

LATEST SELECTEES FROM COLLINGSWORTH COUNTY

These six men formed the latest group of trainees to leave this county for a year's military training under the Selective Service Act. They were inducted into the army at Fort Bliss, El Paso, although part of them will serve in Wyoming and the others at Camp Barkley, Abilene. Pictured in the top row, from left to right are Roy Lee Garrett, Howard Clifton Sullivan, and Quinton Woodrow Murdock. Bottom row, Mason David Winegeart, Wallace O'Rear, Jr., and Buster Cook.

Seven Candidates Asking Places In City Election

Two candidates for mayor, two for city secretary, and three for the two aldermen's places make up the ballot for Wellington's city election, to be held Tuesday, April 1.

Asking the place for mayor are Pink Sullivan and Luther Gribble. Mr. Gribble, who is at present city attorney, filed his candidacy Thursday. Mr. Sullivan had filed earlier in the week. F. C. Lederer, present mayor, announced for re-election to the place, but withdrew his candidacy Wednesday, March 19.

All other candidates had filed their candidacy early last week.

Asking the post of City Secretary are Joe Thompson and Ross Wilkerson, while J. V. Langford, W. E. (Bill) Hall, and J. N. Wallace are seeking places on the City Council. Two such places are to be filled.

Qualified voters of the city will cast their ballots in the Justice court room of the court house. The polls will open at 8 o'clock a. m. and close at 6 o'clock p. m.

Presiding officer will be E. B. Haralson, while H. G. Graham, Mrs. Jack Deaton and Mrs. H. A. Kendrick will serve as clerks.

Ballots for the election were printed Monday, and several absentee ballots are expected before the election date, Mr. Thompson, city secretary, said.

Frank Royal Dies After Heart Attack Wednesday

FRANK H. ROYAL

who died suddenly at his home in Wellington Wednesday after 2 o'clock. Mr. Royal came to Collingsworth County almost 52 years ago.

Frank H. Royal, beloved Collingsworth County pioneer, died unexpectedly shortly after 2 o'clock at his home in Wellington. His death came as a shock to his hundreds of friends throughout this section, any number of whom had seen and talked with Mr. Royal within the last few days.

Death was attributed to a heart attack. Mr. Royal was preparing to come to town when he suffered the attack. He sat down to wait until he might feel better, but his death occurred approximately 15 minutes later.

He would have been 73 years of age Thursday. No funeral arrangements had been made when The Leader went to press Wednesday afternoon.

Mr. Royal was born in Sampson County, North Carolina, March 27, 1868. In 1881, he came with his family to Texas, settling with them in Hunt County.

When he was 21 years of age, in 1889, he moved to Collingsworth County, and filed on a section of land southwest of Wellington. He had continued to make this his home since then.

He entered the hardware business in 1911, helping to establish the Pioneer Hardware Co. He continued in this business until about two years ago.

In 1896, he was married to Miss Sarah Jane Harris in Wellington.

He is survived by his widow and six children, Ralph Royal, Harris Royal, Tom Royal, Miss Bess Royal, Mrs. Carl Spinks and Mrs. Alton Abott.

REA Generating Plant Likely For Greenbelt

That a generating power plant may be built to serve the REA lines of the Greenbelt, Gate City, and Hall County Cooperatives was revealed in a district REA meeting held in Lubbock Monday, March 24, and attended by officials and employees from this section of the state, Orval Couch, who is in charge of the local cooperative, said Tuesday.

Permission to build this plant has already been given by the Texas Power Reserve to proceed with the plans, Mr. Couch added.

To care for the power plant, the three co-operatives have been formed into an electric generating co-op, to be known as the G. G. & H. Electric Generating Co-operative, Incorporated.

President of this co-operative is Leo Inman of Childress, while Tom Lenoir of Memphis is vice president and John Harper of Wellington is secretary and treasurer.

The location of this generating plant is not yet known, but will be located by the Rural Electric Administration at some central point in the territory served by (Continued on Page Twelve)

E. D. Clay Is Improving After Serious Illness

The condition of E. D. Clay, who has been seriously ill, was reported by members of his family Tuesday night to be improving rapidly, although he is still quite ill. Mr. Clay is confined to a hospital, Okla., hospital, where he will likely remain for several weeks. He was removed to the hospital Tuesday, March 18.

An exact diagnosis of his illness has not been found, the family reported.

Mr. Clay was for many years owner of the Clay Produce here, until he sold his business to his son, Guy Clay, last year. He has been active in I.O.O.F. and church activities.

Mrs. Ernest Griffith of Weinert, a daughter, is at her father's bedside. Mr. Griffith and their son, Clay, were here during the week end.

Dodson Methodist Revival Planned

Revival services at the Methodist Church in Dodson will open Sunday, March 30, and continue through Sunday, April 13, Rev. W. B. Gilliam, pastor, announced this week.

Rev. Gilliam will be in charge of the preaching, and plans for the song services are being arranged this week. Three services will be held daily, the morning service at 10 o'clock, the young people's service at 7:30 in the evening, and the evening preaching service at 8:00 o'clock.

"We hope to have the co-operation of all Christian people of this community," Rev. Gilliam said. (Continued on Page Twelve)

Neighbors Do Spring Plowing For W. A. Morrow

In spite of serious illness in the family, W. A. Morrow has his land ready for spring planting—and all because a number of friends of his and Mrs. Morrow's on Thursday and Friday, March 20 and 21 brought their tractors and plowed their land.

Mrs. Morrow, who underwent a major operation three weeks ago, has been confined to a hospital since that time.

At noon on Friday several ladies of the community prepared dinner and sent it to the working men.

Soil, Water Problems Aired At Hearing Fri.

"If you vote for a soil conservation district, you get this benefit—that the farmers will be able to solve their problems in so far as soil and water conservation problems are concerned in a co-operative manner better and more economically than it can be done individually."

With this as his basis, L. L. Ballard, a member of the Texas State Conservation Board, conducted the hearing on the proposed Collingsworth County Soil Conservation District in Wellington Friday, March 21.

Farmers and business men from all parts of this county, and visitors from Shamrock, McLean, Clarendon, and Ashtola filled the district court room almost to capacity, forming one of the largest farm groups to meet in Wellington in recent months.

This hearing was conducted primarily for two purposes, to secure information upon which the State Conservation Board will determine whether or not an election on the proposed district shall be called, and to give the landowners of the county any information concerning such a district in order that they may determine whether they do or do not favor its organization. Most of this information was given as answers to questions asked by those attending.

The date for the election on the proposed district, should it be approved by the State Board, has not yet been set.

Mr. Ballard discussed the various phases of setting up a Soil (Continued on Page Twelve)

Cross To Teach First Aid School

An American Red Cross First Aid School, designed primarily for employees of the State Highway Department, but open to any person over 17 years of age, desiring to take the course, will be organized Thursday evening, March 27. Alfred Cross, who is in charge of the Highway Department work in this county, will teach the course.

The classes will meet at 7:30 o'clock, and will be held in the Justice Court room of the Court House.

Mr. Cross extended a cordial invitation to those persons wishing to take a first aid course to enroll, and pointed out that they should be present for the first meeting.

No charge will be made for entering the course, and only the expense to those enrolling will be the cost of a first aid book.

March 31 Final Date On AAA Range Program

All ranchers of Collingsworth County who expect to participate in the AAA range program in 1941 must sign the necessary papers before March 31, 1941, Clyde Emmert, county AAA chairman, announced Monday.

These applications will request an inspection and examination of the range land and state the practices that the owner wishes to carry out in 1941 to earn his range building allowance.

Cotton Crop Reaches 18,217 Bales In County

That Collingsworth County's cotton crop will fall only a little below that of a year ago was revealed Tuesday, when the cotton ginning report from the Bureau of Census was released here.

Altogether, 18,217 bales have been ginned in this county to date, or gathered and stored awaiting ginning, Olan Alexander, special agent for the Bureau of Census stated. Last year's crop for the entire year was 18,674.

This county ranked second in the number of bales of cotton ginned this year in this section of

the state, topped only by Hall County.

Total ginnings for the state this season now stands at 3,107,956, as compared to 2,736,764 a year ago.

Figures for counties in this area, including both the 1939 and 1940 figures for March 20, include the following:

County	1940	1939
Childress	15,814	8,899

County Group To Take CAA Course

The ground school course for the non-college civil pilot training program in Childress will begin Tuesday, April 1. Approximately fifty students have taken the physical examination, and there are others who have not taken the examination but have indicated their intention of taking the course.

