standing football players in honor of the late Gary McConnell. They are Danny Black, W. M. Simpson, Rickey Norman, J.T. Morgan, Rickey Nolen, Scott

ROBERT FORSYTH

Robert Forsyth, a graduating senior at Rivercrest High School, has been awarded a scholarship by Texas Power and Light Company to study Electrical Engineering at Tyler Junior College under TPL's College-Training Plan. This program affords the student the opportunity to work for TPL one semester and to attend college on alternate semesters for three years, with TPL bearing the major portion of the college expense. Robert received notification of his acceptance into the program from Mr. B.D. McAlpine of the Dallas office.

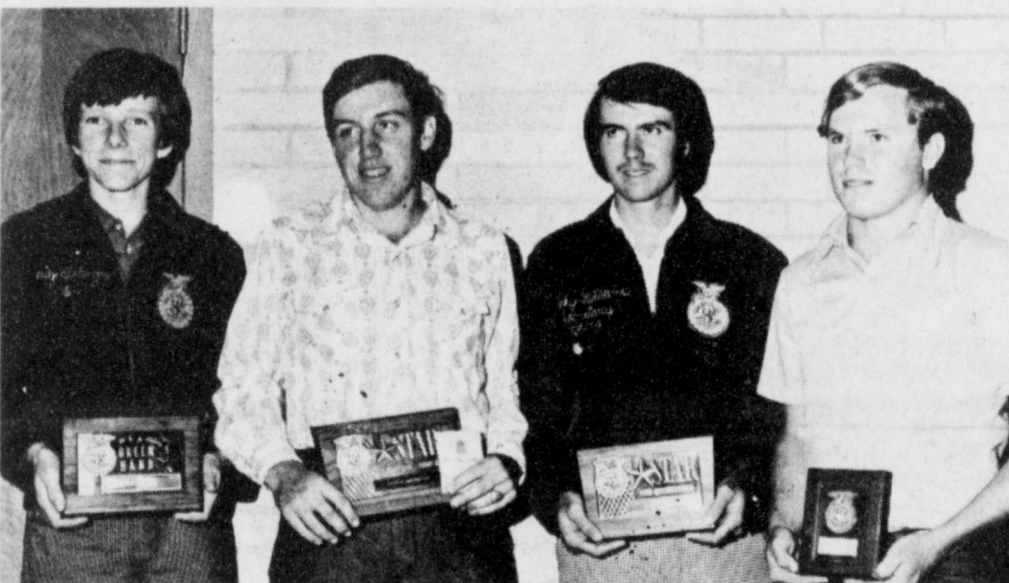

Son of Mr. and Mrs. J.J. Forsyth of Talco, Robert is graduating with a four year grade average of 91.194, which places him among the top ten in his class. Robert has also been active in extra-curricular activities at Rivercrest, winning honors during his years as a member of the local chapter of Future Farmers of America and of Rivercrest's basketball, football, and track teams.

HONORARY CHAPTER FARMERS — Named as Honorary Chapter Farmers by the Rivercrest FFA Chapter were Ken

Vanderhoof, A.D. Stephenson and James Jordan. Vanderhoof and Stephenson have sons in the FFA program and Jordan,

owner of Jordan Farm and Ranch Supply, employs a student in the co-op program. (Staff Photo).

Wright, Steve Easterling, Danny Williams, Terry Giddens, Joe Hervey, John Blair, and Robert Forsyth.

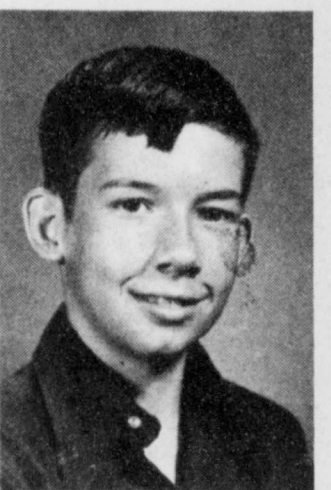

Coach Dick Frierson awarded the Outstanding Track Player Award to Terry Giddens. He competed in the long jump category and won sixth place at the state UIL contest in Austin.

