

Less Moving About in Floyd County Than Nation's Average

(Special to the Hesperian)

NEW YORK. — Contrary to the situation in many parts of the country, where urban expansion has been taking place at the expense of farm population, such has not been the case in Floyd County.

There has been no mass migration of local farm families seeking a different way of life in the cities. The great majority of the county farms, despite the consolidations that have occurred, are still owned and operated by individuals, most of whom are making a good living from them.

Facts and figures from the situation locally and in the other counties across the country are brought out in studies made by the U. S. Commerce Department, the Department of Agriculture and others. They were made to determine how much of the nation's land area was populated, and to what extent, in the various parts of the country.

In Floyd County, since the 1930 census, the proportion of the population living in non-urban areas, defined broadly as communities with less than 2,500 people, has changed relatively little. It went from 69.5 percent in 1930 to 67.7 percent at present.

By contrast, there has been a definite drop in other sections during that time. For the United States at large, the non-urban population fell from 36.1 percent of the total population, in 1930, to 33.3 percent in 1939.

Floyd County's non-urban population, which was 7,300 in 1930, is now estimated at 6,700.

The Commerce Department re-

ports that 33,000,000 people in the United States—one out of every five—changed their places of residence in the year ending March, 1938.

Of these, 67 percent moved to other places within the same county and 33 percent sought greener fields elsewhere.

The population of the Western states was found to be the most mobile and that of the Northeastern states the least. The South had the second highest proportion of movers.

Floyd County's growing network of roads and highways has created an economic improvement and, effectively, has brought the people closer together while enabling them to avoid urban congestion. It has made possible, also, the mushrooming of new plants and other facilities in once-remote areas.

Sand Hill News

(By Mrs. James Jeffress)

SAND HILL, Oct. 26 — The cotton fields look like snow this week, but even with all the nice warm weather and these wonderful fall days, there's still too many green leaves and bolls in most of the fields for the stripper to get started. Those with grain still in the field are beginning to worry about the wind blowing their feed down, but so far this has been an ideal fall for harvest.

The G. A.'s met last Monday afternoon at five with their leader, Mrs. M. B. Swanner in charge. The girls continued their study of the TEL books. Those present were Mary and Elaine Starkey, Beverly Jeffress, Mary Lynn McLean, and Norma Sue Hollums. The next meeting will be Monday November 2.

The Sand Hill Club met Wednesday afternoon with Mrs. Jim Holmes as hostess. Roll call was answered by something of a foreign country.

Miss Phyllis Roggenbort gave a demonstration on proper lighting in the home. Mrs. Lynn Miller gave the Council report, in the absence of Mrs. R. L. Bullock. MARGARETH LOUISA STENFORS, the unknown heirs of beginning Nov. 2 from three to any of such persons who may have been deceased, their unknown heirs and legal representatives, meetings will be held each Monday and Thursday.

Claims Right To Tell What He Believes

(By Richard M. Williams)

Paul was always ready to prove what he believed and put to practice, and at the same time taught Christians that they must do the same. Acts 26:12; Phil. 3:17. He (Paul) taught publicly and privately, he taught those who had a Bible background and those who didn't (Jews and Greeks). Acts 20: 20-32.

The Apostle Paul did not commend himself, and brag and blow about his own accomplishment or compare himself with other men. For he realized that the only commendation that was worth anything was the commendation of the Lord Jesus Christ. II Cor. 10:12, 17, 18; Gal. 6:12-15.

Beloved, it is a great privilege to be a member of the same church that Paul was a member of. One can be a member of the same church that Paul was a member of, simply by doing what he did. He heard the Gospel, believed it, and obeyed it and thus the Lord added him to His Church. Acts 9:6-9, 17-18; 22:16; 2:37-47; Rom. 1:16.

However let us remember with great privileges always go great responsibilities. This is true in being a member of the Church that Jesus died for, the Church that Paul was a member of. If we claim to be a member of this Church, (the one that Jesus died for, the Paul was a member of) we have the same responsibilities as Paul had. Namely to teach publicly and privately those things that we believe to prove them by God's Word. Be happy to defend what we believe anywhere, anytime, and before any audience. Paul was and he said, "be ye imitators of me".

Self commendation is condemned by the Lord, and Paul realized that it was possible for a man to be at fault and be lost, and he said so I Cor. 9:27. Then it behooves each one of us to examine our lives in the light of God's Word day by day, because we might be wrong. II Cor. 10:12; II Cor. 13:5; Rom. 3:4; Acts 17:11; I Peter 4:11.

Friends and neighbors I realize that I can be wrong. I likewise realize that others could be wrong, however I will not have to give an account for what others teach and do, but I will have to account for myself to God. Rom. 14:7-12. I stand ready always to teach what I believe to be God's Will, both publicly and privately. I stand ready to make correction of the error and thank him who called my attention to it. One favor I ask of you is, let me tell you what I believe, instead of your listening to someone else tell you. There's not another human living on the face of this earth that can tell you more correctly than I, what I believe. I stand ready to tell you what I believe in matters of religion anytime, and anywhere. I am in that business.

Please read carefully all of the above mentioned passages.

A THANK YOU NOTE

We wish to thank all of our friends and neighbors for the many prayers, visits, cards, food, flowers and each kindness shown to us during the illness and passing of our husband and father. God bless each of you.

