

## WEATHER

West Texas: Partly cloudy, scattered showers in Panhandle and So. Plains this afternoon and tonight. Warmer Tuesday.

## INDEPENDENCE

In business is worth the effort involved in attaining it, but it cannot be long enjoyed if one forgets that competition is everlasting.

# East, West Berlin Police Quell Threatened May Day Violence

## Burglary Admitted By Sooner Youth

The son of an Oklahoma night police chief confessed Saturday night and Sunday to the March 28 burglary of Heavy's Package Store on S. Cuyler before Gray County deputy sheriffs and Sayre, Okla., authorities.

## Bank Deposits Up \$862,000

A gain of more than three-quarter million dollars in deposits over last year was shown by Pampa's two banks this morning following last week's surprise call for condition by the U. S. controller of currency.

Of the two, the Citizens Bank and Trust Co. showed a gain of \$412,653.85, and the First National a gain of \$250,198.13.

However, both banks showed steady deposit gains during the past 12 months.

The Citizens reported total deposits of \$5,405,242.06 at the last call on April 11, 1949; jumped to \$5,904,725.61 by Dec. 31, 1949, at the regular call for condition.

This year's surprise call, which came April 24, showed the bank holding \$6,017,795.74 in total deposits.

The First National, on April 11, 1949, held deposits totaling \$11,245,557.34; jumping to \$11,943,903.40 on Dec. 31. Today's figures showed the bank holding \$11,585,715.47 in total deposits.

The U. S. Comptroller of Currency makes two regular calls each year and one surprise call that can come at any time.

The break in the case came last week through other burglars caught in an Amarillo burglary when they gave themselves away by tripping a Beasley Alarm.

Young Williamson was handed a three-year suspended sentence a month ago for burglarizing a service station in Oklahoma and was being held Saturday by Sayre officers on another burglary charge alleged to have been committed in Sayre about a week ago.

Williamson will be brought to Texas for trial at a later date, Jordan said, but would not disclose any specific time.

Meanwhile burglars struck twice at Pampa business houses late Saturday night or early Sunday morning, getting away with less than \$50 in cash and an (See BURGALRY, Page 10)

## Guill Group Holds 1-Hour Radio Rally

Twelve backers of Ben Guill, Pampa Republican congressional candidate, went on the air for one hour Sunday in a political rally over a network of eight Panhandle radio stations.

Among them were three Pampans and businessmen from Dalhart, Dumas, Shamrock, Wellington, Borger, Amarillo and Hereford.

It was the first Panhandle-wide radio hookup used in this campaign for political purposes by any of the candidates and originated in the Palm Room of the City Club, through the facilities of KPDM and led to stations KJVE, Ferrington; KDDD, Dumas; KKIT, Dalhart; KHUZ, Borger; KPAN, Hereford; KEVA, Shamrock; KETS, Childress and KAMQ, Amarillo.

Appearing on Guill's program were: Red Hobart, Mickey Ledrick and Dr. M. C. Overton, Jr., Pampa; Mayor E. G. Shuhart, Odell Walker, Dalhart; Bill Smith, Dumas; Curtis Trawick, Hereford; Pedro Dial, Shamrock; Dr. Charlie Jones, Wellington; Roy Ramsey and L. B. Nichols, Jr., Borger; and Frank T. O'Brien, Amarillo.

The short talks were interspersed with Western and modern songs by Billy Briggs and the XIT Boys playing in person in the Palm Room before the KPDM microphone. The program lasted from 1:30 to 2:30 p. m. and will be re-broadcast by transcription over the Amarillo and Perryton stations Friday night.

An event not planned by the sponsors happened yesterday. Residents awoke to find copies of the Daily Worker, official Communist newspaper, and two pamphlets at their doorsteps.

RUBLES FOR SALE—Frederick Rau, of Mosinee, Wis., places a sign in front of his home announcing sale in Russian rubles as the town gets into the spirit of being Communist-dominated for a day. The American Legion is sponsoring the idea to show citizens what they would be in for should the Reds ever take over Mosinee.

## 'Communists' Take Town in Wisconsin

MOSINEE, Wis. — (AP) — The pajama-clad mayor was dragged into the snowy street and the chief of police was "executed" today as a mock May Day insurrection clamped an iron hand over this paper mill community at sunrise.

Police Chief Caryl Gewis was theoretically shot down in his headquarters for failure to turn over his officers to the Reds. Leader of the flying squad which took over the police station was Benjamin Gaisow, who once was the real secretary-general of the Communist party in the United States.

Real party members were not in evidence as the 2,200 residents of Mosinee began their one day trial of life under Soviet rule. However, copies of the Daily Worker and pamphlets denouncing the American Legion-sponsored demonstration were distributed to homes some time Saturday night.

The surprise element apparently was maintained even for city officials in on the planning. One of six armed men each dragged protesting Mayor Ralph E. Kronewetter from his bed in the snowy street. He faced Joseph Jack Kronfeder, the commissar-for-the-day, who told the shivering mayor he was an "enemy of the people."

The mayor's watchdog, silent during the invasion, was reported to be an agent of the Communists.

Kronewetter, his city hall associates and other civic leaders were allowed to dress, then were carted off to a barred wire enclosure.

While the first arrests were made, other assault teams threw up road blocks, posted proclamations and raised the Red banner over city hall and the police station.

An event not planned by the sponsors happened yesterday. Residents awoke to find copies of the Daily Worker, official Communist newspaper, and two pamphlets at their doorsteps.

## Jeers Exchanged as Surge Toward Lines Thrown Back

BERLIN — (AP) — Hundreds of thousands of Berliners jeered each other across sector barriers in this tense divided city today during rival East-West May Day celebrations. There were sporadic flareups but police of both sides kept them from turning into riots.

Some 11,000 West German police, backed up by 8,000 specially alerted western allied troops, kept affairs in the West sector in hand while an estimated 750,000 Germans cheered speakers lambasting Russia and communism.

A few blocks away thousands of East Berliners converged on the Lustgarten for the Communist rally, a demonstration organized from start to finish and heavily guarded by Communist sector People's Police.

At one point anti-Communist demonstrators at Potsdamer Platz began surging toward the Russian sector border, despite efforts of West Berlin police to check them. At the Brandenburg gate, some of the demonstrators began shouting insults at the Communist-controlled East Berlin police, calling them the "Black S. S." and Communist Pigs.

The West Germans — officials said they appeared to be led by young roughhouse elements who began throwing stones — began shouting insults at the East Berlin police. Allied reports said the East Berlin police showed restraint, merely dodging the stones without even drawing their clubs.

After this incident, West Berlin demonstrators caused two East sector civilians and beat them severely. One of the victims was a photographer. West Berlin police reserves, answering a riot alarm, dispersed the unruly elements.

Potsdamer Platz long has been a hot center in the cold war. It has been the scene of many clashes between Communists and anti-Communists.

While the West German crowds converged haphazardly for their mass demonstration, regimented lines of thousands of East sector civilians in the East sector, marched past Soviet and German Communist chiefs in a Moscow-like copy of May Day celebrations of Red Square.

Thousands fainted in the burning sun today as they carried away British and American planes and helicopters soared over the Red Square.

(See BERLIN, Page 10)

## Bus Drivers Remain Idle

OKLAHOMA CITY — (AP) — The 40 striking Mid-Continent Trailways union bus drivers were still out today and no indications for a settlement were in sight. Kenneth T. Wilson, vice president and general manager of Mid-Continent, said the 240 maintenance and office workers affected would be back to work today.

He said the company had no immediate plans to resume service. Union officials said no picket line would be posted unless the company tried to run buses with non-union drivers.

Wilson and E. B. Welcome, deputy president of the Brotherhood of Railway Teamsters, said they expected Federal Mediator E. A. Walker to arrange negotiations by mid-week.

The strike Friday night was precipitated by the dismissal of Driver Ray Evans whom the company charged was discourteous to passengers. The reduced service is being felt in the 350 towns in Oklahoma, Kansas and Texas which Mid-Continent serves.

The union contends Evans wasn't given a fair hearing under the contract.

## COUNTY AGENT MARKS 20TH YEAR IN PAMPA

Twenty years ago today, May 1, 1930, Ralph Thomas arrived in Pampa to become Gray County's agricultural agent. His office was in the present constable's office on the first floor of the court house.

Thomas completed his job in a Plainview creamery about 10 o'clock on the night of April 30, and left immediately for Pampa. He arrived here the following day about 7 a. m., and after eating breakfast, went to work at his new job.

He has been in the office continuously except during service in World War II, when he was on leave of absence.

"They had their cotton plow program, in which they killed all of the little pigs, their cattle-buying program which included the killing of many cattle, and numerous others designed to relieve American markets of their surplus raw materials."

"All these programs," he continues, "went through my office."

One of Thomas' first jobs was to teach the local farmers how to run terraces. That was before the time of government assistance and the farmers had to do such work on their own.

"All I did was to plan the terraces for them, show them how to do it, and they ran their own lines and did all the work themselves," he explained.

Prior to Thomas' arrival, there had been no county agent in Gray County for three and one-half years.

He graduated from Texas A&M in 1921 with a degree in animal husbandry. Before coming to Pampa, he taught vocational agriculture, farmed, did landscape gardening in California, and was fieldman for a creamery at Plainview.

## Stiff Battle Faced By Senator Pepper

Florida Democrats will decide tomorrow whether to keep Claude Pepper in the U. S. Senate or replace him with Rep. George Smathers.

The Democratic primary, in which communism and parts of the Truman national program have become involved, has attracted a record registration of 1,006,590 voters. It will be watched nationally.

Alabama also is holding a Democratic primary tomorrow of interest beyond the state borders, offering possible new light on the depth of the civil rights dispute within the party.

Ballot box fireworks in those two states are likely to overshadow primaries in Ohio, where Democrats will pick an opponent for Senator Taft (R-Ohio), and in Indiana, where both parties will nominate for 11 House seats.

Florida voters will decide what looks like a photo-finish race between the veteran Senator Pepper and Smathers, 36-year-old former Marine. The primary winner isn't expected to have any trouble with Republican opposition in November, as only 60,895 Republicans are registered.

Smathers has been trying to hang a pro-Red label on Pepper, contending that the senator has been too friendly with organizations Smathers calls pro-Communist.

Denying this hotly, Pepper has fired back that Smathers has been running "a Republican campaign against me in a Democratic primary." Pepper says he has followed the "Roosevelt-Truman program."

