for Fairs—like Towns—do not happen but are built—and it takes money to build them.

COLDS. "Pape's Cold Compound" is Quickest Relief Known. Don't stay stuffed up! Quit blowing and snuffing. A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks any cold right up. The very first dose opens clogged nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness. "Pape's Cold Compound" costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—insist upon Pape's!