Mrs. C. C. Gorley and family.

Ralph Rucker's Mother Dies At Childress

Mrs. E. (Myrtle Rosie) Rucker, 67, of Childress, mother of Ralph Rucker, Floydada, died of a heart attack at the family home there last Thursday afternoon.

Pallbearers were Marvin Conner of Hollis, Okla., Will Foster, Elbert Kelley, Will Prescott, Joyce Cheatham, Charles Harrison, Charlie Drake and Clyde Hackler.

Mrs. Rucker was born August 20, 1882, in Erath County, Tex., and moved to Childress County as a young girl, living since then in the Northfield, High Point communities and in Childress. She married E. Rucker August 14, 1906, at Northfield, and they had celebrated their Golden Anniversary in 1936. She was a member of the First Baptist Church of Childress.

Survivors are her husband; three sons, J. W. Rucker of Childress, Troy Rucker of Anderson, Calif., and Ralph Rucker of Floydada; one daughter, Mrs. DeAlva Owens of Shamrock; four sisters, Mrs. Ed McCoy and Mrs. E. T. Pistole, both of Childress, Mrs. B. L. Howard of Portales, N. M., and Mrs. A. L. Barley of Plainview; and two brothers, Jess Bethany of Portales, N. M., and Bill Bethany of Northfield.

Attending rites from Floydada other than the son and his family were Mrs. Bud Goen, Mr. and Mrs. A. C. Carthel, Mrs. Pete Nash, Allen Bingham, Emory Cox, Wayne Smith and E. R. Martinez, the latter three being business employees of Mr. Rucker.

Broadway News

(By Mrs. T. E. Thornhill)

BROADWAY, Oct. 26 — Wheel! This Monday morning blew in with a bang. Surely does make us appreciate the nice still days that we enjoyed several of last week. Hope for more of those while the farmers are trying to get their crops gathered.

Mrs. J. B. Marley says she started last week off visiting. She visited the aunt of her companion, Dottie Starrett and Mrs. Dunsforth after WMU Monday morning.

Donald W. and Tommy Thornhill were Saturday afternoon callers of Bill Hodgins in Roaring Springs.

Visitors during the week-end with Mr. and Mrs. Ben Beckham were Mr. and Mrs. Ray Faulkner of Mountain View, Okla., who came Friday and stayed until Sunday; Mr. and Mrs. Walter Laminack and Mrs. Walter Berge of Coopersburg, Okla.; Mr. and Mrs. Dick Allery and Joanne of Hobbs, N. M.; Mr. and Mrs. Jerry Adams of Muleshoe, all visiting Saturday night and Sunday. Sunday visitors were Mr. and Mrs. Calvin Beckham and Barbara Kay of Lubbock.

Mr. and Mrs. J. B. Marley were Sunday dinner guests of Mr. and Mrs. Duane Brewer.

Sunday visitors of Mr. and Mrs. R. M. Spence in Floydada were Mr. and Mrs. D. W. Newman of Dumas, Robert and George Ann Winegar, Mr. and Mrs. T. E. Thornhill, and Tommy and Mrs. D. D. Thornhill.

Visitors during last week in the J. B. Marley home were Mr. and Mrs. A. R. Marley, Brenda and Debra, Linda and Donald Readall on Monday afternoon. Thursday morning callers were Mrs. Roy Ward of Dickens, and Mr. and Mrs. R. C. Campbell. Mrs. J. C. McCracken and Mrs. Clara Dean were Friday afternoon callers; Mrs. Henry Brewer and granddaughter, Debra were Saturday afternoon callers. On Sunday they were visited by Mr. and Mrs. Clyde Starrett, Mrs. T. E. Thornhill, and Mrs. J. C. McCracken met Mrs. Clara Dean at the train in Lubbock Monday evening. We are glad to have Mrs. Dean home again after spending the summer in Oregon and California with her children and their families and with a sister and family. While in Oregon she attended the wedding of a granddaughter.

Some of the ladies met with Mrs. Perry Bell at the home ec cottage in Crosbyton Thursday afternoon of last week learning flower arrangement. We truly appreciate Mrs. Bell giving her time to show these things.

Mr. and Mrs. Cecil Berry and son Marshall and grandson, Billy Don Berry, Mrs. Maude Berry, and Tommy Thornhill were among those enjoying the circus in Lubbock last week.

The high wind this morning has put the telephone out of commission so our news is quite brief. Perhaps we will do better next week.

Mr. and Mrs. A. W. Coltharp and son, Larry, will leave tomorrow for Waco where they will attend Baylor University Homecoming and visit another son, Jerry Coltharp and wife.

Homemaking Hints

By Phyllis Roggenbort County Home Demonstration Agent

What Kind Of Ham? Fresh, cured, smoked, canned or boiled—you can find ham most any way you want at grocery stores these days. For best results read the labels and information on the wrapper carefully. Checking the cooking method required will help you make the choice that best suits your needs.

Fresh hams have not been cured or smoked. Remember one general rule that applies to the cooking of all fresh pork. Cook it well done. Cook to an internal temperature of 185 degrees F. or until all the pink color has disappeared, the meat is whitish tan in color and the juice is clear.