Students have enrolled from Childress, Quanah, Acme, Loco, Memphis, Lakeview, Paducah, Cee Vee, and Clarendon. The following students from Wellington made applications to take the course: James Sullivan, Roy Thompson, Randolph Hunt, K. M. Johnson, James Crain, Alvin Roy, C. L. Blandford, and Dan Culp.

Classes will be held on Tuesday and Thursday nights each week, from 7:30 to 10:30 p. m., probably at the Childress high school. Textbooks and other necessary material are already available for the beginning of the course. A salvaged airplane is being brought to Childress this week for class room study.

There are still a few vacancies in the ground school course, and any one desiring to take the course (Continued on Page Twelve)

Future Citizen Encampment Set For June 20-21

Date for the regular summer encampment of the Future Citizens of Collingsworth County has been set for June 20 and 21, W. K. Cottingham, county agent, said Saturday.

The Future Citizens are made up of the 4-H boys and girls, the Future Farmers and Future Homemakers.

The encampment will be held at Craterville Park, near Lawton, Oklahoma. While it will be chiefly recreational in nature, a short business session will be held.

Mr. Cottingham and Miss Erisman, county home demonstration agent, and vocational teachers of the county will sponsor the trip.

Less Than Half Of 1941 License Tags Are Bought

Only 1,055 car and truck license tags for 1941 had been purchased Tuesday night—less than half the number that must be bought in this county. And all remaining tags must be purchased before midnight of April 1, Howard Riggs, tax assessor and collector, warned.

Mr. Riggs estimated that there are approximately 2,500 cars and trucks in the county.

Of the total number of licenses bought this year to date, 910 are for passenger cars, 50 for commercial cars and trucks, and 95 for farm trucks.

Campbell Heads Project Show

Cliff Campbell, Wellington rancher, was named president of the boys' and girls' Project Show for the coming year in a meeting of Kiwanis and Rotary Club members Monday evening, March 24. Mr. Campbell succeeds Ben Hurst, who served as president of the organization during the past year.

Others elected to serve with Mr. Campbell were Pink Sullivan, first vice president; W. K. Cottingham, second vice president; Tom Campbell, third vice president; and Jack Hurst, secretary. Mr. Hurst succeeds himself.

These five men will make up the board of directors.

The premium list for the 1942 show will be worked up in the near future, rather than shortly before the show is held, Mr. Hurst said Tuesday. The new list will contain several changes from this year's.

Present plans are for the show to be approximately the same size as that held this year, which was the largest in the history of youth project shows in the county.

In all other respects, the 1942 show will be similar to the one this year, Mr. Hurst said.

The show is sponsored each year by the Rotary and Kiwanis Clubs, and the members of these two clubs comprise the membership of the Project Show Association.

Draft Ruling Given On Men 21 Since Oct. 16

Men who have become 21 years of age since October 16, 1940, are not required to register for Selective Service training unless or until another registration day is proclaimed by the President. Nevertheless, they may volunteer. This information was received recently by J. N. Wallace, clerk of the local draft board.

This announcement was made today by General J. Watt Page, State Director of Selective Service, because of the numerous inquiries being received at State Headquarters and by local boards.

General Page pointed out that the President's proclamation specifically designated October 16, 1940, as the date for the "first registration under the Selective Training and Service Act of 1940," and that the Act provides for subsequent registrations only at the call of the President. Likewise the Act and proclamation

were specific in limiting the first registration on October 16, 1940, to men between the ages of 21 and 36 years on that date.

"The law is clear, therefore," he said, "that any man who was not 21 years of age on October 16, 1940, will not be required to register until the President calls for another registration. However, any male citizen or declarant alien between the ages of 18 and 36 years may volunteer for Selective Service training, unless he is a registrant who has received his order to report for induction."

On the other hand, Director Page pointed out, a registrant who has passed the age of 36 years since October 16, 1940, remains liable for Selective Service training.

Mrs. T. W. Reeves, Vinson Pioneer, Dies March 19

Mrs. T. W. Reeves, 72-year-old pioneer resident of the Vinson, Okla., area, died Wednesday morning, March 19, at the home of her daughter, Mrs. A. D. Spurlin, of near Vinson. Mrs. Reeves had lived in this section for the last 39 years and was widely known throughout the entire county, as well as in the southwestern Oklahoma counties.

Funeral services were conducted Friday afternoon at 3 o'clock at Independence Church. Rev. Paul Collins of Vinson was in charge, assisted by Rev. Charlie Abercrombie. Many friends from this territory gathered to pay final tribute, and to recall Mrs. Reeves' high type of character, and the influence which she has had upon her community.

Pall bearers were Fred Yarbrough, Dewey Hulse, George Peeks, Jack White, Drury Lacy, and Al Bettis. Flower bearers were Mrs. S. B. Bowen, Mrs. H. G. Estes, Miss Valarie White, Miss Reda Jane Hughey, Miss Bertie Keese, and Mrs. Darrell Manney.

Hymns included "Where We Will Never Grow Old," "Precious Memories," and "Farther Along."

Interment was in the Independence Cemetery, with the Ellis Funeral Home of Wellington in charge.

Mrs. Reeves was born on Dec. 20, 1867, at Cleveland, Tennessee. She was before her marriage Miss Jennie Cameron Reeves, the daughter of Theodore and Sarah

A REPORT to America

The Ford Motor Company's business has always been to serve the needs of the American people. In providing them with low-cost transportation for the past 38 years, we have developed one of the country's largest and most useful industrial units. During a national emergency, we feel that these facilities should be devoted without reserve to our country's needs. Toward that end we started rolling months ago, with these results:

- 1 A \$21,000,000 Ford airplane engine factory, started only 6 months ago, is nearly completed. Production will start with an initial order for 4,236 eighteen cylinder, air-cooled, double-row, radial engines.
- 2 We are building a new \$800,000 Ford magnesium alloy foundry, one of the few in the country. It is already producing lightweight airplane engine castings.
- 3 Army reconnaissance cars — military vehicles of an entirely new type — are rolling off special Ford assembly lines at the rate of more than 600 a month. We have produced Army staff cars and bomber service trucks.
- 4 The government has given the "go-ahead" and work is now under way for the fast construction of an \$11,000,000 Ford plant to produce bomber airframe assemblies by mass production methods.

5 Several months ago work was started, on our own initiative, on an entirely new 1500 horsepower airplane engine especially designed for mass production. This engine is now in the test stage and plans are being developed for producing it in large quantities when and if needed.

6 A Ford aircraft apprentice school has been established, to train 2000 students at a time.

That is a report of progress to date.

The experience and facilities of this company can be used to do much of the job which America now needs to get done in a hurry.

Our way of working, which avoids all possible red tape, enables us to get results and get them fast. This benefits users of our products and workers who produce them.

We are ready to make anything we know how to make, to make it to the limit of our capacity if need be, to make it as fast as we can go, and to start the next job whenever our country asks us to. And to this end, we know we have the full confidence and loyal support of the workmen throughout our plants.

But on your car any halfway job is a botch.

The engine's full of poison, remember, as long as it's full of scratchy Winter oil. Today then, drain and refill for Spring... But be more than half fair to yourself and your engine... Get it drained, refilled and Oil-Plated besides—all at the one same cost—all in mere minutes, at Your Mileage Merchant's Conoco station.

His patented Germ Processed oil contains a man-made extra "energizer." And this bonds OIL-PLATING to working parts as closely as the plating on body parts. Then OIL-PLATING can't all drain down. As long as you use Germ

Processed oil, the OIL-PLATING stays plated up—every mile—every hour at the curb—or standing overnight. That's why your OIL-PLATED engine is protected in advance against the worst old starting wear... much as if your Germ Processed oil hadn't even quit circulating!

Likewise, when the sun and the speedometer both swing high, the OIL-PLATING isn't all thinning out and drizzling down. It stays plated up against needless wear. And that's more than half of the battle for oil economy.

MORE COTTON
PER ACRE!

— convinced these growers that CERESAN PAYS

An average increase of \$6.71 an acre amply repaid a group of cotton growers who planted CERESAN-treated seed in several years tests in 5 states! CERESAN reduces seed rotting and sore-shin, makes stands more uniform, generally increases yields. Oklahoma A. & M. Experiment Station Circular 89 says, "Many Oklahoma and Texas cotton growers have already adopted the practice of seed dusting... it is a common experience to find the better quality cotton seed in the market under a 'Ceresan' label." CERESAN costs little; is easily applied. Treat your own seed, or look for the Ceresan Treatment Tag on seed you buy!

EVERY SCHOOL AND EVERY BUSINESS HAS ONE OR TWO

In a school full of bright, self-respecting students, there are very likely to be one or two completely lacking in good common sense. And that goes for business, too... particularly the beer retailing business.