Rickey Norman, Ron Graham and Terry Giddens won special basketball awards. Rickey Norman ranked highest in field goals with a 51.5 percent ratio of those he made to those he attempted. Ron Graham made 79.9 percent of the free throws he attempted. Terry Giddens made the highest number of rebounds for the year with a total of 288.

The Outstanding Senior Award went to all the graduating seniors, three girls and 18 boys. They are Dotty Moore, Patty Smith, Nita Hanks, Rickey Nolen, Danny Black, Ron Graham, Joe Hervey, Donny Hayes, Travis Bryant, Andy Jones, Charles Riggs, J. T. SUNDAY'S SERMON

Memorial Day

It has been a year since last Memorial Day, but this year Memorial Day is especially meaningful. The conflict in Vietnam has drawn to a close for those of us on this side of the Pacific.

Many have given their lives for the United States in many wars and conflicts in the brief history of the United States. Now that peace is a reality, we should pray for peace in all areas of the world. Besides honoring the dead on this day of memory, we must take a positive step to help those who returned from the conflict to adjust to their injuries, or adjust to the new American life style.

As we remember our brave dead, we should let God into our lives to show us the way He wants us, the living, to seek His lives. Let us also thank God for life, love, and peace.

Andy And Cathy Jones To Attend Science Symposium In Austin

Andy Jones and Cathy Jones, students at Rivercrest High School have been selected to attend the 14th Texas Nuclear Science Symposium for High Schools at the University of Texas in Austin June 3-6. Ken Jones, science teacher at the high school, will accompany them to the symposium, all three of them being sponsored by Community Public Service

Company, a member of the Texas Atomic Energy Research Foundation which is joining with the University in putting on the symposium.

Some 500 outstanding science students and their teachers from throughout the state have been selected by their schools to attend the four-day meeting where scientists and engineers from both the industrial and educational fields will discuss nuclear physics, nuclear engineering and other related topics.

Two afternoons will be spent in touring science laboratories at the University, including those where experiments in thermonu-

clear research being sponsored by TAERF are being carried on.

"We are pleased to be able to make this opportunity available," Galen Legate, district manager for Community in Bogata, said. "Attending the symposium will provide an excellent opportunity for learning more about the latest achievements in nuclear science."

Included in the list of speakers during the symposium are Dr. Warren Witzig, professor of nuclear engineering at Pennsylvania State University; J.M. Smith, consultant in radiological engineering for the General Electric Company; and Dr.

In 1919, Parisians carried dolls about with them to ward off influenza!

Richard Balzhiser, director for the advanced systems research division of the Electric Power Research Institute.

Legate said that Community Public Service Company is vitally interested in the foundation's fusion research program at the University as an important potential source of energy for electric power generation.

Educational Grants Available

Basic Educational Opportunity Grants are available to students who need financial assistance for post-secondary education or training this fall. The BEOG is an outright grant of money that does not have to be repaid.

Those who can apply include first and second year students enrolled full time at colleges, universities, junior colleges, vocational and technical schools, career training schools, and hospital schools of nursing — anyone enrolled in post-secondary education for the first time after April 1, 1973.

This year Basic Grants will range from \$50 to over \$800, with a \$475-per-student average. About \$475 million is available, and an estimated one million students are expected to receive Basic Grants for the 1974-75 school year.

The grants can be used to defray the costs of tuition, fees, room, board, and

miscellaneous expenses for students attending over 5,000 eligible colleges, universities, and schools.

To apply for a Basic Grant, an "Application for Determination of Basic Grant Eligibility" must be obtained, completed and mailed to P.O. Box 2468, Washington, D.C. 20013. Within a month the student will be notified of his eligibility index, which is calculated on the basis of a formula applied consistently to all applicants. He then submits the notification to the school of his choice, which calculates the amount of the Basic Grant.

Application forms may be obtained from the school counselor's office. During the summer months, they will also be available at public libraries or by writing to P.O. Box 84, Washington, D.C. 20044.

If further financial assistance is needed, the student can apply for aid from other Federal, State and private sources. The Federal Government offers four such opportunities — Supplemental Educational Opportunity Grants, College Work-Study, National Direct Student Loan, and Guaranteed Student Loan — in addition to Basic Grants.