Cured and smoked hams, with or without the bone, have been subjected to a curing process that improves keeping quality and develops a distinctive flavor and color. Smoking adds flavor and has some preserving effects. High temperature used when smoking is the method that is used to tenderize a ham. This means less cooking is needed at home. Cook to an internal temperature of 160 to 170 degrees F. or 18 to 22 minutes per pound.

Cooked or ready-to-eat hams have been fully cooked and are sold with the bone in or boneless. They are plainly marked "Cooked" on the package. Serve cold or reheat at 325 degrees F. for 12 to 15 minutes per pound.

Boiled hams or boneless cooked hams are cured, boned and shaped into a roll or rectangular shape and are fully cooked. Serve cold.

Canned hams come in sizes from one and one-half pounds to full hams and are boned and fully cooked. They may be served cold or reheated at 325 degrees F. for about 15 minutes per pound.

If hams are cut, they usually are divided into these standard pieces: Shank portion that contains leg bone and skin; center ham slices that contain a small round bone; and butt portion that contains the pelvic bone and no skin. Center slices cost considerably more per pound than whole ham, butt or shank ends; shank ends, because of the per cent of bone and fat, cost less than the butt end.

Choose ham according to use and size of group to be served. For 6 or more people, a whole ham is a good buy. With bone in, allow one-half to three-fourths pound per serving; boned, one-fourth pound per serving is ample. A center slice, butt or shank end, is the best buy for less than 6 people. A center cut ham serves 2 to 3 people, and one pound of ham with a large bone, such as the shank and butt, serves 1 to 2 people.

Whatever your choice, pork is a rich source of the highest quality protein. It furnishes phosphorus and iron in generous amounts and is an excellent energy producing food. Lean pork is one of the best sources of the B vitamins.

"Change" Window Size With Draperies

Changing the size or shape of a badly proportioned window does not necessarily call for a major remodeling job. Often you can make a problem window appear more in harmony with the room by using a curtain style that seems to widen or narrow, shorten or lengthen the window proportions.

To make small windows look larger, extend side draperies on the wall so that they just cover the frame at the window. This way, the window appears to have the extra width of that part of the drapes that extends out over the wall.

If windows are wider than you want them, use the same rule in reverse, hang draperies to the inside so that they cover the frame and part of the pane. The longer the curtains, the longer the window will seem. Straightline drapes that hang to the floor give a window the appearance of greater length. Addition of a valance or cornice board that just hides the window frame at the top, covering part of the wall above the window, will give maximum height.

To make a long window look shorter, use short draperies or tieback curtains. Curved lines of the latter detract from the height of the opening.

Gifted Youth Speaks Sunday At Local Church

David Taylor, 16 year old son of Cecil Taylor, song director at the Bible Baptist Church, will deliver the morning message at 10:45 Sunday morning at the Bible Baptist Church.

Preaching with the knowledge and understanding of an experienced preacher are the reports

about David, who lives with his family on a farm near Petersburg.

David surrendered to preach under the ministry of Gilbert H. Rhine, pastor of the Bible Baptist Church.

LAKEVIEW NEWS

(By Mrs. Q. D. Williams)

LAKEVIEW, Oct. 26 — Mr. and Mrs. Buel Neff, Donald and Patricia, were proud observers of the ordination service Sunday when Jack Johnson, son-in-law and brother-in-law became an official minister of the Primitive Baptist Church. The service was held at the Avenue and 23rd streets.

Mr. and Mrs. B. L. Reed's sister, Mrs. Earl Smith, and her mother, Mrs. D. H. Widener visited her Sunday.

As we read in the newspaper where various towns need more cotton harvest hands, a story about far west Texas is going around livestock newsletters. It seems the Mexican braceros have priced themselves off the ranches around Sonora. Unable to meet demands of Mexican officials and the six months work contract, sheep and cattlemen have co-ordinated workers from the British West Indies for three years at \$110 a month. The men speak with clipped British accents, prefer hot tea to coffee, and turn in a good day's work. Our Mexican laborers are a tradition in West Texas and are needed in our agricultural set-up. The question raised is "Will cotton be gathered in the next decade by Latin Americans, machines, or imported workers from the Caribbean?"

Floydada Whirlwinds Defeat Post Antelopes by 48-0 Score

The Floydada Whirlwinds rolled on their undefeated way Friday night as they bowled over the Post Antelopes 48-0. The Whirlwinds were playing minus the services of Don Vickers, Eddie Parks, Pat Ginn and Doug White, but were still able to put together ample punch to down the host Antelopes.
The victory left the locals with two district wins against no losses and tied with Spur for the district 3AA lead.

The Floydada attack was somewhat changed with several boys running in new positions, but this did not seem to slow the team too much.
Richard Marler was big gun of the Whirlwind offense as he carried the mail 11 times for 122 yards.
Bill Gilliland came in second with 67 yards on 12 bursts up the middle.
Quarterback Rodney Teague made 54 yards net in 13 tries and Richard Graves and Christian each made 38 yards in 11 carries.

Van Stovall, Charles Holland, Albert Hernandez, Dickie Watson and Darryl Lindsey were among others who turned in fine back field performances.
Again it was the rugged Floydada defense that kept the locals out of trouble. Spearheaded by Bill Gilliland, Richard Graves, Danny Shipley, Van Stovall, Bob Dempsey, the stop 'em unit looked real good.
Richard Graves and Bill Gilliland set the stage for the first two touchdowns when they took fumbled punts the Post team could not hold on to.
Rodney Teague went 18 yards for the first tally and Bill Gilliland ran the conversion. On the second score Gilliland went over from the five with a blast of power and Richard Graves ran the conversion.
The third score came the hard way and was made when Richard Marler went over from the one climaxing an 86 yard drive. Shipley kicked at the PAT and Floydada led 23-0.