Out of thousands of beer retailers who conduct respectable, law-abiding businesses, there may be a few "dunce" retailers who disobey the law or permit anti-social conditions.

These few unwanted retailers are a menace to the future of the beer industry... and also of the benefits beer has made possible. Right here in Texas, beer provides employment

for 31,165 persons, supports an annual payroll of \$22,076,182 and contributed \$2,273,968.64 last year in state taxes.

It is the brewers' responsibility to make good beer—the retailers' responsibility to sell beer in wholesome surroundings—and the legally constituted authorities' responsibility to enforce the laws. All of these, working together with the public, are needed to protect the future of beer.

You, too, can help the cause of moderation by (1) patronizing only reputable places where beer is sold; (2) and reporting any violation you may observe to the duly constituted authorities.

BEER... a beverage of moderation

We're Ready For Hitler Says Birmingham Lad

(News releases tell many things of life in England under the present war conditions, but information coming in letters from that country has an atmosphere of reality and vividness which few persons get from the day's news. The letter below was received March 23 by Dick Ellis of Wellington. It comes from a 13-year-old English boy with whom Dick corresponds. It was exactly a month on its way from England.)

97 Leominster Rd.,
Hall Green,
Birmingham, England,
2-23-41

Dear Dick,
Thanks for your letter and stamps. There was only one that I have already. I am enclosing your five stamps also. I am sorry I cannot send you the addresses of my friends, but I will in my next letter, as I have come home for a few days and I do not see any of them to get their addresses. I was surprised when you told me my last letter was published in the city paper. I hoped my grammar was good.

At the country school where I have been evacuated to, is big, so a fire-watcher's association is necessary and I have joined it. Our old school in — has been shattered, but is not beyond repair. Nothing, of course, is beyond repair to BRITISHERS or AMERICANS. AYE!

I am glad to say all my family and myself are safe, but our neighbors had a direct hit on their Anderson shelter but unfortunately were all killed. My French master and his family were also killed.

I was glad that President Roosevelt was re-elected for a third term of office. We know he will do his best for us. In the place I am evacuated to Wendell Willkie paid a visit and I saw him quite close up.

You say fight to the finish. Believe me, Hitler and his gang won't see the end of this little squabble. Then, we are ready for invasion with road blocks, block-houses, etc. Showing identity cards gets to be a common thing nowadays. Our home town is still carrying on with pantomimes and films, just the same as in peacetime.

I don't know whether I told you about my age or not, but I shall be 14 years old on April 18, and am naturally 13 at the moment. I liked your crack about Musso's dinner. If you could would you try and send me a picture of yourself and I will try and do the same. Of course, if you can't manage it, don't try. I don't know many girls so I can't send you an address of one.

I wish you would if possible send me the cutting of my letter. It would be jolly nice if you would. Well, lots of luck,
Jim.

P. S. Still more kind regards to your family.

John N. Benson Dies At Hereford

John N. Benson, who formerly lived here, died Friday morning, March 21, in Hereford, where he had made his home since 1929. His death occurred at the home of a daughter, Mrs. J. E. Andrews, after a short illness, although he had been in ill health for several years.

Mr. Benson was a brother-in-law of the late Judge R. L. Templeton and the late Judge R. H. Templeton. He last visited here a little more than a year ago, during the illness of Judge R. H. Templeton.

Funeral services were conducted Saturday afternoon from a funeral chapel in Hereford.

Mr. Benson was born March 10, 1867, in Lincoln County, Tennessee, and there he spent his childhood. In 1898, he came to Texas, settling at Bowie. Later he moved to Comanche, Oklahoma, where he lived for a number of years. After a short residence at Hedley, he came here about 1922.

Mrs. Benson's death occurred in 1925, while the family was living here.

Mr. Benson engaged in farming west of Wellington while he lived here, and he has a host of friends throughout this county. He also farmed after moving to Hereford, although he had retired several years ago.

Surviving are nine children, Mrs. Andrews, D. O. Benson, and H. F. Benson of Hereford, J. W. Benson of Amarillo, W. J. Benson of Kingfisher, Okla., Mrs. C. E. Sparks of Comanche, Okla., Mrs. Ben Malone of Eagleton, Ark., Rufus Benson and Henry Benson of Shamrock.

Thirty-five grandchildren and several great grandchildren also survive.

It usually increases appetite, livens flow of gastric juices and so improves digestion. Thus it helps to build resistance to periodic distress for many. Others find help for periodic distress by taking CARDUI a few days before and during "the time." CARDUI has been popular for over 50 years.

Wild Life . . . In A Possum Den . . . On The March

Twenty-eight possums in one hole is something to astound even those who are well versed in wild life habits, but that is the number found in one den recently by the children of Mr. and Mrs. Homer Ingram.

The children and their dogs were playing along a small creek near their home when the dogs discovered the hole and began barking vigorously. Attracted by the noise, the children were unable to determine just what was in the hole.

Securing a spade, they dug the possum family out. Three of the 28 were grown possums, the remaining 25 were young.

THE GLASS EYED BANKER

Every one is familiar with the moth-eaten story of the Banker who showed more sympathy out of his one glass eye than he did out of his good one.

There might have been some bankers back in forgotten days who were glass eyed, and there may be a few left, but no successful banker today is. In fact every forward looking banker has a smile for every would-be borrower, and a hand clasp for all who have problems within range of banking experience.

Our bank delights to help solve problems that bear some promise of solution. A LOAN MIGHT UNTIE YOUR KNOT. Our attitude of helpfulness in itself might give you the boost. Drop in and let's talk it over for after all we are just neighbors and friends working together to get the job done.

Oh my gosh, I have done it again! I announced for mayor of this fair city. My qualifications are that I am a good horse trader. I supported the building of the courthouse. I supported the building of the post office, and I also voted to build the community building.

Another thing I would favor is paving a street in North Wellington, going north and west to connect with the paved street along the west side of town. The people of the north part of town have always helped to pay a part of the streets in south Wellington and they need a street so they can get to town and to school without wading the mud. And I would also favor a paved street to the West Ward School building.

As far as the power of the mayor's office goes, I would work to get water to the cemeteries and in general to make Wellington neat and clean and better looking. I certainly had a lot of encouragement Saturday. Palo Cummings is going to help me out at Buck Creek. He wants Charlie Caldwell to help him and Charlie said O. K.

Hunter Peters was the first man that donated anything to my campaign, and he said he would work for me at Midway. Ernest Wood is going to line up Boney Hunter, mayor of Loco, for me. My old friend, Floyd Thompson, mayor of Lutie, came in and said he was doing everything he could north of the river. Andy Bell is on the fence up at Riverside, because he might want to support a northside man. Hayden Williams and R. H. Crane down at Fresno agreed to take up a collection for my campaign, and Mr. and Mrs. Henry Vaughan are going to move to town so they can vote for me. Up the north highway, I have three campaign managers—B. W. Boardman, R. A. Talley and Allan Peters—don't think I will miss a vote in that section. Ira Morgan is going to manage my campaign at Quail. Winfield White was hard to get in line. He wanted

to know how much there was in it for him—looks like Kelley needs a new mayor. Pink James has moved to town, but he is going out to Shinnery and work some. Corbett Ford and Chester Fires tried to get me on the spot. I know you other mayors of the county are going to be mighty busy with your own races on April 1; so won't you please vote early and come in and help me.

Now I come to the hard part of this job. I need money and I need it bad, so please come in and buy something from me to help finance this campaign.

I have a used Farmall 20 that is a bargain at \$900—a Farmall 12 that has been out only 3 years at \$850 and also some of these new Farmall H that will make anyone happy.

Stall Child Is Buried Here Fri.

Funeral services for Tommy Leon Stall, the infant son of Mr. and Mrs. Tommy Stall of Childress, were conducted at 2 o'clock Friday afternoon, March 21, from the home of Mr. Stall's mother, Mrs. T. J. Stall, in Wellington. In charge of the funeral was Min. J. C. Stepp of Shawnee, Okla., and Min. James Reynolds of Wellington.

The child died in a Childress hospital Thursday morning at 10:20 o'clock. He was born Dec. 19, 1940, and at the time of his death was three months and one day of age.

Surviving relatives include his parents and two sisters, Mary Ruth Stall and Sonja Stall; and these grandparents, Mrs. T. J. Stall of Wellington, and Mr. and Mrs. Dee McMinn of Childress.

Pall bearers were Doyle Thomas, Bill Drake, Loren Baker and L. W. Sims. Flower bearers were Gertrude Steele, Doris Baker, Louise Thomas, Izora Baker, Es-

telle Thomas, and Opal Sims.

Interment was in the Wellington cemetery with the Ellis Funeral Home in charge.