Four Talco Residents Graduate From PJC

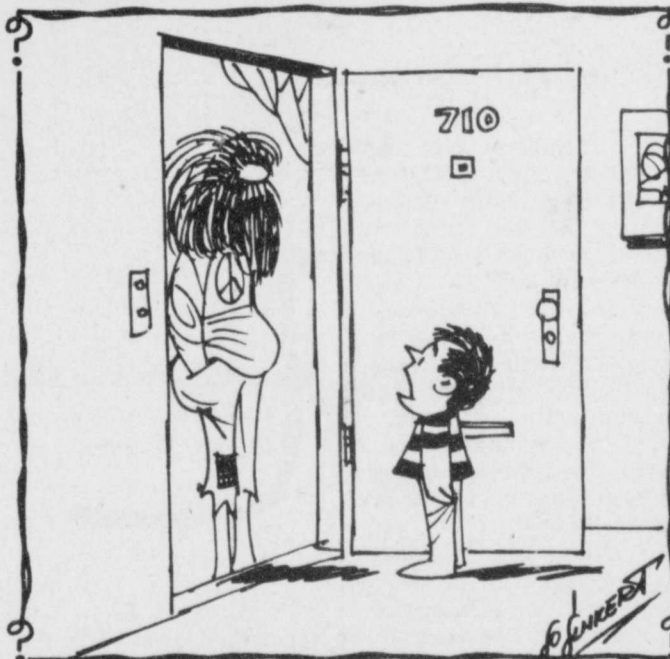

Four Talco residents were among the 180 who graduated from Paris Junior College in Commencement Exercises on Thursday, May 16.

Among those graduating were Peggy Ann Bonham, John Delbert Goodroe, Mary Sue Stansell and Johnny Lee Swarts, all of Talco. Miss Bonham, the daughter of Mr. and Mrs. Harold Bonham, was a date processing major at PJC and Goodroe, son of Mr. and Mrs. J.T. Goodroe, majored in biology.

Mrs. Stansell was a nursing major and Swarts, son of Mr. and Mrs. Howard Swarts, majored in agriculture. All the students are graduates of Rivercrest High School.

Speaker for the exercises was Hardy Moore, Paris attorney and son of the late Judge W.F. Moore, president of the Board of Trustees for Paris schools when Paris Junior College was founded in 1924. PJC is celebrating its 50th anniversary in 1974-75.

I REMEMBER

From Charles Bonhard, Little Ferry, NJ: I'm 83 years old and I remember when this world was a good place to live in. Times have changed, especially for the lowly poor and senior citizens. Today one has to dish out ten cents to read a newspaper that was a penny some time back, and magazines are out of the question! Mailing letters will be a rich man's hobby, and it will be cheaper to buy a present instead of a birthday card. To get rooms in a low priced housing project, one must not show a bank account, and then what we paid for a five-room apartment wouldn't even rent one room today. They say long hair is not in order, not so, the price the barber charges, changes that order. If you have a car, you pay for driving and for not driving. One lady wrote to a friend, what do you think of those modern styles of patches in pants, etc? The friend wrote back saying that's not the style — it's necessary! In 1908 I was a union carpenter — wages were \$3 a day, today they get three times that much in an hour!

Successful Bacon

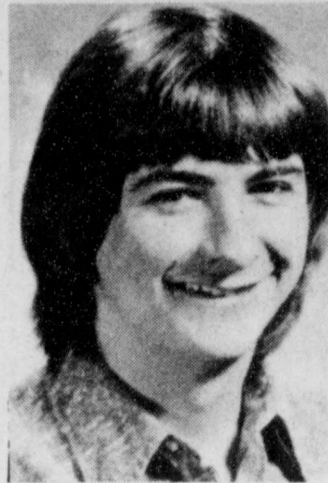

The secret to successful bacon cookery is low heat. Place the meat in a cold skillet and separate the slices as they begin to cook so that each slice is flat in the pan. Continue cooking over low heat, turning the slices often, until they are browned evenly on both sides. Remove the slices to drain on absorbent paper.

A day of achievement,
a moment to remember.
We join family and friends
in sincere congratulations.