The next score was set up by Bobby Christian who intercepted on the Post 31. Marler got it all in one hunk going off left tackle to score. Shipley's kick was blocked.

Still in the wild and wooly second period another TD was set up when Bill Gilliland blasted throw rushing Mayberry and covered a loose ball in the Post backfield on the Antelope 11 yard line. Teague carried to the 6, Graves picked up a first on the 1 and then went over for the next play to score. Dempsey kicked the conversion with Teague holding and the score was 36-0.

Before the half time intermission Floydada scored again and this time the green and white were put in business when Dempsey intercepted on the Antelope 23. Floydada gained a yard then Charles Christian went 22 yards to score the touchdown. Shipley's kick was blocked and the score at the half was 42-0.

The third period was pretty dull with Floydada running a changed line-up and their offense was pretty ragged. The defense stayed Joplin and Mr. and Mrs. Edd Thornton and children of Plainview.
Mr. and Mrs. Alton Seigler of Crosbyton visited Mr. and Mrs. Weldon Seigler and Dale Thursday night.
Mr. and Mrs. Jack Mayes visited Mrs. George Mays and Mr. and Mrs. Tom Camden and children in Amarillo on Sunday. They came back by Mr. and Mrs. Jerry McCray's at Wayside and visited Sunday night.

Week of Small Mishaps Beset Green and Reeves Connection

Small mishaps have occurred the past week to relatives of Mr. and Mrs. John Green and Mr. and Mrs. Bob Reeves of Floydada. First in the chain of accidents started with the illness of Mrs. Green's daughter-in-law, Mrs. Billie Green of Lubbock, who is confined to bed for six weeks suffering from rheumatic fever. Mrs. Green has been staying with the family.

The second incident transpired last week when Mrs. Reeves received the news that her twin grandson, 10 year old Terry Todd, son of Mr. and Mrs. Harold Todd of Fort Worth, had gotten the end of two fingers completely severed in a planting machine.

The youth was riding on the back of the machinery when seeds became stuck. He tried to poke them through with his hand. Physicians have told the family following surgery, that the fingers will grow normally.

Third in the chain, occurred in Floydada Sunday when six year old Phyllis Green, daughter of

Mr. and Mrs. Billy Green, fell from the swing at her grandparents home and broke her left arm. The youngster is doing nicely.

The fourth is the news of a son, Glen Green of Ballinger, who underwent surgery Tuesday to have a growth removed from inside his ear. He is reported doing nicely at this time.

Hallowe'en

(Continued From Page 1)

ways, their merriment around the bonfires was very much like that of other religions.

Many years later after the people grew less superstitious, this evening became more of a festival of parties for young dressed in colorful costumes and weird faces. People played games on this night, believing they could foretell the future. Many beliefs arose about how to conjure up the image of one's future wife or husband. Girls believed that if one sat at midnight before a mirror eating an apple, the image of her future husband would suddenly appear before her. If no image appeared it was taken for granted that the girl would remain a spinster. Wonder how many girls were surprised when they finally got married!

In England apples are associated with Halloween while in America, pumpkins are carved out to resemble faces, and candles are placed in the hollowed out pumpkins and lighted. Children paint themselves or wear costumes to appear vicious or frightening.

Groups of children usually wander the streets "trick or treating" and sometimes mark cars with soap and placing movable objects in strange places.

In Mexico, religious ceremonies are usually held, beginning at midnight with the opening of "All Saint's Day".

Halloween, or All Hallow's Eve, was established as a Christian feast in the seventh century. It marked the waning power of the sun and the beginning of winter. It was also the season of the old Roman festival in honor of the goddess of fruit, Pomona. After the Romans conquered Britain, some of their beliefs and customs were added to the earlier ones.

This is the story of how Halloween which we celebrate on the last night of this month began. The idea, of course, was brought to America by the early settlers and is still a night of fun, frolic, and gaiety for older as well as younger children.

Mr. and Mrs. Jerry Bob Harrison and daughter visited in Andrews with Mr. and Mrs. Billy Cox.

Mr. and Mrs. Scotty Slaughter of Amarillo were co-op visitors on Friday afternoon. They were enroute to Abilene to spend the week-end with his mother.

Mr. and Mrs. Nolan Arney and Stevie spent Sunday at the home of her parents Mr. and Mrs. J. D. Welborn. The occasion was a birthday dinner for her sister Donna Welborn. Mr. and Mrs. James Welborn and Kari of Canyon were also guests of their parents.

Gary Jones and Jim Womack, former employees of the Light-house Electric Co-op who are now working at the Lamb County Electric Cooperative in Littlefield, spent the week-end in Floydada visiting their parents and friends.

TE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

more than a Johnson - for - President organ- izations in every county in Texas. A campaign kick-off by the man who has often been called "Mr. Democrat" gave enormous impetus to the activities of Johnson supporters. Pro - Johnson clubs, rallies and editorials blossomed over the state. Gov. Price Daniel and the state executive committee had previously pledged support.

