## Monday, December 4, Trades Day

### Help Wanted By Local Red Cross

WANTED AT ONCE two hundred volunteers for membership in the Dawson county RED CROSS Chapter, in order that we may reach our quota of 400 assigned this chapter.

We have only reached one half of this quota, and our time is drawing near to make our report, and we regret very much for this county not to reach their quota after receiving so much benefit from this wonderful organization during the past year.

Most all of our business men have graciously responded to this call, and others will I am sure do their part when solicited. But we would like to urge that you not wait for some one to take their time to call on you, for after all you should volunteer your support to this great cause.

We have not up to the present time extended our call to the rural communities, other than ask for volunteers, but if we are able to reach our quota, it will be necessary for the entire citizenship, both urban and rural to do your part, and not expect just a few to carry the burden.

Our beloved President, has all but demanded that the Civil Service employees respond to all worthy charity organizations. Then those among us in this county, who have been fortunate enough to make a fair living should gladly respond to this call, and help this chapter to maintain a strong membership, for we never know when some great calamity may befall us.

This is the day of THANKSGIVING, and while we are being thankful for the any blessings we are enjoying, let us not forget the millions of unfortunates, who may go unclothed and unfed this coming winter, and remember that your membership in the Red Cross will help feed some unfortunate.

We want to thank those who have given of their time and money in helping us with this drive.

Signed:  
Billie Baker, Pres.  
C. Baldwin, vice-pres.  
Mrs. W. D. Arnett, Sec.  
J. D. Dyer, Treas.  
Ed Hayden, Roll Call Chair.

VOL. 3 LAMESA, DAWSON COUNTY, TEXAS, THURSDAY, NOVEMBER 30, 1933 NO. 42

### Lamesa--Matador Play Thursday

The Lamesa Golden Tornadoes are in Matador today playing that Matador High school football team to determine who is to be champions of this district in class B football.

Matador defeated Levelland last week by a score of 33 to 13 to earn the right of meeting the Tornadoes for the championship. Lamesa had previously won from Spur to enter the district finals.

The two teams as far as can be determined are evenly matched in every degree. There is only a difference of two pounds in the starting lineups and the reserves compare about the same. Both teams stress a running attack with both teams boasting of several fast men in the backfield. The lines are about of an equal featuring men who charge fast and tackle surely.

Several hundred Lamesa fans are in attendance at the game yelling for the Tornadoes to bring home the district championship. Here's hoping that the Tornadoes capture this contest and win the right to meet the Rotan team next Friday for bi-district honors. A detailed report of the game will be carried in next week's paper.

### "LAMESA HI-LIFE"

Tate Hutchins, Reporter

Ten or more of the local faculty members are attending the annual meeting of the Texas State Teachers' Association which is being held in Austin this week. Due to their absence from the schools, no school will be held on Friday following the Thanksgiving holiday.

Schools will therefore be closed for the two days, Thursday and Friday of this week.

Coach Lester Gregg has started the basket ball squad to work with the players who are not on the football teams. Prospects are quite promising for another strong team.

If the Golden Tornadoes are successful in their game Thursday of this week against Matador, they will then meet Rotan the following week for the bi-district championship. Of course if Matador wins, that team will meet Rotan.

Twentyfive dictionaries have been received for use in the public school class rooms and libraries. These books will serve to protect the larger and more expensive books and better serve pupils who seek short definitions or information as to pronunciation or spelling.

Part-Time Commercial Classes

The Commercial Department of Lamesa High School has been approved for Vocational Instruction by the State Department of Education for

employed workers and unemployed persons 16 years of age or over who would seek to equip themselves for the future by studying in the local schools.

The classes which are proposed to be organized will meet in the afternoons at times between 3:30 and 6:00 under the direction of Miss Commie Zell Barnes. Miss Barnes has been with the local schools for six years as instructor in commercial subjects. She has had successful teaching experience and has made an excellent record in the Business Administration School of the University of Texas. It is through her ability and training as a teacher of commercial subjects that offer the courses at this time through Lamesa High School is enabled to co-operation with the Vocational Department of Education.

The courses offered will depend upon the demand. Possible courses are Bookkeeping, Shorthand, Typing, Commercial Arithmetic, Business English, and Spanish for persons engaged in commercial enterprises.

The expenses to the individual students are to be kept low. A small fee for rental on equipment will be the only charge. The major items of expense will be met by subsidy from the Vocational Division from Federal and State sources.

Persons interested in the proposed offerings should consult Miss Barnes.

### "Beware of the Common Cold" Says Dr. J. W. Brown

Austin, Texas, Nov. 27.—"Beware of the common cold," Dr. John W. Brown, State Health officer, in a statement issued here today, cautioned the people of the State of Texas. "This is the season of the year when colds are most prevalent, and their consequences more far reaching. The organism causing the disease is not known, but every individual is acquainted with its effects."