Outsiders will be watching to see if they can detect any signs that the Communist in government charges made in Washington by Senator McCarthy (R-See BATTLE, Page 10)

## Fire Destroys General Store

McLEAN — (Special) — A fire at the Five-Mile station east of McLean on U. S. Highway 66, caused an estimated \$12,000 damage to a general store owned by Mr. and Mrs. Z. T. Jones.

The fire was discovered about 5:30 p. m. today, and was said to have started in the ceiling. Cause of the fire was unknown. The building was completely destroyed, observers said.

The building was a wood frame structure with imitation brick tiling. Adjoining buildings were saved by the McLean Fire Department, which arrived about 6:30.

## Air Force Plane Crash Kills Six

LEBANON, Ill. — (AP) — Six Air Force crewmen were killed yesterday in a crash of their B-25 bomber in a vacant lot of a residential area.

The dead were listed by the Air Force as 8-Sgt. Ralph H. Wallace, Greenville, Texas; Col. Richmond A. Livingston, the pilot, Pawtucket, R. I.; Maj. Donald H. Bremer, Coral Gables, Fla.; 2nd Lt. Richard L. Watson, Little Rock, Ark.; 8-Sgt. James A. Strum, Nashville, Tenn.; and T-Sgt. William I. Ball, Ozan, Ark.

Army officers said the plane was from Perrin Air Base, Texas.

## Four Californians Hurt Near Shamrock

SHAMROCK — (Special) — Four California residents were slightly injured late Saturday night when their car overturned two miles west of Shamrock on U. S. Highway 66.

Mr. and Mrs. Nicholas Caruso and their daughter, Mrs. Marie Sullivan, and Mrs. Sullivan's small son, all of Colton, Calif., were hospitalized Saturday night. All were released after receiving treatment for minor injuries.

An ambulance from Clay Funeral Home answered the call.

## Lubricant Firm Fire Damage Is \$45,000

PORT WORTH — (AP) — Fire destroyed about \$25,000 worth of oil and grease and damaged the Marathon Lubricant Company's building early yesterday morning. Firemen estimated building damage at \$30,000.

## News of Strike Riots in Home Country Fails To Dampen Chilean Leader's Visit to Texas

By WILLIAM C. BARNARD  
LUBBOCK — (AP) — News of strike rioting in his country failed to dampen the spirits or dull the charm of President Gabriel Gonzalez Videla of Chile today.

Continuing his brisk schedule, an irrigation project, appear in a football stadium and attend a luncheon before leaving for New Orleans. He is not programmed to speak at the stadium, but last night he expressed a desire to say a few words.

Gonzalez Videla was happily watching square dancers and listening to cowboy music at a ranch near Lubbock last night when a reporter brought news of strike troubles in his country.

The Interior Ministry was informed at Santiago that 66 national police and a number of striking steelworkers had been injured in clashes. Also, leaders of striking steelworkers plan a general walkout May 4 to coincide with his return from a state visit to this country that began April 12.

The president quickly gave his opinion that the strike troubles were Communist inspired, and he added: "I feel this is a typical reaction by the Communists after hearing that I have been received so warmly in the United States. I am not surprised that the Communists are trying to undermine me in any way that they can."

The greatest applause of the night at the ranch came when Gonzalez Videla was introduced. For the president had captivated West Texans.

He and his party arrived at 12:31 p. m. in CST yesterday from Houston aboard President Truman's personal plane.

Rep. George Mahon, who had preceded him through the doorway and was on the ground, called: "Come on down, Mr. President."

Gonzalez Videla waved his cowboy hat at the waiting crowd and "came on down" to meet a big civilian reception and to receive the officers club at the air base, the president moved around the room, shaking hands with all comers.

Later, he inspected the Standard Oil Company's new gasoline plant at Levelland, near Lubbock. "This is what Chile needs," he exclaimed. "The plant has diesel gasoline and some wells for liquid petroleum products from natural gas. Chile has two gas fields, but no plant to process it."

His host at last night's party was George P. Livermore, Lubbock oil man who has drilled 35 oil and gas wells for Chile. The affair was at the V-8 Ranch near Lubbock, owned by George Benson and Sam Arnett.

The Chilean president today was to inspect one of the many irrigation projects in this county, plus the farm of C. L. Crews at New Deal, Texas.

The military honors were Crews Air Force Base.

At a reception and luncheon at

## Amarillo Minister Given TCU Post

FORT WORTH — (AP) — Dr. Roy C. Snodgrass of Amarillo succeeds Dr. D. Ray Lindley as dean of Bible College of the Bible, Texas Christian University, Theological Seminary.

Dr. M. E. Sadler, TCU president, made the announcement yesterday. Dr. Sadler said the change is effective July 1.

Dr. Lindley, dean since 1942, resigned to become president of Atlantic Christian College, Wilson, N. C.

## Capital Is Stranded On Standard Time

WASHINGTON — (AP) — The nation's capital was left on standard time today while many sections of the country advanced their clocks one hour to daylight saving time.

Congress, which serves as the town council for the District of Columbia, may remedy the situation this week. Objections from lawmakers representing nearby rural areas caused the delay.

### Remodeling Payments Are Easier

New policies of the Federal Housing Agency permit easier remodeling of existing homes with only a small financial outlay each month, it was pointed out today by the Construction Research Bureau, New York City.

The new FHA ruling allows home-owner to borrow as much as \$2,500 for home improvements without a down payment, but job is sold in a "package," instead of splitting it up into several individual contracts.

Thus the monthly sum to be set aside for repayment of the 3-year loan is smaller than that of a conventional mortgage.

Most building contractors are selling complete jobs to include new siding; new roof; complete full-thickness mineral wool insulation; and conversion or remodeling of heating equipment.

Because the relatively long repayment period eases the payments, it is now possible for a home-owner to install an extra lavatory in an unused alcove or

pantry, to build a garage, or remodel the kitchen. Electrical installations, plumbing, conversions of attics to living quarters, basement recreation rooms, and purchase of large home appliances such as refrigerators, automatic washers and garbage disposal units, can now be included in a single loan.

### Pulitzer Prizes To Be Awarded

NEW YORK — (AP) — The 1950 Pulitzer prizes will be announced today at Columbia University.

The traditional American awards are given for the best public service, best newspaper, work and literature by a reporter, and the best dramatic work, best novel, play, verse, editorial, cartoon, biography and history of the preceding year.

The first Pulitzer prizes were awarded in 1918. They were set up by the will of the publisher Joseph Pulitzer, who died in 1911.

The National Geographic Society says a Belgian Congo prospect has 60 percent of the world's known output of uranium.

Time Beauties are excellent for being because they soften during cooking but still hold their shape.

### RELTOR Means Reliability

The REALTOR symbol on a real estate broker's office is a surer sign that he is absolutely reliable.

It tells you that he is an accomplished realty practitioner. It tells you he is governed by a strict code of ethics designed to assure your complete satisfaction with the service he renders. REALTORS are pledged to abide by this code. Any just complaint gains speedy hearing and brings severe penalty.

The following are the only (CITY) brokers obligated by the REALTOR code to give you competent, completely-reliable service.

## Asphalt Tile Floor Preparation Given

By BOB SHARPE, Written for NEA Service.

It is a simple matter to have a beautiful asphalt tile floor that is decorative as well as functional. Asphalt tile is a long-wearing, low-maintenance, and easy-to-install floor.

When laying asphalt tile, the surface must be smooth and level. It is necessary to lay out the center lines at right angles, using a chalk line and a carpenter's square, as shown in sketch.

After finding the center, measure the room, arrange the design, and estimate the quantity of material required.

To lay asphalt tile, spread tile cement evenly over half the square, and show in sketch.

Lower the tiles into the adhesive up. When laying marble or grained tile, place it with the pattern in adjacent tiles runs in opposite directions.

After the body of the floor is laid, cut the border tile to fit the wall and lay it. The cutting can be done by scoring the tile with a sharp point or pointed tool and breaking on the score.

To remove spots of adhesive from the surface of the tile, use a putty knife. Dip this with a soap suds. If this fails to remove all traces, use an alcohol, but never attempt to use gasoline or other solvents such as benzene or turpentine. Do not wash the floor for three days after installation.

## Homemakers' Lighting Tips

Have you ever given your rooms the glare test for eye comfort. If not, try shielding your eyes with your hand placed Indian Scout fashion above your eyes. If suddenly you feel more comfortable chances are that you need to check up on your lighting but, for all you do, don't put in counteract glare.

Instead, study each floor and table lamp to see if the shade is dense enough to prevent an excessively bright spot from the light source. Also, wherever possible, use diffusing bowls on floor and table lamps to soften the light. Naturally, if you have bare bulbs in ceiling fixtures or wall brackets, shield them with small plastic or paper shades.

Once you've made your room glare free it will be like stepping from a bright nookday sun into the restful shelter of a shade tree.

You can take it with you — your light, we mean. Don't hesitate to move your lamps when work calls for additional lighting. Many homemakers find that ironing goes faster and Da's shirts scorch less frequently when there's plenty of light on the subject. If you don't have a discarded bridge or floor lamp to press into service, borrow one from the family living room for the ironing period.

Continuing, the magazine said that 49 percent of the new homes contain two bedrooms, 36 percent contain three and 12 percent contain four or more.

Forty-four percent of the new homes are built by single contractors, the survey shows. Forty percent are built in owner-contractor collaboration and 16 percent by the owner himself.

The three features of new homes gaining most popularity are attached garage, picture window and combination living-dining room.

Finally, the survey shows that the \$10,000 to \$14,000 price range is the most popular, accounting for 31 percent of the total. The \$15,000 to \$19,000 price group is next with 18 percent and the \$7,000-\$9,000 group is last with 17 percent.

When you're building a new home or remodeling for the laundry of your dreams, don't forget to include one of the new fluorescent fixtures directly over the ironing center as well as over the stationary tubs.

Be sure to look for the Certified Tag when you shop for your next new floor or table lamp if you want the best in lighting performance. This label assures you sight-saving lighting as well as superior mechanical and electrical construction.

Although these lamps give guaranteed amounts of light as prescribed by lighting engineers who have spent years measuring the amount of light we need for reading, writing, etc., they will give you these guaranteed amounts of light only when placed properly.