Speaker Rayburn's sponsorship also makes exceedingly difficult the position of Texas' liberal wing of Democrats who have been cool toward the senator since the convention hassles of 1956.

In 1952, Rayburn championed the liberals in their battle against a conservative party leadership working for Eisenhower. But the same group, now the Democrats of Texas Club members, will have to fly in the face of their old friend, Rayburn, if they decide on open opposition to Senator Johnson this year.

Some DOTers have pledged Johnson support. But Mrs. R. D. Randolph, leader, refused to commit herself on grounds the senator has not declared himself a candidate.

Candidate or not, Senator Johnson is whizzing around Texas for personal appearances, scheduled at the rate of more than one a day in the months ahead.

FAREWELL TO BENCH - Judge John E. Hickman has announced he will retire in 1960 from his post as chief justice of the State Supreme Court.

Judge Hickman, who became a commissioner on the high court in 1935, has served there longer than any other man in Texas history.

Noting that he is 76, the judge said he felt the time had come "to surrender the duties and responsibilities of my office to someone younger."

Two other Supreme Court justices, Joe Greenhill and Clyde E. Smith, will be up for re-election next year.

COMMITTEES FORMING - In a surge of appointive activity, Speaker Waggoner Carr named House members to serve on three of the study groups authorized for between-sessions activity.

Named to the Legislative Council, a permanent organization usually assigned a lengthy list of studies, are Reps. W. T. Oliver of Port Neches, Eligio de la Garza of Mission, H. L. Strickland of San Antonio, R. H. Cory of Victoria, R. A. Bartram of New Braunfels, Tony Koriath of Sherman, Tommy Shannon of Fort Worth, Will Ehrle of Childress, W. W. Glass of Jacksonville and the Richard C. Slack of Pecos.

House members on the Texas Tax Policy will be Reps. Frates Seeligen of San Antonio, V. L. Ramsey of Beckville and J. Gordon Bristow of Big Spring.

This group will further the study of the state's fiscal structure begun in 1957-58 by the State Tax Study Commission. Specifically, the new group will consider such problems as whether the property tax should be abandoned or overhauled.

To the Texas Coordinated Commission for State Health and Welfare Services, Carr named Reps.

W. N. Woolsey of Corpus Christi, W. E. Shaw of Forney and Max C. Smith of San Marcos.

Three senators, three private citizens and seven agency heads also are to serve on this panel to study and recommend improvements in health and welfare programs.

ADOPTION STYMIED - Texas Supreme Court ruled in favor of a woman who signed papers to allow her child to be adopted, then changed her mind and sought to re-claim the baby.

Though the court specified it was ruling only on the case at hand, some felt the decision might set precedent for future cases in this emotion-packed area of the law.

In the case at hand, the mother, unwed at the time of the child's birth, wanted to keep the baby. After a doctor and welfare officials talked to her, she changed her mind and signed a waiver.

A juvenile judge declared the child "dependent and neglected" and sent him to another county for adoption. Within a few weeks, however, the mother married the child's father and filed suit for the child.

High court opinion was that the lower court erred in declaring the child "dependent and neglected."

BUS KEEPS PERMIT - In another case the Supreme Court ruled the Railroad Commission could grant a bus line a permit to use a certain route even though the road was not finished.

Southwestern Greyhound Lines received a permit to use Highway 73 between Port Arthur and Houston before that road was completed. Sabine-Neches Trailways sued to have the certificate canceled.

Court held the Railroad Commission was required only to "know in a general way" about the traffic potentials of a route.

GAS TAX CHALLENGED - First of what will probably be many suits attacking the constitutionality of the new severance beneficiary tax on natural gas has been filed in an Austin district court.

Pipeline companies promised to fight the tax in court when it was passed by the Legislature this year.

A tax of 1.5 per cent of the value of the gas is levied on the purchaser, such as a pipeline that contracts to buy it from the producer.

A similar sort of law, the gas gathering tax passed in 1951, was knocked down by the courts.

Governor Daniel worked persistently for the new gas tax, an issue that helped keep lawmakers at loggerheads for months. He promised to help fight the suits. "Long line gas companies fought hard against accepting any of the tax load," said the governor. How, he added, some want to escape "scot free."

Week of Small Mishaps Beset Green and Reeves Connection

Small mishaps have occurred the past week to relatives of Mr. and Mrs. John Green and Mr. and Mrs. Bob Reeves of Floydada. First in the chain of accidents started with the illness of Mrs. Green's daughter-in-law, Mrs. Billie Green of Lubbock, who is confined to bed for six weeks suffering from rheumatic fever. Mrs. Green has been staying with the family.

The second incident transpired last week when Mrs. Reeves received the news that her twin grandson, 10 year old Terry Todd, son of Mr. and Mrs. Harold Todd of Fort Worth, had gotten the end of two fingers completely severed in a planting machine.

The youth was riding on the back of the machinery when seeds became stuck. He tried to poke them through with his hand. Physicians have told the family following surgery, that the fingers will grow normally.

Third in the chain, occurred in Floydada Sunday when six year old Phyllis Green, daughter of

Mr. and Mrs. Billy Green, fell from the swing at her grandparents home and broke her left arm. The youngster is doing nicely.

The fourth is the news of a son, Glen Green of Ballinger, who underwent surgery Tuesday to have a growth removed from inside his ear. He is reported doing nicely at this time.