WHOLESALE SACRIFICE Entire Used Car Stock

Here's WHY we do it:

Yes, we could sell our stock of fine used cars to a wholesaler for just about what we'll realize out of 'em through this sale to the general public. And we'd save a lot of time—get them off our hands in one transaction. BUT — we wouldn't make the dozens of new friends and future customers that we will by selling to the general public, instead of to a wholesale dealer. So here goes—they're yours.

Deck's DIDACTICS

By H. D. W.

The fine rains make me want to plant something. If I can't persuade Leslie Moore to plant corn on my mother's farm, I am, at least, going to plant flowers in my back yard.

This is about the time of the year when the women of the town should start their annual clean-up campaign. The men won't do it and the City won't do it until you women get after them.

I know of no better way to get a worthwhile community enterprise started than to get the women aroused.

The Livestock auction sales started off with a bang. They had a most successful opening. Cars were parked for block around the sales pavilion. Here is wishing continued success to Ray Peebles and Jess Deger.

I have three young poplar trees growing in my flower beds that I will be glad to give to anyone who wants some poplar trees. The first person who comes after them and not the first person who phones will get them.

Robert Lucas wants me to write something about the good work that John Lee has done with the boys. The truth of the matter is that Coach Lee is rather well satisfied with the publicity Virginia Robey has been giving the boxers all along. Knowing this, I invited Robert to write a letter to the paper, and he began to hum and haw about he couldn't write anything beautiful.

Well, as I see it, there is not anything pretty about old John, but he has done a good job. That is all that needs to be said.

Robert's excuses amused me, because they reminded me of some of my own excuses. He could have written that letter. He had the thought and it was generous and kind. I have a back fence that needs fixing. I could fix it in a hurry if it meant my next meal. The fence goes unattended and the letter goes unwritten.

Homer Ingram's children recently caught three old o'possums and twenty-five little ones. Are animals like these marching westward like the mesquite trees? Over at my father-in-law's farm are a lot of red squirrels. In recent years several porcupines have been killed in this county. Have these animals been here all along? All of us know about badgers, wolves, etc., but I always thought of o'possums, squirrels and porcupines as belonging in timbered country. Do any of you old timers know about this?

Note to Marion Hix: You are worried about the shelterbelts bringing more birds. Shucks, from the actual evidence, I am of the opinion that if we get enough shelterbelts we will have bears in this country before I die.

The Senate Agricultural Committee has reported favorably on a bill that would make the new loan on cotton at 14 1/2¢ per pound and the loan on wheat at \$1.05. If this loan goes through and the rains continue to fall good business may return to Collingsworth with a rush next fall.

Ernest Lewis thinks that this fall is the time we will hit the jackpot. Ben Hurst predicts a blizzard about April 20, but Tom Campbell has a different notion. Tom admits that we have had a very open winter, but he reasons that the average temperature has been considerably lower than most people realize. He figures that we may get by without a disastrous freeze. I hope Tom wins this weather dispute. If he does, I will have lilacs and roses and cherries as never before.

For the benefit of those who have been phoning about puppies, I wish to advise that all of the puppies have been given away. However, from the looks of our cat, I judge that we will soon have a

WELLINGTON GIRL SINGS WITH COLLEGE CHOIR

The Tarleton College Singers of John Tarleton College, Stephenville, will begin their annual tour of Texas cities during the early part of April. Clarice Harper of Wellington is a member of this musical organization, which is composed of forty members and directed by R. Berton Coffin, professor of voice at Tarleton. Miss Harper is pictured above at the extreme right in the second row from the top. Miss Harper is the daughter of Mr. and Mrs. John Harper of Wellington. This is her first year to attend Tarleton.

supply of kittens. I will be more than glad to give these away individually or by the litter.

I don't like cats. They eat birds. We never would have had a cat at our place if it had not been for Sam down at Frank Thomason's barber shop. Sam left, but the cat stayed. Dogs have an affection for people and will follow to the ends of the earth. If you move, your dog will move with you. But cats have no loyalty except to their instinctive way of life. If you leave, the cat will stay at the familiar place. Cats are clean, but they live for themselves alone. They want you to do everything in the

world for them, but they will do nothing for you. To complete this grade school essay, I wish to opine that some people are like cats and some people are like dogs. Both have their faults and both have their good points.

For a long time I have been judging people by whether they liked cats or dogs. That is a mistake. What about the fellow who gets a cat by accident like I did.

Midnight of March 31 is the last day to buy your car license tags for 1941. Don't blame us if the highway patrol picks you up on April fool's

day. We have told you, and they won't be fooling.

Lois Langley Accepts Position In Washington, D. C.

Miss Lois Langley of Lubbock, formerly of Wellington, was notified Tuesday evening that she had received a Civil Service appointment as Senior Stenographer and is to report to Washington, D. C., within the next ten days.

Miss Langley was due to arrive in Wellington Wednesday night to visit a short time with her sister, Mrs. Aubrey Stuckey and other relatives and friends before leaving here about April 5. Miss Langley was graduated

from the Wellington High School in 1937, and for three years afterward she was employed at Pruden Drug Store. After completing her work at Draughon's Business College in Lubbock, she secured a position as stenographer in the Boy Scout headquarters in Lubbock, where she was employed at the time she was called to Washington.

Safe Driving Cards Awarded To Gas Line Employees

Safe driving cards have been mailed out to 36 employees of United Gas Pipe Line company who drive cars in the Wichita Falls district for their perfect no-accident record of the last 12 months, according to an announcement made by company officials Tuesday.

To receive a card these men who daily drive over the highways and side roads of this district under all sorts of weather and road conditions, had to go for a full year without any accident or damage to the cars which they drove. There was only one type of excusable accident — damage sustained by a company car which was properly parked in a parking space. In addition to the cards, two men who have driven five years without an accident will receive automatic pencils on which their names have been inscribed. Twelve men received five year cards in 1940 and will get six year cards this week.

United's fleet of 650 cars has operated more than 56 million miles without a fatal or serious disabling accident. Its safety department, however, stresses not

only safe driving, but safety in work of all types. Several districts along its more than 5,000 miles of main transmission lines have gone more than two years without a lost time accident. Although engaged in what the insurance companies class as a dangerous occupation, United Employees have passed more than two years without a fatal accident although their work includes the drilling of wells, transporting of natural gas, building and maintenance of pipe lines and operation of natural gas-line plants and compressor stations.

County Interscholastic Contests Open On Friday

Wellington plays host Friday to the county's largest annual school event, when approximately 4,000 students, their parents, and teachers are here for the County Interscholastic League Meet Friday and Saturday, March 28 and 29. Between 1,500 and 2,000 of these will be participants in the league contests, Logan Cummings, county superintendent and director general of the meet, estimated.

"We've had more interest in the Interscholastic League events this year than in the past few years," he said. "A greater number of schools are entering students in the various contests, and also the total number of boys and girls who will take part is larger."

In some of the smaller schools of the county, every student is taking part in some contest.

Literary contests of the League will be held Friday, while athletic events are scheduled for Saturday. Due to the large number of events this year, it is necessary that the rural school choral singing contest be held Thursday evening, March 27, at the high school auditorium, beginning at 7:30 o'clock.

All events will be held at the high school, or on the high school athletic field except a part of the declamation division, which will be held at the Methodist and Baptist Churches.

A change in the date of playing off the tennis contests was also announced at this time. They will be held Friday morning at 9:30 o'clock, rather than on April 5, as originally announced.

The program for the Interscholastic League events for both Friday and Saturday includes the following:

FRIDAY

8:30 a. m.—assembly in the high school auditorium. Final announcements will be made at this time.

9:00 a. m.—boys' and girls' debate; story telling contest; spelling, grades 4 and 5; spelling, grades 6 and 7; spelling, high grades; and typewriting contest.

9:45 a. m.—arithmetic contest.

10:30 a. m.—extemporaneous speech, held at the high school; declamation, high school division to be held at the Methodist Church, and to include senior boys and girls and junior boys and girls (two entrants from each school); declamation, ward division, junior boys and girls, to be held at the Baptist Church; declamation, rural school division, senior boys and girls and junior boys and girls, to be held at the high school auditorium; and the ready writers contest.

1:00 p. m.—choral singing, ward school division.

2:00 p. m.—picture memory contest; music memory contest; and Three R contest.

Teachers of all schools have been notified as to which room each contest will be held in.

SATURDAY

All track and field events will be held at Powell Field, located two blocks south of the high school building. Preliminaries will begin at 9 o'clock. These events will include:

9:00 a. m.—senior boys' 120 yard high hurdles; and finals in the 12 pound shot put.

9:15 a. m.—junior boys' 50 yard dash.