For best lighting results, General Electric lighting specialists advise placing your floor lamp so that the stem is not more than 30 inches from your work and in line with the rear corner of your chair. Table lamps should not be more than 26 inches away from your task and should be placed just opposite your shoulder for maximum light and eye comfort.

Have you ever wondered why men — especially your own husband — object so strenuously to candlelight when it's a woman's way of making a special occasion of a meal. One reason is that candlelight often fills a room with too many contrasting shadows to make a pleasant dining atmosphere. Remember, it takes many candles to set that romantic mood you may remember from courtship days — not just two, weak flames in a large room.

One way to have all the glamour and romance of candlelight without weird shadows is to provide soft background lighting, too, with a pair of buffet urns and torcheres, or, new fluorescent lighted window valances. And remember, too, General Electric lighting specialists point out, never use a single pair of candles on a large table. Always use at least four and arrange them so that the vision of the people at the end of the table isn't distorted by peering through dancing flames.

Here's a handy tip well worth remembering next time you've a burned-out bulb to replace. General Electric lighting specialists have just learned that one clever housewife uses her sweeper attachments to aid in removing and replacing bulbs in out of reach ceiling fixtures. Use the longest attachment, the one for dusting tops of windows and with the sweeper turned on, place the end of the attachment over the bulb and unscrew. To insert a new bulb, place it on the attachment — the suction will hold steady — and screw it into the socket.

## TRADITIONAL CAPE COD STILL MOST POPULAR

This country is in the midst of the greatest homebuilding boom in history. The accompanying pictures show what Americans are building.

All of the information is from a recent nationwide survey of builders of new homes, conducted by the magazine Better Homes & Gardens.

Cape Cod is still America's preferred architectural style, but moving up fast in popularity are the "ranch type" and contemporary designs. Cape Cod is strongest in New England, in the East and West North Central regions. Ranch and contemporary styles are very strong in the West and Southwest; but in New England, one-fifth of new homes are ranch or contemporary.

Another surprising point brought out by the survey is that 37 percent of the new homes built in the country are built by or for persons of 45 or older. This age group is out the 35 to 44 group and the 25-34 category, each of which builds 30 percent of the new homes.

The Better Homes & Gardens survey also shows that the trend is away from the large and even medium large cities.

It was found that 34 percent of the new homes are being built in cities of less than 100,000 persons. Next in line were the suburbs of large cities, which accounted for 24 percent of the new-home construction. Last are the medium cities, 100,000 to 500,000 population, which account for 18 percent of the total.

Continuing, the magazine said that 49 percent of the new homes contain two bedrooms, 36 percent contain three and 12 percent contain four or more.

Forty-four percent of the new homes are built by single contractors, the survey shows. Forty percent are built in owner-contractor collaboration and 16 percent by the owner himself.

The three features of new homes gaining most popularity are attached garage, picture window and combination living-dining room.

Finally, the survey shows that the \$10,000 to \$14,000 price range is the most popular, accounting for 31 percent of the total. The \$15,000 to \$19,000 price group is next with 18 percent and the \$7,000-\$9,000 group is last with 17 percent.

### Preferred Size of Homes

Two Bedrooms 49%

Three Bedrooms 36%

Four or More Bedrooms 12%

Approximately one-half of the new homes built in the United States have two bedrooms, according to a recent survey by Better Homes & Gardens. The Newchart above gives percentages of new homes built with two, three and four or more bedrooms.

Continuing, the magazine said that 49 percent of the new homes contain two bedrooms, 36 percent contain three and 12 percent contain four or more.

Forty-four percent of the new homes are built by single contractors, the survey shows. Forty percent are built in owner-contractor collaboration and 16 percent by the owner himself.

The three features of new homes gaining most popularity are attached garage, picture window and combination living-dining room.

## Youth Held in Fatal Shooting

KNOXVILLE, TENN. (AP) — A teen-age nephew of a Knoxville policeman was charged with murder in the slaying of a 16-year-old boy.

A murder charge against George King, also 16, will be heard Friday in juvenile court, said City Home-Cide Officer Carl Bunch. The slain youth was Carl Woodward.

Bunch said the shooting occurred after a car in which King and six others were riding was flagged down by Woodward and four companions.

Tom Hammer, King's uncle, is a member of the Knoxville police force.

For a delicious ice cream sauce, mix a half cup each of butter or margarine and sugar; add a cup of cream and heat to boiling. Mix in some finely chopped preserved fruits and serve.

provide soft background lighting, too, with a pair of buffet urns and torcheres, or, new fluorescent lighted window valances. And remember, too, General Electric lighting specialists point out, never use a single pair of candles on a large table. Always use at least four and arrange them so that the vision of the people at the end of the table isn't distorted by peering through dancing flames.

Here's a handy tip well worth remembering next time you've a burned-out bulb to replace. General Electric lighting specialists have just learned that one clever housewife uses her sweeper attachments to aid in removing and replacing bulbs in out of reach ceiling fixtures. Use the longest attachment, the one for dusting tops of windows and with the sweeper turned on, place the end of the attachment over the bulb and unscrew. To insert a new bulb, place it on the attachment — the suction will hold steady — and screw it into the socket.

Roy Kretzmeier Elected President At Panhandle IOOF-Rebekah Meet

Roy Kretzmeier was elected IOOF president at the 47th annual meeting of the Panhandle Association of IOOF and Rebekahs, held in Pampa recently.

Other officers elected were Dena Crawford of Skellytown, Rebekah president; Orzetta Hembree of Dimmitt, vice president; and A. D. Baker of Shamrock, IOOF vice president.

The Pampa Junior Oddfellows won the junior degree trophy with a grade of 987 out of a possible 1000.

Pampa Theta Rho Girls won the girls' degree trophy with a grade of 982.

The Senior IOOF degree trophy was won by Shamrock with a grade of 994 over Skellytown's 988.

The Skellytown Rebekah degree team won the Rebekah degree trophy over four other degree teams with a grade of 989.

In the Theta Rho Girls individual charge contests, Julia Bradford of Pampa won the chaplain's charge medal with a grade of 985 over 15 other contestants, and Corlene Burkhalter won the past president's medal with a grade of 986 over four other contestants.

Miss Burkhalter is from Shamrock.

In the Junior Oddfellows individual charge contests, Kenneth Cummings won the deputy ruler's charge medal with a grade of 987.

R. B. Wilkins of Amarillo won the senior warden's charge medal in the encampment individual charge contest.

The Senior Oddfellow individual contest winners were F. N. Anderson of Skellytown, venerable warden's charge, grade 994, and the past grand's medal with a grade of 984.

R. O. Clements of Pampa won the vice grand's medal with a grade of 983. Roy McKlasick of Skellytown, the chaplain's charge medal with 987, and Roy Kretzmeier the conductor's charge medal with 974.

In the Rebekah individual charge contests, Thelma Stedman of Canadian won the vice grand's medal with a perfect 1000; Margaret Spencer of Amarillo, No. 222, the unwritten work medal, with a grade of 999; June Kreis, Skellytown, the past noble grand's charge medal with 997; Clara Young, Skellytown, the banner charge medal with 994, and Bonnie Brennan of Canadian, the chaplain's charge medal with 990.

Shamrock was selected as meeting place for the 1951 convention.

WE, THE WOMEN

by RUTH MILLETT

Sure signs of spring — from the feminine angle.

Mrs. Overweight saying, with determination: "I've simply got to lose 10 pounds." It's the new spring fashions that make a woman dissatisfied with her looks.

Women, young and old, critically surveying themselves in millinery department mirrors and begging "can't you find me something a little more flattering?"

Mama saying to Papa: "We've really got to get going on the yard. And what about that barbecue pit we've been talking about so long?"

Heavy winter clothes swinging on clotheslines, getting ready for the mothball season.

Girls with ribbons in their hair, looking fresh and springlike as daffodils.

ANNUAL SPRING-CLEANING BATTLE

Housecleaning and Mama's renewed determination to get rid of the clutter and stay rid of it.

Window shopping. Working girls and housewives, sauntering in pairs while they discuss the merits of navy over beige, or vice versa.

New permanents and new hairdos, and the trying out of new shades of lipstick and nail polish.

A sudden lack of interest in meetings and club affairs, even though they seemed worthwhile and important during the winter months.

A yearning for life to be a little more exciting, a little less humdrum.

That's how spring comes to women of all ages. And it's the same year after year.

Mrs. L. C. Graham Is Shower Honoree

A pink and blue shower given in the home of Mrs. Albert Taylor, west of town, honored Mrs. L. C. Graham, 716 North Dwight.

Other hostesses were Mrs. Floyd Crow, Mrs. Oliver Trimble, Mrs. Edward White and Mrs. Gardner Johnson.

Mrs. Graham received a pink carnation corsage.

Mrs. Floyd Crow presided over the games. The last game was a "treasure hunt" when the honoree received her gifts.

Refreshments of pink and blue iced cake and punch were served. There were 28 present, and the honoree received 48 gifts.

Penn State's heavyweight wrestling champion, Homer Barr, of Clearfield, Pa., is rated highly in the classroom, too.

Three Easy Steps to a Prettier Pedicure. 1. Soapy scrub puts toes in the pink. 2. Cotton separators simplify polishing. 3. Cream massage smooths rough skin. Golden slippers worn by the dancer make a gleaming showcase for perfectly pedicured toes.

Team Corn Bread with Sausage

By GAYNOR MADDOX, NEA Staff Writer

Corn meal and pork sausage are flavor twins. Combine them into pinwheels. Serve with a smooth cream pork gravy — sounds pretty wonderful, doesn't it?

Sausage Corn Bread Pinwheels (6 servings)

1-2 cups sifted enriched flour, 1-2 cup enriched corn meal, 3 teaspoons baking powder, 1 teaspoon salt, 1-4 cup shortening, 2-3 to 3-4 cup milk.

Cook pork sausage meat, stirring until meat is crumbly. Drain off fat. Sift together dry ingredients. Cut in shortening until mixture resembles coarse crumbs. Add milk, mixing lightly only until mixture is dampened. Turn out on lightly floured board and knead gently a few seconds.

Roll out in a rectangle about 12 x 9 x 1-4 inches, cover with cooked sausage meat. Starting with the long side, roll up like a jelly roll. Cut in slices 1/2 inch thick. Place on greased baking sheet and bake in a hot oven (450 degrees F.) 12 to 15 minutes. Serve with sausage gravy or hot applesauce.

Here's another mouthwatering get-together of meat and corn meal.