Hallowe'en

(Continued From Page 1)

ways, their merriment around the bonfires was very much like that of other religions.

Many years later after the people grew less superstitious, this evening became more of a festival of parties for young dressed in colorful costumes and weird faces. People played games on this night, believing they could foretell the future. Many beliefs arose about how to conjure up the image of one's future wife or husband. Girls believed that if one sat at midnight before a mirror eating an apple, the image of her future husband would suddenly appear before her. If no image appeared it was taken for granted that the girl would remain a spinster. Wonder how many girls were surprised when they finally got married!

In England apples are associated with Hallowe'en while in America, pumpkins are carved out to resemble faces, and candles are placed in the hollowed out pumpkins and lighted. Children paint themselves or wear costumes to appear vicious or frightening.

Groups of children usually wander the streets "trick or treating" and sometimes mark cars with soap and placing movable objects in strange places.

In Mexico, religious ceremonies are usually held beginning at midnight with the opening of "All Saint's Day."

Hallowe'en, or All Hallow's Eve, was established as a Christian feast in the seventh century. It marked the waning power of the sun and the beginning of winter. It was also the season of the old Roman festival in honor of the goddess of fruit, Pomona. After the Romans conquered Britain, some of their beliefs and customs were added to the earlier ones.

This is the story of how Hallowe'en which we celebrate on the last night of this month began. The idea, of course, was brought to America by the early settlers and is still a night of fun, frolic, and gaiety for older as well as younger children.

Mr. and Mrs. Jerry Bob Harrison and daughter visited in Andrews with Mr. and Mrs. Billy Cox.

Mr. and Mrs. Scotty Slaughter of Amarillo were co-op visitors on Friday afternoon. They were enroute to Abilene to spend the week-end with his mother.

Kirk Experiences Okinawa Blow

A letter from P. F. C. Weidon A. Kirk, son of Mr. and Mrs. W. A. Kirk, was received here, October 24 telling of Typhoon Charolotte that hit the island of Okinawa October 17 with 90 to 150 mile per hour winds.

Weldon has been in the Sukiran hospital since that time. He reports that he was caught by flying glass.

He reports that the injury is not serious, that the tendon in his big toe was cut and had been sewed up. He said that it would be about a week before they would operate to attach the tendon back and he would probably be in the hospital a month.

Everything is fine, Weldon reports, the best of doctors, good chow, television in the room, and plenty to read.

Those who care to write Weldon, his address is:

Shurbet was named by Governor Price Daniel to represent the State of Texas at the meeting.

Accompanied by Mrs. Shurbet, Marvin left by plane for Denver Tuesday night and is expected home again tomorrow night.

Trick Or Treat Being Organized For Hallowe'en

The campaign for CROP (Christian Rural Overseas Program) will be carried to the home of Floydada people again this year by youth of the community on Hallowe'en night.

Mrs. Hickerson said the youth who are willing to help should meet at the Methodist Church Saturday afternoon at 5:30, when streets will be assigned and material to be left in the home given out. Every campaigner will be given CROP identification tag so that donors can be sure of the identity of their callers.

TE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

more than a Johnson - for President organization in every county in Texas. A campaign kick-off by the man who has often been called "Mr. Democrat" gave enormous impetus to the activities of Johnson supporters. Pro - Johnson clubs, rallies and editorials blossomed over the state. Gov. Price Daniel and the state executive committee had previously pledged support.

Speaker Rayburn's sponsorship also makes exceedingly difficult the position of Texas' liberal wing of Democrats who have been cool toward the senator since the convention of 1956.

In 1952, Rayburn championed the liberals in their battle against a conservative party leadership working for Eisenhower. But the same group, now the Democrats of Texas Club members, will have to fly in the face of their old friend, Rayburn, if they decide on open opposition to Senator Johnson this year.

Some DDTers have pledged Johnson support. But Mrs. R. D. Randolph, leader, refused to commit herself on grounds the senator has not declared himself a candidate.

Candidate or not, Senator Johnson is whizzing around Texas for personal appearances, scheduled at the rate of more than one a day in the months ahead.

FAREWELL TO BENCH

Judge John E. Hickman has announced he will retire in 1960 from his post as chief justice of the State Supreme Court.

Judge Hickman, who became a commissioner on the high court in 1935, has served there longer than any other man in Texas history.

Noting that he is 76, the judge said he felt the time had come "to surrender the duties and responsibilities of my office to someone younger."

Two other Supreme Court justices, Joe Greenhill and Clyde E. Smith, will be up for re-election next year.

COMMITTEES FORMING

In a surge of appointive activity, Speaker Waggoner Carr named House members to serve on three of the study groups authorized for between-sessions activity.

Named to the Legislative Council, a permanent organization usually assigned a lengthy list of studies, are Reps. W. T. Oliver, Elgie de la Garza, H. L. Strickland, R. A. Bartram, R. A. Bartram, Tony Koriath of Fort Worth, Tommy Shannon of Fort Worth, Will Ehrie of Childress, W. W. Glass of Jacksonville and the Richard C. Slack of Pecos.

House members on the Texas Commission on State and Local Tax Policy will be Reps. Frates, Seeligson of San Antonio, V. L. Ramsey of Beckville and J. Gordon Bristow of Big Spring.