9:30 a. m.—senior boys' 100 yard dash; and finals in junior boys' high jump.

9:45 a. m.—junior boys' 100 yard dash.

10 a. m.—senior boys' 220-yard dash.

10:15 a. m.—senior boys' 440 yard dash.

10:30 a. m.—senior boys' high jump, (finals); and senior boys' 220 yard low hurdles.

Finals in track and field events will begin at 1:00 p. m. The following schedule for these has been given:

1:00 p. m.—senior boys' 120 yard high hurdles.

1:15 p. m.—junior boys' 50 yard dash.

1:30 p. m.—senior boys' 100 yard dash; senior boys' pole vault.

1:45 p. m.—senior boys' 880 yard run.

2:00 p. m.—senior boys' 220 yard dash; and junior boys' broad

Wants Smooth Wire Fences

Former Vice-President John Nance Garner, who is known as an ardent hunter and fisherman, is advocating the use of smooth wires by ranchmen, especially on the bottom of their fences. He believes that many deer can be saved and points out there is now little necessity for using barbed wire. Most of the cattle now on Texas ranches can be stopped by smooth wire.

Deer frequently crawl under fences instead of jumping them. A cut from a barbed wire means that screw worms have easy access to the deer's body and will eventually

kill them.
"I have seen deer come down to rivers and ponds, wade out in the water and lay down completely submerged except for their heads," the former vice-president said recently. "That is done to drown the screw worms."

SOIL CONSERVATION

With the likelihood of a Soil Conservation District being established to include Collingsworth County, a sudden pick-up of soil conservation consciousness is seen, and a good many questions are being asked relative to this.

You don't get something for nothing even if you vote the Soil Conservation District into existence, and agree to work under its program. This was brought out repeatedly by Mr. Ballard of the State Conservation Board in the hearing held in Wellington Friday. A Soil Conservation District simply enables the farmers to solve their problems in so far as soil and water conservation are concerned in a cooperative manner better and more economically than they can do as individuals.

Neither does the Conservation District replace any federal or state governmental agency now operating. It is supplementary to the work of these—the Triple-A, to the various other authorities now established.

There is nothing compulsory about the Soil Conservation District. It is created only by the will of the resident land owners of the proposed area, and even after its organization, participation is not compulsory. Even if the failure of one owner to take part in the program means that the soil and water from his land washes on to that of others and damages them, in only one way can he be forced to do something about the matter. By this way, a regulation would be proposed and voted upon by the resident landowners, and if it is approved by 90 per cent of them, then the regulation is in force.

"You make your own regulations and put the teeth in them," Mr. Ballard pointed out.

The actual money outlay for improvement of farms is borne by the individual owner, although he may work out his plans to have the improvement come over a period of years. There is no payment that comes back to him directly for doing this work, as there is under the farm program, but the pay is expected to come through means of conserved soil.

A Soil Conservation District does make available, however, certain things that individuals cannot secure. Certain machinery necessary for carrying out the soil conservation practices may be obtained. W. P. A. labor may be utilized for farm work, outside the district it is available only on public projects.

No Place For Bitterness

Do you take things as they come? Or do you worry about the tripping up you have had and get just a little bitter toward the world for giving you what you would like to describe as a rough deal? . . . We have just finished talking with a person who has had a major raw deal, and it is resented very much by this person. . . . We can see the point in that, but there also is the point that it's going to do absolutely no good at all to take the attitude that life is a poor bet, reverses or no reverses—and the sooner everybody finds that out, the better we all shall be. If you can "take it" and not feel bitter about it, soon the light will break through, and you'll find that there is much to interest you that you hadn't noticed before. . . . You hadn't noticed it because you were too busy being bitter. . . . Happiness is a beautiful flower. . . . you can help it grow to full bloom, or you can snip off the bud. . . . Take your choice!—Tex DeWeese in The Pampa News.

Driver's License Fee

Proponents of a \$1.00 fee in the driver's license bill claim there is an increasing amount of public favor for the measure with its fee. Provisions of the bill designed the fee for use in enlarging the Texas highway patrol. The license would be good for two years, making it cost only 50 cents a year, or in the language of safety leaders, "less than a penny a week for accident protection insurance."—Sam Braswell in The Clarendon News.

Do We Repeat?

Spring has come to America. Congress has passed the lend-lease bill, the president has signed it and released more war material to Britain. The next step is to get the United States Navy to convey the stuff to England; the next step is a torpedo sinking one of our naval vessels on convoy duty, and the next step is "war."—Bill Hams in The Floyd County Hesperian.

A Tough Job Well Done

Upon the broad and capable shoulders of Attorney General Mann is now laid the question of whether the anti-strike bill is constitutional. Mr. Mann has discovered the novel and singularly effective formula of doing his duty, let the consequences be what they may. Oddly enough, the consequences have been, thus far at least, that evil-doers respect and fear Mr. Mann, while well-doers respect and like him. As for Jerry Mann, he doesn't seem to fear anybody or anything. Whether he likes you or not makes precisely no difference in how he rules on the law. And this is perfectly amazing to political persons—and perfectly convenient when something gets too hot to hold—Lynn Landrum in The Dallas News.

A Farm Strike?

The suggestion by two United States senators yesterday that American farmers stage a one-year "strike" to obtain their share of the national defense spending doubtlessly will be the most startling of all recent agricultural news to the country as a whole and millions of Americans who have considered the farmer as distant as the stars or who have failed to consider him at all are picking up their ears.—Raymond Holbrook in the Amarillo News.

That Reminds Me--

Jimmy, the new office boy, never saw type lice. He was curious to know what they looked like. So one of the printers fixed up a galley, with two blocks of type on either end. In between the blocks of type was a puddle of inky water.

When Jimmy's face was bent over close to the galley, so that he could get a good look at the type lice, the printer quickly pressed the two blocks of type together, squirting the mess in to poor Jimmy's face. It's been years since that gag was first pulled, but it's just as effective today as it ever was.

Jimmy's discomfiture reminded us of tricks like that pulled over and over again, on countless apprentices and office boys. Perhaps the most famous is the one in which an apprentice is sent scurrying all over the plant in search of a left-handed monkey wrench. There are a dozen versions of the left-handed gag—left-handed tea cups, left-handed oars, left-handed canoe paddles.

The boys who are now starting army camp life will be sent chasing around the camp in search of a bucket of salutes. Countless others have searched high and low for buckets of steam, or for buckets of striped paint.

In photography shops, it's customary to send new employees in search of negative stretchers, or hypo snakes. Grocers' clerks have been trapped by innocent requests for vanilla-flavored apple butter. Apprentice meat cutters have spent hours in search of meat augers, with which to cut holes in a side of beef so it can be hung up on a meat-hook.

When a new usher starts to work in a theatre, the older boys always send him about to find a curtain-key. They tell him the show can't go on until the curtain is opened, and the key has somehow been lost. Greatly excited, the new boy will spend an hour in search of the key.

Every trade has its own little gags. It's all in fun. The little tricks serve as ice-breakers, and the newcomer who takes it good-naturedly is a favorite with the rest of the force from the day of his initiation until the day he leaves to initiate others.

Tuesday the number of poll taxes paid for this county amounted to 962, with about 723 more to be paid. There were about 1317 poll taxes paid two years ago, and an increase of 368 is expected over that number. Sheriff M. S. Carpenter requests The Leader to state that his office will be open every night up to Jan. 31st in order that those not having time may pay their taxes.

D. M. Dowdy, 56 years of age, living two miles northwest of Quail died last Saturday night from a throat infection and other complications. He was buried Sunday at Quail, and Rev. L. J. Crawford conducted the funeral services. He leaves a wife and three daughters to mourn his death.

R. L. Wood, who recently bought the C. McKnight place on Route One, called this office and subscribed for The Leader. Mr. Wood left a good county—Hall—but thinks he has come to another good county.

J. C. Hampton and family have moved to Wellington from Rayland, Texas. The Leader extends a cordial welcome to this estimable family.

Collingsworth County has been asked to buy several thousand dollars worth of Thrift and War Savings Stamps. Thrift Stamps are sold as low as twenty-five cents each, and these smaller denominations can be exchanged for the W.S.S. valued at \$4.12, and these can be bought to the extent of \$1,000, the most that any one person will be allowed to buy of this issue.

(July 4)

L. G. Bullington, prosperous farmer on the A. Buerger farm south of Wellington, brought in two stalks of fine cotton that were grown on sod land. Another local farmer, J. Z. Hanks, who bought the Hugh Black place west of town, also brought in a well developed stalk of cotton that had three blooms. Mr. Hanks states that he has not gone "cotton wild," having a hundred and fifty acres, but that he also has a fifty acre

field of feed stuffs for stock.