Meat Topped Corn Bread (6 servings)

One-half pound pork sausage

meat, 1-2 pound ground beef, 2 tablespoons chopped onion, 1-4 cup flour, 1 teaspoon salt, 1-4 cup chopped green pepper, 2 tablespoons chopped pimiento, 1 recipe of golden corn bread batter.

Brown meat and onion in frying pan, stirring constantly. Drain off fat. Blend in flour and salt. Add green pepper and pimiento. Spread in an 8-inch square pan. Pour corn bread batter over meat mixture. Bake in a moderately hot oven (400 degrees F.) 30 to 35 minutes. Loosen sides and turn onto a platter, meat-side-up.

Golden Corn Bread

One cup sifted enriched flour, 1 cup enriched yellow corn meal, 4 teaspoons baking powder, 1-2 teaspoon salt, 1 egg, 1 cup milk, 1-4 cup shortening, soft.

Sift together dry ingredients into medium-sized bowl. Add egg, milk and shortening. Beat with rotary egg beater until smooth, about 1 minute. Do not overbeat. Pour over meat mixture and bake according to directions.

Wednesday, Presbyterian Circle No. 3 will meet with Mrs. Dick Walker, east of the city, at 2:30 p. m. Wednesday.

THURSDAY Council of Clubs will meet at 9:30 Thursday morning in the City Club Room.

Presbyterian Circle 4 will meet at the church at 8 p. m. Thursday.

FRIDAY Entre Nous Club will meet with Mrs. Holly Gray at 2 p. m. Friday.

Social Calendar

TUESDAY B & PW Club members will hold a board meeting in the City Club Room at 7:30 p. m. Tuesday.

WEDNESDAY Presbyterian Circle No. 1 will meet with Mrs. W. D. Kelley, 1228 Charles, at 2:30 Wednesday.

Presbyterian Circle No. 2 will meet with Mrs. H. E. Schwartz, 1616 North Russell, at 2:30 p. m.

That Boy is Going Places!

YOUR newspaper boy is often pointed out as a striking example of youthful American enterprise at its best—a young man who is working his way up in the business world.

And rightly so, for here is a clean-cut, intelligent lad who already has a paying business of his own. As the operator of a growing newspaper route, he has won the respect and confidence of the community he serves so dependably each day.

Aided by his newspaper route advisor, he's learning a lot about modern business that will be valuable to him all through life. And, by thrifty use of his route profits, he's helping to pay for schooling, clothes, sports and hobbies—building a savings account, too.

There's no better way for an ambitious boy to begin a successful career than for him to serve a newspaper route in his spare time. It marks him as a youth who is GOING PLACES!

What About YOUR Son?

He will step up his chances of success tomorrow if he gets a newspaper route today. It offers him good profits, basic business training and many special incentives for him to be successful. Ask our Circulation Department about route openings.

Regular Session Of VFW Auxiliary. Mrs. Camerine Hoyer, president of Ladies Auxiliary to Pampa Post 1657 VFW, presided at a meeting of the group Friday evening.

# All-Stars Starting Tonight

The Pampa All-Stars open their Sanhandle Softball League season tonight at Lion's Club Park at 8:30 when they face the Graham-Homee Plowboys of Amarillo in the first game of the newly formed league.

Other member clubs of the SAU sanctioned league are Barrow of Borger, Borger VFW-Buna Vista, Frank Phillips Men's Club and the Cactus Ordnance Plant at Dumas.

The probable starting lineup tonight for the locals will be Truman Cooper pitching and Ed Lorraine catching. Around the infield will be Leon Crump at first base, Chris Walsh at second, Sal Garrett at shortstop and Howard-Buckingham, Jr. at third base. In the outfield will be Bill Midwell, Odus Shelley and Tom Price. Other members of the club are Eugene Cooper a noduck Rose. The playing manager is John Wilde.

During the exhibition season the Stars won 3 and lost 1.

# Wakefield Is Problem to Yanks, Sox

ANN ARBOR, Mich. — (AP) — Rejecting one American League club and defeated by another, outfielder Dick Wakefield now is a bigger problem child than ever to organized baseball.

Once a Detroit Tiger bonus player, moody, 29-year-old Dick insists he won't go back to the New York Yankees who obtained him in a trade last winter.

"Obviously, I'm not wanted," he said. The Yanks tried last week to deal him off to Chicago.

But Wakefield isn't going to play for the White Sox, either.

The Chicago general manager, Frank C. Lane made that clear when he called off the Wakefield to Johnny Ostroski and cash barain after Dick refused for two days to report to the Sox without a salary boost.

How about the minor leagues, for instance New York's American Association club at Kansas City?

"I would quit baseball first," snapped Wakefield.

In New York, the Yankee management had no immediate comment on the impasse.

The New York-Chicago deal was called off, said Wakefield. He wanted his old Detroit salary restored. That would be \$5,500 more than the \$17,000 the Yankees agreed to pay him.

# Hubs Trade For Hurler

LUBBOCK — (AP) — Cotton Russell and Curtis McIlhenny, right-handed pitchers, last night were traded to the Vernon Dusters of the Class D Longhorn League for Darwin Chricco, a limited service right-hander.

John V. McCallister, Hubber vice president, announced the trade and said no cash was involved.

Chricco last year appeared in 185 innings, giving up 168 hits good for 83 runs, of which 68 were earned. He had an earned run mark of 3.31, while whiffing 121 batters and walking 73.

Russell, a limited service hurler, broke into O. B. with the Hubbers in 1948 after being an outstanding high school pitcher in Fort Worth. He won 12 and lost seven in his first year and then took six and a half in his second year. He had a 3.00 earned run average last season before being suspended for "indifference" and being sent to Greensville.

# Dukes Win in Tenth; Lobos Here Tonight

# Ladies' Night Tonight; Roy Faces Leaders

Tonight the Pampa Oilers are scheduled to open an important two-game series with the league-leading Lamesa Lobos at Oiler Park, and Manager Grover Seitz has saved his ace lefthander, Roy Parker, to face the leaders. Tomorrow night it will likely be Earl Doud, new comer righthander, who will get the call.

Another special feature of tonight's game is that it will be ladies' night, and eight such events to be held this year. Every Monday night that the Oilers are at home a lady will be admitted free with the purchase of one adult admission.

Game time tonight is 8 o'clock. Yesterday afternoon the Albuquerque Dukes moved across an unearned run in the top of the tenth inning to defeat the Oilers, 7-6. Two Pampa errors coupled with a base hit and a long fly ball cost the ball game.

Ninth inning home runs by Manager Hershel Martin of the Dukes and Joe Fortin's third four-py blast of the year forced the game into extra stanzas.

The Dukes pounced on George Payte for two runs in the second inning to take over the lead. But for his own error and a bad play on another ball Payte might have gotten out of the inning scoreless. Martin opened the inning with a single and went to second on a line drive back to Payte, by Harriman, that went for a hit. Abbott skied to centerfield and Martin took third. George Miller singled to center sending Harriman to a second. Lockhart hit one right back to Payte who threw high to second for an error to load the bases. Jerry Folkman singled to short rightfield to score Harriman. Bill Schambon forced Miller at the plate and Palmer forced Schambon to end the inning.

Pampa picked up one in the fourth on a walk to Matney, a single by Jim Martin and a double by Payte.

In the fifth the Oilers took the lead when Virgil Richardson singled his second in the last of the season over the right centerfield fence to score behind John Jeandron.

The Dukes tied it again in the sixth with two out on a walk to Abbott and singles by Folker and Lockhart.

Pampa took the lead in the seventh on a walk to Richardson, an error on the pitcher on a throw to first, and an error on Schambon on a high fly off to the bat of Fortin.

Schambon started the ninth inning rally with a double. Palmer's single scored him and then Manager Martin slammed one over the right field fence to move the Dukes ahead 6-5.

In the tenth Joe Fortin hit his third of the season over the centerfield fence to tie the game. But the Dukes won it in the tenth.

Lockhart was safe on Ricketson's error. Folkman singled and Schambon was safe on an error by Payte to load the bases. Palmer forced Lockhart at the plate but Art Cuttie hit a long fly to leftfield to score Folkman with the winning run.

OILER COZINGS: Ernie Vallette was around just before game time bidding farewell to all his former Oilers mates and friends. He left for Clarksdale yesterday afternoon. . . . George Payte was hitting the ball well in batting practice butting left-handed. He doubled during the game righthander. Tonight is ladies' night and Wednesday night is Lefors and Miami night. . . . Joe Fortin made a nice running catch in the seventh to get Payte out of a jam. . . . He also made a perfect throw to Jeandron in the sixth to cut Hershel Martin down trying to stretch a single into a double.

NEW FACES—Earl Doud, left, is new Oiler righthander who defeated the Abilene Blue Sox in his first start last week. He is scheduled to throw tomorrow night. John Jeandron, center, is new Oiler shortstop who made his debut yesterday against the Albuquerque Dukes. At right is a new outfielder, Eddie Skrabec, who played last season on Elk City along with some former Oilers, after playing with Lamesa in '47 and '48. (News Photos and Engravings)

# Lobos Whip Gold Sox, 11-4

LAMESA — (AP) — Lamesa's league-leading Lobos beat the Amarillo Gold Sox 11 to 4 here Sunday afternoon for their eighth victory in their last nine games.

A Sunday crowd of 1,500 fans watched in ideal baseball weather as righthander Jim Reynolds breezed through to his first victory of the season. Total attendance for the 10-game home stand topped 15,000.

Reynolds held his former mates to 10 scattered hits, walked only one and fanned four. Meanwhile the Lobos made the most of 13 blows off Dean Franks, the loser, and rookie Joe Calloway. Calloway turned in a capable relief job, but the Sox never could recover after Lamesa blasted Dean Franks for seven runs in the third to take a 9-1 lead.

Jay Haney was struck in the back of the head by Stan Surma's bullet throw to first in the third frame, but wasn't injured seriously. He was rushed to the hospital in an ambulance, where X-rays showed no fracture. The plucky Lobo skipper returned to the park to direct the team and said that he would be in the lineup Monday night at Pampa.

# Red Sox Capture 19-0 Tilt From A's

(By The Associated Press)

When bigger and better horse-collars are fashioned, it's a pretty safe bet the Philadelphia Athletics will wear 'em.

When a team wins by a lopsided shutout score, the A's are almost certain to be on the receiving end.