This group will further the study of the state's fiscal structure begun in 1957-58 by the State Tax Study Commission. Specifically, the new group will consider such problems as whether the property tax should be abandoned or overhauled.

To the Texas Coordinated Commission for State Health and Welfare Services, Carr named Reps.

W. N. Woolsey of Corpus Christi, who was celebrating a birthday on that day. Guests were Mrs. W. E. Shaw of Forney and Max C. Smith of San Marcos.

Three senators, three private citizens and seven agency heads also are to serve on this panel to study and recommend improvements in health and welfare programs.

ADOPTION STYMIED

Supreme Court ruled in favor of a woman who signed papers to allow her child to be adopted, then changed her mind and sought to re-claim the baby.

Though the court specified it was ruling only on the case at hand, some felt the decision might set precedent for future cases in this emotion-packed area of the law.

In the case at hand, the mother, unwept at the time of her child's birth, wanted to keep the baby. After a doctor and welfare officials talked to her, she changed her mind and signed a waiver. A juvenile judge declared the child "dependent and neglected" and sent him to another county for adoption. Within a few weeks, however, the mother married the child's father and filed suit for the child.

High court opinion was that the lower court erred in declaring the child "dependent and neglected."

BUS KEEPS PERMIT

In another case the Supreme Court ruled the Railroad Commission could grant a bus line a permit to use a certain route even though the road was not finished.

Southwestern Greyhound Lines received a permit to use Highway 73 between Port Arthur and Houston before that road was completed. Sabine-Neches Trailways sued to have the certificate canceled.

Court held the Railroad Commission was required only to "know in a general way" about the traffic potentials of a route.

GAS TAX CHALLENGED

First of what will probably be many suits attacking the constitutionality of the new severance beneficiary tax on natural gas has been filed in an Austin district court.

Pipeline companies promised to fight the tax in court when it was passed by the Legislature this year.

A tax of 1.5 per cent of the value of the gas is levied on the purchaser, such as a pipeline that contracts to buy it from the producer.

A similar sort of law, the gas gathering tax passed in 1951, was knocked down by the courts.

Governor Daniel worked persistently for the new gas tax, an issue that helped keep lawmakers at loggerheads for months. He promised to help fight the suits. "Long line gas companies fought hard against accepting any of the tax load," said the governor. How, he added, some want to escape "scot free."

EDITORIAL VIEWS AND COMMENT

The Cotton Growing people of the high plains are to be commended on the fact that they are taking seriously their need to know what the processors of cotton fibre desire in the product which reaches their mills. Cotton growers have not heretofore realized how desirable it is to have the package you want to sell meet the approving eye of the man you want to sell to. Nowadays cotton growers are studying packaging, staple length, staple strength, and micronaire. This last word is a new one in the cotton man's vocabulary.

In times past the cotton man thought of the gin as the ultimate destination of what he grew. Personal pressures on the ginners to get as much for his cotton as that of his neighbors were so common as to be the rule. Such considerations as staple and strength of the fibre were resisted. It is a good thing that this day is past. Competitive fibres have crowded in on the market and the cotton man must meet this competition two thousand miles away. The cotton grower is still the ginners customer but not in the same sense as once was true.

Cotton Strippers Working. Difficulty in getting the right kind of manual labor in the fields is putting many cotton strippers in action on the high plains. In Floyd County there are several cotton growers who have not bothered with transient or manual labor in the harvest for a year or two. They get into the fields after defoliation and claim to get a better turn out and equal or better grade. Even an improved staple length.

If the government can say that a cotton grower cannot get a gross of more than \$50 thousand subsidy from his crop, the same government can say that he can't have more than a thousand dollars. The differentiation between a big grower and a little one will hurt the "little man" the same as the big one later. The rule brings all to the same level—all down, none up. This is illustrated in

the tobacco country. The rule hurt the big man, didn't help the small grower. Simply levelled them off all as small growers.

This new gimmick to keep the big man from being bigger than the little man follows the same pattern as the idea that is growing in some quarters—one man, one vote—as in corporations and associations of capital for various purposes, like cooperatives. You can work on the big man and make him little but you can't do anything about a little man. He's just that way. Democracy doesn't work in business, despite the fact that it is a necessity in government. Business is business and government is government. When either invades the area of the other affairs are going to begin to go wrong.

Wed To Comfort. Not everybody is "comfortable" in the United States, but one is impressed with the fact that comfort, security, freedom from fear and want, are the goals which seem to dominate the minds of the people of our country at the time. An easier way of life with comfort and security as the goal may be desirable but it doesn't fit people for the kind of competition we are facing.

Quite A Difference. The communistic block has quite a definite goal in mind. That goal is world domination, to make communism work in their own countries and as well to make it work in the rest of the world, including America. They are toughening to the task. What, in your opinion, is the goal of America? If the country is really united on any objective except to maintain our status quo, if it is not too much trouble and bother, it is not apparent. That is one of the controls, unspoken, which affects America's dealings with other countries. We don't know where we are going nor what we expect to do after we get there. That is a position of weakness. Our adversary is working from a position of strength.

MY DADDY

He left us Tuesday morning. His life to start anew. Up there with angels singing. And God's selected few. With folded hands they heard him pray.

"God have mercy on us" And so we know upon this day. For God did say within His word. He'd hear us when we cry.

We rest assured his cry was heard. And know he'll never die. Enjoy yourself my daddy dear. Keep watching too I pray.