Mrs. Janie White, wife of J. H. White of the Salt Fork community, died at the family home Wednesday morning, July 1st. Six women friends were pall bearers, and they were: Mrs. Dave Thomas, Mrs. Willie McClaskey, Mrs. Kenney Godfrey, Mrs. Allen Harper, Mrs. Lon Leach and Mrs. M. A. Barton. Mrs. White is survived by two daughters and two sons.

Joe Baumgardner, who lives three miles south of Wellington, this week sold to Singley Brothers some wheat that tested 60 pounds to the bushel, and brought \$1.50 per bushel. Wheat in the Aberdeen community is somewhat better. H. E. Singley, local grain dealer, estimates that there will be something near 7,000 or 8,000 bushels of wheat grown in the Aberdeen community.

Announcement has been made here of the marriage of Bill Godfrey to Miss Elizabeth Randolph of Baton Rouge, La., which was performed in Fort Worth Sunday morning. Mr. and Mrs. Godfrey will make their home in Roswell, N. M., where he is serving as an instructor and assistant coach at N.M.M.I. The first ground was broken last week for both the proposed railroads through this territory, when the Rock Island began a preliminary grading in the western part of Shamrock for the line between Shamrock and Wellington, and the Fort Worth and Denver broke their first dirt on their grade at Childress.

TEST YOUR I. Q.

1. Approximately how much did Congress appropriate last week for defense purposes? A billion, billion and a half, or two billion?
2. What will be the size of the U. S. standing army by July 1?
3. Who was recently appointed director of the Bureau of Foreign and Domestic Commerce?
4. On what date did the U. S. enter World War I?

I SAW

—By VIRGINIA ROBEY

Year-old Mariann Ransom, the daughter of Mr. and Mrs. Haydon Ransom of Blackwell, Okla., and the granddaughter of Dr. and Mrs. John W. Harper, met all the family friends on her visit here over the week end, and after a day and a half of this, her patience was worn rather thin. And these same friends just couldn't realize that Annalu has a daughter big enough to walk.

Mrs. Lillian Rowlett carrying home a new hat in the rain Saturday, but holding it so the water wouldn't soak through the paper sack.

Up at the Red Cross knitting class Saturday Buddy Stevenson came along with his mama, Mrs. J. B. Stevenson, one of the teachers, but pretty soon he was put to work holding hanks of yarn while someone wound them into balls. And up there learning to knit were Mrs. Morgan Tucker, Mrs. Bob Oldham, Mrs. G. A. Ream, and Mrs. Cliff Campbell.

Mrs. S. B. Jackson and her daughter, Ruth, window shopping—looking at things that would be pretty for Ruth's graduation this spring.

Concerning the rain: C. E. Matthews saying he was mighty glad to see it, but he surely had a hard time getting from his house to the pavement.

Mrs. L. A. Carter of Quail commenting that it used to be that no one out there ever bothered about the rain, the roads were so sandy it didn't matter, but now since the highway's been clayed, they have lots of trouble in rainy weather.

C. A. Dysart of Mobeetie signing the necessary papers to have the birth of his son, David, registered in this county. David was born in this county more than 20 years ago, but like most of the rest, his birth was never registered.

Palo Cummings has just blitzkrieged the rabbits out Buck Creek way—he had to, as they were eating up his wheat. He hunts at night, and the first time he was out, he didn't count the rabbits he killed, but he used 4 boxes of shells. The second night he killed 47 rabbits, and the third night 41.

It looks as though Wellington folks' idea of a good place to visit run in the same direction. Jewell Sugg was visiting in Monterrey, Mexico, recently, and one day, on one of the busy streets, she ran into Mrs. Chas. Butler and Mr. Butler. Mrs. Butler was before her recent marriage Mildred Slough, and she and Mr. Butler were on their wedding trip at that time.

Odd Bits Of News

Giuseppe Saltalamacchia of Cambridge, Mass., decided after 71 years that his name was too long and petitioned the court to change it to Jose Satla.

Howard Oats of Kansas City, Mo., offered a reward of \$10 plus a sound thrashing to the motorist who killed his dog.

The town council in Burlington, Conn., granted the plea of the public health nurse for a raise in pay. It decreed an increase of one cent a day.

Arthur Hubell of Oklahoma City, called "the human inner tube," can expand his waist several inches by pumping air into his mouth.

A good windbreak lessens fuel bills in winter.

Nearly one-half of the twenty-one million American youths between sixteen and twenty-four live on farms or in villages.

Eggs contain two-thirds water, and milk more than 90 percent. Hens and cows cannot produce unless drinking fountains and watering troughs are kept filled.

Dairy experts estimate that the number of milk cows on farms in the United States January 1, 1941, were about 25,800,000, or the largest number since 1935. The number is exceeded only by the period of 1933-35.

Forty-seven whole farm and ranch demonstrators cooperating with the Texas Extension Service improved the family's water supply systems during 1940. These improvements included new wells dug, addition of windmills, pumps, tanks, and piping of water in and out of the house.

Canyon And Mobeetie Win Samnorwood Tournament

Basketball the way the All-Americans play it was featured at the Samnorwood Independent Tournament March 20, 21, and 22, when the Canyon All-Stars downed some of the outstanding teams of West Texas to take top honors in the boys' division, while the Mobeetie girls took first place in the girls' section.

Most colorful star of the tournament was Price Brookfield, West Texas State College cage star who recently was named All-American player and president of the All-American Association at a national basketball tournament in St. Louis. Although the Canyon All-Stars entered the tournament shortly after entries were open, Norwood Tournament officials were unaware that the brilliant college player would take part in the game.

The honors went to Canyon after they had defeated the Amarillo Hot Shots 42 to 29 in the final Saturday night.

Altogether, ten teams were entered in the boys' division. Opening the tournament, the Estelline Independents were defeated by Quail, the Amarillo Hot Shots won over the Samnorwood High School team, Pampa defeated Wellington, and the Canyon All-Stars won from Shamrock. The Samnorwood All-Stars drew a bye, Kirkland All-Stars did not play in this round, as their opponent, Alanreed, was unable to come to the tournament.

The Amarillo boys won over Quail, Samnorwood lost to Canyon, and Pampa drew a bye in the second round. The Norwood All-Stars came closest in their scoring to the Canyon team of any team meeting the champions, with the game ending 54 to 47.

In the semi-finals, Canyon emerged victor over Kirkland, while Amarillo defeated Pampa. The Canyon-Kirkland game was judged by many spectators as the most thrilling of the entire tournament. Canyon, known for its tall men, faced Red Connor, 6-foot, 8 inch center of the Kirkland team, and the Nippert brothers, both of whom were six feet, 4 inches tall.

Members of the Canyon All-Stars included Brookfield, Maddox, who is also a regular member of the Buffalo team, Ford, Sargent, Morrison, and Manfold.

U. S. WHEAT MARKETS SHRINK

A problem facing U. S. farmers in 1941 is the great reduction in wheat export outlets, as shown by the chart above. U. S. Department of Agriculture officials point out that continued acreage adjustment under the AAA Program is necessary to balance wheat supply with decreased demand.

Not until they had defeated the strong Quail high school girls' team by one point were the Mobeetie girls able to take the tournament title in their division.

This winning team is made up of former members of the Mobeetie High School team which for two years participated in the State Girls' Basketball Tournament at Waco.

Six teams were entered in the girls' division. In the first round, Mobeetie defeated the Quail Independents, Kellerville beat Lone Mound, and Quail High School defeated Samnorwood. Quail got a forfeit from the Shamrock team, which was unable to appear, in the second round, and Mobeetie defeated Kellerville.

Score of the final game, the closest of the tournament, was Mobeetie 23, Quail 22. Kellerville defeated Samnorwood for third place.

"We're mighty well satisfied with the tournament," Paul Morris, Samnorwood coach, who was in charge of the plans, said Monday. "This is the first tournament

held here in several years, and we feel that we've shown the people of this county some of the best basketball in the entire Panhandle."

Local Jeweler Accepts Position In Mineral Wells

Henry West, who for the last year has been in charge of the jewelry department of the Palace Drug Store, left Friday for Mineral Wells, where he will be in charge of the watch department of a jewelry store in that city.

He was accompanied by Mrs. West and their small son, Larry Hugh.

"We've enjoyed living in Wellington, and we really hate to leave here. We're leaving some mighty fine friends," both Mr. and Mrs. West said before leaving.

West's business address in Mineral Wells is the Gem Jewelry Store.

Texas land irrigated in 1936 totaled \$65,000 acres.