Until yesterday, 14-0 represented the largest shutout score in the American League in the last 10 years. One such game was played in 1943. Another in 1944. The Athletics were the victims both times.

The luckless Mackmen made those two games seem like pitcher's battles yesterday in the first game of a doubleheader. Final score was Boston 19, Philadelphia 0. The Red Sox also won the nightcap, 6-5.

Boston missed by two runs in recalling the record high of 21-0. Who do you think lost that one? Why, the A's of course. It was back on Aug. 13, 1939 that Red Ruffing of the New York Yankees whitewashed the Athletics, 21-0.

A Boston crowd of 34,697 watched the Red Sox maul four Philly hurlers for 17 hits, good for 34 total bases in the opener. Ted Williams, back in action after missing seven of the last eight games because of the gripper, blasted two home runs. Joe Dobson never had it easier as he doled out five singles for his second triumph.

Score-armed Dick Fowler made his first start for the A's and was tagged for seven runs in the two innings he worked.

Boston built up a 5-0 lead for southpaw Chuck Stobbs in the first three innings of the second game. The young bonus pitcher weakened gradually, putting the tying run on first with one out in the ninth. Al Papai took over and retired the next three batters. Hank Wysz was the loser.

The Chicago White Sox emerged with a victory and a tie in their doubleheader with the league leading Detroit Tigers. After lefty Bill Wright hurled a two-hit, 5-0 triumph in the opener, the White Sox overcame a 7-0 deficit to gain a 7-7 tie before darkness halted the contest at the end of nine innings.

Hank Majeski paced the White Sox' comeback drive. He drove in four runs with a pair of home runs.

Del Rice broke up a brilliant 13-inning hurling duel with a home run to give the St. Louis Cardinals a 1-0 victory over the Chicago Cubs. It gave Harry Brecheen a hard-fought triumph over Johnny Schmitz.

Cincinnati swept both ends of a doubleheader from Pittsburgh, 4-2 and 2-1, although held to two hits by Mel Queen in the second game. Queen, the former American Leaguer, had a no-hit-ting going into the seventh. He walked Ted Kluszewski and Ron Northey followed with a home run. Ewell Blackwell, making his

# Stranahan Is Mates' Choice

DALLAS — (AP) — Frank Stranahan, the Toledo, Ohio, muscle man, is hitting the ball better than ever before and is definitely the guy to worry about in the Western Amateur, his fellow golfers said today.

Stranahan moved out today with 165 other players in the first 18-hole qualifying round but he will just be practicing. He does not have to qualify since he is the defending champion.

Bill Campbell, the North-South champion from Huntington, W. Va., said "I believe Stranahan is hitting the ball better than ever. He's down to 160—about 20 pounds below his weight of a few months ago. He's been fooling with those weights" (Stranahan is a weight lifter). He had a single bad nine in the North-South at Pinehurst and it cost him his semi-finals match. But Frank will be tough. He's a playing great."

Charles Coy of Oklahoma City, the National Amateur king, will play in the tournament without turning up on the 6,470-yard Dallas Country Club course. He has to qualify today and tomorrow in the 36-hole qualifying and his testing will be for keeps.

Walt Cisco of Louisville, Ky., Stranahan's final foe in the Western Amateur finals last year, also hasn't been able to play the course which was closed yesterday due to a heavy rain. And Campbell, 36-36-72 took a drubbing (chief drummer was David (Spec) Goldman of Dallas, a veteran of tournament play. It was left to Dale Morey of Dallas, however, to turn in the greatest round—a 65 that set a new course record.

Today a Year Ago—The Boston Braves took the National League lead by beating the New York Giants twice, 4-5 and 4-2.

Five Years Ago — Baseball Commissioner A. B. (Happy) Chandler named Leslie O'Connor as his assistant for one year.

Ten Years Ago — The National Boxing Association recognized Pety Scalo as featherweight champion.

Fifteen Years Ago — Joe McCarthy was around in just before game time bidding farewell to all his former Oilers mates and friends. He left for Clarksdale yesterday afternoon. . . . George Payte was hitting the ball well in batting practice butting left-handed. He doubled during the game righthander. Tonight is ladies' night and Wednesday night is Lefors and Miami night. . . . Joe Fortin made a nice running catch in the seventh to get Payte out of a jam. . . . He also made a perfect throw to Jeandron in the sixth to cut Hershel Martin down trying to stretch a single into a double.

# Harvesters to Mobeetie Tuesday

Tomorrow afternoon the Pampa Harvesters go to Mobeetie to play a return game with the Elephants. They defeated the Mobeetie High School nine at Oiler Park last week by a score of 8 to 5, getting three unearned runs in the sixth to win.

Friday afternoon the Harvesters go to Borger to meet the Bulldogs in a district game. The Harvesters defeated the Bulldogs earlier this year.

Tomorrow afternoon the only district game on schedule is Borger at Plainview.

Bauer Teaches the Youngster . . . No. 1

**Golfer Can't Start Too Young; Make Club Your Child's Pet Toy**

By DAVE BAUER  
 Father and Teacher of the Famous Sisters

What is the right age to start a youngster in golf?

This question has probably been put up to me more than any other single inquiry. Whenever I go, all I hear from interested parents is: "Is my child old enough to begin now? Should he or she wait a few more years?"

I tell them to start them as young as possible. The age of three is not even too early. My own daughter, Marlene, for example, started at three. I've started several other youngsters at from three to 10.

Playing golf or any other game should be no different for a youngster than any childhood pastime.

A little boy can be taught to play with a little brassie, driver or spoon instead of a toy machine gun. A miniature club can replace a doll in a little girl's hands.

Make the club your youngster's favorite toy.

It isn't long before the child likes it very much.

It is just a matter of education.

Now and then a nonplussed parent brings up the point that his child is not taking to the game as quickly as he should.

Frequently they tell me that the child doesn't even like the game.

"Don't you think, Mr. Bauer, that it is wrong to force them?" they ask.

I know that those are just weak excuses.

Anyone is capable of teaching a child a game, and should be able to teach them to like it.

Child psychology could be the answer. Anything that will create interest enough to make the youngster want to swing his

MOPSYP

Washington... by Peter Edson

WASHINGTON (NEA) - In the course of both House and Senate hearings on the proposed changes in the U. S. Social Security system...

When the original Social Security Act was passed in 1935, it was felt that if people of 65 and over could be retired from the labor force, it would reduce unemployment.

One trouble with this argument is that there are now so many more people living to older ages...

Some of the thinking now, therefore, is how to put a premium on people who continue to work past 65.

The present law says people of 65 and over may not earn more than \$15 a month and still draw old age benefits.

The amendments to the law passed by the House last year would raise this to \$30 a month, with no limitation on what they could earn after 75 while still drawing social security.

But the question raised here is whether it is socially desirable to have older people go on working.

At 65 they've earned a good Walter Reuther and some of the other crusaders for more social security are really most interested in lifetime income for workers.

Age increases and reduced hours of work have now taken second place to demands for security.

Immediately, however, there rises the practical matter of how all this is to be paid for.

The House-passed amendment would provide for payment of 1 1/2 percent tax on social security earnings from 1951 through 1959...

Another change passed by the House, however, would increase the tax on which payroll taxes are now deducted for social security.

The present law computes the tax on the first \$3000 of earned income. The House-passed bill would put it at \$3600.

The report of the 80th Congress Advisory Council on Social Security, headed by the late Edward R. Stettinius, recommended a base of \$4200.

Actuaries differ all over the lot on whether these increased contributions will provide enough money to pay for the increased benefits which the unions want.

In setting up the social security system, it was felt that it should be conducted like an insurance company with ample reserves to pay future claims.

But the early years of any such system more money comes in than goes out. All the government can do with the surplus is buy government bonds.

Many critics of the system have charged that this merely provided the Democratic administration with an easy source of income and contributed to profligate spending.

The proposed remedy has been to put the whole thing on a pay-as-you-go basis.

All these conflicting views came to a showdown when the Senate Finance Committee closed its hearings and began consideration of revising the House-passed bill.

Common Ground

By R. C. HULLER

Public Schools Based on Theory That Robbery Pays... When one analyzes the belief on which public schools are based...

When one analyzes the belief on which public schools are based, one comes to the conclusion that the only rational justification for tax supported schools is the belief that robbery pays.

The parents who send their children to public schools, and compel and coerce by their votes those who do not send their children to public schools and do not believe in getting something which they do not have to pay for either materially or morally by losing their own self-respect.

In other words, public schools are based on the theory that it is profitable and beneficial and pays for those with the power to have a state or the theory that Emerson was wrong when he said "Everything must be paid for."

They are based on the theory that taxes are not passed on to the consumer, and that the man who pays taxes doesn't have to add it to his cost and pass it back to the parents when they buy food, clothing and shelter and amusements.

They are based on the belief that the cost of public schools comes out of the thin air, and that robbery does not discourage production.

They are based on the theory that people will work just as hard whether they are going to be robbed as if they have the legal and moral right to use the fruits of their labor to satisfy their own conscience.

And when public schools are based on the theory that robbery pays, it is easy to see how the nation has been corrupted by the pupils coming in contact with teachers who believe that collective robbery pays.

And just as long as people believe that collective robbery pays in each community, they will believe that it pays in each state capital and the federal government.

There is no possible chance of having a state or federal government that is in agreement with the Ten Commandments and the Declaration of Independence so long as people in each community believe in tax supported schools based on the erroneous theory that robbery pays and that men do not need to pay for what they get.

Of course the columns of the newspaper are open to anyone who will show that tax supported schools aren't based on the belief that collective robbery is moral and pays those who do the robbing and the recipients of stolen goods.

The Doctor Says

By EDWIN J. JORDAN, M.D.

Written for NEA... Ringing, buzzing, swishing, pounding, hissing or other kinds of noises in the ears cause an enormous amount of discomfort and anxiety.

Most people say that they would be willing to do anything to get rid of these noises. They are often associated with spells of dizziness, sometimes people, actually fall and injure themselves when attacked by such a dizzy spell.

The sounds complained of are not heard by other people and yet they are not imaginary. Most often they come from something deep in the ear or hearing mechanism itself.

Several of these are grouped under the name Meniere's syndrome. This condition, in addition to causing the ear noises and causing attacks of dizziness, is usually accompanied by a slowly, gradually worsening loss of hearing.

In one of the most important forms of this condition the cause is believed to be a drop in the deep portion of the ear called the inner ear or labyrinth. This dropsical condition—accumulation of fluid—does not often develop in young people, but from the age of 40 it is increasingly common.