Not a little of the susceptibility of catching colds can be overcome by a gradual acclimating to lowering temperatures and inclement outdoor weather. This hardening should begin now, and consist of regular exercise—walking is good—to be continued throughout the winter, in weather of every kind. Some things to avoid are wet stockings, drying on one's feet; over-heavy clothing; over-heated rooms.

There are two broad principles to observe in the treatment and prevention of colds. The first says: "Let the patient keep to himself, and keep his oral and nasal discharges to himself." This includes indiscriminate spitting, kissing, and other forms of contact.

The second principle requires doing away with coddling and overprotection of the body against the elements. "The cold is a common disease,"

Dr. Brown said. "But every cold is important enough to justify careful attention and treatment for its immediate cure. Death-dealing pneumonia and tuberculosis may begin with colds that did not receive care and attention."

"Over-indulgence of devitalizing stimulants, such as alcohol, tobacco, tea, and coffee do much to lower the resistance to colds."

**WHY WAIT FOR GEORGE TO SPEND IT**

Legend tells of a Chinese philosopher who said that at a given moment each and every one of us is standing at his lowest point so that the sun in the moon might shine upon him at his lowest.

The great day came and silence fell upon the land except the feeble cry of one old man. Everyone else kept quiet so that he himself could hear the silence.

Thus we see that one more ancient discovery may be credited to the resourceful Chinese—that of "letting George do it"—the most widely used of all their gifts to civilization.

Today too many of us are waiting for George to spend it. I am no prophet. I have no standing as an economist. And I am not a magician despite my claim that a thing can be made larger by taking away a part of it.

The best way to insure capital is to spend a part of it when prices are low.

The man who spends one dollar out of ten in making business better will find the nine worth more than the ten as values rise.

Mass achievement is ever a matter of individual and co-operative action. Napoleon got his army over the Alps a man at a time. We must rescue the peaks of prosperity the same way. The Now Is The Time To Buy Trail is our best path.

Each one who can must spend—and millions can spend if they but will.

While we are waiting for the release of frozen funds to start a buying wave, nineteen out of every twenty dollars in 16,635 banks are free to spend as we will. \$33,095,971,000 are on deposit. This is 25 per cent more money than we had in all of our banks when we went into the World War to help save those across the sea.

Now we refuse to save ourselves.

Depression will linger if we wait to spend out of income instead of out of capital—and our capital may shrink while we wait.

Industry has signed with N. R. A. Some have signed until it hurts. The public should now sign with industry and spend some of its capital. The cow without pasture can give no milk. An industry without sales can pay no wages. Food industry. Buy something. Build something. Let us not forget this: faster an hour of work than a dollar for sale.

Capital is going to take care of the unemployed—either by buying what labor produces or by doing it. The choice is obvious.

And when we spend, personal selfishness should take a holiday. The chisel should not replace the golden rule as a business tool. Those who use it will help produce depression and in the end murder quality.

Let's take a look at the Blue Eagle.

We see in its grasp the symbols of industry and action. The chisel is conspicuous by its absence. Let's remember this whenever we do business with our fellow men.

And further, neither capital nor labor should attempt in times like these to trench itself at the expense of the common good. And no chisel should look in any political coat-tail. Let us have public, as well as private, unselfishness.

Ours is the richest country in all the world. It is rich in money. It is rich in market. It is rich in a necessity of replacement and repair built up by the highest standards of living the world has ever known.

Let's inflate our confidence before we inflate our currency. Let's remember that God helps those who help themselves and that Mr. Roosevelt is not likely to do more. He can't throw the forward passes and catch them too. He expects each and every one of us to play ball with him.

Let's stop nursing depression. Let's begin to count our blessings. Business is better. It is like a man with a trunk half way up stairs. It is but taking a rest before starting for the top. Let's give it a boost.

Buy Something!  
Build Something!

This message is not addressed to those who cannot spend or to those who now are spending. It is addressed to the man who is jingling the clacker dollar in his pocket, little aware that it is growing less in purchasing power as prices rise.

technically as the respondent. The complainant is next requested to state the business in which the respondent is engaged. The principal product handled and the principal service rendered. Space is also provided for other details clearly indicating violation of some definite provision of the code to which respondent is subject.

When properly filled out these forms will give a complete and quick picture of the nature of the complaint. With the forms in the hands of postmasters and available to all citizens, the facts concerning reported violations may be sent to Mr. Tutt's office in the Chamber of Commerce building, thus insuring prompt action.

This arrangement possesses a double advantage. The citizen filing a complaint will have his of her complaint investigated more quickly than if a letter were written to Washington headquarters and returned to Mr. Tutt's office. "We have received very few complaints," Mr. Tutt said today, "and with the complaints filed directly with district or local boards in proper form, it will be possible for the local officials to get at the root of the matter at once and take such action as may be warranted by the facts developed in the investigation."

**CARD OF THANKS**

I wish to thank each and every friend for their many kindnesses shown me during my recent illness.