Mother Of D. H. Handley Dies

Mrs. Martha A. Handley, age 92, died Friday morning, March 21, at the home of her daughter, Mrs. Odus Owen, in Lockhart. Mrs. Handley was the mother of D. H. Handley of Wellington, and Felix Handley of Altus, Okla., who formerly lived here.

Although Mrs. Handley never lived here, she had spent a great deal of time here visiting her sons, and she had many acquaintances here. The family came to this area in 1903, and to Childress in 1907. For the last fifteen years she had made her home in Lockhart. J. D. Handley, her husband, died a year ago.

Funeral services were conducted Saturday at Lockhart. Going from here were Mr. and Mrs. D. H. Handley, and Mr. and Mrs. Bess Owens.

In addition to her sons here and at Altus, Mrs. Handley is survived by these children: Hillery Handley of Crosbyton, LeRoy Handley of Lockney, Dozier Handley of Nacogdoches, Brown Handley of Eagle Lake, and Mrs. Owen of Lockhart.

Mrs. Frank Stuckey Shower Honoree At Bryant Home

Friends of Mrs. Frank Stuckey were guests at the Bryant home last Wednesday evening when Mrs. Tom Bryant, Mrs. Truman Compton and Mrs. Iva Richards entertained with a stork shower honoring Mrs. Stuckey.

Twenty-five guests were present for the evening and were registered by Miss Verda Thompson. After the gifts were displayed the guests were served coffee and sandwiches from a beautifully appointed tea table. The lace covered table was centered with a bowl of pink and blue sweetpeas and blue tapers. Mrs. Ervin Brewer presided at the silver coffee service and was assisted in the serving by Miss Ina Mae Yarbrough. Favors of miniature basins and pink napkins made in the shape of baby sweaters were given each guest.

An unusual game which provided amusement for the group was to identify baby pictures of each guest present.

Those present were: Mmes. Nannie Davis, Aubrey Stuckey, John Lee, D. H. Handley, Joe Terry, W. C. Skinner, V. V. Durham, B. B. Ballowe, Ervin Brewer, J. E. Miss Lucy Kesler Marries Alvin Roy In Rites At Hollis Sunday

Miss Lucy Kesler, daughter of Mr. and Mrs. T. W. Kesler of Wellington, became the bride of Alvin Roy, son of Mr. and Mrs. H. L. Roy of Wellington, in rites performed at Hollis, Okla., on Sunday, March 23, at 5:00 p. m. The Rev. Paul B. Cullen, pastor of the First Baptist Church at Hollis, officiated over the services performed in the parsonage.

The bride was born and reared in Collingworth County, and she has attended county schools. She was graduated from Dodson High School in 1939. Her parents have lived in the county for twenty-six years, and during that time have been active in community enterprises, and church activities.

The groom was also born and reared in the county, and his parents have been living here for twenty years. He, too, attended county schools and is a graduate of Wellington High School with the class of 1940. His parents have also been active in community activities. The groom's occupation is that of farming.

The bride wore a navy blue dress, trimmed in white. Her accessories were of navy blue. Accompanying the couple were Mr. and Mrs. Glenn Roberts and Miss Ethel Sue Clement of Wellington.

The couple will make their home south of Wellington on Route 2.

SWEARINGEN

By W. A. ANTHONY

We are all rejoicing over the fine rains, and are hopeful at crop prospects for this year.

Prospects are really flattering at present; in fact, they are the best in the past several years. Wheat pastures are exceptionally good and promise a good grain crop.

Emmett Stephens is working for E. H. Rasco, who lives near Memphis. Mr. Rasco formerly lived on the Thorne place near Swearingen.

Alva Anthony has been suffering with inflammatory rheumatism, but was able to return to his work at the Bounds' Garage at Lakeview this week.

Mrs. Gene Hughs of Childress is visiting in the ranch home of Mr. and Mrs. J. E. Hughs.

State 4-H Club Enrollment Up

COLLEGE STATION.—Enrollment in home demonstration and girls' 4-H clubs show a steady upward trend for the past three years. The aggregate in both girls' and adults' clubs has increased from 72,929 in 1938 to 85,108 in 1940.

This represents a gain of 14 percent for the past three-year period says Helen H. Swift, sociologist, working with rural women's organizations for the Texas A. and M. College Extension Service.

In 1938 there were 32,258 4-H club girls enrolled in 180 counties; in 1940 there were 38,851 in 191 counties, representing an increase of nearly 17 percent. Increase in enrollment of club women was computed at 13 percent. The figure rose from 40,611 in 1938 to 46,257 in 1940.

From 1939 to 1940 there was an increase of more than 8 per cent in the aggregate enrollment of women and girls, Miss Swift adds.

Senior Series

Robert Baumgardner

Helen Maxwell

Margie O'Rear

Margie was born June 14, 1924, at Wellington. She is the daughter of Mr. and Mrs. W. L. O'Rear. Margie attended Rolla eight years and then came to Wellington to spend the other three years of her allotted eleven. During our association with her, we find "it is no broken reed we bend when we trust her." Speech and home economics have claimed most of her time. She has been in the pep squad three years, acting as leader two years, and has been active in other fields, such as basketball, reporter on the "Skyrocket," and a member of the Glee Club. She was in the junior play of 1940, and the Pep Squad play of 1941. Margie has made up her mind to attend Draughan's Business College in Wichita Falls and become a secretary.

Evelyn Mae Ball

The driver of that yellow pickup, with a little black and white dog in it is Evelyn Mae Ball, daughter of Mr. and Mrs. R. H. Ball of 1001 Dalhart street. She was born October 28, 1924, in Wellington, and has attended school here for eleven years. Her favorite subjects have been English and Physical Education. Evelyn was a member of the F.H.T. two years, in the English Club one year, and she also plays the piano. She was a member of the Senior Play cast of 1941. Her plans are to attend Denton or West Texas State College at Canyon next year. After this she wants to be an English teacher or short story writer. "Remember friends, and bear in mind, a friend like Evelyn is hard to find."

Maudine Lockhart

Maudine Lockhart was born June 25, 1924, at Wellington, to Mr. and Mrs. E. U. B. Lockhart. She has attended school here eleven years, and Spanish and home economics have been her favorite subjects. For one year Maudine was a member of the Glee Club, for two years a member of the Spanish Club, and a member of the Future Homemakers one year. She is not certain, but she plans to attend Nelson's Beauty School in Dallas and become a beauty operator. Maudine is always the same—friendly and optimistic.

Elsie Christine Boggs

On March 6, 1922, Christine Boggs was born at Eufaula, Okla. Three years of her twelve school years were spent in Wellington, and the other nine in Anadarko, Okla. Her favorite subject is typing and she has been a member of the Choral Club one year and the pep squad one year at Wellington. Undecided as to where she will

attend school, Christine intends to major in surgery and become a nurse. And this is what we predict for her—"Serene will be her days—bright and happy will be her future."

Milton Edward Huffhines

Edward, or Ed, as a lot of his friends know him, is the blond, curly-haired boy who makes so many of the girls take that "second look." To the boys he is an all around good fellow who takes as he gives. Edward was born on March 1, 1922, at Wellington. His parents are Mr. and Mrs. M. A. Huffhines, who live on Route 5, Wellington. Edward has been with us here at Wellington only two years. His other school years were spent at Grassbur and Midway. He spent seven years at Grassbur, and three at Midway. He played basketball and baseball two years each. His favorite subjects have been agriculture and history. Next year Ed plans to attend school at NTAC at Arlington. When his education there is complete, he intends to join the navy. Luck to you, Ed, we're betting on you.

Harley William Hatch

Billy, as his friends know him, is the boy with a smile on his face and a hearty greeting for everyone. A person doesn't know Billy unless he loves him for his good nature and the sunshine in his heart. You can't meet Billy and help being cheered by his merry laughter and cheery smile. This ray of sunshine came into the world on February 20, 1924, at Eldorado, Okla., as the son of Mr. and Mrs. F. A. Hatch. They now live at 1205 Amarillo street in Wellington. Billy has honored us with his cheering influence only one and one-half years. He spent ten and one-half years at Eldorado. There he was in the junior play and was vice president of the junior class. In Wellington he has been in both the junior and senior plays. Billy at present plans to go to Washington, D. C., and go to night school there. He is undecided as to the type of career he will pursue.

Ronald Hoyt Short

"His heart was as great as the world, But there was no room in it To hold the memory of wrong." The managing editor of the "Skyrocket" in 1939-40, and the editor of the same paper during 1940-41, was born January 29,

NEW NOTES FOR SPRING DRESSES

Take your choice for spring—the military motif or the floral motif. Both will be popular. Elizabeth Russell, left, chose a silk crepe dress patterned with red daisies on a white background. Harriss Brin wears a nautical navy crepe dress, with white silk tape trimmings. The knife-pleated skirt, striped dickey, cuffs and skirt border add a breezy naval air. Both are CBS stars.