It should come at all is not uncommon. Both ears may be involved. The attacks of dizziness usually bother patients more than the ringing in the ears or loss of hearing. In many cases the attacks of dizziness become less and less frequent and severe after the first few years.

Some patients who drink a lot of fluids find that an attack comes on a few hours afterwards—probably because of the increased accumulation of fluid in the labyrinth. This has given a clue leading to the use of some forms of treatment aimed at cutting down the intake of fluids or removing excess fluids from the body.

Several medical treatments have been tried. Surgery is also employed with success in some cases and not in others. Surgical treatment is liable to bring some or not complete relief.

Unless people fall as a result of dizziness and hurt themselves, Meniere's syndrome is more annoying and uncomfortable than it is dangerous. This form of dizziness does not interfere with activities or bodily functions except those related to balance and hearing.

Dr. Jordan will answer questions from his readers in a special column once a week. Watch for it.

Bob Donham of Ohio State U. made 43 percent of his shots during the 1950 Big Ten basketball season in set a new record.

Bargain Day

National Whirligig

news behind the news

Every Monday this veteran Washington correspondent devotes his column to answering readers' questions of general interest on national and international politics and personalities.

Questions may be sent direct to Ray Tucker at 6308 Hillcrest Place, Chevy Chase, Md.

By RAY TUCKER... WASHINGTON—The fiery verbal exchanges between this Capital and Moscow in recent days have led numerous readers, especially ex-GIs, to ask what sort of draft system should be set up for a possible World War III.

Their queries are significant insofar as they reflect the uneasiness of the masses to prevail throughout the country.

The ex-GIs are especially interested in ascertaining whether they will be exempted or called up again. As a result, in Long Beach, Calif., says, he is "full of enthusiasm to join up" in 1942, when he was only 22.

Now married, the father of three and carrying a scar, he would like to sit this one out, and let the young fellows take over.

"In case you mention this letter in your column," he adds, "please don't mention my name, as I'm supposed to be a pretty tough boy (ex-infantry), and I'd get a kidding from the fellows if they knew I wrote this."

EXEMPT—The Vinson Bill providing for permanent selective service is merely a grant of blanket authority authorizing registration, transportation and preservation of records. It does not specify who shall be drafted or exempted, as that question is left to the director acting under direction of the president. They will draw up the necessary regulations. The existing statute, however, does exempt specifically three classes of men who fought in the last conflict. These include (1) those who served for 12 months or more between Sept. 16, 1940, and June 24, 1941; (2) those who served more than 90 days between Dec. 7, 1941, and Sept. 2, 1945; or (3) for more than 90 days but less than 12 months between Sept. 16, 1940, and June 24, 1948.

LIMITS—Married men with children would certainly be deferred in the early stages. As to age limits, they would probably range from 17 to 28 or 30. The maximums were 45 and 38 in World War II, but it was found that men over 30 can't stand the gaff of modern, mechanized warfare.

Incidentally, the Vinson Bill seemed to have no chance of passing at the session. It was designated for a committee pigeonhole. But Stalin has been its best booster. His brutal and churlish conduct has so affected Capitol Hill sentiment that enactment is now forecast before adjournment.

CIRCUMSTANCES—Under certain circumstances, the authorities tell me, all bets as to exemptions of married men, veterans and the middle-aged may be off. Much may depend upon the circumstances of the outbreak and the manner in which the next struggle may be waged.

If the U.S. should be attacked, it may be necessary to call up ex-GIs because of their training and experience, whether they are married or in their thirties. If it should be a "push-button affair," ten years or so from now, we may not need a great mass army. In that event, the burden would fall on the specialists then inside and outside the armed forces.

In short, keeping a nation's powder dry is not a simple matter.

HOFFMAN—"If the Republican Party is in such desperate straits (and I, as a registered Republican, believe it is), how would it be to consider the nomination of Paul G. Hoffman for president in 1952?"

So explodes A.E.B. of Claremont, Calif., listing Hoffman's qualifications which I must curtail for lack of space.

"He is a civilian. We have had too many military men in the White House, and they have been mediocre, if we except George Washington. Hoffman is a successful business man, and an expert in foreign affairs. He will be available when ECA folds up in 1952. He had good labor relations in private industry, is strong in Indiana and California, and would make a good campaigner."

"That is able, but the unions would lick him. Stassen can afford to wait until '66 or '68. Hoffman, with a good running-mate (Lodge of Massachusetts), is the best bet, as far as I am concerned."

POLITICIANS—Answer: Such enthusiasm should not be dampened, especially as A.E.B.'s appraisal of Mr. Hoffman's general qualification is correct. He seems to have everything needed for the nomination except the politicians who name the candidate. To them he is an outsider to whom they will turn only in desperation.

Moreover, although well known, he is not popularly known. There is quite a difference. I may be sticking my neck out—again—but in 1952 it will be either Senator Robert A. Taft or "Ike" Eisenhower. The politicians—and I do not use that term in a derogatory sense—would prefer Mr. Taft, if he survives next November's test, and if they think he can be elected.

A Hoffman or an Eisenhower may possess all the cold, academic, admirable qualifications for the presidency—that is, on paper. But, as every occupant of the post admits, it is a job in which political savvy, diplomacy and understanding count for about 75 percent. Without that sort of background, even a genius in other lines would be a failure. Look at Herbert Hoover.

Mr. Hoffman makes an excellent dark horse runner, however, if "Ike" or "Bob" don't finish ahead of him.

PAY—M.E.S. of Twin Falls, Idaho, wants to know whether Herbert Hoover served as president without accepting any salary. Answer: It is not technically correct that he took no pay. His checks were sent to him, but he turned them over to charity after endorsing them.

Many readers have asked where "Seeds of Treason" can be bought. Answer: It is available at any bookstore, although there may be periodical shortages because it is now on the best-seller list.

In Hollywood

By ERSKINE JOHNSON, NEA Staff Correspondent

HOLLYWOOD (NEA) - clooties and Longshots. Andre Previn, MGM's young musical whiz, is about to hit the ripe old age of 21 without having dashed off a single sonata up in his attic to Ava Gardner, Lana Turner, Arlene Dahl or any other studio beauty.

"That," said Andre, "went out with Chopin and George Sand. Sure, I'm thrown in with a lot of glamorous dolls and they're all beautiful, but I'm not dashing off any after-hours music inspired by them."

Andre, oddly, has penned more music for Lassie than for any star on the MGM lot.

He says: "The thing bums for two hours and runs across green fields. You have to fill in all that silence with music."

Jack Dempsey hasn't met the actor whom his ex-wife, Hannah Williams, up and married to everyone's surprise. Good-natured Jack is rooting for her to find happiness in the new marriage.

"The Big Wheel," the movie Jack produced with Sam Steffel and M. Monroe is cleaning up at the box office but Mickey won't share, because he sold out his interest. Jack says clearances have been made with everyone for "The Jack Dempsey Story" but there are no immediate production plans.

I bumped into June Haver and her half-pint white poodle. "Meet Suzie," June said. "This is a strange, wonderful, little moonlight thing."

Suzie went along on June's personal appearance tour and even trotted out on the stage at a given signal.

"But it was terrible in Chicago," June sighed. "The fanfare for Suzie started about the time she bit the trumpet section and the blast nearly blew her off the stage. She went to my dressing room and refused to come out for two weeks."

June has given up looking for the stork to make a visit to Suzie's doghouse.

She shook a finger at the pooch and said: "And you've been married to practically all the wolves except Tommy Manville."

June and bearded spouse William Spier leave for France and a hush-hush movie-making jaunt in Italy. She told me: "This better be good or I'll kill myself—again."

Irving Levin reports that it happened at his arty Vogue Theater in San Francisco during his run of the English film, "Passport to Pimlico." An elderly woman with a strong British accent purchased a ticket, then asked if the theater sold popcorn. The manager assured her, with a proud smile, that the theater did not.

"Oh," said the woman, "then I want my ticket refund—'I thought you served popcorn.'"

Popaganda? Note from Ralph Turner, publisher of the Temple City Times: In your child star series you mention Baby Peggy Montgomery as among those long since forgotten. Not by me. I was a reporter in New York in the '30's when I attended a cocktail party, lunch, etc., thrown for Baby Peggy by her studio, Harry Hersheyfield was toastmaster. It was an odd event—everyone getting a little tight at a party for a child.

Hersheyfield went into his act, spotted Mrs. Montgomery, waved her to her feet and announced, "And now I want to introduce the goose who laid the golden egg."

Bob Preston and his wife tell me: Found, at last, an actor who doesn't want to produce his own starring film as an independent venture. Joel McCrea stopped making love to Wanda Hendrix for UFA's "Saddle Tramp" to tell me: "Give me a deal at a major studio every time and I'll be happy. As soon as the sneak preview is over, so are my worries. I've studied this business for 15 years, and it's convinced me an actor's place is in front of the camera."

Joel had a confession: "The only time I got shoved around in all my years as an actor was when I owned 35 percent of the movie 'B' was making."

Southpaw Maurice McDermott of the Boston Red Sox last season set a new American Association strikeout record of 20 men in a game.

There are 125 mountains of 5,000 feet above sea level in North Carolina.

## Mead's Bakery Springs New Big Bread Value on Pampans

How often have you heard the remark, "wish I could have a slice of bread like 'Mom' used to make out on the farm." Few of you who ever had any experience with the rural areas of our broad, green acres will deny having heard the expression. Many of you will remember the times 'Mom' spent all day at baking the week's supply of bread for the family.

A recent announcement by Mead's Bakery gives a new hope to the desire for a taste of the bread like 'Mom' used to make. The company that brought you the glamorized, 'fresh-erized' loaf of the staff of life has now gone one better and offers the community the new, improved, different loaf of Farm Bread.

Mead's Farm Bread is reputed to be the nearest in perfection to be obtained in a loaf of wheat bread. The secret of this new addition to the large Mead family is in a long sought, old farm formula for mixing and baking a loaf of bread. What, then, could be more natural than to name the new member of the Mead family MEAD'S FARM BREAD.

The new Farm Bread is made with 18 percent more flour than the quantity used in a loaf of bread. The formula requires, in addition to the use of 18 percent more flour, that the bread be controlled in the baking process until it is uniformly, thoroughly baked, through and through. The use of synthetic stiffeners is taboo in this old secret of top-line bread.