Visits, expressions of interest, flowers, cards, and varied delicacies which lightened my hours of suffering and reminded me of love and service of our Savior who said, "As often as he did it, to even the least of them he did it unto me."

May God's richest blessings rest

upon each of you is my daily prayer.

**Blank Forms For Filing Complaints In Proper Form Distributed**

With a view to expediting action on complaints of violation of specific codes of fair competition for industry and trade groups as well as the blanket code, the National Recovery Administration has distributed to postmasters throughout the country printed forms on which such violations may be reported to local and district compliance boards, according to Ernest L. Taff, District Compliance Director.

This action was taken following the receipt of thousands of letters complaining of "chiselers" and code violations. Many of these letters give incomplete information necessitating further correspondence. The forms are intended for the convenience of citizens who feel warranted in reporting individuals or firms which they believe to be violating specific provisions of codes. In order to discourage "spite" complaints, space is provided on the printed forms for notarization of certification by one or more witnesses familiar with the facts. The printed forms call first for the name of the individual or firm against whom the complain is made, known

## Unique Shower Given For Bride

Honoring Mrs. J. D. Wilson, nee Miss Thelma Guernat, Mrs. T. F. Vaughn and Miss Maurine Morgan, entertained with a miscellaneous shower last Friday evening at the club house. Bowls of chrysanthemums and roses added to the attractiveness of the room. Each guest was presented with a nosegay of fern and small

chrysanthemums. As the honoree arrived beautifully gowned in a black satin dinner dress wearing a corsage of sweetheart rosebuds Mrs. Barnard played the wedding march.

Eleven tables of bridge and forty-two were enjoyed until a late hour.

A solemn hush fell over the players as Mrs. Barnard sang, "I Love You Truly." This solemnity was quickly broken by the appearance of Bob Crawley dressed as a negro janitor slowly sweeping, to the tune of Lazy Bones, a very exact reproduction of the First National Bank. After laboring strenuously he finally approached the bride-to-be's table and gave his permission to rob the bank. Miss Guernat, a trusted employee of this institution, hesitated but was quickly persuaded to break open the door which revealed many beautiful and useful gifts.

Delicious refreshments of fruit salad, toasted crackers, salted nuts and hot chocolate were served to fifty guests.

Tuna fish sandwiches, congealed salad mints and hot chocolate were served.

Those who sent gifts and attended were Mesdames A. M. Bishop, Brit Miller, Floyd Woods, Harvey White, F. L. Buckalew, R. E. Reising, C. A. Summerlin, W. S. Ray, G. W. Cherry, G. G. **1,400 Schools Expected to Participate in League High School Basketball**

Austin, Nov. 27.—Basket ball is already attracting many high schools over the State, according to Roy Henderson, athletic director of the University of Texas Bureau of Public School interests. Approximately 1400 schools are expected to participate in interscholastic League basketball. Schools may enroll without penalty on this sport until December 15, while a penalty is imposed from that date until the final deadline on January 15.

A slight change has been made in the operation of the basketball tournament of the League this year, Mr. Henderson said. A regional championship has been interpolated between the bi-district championship and the State meet, the state being divided into eight regions, one team from each region to compete for the state championship.

**Regulations Governing Use of NRA Emblem**

Regulations governing the use of the NRA emblem and insignia were issued today by the National Recovery Administration.

The rules do not prevent the labeling of articles made under codes, but they do prevent the use of emblems and insignia containing the letters "NRA" or the "Blue Eagle" phrase as a part of trade mark or trade name. A government patent was issued some time ago safeguarding the blue Eagle insignia against exploitation.

The full text of the regulation follows:

By virtue of the authority vested in me by Executive Orders issued by the President, dated June 16, 1933, and July 15, 1933, and October 14, 1933, and supplementing the rules and regulations prescribed by me under date of October 17, 1933, I hereby prescribe the following rules and regulations which I deem necessary to supplement, amplify or carry out the rules and regulations prescribed in the last mentioned Executive Order:

A. No one shall use any emblem or insignia of the National Recovery Administration or any part of any such emblem or insignia or the letters "NRA" or the letters "NIRA" or the phrase "Blue Eagle" as a trade mark or trade-name or part of a trade mark or trade-name; but this rule and regulation shall not be construed as to prevent the labeling of any article in any manner authorized by any Code of Fair Competition approved by the President under title I of the National Industrial Recovery Act, approved June 19, 1933.

B. No one shall use any emblem or insignia of the National Recovery Administration upon merchandise or the containers thereof where such emblem or insignia so nearly resemble a registered or known trademark owned and in use by another and appropriated to merchandise of the same descriptive properties as to be likely to cause confusion or mistake in the mind of the public or to deceive purchasers.

Any person who violates either of the foregoing rules and regulations may be punished, as provided in Section 10 (a) of the National Industrial Recovery Act, by a fine not to exceed Five Hundred Dollars (\$500) or imprisonment not to exceed 6 months or both.