For our departure here draws near. With every passing day. Upon that golden shore. Where our hearts will ne'er be torn.

And we shall part no more. Oh praise the Lord, He made a way. And even paid the fare.

That all who trust and pray. Might dwell with him up there. —Written by Mrs. Lois Emert

FALSE RELIGIONS (No. 6)

These false religious teachers try to tell all their misled people that the Baptist people and others teach that a person is saved by "FAITH ONLY". This is not true of any Baptist I have ever known. I know of NO DENOMINATION that teaches you are SAVED BY "FAITH ONLY". Then why do they tell this lie on the Baptist people?

The main reason is to try to cause PREJUDICE against the Baptists in order to catch them in their nets of false doctrines and lies. We (as Baptists) don't lie on them, and say they teach that a person is saved by "BAPTISM ONLY". (Theirs is bad enough without having to lie about them.)

We (as Baptists) do teach that a person is SAVED AT THE POINT OF FAITH, but not by FAITH ONLY. Just as these false teachers say they are not saved by "BAPTISM ONLY" but they tell us they are saved at the POINT OF BAPTISM. We (as Baptists) teach that you MUST hear the TRUE WORD OF GOD (Rom. 10:17—There is only one TRUE FAITH, Eph. 4:5) You must also be baptized or convicted by the Holy Spirit. (John 16:7, 11) which causes godly sorrow that works repentance. (2 Cor. 7:9-10 Luke 13:35).

Then you are drawn by God (John 6:44) from the life of sin to LOOK BY FAITH IN CHRIST JESUS FOR SALVATION. (Gal. 3:24-26) Yes we become CHILDREN OF GOD BY FAITH in Christ Jesus, after the above mentioned things. (Luke 7:50 Acts 15:8-9; Acts 6:18; Rom. 5:1; Gal. 2:16; Rom. 4:18 notice verse 5).

There are over two hundred Scriptures that teach we are SAVED, JUSTIFIED, BECOME CHILDREN OF GOD, etc. at the POINT OF FAITH. Now these False Teachers say they are saved at the POINT OF BAPTISM, but let us see if they can produce JUST ONE Scripture that says "They are Saved, Justified or become Children of God, etc. at the POINT OF BAPTISM."

There is no use to search the Scriptures because there is none so why be deceived with their lies and False Doctrines.

HOW WILL YOU CELEBRATE?

How will you celebrate Halloween? Throughout the years, the real meaning of Halloween has been lost. Now it is thought of as a holiday designated for mischief. Its call letters are the witches, black cats and pumpkins we know so well.

In the beginning, Halloween was a day set aside for commemoration of saints. What saints do we celebrate now?

Halloween had already been celebrated by some students last week. They thought it would be amusing to paint their graduation years on town and school property. Is this the way you are going to celebrate Halloween?

Some organizations have worthwhile things planned for you to do. The Methodist youth are to be gathering money for CROP this weekend to help thousands of homeless refugees.

Remember, only children do juvenile things on Halloween. So let's celebrate Halloween in a way that we will be proud of ourselves, and that will bring back some of the old true meaning of this day.

Twirp Week began Sunday night at midnight, Oct. 25 and will end Sunday, Nov. 1 at midnight.

The following rules are to be obeyed by all students:

- Boys may not call girls.
- Boys may not go to the girl's house.
- Girls must have a license to wear lipstick, ask for a date, or drive the boy's car.
- Girls may use the boy's car in very special cases, providing she puts at least 5 gallons of gas in the boy's car and foots the bill for everything. These special cases are when the girl cannot get her car.
- If the girl wishes to go out of town in the boy's car, she must furnish all the gas and foot the bill.
- Boys may drive the girl's car.
- Boys are required to go unless they already have a date.
- The date license costs 25 cents, lipstick license 10 cents, and the driver's license 50 cents.

A posse will be on duty at all times. If a violator is caught, his name will be taken and turned in. A fine will be assessed and will be collected before the person's report cards are issued.

Marionettes To Portray Braille

John Conrad, a master puppeteer, will present the story of Louis Braille in an assembly next Thursday.

This is the story of a blind young Frenchman who at the age of eighteen perfected the Braille system of reading and writing.

Mr. Conrad, in his unending search for educational stories spiced with a vivid flair that captivates not only children but everyone who is young at heart,

Twenty-five girls who will compose the 1959-60 girls' basketball squad are training for their first game at Silvertown Nov. 24. The girls are studying the offensive screen, short jump shots, and crip shots.

"The girls have a good attitude. They are willing to learn and are good hustlers," states Bob Shields, coach.

Returning lettermen this year are Verna Pate, Mary Dunn, Joy Nixon, Doris White, Carolyn Moore, and Pat Tucker.

Ten probable A team players have been selected. These are Verna Pate, Mary Dunn, Joy Nixon, Doris White, and Sue McClung, guards; Pat Tucker, Lajuana Rimmer, Darlene Johnson, and Carolyn Moore, forwards.

Mr. Lewis is a very helpful teacher. He gave Richard Graves a toy pistol to shoot Darlene Johnson.

Shorthand and Typing I classes were honored with the presence of Mr. B. J. Eudy's niece, Zemira Gough, from Carlsbad.

Martha Meek really got upset in shorthand on a test last week. She signed her name Martha.