The result of all of this manipulation and maneuvering is a loaf of bread that is firm, lacks any semblance of puffiness and holds to the spreading knife

with a minimum of fuss and bother.

You hear much talk about the true effect of natural ripening, natural aging, blending with nature's own ingredients and the increased health benefits to be obtained from products fashioned in such manner. Natural (nature's own) ingredients are used in Mead's Farm Bread in such manner that nature's own goodness is locked in each loaf you buy. You get 18 percent more of everything in a loaf of Mead's Farm Bread. Since bread is the basic energy food, it holds that you should receive 18 percent more in energy value from a loaf of this newly introduced bread.

In this day of high-gear living, the lovely loaf takes on added importance and stature. We could all contribute immeasurably to our own well-being, economic betterment and stability, if we would make it a point to add another slice of bread, three times a day, to our menu.

Let's make the next additions from a loaf of Mead's Farm Bread and enjoy 18 percent more of everything bread can do for us.

## Cretney Has Gifts Galore For Mother's Day

In two weeks we'll have the most important commemorative day of all — to most of you Mother's day is at the top of the "we must remember" list.

The town is blossoming out with a considerable show of tasteful gifts for the woman who holds the family in well-knit organization.

Among the outstanding offerings for Mother's day are those to be found at Cretney's Drug Store. To the uninitiated it might seem confusing to have such a myriad of merchandise to choose from. But those Cretney stalwarts can find most anything you want in a jiffy.

If you have a mother who has a penchant for photography, go have a chat with L. G. Close, of Cretney's. L. G. will make some admirable suggestions in gift items of cameras, camera accessories, film and all the important acquisitions that make camera hunting such a pleasure for the whole family.

The old standby for any gift to a favored woman is candy—whether early or late, you can't go wrong on a box of name-brand candies—mother is no exception.

One of the outstanding features of the Cretney Drug Store is the magazine and book rack. You'll be bound to find a suitable collection of fine reading—extremely worthy as gift material—at the Cretney magazine and book stand.

The best suggestion of all is to get Calvin Foster in tow and let him escort you around the Cretney store. He'll have many a suggestion to make; you might discover some long needed item your mother has always wanted and never had the time to find. From perfumes to parafat, cameras to candy, Cretney is a pretty fine place to shop.

## Pampa Maytag Has Answer to Storage Problem

Wind, rain, cold, sleet threatening all around us, notwithstanding, we've got a good case of summer patting us on the back every day in the week. Maybe we did have a bit of sub-normal weather a couple of mornings last week; it was just an appreciative reminder of how nice summer weather really is. This summer weather also serves to remind us that it's time to be thinking of convenient storage space for summer-obtained fruits, vegetables and meats. What better thought could there be to bring to mind the old standby in home-storage devices. At least, that's what the manager of Pampa Maytag has told us.

During the coming weeks you will find the Pampa Maytag organization featuring one of the finest lines in home-refrigeration and cold-storage devices yet to be found in Pampa. It might pay you to take a word to the wise, before that real heat sets in, and go examine the new line of Crosley refrigerators and deep-freeze storage cabinets now on display at Pampa Maytag.

With the advent of cold-storage boxes for the home, the entire picture of food storage underwent a complete change. Now, the home without a deep-freeze cabinet is like a house without a bathtub. Deep-freeze and long-term cold storage has become a common topic of conversation. It's difficult to be without one.

Along with currently featured items, Pampa Maytag will soon blossom forth with an added feature in the field. The venerable Maytag Company has released an important item in the refrigeration field. You'll see it soon at Pampa Maytag. Don't forget.

## Modern Mattress Induces, Doesn't Murder Sleep

The man who quoted "Macbeth hath murdered sleep," must have been thinking of the originator of a World War I GI bunk pad. At least he wasn't referring to the product manufactured and sold by our local sleep inducing merchants, Pampa Mattress Company at 817 W. Foster.

Until the necessity to write a bit about the secret of restful sleep came about, the 'at-hand' information on mattresses was quite 'nil'. The big dig for some pertinent information was really enlightening.

The metamorphosis of the mattress is quite a process. It must have been full of interest for full treatment at this time. The history of the modern mattress is so short that it won't require much effort in recollection to remember the days of the straw tick, the cotton pad, the hair mattress, and you young oldtimers will remember the days when a mattress was nothing but some heavy muslin stuffed with twigs and leaves. Now, we talk of air-foam, foam-rubber, up to 300 odd coil springs, box springs to support the mattress, and a hundred other new terms designed to induce restful, dreamless sleep.

The nice part of the entire mattress picture is that Pampa has an exclusive mattress plant at its own door step. If you aren't content with the hair mattress, and mattress manufactured by the Pampa Mattress Company, take your requirements to them and see what a miracle they can work in giving you just what you want in modern sleep equipment. If you aren't in the restaurant to support the mattress, Pampa Mattress Company will be glad to give you an estimate on an A-1 job of mattress renovation.

Don't forget to give the boys an opportunity to display their wares. If it's battresses you want, you could do far worse than Pampa Mattress Company.

## Scientific Heating and Air Conditioning Add Much Comfort to Home or Business

YOU DON'T need three guesses to locate and identify this local business house. Almost everyone in Pampa has felt the results of Bert Howell & Company's efforts to air-condition, refrigerate and heat the homes and businesses of the community. (Pampa News Photo and Engraving)

Hardly a day passes that the Bert Howell & Company truck and crew can't be seen parked in front of one of our more modern homes, office buildings or stores, while this progressive firm makes ready to install a new heating, air conditioning or refrigeration unit to add a large measure of comfort to the lives of Pampa residents and visitors. Ask any of the merchants with newly remodeled offices, cafes and showrooms; you'll find the name of Howell almost a synonym with heating, refrigeration and air conditioning.

Airconditioning spells comfort and ease to modern Mr. & Mrs. Pampa. Comfort is one of those intangible things we strive for, but take for granted when we obtain it. However, if you want a true picture of the value of this modern and scientific approach to the protection of health and happiness, take a trip to 119 North Ward and spend some time with Bert A. Howell & Company. You'll get an education in the "whys" and "wherefores" of temperature control that will bring you a new appreciation of the men and machines striving to give you spring temperatures the year 'round. Chances are you'll also wind up with a contract for an airconditioning, heating or refrigeration project for home or business.

Today's airconditioning, heating and refrigeration devices are a far cry from the oil-type of cooling, the wet-towel or sheet-and-fan methods of not-so-long ago. The indefatigable American in his refusal to be satisfied with anything less than perfection in personal comfort, has kept the finest scientific minds in the country in a ceaseless sweat to bring balmy temperatures, clean air, and perfectly preserved foods to our homes, business houses, public dining establishments and factories.

Among the leaders in scientific development of Airconditioning and Refrigeration is the Frigidaire airconditioning and refrigeration line. Progressive products belong to progressive dealers. What, then, could be more natural than to find the Frigidaire line at B. A. Howell & Company. For home or office, factory or restaurant there is a Frigidaire system adaptable to your specific needs. From basic planning to final installation, Howell and his associates offer you the ultimate

in scientific approach and execution of your project. The cost is surprisingly low; especially when cost is compared to end result in improved health protection and personal comfort. Your end-product savings, as a result of such installations, are sufficient reason to prompt you to investigate Bert's offerings. Along with superlative airconditioning, the Howell firm stocks a complete line of commercial and home refrigeration appliances such as commercial refrigerators, deepfreeze and frozen food cabinets with honored names in the industry. Howell's heating devices are, also, of high repute in the ranks of homeowners and business management. Everyone is familiar with Rheem, Utility and Southernland heaters. Whether large or small, one of these names supplies, and Howell sells, an appliance suited to your personal needs. If you aren't, for the moment, particularly interested in the

forementioned products, you're still welcome to drop in at Bert Howell's emporium and exercise your penchant for sporting goods. Bert has put one of his hobbies to good use in acquiring a fine line of boats, motors, and accessories in the sporting goods line.

Consequently, if you want cool air at home, or if you like cool breezes in the great out-of-doors you'll find the necessary "tools" for either case at Bert A. Howell & Company, 119 N. Ward.

## Gift Illustrates Dollar's Value

UVALDE, Texas - (P) - John Nance Garner, 82, gave the Rev. Bruce Roberts, also 82, a five-dollar bill and said he hoped it looked "at least as big as a pocket handkerchief."

Here's the story behind the gift from the former vice president of the United States: Mr. Roberts, pioneer Baptist minister and chaplain of the Texas Old Trail Drivers' Association, recently completed a manuscript of his experiences in early Southwestern Texas. The Uvalde Leader-News has been publishing the manuscript as a serial.

In one of the chapters, Garner noted the preacher said that in his only money flight to visit his relatives in early Southwestern Texas, the Uvalde Leader-News has been publishing the manuscript as a serial.

The former vice-president thereupon sent him another five-dollar bill with the foregoing comment:

"In other words," said C. W. Lane, the railroad's crop expert, "farmers are faced with the problem of getting their seed back."

In a report on the southwestern wheat belt, Lane added, in regard to Northwest Texas: "Many fields are being plowed and these will be summer fallowed or planted to grain soon."

"In calculating the 1950 wheat crop, it is necessary to take into consideration that acreage is down approximately 15 percent from last year. Because of this and the loss due to drought and insects, it is doubtful if production will exceed 20,000,000 bushels, even with favorable conditions from now on. Going a bit more conservative, 15,000,000 bushels probably is a fair estimate at this time."

"As of December 1, the crop was estimated at 68,585,000 bushels, it dropped to 24,940,000 bushels on April 1, and a further reduction since that time presents a tragic picture in comparison with last year's crop of more than 100,000,000 bushels."

Sealed proposals addressed to the Board of Trustees, Pampa Independent School District, Pampa, Texas, will be received at the Business Office, Pampa Independent School District, City Hall, Pampa, Texas, until 5:00 p. m., May 1, 1950, covering alterations and additions to B. M. Baker Elementary School, Pampa, Texas, in accordance with plans and specifications prepared by Cantrell and Company, Architects, Inc., Pampa, Texas, at which time and place the proposals will be publicly opened and read.

Copies of the plans, specifications and other Contract Documents are on file in the office of the Architects, and are open for public inspection. Two sets of such documents may be obtained by qualified General Contractor from the Architects, Pampa, Texas, upon deposit of Twenty-Five Dollars (\$25.00). This deposit will be returned to each actual bidder upon return of drawings and specifications in good condition.