1924, at De Leon, Texas. He is the son of Mrs. J. O. Short, who lives in Wellington. Hoyt has attended school here ten years, which has been the sum total of his schooling.

Hoyt has had a varied and interesting high school life. He was in the junior play and in the senior play. He was a contestant in district Latin contests two years, 1937-38 and 1938-39. He was also in dramatics two years.

Hoyt has selected as his favorite subjects typing and journalism. Next year Hoyt plans to go to either Texas Technological College or West Texas State College and major in business administration. Wherever he goes, his friends are sure that this curly-headed, smiling and friendly boy will meet with great success.

James Robert Bowen Jr.

July 4 was further set aside as a day of rejoicing for Mr. and Mrs. J. R. Bowen in 1922 when Jimmie Bowen was born. "Bear," as Jimmie's numerous friends

know him, is the type of person who has for his place, everywhere; and for his time, forever.

Bowen school claimed seven years of Bear's life, and Wellington five. During his years at Wellington, Jimmie has been president of the Spanish Club, president of the English home room, and vice president of the band during 1940-41. Jimmie seems to be the Senior Class' athletic gem. He has played four years of football, one year of basketball, participated in track for two years, tumbling one year and boxing four years.

Thus it is but natural that when he goes to college he should choose to major in physical education. Jimmie plans to go to the University of Southern California in Los Angeles. After completing his education he plans to teach physical education. Jimmie is equally suited for teaching because of his friendly and cheerful disposition, and there his friends take pleasure in wishing him success and happiness.

Fort Brown, Texas, March 22, 1941.

Dear Deck:

I am writing you, and I guess you will be surprised.

Everything is going just fine in the Army. I sure like. It is a swell life, but the best thing is being in the cavalry. But I had never ridden a horse much before I got in the Army.

I am in the Radio Squad of the 124th Cavalry, which was a Texas National Guard unit before they were mobilized into the U. S. Army. They were from Fort Worth, Texas.

We get off every Sunday and Saturday evening, and stay out every night till eleven o'clock. Last night the Chamber of Commerce gave the Army post a Boy-Meet-Girl dance. It was well attended.

The Fort Brown Post is just one mile from the Old Mexican Border.

The news in this letter covers the affairs of the Wellington Leader and also the people of Collingsworth County.

Sincerely yours,
Lee Roy Harris,

THE ADVENTURES OF REDDY KILOWATT

Foiled by a Light Globe

Dear Friends:
I didn't know what to do, the day those toughies laid their plans to steal Mr. Brown's car. But the idea came to me..

I went to the tool box and got wires and insulators and a hammer and some screws. It doesn't take much to run a line to the garage..

Then I got one of the outdoor flood lamps and hooked it up. I smiled as I finished the job because..

Radio Changes Effective Sat.

The frequency changeover of practically all radio broadcasting stations will be effective Saturday, March 29, listeners were reminded this week.

Most stations have given this change full publicity. Given below is tentatively how the frequencies change:

All stations now broadcasting on 550 kilocycles to 720 kilocycles retain their same frequency.

Stations now operating between 740 and 780 kilocycles will move up 10 kilocycles respectively.

Stations now operating between 790 K. C. and 870 K. C. will move up 20 kilocycles respectively.

Stations now operating between 880 K. C. and 1450 K. C. will move up 30 kilocycles respectively.

Clear channels between 1460 K. C. and 1490 K. C. will move up 40 kilocycles respectively.

Stations now using a frequency of 1500 K. C. move down to 1490 K. C.

A few other stations now using frequencies above 1500 K. C. will make irregular shifts.

These changes will also make it necessary to reset the push buttons on those radios having this equipment.

ONE WEEK'S WAR REVIEW

MARCH 19—MARCH 26

Spring, which England has feared for so long, and of which the Axis has so long boasted, arrived this week. And it looked as though action in the impending Balkans war would open any day.

YUGOSLAVIA, never an important nation in Europe, kept mighty Germany waiting for much of the week, while she decided just what she would do about joining the Axis. Join she did, only to have her own people denounce the move as an act of treachery. Most violent objectors were the Serbs, one of the strong racial groups of the country, and among whom World War No. 1 started. Open revolt threatened Wednesday.

GERMANY included Iceland in the war zone, and carried on military operations within three miles of that country. They claimed that 19,000 tons of British shipping were sunk over the week end, and 30,000 tons more early in the week. Their drive down through Bulgaria was said to be gathering force and a strike at Greece was believed near.

ENGLAND was scattering her troops over Africa by airplane and predicted the capture of Addis Ababa, capital of Italian Ethiopia by May. German troops on parade across the English Channel were machine-gunned by the R. A. F.

RUSSIA, for the first time since the opening of the war, took definite action against the German advance. The Soviet signed a friendship agreement with Turkey by which she guaranteed "benevolent neutrality" and in addition something that might be a first cousin of the Aid-To-Britain plan of the U. S. Russia also revealed she had prohibited any further export of oil to Germany, and that her troops are being concentrated where they might best help in protecting the Dardanelles.

GREECE claimed new successes against the Italians.

FRANCE was silent through the week, but one reputable news source in America indicated that the French food problem was not a case of no food in the country, but simply a case of distributing it over the country. Since Germany took most of the French rolling stock shortly after the capitulation, there is no way of getting the food they have from one part of the country to another.

ITALY announced the resignation of Marshal Rodolfo Graziani, commander of Italy's North African Army. Graziani, once a hero, apparently has failed utterly even to protect Italy's possessions on the African continent.

Mr. Ballard reminded the listeners that while the individual farmer paid for the cost of the improvement of his soil, certain agencies were open to him whose services he might not secure individually, including WPA labor, and CCC labor in case such a camp is established in the district.

During the latter part of the meeting, Mr. Ballard made inquiry into the farm conditions of the county, the various things which the local farmers believe are necessary for the conserving on the soil and water on their land, into the various types of farms found in the county, and the willingness of those attending to co-operate with a soil conserving plan if a district is formed here.

CHANGING FOOD HABITS

Great Grandpa probably never tasted a tomato salad, a stringless green bean, or a grapefruit. And to him vitamins, protective foods, or fresh spinach in December were unheard of. These are but a few of the developments that have brought changes in our food habits since Great Grandpa's day.

"Both for better and for worse," says Doctor Stanley, chief of the Bureau of Home Economics, U. S. Department of Agriculture, "the food habits of the people of this country have changed markedly in the past few generations." She states that one of the most encouraging trends over the period of the past 50 years, from the nutritional standpoint is the sharp increase in the amount of milk, tomatoes, citrus fruits, and leafy green vegetables that we eat.

On the debit side of the nutritional ledger, Doctor Stanley places some of our developed food preferences. "A modern standard of fastidiousness," she says, "has led many of us to use the lean-muscle cuts of meat to the neglect of the organs of animals." We overlook the values of skim milk. Though skim milk lacks the fat in whole milk it is as rich in protein and in much-needed calcium. The modern excessive refining and milling processes strip food products of many nutritive qualities.

"Any person who is working to reshape his own food habits," says Doctor Stanley, "owes it to himself to change for the better. He needs to check carefully to see how his regular diet measures up to the standards for good nutrition."

Here is what a normal adult should have every day according to a check list recently published by the Bureau of Home Economics:

Milk—1 pint or more. Leafy, green, or yellow vegetables—1 or more servings. Tomatoes, oranges or grapefruit, or any other vitamin-C rich raw fruit or vegetable—1 or more servings. Potatoes, other vegetables, or fruit—2 or more servings. Eggs—1, if possible. Lean meat, poultry, fish—1 or more servings. Cereals and bread—at least 2 servings of whole-grain products. Fats and sweets—as needed to satisfy the appetite. Water—6 glasses or more.

As for changing family food habits, "the hand that sets the table" is the hand that wields the

TO MINERAL WELLS

Henry West, Wellington jeweler, left Friday with his family for Mineral Wells, where he will be in charge of a jewelry store department.

The important part the homemaker plays in improving family diets was illustrated over and over again in a recent nation-wide survey of what this country eats. In this study, conducted by the Bureau of Home Economics, well over one-third of the nation's families were estimated to be living on diets below the "safety line" for good nutrition. Thousands of diets could be brought up well above the safety line by using more milk in its less expensive forms, and by including more of the cheaper leafy and green-colored vegetables.

Only by keeping up-to-date on food values and nutrition, by good management, and by good-cooking, can the homemaker provide the very best diet the food budget allows.