As a bidder's check, certified check or acceptable bidder's check payable to the order of the Secretary of the Independent School District, in amount of not less than five percent (5%) of the largest possible bid, accompany the proposal submitted.

This is a "Public Works" project as defined in House Bill No. 54 of the 43rd Legislature and House Bill No. 115 of the 44th Legislature, and is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said bills.

In accordance with the provisions of said House Bills, the Board of Trustees, Pampa Independent School District, has ascertained and set forth below, the wages rate, for each craft or type of workman or mechanic, needed to execute the work on the above named project. Their efforts in the locality and the Contractor shall not pay less than these wages rates as set forth below for each craft or type of workman, or mechanic employed on this project.

- | General Prevailing Hourly Rates     | Hourly Rates |
|-------------------------------------|--------------|
| 1. Asbestos Workers                 | \$2.75       |

ENTERTAINERS—The Blackburn-Shaw Quartet of Amarillo will entertain guests at the annual dinner for teachers to be sponsored tonight by the Reception and Goodwill Committee of the Chamber of Commerce.

## Railway Says Wheat Growers May Not Harvest Seed Needs

OKLAHOMA CITY - (P) - Wheat conditions in northwest Texas are so bad some farmers may not produce enough for planting purposes next fall, the Santa Fe Railway said yesterday.

"In other words," said C. W. Lane, the railroad's crop expert, "farmers are faced with the problem of getting their seed back."

In a report on the southwestern wheat belt, Lane added, in regard to Northwest Texas: "Many fields are being plowed and these will be summer fallowed or planted to grain soon."

"In calculating the 1950 wheat crop, it is necessary to take into consideration that acreage is down approximately 15 percent from last year. Because of this and the loss due to drought and insects, it is doubtful if production will exceed 20,000,000 bushels, even with favorable conditions from now on. Going a bit more conservative, 15,000,000 bushels probably is a fair estimate at this time."

"As of December 1, the crop was estimated at 68,585,000 bushels, it dropped to 24,940,000 bushels on April 1, and a further reduction since that time presents a tragic picture in comparison with last year's crop of more than 100,000,000 bushels."

## Legal Publications

Sealed proposals addressed to the Board of Trustees, Pampa Independent School District, Pampa, Texas, will be received at the Business Office, Pampa Independent School District, City Hall, Pampa, Texas, until 5:00 p. m., May 1, 1950, covering alterations and additions to B. M. Baker Elementary School, Pampa, Texas, in accordance with plans and specifications prepared by Cantrell and Company, Architects, Inc., Pampa, Texas, at which time and place the proposals will be publicly opened and read.

Copies of the plans, specifications and other Contract Documents are on file in the office of the Architects, and are open for public inspection. Two sets of such documents may be obtained by qualified General Contractor from the Architects, Pampa, Texas, upon deposit of Twenty-Five Dollars (\$25.00). This deposit will be returned to each actual bidder upon return of drawings and specifications in good condition.

As a bidder's check, certified check or acceptable bidder's check payable to the order of the Secretary of the Independent School District, in amount of not less than five percent (5%) of the largest possible bid, accompany the proposal submitted.

This is a "Public Works" project as defined in House Bill No. 54 of the 43rd Legislature and House Bill No. 115 of the 44th Legislature, and is subject to the provisions of said House Bills. No provisions herein are intended to be in conflict with the provisions of said bills.

In accordance with the provisions of said House Bills, the Board of Trustees, Pampa Independent School District, has ascertained and set forth below, the wages rate, for each craft or type of workman or mechanic, needed to execute the work on the above named project. Their efforts in the locality and the Contractor shall not pay less than these wages rates as set forth below for each craft or type of workman, or mechanic employed on this project.

- | General Prevailing Hourly Rates     | Hourly Rates |
|-------------------------------------|--------------|
| 1. Asbestos Workers                 | \$2.75       |
| 2. Brick Layers                     | 2.50         |

## Generous George Foils the Robbers

By OSWALD JACOBY Written for NEA Service

"The trouble with most bridge players," said Generous George, "is that they're too stingy. I like the people who play bridge against me, and I enjoy making them happy. So I hand them a trick now and then just to see them smile."

"Very kind of you," I muttered. George would really give you the shirt off his back - for a small profit. However, his bridge hands are usually worth listening to.

"The opening lead was the queen of hearts," reported George, "and the first trick was taken by the king of hearts. I was all set to play my other heart to the second trick when I found that the jack of diamonds had been led back at me. What do you think of that?"

"A neat plot," I said admiringly. And neat was the word for it. East planned to take his ace of trumps as soon as spades were led. Then he would lead a low

heart in the hope that his partner could win the trick.

This risky play would work, of course, since West had the jack of hearts. West would return a diamond, and East would set the contract by ruffing the second round of diamonds.

"Nothing neat about it," said George. "Just dirty tactics. Trying to take the bread out of my mouth, that's all. Well, you know me. If I always give it to them, I'll always give it to them."

"I took the second trick with the king of diamonds and played some clubs. On the third high club, led from the dummy, that robber at my right hand played a trump."

"Well, he looked so hungry for that trick I really didn't have the heart to overtrump. I just threw my other low heart on the trick."

"Also very neat," I commented. For now George could not be sure. He hadn't actually given away anything, because he was always bound to lose a second heart trick. However, he had made sure that East won the second heart trick and East could not ruff a diamond because his partner would never be able to lead that suit.

"Nothing neat about it," said George. "Just brotherly love. Live and let live."

"That's all right," I said. "I just can't take it any more."

HOLLYWOOD - (P) - Mack Sennett, king of the comedies 40 years ago, just about had his face scrubbed clean again today after a scintillating celebration of his 70th birthday. It was attended by many of his old Keystone kops and bathing beauties.

Pies were thrown at the picnic, but it wasn't meringue that smeared Sennett's face. It was lipstick.

The "girls" - many of whom would have white hair - mobbed him until he shouted: "There will be positively no more kissing. I just can't take it any more."

There are more than 500,000 producing oil and gas wells in the United States located in 28 states.

These were the third and fourth burglaries reported to police within five days. Last week, thieves broke into the William A. Gould home and stole a large quantity of clothing and later broke into the Dr. Pepper Bottling Co. warehouse where they stole 10 cases of bottled and a canned beer.

Using practically the same tactics as the T. M. Brooks Electric Co. warehouse where they stole \$21 from a small cash box and an undetermined amount of merchandise.

Police said the McLaughlin Grocery on S. Hobart was broken into when thugs smashed a rear door window, reached in and unlocked the door from the inside. Approximately \$12 in small change was taken from a cash box. Police and management today were still checking to see what amount of groceries was taken.

The named Brandenburg Gate, the famed Berlin and restoration of Stalin and cheered attacks against the western war mongers.

The West Berlin rally broke up shortly before noon after 80 minutes of speeches.

The massed hundreds of thousands were told to go home quietly and avoid any clashes with the Communist demonstrators, still marching in the Lustgarten, a mile away in the Soviet sector.

The named Brandenburg Gate, the famed Berlin and restoration of Stalin and cheered attacks against the western war mongers.

The East zone government put on a show by its "police" which the West claims is a Soviet-sponsored army. Four thousand East zone police marched by in military formation led by a band.

These were followed by thousands of Communist youth, marching 24 abreast.

The East Berlin parade is supposed to last throughout the day, going past a reviewing stand in the Lustgarten.

As the Communist youth marched past the stand they clapped their hands over their heads as Soviet youth organizations do in their parades. They sang their song "The FDJ (Free Democratic Youth) Storms Berlin," a song prepared for their promised big Communist youth demonstration in Berlin on May 28.

Houston Men Files For Governor's Post

CORPUS CHRISTI - (P) - Wellington Abbey of Houston has filed as a candidate for governor in the 22 primary. He promises a "W. Lee O'Daniel type of campaign."

The 32-year-old business man and journalist said he plans to tour every county in Texas, starting in May, with a string of "hill billy" band.

Let's go in. We've still got half of our lunch hour left and the show only takes two hours.

## ELEVATORS RUNNING AGAIN IN NEW YORK

NEW YORK - (P) - Elevators started running again today, after a four-day strike of 12,000 service employees in 1,000 Manhattan buildings was called off.

A wage-hour dispute between the AFL employees and the apartment landlords was sent to a fact-finding board late yesterday.

Employees began returning to work immediately and normal service was expected today in all the buildings. The strike affected some of the most fashionable apartments in the city.

The temporary settlement was announced by Arthur S. Meyer, chairman of the New York State Board of Mediation.

The strike had cut off elevator and other essential services for more than 200,000 tenants. Telephone switchboard, heat, hot water, garbage disposal and other facilities had been lacking since Thursday.

Meyer said either side will be free to accept or reject the fact-finding board's recommendations. Demands made by Local 32-B of the AFL Building Service Employees International Union include

a weekly pay increase of \$2.75, a cut in the work week from 48 to 40 hours and a pension-welfare plan. The union says present wages range from \$42.50 to \$50.33 a week.

The landlords, represented by the New York City Realty Advisory Board on Labor Relations, have contended that they cannot take on any added expense as long as rent ceilings are in effect.

Ceiling continued as New York State today took over rent controls from the federal government under a new state law.

## TOWN

(Continued from Page 1) being run by "the boss, American Legion big shots and stool pigeons," and not a true picture of communism. The other told of a Milwaukee May Day rally.

Fred Basset Blair, head of the Communist party in Wisconsin, said Communists from this area had gotten literature from Milwaukee and distributed it.

A huge picture of Joseph Stalin was to have been placed at the entrance to the town. However, the idea was abandoned because of the possibility that Stalin's image grazing an American town could be used for Russian propaganda purposes.

School children, their principals behind barred wire, are attending classes garbed in prescribed party youth uniform of dark trousers or skirts with white shirts or blouses.

## MARKETS

FORT WORTH LIVESTOCK MARKET, May 1 - (AP) - Cattle strong, some sales higher; good and choice slaughter steers and yearlings 26.00-26.50; common to medium choice fat calves 25.00-25.50; stocker steers 25.00-25.50; stocker yearlings 25.00-25.50; stocker steers 25.00-25.50; stocker yearlings 25.00-25.50.

Butcher hogs 65-66 up and at the highest spot since Feb. 7. Sows 50c higher, feeder pigs unchanged; good and choice 120-125 lb butchers 17.00-17.50.
